## OHIO COMPLIANCE SUPPLEMENT

### Preface

This is the latest edition of the Ohio Compliance Supplement, superseding the January 2020 version. This edition incorporates significant new or revised legal and regulatory requirements as well as comments we have received from auditors and our clients. The following page, titled OCS Instructions, explains how to identify updates.

In accordance with *Government Auditing Standards*, financial statement audits include reporting on compliance with provisions of laws, regulations, contracts, and grant agreements that have a material effect on the financial statements or other financial data significant to the audit objectives. (*Government Auditing Standards*, 6.41(a) (2018))

It is the responsibility of management, with the oversight of those charged with governance, to ensure that the entity's operations are conducted in accordance with the provisions of laws and regulations, including compliance with the provisions of laws and regulations that determine the reported amounts and disclosures in an entity's financial statements. (*Generally Accepted Auditing Standards*, AU-C 250.03)

Ohio law requires audits of each public office. These audits help determine whether the government's financial statements are fairly presented and whether management has complied with significant laws and regulations.

The Ohio Compliance Supplement contains certain laws and regulations which are of considerable public interest, or are of the type auditors generally consider direct and material. Though the Ohio Compliance Supplement should not be a substitute for legal advice from your statutory counsel, nor a comprehensive listing of applicable laws and regulations, it is designed to help auditors and public offices identify and familiarize themselves with certain laws and regulations which generally apply to a variety of local governments and colleges and universities.

In order to reduce costs, the Ohio Compliance Supplement is available only in electronic format via the Auditor of State's website at [www.ohioauditor.gov](http://www.ohioauditor.gov). However, if you are unable to access the website or have difficulty accessing these files, please contact the Center for Audit Excellence at 1-800-282-0370.

As in the past, we plan to regularly update the Ohio Compliance Supplement. Comments we receive from our staff and others are an important source of revisions and improvements. We appreciate your input as we continue to improve the Ohio Compliance Supplement.

KEITH FABER  
Auditor of State

November 2020

## OCS Instructions

The **2021 Ohio Compliance Supplement (OCS)** is now available at [www.ohioauditor.gov](http://www.ohioauditor.gov), under *Publications & Manuals*, in both Word and Portable Document Format (PDF). (Auditor of State staff can also use the 2021 OCS procedures built into TeamMate.)

### What Formats are Available:

The OCS (Chapters 1-3) and the OCS Optional Procedures Manual are available in MS Word format so auditors can document work or cross reference to other audit documentation in those documents. The OCS Implementation Guide is only available in PDF, since we do not expect that auditors would document their work in this section.

The OCS Implementation Guide contains important information regarding compliance testing and should be used in conjunction with the three OCS Chapters.

The Auditor of State intends to select a few audits randomly each year, to test requirements listed in the OCS Optional Procedures Manual.

### How to Identify Changes:

The OCS consists of three chapters and the Table of Contents is located in the front of each chapter. The Table of Contents identifies legislative requirements. The table identifies superseded legal requirements or sections that were moved to another chapter using strikeout font. The table also identifies new or revised requirements via shading. For example, Section 2-24 is new to the 2021 OCS and it appears in the table of contents as follows:

2-24 Compliance Requirement: Am. Sub. H. B. No. 481 133rd G.A., 42 U.S.C. 801 (**NEW**)**Error!**  
**Bookmark not defined.**

We have included a box at the top left hand corner within each modified step indicating if the section is a revised or new legislative requirement. The effective date also appears to enable you to easily determine if the revision applies to the audit period. Below is an example appearing in the OCS:

<p><b><u>Revised: HB 164, 133 GA</u></b> <b><u>Effective: June 19, 2020</u></b></p>
---

In addition to the box described above, the OCS uses double underlining to indicate new or revised legislative or accounting standard requirements.

The OCS uses waved underlining to highlight:

- Pre-existing laws we have now determined auditors should test (i.e. requirements not appearing in former OCS editions).
- New or amended guidance. Most of these changes represent information we believe will enhance understanding compliance auditing or reporting.

The OCS uses ~~strike-out~~ font to indicate replaced or omitted legislative requirements. We have not deleted these sections since they may still apply to part of an audit period. Also, retaining this information will help users better understand the changes.

### How to Apply to Current Engagements:

This November 2020 Ohio Compliance Supplement (OCS) replaces the January 2020 version and applies to engagements with fiscal years ending December 31, 2020 through November 30, 2021. **Auditors with engagements in process prior to the issuance of the 2021 Supplement need not discard work performed using the 2020 OCS. However, they must compare the 2021 changes to their work from the 2020 OCS and assure they have tested the legal provisions applicable to their audit period. More than one legal requirement could apply if a legislative change was effective during the audit period.**

## CHAPTER 1 DIRECT LAWS

AU-C 250 *Consideration of Laws and Regulations in an Audit of Financial Statements* clarifies the auditor's responsibility regarding OCS tests:

“.02 . . . The provisions of some laws or regulations have a **direct** effect on the financial statements in that they **determine the reported amounts and [required] disclosures** in an entity's financial statements. . .”

Conversely:

“.A13 Many laws and regulations relating principally to the operating aspects of the entity do not *directly* affect the financial statements (their financial statement effect is **indirect** and are *not captured by the entity's information systems relevant to financial reporting*). Their **indirect effect** may result from the need to disclose a contingent liability because of the allegation or determination of identified or suspected noncompliance.”

- Based on the above (and AU-C 250.A9 – .A11), “**direct** and material compliance” refers **only** to laws a government’s information system (which includes its accounting system) must “capture” to **determine financial statement amounts and required disclosures**<sup>1</sup>. Therefore, we have classified a law as **direct** in this OCS if noncompliance has the potential to materially misstate the financial statements. Chapter 1 of this compliance supplement includes “direct” laws.
  - As one example, GAAP requires governments to present budgetary comparisons as basic statements or as RSI.
  - GAAP also requires these presentations to follow the government’s legal budget basis.
    - In Ohio, a “5705 government’s” information system must capture information using the accounting basis Ohio Rev. Code Chapter 5705 (via GASB Cod. 2400) prescribes to compile budget and actual amounts and budget variances GAAP requires.
    - Ohio Rev. Code Chapter 5705 generally prescribes a cash + encumbrance accounting basis, which a compiler must understand and follow to satisfy GAAP.
- In addition to the discussion above from AU-C 250, the AICPA Audit and Accounting Guide *State and Local Governments* (AAG SLG), sections 4.09 through 4.22, discusses legal requirements which might directly and materially affect determining financial statement amounts for a governmental entity. Material noncompliance (having a direct or indirect effect) would often:
  - Require adjusting amounts or revising disclosures.
    - Auditors should do the same regarding noncompliance **indirectly** affecting financial statement amounts or disclosures, if they become aware of it.
      - For example, AU-C 250.06 b.iii describes material penalties as an **indirect effect**, though they may require disclosure or even accrual as a contingent expense
  - Require reporting as a material GAGAS noncompliance finding.

---

<sup>1</sup> Few Ohio GAAP governments’ have “formal” systems to compile most balance sheet assets or liabilities. Therefore, GAAP governments’ “information systems” include trial balances, other spreadsheets or any other material used to compile GAAP amounts or disclosures.

Cash / AOS basis governments’ *information systems* include documents used to prepare / support notes to the statements.

- May represent significant / material violations of “finance-related legal and contractual provisions”
  - GASB Cod. 2300.106(h) require “notes to the financial statements should disclose significant violations of finance-related legal and contractual provisions” and “actions taken to address significant violations”.
  - See the OCS Implementation Guide page 6 for the Finance Related Legal or Contractual Provisions.
  
- AAG SLG 4.12 lists examples of laws that may directly and materially affect the determination of financial statement amounts and disclosures. When preparing this edition of the OCS we considered the examples in 4.12. Each law in OCS Chapter 1 has potential for a direct effect. Laws with indirect classification per AU-C 250.06 b are included in Chapter 2.

**NOTE: Red text throughout this 2021 Ohio Compliance Supplement is a change related to COVID-19**

SCHOOL DISTRICTS..... 108

**1-26 Compliance Requirement:** Ohio Rev. Code §§ 3317.01, 3317.02, 3317.03, 3317.031, 3313.981(F), 3313.48, 3313.668, and 3321.04; Ohio Admin. Code 3301-35-06 - School District Funding..... 108

COMMUNITY SCHOOLS..... 121

**1-27 Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.02, 3314.03, 3314.08, and 3314.27; Ohio Admin. Code 3301-102-02 – Community School Funding..... 121

**1-27A Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.03, 3314.08, 3318.01; Ohio Admin. Code 3301-102-02; 34 C.F.R. § 222.176 – Community School Funding (*Brick and Mortar only*). .... 122

**1-27B Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.02, 3314.03, 3314.08, 3314.086, 3314.27 and; Ohio Admin. Code 3301-102-02 –Community School Funding (*Electronic Schools (E-Schools) only*). .... 137

**1-27C Compliance Requirement:** Ohio Rev. Code §§ 3301.079, 3302.41, 3313.64, 3314.03, 3314.08, and Ohio Admin. Code 3301-102-02 –Community School Funding (*Blended only*). .... 151

MUNICIPAL..... 167

**1-28 Compliance Requirement:** Ohio Rev. Code Chapter 5727 – Electronic kilowatt-hour tax.. 167

TOWNSHIP ..... 169

**1-29 Compliance Requirement:** Ohio Rev. Code §§ 507.09 and 505.24(C) - Allocating township trustee and fiscal officer compensation. .... 169

SOLID WASTE MANAGEMENT..... 173

**1-30 Compliance Requirements:** Ohio Rev. Code §§ 343.01, 3734.52, 3734.55, 3734.56, 3734.57(B), 3734.573, 3734.57(G), and 3734.577 – Expenditures by solid waste management districts..... 173

***Appendix A: Agricultural Society Compliance Supplement ..... 175***

## Section A: Budgetary Requirements

### GENERAL REQUIREMENTS

**Revised: HB 481, 133 GA**

**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**

**Effective: October 1, 2020**

**1-1 Compliance Requirement:** Ohio Rev. Code § 5705.38 Annual appropriation measures - classification.

#### Summary of Requirements:

Ohio Rev. Code § 5705.38(A) requires that on or about the first day of each fiscal year, an appropriation measure is to be passed. If the taxing authority wants to postpone the passage of the annual appropriation measure until an amended certificate is received from the county budget commission based upon the actual year end balances, it may pass a temporary appropriation measure for meeting the ordinary expenses until no later than April 1, or in the case of the City of Cincinnati, no later than October 1. This does not apply to school district appropriations.

**NOTE: The Governor's public health orders went into effect in March, prior to the April 1 deadline. As a result, many local governments were unable to meet in person prior to April 1 and were uncertain about whether the Ohio Rev. Code permitted virtual meetings to conduct business. The Ohio Attorney General later clarified that virtual meetings could be held, but this guidance was not made publicly available until April 6<sup>th</sup>.**

**In light of the timing of these events and guidance, auditors are encouraged to evaluate the due diligence on the part of the local government to convene a meeting as soon as possible, particularly once the Ohio Attorney General FAQs became available, and pass the permanent appropriations. In other words, if they were late but following due diligence AND did not overspend their temporary appropriations, auditors do not need to issue compliance citations. Instead, work papers should note the lateness and the evidence of due diligence observed. On the other hand, if there is no evidence of due diligence and/or temporary appropriations were overspent, a citation should be issued.**

**See also the Open Meetings Act COVID-19 guidance from the Ohio Attorney General:**  
**<https://www.ohioattorneygeneral.gov/Media/Newsletters/Open-Book/April-2020/Ohio-Open-Meetings-Act-Under-the-COVID-19-Emerge>**

Ohio Rev. Code § 5705.38(B) provides that a board of education shall pass its annual appropriation measure by the first day of October. If a school district's annual appropriation measure is delayed as permitted by law (see below), the board may pass a temporary measure for meeting the ordinary expense of the school district until it passes an annual appropriation measure.

The taxing authority of a taxing unit that does not levy a tax must still appropriate at the minimum level of control prescribed by Ohio Rev. Code § 5705.38(C) (or a lower level). No budget commission approval is required by 5705.28(B)(2)<sup>2</sup>.

<sup>2</sup> For conservancy districts, auditors should additionally review the requirements of Ohio Rev. Code § 6101.44 and tailor their compliance testing procedures accordingly, if necessary. For conservancy districts that levy taxes, we should cite to the budgetary requirements contained in Ohio Rev. Code § 6101.44 where they are similar to requirements contained in Ohio Rev. Code Chapter 5705. The more specific requirements contained in Ohio Rev. Code Chapter 6101 trump those contained in Chapter 5705. Auditors should apply the provisions of Ohio Rev. Code Chapter 5705 when Chapter 6101 does not address budgetary restrictions applicable to conservancy districts.

There are two circumstances when school district certificates/certifications would be issued after October 1<sup>st</sup>:

- A certificate/certification would be issued after October 1 when a school district has borrowed against its spending reserve. This certificate/certification would not be issued until second half personal property taxes are settled.
- A certificate/certification would be issued after October 1 when the delivery of a tax duplicate is delayed under Ohio Rev. Code § 323.17 because a subdivision in the county has placed a levy on the November ballot which, if approved, will go on the current tax list and duplicate.

If a school district is in either of these two situations, passage of the annual appropriation measure should be delayed until the necessary certificates/certifications are received.

### Legal Level of Control: Minimum Requirements<sup>3</sup>

1. Ohio Admin. Code 117-2-02(C)(1) states in part: “The legal level of control is the level (e.g., fund, program or function, department, or object) at which spending in excess of budgeted amounts would be a violation of law. This is established by the level at which the legislative body appropriates. For all local public offices subject to the provisions of Chapter 5705 of the Revised Code, except school districts and public libraries, the minimum legal level of control is described in section 5705.38 of the Revised Code (**see 2 below**). For school districts, the minimum legal level of control is prescribed in rule 117-6-02 of the Administrative Code (**see 3 below**). For public libraries, the minimum legal level of control is prescribed in rule 117-8-02 of the Administrative Code (**see 4 below**). The legal level of control is a discretionary decision to be made by the legislative authority, *unless otherwise prescribed by statute*.” (Emphasis added.)
2. Ohio Rev. Code § 5705.38(C) requires the following minimum level of budgetary control for “subdivisions” other than schools: “Appropriation measures shall be classified so as to set forth separately the amounts appropriated for each office, department, and division, and, within each, the amount appropriated for personal services.”<sup>4</sup>
3. Ohio Admin. Code 117-6-02 prescribes the following for school districts’ legal level of control: “At a minimum, appropriation measures shall be classified to set forth separately the amounts

---

<sup>3</sup> **We should not recommend that governments adopt the highest level of control the statutes allows.** Appropriating at lower levels than the minimums the Ohio Rev. Code or Ohio Admin. Code requires provides the legislative authority with more control over disbursements. However, appropriating at *very* low levels can significantly increase the volume of appropriation amendments requiring legislative approval as well as possibly requiring additional disbursement codes (more function, object codes, etc.). Conversely, appropriating at higher levels may simplify appropriation measures, but in doing so, the legislative authority effectively delegates more spending decisions to the fiscal officer. The legislative authority should choose the level of control it believes meets its needs to control expenditures. Also, the legislative authority may choose differing levels of control for different funds, *as long as they meet at least the minimum statutory requirements*.

<sup>4</sup> Staff should exercise judgment in determining whether to cite these governments. The following provides some guidance in determining this:

- Because Ohio Admin. Code 117-6-02 permits school districts to use the fund as their level of budgetary control, we presume noncompliance will not be an issue for school districts.

Because other facts and circumstances may arise regarding this matter, or if you are unsure whether citing a taxing district for this matter is fair, please consult with your regional chief auditor. If the regional chief is unsure, they can present the facts and circumstances to their Center for Audit Excellence Support representative.

appropriated by fund. The appropriation measure as passed by the school board shall be the legal level of control. This is the level at which compliance with statutory budgetary requirements will be determined." **The AOS recommends that boards of education pass appropriations at a more detailed level. This is, however, a discretionary decision for the board of education based on the degree of control the board of education wishes to maintain over the financial activity of the school district.**

4. Ohio Admin. Code 117-8-02 requires the library's legislative body to adopt appropriation measures. These measures establish the legal level of control.
5. Ohio Admin. Code 117-2-02(C)(1) also states in part: "All local public offices should integrate the budgetary accounts, at the legal level of control or lower, into the financial accounting system. This means designing an accounting system to provide ongoing and timely information on unrealized budgetary receipts and remaining uncommitted balances of appropriations."

**Amounts / Funds Not Subject to Budgeting:**

- The nonexpendable principal of nonexpendable trust funds.<sup>5</sup> Appropriating nonexpendable principal would authorize the fiscal officer to spend the principal in violation of the trust agreement. [Ohio Rev. Code § 5705.36(A)]
- Budget stabilization reserves [Ohio Rev. Code §§ 5705.13, 5705.29(G)]
- The balance in a township reserve balance account established under Ohio Rev. Code § 5705.132.
- For some time, AOS policy has been that agency/custodial funds do not require budgeting. Agency/custodial funds<sup>6</sup> account for money a government holds in a custodial capacity on behalf of another person or entity. Therefore, a government has minimal discretion in spending this money. Accordingly, the legislative body need not authorize a purpose for spending the money.

---

<sup>5</sup> Ohio Rev. Code § 5705.131 refers to "nonexpendable trust funds." ~~There are many additional accounting and reporting considerations for these funds. GASB Statement No. 54 amended GASB Statement No. 34 and now requires classifying amounts legally or contractually required to be maintained (e.g., the principal of a Permanent Fund) as Non-expendable Fund Balances (and Restricted Net Position in entity wide statements). See AOS Bulletins 2011-004, 2020-003 & 2020-008. Private Purpose Trust Funds, on the other hand, are not subject to GASB Statement No. 54 fund balance classifications, unless GASB 84 has been implemented. GASB 84 requires a Statement of Changes in Fiduciary Net Position which must present GASB 54 fund balance classifications. GASB Statement No. 34 and 54 do not affect this ORC requirement. That is, these ORC requirements still apply to private purpose trust and permanent funds.~~

<sup>6</sup> GASB Statement No. 84 eliminates "agency funds" from existence and adds "custodial funds." Most agency funds are consistent with the new definition for custodial funds and are not subject to budgetary requirements. However, with the implementation of GASB 84, some funds previously classified as "agency funds" may fall under another fund type where budgetary requirements do apply (e.g., special revenue).

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Accounting system capable of recording appropriations and comparing them to actual results</li> <li>• Reconciling appropriation totals to totals recorded in the accounting system.</li> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Read the minutes and determine if the governing board adopted an annual appropriation measure by the required date.
2. If a school district has delayed adoption of an annual appropriation measure, inquire about the reasons for the delay.
3. Scan appropriation measures to determine whether they meet at least the minimum legal level of control Ohio Rev. Code § 5705.38(C) prescribes.
4. Determine if the accounting system “integrates” budgetary data at the legal level of control. This means the accounting system should report appropriations, encumbrances, unencumbered cash balances, and estimated receipts, and should compare budgetary data to actual results. If the client uses a manual system (i.e. spreadsheets) determine if the manual system used by the client adequately tracks and compares budgetary data.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**1-2 Compliance Requirements:** Ohio Rev. Code §§ 5705.41 (D) and 5705.42 - Restriction upon appropriation and expenditure of money – certificate of fiscal officer.

**Summary of Requirements:**

The authorization of a bond issue is *deemed an appropriation* of the proceeds of the bond issue for the purpose for which such bonds were issued. No expenditure shall be made from any bond fund until first authorized by the taxing authority. [Ohio Rev. Code § 5705.41(A)]

Similarly, Federal and State grants or loans are “*deemed appropriated*”<sup>7</sup> for such purpose by the taxing authority” as provided by law and shall be recorded as such by the fiscal officer of the subdivision, and is deemed in process of collection [Ohio Rev. Code § 5705.42].

**NOTE: An appropriation for the newly created special revenue fund (for the federal CARES Act moneys) is effectively created by operation of Ohio Rev. Code § 5705.42. Ohio Rev. Code § 5705.42 indicates Federal and State grants or loans are “deemed appropriated” for such purpose by the taxing authority as provided by law. In addition, those moneys are also treated as if they are in the process of collection by the fiscal officer of the subdivision. This means that under Ohio Rev. Code § 5705.42, the moneys are treated by the fiscal officer as if they have been appropriated for a specific purpose, without requiring the taxing authority to adopt an amended appropriation measure. However, the fiscal officer should include the appropriated amounts on the (amended) certificate. The fiscal officer should also record the appropriation in the accounting system.**

See also [AOS COVID-19 FAQ's](#).

No orders or contracts involving the expenditure of money are to be made unless there is a certificate of the fiscal officer that the amount required for the order or contract has been lawfully appropriated and is in the

<sup>7</sup> “Deemed an appropriation” under this section means the Federal or State government has already appropriated and established the purpose(s) for which a government can spend monies received from Federal or State grants and loans. The taxing authority cannot deviate from this purpose; the taxing authority can only resolve to spend the money for a purpose already prescribed in a contract, grant agreement, loan agreement, etc. Therefore, Federal and State grants and loans received under Ohio Rev. Code § 5705.42 do not require formal appropriation by the legislative body. In other words, Ohio Rev. Code § 5705.42 effectively eliminates an unnecessary appropriation action by the taxing authority. However, Ohio Rev. Code § 5705.42 directs the fiscal officer to record the appropriation amount “as such” which AOS interprets to be the accounting system\* and/or the budgetary statements or footnotes as applicable for their financial reporting framework. The fiscal officer should also include the appropriated amounts on the (amended) certificate to properly monitor budget versus actual activity. Note: Amounts “deemed appropriated” are subject to inclusion in GAAP budgetary presentations (GASB Cod. 2400.102). The government has no legal authority to spend these resources unless they were either appropriated by the legislative authority or deemed appropriated by the Federal or State government. (GASB Cod. 2400.702-14)

\*NOTE: If the auditee does not record the appropriation amount in the accounting system, but does report in the financial statements and/or footnotes, auditors should consider issuing a management letter comment for the auditee to record in their accounting system.

treasury **or in the process of collection**<sup>8</sup> to the credit of an appropriate fund free from any previous encumbrances. [Ohio Rev. Code § 5705.41(D)(1)]<sup>9</sup> <sup>10</sup>

If an entity levies taxes, Ohio Rev. Code § 5705.41 applies. However, some entities with taxing authority do not levy taxes. When they do not levy taxes, Ohio Rev. Code § 5705.28(B)(2) permits a comparable, but somewhat streamlined budget process. Ohio Rev. Code § 5705.28(B)(2) requires entities to follow § 5705.41.<sup>11</sup>

Per Ohio Rev. Code § 5705.41(D)(3), “Contract” as used in this section excludes current payrolls of regular employees and officers.

**Note:** See Appendix A-2 of the OCS Implementation Guide for examples of direct charges that do not require a certificate under Ohio Rev. Code § 5705.41(D).

The statute provides the following exceptions to this basic requirement:

**Then and Now Certificate:** This exception provides that, if the fiscal officer can certify that both at the time that the contract<sup>12</sup> or order was made and at the time that he is completing his certification, sufficient funds were available or in the process of collection, to the credit of a proper fund, properly appropriated and free from any previous encumbrance, the taxing authority can authorize the drawing of a warrant. The taxing authority has 30 days from the receipt of such certificate to approve payment by resolution or ordinance. If approval is not made within 30 days, there is no legal liability on the part of the subdivision or taxing district.

Amounts of less than \$100 for counties, or less than \$3,000 for other political subdivisions, may be paid by the fiscal officer without such affirmation of the taxing authority upon completion of the “then and now” certificate, provided that the expenditure is otherwise lawful. This does not eliminate any otherwise applicable requirement for approval of expenditures by the taxing authority. [Ohio Rev. Code § 5705.41(D)]

<sup>8</sup> It is permissible to certify a purchase without sufficient cash “in the bank” if a government is reasonably certain cash will be on hand in time to pay the invoice when due (i.e. is “**in the process of collection**”). For example, the Ohio EMA disburses Homeland Security grants only when the local government certifies to OEMA they have an invoice on hand requiring payment. Since the government will receive OEMA’s cash in time to pay the vendor, the CFO can certify the acquisition even if there is no cash in the fund at the time of the certification. (This assumes there is sufficient appropriation for the payment).

<sup>9</sup> Under Ohio Rev. Code §§ 9.10 and 9.11, the fiscal officer need not manually sign each certification. Electronic or mechanical signatures are permissible. However, Ohio Rev. Code § 9.10 expressly prohibits using rubber stamp signatures. (We likely would not deem using a rubber stamp to be material noncompliance.)

<sup>10</sup> Ohio Rev. Code § 3315.20 permits schools to incur a fund cash deficit in certain circumstances.

<sup>11</sup> For conservancy districts, auditors should additionally review the requirements of Ohio Rev. Code § 6101.44 and tailor their compliance testing procedures accordingly, if necessary. For conservancy districts that levy taxes, we should cite to the budgetary requirements contained in Ohio Rev. Code § 6101.44 where they are similar to requirements contained in Ohio Rev. Code Chapter 5705. The more specific requirements contained in Ohio Rev. Code Chapter 6101 trump those contained in Chapter 5705. Auditors should apply the provisions of Ohio Rev. Code Chapter 5705 when Chapter 6101 does not address budgetary restrictions applicable to conservancy districts.

<sup>12</sup> 1987 Op. Att’y. Gen. No. 87-069 concluded that when a government uses *Then and Now* certificates, they should charge the cost to the appropriation in effect at the time they incurred the obligation. For example, if a calendar-year government orders an item in December 20XX, the government should charge the cost to 20XX appropriations, even if the fiscal officer signs a *Then and Now* Certificate in January 20XX+1.

Fiscal officers may prepare "blanket" certificates for a sum not exceeding an amount established by resolution or ordinance<sup>13</sup> adopted by the members of the legislative authority against any specific line item account over a period not extending<sup>14</sup> beyond the end of the current fiscal year. The blanket certificates may, but need not, be limited to a specific vendor. Only one blanket certificate may be outstanding at one particular time for any one particular line item<sup>15</sup> appropriation.

In addition to regular blanket certificates, a subdivision's fiscal officer may also issue so-called "super blanket" certificates for any amount for expenditures and contracts from a specific line-item appropriation account in a specified fund for most professional services, fuel, oil, food items and any other specific recurring and reasonably predictable operating expense. This certification is not to extend beyond the fiscal year or, in the case of counties, beyond the quarterly spending plan established by the county commissioners. More than one super blanket certificate may be outstanding at one particular time for a particular line-item appropriation account.

Continuing Contracts to be performed in Whole or in Part in an Ensuing Fiscal Year: Where a continuing contract is to be performed in whole or in part in an ensuing fiscal year, only the amount required to meet those amounts in the fiscal year in which the contract is made needs to be certified. (1987 Op. Att'y. Gen. 87-069)

Per Unit Contracts: Where contracts are entered into on a per unit basis, only the amount estimated to become due in the current fiscal year need be certified. (1987 Op. Att'y. Gen. No. 87-069)

Contract or Lease Running Beyond the Termination of the Fiscal Year Made: Pursuant to § 5705.44, Ohio Rev. Code, where a contract or lease runs beyond the termination of the fiscal year in which it is made, only the amount of the obligation maturing in the current fiscal year need be certified. The remaining amount is a fixed charge required to be provided for in the subsequent fiscal year's appropriations as a fixed charge.

Payments made from the earnings of a public utility are exempted from the certification (and encumbering) requirements of Ohio Rev. Code section 5705.41(D). [Ohio Rev. Code § 5705.44 and 1987 Op. Att'y. Gen. No. 87-069] However, these payments are still subject to the requirements of Ohio Rev. Code § 5705.41(B).

The Attorney General, in 1987 Op. Att'y. Gen. No. 87-069, has clarified the application of the exceptions set forth above. In summary, he has indicated that:

If a government subject to Ohio Rev. Code § 5705.41(D) enters into a continuing contract under which no goods or services will be delivered during the current fiscal year and payment will not be due until delivery, no amount need be certified as available during the current fiscal year. Pursuant to Ohio Rev. Code § 5705.44, the amount remaining unpaid at the end of a fiscal year to become due in the next fiscal year must be included in the annual appropriation measure for the next fiscal year as a fixed charge.

---

<sup>13</sup> The governing authority is only required to adopt one ordinance or resolution establishing the dollar limits for blanket certificates. A separate ordinance or resolution approving *each* individual blanket certificate is not necessary.

<sup>14</sup> We interpret the word "*extends*" in this context as the authority to certify commitments against a regular blanket certificate or super blanket certificate that expires at year end. However, the authority to pay against previously certified commitments continues until all outstanding commitments are paid. (In other words, the government should consider these unpaid year-end commitments similar to other outstanding commitments/encumbrances, and reduce next year's opening unencumbered balances for these amounts.)

<sup>15</sup> There is no additional legal explanation for what "*line item appropriation*" means in this context; therefore, AOS interprets "line item" to mean accounting line item, which is not necessarily the "legal level of control."

If under a continuing contract it cannot be determined whether delivery of goods or services and the obligation to make payment will take place in the current or an ensuing fiscal year, the total amount due under the contract must be certified as available during the current year.

If under a continuing contract delivery of goods or services is to occur in the current fiscal year with the obligation to make payment deferred until an ensuing fiscal year, the amount required to meet the obligation for goods or services delivered during the current fiscal year must be certified as available in that fiscal year.

If a government subject to Ohio Rev. Code § 5705.41(D), enters into a contract that is not a continuing contract, the total amount due under the contract must be certified as available in the fiscal year in which the contract is made, regardless of when delivery of goods or services will be made or when payment will become due.

County Commissioner Authorization: A board of county commissioners, by resolution, may exempt purchases of \$1,000 or less from the prior certification requirement. The resolution must specify the dollar limit applicable to such purchases and whether it applies to all purchases, is limited to certain classes of purchases, or is limited to specific purchases. The board must notify the county auditor in writing of its intention to adopt such a resolution and the scope of the resolution. The county auditor has 15 days to comment on the resolution before it may be adopted by the board. Where such a resolution has been adopted, any person authorized to make purchases, within 3 business days (or other time limit the commissioners resolve) of making a purchase exempted under the resolution, must file with the county auditor a written or electronic document stating the purpose, amount, appropriation line item and date of the purchase, and the name of the vendor.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Review/Comparison/Recomputations of Purchase Documents</li> <li>• Budgetary/Purchasing Accounting/Monitoring System</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees – Policies and Procedures Manuals</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Search for material unrecorded liabilities and/or encumbrances at year end. Refer to minutes and records immediately following the fiscal year cutoff date.
2. During the search for material unrecorded liabilities and/or encumbrances at year end, compare the date of the fiscal certificates with invoice dates, noting whether or not the certificate date precedes the invoice/obligation date and was recorded as an encumbrance in the proper year.

Note:

- The obligation date may precede the invoice date. If separately identified, use the obligation date when determining compliance.
  - If the government does not expect to complete the project in the current year, the remainder of the project must be appropriated immediately in the subsequent year(s).<sup>7</sup>
3. Inspect a representative number of “regular blanket” certificates outstanding near year end and determine that:
    - The amount is established by an ordinance or resolution passed by a majority of the legislative body. (If the legislative authority passed this in the prior years, agree to permanent file documentation.)
    - They are not dated after the fiscal year end.
    - They do not exceed the amount the legislative body established.
    - Only one certificate is outstanding per line item appropriation.
  4. For subdivisions using “super blanket” certificates, inspect the certification of the fiscal officer and determine whether:
    - The certificates were for professional services, fuel, oil, food items or any other specific recurring and reasonably predictable operating expense and,
    - They do not run beyond the fiscal year (or quarterly spending plan, if a county adopted a plan).

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-3 Compliance Requirement:** Ohio Rev. Code § 5705.40 - Amending or supplementing appropriation, ordinance – transfer – unencumbered balance – appropriation for contingencies.

**Summary of Requirements:** Any appropriation measure may be amended or supplemented if the entity complies with the same laws used in making the original appropriation. However, no appropriation may be reduced below an amount sufficient to cover all unliquidated and outstanding contracts or obligations against them. “Transfers” \* may be made by resolution or ordinance from one appropriation item to another. Subject to certain limitations, the annual appropriation measure may contain an appropriation for contingencies.

Rulings filed in the case of *C. B. Transportation, Inc. v. Butler County Board of Mental Retardation*, 60 Ohio Misc. 71, 397 N.E.2d 781 (C.P. 1979), as well as in *Burkholder v. Lauber*, 6 Ohio Misc. 152, 216 N.E.2d 909 (C.P. 1965), held that a board or officer whose judgment and discretion is required, was chosen because they were deemed fit and competent to exercise that judgment and discretion and unless power to substitute another in their place has been given, such board or officer cannot delegate these duties to another. Following such reasoning, a local government’s governing board would be prohibited from delegating duties statutorily assigned to it, such as the ability to amend appropriations as provided for in Ohio Rev. Code § 5705.40.

Budgeted expenditures coincide with either the final appropriations the legislative body passed prior to fiscal year-end or the sum of those final appropriations plus encumbrances carried forward from the prior year. *That is, the AOS does not recognize appropriation amendments retroactive to the prior year.* The statutory budget process codifies what are or should be good management practices. These processes provide a framework that helps management and legislators reasonably control spending.

\* “Transfers” in this context mean reallocations of appropriations within a fund. These do not refer to transfers of cash between funds.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Accounting system capable of recording appropriations and comparing them to actual results.</li> <li>• Reconciling appropriation totals to totals recorded in the accounting system.</li> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Comparison of Outstanding Encumbrances and Balances to Proposed Amendments</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Inquire (or determine from reading the minutes) if amended or supplemental appropriation measures have been passed.
2. Inspect the government’s records to determine if selected appropriation amendments were accurately and timely posted into an accounting system that integrates budget and actual receipts and disbursements. If the client uses a manual system (i.e. spreadsheets) determine if the manual system used by the client adequately tracks and compares budgetary data. Base the extent of this testing on the control environment, especially the CFO’s competence and dedication to complying with Ohio Revised Code requirements, past errors noted, etc.
3. Match appropriations amendments, supplements and intrafund appropriation “transfers” recorded in the accounting system with resolutions or ordinances.

*Note:* We suggest you test the general and other major / large funds and perhaps rotate a few smaller funds each audit.

- However, normally scanning the fund-accounting records and listing noncompliance as of year-end is not time consuming. This should be a reliable test if evidence suggests the auditee accurately records all budgetary amendments into its accounting system, and if the system reports negative variances.

Also consider including funds for which we reported noncompliance in the prior audit. There is rarely a need to “recreate” the budget in the working papers. That is, we do not require a spreadsheet listing all funds’ estimated resources, appropriations (and amendments thereto), receipts, disbursements, and encumbrances.

<p><b>Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
---

## REQUIREMENTS OF REVENUE, FUNDS, AND TRANSFERS

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**1-4 Compliance Requirement:** Ohio Rev. Code §§ 5705.09 and 5705.121 - Establishing funds and Permission to establish special funds.

**Summary of Requirements:** Each subdivision must establish (when applicable) the following funds:

- General fund [Ohio Rev. Code § 5705.09];
- Sinking fund whenever the subdivision has outstanding bonds other than serial bonds [Ohio Rev. Code § 5705.09];
- Bond retirement fund, for the retirement of serial bonds, notes, or certificates of indebtedness [Ohio Rev. Code § 5705.09];
- A special fund for each special levy [Ohio Rev. Code §§ 5705.09, 5705.2112(D)];
- A special bond fund for each bond issue [Ohio Rev. Code § 5705.09];
- A special fund for each class of revenues derived from a source other than the general property tax, which the law requires to be used for a particular purpose [Ohio Rev. Code § 5705.09];
- A special fund for each public utility operated by a subdivision [Ohio Rev. Code § 5705.09];
- A trust fund for any amount received by a subdivision in trust [Ohio Rev. Code § 5705.09];
- A sanitary police pension fund, an urban redevelopment tax increment equivalent fund, or a cemetery fund [Ohio Rev. Code § 5705.121];
- Fund balance reserves [Ohio Rev. Code § 5705.13 (see also Section 1-8)];
- A nonexpendable trust fund [Ohio Rev. Code § 5705.131];
- An urban redevelopment tax increment equivalent fund [Ohio Rev. Code § 5709.43];
- Downtown redevelopment district fund [Ohio Rev. Code § 5709.47];
- A township public improvement tax increment equivalent fund [Ohio Rev. Code § 5709.75];
- A redevelopment tax equivalent fund [Ohio Rev. Code § 5709.80].
- A Union Cemetery District permanent endowment fund [Ohio Rev. Code § 759.36] See also section 1-25 – Permanent endowment funds.

Establishing these funds (or other funds statutes mandate) does not require Auditor of State authorization.

**NOTE: Local government subrecipients of H.B. 481, as amended by H.B. 614, allocations of the Coronavirus Relief Fund need only adopt the resolution or ordinance required by these bills. This resolution can serve as governing board authorization for the establishment of the Coronavirus Relief Fund. Local governments have authority under Ohio Rev. Code § 5705.09 to establish the new fund, without seeking AOS approval.**

**Auditors should refer to the AOS COVID-19 FAQ, “How do I reimburse expenditures made out of other state and local funds with my COVID-19 federal funding?”, when auditing the establishment of new funds for federal financial assistance related to the CARES Act and Families First Coronavirus Relief Fund Act.**

**Refer to General Auditor of State FAQs at: [http://www.ohioauditor.gov/resources/COVID19\\_assistance.html](http://www.ohioauditor.gov/resources/COVID19_assistance.html).**

However, should a taxing authority desire to establish other funds not authorized in the Ohio Revised Code, they must obtain *approval of the Auditor of State*. The subdivision may provide by ordinance or resolution that money derived from special sources other than the general property tax shall be paid directly into such funds. [Ohio Rev. Code § 5705.12]

It is necessary to request the Auditor of State’s permission to establish any fund not specifically authorized by statute or when the purpose of the fund is not identified in the Ohio Rev. Code, such as (but not limited to) § 5705.09(A)-(H). Situations requiring Auditor of State approval include:

- When management wishes to create a new fund in order to capture additional financial information about a specific source of revenue or a specific activity;
- When the fund will account for restricted gifts or bequests that will not be held in trust; and
- When management wants to impose internal restrictions on the use of otherwise unrestricted resources.

In some circumstances, the AOS deems the use of additional funds unnecessary and will not approve the request. See AOS Bulletin 1999-006 for additional information.

Ohio Rev. Code §§ 5705.09(F) and 5705.10(I) imply that a resolution must be present in order for the restrictions on the use of the funds to be documented and evident. **In the case of Coronavirus Relief Fund (CRF) moneys that a local government receives under H.B. 481 and/or H.B. 614, the resolution that the local government provides in order to receive the CRF moneys is sufficient to satisfy Ohio Rev. Code §§ 5705.09(F) and 5705.10(I).**

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of Effective Accounting System</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Periodic Reviews of Fund Ledgers</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Compare funds on the subdivision's chart of accounts with funds that existed in the prior audit period.
2. For any new funds, apply the following steps:
  - Inspect authority (e.g., board resolution) to establish the fund.
    - *Note: The legislative body of a local government may always specify, for management purposes, how they want specific resources spent. Absent any statutory restrictions on such resources, an internal purpose restriction does not justify the creation of a separate fund. New funds must be created based on the guidelines in AOS Bulletin 1999-006.*
  - Determine code section under which established.
  - If not established under State statute, inspect Auditor of State approval letters for funds created during the current audit period.
    - If a fund is not authorized under Ohio Rev. Code § 5705.09 or another Ohio Rev. Code section and the entity did not receive Auditor of State approval to establish the fund, propose findings for adjustment to remove the unauthorized fund(s) and place the activity in the General Fund or other appropriate fund. *(If the fund was set up properly for GAAP purposes a finding for adjustment may not be necessary.)*
  - Read ordinances and resolutions regarding how monies derived from special sources are to be used. Trace a representative number of receipts into the funds or accounts required by the ordinances or resolutions.
3. For funds existing in prior years, review the fund activity to determine whether the fund is still being used for the statutorily approved purpose. Consider whether the government has:
  - Funds where the government is no longer using the fund for the purpose for which it was originally established and approved
  - Funds that do not meet any fund type definition and do not have statutory authority (sometimes a government will have a fund it just should not have)
  - Funds with no restricted/committed revenue source (except for Debt Service sinking funds where governments must make transfers from the General Fund to satisfy a sinking fund requirement)

AOS auditors that identify any of the situations described above should consult with Center for Audit Excellence and AOS Legal Division to determine whether a potential noncompliance citation or finding for adjustment to reclassify the activity back to the General Fund, or some other appropriate fund based on the facts and circumstances, should be made.

<p><b>Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
---

**1-5 Compliance Requirement:** Ohio Rev. Code §§ 1545.23, 5155.33, 5705.05-.06, 5705.10, 5705.14(E), 5735.28 and 3315.20 - Distributing revenue derived from tax levies, proceeds from sale of bond issue, proceeds from sale of permanent improvement.

**Summary of Requirements:**

All revenue derived from the following must be paid into the general fund [Ohio Rev. Code § 5705.10, unless otherwise indicated below]:

- the general levy for current expense within the ten mill limitation;
- any general levy for current expense authorized by vote in excess of the ten mill limitation, and from sources other than the general property tax, unless its use for a particular purpose is prescribed by law (see the circumstances requiring a separate fund in the preceding OCS Step);
  - Counties are precluded from using general levy revenue for current expenses for the construction, reconstruction, resurfacing, and repair of roads and bridges. [Ohio Rev. Code §§ 5705.05 & .06]. Other entities (except counties) may transfer general levy revenue for current expenses to Road and Bridge Funds via a resolution passed by a simple majority of the governing authority [Ohio Rev. Code § 5705.14(E)] or may pay for these expenses directly from the General Fund [Ohio Rev. Code §§ 5705.05 & .06].

All revenue derived from general or special levies for debt charges which is levied for the debt charges on serial bonds, notes, or certificates of indebtedness having a life less than five years, must be paid into the bond retirement fund. All such revenue which is levied for the debt charges on all other bonds, notes, or certificates of indebtedness is to be paid into the sinking fund [Ohio Rev. Code § 5705.10(B)].

All revenue derived from a special levy is to be credited to a special fund for the purpose for which the levy was made [Ohio Rev. Code § 5705.10(C)].<sup>16</sup>

All revenue derived from a source other than the general property tax and which the law prescribes, shall be used for a particular purpose is to be paid into a special fund (see Section 1-4 for a listing of possible “special” funds) for such purpose [Ohio Rev. Code § 5705.10(D)].

All proceeds from the sale of public obligations or fractionalized interests in public obligations as defined in Ohio Rev. Code § 133.01, *except premium and accrued interest*, are to be paid into a special fund for the purpose of such issue. Any interest earned on money in the special fund may be used for the purposes for which the indebtedness was authorized, or may be credited and used for an authorized fund or account [Ohio Rev. Code § 5705.10(E)].

The *premium* and *accrued interest* received from the sale of public obligations or fractionalized interests in public obligations as defined in Ohio Rev. Code § 133.01 is to be paid into the subdivision's sinking fund or the bond retirement fund [Ohio Rev. Code § 5705.10(E)].

- "Public obligations" means both of the following: (1) Securities; (2) Obligations of a public issuer to make payments under installment sale, lease, lease purchase, or similar agreements, which obligations may bear interest or interest equivalent [Ohio Rev. Code § 131.01(GG)].
- "Fractionalized interests in public obligations" means participations, certificates of participation, shares, or other instruments or agreements, separate from the public obligations themselves, evidencing ownership of interests in public obligations or of rights to receive payments of, or on account of, principal or interest or their equivalents payable by or on behalf of an obligor pursuant to public obligations." [Ohio Rev. Code § 133.01(N)]

<sup>16</sup> Townships receiving distributions from the Gasoline Excise Tax Fund in the state treasury are permitted to use that money to pay debt service on State Infrastructure Bank obligations. (Ohio Rev. Code §§ 5531.10 and 5735.27)

- "Bond retirement fund" means the bond retirement fund provided for in section 5705.09 of the Revised Code, and also means a sinking fund or any other special fund, regardless of the name applied to it, established by or pursuant to law or the proceedings for the payment of debt charges. Provision may be made in the applicable proceedings for the establishment in a bond retirement fund of separate accounts relating to debt charges on particular securities, or on securities payable from the same or common sources, and for the application of moneys in those accounts only to specified debt charges on specified securities or categories of securities. Subject to law and any provisions in the applicable proceedings, moneys in a bond retirement fund or separate account in a bond retirement fund may be transferred to other funds and accounts. [Ohio Rev. Code § 131.01(D)].

**Note:** We wish to emphasize to governments and to their auditors the importance of complying with this. We have seen instances where investors desire interest payments exceeding market rates. They are willing to exchange the necessary up-front payment (*premium*) to obtain these returns in the future. ~~When this occurs, debt proceeds will include the premium, which may be a substantial amount. If the debt is restricted for a capital project (for example), governments should not deposit the premium into a capital project fund. Instead, Ohio Rev. Code § 5705.10(E) prudently requires governments to deposit the premium in a sinking / bond retirement / debt service fund, to set aside amounts for the above-market interest payable over the debt's duration.~~

Depositing premiums (or accrued interest) into a fund other than the sinking / bond retirement would violate the requirements above, and be subject to a finding for adjustment, see AOS Bulletin 2014-001 for more information.

If a board of education of a school district disposes of real property under Ohio Rev. Code §§ 3313.41, 3313.411, or 3313.413 the proceeds received from the sale shall be used to either: [Ohio Rev. Code § 5705.10(H)]

- Retire any debt that was incurred by the district with respect to that real property. Proceeds in excess of the funds necessary to retire that debt may be paid into the school district's capital and maintenance fund and used only to pay for the costs of nonoperating capital expenses related to technology infrastructure and equipment to be used for instruction and assessment fund, or
- Paid into a special fund for the construction or acquisition of permanent improvements.

If a park district enters into an agreement for the sale or lease of mineral rights regarding a park within the district, the royalties or moneys from that sale or lease must be deposited into a special fund created by the board of park commissioners to be used exclusively for the maintenance of parks within the District or for acquisition of new park lands [Ohio Rev. Code § 1545.23].

If a permanent improvement<sup>17</sup> of the subdivision is sold, the amount received from it shall be paid into the sinking fund, the bond retirement fund, or into a special fund for the construction or acquisition of permanent improvements (Ohio Rev. Code § 5705.10(F)).<sup>18</sup> However, after a county home has been closed

<sup>17</sup> **Permanent improvement** includes any capital asset with a useful life five years or greater. [Ohio Rev. Code § 5705.01(E)]

<sup>18</sup> Ohio Rev. Code § 5705.10(F) & (G), include an exception for certain townships, with a population greater than 15,000, having used township tax increment financing (TIF) for real property in the township according to the most recent federal decennial census. These townships may pay proceeds from the sale of a permanent improvement of the township into its general fund if both of the following conditions are satisfied: (see bullets below or on next page)

- The Township fiscal officer determines that all foreseeable "public infrastructure improvements" to be made in the township in the 10 years immediately following the date the permanent improvement is sold will have been financed through township TIF on or before the date of the sale. Written certification of this determination must be made part of the township's records.
- The permanent improvement being sold was financed entirely from moneys in the township's general fund.

as provided by Ohio Rev. Code § 5155.31, the board of county commissioners may sell or lease any part of the county home farm, and all receipts from such sales or leases shall be paid to the county treasurer and credited to the general county fund, and shall be subject to appropriation for such purposes as the board decides [Ohio Rev. Code § 5155.33].

Proceeds from the sale of a public utility are to be paid into the sinking fund or bond retirement fund to the extent necessary to provide for the retirement of the outstanding indebtedness incurred in the construction or acquisition of such utility [Ohio Rev. Code § 5705.10(F)].

Proceeds from the sale of property other than a permanent improvement are to be paid into the fund from which such property was acquired or is maintained, or if there is no such fund, into the general fund [Ohio Rev. Code § 5705.10(F)].

~~Even if the permanent improvement was purchased or maintained with special levy revenue, the proceeds from the sale of the permanent improvement shall be credited in accordance with Ohio Rev. Code § 5705.10(F) or other specific statute that addresses the crediting or use of sale proceeds.~~

Monies collected under Ohio Rev. Code §§ 4501.04, and 5735.27 must be deposited into a special fund for the purpose of street construction and maintenance. This includes gas tax and license taxes distributed through the county. However, if the municipal corporation sits on the line of the state highway system as designated by the director of transportation as an extension or continuance of the state highway then 7.5% of the monies will be posted to a state highway fund. [Ohio Rev. Code § 5735.28]

*Note:* Also, the \$5 or \$10 license taxes that can be levied by a municipality under Ohio Rev. Code Chapter 4504 can be receipted directly into a Permissive MVL fund.

Money paid into a fund must be used only for the purposes for which such fund has been established. As a result, a negative fund cash balance<sup>19</sup> indicates that money from one fund was used to cover the expenses of another fund [Ohio Rev. Code § 5705.10(I)]. However, Ohio Rev. Code § 3315.20 provides an allowable exception for school districts. A school district may have a deficit in any special fund (see Section 1-4 for a listing of possible “special” funds) of the school district<sup>20</sup>, but only if all of the following conditions are satisfied:

- The school district has a request for payment pending with the state sufficient to cover the amount of the deficit. [Ohio Rev. Code § 3315.20(A)]
- There is a reasonable likelihood that the payment will be made. [Ohio Rev. Code § 3315.20(A)]
- The unspent and unencumbered balance in the school district’s general fund is greater than the aggregate of deficit amounts in all of the school district’s special funds. [Ohio Rev. Code § 3315.20(B)]

<sup>19</sup> There is no legal authority addressing whether encumbrances are to be included when analyzing fund balances. Ohio Rev. Code § 5705.10 does not explicitly prohibit an entity from having a negative fund balance. Instead, we cite to Ohio Rev. Code § 5705.10 because restricted funds were used for other purposes. Therefore, do not include encumbrances when analyzing compliance with Ohio Rev. Code § 5705.10.

<sup>20</sup> Deficits should not be permitted when the funding source is an automatic or cash advance payout (e.g. 467 Student Wellness Funds). That is, the deficit conditions prescribed by Ohio Rev. Code §3315.20 are only permissible when schools have to submit cash requests for payments to receive funding.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of Effective Accounting System</li> <li>• Periodic Reviews/Comparisons of Budgeted and Actual Revenues</li> <li>• Independent Inspection/Comparison of Revenues to Source Documents</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Trace a representative number of receipts from tax levies, bond issues, and sales of permanent improvements, to the funds.

*Note:* Because recording receipts to an incorrect opinion unit is a misstatement, auditors should test these transactions to the extent required to reasonably assure there was no material misstatement. Also, auditors should consider reporting noncompliance for misposting to incorrect funds (rather than opinion units) as described in the *Finding for Adjustment* guidance in the *Ohio Compliance Supplement Implementation Guide*.

2. Trace significant interest earned on bond proceeds to the credit of (1) a fund used for purposes for which the debt was authorized, or (2) the general fund. [Ohio Rev. Code § 5705.10(E)] (*Note:* Proceeds exclude accrued interest and premiums, which the entity must credit to the sinking or bond retirement fund. Refer to AOS Bulletin 2014-001) Also note that this interest may be subject to Federal arbitrage regulations—AOS staff should refer to the arbitrage procedures in the specimen debt audit program.
3. Inspect accounting ledgers or month end reports as of fiscal year end and for selected periods during the year. Determine whether significant negative fund balances existed.

*Note:* When a fund ends the year with negative cash, it is inappropriate to present an “advance” on the budgetary statement to eliminate the negative cash fund balance. Even though, in substance, the government has made an advance, it is not acceptable to “hide” noncompliance by creating an advance not properly authorized by the government. However, a government should post an interfund receivable and payable to eliminate the negative cash balance on the GAAP financial statements. The government should select the fund to report the receivable.

4. If negative fund balances are identified for a school district, determine whether the school district met the allowable exception conditions above by:
  - *Inspecting* the school district’s Project Cash Request (PCR) forms. In most cases, these forms will be available for viewing online in ODE’s Comprehensive Continuous Improvement Plan (CCIP) application at <https://ccip.ode.state.oh.us>.
  - Computing the unspent and unencumbered balance in the school district’s general fund and vouching whether it is greater than the aggregate of deficit amounts in all of the school district’s special funds.

5. If a school district disposed of real property, determine whether the school district used the proceeds received from the sale to retire any debt that was incurred by the district with respect to that real property.

*Note:* The proceeds received from the sale shall be used to retire any debt that was incurred by the district with respect to that real property. Proceeds in excess of the funds necessary to retire that debt may be paid into the school district's capital and maintenance fund and used only to pay for the costs of nonoperating capital expenses related to technology infrastructure and equipment to be used for instruction and assessment fund, or payment into a special fund for construction or acquisition of permanent improvements.

6. If a park district enters into an agreement for the sale or lease of mineral rights regarding a park within the district, confirm that the royalties or moneys from that sale or lease were deposited into a special fund created by the board of park commissioners.

<p><b>Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
---

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**1-6 Compliance Requirements:** Ohio Rev. Code §§ 5705.05-.06, and 5705.14-16- Transfer of funds. (Refer to Appendix A-1 in the OCS Implementation Guide for a more detailed discussion on what constitutes a “transfer” under Ohio Rev. Code § 5705.14 - .16.)

**Summary of Requirements:** No transfer can be made from one fund of a subdivision to any other fund, except as follows:<sup>21</sup>

- The unexpended balance in a bond fund [i.e. a capital project fund financed with bond proceeds] that is no longer needed for the purpose for which such fund was created shall be transferred to the sinking fund or bond retirement fund from which such bonds are payable. [Ohio Rev. Code § 5705.14(A)]
- The unexpended balance in any specific permanent improvement fund, other than a bond fund, after the payment of all obligations incurred in the acquisition of such improvement, shall be transferred to the sinking fund or bond retirement fund of the subdivision. However, if such money is not required to meet the obligations payable from such funds, it may be transferred to a special fund for the acquisition of permanent improvements, or, with the approval of the court of common pleas of the county in which such subdivision is located, to the general fund of the subdivision. [Ohio Rev. Code § 5705.14(B)]
- Except as provided below, the unexpended balance in the sinking fund or bond retirement fund of a subdivision, after all indebtedness, interest, and other obligations for the payment of which such fund exists have been paid and retired, shall be transferred, in the case of the sinking fund, to the bond retirement fund, and in the case of the bond retirement fund, to the sinking fund. However, if the transfer is impossible by reason of the nonexistence of the fund to receive the transfer, the unexpended balance may be transferred to any other fund of the subdivision with the approval of the court of common pleas of the county in which such division is located. [Ohio Rev. Code § 5705.14(C)(1)]
  - Money in a bond fund or bond retirement fund of a city, local, exempted village, cooperative education, or joint vocational school district may be transferred to a specific permanent improvement fund provided that the county budget commission of the county in which the school district is located approves the transfer upon its determination that the money transferred will not be required to meet the obligations payable from the bond fund or bond retirement fund. In arriving at such a determination, the county budget commission shall consider the balance of the bond fund or bond retirement fund, the outstanding obligations payable from the fund, and the sources and timing of the fund's revenue. [Ohio Rev. Code § 5705.14(C)(2)]
- The unexpended balance in any special fund, other than an improvement fund, may be transferred to the general fund or to the sinking fund or bond retirement fund after the termination of the activity, service, or other undertaking for which such special fund existed, but only after the payment of all obligations incurred and payable from such special fund. [Ohio Rev. Code § 5705.14(D)]<sup>22</sup>

<sup>21</sup> GASB 2300.127 (and therefore OCBOA presentations) requires certain disclosures regarding the amounts and purposes of transfers in the notes to the financial statements.

<sup>22</sup> An example would be a proprietary fund where the government sells its enterprise assets to a private vendor or another government.

- Money may be transferred from the general fund to any other fund of the subdivision [Ohio Rev. Code § 5705.14(E)]. *Note:* Ohio Rev. Code § 5705.14 indicates “except in the case of transfer pursuant to division (E) of this section, transfers authorized by this section shall only be made by resolution of the taxing authority passed with the affirmative vote of two-thirds of the members.” According to 1989 Op. Att’y. Gen. No. 89-075, a resolution passed by a simple majority of the legislative authority is required to transfer moneys from the general fund to any other fund of the subdivision. When moneys are transferred from a fund other than the general fund in accordance with ORC 5705.14, a resolution passed by a two-thirds majority is required.
- Counties are precluded from transferring general levy revenue for current expenses to other county funds for the construction, reconstruction, resurfacing, and repair of roads and bridges. [Ohio Rev. Code §§ 5705.05 & .06]. Other entities (except counties) may transfer general levy revenue for current expenses to Road and Bridge Funds via a resolution passed by a simple majority of the governing authority [Ohio Rev. Code § 5705.14(E)].
- Moneys retained by a county in accordance with Ohio Rev. Code § 4501.04 (auto registration distribution fund), or in accordance with Ohio Rev. Code § 5735.27 (gasoline excise tax fund), may be transferred from the fund into which they were deposited to the sinking fund or bond retirement fund from which any principal, interest, or charges for which such moneys may be used is payable. [Ohio Rev. Code § 5705.14(F)]
- Moneys retained or received by a municipal corporation under Ohio Rev. Code § 4501.04 (motor vehicle license tax), or division (A) (1) or (2) of Ohio Rev. Code § 5735.27 (motor vehicle fuel excise taxes), may be transferred from the fund into which they were deposited to the sinking fund or bond retirement fund from which any principal, interest, or charges for which such moneys may be used is payable. [Ohio Rev. Code § 5705.14(G)]
- After payment of the expenses of conducting and managing the water works, any surplus of a municipal corporation’s water fund may be applied to the repairs, enlargement, or extension of the works or of the reservoirs, the payment of the interest of any loan made for their construction, or for the creation of a sinking fund for the liquidation of the debt. In those municipal corporations in which water works and sewerage systems are conducted as a single unit, under one operating management, a sum not to exceed ten per cent of the gross revenue of the water works for the preceding year may be taken from any surplus remaining after all of the preceding purposes have been cared for and may be used for the payment of the cost of maintenance, operation, and repair of the sewerage system and sewage pumping, treatment, and disposal works and for the enlargement or replacement thereof. Each year a sum equal to five per cent of the gross revenue of the preceding year shall be first retained from paid surplus as a reserve for waterworks purposes.<sup>23</sup> The amount authorized to be levied and assessed for waterworks purposes shall be applied by the legislative authority to the creation of the sinking fund for payment of any indebtedness incurred for the construction and extension of water works and for no other purposes; provided, where such municipal corporation does not operate or maintain a water works or a sewage pumping, treatment, and disposal works, any or all such surplus may be transferred to the general fund of the municipal corporation in the manner provided for in sections 5705.15 and 5705.16 of the Revised Code. [Ohio Rev. Code § 743.05]

---

<sup>23</sup> In other words, if there is an excess in the water works fund and the municipality has its own water works operation, the excess can only be used for expenses related to the operation, maintenance, or expansion of the waterworks. Not all municipalities have their own waterworks system. Therefore, some municipalities may provide water to their residents by obtaining the water from another source. Where this is the case, if (after satisfying expenses related to furnishing water) there is an excess, the municipality may transfer the excess to its general fund.

- Money may be transferred from the County Developmental Disabilities general fund to the County Developmental Disabilities capital fund established under Ohio Rev. Code § 5705.091, or to any other fund created for purposes of the County Board of Developmental Disabilities so long as it is spent for the particular purpose of the transfer. An unexpended balance in an account may be transferred back to the County Developmental Disabilities general fund. Transfers shall be done by resolution of the Board of County Commissioners. [Ohio Rev. Code § 5705.14(H)]
- Money may be transferred from the public assistance fund established under Ohio Rev. Code § 5101.161 to either of the following funds, so long as the money to be transferred from the public assistance fund may be spent for the purposes for which money in the receiving fund may be used [Ohio Rev. Code § 5705.14(I)]:
  - (1) The children services fund established under Ohio Rev. Code § 5101.144;
  - (2) The child support enforcement administrative fund established, as authorized under rules adopted by the director of job and family services, in the county treasury for use by any county family services agency.
- Money may be transferred among various funds and accounts from which a loss was directly attributable to allocate insurance and self-insurance program costs, including deductibles, under Ohio Rev. Code §§ 2744.08 and 2744.082. If a subdivision or joint self-insurance pool makes such an allocation or requires the payment of deductibles from specific funds or accounts, the subdivision's fiscal officer, pursuant to an ordinance or resolution of the subdivision's legislative authority, must transfer amounts equal to those costs or deductibles from the funds or accounts to the subdivision's general fund if both of the following apply:
  - (1) The subdivision requests payment from the employee responsible for the funds or accounts for those costs or deductibles [Ohio Rev. Code § 2744.082(A)(1)], and
  - (2) The employee receiving the request fails to remit payment within 45 days after the date the request is received [Ohio Rev. Code § 2744.082(A)(2)].
- The transfers listed above can be made only by resolution of the taxing authority passed with the affirmative vote of two thirds of the members. Transfers from the general fund require a resolution passed by a simple majority of the board members (i.e., a two thirds vote is not required for general fund transfers though a resolution passed by a simple majority is required. A simple majority constitutes a quorum of greater than 50% of the members.) [Ohio Rev. Code §§ 5705.14 & .16]

Per Ohio Rev. Code §§ 5705.15 & .16: In addition to the transfers listed above, which Ohio Rev. Code § 5705.14 authorizes, the taxing authority of any political subdivision, with the approval of the Tax Commissioner (effective 6/30/17)<sup>24</sup>, may transfer from one fund to another any public funds under its supervision, *except* the proceeds or balances of:

- loans,
- bond issues,
- special levies for the payment of loans or bond issues,
- the proceeds or balances of funds derived from any excise tax levied by law for a specified purpose, and
- the proceeds or balances of any license fees imposed by law for a specified purpose.

<sup>24</sup> Forms for the approval of the Tax Commissioner are available at <https://tax.ohio.gov/wps/portal/gov/government/forms-for-local-officials>.

**NOTE: Where a local government decided after the fiscal year end, to reimburse eligible expenditures made prior to fiscal year end with allowable federal programs authorized under the CARES Act: This reimbursement activity, while allowable, has considerations that should be evaluated to determine if they are accounted for correctly and addressed any cut-off considerations appropriately in the preparation of their financial statements. See further guidance in Appendix A-1 of the OCS Implementation Guide.**

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Periodic Reviews/Comparisons of Budgeted and Actual Transfers</li> <li>• Independent Inspection/Comparison of Transfers to Source Documents</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of Effective Accounting System</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Note:* Except for “prior approval by the governing authority,” transfers fail the “existence” assertion unless they satisfy the aforementioned legal requirements. Therefore, noncompliant transfers (e.g., material transfers from the self-insurance fund that are unsupported or transfers that permit spending the transferred amount in violation of its restricted purpose) represent misstatements and may require findings for adjustment. See Appendix A-1 in the *OCS Implementation Guide* for more information on determining allowability for Transfers and Advances. Auditors should also refer to the finding for adjustment guidance in the Ohio Compliance Supplement *Implementation Guide*.

1. Inspect documents authorizing transfers during the audit period and determine that transfers involving balances described below met the requirements above:
  - Unexpended bond balance;
  - Permanent improvement balance;
  - Bond retirement;
  - Special fund;
  - Auto registration;
  - Resolution;
  - Municipal corporation (motor vehicle license tax, motor vehicle fuel excise tax, water works);
  - Public assistance;
  - Developmental disabilities.

2. Determine if any material transfers were made from the proceeds or balances of:
  - loans,
  - bond issues,
  - special levies for the payment of loans or bond issues,
  - the proceeds or balances of funds derived from any excise tax levied by law for a specified purpose, or
  - the proceeds or balances of any license fees imposed by law for a specified purpose.
3. Determine if selected transfers were authorized by vote of the governing board as described above.
4. If applicable, determine if selected transfers were authorized by the County Budget Commission, or Tax Commissioner as described above.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**1-7 Compliance Requirement:** AOS Bulletin 1997-003 and various ORC sections – Advances.

Though no statutory provisions directly address inter-fund *advances*, the following requirements are in part derived from Ohio Rev. Code §§ 5705.10 (restriction on the purpose for which funds may be used); 5705.14, 5705.15, and 5705.16 (transfer of funds); 5705.39 (appropriations limited by estimated revenue); 5705.41 (restriction upon appropriation/ expenditure of money); and 5705.36 (certification of available revenue). AOS Bulletin 1997-003 sets forth the requirements for inter-fund advances and provides additional guidance for recording such transactions.

*Note:* This section applies when a subdivision purchases its own debt with its debt service fund cash, etc. pursuant to Ohio Rev. Code § 133.29 and accounts for it as *advances* and *interfund activity* in its financial statements. However, refer to Section 1-16 if the subdivision accounts for a purchase of its own debt as an *investment* and *debt*. See Ohio Rev. Code §§ 133.03 and 133.29, and Appendix A-1 of the *OCS Implementation Guide*, the Village Officer’s Handbook ([Ohio Village Officer's Handbook](#)), and the Ohio Township Handbook ([Ohio Township Handbook 03-19.pdf](#)) for additional guidance on legal requirements applicable to intra-entity borrowing. Ohio Compliance Supplement Chapter 1, Section 1-16 describes the legal compliance requirements for the issuance and retirement of manuscript debt.

**NOTE: As explained in the Transfers section (OCS 1-6), upon availability of federal award funding, entities should use advances to cover fund deficits if a CARES Act or Families First Act federal program is operating on a reimbursement basis. Auditors must evaluate whether schools meet the criteria in Ohio Rev. Code § 3315.20, which provides an allowable exception for school districts. A school district may have a deficit in any special fund (see Section 1-4 for a listing of possible “special” funds) of the school district, but only if all of the following conditions are satisfied:**

- **The school district has a request for payment pending with the state sufficient to cover the amount of the deficit. [Ohio Rev. Code § 3315.20(A)]**
- **There is a reasonable likelihood that the payment will be made. [Ohio Rev. Code § 3315.20(A)]**
- **The unspent and unencumbered balance in the school district’s general fund is greater than the aggregate of deficit amounts in all of the school district’s special funds. [Ohio Rev. Code § 3315.20(B)]**

**ODE is advance-funding many of the school CARES Act federal programs to schools, which would preclude a school district from satisfying the request for payment criterion above. Where this is the case, ORC 3315.20 cannot be relied upon to avoid advancement of funds to prevent fund cash deficits.**

**Summary of Requirements:** Inter-fund cash advances may be a desirable method of resolving cash flow problems without the necessity of incurring additional interest expense for short-term loans and to provide the necessary "seed" for grants that are allocated on a reimbursement basis. The intent for cash advances is to require repayment within the current or succeeding year. Inter-fund cash advances are subject to the following requirements:

- Any advance must be clearly labeled as such, and must be distinguished from a transfer. Transfers are intended to reallocate money permanently from one fund to another and may be made only as

authorized in Ohio Rev. Code §§ 5705.14 to 5705.16. Advances, on the other hand, *temporarily* reallocate cash from one fund to another and involve an expectation of repayment;

- In order to advance cash from one fund to another, there must be statutory authority to use the money in the fund advancing the cash (the "creditor" fund) for the same purpose for which the fund receiving the cash (the "debtor" fund) was established;
- The debtor fund may repay advances from the creditor fund. That is, the AOS would not deem repaying advances to violate restrictions on use of the debtor's fund resources; and
- Advances must be approved by a formal resolution of the taxing authority of the subdivision which must include:
  - A specific statement that the transaction is an advance of cash, and
  - An indication of the money (fund) from which it is expected that repayment will be made.
- When a fund ends the year with negative cash, it is not appropriate to present an *advance* on the budgetary statement to eliminate the negative cash fund balance. Even though, in substance, the government has made an advance, it is not acceptable to "hide" noncompliance by creating an advance not properly authorized by the government. However, the government should post an interfund receivable and payable to eliminate the negative cash balance on the GAAP financial statements. The government should select the fund to report the receivable.

#### Other Budgetary Considerations

The advances-out (initial loan and repayment) in the creditor (loaning) and debtor (borrowing) funds do not require appropriation as advances represent temporary allocations of resources. However, an amended official certificate of estimated resources should be obtained to reflect the reduced fund balance in the creditor fund and the increased fund balance in the debtor fund. Creditor fund appropriations must be evaluated based on the reduced estimated resources, and appropriation reductions may be required. Prior to obligation of advanced funds, the debtor fund must have sufficient appropriations to cover the anticipated expenditures.

Additionally, when a cash advance is outstanding at the beginning of a fiscal year in which repayment is expected, an adjustment is required to the total resources available for expenditure in the creditor and debtor funds. The unencumbered cash balance of the creditor fund must be increased by the amount of repayment expected during the fiscal year to produce the "carryover balance available for appropriation." Similarly, the unencumbered cash balance in the debtor fund must be reduced by the amount of repayment expected during the fiscal year to produce "carryover balance available for appropriation." This adjustment is made on the "certificate of the total amount from all sources available for expenditures, and balances" filed with the County Budget Commission pursuant to Ohio Rev. Code § 5705.36.

The official certificate of estimated resources must be prepared and provided in cases in which the Budget Commission waives the requirement that the taxing authority of a subdivision adopt a tax budget. Ohio Rev. Code § 5705.281(A) indicates the county budget commission by an affirmative vote of a majority of the commission, including an affirmative vote by the county auditor, may waive the requirement that the taxing authority of a subdivision or other taxing unit adopt a tax, but the taxing authority is still required to provide information to the commission in order for it to perform its duties, including dividing the rates of each of the subdivision's or taxing unit's tax levies. In addition, Ohio Rev. Code § 5705.34 requires the budget commission to certify its action to the taxing authority. Ohio Rev. Code § 5705.35(A) makes reference to "[t]he certification of the budget commission to the taxing authority of each subdivision or taxing unit, as set forth in section 5705.34 of the Revised Code...", and indicates that "[t]here shall be attached to the certification a summary, which shall be known as the 'official certificate of estimated

resources,’ that shall state the total estimated resources of each fund of the subdivision that are available for appropriation in the fiscal year...”.

Conversion to a Transfer

If, after an advance is made, the taxing authority determines that the transaction should, in fact, be treated as a transfer (repayment is no longer expected) the following procedures should be followed retroactively:

- The necessary formal procedures for approval of the transfer should be completed including, if necessary, approval of the commissioner of tax equalization and of the court of common pleas (see Ohio Rev. Code §§ 5705.14, 5705.15 and 5705.16);
- The transfer should be formally recorded on the records of the subdivision; and
- The entries recording the cash advance should be reversed.

Accounting for Manuscript Debt as an Advance and Interfund Activity

Before a taxing authority sells any securities of the subdivision to others, the taxing authority may offer the securities at their purchase price and accrued interest to the officer or officers who have charge of the bond retirement fund of the subdivision, or in the case of a municipal corporation, to the treasury investment board for investment under Ohio Rev. Code § 731.56, or an officer or similar treasury investment board having the authority under a charter. (Ohio Rev. Code § 133.29(A)) This type of debt is often referred to as “manuscript debt”. For more information, see the Manuscript Debt section in chapter 1-16 Compliance Requirement: Ohio Rev. Code §§ 133.29, 135.14, 135.35, 731.56-.58, 1995 Op. Att’y. Gen. No. 55-5263, and 1985 Op. Att’y. Gen. No. 85-072 - Governments investing in their own securities.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of Effective Accounting System</li> <li>• Independent Inspection/Comparisons of Advances and Source Documentation</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. If advance transactions occurred, review authorizing legislation and accounting records. Determine whether the advance transactions were in amounts and between accounting funds approved in the authorizing legislation.

2. Based on knowledge of the entity’s operations and review of levy legislation or other appropriate documents, determine whether the creditor fund’s purpose was reasonably consistent with the debtor fund’s purpose.
3. Determine whether prior period advances are outstanding. If advances have not been repaid within a reasonable period or within the period specified (if any) in the authorizing legislation, determine through inquiry of appropriate client officials when the advance will be repaid.
4. If the client no longer intends for the advance to be repaid or repayment is unlikely, issue a finding for adjustment if the amounts are material and the client does not take appropriate steps to convert the advance to a transfer following the above procedures.
5. If advances have been converted to transfers, determine whether the transfer requirements summarized in Ohio Compliance Supplement Section 1-6 have been complied with retroactively.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-8 Compliance Requirement:** Ohio Rev. Code §§ 5705.13, 5705.132, and 5705.29 - Reserve balance accounts and funds.

- Ohio Rev. Code § 5705.13(A) - Reserve balance accounts and funds;
- Ohio Rev. Code § 5705.13(B) – A special revenue fund may be established to accumulate cash for severance payments or salaries when the number of pay periods exceeds the usual and customary number for a year;
- Ohio Rev. Code § 5705.13(C) – Capital projects fund(s) may be established to accumulate resources to acquire, construct, or improve fixed assets;
- Ohio Rev. Code § 5705.29 – Contingencies may be established not designated for any particular purpose.

**Summary of Requirements:**

1. Ohio Rev. Code § 5705.13(A) allows a taxing authority of a subdivision to establish, by resolution, a reserve balance account<sup>25</sup> for each of the three following purposes:
  - a) Budget stabilization: may be created in the general fund or in any special fund used for operating purposes. The amount reserved in the account in any fiscal year must not exceed 5% of the fund's revenue for the preceding fiscal year<sup>26</sup>. The reserve balance is excluded from the unencumbered balance when certifying available balances at year-end. The reserve for budget stabilization may be reduced or eliminated at any time by the taxing authority.
  - b) Self-insurance program: may be created in the general fund or in the internal service fund established to account for the operation of the program. The amount to be reserved must be based on actuarial principles and the taxing authority may rescind the reserve balance account at any time.
  - c) Retrospective Ratings Plan for Workers' Compensation<sup>27</sup>: may be created in the general fund or in the internal service fund established to account for the program. The amount to be reserved must be based on actuarial principles and the taxing authority may rescind the reserve balance account at any time.
2. Ohio Rev. Code § 5705.13(B) allows a taxing authority to establish a special revenue fund to accumulate cash to pay accumulated leave, or for paying salaries when the number of pay periods

---

<sup>25</sup> Ohio Rev. Code § 5705.13 refers to these accounts as “reserve” accounts. However, for the GASB Statement No. 54 financial reporting that AOS Bulletin 2011-004 describes, the criterion for using the budget stabilization is not specific enough to meet the *committed* criteria and it does not meet the *restricted* criteria as the budget stabilization is not mandated by State statute. Therefore, a budget stabilization/reserve account should be reported as *unassigned* in the general fund. While statute also gives the authority to have stabilization reserve accounts in other operating funds, the fund balance is reported as *restricted*, *committed*, or *assigned* and the reserve account does not change the fund balance classification. Entity wide statements should report these as part of *unrestricted* net assets. Note: Bulletin 2020-008 simplified the reporting of fund balance classifications in the AOS regulatory cash basis financial statements and footnotes beginning with the December 31, 2020 FYE reporting.

<sup>26</sup> In the case of a reserve balance account of a county or of a township, the budget stabilization amount can be the greater of 5% of the fund's revenues from the preceding fiscal year or one-sixth of the expenditures during the preceding fiscal year from the fund in which the account is established, under Ohio Rev. Code § 5705.13(A)(3). This is our AOS opinion; however, statutory language is less than precise, and may be subject to an alternative interpretation if accompanied with a well-reasoned legal opinion.

<sup>27</sup> Various plans to provide for the payment of claims, assessments, and deductibles are allowed. Plans allowed are: payments under a self-insurance program, individual retrospective ratings plan, group rating plan, group retrospective rating plan, medical only program, deductible plan, or large deductible plan for workers' compensation.

exceeds the usual and customary number for a year. This leave includes payments for accumulated sick leave and vacation leave, or for payments in lieu of taking compensatory time off, upon the termination of employment or retirement. Money may be transferred to this fund from any fund from which the termination or salary payments could lawfully be made. The reserve must be established by resolution or ordinance and the taxing authority may rescind the fund at any time with the accumulated resources being returned to the fund from which they came. Amounts accumulated in this fund should be reasonable based on the taxing authority's estimated liability for benefits.

3. Ohio Rev. Code § 5705.13(C) provides that a taxing authority may create, by resolution, one or more capital projects funds<sup>28</sup> to accumulate resources for the acquisition, construction, or improvement of fixed assets, including motor vehicles. Each fund must be created by ordinance or resolution. The resolution or ordinance must identify the asset(s) to be acquired, the amount needed to be accumulated, the period over which the amount will be accumulated (with a limit of ten years from the date of the resolution or ordinance), and the source of the resources. Despite Ohio Rev. Code § 5705.14 through .16, money may be transferred to the capital projects fund from any other fund that could acquire, construct or improve the fixed assets. If a contract for the fixed asset(s) has not been entered into before the ten-year period expires, the money is returned to the fund from which it was transferred or that was originally intended to receive it. The taxing authority may rescind a capital projects fund at any time with the accumulated resources being returned to the fund from which they came. Auditor of State approval is not required for this transfer.
4. Ohio Rev. Code § 5705.132 permits *townships* to establish by resolution reserve balance accounts in addition to those described above to accumulate currently available resources for any purpose for which the board of township trustees may lawfully expend township money.<sup>29</sup> The resolution must state the:
  - Specific purpose for which a reserve balance account is established,
  - Fund within which it is established,
  - Fund or account from which money will be transferred to it,
  - Number of years it will exist [there is a five year cap on how long the account may be in existence]
  - Maximum total amount of money that may be credited to it during its existence; and
  - Maximum amount of money to be credited to it each fiscal year it exists

Reserve balance accounts established under this authority may exist for not more than five years beginning with the year in which money is first set aside. In addition, money in such an account can be expended only for the purpose for which the account is established.

Money may be transferred to these new reserve balance accounts from another township fund or account only if money in that fund or account may lawfully be expended for the purpose for which the new reserve balance account is created. Townships may create more than one reserve balance account under this section. However, the total amount of money credited to *all* of the reserve balance accounts established under this section cannot exceed, **at any time in any fiscal year**, 5% of the total of the

---

<sup>28</sup> Similar to the preceding note, GAAP/OCBOA governments should report these amounts as *committed, assigned, or restricted fund* balance as appropriate under the circumstances described in GASB Statement No. 54 in governmental fund statements. Entity wide statements should report this equity as part of *unrestricted net assets*, because the restrictions are not externally imposed. Note: Bulletin 2020-008 simplified the reporting of fund balance classifications in the AOS regulatory cash basis financial statements and footnotes beginning with the December 31, 2020 FYE reporting.

<sup>29</sup> Similar to reserve balance accounts created under existing law, reserves created under this section are not considered as an unencumbered balance or revenue of the township for purposes of annual budget reviews by the county budget commission. They are also not considered as an unencumbered balance or revenue for purposes of apportioning the county's undivided local government fund and the undivided local government revenue assistance fund.

township's revenue from all sources for the preceding fiscal year, plus any unencumbered balances carried over to the current fiscal year from the preceding fiscal year. There are three important aspects of this restriction. First, be aware that it is based on revenues only. Other financing sources such as debt proceeds or transfers will not count toward the calculation of the limitation.<sup>30</sup> Second, recognize that this language has the effect of allowing the same dollars to be counted twice in calculating the limitations, first when they were received in the prior year and second to the extent they are carried over as unencumbered into the current year. Finally, notice that the amount of the limitation changes each year because it is based on the preceding year's revenues.

If a township does not expect to spend the money set-aside in a reserve balance account in the upcoming year, the money in the reserve balance account need not be included in the certificate of year-end balances filed with the budget commission at the beginning of the year. If the township plans to spend the money that has been set aside, the township should include the money in the certificate of year-end balances. The money will then be included in the amended certificate of estimated resources and may be appropriated and spent during the year. Appropriations should be made to an account that reflects the purpose of the reserve. Appropriations should not be made to, nor expenditures made from, a reserve balance account. For example, assume in 2006 a township created a reserve balance account not to exceed \$40,000 in the motor vehicle license tax fund to purchase a new mower. \$10,000 is set aside each year from 2006 through 2009. In 2010, the \$40,000 is included in the certificate of year-end balances and appears as part of the amended certificate. The money is appropriated in the capital outlay account in the motor vehicle license tax fund and the new mower is purchased.<sup>31</sup>

Upon the expiration or rescission of a reserve balance account created under this section, any unexpended balance in the reserve account must be transferred to the fund or account from which money in the account was originally transferred. If money was transferred from multiple funds or accounts, a pro rata share of the unexpended balance must be transferred to each of them proportionate to the amount originally transferred from that fund or account.

**Note:** Steps 5 and 6 do not apply to a subdivision or taxing unit for which the county budget commission has waived the requirement to adopt a tax budget pursuant to section 5705.281 of the Revised Code. The tax budget shall present the following information in such detail as is prescribed by the Auditor of State.

5. Ohio Rev. Code § 5705.29(A)(1) Allows entities (except schools) to establish contingencies, not designated for any particular purpose (contingency reserve balance – spending reserve) and not to exceed 3% of appropriations for current expenses.
6. Ohio Rev. Code § 5705.29(A)(1) Allows school districts to establish contingencies, not designated for any particular purpose (contingency reserve balance – spending reserve) and not to exceed 13% of appropriations for current expenses.
  - a. In the fiscal year in which a levy is first extended, an estimate of expenditures to be known as a **voluntary contingency reserve balance**, which shall not be greater than 25% of the total amount of the levy estimated to be available for such year.(Ohio Rev. Code § 5705.29(E)(1)).
  - b. In the fiscal year following the year in which a levy is first extended an estimate of expenditures to be known as a **voluntary contingency reserve balance**, which shall not be greater than 20% of the total amount of the levy estimated to be available for such year. (Ohio Rev. Code § 5705.29(E)(2))

<sup>30</sup> Appendix IV-5 of the March 2019 [Ohio Township Handbook](#) lists all *Other Financing Sources*.

<sup>31</sup> For the purpose of setting aside money for the purchase of a capital asset, it may be easier and more convenient to create a separate capital projects fund under the provisions of Ohio Rev. Code § 5705.13.

The full amount of any reserve balance shall be retained by the county auditor and county treasurer out of the first semiannual settlement of taxes until the beginning of the next succeeding fiscal year where it shall be turned over to the board of education to be used for the purposes of such fiscal year. Except in cases where by two thirds vote, the board of education appropriates (for any lawful purpose) any amount withheld for this contingency during the fiscal year; wherein, the county auditor shall draw a warrant payable (from the districts account) to the district in the amount requested. (Ohio Rev. Code § 5705.29(E)(3-4))

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. If reserve balance accounts have been established:
  - Determine through vouching, review of minutes, and inspection of accounting ledgers and authorizing legislation, whether reserve accounts were only established in the general fund, special fund used for operating purposes or appropriate internal service fund and for permitted purposes (budget stabilization, self-insurance program, or retrospective ratings program for worker’s compensation).
  - Recalculate reserve percentages and inspect worksheets and accounting ledgers to determine whether the amount reserved exceeded the 5% cap (budget stabilization account). In the case of Townships or Counties see footnote 26.
  - For self-insurance and worker’s compensation reserve accounts, compare amounts reserved to estimates received from the entity’s actuary.
  
2. If a “severance payout reserve” or “capital improvement reserve” fund has been established:
  - Review minutes, ordinances and resolutions to determine whether the fund has been established by resolution or ordinance.
  - If a capital improvement reserve fund has been established, review the authorizing legislation to determine whether the assets; amount required; accumulation period (not to exceed ten years); and source of funding have been identified.

- Select a representative number of disbursement transactions from the fund. Through vouching, determine whether the transactions were only for related activities as indicated above, and in accordance with the purpose stated in the authorizing legislation.
  - Trace a representative number of transfers to the reserve fund and determine whether the transfers were from funds permitted to make the disbursements for which the reserve fund was established.
  - Determine through inspection of worksheets, ledgers and other such documents, whether records reasonably provide for the return of accumulated resources, to the fund from which they were originally transferred or the fund intended to receive them (If records do not reasonably provide for the proper return of resources, this situation would generally result in a recommendation; a noncompliance citation should not be made).
3. If the reserve fund was rescinded or if the ten-year period has elapsed prior to entering into a contract (capital improvement reserve fund), determine through inspection of worksheets and accounting ledgers whether the accumulated resources were returned to the fund from which they were originally transferred or the fund intended to receive them.
4. If a township has established an additional reserve balance account(s), determine whether the necessary resolution, stating the purpose of the reserve account, has been adopted by the board of trustees.
- Review monies transferred to the new township reserve balance accounts from other township funds or accounts and determine whether those monies may lawfully be expended for the purpose for which the new reserve balance account was created.
  - Determine whether the total amount of money credited to *all* of the reserve balance accounts established under Ohio Rev. Code § 5705.132 exceeded 5% of the total of the township's revenue from all sources for the preceding fiscal year and any unencumbered balances carried over to the current fiscal year from the preceding fiscal year.
  - Determine whether reserve accounts were only used for the purpose for which the account(s) was established.
  - Determine that none of the additional reserve balance accounts have existed for more than five years.
  - Upon the expiration or rescission of a reserve balance account created under Ohio Rev. Code § 5705.132, determine whether any remaining unexpended balance in the reserve account was transferred to the fund or account from which money in the account was originally transferred. If not, consider a finding for adjustment.
5. If an entity (other than a school district) has established a voluntary contingency reserve balance:
- Determine through vouching, review of minutes, and inspection of accounting ledgers and authorizing legislation, whether reserve accounts were only established in the general fund, special fund used for operating purposes or appropriate internal service fund and for permitted purposes (budget stabilization, self-insurance program, or retrospective ratings program for worker's compensation).
  - Recalculate reserve percentages and inspect worksheets and accounting ledgers to determine whether the reserve is limited to 3% of appropriations
  - For self-insurance and worker's compensation reserve accounts, compare amounts reserved to estimates received from the entity's actuary.

6. If school district has established a voluntary contingency reserve balance:
- Determine through vouching, review of minutes, and inspection of accounting ledgers and authorizing legislation, whether reserve accounts were only established in the general fund, special fund used for operating purposes or appropriate internal service fund and for permitted purposes (budget stabilization, self-insurance program, or retrospective ratings program for worker's compensation).
  - Recalculate reserve percentages and inspect worksheets and accounting ledgers to determine whether the amount reserved is limited to the lesser of:
    - 13% of appropriations for current expenses; or
    - 25% of the total amount of the levy estimated to be available for the initial year, or 20% in succeeding years.
  - For self-insurance and worker's compensation reserve accounts, compare amounts reserved to estimates received from the entity's actuary.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**ADDITIONAL COUNTY REQUIREMENTS**

**1-9 Compliance Requirement:** Ohio Rev. Code § 5101.144 - County Children Services Fund

**Summary of Requirements:** Requires that each county deposit all funds its public children services agency receives, regardless of source, into a special fund in the county treasury known as the children services fund.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. During revenue tests, trace a representative number of children services agency receipts to the fund.

<p><b>Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
---

**BOARD OF EDUCATION (SCHOOLS)**

**1-10 Compliance Requirement:** Ohio Rev. Code § 3313.33 - Board of Education (schools) conveyances and contracts.

**Summary of Requirement:** The board president and treasurer shall execute any “Conveyances.” No contract is binding unless authorized at a regular or special board meeting. A “conveyance” is not a donation; it is a transfer *between two entities* with adequate consideration other than money.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Trace board approval from the minutes to the contracts or from the contracts to the minutes.
2. Inspect “conveyances” for board president and treasurer signatures.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**1-11 Compliance Requirement:** Ohio Rev. Code Chapter 3318 (**Traditional School Districts**); section 501.10 Am. Sub. House Bill 64 and section 237.40 Am. Sub. House Bill 481 (**Community Schools**) – Permissible expenditures for school districts participating in classroom facilities assistance programs.

### Summary of the Program

#### Background:

Several programs provide financial assistance to construct or repair classroom facilities. The Ohio Facilities Construction Commission (OFCC) administers these programs. The most common programs are the Classroom Facilities Assistance Program (CFAP), Community School Classroom Facilities Grant Project, Expedited Local Partnership Program (ELPP), and Urban Initiative Program (i.e., applies to the following six city school districts: Akron, Cincinnati, Cleveland, Columbus, Dayton, and Toledo). Certain classroom assistance programs established by Ohio Rev. Code Chapter 3318 follow the basic guidelines of the CFAP.

#### Traditional School Districts:

##### *Locally Funded Initiatives:*

The OFCC informed us that a school district board may elect to add to the scope of any project and separately fund a scope of work (“local initiative”), which involves improving all or part of a project the OFCC funds. The school district board may request the OFCC to approve the incorporation of design and construction of the local initiative into the overall project. Whenever a local initiative is interconnected with a project the commission funds, the district and the commission will execute a memorandum of understanding to specify the additional cost of the local initiative and the terms and conditions for accounting for the cost. ***The district must account for the local initiative in a separate fund, NOT the project construction fund (USAS fund 010).***

The CFAP and related programs are discussed below.

##### *CFAP Basics:*

CFAP participation is based in part on the district’s relative wealth, the OFCC’s determination of the district’s facility needs, and the time elapsed since prior CFAP participation.

Project commencement is contingent upon the district obtaining:

- The district’s share of project costs, funded by:
  - An additional bond levy, and /or certain local resources available for such purpose [Ohio Rev. Code § 3318.084];
  - The proceeds of a property tax/income tax levy, or a combination of both [Ohio Rev. Code § 3318.052];
  - Local Donated Contributions – Federal Grant Moneys, Moneys Granted Donated or Granted, Letters of Credit, Cash on Hand, Non-3318 Bond, Lease Purchase Proceeds authorized by Ohio Rev. Code § 3318.084(A)(1);
  - Local Contribution Spent Directly by a Third Party Source, [Ohio Rev. Code § 3318.084(C)(4)]; or

- Expedited Local Partnership Program (ELPP) Credit, [Ohio Rev. Code §3318.36].
- Funding the district’s one-half mill maintenance obligation by:
- The Board levying an additional maintenance tax<sup>32</sup> of at least one-half mill [Ohio Rev. Code §§ 3318.05(B), 3318.06(A)(2)(a) and (A)(3), and 3318.17],
  - The Board electing, to satisfy its local maintenance requirement by earmarking from the proceeds of an existing permanent improvement tax levied under Ohio Rev. Code § 5705.21, an amount equivalent to the amount of the additional tax described above or the District may elect to satisfy its local maintenance requirement by a combination of the half mill levy and the alternative funding source,
  - Applying the proceeds of a property or tax proceeds of an income tax, or a combination thereof, [ Ohio Rev. Code §§ 3318.052], or
  - Electing to use a locally donated contribution under section 3318.084 of the Rev. Code. [Ohio Rev. Code §§ 3318.05(B), and 3318.06(A)(2)(b)]
    - Per Ohio Rev. Code § 3318.084(C) the *Locally Donated Contribution* is defined as:
      - Any moneys (which the board has the authority to apply to the project under 3318.01 to 3318.20) irrevocably donated or granted to a school by a source other than the state.
      - Any irrevocable letter of credit issued on behalf of the school encumbered for payment of the project.
      - Any cash the school has on hand encumbered for the project, including
        - Year-end opening fund balances that can be spent for classroom facilities.
        - Cash from lease-purchase agreement made under Ohio Rev. Code § 3313.375, provided the State holds a superior interest in the project.
    - A district may deposit into its maintenance fund, annually for 23 years, an amount from other district resources equal to 1/2 mill of the district's tax valuation<sup>33</sup>, instead of levying the maintenance tax<sup>34</sup>. The district’s board must pass a resolution petitioning the Ohio

---

<sup>32</sup> The original regulations required a ½ mill levy, all of which was remitted to the State to repay project funding received. Later regulations still required the levy (or other funding), but provided that all or a portion would be retained by the district, to be used for maintenance of project facilities. All such funding is referred to as “maintenance funding” in this OCS Section. Some districts have entered into supplemental agreements which subject the district to the amended regulations.

<sup>33</sup> Joint vocational school districts participating in a state facilities program, annually for 23 years, must deposit into a maintenance account an amount equal to 1.5% of the current insurance value of the acquired facilities. [Ohio Rev. Code § 3318.43]

<sup>34</sup> If a district board determines that it can no longer continue making the annual transfers, the act allows a district board to rescind its decision, but only if the district's voters approve the levy of a maintenance tax. The levy must be in effect for the remainder of the 23-year maintenance period (23 years minus the number of years that the district made transfers) and must be for not less than ½ mill for each dollar of district valuation. The act prescribes the ballot language to be used. A district electing to make the transfers authorized by the act is not relieved from its obligation to make annual deposits into its general "capital and maintenance fund," which applies to all districts under continuing law.

Facilities Construction Commission to approve the arrangement. (Ohio Rev. Code §§ 3318.05, 3318.051, and 3318.084)

The district treasurer must annually certify to the OFCC and the Auditor of State that the amount required for the year has been transferred<sup>35</sup> into the maintenance fund.

- In order to satisfy the transfer certification requirement to the Auditor of State, districts can electronically submit the copy of the Auditor of State’s certification to [OFCC@OhioAuditor.gov](mailto:OFCC@OhioAuditor.gov) or carbon copy the Auditor of State regional offices on their certification to the Commission. See the Auditor of State website [www.ohioauditor.gov](http://www.ohioauditor.gov) (Contact Us/~~Locations and~~ Regional Office Contacts) for regional office contact information.
- The Auditor of State must “verify” the transfer as part of any audit of the district. If the Auditor of State finds that less than the required amount has been deposited, the Auditor must notify the district board in writing and require the board to deposit the necessary money within 90 days after the notice. If the district board fails to demonstrate to the Auditor's satisfaction that it has made the required deposit, the Auditor must notify the Ohio Department of Education. Upon that notice, the Ohio Department of Education must withhold 10% of the district's state operating funds for the current fiscal year, until the Auditor notifies the Ohio Department of Education that the Auditor is satisfied that the board has made the required transfer (Ohio Rev. Code § 3318.051(B)).
  - *Note:* Auditors should consult with the Auditor of State’s Legal Division if noncompliance is identified. The Auditor of State Legal Division will prepare the written notification to the school district board and to the Ohio Department of Education, if necessary. IPA’s should notify the Auditor of State’s Center for Audit Excellence if noncompliance is identified. The Auditor of State Center for Audit Excellence will then consult with the Auditor of State Legal Division as appropriate.
- Districts are to establish a project construction fund (Ohio Rev. Code § 3318.08) to account for project funding and expenditures (USAS fund 010),<sup>36</sup> and a project maintenance fund (Ohio Rev. Code § 3318.05) to account for maintenance or upgrade (upon approval of the OFCC) funding and expenditures (USAS fund 034). ***Districts should not account for local funding initiatives in these funds. Rather, a separate fund should be established.***
- The maintenance fund can only be used to maintain and repair completed facilities as identified in the approved maintenance plan, including preventative maintenance, periodic repairs, and the replacement of facility components. Routine janitorial and utility costs, equipment supplies and personnel costs associated with the day-to-day housekeeping and site upkeep are not allowable expenditures. No moneys other than costs associated with the development of the preventive maintenance plan may be expended out of fund 034 prior to the approval of the maintenance plan by the Commission. The construction manager is required to initiate the process of developing the plan at least six months prior to the completion of any facility for occupancy. [Legal criteria: The maintenance plan approved by the Commission, as evidenced by a formal approval letter]

---

<sup>35</sup> Districts electing to make the transfers, instead of levying the maintenance tax, may not receive the new state maintenance equalization payments. (*The Ohio Department of Education is required to pay an equalized subsidy to city, exempted village, and local school districts participating in state-assisted facilities programs and have tax valuations per pupil below the statewide average. The subsidy equalizes to the statewide average the per pupil amount each eligible district raises from its 1/2-mill maintenance levy.*) [Ohio Rev. Code § 3318.18]

<sup>36</sup> AOS Bulletin 2001-007 includes USAS accounting and legal guidance for the CFAP program. The accounting guidance still applies, but auditors should not rely on the legal guidance of that bulletins because some of it is outdated.

- Upon notification of eligibility for state funding, a school district may opt to divide its entire classroom facilities needs into discrete segments. With this option, the district can raise the local share of the segment instead of the larger local share of the entire facility needs and still obtain state matching funds. (see more details in [OFCC planning policy PL-13 Segmenting Projects](#)).

***CFAP Written Agreement [Ohio Rev. Code § 3318.08]:***

Prior to project commencement the Commission and school district enter into a written agreement (“Project Agreement”). The Project Agreement is the contract between the district and the Commission. There can be many attachments to the Project Agreement and amendments to the Project Agreement. Some of the common attachments include schedules of the alternative funding sources for both the local portion for construction and/or the maintenance levy, and a Memorandum of Understanding (MOU) which sets forth the specific terms and conditions of the Local Initiative. The agreement and the applicable attachments, in part, will provide for the following:

- Sale and issuance of bonds or bond anticipation notes equal to the district’s share of basic project costs (to be deposited into the district’s project construction fund (USAS 010), and the transfer of approved local resources (if any) to the project construction fund. (***Note: the district’s local share of the project costs is not the same as a “locally funded initiative”. Locally funded initiatives should be accounted for in separate funds, not Fund 010.***)
- Authorization to advertise for, receive, and award construction bids for the project, subject to Commission approval.
- Provisions for the disbursement of moneys from the district’s project account upon issuance by the commission for work done, to be certified to the commission by the board treasurer. Disposition of any balance left in the project construction fund after completion of the project:
  - Regarding investment earnings attributable to the school’s own contributions to the project, if there is not an amendment on the project, the school should either: retain them in its project construction fund for future projects, transfer them to its project maintenance fund,<sup>37</sup> or transfer them to its permanent improvement fund. [Ohio Rev. Code § 3318.12(C)(1)] If an amendment did occur, the local and state interest is spent before new, amended dollars.
  - If there is not an amendment on the project, the school should transfer investment earnings attributable to the state’s contribution to the Facilities Construction Commission [Ohio Rev. Code § 3318.12(C)(2)] If an amendment did occur, the local and state interest is spent before new, amended dollars.
  - Any other surplus remaining in the school district’s project construction fund after the project’s completion shall be transferred to the commission and the school district board in proportion to their respective contributions to the fund. [Ohio Rev. Code § 3318.12(C)(3)]
  - The Facilities Construction Commission may unilaterally issue a Closeout Certification [Ohio Rev. Code §§ 3318.12 and 3318.48].

***Note:*** There are exceptions to some of these general requirements. Auditors should review the terms of the district’s project agreement, and any attachments or amendments to the agreement, to determine requirements specific to the project.

---

<sup>37</sup> These monies shall be used solely for maintaining the classroom facilities included in the project.

**School Building Assistance Expedited Local Partnership Program** [Ohio Rev. Code §§ 3318.36 and 3318.364]

- The Expedited program allows school districts to choose to fund a distinct portion of their Facilities Master Plan through local monies prior to the time their state funding becomes available. Once a district enters CFAP they receive credit against their required local contribution for the work completed under the Expedited program. None of the CFAP specific requirements related to the tracking and disposing of interest earnings apply to school districts participating in the Expedited Local Partnership Program (ELPP). Districts are required to separately account for the ELPP project, it could be in Fund 010 in separate cost centers from the CFAP project, or in another capital projects fund.
- If the district participates in these facility projects, auditors should review the terms of the agreement and identify those requirements which may be material.
- Additional information is available in [OFCC planning policy PL-01 Expedited Local Partnership Program Guidelines](#).

**Related Programs:**

**Other Ohio Revised Code Chapter 3318 programs include:**

- **Exceptional Needs School Facilities Assistance Program** [Ohio Rev. Code § 3318.37]
  - The Exceptional Needs program provides assistance to lower wealth districts with an exceptional need for immediate classroom facilities assistance, as determined by the Commission. The program is specifically designed for replacement as opposed to expansion or renovation.
- **Joint Science, Technology, Engineering, and Mathematics (STEM) Program** [Ohio Rev. Code § 3318.71].

Guidelines for the acquisition of classroom facilities for the STEM program are established by the Ohio Facilities Construction Commission. These guidelines can be found on the OFCC site at: <http://ofcc.ohio.gov/ServicesPrograms/K-12Schools/OtherK-12Programs.aspx>. The commission shall also provide funding to assist a **qualifying partnership**<sup>38</sup> in accordance with Ohio Rev. Code § 3318.11. The qualified partnership's fiscal agent, a member district, may levy taxes in excess of the ten-mill limitation (Ohio Rev. Code § 5705.2112) to use for all or part of the acquisition.

These programs follow the basic CFAP requirements discussed above, though there are differences. Districts will enter into agreements with the Commission. If the district participates in these facility projects, auditors should review the terms of the agreement and identify those requirements which may be material. When making that determination, auditors should consider the requirements and procedures addressed in this Ohio Compliance Supplement Section for the CFAP program.

**The Alternative Facilities Assistance Program (AFAP) [Ohio Rev. Code § 3318.39]**

A district that opts to receive assistance under this section shall:

1. Match the amount of state funds it receives on at least a one-to-one basis. (A district may generate the school district funds for its match using any lawful manner),
2. Have the district's board of education approve participation by an affirmative vote of not less than four-fifths of the board's full membership,
3. Not have another project under sections 3318.01 to 3318.20 of the Revised Code, in the case of a city, exempted village, or local school district, or sections 3318.40 to 3318.45 of the Revised Code,

---

<sup>38</sup> A **qualifying partnership** is a group of city, exempted village, or local school districts which meet the following criteria: (1) the districts are part of a career-technical education compact, the districts have entered into an agreement for joint or cooperative establishment and operation of a STEM education program under Ohio Rev. Code § 3313.842, and (3) the aggregate territory of the districts is located in two adjacent counties, each having a population greater than 40,000 but less than 50,000, and at least one of which borders another state. [Ohio Rev. Code § 3318.71]

in the case of a joint vocational school district, conditionally approved until the expiration of twenty years after the date the district enters into an agreement with the commission for assistance under this section.

Additional information related to AFAP:

- A District using AFAP will receive a reduced state share in an amount the greater of either \$1 million or 10% of the State share of the District's basic project cost.
- The State's portion of the project will occur as a reimbursement proportional to the overall project size.
  - To seek reimbursement the District must demonstrate eligible work has been completed. Final payment will be made only after the District has demonstrated the project is operable and complete.
- Districts must submit documentation and financial reporting for AFAP project bidding and construction phases, to allow for accurate calculation of reimbursement.
- Within six months of occupancy the District and the Commission will develop a project closeout report. This report will reflect all expenditures made by the District and reconcile the State and Local shares of the project.
- The Commission reserves the right to review or audit District financial records, however, a formal AUP process is not required.

Guidelines for this program can be found on OFCC's website:  
<http://ofcc.ohio.gov/ServicesPrograms/K-12Schools/AFAP.aspx>

***Interfund Activity:***

During the project

Ohio Rev. Code § 3318.12 permits a school district board, by resolution, to use all or part of the interest attributable to the district's share of moneys in the project construction fund to pay the cost of local initiatives that are not included in the state-assisted project, but that are related to it. If a district board chooses to use some or all of the interest attributable to its share of the fund for local initiatives and, later, the cost of its state-assisted project exceeds the amount in the fund, the district must re-pay all of the interest used for those initiatives before further state funds will be released for the project.

After the project is completed

Ohio Rev. Code § 3318.12(B)(2) permits a school district board at its option, by resolution, to transfer the interest attributable to its local share in the project construction fund to its permanent improvement fund (where presumably it could be spent on any permanent improvement) or to leave that interest in the project construction fund to pay the cost of future projects. A district board also may choose to transfer the interest to the district's maintenance fund. In either case, interest attributable to the state's share of the project construction fund must be returned to the state.

***OFCC Agreed-Upon Procedures (AUP) Engagements:***

OFCC conducts AUP engagements on select school districts that are in the construction phase. All school districts participating in classroom facilities programs will receive an AUP engagement at least once during a project's lifetime. The firms of Kennedy Cottrell Richards (who merged with Rea & Associates 9/1/2020) and Julian & Grube, Inc. conduct these engagements and are in good standing with the Auditor of State's Office.

The focus of the AUP engagements is accountability and compliance with the terms of the OFCC Project Agreement (including any amendments thereto) and Ohio Rev. Code Chapter 3318. The firms test the following areas, as applicable:

- deposit of project funds (both State and Local)
- spending of project funds
- interest earnings and allocation to the appropriate funds

- escrow accounting
- the closeout process

OFCC forwards the results of the AUP engagements to the Auditor of State, who then distributes the reports to regional chief auditors and independent public accounting firms. Pursuant to ~~2014 Government Auditing Standards paragraph 4.05~~ 2018 GAGAS 6.11 (fiscal periods ending 6/30/2020 and later), “auditors should evaluate whether the audited entity has taken appropriate corrective action to address findings and recommendations from previous engagements that could have a material effect on the financial statements or other financial data significant to the audit objectives. When planning the audit, auditors should ask management of the audited entity to identify previous audits, attestation engagements, and other studies that directly relate to the objectives of the audit, including whether related recommendations have been implemented. Auditors should use this information in assessing risk and determining the nature, timing, and extent of current audit work, including determining the extent to which testing the implementation of the corrective actions is applicable to the current audit objectives.”

### Community Schools:

#### ***Community School Classroom Facilities Grant Program***

In June 2015, Section 501.10 of Am. Sub. House Bill 64 authorized the creation of the Community School Classroom Facilities Grant Program (and in June 2020, Section 237.40 of Am. Sub. House Bill 481 appropriated additional funds). The acts permit the Commission to provide grants for the purchase, construction, reconstruction, renovation, remodeling, or addition to classroom facilities to (1) "eligible high-performing community schools" and (2) newly established community schools that are implementing a model that has ~~have~~ a track record of high quality academic performance. Further details about this program can be found on the OFCC site: <https://ofcc.ohio.gov/Services-Programs/Grants/Community-School-Classroom-Facilities-Grants-Round-3>, or ODE site: <http://education.ohio.gov/Topics/Community-Schools/Community-Schools-Classroom-Facilities-Grants>

**Note:** This is a relatively new program and is likely to qualify as direct and material for any school that receives it<sup>39</sup>. The OFCC is not requiring AUPs over these projects at this time. Therefore, include procedures as necessary in accordance with the grant agreement.

#### **POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** In assessing the risk of noncompliance, auditors should consider whether an AUP report that covered at least six months of the period under audit is available from OFCC. If so, auditors should evaluate the results of the AUP to assess the risk of noncompliance.

<sup>39</sup> The schools approved for grants in round 1 are listed here ([ODE 2016-2017 Annual Report.pdf](#) pg. 29) and round 2 are listed here ([OFCC Awards Community School Facility Grants.pdf](#)). Round 3 grants will likely be issued as 133 GA H.B. 481, Section 237.40 appropriated funding for such.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Ticker Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

**Agreed-Upon Procedures (Traditional Schools ONLY):**

1. Per GAGAS 2018 6.11, inquire whether OFCC conducted an AUP engagement over the district’s construction project. If so, obtain a copy of the AUP report, place it in the permanent file, and perform the following:
  - a. Determine what period was covered by the AUP engagement procedures.
  - b. Determine the extent of testing performed over the district’s construction activity. Auditors **may** ~~rely on~~ use the AUP engagement to assess the risk of noncompliance to determine the extent of compliance testing below, ~~reduce the scope and extent of the audit steps enumerated below.~~ *However, Auditors should review the reported procedures to determine whether they apply: (1) only once during a project’s lifetime, or (2) if they are ongoing and should be tested annually. For example, we would expect tests of allowability of expenditures to be tested annually during the construction phase. However, the establishment of the appropriate project funds/special cost centers would only be applicable once, generally at the onset of the project. Therefore, testing of type (1) requirements (i.e., applicable one-time only) does not need to be repeated each year. Auditors may refer to prior year testing or an existing AUP engagement, regardless of the period covered, to satisfy these requirements. However, an AUP engagement may only be used to reduce testing of the steps below for type (2) requirements (i.e., applicable on an ongoing basis each year) if the period covered by the AUP engagement included at least six months of the current period under audit. Auditors should carefully read the AUP procedures to ensure they obtain an appropriate understanding of the testing procedures performed when making this assessment.*
  - c. Determine whether any significant findings or recommendations requiring corrective action or follow up were included in the results of the AUP report. If so, determine whether the district has corrected the noncompliance or can document satisfactory progress towards addressing the noncompliance. Auditors should *annually* evaluate the significance of uncorrected items for inclusion in the current audit report.
    - o If the school is not adhering to agreed upon timetables for corrective action, etc., auditors should consider reporting noncompliance. Noncompliance findings should include the following: (1) a reference to the existing noncompliance such as, “... in a report dated XX, AOS or an accounting firm reported noncompliance with ORC 3318.YY”, and (2) a description of the status of the noncompliance as of the date of the current audit report.

2. Review the project agreement between the district and OFCC. Considering the requirements specific to the project, perform the following procedures (document specific requirements relevant to the following tests):

**Project Funding:**

3. Scan the accounting records to determine if the proper activities are being recorded in the project activities fund (USAS 010). Determine if the District/STEM school is accounting for the following four revenue streams **separately**: (1) Local Revenue, (2) Interest on Local Funds, (3) State Revenue – aka “drawdowns”, and (4) Interest on State Revenue.
4. Determine if the District/STEM school deposited the local share funds required by the Project Agreement into fund 010 for both the original contribution and any amendments.
5. Select contracts and related contract expenditures and determine through inspection, vouching, or other such means that contracts were awarded using competitive bidding procedures.
6. Vouch a few transactions from fund 010 for allowable cost as defined in the agreements. We are not opining on this program, so we do not require a high level of assurance. Testing high dollar transactions and scanning other selected transactions should suffice. Review the supporting documentation to determine if the expenditure was:
  - a. allowed under the terms of the Project Budget Policy (OFCC policy number: [OP-FI-02, rev. Dec. 2017](#));
  - b. if it was processed in OAKS CI;
  - c. if it excludes any costs for a locally funded initiative;
  - d. if the amount paid agrees with the invoice and
  - e. if it is recorded in the correct amount in the correct fund.
  - f. If the District did not properly segregate transactions into a project construction fund (i.e., did not establish fund 010), report noncompliance accordingly. Auditors should also consider reporting a finding for adjustment. See the *OCS Implementation Guide* for guidelines pertaining to Findings for Adjustments.
7. Scan interfund activity in fund 010. Determine whether material transfers or advances were properly approved and/or allowable under Ohio Rev. Code. If an advance is repaid out of fund 010, request the District/STEM school provide the approval letter from the OFCC which authorized the reimbursement.

**Maintenance Funding:**

8. Inquire with the client or review capital asset records to determine if the District/STEM school ever had an OFCC project. If so determine whether or not the project maintenance fund (USAS fund 034) has received the required ½ mill and expenditures were in accordance with the approved maintenance plan for the entire 23 years. **Note:** If they are using the alternate maintenance obligation see the section below.
9. Vouch a few disbursement transactions from fund 034. We are not opining on this program, so we do not require a high level of assurance. Testing high dollar transactions and scanning other selected transactions should suffice. Determine whether expenditures were only for maintenance of the funded project facilities in accordance with the district’s approved maintenance plan. (If the District/STEM school did not segregate transactions related to project maintenance (i.e. did not establish fund 034), report noncompliance accordingly. As noted above, the only allowable expenditures out of fund 034 prior to the completion of the project are for the costs associated with the development of the maintenance plan.

**Locally Funded Initiative (LFI):**

10. If applicable, review accounting records and related documents and determine if the district/STEM school established a separate fund, or special cost center in a fund other than Fund 010, to track receipts and expenditures related to a locally funded initiative.
11. Vouch selected disbursement transactions from the LFI fund/special cost center. We are not opining on this program, so we do not require a high level of assurance. Testing high dollar transactions and scanning other selected transactions should suffice. Determine whether expenditures were: (1) processed in OAKS CI, (2) in agreement with the vendor invoice, and (3) in compliance with the district's/STEM school's approved Memorandum of Understanding with the OFCC. If the district/STEM school did not segregate transactions related to LFI (i.e. did not establish a separate fund or a separate special cost center in a fund other than Fund 010), report noncompliance accordingly.

***Alternate Maintenance Obligation:***

12. Determine whether the school district/STEM school has elected to use the new alternative mechanism for meeting its maintenance obligation. If so, obtain the district's annual certification<sup>40</sup> to the Commission and determine if the school district carbon copied the Auditor of State regional office that the amount required for the year has been transferred into the maintenance fund.
13. IPA's perform agreed-upon procedures reports to serve as certification. Obtain a copy of this AUP report from the district and review for noncompliance. If the school district has deposited less than the required amount, determine whether AOS sent the required written notification to the district board mandating the necessary deposit within 90 days of the notice.

***Interfund Activity:***

14. Determine whether the district/STEM school transferred interest out of the Project Construction Fund (Fund 010) during the audit period. If so, determine whether:
  - the district/STEM school board adopted a resolution approving the transfer
  - the monies transferred represented only interest attributable to the district's local share of the project
  - the monies were transferred to the appropriate funds and accounts. (*Note: the OFCC recommends using the Transfer-Out appropriation and Transfer-In receipt accounts to record this activity.*)

***Surplus Balance:***

15. If a surplus remained after project completion, inspect the district's records supporting the distribution of the surplus. Determine whether the proper amounts were returned to the OFCC on and transferred to the district's respective funds.

***Community School Grants:***

---

<sup>40</sup> The following is sample annual certificate language: "The undersigned Treasurer of the Board of Education of the XYZ District, YYY County, Ohio hereby certifies that a resolution was duly passed by the Board of Education of said School District on MM/DD//YYYY to transfer \$XX,XXX from the General Fund to the OFCC Facility Maintenance Special Revenue Fund."

16. If material grant revenues were received<sup>39</sup>:

- Determine if there were related expenditures made during the audit period, and test them for compliance with significant grant agreement provisions.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

*Section B: Contracts and Expenditures*  
**NONE**

## Section C: Debt

### COMMUNITY SCHOOLS

**1-12 Compliance Requirement:** Ohio Rev. Code §§ 3314.03, 3314.08 and 2015 Ohio Op. Att'y Gen. No. 2015-007- Foundation anticipation notes Debt.

*Note: This section applies if the community school had any previous debt still outstanding/being repaid during the current audit period, or new money loaned to/from the school during the current audit period*

#### Summary of Requirement:

##### Allowable community school debt:

- A community school may borrow money to pay any necessary and actual expenses in anticipation of State Foundation receipts. The school may issue notes to evidence such borrowing. The proceeds of the notes shall be used only for the purposes for which the school may lawfully expend the anticipated foundation receipts. [Ohio Rev. Code § 3314.08(G)(1)(a)]
- A school may also borrow money for a term not to exceed fifteen years to acquire facilities. [Ohio Rev. Code § 3314.08(G)(1)(b)]
- A community school may borrow money from the school's operator (ie. facilities loans / cash flow assistance), but such must be accounted for, documented, and bear interest at a fair market rate. [Ohio Rev. Code § 3314.03(A)(30)]

##### Unallowable community school debt:

- A community school cannot levy taxes or issue debt secured by taxes. [Ohio Rev. Code § 3314.08(E)]
- As mentioned in Section 2-22 of the Ohio Compliance Supplement, a community school's Treasurer should not loan money to a community school they work for, as this could violate Ohio Rev. Code § 2921.42.
- Community schools do not have legal authority to make loans to other community schools. Consult with AOS legal & CFAE if such a loan is encountered on either the loaning or recipient community school audit. A Finding for Recovery may be issued against the community school receiving the funds as part of the audit of the community school loaning the funds.<sup>41</sup>
  - Unless a specific statute authorizes a public entity to loan public moneys, the public entity is without authority to do so. [2015 Ohio Op. Att'y Gen. No. 2015-007 (Mar. 6, 2015)]
  - While Ohio Rev. Code § 3314.08(G)(1)(a) states a community school may borrow money, R.C. Chapter 3314 does not authorize a community school to loan money.

<sup>41</sup> **Updated January 2021; (changes noted in bold font)** - Although this would not be noncompliance at the receiving school, if such is noted being received by a community school, consult with AOS legal & CFAE. **Legal will evaluate and determine if a FFR should be issued in the audit report of the loaning school. As a general rule, FFRs will be issued only for loans entered into after the issuance date of the related AOS Bulletin.** Additionally, AOS legal and CFAE should notify the applicable regional Chief Auditors and Chief Deputy Auditor, or his designee, if a FFR should be issued in another community school's audit report. **Further implementation details will be included in the upcoming Bulletin.**

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Ticker Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. By reading the minutes, inspecting receipts journals, and by inquiry, determine whether or not the School issued received any type of debt proceeds during the audit period<sup>42</sup>.
  - a. Examine disbursements made of the proceeds to determine that they were used only for the purposes described in the debt agreement.
  - b. Determine that moneys borrowed were not collateralized by taxes.
  - c. Determine that moneys borrowed to acquire facilities are for a term of fifteen years or less.
  - d. Determine if the type of debt was allowable.
  
2. For any previous loans still outstanding/being repaid during the current audit period, new money loaned to/from the school during the current audit period, determine if:
  - a. The type of debt was allowable
  - b. Moneys were borrowed from the school’s operator... If so, were they accounted for (recorded in accounting records / financial statements), documented, and bear interest at a fair market rate<sup>43</sup>?

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

<sup>42</sup> Also consider referencing the [5 year forecast](#) as another source indicating possible debt to evaluate.

<sup>43</sup> If the interest rate does not approximate market rates at the time of issuance, determine if a reasonable rate should be imputed... (Imputing interest, if material, is required by GASB Cod. I30 paragraphs 101-115 for full accrual statements.).

## ENTITIES OTHER THAN COMMUNITY SCHOOLS

**1-13 Compliance Requirement:** Ohio Const. Art. XII, Section 11; Ohio Const. Art. XVIII, Section 12, Ohio Rev. Code §§ 133.10, 133.22, ~~133.23~~, 133.24, ~~133.26~~, 167.041, 308.08, ~~308.09~~, 321.34, ~~505.262~~, 505.401, ~~3318.36~~, ~~5531.10~~, 5705.03, 5705.05, 5705.09, 5705.10 and 5705.2113; 1981 Op. Att’y. Gen. No. 81-035 and 1996 Op. Att’y. Gen. No. 96-048 – Issuing or Retiring Bonds and Notes.

### Summary of Requirements:

#### *Common Types of Debt*

**BACKGROUND INFORMATION:** Per Ohio Rev. Code § 133.01(Q), *general obligation (G.O.)* securities are those collateralized by a pledge of taxing authority, up to the subdivision’s available tax limit (sometimes described as a taxing authority’s “full faith, credit and taxing authority.”)

The following are examples of securities that are **not** general obligations:

Ohio Rev. Code § 133.01(LL) defines *self-supporting securities* as securities, or portions of securities where the fiscal officer estimates that revenue sources, excluding taxes, are sufficient to pay for operating costs plus debt service. These are securities collateralized by pledged revenue,<sup>44</sup> without a pledge of taxes. Enterprise utility operations often issue self-supporting securities. Ohio Rev. Code § 133.01(MM) lists the various subdivisions authorized to issue self-supporting securities; such as municipalities, townships, counties, school districts, and certain other districts. (See the statute for a complete list.) Ohio Rev. Code § 133.01(MM) does not list community schools.

Ohio Rev. Code § 133.08(D) defines *revenue* securities as those a county issues, collateralized only by pledged revenue and which are not secured by a county’s full faith, credit and taxing authority.

Ohio Const. Art. XVIII, Section 12, authorizes a municipality to issue bonds collateralized by pledged revenues or mortgages to acquire, construct, or extend public utilities. These bonds do not impose any liability on the municipality, except the creditor’s right to the pledged revenue and / or mortgage. That is, this debt is not a general obligation.

#### *Issuance of Securities*

Ohio Const. Art. XII, Section 11 states that "[n]o bonded indebtedness of the state, or any political subdivision thereof, shall be incurred or renewed unless, in the legislation under which such indebtedness is incurred or renewed, provision is made for levying and collecting annually by taxation an amount sufficient to pay the interest on said bonds, and to provide a sinking fund for their final redemption at maturity."

Ohio Rev. Code § 5705.03 provides that the taxing authority of each subdivision may levy sufficient taxes annually as are necessary to pay the interest and sinking fund on and retire at maturity the bonds, notes and certificates of indebtedness of such subdivision subject to the limitations of applicable statutes.

Ohio Rev. Code § 133.23 describes the legislation required to authorize new securities. Per Ohio Rev. Code § 133.23(C), legislation must identify the source(s) of repaying the bonds, which may be **any** moneys required by law to be used, or lawfully available, for the purpose authorized. If the bonds are general obligations, or a property tax otherwise must be levied for the debt service, the legislation shall provide for levying a property tax sufficient to pay the bonds’ debt charges; but the tax amount levied or collected in

<sup>44</sup> *Pledged revenue* is revenue the debt legislation or covenant provisions pledged as collateral to the debt owners.

any year may be reduced by the amount to be available from special assessments,<sup>45</sup> revenues and surplus funds of public utilities, any surplus in the funds from which such bonds are to be retired, or other moneys specifically assigned by law or by legislation of the taxing authority for payment of such debt charges.

We interpret Ohio Rev. Code § 133.23(C) as follows:

- Revenue (tax or otherwise) pledged to repay debt must be used for debt service unless the debt is repaid from other sources.
- A government can use unrestricted money or restricted money for purposes consistent with the restriction to pay debt service. For example, a government might use restricted grant revenue<sup>46</sup> to pay revenue anticipation note debt service, if the debt proceeds were spent for allowable grant purposes, even if the debt legislation pledges taxes.
- Therefore, if these bonds are a general obligation, a government must *authorize* a levy, but need not levy the tax if it can use other resources to pay the debt service.

#### ***Debt Issuance for Board of Trustees for Fire Districts***

Pursuant to Ohio Rev. Code Chapter 133, Ohio Rev. Code § 505.401 provides additional borrowing authority for the board of trustees for fire districts organized under Ohio Rev. Code § 505.37(C). This section allows the fire district's board of trustees to issue bonds to acquire fire and rescue equipment, buildings and sites for the district or to construct or improve a building to house fire equipment.

#### ***Infrastructure Loans for Regional Councils of Government***

An educational service center serving as a fiscal agent for a regional council of governments can enter into agreements with the governing body of one or more member governments to lend money to improve infrastructure within the member's territory. [Ohio Rev. Code § 167.041]

#### ***Debt Issuance for Qualifying Partnerships (Career-Technical Education Compact)***

Pursuant to Ohio Rev. Code Chapter 133, 5705.2113 a *Qualifying Partnership*<sup>38</sup> may declare that it is necessary to issue general obligation bonds to acquire "classroom facilities and necessary appurtenances", subject to the approval of a majority of the electors in the combined territory.

#### ***Debt Issuance for Regional Airport Authorities***

Ohio Rev. Code § 308.08 provides additional borrowing authority for regional airport authorities. This section allows the airport to issue revenue bonds to construct, replace, extend, enlarge, maintain, or operate any airport or airport facility (or repay or refund any outstanding debt issues related to the aforementioned purposes). The bonds may be collateralized by pledged revenues and do not impose any liability on the airport, except the creditor's right to the pledged revenue. This debt is not a general obligation. Additionally, Ohio Rev. Code § 308.09 permits the board of trustees of the regional airport authority to secure the revenue bonds via trust agreement with a corporate trustee. This trust agreement may not convey or mortgage any of the regional airport authority property nor pledge the general credit of the regional airport authority.

#### ***Retirement of Securities***

Ohio Rev. Code § 5705.09(C) requires each subdivision to establish a bond retirement fund into which it must pay sufficient revenues to retire serial bonds, notes and certificates of indebtedness at maturity.

---

<sup>45</sup> FYI: Special assessment anticipation notes issued per Ohio Rev. Code § 133.17 are collateralized by a pledge of special assessments, *and* as general obligations. However, notes issued per Ohio Rev. Code § 133.13, anticipating special assessments collected in one installment are collateralized only by the assessments and are *not* general obligations.

<sup>46</sup> Unless the grant regulations prohibit debt payments. For example, 2 C.F.R. 200.449(a) would generally permit using Federal grants to pay debt related to assets used in Federal programs.

Ohio Rev. Code § 5705.10 provides that all revenue derived from levies for debt charges on bonds, notes, or certificates of indebtedness must be paid into a [debt service] fund for that purpose.

Ohio Rev. Code § 133.10(E) further provides that revenue anticipated (i.e. property taxes pledged to pay tax anticipation notes) may be appropriated for purposes other than paying debt charges only after deducting an amount sufficient to pay the debt. The amount (of anticipated revenues) to be applied to debt charges must be set aside in an account in the bond retirement fund. Ohio Rev. Code § 133.10(E) applies to certain other types of securities, for example in Ohio Rev. Code sections:

- Ohio Rev. Code § 133.13: Certain special assessments
- Ohio Rev. Code § 133.17: Securities anticipating special assessments
- Ohio Rev. Code § 133.32: All Ohio Rev. Code Chapter 133 securities
- Ohio Rev. Code § 6101.50: Conservancy district special assessments RAN

### ***Issuance of Notes***

Ohio Rev. Code § 133.22(B) requires that when a subdivision issues notes, its financial officer must notify the county auditor that such notes have been sold. Per Ohio Rev. Code § 321.34(B), when a county auditor *advances* tax revenue to a subdivision, the county auditor must allocate the advance between the subdivision's general and debt service fund, to provide sufficient tax revenue to pay the subdivision's outstanding G.O. indebtedness.

Ohio Rev. Code § 505.262(A) authorizes a board of township trustees to issue notes of the township to finance installment payment purchases of equipment, buildings, and sites for any lawful township purpose. All notes issues shall be pursuant to Ohio Rev. Code § 133.20. Furthermore, the Attorney General opined that Ohio Rev. Code § 505.262(A) does not grant explicitly or implicitly the authority of the township to grant a security interest in the property purchased by the installment contract. [1996 Op. Att'y. Gen. No. 96-048]<sup>47</sup>

### ***Special Features***

Ohio Rev. Code Chapter 133 securities may include the following features:

- Floating interest rates [Ohio Rev. Code § 133.26(A)]
- Early redemption or call provisions [Ohio Rev. Code § 133.26(B)]

Legislation authorizing a debt issuance may contain restrictions on the source of payment for debt charges.

### ***Retiring Debt from Funds Other than a Debt Retirement Fund***

***Absent a specific requirement***, debt may be paid from any unrestricted monies held, segregated from restricted monies, in a fund which was established for a purpose not inconsistent with paying such debt. When evaluating compliance with the requirements in this section, place emphasis on the source of monies used to repay debt. When a subdivision pays debt from a fund other than a debt retirement fund, consider the following:

- Ohio Rev. Code § 5705.10(I) provides that money paid into a fund shall be used only for the purpose for which such fund was established. Therefore, money in a fund may be used to pay debt charges provided the payment of such debt charges is consistent with the purpose for which the fund was established;

---

<sup>47</sup> For example, townships cannot take out a simple bank loan to purchase a truck for road purposes since "bank loans" are not a statutorily permitted form of debt for townships. However, townships do have authority to issue securities under Ohio Rev. Code Chapter 133 (e.g., anticipatory debt usually secured for infrastructure). However, Ohio Rev. Code § 505.262(A) and 1996 Op. Att'y. Gen. No. 96-048 provide specific authority for townships to issue Chapter 133 securities for the purposes this paragraph describes.

- With regard to tax anticipation notes, Ohio Rev. Code § 133.24(D) provides that, except for *capitalized interest*<sup>48</sup>, debt charges on tax anticipation notes are payable only from the revenue collected by the tax levy anticipated.
- Ohio Rev. Code § 5705.05 prohibits using taxes levied for current expenses to pay debt charges.
- Ohio Rev. Code § 5531.10(C) (issuing obligations for state infrastructure projects) provides that the holders or owners of such obligations shall have no right to have moneys raised by taxation by the state of Ohio obligated or pledged, and moneys so raised shall not be obligated or pledged, for the payment of bond service charges.<sup>49</sup>
  - Additionally, the section specifically permits townships receiving distributions from the Gasoline Excise Tax Fund in the state treasury to use that money to pay debt service on State Infrastructure Bank (SIB) obligations. (Ohio Rev. Code §§ 5531.10 and 5735.27)
- 1981 Op. Att’y. Gen. No. 81-035 states:
 

Certain moneys paid into the general fund which are not derived from a general levy for current expenses are placed in the general fund precisely because their use is not restricted. (See Ohio Rev. Code § 5705.10). Such monies may be used to pay debt charges provided that they have not been commingled with general fund monies which may not be used for debt payment. Where otherwise unrestricted monies have been paid into the general fund and have been commingled with restricted monies to the extent that the particular source from which the monies originated cannot be distinguished, such monies may be used to pay debt charges only after they have been transferred to an appropriate fund. [Ohio Rev. Code § 5705.14]

  - 1981 Op. Att’y. Gen. No. 81-035 further clarifies ‘commingled’ funds with the following and says that counties wishing to spend moneys in a general fund directly for a specified purpose must be able to establish that no ‘restricted’ funds are being used:
 

*“the use of some of the revenue deposited in the general fund of a subdivision is not restricted by law (except, of course, by the public purpose requirement), it may, in fact, be restricted by practical considerations. Where moneys from various sources are deposited in the general fund and thereafter become commingled, it may be difficult or impossible from a practical standpoint to insure that general levy revenues or any other similarly restricted revenues would not be included within a proposed expenditure.”* Additionally, *The Supreme Court of Ohio, in State ex rel. Locher v. Menning, 95 Ohio St. 97, 99, 115 N.E. 571, 572 (1916), held as follows: “The authority to act in financial transactions must be clear and distinctly granted, and, if such authority is of doubtful import, the doubt is resolved against its exercise in all cases where a financial obligation is sought to be imposed upon the county.”*

<sup>48</sup> Ohio Rev. Code § 133.01(E) defines *capitalized interest* as interest received with the proceeds of a security. For example, this would include interest payable accruing between the security’s issuance date and the date the security was sold. Since the government must pay this interest to the security owners, the government generally must set aside this interest for the first debt service payment and should not use it for the purpose for which the principal was issued. [Ohio Rev. Code § 133.16] Do not confuse this with *capitalized interest discussed in GASB Statement No. 34, 37, 62 (§10) etc.*

<sup>49</sup> Ohio Rev. Code § 5531.10(C) does not require establishing a Debt Service Fund. Rather, this section describes statutory exceptions to the general rule that monies not otherwise restricted could be used to pay debt where the purposes of both were consistent. In other words, governments with SIB loans cannot obligate or pledge State-levied taxes to pay bond service charges (except townships receiving distributions from the Gasoline Excise Tax Fund in the state treasury to use that money to pay debt service on State Infrastructure Bank (SIB) obligations).

Ohio Rev. Code § 505.262(A) authorizes a board of township trustees to issue notes of the township to finance installment payment purchases of equipment, buildings, and sites for any lawful township purpose. All notes issues shall be pursuant to Ohio Rev. Code § 133.20. Furthermore, the Attorney General opined that Ohio Rev. Code § 505.262(A) does not grant explicitly or implicitly the authority of the township to grant a security interest in the property purchased by the installment contract. [1996 Op. Att’y. Gen. No. 96-048]

The Expedited Local Partnership Program provides a way for school districts to start approved school building projects using local funds while they wait for state funding under the “main” Classroom Facilities Assistance Program (CFAP) program. Once a district is eligible for CFAP, it may apply this advance expenditure of local resources toward its portion of the cost of its total CFAP project. If a district has spent more than its share of its CFAP project while proceeding under the Expedited Program, the School Facilities Commission must reimburse the district the amount of the over expenditure. Ohio Rev. Code § 3318.36(E)(2) provides that school districts may first deposit reimbursed money into either the district's general fund or a permanent improvement fund to replace local resources the district withdrew from those funds for constructing classroom facilities included in the district's CFAP project. The remaining reimbursement monies must be used to pay debt service on classroom facilities constructed under the Expedited Program. [Ohio Rev. Code § 3318.36(E)(2)]

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests**

1. For securities issued during the audit period, inspect the debt legislation and determine under which Rev. Code statute the debt was issued. If that section is not listed in this Ohio Compliance Supplement Chapter, read the specific statute and amend the testing steps to include tests to determine:
  - a. The legality of the source of repayment and collateral<sup>50</sup>. (We can normally rely on documents (such as an offering statement) bond counsel or the underwriter prepared describing the source of repayment and collateral, if they were involved with a debt issue. We should inspect their conclusions for reasonableness and summarize in the permanent file.)
    - i. Whether the government properly segregated any revenue pledged for debt service or capitalized interest (i.e. interest accruing between the security's issuance date and the date the security was sold) and used that revenue for debt service. This will often require establishing a debt service fund.
    - ii. Whether the government used the proceeds for the purposes authorized.
    - iii. If the debt is still outstanding at the end of the audit period, include copies or summaries of the information related to the three bullet points above in the permanent file.
    - iv. If the debt includes features such as floating interest rates or early redemption or call provisions, determine if enabling legislation and the Ohio Rev. Code authorize those features. (For example, Ohio Rev. Code § 133.22(D) describes features BAN can include.)
2. Inspect the county tax settlements and trace revenues to the funds indicated. If amounts from tax levies for bond retirement are being placed into funds other than bond retirement funds, inspect documentation that the government deducted an amount sufficient to pay the debt charges. [Ohio Rev. Code § 5705.10(B)]
3. By reading the government's financial statements or inspecting its ledgers, determine where debt is paid from. If other than bond retirement funds, determine that:
  - a. Debt paid from a restricted fund was paid from revenue which could be used for the same purpose for which the debt proceeds were spent [Ohio Rev. Code § 5705.10 or 133.24(D)];
  - b. Restrictions, if any, in the debt-authorizing legislation were followed;
  - c. Revenue derived from a general levy for current expenses is not used to pay debt charges [Ohio Rev. Code § 5705.05]; or
  - d. Monies used to pay debt from the general fund have not been commingled with general fund monies which may not be used for debt payment [1981 Op. Att'y. Gen. No. 81-035].

**Note:** Where bond counsel was involved with debt issues we are testing, we can usually rely on documents they have prepared or opined on, as evidence that legislation authorizing the securities

---

<sup>50</sup> Auditors may consult with CFAE if they encounter complex arrangements associated with the offerings. Such complexities may include interest rate swaps. For Ohio governments, interest-rate swaps normally refer to debt issued at a variable interest rate, which the government (issuer) converts to a fixed interest rate.

- Swaptions describe an option to swap variable for fixed-rate debt if the strike rate meets the forward rate.
- Swaps and swaptions can result in deferred inflows or outflows, but if properly used they are hedging instruments, designed to hedge (i.e. reduce) interest-rate risk. If properly used, they are not classified as investments.

Swaps and swaptions are derivatives per GASB Statement No. 53, but they do meet the Ohio Rev. Code 135 derivative definition; therefore Ohio Rev. Code 135 does not prohibit them.

complies with statute. However, bond counsel would not “audit” the government’s *subsequent* compliance with requirements. For example, we would not expect bond counsel to determine how the government accounted for debt proceeds or whether the proceeds were spent for authorized purposes.

***Board of Trustees for Fire Districts***

4. By reading the minutes, inspecting bond ledgers or other documents, or by inquiry, determine if the fire district used this type of borrowing.

If so,

- a. trace the bond issuance to the budget;
- b. inspect the resolution authorizing the bond issuance;
- c. determine whether the issuance is in accordance with Ohio Rev. Code Chapter 133 requirements; and
- d. determine whether the proceeds were used to acquire fire-fighting equipment, buildings or sites for the district or for the purpose of constructing or improving a building to house fire equipment.

***Council of Governments***

5. Review the agreement and determine if they are following the requirements;
6. Determine expenditures for the loans are for proper public purposes;
7. Determine if the repayment for the loans is paid from the proper fund.

***Career-Technical Education Compact Qualifying Partnerships***

8. By reading the minutes, inspecting bond ledgers or other documents, or by inquiry, determine if this type of borrowing was used.

If so,

- a. trace the bond issuance to the respective budget(s);
- b. inspect the resolution(s) authorizing the bond issuance;
- c. determine whether the issuance is in accordance with Ohio Rev. Code Chapter 133 requirements; and
- d. determine whether the proceeds were used to acquire classroom facilities.

***Regional Airport Authority***

9. By reading the minutes, inspecting bond ledgers or other documents, or by inquiry, determine if the Airport Authority used this type of borrowing.

If so,

- a. inspect the resolution authorizing the bond issuance;
- b. determine whether the proceeds were used to construct, replace, extend, enlarge, maintain, or operate any airport or airport facility;

- c. If secured with a trustee, obtain and evaluate the agreement to determine that it does not convey or mortgage any of the regional airport authority property nor pledge the general credit of the regional airport authority.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-14 Compliance Requirement:** Ohio Rev. Code §§ 133.10, 133.22, 133.24, and 4582.56(B) & (C) – Bond, Tax and Revenue Anticipation Notes (BAN, TAN and RAN).

**Summary of Requirements:** Per Appendix C-1 in the OCS Implementation Guide, several Ohio Rev. Code sections authorize TAN, RAN or BAN. Short-term TANs or RANs are generally subject to (1) below.<sup>51</sup> Long-term TAN are *generally* subject to (2) below.<sup>51</sup> Significant requirements related to BAN are described at the end of this step.

- 1) **Short-term** notes anticipating *current* revenues, most often current tax levies: A government cannot issue these notes for more than a defined percentage of the current-year's estimated revenue (for example, ½ the current annual estimated revenue from utility charges or grants (Ohio Rev. Code § 133.10(B)), or approximately ½ of the next tax settlement, (Ohio Rev. Code § 133.10(A))). These notes normally mature within six months, or the end of the fiscal year, whichever occurs first. Most Ohio Rev. Code sections authorizing these notes require them to comply with Ohio Rev. Code § 133.10. The remainder of this step refers to these notes as Ohio Rev. Code § 133.10 *short-term notes*.
- 2) **Long-term** notes anticipating *future tax* revenues, from voted tax levies, usually of a limited life: A government cannot issue these notes for more than the amount the levy will generate over its life, or a portion of its life. These notes mature over the life of the levy or a shorter period Ohio Rev. Code specifies, such as 5 or 10 years. Most Ohio Rev. Code sections authorizing these notes require them to comply with Ohio Rev. Code § 133.24. The remainder of this step refers to these notes as Ohio Rev. Code § 133.24 *long-term notes*.

### **RC 133.10 short-term TAN or RAN**

#### **TAN:**

TAN must mature no later than the last day of the sixth month after the issue date, and in no case may they mature after the end of the fiscal year. The aggregate amount outstanding cannot exceed ½ of the amount anticipated for the next six months (typically the next settlement minus advances). [Ohio Rev. Code § 133.10(A)]

Ohio Rev. Code § 133.10(A) applies to subdivisions generally, Ohio Rev. Code § 133.10(C) is specifically applicable to counties, municipalities, townships and school districts. If one of these entities issues TANs under Ohio Rev. Code § 133.10(C), these TANs need not mature until the end of the year. (That is, they are not restricted to a six-month maturity.)

Notes a school district issues anticipating a delayed property tax settlement may be for up to 90% of the amount estimated to be received by that settlement (other than taxes to be received for paying debt charges) minus advances, and may mature as late as the August 31 after the June 30 fiscal year end. [Ohio Rev. Code § 133.10(D)]

#### **RAN:**

The notes issued cannot exceed ½ of the amount of the projected revenues remaining to be received during the fiscal year, minus advances and prior collections, as estimated by the fiscal officer. [Ohio Rev. Code § 133.10(B)]

---

<sup>51</sup> The references to *long-term* and *short-term* above refer to the legal requirements, not the classification of this debt under GAAP. Auditors should refer to GASB Cod. B50 and GFOA's Comprehensive Annual Financial Report checklist for guidance on GAAP debt classifications.

Notes issued anticipating current revenues in and for any fiscal year from any source or combination of sources, including distributions of any federal or state moneys, other than the proceeds of property taxes shall mature not later than the last day of the fiscal year for which the revenues are anticipated. [Ohio Rev. Code § 133.10(E)(2)]

**All Ohio Rev. Code § 133.10 short-term TAN or RAN**

Pledged revenue (tax or otherwise) collected to retire these notes is considered appropriated for debt charges and financing costs. The government can appropriate this revenue for other purposes only after deducting sufficient amounts to pay debt service. The government must deposit pledged revenue sufficient to pay the debt in an account in a debt service fund. [Ohio Rev. Code § 133.10(E)(1)]

These notes cannot be issued prior to the first day of the fiscal year. [Ohio Rev. Code § 133.10(E)(2)] (The only exception is that a board of education of a school district may issue notes as early as 10 days before the first day of the fiscal year (i.e., by June 21), provided that the proceeds of the notes can neither be spent nor considered available for appropriation prior to the first day of the fiscal year [i.e., July 1]). [Ohio Rev. Code § 133.10(H)]

The government can spend note proceeds only for the purposes for which the related revenue can be spent. [Ohio Rev. Code § 133.10(E)(3)] For example, if a government issues RAN, anticipating Federal grant proceeds, the government can spend the note proceeds only for purposes the Federal grant permits.

**Ohio Rev. Code § 133.24 long- term TAN**

The aggregate amount of principal outstanding may not exceed the anticipated levy proceeds provided in the applicable law by a statement of percentage or by a limitation on the amount of annual maturities. These TAN must mature by December 31 of the year authorized by statute, or by December 31 of the last year of the levy, whichever is earlier. [Ohio Rev. Code § 133.24(B)] Therefore, the duration of these notes should match the levy's life. (Unless another Ohio Revised. Code section specifies a shorter period. See the Appendix C-1 in the OCS Implementation Guide for examples.) The estimated annual debt service should approximate the annual levy proceeds.

Debt service is payable only from the levy proceeds. (Except the government should use capitalized interest collected with the debt proceeds to pay capitalized interest due with the first debt service payment.) The levy proceeds are deemed appropriated for debt service, and must be deposited into an account in the debt service fund. (The interest payable from capitalized interest should be paid with capitalized interest.) [Ohio Rev. Code § 133.24(D)]

--Any amount so deposited and not needed for the purpose in the particular fiscal year may, without compliance with any other law or approval by any other agency, be transferred to the special fund established for the proceeds of the tax levy [Ohio Rev. Code § 133.24(D)] (such as a capital projects fund, if the tax was levied for both debt service and for a specific capital project.)

**Requirements applicable to BAN**

Per Ohio Rev. Code § 133.22, the legislative body must pass legislation authorizing:

- The purpose for (eventually) issuing the bonds (which is limited to one purpose) [(A)(1)(a)]
- The maximum amount of BAN, which cannot exceed the bond amount [(A)(2)(a)]
- The maximum maturity, which cannot exceed (C). (See Ohio Rev. Code § 133.22(C) below).
- If the bonds are eventually payable from a property tax, the legislation provides for the levy of property taxes while the BAN are outstanding;

(*Note:* We can normally rely on bond counsel for assuring compliance with the following provisions. This requirement is listed as background information for you.) Per Ohio Rev. Code § 133.22(C), BAN issued with a latest maturity of less than two hundred forty months may be renewed for up to two-hundred-forty months.

- Per (C)(2), five years after issuing the original BAN, a portion of the principal shall be paid annually, in amounts at least equal to, and payable not later than the payment dates of, the principal that would have been paid if the government issued bonds at the expiration of the initial five-year period.
- Per (C)(3), the latest maturity of BAN may not exceed the maximum maturity of the bonds anticipated plus five years. (Bond maturities can range from 5 to 50 years, per Ohio Rev. Code § 133.20.)
- *Note:* There are exceptions to these general rules, but they are too complex to summarize here. (Refer to Ohio Rev. Code § 133.22(C) for exceptions.)

(These features are listed for your information.) Per Ohio Rev. Code § 133.22(D), BAN may include the following features:

- Put options [(D)(6)]
- Issue commercial paper in lieu of BAN [(D)(7)]
- Floating interest rates [(D)(8)]
- Interest rate swaps [(D)(9)(b)]

### Lake Erie Shoreline Improvements

The board of county commissioners pledges all revenue from levies of an excise tax to Port authorities who are part of the Lakeshore Improvement project<sup>52</sup>. The revenue must be used to fund or pay debt charges related to the construction of port authority facilities under an agreement between the county and port authority. [Ohio Rev. Code § 4582.56(B)]

- The port authority may issue special obligation bonds, and notes anticipating the proceeds of the bonds (BAN). [Ohio Rev. Code § 4582.56(C)]

---

<sup>52</sup> A *Lakeshore improvement project* includes constructing ("Construction" includes acquisition, alteration, construction, creation, development enlargement, equipment, improvement, installation, reconstruction, remodeling, renovation, or any combination thereof) a port authority facility within one mile of the Lake Erie shoreline in a County whose territory includes a part of the Lake Erie shoreline at least fifty percent of the linear length of the county's border with other counties. [Ohio Rev. Code § 4582.56(A)]

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. For notes issued during the audit period, inspect the debt legislation and determine under which Rev. Code statute the debt was issued. If that section is not listed in this Ohio Compliance Supplement Chapter (including Appendix C-1 of the OCS Implementation Guide), read the specific statute and amend the testing steps to include tests for the 5 debt requirements below. If a note is outstanding at the end of the audit period, include copies or a summary of documentation addressing the 5 compliance tests below in the permanent file.
2. Determine whether:
 

**Note:** For Lake Erie Shoreline Improvements only steps d and e apply.

  - a. Note proceeds did not exceed Ohio Rev. Code limits, typically limited by the related revenue estimate (RAN or TAN) or bond proceed (BAN) estimates. (We can normally rely on the work of bond counsel or the underwriter, if they were involved with a debt issue. We should inspect their conclusions for reasonableness and summarize for the permanent file.)
  - b. Notes did not exceed limitations on the time to maturity. (*Usually*, notes issued for operating expenses must mature in one year. Notes used for capital improvements have longer maturities. BAN can mature up to the life of the eventual bonds.) (We can normally rely on the work of bond counsel or the underwriter, if they were involved with a debt issue. We should inspect their conclusions for reasonableness and summarize for the permanent file.)
  - c. The government repaid the debt with the pledged or other legal revenue (RAN and TAN), or refinanced BAN according to the BAN legislation.
  - d. The government properly segregated any revenue pledged for debt service and used that revenue for debt service.
  - e. The government used the note proceeds for the purposes authorized.

**Audit implications (adequacy of the system and controls, and the direct and material effects of Non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-15 Compliance Requirement:** Ohio Rev. Code § 3375.404 - Additional borrowing authority for **boards of library trustees.**

**Summary of Requirements:** Ohio Rev. Code § 3375.404 allows a board of library trustees of a public library that either receives an allocation of the library fund, or, levies a property tax under Ohio Rev. Code § 5705.23 to anticipate its portion of the proceeds of the library fund distribution or the property tax and issue library fund facilities notes to pay the costs of financing the facilities (or certain other property), or to refund any refunding obligations.

A library board may issue such notes only if it projects that the annual note service charges (including interest, repayment of principal, and redemption premiums) are capable of being paid from the library’s annual Library and Local Government Support Fund (LLGSF) (also known as: “public library funds”) receipts or the property tax receipts.

The maximum annual debt service for these notes cannot exceed:

1. 40% of the average LLGSF funding (public library funds) the library received for the two years preceding the year the notes were issued
2. The portion of the lawfully available proceeds from the property tax levied under Ohio Rev. Code § 5705.23 that the board has, in the authorizing proceedings, covenanted to appropriate annually for the purpose of paying note service charges.

The notes are payable from the LLGSF monies (public library funds) or the property tax receipts received by the library board issuing the notes, or from the proceeds of notes, refunding notes, or renewal anticipation notes which may be pledged for such payment in the authorizing resolution. The notes are payable solely from the funds pledged for their payment as authorized by Ohio Rev. Code § 3375.404 and all notes must contain on their face a statement to that effect.

The maximum maturity, in the case of any anticipation notes, cannot exceed 10 years from the date of issue of the *original* anticipation notes.

For *refunding* notes or any notes that are not anticipation notes, the maximum maturity cannot exceed 40 years from the date of the original issue of notes.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. By reading the minutes, inspecting bond ledgers or other documents, or by inquiry, determine if the library used this type of borrowing.
2. Calculate, or inspect the library's calculations, that the maximum annual note debt service charges does not exceed 40% of the average LLGSF funding (public library funds) for the two years preceding the year in which the notes are issued. (This step should only apply in the year notes were issued.)
3. Inspect the notes for the statement that the notes are payable solely from the resources pledged for their payment as authorized by Ohio Rev. Code § 3375.404. In other words, ensure the debt service funds were allocated to the appropriate fund(s) based on the legal authority to retire the debt.
4. Inspect the notes for the maximum maturities of 10/40 years.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-16 Compliance Requirement:** Ohio Rev. Code §§ 133.29, 135.14, ~~135.35~~, 731.56-58, 1995 Op. Att’y. Gen. No. 55-5263, and 1985 Op. Att’y. Gen. No. 85-072 - Governments investing in their own securities.

**Note:** Entities must have the legal authority to *both buy and sell* the debt. Ohio Rev. Code § 133.29 authorizes entities to invest in their own securities; however, there must be a separate, specific authority to issue the debt before the Bond Retirement or other authorized Fund may purchase it.

### Summary of Requirement:

#### Manuscript and Treasury Debt in General

Before a taxing authority sells any securities of the subdivision to others, the taxing authority may offer the securities at their purchase price and accrued interest to the subdivision. The securities may be offered to the officer or officers who have charge of the bond retirement fund of the subdivision, or in the case of a municipal corporation, to the treasury investment board, or an officer or similar treasury investment board having the authority under a charter. (Ohio Rev. Code § 133.29) Ohio Rev. Code § 133.01(NN) defines a "taxing authority" to include a county's board of county commissioners, a municipal corporation's legislative authority, a school district's board of education, and a township's board of township trustees, among others defined in the Code.

This type of debt is often referred to as "manuscript debt" or "treasury debt." Manuscript or treasury debt can be outstanding for five years, unless it is matched to a specific obligation or debt of the subdivision (such as obligations of the debt retirement fund). [Ohio Rev. Code § 135.14(D)]

Any securities sold under this section shall bear interest at a rate(s) that is a fair market rate(s) for such securities at the time of the sale, and a certificate of the fiscal officer that the interest rate(s) borne by the securities is the fair market rate(s) is binding as to the statements set forth. [Ohio Rev. Code § 133.29(B)]

Interest earned on the principal of any special fund, regardless of the source or purpose of the principal, is revenue derived from a source other than the general property tax for which the law does not prescribe use for a particular purpose and shall be paid into the general fund. [1985 Op. Att’y. Gen. No. 85-072]

In addition to a taxing authority's ability to direct the bond retirement fund of the subdivision to purchase its securities, certain taxing authorities have additional options for purchasing manuscript or treasury debt.

#### County

A County shall invest its "inactive moneys" in bonds or other obligations of the County. (Ohio Rev. Code § 135.35(A)(4)) Ohio Rev. Code § 135.31 defines a county's "inactive moneys" as all public moneys in public depositories in excess of the amount determined to be needed as active moneys (which are the amount of public moneys in public depositories determined to be necessary to meet current demands upon a county treasury, and deposited in a commercial or money market account). There is no limit on what fund the inactive moneys must be drawn from, so there is more flexibility for purchasing manuscript or treasury debt.

#### Other Political Subdivisions in General

All other political subdivision investments are addressed in Ohio Rev. Code § 135.14. The statute permits a political subdivision to invest "interim moneys" in a series of investment categories. "Interim moneys" are defined in Ohio Rev. Code § 135.01(F) as public moneys in the treasury of the state or any subdivision after the award of inactive deposits has been made in accordance with Ohio Rev. Code § 135.07, which

moneys are in excess of the aggregate amount of the inactive deposits (a public deposit other than an interim deposit or an active deposit) as estimated by the governing board prior to the period of designation and which the treasurer or governing board finds should not be deposited as active or inactive deposits for the reason that such moneys will not be needed for immediate use but will be needed before the end of the depository period of designation. The depository period of designation is the period of time during which the governing board has designated a public depository for public moneys of the subdivision, a designation that must be made once every five years. (Ohio Rev. Code § 135.12(B)) An "active deposit" is defined as a public deposit necessary to meet current demands on the treasury.

**Municipal Corporation (City and Village)**

In addition to the bond retirement fund options provided in Ohio Rev. Code § 133.29, a municipal corporation (city or village) may invest moneys in the treasury that will not be required to be used for a period of six months or more in the obligations of the municipal corporation (Ohio Rev. Code § 731.56). For the purposes of this section, any "interim moneys" or "inactive deposits" that will not be needed within six months may be invested. Similar to the rules for a County, there is no prescription as to which fund the "interim moneys" or "inactive deposits" must be drawn from.

Ohio Rev. Code §§ 731.57 and 731.58 add some extra qualifiers for manuscript or treasury debt investments. Before the investment is made, the auditor or chief fiscal officer must certify to the mayor or village solicitor/law director the probable requirements of money for the use of the municipal corporation for the next six months. The mayor or village solicitor/law director may then order the investments. It is not necessary to advertise bonds to make such an investment.

When a municipal corporation acts to convert such investments into cash, the obligations must first be offered to the sinking fund commission. If the sinking fund commission does not purchase the investments, they may then be sold in any manner authorized by law for the sale of investments by the sinking fund.

For as long as the treasury maintains these investments, they are held in a "treasury investment account". The chief accounting officer of the municipal corporation will enter all transactions relating to the investment of treasury funds in security obligations of the municipal corporation. When securities or interest coupons are due, the accounting officer shall collect them in the same manner as other receipts are collected.

**Charter Municipal Corporations**

If a municipal corporation has adopted a charter, it may adopt its own set of investment principles that may be different from those expressed in the Ohio Revised Code. Ohio Rev. Code § 133.29 authorizes a municipal corporation that has a charter to authorize a treasury investment account that would operate in the same way as a municipal corporation treasury investment account under Ohio Rev. Code § 731.56. Beyond this provision, a municipal corporation may adopt a charter that addresses its ability to invest in manuscript or treasury debt as long as it does not conflict with general laws. [Ohio Const. Art. XVIII, Section 3]

**School Districts**

School districts do not have any options for manuscript or treasury debt beyond using moneys in the bond retirement fund as discussed in Ohio Rev. Code § 133.29, 1955 Op. Att’y. Gen. No. 55-5263. Such a transaction will be considered an investment of the sinking fund or bond retirement fund, and interest will be deposited and reinvested just like other investments of the sinking fund or bond retirement fund.

## Townships

Townships do not have any options for manuscript or treasury debt beyond using moneys in the bond retirement fund as discussed in Ohio Rev. Code § 133.29.

### *Accounting for Manuscript Debt*

There are two methods for recording manuscript debt in the accounting records:

#### *Investment Method*

Record proceeds from the sale of notes in the borrowing fund (often the general fund or project fund). Then record the amount received from the Bond Retirement Fund (or other authorized fund in the case of municipal corporations) as an investment on the investment record. Do not decrease the Bond Retirement or other authorized fund's balance. When preparing the bank reconciliation, outstanding securities should be included as an investment.

The county auditor, having been properly notified of the debt service requirements, should allocate property taxes on the tax settlement among the proper funds. The amount payable to the Bond Retirement or other authorized fund is the amount necessary to repay the principal plus interest on the outstanding securities. Debt service principal and interest, should be recorded in the Bond Retirement or other authorized fund. Upon payment of principal, a corresponding reduction of the investment should be recorded on the investment record.

#### *Advance/Interfund Method*

Record an advance-in in the debtor (borrowing) fund and a corresponding advance-out of the creditor (loaning) fund. Also, governments reporting under GAAP should record an interfund asset and offsetting interfund liability for both modified and full accrual bases. If the borrowing is between a governmental activity and a business type activity, the entity wide statements should also report this as an internal balance (GASB Cod. 1300.122-120 and 1800.102(a)).

GAAP Governments must use the Advance/Interfund method for financial statement reporting (GASB Cod. I50.701-4). This means that if a GAAP entity uses the Investment Method for their accounting records, they must convert the transactions to the Advance/Interfund Method during the GAAP conversion.

GAAP, Cash, and OCBOA basis governments should disclose the fund liabilities, including interest rates and repayment schedules, in their notes under either accounting method.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Determine whether the entity issued manuscript debt during the audit period or has any manuscript debt outstanding as of fiscal year end.
2. If so, review the governing body’s ordinance or resolution approving the issuance and determine the legal authority under which such debt/investment was issued. If applicable, we may rely on an opinion from bond counsel to verify the entity’s legal authority for issuing such debt. A copy of the ordinance or resolution and bond counsel opinion should be placed in the permanent file.
3. Determine the issuance date<sup>53</sup> of the debt/investment and review the entity’s debt/investment schedules to determine whether the principal matured within five years.
4. Review the entity’s debt/investment schedules and determine whether the entity has charged interest at the proper rate and amount in the Bond Retirement or other authorized fund.
5. ***For all entities other than municipal corporations***, determine whether the amount of manuscript debt issued was limited to the available resources in the bond retirement fund.
6. ***For counties and municipal corporations***, determine whether the amount of manuscript debt issued was limited to the available resources in the general treasury or other authorized fund.
7. Scan the entity’s debt schedules, investment records, monthly bank reconciliations, and annual financial statements to determine whether the entity has properly accounted for all manuscript debt transactions (i.e., note proceeds, property tax and interest receipt allocations, debt service payments on principal and interest, and outstanding debt and investment amounts).

<sup>53</sup> Issuance date isn’t always the sale date. If the “Obligation’s Closing Date” is the actual date of the issuance, this should be recorded as the issuance date.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## Section D: Accounting and Reporting

### GENERAL

**Revised: HB 481, 133 GA**

**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**

**Effective: October 1, 2020**

**1-17 Compliance Requirements:** Ohio Admin. Code §§ 117-2-03(B) and 126:3-1-01(A)(2)(a) and Ohio Rev. Code §§ 117.38, 1724.05, and 1726.11, and AOS Bulletin 2015-007 - Annual financial reporting.

#### Summary of Requirements:

**Note:** The Auditor of State (AOS) requires the use of the Hinkle Annual Financial Data Reporting System (Hinkle System), an internet-based application that allows certain financial statement, debt, and demographic data to be entered, uploaded and transmitted to the AOS to satisfy the filing requirements prescribed by the Ohio Revised Code (ORC) and the Ohio Administrative Code (OAC), for all entities that are statutorily mandated to file financial reports. Each entity shall file its financial report annually via the Hinkle System, and it is the expectation of AOS that each entity will only submit the filing once by the statutory due date (or approved extension date.) Prior to submitting the filing, the entity should complete all reviews, verify the correct basis of accounting has been selected, and view the uploaded file to ensure it is the correct and complete file. Please refer to the AOS website at <https://ohioauditor.gov/financialreporting/default.html> and AOS Bulletin 2015-007 for additional information.

#### ***Generally Accepted Accounting Principles (GAAP) Basis Entities***

Ohio Admin. Code 117-2-03(B) requires counties, cities, school districts, educational service centers, community schools, and government insurance pools to report annually (but not necessarily account) on a GAAP basis.

Ohio Rev. Code §§ 1724.05 and 1726.11 require community improvement corporations, including economic development corporations and county land reutilization corporations, and development corporations established under Ohio Rev. Code Chapter 1724 and 1726, respectively, and colleges and universities pursuant to Ohio Rev. Code § 3345.72 and Ohio Admin. Code 126:3-1-01(A)(2)(a) to report annually [but not necessarily account] on a GAAP basis.

Per Ohio Rev. Code § 117.38, entities filing on a GAAP-basis must file annual reports within 150 days of their fiscal year end (except Ohio Rev. Code §§ 1724.05 and 1726.11 require community improvement corporations and development corporations to file within 120 days of their fiscal year end) **(see also COVID extension guidance in [http://ohioauditor.gov/publications/Hinkle\\_System\\_GAAP\\_extension.pdf](http://ohioauditor.gov/publications/Hinkle_System_GAAP_extension.pdf)).** Colleges and universities must file by October 31<sup>st</sup> per Ohio Admin. Code 126:3-1-01(A)(2)(a).<sup>54</sup>

Per AOS Bulletin 2015-007, annual reports filed with AOS must be **complete** to avoid the application of a penalty of \$25 per day (\$750 maximum) permissible under Ohio Rev. Code § 117.38. To be **complete**, GAAP entities must submit the basic financial statements, including the government-wide financial statements, fund financial statements, notes to the basic financial statements, Management’s Discussion &

<sup>54</sup> We will cite noncompliance if a “GAAP mandated public office” files special purpose framework (OCBOA) - cash, modified cash or regulatory cash financial statements. When citing, follow the appropriate example from the standardized comments found in the AOS Briefcase.

Analysis, and any other required supplementary information to be considered a complete filing.<sup>55</sup>

### **Cash Basis Entities**

Per Ohio Rev. Code § 117.38, entities filing on a cash-basis<sup>56</sup> must file annual reports with the Auditor of State within 60 days of the fiscal year-end. The Auditor of State may prescribe by rule or guidelines the forms for these reports. However, if the Auditor of State has not prescribed a reporting form, the public office<sup>57</sup> shall submit its report on the form used by the public office. Any public office not filing the report by the required date shall pay a penalty of \$25 for each day the report remains unfiled, not to exceed \$750.<sup>55</sup> The AOS may waive these penalties, upon the filing of the past due financial report.

The report shall contain the amount of: (A) receipts, and amounts due from each source; (B) expenditures for each purpose; (C) income of any public service industry the entity owns or operates, as well as the costs of ownership or operation; and (D) **public debt** of each taxing district, the purpose of the debt, and how the debt will be repaid. *Note:* Using AOS shell reports will meet this requirement<sup>58</sup>.

*Note:* We normally would not deem a late filing to constitute “direct and material” noncompliance on the determination of financial statement amounts (i.e. the auditor would normally not report a late filing citation in the GAGAS compliance report, however the auditor should issue a management letter comment for late filings.) Failing to include the Management’s Discussion & Analysis when filing would not be considered a lack of controls over financial reporting or materially impact the financial statements; therefore would be reported in the management letter.

Material noncompliance would exist if:

- An entity subject to GAAP did not follow GAAP in its annual report.
- An entity’s filing was significantly incomplete (see discussion of complete in the *GAAP Basis Entities* and *Cash Basis Entities* sections above). For additional information, please refer to AOS Bulletin 2015-007.
- The filing was significantly misstated.

<sup>55</sup> Failing to file an annual report could be a symptom of an inadequate accounting system, inadequate training of personnel in understanding the accounting and reporting process, unposted or unreconciled records or other significant issues affecting the control environment, or which may even pose fraud risks. It may also result in the entity being declared “unauditable” by the Auditor of State. This also applies for OCBOA cash, OCBOA modified cash and regulatory cash basis financial statements.

<sup>56</sup> Cash basis includes special purpose framework (OCBOA)-cash, OCBOA modified cash and regulatory cash basis.

<sup>57</sup> Ohio Rev. Code § 117.01(D) states in part that, as used in Ohio Rev. Code Chapter 117, “*Public office* means any state agency, public institution, political subdivision, other organized body, office, agency, institution, or entity established by the laws of this state for the exercise of any function of government.” 1989 Op. Att’y. Gen. No. 89-055 indicates the Auditor of State has discretion to interpret and apply the definition of “public office” used in Ohio Rev. Code § 117.01(D). The Auditor of State has therefore determined that community schools qualify as public offices as defined under this section.

<sup>58</sup> For OCBOA-cash or OCBOA-modified cash basis, to be **complete**, the applicable basic financial statements must include the government-wide financial statements, fund financial statements, notes to the basic financial statements, and Management’s Discussion & Analysis (optional). For AOS Regulatory cash basis to be **complete**, the applicable basic financial statements include statement(s) or combined statement(s) of receipts, disbursements and changes in fund balance – governmental, proprietary and fiduciary, as applicable and notes to the basic financial statements.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of an Effective Accounting System</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Confirm whether the report was filed timely.

*Note:* The Hinkle System tracker and/or GPinfoSearch include due dates and filing dates. Auditors should check the tracker to determine compliance with due dates. If an entity’s report was not filed by the required due date or by an approved extension date, a management letter comment should be issued.<sup>59</sup>

2. Auditors should inspect the filed report (AOS auditors can obtain this report through the Hinkle System tracker and/or GPinfoSearch. GPinfoSearch information is available to contracted IPA firms for their clients via logging into the IPA Portal.)
3. Trace selected totals from the filed report to the underlying accounting system. *(If we use the filed report as a trial balance, AOS auditors will satisfy this requirement by completing the mandatory Trial Balance steps from the financial audit program.)* If the report is significantly deficient, we should cite Ohio Rev. Code §§ 117.38, 1724.05, 1726.11, or Ohio Admin. Code 126:3-1-01(A)(2)(a), as appropriate, for filing an incomplete or misleading report.<sup>60</sup>
4. Determine whether the filed report includes the financial statements, notes to the financial statements, and required supplementary information (if applicable) (i.e. determine if the filing was substantially **complete** as described above.
5. The AOS (and any independent public accounting (IPA) firms contracted to perform audits for the AOS) will audit the financial statements uploaded and submitted to the AOS via the Hinkle System. A

<sup>59</sup> Auditor judgment may be required to determine if a non-compliance citation should be issued.

<sup>60</sup> Auditors should evaluate and document, using professional judgment, whether the financial statements are significantly deficient requiring a citation and, if cited, the level of that citation (report, management letter, verbal). AOS auditors should evaluate the necessity of a control deficiency using guidance from AU-C 265 and AOSAM 38100 AOS specific guidelines.

re-filing should only occur in situations where the original filing was incomplete, the basis of accounting identified in the filing is inconsistent with the financial statements and/or notes to the financial statements filed, or the financial statements were either unauditable or for a different reporting year. Modifications to the financial statements, such as an inclusion/modification of a note disclosure or correction of an error that was noted during the audit, are **not** reasons for re-filing. Errors identified should be considered during the audit, and any adjustments should be reflected in the financial statements in the audit report. Re-filing the financial statements does not eliminate the auditor's responsibility for consideration of errors noted. Auditors should not request an entity to re-file without first contacting the Hinkle System administrator ([HinkleSystem@ohioauditor.gov](mailto:HinkleSystem@ohioauditor.gov)) to determine if the re-filing is appropriate. If a public office is required to refile financial statements due to an incomplete filing, the filing date and accounting basis of the re-filed annual financial report will then become the basis for determining compliance with the filing requirements<sup>61</sup>. Failure to file via the Hinkle System may result in the AOS declaring the public office "unauditable."

Ohio Rev. Code § 117.41 enables the AOS to declare a public office to be "unauditable" when its accounts, records, files or reports have been improperly maintained and, as such, are insufficient to allow the audit to be performed.

6. If the government is not mandated to follow GAAP and presents AOS Regulatory cash basis ("AOS basis") financial statements (rather than OCBOA cash or OCBOA modified cash financial statements ("GAAP look-alike")):
  - Follow AU-C 800.22 which applies when regulatory cash basis statements are available for general use (local government statements or IPAs audit are available for general use). AU-C 800.22 requires issuing a dual opinion:
    - An adverse opinion on conformance with GAAP.
    - A second opinion on the regulatory cash basis.
7. If a GAAP-mandated government does not follow GAAP or present OCBOA cash or OCBOA modified cash ("GAAP look alike") basis financial statements but presents regulatory cash basis ("AOS Basis") financial statements:
  - Issue adverse opinion on conformance with GAAP.
    - These governments do not qualify for the "dual opinion."
  - Issue GAGAS noncompliance finding.
8. If a GAAP-mandated government presents their financial statements using OCBOA cash or OCBOA modified cash basis ("GAAP look-alike"):
  - Follow AU-C 800.A31 which requires auditors to include an emphasis of matter paragraph following the opinion paragraph alerting the users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework (OCBOA) basis of accounting and the basis of accounting is other than GAAP.
  - Issue GAGAS noncompliance finding.

---

<sup>61</sup> Auditors should use professional judgement when determining whether to report noncompliance if the public office or other entity required to file originally submitted timely but had to refile in order for the AOS/IPA firm to audit the financial statements submitted via the Hinkle System. However, GAAP mandated public offices should be cited if the final financial statements filed via the Hinkle System are not GAAP basis.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**1-18 Compliance Requirements:** Ohio Rev. Code §§ 1702.57, 1724.05, 1724.06, 1726.11, and 1726.12 - GAAP and annual financial reporting for community improvement corporations (CICs)<sup>62</sup> and development corporations (DCs).<sup>63</sup>

**Summary of Requirements:** Annual Reporting

Corporations must submit (unaudited) annual GAAP financial reports to the Auditor of State. The corporation must file the annual report within 120 days of fiscal year end.<sup>64</sup> **(see also COVID extension guidance in [http://ohioauditor.gov/publications/Hinkle\\_System\\_GAAP\\_extension.pdf](http://ohioauditor.gov/publications/Hinkle_System_GAAP_extension.pdf)).** The Ohio Revised Code does not prescribe a fiscal year end for these corporations.

**Failure to Report/Present Auditable Records** (Ohio Rev. Code § 1724.06- CICs and § 1726.12- DCs)

Additionally, the Auditor of State must certify corporations to the Secretary of State in the following three circumstances:

- When a CIC/DC files its annual report more than 90 days delinquent (i.e., does not file its annual GAAP financial statement report within 210 days of its fiscal year end).
- When a CIC/DC does not present auditable records within 90 days of a determination by the Auditor of State that a corporation is unauditable.
- When a DC has failed to begin business for a period of three years from the effective date of the filing of its articles of incorporation.

<sup>62</sup> Being non-profit under chapter 1702 is not enough to be a CIC. To be a CIC requiring an AOS audit, the entity must be incorporated under both chapter 1702 & 1724. (A Development Corp. would only be incorporated under chapter 1726.) Read the articles and see if they refer to chapters 1724 or 1726. Merely titling an entity as an “improvement” or “development” corporation is not sufficient. The articles of incorporation must support that the entity falls under chapter 1724 or 1726.

<sup>63</sup> Development corporations organized under Ohio Rev. Code Chapter 1726 are stock-issuing entities.

<sup>64</sup> CICs or DCs that do not file GAAP statements and notes (and required supplementary information, if any) within 210 days of its fiscal year end are *not* subject to AOS penalties prescribed in Ohio Rev. Code § 117.38. “A community improvement corporation is, in essence, a private non-profit corporation which is bound by the general terms of Ohio Rev. Code Chapter 1702 (non-profit corporations). A privately organized entity that performs a public purpose occupies a status no different from that of countless other non-profit corporations, the private nature of which is indisputable. Nor is a community improvement corporation possessed of powers derived from statute. Although Ohio Rev. Code § 1724.02 provides that a community improvement corporation shall possess certain powers enumerated therein, the ultimate source of its power is not Ohio Rev. Code § 1724.02, but its articles of incorporation and code of regulations.” [1979 Op. Att’y. Gen. No. 79-061] Also, auditors should take note that CIC and DC are subject to a 120-day filing requirement rather than the 150-day requirement applicable to other GAAP entities.)

Late filings are handled by the Hinkle System Coordinator, and the regional chief auditor will handle those that are declared unauditible and fail to file within 90 days, who forward to the Chief Deputy Auditor for certification.

Upon certification, the Secretary of State is to cancel the Corporation’s articles of incorporation until the deficiency is remedied.

**Secretary of State Requirements (SoS)**

The Secretary of State of Ohio maintains a database (SoS Database) which details the status of all corporations with respect to Ohio Rev. Code § 1702.57, which states in part “No person shall exercise or attempt to exercise any rights, privileges, immunities, powers, franchises, or authority under the articles of a domestic corporation after such articles have been canceled or after such corporation has been dissolved or after the period of existence of the corporation specified in its articles has expired.”

Those statuses are:

- Active – The Corporation is allowed to legally function.
- Dead – The corporation cannot legally function because the corporation has taken action to dissolve
- Cancelled – The corporation cannot legally function because the SoS has taken action to dissolve the corporation (as the result of inactivity by the corporation)
- Held – The Corporation cannot legally function under this status but the SoS has placed a hold on the corporation’s name for one year (in case they want to reinstate) before moving the status to *cancelled*.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Presence of an Effective Accounting System</li> <li>• Legislative and Management Monitoring</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. If testing in OCS 1-17 indicates the corporation’s report has NOT been filed, notify the corporation immediately of the requirement to file (per AOS Bulletin 2015-007, the financial statements file via the Hinkle System must be audited.) After notification, if the corporation does not file:
  - a. The regional chief auditor will consult with the Chief Deputy Auditor. The Chief Deputy Auditor will determine whether to request the Legal Division to issue a subpoena for the accounting records and/or declare the corporation unauditible. (*Note:* IPA firms should contact the regional chief auditor regarding these issues.)
  - b. If a corporation does not file its annual GAAP financial statement report via the Hinkle System within 210 days of its reporting year end, or does not present auditable records within 90 days of

the Auditor of State’s determination of unauditability, the AOS must notify the Secretary of State’s Office.<sup>65</sup>

2. If a corporation is operating and has created financial statements and filed them with the AOS via the Hinkle system, but are not in “Active” status auditors should:
  - a. Continue to audit the entity (inactive status does not mean the entity is not subject to audit);
  - b. Consider whether the situation constitutes an illegal operation which will likely be considered to be non-compliance with Ohio Rev. Code § 1702.57;
  - c. If this should be referred to the Secretary of State, contact the Regional Chief Auditor.<sup>65</sup>

<p><b>Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
---

---

<sup>65</sup> Refer to the process for “Referrals to Ohio Secretary of State” as described in the OCS Implementation Guide.

*Section E: Deposits and Investments*  
**NONE**

## Section F: Other Laws and Regulations

### VARIOUS ENTITY TYPES

**1-19 Compliance Requirement:** Ohio Rev. Code §§ 9.833 and 305.172 - Health Care Self Insurance<sup>66 67</sup>

**Summary of Requirement:** Ohio Rev. Code § 9.833 requires individual, self-insured governments (or county board of developmental disabilities) or joint self-insured health-care programs to calculate (i.e., reserve<sup>68</sup>) amounts required to cover health care benefit liabilities. (Health care insurance includes, but is not limited to health care, prescription drugs, dental care and vision care.) It also requires programs to prepare a report, reflecting those reserves (i.e., liabilities) and the aggregate of disbursements made to pay self-insured claims, legal and consultant costs during the preceding fiscal year. Programs must prepare (i.e. obtain) and maintain a financial statement and a report of amounts reserved for the program and disbursements made from such funds. The program administrator must provide the report to the Auditor of State.<sup>69</sup> The program must include a contract with a certified public accountant and a member of the American Academy of Actuaries for the preparation of the written evaluations described in this paragraph. [See AOS Bulletin 2011-008]

The provisions regarding the self-insurance programs do not apply to an individual self-insurance program created solely by municipal corporations. For this purpose, *municipal corporation* means all municipal corporations, including those that have adopted a charter under the Ohio Constitution.

An actuary must certify that the amounts reserved are fairly stated in accordance with sound loss reserving principles. The actuary must be a member of the American Academy of Actuaries.

Individual governments subject to this requirement must establish a special fund<sup>70</sup> to account for this activity.

Per Ohio Rev. Code § 9.833(E), some of the aforementioned requirements do not apply to municipalities. **Note:** Auditors should refer to AOS Bulletin 2011-008 for additional guidance and/or see table at <https://ohioauditor.gov/OCS/2021/Self Insurance Table.xlsx>.

<sup>66</sup> Ohio Rev. Code § 9.833(D) also permits subdivisions or county boards of developmental disabilities to procure group life insurance for its employees in conjunction with an individual or joint self-insurance program. However, neither a government nor a pool can self-insure for life insurance. (That is, a government must purchase life policies from commercial insurers.)

<sup>67</sup> Ohio Rev. Code §§ 305.172 and 9.833(B)(2), permit political subdivisions and boards of county commissioners that provide health care benefits for their officers or employees to establish and maintain an individual health savings account program as part of their self-insurance program. These accounts must be maintained in accordance with section 223 of the Internal Revenue Code [26 U.S.C. § 223]. Public moneys may be used to pay for or fund federally qualified high deductible health plans that are linked to health savings accounts or to make contributions to health savings accounts. Auditors should not audit compliance with Internal Revenue Code regulations governing health care savings accounts. Rather, be aware that such accounts may be included in self-insurance activity accounted for in the internal service or other appropriate fund as permitted by statute.

<sup>68</sup> “Reserve” in this context means liabilities measured in accordance with accepted actuarial principles.

<sup>69</sup> This is presumed to be satisfied through submission on the Hinkle system.

<sup>70</sup> Ohio Rev. Code § 9.833(C)(2) indicates political subdivisions shall establish a “special” fund to account for this activity. GASB Cod. C50.126 through C50.131 (GASB Statement No. 66) permits the use of governmental funds or internal service funds for this purpose. See GASB Cod. C50.715-2 for further guidance.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Questions are organized according to the Self Insurance table ([http://ohioauditor.gov/ipa/UniformGuidance/2017/Self Insurance table \(http://ohioauditor.gov/ipa/UniformGuidance/2017/Self Insurance Table.xlsx\)](http://ohioauditor.gov/ipa/UniformGuidance/2017/Self%20Insurance%20Table.xlsx)), and only test for ‘required’ or ‘prohibited’ compliance elements as follows:*

- *Single Subdivision<sup>71</sup> Programs test: 1, 2a, 4*
- *Single Municipality Programs test: none (no required or prohibited elements)<sup>72</sup>*
- *Pool Members test: 1, 2a, 3*
- *Pools test: 2b, 4*

1. *[Ohio Rev. Code § 9.833(C)(2)] Was a separate internal service fund<sup>68</sup> established by ordinance or resolution to account for all claims, administrative and other related program costs?*
2. *[Ohio Rev. Code §§ 9.833(C)(2&6) & 5705.10] Are self-insurance fund costs recovered by appropriate charges:*
  - a. *Single Subdivision Programs or Pool Members: to other funds based on those funds’ relative exposures or loss experiences? (These interfund charges should be recorded as revenues and expenditures rather than transfers, and are not subject to the restrictions on interfund transfers or Ohio Rev. Code § 5705.14 - .16)*
  - b. *Pools: to participating subdivisions based on the subdivisions’ relative experience, loss exposure or as otherwise agreed by contract?*

<sup>71</sup> Ohio Rev. Code §§ 9.833 and 2744.01 define a political subdivision in part as any municipal corporation, township, county, school district, or other body corporate and politic responsible for governmental activities in a geographic area smaller than the State. According to 2017 Op. Att’y. Gen. No. 2017-001, a person authorized by a board of county commissioners or a board of township trustees to perform work related to the demolition of vacant or abandoned buildings and the remediation of other nuisance properties is considered an “employee” when acting within the scope of their employment even if not compensated for the work. As used in Ohio Rev. Code § 9.833, a “political subdivision” also includes the entity types described in Ohio Rev. Code § 3905.36. Ohio Rev. Code § 9.833 also says “County Board means a county board of developmental disabilities.”

<sup>72</sup> *These programs are not required to establish a separate internal service fund. However, if they do establish such a fund, then the procedures related to recovering the costs are applicable and required.*

Note: If the answer is no to either of the above, does another appropriate and allowable financing source exist to cover the costs?

3. [Ohio Rev. Code § 5705.13(A)(2)] Are there any reserves established on fund equity to provide for self-insurance costs?
4. [Ohio Rev. Code § 9.833(C)(1&4)] Was a report prepared by a member of the American Academy of Actuaries<sup>73</sup> within 90 days of year end listing where:
  - a. The actuary's opinion language (including the scope of the work):
    - i. Generally complied with the example described in the "Actuarial Opinions" section of AOS Bulletin 2001-005, and  
*Note: Consider whether any qualification in the actuary's report affects the financial statement opinion or indicates noncompliance with Ohio Rev. Code § 9.833.*
    - ii. Indicated amounts reserved conform to accepted loss reserving standards.
  - b. The actuarial liability as of the last day of the fiscal year, and
  - c. Program disbursements, including claims paid, legal representation and consultant costs?
5. ~~Subdivisions and county board of developmental disabilities<sup>74</sup> (except municipalities) must establish a fund<sup>68</sup> to account for health self insurance activity. Determine if the subdivision or county board established the required fund.~~
6. ~~Inspect the actuary's certificate (i.e. opinion) that the amounts reserved conform to accepted loss reserving standards. (This requirement does not apply to municipalities.)~~
7. ~~Test information the subdivision submitted to the actuary to determine this information is supported by the client's accounting or other applicable records. Testing information the client provides to the actuary<sup>75</sup> when the actuary's liability calculation is accrued as a GAAP liability<sup>76</sup> or presented in a cash basis entity's notes.~~
8. ~~Determine whether the actuary's opinion language (including the scope of the work) generally complied with the example described in the "Actuarial Opinions" section of AOS Bulletin 2001-005.~~

<sup>73</sup> AU-C 620 clarifies that the *Specialist* standard only applies to a specialist the auditor employs or contracts with. Auditors are responsible for testing the liability an actuary computes on behalf of the auditee using the *Evidence* standard in AU-C 500.

<sup>74</sup> Ohio Rev. Code §§ 9.833 and 2744.01 define a political subdivision in part as any municipal corporation, township, county, school district, or other body corporate and politic responsible for governmental activities in a geographic area smaller than the State. According to 2017 Op. Att'y. Gen. No. 2017-001, a person authorized by a board of county commissioners or a board of township trustees to perform work related to the demolition of vacant or abandoned buildings and the remediation of other nuisance properties is considered an "employee" when acting within the scope of their employment even if not compensated for the work. As used in Ohio Rev. Code § 9.833, a "political subdivision" also includes the entity types described in Ohio Rev. Code § 3905.36. Ohio Rev. Code § 9.833 also says "County Board means a county board of developmental disabilities."

<sup>75</sup> AU-C 620 clarifies that the *Specialist* standard only applies to a specialist the auditor employs or contracts with. Auditors are responsible for testing the liability an actuary computes on behalf of the auditee using the *Evidence* standard in AU-C 500.

<sup>76</sup> As AOS Bulletin 2001-005 describes, actuarial principles for measuring these liabilities are similar but not identical to GAAP requirements per GASB Statement No. 10. A government can use the actuarially computed liability in its financial statements if it does not materially differ from GAAP measurement requirements.

- ~~9. Consider whether any qualification in the actuary's report affects the financial statement opinion or indicates noncompliance with Ohio Rev. Code § 9.833.~~
- ~~10. Determine if a cash basis (or AOS basis) government's audited statements disclose self insurance activity based on the example disclosure in AOS Bulletin 2001-005. (For cash basis entities, an inability to adequately calculate and present the liability may constitute a qualification related to the adequacy of disclosure.)~~

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-20 Compliance Requirement:** Ohio Rev. Code § 2744.081 - Liability Self Insurance

**Summary of Requirement:** This section requires joint self-insurance programs (such as governmental self-insurance pools) insuring against judgments, settlement of claims, expense, loss and damages that arise, or are claimed to have arisen, from an act or omission of the subdivision or any of its employees and to indemnify or hold harmless the subdivision’s employees, to reserve <sup>77</sup> amounts to cover potential costs. It also requires the program to prepare a report, reflecting those reserves (i.e., liabilities) and the aggregate of disbursements made to pay self-insured claims, legal and consultant costs during the preceding fiscal year. This report shall be submitted by the pool administrator to the Auditor of State, and it should be retained by the government to be made available upon request.

An actuary must certify that the amounts reserved are fairly stated in accordance with sound loss reserving principles. The actuary must be a member of the American Academy of Actuaries.

The aforementioned requirements apply only to governmental risk pools or other joint governmental liability insurance programs.

**Note: Auditors should refer to AOS Bulletin 2001-005 & 2011-008 for additional guidance.**

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Questions are organized according to the table from AOS Bulletin 2011-008 (see link above), and only test for ‘required’ or ‘prohibited’ compliance elements as follows:*

- *Single Subdivision<sup>78</sup> Programs test: none (no required or prohibited elements)<sup>72</sup>*

<sup>77</sup> “Reserve” means liabilities measured in accordance with accepted actuarial principles.

<sup>78</sup> Ohio Rev. Code §§ 9.833 and 2744.01 define a political subdivision in part as any municipal corporation, township, county, school district, or other body corporate and politic responsible for governmental activities in a geographic area smaller than the State. According to 2017 Op. Att’y. Gen. No. 2017-001, a person authorized by a board of county commissioners or a board of township trustees to perform work related to the demolition of vacant or abandoned buildings and the remediation of other nuisance properties is considered an “employee” when acting within the scope of their employment even if not compensated for the work. As used in Ohio Rev. Code § 9.833, a “political subdivision” also includes the entity types described in Ohio Rev. Code § 3905.36. Ohio Rev. Code § 9.833 also says “County Board means a county board of developmental disabilities.”

- *Pool Members test: #2*
  - *Pools test: 1, 3*
1. [Ohio Rev. Code § 2744.081(A)(4)] Are self-insurance fund costs recovered by appropriate charges to participating subdivisions based on the subdivisions' relative experience, loss exposure or as otherwise agreed by contract?
  2. [Ohio Rev. Code § 5705.13(A)(2)] Are there any reserves established on fund equity to provide for self-insurance costs?
  3. [Ohio Rev. Code § 2744.081(A)(1&3)] Was a report prepared by a member of the American Academy of Actuaries<sup>73</sup> within 90 days of year end listing where:
    - a. The actuary's opinion language (including the scope of the work):
      - i. Generally complied with the example described in the "Actuarial Opinions" section of AOS Bulletin 2001-005, and

<sup>79</sup>AU C 620 clarifies that the *Specialist* standard only applies to a specialist the auditor employs or contracts with. Auditors are responsible for testing the liability an actuary computes on behalf of the auditee using the *Evidence* standard in AU C 500.

<sup>80</sup>As AOS Bulletin 2001-005 describes, actuarial principles for measuring these liabilities are similar but not identical to GAAP requirements per GASB Statement No. 10. A government can use the actuarially computed liability in its financial statements if it does not materially differ from GAAP measurement.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-21**

**This section intentionally left blank.**

**Revised: H.R.6201 - Families First Coronavirus Response Act**  
**Effective: April 1, 2020**

**Revised: H.R.133 - Consolidated Appropriations Act, 2021**  
**Effective: December 27, 2020**

**If the compliance attributes listed in 1-22 below were tested during payroll substantive testing, no additional tests are needed.**

**1-22 Compliance Requirements:** Various ORC Sections - Vacation and sick leave.

**Vacation leave:**

Ohio Rev. Code §§ 325.19 and 3319.084 prescribe vacation benefits for **county** and **school non-teaching employees**, respectively. See tables below.

The governing authorities of other local governments set vacation policy by statute, ordinance or charter. However, collective bargaining agreements supersede local statutes, ordinances or charters.

**Ohio Rev. Code § 325.19 - County vacation leave**

<b>Ohio Rev. Code § 325.19 Years of service</b>	<b>Vacation leave earned</b>
<1	0
≥1 but <8	80 hrs. per year
≥8 but <15	120
≥15 but <25	160
≥25	200

*Note:* Employees of county departments of jobs and family services accrue vacation pursuant to Ohio Rev. Code § 124.13. However, this Section prescribes the same vacation accruals as does Ohio Rev. Code § 325.19, above. Additionally, if a separation from county service occurs in connection with the lease, sale, or other transfer of all or substantially all the business and assets of a county hospital organized under Ohio Rev. Code Chapter 339 to a private corporation or other entity, the county shall have no obligation to pay any compensation with respect to unused vacation leave accrued to the credit of an employee who accepts employment with the acquiring corporation or other entity, if at the effective time of separation the acquiring corporation or other entity expressly assumes such unused vacation leave accrued to the employee's credit.

**Ohio Rev. Code § 3319.084 - School nonteaching employee vacation leave**

<b>Ohio Rev. Code § 3319.084 Years of service</b>	<b>Minimum vacation leave earned</b>
<1	0
≥1 but <10	2 weeks
≥10 but <20	3 weeks
≥20	4 weeks

**Ohio Rev. Code § 9.44** generally requires an Ohio local government to include an employee's prior service with the State or other Ohio local governments when computing vacation leave. However, there are

exceptions to this general rule. While this would rarely, if ever, be significant, if this applies to an employee's leave you are testing, see Ohio Rev. Code § 9.44 regarding the exceptions.

**Sick leave:**

Ohio Rev. Code § 124.38 prescribes 4.6 hours of sick leave for each 80 hours of completed service (120 hours / year), applicable to **county** (except for superintendent and management employees of County Boards of Development Disabilities defined in Ohio Rev. Code § 5126.20), **city, and civil service township service**. Ohio Rev. Code § 124.38 also applies to employees of any **state college or university**, and **certain board of education employees** (board of education employees for whom sick leave is not provided by Ohio Rev. Code § 3319.141).

Ohio Rev. Code § 3319.141- Sick leave for **school employees**: Earn 1¼ days per month (15 days / year), accumulating to a maximum of 120 days. However, a school board may adopt a policy permitting accumulations > 120 days. The requirements of Ohio Rev. Code § 3319.141 do not apply to substitutes, adult education instructors who are scheduled to work the full-time equivalent of less than one hundred twenty days per school year, or persons who are employed on an as-needed, seasonal, or intermittent basis.

Per Ohio Rev. Code § 124.39, employees governed by Ohio Rev. Code § 124.38 and employed for ≥ 10 years, are eligible for payment of 25% of their unused sick leave balance, up to a maximum of 30 days, upon retirement.

**Note:** These sections describe minimum vacation and sick leave. Governments generally may provide more than the minimum. These sections also prescribe procedures for paying the employees' accumulated leave balances upon separation from service.

**Families First Coronavirus Response Act (FFCRA) Leave:**

**Allowable period: Mandatory not later than 15 days after the date of the bill linked below (or) April 1, 2020 through December 31, 2020. Optionally, it may be extended through March 31, 2021.**

**Link to guidelines:**

- **December mandate included in FFCRA: <https://www.congress.gov/bill/116th-congress/house-bill/6201/text/enr>**
- **March extension included in Consolidated Appropriations Act (CCA): <https://www.congress.gov/bill/116th-congress/house-bill/133>**
  - **See also Department of Labor FAQs for more information at <https://www.dol.gov/agencies/whd/pandemic/ffcra-questions>**

**Summary: An employer shall provide to each employee paid sick time to the extent the employee is unable to work (or telework) from March 1 through December 31, 2020 or March 31, 2021 (if their policy indicates they chose to optionally extend based on the CCA which is linked above) because:**

1. **The employee is subject to a Federal, State, or local quarantine or isolation order related to COVID-19;**
2. **The employee has been advised by a health care provider to self-quarantine due to concerns related to COVID-19;**
3. **The employee is experiencing COVID-19 symptoms and is seeking a medical diagnosis;**
4. **The employee is caring for an individual subject to an order described in (1) or self-quarantine as described in (2);**
5. **The employee is caring for a child whose school or place of care is closed (or child care provider is unavailable) for reasons related to COVID-19; or**

6. The employee is experiencing any other substantially-similar condition specified by the Secretary of Health and Human Services, in consultation with the Secretaries of Labor and Treasury.

Additionally, an employee qualifies for expanded family leave if the employee is caring for a child whose school or place of care is closed (or child care provider is unavailable) for reasons related to COVID-19.

Duration of Leave/Calculation of Pay:

For leave reasons (1), (2), or (3): employees taking leave are entitled to pay at either their regular rate or the applicable minimum wage, whichever is higher, up to \$511 per day and \$5,110 in the aggregate (over a 2-week period).

For leave reasons (4) or (6): employees taking leave are entitled to pay at 2/3 their regular rate or 2/3 the applicable minimum wage, whichever is higher, up to \$200 per day and \$2,000 in the aggregate (over a 2-week period).

For leave reason (5): employees taking leave are entitled to pay at 2/3 their regular rate or 2/3 the applicable minimum wage, whichever is higher, up to \$200 per day and \$12,000 in the aggregate (over a 12-week period, including expanded family leave).

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Auditors should consider whether governments have vacation and sick leave policies placed in operation and have historically demonstrated effective internal controls over payroll and related compliance requirement. Additionally, adequate training of payroll personnel and supervisory monitoring controls can help mitigate the risk of noncompliance with vacation and sick leave compliance requirements.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

**For GAAP entities, it is usually efficient to include these procedures when testing the financial statement liability for compensated absences.**

1. Obtain a copy of resolutions, ordinances or collective bargaining agreements setting vacation leave. Maintain an up-to-date copy in the permanent file.
2. Determine the procedures followed for recording the accrual and use of sick leave and vacation. (If leave accrual is automated and online with standing data, very limited recomputations of additions to leave balances should suffice for testing credits (i.e. additions) to leave accrual).
3. Review the calculations of employees' leave balances credited and used, including appropriate leave forms. Determine whether the computations use the hours the Ohio Revised Code, local legislation or collective bargaining agreements authorize.
4. Determine if any employees left service this year. For a representative number of employees who left service, determine whether the computations use the hours the Ohio Revised Code, local legislation or, collective bargaining agreements authorize.

**Families First Coronavirus Relief Act Leave Procedures:**

- 5. Inquire with management and document the procedures followed for granting and recording FFCRA leave.**
- 6. Review the calculations of employees' FFCRA leave credited / used, including appropriate leave requests. Determine whether the computations use the hours the FFCRA law allows. (If leave accrual is automated and online with standing data, very limited recomputations of additions to leave balances should suffice for testing credits (i.e. additions) to leave accrual).**

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: H.R.6201 - Families First Coronavirus Response Act**  
**Effective: April 1, 2020**

**Revised: H.R.133 - Consolidated Appropriations Act, 2021**  
**Effective: December 27, 2020**

**If the compliance attributes listed in 1-23 below were tested during payroll substantive testing, no additional tests are needed.**

**1-23 Compliance Requirements:** Internal Revenue Code (I.R.C.) Chapter 26 [26 U.S.C.] - Collection of Income Tax at Source on Wages; 26 U.S.C. § 3401 through 3406:

- § 3401: Definitions;
- § 3402: Withholding of income tax from wages;
- § 3403: Employers liable for payment of the tax deducted and withheld;
- § 3404: Return of amount deducted and withheld shall be made by appropriate officer of the governmental employer;
- § 3405: Withholding on pensions and annuities;
- § 3406: Backup withholding
  
- 26 U.S.C. § 3102(a): Deduction of [Medicare] tax from wages;  
**Note: Section 2 Division G of the Families First Coronavirus Response Act, Coronavirus Aid, Relief, Economic Security Act [https://www.congress.gov/116/bills/hr6201/BILLS-116hr6201enr.pdf], Coronavirus Aid, Relief, and Economic Security Act [https://www.congress.gov/bill/116th-congress/house-bill/748/text], Consolidated Appropriations Act [https://www.congress.gov/116/bills/hr133/BILLS-116hr133enr.pdf], Treasury IRS Guidance n-20-65 [https://www.irs.gov/pub/irs-drop/n-20-65.pdf], and Treasury IRS Guidance n-21-11 [https://www.irs.gov/pub/irs-drop/n-21-11.pdf] include authority for crediting certain paid leave costs against the tax obligations related to this statutes and/or deferring the tax obligations to future periods.**
  
- 26 U.S.C. § 132: Exclusion of certain fringe benefits from gross income;
  
- Internal Revenue Regulations (26 C.F.R.):
  - § 1.61-21: Taxation of fringe benefits;
  - § 1.6041-1: Reporting of income aggregating \$600 or more [i.e., 1099s-MISC/NEC]<sup>81</sup>;
  - § 1.6041-2: Reporting of wage income aggregating \$600 or more [i.e., W-2s];
  - § 1.6041-3: Various exclusions;
  - § 1.6041-6: Time and place for filing forms 1099 and 1096;  
**Note: The IRS has deemed that grants local governments provide to small businesses under the CARES Act Coronavirus Relief Fund are taxable. Refer to IRS COVID-19 FAQs at: https://www.irs.gov/newsroom/cares-act-coronavirus-relief-fund-frequently-asked-questions.**
  - § 1.6050E-1: Income tax refund reporting.
  
- Ohio Rev. Code § 5747.06 - Collection of Ohio income tax at source.
  
- Janus v. American Federation of State, County, and Municipal Employees, Council 31, No. 16-

<sup>81</sup> All payments to attorneys of \$600 or more that are not otherwise reported (e.g., on form W-2 for attorneys who are employees) must be reported on form 1099-MISC.

1466, 585 U.S. \_\_ (2018), 138 S.Ct. 2448; public employees cannot be forced to pay “fair share” fees to labor unions. [Effective June 27, 2018] See also - [https://www.supremecourt.gov/opinions/17pdf/16-1466\\_2b3j.pdf](https://www.supremecourt.gov/opinions/17pdf/16-1466_2b3j.pdf)

- Various local ordinances require withholding on wages earned in the particular municipality. These should be consulted for the requirements.

**Summary of Requirement:**

These sections of the various tax codes require the employing government to withhold federal, state, and local income and employment-related taxes (such as Medicare). They also require the government to report those tax matters to the appropriate tax authorities and to the recipients. Certain of these sections require consideration of whether employer-provided “fringe” benefits, such as use of government automobiles for private purposes, constitute taxable income to be reported and withheld upon.

Effective for tax years beginning after December 31, 2009, Section 2043 of the Small Business Jobs and Credit Act of 2010 (Public Law No. 111-240) removed employer-provided cell phones from the definition of “listed property” in the tax code. While cell phones are still subject to being a taxable benefit, the new legislation removes the special record-keeping requirements of listed property. However, employers still should have a policy prohibiting any more than a de minimis personal use of government-owned cell phones.

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Auditors should consider whether governments have historically demonstrated effective internal controls over payroll. Additionally, adequate training of payroll personnel and supervisory monitoring controls can help mitigate the risk of noncompliance with payroll compliance requirements.

**Risk of material noncompliance is elevated when governments are in financial distress and may not pay withholdings when due.**

*Note:* See the *Ohio Compliance Supplement Implementation Guide* regarding IRS Referrals.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Note:* It is normally efficient to integrate step 1 below with payroll testing.

1. When testing payroll, determine if the government withholds state, federal and local income taxes.
  - **If the government applied the provisions in the Families First Coronavirus Response Act, Coronavirus Aid, Relief, Economic Security Act, or Treasury IRS Guidance n-20-65 as modified by Treasury IRS Guidance n-21-11, determine if they properly credited the paid leave costs against the tax obligations and / or deferred the tax obligations to future periods.**
2. Determine if the government provided any employees with potentially taxable fringe benefits, such as the use of a government-owned vehicle, or an auto or uniform allowance<sup>82</sup>. If so, determine the benefit amounts were reflected in the affected employees W-2. Review a representative number of W-2s that include these amounts, and verify a 1099 was not issued.
3. Determine if the government paid any independent contractor (other than a corporation) \$600 or more during this year. If so,
  - a. Review a representative number of issued Forms 1099s, and verify a W-2 was not issued,
  - b. Review vendor list and disbursement ledger and determine if Forms 1099 were issued.
4. If the government assesses an income tax, scan a few Forms 1099G for municipal income tax refunds exceeding \$10 each.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

---

<sup>82</sup> The IRS rules regarding whether fringe benefits are taxable can be complex, and subject to frequent revision, such as by interpretive private letter rulings. For example: Uniforms are usually nontaxable if they meet these two tests: (1) the employee must be required to wear the article of clothing while at work (2) the item cannot be adaptable to everyday wear. Many commonly-required work clothes are adaptable (heavy-duty jeans, etc.) and would therefore normally be taxable benefits.

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**If the compliance attributes listed in 1-24 below were tested during payroll and nonpayroll substantive testing, no additional tests are needed.**

**1-24 Compliance Requirement:** Various ORC Sections – Definitions, rates of contributions etc.

- Ohio Rev. Code §§ 145.01, 145.03, 145.402, 145.47, 145.48, and Ohio Administrative Code Rule 145-1-26 - **Public Employees Retirement System (PERS)**, definitions, exclusions, exemptions and rates of contributions.
- Ohio Rev. Code §§ 742.01, 742.02, 742.31 to 742.34 - **Police and Fire Disability and Pension Fund**, definitions, rates of contributions and reporting requirements.
- Ohio Rev. Code §§ 3307.01, 3307.26, 3307.35, 3307.51, 3307.53, 3307.56, 3307.561 (This addition is a result of SB 42), 3307.691 and 3314.10 - **State Teachers Retirement System (STRS)**, definitions, employment of retired members, contribution rates. (These sections also apply to community school employees.)
- Ohio Rev. Code §§ 3309.23, 3309.341, 3309.43 (This addition is a result of SB 42), 3309.47, 3309.49, 3309.51 and 3314.10<sup>83</sup> - Membership in **Public School Employees Retirement System (SERS)**, employment of retired members, contribution rate, payment of expense fund. (These sections also apply to community school employees.)

**NOTE: Auditors should be alert for changes in the account classification for related costs as compared to prior years because payments to cover payroll or benefits expenses of public employees for those employees whose work duties are substantially dedicated to mitigating or responding to the COVID-19 public health emergency may be charged to the Coronavirus Relief Fund.**  
[US Treasury Coronavirus Relief Fund FAQs](#)

**Summary of Requirement:** These sections require governments to enroll most of their employees<sup>84</sup> in the appropriate retirement system, and to withhold from the employees' wages, or pay on behalf of the employees, a certain percentage of earned wages as defined and to pay over to the appropriate system the amounts withheld, matched with an appropriate percentage of employer matching contributions.

PERS withholdings should be computed on earnable (i.e. usually gross) salary, that is computed on gross pay before deducting medical, dental, vision, and flexible spending (Ohio Rev. Code § 145.47, and Ohio Administrative Code Rule 145-1-26).

Certain community school teaching employees are included in STRS and others are excluded. Ohio Rev. Code §§ 3307.01(B)(1) and 3314.10 include in STRS membership any person who is employed in the

<sup>83</sup> The SERS board certifies to ODE amounts ODE is to withhold from community school foundation payments for pension costs.

<sup>84</sup> Independent contractors performing the same duties as school employees as defined in Ohio Rev. Code § 3307.01, such as contract teachers teaching in a classroom, may also be subject to membership in the STRS retirement system.

school as a teacher or faculty member.<sup>85</sup> The following are excluded under § 3307.01(B)(2)(b):

- The person is employed by a community school operator;
- The operator on or before February 1, 2016 was withholding and paying Social Security taxes on the person's behalf;
- The person had contributing service in a community school in Ohio within one year preceding the later of February 1, 2016, or the date on which the operator for the first time withholds and pays Social Security taxes for that person.

STRS excludes from membership any person not described above for whom a community school operator withholds and pays Social Security taxes, if the person is employed as a teacher or terminates employment with an operator and has no contributing service in a community school in Ohio for at least one year from the date of terminating employment. Each teacher shall contribute a certain percent not greater than 14%, of the teacher's earned compensation. (Ohio Rev. Code § 3307.26(A)).

Ohio Rev. Code §§ 3309.011, 3309.013, and 3314.10 specify which nonteaching community school employees are included in SERS membership and which are excluded. It excludes both of the following for employees of an operator withholding and paying social security taxes on or before February 1, 2016:

- Any person initially employed on or after July 1, 2016, by a community school operator that withholds Social Security taxes beginning with the first paycheck after commencing employment;

OR

- Except as described below, any person who is a former employee of a community school operator and is reemployed on or after July 1, 2016, by the same operator if the operator withholds Social Security taxes beginning with the first paycheck after commencing reemployment.

SERS includes in membership any person reemployed on or after July 1, 2016, by the same operator if the operator withholds Social Security taxes beginning with the first paycheck after commencing reemployment and the person is employed by the same operator at any time within the period July 1, 2015, to June 30, 2016, and the date of reemployment is before July 1, 2017.

#### **POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Auditors should consider whether governments have historically remitted employee and employer contributions to the appropriate retirement systems timely and demonstrated effective internal controls over payroll. Additionally, adequate training of payroll personnel and supervisory monitoring controls can help mitigate the risk of noncompliance with retirement system compliance requirements.

**Risk of material noncompliance is elevated when governments are in financial distress and may not pay the contributions when due.**

<sup>85</sup> "Faculty" means the teaching staff of a university, college, or school, including any academic administrators as defined in Ohio Rev. Code § 3307.01(P).

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. When testing payroll transactions, determine if the government withheld pension amounts at the proper rate.<sup>86 87</sup> (*Note:* PERS withholdings must be taken out prior to medical, dental, vision and flexible spending account deductions. Also, unless they meet the exceptions described above, employees of community school operators (i.e., management companies) must make contributions to STRS or SERS, even if the operator is already contributing to Social Security for these employees.)

<sup>86</sup> Pursuant to 26 U.S.C. § 3121(b)(7) and Ohio Rev. Code §§ 3307.01(B)(2)(b), 3309.011, 3309.013, and 3314.10, AOS considers employees of community school management companies who perform teaching and administrative services to be members of STRS or SERS unless they meet certain limited exceptions. Therefore, the mandatory employee and employer contributions must be paid into the appropriate State retirement systems unless the employee meets the exceptions described above. We have therefore previously cited management companies that *also* deducted and paid contributions to social security. AOS formally requested the IRS to confirm that it would defer to the Ohio Retirement Systems’ determination and consider the community school employees exempt from social security due to their participation in a qualified retirement plan. However, the IRS declined to confirm this exemption. Therefore, management companies may determine to risk potential IRS penalties and deem an employee to be an employee of the management company rather than the school. Contributions should continue to be remitted to the appropriate Ohio Retirement Systems if management company Boards determine the employees are members of an Ohio Retirement System. Failure to do so will still result in non-compliance citations. ***However, auditors should no longer issue noncompliance citations for additional contributions to the social security system.***

<sup>87</sup> Per Ohio Admin. Code 145-1-26(G)(9), payments made as fees or commissions that are fixed charges or calculated as a percentage of an amount are not "earnable salary". Ohio PERS (OPERS) has determined that payments for meetings such as those made to Village Council should not be used for a basis of OPERS contributions. Therefore, any person receiving per meeting payments (i.e., board of public affairs, joint fire districts, cemetery districts) should be subject to the same determination.

2. Scan payroll ledgers. List a few employees for which no pension is withheld. Ask the CFO to provide documentation or explanation as to why there is no withholdings for these employees.

*Note:* Third party contractors who provide pupil services (i.e. therapists and therapy assistants, pathologists, audiologists, social workers, nurses) are required members of STRS per STRS.

3. Examine selected payments of the withholdings from the government to the pension system. (This is an important step. Governments in financial distress occasionally resort to not paying withholdings when due. While unusual, this circumstance, even if not quantitatively material **would usually be qualitative material noncompliance**.)

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**1-25 Compliance Requirement:** Ohio Rev. Code §§ 1715.51-59, 517.15 and 759.36 – Permanent endowment funds.

**Summary of Requirements:** Accounting for gifts, endowments, and/or bequests with donor-restrictions.

**Uniform Prudent Management of Institutional Funds (UPMIFA)<sup>88</sup>**  
**Ohio Rev. Code §§ 1715.51--.59**

.53(C) Terms in a gift instrument designating a gift as an endowment, or a direction or authorization in the gift instrument to use only "income," "interest," "dividends," or "rents, issues, or profits" or "to preserve the principal intact," or words of similar import, ***create an endowment fund of permanent duration, unless other language in the gift instrument limits the duration or purpose of the fund***, and do not otherwise limit the authority under division (A) of this section to appropriate for expenditure or accumulate.

.55 indicates the restrictions on the permanent/non-spendable portion of the endowment may be released or modified if:

- A. The donor consents in a record<sup>89</sup>,
- B. Application of an institution, to an appropriate court, indicating the restriction has:
  - become impracticable or wasteful,
  - impairs the management or investment of the fund, or
  - a restriction, that if modified, will further the purposes of the fund.

**AND**

1. The institutional fund subject to the restriction has a total value of less than two hundred fifty thousand dollars;
2. More than ten years have elapsed since the fund was established;
3. The institution uses the property in a manner consistent with the charitable purposes expressed in the gift instrument.

***Exceptions to requiring donor or court approval:***

Ohio Rev. Code § 1715.53(D) The government may appropriate and spend not greater than 5% of the fair market value of an endowment fund (considered an “irrebuttable presumption of prudence”). Assuming:

- Fair market value is determined at least quarterly and averaged over a period of not less than 3 years (or period the fund has been in existence if less than 3 years) immediately preceding the year in which the appropriation for expenditure was made,
- An appropriation of greater than 5% is only unallowable for the portions that exceed 5%.

---

<sup>88</sup> Under this act, a governmental organization that qualifies as an “institution” may manage and invest an institutional fund. [Ohio Rev. Code § 1715.52(E)(3)] The term “institution” includes, a governmental organization to the extent that it holds funds exclusively for a charitable purpose.” Ohio Rev. Code § 1715.51(B)(2).

If a particular governmental entity has statutory authority itself to hold and invest donations that it receives, it may do so. If a particular governmental entity does not have statutory authority itself to invest and hold moneys that it receives as donations, the moneys must be paid to the appropriate treasurer for deposit and investment.

<sup>89</sup> According to Ohio Rev. Code § 1715.51(H) “record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

**Townships with a cemetery endowment fund – Ohio Rev. Code § 517.15** <sup>90</sup>

Dollars received into a Cemetery Fund under this section can be for a variety of purposes, as follows:

- (A) “Gifts, devises, or bequests received for the purpose of maintaining, improving, or beautifying township cemeteries;” (These dollars would be presented in a special revenue fund ~~with a restricted fund balance.~~)
- (B) “Charges added to the price regularly charged for burial lots for the purpose of maintaining, improving, or beautifying township cemeteries;” (These dollars may be presented in a permanent fund ~~with a nonspendable fund balance.~~)
- (C) “Contributions of money from the township general fund;” These dollars would most likely not be the foundation revenue of the fund. (These dollars would be presented in a special revenue fund ~~with a restricted fund balance.~~)
- (D) “An individual agreement with the purchaser of a burial lot providing that a part of the purchase price is to be applied to the purpose of maintaining, improving, or beautifying any burial lot designated and named by the purchaser;” (These dollars would be presented in a private purpose trust fund ~~—not subject to GASB Statement No. 54 fund balance classifications.~~)
- (E) “Individual gift, devises, or bequests made for the maintenance, improvement, and beautification of any burial lot designated and named by the person making the gift, devise, or bequest.” (These dollars would be presented in a private purpose trust fund ~~—not subject to GASB Statement No. 54 fund balance classifications.~~)

State statute allows this activity to be in one fund; however, maintaining separate funds may simplify financial reporting issues.

Upon unanimous consent of the board of trustees, the board may use the principal of the fund if the board is unable to maintain, improve, and beautify township cemeteries using only the income from the fund.<sup>91</sup>

**Union Cemetery Districts – Ohio Rev. Code § 759.36**

The board of cemetery trustees may create a permanent endowment fund for the express purpose of keeping the cemetery clean and in good order and may:

- A. Add to the price regularly charged for lots a sum for that purpose;
- B. Receive gifts for that purpose;
- C. Enter into separate agreements with the purchasers of lots by which an agreed part of the purchase price shall constitute a permanent fund;
- D. Receive individual gifts for the fund, the income thereof to be used for the upkeep and care of lots.<sup>92</sup>

When any such funds are received or created, they shall be a permanent fund for such use and the income therefrom shall be used only for such purpose, and the principal sum shall be kept and invested ... **except that upon unanimous consent of the board of cemetery trustees, the board may use the principal of the fund if the board is unable to keep the cemetery clean and in good order using only the income from the fund.** See also section 1-4 Establishing funds and Permission to establish special funds.

<sup>90</sup> See also AOS Audit Bulletin 2011-004 & 2020-008. Bulletin 2020-008 simplified the reporting of fund balance classifications in the AOS regulatory cash basis financial statements and footnotes beginning with the December 31, 2020 FYE reporting.

<sup>91</sup> In addition to the unanimous consent, the Board of Trustees should retain document and support the inability to maintain, improve and beautify cemeteries using only the income from the fund as well as use of funds.

<sup>92</sup> AOS staff should consult with the AOS Legal Division for determination on whether the Board of Trustees has the authority to override individual requests.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Obtain supporting documentation for any material endowments (may include bequests, legal agreements, resolutions/ordinances, minutes, etc.). Dependent upon the supporting documentation available, the activity may be recorded in:
  - a. A Private Purpose Trust Fund: If documentation indicates all or some of the amount given is required to be used for the benefit of individuals, private organizations, or other governments (i.e. for the beautification of a particular burial lot);
  - b. A Permanent Fund: If documentation indicates there are legal restrictions to spend only the interest and not the principal **AND** the restrictions are for the benefit of the government or its citizenry.
  - c. A Special Revenue Fund: If documentation supports program level restrictions (i.e. ‘embellishment or care of the cemeteries grounds); or
  - d. The General Fund: If no evidence is available to support the above classifications **and** the board/council pass a resolution authorizing the transfer.<sup>93 94</sup>

**If an endowment fund is appropriately recorded, and the government wants to release or modify a portion of it:**

2. If more than 5% (as described in Ohio Rev. Code § 1715.53(D) above) of any of the “non-spendable” portions were released, spent, or otherwise modified during the period.
  - a. [Townships or Union Cemetery Districts] Determine if the Board of Trustees gave unanimous consent to use the fund principal as described above, and evaluate the supporting documentation retained as evidence of their inability to maintain, improve and beautify cemeteries using only the income from the fund.
  - b. [for all other entities]:
    - i. Review any applications/approvals from appropriate courts,
    - ii. Determine if limitations on time and/or totals were adhered to, and
    - iii. Determine if the uses are consistent with expressed purposes.

<sup>93</sup> The board minutes (from the time of bequest) can be, in some cases, considered as sufficient evidence of intent if nothing else is available; however, all efforts to obtain evidence should be exhausted before money is moved to the general funds.

<sup>94</sup> If a situation arises in which an entity does not pass a resolution, we will issue a comment to recommend that the entity take such action to ensure a legally sufficient transfer in accordance with the Ohio Rev. Code and GASB. An audit adjustment will not be made if no such resolution is made first.

*Note:* Non-compliance with these UPMIFA may require audit reactions beyond non-compliance citations (i.e. opinion modifications, findings for recovery/adjustment, etc.) and AOS staff should consult with AOS Legal Division.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## SCHOOL DISTRICTS

Revised: HB 164, 133 GA  
Effective: June 19, 2020

Revised: HB 166, 133 GA  
Effective: October 17, 2019

**1-26 Compliance Requirement:** Ohio Rev. Code §§ 3317.01, 3317.02, 3317.03, 3317.031, 3313.981(F), 3313.48, 3313.668, and 3321.04; Ohio Admin. Code 3301-35-06 - School District Funding.

**Fy 2021 Note:**

- For the reasons explained below, AOS will take a controls/walk through approach with limited testing to evaluate compliance over FY 2021 for this step.
- Due to COVID, for Fy 2021, school districts could choose to operate in person as normal, OR under a remote learning plan (133<sup>rd</sup> GA, HB 164, Section 16(B)) OR under a blended learning model/declaration (Ohio Rev. Code § 3302.41). This determination may be on a district wide, or per building basis; meaning one district may have some buildings on a blended declaration, other buildings on a remote learning plan, and other buildings operating in person as normal. There should be no overlap among the plans.
  - Remote learning plans are a temporary alternative for Fy 2021 only, and apply to traditional public schools and community schools that are not computer- or internet-based community schools and not operating blended education delivery models. Districts using remote learning plans should track attendance details locally to the degree that their current systems allow, as long as they are able to address the considerations outlined in the Department's Remote Education Planning guidance as well as Attendance Considerations for Remote Learning Plans guidance. While HB 164 required the plans be submitted to ODE, ODE did not review or approve them for content. The remote learning plan was a COVID-19 alternative for site-based schools that do not ordinarily use blended learning.
- Minimum number of hours requirement:
  - Remote Learning Plan - 133<sup>rd</sup> GA, HB 164, Section 16(D) allowed for Fy 2021 only, a school district that implements a [remote learning] plan which addresses the six required elements described in HB 164 shall be considered to have complied with: (1) The minimum number of hours requirement, and (2) Any requirements to receive state funds under ORC 3317.
  - Blended Learning Declaration – The school is exempt from school year hourly requirements in ORC 3313.48(A) to the extent the school alters the hours it is open for instruction in order to accommodate blended learning opportunities that apply to all students (per ODE's Comparison Guide linked to in controls box below). Blended learning was in law prior to the pandemic and continues to be an option available to site-based schools. The requirements for schools utilizing blended learning have not changed.
- 133<sup>rd</sup> GA, HB 166, Sections 265.215 & 265.220 froze traditional district funding to FY 2019 levels for FY 2021. Aside from deductions/adjustments being based on current year data (ie. open enrollment, etc.), traditional school districts received the same payment in FY 2021 as they did in FY 2019, regardless of their FTE. Therefore, noncompliance with requirements in this step will generally not affect Foundation funding amounts or result in Findings for Recovery. However, as a matter of stewardship, AOS will test compliance controls and limited compliance requirements in this step to ensure schools are tracking student attendance and complying with the alternative requirements the legislature has provided.
- As a result, for Fy 2021 auditors will perform alternative testing procedures, as indicated in the controls & suggested audit procedures sections below.

**Summary of Requirements:**

Public school districts use a combination of state funds, local sources such as property taxes (and in some cases income taxes) and federal funds. The amount of state funds that a district receives is based on a formula that takes into account the student enrollment and the property wealth of the district. Ohio Department of Education (ODE) calculates payments to city, local and exempted village school districts from data reported by the district, such as the number of students enrolled in the district, and are made twice each month according to a schedule published each spring.

Students are counted in the district in which they reside for foundation funding purposes. However, some students are educated outside of the district where they reside; for example, students attending a community school, students attending a science, technology, engineering, and mathematics (STEM) school, students attending another district through open enrollment, students attending a college or university through the College Credit Plus Program, and students attending a nonpublic school through a state-funded scholarship program. Funding for these students is deducted from the state aid allocation of the resident district and transferred to the educating district or school.

[LS CHB 166 Redbook:EDU] *Redbook: LBO Analysis of EDU Portion of Introduced Budget*, p. 5.

Retrieved from <https://www.lsc.ohio.gov/documents/budget/133/MainOperating/redbook/EDU.PDF>

For FY 2020 and FY 2021, Department of Education is required to pay each city, local, exempted village, and joint vocational school district an amount equal to the district's payments for FY 2019. It also requires the Department to make an additional payment for FY 2020 and FY 2021 to each city, local, and exempted village school district, with at least 50 enrolled students, that experiences an average annual percentage change in its enrollment between FY 2016 and FY 2019 that is greater than zero. In the FY 2019 formula, public school students are counted in their resident district's average daily membership (ADM) for purposes of foundation aid payment calculations. When a student attends a school that is not a part of the resident district, the foundation aid for the student is deducted from the resident district and transferred to the school where the student is educated. Generally, in FY 2020 and FY 2021, deductions and transfers will be determined by using FY 2019 per-pupil amounts and current year student counts.

[LS CHB 166 Greenbook] *Greenbook: LBO Analysis of Enacted Budget*, pp. 6, 17. Retrieved from

<https://www.lsc.ohio.gov/documents/budget/133/MainOperating/greenbook/EDU.PDF>

ODE's Education Management Information System (EMIS) provides a streamlined system for districts to report information required to receive state funding and to determine eligibility for federal funding. EMIS automates the complexity of the funding formula calculations specified in Ohio law so that districts do not have to interpret the legislation to calculate and report total counts of students. Districts report specific information on each student, such as various student demographic attributes, percent of time educated, attendance/absence, and disability condition. EMIS aggregates and compiles the data to determine funding. <https://education.ohio.gov/getattachment/Topics/Data/EMIS/EMIS-Overview.pdf.aspx>

Superintendents are legally required to review and certify the quality of data, as noted in the following:

- Ohio Rev. Code § 3301.0714 requires districts to report data in the statewide education management information system (EMIS).
- Ohio Admin. Code § 3301-14-01 (G) requires district superintendents and treasurers to verify and approve all EMIS data for reporting purposes.
- Ohio Rev. Code § 3317.03 (B) requires district superintendents to certify average daily membership (ADM) figures in the Funding Certification Report used to calculate funding

Ohio Rev. Code § 5705.391 in accordance with §§ 3319.31 and 3319.311 of the Revised Code, may limit, suspend, or revoke a license as defined under § 3319.31 of the Revised Code that has been issued to any school employee found to have willfully contributed erroneous, inaccurate, or incomplete data required for the submission of the five-year projection required by this section.

Note that a person assigned to the Superintendent's Designee role in ODE's Ohio Educational Directory System (OEDS) can also complete the EMIS Data Review and Verification form on behalf of the superintendent. [[EMIS Manual 1.1.1](#)]

Schools are funded based on annualized enrollment as opposed to daily attendance. However, there is an important nexus between student attendance and enrollment for Foundation funding purposes. Students are considered as enrolled in a school until the last day of attendance or until permissible student withdrawal can occur. Schools must provide documentation that clearly demonstrates students have participated in learning opportunities. Students with excused absences remain enrolled and will be funded. No school district or school shall suspend, expel, or remove a student from school solely on the basis of the student's absences from school without legitimate excuse. [Ohio Rev. Code §§ 3313.668] Instead, districts must have policies that outline their interventions and plans. See additional info. from ODE at <http://education.ohio.gov/getattachment/Topics/Student-Supports/Chronic-Absenteeism/House-Bill-410-FAQ-2.pdf.aspx?lang=en-US>.

All children in the state of Ohio are entitled to a free and appropriate education. Between the ages of 6 and 18, children are required to attend school. Each district is responsible for the students living within the district's boundaries who should be attending its schools. That responsibility extends beyond the reach of EMIS reporting. For instance, anytime a district learns that a student within its boundaries is allegedly truant, an investigation per state laws and local truancy policies must be undertaken. This is true regardless of whether or not the district is required to report that student via EMIS. [[EMIS 2.1.1](#)]

Traditional school districts, and joint vocational school districts must comply with minimum hours of instruction instead of a minimum number of school days each year. Average Daily Membership (ADM) is a material variable used to compute school districts' funding, pursuant to Ohio Rev. Code § 3317.022(A). Ohio Rev. Code § 3317.03 defines ADM. Pursuant to Ohio Rev. Code § 3317.03, the school superintendent shall report to the state board of education as of the last day of October, March, and June of each year the enrollment of students receiving services from schools under the superintendent's supervision, and the numbers of other students entitled to attend school in the district under Ohio Rev. Code §§ 3313.64 or 3313.65.

Schools must comply with minimum hours of instruction instead of a minimum number of school days each year (Ohio Rev. Code § 3313.48).

The minimum "open for instruction" hours are:

- 455 hours for students in half-day kindergarten;
- 910 hours for students in full-day kindergarten through Grade 6; and
- 1,001 hours for students in Grades 7-12

Open for instruction includes time when the district or building is open and all students are participating in:

- Regularly scheduled classes;
  - Supervised activities, such as assemblies;
  - Approved education options; and
  - Co-curricular activities during the scheduled school day.
- As part of the minimum hours, districts and schools may use:
- Up to two equivalent days for the purpose of individualized parent-teacher conferences and reporting periods;
  - Up to two equivalent days for the purpose of professional meetings of teachers; and
  - Morning and afternoon recess periods of no more than fifteen minutes each for students in Grades Kindergarten through 6.

Time spent during lunch periods, breakfast periods and extracurricular activities does not count as open for instruction. A schedule must include five days in each week.

Calamity days are no longer applicable. Instead, schools may schedule “excess” hours above the minimum number. Hours missed above the minimum do not have to be made up. However, if a school closes enough that it will fall below the minimum number of hours, the school must extend its scheduled year.<sup>95</sup>

The ADM counts will be based on the annualized full-time equivalent (FTE) enrollment of each student. A full-time student is one who attends the entire school day and entire school year; that will result with the student having a FTE of 1.00. Students should never have an FTE greater than 1.0. Students who attend a school for less than the entire year will have an FTE equal to the total days/hours attended divided by the number of days/hours in the school year. Schools are funded on a per-pupil FTE basis.<sup>96</sup> School districts will be able to continuously update this information, but must report actual FTE information by the last day of October, March, and June. A student’s FTE will be determined based on the individualized calendar/class schedule each student is assigned to for the school year and their enrollment and withdrawal dates.<sup>97</sup>

In order for ODE to calculate the State Foundation payments to schools on an hourly/per student FTE basis, schools are required to assign each student to a calendar in EMIS. ODE requires schools to create a Master Calendar that details each day a school is in session (or not in session). ODE uses the Master Calendar to validate that a particular day is a full or partial school day that students assigned to this calendar are supposed to be in attendance. Schools may also need to create subcalendars for different schools buildings, grades, or other groups of students that have a deviation from the Master Calendar. For example, Kindergarten students might only have half day attendance where students in Grades 1 through 5 have full day attendance. In this example, schools would need to create a subcalendar for its Kindergarten students in order to document the deviation from the Master Calendar that students in Grades 1 through 5 are assigned.

Furthermore, if a district has five buildings, each building may need its own unique Master Calendar as well as other calendars to cover unique situations. For example, the district may require the high school students to attend the day before Thanksgiving but the elementary and middle school students have the day off because of Parent Teacher Conferences. Having a separate Master Calendar in each building allows for this and other scenarios.

Attending groups may consist of (but are not limited to) the following groups of students:

- KG grade level students with staggered start days (KG students starting on a later day than all other regular students);
- Seniors who get out of school earlier than all other students in the building;
- Post-secondary students who have attending patterns such as M/W/F and T/TH of the next week, M/W/1/2 day Friday, etc.;

---

<sup>95</sup> One way to make up the hours missed below the minimum required is to use web lessons and blizzard bags (Ohio Rev. Code § 3313.482). Schools will adopt plans explaining how they will make up the missed hours, instead of days, up to the equivalent of three scheduled days. Web lessons/blizzard bags may only be used when it is necessary to close the school because of: disease epidemic; hazardous weather conditions; law enforcement emergencies; inoperability of school buses or other equipment necessary to the school's operation; damage to a school building; or other temporary circumstances due to utility failure rendering the school building unfit for school use.

<sup>96</sup> See section O-7 in the Optional Procedures Manual for further information on the ‘formula amount’.

<sup>97</sup> ODE requires each student be assigned a Statewide Student Identifier (SSID) for funding. SSIDs are different from the local IDs assigned to students. If the local district does not have an SSID for an entered student, they would not be included in the funding calculation.

- Students who attend another district but your district is responsible for reporting their attendance;
- Any other attending pattern where events/exceptions are neither district wide nor building wide for a particular subset of students.

When counting the number of students enrolled for Foundation Funding purposes, Ohio Rev. Code § 3313.981 sets the requirements for the inclusion and exclusion of students who live in one district but who are paying “tuition” (i.e. *formula funding* defined in Ohio Rev. Code § 3317.08) and enrolled in another district. A student should be included in the FTE count of the district in which he/she resides and not the district in which he/she pays tuition to attend.

Valid legal reasons for not attending Ohio public schools are set forth in Ohio Rev. Code § 3321.04. Any reason not delineated in this code provision shall be deemed unexcused and the pupil should not be reported as enrolled for that day.

Enrollment begins “on the date on which the school has both received the documentation of the student’s enrollment from a parent and the student has commenced learning opportunities offered by the district.” Learning opportunities are defined as both classroom-based and nonclassroom-based learning opportunities overseen by licensed educational employees.

A district must withdraw the student for funding purposes when:

1. the district receives documentation terminating enrollment of the student [Ohio Rev. Code § 3317.034(C)],
2. the district is provided documentation of a student’s enrollment in another school [Ohio Rev. Code § 3317.034(C)], and
3. the student ceases to participate in learning opportunities provided by the school [Ohio Rev. Code § 3317.034(C)].

Upon entering school, students are required to present certain documentation. Ohio Rev. Code § 3313.672 spells out the documentation that is required by state law for a child to be enrolled in a district. These documents become a part of the student’s record and must be maintained for at least five years after enrollment ends. Pursuant to Ohio Rev. Code § 3317.031, districts must maintain a “membership record” that includes certain information regarding every student enrolled, including withdrawal dates and days absent. Districts are required to maintain each such record “for at least five years.” In situations where the responsibility for a student is shared between districts (e.g., JVSD students, court-placed students, etc.), it is not required that both districts maintain copies of all relevant documents. The districts involved should work together to ensure that relevant documentation exists, and the district that is not maintaining copies should document in the student’s file that the district is relying on the documentation maintained by the other district. Further, districts must maintain documentation to support any withdrawal code reported for a student. Information regarding the preferred documentation that districts should maintain in student files for the different withdrawal codes varies. Also, in instances where districts are unable to secure the preferred documents, some other documentation may be considered acceptable alternatives to support the relevant withdrawal code. A table of the acceptable documentation can be found on page 4 of section 2.1.1 of the EMIS Manual [[EMIS 2.1.1](#)].

Once a student has been properly enrolled in a district, there are a number of instances in which the student can then withdraw or be discharged from the district. Some situations may result in a district retaining responsibility for a student, even though it is no longer educating that student. One such example is a student who has been withdrawn from a district for failure to participate in learning opportunities. Though such a student is no longer the district’s responsibility for funding purposes, the district does have a responsibility to this student and must still follow relevant law and policy regarding truant and missing children. [[EMIS 2.1.1](#)]

In some cases where a student has been withdrawn from school, the district's responsibility to that student does not end. For example, if a student is withdrawn, is still of compulsory school age, and is not enrolled anywhere else, the district must still conform to local policies and all state laws and rules concerning truancy. As part of this, districts still have documentation requirements, such as the continued tracking of absences and the maintenance of records documenting the steps taken in fulfillment of such policies, rules, and laws. This is an instance of a data reporting rule (when to withdraw the student in EMIS) and Ohio law (compulsory education and truancy) touching the same subject while having different requirements in terms of actions, documentation, and timelines. [[EMIS 2.1.1](#)]

Generally speaking, the withdrawal date a district reports is the date that is supported by the documentation it has on file. If the district has a signed form from a responsible party outside the district, then either the date indicated on the form (when notice is given in advance of the student's last day) or the date of receipt of the notice itself should be used. If the district does not have a signed form, but does have a records request, then the student is withdrawn one day prior to the enrollment date indicated on the records request. If neither of these documents is on file, then the most appropriate, documented, date should be used (e.g., date of death, date of medical withdrawal, etc.). [[EMIS 2.1.1](#)]

Though state law does place many requirements on districts, much is still left up to local policy. Districts must have local attendance policies. Superintendents must develop guidelines that establish procedures so that students and parents have an opportunity to challenge the district's attendance record prior to the withdrawal of a student. Districts must also have local policies to guide employees in addressing and resolving students' habitual truancy (Ohio Rev. Code § 3321.191). As these policies have an impact on EMIS reporting, it is important for EMIS coordinators to be aware of and familiar with these policies. [[EMIS 2.1.1](#)]

ODE will continue to adjust the FTE used for the funding formula as the school updates its information throughout the year. At the close of the school's fiscal year end, ODE will reconcile the Final FTE Foundation payments and determine whether the school has a corresponding receivable from or payable due to ODE based upon the accumulation of student FTE's throughout the year. This reconciliation is particularly complex for mobile students and students residing in one district but attending another school. It is critical that schools accurately and timely report their student data to ODE in order for this reconciliation to be performed. At the close of the 2014-2015 school year, for example, ODE had concerns about the reliability of student data many schools reported. As a result, ODE performed numerous reconciliations and adjustments to the Final FTE Foundation payments from August 2015 into calendar year 2016. While we believe this extended adjustment period was due in part to the changes ODE made in the EMIS redesign, we expect that the Final FTE Foundation payment adjustment period will continue to span several months after the schools' fiscal year end. For this reason, schools should continue to evaluate whether these adjustments could result in a receivable, payable, or potential contingency footnote disclosure in their GAAP-basis annual financial statements.

ODE makes the Student Cross Reference (SCR) application available to all schools to track enrollment of students on a statewide basis. Using SCR, schools have the opportunity to review student data, including student attributes and potential overlaps, submitted by it and other schools in the State. The SCR gives schools the opportunity to reconcile student enrollment questions and issues and reduce or eliminate errors that could suspend or impact a school's Foundation funding payment. Schools must submit changes in a student's status to ODE (via the Data Collector) within 30 days of the change. ODE refreshes school submissions nightly so that all schools have the ability to view student changes on nearly a real-time basis. Schools have the ability to access the SCR system via their OH|ID (formerly SAFE) account and the Ohio District Data Exchange (ODDEX) role. The SCR screen shot can be used as supporting documentation for entry of a student withdrawal. ODE will not fund overlapping student enrollment dates across different schools until the conflict is resolved by the schools. Students should not be funded for greater than 1.0 FTE.

As part of their EMIS reporting requirements, school districts must collect the following data on each pupil which will be used, in part, for Foundation Funding and report card calculations and is viewable by other attending schools within the SCR:

- Student name (listed alphabetically)
- Grade level
- Date of enrollment (date pupil enrolled in the counting school)
- Status – this is the status code used in EMIS (i.e., most will be 0 = resident student).
- Resident district IRN number (i.e., Most students will be residents of the home school district). The counting school should use the child’s resident school district IRN number for students outside of the district, such as open enrollment students.
- Attending home IRN number and indicator
- Pupil attendance (the attendance documents should indicate each day a student is not in attendance and the reason for the absence).

This data should be part of an attendance record for each student. To complete the attendance status, the person taking attendance must keep an accurate record of those students who are present and those who are absent. In addition, each day of absence must be determined to be excused or unexcused. Under Ohio Admin. Rule 3301-69-02(B)(2), there are eight reasons for absence to be excused:

1. Personal illness
2. Illness in the family
3. Quarantine of the home
4. Death of a relative
5. Medical or dental appointment
6. Observance of religious holidays
7. College visitation
8. Foster care placement, change in foster care placement, or court proceedings related to foster care status
9. Homelessness
10. Emergency or other set of circumstances in which the judgment of the superintendent of schools, constitutes a good and sufficient cause for absence from school.

The school district must determine by contact with the parent or guardian if the reason for absence is one of the eight listed. If the reason for absence is not one of the eight, the student must be marked unexcused for that day. The parent must file a written request for an absence for these purposes in advance of the absence, except in cases of emergency. Excuses in these situations are limited to no more than thirty school hours and can be renewed for thirty additional hours; in total, such excuses are not to exceed sixty consecutive hours. The only exception to this is if a student’s parent has died or become incapacitated and there is no older brother or sister living in the home who is out of school. In these cases, a student may be excused for more than sixty school hours. [Ohio Admin. Code § 3301-69-02(A)] [[EMIS 2.1.1](#)]

Ohio Rev. Code § 2151.011(B)(22) provides an additional list of legitimate excuses authorized as *excused* absences.

- Excuses for “excused” absences should be available in the school office and with the class list for each attendance teacher. This includes notes from home, phone logs, suspension notices, and other relevant documents.
  - All excuses from parents, and other documents, regardless of format or condition, become official attendance records. Ohio Rev. Code § 3317.031 requires, “this membership record shall be kept intact for at least five years and shall be made available to the State Board of

Education or its representative in making an audit of the average daily membership or the transportation of the district.”

All notes and other verification information relative to excused absences and tardiness should be organized by attendance period in a folder. Suspensions or expulsions are examples of other types of verification that should be included in the folder. If a telephone call is the means of confirming excused absences, a copy of the log should be included in the folder. The log should contain the date of the absence, the date of the call, the name of the person making the call, the name and relationship of the person contacted, and the reason for the absence.

**ODE Policy**

Districts cannot refuse to enroll a student or delay a student’s entrance into school based on the time of year. For instance, if a student appears in a district and applies for enrollment during the last few weeks of the school year, the district cannot refuse the student’s admittance until the following school year. Delayed paperwork is also an insufficient reason for denying a student’s immediate entrance into school. A district may not wait on a student’s transcript to be received before allowing the student to attend school (students coming directly from Department of Youth Services are an exception to this). [\[EMIS 2.1.1\]](#)

Districts should determine whether vacation days are generally considered to be excused or unexcused absences and include this in their attendance policies. Districts with policies making vacation days unexcused absences should also determine whether there are circumstances under which vacation days may be excused. Students who are on vacation are not to be withdrawn and then re-enrolled upon their return. Unless the district has documentation to support a withdrawal, the student remains enrolled with vacation days marked as absences. Regardless of the reason for the absence, excused absences do not count toward truancy proceedings. [\[EMIS 2.1.1\]](#)

Refer to ODE’s EMIS Manual, Student Enrollment Overview for additional guidance on specific student enrollment and withdrawal requirements: [\[EMIS 2.1.1\]](#)

Refer to the EMIS Manual Student Standing Record for guidance on: [\[EMIS 2.4\]](#)

- Reporting student percent of time when a student is being educated by multiple school districts, career centers or ESC’s, and post-secondary options
- Appropriate Withdrawal Codes and Reasons

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring and reconciliation</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>	<p><a href="#">Download &amp; provide this file to the client to document learning model(s) used during Fy 2021 per building/time period. Clients should identify which learning models each building utilized during the school year. In some cases, some buildings may have utilized more than one model. Where this is the case, clients should indicate the time periods each model was in affect for each building.</a></p> <p><a href="#">Document in narrative format, controls in place over student attendance for each learning model utilized in document</a></p>	

	<p>above... (ie. how attendance was taken, how learning opportunities were offered to students, how student engagement in remote or online opportunities was measured, how the district monitored missing students for truancy, etc.). Referencing to various sections of plans/policies is strongly encouraged within this narrative.</p>

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Note: For purposes of local school audits, the most effective audit procedures include a review and evaluation of school policies as well as verification that schools are maintaining the appropriate student enrollment, attendance, and withdraw documentation. A school’s timeliness of student enrollment and withdrawal dates is also a critical component in ensuring accurate FTE reporting to ODE. Finally, school EMIS personnel should be actively reviewing and reconciling student enrollment differences in the Student Cross Reference application to avoid potential overlaps in Foundation funding at multiple schools for the same student.*

As a result of the information on the first page of 1-26, for Fy 2021 auditors will test this section as follows:

- For all districts – First complete documents described in controls box above.
- Then, complete Suggested Audit Procedures as follows:
  - Steps 1 & 7 – test as indicated in step
  - Steps 2-6 & 8 – no testing required for Fy 2021.

1. Document and evaluate the school’s policies and procedures for student attendance, enrollment, withdrawal, and assigning students to instructional calendars.

- If the district utilized remote learning during Fy 2021 due to COVID, evaluate whether they complied with 133GA, HB 164, Section 16(B) by assessing whether:
  - They adopted a temporary Fy 2021 remote learning plan (the plan); if so:
  - The plan was submitted to ODE not later than August 21, 2020.
    - ODE approval of the plan is not required.
    - Plans submitted to ODE are available on ODE’s webpage.
  - The plan included the following elements (auditors are not expected to test the sufficiency of each element, just that each element was included):
    - (1) A description of how student instructional needs will be determined and documented;
    - (2) The method to be used for determining competency, granting credit, and promoting students to a higher grade level;
    - (3) The school’s attendance requirements, including how the school will document participation in learning opportunities;
    - (4) A statement describing how student progress will be monitored;
    - (5) A description as to how equitable access to quality instruction will be ensured;
    - (6) A description of the professional development activities that will be offered to teachers.

Consult with CFAE Community School Specialist if a remote plan was adopted, but did not include all elements; if the District failed to adopt a remote plan, but operated remotely

without either a remote learning plan or blended learning declaration; if the school operated one building under both blended & remote learning plans, etc.

- Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.
- Select one week for one building that operated remotely & perform a walkthrough for one student. Based on documentation in controls box below & the schools remote learning plan, determine if documents exist to support such controls were in place.
- Lack of support would likely result in a management letter comment. However, consult with CFAE Community School Specialist if it appears they are not following the policies/controls of model(s) chosen/utilized.
  - Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.

Note: 133rd GA, HB 164, Section 16(F) requires that the remote learning plans be submitted to ODE no later than July 31, 2020 whereas ODE guidance directs that the plan be submitted no later than August 21, 2020. AOS will test for compliance using the deadline imposed by ODE.

- If the district utilized a **blended learning** declaration/plan during Fy 2021 due to COVID, evaluate whether: (source: [ODE’s Blended Learning Declaration vs. Remote Learning Plan](#))
  - They filed a blended learning declaration form with ODE and related Board approved policies were adopted; if so:
  - The declaration form was *submitted* to ODE not later than November 1, 2020.
    - ODE approval is not required.
    - Declaration forms filed with ODE are available [here](#).
  - The policy included the following items (*auditors are not expected to test the sufficiency of each item, just that each item was included*):
    - *Student Instructional Needs and Personalization* - Adopted policy must describe the means of personalization of student-entered learning models to meet the needs of each student.
    - *Student Progress and Competency, Credit and Promotion* - Adopted policy shall include method of assessment of each participating student’s progress through the curriculum. Students shall be permitted to advance through each level of the curriculum based on demonstrated competency/mastery of the material.
    - *Attendance and Participation* - Adopted policy **should** include the expectation for attendance and how the school will document participation in learning opportunities.

Consult with CFAE Community School Specialist if a blended policy was adopted, but did not include all items; or if the District failed to file a blended declaration/adopt policy, but operated blended.

- Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.

- Select one week for one building that operated blended & perform a walkthrough for one student. Based on documentation in controls box below & the schools blended learning policy, determine if documents exist to support such controls were in place.
- Lack of support would likely result in a management letter comment. However, consult with CFAE Community School Specialist if it appears they are not following the policies/controls of model(s) chosen/utilized.
  - Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.

Note: Ohio Rev. Code § 3302.41(A) requires that the blended learning declaration form be submitted to ODE no later than July 1, 2020 whereas ODE guidance directs that the declaration form be submitted no later than November 1, 2020. AOS will test for compliance using the deadline imposed by ODE.

- If the district chose to **operate in person as normal** the entire year (ie. not under a blended declaration or remote learning plan):
    - Document and evaluate the school’s policies and procedures for student attendance, enrollment, withdrawal, and assigning students to instructional calendars.
    - Select one week for one building & perform a walkthrough for one student. Based on documentation in controls box below & the schools policies and procedures, determine if documents exist to support such controls were in place.
    - Lack of support would likely result in a management letter comment. However, consult with CFAE Community School Specialist if it appears they are not following the policies/controls of model(s) chosen/utilized.
    - Also consult with CFAE Community School Specialist if it appears the school operated a blended or remote learning model without adoption/filing of such plan/policy.
      - Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.
2. Determine whether the Master Calendars for each grade and/or school building include at least the requisite minimum number of instructional hours.
- If the school district was open for instruction for less than the required minimum number of hours, determine whether the school district received a written waiver from the superintendent of public instruction. *Authorized waivers are rare and should always be evidenced in writing.*
3. Document and evaluate procedures for enrolling and withdrawing pupils, and for processing excused student absences. As part of this evaluation, determine whether the district’s policies include sufficient procedures for identifying and tracking all student for whom the district is *financially* responsible (i.e., some students may result in a district retaining truancy and missing child responsibilities for a student, even though it is no longer educating or receiving funding for that student):
- (a) students residing in and attending district schools,
  - (b) students attending schools in other districts through open enrollment and contractual arrangements,
  - (c) students placed by the courts in facilities outside the district,
  - (d) students attending community schools, and

(e) students attending non-public schools through one of the scholarship programs.

Also, determine whether the school's student withdrawal policy includes sufficient guidance to EMIS and other administrative personnel for monitoring student absences, capturing student enrollment, identifying and reporting truant or missing students, and determining the appropriate timeframe within which personnel should begin truancy proceedings and withdraw a student (after 7/1/17 they should not be withdrawn Ohio Rev. Code §§ 3313.668).

Finally, determine whether required withdrawal documentation is maintained. See the EMIS manual for details on acceptable documentation beginning on page 4 of section 2.1.1: [\[EMIS 2.1.1\]](#).

4. For students with an SSID with excused absences, select five and, request the representative building attendance officers or EMIS Coordinator to provide access to the students' attendance records, including the students' files, and determine whether the school maintained documentation to support excuses. This may require reviewing attendance data in the school district's electronic student information system (e.g., DASL, PowerSchool, Progress-Books, etc.). *Note:* A call log might be sufficient documentation if it contains enough detail to justify an excused absence. For example, if excused for a medical reason, does the log document a conversation with a parent explaining the illness?
5. Select a representative number of students with an SSID that were withdrawn during the school year. The withdrawal list may be obtained by the school through EMIS or the school's student attendance database.
  - Identify when students were withdrawn and determine whether it was timely (e.g., waiting several weeks or more to withdraw a student is not timely) based on evidence in the student's file.
  - Determine whether the appropriate EMIS withdrawal code was used (refer to Chapter 2 of the EMIS Manual) to withdraw the student based on evidence in the student's file. Chapter 2 of the EMIS manual [\[EMIS 2.4\]](#) provides examples of the types of documentation required to be obtained and maintained by the school for each type of withdrawal code.
  - Compare the dates determined in the steps above to EMIS or other student attendance database reports. Inquire with management about any significant differences or adjustments. Consider reporting noncompliance or other client communication for any significant unexplained variances.
    - A school should not wait until March to remove a student from its enrollment if the student withdrew in October. Significant delays in reporting student withdrawals constitutes noncompliance. Likewise, a student with chronic absenteeism, excessive absences, or habitual truancy should have received multiple communications from the school. Schools should maintain a daily call log or obtain timely excuses from the parent, guardian, or adult-aged student), and/or if it escalates to the point that the student is withdrawn for failure to participate in learning opportunities documentation and reasoning should be made available.
6. Select a representative number of students with an SSID that enrolled during the school year. The new enrollment list may be obtained by the school through EMIS or the school's student attendance database.
  - Identify when students were enrolled and began participating in learning opportunities and determine whether it was timely (e.g., again, waiting several weeks or more is not timely) based on evidence in the student's file. Enrollment should not begin prior to the date a parent or guardian signs and approves a student's enrollment form unless the student is age 18 or older.
  - Compare the dates determined in the steps above to EMIS or other student attendance database reports. Inquire with management about any significant differences or adjustments.

Considering reporting noncompliance or other client communication for any significant unexplained variances.

7. Document and evaluate the school's procedures for reviewing the Student Cross Reference application. Determine whether appropriate school personnel are reviewing and reconciling this information in a timely manner. In most schools, appropriate school personnel include the EMIS staff; however, it may be necessary for school administrators and teachers to review and provide input on students included in the SCR report as well. Consider whether the school is obtaining input from all the key individuals at least on an as needed basis. This might be demonstrated by notes, email discussion, meeting minutes, etc. where these individuals have communicated in an effort to resolve a potential error or flag for a student reported in the SCR.

*Note: In making these evaluations, auditors should consider that ODE may not always make the Student Cross Reference application available to schools for certain periods. If ODE did not make the report available, auditors should not penalize the school for a lack of review. But where these reports are available to schools, school EMIS personnel should be monitoring them appropriately and working with other schools to reconcile discrepancies.*

*Also, since schools are funded on an annual basis, ODE must reconcile and make Final Foundation Funding payments after the fiscal year end close out is performed. These Final Payments occur no sooner than August and may span several months before ODE finalizes the Foundation Funding payments. Therefore, Auditors should consider whether their auditees should include a receivable, payable, or [contingency footnote](#) in accordance with GAAP related to Final Foundation Funding adjustments made by ODE after year end.*

8. Where the number of students paying tuition under Ohio Rev. Code § 3317.08 is expected to be significant, inspect documentation that indicates students who are paying tuition to attend are excluded from the school district's ADM (consider using analytical procedures).

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## COMMUNITY SCHOOLS

**1-27 Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.02, 3314.03, 3314.08, and 3314.27; Ohio Admin. Code 3301-102-02 – Community School Funding.

~~The flowchart is not included in the 2021 Ohio Compliance Supplement, as information is included in 1-27A, B, & C to assist in determining which section to use.~~

~~Due to COVID, additional operating options were available to community schools. Any questions may be directed to the CFAE Community School specialist.~~

Revised: HB 164, 133 GA  
Effective: June 19, 2020

Revised: SB 89, 133 GA  
Effective: March 2, 2021

**1-27A Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.03, 3314.08, 3318.01; Ohio Admin. Code 3301-102-02; 34 C.F.R. § 222.176 – Community School Funding (*Brick and Mortar only*).

**Fy 2021 Notes:**

- Due to COVID, for Fy 2021, brick & mortar community schools could choose to operate in person as normal (1-27A), OR under a remote learning plan (1-27A - 133GA, HB 164, Section 16(B)), OR under a blended learning declaration (1-27C). Community schools with multiple buildings, may have some buildings on a blended declaration, and other buildings on a remote learning plan, however, there should be no overlap among the plans. While most schools chose remote learning plans, two opted for blended learning declarations. This section applies to those operating in person as normal, or under remote learning plans.
  - Remote learning plans are a temporary alternative for Fy 2021 only and apply to traditional public schools and community schools that are not computer- or internet-based community schools and not operating blended education delivery models. Community schools using remote learning plans should track attendance details locally to the degree that their current systems allow, as long as they are able to address the considerations outlined in the Department's Remote Education Planning guidance as well as Attendance Considerations for Remote Learning Plans guidance. While HB 164 required the plans be submitted to ODE, ODE did not review or approve them for content. The remote learning plan was a COVID-19 alternative for site-based schools that do not ordinarily use blended learning.
  - 133<sup>rd</sup> GA, HB 164, Section 16(F) allowed for Fy 2021 only, a community school that implements a [remote learning] plan shall be considered to have complied with: (1) The minimum number of hours requirement, and (2) Any requirements to receive state funds under ORC 3314.
- As a result, for Fy 2021 auditors will perform alternative testing procedures, as indicated in the controls & suggested audit procedures sections below.

Brick and mortar community schools have a building / facility that students must attend the entire school day. These are similar to traditional school districts. As defined in ODE's FTE Review Manual, a brick-and-mortar facility is a school having a physical location specified in the contract with sponsor that students are expected to attend pursuant to the school calendar.

ODE has adopted the definition from 34 C.F.R. § 222.176 Subpart L which defines a school facility as "a building used to provide free public education, including instructional, resource, food service, and general or administrative support areas, so long as they are a part of the facility." Ohio Revised Code section 3318.01 defines "classroom facilities" as rooms in which pupils regularly assemble in public school buildings to receive instruction and education and such facilities and building improvements for the operation and use of such rooms as may be needed in order to provide a complete educational program, and may include space within which a child care facility or a community resource center is housed. "Classroom facilities" includes any space necessary for the operation of a vocational education program for secondary students in any school district that operates such a program.

Brick & mortar schools may offer on-line learning opportunities within the building & credit flexibility.

- Online learning opportunities occurring within the brick & mortar location are funded under the

brick & mortar rules – meaning if a student is using an online instructional program while at the school building, the school would receive funding for the student’s daily attendance and not have to report online participation time.

- Credit flexibility is an option for high school students authorized by the State Board of Education under Alternative Pathway. If a Brick & Mortar utilizes credit flexibility, it is on a per student basis, and is not a requirement for all students. Additionally, credit flexibility students must have individual education plans. Credit flexibility can have an online component, or could be a reasonable explanation for the student spending part of their day outside the building (internship, post-secondary, etc.). However, time spent online or outside the building should be documented in the student’s individual education plan<sup>98</sup>.

### Summary of Requirements:

Ohio Rev. Code § 3314.08 provides the formula by which Community Schools are funded. Community Schools receive funding from the state through the per-pupil foundation allocation. Unlike city, local, exempted village and joint vocational school districts, Community Schools have no tax base from which to draw funds for buildings and investment in infrastructure. Ohio Rev. Code § 3314.191 states that no payments will be made under Ohio Rev. Code § 3314.08 during the first year of operations unless certain conditions are met.

Community schools must provide documentation that clearly demonstrates students have commenced participation in learning opportunities, through attendance records. See [ODE’s FTE Review Manual](#) for further information.

Ohio Rev. Code § 3314.03, in part, requires the contract between a sponsor and the governing authority of a community school state the following:

- That the governing authority will adopt an attendance policy that includes a procedure for automatically withdrawing a student from the school if the student, without a legitimate excuse, fails to participate in seventy-two (72) consecutive hours of the learning opportunities offered to the student.<sup>99</sup>
- The school will provide learning opportunities to a minimum of twenty-five students for a *minimum* of nine hundred twenty (920) hours per school year.
  - The Ohio Department of Education shall determine each community school student’s percentage of full-time equivalency based on the *percentage of learning opportunities* offered by the community school to that student, reported either as number of hours or number of days. Whether it reports hours or days of learning opportunities, each community school shall offer not less than nine hundred twenty hours of learning opportunities during the school year. [Ohio Rev. Code § 3314.08(H)(3)]
- That the governing authority will adopt a policy regarding the admission of students who reside outside the district in which the school is located;

<sup>98</sup> Participation in credit flexibility having a non-classroom component does not mean that school is operating in a blended environment, since all students would not be engaging in the activity. The online component would be inside the classroom. Engaging in credit flexibility does not exempt a school from complying with the minimum number of hours of instruction for each school year.

<sup>99</sup> Valid legal reasons for non-attendance are set forth in Ohio Admin. Code 3301-69-02.

- A financial plan detailing an estimated school budget for each year of the period of the contract and specifying the total estimated per pupil expenditure amount of each such year.
- An addendum to the contract outlining the facilities to be used that contains at least the following information: (See additional information in OCS 2-14)
  - A detailed description of each facility used for instructional purposes;
  - The annual costs associated with leasing each facility that are paid by or on behalf of the school;
  - The annual mortgage principal and interest payments that are paid by the school;
  - The name of the lender or landlord, identified as such, and the lender's or landlord's relationship to the operator, if any.
- A provision requiring the governing authority to adopt an enrollment and attendance policy that requires a student's parent to notify the community school in which the student is enrolled when there is a change in the location of the parent's or student's primary residence.
- A provision requiring the governing authority to adopt a student residence and address verification policy for students enrolling in or attending the school.
- That the school's attendance and participation<sup>100</sup> records shall be made available to the Department of Education, Auditor of State, and school's sponsor to the extent permitted under and in accordance with the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. § 1232g, as amended, and any regulations promulgated under that act, and section 3319.321 of the Revised Code.
- A provision requiring that all moneys the school's operator loans to the school, including facilities loans or cash flow assistance, must be accounted for, documented, and bear interest at a fair market rate. (See OCS 1-12 for testing such loans.)
- Shall specify that the school will comply with numerous sections of the Ohio Rev. Code including 149.43 [Ohio Rev. Code § 3314.03(A)(11)(d)]

Ohio Rev. Code § 149.43 defines public records as follows: records kept by any public office, including, but not limited to, state, county, city, village, township, and school district<sup>101</sup> units, and records pertaining to the delivery of educational services by an alternative school in this state kept by the nonprofit or for-profit entity operating the alternative school pursuant to section Ohio Rev. Code. § 3313.533. Medical records are excluded from this definition of public records, however Ohio Rev. Code § 149.43(A)(3) explains that medical record does not by definition include any documents related to birth and are therefore considered public record by AOS and ODE.

### **Attendance and Instruction**

As permitted by Ohio Rev. Code § 3314.08(H)(2), ODE has established student participation criteria and documentation requirements for brick and mortar community schools in their FTE Review Manual.

<sup>100</sup> Testing of records for purposes of determining funding does not require participation records in a brick and mortar school.

<sup>101</sup> We consider the reference to district/school district in Ohio Revised Code sections to also mean community schools, based on 3314.03

Participation in learning opportunities provided by a community school as defined in the brick & mortar community school's contract with its sponsor, is documented through daily attendance. It does not include days on which only enrollment and/or orientation activities occur, nor does it include calamity days. Commencement of participation in learning opportunities is documented through attendance records.

Instructional hours in a community school are defined by learning opportunities provided to a student. As it pertains to Brick and Mortar schools, Ohio Admin. Code 3301-102-02(M) defines learning opportunity as classroom-based supervised instructional and educational activities that are defined in the community school's contract and are:

- Provided by or supervised by a licensed teacher<sup>102</sup>;
- Goal-oriented; and
- Certified by a licensed teacher as meeting the criteria established for completing the learning opportunity.

As outlined in the Instructional Hours/Learning Opportunities section of the FTE Review manual, a community school is required to define learning opportunities in its contract with its sponsor:

1. For brick and mortar schools it would only include classroom based activities (see Credit Flexibility exception described below).
2. These activities have to be either directly provided by a teacher or supervised by a teacher; the school should be able to identify the teacher.
3. These activities have to be educational, instructional, and goal-oriented; there should be some school policy or guidance that in advance describes the goal. Reporting activities after-the-fact without prior goals, prior specification of activities, and/or teacher direction is not sufficient.

Instructional hours in a Brick and Mortar community school's day include time for changing classes, but not the recess, breakfast and lunch periods.

If a community school presents a computer printout of attendance, it must have original documents from which the computer printout, data was drawn, such as teachers' daily attendance and absence lists, teachers' grade books, and student sign-in sheets. If the school provides an absence only list to verify attendance, it must be accompanied by the total class list for that teacher. [[ODE FTE Review Manual](#)]

If the source of the computer printout data is a teacher personally entering data into the Student Information System, the computer printout itself is the original source document. In such a case, the community school must identify which staff members, including the teacher, have access to the attendance system to make data changes. The school must document in a separate log any changes made by staff members other than the classroom teacher. An example is an office clerk who changes an absence to a tardy based on a late sign-in sheet. [[ODE FTE Review Manual](#)]

If an office staff member records attendance in a computer, the attendance record of the classroom teacher, which is sent to the office staff member, is the original source document and should be used by the auditor to verify attendance. [[ODE FTE Review Manual](#)]

---

<sup>102</sup> Teachers in community schools must hold a teaching license in accordance with ORC 3314.03(A)(10), except that a community school may engage noncertificated persons to teach up to 12 hours (or 40 hours eff. 3/2/21) per week pursuant to ORC 3319.301. Appropriate teaching licenses include professional licenses, resident educator licenses, alternative licenses, supplemental licenses, and substitute licenses issued under ORC 3319.226 or long-term substitute licenses. Note: Due to the COVID-19 pandemic, the 133<sup>rd</sup> GA, HB 164 Sec. (H) allowed ODE to issue 1-year nonrenewable provisional licenses; however, no such license shall be valid on or after July 1, 2021.

All schools must adjust percent of time for students who are attending part time, participating in courses at a joint vocational school district or taking College Credit Plus courses. [[ODE FTE Review Manual](#)]

Exception for Credit Flexibility: Each school district is mandated to have a policy on credit flexibility, as required by ORC 3313.603(J). Students can engage in credit flexibility, which can include a non-classroom component. Participation results in an individual education plan (IEP) for each student approved to participate in credit flexibility. Participation in credit flexibility having a non-classroom component does not mean that school is operating in a blended environment, since all students would not be engaging in the activity. Engaging in credit flexibility does not exempt a school from complying with the minimum number of hours of instruction for each school year. If the student is not expected to be at the brick and mortar facility for the full school day, the community school may only receive a portion of the full-time equivalency funding for that student.<sup>103</sup>

### **Funding and Reporting Attendance**

The community school's Foundation funding will be based on the annualized full-time equivalency (FTE) enrollment of each student. A student who enters at the beginning of a school year and receives instruction for the community school's total annual membership units will generate an FTE of 1.0. Students should never have an FTE greater than 1.0. Students who attend a community school for less than the entire year will have an FTE equal to the total days/hours of instruction provided divided by the number of days/hours in the school year calendar. Community schools can continuously update estimated student FTE information in ODE's Education Management Information System (EMIS), but must report actual FTE information no later than the end of the school year. A student's FTE will be determined based on the individualized calendar/class schedule each student is assigned to for the school year and his or her enrollment and withdrawal dates.

Pursuant to Ohio Rev. Code § 3314.03(A)(6)(b) & (A)(27-28) community schools must adopt attendance and participation policies for their students and attendance records shall be made available to the Department of Education, Auditor of State and the school's sponsor. The contract between the community school and sponsor should include requirements for measuring and documenting student attendance.

Pursuant to Ohio Rev. Code § 3301.0714, schools must enter data concerning the enrollment and attendance of their students into EMIS, which is used by all schools to enter and review student enrollment and demographic data.

Ohio Compulsory Attendance and Truancy laws still require community schools to have policies concerning excused and unexcused absence as well as policies to guide employees in addressing attendance practices of any student who is a habitual truant. Further, community schools must maintain documentation to support any withdrawal code reported for a student. Information regarding the preferred documentation that community schools should maintain in student files for the different withdrawal codes varies. Also, in instances where community schools are unable to secure the preferred documents, other documentation may be considered acceptable alternatives to support the relevant withdrawal code. A table of the acceptable documentation can be found in the [ODE EMIS Manual](#) 2.1.1 - Required Documentation, [and further guidance is available in](#) ODE EMIS Manual 2.4.

**Brick and mortar community schools receive funding regardless of student attendance (including excused and unexcused absences). However, brick and mortar students with *unexcused* absences will**

---

<sup>103</sup> Any non-classroom time that is not included in the education plan as a part of meeting the 920 required hours would be considered homework, it cannot be used to meet the required school day hours. See ODE Guidance for Integrated Coursework -June 2018.

be funded only up until the student reaches 72 consecutive hours of non-attendance, at which point the student must be immediately withdrawn. If a brick and mortar student is attending only on a part-time basis (e.g., a student is splitting his/her instructional time between the community school and a JVS), the community school should adjust the student’s “Percent of Time Attended” factor in EMIS to reflect less than 1.0 FTE for the student. [ODE FTE Review Manual]

The following table assists in clarifying the difference between the following absentee categories. As noted in the ODE guide below, these categories indicate various steps schools must take to assist the student<sup>104</sup> and their family with an absentee issue. Students may not be suspended or expelled for truancy, and this does **not** indicate a student must be automatically withdrawn.

	<b>Consecutive hours</b>	<b>Hours per school month</b>	<b>Hours per school year</b>
<b>Habitual Truancy</b>	<b>30</b> <i>without legitimate excuse</i>	<b>42</b> <i>without legitimate excuse</i>	<b>72</b> <i>without legitimate excuse</i>
<b>Excessive Absences</b>	--	<b>38</b> <i>with or without legitimate excuse</i>	<b>65</b> <i>with or without legitimate excuse</i>
<b>Chronic Absenteeism</b>	--	--	<b>10% of total hours either excused or unexcused</b>

(Source: ODE’s ‘Each Child, Our Future: Supporting Regular Attendance’)

~~Community schools, e schools, and dropout prevention and recovery~~ Brick and mortar community schools must follow all requirements in the table above. Both truancy and excessive absences apply to all public schools, including e schools. All public Brick and mortar community schools implement interventions for students who have not participated in instructional activities and thus meet the triggers for habitual truancy and/or excessive absences.

In addition, for community schools, Ohio Rev. Code § 3314 does require the following, which is a separate law from the categories in the table above.

- 3314.03(A)(6)(b): the governing authority must adopt an attendance policy that includes a procedure for **automatically withdrawing** a student from the school if the student without a legitimate excuse fails to participate in seventy-two (72) **consecutive** hours of the learning opportunities offered to the student.
- 3314.08(H)(2)(c): if the student without a legitimate excuse fails to participate in the first seventy-two (72) consecutive hours of learning opportunities offered to the student in that subsequent school year, the student shall be considered not to have re-enrolled in the school for that school year.

Ohio Rev. Code § 3313.64(J) states that the treasurer of each school district shall, by the fifteenth day of January and July, furnish the superintendent of public instruction a report listing the names of each child in the permanent or legal custody of a government agency or person other than the child’s parent and each child who resides in a home, who attended the district’s schools during the preceding six calendar months.

<sup>104</sup> If the student is no longer of compulsory school age (ORC 3321.01(A)(1)), while schools should perform their due diligence for absentee issues, they are not obligated to follow absence intervention plans.

For each child, the report shall state the duration of attendance of that child, the school district responsible for tuition on behalf of the child, and any other information that the superintendent requires. Upon receipt of this report, the superintendent shall deduct each district's tuition obligations and pay to the district of attendance that amount plus any amount required to be paid by the state.

Ohio Rev. Code § 3314.08(B) requires the board of education of each school district to annually report the number of students entitled to attend school in the district that are actually enrolled in community schools. This section also requires the governing authority of each community school to annually report the number of students enrolled in the community school. For each student, the governing board of the community school must report the city, exempted village, or local school district in which the student is entitled to attend.

- Ohio Rev. Code § 3313.672 specifies documentation that must be provided in the enrollment process and includes a birth record and any pertinent court orders. Proof of residency is also needed to establish where a student is entitled to attend school under ORC 3313.64 and 3313.65. However, see specific McKinney-Vento Homeless Assistance Act guidance in ODE FTE Review Manual if testing a homeless student.
- Ohio Rev. Code § 3317.031 requires membership records be kept intact for at least 5 years.

Based on these reported numbers, the state Department of Education shall calculate and subtract the appropriate amount of state aid from each school district. The amount subtracted shall be paid to the corresponding community school entitled to receive those funds. When calculating and subtracting the appropriate amount of state aid, the Department should take into consideration any enrollment of students in community schools for less than the equivalent of a full school year.

ODE makes the Student Cross Reference (SCR) application available to all schools to track enrollment of students on a statewide basis. Using SCR, schools have the opportunity to review student data, including student attributes and potential overlaps, submitted by it and other schools in the State. The SCR gives schools the opportunity to reconcile student enrollment questions and issues and reduce or eliminate errors that could suspend or impact a school's Foundation funding payment. Schools must submit changes in a student's status to ODE (via the Data Collector) within 30 days of the change. ODE refreshes school submissions nightly so that all schools have the ability to view student changes on nearly a real-time basis. Schools have the ability to access the SCR system via their OH|ID (formerly SAFE) account and the Ohio District Data Exchange (ODDEX) role. The SCR screen shot can be used as supporting documentation for entry of a student withdrawal. ODE will not fund overlapping student enrollment dates across different schools until the conflict is resolved by the schools. Students should not be funded for greater than 1.0 FTE.

ODE will continue to adjust the FTE used for the funding formula as the school updates its information throughout the year. At the close of the school's fiscal year end, ODE will reconcile the Final FTE Foundation payments and determine whether the school has a corresponding receivable from or payable due to ODE based upon the accumulation of student FTE's throughout the year. This reconciliation is particularly complex for mobile students and students residing in one district but attending another school. It is critical that schools accurately and timely report their student data to ODE in order for this reconciliation to be performed.

### **ODE FTE Reviews**

Ohio Rev. Code § 3314.08 permits FTE reviews, which ODE performs to verify the accuracy of the enrollment and attendance data reported by community schools into EMIS, which sometimes result in FTE adjustments (errors identified by ODE and the community school adjusts their EMIS records), or can result in "clawbacks" (errors identified by ODE in the FTE Review but the community school does not adjust their EMIS records); both of which can be money due back to ODE. These FTE reviews occur at a

minimum once every 5 years, but may occur more often. Schools should therefore continue to evaluate whether [ODE’s Final FTE Foundation adjustments](#), and FTE reviews, could result in a material receivable, payable, or potential [contingency footnote disclosure](#) in their GAAP-basis annual financial statements.

**Auditors should consider when testing controls and compliance whether or not:**

- ODE conducted a FTE Review for the period under audit.
  - Reliance on ODE’s FTE Review is based on the following factors:
    - ODE is the regulator and considered an expert in FTE reporting matters
    - As permitted by Ohio Rev. Code § 3314.08(H)(2), ODE has established student participation criteria and documentation requirements for brick and mortar community schools in their FTE Review Manual.
  
- Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes<sup>105</sup> and published on the school’s webpage/or in the parent handbook (differences and their impact on reliance are considered in the steps below). If not in agreement consult with the CFAE Community School Specialist. See testing procedures step 3 below.
  
- ODE’s FTE review included a sample test of 25 or more students. If not, consult with the CFAE Community School Specialist. See footnote in step 8a below for further information.
  
- The school had any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and therefore whether a true-up was required, and properly reported on the financial statements/disclosed in footnotes (if necessary). Such payment terms are common in sponsor/authorizer, management company/operator, and some vendor agreements.
  - A finding for recovery will likely be issued when the true-up calculation(s)/evaluation(s) have not been performed and the auditor determines an amount is due; or an unreasonable legal evaluation/determination has been relied on; or the amount due has not been repaid, or is not in the process of being repaid under the terms of a reasonable and enforceable repayment agreement.
  
- The community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, student withdrawal and other requirements relevant to a community school’s FTE reporting, and perform implementation tests.

**Note:** If in the normal course of performing the testing procedures below, information is obtained that you feel is relevant and ODE wouldn’t have had available for their review, raising significant concerns on the reliance on ODE’s FTE Review to satisfy the participation requirement, auditors should consult with the Center for Audit Excellence Community School Specialist to determine whether additional testing may be necessary.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of</li> </ul>	<a href="#">Download &amp; provide this file to the client to document learning model(s) used during Fy 2021 per building/time period. Clients</a>	

<sup>105</sup> Minutes should include an exhibit of the calendar approved or document within the body of the minutes the details of the approved calendar. If this level of documentation is not available, the actual approval control process cannot be adequately verified.

<p>personnel</p> <ul style="list-style-type: none"> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>	<p><u>should identify which learning models each building utilized during the school year. In some cases, some buildings may have utilized more than one model. Where this is the case, clients should indicate the time periods each model was in affect for each building.</u></p> <p><u>Document in narrative format, controls in place over student attendance for each learning model utilized in document above. (ie. how attendance was taken, how learning opportunities were offered to students, how student engagement in remote or online opportunities were measured, how the school monitored missing students for truancy, etc.) Referencing to various sections of plans/policies is strongly encouraged within narrative.</u></p>	
--	--	--

**Suggested Audit Procedures - Compliance (Substantive) Tests**

**Auditors should refer to ODE’s FTE Review Manual for additional guidance about the compliance requirements described in this OCS Step. Reviewing and understanding the guidance in this Manual is a critical part of accurately testing student enrollment and attendance. The FTE Review Manual is available at the link above.**

*Note: The most effective audit procedures include a review and evaluation of school policies as well as verification that schools are maintaining the appropriate student enrollment, attendance, and withdrawal documentation. A school’s timeliness of student enrollment and withdrawal dates is also a critical component in ensuring accurate FTE reporting to ODE. Finally, school EMIS personnel should be actively reviewing and reconciling student enrollment differences in the Student Cross Reference application and other EMIS tools to avoid potential overlaps in Foundation funding at multiple schools for the same student.*

AOS provides ODE copies of all community school audit reports. As a result of issues identified and reported under audit, auditors should be aware that ODE may perform a FTE review in a subsequent fiscal year to assess compliance and determine the accuracy of the school’s reported FTE. This could potentially impact school funding.

**Procedures for Brick and Mortar Schools:**

As a result of the information on the first page of 1-27A, for Fy 2021 auditors will test this section as follows:

- For all community schools – First complete documents described in controls box above.
- For a brick & mortar community school that chose to operate in person as normal the entire year (ie. not under a blended declaration or remote learning plan) full testing procedures in this section apply.
- For a brick & mortar community school that chose to operate under a remote learning plan, complete Suggested Audit Procedures as follows:

- Step 1 – test remote learning plan as indicated in step
- Steps 4, 5, 6, 7b, & 8 – test as indicated in step
- Steps 2, 3, 7a & 9 – no testing required for Fy 2021.

1. Obtain a copy of the school’s enrollment and attendance policies and procedures. Document and evaluate the school’s procedures for:

- Enrolling and withdrawing pupils timely;
- Verification of student residence/address
- Setting up school calendars for students in EMIS;
- Offering and documenting credit flexibility;
- Documenting attendance;
- Monitoring and documenting student absences; and
- Monitoring, withdrawing, and notifying the resident public school of withdrawn students or students truant for 72 or more consecutive hours. *Note: If the school has a stricter policy than 72 hours, consult with CFAE Community School Specialist.*
- If the brick & mortar school utilized remote learning during Fy 2021 due to COVID, evaluate whether they complied with 133GA, HB 164, Section 16(B) by assessing whether:
  - They adopted a temporary Fy 2021 remote learning plan (the plan); if so:
  - The plan was submitted to ODE not later than August 21, 2020.
    - ODE approval of the plan is not required.
    - Plans submitted to ODE are available on ODE’s webpage.
  - The plan included the following elements (auditors are not expected to test the sufficiency of each element, just that each element was included):
    - (1) A description of how student instructional needs will be determined and documented;
    - (2) The method to be used for determining competency, granting credit, and promoting students to a higher grade level;
    - (3) The school’s attendance requirements, including how the school will document participation in learning opportunities;
    - (4) A statement describing how student progress will be monitored;
    - (5) A description as to how equitable access to quality instruction will be ensured;
    - (6) A description of the professional development activities that will be offered to teachers.

Consult with CFAE Community School Specialist if a remote plan was adopted, but did not include all elements; if the school failed to adopt a remote plan, but operated remotely; if the school operated a building under both blended & remote learning plans, etc.

- Select one week the school operated remotely & perform a walkthrough for one student. Based on documentation in controls box below & the schools remote learning plan, determine if documents exist to support such controls were in place.
  - Lack of support would likely result in a management letter comment. However, consult with CFAE Community School Specialist if it appears they are not following the policies/controls of model(s) chosen/utilized.
    - Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.

Note: 133<sup>rd</sup> GA, HB 164, Section 16(F) requires that the remote learning plans be submitted to ODE no later than July 31, 2020 whereas ODE guidance directs that the plan be submitted no later than August 21, 2020. AOS will test for compliance using the deadline imposed by ODE.

- Related to OCS 2-13, determine whether the sponsor reviewed/approved the remote learning plan.

Although this is not required by HB 164, for testing purposes, the plan would serve as a substitute for the Education Plan described in the Charter that is approved by the sponsor. (Or cross reference to test in section 2-13, step 6.)

For items above not addressed in the schools written policies/procedures, consider whether an internal control comment is appropriate under AU-C 265.

2. As part of this evaluation, determine whether the Community School's policies and procedures are consistent with the Educational Plan in the Community School's Charter, as approved by the school's sponsor, and include sufficient procedures for identifying and tracking attendance for all students for whom the community school is responsible. ~~These students include those: (a) residing in and entitled to attend public schools (b) over the age of 18 that are not residing with a guardian (c) placed by the courts in facilities outside the district, (d) attending other community schools, and (e) that have been absent due to truancy for 72 consecutive hours or greater.~~
3. Inquire with community school management about the learning opportunities it offered as part of its operating standards during the audit period.
  - a. Determine whether the community school offered the minimum 920 hours of learning opportunities by reviewing the master school calendar in EMIS and student attendance records (step 9 below)<sup>106</sup>.
  - b. Inquire with management to determine if school was canceled during the audit period due to weather or electrical outages and ensure the EMIS calendar included sufficient hours to meet the minimum 920 hours of learning opportunities despite these closures (i.e., the closures should be reflected in the final EMIS calendar for the school year).
  - c. If the community school offered more or less than the required minimum, determine whether the community school reported the accurate number of learning opportunities to the Ohio Department of Education (this will be the Master Calendar in EMIS).
  - d. Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes and published on the school's webpage/or in the parent handbook. If not in agreement consult with the CFAE Community School Specialist.
4. Document and evaluate the school's procedures for reviewing the Student Cross Reference application. Determine whether appropriate school personnel are reviewing and reconciling this information in a timely manner.

*Note: In making these evaluations, auditors should consider that ODE may not always make the Student Cross Reference application available to schools for certain periods. If ODE did not make the report available, auditors should not penalize the school for a lack of review. But where this application is available to schools, school EMIS personnel should be monitoring it appropriately and working with other schools to reconcile discrepancies.*

5. Review Ohio Rev. Code § 3314.03, the charter, and the community school's policies and procedures to determine what the sponsor requires for appropriate documentation of excused and unexcused absences. Select a few students with absences and review the student file or other documentation to verify the community school is gathering appropriate supporting documentation for excused absences. If the absence is unexcused, determine whether the community school is tracking the total unexcused absences for the student and following its truancy policies and procedures.
 

If the brick & mortar school utilized remote learning during Fy 2021 due to COVID, select one student for testing (rather than 'a few' mentioned above), consider the details of such plan when testing this step, and tailor this procedure according to what the plan required.

<sup>106</sup> Auditors should review the education plan and student handbook to see if there is an ala carte plan to "supplement" the required 920 hours of classroom time. If all classroom time the supplement is considered homework.

*Note: If the charter does not address minimum documentation requirements, this would be a control deficiency. The EMIS Manual may be referenced as an additional basis for your control deficiency. [ODE EMIS Manual 2.1.1 - Required Documentation]*

6. Consider whether the community school should include a receivable, payable, or contingency footnote in accordance with the financial reporting framework requirements (ie. GAAP) related to Final [Foundation Funding adjustments](#) after year end and/or as a result of ODE FTE Reviews.

*Note: Since community schools are funded on an annual basis, ODE must reconcile and make Final Foundation Funding payments after the fiscal year end close out is performed. These Final Payments occur no sooner than August and may span several months before ODE finalizes the Foundation Funding payments. Schools should evaluate each FTE Foundation adjustment at the time made, rather than waiting until all FTE Foundation adjustments have occurred for the fiscal year and just evaluating the net.*

- a. Also consider whether a true-up was required for any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and if so, whether it was treated properly in accordance with the summary of audit requirements above. (AOS auditors see guidance in Teammate / IPA's see guidance above, and suggested steps in [Community School Audit Programs for IPA's](#) at <https://ohioauditor.gov/references/guidance/communityschools.html> ).
7. Perform the following procedures:
- a. Select a representative number of **newly enrolled** students during the school year (normally five students is sufficient). The new enrollment list may be obtained by the community school through EMIS or other student attendance information system.
- i. Identify when students were enrolled and determine whether it was timely. Waiting several weeks or more from the date a parent or guardian signs the student enrollment form is not timely.
  - ii. Determine whether the school maintained copies of the student's birth record<sup>107</sup> certificate, proof of residency, and parent/guardian signed enrollment forms in the student file to support enrollment and resident district determinations.

**If the brick & mortar school utilized remote learning during Fy 2021 due to COVID, select one student for testing (rather than 5 mentioned below), consider the details of such plan when testing the following step, and tailor this procedure according to what the plan required:**

- b. Select a representative number of students from the community school's **withdrawal** list (normally five students is sufficient). The withdrawal list may be obtained by the community school through EMIS or the community school's student information system.
- i. Identify when students were withdrawn and determine whether it was timely (e.g., waiting several weeks or more from withdrawal notification is not timely).
    - o For example: using grade records and/or attendance records, determine the last day students were reported as attending the community school. If a student was reported absent for 72 consecutive hours, determine the date the student should have been withdrawn and ascertain whether the school reported the withdrawal timely.
  - ii. Determine whether the appropriate EMIS withdrawal code was used to withdraw the student based on evidence in the student's file. [ODE EMIS Manual 2.1.1 & 2.4](#) provides

<sup>107</sup> The original source document for a birth record may be a photocopy of a birth certificate or a properly attested documentation of birth. ([ODE FTE Review Manual](#), p. 35 of Fy 21 manual)

examples of the types of documentation required to be obtained and maintained by the school for each type of withdrawal code.

- iii. Inquire with management about any significant differences or adjustments. Consider reporting noncompliance or other client communication for any significant unexplained variances.

*A community school should not wait until March to remove a student from its enrollment if the student withdrew in October. Significant delays in reporting student withdrawals constitute noncompliance. Likewise, a student with excessive truancy should have received multiple communications from the school to verify the student's absence during the 72 period. Community schools should maintain a daily call log, copies of written correspondence to parents/guardians, or obtain timely excuses from the parent, guardian, or adult-aged student for excessive absenteeism that does not result in removal of a student from enrollment.*

**When ODE has conducted a FTE review for the fiscal year:**

8. If ODE has conducted a FTE review for the fiscal year: (Note: if a FTE review **has not been conducted**, proceed to step 9)
  - a. Obtain a copy of the written report<sup>108</sup> and review the results of procedures performed<sup>109</sup>.
  - b. If ODE reported an issue(s), auditors should assess materiality and consider reporting a similar finding(s) in the audit report or management letter based upon the results of ODE's FTE Review.

**When ODE has not conducted a FTE review for the fiscal year:**

9. Determine whether the school has support for meeting the 920 hours of learning opportunities and whether the school is following its policies for documenting and measuring student enrollment and attendance.
  - i. Student file testing: Select a representative number of students enrolled for **any part of the school year** (normally five students is sufficient and this is a separate sample from the step below; however, auditors should assess the risk of noncompliance for their particular school and increase this selection, if appropriate).

Review the student files for the selected students and determine whether the school is following its policies for documenting and measuring student enrollment and attendance.

---

<sup>108</sup> AOS Auditors should check the community school master spreadsheet available on the Community School intranet page for the status of FTE reviews. If available, these letters can be obtained from *W:\Community School FTE Review Letters & Other ODE Correspondence*. IPA's should ~~contact the regional chief auditor to obtain check the same spreadsheet in the AOS IPA Portal, and obtain the report from the client, if one is noted.~~

<sup>109</sup> Auditors should determine if a sample size of at least 25 students was tested. If the size was less than 25 and there was not a valid reason evident for the reduction, the CFAE Community School Specialist should be contacted to see if the review can be relied upon or if step 9 will need to be performed. Be aware that some FTE letters indicate a 'modified' review/sample was performed. The type of modified review could potentially change from year to year, so guidance will be sent out on an annual basis regarding whether such modified reviews can be relied on for step 9. **If** the schools letter states such, **and** guidance has not yet been sent out from CFAE for the current year, consult with the CFAE Community School Specialist to determine if ODE's modified review can be relied on for step 9 (unless evaluation of risk would require increasing beyond these numbers anyway).

- a. Determine whether the school has birth ~~record~~<sup>117</sup> ~~certification~~ and proof of residency documentation for the student contained in the student file.
  - b. Determine whether the school has completed/signed student enrollment forms contained in the student file.
  - c. Determine whether the community school is retaining the membership record for at least five years.
  - d. Determine whether the school has maintained a record of student tardiness and absences in the student file (or elsewhere) sufficient to enable the school to monitor its compliance with their policy/procedures on the 72 consecutive hour rule for withdrawal. If the student was reported absent for 72 consecutive hours, determine the date the student should have been withdrawn, ascertain whether the school reported it timely, and verify that less than 1 FTE was claimed for the student. You do not have to calculate the exact FTE. If you find the school claimed 1 FTE for a student that should have been withdrawn, consider that when selecting the number of students to test in step 9 ii.
    - When students are noted nearing the 72 consecutive hour withdrawal mark, and then attend for just a few days, determine if the school complied with Ohio Rev. Code § 3321.191 requirements & the schools truancy policy (send parent notices, maintain call logs, refer to court (if required), etc.). Also, look for proof of completed assignments for the few days the student was marked as attending to substantiate that they did attend. <http://education.ohio.gov/getattachment/Topics/Student-Supports/Chronic-Absenteeism/House-Bill-410-FAQ-2.pdf.aspx?lang=en-US>
- ii. Daily Attendance Testing: Select the greater of 5 or 5% of community school students that were enrolled for **any part of the school year** from the school's EMIS report. The number of students selected need not exceed 20 students.

Using the applicable student files, attendance records, and school calendar, determine if the student should have 1 or less than 1 FTE and compare to what the school reported to ODE in EMIS. If it is evident that a FTE should have been reduced and wasn't we would consider this an exception. You do not have to calculate the exact FTE. Exceptions should be discussed with the CFAE Community School Specialist.<sup>110</sup>

---

<sup>110</sup> We will only test the Individual Student Education Plan and adherence to that plan if a student selected is participating in [credit flexibility](#). Did the school have an approved IEP and was it completed according to ODE requirements. Also consider information contained in the guidance about credit flexibility if such a student is selected. If the student's 920 hours involves non-classroom time, the student will never have 1 FTE. As long as that student had less than 1 FTE, we would not take exception, but you should determine that the conditions of the IEP were met. Additional details can be found in section 2-13 of Chapter 2.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

- Consider the results of all procedures in this Section when evaluating the school's compliance with FTE requirements.
- Evaluate whether the community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, student withdrawal and other requirements relevant to a community school's FTE reporting. Most likely non-compliance as well as missing or inadequate controls for FTE reporting is indicative of an AU-C 265 control comment.

**Revised: HB 164, 133 GA**  
**Effective: June 19, 2020**

**Revised: SB 89, 133 GA**  
**Effective: March 2, 2021**

**1-27B Compliance Requirement:** Ohio Rev. Code §§ 3313.64, 3314.02, 3314.03, 3314.08, 3314.086, 3314.27 and; Ohio Admin. Code 3301-102-02 –Community School Funding (*Electronic Schools (E-Schools) only*).

**FY 2021 Notes:**

- **This section only applies to actual ‘e-schools’ – meaning those created under the definition in Ohio Rev. Code § 3314.02(A)(7). Step 1-27B should not be used for schools established as a brick & mortar that utilized remote learning plans due to COVID during FY 2021.**
  - **Remote learning plans are a temporary alternative for FY 2021 only and apply to traditional public schools and community schools that are not computer- or internet-based community schools and not operating blended learning models.**  
**(<http://education.ohio.gov/Topics/Reset-and-Restart/Blended-and-Remote-Learning-Comparison/Attendance-Considerations-for-Remote-Learning-Plan>)**
- **For e-schools, attendance should have been tracked in the same manner it was prior to COVID. E-schools continued to be funded based on documented learning opportunities.**

E-School students work from home via the computer and are not required to attend a school building. Per ORC 3314.02(A)(7) "Internet- or computer-based community school" means a community school established under this chapter in which the enrolled students work primarily from their residences on assignments in nonclassroom-based learning opportunities provided via an internet- or other computer-based instructional method that does not rely on regular classroom instruction or via comprehensive instructional methods that include internet-based, other computer-based, and noncomputer-based learning opportunities unless a student receives career-technical education under section 3314.086 of the Revised Code. (Some career tech classes may be classroom-based so long as the remaining instruction is provided at home via the computer.)

**Summary of Requirements:**

Ohio Rev. Code § 3314.08 provides the formula by which Community Schools are funded. Community Schools receive funding from the state through the per-pupil foundation allocation. Unlike city, local, exempted village and joint vocational school districts, Community Schools have no tax base from which to draw funds for buildings and investment in infrastructure. Ohio Rev. Code § 3314.191 states that no payments will be made under Ohio Rev. Code § 3314.08 during the first year of operations unless certain conditions are met.

Pursuant to Ohio Rev. Code § 3314.08(J)(1), no student shall be considered enrolled in any internet- or computer-based community school or, if applicable to the student, in any community school that is required to provide the student with a computer pursuant to division (C) of section 3314.22 of the Revised Code, unless both of the following conditions are satisfied: (a) The student possesses or has been provided with all required hardware and software materials and all such materials are operational so that the student is capable of fully participating in the learning opportunities specified in the contract between the school and the school's sponsor as required by division (A)(23) of section 3314.03 of the Revised Code; (b) The school is in compliance with division (A) of section 3314.22 of the Revised Code, relative to such student.

Community schools must provide documentation that clearly demonstrates students have participated in learning opportunities. Participation in learning opportunities for e-schools is determined based upon durational time. See the “Learning Opportunity Documentation Requirements for E-schools” in [ODE’s FTE Review Manual](#) for further information.

Ohio Rev. Code § 3314.03, in part, requires the contract between a sponsor and the governing authority of a community school state the following:

- That the governing authority will adopt an attendance policy that includes a procedure for automatically withdrawing a student from the school if the student, without a legitimate excuse, fails to participate in seventy-two (72) consecutive hours of the learning opportunities offered to the student.<sup>111</sup>
- The school will provide learning opportunities to a minimum of twenty-five students for a *minimum* of nine hundred twenty (920) hours per school year.
  - The Ohio Department of Education shall determine each community school student’s percentage of full-time equivalency based on the *percentage of learning opportunities* offered by the community school to that student, reported either as number of hours or number of days. However, no E-School shall be credited for any time a student spends participating in learning opportunities beyond ten hours within any period of twenty-four consecutive hours. Whether it reports hours or days of learning opportunities, each community school shall offer not less than nine hundred twenty hours of learning opportunities during the school year. [Ohio Rev. Code § 3314.08(H)(3)]
- That the governing authority will adopt a policy regarding the admission of students who reside outside the district in which the school is located;
- A financial plan detailing an estimated school budget for each year of the period of the contract and specifying the total estimated per pupil expenditure amount of each such year.
- While it would be uncommon and optional depending on the facts and circumstances, if they have an instructional facility, an addendum to the contract outlining the facilities to be used containing at least a detailed description of each facility used for instructional purposes, the annual costs, annual mortgage, and name of lender or landlord including any such relationship to the operator. Auditors should evaluate the reasonableness of using an instructional building for an e-school environment, outside of a career tech scenario. If in question, auditors should contact the CFAE Community School Specialist. (See additional information in OCS 2-14)
- A provision requiring the governing authority to adopt an enrollment and attendance policy that requires a student's parent to notify the community school in which the student is enrolled when there is a change in the location of the parent's or student's primary residence.
- A provision requiring the governing authority to adopt a student residence and address verification policy for students enrolling in or attending the school.
- That the school's attendance and participation records shall be made available to the Department of Education, Auditor of State, and school's sponsor to the extent permitted under and in accordance with the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. § 1232g, as amended, and any regulations promulgated under that act, and section 3319.321 of the Revised Code.

---

<sup>111</sup> Valid legal reasons for non-attendance are set forth in Ohio Admin. Code 3301-69-02.

- A provision requiring that all moneys the school's operator loans to the school, including facilities loans or cash flow assistance, must be accounted for, documented, and bear interest at a fair market rate. (See OCS 1-12 for testing such loans.)
- Shall specify that the school will comply with numerous sections of the Ohio Rev. Code including 149.43 [Ohio Rev. Code § 3314.03(A)(11)(d)]

Ohio Rev. Code § 149.43 defines public records as follows: records kept by any public office, including, but not limited to, state, county, city, village, township, and school district<sup>112</sup> units, and records pertaining to the delivery of educational services by an alternative school in this state kept by the nonprofit or for-profit entity operating the alternative school pursuant to section Ohio Rev. Code. § 3313.533 Medical records are excluded from this definition of public records, however Ohio Rev. Code § 149.43(A)(3), explains that medical record does not by definition include any documents related to birth and are therefore considered public record by AOS and ODE.

### **Attendance and Instruction**

Pursuant to Ohio Rev. Code § 3314.03(A)(6)(b) & (A)(27-28), community schools must adopt attendance and participation policies for their students and attendance and participation records shall be made available to the Department of Education, Auditor of State and the school's sponsor. The contract between the community school and sponsor should include requirements for measuring and documenting student attendance and participation.

In the case, *Electronic Classroom of Tomorrow v. Ohio Dept. of Edn.*, Slip Opinion No. 2018-Ohio-3126, the Ohio Supreme Court ruled "Ohio Department of Education has authority under R.C. 3314.08 to base funding of an e-school on the duration of student participation."

- ODE has established student participation criteria and documentation requirements for electronic community schools in their FTE Review Manual. Participation in learning opportunities provided by a community school is defined in the community school's contract with its sponsor. This would include documentation of learning opportunity participation by a student enrolled in an e-school (see ODE's FTE Review Manual, Learning Opportunity Documentation Requirements for E-schools). It does not include days on which only enrollment and/or orientation activities occur.

Instructional hours in a community school are defined by learning opportunities engaged in by a student. As it pertains to e-schools, Ohio Admin. Code 3301-102-02(M) defines learning opportunity as non-classroom-based supervised instructional and educational activities that are defined in the community school's contract and are:

1. Provided by or supervised by a licensed teacher<sup>113</sup>;
2. Goal-oriented; and
3. Certified by a licensed teacher as meeting the criteria established for completing the learning opportunity.

<sup>112</sup> We consider the reference to district/school district in Ohio Revised Code sections to also mean community schools, based on 3314.03.

<sup>113</sup> Teachers in community schools must hold a teaching license in accordance with ORC 3314.03(A)(10), except that a community school may engage noncertificated persons to teach up to 12 hours (or 40 hours eff. 3/2/21) per week pursuant to ORC 3319.301. Appropriate teaching licenses include professional licenses, resident educator licenses, alternative licenses, supplemental licenses, and substitute licenses issued under ORC 3319.226 or long-term substitute licenses. **Note: Due to the COVID-19 pandemic, the 133<sup>rd</sup> GA, H.B. 164 Sec. (H) allowed ODE to issue 1-year nonrenewable provisional licenses; however, no such license shall be valid on or after July 1, 2021.**

As outlined in the Instructional Hours/Learning Opportunities section of ODE’s FTE Review manual, a community school is required to define learning opportunities in its contract with its sponsor:

1. It may include both classroom-based and non-classroom-based activities. (In an e-school, classroom-based learning is taking place online from the student’s home. Conversely, non-classroom-based learning is occurring off of the computer and away from home)
2. These activities have to be either directly provided by a teacher or supervised by a teacher; the school should be able to identify the teacher.
3. These activities have to be educational, instructional, and goal-oriented; there should be some school policy or guidance that in advance describes the goal, mainly of non-classroom-based activities. Reporting activities after-the-fact without prior goals, prior specification of activities, and/or teacher direction is not sufficient.

In an e-school, students can earn credit on evenings, weekends, and holidays.

**Funding and Reporting Attendance**

The community school’s Foundation funding will be based on the annualized full-time equivalency (FTE) enrollment of each student. A student who enters at the beginning of a school year and receives instruction for the community school’s total annual membership units will generate an FTE of 1.0. Students should never have an FTE greater than 1.0. Students who attend a community school for less than the entire year will have an FTE equal to the total days/hours of instruction provided divided by the number of days/hours in the school year calendar. Community schools can continuously update estimated student FTE information in ODE’s Education Management Information System (EMIS), but must report actual FTE information no later than the end of the school year. A student’s FTE will be determined based on the individualized calendar/class schedule each student is assigned to for the school year and his or her enrollment and withdrawal dates.

Pursuant to the Ohio Department of Education’s FTE Review Manual, e-schools are required to maintain durational evidence of online participation. Pursuant to Ohio Rev. Code § 3314.27, each internet- or computer-based community school (i.e., e-school) is also required to keep accurate records of each student’s participation in daily learning opportunities. The records should be easily submitted to the Department of Education upon request by the Department or the Auditor of State. No student enrolled in an e-school may participate in more than ten (10) hours of learning opportunities in any period of 24 consecutive hours. If a student participates beyond the 10 hour daily limit, the additional time does not count toward the annual minimum number of hours required to be provided to a student. If any internet- or computer-based community school requires its students to participate in learning opportunities on the basis of days rather than hours, one day shall consist of a minimum of five hours of such participation.

While an E-school is not funded for student absences, Ohio Compulsory Attendance and Truancy laws still require E-schools to have policies concerning excused and unexcused absence as well as policies to guide employees in addressing attendance practices of any student who is a habitual truant. Further, community schools must maintain documentation to support any EMIS withdrawal code reported for a student. Information regarding the preferred documentation that community schools should maintain in student files for the different withdrawal codes varies. Also, in instances where schools are unable to secure the preferred documents, other documentation may be considered acceptable alternatives to support the relevant withdrawal code. A table of the acceptable documentation can be found in the [ODE EMIS Manual 2.1.1](#) Required Documentation section, and further guidance is available in ODE EMIS Manual 2.4.

The following table assists in clarifying the difference between the following absentee categories. As noted in the ODE guide below, these categories indicate various steps schools must take to assist the student<sup>114</sup> and their family with an absentee issue. Students may not be suspended or expelled for truancy, and this does **not** indicate a student must be automatically withdrawn.

	<b>Consecutive hours</b>	<b>Hours per school month</b>	<b>Hours per school year</b>
<b>Habitual Truancy</b>	<b>30</b> <i>without legitimate excuse</i>	<b>42</b> <i>without legitimate excuse</i>	<b>72</b> <i>without legitimate excuse</i>
<b>Excessive Absences</b>	--	<b>38</b> <i>with or without legitimate excuse</i>	<b>65</b> <i>with or without legitimate excuse</i>
<b>Chronic Absenteeism</b>	--	--	<b>10% of total hours either excused or unexcused</b>

(Source: ODE’s ‘Each Child, Our Future: Supporting Regular Attendance’)

Community schools, e-schools, and dropout prevention and recovery schools must follow all requirements in the table above. Both truancy and excessive absences apply to all public schools, including e-schools. All public schools must implement interventions for students who have not participated in instructional activities and thus meet the triggers for habitual truancy and/or excessive absences. Students in a virtual environment are expected to participate in instructional activities on a consistent basis that conforms to the school calendar.

In addition, for community schools, Ohio Rev. Code § 3314 does require the following, which is a separate law from the categories in the table above.

- 3314.03(A)(6)(b): the governing authority must adopt an attendance policy that includes a procedure for **automatically withdrawing** a student from the school if the student without a legitimate excuse fails to participate in seventy-two (72) **consecutive** hours of the learning opportunities offered to the student.
- 3314.08(H)(2)(c): if the student without a legitimate excuse fails to participate in the first seventy-two (72) consecutive hours of learning opportunities offered to the student in that subsequent school year, the student shall be considered not to have re-enrolled in the school for that school year

An e-schools may have a system that tracks learning opportunity participation within the school’s online system. If an e-school’s online system has this capability, the school must produce Excel spreadsheets showing the daily, weekly, and monthly accounting of learning opportunities and the final total of all online learning opportunities that the student participated in and the e-school’s system tracked. The e-school may have more than one online system that tracks durational time. In these circumstances, an e-school may not overlap times or count times more than once. Time not on the computer (self-reported) may not overlap online time. (FTE Review Manual).

<sup>114</sup> If the student is no longer of compulsory school age (ORC 3321.01(A)(1)), while schools should perform their due diligence for absentee issues, they are not obligated to follow absence intervention plans.

If the school's online system does not track the amount of time students participate in online learning opportunities, schools may alternatively follow the guidance for "Minimum Documentation Requirements for Non-Classroom, Non-Computer Based Learning Opportunities". It is recognized that schools may track learning opportunities in different ways due to different system capabilities. (FTE Review Manual).

**Excused and unexcused days of absence or assignments do not count as hours in e-schools. E-school students who are absent (i.e., do not log in on a designated school day or have documentation of participating in approved non-classroom based learning) are not funded.** That is to say, if an e-school student is not participating 100% of the time (based on the school's calendar in EMIS) but remains enrolled the entire school year (i.e., the student did not reach 72 consecutive hours of unexcused absence), the school should adjust the student's *Percent of Time Attended* factor in EMIS to reflect less than 1.0 FTE for the entire school year. A school has not provided a learning opportunity to an e-school student until the student either accesses the online educational system or completes documentation of non-computer-based learning opportunities. All e-schools must adjust the percent of time in EMIS for their students based on the documented learning opportunities. The Department recommends updating the percent of time in EMIS quarterly. All community schools must adjust the percent of time in EMIS for their students who are part time or participating in courses at joint vocational school districts or taking College Credit Plus courses. [FTE Review Manual, Regular and Year-End Percent of Time Adjustment for E-School and /or Non-Computer, Non-Classroom Based Students]

Pursuant to Ohio Rev. Code § 3301.0714, schools must enter data concerning the enrollment and attendance of their students into EMIS. The system is used by all schools to enter and review student enrollment and demographic data.

Ohio Rev. Code § 3313.64(J) states that the treasurer of each school district shall, by the fifteenth day of January and July, furnish the superintendent of public instruction a report listing the names of each child in the permanent or legal custody of a government agency or person other than the child's parent and each child who resides in a home, who attended the district's schools during the preceding six calendar months. For each child, the report shall state the duration of attendance of that child, the school district responsible for tuition on behalf of the child, and any other information that the superintendent requires. Upon receipt of this report, the superintendent shall deduct each district's tuition obligations and pay to the district of attendance that amount plus any amount required to be paid by the state.

Ohio Rev. Code § 3314.08(B) requires the board of education of each school district to annually report the number of students entitled to attend school in the district that are actually enrolled in community schools. This section also requires the governing authority of each community school to annually report the number of students enrolled in the community school. For each student, the governing board of the community school must report the city, exempted village, or local school district in which the student is entitled to attend.

- Ohio Rev. Code § 3313.672 specifies documentation that must be provided in the enrollment process and includes a birth record and any pertinent court orders. Proof of residency is also needed to establish where a student is entitled to attend school under ORC 3313.64 and 3313.65. However, see specific McKinney-Vento Homeless Assistance Act guidance in ODE FTE Review Manual if testing a homeless student.
- Ohio Rev. Code § 3317.031 requires membership records be kept intact for at least 5 years.

Based on these reported numbers, the state Department of Education shall calculate and subtract the appropriate amount of state aid from each school district. The amount subtracted shall be paid to the corresponding community school entitled to receive those funds. When calculating and subtracting the appropriate amount of state aid, the department should take into consideration any enrollment of students in community schools for less than the equivalent of a full school year.

ODE makes the Student Cross Reference (SCR) application available to all schools to track enrollment of students on a statewide basis. Using SCR, schools have the opportunity to review student data, including student attributes and potential overlaps, submitted by it and other schools in the State. The SCR gives schools the opportunity to reconcile student enrollment questions and issues and reduce or eliminate errors that could suspend or impact a school's Foundation funding payment. Schools must submit changes in a student's status to ODE (via the Data Collector) within 30 days of the change. ODE refreshes school submissions nightly so that all schools have the ability to view student changes on nearly a real-time basis. Schools have the ability to access the SCR system via their OH|ID (formerly SAFE) account and the Ohio District Data Exchange (ODDEX) role. The SCR screen shot can be used as supporting documentation for entry of a student withdrawal. ODE will not fund overlapping student enrollment dates across different schools until the conflict is resolved by the schools. Students should not be funded for greater than 1.0 FTE.

ODE will continue to adjust the FTE used for the funding formula as the school updates its information throughout the year. At the close of the school's fiscal year end, ODE will reconcile the Final FTE Foundation payments and determine whether the school has a corresponding receivable from or payable due to ODE based upon the accumulation of student FTE's throughout the year. This reconciliation is particularly complex for mobile students and students residing in one district but attending another school. It is critical that schools accurately and timely report their student data to ODE in order for this reconciliation to be performed.

### **ODE FTE Reviews**

Ohio Rev. Code § 3314.08 permits FTE reviews, which ODE performs to verify the accuracy of the enrollment and attendance data reported by community schools into EMIS, which sometimes result in FTE adjustments (errors identified by ODE and the community school adjusts their EMIS records), or can result in "clawbacks" (errors identified by ODE FTE Reviews but the community school does not adjust their EMIS records); both of which can be money due back to ODE. These FTE reviews occur at a minimum once every 5 years, but may occur more often. Schools should therefore continue to evaluate whether [ODE's Final FTE Foundation adjustments](#), and FTE reviews, could result in a material receivable, payable, or potential [contingency footnote disclosure](#) in their GAAP-basis annual financial statements.

### **Tracking Student Participation for Learning Opportunities**

Inquire with management and document how the online educational system tracks student participation. The capabilities of online educational systems vary from e-school to e-school. Some e-schools can track log-ins and log-outs; however, the duration of time online may not equate to the hours a student actually spends learning. When evaluating student attendance and participation in an online system, it is important to understand how much reliance the school/auditor can place upon a student's time spent logged into the system as evidence of participation. If an e-school's online system is capable of tracking learning opportunity participation, the school must produce Excel spreadsheets showing the daily, weekly, and monthly accounting of learning opportunities. It also must be able to show the final total of all online learning opportunities that a student participated in. Where there can be little reliance on log reports, the school may need to supplement online durational learning documentation with manually kept student activity logs certified by teachers. No e-school shall be credited for any time a student spends participating in learning opportunities beyond the ten hours within any twenty-four consecutive hours per Ohio Rev. Code § 3314.08(H)(3).

E-school's may offer learning opportunities that the school's online system does not track or that take place off-line or not on a computer. In addition, some e-schools' online systems may not be able to track and document a student's participation in the online system learning opportunities. E-schools that have these

situations must use the following minimum documentation requirements and must be able to provide the needed information on request. (FTE Review Manual)

Documentation must exist for all learning opportunities and must be certified by a teacher. Hours spent on other learning opportunities should not include the online hours that the e-school already counted. Below are minimum requirements for “Other Learning Opportunities”: (FTE Review Manual)

- a. Student SSID;
- b. Brief Description of learning opportunities (such as, class or course information);
- c. Dates and times of actual learning opportunities;
- d. Total of verified learning opportunities time
- e. Teacher certification of the reported learning opportunities.

E-Schools may use ODE’s “Alternative Learning Opportunity Documentation Log” to document these learning opportunities, but it is not required. The log is simply an example of how an e-school can track these learning opportunities. It is up to the school to decide how to meet the tracking requirements. (FTE Review Manual)

E-schools cannot use estimated or approximated times to calculate percent of time. For example, if a school estimates an assignment should take 15 hours to complete and a student took only 10 hours to complete it, that student would receive credit for 10 hours. (FTE Review Manual)

**Auditors should consider when testing controls and compliance whether or not:**

- ODE conducted a FTE Review for the period under audit.
  - Reliance on ODE’s FTE Review is based on the following factors:
    - ODE is the regulator and considered an expert in FTE reporting matters
    - In the case, *Electronic Classroom of Tomorrow v. Ohio Dept. of Edn.*, Slip Opinion No. 2018-Ohio-3126, the Ohio Supreme Court ruled “Ohio Department of Education has authority under R.C. 3314.08 to base funding of an e-school on the duration of student participation.” ODE has established student participation criteria and documentation requirements for electronic community schools in their FTE Review Manual.
- Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes<sup>115</sup> and published on the school’s webpage/or in the parent handbook (differences and their impact on reliance are considered in the steps below). If not in agreement consult with the CFAE Community School Specialist. See testing procedures step 3 below.
- ODE’s FTE review included a sample test of 25 or more students. If not, consult with the CFAE Community School Specialist. See footnote in step 7a below for further information.
- The school had any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and therefore whether a true-up was required, and properly reported on the financial statements/disclosed in footnotes (if necessary). Such payment terms are common in sponsor/authorizer, management company/operator, and some vendor agreements.
  - A finding for recovery will likely be issued when the true-up calculation(s)/evaluation(s) have not been performed and the auditor determines an amount is due; or an unreasonable

<sup>115</sup> Minutes should include an exhibit of the calendar approved or document within the body of the minutes the details of the approved calendar. If this level of documentation is not available, the actual approval control process cannot be adequately verified.

legal evaluation/determination has been relied on; or the amount due has not been repaid, or is not in the process of being repaid under the terms of a reasonable and enforceable repayment agreement.

- The community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, durational participation, student withdrawal and other requirements relevant to a community school’s FTE reporting, and perform implementation tests.

**Note:** If in the normal course of performing the testing procedures below, information is obtained that you feel is relevant and ODE wouldn’t have had available for their review, raising significant concerns on the reliance on ODE’s FTE Review to satisfy the participation requirement, auditors should consult with the Center for Audit Excellence Community School Specialist to determine whether additional testing may be necessary.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests**

**Auditors should refer to ODE’s FTE Review Manual for additional guidance about the compliance requirements for E-schools described in this OCS Step. Reviewing and understanding the guidance in this Manual is a critical part of accurately testing student enrollment and attendance. The FTE Review Manual is available at the link above.**

*Note:* The most effective audit procedures include a review and evaluation of school policies as well as verification that schools are maintaining the appropriate student enrollment, participation, duration, and withdrawal documentation. A school’s timeliness of student enrollment and withdrawal dates is also a critical component in ensuring accurate FTE reporting to ODE. Finally, school EMIS personnel should be actively reviewing and reconciling student enrollment differences in the Student Cross Reference application and other EMIS tools to avoid potential overlaps in Foundation funding at multiple schools for the same student.

AOS provides ODE copies of all community school audit reports. As a result of issues identified and reported under audit, auditors should be aware that ODE may perform a FTE review in a subsequent fiscal year to assess compliance and determine the accuracy of the school’s reported FTE. This could potentially impact school funding.

**Procedures for Electronic Community Schools:**

1. Obtain a copy of the school's enrollment and attendance policies and procedures. Document and evaluate the school's procedures for:
  - Enrolling and withdrawing pupils timely;
  - Verification of student residence/address;
  - Setting up school calendars for students in EMIS;
  - Offering and documenting credit flexibility
  - Documenting participation in learning opportunities for both at home, online and off-line/non-classroom time, if applicable.
    - **It is important that their policy/procedures address how they identify and monitor overlap/duplication of time between various online learning systems; as well as duplication of time between online learning systems, and online or other off-line/non-classroom. The school must have controls in place to ensure the same period of time does not overlap or be counted more than once;**
  - Capturing and reporting idle time when calculating a student's participation;
  - Monitoring and documenting student absences; and
  - Monitoring, withdrawing, and notifying the resident public school of withdrawn students or students truant for 72 or more consecutive hours. *Note: If the school has a stricter policy than 72 hours, consult with CFAE Community School Specialist.*

If the school adopted a new attendance policy that took effect after 4/12/21, in response to 133 GA, HB 409, effective 4/12/21 (ORC 3314.261), contact CFAE Community School Specialist.

For items above not addressed in the schools written policies/procedures, consider whether an internal control comment is appropriate under AU-C265.

2. As part of this evaluation, determine whether the Community School's policies and procedures are consistent with the Educational Plan in the Community School's Charter, as approved by the school's sponsor, and include sufficient procedures for identifying and tracking attendance and participation for all students for whom the community school is responsible. These students include those: (a) residing in and entitled to attend public schools (b) over the age of 18 that are not residing with a guardian (c) placed by the courts in facilities outside the district, (d) attending other community schools, and (e) that have been absent due to truancy for 72 consecutive hours or greater.
3. Inquire with community school management about the learning opportunities it offered as part of its operating standards during the audit period.
  - a. Determine whether the community school offered the minimum 920 hours of learning opportunities by reviewing the master school calendar in EMIS and student participation records (both online and off-line/non-classroom as applicable in step 8 below).
  - b. If the community school offered more or less than the required minimum, determine whether the community school reported the accurate number of learning opportunities to the Ohio Department of Education (this will be the Master Calendar in EMIS).
  - c. Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes and published on the school's webpage/or in the parent handbook (differences and their impact are considered in the steps below). If not in agreement consult with the CFAE Community School Specialist.
4. Document and evaluate the school's procedures for reviewing the Student Cross Reference application. Determine whether appropriate school personnel are reviewing and reconciling this information in a

timely manner.

*Note: In making these evaluations, auditors should consider that ODE may not always make the Student Cross Reference application available to schools for certain periods. If ODE did not make the report available, auditors should not penalize the school for a lack of review. But where this application is available to schools, school EMIS personnel should be monitoring it appropriately and working with other schools to reconcile discrepancies.*

5. Consider whether the community school should include a receivable, payable, or contingency footnote in accordance with the financial reporting framework requirements (i.e. GAAP) related to Final [Foundation Funding adjustments](#) after year end and/or as a result of ODE FTE Reviews.

*Note: Since community schools are funded on an annual basis, ODE must reconcile and make Final Foundation Funding payments after the fiscal year end close out is performed. These Final Payments occur no sooner than August and may span several months before ODE finalizes the Foundation Funding payments. Schools should evaluate each FTE Foundation adjustment at the time made, rather than waiting until all FTE Foundation adjustments have occurred for the fiscal year and just evaluating the net.*

- a. Also consider whether a true-up was required for any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and if so, whether it was treated properly in accordance with the summary of audit requirements above. (AOS auditors see guidance in Teammate / IPA's see guidance above, and suggested steps in [Community School Audit Programs for IPA's](#) at <https://ohioauditor.gov/references/guidance/communityschools.html> ).
6. Perform the following procedures:

- a. Select a representative number of **newly enrolled** students during the school year (normally five students is sufficient). The new enrollment list may be obtained by the E-school through EMIS or other student attendance information system.
  - i. Compare the reported enrollment date to the latter of the: (1) first login date, or (2) date the computer was received.<sup>116</sup>

*Note: Students are not enrolled in an E-school until the latter of first login date or the date the computer was received. Students may waive the right to a computer; however, this documentation must be kept on file by the community school. The community school should be able to produce a report that documents login dates. Community schools should also maintain shipping logs (with tracking numbers) from the computer vendor. If the student's parent physically picked up the computer, the community school should have the parent's signature on file to support receipt of the computer or contained in the student's file.*

- ii. Determine whether the school maintained copies of the student's birth record<sup>117</sup> certificate, proof of residency, and parent/guardian signed enrollment forms in the student file to support enrollment and resident district determinations.

<sup>116</sup> For students who login from a different computer (while waiting to receive their issued computer), this login date may be considered the enrollment date even though it may not be the "latter" of these. In this case, auditors should still inspect support indicating the computer was received at a later date.

<sup>117</sup> [The original source document for a birth record may be a photocopy of a birth certificate or a properly attested documentation of birth. \(ODE FTE Review Manual, p. 35\)](#)

- b. Select a representative number of students from the community school's **withdrawal** list (normally five students is sufficient). The withdrawal list may be obtained by the community school through EMIS or the community school's student information system.
  - i. Identify when students were withdrawn and determine whether it was timely (e.g., waiting several weeks or more from withdrawal notification is not timely).
    - For example, using grade records and/or attendance records, determine the last day students were reported as attending the community school. If a student was reported absent for 72 consecutive hours, determine the date the student should have been withdrawn and ascertain whether the school reported the withdrawal timely.
  - ii. Determine whether the appropriate EMIS withdrawal code was used to withdraw the student based on evidence in the student's file. [ODE EMIS Manual 2.1.1 & 2.4](#) provides examples of the types of documentation required to be obtained and maintained by the school for each type of withdrawal code.
  - iii. Inquire with management about any significant differences or adjustments. Consider reporting noncompliance or other client communication for any significant unexplained variances.
    - *A community school should not wait until March to remove a student from its enrollment if the student withdrew in October. Significant delays in reporting student withdrawals constitute noncompliance. Likewise, a student with excessive truancy should have received multiple communications from the school to verify the student's absence during the 72-hour period. Community schools should maintain a daily call log, copies of written correspondence to parents/guardians, or obtain timely excuses from the parent, guardian, or adult-aged student for excessive absenteeism that does not result in removal of a student from enrollment.*

**When ODE has conducted a FTE review for the fiscal year:**

7. If ODE has conducted a FTE review for the fiscal year: (Note: if a FTE review **has not been conducted**, proceed to step 8):
  - a. Obtain a copy of the written report<sup>118</sup> and review the results of procedures performed<sup>119</sup>.
  - b. If ODE reported an issue(s), auditors should assess materiality and consider reporting a similar finding(s) in the audit report or management letter based upon the results of ODE's FTE Review.

<sup>118</sup> AOS Auditors should check the community school master spreadsheet available on the Community School intranet page for the status of FTE reviews. If available, these letters can be obtained from *W:\Community School FTE Review Letters & Other ODE Correspondence*. IPA's should ~~contact the regional chief auditor to obtain~~ check the same spreadsheet in the AOS IPA Portal, and obtain the report from the client, if one is noted.

<sup>119</sup> Auditors should determine if a sample size of at least 25 students was tested. If the size was less than 25 and there was not a valid reason evident for the reduction, the CFAE Community School Specialist should be contacted to see if the review can be relied upon or if step 8 will need to be performed. Be aware that some FTE letters indicate a 'modified' review/sample was performed. The type of modified review could potentially change from year to year, so guidance will be sent out on an annual basis regarding whether such modified reviews can be relied on for step 8. **If** the schools letter states such, **and** guidance has not yet been sent out from CFAE for the current year, consult with the CFAE Community School Specialist to determine if ODE's modified review can be relied on for step 8 (unless evaluation of risk would require increasing beyond these numbers anyway).

**When ODE has not conducted a FTE review for the fiscal year:**

8. Determine whether the school has support for meeting the 920 hours of learning opportunities and whether the school is following its policies for documenting and measuring student enrollment and participation.
  - a. Student file testing: Select a representative number of students enrolled for **any part of the school year** (normally five students is sufficient and this is a separate sample from the step below; however, auditors should assess the risk of noncompliance for their particular school and increase this selection, if appropriate).

Review the student files for the selected students and determine whether the school is following its policies for documenting and measuring student enrollment, attendance and participation.

- i. Determine whether the school has birth record<sup>117</sup> ~~certification~~ and proof of residency documentation for the student contained in the student file.
- ii. Determine whether the school has completed/signed student enrollment forms contained in the student file.
- iii. Determine whether the community school is retaining the membership record for at least five years.
- iv. Determine whether the school has maintained records of student absences in the student file (or elsewhere) sufficient to enable the school to monitor its compliance with their policy/procedures/education plan on the 72 consecutive hour rule for withdrawal. If the student was reported absent for 72 consecutive hours, determine the date the student should have been withdrawn, ascertain whether the school reported it timely, and verify that less than 1 FTE was claimed for the student. You do not have to calculate the exact FTE. If you find the school claimed 1 FTE for a student that should have been withdrawn, consider that when selecting the number of students to test in step 8 c(ii).
  - When students are noted nearing the 72 consecutive hour withdrawal mark, and then attend for just a few days, determine if the school complied with Ohio Rev. Code § 3321.191 requirements & the schools truancy policy (send parent notices, maintain call logs, refer to court (if required), etc.). Also, look for proof of completed assignments for the few days the student was marked as attending to substantiate that they did attend. <http://education.ohio.gov/getattachment/Topics/Student-Supports/Chronic-Absenteeism/House-Bill-410-FAQ-2.pdf.aspx?lang=en-US>
- b. Determine and document how the e-school's online educational learning system operates and how much reliance can be placed upon log in and log out times (i.e., duration of time) in the system as evidence of student participation (step c below). Consider utilizing the 'E-school and Blended School FTE Review Guiding Questions' appendix in the ODE FTE Review Manual.
- c. Participation testing: Select the greater of 5 or 5% of community school students that were **enrolled for any part of the school year** from the school's EMIS report. The number of students selected need not exceed 20 students.
  - i. For each student identified, select, 5 non-consecutive enrollment days under the audit period and determine whether the student participated<sup>120</sup> in and received credit for more than 10 hours of learning opportunities in any 24-hour period. Also determine whether

---

<sup>120</sup> While we do not expect [credit flex](#) to be something you will see in an e-school, we will only test the Individual Student Education Plan and adherence to that plan if a student selected is participating in credit flex. So durational support will not be needed to be tested for the credit flex portion of the student day. However, the remaining portion of the days learning opportunity (if any) will still be required to be tested. Additionally, there should not be overlap that results in more learning opportunity hours than what was actually participated in.

overlap/duplication of time between various online learning systems; as well as duplication of time between online learning systems, and off-line/other non-classroom time exists. Finally, determine whether the school maintains log records or student-prepared participation logs that match the daily hours of instructions listed in the school's daily EMIS calendar for selected students. The total log time hours and off-line/non-classroom learning documentation for each student should match the hours reported in EMIS. If the student has non-computer learning opportunities, the school should maintain documentation in the student file to document participation and approval in writing by a teacher of such time. *Auditors should report noncompliance or other client communication where log and non-computer hours documented in the student files do not match EMIS and no other supporting documentation exists; as well if overlap/duplication of time is noted, or if students are receiving credit for more than 10 hours in a 24 hour period.*

*Note: This is admittedly a difficult step; however, the total computer and non-computer-based learning opportunities must be adequately supported and be reasonably comparable to the total hours of instruction claimed by the school to be provided to the student based upon the FTE reported in EMIS.*

- ii. Using the applicable student files, participation records and school calendar, determine if the student should have 1 or less than 1 FTE and compare to what the school reported to ODE in EMIS. For example, if the e-school's attendance policy requires the students to participate during certain hours/days, and a student is documented as being absent, whether excused or unexcused, the student's FTE should not equal 1. If it is evident that a FTE should have been reduced and wasn't we would consider this an exception. You do not have to calculate the exact FTE. Exceptions should be discussed with the CFAE Community School Specialist.
- d. If the school did not maintain durational participation data, determine whether or not the required standard contingency footnote for funding was reported by the school.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

- Consider the results of all procedures in this Section when evaluating the school's compliance with FTE requirements.
- Evaluate whether the community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, durational participation, student withdrawal and other requirements relevant to a community school's FTE reporting. Most likely non-compliance as well as missing or inadequate controls for FTE reporting is indicative of an AU-C 265 control comment.

Revised: HB 164, 133 GA  
Effective: June 19, 2020

Revised: HB 166, 133 GA  
Effective: July 18, 2019

**1-27C Compliance Requirement:** Ohio Rev. Code §§ 3301.079, 3302.41, 3313.64, 3314.03, 3314.08, and Ohio Admin. Code 3301-102-02 – Community School Funding (*Blended only*).

**Fy 2021 Notes:**

- Due to COVID, for Fy 2021, brick & mortar community schools could choose to operate in person as normal (1-27A), OR under a remote learning plan (1-27A - 133GA, HB 164, Section 16(B)), OR under a blended learning declaration (1-27C – Ohio Rev. Code § 3302.41). Per ODE guidance, community schools with multiple buildings, may have some buildings on a blended declaration, and other buildings on a remote learning plan, however, there should be no overlap among the plans. While most chose remote learning plans, two opted for blended learning declarations. This section applies to those operating under blended learning declarations, and full testing procedures apply.
- Consult with CFAE Community School Specialist if the school operated in a blended environment but failed to submit the declaration to ODE; or if the school operated one building under both blended & remote learning plans.
- Auditors should expect to identify some students who were in non-attendance due to illness or exposure to COVID-19. Where this is the case, the school should have documentation to support a student was ill or quarantining due to the virus. So long as schools have documentation to support these instances, auditors should not view these situations as “exceptions” requiring consultation with CFAE.
- When testing under this section for Fy 2021, you must review ODE’s document on ‘Methodology for funding blended learning community schools during the ordered school-building closure’ which is applicable to Fy 2020 & Fy 2021.

Only brick and mortar community schools that meet certain statutory requirements may operate all or part of a school using one or more blended learning models (ORC 3302.41(A) & (C)).

Blended community school students work part of the time from home, and are required by the community school charter’s Educational Plan and Student Policy Handbook to attend the school facility a majority of the time. There are several types of blended learning models. ORC 3301.079(K)(1) "Blended learning" means the delivery of instruction in a combination of time in a supervised physical location away from home and online delivery whereby the student has some element of control over time, place, path, or pace of learning.

The key components of this include instruction in both a physical learning space away from home and online. The other components include some student choice of certain elements, like “time, place, path or pace of learning.” All these elements must be present to be considered a blended learning environment.

To operate using a blended learning model for instruction in the community school, the school and sponsor should negotiate and agree in the community school contract to include the blended learning provisions. Specific information about how the school intends to implement blended learning must be included in the community school contract (ORC 3314.03(A)(29)(a)-(g)):

- what blended learning model(s) will be used,
- description of how student instructional needs will be determined and documented,

- the method to be used for determining competency, granting credit, and promoting students to a higher grade level,
- attendance requirements, including how the school will document participation in learning opportunities,
- a statement describing how student progress will be monitored,
- a statement describing how private student data will be protected,
- description of the professional development activities offered to teachers.

In addition to contract language, the community school also must notify the Ohio Department of Education's Office of Community Schools, in writing, no later than July 1<sup>121</sup> preceding the school year if it wishes to begin or cease using a blended learning model, pursuant to Ohio Rev. Code § 3302.41(A). ODE's opening assurances, however, are required to be completed by the sponsor for the school's first year of operation, or if the school is not an e-school and it changed buildings, the first year operating from the new building, which include a section regarding whether the school will operate a blended learning model. Additional details can be found in section 2-13 of Chapter 2. (133 GA H.B. 166 changed the requirements for opening assurances. Effective FY 2021, opening assurances are only required for new schools, or existing community schools that changed school buildings that year.)

**Fy 2021 Note: Ohio Rev. Code § 3302.41(A) requires that the blended learning declaration form be submitted to ODE no later than July 1, 2020 whereas ODE guidance directs that the declaration form be submitted no later than November 1, 2020. AOS will test for compliance using the deadline imposed by ODE.**

### **Summary of Requirements:**

Ohio Rev. Code § 3314.08 provides the formula by which Community Schools are funded. Community Schools receive funding from the state through the per-pupil foundation allocation. Unlike city, local, exempted village and joint vocational school districts, Community Schools have no tax base from which to draw funds for buildings and investment in infrastructure. Ohio Rev. Code § 3314.191 states that no payments will be made under Ohio Rev. Code § 3314.08 during the first year of operations unless certain conditions are met.

Community schools must provide documentation that clearly demonstrates students have participated in learning opportunities. Community schools with blended learning environments (i.e. a mixture of both classroom and non-classroom/internet-based learning) have unique challenges in documenting and assessing student participation. Attendance requirements, including a majority of time required in the school facility, should be detailed in each community school's education plan and student handbook. Appropriate documentation of student learning activities should include a combination of attendance in the school facility and documentation of online learning activities. See the "Learning Opportunity Documentation Requirements for Schools Using Blended Learning Models" in [ODE's FTE Review Manual](#) for further information.

Ohio Rev. Code § 3314.03, in part, requires the contract between a sponsor and the governing authority of a community school state the following:

- That the governing authority will adopt an attendance policy that includes a procedure for automatically withdrawing a student from the school if the student, without a legitimate excuse, fails to participate in seventy-two (72) consecutive hours of the learning opportunities offered to the student.<sup>122</sup>

<sup>121</sup> **For the 2020-2021 school year, the deadline was extended to November 1.**

<sup>122</sup> Valid legal reasons for non-attendance are set forth in Ohio Admin. Code 3301-69-02.

- The school will provide learning opportunities to a minimum of twenty-five students for a *minimum* of nine hundred twenty (920) hours per school year.
  - The Ohio Department of Education shall determine each community school student's percentage of full-time equivalency based on the *percentage of learning opportunities* offered by the community school to that student, reported either as number of hours or number of days. Whether it reports hours or days of learning opportunities, each community school shall offer not less than nine hundred twenty hours of learning opportunities during the school year. [Ohio Rev. Code § 3314.08(H)(3)]
- That the governing authority will adopt a policy regarding the admission of students who reside outside the district in which the school is located;
- A financial plan detailing an estimated school budget for each year of the period of the contract and specifying the total estimated per pupil expenditure amount of each such year.
- An addendum to the contract outlining the facilities to be used containing at least the following information: (See additional information in OCS 2-14)
  - A detailed description of each facility used for instructional purposes;
  - The annual costs associated with leasing each facility that are paid by or on behalf of the school;
  - The annual mortgage principal and interest payments that are paid by the school;
  - The name of the lender or landlord, identified as such, and the lender's or landlord's relationship to the operator, if any.
- A provision requiring the governing authority to adopt an enrollment and attendance policy that requires a student's parent to notify the community school in which the student is enrolled when there is a change in the location of the parent's or student's primary residence.
- A provision requiring the governing authority to adopt a student residence and address verification policy for students enrolling in or attending the school.
- That the school's attendance and participation records shall be made available to the Department of Education, Auditor of State, and school's sponsor to the extent permitted under and in accordance with the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. § 1232g, as amended, and any regulations promulgated under that act, and section 3319.321 of the Revised Code.
- A provision requiring that all moneys the school's operator loans to the school, including facilities loans or cash flow assistance, must be accounted for, documented, and bear interest at a fair market rate. (See OCS 1-12 for testing such loans.)
- Shall specify that the school will comply with numerous sections of the Ohio Rev. Code including 149.43 [Ohio Rev. Code § 3314.03(A)(11)(d)]

Ohio Rev. Code § 149.43 defines public records as follows: records kept by any public office, including, but not limited to, state, county, city, village, township, and school district<sup>123</sup> units, and records pertaining to the delivery of educational services by an alternative school in this state kept by the nonprofit or for-profit entity operating the alternative school pursuant to section Ohio Rev. Code. § 3313.533 Medical

<sup>123</sup> We consider the reference to district/school district in Ohio Revised Code sections to also mean community schools, based on 3314.03.

records are excluded from this definition of public records, however Ohio Rev. Code § 149.43(A)(3) explains that medical record does not by definition include any documents related to birth, and are therefore considered public record by AOS and ODE.

**Attendance and Instruction**

As permitted by Ohio Rev. Code § 3314.08(H)(2), ODE has established student participation criteria and documentation requirements for community schools with blended learning in their FTE Review Manual. Participation in learning opportunities provided by a community school as defined in the community school’s contract with its sponsor and is documented through daily attendance for the brick and mortar portion and participation in durational learning opportunities for non-classroom time similar to an e-school. (See ODE’s FTE Review Manual “Learning Opportunity Documentation Requirements for Schools using Blended Learning Models”.) It does not include days on which only enrollment and/or orientation activities or calamity days occur.

Instructional hours in a community school are defined by learning opportunities provided to or engaged in by a student. As it pertains to blended learning models, Ohio Admin. Code 3301-102-02(M) defines learning opportunity as classroom-based or non-classroom-based supervised instructional and educational activities that are defined in the community school’s contract and are:

1. Provided by or supervised by a licensed teacher<sup>124</sup>;
2. Goal-oriented; and
3. Certified by a licensed teacher as meeting the criteria established for completing the learning opportunity.

As outlined in the Instructional Hours/Learning Opportunities section of ODE’s FTE Review manual, a community school is required to define learning opportunities in its contract with its sponsor:

1. It may include both classroom-based and non-classroom-based activities.
2. These activities have to be either directly provided by a teacher or supervised by a teacher; the school should be able to identify the teacher.
3. These activities have to be educational, instructional, and goal-oriented; there should be some school policy or guidance that in advance describes the goal, mainly of non-classroom-based activities. Reporting activities after-the-fact without prior goals, prior specification of activities, and/or teacher direction is not sufficient.

Instructional hours in a community school’s day include time for changing classes, but not the recess, breakfast and lunch periods. In a blended school, students can earn credit on evenings, weekends, and holidays.

If a community school presents a computer printout of attendance, it must have original documents from which the computer printout, data was drawn, such as teachers’ daily attendance and absence lists, teachers’ grade books, and student sign-in sheets. If the school provides an absence only list to verify attendance, it must be accompanied by the total class list for that teacher. [[ODE FTE Review Manual](#)]

---

<sup>124</sup> Teachers in community schools must hold a teaching license in accordance with ORC 3314.03(A)(10), except that a community school may engage noncertificated persons to teach up to 12 hours (or 40 hours eff. 3/2/21) per week pursuant to ORC 3319.301. Appropriate teaching licenses include professional licenses, resident educator licenses, alternative licenses, supplemental licenses, and substitute licenses issued under ORC 3319.226 or long-term substitute licenses. Note: Due to the COVID-19 pandemic, the 133<sup>rd</sup> GA, HB 164 Sec. (H) allowed ODE to issue 1-year nonrenewable provisional licenses; however, no such license shall be valid on or after July 1, 2021.

If the source of the computer printout data is a teacher personally entering data into the Student Information System, the computer printout itself is the original source document. In such a case, the community school must identify which staff members, including the teacher, have access to the attendance system to make data changes. The school must document in a separate log any changes made by staff members other than the classroom teacher. An example is an office clerk who changes an absence to a tardy based on a late sign-in sheet. [[ODE FTE Review Manual](#)]

If an office staff member records attendance in a computer, the attendance record of the classroom teacher, which is sent to the office staff member, is the original source document and should be used by the auditor to verify attendance. [[ODE FTE Review Manual](#)]

All schools must adjust percent of time for students who are attending part time, participating in courses at a joint vocational school district or taking College Credit Plus courses. [[ODE FTE Review Manual](#)]

Exception for Credit Flexibility: Each school district is mandated to have a policy on credit flexibility, as required by ORC 3313.603(J). Students can engage in credit flexibility, which can include a non-classroom component. Participation results in an individual education plan (IEP) for each student approved to participate in credit flexibility. Participation in credit flexibility having a non-classroom component does not mean that school is operating in a blended environment, since all students would not be engaging in the activity. Engaging in credit flexibility does not exempt a school from complying with the minimum number of hours of instruction for each school year.

### **Funding and Reporting Attendance**

The community school's Foundation funding will be based on the annualized full-time equivalency (FTE) enrollment of each student. A student who enters at the beginning of a school year and receives instruction for the community school's total annual membership units will generate an FTE of 1.0. Students should never have an FTE greater than 1.0. Students who attend a community school for less than the entire year will have an FTE equal to the total days/hours of instruction provided divided by the number of days/hours in the school year calendar. Community schools can continuously update estimated student FTE information in ODE's Education Management Information System (EMIS), but must report actual FTE information no later than the end of the school year. A student's FTE will be determined based on the individualized calendar/class schedule each student is assigned to for the school year and his or her enrollment and withdrawal dates.

Pursuant to Ohio Rev. Code § 3314.03(A)(6)(b) & (A)(27-28) community schools must adopt attendance and participation policies for their students and attendance and participation records shall be made available to the Department of Education, Auditor of State and the school's sponsor. The contract between the community school and sponsor should include requirements for measuring and documenting student attendance and participation.

Community schools that offer blended learning are permissible under the law, subject to approval by their sponsor (Ohio Rev. Code § 3301.079(K)(1)). Correspondence courses are not a recognized blended learning model as they do not provide opportunities for both in-person and online learning; therefore, correspondence courses do not meet the definition of blended learning. Additionally, community schools offering blended learning opportunities are required to make a declaration of such to ODE, however Internet- or computer-based community schools are not blended learning schools under Ohio Law (Ohio Rev. Code § 3302.41(A) & (C)). In this model the actual number of hours the student participates in learning opportunities must be tracked and documented as required per ODE's FTE Review Manual. A student may combine hours from different learning modes, so total hours can be a combination of both classroom-based instruction and non-classroom hours. Students participating in classroom-based learning opportunities, with *excused* absences remain enrolled and will be funded since the school provided the learning

opportunity. That is, a teacher provided instruction to the class even though the student was absent on a given day. However, students with *unexcused* absences will be funded only up until the student reaches 72 consecutive hours of non-attendance, at which point the student must be immediately withdrawn. If a student is attending only on a part-time basis (e.g., a student is splitting his/her instructional time between the community school and a JVS), the community school should adjust the student’s “Percent of Time Attended” factor in EMIS to reflect less than 1.0 FTE for the student. Non-classroom learning opportunities are only credited for actual documented hours, missed days for those learning opportunities (both excused and unexcused absences) or assignments do not count as hours.

Blended learning models used by Ohio community schools must require that students spend the majority of their school year onsite at their school facility. Schools should include all classroom-based learning opportunities that the students were expected to attend. Provided the school requires the students to attend a majority of time on-site, the school may get credit for all those classroom-based learning opportunities even if the student was absent, either excused or unexcused. For funding, these days and hours are treated just like learning opportunities at a brick and mortar school. If the school does not require the students to attend a majority of time on-site, the school may receive funding for classroom-based learning opportunities, but the school may be referred to the Office of Community Schools for noncompliance. [FTE Review Manual]

Pursuant to Ohio Rev. Code § 3301.0714, schools must enter data concerning the enrollment and attendance of their students into EMIS, which is used by all schools to enter and review student enrollment and demographic data.

Ohio Compulsory Attendance and Truancy laws still require community schools to have policies concerning excused and unexcused absence as well as policies to guide employees in addressing attendance practices of any student who is a habitual truant. Further, community schools must maintain documentation to support any withdrawal code reported for a student. Information regarding the preferred documentation that community schools should maintain in student files for the different withdrawal codes varies. Also, in instances where districts are unable to secure the preferred documents, other documentation may be considered acceptable alternatives to support the relevant withdrawal code. A table of the acceptable documentation can be found in the [ODE EMIS Manual](#) 2.1.1 - Required Documentation and further guidance is available in ODE EMIS Manual 2.4.

The following table assists in clarifying the difference between the following absentee categories. As noted in the ODE guide below, these categories indicate various steps schools must take to assist the student<sup>125</sup> and their family with an absentee issue. Students may not be suspended or expelled for truancy, and this does **not** indicate a student must be automatically withdrawn.

	<b>Consecutive hours</b>	<b>Hours per school month</b>	<b>Hours per school year</b>
<b>Habitual Truancy</b>	<i>30 without legitimate excuse</i>	<i>42 without legitimate excuse</i>	<i>72 without legitimate excuse</i>
<b>Excessive Absences</b>	--	<i>38 with or without legitimate excuse</i>	<i>65 with or without legitimate excuse</i>

<sup>125</sup> If the student is no longer of compulsory school age (ORC 3321.01(A)(1)), while schools should perform their due diligence for absentee issues, they are not obligated to follow absence intervention plans.

<b>Chronic Absenteeism</b>	--	--	<b>10% of total hours either excused or unexcused</b>
----------------------------	----	----	---

(Source: ODE’s ‘[Each Child, Our Future: Supporting Regular Attendance](#).’)

Brick and mortar community schools (including those using a blended learning model) must follow all requirements in the table above. Both truancy and excessive absences apply to all public schools, including e-schools. All public schools must implement interventions for students who have not participated in instructional activities and thus meet the triggers for habitual truancy and/or excessive absences. Students in a virtual environment are expected to participate in instructional activities on a consistent basis that conforms to the school calendar.

In addition, for community schools, Ohio Rev. Code § 3314 does require the following, which is a separate law from the categories in the table above.

- 3314.03(A)(6)(b): the governing authority must adopt an attendance policy that includes a procedure for **automatically withdrawing** a student from the school if the student without a legitimate excuse fails to participate in seventy-two (72) **consecutive** hours of the learning opportunities offered to the student.
- 3314.08(H)(2)(c): if the student without a legitimate excuse fails to participate in the first seventy-two (72) consecutive hours of learning opportunities offered to the student in that subsequent school year, the student shall be considered not to have re-enrolled in the school for that school year.

Ohio Rev. Code § 3313.64(J) states that the treasurer of each school district shall, by the fifteenth day of January and July, furnish the superintendent of public instruction a report listing the names of each child in the permanent or legal custody of a government agency or person other than the child’s parent and each child who resides in a home, who attended the district’s schools during the preceding six calendar months. For each child, the report shall state the duration of attendance of that child, the school district responsible for tuition on behalf of the child, and any other information that the superintendent requires. Upon receipt of this report, the superintendent shall deduct each district’s tuition obligations and pay to the district of attendance that amount plus any amount required to be paid by the state.

Ohio Rev. Code § 3314.08(B) requires the board of education of each school district to annually report the number of students entitled to attend school in the district that are actually enrolled in community schools. This section also requires the governing authority of each community school to annually report the number of students enrolled in the community school. For each student, the governing board of the community school must report the city, exempted village, or local school district in which the student is entitled to attend.

- Ohio Rev. Code § 3313.672 specifies documentation that must be provided in the enrollment process and includes a birth record and any pertinent court orders. Proof of residency is also needed to establish where a student is entitled to attend school under ORC 3313.64 and 3313.65. However, see specific McKinney-Vento Homeless Assistance Act guidance in ODE FTE Review Manual if testing a homeless student.
- Ohio Rev. Code § 3317.031 requires membership records be kept intact for at least 5 years.

Based on these reported numbers, the state Department of Education shall calculate and subtract the appropriate amount of state aid from each school district. The amount subtracted shall be paid to the corresponding community school entitled to receive those funds. When calculating and subtracting the appropriate amount of state aid, the department should take into consideration any enrollment of students in community schools for less than the equivalent of a full school year.

ODE makes the Student Cross Reference (SCR) application available to all schools to track enrollment of students on a statewide basis. Using SCR, schools have the opportunity to review student data, including student attributes and potential overlaps, submitted by it and other schools in the State. The SCR gives schools the opportunity to reconcile student enrollment questions and issues and reduce or eliminate errors that could suspend or impact a school's Foundation funding payment. Schools must submit changes in a student's status to ODE (via the Data Collector) within 30 days of the change. ODE refreshes school submissions nightly so that all schools have the ability to view student changes on nearly a real-time basis. Schools have the ability to access the SCR system via their OH|ID (formerly SAFE) account and the Ohio District Data Exchange (ODDEX) role. The SCR screen shot can be used as supporting documentation for entry of a student withdrawal. ODE will not fund overlapping student enrollment dates across different schools until the conflict is resolved by the schools. Students should not be funded for greater than 1.0 FTE.

ODE will continue to adjust the FTE used for the funding formula as the school updates its information throughout the year. At the close of the school's fiscal year end, ODE will reconcile the Final FTE Foundation payments and determine whether the school has a corresponding receivable from or payable due to ODE based upon the accumulation of student FTE's throughout the year. This reconciliation is particularly complex for mobile students and students residing in one district but attending another school. It is critical that schools accurately and timely report their student data to ODE in order for this reconciliation to be performed.

### **ODE FTE Reviews**

Ohio Rev. Code § 3314.08 permits FTE reviews, which ODE performs to verify the accuracy of the enrollment and attendance data reported by community schools into EMIS, which sometimes result in FTE adjustments (errors identified by ODE and the community school adjusts their EMIS records), or can result in "clawbacks" (errors identified by ODE FTE Reviews but the community school does not adjust their EMIS records); both of which can be money due back to ODE. These FTE reviews occur at a minimum once every 5 years, but may occur more often. Schools should therefore continue to evaluate whether [ODE's Final FTE Foundation adjustments](#), and FTE reviews, could result in a material receivable, payable, or potential [contingency footnote disclosure](#) in their GAAP-basis annual financial statements.

### **Tracking Student Participation for Non-Classroom Learning Opportunities**

For schools with blended learning opportunities that have an online component, inquire with management and document how the online educational system tracks student participation. The capabilities of online educational systems vary from school to school. Some schools can track log-ins and log-outs; however, the duration of time online may not equate to the hours a student actually spends learning. When evaluating student attendance and participation in non-classroom learning opportunities in a blended learning school, it is important to understand how much reliance the school/auditor can place upon a student's time spent logged into the system as evidence of participation. If an online system is capable of tracking learning opportunity participation, the school must produce Excel spreadsheets showing the daily, weekly, and monthly accounting of learning opportunities. It also must be able to show the final total of all online learning opportunities that a student participated in. The blended school may have more than one online system that tracks the duration of learning opportunities. In these circumstances, the times may not overlap or be counted more than once. Time not on the computer (self-reported) may not overlap online time. Where there can be little reliance on log reports, the school may need to supplement online durational learning documentation with manually kept student activity logs certified by teachers. Blended learning schools might also maintain student activity grade books, which document assignments completed, and teacher grades throughout the year to help support participation. Such books should be maintained on a per student, per subject, per assignment basis.

If the blended learning school's online system does not track the amount of time students participate in online learning opportunities, schools may alternatively follow the guidance for "Minimum Documentation Requirements for Non-Classroom, Non-Computer Based Learning Opportunities" in ODE's FTE Review Manual. It is recognized that schools may track learning opportunities in different ways due to different system capabilities. [[ODE FTE Review Manual](#)]

Schools may have learning opportunities their online systems do not track and that take place offline or not on a computer. Also, some school's online systems may not be able to track and document a student's participation in online learning opportunities. These schools must use the documentation requirements for other learning opportunities and be able to provide the information on request. [[ODE FTE Review Manual](#)]

Documentation must exist for all learning opportunities and must be certified by a teacher. Other learning opportunity hours should not include the online hours that already have been counted. The following are minimum requirements for "Other Learning Opportunities": [[ODE FTE Review Manual](#)]

- a. Student SSID;
- b. Brief Description of learning opportunities (e.g. class or course information);
- c. Dates and times of actual learning opportunities;
- d. Total of verified learning opportunities time; and
- e. Teacher certification of the reported learning opportunities.

Schools may use the "Alternative Learning Opportunity Documentation Log" to document these learning opportunities, but they are not required to. This is an example of how these learning opportunities can be tracked. It is up to the school to decide on how best to meet these requirements. [[ODE FTE Review Manual](#)]

For more information about blended learning in community schools, refer to ODE's H.B. 2 Guidance for Blended Learning available at: [Blended-Learning-Guidance.pdf](#).

#### **Auditors should consider when testing controls and compliance whether or not:**

- The community school's Education Plan in its charter adequately describes the blended learning environment and how the school will capture attendance and participation.
- The community school notified ODE as required of its intent to operate a blended learning model for the school year.
  - As noted above the community school must notify the Ohio Department of Education's Office of Community Schools, in writing, no later than July 1<sup>121</sup> preceding the school year if it wishes to begin or cease using a blended learning model, pursuant to Ohio Rev. Code § 3302.41(A). ODE's opening assurances, however, are required to be completed by the sponsor for the school's first year of operation, or if the school is not an e-school and it changed buildings, the first year operating from the new building, which include a section regarding whether the school will operate a blended learning model. (133 GA H.B. 166 changed the requirements for opening assurances. Effective FY 2021, opening assurances are only required for new schools, or existing community schools that changed school buildings that year.)
- ODE conducted a FTE Review for the period under audit.
  - Reliance on ODE's FTE Review is based on the following factors:
    - ODE is the regulator and considered an expert in FTE reporting matters

- As permitted by Ohio Rev. Code § 3314.08(H)(2), ODE has established student participation criteria and documentation requirements for community schools with blended learning in their FTE Review Manual.
- Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes<sup>126</sup> and published on the school’s webpage/or in the parent handbook (differences and their impact on reliance are considered in the steps below). If not in agreement consult with the CFAE Community School Specialist. See testing procedures step 3 below.
- ODE’s FTE review included a sample test of 25 or more students. If not, consult with the CFAE Community School Specialist. See footnote in step 8a below for further information.
- The school had any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and therefore whether a true-up was required, and properly reported on the financial statements/disclosed in footnotes (if necessary). Such payment terms are common in sponsor/authorizer, management company/operator, and some vendor agreements.
  - A finding for recovery will likely be issued when the true-up calculation(s)/evaluation(s) have not been performed and the auditor determines an amount is due; or an unreasonable legal evaluation/determination has been relied on; or the amount due has not been repaid, or is not in the process of being repaid under the terms of a reasonable and enforceable repayment agreement.
- The community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, durational participation, student withdrawal and other requirements relevant to a community school’s FTE reporting, and perform implementation tests.

**Note:** If in the normal course of performing the testing procedures below, information is obtained that you feel is relevant and ODE wouldn’t have had available for their review, raising significant concerns on the reliance on ODE’s FTE Review to satisfy the participation requirement, auditors should consult with the Center for Audit Excellence Community School Specialist to determine whether additional testing may be necessary.

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>	<p><u>Download &amp; provide this file to the client to document learning model(s) used during Fy 2021 per building/time period. Clients should identify which learning models each building utilized during the school year. In some cases, some buildings may have utilized more than one model. Where this is the case, clients should indicate the time periods each model was in affect for each building.</u></p>	

<sup>126</sup> Minutes should include an exhibit of the calendar approved or document within the body of the minutes the details of the approved calendar. If this level of documentation is not available, the actual approval control process cannot be adequately verified.

**Suggested Audit Procedures - Compliance (Substantive) Tests**

**Auditors should refer to ODE’s FTE Review Manual for additional guidance about the Blended Learning compliance requirements described in this OCS Step. Reviewing and understanding the guidance in this Manual is a critical part of accurately testing student enrollment and attendance. The FTE Review Manual is available at the link above.**

*Note: The most effective audit procedures include a review and evaluation of school policies as well as verification that schools are maintaining the appropriate student enrollment, attendance, participation, duration and withdrawal documentation. A school’s timeliness of student enrollment and withdrawal dates is also a critical component in ensuring accurate FTE reporting to ODE. Finally, school EMIS personnel should be actively reviewing and reconciling student enrollment differences in the Student Cross Reference application and other EMIS tools to avoid potential overlaps in Foundation funding at multiple schools for the same student.*

AOS provides ODE copies of all community school audit reports. As a result of issues identified and reported under audit, auditors should be aware that ODE may perform a FTE review in a subsequent fiscal year to assess compliance and determine the accuracy of the school’s reported FTE. This could potentially impact school funding.

**Procedures for Blended Schools**

1. Obtain a copy of the school’s enrollment and attendance policies and procedures. Document and evaluate the school’s procedures for:
  - Annually notifying ODE of its intent to operating a blended learning program;
  - Enrolling and withdrawing pupils timely;
  - Verification of student residence/address;
  - Setting up school calendars for students in EMIS;
  - Offering and documenting credit flexibility<sup>127</sup>;
  - Offering and documenting blended learning attendance and/or participation, for both classroom and non-classroom time, if applicable.
    - **For blended schools, it is important that their policy/procedures address how they identify and monitor overlap/duplication of time between various online learning systems; as well as duplication of time between online learning systems, and classroom or other non-classroom/non-computer time. The school must have controls in place to ensure the same period of time does not overlap or be counted more than once;**
  - Monitoring and documenting student absences; and
  - Monitoring, withdrawing, and notifying the resident public school of withdrawn students or students truant for 72 or more consecutive hours. *Note: If the school has a stricter policy than 72 hours, consult with CFAE Community School Specialist.*

For items above not addressed in the schools written policies/procedures, consider whether an internal control comment is appropriate under AU-C 265.

<sup>127</sup> Each school using credit flexibility is mandated to have a policy on credit flexibility, as required by ORC 3313.603(J). Participation results in an individual education plan (IEP) for each student approved to participate in credit flexibility. Engaging in a credit flexibility activity may count in the instructional hours of a student if the student requests to use credit flexibility and the other procedures associated with credit flexibility, such as goal-setting, specification and completion of activities, and review by a licensed teacher, are in place.

2. As part of this evaluation, determine whether the Community School's policies and procedures are consistent with the Educational Plan in the Community School's Charter, as approved by the school's sponsor, and include sufficient procedures for identifying and tracking attendance and participation for all students for whom the community school is responsible. These students include those: (a) residing in and entitled to attend public schools (b) over the age of 18 that are not residing with a guardian (c) placed by the courts in facilities outside the district, (d) attending other community schools, and (e) that have been absent due to truancy for 72 consecutive hours or greater.
3. Inquire with community school management about the learning opportunities it offered as part of its operating standards during the audit period.
  - a. Determine whether the community school offered the minimum 920 hours of learning opportunities by reviewing the master school calendar in EMIS and student participation records (both classroom and non-classroom as applicable in step 9 below).
  - b. Inquire with management to determine if school was canceled during the audit period due to weather or electrical outages and ensure the EMIS calendar included sufficient hours to meet the minimum 920 hours of learning opportunities despite these closures (i.e., the closures should be reflected in the final EMIS calendar for the school year).
  - c. If the community school offered more or less than the required minimum, determine whether the community school reported the accurate number of learning opportunities to the Ohio Department of Education (this will be the Master Calendar in EMIS).
  - d. Compare the community schools master calendar submitted to ODE in EMIS with the board approved school year calendar reflected in the minutes and published on the school's webpage/or in the parent handbook. If not in agreement consult with the CFAE Community School Specialist.
4. Document and evaluate the school's procedures for reviewing the Student Cross Reference application. Determine whether appropriate school personnel are reviewing and reconciling this information in a timely manner.

*Note: In making these evaluations, auditors should consider that ODE may not always make the Student Cross Reference application available to schools for certain periods. If ODE did not make the report available, auditors should not penalize the school for a lack of review. But where this application is available to schools, school EMIS personnel should be monitoring it appropriately and working with other schools to reconcile discrepancies.*

5. Review Ohio Rev. Code § 3314.03, the charter, and the community school's policies and procedures to determine what the sponsor requires for appropriate documentation of excused and unexcused absences. Select a few students with absences and review the student file or other documentation to verify the community school is gathering appropriate supporting documentation for excused absences. If the absence is unexcused, determine whether the community school is tracking the total unexcused absences for the student and following its truancy policies and procedures. (Note excused absences for the online/non-classroom portion will not count towards obtaining the required hours for FTE.)

*Note: If the charter does not address minimum documentation requirements, this would be a control deficiency. The EMIS Manual may be referenced as an additional basis for your control deficiency. [[ODE EMIS Manual 2.1.1 - Required Documentation](#)]*

6. Consider whether the community school should include a receivable, payable, or contingency footnote in accordance with the financial reporting framework requirements (ie.GAAP) related to Final [Foundation Funding adjustments](#) after year end and/or as a result of ODE FTE Reviews.

*Note: Since community schools are funded on an annual basis, ODE must reconcile and make Final Foundation Funding payments after the fiscal year end close out is performed. These Final Payments occur no sooner than August and may span several months before ODE finalizes the Foundation Funding payments. Schools should evaluate each FTE Foundation adjustment at the time made, rather than waiting until all FTE Foundation adjustments have occurred for the fiscal year and just evaluating the net.*

- a. Also consider whether a true-up was required for any contracts/agreements paid on a percentage/number of FTE (or anything that changes), and if so, whether it was treated properly in accordance with the summary of audit requirements above. (AOS auditors see guidance in Teammate / IPA's see guidance above, and suggested steps in [Community School Audit Programs for IPA's at https://ohioauditor.gov/references/guidance/communityschools.html](https://ohioauditor.gov/references/guidance/communityschools.html) ).
7. Perform the following procedures:
- a. Select a representative number of **newly enrolled** students during the school year (normally five students is sufficient). The new enrollment list may be obtained by the community school through EMIS or other student attendance information system.
    - i. Identify when students were enrolled and began participating in learning opportunities (or for blended students, this could be their first log on date) and determine whether it was timely. Waiting several weeks or more from the date a parent or guardian signs the student enrollment form is not timely.
    - ii. Determine whether the school maintained copies of the student's birth record<sup>128</sup> certificate, proof of residency, and parent/guardian signed enrollment forms in the student file to support enrollment and resident district determinations.
  - b. Select a representative number of students from the community school's **withdrawal** list (normally five students is sufficient). The withdrawal list may be obtained by the community school through EMIS or the community school's student information system.
    - i. Identify when students were withdrawn and determine whether it was timely (e.g., waiting several weeks or more from withdrawal notification is not timely).
      - o For example: using grade records and/or attendance records, determine the last day students were reported as attending the community school. If a student was reported absent for 72 consecutive hours, determine the date the student should have been withdrawn and ascertain whether the school reported the withdrawal timely.
    - ii. Determine whether the appropriate EMIS withdrawal code was used to withdraw the student based on evidence in the student's file. [ODE EMIS Manual 2.1.1 & 2.4](#) provides examples of the types of documentation required to be obtained and maintained by the school for each type of withdrawal code.
    - iii. Inquire with management about any significant differences or adjustments. Consider reporting noncompliance or other client communication for any significant unexplained variances.

*A community school should not wait until March to remove a student from its enrollment if the student withdrew in October. Significant delays in reporting student withdrawals*

---

<sup>128</sup> The original source document for a birth record may be a photocopy of a birth certificate or a properly attested documentation of birth. (ODE FTE Review Manual, p. 35 of Fy 21 manual)

*constitute noncompliance. Likewise, a student with excessive truancy should have received multiple communications from the school to verify the student's absence during the 72-hour period. Community schools should maintain a daily call log, copies of written correspondence to parents/guardians, or obtain timely excuses from the parent, guardian, or adult-aged student for excessive absenteeism that does not result in removal of a student from enrollment.*

**When ODE has conducted a FTE review for the fiscal year:**

8. If ODE has conducted a FTE review for the fiscal year: (Note: if a FTE review **has not been conducted**, proceed to step 9):
  - a. Obtain a copy of the written report<sup>129</sup> and review the results of procedures performed<sup>130</sup>.
  - b. If ODE reported an issue(s), auditors should assess materiality and consider reporting a similar finding(s) in the audit report or management letter based upon the results of ODE's FTE Review.

**When ODE has not conducted a FTE review for the fiscal year:**

9. Determine whether the school has support for meeting the 920 hours of learning opportunities and whether the school is following its policies for documenting and measuring student enrollment, attendance, participation and duration.
  - a. Student file testing: Select a representative number of students enrolled for **any part of the school year** (normally five students is sufficient and this is a separate sample from the step below; however, auditors should assess the risk of noncompliance for their particular school and increase this selection, if appropriate)

Review the student files for the selected students and determine whether the school is following its policies for documenting and measuring student enrollment, attendance and participation:

- i. Determine whether the school has birth ~~record~~<sup>128</sup> ~~certification~~ and proof of residency documentation for the student contained in the student file.
- ii. Determine whether the school has completed/signed student enrollment forms contained in the student file.
- iii. Determine whether the community school is retaining the membership record for at least five years.
- iv. Determine whether the school has maintained a record of student tardiness and absences in the student file (or elsewhere) sufficient to enable the school to monitor its compliance with their policy/procedures on the 72 consecutive hour rule for withdrawal. If the student was reported absent for 72 consecutive hours, determine the date the student should have

<sup>129</sup> AOS Auditors should check the community school master spreadsheet available on the Community School intranet page for the status of FTE reviews. If available, these letters can be obtained from *W:\Community School FTE Review Letters & Other ODE Correspondence*. IPA's should ~~contact the regional chief auditor to obtain check the same spreadsheet in the AOS IPA Portal, and obtain the report from the client, if one is noted.~~

<sup>130</sup> Auditors should determine if a sample size of at least 25 students was tested. If the size was less than 25 and there was not a valid reason evident for the reduction, the CFAE Community School Specialist should be contacted to see if the review can be relied upon or if step 9 will need to be performed. Be aware that some FTE letters indicate a 'modified' review/sample was performed. The type of modified review could potentially change from year to year, so guidance will be sent out on an annual basis regarding whether such modified reviews can be relied on for step 9. **If** the schools letter states such, **and** guidance has not yet been sent out from CFAE for the current year, consult with the CFAE Community School Specialist to determine if ODE's modified review can be relied on for step 9 (unless evaluation of risk would require increasing beyond these numbers anyway).

been withdrawn, ascertain whether the school reported it timely, and verify that less than 1 FTE was claimed for the student. You do not have to calculate the exact FTE. If you find the school claimed 1 FTE for a student that should have been withdrawn, consider that when selecting the number of students to test in step 9 b(ii)(b).

- When students are noted nearing the 72 consecutive hour withdrawal mark, and then attend for just a few days, determine if the school complied with Ohio Rev. Code § 3321.191 requirements & the schools truancy policy (send parent notices, maintain call logs, refer to court (if required), etc.). Also, look for proof of completed assignments for the few days the student was marked as attending to substantiate that they did attend.

<http://education.ohio.gov/getattachment/Topics/Student-Supports/Chronic-Absenteeism/House-Bill-410-FAQ-2.pdf.aspx?lang=en-US>

- b. Non-classroom participation time testing (online duration or non-computer/non-classroom log documentation)
  - i. Determine and document how the schools online educational learning system operates and how much reliance can be placed upon log in and log out times (i.e., duration of time) in the system as evidence of student attendance and participation (step ii below). You should also review the school's Educational Plan approved by the sponsor and the schools contract to determine what type of blended learning model they have. Consider utilizing the 'E-school and Blended School FTE Review Guiding Questions' appendix in the ODE FTE Review Manual.

Examples:

- If the brick & mortar school has a blended learning model that only requires students to attend 3 of 5 hours per day at the school location (classroom time), and the remaining 2 hours is non-classroom time - only the 2 hours of non-classroom time would need tracked / tested.
  - If the brick & mortar school has a blended learning model where the students spend all their time learning on a computer at their own pace, but it all takes place within the brick & mortar setting with a teacher on-site, there would be no 'non-classroom time' and therefore no time would be required to be tracked / tested. This is a blended learning educational model, but for FTE / funding purposes, not considered blended.
- ii. Attendance / Durational Participation Testing: For all students participating in classroom time and online/non-classroom time, select the greater of 5 or 5% of community school students that were enrolled for **any part of the school year** from the school's EMIS report. The number of students selected need not exceed 20 students.
    - a. For each student select 5 non-consecutive enrollment days under the audit period and determine whether overlap/duplication of time between various online learning systems; as well as duplication of time between online learning systems, and classroom or other non-classroom/non-computer time exists. In addition, determine whether the school maintains log records or student-prepared participation logs that match the daily hours of instructions listed in the school's daily EMIS calendar for selected students. The total log time hours and non-classroom/non-computer learning documentation for each student should match the hours reported in EMIS. If the student has non-computer learning opportunities, the school should maintain documentation in the student file to document participation and approval in writing by a teacher of such time. *Auditors should report noncompliance or other client communication where log and non-computer hours documented in the student files do not match EMIS and no other supporting documentation exists, as well as if overlap/duplication of time is noted.*

*Note: This is admittedly a difficult step; however, the total computer and non-computer-based learning opportunities must be adequately supported and be reasonably comparable to the total hours of instruction claimed by the school to be provided to the student based upon the FTE reported in EMIS. Also, the 10-hour cap in ORC 3314.08(H)(3) is specific to e-schools, and therefore is n/a to blended schools.*

- b. Using the applicable student files, attendance and durational participation records, and the school calendar, determine if the student should have 1 or less than 1 FTE and compare to what the school reported to ODE in EMIS. For example, if the blended schools attendance policy requires the students non-classroom participation time to be during certain hours/days, and a student is documented as being absent, whether excused or unexcused, the students FTE should not equal 1. If it is evident that a FTE should have been reduced and wasn't we would consider this an exception. You do not have to calculate the exact FTE. Exceptions should be discussed with the CFAE Community School Specialist.<sup>131</sup>
- c. If the school did not maintain durational participation data, determine whether or not the required standard contingency footnote for funding was reported by the school.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

- Consider the results of all procedures in this Section when evaluating the school's compliance with FTE requirements.
- Evaluate whether the community school had appropriate policies and internal control procedures in place to ensure compliance with enrollment, durational participation, student withdrawal and other requirements relevant to a community school's FTE reporting. Most likely non-compliance as well as missing or inadequate controls for FTE reporting is indicative of an AU-C 265 control comment.

<sup>131</sup> We will only test the Individual Student Education Plan and adherence to that plan if a student selected is participating in [credit flexibility](#). Did the school have an approved IEP and was it completed according to ODE requirements. Also consider information contained in the guidance about credit flexibility if such a student is selected. If the student's 920 hours involves non-classroom time, the student will never have 1 FTE. As long as that student had less than 1 FTE, we would not take exception, but you should determine that the conditions of the IEP were met. Additional details can be found in section 2-13 of Chapter 2.

## MUNICIPAL

**1-28 Compliance Requirement:** Ohio Rev. Code Chapter 5727 – Electronic kilowatt-hour tax.

**Summary of Requirement: Kilowatt-hour tax (kWh tax)**

Municipal (Government) electric systems must assess a monthly kilowatt-hour (kWh) tax on end users. This tax is assessed at a variable rate that decreases as kilowatt-hour usage increases on the meters of end users (the last meter used to measure the kWh distributed). [Ohio Rev. Code § 5727.81(A)]

Ohio Rev. Code § 5727.82(A)(3) permits municipal electric communities to retain in their general fund the taxes collected from customers served inside their city or village limits (including taxes self-assessing customers pay, per Ohio Rev. Code § 5727.81(C)(2)).

*Note: This legislation did not change the constitutional rule\* that municipal electric systems can sell no more than one-third of electricity outside city or village limits.*

Municipal electric systems must file a monthly report and remit to the Tax Commissioner,<sup>132</sup> by the 20<sup>th</sup> of the next month, taxes collected from any distribution customers served outside their city or village limits. Even if a municipal electric system has no sales outside of its community limits, a monthly report must be filed. [Ohio Rev. Code § 5727.82(A)(1) & (A)(3)]

A self-assessing option exists for large users consuming more than 45 million kWh annually. This self-assessing customer must annually register with the Department of Taxation and pay an annual fee to the State. A self-assessing customer located inside a municipal electric community's limits must remit any kWh tax directly to the community. [Ohio Rev. Code § 5727.81(C)(2)]

Every electric system liable for the kWh tax must keep complete and accurate records of all electric distributions and other records as required by the Tax Commissioner. The records must be preserved for four years after the return for the taxes for which the records pertain is due or filed, whichever is later, and be available for inspection. [Ohio Rev. Code § 5727.92]

*Note:* AOS Bulletin 2001-011 explains these requirements in more detail. Auditors should familiarize themselves with this Bulletin before testing this requirement.

Receipts can be recorded as either “Other Local Taxes” or “Intergovernmental” depending on the situation. For example, excise taxes collected by an electric distribution plant are normally recorded as “Other Local Taxes.” However; a portion of excise tax collected from the electric distribution plants is paid to the state and distributed to the various subdivisions. These receipts should be recorded as “Intergovernmental.”

\* Per Ohio Const. Art. XVIII, Section 6: “Any municipality, owning or operating a public utility for the purpose of supplying the service or product thereof to the municipality or its inhabitants, may also sell and deliver to others any transportation service of such utility and the surplus product of any other utility in an amount not exceeding in either case fifty per cent of the total service or product supplied by such utility within the municipality, provided that such fifty per cent limitation shall not apply to the sale of water or sewage services.” (*Note:* 50% of the total supplied within the municipality = 1/3 of the total supply.)

<sup>132</sup> Governments must pay the tax to the Tax Commissioner, unless required to remit the taxes via electronic funds transfer to the Treasurer of State per Ohio Rev. Code § 5727.83.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Tickler Files/Checklists</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

**If the kWh tax is not material to the financial statements:**

1. Inquire with management if they are aware of and comply with this law.
2. Inquire with management if they have received any correspondence from an oversight agency regarding compliance or noncompliance with this law. If so, obtain and review correspondence to determine if a material penalty exists.

**If the kWh tax is material to the financial statements:**

1. Determine how kWh taxes billed /collected for customers residing outside of the municipality’s limits vs. those billed / collected inside the municipality’s limits.
2. Inquire with the municipality if there are any self-assessing customers to whom they supply electricity. If yes, determine how the tax is transmitted to the general fund. (If the self-assessor is located outside of the entity limits, the self-assessor remits the kWh tax directly to the State.)
3. Test how the government computes / segregates the tax billed to its residents and allocates the amount to its general fund.
4. Test that the revenue was posted to the correct line item.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## TOWNSHIP

**1-29 Compliance Requirement:** Ohio Rev. Code §§ 507.09 and 505.24(C) - Allocating township trustee and fiscal officer compensation.

**Summary of Requirement, per Ohio Rev. Code §§ 507.09(D) and 505.24(C):**

Attendance at board meetings and other activities supporting the general business of the township must be allocated to the general fund; therefore, allocating 100 percent of an official's compensation to funds other than the general fund is not permitted under Ohio law.

- (1) **Trustees receiving per diem compensation (MUST USE TIME AND EFFORT DOCUMENTATION):** When members of the board of township trustees are compensated per diem, a *majority* of the board must pass a resolution establishing the periodic notification method to be used for reporting the number of days spent in the service *and kinds of services rendered* on those days.<sup>133</sup> The per diem compensation shall be paid from the township general fund or from other township funds in proportion to the kinds of services rendered, as documented. (For example, the township could charge trustee time spent on road repairs to the road & bridge fund.) Ohio Rev. Code § 505.24(A) limits the number of days a trustee can be compensated to 200.

However, for *salaries not* paid from the general fund, 2004 Op. Att'y. Gen. No. 2004-036 established the following documentation requirements:

As noted above, however, a board of trustees is authorized by Ohio Rev. Code § 505.24 to pay trustees' salaries from the general fund or other township funds "in such proportions as the board may specify by resolution." The board may therefore determine, as part of its budgeting process, to appropriate money in the EMS Fund for payment of trustees' salaries. In order to meet the provision in Ohio Rev. Code § 505.84, that the EMS Fund be used only for ambulance and emergency medical services, however, the board would be required to establish administrative procedures for assuring that the proportionate amount paid from the EMS Fund for trustees' salaries properly reflected the proportion of time each trustee spent on EMS matters relative to other township matters. This would necessitate trustees documenting all time spent on township business and the type of service performed, in a manner similar to trustees paid a per diem. To the extent that the board is able to determine the portion of time spent on EMS matters, relative to the total time spent on township business, it may pay the proportionate cost of the trustee's salary from the EMS Fund. If a trustee's time is not documented, however, then no part of his salary may be paid from the EMS Fund.

In other words, 2004 Op. Att'y. Gen. No. 2004-036 requires trustees compensated on a per diem basis to establish administrative procedures to document the proportionate amount chargeable to other township funds based on the kinds of services rendered. The "administrative procedures" can be timesheets or a similar method of record keeping, as long as the trustees document all time spent on

<sup>133</sup> The Ohio Rev. Code does not define a "day" for purposes of this requirement. Townships should consult with their legal counsel and adopt a policy in compliance with 2004 Op. Att'y. Gen. No. 2004-036. If a Township has a duly enacted policy defining what constitutes a "day" in compliance with 2004 Op. Att'y. Gen. No. 2004-036, we will audit in accordance with that policy. If the Township has not adopted a policy, we will audit based on our determination of a "day" as an 8 hour workday.

township business and the type of service performed. If per diem trustees do not document their time, then no part of salaries may be paid from the restricted funds.

The important factor is the portion of time spent on other township funds, relative to the total time spent on township business (as opposed to the total days in a given month). In other words, do not factor days in which no township work is done into the allocation.

Per the above, per-diem trustees must record the time spent on various tasks and the specific fund to which the township will charge their costs when paying any proportion of a trustee's salary from a restricted fund. Although the fire and rescue services, ambulance services, and emergency medical services fund under Ohio Rev. Code § 505.84 was the focus of 2004 Op. Att'y. Gen. No. 2004-036, the ruling also applies to funds for the motor vehicle license tax pursuant to Ohio Rev. Code §§ 4504.18 and 4504.19; motor vehicle tax pursuant to Ohio Rev. Code § 4503.02; gasoline tax pursuant to Ohio Rev. Code § 5735.27(A)(5)(d); the cemetery fund pursuant to Ohio Rev. Code § 517.03, and any other restricted fund. (The sole exception to this is for trustees charging all salaries to the general fund, as described above.) The township must maintain daily records of tasks performed for each individual trustee that, when reviewed cumulatively for the fiscal year, will provide reasonable justification for the apportionment of salary between funds as specified in the resolution. **Monthly summaries in lieu of daily records are not acceptable.**

- (2) **Trustees receiving compensation by annual salary (MUST USE CERTIFICATIONS IF PAID FROM FUNDS OTHER THAN THE GENERAL FUND):** To be paid on a salary basis in equal monthly installments, the board of trustees must *unanimously* pass a resolution to allow it. To be paid from any fund(s) other than the general fund, the resolution must also specify the proportions of the salary that are to be paid from each fund (Ohio Rev. Code § 505.24(C)). If trustees use the salary method and are compensated from funds other than the general fund, they must certify the percentage of the time spent working on matters that are to be paid from funds other than the general fund. Trustees must complete a certification prior to receiving his/her pay for that pay period. The certification must be done individually, but is not required to be notarized. The certification is not required to be a time log. Rather, all that is required is a statement detailing the percentage of time that the trustee/fiscal officer spent during that pay period providing services related to each fund to be charged. A sample certification can be found at: [Example Payroll Certification.pdf](#). If 100% of the compensation of the township trustee is to be paid to from the general fund, no certification is required.
- (3) **Fiscal officer compensation:** Fiscal officers compensated from funds other than the general fund must certify the percentage of the time spent working on matters that are to be paid from funds other than the general fund. They must complete a certification prior to receiving his/her pay for that pay period. The certification must be done individually, but is not required to be notarized. The certification is not required to be a time log. Rather, all that is required is a statement detailing the percentage of time that the trustee/fiscal officer spent during that pay period providing services related to each fund to be charged. A sample certification can be found at: [Example Payroll Certification.pdf](#). If 100% of the compensation of the township fiscal officer is to be paid from the general fund, no certification is required.

For salaried trustees only, AOS will forgo issuance of a finding for adjustment in any case where the Township has reasonable supporting documentation (such as detailed time and effort records, timesheets, etc.) in lieu of the certifications. Absent this documentation, auditors should issue a finding for adjustment. Also, auditors should still issue a noncompliance citation for not preparing the certifications as required by statute in all cases.

Undocumented per diem salaries for trustees, where the trustees officers have been paid from funds other than the General Fund, should result in findings for adjustment and the consideration of opinion qualifications including adverse opinions (if the auditee refuses to post the adjustment).

Townships allocating 100 percent of officials’ salaries to restricted funds will be subject to audit findings. Townships must properly allocate the officials’ salaries for the entire period. Failure to make necessary allocation revisions could result in findings for adjustment that may serve to disqualify the township from lower-cost agreed upon procedure audits, result in qualified opinions, or otherwise increase audit costs.

**Note:** If the township allocated salaries incorrectly, it is likely they allocated reimbursable health care benefits incorrectly. Improper allocations of health care benefit reimbursements should be included in the findings for adjustment (if the auditee refuses to post the adjustment).

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** In assessing the risk of noncompliance, auditors should consider recent changes to the statutory requirements described in this OCS step. This statute contains intricate requirements and interpretations.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Document how the township records the time spent on each township service.
2. Recompute selected allocations of trustee/fiscal officer salaries or per diem amounts to each fund.

For UAN entities: Use the wage base earning report – detail and summary.

3. For fiscal officers or trustees paid by annual salary with allocations to funds other than the general fund, trace selected allocations to certifications.
4. For trustees paid per diem, with allocations to funds other than the general fund, trace time or services performed to time or activity sheet.
5. Agree selected postings of the salaries from step 2 to the township's check register.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**SOLID WASTE MANAGEMENT**

**1-30 Compliance Requirements:** Ohio Rev. Code §§ 343.01, 3734.52, 3734.55, 3734.56, 3734.57(B), 3734.573, 3734.57(G), and 3734.577 – Expenditures by solid waste management districts.

**Summary of Requirement:** Ohio Rev. Code §§ 343.01 and 3734.52 require all counties in Ohio to be a part of a solid waste management district, either individually or jointly as part of a multi-county (joint) solid waste management district. Ohio Rev. Code §§ 3734.55 and 3734.56 require all solid waste management districts to develop and submit solid waste management plans to Ohio EPA for approval. These plans address a variety of issues associated with solid waste management within the jurisdiction, including demonstrating that adequate landfill capacity exists for waste generated within the district and establishment of recycling goals. Once approved by the Ohio EPA, solid waste management districts are required to implement their plans.

Solid waste management districts are authorized to levy certain fees to fund the programs specified in their plans. Ohio Rev. Code § 3734.57(B) specifies that solid waste management districts can levy fees on the disposal of solid waste in landfills within their boundaries, and Ohio Rev. Code § 3734.573 specifies that solid waste management districts can levy fees on waste that is generated within their boundaries regardless of where the waste is disposed.<sup>134</sup> Both of these sections require the fee revenue shall be “kept in a separate and distinct fund to the credit of the district.” Ohio Rev. Code § 3734.57(G) specifies that “moneys . . . arising from the [disposal of generation fees] shall be expended by the board of county commissioners or directors of the district in accordance with the district’s solid waste management plan or amended plan . . . exclusively for the following purposes: . . .” Ohio Rev. Code § 3734.57(G) then provides ten “allowable uses” for the fee revenue.<sup>135</sup>

<b>In determining how the government ensures compliance, consider the following:</b>	<b>What control procedures address the compliance requirement?</b>	<b>W/P Ref.</b>
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals,</li> <li>• Knowledge and Training of personnel</li> <li>• Time summaries / timecards</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

<sup>134</sup> If a district charges a fee to private sector commercially- licensed haulers, the district cannot waive this fee for public sector commercially- licensed haulers. [Ohio Rev. Code § 3734.577]

<sup>135</sup> 2008 Op. Att’y. Gen. No. 2008-021 clarifies that the fee can be “used by the district for the purposes set forth in Ohio Rev. Code § 3734.57(G)(1)-(10)] or to provide other remuneration or services to or on behalf of the district or its residents.” Since the fee can be used to subsidize the normal operations of the district, AOS believes districts should account for this fee within a separate sub-fund or account of the district’s general fund.

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Test that disbursements were:
  - Allowable under one of the ten “allowable use” criteria for the fee revenue listed in Ohio Rev. Code § 3734.57(G); and
  - Allowable in accordance with the policies and procedures.
2. If significant unusual items are noted, auditors should make a referral to Ohio EPA, Division of Solid and Infectious Waste Management by sending an email to [Referrals@ohioauditor.gov](mailto:Referrals@ohioauditor.gov).
3. If the solid waste management district administers a fee under Ohio Rev. Code § 3734.573, is this maintained in a separate fund.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## Appendix A: Agricultural Society Compliance Supplement

You should use this appendix for all audits of Agricultural Societies in addition to the general laws and regulations noted as applicable to Agricultural Societies in the Legal Matrix within Implementation Guide Exhibit 5.

Agricultural societies incorporate as either county (per Ohio Rev. Code § 1711.01) or independent (per Ohio Rev. Code § 1711.02). Certain laws herein apply to one or both types. Each step describes to which type of society it applies.

For additional information see:

- Department of Agriculture's Redbook: [Fairs\\_RedBook.pdf](#)
- Uniform System of Accounting for Agricultural Societies: [https://ohioauditor.gov/publications/uniform system of accounting for agricultural societies 2020 revision.pdf](https://ohioauditor.gov/publications/uniform%20system%20of%20accounting%20for%20agricultural%20societies%202020%20revision.pdf)

### *Agricultural Society Compliance Supplement*

#### **Applicability: County and independent societies**

#### **OCS Chapter 1 Section A**

**Budgetary Compliance Requirement:** An Agricultural Society is not required to follow the budgetary statutes within Ohio Rev. Code Chapter 5705. However, the *Uniform System of Accounting for Agricultural Societies* states:

- Each agricultural society shall prepare an annual budget of its revenues and expenses. The budget shall cover the period December 1st through November 30th.
- The budget shall be considered and approved by the board of directors prior to the first day of the ensuing fiscal year. The budget shall be prepared at the level of the accounts from the chart of accounts which are used by the society.
- Budgeted revenues and expenses should be distributed to the month they are likely to be received and expended. The distributed monthly budget should be integrated into the society's accounting system.
- Actual revenues and expenses shall be compared to budgeted amounts each month, and reported to and reviewed by the board of directors. The board of directors shall determine the reasons why actual expenses exceed or are less than budgeted expenditures by making inquiries to fair management about the reasons.

We believe Agricultural Society Boards should not present budgetary statements as part of their basic statements, because they lack the legal authority to adopt "legally binding" budget as described in GASB Cod. 2400.102. Therefore, if a Society adopts a budget and wishes to present it, the statements should present it as supplemental information (not RSI). However, while not legally binding under the GASB criteria, over expending the budget could be noncompliance with a Society's budget resolution. Determining whether noncompliance exists requires judgment based on whether the Society intends its budget to limit expenditures vs. being only a planning tool, etc.

*[Insert applicable budgetary requirements.]*

Note: An appropriation is authorization to expend money.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Periodic Reviews/Comparisons of Budgeted and Actual Amounts</li> <li>• Presence of Effective Accounting System</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Read resolutions and determine whether the society enacted a budget. (If no budget was adopted include a management letter comment that one be adopted per the *Uniform System of Accounting for Agricultural Societies*).
2. Inquire (or determine from reading the minutes) if amended or supplemental measures have been passed.
3. Inspect the society’s records throughout the period to determine if updates and adjustments were properly and timely posted.
4. Determine if the accounting system “integrates” budgetary data. This means the accounting system should report appropriations, encumbrances, unencumbered cash balances, and estimated receipts, and should compare budgetary data to actual results. If the client uses a manual system (i.e. spreadsheets) determine if the manual system used by the client adequately tracks and compares budgetary data.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Applicability: County societies****OCS Chapter 1 Section C**

**3a. Debt Compliance Requirement:** Ohio Rev. Code § 1711.18 – Issuance of county bonds to pay debts of county society; § 1711.19 – Bonds; § 1711.20 – Levy for payment of bonds; and § 1711.21 – Use of money raised by county taxation.

**Summary of Requirement:** In a county in which there is a county agricultural society indebted fifteen thousand dollars or more and such society has purchased a fairground or title, the board of county commissioners, upon the presentation of a petition signed by not less than five hundred resident electors of the county, shall submit to the electors of the county whether or not county bonds shall be issued and sold to liquidate such indebtedness with a copy of such resolution to be certified to the county board of elections and such board of elections, within ten days after such certification. If a majority of the voters vote in favor thereof, the board of county commissioners shall issue and sell bonds of the county in the amount necessary. Such bonds shall bear interest at not more than the rate Ohio Rev. Code § 9.95 provides,<sup>136</sup> payable semiannually, and shall be issued for a period of not less than ten nor more than twenty years.

From the proceeds arising from the sale of such bonds, the board shall pay off the indebtedness for which such bonds were sold. The board of county commissioners shall levy a tax upon all the taxable property on the tax duplicate of the county for the purpose of paying such bonds as they mature and the interest thereon.

When money has been raised by taxation by a county for the purpose of leasing lands for county fairs, erecting buildings for county fair purposes, or making improvements on a county fairground, or for any purpose connected with the use of a county fairground or with the management thereof by a county agricultural society, such money shall be used for such purpose only.

**Note:** Bonds a county issues under this section are **county** liabilities, though the society may agree to repay the county for debt service due on the bonds. (If the society contractually agrees to pay the county for the debt service, the society's notes should disclose a debt obligation to the county. However, do **not** characterize the obligation as *bonds payable*.)

---

<sup>136</sup> Ohio Rev. Code § 9.95 states, "Interest shall not exceed the maximum or maximum average annual interest rate per annum determined in or pursuant to the proceedings for the securities by the county commissioners."

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Inspect cash receipt records and minutes and determine if indebtedness exists.
2. For bonds a county issues during the audit period, compare disbursements of the proceeds to the bond documents to determine if the proceeds were spent for purposes for which the bonds were issued.
3. For bonds issued during the audit period, read bond contracts and summarize provisions applicable to the Society, and save in the permanent file. The summary should describe:
  - Purposes for which the debt was issued.
  - Collateral
  - An amortization schedule for any debt service the society owes to the county.
4. For years in which the society owes debt service to the county, agree payments to the amortization schedule.
5. Determine if a debt footnote describes the purpose, original issue amount, collateral, and an amortization schedule for this debt.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Applicability: County society**

**OCS Chapter 1 Section C**

**3b. Debt Compliance Requirement:** Ohio Rev. Code §§ 1711.25 to 1711.30 – Sale, lease, purchase, and exchange of sites by county society; payment for new site by county funds or bonds; tax levy; and approval by electors.

**Summary of Requirement:** A county agricultural society may secure a different site for its annual fair. If this occurs, auditors should review the Ohio Revised Code sections listed above and develop appropriate audit procedures.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. By reading the minutes, determine if the Society procured a different site for its fair, or acquired or disposed of land where the annual fair is held. If so, review the code sections above for specific requirements.
2. In the year these transactions occur, read contracts and summarize requirements imposing debt or lease payments, collateral, insurance or other obligations on the society. Save the summary in the permanent file.
3. Determine if the footnotes adequately describe any leases or other society obligations, amortization schedules, etc.
4. For subsequent years, agree any debt or lease payments owed to the contract summary in the permanent file.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies /material weaknesses, and management letter comments):**

**Applicability: County societies**

**OCS Chapter 1 Section C**

**3c. Debt Compliance Requirement:** Ohio Rev. Code § 1711.13 – County agricultural society may obtain mortgage debt or may enter into written agreements to obtain loans and credit for expenses.

**Summary of Requirement:** County agricultural societies may do either or both of the following:

(A) Mortgage their grounds for the purpose of renewing or extending pre-existing debts, and for the purpose of furnishing money to purchase additional land, but if the board of county commissioners has caused money to be paid out of the county treasury to aid in the purchase of the grounds, no mortgage shall be given without the consent of the board. Deeds, conveyances, and agreements in writing, made to and by such societies, for the purchase of real estate as sites for their fairs, shall vest a title in fee simple to the real estate described in those documents, without words of inheritance. This means the Agricultural Society owns the land outright without any third party claims.

(B) Enter into agreements to obtain loans and credit for expenses related to the purposes of the county agricultural society, provided that the agreements are in writing and are first approved by the board of directors of the society. The total net indebtedness incurred by a county agricultural society pursuant to this division (B) shall not exceed an amount equal to twenty-five percent of its annual revenues.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Bond Counsel/Lender Involvement</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. By reading the permanent file, minutes, cash receipt records, other documents, and by inquiry, determine if any such indebtedness exists.
2. If there is mortgage debt, use the sources described in **a.** above to determine if the board of county commissioners paid county funds to aid in purchasing the grounds. Read a copy of the county commissioners’ resolution to determine if they gave the proper consent for this mortgage debt. Retain a copy of the resolution in the permanent file.

3. Loans and Credit<sup>137</sup>
  - a. If the Society has procured loans and credit for expenses related to the purposes of the county agricultural society, verify these agreements are in writing and were first approved by the board of directors of the society.
  - b. Examine the society's computation supporting that the total net indebtedness from loans and credit does not exceed twenty-five percent of its annual revenues.
4. For debt issued during the audit period, compare disbursements of the proceeds to the bond documents to determine if the proceeds were spent for purposes for which the bonds were issued.
5. For debt issued during the audit period, read related contracts and summarize provisions applicable to the society, and save in the permanent file. The summary should describe:
  - Purposes for which the debt was issued.
  - Collateral / mortgage
  - An amortization schedule for any debt service the society owes to the county.
6. For years in which the society owes debt service, agree payments to the amortization schedule.
7. Determine if a debt footnote describes the purpose, original issue amount, collateral, and an amortization schedule for this debt.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies /material weaknesses, and management letter comments):**

---

<sup>137</sup> The law authorizing this type of debt did not exist prior to the addition of (B) to Ohio Rev. Code § 1711.13, effective September 26, 2003. Therefore, if any of this type of debt was acquired prior to September 26, 2003, the Agricultural Society shall discharge such debt.

**Applicability: County and independent societies**

**OCS Chapter 1 Section D**

**Accounting Compliance Requirement:** Ohio Admin. Code 117-10-01 – Financial reporting and accounting for county agricultural societies and independent agricultural societies.

**Summary of Requirement:** Ohio Admin. Code 117-10-01 – Each county agricultural society and independent agricultural society shall, for financial reporting and accounting purposes, record and report all financial transactions on a fiscal year basis beginning on December 1 and ending November 30. Societies shall record and report all financial transactions in accordance with Appendix A of the *Uniform System of Accounting for Agricultural Societies*<sup>138</sup>. **Note:** You can view the latest version of this at [www.ohioauditor.gov](http://www.ohioauditor.gov), under *Resources/Publications & Manuals*.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>➤ Policies and Procedures Manuals</li> <li>➤ Knowledge and Training of personnel</li> <li>➤ Presence of Effective Accounting System</li> <li>➤ Legislative and Management Monitoring</li> <li>➤ Management’s identification of changes in laws and regulations</li> <li>➤ Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Compare the *Uniform System of Accounting for Agricultural Societies* requirements with the systems and records the society is using.
2. Determine if:
  - The required chart of accounts is used.
  - A cash journal, a receipts ledger, an expense ledger, and an investment ledger are used.
  - The prescribed formats for accounting and reporting information are used (including receipts, purchase orders, vouchers, checks, and bank reconciliations).

<sup>138</sup> The Auditor of State also requires by rules, that certain public offices follow a prescribed uniform chart of accounts and/or establish a fund accounting system to demonstrate legal compliance, financial accountability and to provide management with information for decision making. These rules are in Chapter 117-2 of the Ohio Admin. Code. As a matter of accountability and internal control, each public office should account for financial activities using an accounting system which demonstrates legal compliance; follows a documented chart of accounts appropriate for its particular activities; and is supported by appropriate subsidiary ledgers/journals. When a public office fails to maintain such an accounting system, auditors should consider whether the failure constitutes a reportable internal control deficiency or weakness.

Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies /material weaknesses, and management letter comments):

**Note:** Auditors should also test OCS requirements for:

- Deposits and investments [Chapter 2 Section E],
- Health care self-insurance and liability insurance [Chapter 1 Section F]

Refer to OCS Implementation Guide Exhibit 5 for guidance on specific applicability.

**Applicability: County and independent societies**

**OCS Chapter 1 Section D**

**Compliance Requirement:** Ohio Rev. Code §§ 117.38, 901.06, and 1711.05 – Filing financial reports and Publication of treasurer’s account.

**Summary of Requirement:** Prior to the first day of December of each year, the director of agriculture shall set a date in January of the following year, on which the director shall meet with the presidents or other authorized delegates of agricultural societies which conduct fairs in compliance with sections 1711.01 to 1711.35, inclusive, of the Revised Code, and regulations of the department of agriculture. Each society shall deliver its annual report to the director at or before the January meeting. [Ohio Rev. Code § 901.06]

Every county agricultural society annually shall publish an abstract of its treasurer’s account in a newspaper of general circulation in the county and make the report of its proceedings during the year. In addition, a synopsis of its awards for improvement in agriculture and in household manufactures shall be forwarded to the Director of Agriculture on or before the annual meeting of directors of the society. [Ohio Rev. Code § 1711.05]

Cash-basis entities must file annual reports with the Auditor of State. The Auditor of State has prescribed a form for the report here - <http://www.ohioauditor.gov/references/shells/regulatory.html>. Any public office which does not file the report by the required date shall pay a penalty of twenty-five dollars for each day the report remains unfilled, not to exceed seven hundred fifty dollars. [Ohio Rev. Code § 117.38] See section 1-17 for detail on filing requirements with the Auditor of State.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Periodic Reviews/Comparisons of Budgeted and Actual Amounts</li> <li>• Presence of Effective Accounting System</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Trace selected totals from the annual report to the underlying accounting system. If we use the annual report as a trial balance, we will satisfy this requirement by completing the mandatory Trial Balance steps from the financial audit program. If the report is significantly deficient, we should cite Ohio Rev. Code § 117.38 for filing an incomplete or misleading report.
2. Search The Hinkle System, the Annual Financial Data Reporting System, to determine whether the government filed an annual report with our office.
3. Inquire to determine the date the annual report was filed with the Director of Agriculture.
4. Review documentation to determine the following reports were completed and distributed appropriately:
  - a. an abstract of the treasurer’s account was published in a newspaper of general circulation in the county.
  - b. a synopsis of its awards for improvement in agriculture and in household manufactures shall be forwarded to the Director of Agriculture and that it was sent before the annual meeting of directors of the society.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies /material weaknesses, and management letter comments):**

**Applicability: County and independent societies****OCS Chapter 1 Section F**

**Other Potentially Direct and Material Laws and Regulations:** Ohio Rev. Code § 3769.082 – Ohio Fairs Fund; distribution.

**Summary of Requirement:** Ohio Fairs Fund moneys shall be distributed by the director of agriculture annually, on or before the first day of March, as follows:

- To each county agricultural society and to each independent agricultural society conducting an annual fair, twelve percent of Ohio Fairs Fund money, to be allocated for general operations.
- To each county agricultural society and each independent agricultural society conducting horse races (harness races or running races) during their annual fair, the sum of four thousand dollars, to be used as purse money for horse races in accordance with this section, and the additional sum of one thousand dollars to each such county agricultural society and independent agricultural society to be used for race track maintenance and other expenses necessary for the conduct of such horse races or colt stakes.
- A grant of four thousand dollars shall be available to each county or independent agricultural society for the conduct of four stake races for two-year-old and three-year-old colts and for four stake races for two-year-old and three-year-old fillies at each gait of trotting and pacing, provided, that at least five hundred dollars shall be added to each race. Exclusive of entrance fees and the excess moneys provided below, the grant of four thousand dollars for purse money provided, a sum not to exceed three thousand dollars may be used by a society to reach the required purse for each of the eight stake races. Such stake races shall be distributed as evenly as possible throughout the racing season.
- In the event that the moneys available on the first day of March of any year are less than that required above, the amount distributed from the Ohio Fairs Fund may be different than the amounts reflected above.
- County agricultural societies and independent agricultural societies conducting stake races shall, on or before the first day of November in the year immediately preceding the year in which the moneys are to be distributed, make application for participation in such to the director of agriculture on forms provided by the director.
- Distribution of moneys for stake races shall not be paid to county agricultural societies and independent agricultural societies that conduct on their race courses automobile or motorcycle races during any year for which such distribution is requested, unless such automobile or motorcycle races are not conducted during the days and nights that horse racing is being conducted at such fair.
- Any county agricultural society or independent agricultural society which uses the moneys distributed under this section for any purse other than that provided in this section is not eligible to receive distribution from the Ohio Fairs Fund for a period of two years after such misuse of such moneys occurs.

In determining how the government ensures compliance, consider the following:	What control procedures address the compliance requirement?	W/P Ref.
<ul style="list-style-type: none"> <li>• Policies and Procedures Manuals</li> <li>• Knowledge and Training of personnel</li> <li>• Periodic Reviews/Comparisons of Budgeted and Actual Amounts</li> <li>• Presence of Effective Accounting System</li> <li>• Legislative and Management Monitoring</li> <li>• Management’s identification of changes in laws and regulations</li> <li>• Management’s communication of changes in laws and regulations to employees</li> </ul>		

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Determine whether the society received Ohio Fairs Fund in the State and Local Fund, and how much was restricted for racing purses and track maintenance according to the above sections.
2. Compare amounts distributed for race purses and track maintenance to the amounts restricted to these purposes, and compute whether the amounts disbursed at least equaled the restricted amounts.

**Audit implications (adequacy of the system and controls, and the direct and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies /material weaknesses, and management letter comments):**

**Note: Auditors should also test OCS requirements for:**

- Income tax [Chapter 1 Section F],
- Public Deposits [Chapter 2 Section E],
- Sunshine Laws [Chapter 2, Section F],

**Refer to OCS Implementation Guide Exhibit 5 for guidance on specific applicability.**

## CHAPTER 2 INDIRECT LAWS & STATUTORILY MANDATED TESTS

**AU-C 250.A13** Many laws and regulations relating principally to the operating aspects of the entity do not directly affect the financial statements (their financial statement effect is indirect) and are not captured by the entity's information systems relevant to financial reporting. Their indirect effect may result from the need to disclose a contingent liability because of the allegation or determination of identified or suspected noncompliance.

**AU-C 250.06 b** also requires testing other laws that do not have a direct effect. These other “indirect” laws are defined as laws which may be:

- i. fundamental to the operating aspects of the business,
- ii. fundamental to an entity's ability to continue its business, or
- iii. necessary for the entity to avoid material penalties

Chapter 2 includes “indirect” laws. Chapter 2 also includes laws that statutes mandate auditors to test during an audit.

**NOTE: Red text throughout this 2021 Ohio Compliance Supplement is a change related to COVID-19**

**INDIRECT LAWS**  
**SECTION A: BUDGETARY REQUIREMENTS**

**GENERAL BUDGETARY REQUIREMENTS****Revised: HB 481, 133 GA****Effective: June 19, 2020****Revised: HB 614, 133 GA****Effective: October 1, 2020**

**2-1 Compliance Requirement:** Ohio Rev. Code §§ 5705.28, 5705.39 and 5705.40 - Appropriations limited by estimated revenue.

**Note:** Auditors should not cite entities in Fiscal Emergency for violating Ohio Rev. Code §§ 5705.10, 5705.36, 5705.39 or 5705.41(A), (B) or (C) for funds that were already in a deficit at the time a Fiscal Emergency was declared.

Auditors should continue to cite entities for healthy funds (those with positive cash balances at the time of declaration) that experience a deficit after declaration<sup>1</sup>. Therefore, auditors should compare fund deficits during the audit period to the funds that were in deficit at the point when the Fiscal Emergency was originally declared to determine whether any new funds have incurred a deficit balance.

**IMPORTANT: In order to determine which funds were in a deficit at the time of the declaration auditors should review the declaration of Fiscal Emergency available on the Auditor of State website audit search. The Financial Supervisor (LGS) can assist auditors in determining which funds were originally part of the Fiscal Emergency deficit declaration, if needed.**

**Summary of Requirements:** Ohio Rev. Code § 5705.39 provides in part that total appropriations from each fund shall not exceed the total estimated resources. No appropriation measure is effective until the county auditor files a certificate that the total appropriations from each fund do not exceed the total official estimate or amended official estimate.

**NOTE: There are no budgetary exemptions for CRF funding, therefore the government would need to follow the same procedures for expenditures, including any required modifications and certificate requests to the County.**

**See AOS COVID-19 FAQ's**

**Note:** If a government fails to receive the county auditor's certifications that appropriations do not exceed estimated resources, governments may present the appropriations passed by the legislative authority on the financial statements. No citation should be made if the government requested the county auditor's certificate and the county auditor failed to respond. However, a noncompliance citation is still appropriate if appropriations exceed estimated resources by a material amount.

If a local government is participating in a grant or loan program whereby proceeds will be received after the expenditures are incurred, it is possible that if properly budgeted, appropriations for one fiscal year will exceed the available amount on the Certificate of Estimated Resources. Ohio Rev. Code § 5705.42 makes formal legislative appropriation for certain grants and loans unnecessary. As such, we believe it is equally unnecessary to require a subdivision to seek certification of the amended appropriation measure for

<sup>1</sup> In rare instances, complying with the recovery plan can cause violations of Chapter 5705. In these instances, auditors should not cite violations of 5705 if they were necessary in order to comply with the recovery plan.

purposes of Ohio Rev. Code § 5705.39. However, the fiscal officer should record the appropriation amount in the accounting system and include the appropriated amounts on the (amended) certificate to properly monitor budget versus actual activity. An advance should be used to prevent a negative fund balance. *(School districts are permitted to incur deficit fund balances in their special funds under certain circumstances. Refer to OCS Chapter 1 section 1-5 for additional guidance.)*

### **Project-Length Budgeting**

Once a grant is awarded or a loan is approved by the Federal or State government, the fiscal officer must obtain an Official Certificate of Estimated Resources or an Amended Certificate of Estimated Resources for all or part of the grant or loan, based on what is to be received in the fiscal year. Any money expected to be received in the next year should be reflected on the next year's certificate. However, if the local government, with the exception of a school district, has budgeted on a project-length basis pursuant to Ohio Rev. Code § 9.34(B), the fiscal officer must obtain an Official Certificate of Estimated Resources for the entire project-length fiscal period.

The fiscal officer shall record the appropriations in accordance with the terms and conditions of the grant or loan agreement. In addition, prior to recording the appropriations, the legislative authority must pass a resolution amending its appropriation measure (Ohio Rev. Code § 5705.40). If the grant or loan will be expended over a period longer than the current fiscal year, only the amount estimated to be obligated during the current fiscal year should be recorded as appropriated. The remainder of the project should be appropriated in the subsequent year(s).

In situations where the grant or loan proceeds will be received after the expenditures are incurred (i.e., on a reimbursement basis), it is possible that the local government will have appropriated an amount for one fiscal year that is in excess of the amount reflected as available on the Amended Certificate of Estimated Resources. This situation will NOT constitute a noncompliance citation during an audit.

### **§ 5705.28(B)(2) Requirements for entities that do not levy taxes (See the Legal Matrices in Exhibit 5 of the OCS Implementation Guide for applicable entities)**

If an entity levies taxes, the sections above apply. However, some entities with taxing authority do not levy taxes. When they do not levy taxes, Ohio Rev. Code § 5705.28 (B)(2) permits a comparable, but somewhat streamlined budget process. Ohio Rev. Code § 5705.28(B)(2) requires entities to follow § 5705.36. While Ohio Rev. Code § 5705.39 does not apply, § 5705.28(B)(2)(c) prohibits appropriations from exceeding estimated revenue (i.e. receipts + beginning unencumbered cash).

### **Suggested Audit Procedures:**

1. Compare the final year end (current year only – do not include any carryover encumbrances appropriated) appropriation measures for selected funds (normally the general fund and major funds are sufficient) and determine that the appropriations do not exceed the official or amended estimate of resources (estimated revenues plus unencumbered fund balances) as of the fiscal year end. (It should not be necessary to schedule out all of the appropriation amendments throughout the year.)  
*Except:* if the government is in fiscal emergency, and you are testing a fund with a beginning unencumbered deficit, compare appropriations to estimated receipts instead of to estimated resources.
2. For grants or loans awarded by the Federal or State government, determine whether the entity implemented project-length budgeting pursuant to Ohio Rev. Code § 9.34(B). If so, determine whether the fiscal officer obtained an Official Certificate of Estimated Resources for the entire project-length fiscal period and that only the amount estimated to be obligated during the current fiscal year was recorded as appropriated for advance-funded grants and loans. If the local government appropriated

amounts beyond fiscal year end, determine whether the exception above was met (i.e. reimbursable grants or loans).

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**Revised: HB 481, 133 GA**

**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**

**Effective: October 1, 2020**

**2-2 Compliance Requirement:** Ohio Rev. Code §§ 5705.41(A) and (B); and 5705.42 - Restrictions on appropriating and expending money.

**Note:** Auditors should not cite entities in Fiscal Emergency for violating Ohio Rev. Code §§ 5705.10, 5705.36, 5705.39 or 5705.41 (A), (B) or (C) for funds that were already in a deficit at the time a Fiscal Emergency was declared.

Auditors should continue to cite entities for healthy funds (those with positive cash balances at the time of declaration) that experience a deficit after declaration<sup>2</sup>. Therefore, auditors should compare fund deficits during the audit period to the funds that were in deficit at the point when the Fiscal Emergency was originally declared to determine whether any new funds have incurred a deficit balance.

**IMPORTANT:** In order to determine which funds were in a deficit at the time of the declaration auditors should review the declaration of Fiscal Emergency available on the Auditor of State website audit search. The Financial Supervisor (LGS) can assist auditors in determining which funds were originally part of the Fiscal Emergency deficit declaration, if needed.

**NOTE: An appropriation for the newly created special revenue fund (for the federal CARES Act moneys) is effectively created by operation of Ohio Rev. Code § 5705.42. Ohio Rev. Code § 5705.42 indicates Federal and State grants or loans are “deemed appropriated” for such purpose by the taxing authority as provided by law. In addition, those moneys are also treated as if they are in the process of collection by the fiscal officer of the subdivision. This means that under Ohio Rev. Code § 5705.42, the moneys are treated by the fiscal officer as if they have been appropriated for a specific purpose, without requiring the taxing authority to adopt an amended appropriation measure. However, the fiscal officer should include the appropriated amounts on the (amended) certificate. The fiscal officer should also record the appropriation in the accounting system. See AOS COVID-19 FAQ’s**

### Summary of Requirements:

The authorization of a bond issue is *deemed an appropriation* of the proceeds of the bond issue for the purpose for which such bonds were issued. No expenditure shall be made from any bond fund until first authorized by the taxing authority. [Ohio Rev. Code § 5705.41(A)]

<sup>2</sup> In rare instances, complying with the recovery plan can cause violations of Chapter 5705. In these instances, auditors should not cite violations of 5705 if they were necessary in order to comply with the recovery plan.

Similarly, Federal and State grants or loans are “*deemed appropriated*”<sup>3</sup> for such purpose by the taxing authority” as provided by law and shall be recorded as such by the fiscal officer of the subdivision, and is deemed in process of collection [Ohio Rev. Code § 5705.42].

No subdivision or taxing unit is to expend money unless it has been appropriated. [Ohio Rev. Code § 5705.41(B)]

**§ 5705.28(B)(2) Requirements for entities that do not levy taxes (See the Legal Matrices in Exhibit 5 of the OCS Implementation Guide for applicable entities)**

If an entity levies taxes, the sections above apply. However, some entities with taxing authority do not levy taxes. When they do not levy taxes, Ohio Rev. Code § 5705.28(B)(2) permits a comparable, but somewhat streamlined budget process. Ohio Rev. Code § 5705.28(B)(2) requires these entities to follow § 5705.41(B) and so they cannot disburse more than appropriated.

**Suggested Audit Procedures:**

For selected funds (normally the general fund and major funds are sufficient) compare total expenditures plus contract commitments (including outstanding encumbrances) from each fund versus appropriations and determine if the expenditures and commitments are within the appropriations for the tested funds at year end (current year).

**NOTE: see OCS Implementation Guide Appendix A-2 for additional H.B. 481/614 encumbrance OBM guidance.**

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

<sup>3</sup> “Deemed an appropriation” under this section means the Federal or State government has already appropriated and established the purpose(s) for which a government can spend monies received from Federal or State grants and loans. The taxing authority cannot deviate from this purpose; the taxing authority can only resolve to spend the money for a purpose already prescribed in a contract, grant agreement, loan agreement, etc. Therefore, Federal and State grants and loans received under Ohio Rev. Code § 5705.42 *do not* require formal appropriation by the legislative body. In other words, Ohio Rev. Code § 5705.42 effectively eliminates an unnecessary appropriation action by the taxing authority. However, Ohio Rev. Code § 5705.42 directs the fiscal officer to *record* the appropriation amount “as such” which AOS interprets to be the accounting system\* and/or the budgetary statements or footnotes as applicable for their financial reporting framework. The fiscal officer should also include the appropriated amounts on the (amended) certificate to properly monitor budget versus actual activity. *Note:* Amounts “deemed appropriated” are subject to inclusion in GAAP budgetary presentations (GASB Cod. 2400.102). The government has no legal authority to spend these resources unless they were either appropriated by the legislative authority or deemed appropriated by the Federal or State government. (GASB Cod. 2400.702-14)

\**Note:* If the auditee does not record the appropriation amount in the accounting system, but does report in the financial statements and/or footnotes, auditors should consider issuing a management letter comment for the auditee to record in their accounting system.

**SECTION B: CONTRACTS AND EXPENDITURES****COMMUNITY SCHOOLS**

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**2-3 Compliance Requirement:** Ohio Rev. Code § 3314.24(A) - Internet- or computer-based community school cannot contract with a nonpublic school for instructional facility space.

**Notes:**

(1) Violations require ODE to withhold foundation payments for any students using nonpublic school facilities.

(2) Ohio Rev. Code § 3314.02(A)(7) defines Internet- or computer-based community schools as those in which the enrolled students work primarily from their residences on assignments in nonclassroom-based learning opportunities provided via an internet- or other computer-based instructional method that does not rely on regular classroom instruction or via comprehensive instructional methods including internet-based, other computer-based, and noncomputer-based learning opportunities. **Note:** If a community school operates mainly as an internet- or computer-based community school and provides career technical education under Ohio Rev. Code § 3314.086, the school shall be considered an internet- or computer-based school, even if it provides some classroom based instruction.

**(3) This section only applies to community schools which are classified as internet/e-schools. It does not apply to a brick & mortar or blended community school, which implemented a temporary remote learning plan for Fy 2021 due to COVID-19, as permitted under 133 GA H.B. 164, Section 16(B).**

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

Read internet schools' sponsor agreement for provisions regarding instructional space, and follow up with inquiry regarding if such space / contracts exists. If contracts for instructional space exist, determine if they were with nonpublic schools.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**SECTION C: DEBT**

**None.**

**SECTION D: ACCOUNTING AND REPORTING****2-4 Compliance Requirement:** Ohio Admin. Code 117-2-02(D) and (E) - Required accounting records**Summary of Requirement:**

All local public offices may maintain accounting records in a manual or computerized format. The records used should be based on the nature of operations and services the public office provides, and should consider the degree of automation and other factors. Such records **should** include the following:

- (1) Cash journal, which typically contains the following information: the amount, date, receipt number, check number, account code, purchase order number, and any other information necessary to properly classify the transaction.
- (2) Receipts ledger, which typically assembles and classifies receipts into separate accounts for each type of receipt of each fund the public office uses. The amount, date, name of the payor, purpose, receipt number, and other information required for the transactions can be recorded on this ledger.
- (3) Appropriation ledger, which may assemble and classify disbursements or expenditure/expenses into separate accounts for, at a minimum, each account listed in the appropriation resolution. The amount, fund, date, check number, purchase order number, encumbrance amount, unencumbered balance, amount of disbursement, and any other information required may be entered in the appropriate columns.
- (4) In addition, all local public offices should maintain or provide a report similar to the following accounting records:
  - a. Payroll records including:
    - i. W-2's, W-4's and other withholding records and authorizations;
    - ii. Payroll journal that records, assembles and classifies by pay period the name of employee, social security number, hours worked, wage rates, pay date, withholdings by type, net pay and other compensation paid to an employee (such as a termination payment), and the fund and account charged for the payments;
    - iii. Check register that includes, in numerical sequence, the check number, payee, net amount, and the date;
    - iv. Information regarding nonmonetary benefits such as car usage and life insurance; and
    - v. Information, by employee, regarding leave balances and usage;
  - b. Utilities billing records including:
    - i. Master file of service address, account numbers, billing address, type of services provided, and billing rates;
    - ii. Accounts receivable ledger for each service type, including for each customer account, the outstanding balance due as of the end of each billing period (with an aging schedule for past due amounts), current usage and billing amount, delinquent or late fees due, payments received and noncash adjustments, each maintained by date and amount;

- iii. Cash receipts records, recording cash received and date received on each account. This information should be used to post payments to individual accounts in the accounts receivable ledger described above.
- c. Capital asset records\* including such information as the original cost, acquisition date, voucher number, the asset type (land, building, vehicle, etc.), asset description, location, and tag number. Local governments preparing financial statements using generally accepted accounting principles will want to maintain additional data. Capital assets are tangible assets that normally do not change form with use and should be distinguished from repair parts and supply items.

Ohio Admin. Code 117-2-02(E) states that each local public office should establish a capitalization threshold so that, at a minimum, eighty per cent of the local public office's non-infrastructure assets are identified, classified, and recorded on the local public office's financial records.\*

\* These capital asset record requirements apply to GAAP *and non-GAAP* mandated public offices. All public offices should have records of significant capital assets.

#### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

Ohio Admin. Code 117-2-01 and 117-2-02 require governments to establish internal controls and report financial information properly. Auditors may include this citation in a finding to emphasize its importance (which results in classifying the finding as noncompliance as well as a control deficiency). However, we would not automatically deem one misclassification as reportable noncompliance under this Ohio Admin. Code rule.

Based on our systems documentation, results of inquiries, and other audit procedures, assess whether the accounting system generally complies with the aforementioned requirements.<sup>4</sup>

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

<sup>4</sup> **Note:** Per AU-C 265, “A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.”

Noncompliance with these Ohio Administrative Code requirements normally also suggest control deficiencies. We would not automatically deem minor misclassifications or other lesser-significant errors as reportable noncompliance under this Ohio Admin. Code rule. While a significant deficiency may exist, it is possible that the deficiency may not necessarily rise to the level of material noncompliance. This is a matter of professional auditor’s judgment. We should consider the pervasiveness of the noncompliance matter in relation to the compliance requirement and the financial statements as a whole. Conversely, a failure to maintain any utility billing records (for example) would not only be a material weakness, but would be reportable noncompliance with Ohio Admin. Code 117-2-02(D).

## COMMUNITY SCHOOLS

<p><b><u>Revised: 2 C.F.R 200</u></b>  <b><u>Effective: 11/12/2020</u></b></p>
--

**2-5 Compliance Requirement:** Ohio Rev. Code §§ 3314.024 and 3314.02(A)(8) – Accounting for management company expenses.

**Summary of Requirement:**

<p><u>Ohio Rev. Code § 3314.024(A) requires a management company / operator to provide a detailed accounting including the nature and costs of goods and services it provides to the community school. AOS prescribed this detailed accounting to be in the form of a footnote in Bulletin 2004-009.</u></p>
--

Ohio Rev. Code § 3314.02(A)(8) states an "Operator" or "management company" means either of the following: (a) An individual or organization that manages the daily operations of a community school pursuant to a contract between the operator or management company and the school's governing authority; or (b) A nonprofit organization that provides programmatic oversight and support to a community school under a contract with the school's governing authority and that retains the right to terminate its affiliation with the school if the school fails to meet the organization's quality standards.

- Therefore, the terms "operator" and "management company" are synonymous, and the detailed accounting required by Ohio Rev. Code § 3314.024 applies to any entity meeting the definition in Ohio Rev. Code § 3314.02(A)(8).
- An educational service center or school district who may or may not be a community school's sponsor, may also be 'operating' the community school pursuant to an agreement. In addition, certain community schools are the operator of other community schools. In these situations, Ohio Rev. Code § 3314.024 would be applicable.<sup>5</sup>

Ohio Rev. Code § 3314.024 states a management company that receives more than twenty percent of a community school's annual gross revenues<sup>6</sup> shall provide a detailed accounting, including the nature and costs of goods and services it provides to the community school. This information shall be reported using the categories and designations set forth below and be subject to verification through examination of community school records during the school's regular financial audit.

Detailed accounting shall include the following categories of expenses:

1. Aggregate salaries and wages;
2. Aggregate employee benefits;
3. Professional and technical services;
4. Property services;
5. Utilities;

<sup>5</sup> AOS Auditors should check the AOS community school master spreadsheet available on the Community School intranet page to determine if/what entity ODE lists as the operator. IPA's should check the same spreadsheet in the AOS IPA Portal. If the client disagrees with the entity listed as their operator, consult with the CFAE Community School Specialist. ~~IPA's should contact the regional chief auditor to obtain such information.~~

<sup>6</sup> Since this legislation lacks specificity, the AOS is interpreting it to mean:

- Receipts for this calculation include **any** money that is given from the community school
  - to the management company, or
  - to a third party vendor on behalf of the management company.
- Auditors should accept reasonable calculations on cash or GAAP basis (as long as they are in accordance with established policies and are consistent from year to year).

6. Contracted craft or trade services;
7. Tuition paid to other districts;
8. Transportation;
9. Other purchased services;
10. Supplies;
11. Land;
12. Buildings;
13. Improvements other than buildings;
14. Equipment;
15. All other capital outlay;
16. Principal;
17. Interest;
18. Judgments;
19. Other direct and indirect costs.

These expenses shall be disaggregated as follows, as applicable:

1. Regular instruction;
2. Special instruction;
3. Vocational instruction;
4. Other instruction;
5. Support services;
6. Noninstructional activities.

Ohio Rev. Code § 3314.03(A)(8) includes the requirements of community schools to have financial audits by the Auditor of State. The contract between the sponsor and the governing authority shall require financial records of the school to be maintained in the same manner as are financial records of school districts, pursuant to rules of the Auditor of State, and the audits shall be conducted in accordance with Ohio Rev. Code § 117.10. This includes preparing the detailed accounting of management company expenses in Ohio Rev. Code § 3314.024.

Material misstatement or omission of the community school financial statement detailed accounting footnote prescribed by Bulletin 2004-009 should be reported as GAGAS level, material noncompliance with Ohio Rev. Code § 3314.024. Because GAAP does not require this disclosure, do not modify the opinion; however the opinion may be impacted if necessary assurances related to pension and OPEB testing are not obtained.

**Note:** A SAMPLE detailed accounting presentation is available on the Auditor of State web-site at: <https://ohioauditor.gov/references/guidance/communityschools.html>.

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

All community schools meeting the threshold in Ohio Rev. Code § 3314.024(A) must include the management company detailed accounting in the footnote prescribed by Bulletin 2004-009 in their annual financial statements. AOS, pursuant to Ohio Rev. Code § 3314.024(D) and AOS Bulletin 2004-009, verifies information contained in the detailed accounting footnote by examining community school records during the course of the regular financial audit. This verification occurs through one of the three options explained below.

#### **Option #1: AOS Audit of Management Company**

The management company may elect to have AOS (or an IPA contracted by AOS) audit this information centrally at the management company. AOS or the IPA will examine the books, records, and other supporting documentation prepared and maintained by the management company.

*Procedure:*

1. Reference the location of the AOS or the IPA report and review the audit results. Determine whether the management company had sufficient internal controls over compliance for the community school under audit.

**Option #2: Management Company Contracts for Audit Report**

Alternatively, AOS will accept a management company's independently audited financial statements as meeting the requirements of Ohio Rev. Code § 3314.024, provided the audit meets the audit and disclosure requirements set forth in the following paragraph. (IPA's may elect to follow this guidance.):

- Where a management company manages more than one community school or has other "lines of business" in addition to managing a community school, AOS will require a statement showing direct and allocated indirect (e.g., overhead) expenses for each school. The company should present this statement in a combining or consolidating format (i.e., present a column for each school). Additionally, the American Institute of Certified Public Accountants' (AICPA) Audit and Accounting Guide, *Not-for-Profit Entities*, sections 14.12 through 14.14 permit not-for-profit management companies to present this as supplemental information. Notes to the supplemental information should briefly describe the method used to allocate overhead costs. Since overhead allocations require subjective judgment, their amounts and allocation method should be considered disclosures of higher inherent risk.
- Where a management company's sole business is providing services to one community school, the company's audited statements should suffice, if the statements classify expenses in substantial conformance with USAS object codes.

The management company's audit opinion must extend to the combining or consolidating columns. Auditors of community schools must set their materiality threshold to include assurance the supplemental information for each school is not materially misstated. Opinions that report only on the individual school statement's fair presentation in relation to the management company's basic financial statements do not provide sufficient audit assurance, unless accompanied with an agreed-upon procedures report related to the supplemental information.

*Procedure:*

1. Obtain the management company's report and review for the required elements described in Option #2 above.

**Option #3: Agreed Upon Procedures**

**Note:** The guidance below assumes the school's auditor has sufficient evidence to support an opinion on the school's statements, and is using portions of the AUP, for the management company detailed accounting footnote prescribed by Bulletin 2004-009.

A school's auditor must judge whether deficiencies in an AUP report affect the management company disclosure sufficiently to require a GAGAS noncompliance finding in the community school's audit report. For example, completely omitting the detailed accounting footnote prescribed by Bulletin 2004-009 would require a GAGAS noncompliance finding in the school's audit report, citing Ohio Rev. Code § 3314.024.

In addition, AUP procedures #4 through #6 are included to provide necessary assurances related to the net pension and OPEB liabilities, deferred outflows of resources, deferred inflows of resources, and pension and OPEB expense reported in accordance with generally accepted accounting principles. Absent these assurances, the auditor's opinion on the financial statements will likely need to be modified.

If a management company does not have audited financial statements or the audited financial statements do not present combining or consolidating columns for each of its schools, or if the management company's auditor does not provide opinion-level assurance on the combining or consolidating columns presenting each school, the Auditor of State will accept an agreed-upon procedures (AUP) report per AICPA Clarified Attestation Standards Section 215. Additionally, unless the management company makes records available for audit pertaining to the community school's federal programs, AOS may require an AUP report if the community school is a Single Audit.

*Engagement Requirements:*

1. The engagement should follow AICPA Clarified Attestation Agreed Upon Procedures Standards.
2. The management company's practitioner auditor should e-mail the draft (i.e. example) procedures to the schools and to AOS Center for Audit Excellence (CommunitySchoolQuestions@ohioauditor.gov). AOS will attest to the sufficiency of the procedures on behalf of the AOS, prior to the practitioner ("auditor") commencing the procedures. Each AUP Report and engagement letter should list the schools to which the agreed-upon procedures apply. Example required procedures follow these instructions.
3. AOS requires the following, applicable to each Ohio school the company manages:
  - a. The accountant may issue one AUP report covering all the company's Ohio schools.
  - b. The report must explain that the accountant performed procedure #1 and 2 below for the compilation of the footnotes prescribed by Bulletin 2004-009 separately for each school.
  - c. The report must explain that the accountant performed procedures #5 and 6 below to provide necessary assurances related to the pension and OPEB amounts in accordance with GASB Statement No. 68 (as amended) and No. 75.
  - d. Regarding the individual expenditure transaction procedures below (procedures #3, 4 and 7), the accountant may select one sample from the population of all costs charged to the company's Ohio schools for each year ending June 30.
4. Ohio community schools' fiscal years end each June 30. If the management company is on a different fiscal year, the management company must compile the footnote prescribed by Bulletin 2004-009 for each Ohio school's June 30 fiscal year.

For example, if the management company's fiscal year ended December 31, 20XX, each Ohio school's June 30, 20XX footnote would report expenses the management company incurred on a school's behalf for the first six months of calendar 20XX plus the last six months of calendar 20XX-

5. The accountant performing the AUP should describe the Ohio schools to which the AUP relate and should attach each of the community schools' footnotes to the AUP report.
6. As stated in the AICPA Attestation Agreed Upon Procedure Standards, auditors should report all exceptions, such as costs charged to a school where documentation does not support it directly benefited the school, or for which insufficient documentation exists.
7. Because the procedures relate to each school's footnote, the accountant performing the AUP should apply the procedures to footnotes compiled from the management company's accounting system, separately summarizing the expenses for each Ohio community school. This requires that the management company's accounting system include accounts summarizing direct expenses the company incurs for each school. It is permissible to charge / assign indirect costs to these schools, *if the notes disclose the method for charging those costs, and if the note separately identifies indirect costs.*

**If the management company’s accounting system does not include separate accounts for direct expenses for each school, it is unlikely the management company can meet the requirements of Ohio Rev. Code § 3314.024. In this case, the management company or the firm completing the AUP should consult with the Auditor of State.**

8. Uniform Guidance (2 C.F.R. § 200.501) requires each school expending more than \$750,000 of federal awards in its fiscal year to prepare a schedule of expenditures of federal awards.

**If the management company accounts for Ohio school’s federal awards, we believe it is reasonable to expect the management company to compile this schedule for each school, and for the AUP to include a procedure testing this compilation.**

**Note that this requires that the management company’s accounting system be capable of segregating receipts, disbursements and cash balances for each federal award program of each school.**

**Procedure 2 below applies if a school expended more than \$750,000 of federal awards during its fiscal year.**

**The AUP report should list the following required procedures and the results relating to each Ohio school:**

1. Trace the management company expenses from each footnote by function / object / accounting code to the community school’s accounts in the management company’s accounting system.
2. If the engagement is a Federal Single Audit, trace each school’s federal award expenditures, by CFDA<sup>7</sup> number, receipts (if presented) from its schedule of expenditures of federal awards to the community school’s accounts in the management company’s accounting system.

**Note:** Receipts are not required to be presented; however, this procedure should be performed for receipts included on the Federal Schedule.

3. Haphazardly or randomly select 100 direct non-payroll expense transactions (checks, EFTs, etc.) the management company charged to its Ohio community schools. (One sample selected from all the management company’s Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)

Compare the amount charged to a school to supporting documentation, including a canceled check (or EFT documentation, etc.) and vendor invoice, supporting that the cost:

- a. Is a direct expense benefiting the school;
- b. Is recorded for the proper amount for the proper period in the accounting system; and

<sup>7</sup> Effective for federal awards made after November 12, 2020, the terms “Catalog for Federal Domestic Assistance (CFDA) number” and “CFDA program title” have been changed to the terms “Assistance Listings number” and “Assistance Listings program title”. Auditors may see either term being used interchangeably for a period of time.

- c. Is charged to a proper Ohio Uniform School Accounting System (USAS) object / accounting code in accordance with Ohio Admin. Code 117-6-01(B).<sup>8</sup>
4. Haphazardly or randomly select 100 direct payroll expense transactions, including salaries and benefits the management company charged to its Ohio community schools. (One sample selected from all the management company’s Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)

Step A: Compare the amount charged to a school to supporting documentation, including a canceled check and to personnel files supporting that the cost:

- a. Is a direct expense paid to an employee for services provided solely to the school;
- b. Is recorded for the proper amount for the proper period in the accounting system;
- c. The amount paid agreed to the salary schedule and/or to amounts withheld; and
- d. Is charged to a proper Uniform School Accounting System (USAS) object / accounting code as required by Ohio Admin. Code 117-6-01(B) and described more fully in the USAS Manual available at [http://www.ohioauditor.gov/publications/uniform\\_school\\_accounting\\_system\\_user\\_manual.pdf](http://www.ohioauditor.gov/publications/uniform_school_accounting_system_user_manual.pdf).<sup>8</sup>

Step B: Determine whether employee retirement contributions:<sup>9</sup>

- a. Are withheld for the appropriate retirement system in accordance with the requirements of Ohio Rev. Code chapters 3307 and 3309, unless the exceptions described in Ohio Rev. Code § 3307.01(B)(2)(b) or (c) or Ohio Rev. Code § 3309.013 apply;
- b. Are withheld at the appropriate rates for the applicable retirement system as described in Ohio Rev. Code §§ 3307.26 and 3309.47.

For exceptions reported, include the following information for each instance identified where employee contributions to STRS/SERS (if required) were not properly withheld in the related payroll transactions:

Community School	Employee Name	Pay Period End	Retirement System (STRS / SERS)	Amount withheld	Amount School should have withheld

5. Determine whether withheld employee contributions were remitted to each of the retirement systems for each of the schools operated by the management company:<sup>9</sup>
- a. Compare the total STRS and SERS withholdings for the year from the payroll records to documentation of amounts remitted to the appropriate retirement systems.

<sup>8</sup> Some schools may not post daily transactions in accordance with USAS, but rather convert the information to be in accordance with USAS prior to reporting information to ODE and their annual financial statement reporting. For these engagements, the school should maintain a crosswalk or other documentation to show this conversion. Auditors should report non-compliance if presented expenses are not broken out by function and object.

<sup>9</sup> Community school auditors do not need to request to perform this procedure at the client site when the AUP includes them. However; these procedures will not replace Census Data Examinations the Retirement System auditors may require to support their opinions on the audited GASB Statement No. 68 Schedules of Employer Allocations and Pension Amounts and the audited GASB Statement No. 75 Schedule of Employer Allocations and OPEB Amounts.

For exceptions reported, include the following information:

	Community School	Employee contribution amounts withheld per the payroll records	Employee contribution amounts remitted to the retirement system	Variance
State Teachers Retirement System (STRS)				
School Employees Retirement System (SERS)				

6. For the prior fiscal year, calculate the employer contributions based on total employee contributions to each school (total employee contributions/employee contribution rate x employer contribution rate). (Note: employee contributions should include employee contributions for employees and third party contractors.)<sup>9</sup>
  - a. Compare the results from calculation above to the employer contributions on the audited schedules of employer allocations separately for STRS and SERS; and

For exceptions reported, include the following information:

	Community School	Calculated "Employer Contributions" amount from step a. above	Employer contributions amount from the audited schedule of employer allocations	Variance
State Teachers Retirement System (STRS)				
School Employees Retirement System (SERS)				

7. Haphazardly or randomly select 100 expense transactions (e.g. checks) assigned to any indirect cost pool that include Ohio schools. (One sample from the pool(s) for Ohio schools will suffice. If the management company accounts for only one Ohio school, you may reduce the sample size to 60.)<sup>10</sup>
  - a. Compare the transaction to source documentation, such as vendor invoice, personnel file, etc. supporting the cost indirectly benefits the schools or other activities to which it is allocated.
  - b. Determine the transaction is recorded for the proper amount for the proper period in the accounting system.

<sup>10</sup> When developing these procedures, they may need tailored if the client adopted the 10% de minis rate for federal transactions. Auditors need to evaluate the allocation of transactions in these instances to ensure the client is not allocating Federal expenditures twice.

- c. Obtain an understanding of the method the management company uses to pool and assign indirect costs to individual schools. Recompute selected allocations for conformity with the method.
- d. Compare the results from steps a through c with the overhead allocation disclosure in the footnote. Report any material departures from the footnote description in terms of the actual method used and any projected dollar effects of the departure.

**Note:** Occasionally, these footnotes report more expenses than amounts the school paid to its management company. When this occurs, the management company is subsidizing (or loaning money to) the school. We believe the basic statements should report material amounts as revenue (Contributions from management company), and additional related expenses under GASB Statement No. 24 (GASB Cod. N50.128).

While some may view recording this entry as “merely” grossing up revenue and expense, we believe the school’s true expenses are understated without this entry. Presenting the management company’s willingness to subsidize operations in the statements is also important information for readers. Also, we are aware that some contracts specify these amounts are repayable loans from the management company, which would require crediting “loans payable to management company” in the statement of net position rather than “subsidy from management company” in the statement of revenues and expenses.

Auditors should obtain evidence supporting whether these amounts are subsidies or loans from the management company. Usually the contract with the management company will explain whether the school must repay the management company. We suggest representation letters include these amounts, and represent whether these amounts are contributions or repayable loans.

If these are repayable loans, the balance sheet should reflect them as such, and consider whether the opening equity is overstated based on prior year unrecorded loans.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## SECTION E: DEPOSITS AND INVESTMENTS

### SUBDIVISIONS OTHER THAN COUNTIES

**(FOR COUNTY DEPOSIT AND INVESTMENTS SEE SECTION 2-10 Compliance Requirement: Ohio Rev. Code §§ 135.35, 135.353, and 339.061(D) - Eligible Investments for inactive county money (county hospitals may invest in these same securities, per Ohio Rev. Code § 339.06).**

**2-6 Compliance Requirement:** Ohio Rev. Code §§ 135.13, 135.14, 135.144 and 133.03(A)(1), – Eligible investments for interim monies; Ohio Rev. Code § 135.13 - inactive deposits and maturities.

#### Summary of Requirements:

Investments must mature within 5 years from the settlement date, unless the investment is matched to a specific obligation or debt of the subdivision, or unless other provisions apply. [Ohio Rev. Code § 135.14(D)]

The following classifications of obligations are eligible for such investment or deposit:

- United States obligations or any other obligation guaranteed as to principal and interest by the United States.<sup>11</sup> This law prohibits investing in stripped principal or interest obligations. [Ohio Rev. Code § 135.14(B)(1)]
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities must be direct<sup>12</sup> issuances of federal government agencies or instrumentalities. [Ohio Rev. Code § 135.14(B)(2)]
- Interim deposits in the eligible institutions applying for interim monies as provided in Ohio Rev. Code § 135.08. [Ohio Rev. Code § 135.14(B)(3)]
  - Per 135.13, *Interim deposits* are certificates of deposit<sup>13</sup> or savings or deposit accounts, including passbook accounts.
  - Ohio Rev. Code § 135.144 also permits governments to use the Certificate of Deposit Account Registry Services (CDARS) or similar programs (one example is Star Plus) meeting Ohio Rev. Code § 135.144 requirements for interim deposits. If a government purchases CDs for more than the FDIC limit (\$250,000) with a bank participating in CDARS or similar program such as Star Plus, the bank or program “redeposits” the excess

<sup>11</sup> See appendix E-1 of the OCS Implementation Guide for a list of agencies the Federal government guarantees.

<sup>12</sup> An example of an *indirect* issuance would be a FNMA CMO (collateralized mortgage obligation), where FNMA pools mortgages it guarantees. However, the mortgages are not a direct issuance of FNMA.

<sup>13</sup> It is the position of the Auditor of State that Ohio Rev. Code §§ 135.03 & 135.32 prohibit purchasing certificates of deposit (negotiable\* or otherwise) from a bank unless the CD is subject to inspection by the Ohio Superintendent of Financial Institutions. Ohio is part of a nationwide cooperative agreement for examining multi-state banks in which these states agreed to recognize each other's supervisory authority for banks headquartered in another state but doing business in theirs. Therefore, it is reasonable to conclude that a multi-state bank in a state subject to this agreement is subject to inspection by Ohio's Superintendent of Financial Institutions. Multi-state banks are eligible to become a public depository for Ohio's governmental entities, subject to Ohio Rev. Code §§ 135.01 to 135.21. The bank should be registered with the Ohio Secretary of State to be an eligible public depository in Ohio. A government cannot purchase negotiable/brokered or nonnegotiable CDs unless the governing body has designated the bank as eligible to hold interim or inactive deposits.

\*Another term for “negotiable” CDs is “brokered” CDs.

amounts with other institutions. Each bank accepts less than \$250,000 so that all deposits have FDIC coverage. Ohio Rev. Code § 135.144 requires a government to place its deposits with an eligible depository per Ohio Rev. Code § 135.03. However, the institutions the government's depository places excess deposits with are not subject to Ohio Rev. Code § 135.03. For example, while the deposit must be initiated at an Ohio depository branch, the Ohio depository can purchase CDs from depositories outside of Ohio for the excess. Because all CDARS, Star Plus, etc. deposits have FDIC coverage, the collateral requirements of Ohio Rev. Code §§ 135.18 and 135.181 do not apply. (That is, these are *insured* deposits for GASB Statement No. 40 purposes, Appendix E-2 of the OCS Implementation Guide.)<sup>14</sup>

- Any CD's purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices with a monthly account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.
- Bonds or other obligations of the State of Ohio, or the political subdivisions of this state, provided that, with respect to bonds or other obligations of political subdivisions, all of the following apply:
  - The bonds or other obligations are payable from general revenues of the political subdivision and backed by the full faith and credit of the political subdivision.
  - The bonds or other obligations are rated at the time of purchase in the three highest classifications established by at least one nationally recognized standard rating service and purchased through a registered securities broker or dealer.
  - The aggregate value of the bonds or other obligation does not exceed twenty per cent of interim moneys available for investment at the time of purchase.
  - The treasurer or governing board is not the sole purchaser of the bonds or other obligations at original issuance.
  - The bonds or other obligations mature within ten years from the date of settlement

No investment shall be made under Ohio Rev. Code § 135.14(B)(4) unless the treasurer or governing board has completed additional training for making the investments authorized by this section. The type and amount of additional training shall be approved by the treasurer of state and may be conducted by or provided under the supervision of the treasurer of state. [Ohio Rev. Code § 135.14(B)(4)]

---

<sup>14</sup> It is conceivable programs similar to CDARS may be established. We believe these programs would be legal if they meet all Ohio Rev. Code § 135.144 requirements (an example is Star Plus). As another example, we are aware that credit unions have established a similar program to insure deposits exceeding the limits covered by the National Credit Union Share Insurance Fund; however, Ohio Rev. Code § 135.144 would not permit governments to use this program because Ohio Rev. Code § 135.03 effectively excludes credit unions from eligible depositories as it does not name them in its list of institutions that may be public depositories. However, Ohio Rev. Code § 135.03 permits any savings association or savings bank located in Ohio, which is doing business under the authority of another state, to become an eligible public depository. Therefore, if they establish programs complying with all § 135.144 requirements, those programs would have similar legal status to the CDARS program (one example is Star Plus).

- No-load money market mutual funds consisting exclusively of obligations described in (B)(1) or (2) of Ohio Rev. Code § 135.14 (i.e. the investments listed in the first two bullets above), and repurchase agreements secured by such obligations, provided the government purchases the money market mutual fund **only** through eligible institutions mentioned in Ohio Rev. Code § 135.03 (which are, generally, Ohio banks and national banks authorized to do business in Ohio). [§ 135.14(B)(5)] Also, per Ohio Rev. Code § 135.01(O)(2), these funds must have the highest letter or numerical rating provided by at least one nationally recognized standard rating service.
- The Ohio Subdivisions Fund (STAR Ohio<sup>15</sup>) as provided in Ohio Rev. Code § 135.45. [Ohio Rev. Code § 135.14(B)(6)]
- Chapter 133 securities (generally debt instruments Ohio State & local governments have issued) [Ohio Rev. Code § 133.03].

Per Ohio Rev. Code § 135.14(E), the treasurer or governing board may also enter into a repurchase agreement with any **eligible institution** mentioned in Ohio Rev. Code § 135.03 or any **eligible dealer** pursuant to Ohio Rev. Code § 135.14(M). (**Eligible institutions**, per Ohio Rev. Code § 135.03, include any national bank, any bank doing business under authority granted by the superintendent of financial institutions, or any bank doing business under authority granted by the regulatory authority of another state of the United States, located in this state.) **Eligible dealers**, per Ohio Rev. Code § 135.14 (M), are financial industry regulatory authority (FINRA), banks, savings bank, or savings and loan associations regulated by the superintendent of financial institutions, or institutions regulated by the comptroller of the currency, federal deposit insurance corporation, or board of governors of the federal reserve system.) In these agreements, the treasurer or governing board purchases, and such institution or dealer agrees unconditionally to repurchase any of the securities listed in division (D)(1) to (5) of § 135.18,<sup>16</sup> except letters of credit described in division (D)(2) are not permitted for repurchase agreements.

- The market value of securities subject to an overnight repurchase agreement must exceed the cash invested subject to the repurchase agreement by 2%.<sup>17</sup> A term repurchase agreement may not exceed 30 days and must be marked to market daily.<sup>18</sup>
- All securities purchased pursuant to a repurchase agreement are to be delivered into the custody of the treasurer or governing board or an agent designated by the treasurer or governing board.<sup>19</sup>

<sup>15</sup> Investment of public moneys in the Ohio Subdivisions Fund may be in a separately managed account (referred to as STAR SMA) or a pooled account. [Ohio Rev. Code § 135.45(C)]

<sup>16</sup> Ohio Rev. Code §§ 135.18(D)(1) – (11) are summarized in Ohio Compliance Supplement Step 2-9

<sup>17</sup> Many states do not require minimum market values of securities for repurchase agreements. Therefore, the risk of noncompliance increases when banks merge with out-of-state banks. Ohio governments are still bound by Ohio laws even if a bank's depository agreement indicates the bank follows another state's laws for the market value of securities.

<sup>18</sup> The dealer would be responsible for marking the securities, not the government.

<sup>19</sup> Counterparties (e.g. banks) accomplish this by maintaining a separate "customer" account at the Federal Reserve designated as a customer account. (For purposes of GASB Statement No. 40, we currently believe securities held in a customer account would not be exposed to custodial risk.)

- Repurchase agreements must be in writing. They must require that, for each transaction, the participating institution provide:
  - the par value of the securities;
  - the type, rate, and maturity date of the securities;
  - a numerical identifier (e.g., a CUSIP number) generally accepted in the industry that designates the securities.

Agreements by which the treasurer or governing board agrees to sell securities owned by the subdivision to a purchaser and agrees with that purchaser to unconditionally repurchase those securities (i.e., Reverse Repos) are prohibited. [Ohio Rev. Code § 135.14(E)]

Per Ohio Rev. Code § 135.14, Derivative investments are generally prohibited. A *Derivative* is a financial instrument or contract or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself.

- Per Ohio Rev. Code § 135.14(C), Any security, obligation, trust account, or other instrument that is created from an issue of the United States Treasury or is created from an obligation of a federal agency or instrumentality or is created from both is considered a derivative, and is prohibited.
  - Except, An eligible investment described in Ohio Rev. Code § 135.14 with a variable interest rate payment or single interest payment, based upon a single index comprised of other eligible investments provided for in division (B)(1) or (2) of § 135.14 (see above), is **not** a derivative, if the variable rate investment has a maximum maturity of 2 years. [Ohio Rev. Code § 135.14(C)]
    - For example, a two-year investment in Federal securities with a variable interest rate indexed to other Federal securities would be legal, because Ohio Rev. Code § 135.14(C) expressly permits using Federal securities as part of a derivative if it matures within two years. Conversely, an investment indexed to an interbank offered rate<sup>20</sup> or to a bank's prime rate would not be legal because these are not listed in Ohio Rev. Code § 135.14(B)(1) or (B)(2).
  - **Note:** The Ohio Rev. Code still uses the derivative definition from GASB Technical bulletin 94-1. GASB Statement No. 53 (GASB Cod. D40.103), defines derivatives differently than does the Revised Code. So, for legal compliance purposes, governments must follow the Ohio Rev. Code derivative definition. For financial reporting, GAAP governments must follow the GASB definition to value, present, and disclose derivatives.
    - For example, interest rate swaps<sup>21</sup> and energy futures contracts (which are allowable under Ohio Rev. Code § 9.835 to mitigate price fluctuations, and are not intended as investments) meet the GASB Statement No. 53 derivative definition, and would be subject to GASB Statement No. 53 derivative measurement and disclosure requirements, but are **not** illegal.
  - 1999 Op. Att'y. Gen. No. 99-026 deemed collateralized mortgage obligations to be illegal derivatives.

<sup>20</sup> Note: **LIBOR** will not be offered after 2021. Other interbank offered rates are likely to replace it. As of January, 2020, GASB has a draft standard permitting entities to continue to apply hedge accounting to derivatives with renegotiated rates. (Without this amendment, GASB Statement No. 53 would require reclassifying these renegotiated hedges as (speculative) investments.) More guidance will be provided as it becomes available.

<sup>21</sup> For Ohio governments, interest-rate swaps normally refer to debt issued at a variable interest rate, which the government (issuer) converts to a fixed interest rate.

- Swaptions describe an option to swap variable for fixed-rate debt if the strike rate meets the forward rate.
- Swaps and swaptions can result in deferred inflows or outflows, but if properly used they are hedging instruments, designed to hedge (i.e. reduce) interest-rate risk. If properly used, they are not classified as investments.

Swaps and swaptions are derivatives per GASB Statement No. 53, but they do meet the Ohio Rev. Code 135 derivative definition; therefore Ohio Rev. Code 135 does not prohibit them.

- A treasury inflation-protected security (TIPS) is permissible for counties only, per Ohio Rev. Code § 135.35(B) [H.B. 225, effective 3/22/12 and then repealed 9/10/12, temporarily increased this to ten years.]

Article VIII, Sections 4 and 6 of the Ohio Constitution prohibit public bodies from becoming a “stockholder in any joint stock company, corporation or association.”

- However, Article VIII, Section 6 of the Constitution provides an exemption which allows public bodies to purchase insurance from mutual insurance companies (Note that insured parties of mutual insurance companies become stockholders.).
- The AOS also does not believe Ohio Rev. Code Chapter 135 (nor § 1715.52(E)(3)) prohibits a government from **holding** stock **donated** to it. (However, considering the volatility of many equity securities, our management letter should recommend liquidating stock, if liquidation does not violate a trust or other agreement.)

Per Ohio Rev. Code § 135.14(F), a government cannot purchase an investment unless it reasonably expects to hold it until maturity. *Note:* We believe the intention of this section is to reduce the likelihood a government would suffer losses on early redemptions required due to inadequate cash flow planning. See the description of audit procedures for more information.

Per Ohio Rev. Code § 135.14(G), subdivisions may not invest interim moneys in an investment pool except:

- The Ohio Subdivision’s Fund (STAR Ohio<sup>15</sup>) pursuant to Ohio Rev. Code § 135.14(B)(6).
- A fund created solely to acquire, construct, own, lease, or operate municipal utilities pursuant to Ohio Rev. Code § 715.02 or Ohio Const. Art XVIII, § 4.

Leveraging (a government using its current investment assets as collateral for purchasing other investments) is prohibited. [Ohio Rev. Code § 135.14(H)]

Issuing taxable notes for arbitrage is prohibited. [Ohio Rev. Code § 135.14(H)]

Governments cannot contract to sell securities not yet acquired (short sales), for the purpose of purchasing such securities on the speculation that their price will decline. [Ohio Rev. Code § 135.14(H)]

Payment for investments may be made only upon delivery of the securities to the treasurer, governing board, or qualified trustees, or, if not represented by a certificate, only upon receipt of confirmation of transfer from the custodian. [Ohio Rev. Code § 135.14(M)(2)]

Proceeds from refunding securities must be held in the debt service fund or in escrow, and shall be held in cash or invested in whole or in part in direct obligations of or obligations guaranteed as to payment by the United States that mature or are subject to redemption by and at the option of the holder not later than the date or dates when the moneys invested, together with interest or other investment income accrued on those moneys, and any moneys held in cash and not invested will be required to refund the debt. [Ohio Rev. Code § 133.34(D)].

Ohio Rev. Code § 135.13 requires depositing *inactive* funds in certificates of deposit maturing not later than the end of the depository designation period or by savings or deposit accounts, including, but not limited to, passbook accounts.

- Investments must mature within 5 years from the date of settlement unless the investment matches a specific obligation or debt, and the investment advisory committee specifically approves it.

- A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years due to a temporary change in the law. (This is because in 2012 H.B. 225 was enacted and then repealed months later.).

### Suggested Audit Procedures – Compliance (Substantive) Tests:

**Note:** Some of the steps below require the same documentation / evidence auditors also use to support the *existence*, *valuation* and *classification* of investments. You can gain efficiency by combining the steps below with the substantive steps related to the aforementioned assertions.

Select a representative number<sup>22</sup> of investments and:

1. Read investment dealer confirmations\* to determine if the investment is of a type authorized.

\* **Note:** Dealer confirmations are suitable evidence supporting the details (e.g. valuation, occurrence) of an investment at the time of purchase. However, it provides no evidence the government still owned the investment as of its fiscal year end (the *existence* assertion). Auditors should obtain other evidence to support existence at year end. The audit program should include suitable existence steps.

2. If the government holds financial instruments or contract or obligation whose value or return is “based upon or linked to another asset or index, or both, separate from the financial instrument,” consider whether the instrument is an illegal derivative.
  - a. If the instrument is not an interest-rate swap, or expressly permitted (such as energy futures under Ohio Revised Code 9.835), consult with the Center for Audit Excellence to determine its Legality, Valuation, Presentation and Disclosure.
3. For investments in bonds or other obligations of the State of Ohio, or the political subdivisions of this state, inspect documentation and determine whether the additional training was received. [Ohio Rev. Code § 135.14(B)(4)]
4. Determine that the investments mature within the prescribed limits (generally no later than 5 years, or *other* periods for repurchase agreements, bankers’ acceptances and commercial paper.)
5. Inspect documentation supporting repurchase agreements and determine that:
  - a. The market values of securities exceed the principal values of securities subject to the overnight repurchase agreement by 2%. (**Note:** The risk of non-compliance increases when banks merge.)
  - b. A term repurchase agreement did not exceed 30 days and the values of the securities were marked to market daily.
  - c. Repurchase agreements were in writing, including the par value of the securities; the type, rate, and maturity date of the securities; and a numerical identifier.
6. Read the prospectus for money market mutual funds with which the government has significant investment. Determine whether the prospectus limits investments to those authorized under Ohio Rev.

---

<sup>22</sup> When judging “a representative number,” consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

Code § 135.14(B)(1) & (2). Ohio Rev. Code § 135.14(B)(1) & (2) describe federally issued or insured securities. Ohio Rev. Code § 135.14(B)(1) & (2) would not include, for example, reverse repos consisting of Federal securities or securities other states issue.

7. Determine whether money market mutual funds have the highest credit rating issued by one national ratings agency (such as that S&P, Moody's or Fitch issues).
8. Regarding Ohio Rev. Code § 135.14(F), scan investment records to determine whether the government is selling securities prior to maturity. If a significant number or amount of premature sales occurred because the government had an emergency need for cash, review the CFO's cash flow forecasts supporting that the government had reasonable support, at the time of purchase, that it could hold the security to maturity. ***If there is inadequate cash flow planning***,<sup>23</sup> cite this section. The noncompliance finding should also recommend the government improve its cash flow forecasting. The finding should also describe any losses the government suffered from these sales.
9. If the government hires an investment manager for all or a portion of its investments, obtain copies of investment summary reports the manager prepares.
  - a. Read the agreement between the manager and the government. Determine if the agreement (or the investment policy Step 2-7 describes) requires the manager to comply with all applicable Ohio Rev. Code Chapter 135 requirements. Maintain a copy or summary of the agreement in the permanent file.
  - b. Test selected investments from the reports for compliance with steps 1 – 5 above.
  - c. Scan purchases and sales to determine whether the manager sells securities prior to their maturity for other than an urgent need for cash.

(**Note** that for financial audit purposes, an investment manager may constitute a service organization under AU-C 402)

**Note:** The steps above should normally be sufficient for most governments. Because we believe the risk of governments engaging in certain prohibited activities such as leveraging, short sales or arbitrage violations is low, there are no steps included to test these requirements. You should scan the other requirements in this step, and based on your knowledge of the government's investing activities, investigate them if evidence suggests the government may have materially violated these requirements.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

<sup>23</sup> "Emergency" premature sales can result in losses. If inadequate cash flow planning contributed to the need to sell early, we should cite them. In other circumstances, a government may choose to redeem a security early at a loss in order to re-invest at a greater overall rate of return. We would not deem this latter circumstance to violate the intent of Ohio Rev. Code § 135.14(F).

**2-7 Compliance Requirement:** Ohio Rev. Code §§ 135.14 and 135.18 – Other Requirements.  
(FOR COUNTY DEPOSIT AND INVESTMENTS SEE SECTION 2-10)

**Summary of Requirements:**

Per Ohio Rev. Code § 135.14(O)(1), Investments or deposits under § 135.14 cannot be made unless a written investment policy approved by the treasurer or governing board is on file with the Auditor of State, with the following two exceptions:

- Per Ohio Rev. Code § 135.14(O)(2), If a written investment policy is not filed with the Auditor of State, the treasurer or governing board can invest only in interim deposits, STAR Ohio<sup>15</sup>, or no-load money market mutual funds.
- Per Ohio Rev. Code § 135.14(O)(3), A subdivision whose average annual investment portfolio is \$100,000 or less need not file an investment policy, provided that the treasurer or governing board certifies to the Auditor of State that the treasurer or governing board will comply and is in compliance with the provisions of §§ 135.01 to 135.21.

Per Ohio Rev. Code § 135.14(O)(1), the investment policy must be signed by:

- All entities conducting investment business with the treasurer or governing board (except the Treasurer of State);
- All brokers, dealers, and financial institutions, described in § 135.14(M)(1), initiating transactions with the treasurer or governing board by giving advice or making investment recommendations;
- All brokers, dealers, and financial institutions, described in § 135.14(M)(1), executing transactions initiated by the treasurer or governing board.

If any securities or certificates of deposit purchased are issuable to a designated payee or to the order of designated payee, the designated party is to be the treasurer and the treasurer's office<sup>24</sup>.

If the securities are registerable either as to principal and/or interest, then the securities are to be registered in the treasurer's name.

An institution designated as a public depository shall designate a qualified trustee and place the eligible securities required by Ohio Rev. Code 135.18(D) with the trustee for safekeeping. [Ohio Rev. Code § 135.18(E)]

Except for investments in securities described in Ohio Rev. Code § 135.14(B)(5) and (6) (no-load money funds, certain repos and STAR Ohio<sup>15</sup>) and for investments by a municipal corporation in the issues of that municipal corporation, all investments must be made through:

- members of the National Association of Securities Dealers, Inc. (NASD); or
- institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System.

---

<sup>24</sup> For example, an acceptable method of complying with this requirement is for the financial institution to make the securities or certificates of deposit payable to "ABC Township, Joe Jones, Treasurer."

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Read the government's investment policy for the period.
2. If there is no written investment policy filed with the Auditor of State, scan the government's investment portfolio for the period to determine that it is composed solely of interim deposits, STAR Ohio<sup>15</sup>, or no-load money market mutual funds, or that its average annual size is \$100,000 or less. Additionally, inspect the certificate to the Auditor of State asserting<sup>25</sup> that the treasurer or governing board will comply and is in compliance with the provisions of Ohio Rev. Code §§ 135.01 to 135.21.
3. If applicable, inspect documentation that the policy was approved by the treasurer or governing board and is on file with the Auditor of State (For AOS employees the policies and exemptions are available at S:/Final Audit PDF/Region Folder/County Folder/Client Folder/Investment Policy Folder). (We need not repeat this step every audit. Keep a copy in the permanent file, and inquire whether the government has amended the policy since the prior audit.)
4. Inspect the policy for the requisite signatures:
  - a. All entities conducting investment business with the treasurer or governing board (except the Treasurer of State);
  - b. All brokers, dealers, and financial institutions initiating transactions with the treasurer or governing board by giving advice or making investment recommendations;
  - c. All brokers, dealers, and financial institutions executing transactions initiated by the treasurer or governing board.
  - d. Select a representative number of investments made by the entity and determine whether the investments are in accordance with the entity's investment policy as adopted by the entity's legislative body.
5. Determine if the policy requires financial institutions, brokers and dealers to comply with Ohio Rev. Code Chapter 135. (There is no legal requirement to include this, but if the policy does not include this requirement, we should recommend the government amend their policy to require compliance.)
6. Select a representative number<sup>22</sup> or amount of investments:
  - a. Inspect purchase documents and determine that investments were made only through members of NASD, or institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System.
  - b. For certificates of deposit, inspect documentation that any designated payee is the treasurer or treasurer's office; and that the CDs are in the treasurer's name.

---

<sup>25</sup> Not required if the portfolio for the period is composed solely of interim deposits, STAR Ohio, or no-load money market mutual funds.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**2-8 Compliance Requirement:** Ohio Rev. Code § 135.142 (school districts), § 135.14(B)(7) (other subdivisions) – Other allowable investments for subdivisions other than counties.

**Summary of Requirements:** Ohio Compliance Supplement Step 2-6 identifies certain investments that are eligible for **interim** monies. In addition to those investments, subdivisions can invest interim monies as follows:

Up to forty per cent of interim moneys available for investment<sup>26</sup> in either of the following [Ohio Rev. Code § 135.142(A) for school districts; § 135.14(B)(7) for other subdivisions]:<sup>27</sup>

**Commercial paper** notes issued by an entity defined in Ohio Rev. Code § 1705.01(D) (see definition below) and that has assets exceeding five hundred million dollars, to which all the following apply:

- The notes are rated at the time of purchase in the highest classification established by at least two nationally recognized standard rating services.
- The aggregate value of the notes does not exceed ten per cent of the aggregate value of the outstanding commercial paper of the issuing corporation.
- The notes mature not later than 270 days after purchase.
- The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five per cent of interim moneys available for investment at the time of purchase.

**Bankers' acceptances** of banks insured by the FDIC and to which the obligations mature not later than one hundred eighty days after purchase.

Boards of education must authorize the treasurer to invest in commercial paper or bankers' acceptances by a 2/3 majority vote. [Ohio Rev. Code § 135.142(A)] (Once authorized, the authorization remains effective unless the policy changes. Therefore, we need not test this every audit. We should maintain documentation of the approval in the permanent file.) Additionally, the treasurer or governing board must complete additional training. The type and amount of additional training shall be approved by the treasurer of state and may be conducted by or provided under the supervision of the treasurer of state. [Ohio Rev. Code § 135.14(B)(7)]

“Entity” means any of the following [Ohio Rev. Code § 1705.01(D)]:

- A corporation existing under the laws of this state or any other state;
- Any of the following organizations existing under the laws of this state, the United States, or any other state:
  - A business trust or association;
  - A real estate investment trust;

<sup>26</sup> School districts may have additional investments if OFCC bond proceedings permit such investments [see Ohio Rev. Code § 3318.26(M) and Ohio Rev. Code § 3318.26(E)(5)]. Auditors should evaluate bond documents if 40% threshold appears to be exceeded.

<sup>27</sup> Ohio Rev. Code § 135.01(F) defines Interim moneys including the statement “that such moneys will not be needed for immediate use but will be needed before the end of the period of designation.” Therefore, this calculation while subject to various acceptable interpretations is best calculated using the cash balance less encumbrances expected to be immediately used.

- A common law trust;
- An unincorporated business or for profit organization, including a general or limited partnership;
- A limited liability company.

**Note:** Some of the steps below require the same documentation/evidence auditors also use to support the *existence, valuation, and classification* of investments. You can gain efficiency by combining the steps below with the substantive financial audit steps related to the aforementioned assertions.

### **Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Inspect a representative number<sup>28</sup> of dealer confirmations of the commercial paper notes purchased and determine that the entity has maintained related documentation that the: [Ohio Rev. Code § 135.14(B)(7)(a)]
  - a. Commercial paper was rated in the highest classification by two standard rating services.
  - b. The commercial paper matures not later than 270 days after purchase.
  - c. The investment in commercial paper notes of a single issuer does not exceed the aggregate five per cent of interim moneys available at the time of purchase.
2. Inspect dealer confirmations of the bankers' acceptances purchased and determine that the entity has maintained related documentation that the: [Ohio Rev. Code § 135.14(B)(7)(b)]
  - a. Banks are insured by the Federal Deposit Insurance Corporation.
  - b. The acceptances mature not later than 180 days after purchase.
3. For investments in Bankers' Acceptances and Commercial Paper Notes, inspect documentation and determine whether the additional training was received.
4. For school districts, assure the permanent file documents the resolution authorizing the treasurer to invest in commercial paper and / or bankers' acceptances.

<p><b>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

<sup>28</sup> When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

**2-9 Compliance Requirement:** Ohio Rev. Code § 135.18 (specific collateral), and § 135.182 – Security for repaying public deposits; Ohio Rev. Code § 135.37 – Security for repaying county (and county hospital) public deposits

**Summary of Requirements:** Each institution designated as a public depository and awarded public deposits, shall provide security for the repayment of all public deposits by securing all uninsured public deposits of each public depositor separately (Ohio Rev. Code § 135.18(A)(1)), or as applicable to Ohio Rev. Code § 135.182 by establishing and pledging to the treasurer of state a single pool of collateral for the benefit of every public depositor (Ohio Rev. Code § 135.18(A)(2)).

Depository security requirements for county (and county hospital) monies parallel the requirements of other governmental entities pursuant to Ohio Rev. Code § 135.18. Ohio Rev. Code § 135.37(A)(2) expressly permits counties to follow the pool collateral requirements of Ohio Rev. Code § 135.182.

*Depositories may pledge the following securities or other obligations under the subsections of Ohio Rev. Code § 135.18(D) listed below:*

- (1) Bonds, notes, or other obligations of the United States; or bonds, notes, or other obligations guaranteed as to principal and interest by the United States or those for which the full faith of the United States is pledged for the payment of principal and interest thereon, by language appearing in the instrument specifically providing such guarantee or pledge and not merely by interpretation or otherwise;
- (2) Bonds, notes, debentures, letters of credit, or other obligations or securities issued by any federal government agency, or instrumentality, or the export-import bank of Washington; bonds, notes, or other obligations guaranteed as to principal and interest by the United States or those for which the full faith of the United States is pledged for the payment of principal and interest thereon, by interpretation or otherwise and not by language appearing in the instrument specifically providing such guarantee or pledge;
- (3) Obligations of or fully insured or fully guaranteed by the United States or any federal government agency or instrumentality;
- (4) Obligations partially insured or partially guaranteed by any federal agency or instrumentality;
- (5) Obligations of or fully guaranteed by the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank, or Student Loan Marketing Association<sup>29</sup>;
- (6) Bonds and other obligations of this state;
- (7) Bonds and other obligations of any county, township, school district, municipal corporation, or other legally constituted taxing subdivision of this state, which is not at the time of such deposit, in default in the payment of principal or interest on any of its bonds or other obligations, for which the full faith and credit of the issuing subdivision is pledged;
- (8) Bonds of other states of the United States which have not during the ten years immediately preceding the time of such deposit defaulted in payments of either interest or principal on any of their bonds;

---

<sup>29</sup> Financial institutions are allowed to utilize these guarantees as a form of collateral, however, they are still not permitted to pool multiple governments' deposits against a single guarantee. Rather, they should have specific pledges.

- (9) Shares of no-load money market mutual funds consisting exclusively of obligations described in division (D)(1) or (2) of Ohio Rev. Code § 135.18 [these sections are (1) & (2), above] and repurchase agreements secured by such obligations;
- (10) A surety bond issued by a corporate surety licensed by the state and authorized to issue surety bonds in this state pursuant to Ohio Rev. Code Chapter 3929 and qualified to provide surety bonds to the federal government pursuant to 96 Stat. 1047 (1982), 31 U.S.C. § 9304;
- (11) Bonds or other obligations of any county, municipal corporation, or other legally constituted taxing subdivision of another state of the United States, or of any instrumentality of such county, municipal corporation, or other taxing subdivision, for which the full faith and credit of the issuer is pledged and, at the time of purchase of the bonds or other obligations, rated in one of the two highest categories by at least one nationally recognized statistical rating organization.

### ***Pooled Collateral Requirements***

The only legal method for pooled collateral arrangements in Ohio is through the Ohio Pooled Collateral System (OPCS)<sup>30</sup>. The treasurer of state created the OPCS July 1, 2017. Under this program, public depositories that select the pledging method prescribed in Ohio Rev. Code § 135.18(A)(2) or Ohio Rev. Code § 135.37(A)(2), shall pledge to the treasurer of state a single pool of eligible securities for the benefit of all public depositories to secure the repayment of all uninsured public deposits at the public depository; provided that at all times the total market value of the securities so pledged is at least equal either of the following:

- a) One hundred two percent of the total amount of all uninsured public deposits.
- b) An amount determined by rules adopted by the treasurer of state that set forth the criteria for determining the aggregate market value of the pool of eligible securities pledged by a public depository pursuant to division (B) of this section. Such criteria shall include, but are not limited to, prudent capital and liquidity management by the public depository and the safety and soundness of the public depository as determined by a third-party rating organization. (Ohio Rev. Code § 135.182(B)(1))

NOTE: In addition to the statutory requirements above, entities have the ability to negotiate a collateral rate greater than the minimum amounts required. Many entities may have local charter requirements or other agreements with their financial institutions putting these limits in place, auditors should test whether the OPCS has appropriately included such requirements.

The public depository shall designate a qualified trustee approved by the treasurer of state for the safekeeping of eligible pledged securities. [Ohio Rev. Code § 135.182(C)]

Ohio Admin. Code 113-40-01 (17) States: "Operating policies" means the set of operational procedures, policies, and requirements for the use of OPCS, to be made available by the treasurer of state. All participation in OPCS and use of OPCS shall be subject to the operating policies, maintained at the sole discretion of the treasurer of state. The operating policies will be available at <https://opcs.ohio.gov/login#/registrationforms>.

Page 27 of those operating policies indicates: "PUs (Public Units or governments) are responsible for reviewing the reports posted on OPCS related to their deposits of public funds and for verifying the accuracy of the daily reports of their itemized deposits. PUs must report any discrepancies on their deposit accounts to their FIs (Financial Institutions). PUs shall inform their FIs of a significant

<sup>30</sup> If an entity maintains a pool outside of the OPCS, it should be considered non-compliance. Auditors should evaluate whether non-collateralized balances are material when determining how the citation will be communicated. Since financial auditors have no basis in determining what the risk of bank failure actually is, every situation of an illegal pool should be treated as a material non-compliance (depending on quantitative materiality of balances).

change in the amount or activity of its deposits within a reasonable time before the change occurs. FIs may notify the Treasurer's Office if a PU repeatedly fails to inform them of a significant change in the amount or activity in deposits.”

**Ohio Rev. Code § 135.182(K)(1)** indicates some information in (or obtained from) the Ohio Pooled Collateral System is to be treated as “confidential and not a public record under Ohio Rev. Code § 149.43”:

- a. All reports or other information obtained or created about a public depository for purposes of division (B)(1)(b) of this section;
- b. The identity of a public depositor's public depository;<sup>31</sup>
- c. The identity of a public depository's public depositors.

However; the Treasurer of State may release or exchange such confidential information as required by law for the operation of the pooled collateral program.

### ***Specific Pledged Collateral Requirements***

**Ohio Rev. Code § 135.18(B)** indicates if a public depository elects to provide security pursuant to Ohio Rev. Code § 135.18(A)(1), the public depository must pledge eligible securities equal to at least one hundred five per cent.

**Ohio Rev. Code § 135.18(C)** says “the public depository and the public depositor shall first execute an agreement that sets forth the entire arrangement” which shall:

- meet the requirements of 12 USC 1823(e)
- authorize the public depositor to obtain control of the collateral pursuant to Ohio Rev. Code § 1308.24(D).

**Ohio Rev. Code § 135.18(E)** says a public depository shall designate a qualified trustee<sup>32</sup> and place the eligible securities with the trustee for safekeeping. The trustee shall:

- hold the eligible securities in an account indicating the public depositor's security interest in the securities<sup>33</sup>, and
- report to the public depositor information relating to the securities pledged to secure the public deposits in the manner and frequency required by the public depositor.

*Note:* Any Federal Reserve Bank<sup>34</sup> or branch located in this state or Federal Home Loan Bank is qualified to act as trustee for the safekeeping of securities. And any institution mentioned in Ohio Rev. Code § 135.03 is qualified to act as trustee for the safekeeping of securities, other than those belonging to itself, under this section.

---

<sup>31</sup> Only the depository's name would need to be redacted, not the entire work paper. Even if the entity openly shares, auditors are still restricted from releasing information obtained from the OPCS.

<sup>32</sup> All securities eligible as collateral are book-entry only and held at the Federal Reserve. The Federal Reserve Bank acts as the government's agent and holds the collateral securities in the government's name. Deposits secured by collateral held in these accounts are not subject to custodial credit risk disclosures if the government can provide evidence that pledge accounts held in the government's name are in existence at the Federal Reserve.

<sup>33</sup> While the statute does not explicitly mandate the securities be held in the name of the government, it is common practice to satisfy this requirement by doing so.

<sup>34</sup> The Federal Reserve Bank of Cleveland sometimes uses the Boston Federal Reserve Bank for safekeeping. We do not deem this arrangement to violate this provision.

**FDIC Insurance Coverage**

12 C.F.R § 330.15 contains guidance for government (public unit) accounts. For coverage under the Government Accounts category, accounts are grouped into two categories:

- Demand Deposit Accounts: A Demand Deposit Account is a deposit that is payable on demand and for which the depository institution does not reserve the right to require at least seven days' written notice of an intended withdrawal. The following deposit types are included within the definition of Demand Deposit Accounts:
  - Checking (Non-Interest and Interest bearing)
- Time and Savings Accounts: The following deposit types are included within the definition of "Time and Savings"
  - NOW Account (these are deposits on which the depository institution has reserved the right to require at least 7 days written notice prior to withdrawal or transfer of any funds from the account)
  - Savings
  - Certificate of Deposit (CD)
  - Money Market Deposit Account (MMDA)

Government Accounts will be insured at each insured depository as follows:

In-State:

Up to \$250,000 for the combined amount of all time and savings accounts, and  
Up to \$250,000 for all demand deposit accounts.

Out-of-State:

Up to \$250,000 for the combined total of all deposit accounts.

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

Determine whether the auditee had material deposits during the audit period with a financial institution enrolled in the OPCS (see listing with dates enrolled at <https://opcs.ohio.gov/login#/>)

- a. Complete procedures #1&2 for those in OPCS, and
- b. Complete #3&4 for those not in OPCS

**Procedures for Financial Institutions enrolled in OPCS**

1. Obtain and review the AOS State Regions annual report related to the testing of the OPCS (<https://ohioauditor.gov/ipa/correspondence>)<sup>35</sup>
2. Auditors may use credentials to access<sup>36</sup> <https://opcs.ohio.gov/login#/> and test compliance using the following steps:
  - a. Review *PU Attestation* and *PU Never Logged In Reports* for appropriate dates to:
    - i. Determine if the auditee is sufficiently monitoring compliance as required.
  - b. Review the *Deposit Information & Sufficiency Report* and/or *Public Unit Insufficiency Report* and perform the following:

<sup>35</sup> Testing performed by AOS State Region provides assurance over:

- Bank Rating System (SCALE)
- Collateral Sufficiency Calculations (meet Ohio Rev. Cod requirements)
- Security Interest Perfection

<sup>36</sup> AOS auditors should contact the helpdesk and IPA auditors should contact [IPAcorrespondance@ohioauditor.gov](mailto:IPAcorrespondance@ohioauditor.gov) to obtain credentials.

- i. Observe, document, and compare the year-end balance to confirmed balances in cash testing. (*Note:* Some completeness testing should also be performed to determine that all accounts that should be included in OPCS are actually included.)
- ii. Observe, document, and print evidence of collateral sufficiency<sup>37</sup> for multiple dates during the audit period.

*Note:* When issuing comments for collateral insufficiencies, auditors should consider

1. *Is it a frequent occurrence?*
2. *Was it corrected immediately (i.e. within one business day)?*
3. *Is the uncovered balance significant (based on applicable benchmarks)?*
4. *Did the entity inform the financial institution of deposits within a reasonable time as required by operating policies (see guidance above)?*

*Note:* For additional help on using OPCS reports see the AOS OPCS Training Manual available at <https://opcs.ohio.gov/login#/faqhelp>

### ***Procedures for Financial Institutions not enrolled in OPCS***

1. Determine if the financial institution has an agreement with the entity for a specific pledge agreement (*Note:* pooled arrangements are not allowed outside of OPCS<sup>30</sup>)
2. Compare depository balances to depository collateral during the audit period, noting maximum amounts on deposit at any time. Calculate (or inspect, if available, the government's calculations) if legal security was at least equal to 105% of depository balances. Focus audit procedures on the most recent fiscal year end, but based on your assessment of the control environment, the nature of collateral and other risks also consider whether you should evaluate the adequacy of collateral as of other dates during the audit when deposit or investment balances may have been materially higher, such as immediately after the receipt of tax settlements.
3. Inspect the financial institution's listing of pledged securities. Select a few securities and determine if the institution pledged only eligible securities. (When determining the extent of testing, auditors should consider that we do not require a high level of assurance, so a "few" items should be sufficient. Auditors can reduce or eliminate this testing based on the assessed level of control risk\* and past experience with the financial institution. Therefore, if the government documents its review of collateral eligibility, or we have not noted eligibility problems in prior audits, we can reduce or eliminate this test.)

\* "Control risk" in this context refers to the government's controls, if any, over reviewing their financial institutions' collateral lists. The AOS has no basis for assessing a financial institution's control risk.

---

<sup>37</sup> "Collateral sufficiency" is variable based on approvals from the Treasurer of State (see Pooled collateral requirements in the Summary of Requirements above). Collateral sufficiency thresholds may be as low as 50% (effective date of approval for each financial institution can be found in OPCS), however, the default is 102% if the financial institution has not applied or been approved for the reduced amount.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COUNTY (AND COUNTY HOSPITAL) REQUIREMENTS**

The provisions of Ohio Rev. Code Chapter 135 relating to counties (and county hospitals) are in separate sections from the provisions relating to all other subdivisions. However, in most cases the requirements are very similar.

**2-10 Compliance Requirement:** Ohio Rev. Code §§ 135.35, 135.353, and 339.061(D) - Eligible Investments for inactive county money (county hospitals may invest in these same securities, per Ohio Rev. Code § 339.06).

**Summary of Requirements:**

The following classifications of securities and obligations are eligible for deposit or investment (*Note:* All investments, unless noted otherwise below, must mature within 5 years from the date of settlement [Ohio Rev. Code § 135.35(C)]<sup>38</sup>):

- United States obligations or any other obligation guaranteed as to principal or interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States. [Ohio Rev. Code § 135.35(A)(1)]
- Stripped principal or interest obligations are not permitted. Except, Federally-issued or Federally-guaranteed stripped principal or interest obligations are permitted. [Ohio Rev. Code § 135.35(A)(1)]
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities must be direct issuances of federal government agencies or instrumentalities. [Ohio Rev. Code § 135.35(A)(2)]
- Time certificates of deposit<sup>13</sup> or savings or deposit accounts, including passbook accounts, in any eligible institution mentioned in Ohio Rev. Code § 135.32. [Ohio Rev. Code § 135.35(A)(3)]
- Ohio Rev. Code § 135.353 also permits counties to use the Certificate of Deposit Account Registry Services (CDARS) or similar programs (one example is Star Plus) meeting Ohio Rev. Code § 135.353 requirements. If a county purchases CDs for more than the FDIC limit (\$250,000). *See OCS step 2-6* with a bank participating in CDARS, Star Plus, etc., the bank or program “redeposits” the excess amounts with other institutions. Each bank accepts less than \$250,000 so that all deposits have FDIC coverage. Ohio Rev. Code § 135.353 requires a county to place its deposits with an eligible depository per Ohio Rev. Code § 135.32. However, institutions the county’s depository places excess deposits with are not subject to Ohio Rev. Code § 135.32. For example, while the deposit must be initiated at an Ohio depository branch, the Ohio depository can purchase CDs from depositories outside of Ohio for the excess. Because all CDARS, Star Plus, etc. deposits have FDIC coverage, the collateral requirements of Ohio Rev. Code §§ 135.18, 135.181, or 135.182 do not apply. (That is, these are *insured* deposits for GASB Statement No. 40 purposes.)
  - Any CD’s purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices

<sup>38</sup> A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years due to a temporary change in this law. (This is because in 2012 H.B. 225 was enacted and then repealed months later)

with a monthly account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.

- Bonds and other obligations of this state or the political subdivisions of this state, provided the bonds or other obligations of political subdivisions mature within **ten years** from the date of settlement. [Ohio Rev. Code § 135.35(A)(4)]
  - Ohio Rev. Code § 135.35(C) allows the purchase of municipal debt of the State of Ohio or **any** political subdivision of the State with maturity periods greater than 10 years provided that the investment is specifically approved by the investment advisory committee.
- No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service or consisting exclusively of obligations described in Ohio Rev. Code § 135.143(A)(1), (2), or (6) and repurchase agreements secured by such obligations, if purchased from eligible institutions mentioned in Ohio Rev. Code § 135.32 (which are generally Ohio banks and national banks authorized to do business in **Ohio**.) [Ohio Rev. Code § 135.35(A)(5)]
- United States treasury bills, notes, bonds, or any other obligations or securities issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States; bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality or commercial paper rated in the highest category by two standard rating services (i.e. securities Ohio Rev. Code § 135.143(A)(1), (2), or (6) permits);
- The Ohio Subdivision’s Fund (STAR Ohio<sup>15</sup>) as provided in Ohio Rev. Code § 135.45. [Ohio Rev. Code § 135.35(A)(6)]
- Securities lending agreements with any eligible institution mentioned in Ohio Rev. Code § 135.32 that is a member of the Federal Reserve System or Federal Home Loan Bank, or with any recognized U.S. government securities dealer,<sup>39</sup> under the terms of which agreements in the investing authority lends securities and the eligible institution agrees to simultaneously exchange similar securities described in Ohio Rev. Code § 135.35(A)(1) or (2) or cash or both securities and cash, equal value for equal value. [Ohio Rev. Code § 135.35(A)(7)]
- Up to forty per cent of the county’s total average portfolio in either of the following [Ohio Rev. Code § 135.35(A)(8)]:
  - **Commercial paper** issued by an “entity” that is defined in division (D) of Ohio Rev. Code § 1705.01 (see definition below) and that has assets exceeding five hundred million dollars, to which all of the following apply:
    - The aggregate value of the notes does not exceed ten per cent of the aggregate value of the outstanding commercial paper of the issuing corporation.

---

<sup>39</sup> Ohio Rev. Code § 135.35(J)(1) defines these security dealers as being “a member of the financial industry regulatory authority (FINRA), through a bank, savings bank, or savings and loan association regulated by the superintendent of financial institutions, or through an institution regulated by the comptroller of the currency, federal deposit insurance corporation (FDIC), or board of governors of the federal reserve system.”

- The notes are rated at the time of purchase in the highest classification established by at least two nationally recognized standard rating services.
- The notes mature not later than 270 days after purchase.
- The investment in commercial paper notes of a single issuer shall not exceed in the aggregate 5% of interim moneys available for investment at the time of purchase.
- **Bankers' acceptances** of banks that are insured by the federal deposit insurance corporation and to which the obligations mature not later than one hundred eighty days after purchase.

No investment shall be made in commercial paper or bankers' acceptances unless the treasurer or governing board has completed additional training for making those investments. The type and amount of additional training shall be approved by the Treasurer of State and may be conducted by or provided under the supervision of the Auditor of State. See also OCS step 2-21.

- Per Ohio Rev. Code § 135.35(A)(9), up to fifteen per cent of the county's total average portfolio in notes issued by corporations incorporated under U.S. law and that operate within the United States, or by depository institutions doing business under U.S. authority or any state's authority, and that operate within the United States, provided both of the following apply:
  - The notes are rated in one of the three highest categories by at least two nationally recognized standard rating services at the time of purchase;
  - The notes mature not later than three years after purchase.
- Per Ohio Rev. Code § 135.35(A)(10) up to 2% of its portfolio in the debt of foreign nations, if:
  - Rated at the time of purchase in the three highest categories by two nationally recognized standard rating services
  - The U.S. government recognizes it diplomatically.<sup>40</sup>
  - All interest and principal shall be denominated and payable in United States funds.
  - The foreign government guarantees the debt.
  - Investments must mature within 5 years from the date of settlement.

**Note:** A county may hold investments purchased between 3/22/12 and 9/10/12 until their maturity of up to 10 years (this is because in 2012 H.B. 225 was enacted and then repealed months later).

“Entity” means any of the following [Ohio Rev. Code § 1705.01(D)]:

- A corporation existing under the laws of this state or any other state;
- Any of the following organizations existing under the laws of this state, the United States, or any other state:
  - A business trust or association;
  - A real estate investment trust;
  - A common law trust;
  - An unincorporated business or for profit organization, including a general or limited partnership;
  - A limited liability company.

---

<sup>40</sup> As best as we can determine, the United States does not recognize the following nations: ISIS, Bhutan, Iran, North Korea, and the Republic of China (Taiwan).

The investing authority may also enter into a written repurchase agreement with any eligible institution mentioned in Ohio Rev. Code § 135.32 or any eligible dealer pursuant to Ohio Rev. Code § 135.35(J), under the terms of which agreement the investing authority purchases, and the eligible institution or dealer agrees unconditionally to repurchase any of the securities listed in divisions (D)(1) to (5) of § 135.18, except letters of credit described in division § 135.18(D)(2) are not permitted for repurchase agreements.<sup>41</sup> The market value of securities subject to an overnight repurchase agreement must exceed the principal value of securities subject to a repurchase agreement by at least 2%.<sup>17</sup> A written repurchase agreement shall not exceed 30 days and the value of the securities must exceed the principal value by at least 2% and be marked to market daily. [Ohio Rev. Code § 135.35(D)]

- All securities purchased pursuant to a repurchase agreement are to be delivered into the custody of the investing authority or the qualified custodian of the investing authority or an agent designated by the investing authority<sup>42</sup>. [Ohio Rev. Code § 135.35(D)]
- Repurchase agreements with an eligible securities dealer must be transacted on a delivery versus payment basis.
- Repurchase agreements must be in writing. For each transaction, the participating institution must provide:
  - the par value of the securities;
  - the type, rate, and maturity date of the securities;
  - a numerical identifier (e.g., a CUSIP number), generally accepted in the industry, designating the securities.
- Securities which are the subject of a repurchase agreement may be delivered to the treasurer or held in trust by the participating institution if it is a designated depository of the subdivision for the current period of designation. [Ohio Rev. Code § 135.35(I)].

Agreements by which the investing authority agrees to sell securities owned by the county to a purchaser and agrees with that purchaser to unconditionally repurchase those securities (*Reverse Repos*) are prohibited.

Per Ohio Rev. Code § 135.14, Derivative investments are generally prohibited. A *Derivative* is a financial instrument or contract or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself.

- Per Ohio Rev. Code § 135.14(C), Any security, obligation, trust account, or other instrument that is created from an issue of the United States Treasury or is created from an obligation of a federal agency or instrumentality or is created from both is considered a derivative, and is prohibited.
  - Except, An eligible investment described in Ohio Rev. Code § 135.14 with a variable interest rate payment or single interest payment, based upon a single index comprised of other eligible investments provided for in division (B)(1) or (2) of § 135.14 (see above), is **not** a derivative, if the variable rate investment has a maximum maturity of 2 years. [Ohio Rev. Code § 135.14(C)]
    - For example, a two-year investment in Federal securities with a variable interest rate indexed to other Federal securities would be legal, because Ohio Rev. Code § 135.14(C) expressly permits using Federal securities as part of a derivative if it

<sup>41</sup> Ohio Compliance Supplement Step 2-9 summarizes Ohio Rev. Code § 135.18(D)(1) to (11).

<sup>42</sup> Counterparties (e.g. banks) accomplish this by maintaining a separate “customer” account at the Federal Reserve designated as a customer account. (For purposes of GASB Statement No. 40, we currently believe securities held in a customer account would not be exposed to custodial risk.)

matures within two years. Conversely, an investment indexed to an interbank offered rate<sup>20</sup> or to a bank's prime rate would not be legal because these are not listed in Ohio Rev. Code § 135.14(B)(1) or (B)(2).

- **Note:** The Ohio Rev. Code still uses the derivative definition from GASB Technical bulletin 94-1. GASB Statement No. 53 (GASB Cod. D40.103), defines derivatives differently than does the Revised Code. So, for legal compliance purposes, governments must follow the Ohio Rev. Code derivative definition. For financial reporting, GAAP governments must follow the GASB definition to value, present, and disclose derivatives.
  - For example, interest rate swaps<sup>21</sup> and energy futures contracts (which are allowable under Ohio Rev. Code § 9.835 to mitigate price fluctuations, and are not intended as investments) meet the GASB Statement No. 53 derivative definition, and would be subject to GASB Statement No. 53 derivative measurement and disclosure requirements, but are *not* illegal.
- 1999 Op. Att'y. Gen. No. 99-026 deemed collateralized mortgage obligations to be illegal derivatives.
- A treasury inflation-protected security (TIPS) is permissible for counties only, per Ohio Rev. Code § 135.35(B) [H.B. 225, effective 3/22/12 and then repealed 9/10/12, temporarily increased this to ten years.]

Per Ohio Rev. Code § 135.35(E): No investing authority can invest under § 135.35, unless the investing authority reasonably expects that the investment can be held until its maturity. The investing authority's written investment policy should specify the conditions under which an investment may be redeemed or sold prior to maturity.

Per Ohio Rev. Code § 135.35(F), no investing authority may pay a county's inactive moneys or moneys of a county library fund into an investment pool *other than*:

- the Ohio Subdivision's Fund (STAR Ohio<sup>15</sup>) pursuant to Ohio Rev. Code § 135.35(A)(6);
- a fund created solely for the purpose of acquiring, constructing, owning, leasing, or operating municipal utilities pursuant to Ohio Rev. Code § 715.02 or Ohio Const. Art XVIII, Section 4.

A county may not leverage its investments. (That is, a county cannot use its current investments as collateral to purchase other investments.) [Ohio Rev. Code § 135.35(G)]

A county cannot issue taxable notes for arbitrage purposes. [Ohio Rev. Code § 135.35(G)] (That is, a county cannot invest the proceeds of taxable notes hoping to earn a higher return on the proceeds than the interest rate on the TAN.)

A county cannot contract to sell securities it does not own. (These are called *short sales*, where a county purchases the rights to a security solely on the speculation that its price will decline.) [Ohio Rev. Code § 135.35(G)]

Title to investments made by a board of county hospital trustees of a charter county hospital with money received from the operation of the county hospital shall not be vested in the county, but shall be held in trust by the board. [Ohio Rev. Code § 339.061(D)]

Payment for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from the custodian by the treasurer, governing board, or qualified trustee. [Ohio Rev. Code § 135.35(J)(2)]

**Suggested Audit Procedures – Compliance (Substantive) Tests:**

**Note:** Some of the steps below require the same documentation / evidence auditors also use to support the *existence, valuation and classification* of investments. You can gain efficiency by combining the steps below with the substantive steps related to the aforementioned assertions.

Select a representative number<sup>43</sup> of investments and:

1. Read investment dealer confirmations\* to determine if the investment is of a type authorized.

\* **Note:** Dealer confirmations are suitable evidence supporting the details (e.g. part of the valuation [cost] and occurrence assertions) of an investment at the time of purchase. However, it provides no evidence the county still owned the investment as of its fiscal year end. Auditors should obtain other evidence to support existence at year end. The audit program should include suitable existence steps.

2. If the government holds financial instruments or contract or obligation whose value or return is “based upon or linked to another asset or index, or both, separate from the financial instrument,” consider whether the instrument is an illegal derivative.
  - a. If the instrument is not an interest-rate swap, or expressly permitted (such as energy futures under Ohio Revised Code 9.835), consult with the Center for Audit Excellence to determine its Legality, Valuation, Presentation and Disclosure.
3. Determine that the investments mature within the prescribed limits (generally no later than 5 years, or *other* periods for repurchase agreements [30 days], bankers’ acceptances and commercial paper [180 or 270 days, respectively, from the purchase date], or securities matched to debt maturities, etc.)
4. Inspect documentation supporting repurchase agreements and determine that:
  - a. The market values of securities exceed the principal values of securities subject to the overnight repurchase agreement by at least 2%. (**Note:** The risk of non-compliance increases when banks merge.)
  - b. A term repurchase agreement did not exceed 30 days and the values of the securities were marked to market daily.
  - c. Repurchase agreements were in writing, including the par value of the securities; the type, rate, and maturity date of the securities; and a numerical identifier.
5. For investments in Bankers’ Acceptances and Commercial Paper Notes, inspect documentation and determine whether the additional training was received.
6. Read the prospectus for money market mutual funds with which the government has significant investments. Determine whether the prospectus limits investments to those authorized under Ohio Rev. Code §§ 135.35(A)(1) & (A)(2) or 135.143(A)(1), (2), or (6).
7. Determine whether mutual funds, commercial paper, and any notes of U.S. corporations have the necessary credit rating issued by national ratings agencies (such as that S&P, Moody’s or Fitch issues).

---

<sup>43</sup> When judging “a representative number,” consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

8. Inspect dealer confirmations of the bankers' acceptances purchased and determine that the county has maintained related documentation that the:
  - a. Banks are insured by the Federal Deposit Insurance Corporation
  - b. Dealer confirmations should indicate if banker's acceptances were **NOT** eligible for purchase by the Federal Reserve System. Read the confirmation to determine whether the banker's acceptance was **ineligible**. (A statement of ineligibility would indicate an **ineligible** investment, per Ohio Rev. Code § 135.35(A)(8)(b).
9. Scan the county's computation of the composition of its investments. Determine if the portfolio contains ≤:
  - a. 2% foreign national securities
  - b. 15% debt of U.S. corporations
  - c. 40% commercial paper + bankers' acceptances
10. Scan investment records to determine whether the county is selling securities prior to maturity. If a significant number or amount of premature sales occurred:
  - a. Determine whether the premature sales complied with the county's policy regarding early redemption. (We believe the policy should generally require sufficient cash flow planning to support that the county had sufficient cash at the time of purchase so that a premature sale would not be needed to meet emergency cash flow needs. Forced premature sales often result in losses.)
  - b. Review the county's cash flow forecasts supporting that the county had reasonable support at the time of purchase that it could hold the security to maturity. If there is inadequate cash flow planning necessitating premature sales, cite this section and recommend the government improve its cash flow forecasting. The finding should also describe any losses the government suffered from these sales.

**Note:** The steps above should normally be sufficient for most counties. Because we believe the risk of counties engaging in certain prohibited activities such as leveraging, short sales or arbitrage violations is low, there are no steps included to test these requirements. You should scan the other requirements in this step, and based on your knowledge of the county's investing activities, investigate them if evidence suggests the county may have materially violated these requirements.

<p><b>Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

**2-11 Compliance Requirement:** Ohio Rev. Code §§ 135.35 and 339.061(B) – Other County and County Hospital [Ohio Rev. Code § 339.06] Requirements.

**Summary of Requirements:**

Investments or deposits under Ohio Rev. Code § 135.35 cannot be made unless a written investment policy approved by the investing authority (for hospitals, the authority is the county hospital board, per Ohio Rev. Code § 339.06) is on file with the Auditor of State. If a written investment policy is not filed with the Auditor of State, the investing authority may invest only in certificates of deposit, savings or deposit accounts, STAR Ohio<sup>15</sup>, or no-load money market mutual funds. [Ohio Rev. Code § 135.35(K)(1)&(2)]

The investment policy must be signed by:

- All entities conducting investment business with the investing authority (except the Treasurer of State);
- All brokers, dealers, and financial institutions, described in Ohio Rev. Code § 135.35(J)(1), initiating transactions with the investment authority by giving advice or making investment recommendations;
- All brokers, dealers, and financial institutions, described in Ohio Rev. Code § 135.35(J)(1), executing transactions initiated by the investing authority.

The investing authority is required to inventory all obligations and securities. The inventory includes a description of each obligation or security, including type, cost, par value, maturity date, settlement, date, and any coupon rate. [Ohio Rev. Code § 135.35(L)(1)]

The investing authority is required to keep a complete record of all purchases and sales of the obligations and securities. [Ohio Rev. Code § 135.35(L)(2)]

The investing authority is required to keep a monthly portfolio report and issue a copy of the monthly report describing its investments to the county investment advisory committee. This report indicates: [Ohio Rev. Code § 135.35(L)(3)]

- the current inventory of all obligations and securities,
- all transactions during the month that affected the inventory,
- any income received from the obligations and securities, and
- any investment expenses paid.
- The names of any persons executing transactions on behalf of the investing authority.

The inventory and the monthly portfolio report are public records and must be filed with the board of county commissioners and the Treasurer of the State of Ohio. [Ohio Rev. Code § 135.35(L)(5)]

Any securities, certificates of deposit, deposit accounts, or any other documents evidencing deposits or investments must be issued in the name of the county with the county treasurer or investing authority as the designated payee. [Ohio Rev. Code § 135.35(H)]

If any such deposits or investments are registerable as to principal and/or interest, they must be registered in the name of the treasurer. [Ohio Rev. Code § 135.35(H)]

The investing authority is responsible for safekeeping documents evidencing a deposit or investment. Securities and documents confirming the purchase of securities under any repurchase agreement may be deposited with a qualified trustee. [Ohio Rev. Code § 135.35(I)]

The investing authority, board of county hospital trustees of a charter county hospital, is responsible for holding and administering all money received from the operation of the county hospital. This includes money arising from rendering medical services to patients and all other fees, deposits, charges, receipts, and income received as the result of the operation of the county hospital and medical staff. [Ohio Rev. Code § 339.061(B)]

- Money must be invested according to an investment policy which provides the following:
  - At least 25% of the average amount of the investment portfolio over the course of the preceding fiscal year must be invested as a reserve in U.S. governmental securities, the Ohio Subdivisions Fund, Ohio state or political subdivision securities, certificates of deposit issued by national banks located in Ohio, repurchase agreements with Ohio financial institutions that are members of the Federal Reserve System or Federal Home Loan Bank, money market funds, or bankers' acceptance maturing within 270 days or less;
  - Money not required to be invested as a reserve may be pooled with other institutional funds and invested;
  - An investment committee is to be created and meet quarterly to review revisions to the board's investment policy and advise the board on investments.
  - If an investment advisor is retained, they must be licensed by the Division of Securities or registered with the U.S., Securities and Exchange Commission, and must have experience in the management of investments of public funds and investment of state government portfolios, or be an institution that is eligible to be a public depository. [Ohio Rev. Code § 339.061(C)]

Where securities, including securities which are the subject of a repurchase agreement, have been delivered to a qualified trustee for safekeeping, the qualified trustee must report on request to the treasurer, governing board, Auditor of State, or authorized IPA as to the identity, market value, and location of the document evidencing each security.

All investments in securities except investments described in Ohio Rev. Code § 135.35(A)(5), (6), and (11) [no load money market mutual funds and certain repos] are required to be made through

- members of the Financial Industry Regulatory Authority (FINRA), or
- institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of the Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System. [Ohio Rev. Code § 135.35(J)(1)]

Payment for investments may be made only upon delivery of the securities to the treasurer, investing authority, or qualified trustee, or, if in book-entry form, only upon confirmation of delivery to such parties. [Ohio Rev. Code § 135.35(J)(2)]

### **Suggested Audit Procedures – Compliance (Substantive) Tests:**

1. Read the county's investment policy for the period.
2. Inspect documentation that the investment policy was filed with the Auditor of State (Investment policies filed with AOS have been scanned and are posted on S:\Final Audit PDF. Click on the Region/County/Entity name.) .

3. Inspect the policy for the requisite signatures:
  - a. All entities conducting investment business with the county (except the Treasurer of State);
  - b. All brokers, dealers, and financial institutions initiating transactions with the county by giving advice or making investment recommendations;
  - c. All brokers, dealers, and financial institutions executing transactions initiated by the county.
  - d. Select a representative number of investments made by the entity and determine whether the investments are in accordance with the county's investment policy as adopted by the county's legislative body.
4. Determine if the policy requires financial institutions, brokers and dealers to comply with Ohio Rev. Code Chapter 135. (There is no legal requirement to include this, but if the policy does not include this requirement, we should recommend the government amend their policy to require compliance.)
5. If there is no written investment policy filed with the Auditor of State, scan the county's investment portfolio for the period to determine that it is composed solely of certificates of deposit, savings or deposit accounts, STAR Ohio<sup>15</sup>, or no-load money market mutual funds.
6. Select a representative number<sup>44</sup> or amount of investments and:
  - a. Inspect documentation that any designated payee is the treasurer or treasurer's office; and that registerable securities are registered in the treasurer's name.
  - b. Inspect purchase documents and determine that investments were made through appropriate parties: members of the National Association of Securities Dealers, Inc., or institutions regulated by the Superintendent of Banks, Superintendent of Savings and Loan Associations, Comptroller of the Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System. Compare purchase dates and payments and determine that payment for securities was made upon delivery of the securities or upon receipt of confirmation of transfer from the custodian. Any CD's purchased by a broker must be held in the name of the government. Also, the broker cannot be in possession of cash at any time. If we believe a broker has held cash for any length of time, AOS auditors should refer the matter to the Center for Audit Excellence and AOS Legal division for further evaluation. A way to verify compliance is to request monthly statements provided by the public depository located in Ohio. Ohio Rev. Code § 135.144(A)(5) requires the initial public depository to provide public offices with a monthly account statement that includes the amount of its funds deposited and held at each bank, savings bank, or savings and loan association for which the public depository acts as a custodian pursuant to Ohio Rev. Code § 135.144. If a public office does not have these statements, it may indicate that the money is being held by a broker-dealer in violation of Ohio Rev. Code § 135.144.
  - c. Inspect copies of the investing authority's (i.e. treasurer's) inventory documents: scan the documents and determine if it appears the inventory includes a description of each obligation or security, including type, cost, par value, maturity date, settlement, date, and any coupon rate; the inventory reflects a complete record of all purchases and sales of the obligations and securities; and that the county is keeping a monthly portfolio report and is issuing a quarterly investment report describing its investments to the county investment advisory committee.

---

<sup>44</sup> When judging "a representative number," consider focusing on investments held at year end, but also consider testing other purchases and sales during the audit period. In judging how many purchases to test, consider the volume of purchases, the control environment, the adequacy of policies, and the results of prior audits.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COMMUNITY SCHOOLS**

**2-12 Compliance Requirement:** Ohio Rev. Code § 3314.04 - Contractually imposed deposit and investment requirements.

Pursuant to Ohio Rev. Code § 3314.04, Ohio Rev. Code Chapter 135 does not apply to community schools. However, other entities may impose restrictions on investments, collateral, etc. Such entities could be grantors, creditors, the sponsor, board policy, etc. Auditors should identify and list any applicable requirements below:

*[Insert applicable depository and investment requirements.]*

**Suggested Audit Procedures – Compliance (Substantive) Tests**

*[Insert applicable audit procedures. See other OCS Sections for example audit procedures.]*

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## SECTION F: OTHER LAWS AND REGULATIONS

## COMMUNITY SCHOOLS

**Revised: HB 164, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 166, 133 GA**  
**Effective: July 18, 2019**

**Revised: HB 409 133 GA, as**  
**amended by HB 67, 134 GA**  
**Effective: March 20, 2021**

**2-13 Compliance Requirement:** Ohio Rev. Code §§ 3314.011, 3314.019, 3314.02, 3314.023, 3314.03, 3314.036, 3314.39, 3314.46- Sponsor monitoring of community schools

**Summary of Requirement:**

The sponsor may contract with the school to receive 3% or less of the amount *the State pays to a school annually*, for the costs of its monitoring, oversight, and technical assistance. In other words, the total amount of such payments for monitoring, oversight, and technical assistance of the school shall not exceed 3% of the total amount of payments for *operating expenses that the school receives from the State*<sup>45</sup>. [Ohio Rev. Code § 3314.03(C)] (Suggested Audit Procedure 3)

No sponsor shall sell any goods or services to a community school it sponsors, except in limited circumstances included in Ohio Rev. Code § 3314.46(B) a sponsor can earn more than 3% if it sells additional goods or services beyond sponsorship. These circumstances are limited to<sup>46</sup>:

- 1) Contracts entered prior to 2/1/16 that involve the sale of goods or services to a community school it sponsors;
- 2) If the sponsor of a community school is also the school district in which that community school is located, the sponsor may sell goods or services to that community school at no profit to the sponsor or
- 3) If the sponsor of a community school is a state university, as defined in Ohio Rev. Code § 3345.011, the sponsor may sell services to that community school at no profit to the sponsor.

<sup>45</sup> AOS has determined that these monies would include Full-Time Equivalency (FTE is explained in step 1-27), State grant, and Federal grant monies. *Grant monies that are restricted from general operations (such as capital grants or grants for limited operation programs like special education) should be excluded from calculations as these monies cannot be used for general operating expenses.*

<sup>46</sup> "Operator" or 'management company' means either of the following: (a) An individual or organization that manages the daily operations of a community school pursuant to a contract between the operator or management company and the school's governing authority; or (b) A nonprofit organization that provides programmatic oversight and support to a community school under a contract with the school's governing authority and that retains the right to terminate its affiliation with the school if the school fails to meet the organization's quality standards. [Ohio Rev. Code § 3314.02(A)(8)]

- Therefore, the terms "operator" and "management company" are synonymous, and sections 2-5 & 2-14 apply to any entity meeting the definition above.
- An educational service center or school district who is a community schools sponsor, may also be 'operating' the community school pursuant to an agreement. In addition, certain community schools are the operator of other community schools. In these situations, sections 2-5 & 2-14 would be applicable.

If none of these exceptions are met a sponsor should not receive more than the 3% mentioned above (there also is no legal authority for a school to simply pay unused funds to their sponsor beyond statutorily allowed amounts). A contract should specify these additional services, and should differentiate them from the services required of a sponsor. This prohibition is specific to a community school's sponsor. It does not, however, prevent a third party vendor that a sponsor contracts with from separately contracting with a community school to provide fiscal and instructional goods or services to a community school at a profit. Community schools cannot sponsor other community schools [Ohio Rev. Code § 3314.02(C)(1)(f)(iv)]. (Suggested Audit Procedures 3a & b)

It should be noted that AOS defers to ODE's position that although Ohio Rev. Code § 3311.055 explains that the term 'school district' shall be construed to include educational service centers, this does not apply to Ohio Rev. Code § 3314.46(B)(2).

Each contract between the sponsor and the school must specify certain items [Ohio Rev. Code § 3314.03(A)]<sup>47</sup>. While not all inclusive, the following items, if omitted from the contract or not sufficiently described therein, are those where noncompliance could indirectly and materially impact a community school's ability to continue operations under a valid charter contract: (Suggested Audit Procedure 1)

- Each contract between a community school sponsor and governing authority must:
  - contain performance standards, including all applicable report card measures;
  - contain information regarding facilities costs and financing, attendance policies and records, and loans from the school's operator; and
  - require that a community school's attendance and participation records be made available to the extent permitted by federal law.
- A community school is required to define **learning opportunities** in its contract with its sponsor: [ODE FTE Review Manual & Ohio Admin. Code 3301-102-02(M)]
  - It may include both classroom-based and non-classroom-based activities.
  - These activities have to be either directly provided by a teacher or supervised by a teacher; the school should be able to identify the teacher.
  - These activities have to be educational, instructional, and goal-oriented; there should be some school policy or guidance that in advance describes the goal, mainly of non-classroom-based activities. Just reporting activities after-the-fact without prior goals, prior specification of activities, and/or teacher direction is not sufficient.

Instructional hours in a community school's day include time for changing classes, but not the recess, breakfast and lunch periods.

- **Blended Learning**<sup>48</sup> – [Ohio Rev. Code § 3314.03(A)] If a school operates using a blended learning model the contract should describe the blended learning model(s).
  - The statute also requires the sponsor of each community school that operates using the "blended learning" method to annually provide to the Ohio Department of Education, not later than ten business days prior to the school's opening of their first year of operation, or if the school is not an e-school and it changed buildings that year, assurance that the

<sup>47</sup> Per Ohio Rev. Code § 3314.03(A)(13), a contract should not exceed five years, unless renewed. The law appears to be silent on the number of renewals permitted.

<sup>48</sup> Blended learning is the delivery of instruction in a combination of time in a supervised, physical location away from home and online delivery where the student has some element of control over time, place, path, or pace of learning [Ohio Rev. Code § 3301.079(K)(1)].

sponsor has reviewed the following information submitted by the school<sup>49</sup> [Ohio Rev. Code § 3314.19]:

- (1) An indication of what blended learning model or models will be used;
- (2) A description of how student instructional needs will be determined and documented;
- (3) The method to be used for determining competency, granting credit, and promoting students to a higher grade level;
- (4) The school's attendance requirements, including how it will document participation in learning opportunities;
- (5) A statement describing how student progress will be monitored;
- (6) A statement describing how private student data will be protected; and
- (7) A description of the professional development activities that will be offered to teachers.

More information about H.B. 2 requirements for blended learning for community schools can be found on ODE's website at: <https://education.ohio.gov/getattachment/Topics/Community-Schools/Sections/Public-Documents-and-Reports/Blended-Learning-Guidance.pdf.aspx>.

- **Attendance** - The contract should specify that the school create an attendance policy. Such should indicate how participation in learning opportunities provided will be measured by a community school and its sponsor. It is especially important that a community school's policy detail how, for example, the school will capture participation of students in e-schools and blended learning environments when attendance itself may not always be the important factor.
  - **Per 133GA, HB 164, Section 16: (B) Each qualifying public school governing body (as defined in (A)(2) of Section 16) may adopt a plan to provide instruction using a remote learning model for the 2020-2021 school year in accordance with this section. See suggested audit procedure #6 below.**
    - **Remote learning plans are a temporary alternative for FY 2021 only and apply to traditional public schools and community schools that are not computer- or internet-based community schools and not operating blended education delivery models. Community schools using remote learning plans should track attendance details locally to the degree that their current systems allow, as long as they are able to address the considerations outlined in the Department's Remote Education Planning guidance as well as Attendance Considerations for Remote Learning Plans guidance. (Further testing in 1-27)**

In addition, per ODE's FTE review manual:

- Taking part in a **credit flexibility**<sup>50</sup> activity may count in the instructional hours of a student if the *student(s)* asks to use credit flexibility, and the other procedures associated with credit flexibility are in place, such as goal-setting, specification and completion of activities, and review by a licensed teacher.
- **Instructional Day** – A school's contract with its sponsor defines its instructional day. The instructional day:

<sup>49</sup> 133 GA H.B. 166 changed the requirements for opening assurances. Effective FY 2021, opening assurances are only required for new schools, or existing community schools that changed school buildings that year.

<sup>50</sup> Authorized by the State Board of Education under the Alternative Pathways for high school students, Credit Flexibility permits students to meet core coursework requirements in four ways: Traditional, Integrated, Applied or Career-Technical. Students can earn credit through classroom instruction, demonstration of subject area competency, or a combination of both.

- May be the time between when students come in and when student leave, or when instruction begins and when instruction ends; or
- May be accomplishment of specified activities and completion of certain tasks by students who are doing assigned work that is individualized to a single student's program or curricular area of interest.
- **Total Membership Unit** – The contract should specify the number of either days or hours of instruction the community school will provide during a school year.

The contract between the sponsor and the school shall specify the duties of the sponsor and shall include the following [Ohio Rev. Code § 3314.03(D)]: (Suggested Audit Procedure 4)

1. Monitor compliance with all laws applicable to the school and with the terms of the contract;
2. Monitor and evaluate the academic and fiscal performance and the organization and operation of the community school on an annual basis;
3. Report on an annual basis the results of the preceding evaluation to ODE and to the parents of students;
4. Provide technical assistance to the community school in complying with laws applicable to the school and terms of the contract;
5. Take steps to intervene in the school's operation to correct problems in the school's overall performance, declare the school to be on probationary status pursuant to Ohio Rev. Code § 3314.073, suspend the operation of the school pursuant to Ohio Rev. Code § 3314.072, or terminate the contract of the school pursuant to Ohio Rev. Code § 3314.07 as deemed necessary by the sponsor; (Suggested Audit Procedure 5)
6. Have in place a plan of action to be undertaken in the event the community school experiences financial difficulties or closes prior to the end of a school year; (Suggested Audit Procedure 5)

The community school shall submit to the sponsor a comprehensive plan for the school. The plan shall specify the following: [Ohio Rev. Code. § 3314.03(B)]

1. The process by which the governing authority of the school will be selected in the future;
2. The management and administration of the school;
3. If the community school is a currently existing public school or ESC building, alternative arrangements for current public school students who choose not to attend the converted school and for teachers who choose not to teach in the school or building after conversion;
4. The instructional program and educational philosophy of the school;
5. Internal financial controls.

When submitting the plan, the school shall also submit copies of all policies and procedures regarding internal financial controls adopted by the governing authority of the school.

Each community school sponsor shall annually verify that a finding for recovery has not been issued by the Auditor of State against any individual or individuals who propose to create a community school or any member of the governing authority, the operator, or any employee of each community school with responsibility for fiscal operations or authorization to expend money on behalf of the school. [Ohio Rev. Code § 3314.02(E)(2)(c)] Ohio Rev. Code § 9.24 defines a finding for recovery as “a determination issued by the AOS, contained in a report the AOS gives to the Attorney General pursuant to section 117.28 of the Revised Code, that public money has been illegally expended, public money has been collected but not been accounted for, public money is due but has not been collected, or public property has been converted or misappropriated.” AOS Bulletins 2003-009 and 2004-006 provide more information about Unresolved Findings for Recovery and searching the database. Sponsors may review these bulletins and perform a certified search of the Unresolved Finding for Recovery database at the following link: <http://ffr.ohioauditor.gov/>. Sponsors should maintain documentation to support performance of their certified searches of the Finding for Recovery database. (Suggested Audit Procedure 9)

Opening Assurances - The sponsor of each community school ~~annually~~ shall provide assurances in writing to the Ohio Department of Education, not later than ten business days prior to the opening of the school's **first year** of operation, or if the school is not an e-school and it **changed buildings**, the first year operating from the new building.<sup>49</sup> [Ohio Rev. Code. § 3314.19] ODE's Opening Assurances are available at <http://education.ohio.gov/Topics/Community-Schools/Community-School-Forms> .

- Ohio Rev. Code. § 3314.19(I) requires the sponsors to attest in the opening assurances that the school has complied with sections 3319.39 and 3319.391 of the Revised Code with respect to all employees and that the school has conducted a criminal records check of each of its governing authority members. Ohio Rev. Code. § 3314.02(E)(2)(b) further states no person shall serve on the governing authority or engage in the financial day-to-day management of the community school under contract with the governing authority unless and until that person has submitted to a criminal records check in the manner prescribed by section 3319.39 of the Revised Code.

Ohio Rev. Code. § 3314.023(A) requires a sponsor to monitor the community school's compliance with all laws applicable to the school and with the terms of the contract. This includes, but is not limited to:

- Performing a criminal records check of certain employees, as described above.
- Ohio Rev. Code. § 3314.02(E)(2)(a)(iii) – No person shall serve on the governing authority or operate the community school if they have pleaded guilty to or been convicted of theft in office.
- Ohio Rev. Code. § 3314.02(E)(7) – Each member of the governing authority shall annually file a disclosure statement setting forth the names of any immediate relatives or business associates employed by the schools sponsor, operator, a school district/ESC contracted with the school, or a vendor that is or has engaged in business with the school.

The designated fiscal officer of a community school must be employed by or engaged under a contract with the school's governing authority (as opposed to the operator). However, the statute also permits a governing authority, for one year at a time, to waive the requirement to directly employ or engage the fiscal officer. To do so, the governing authority must adopt a resolution for each year it wishes to waive the requirement, which must be approved by the school's sponsor. If the governing authority adopts such a resolution, the school's fiscal officer must annually meet with the governing authority to review the school's financial status. A copy of each resolution must be submitted by the governing authority to the Ohio Department of Education. The statute explicitly states that such a resolution does not waive the underlying requirement for a community school to have a designated fiscal officer. In addition the fiscal officer shall be licensed prior to assuming duties. [Ohio Rev. Code § 3314.011] (Suggested Audit Procedure 7)<sup>51</sup>

The governing authority of a community school must employ an attorney that is independent from the school's sponsor or operator, for any services related to the negotiation of the school's contract with the sponsor or operator. [Ohio Rev. Code § 3314.036] (Suggested Audit Procedure 8)

Each contract between a sponsor and governing authority shall contain a provision requiring that, if the governing authority contracts with an attorney, accountant, or entity specializing in audits, the attorney, accountant or entity shall be independent from the operator with which the school has contracted. [Ohio Rev. Code § 3314.03(A)(31)] (Suggested Audit Procedures 7 & 8)

The sponsor (through its contract) may mandate a community school to comply with competitive bidding procedures. (Suggested Audit Procedure 2)

Ohio Rev. Code § 3314.023 requires a sponsor to provide monitoring, oversight, and technical assistance to each school that it sponsors. In order to provide monitoring, oversight, and technical assistance, a representative of the sponsor of a community school shall meet with the governing authority or fiscal officer

<sup>51</sup> 2010 OP. Att'y. Gen No. 2010-020 includes additional applicable guidance to consider regarding Treasurer and Superintendent positions.

of the school and shall review the financial and enrollment records of the school at least once every month. Not later than 10 days after each review, the sponsor shall provide the governing authority and fiscal officer with a written report regarding the review. Copies of those financial and enrollment records shall be furnished to the community school sponsor and operator, members of the governing authority, and the fiscal officer on a monthly basis. (Suggested Audit Procedure 6)

*Note:* Barring an egregious situation such as negligence or fraud, it is not the statutory intent to hold community school fiscal officers responsible for a community school's deficit financial position. Rather, this statute is designed to ensure that the sponsor can require the community school fiscal officer to turn over the enrollment and financial records to the sponsor upon closure.

As required by Ohio Rev. Code § 3314.016(B), ODE developed and implemented an evaluation system that rates and assigns an overall rating to each sponsor. Depending on a sponsor's past ratings, the evaluation will occur either annually or once every three years. This section further requires sponsors that receive an overall rating of "poor" to have all sponsorship authority revoked; and sponsors that receive an overall rating of "ineffective" on their 3 most recent ratings to have all sponsorship revoked. *Note:* For ineffective ratings, the 3 most recent years begins with the 2015/2016 fiscal year; so the 2017/2018 year would be the first time this could occur. ODE's sponsor rating and evaluation are available at <http://education.ohio.gov/Topics/Community-Schools/Sponsor-Ratings-and-Tools/Overall-Sponsor-Ratings>. The ODE sponsor ratings are released annually, by November 15<sup>th</sup>, related to the preceding school year. Therefore, a "poor" or "ineffective" rating could qualify as a subsequent event when it materially impacts a governmental sponsor or community school's financial statements or ability to continue. If the sponsor received an "ineffective" rating on their 3 most recent ratings, or received a "poor" rating, auditors need to consider:

- Whether the school anticipates remaining open after the school year and the potential impact that would have on the community school's financial statements. Ohio Rev. Code § 3314.016(D)<sup>52</sup> requires ODE to take over sponsorship of the community school for the remainder of that school year (with the option of longer if ODE so chooses, and if a new sponsor has not yet been secured by the governing authority). This may result in going concern and note disclosures, including subsequent events, for both governmental sponsor and community school audits. Auditors should be alert to the potential for closing due to a poor or ineffective sponsor rating.
- This could impact the governmental sponsor's financial statements if ODE has taken action(s) against the sponsor to terminate their ability to sponsor and/or if ODE has assumed the role of interim sponsor. (This could be material to a governmental sponsor who is relying upon a material stream of sponsorship fees for healthy financial position).

**Note:**

- **Due to the COVID-19 pandemic, the 133<sup>rd</sup> GA, H.B. 164 Section 17(F)5 (which amends Section 17(F) of 133<sup>rd</sup> GA, H.B. 197) prohibits ODE from issuing any sponsor ratings for Fy 2020, and establishes safe harbor from penalties and sanctions for sponsors based on the absence of such ratings, in which only ratings from previous and subsequent years be considered. See further information [here](#).**
- **In addition, Section 6 of 133<sup>rd</sup> GA, HB 409, as amended by 134 GA, HB 67, sponsor ratings issued for Fy 2021 have no effect in determining sanctions or penalties; do not create a new starting point for determinations that are based on ratings over multiple years; and only certain components are rated.**

Ohio Rev. Code § 3314.023 states if a community school closes or is permanently closed, the designated fiscal officer shall deliver all financial and enrollment records to the school's sponsor within thirty days of

<sup>52</sup> There is a typo in Ohio Rev. Code § 3314.016(D). When H.B. 166 added language to this section of code, the reference in section (D) to 'division (B)(7)(b) or (c)' was inadvertently not updated to refer to the updated section. The reference in section (D) should be to division (B)(7)(c) or (d).

the school's closure. If the fiscal officer fails to provide the records in a timely manner, or fails to faithfully perform any of the fiscal officer's other duties, the sponsor has the right of action against the fiscal officer to compel delivery of all financial and enrollment records of the school and shall, if necessary, seek recovery of any funds owed as a result of any finding of recovery by the auditor of state against the fiscal officer. (Suggested Audit Procedure 10)

**Note:** Oftentimes, a community school closeout can take longer than 30 days to liquidate all obligations and assets. Therefore, AOS and IPA's should evaluate whether a sponsor has physically observed and ensured a community school's records are intact and approved an existing fiscal officer to maintain those records in the fiscal officer's possession beyond 30 days in order to facilitate the closeout process. Where this is the case, AOS and IPA's should not take exception so long as all of the requested records are made available timely to the sponsor, ODE and the auditors for review.

Closing Assurances – Under state law (Ohio Rev. Code § 3314.023), community school sponsors must monitor and oversee their schools' compliance with law, administrative rules and contract provisions, including requirements related to school closure. Specifically Ohio Rev. Code § 3314.023 requires having a plan of action to be undertaken in the event the community school experiences financial difficulties or closes prior to the end of a school year. Sponsors must submit a Suspension and Closing Assurance Template for each closed community school. By completing this assurance, sponsors attest that all necessary notifications and actions are completed. The Suspension and Closing Assurance Template shall be submitted to the Office of Community Schools quarterly, noting which activities are complete and which are not yet complete, until the process is finished and closing assurances are submitted. ODE's Suspension and/or Closing Procedures are available at <http://education.ohio.gov/Topics/Community-Schools/Guidance-Documents-Webinars-and-Presentations>. [ODE's School Suspension and/or Closure Procedures memo, updated May 2018]

The sponsor shall communicate with the auditor of state regarding an audit of the school or the condition of financial and enrollment records of the school, and shall maintain a presence at any and all meetings with the auditor of state regardless of whether the sponsor has entered into an agreement with another entity to perform all or part of the sponsor's oversight duties. [Ohio Rev. Code § 3314.019] In other words, a sponsor cannot delegate its responsibility to attend audit-related meetings, such as pre- and post-audit conferences, to a contracted third party vendor. The AOS interprets this requirement to extend to audits of community schools conducted by Independent Public Accountants (IPA) on the AOS's behalf. Meaning, the sponsor of a community school is also required to communicate with an IPA when the community school's audit is contracted to an IPA.

- Additionally, the auditor of state must provide written notice to the sponsor regarding any action taken against or upcoming audits of the community school. [Ohio Rev. Code § 117.105]

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

Note: The Ohio Rev. Code § 3314.50 requirement previously included in this section has been moved to OPM O-28. If the community school meets any of the following criteria, then OPM O-28 must be tested:

- a. This is the community school's initial year of operations, or
  - b. The community school filed a bond with the Auditor of State, or
  - c. The community school initiated operations on or after February 1, 2016, and
    - i. had a written guarantee by the sponsor or operator, and
    - ii. the guaranteeing entity changed (i.e. the school changed sponsor or operator)
1. Examine the contract between the school and the sponsor. Determine if it includes sufficient information about the items Ohio Rev. Code § 3314.03(A) requires.

*Note:* Auditors should use professional judgment determining whether to issue noncompliance citations or internal control deficiencies depending upon the level of detail included within or omitted from the contract. While a contract may address a required item, auditors may find instances where the level of detail is not sufficient for a community school or sponsor to adequately determine or measure compliance over time. In these instances, the auditor should consider issuing an internal control deficiency at a minimum.

2. Determine if the contract requires competitive bidding procedures, and if so, the school has complied with those requirements.
3. Determine whether the contract provides payment to the sponsor for monitoring, oversight, and technical assistance.
  - a) Trace actual payments to the sponsor to the accounting records to determine whether they were  $\leq 3\%$  of the school's State assistance (or met the terms of the contract if a lower amount was specified, or the sponsor provides additional services).
  - b) Determine if the sponsor did not sell goods or services to the community school except under specific circumstances as described above.
  - c) Determine whether the school had any FTE adjustments after year end, or an FTE review by ODE that resulted in a clawback or a settlement of monies payable to ODE. Consider if a true-up was required for sponsor payments. (See further information in OCS 1-27. AOS auditors see guidance/steps in Teammate / IPA's see suggested steps in Community School Audit Programs for IPA's at <https://ohioauditor.gov/references/guidance/communityschools.html>.)
4. Inquire regarding the nature and extent of the sponsor's monitoring activities.
  - Examine minutes, correspondence, reports<sup>53</sup> or other evidence supporting that the sponsor fulfilled its monitoring duties described above.
  - Read the sponsor's annual report submitted to ODE during the audit period. Based on other audit procedures, judge whether that report suggests the sponsor is diligent in its monitoring and is frank in its reporting to ODE.<sup>54</sup>
  - If this is the community schools first year of operations, or if the school changed buildings and this is the first year operating in the new building, determine whether the sponsor completed, signed, and submitted to ODE the opening assurances for the year under audit. Auditors should assess the risk of noncompliance due to a potential lack of appropriate sponsor oversight. Where this risk is elevated, auditors should consider selected tests of reperformance of the sponsor's opening assurances.

---

<sup>53</sup> Ohio Revised Code § 3314.025 requires each sponsor of a community school to submit a report to the Ohio Department of Education detailing expenditures made to provide oversight, monitoring and technical assistance to the community school(s) it sponsors (see also <http://education.ohio.gov/getattachment/Topics/Community-Schools/Sections/Sponsors/Sponsor-Expenditure-Reporting.pdf.aspx>)

<sup>54</sup> Staff should not spend significant time reviewing this report. We are not opining or providing any assurance on it. Consider tracing a "handful" of key financial amounts to current or prior audited statements or to accounting records we used in the audits. Read key passages to determine whether they are generally consistent with your understanding. If we find material misrepresentations in the report to ODE, we can report this as noncompliance by the sponsor. Our noncompliance finding should avoid imprecise statements such as "The sponsor's report was inaccurate." Instead, quote statements or amounts from the sponsor's report compared to quotes or amounts we obtained from other sources. List our source in the finding.

5. If based on other audit procedures, the school is experiencing financial or performance problems, judge whether the sponsor is taking the actions the Ohio Rev. Code prescribes above (e.g., declaring the school in probationary status, preparing an action plan to address financial difficulties.)
6. Assess whether the sponsor's overall monitoring generally fulfills the requirements above, including providing a written report on their monthly review of the financial and enrollment records to the school.
  - a. **If a remote learning plan was adopted for Fy 2021, determine whether the sponsor reviewed/approved the plan. Although this is not required by HB 164, for testing purposes, the plan would serve as a substitute for the Education Plan that the sponsor approves in the charter. (Or cross reference to test in section 1-27A, step 1)**
7. Determine whether the community school's governing board (as opposed to the operator) contracted with an independent fiscal officer, or if a waiver was obtained. Also determine whether the fiscal officer was licensed prior to assuming duties.
8. Determine whether the community school's governing board has contracted with an attorney that is independent from the school's:
  - sponsor - for any services related to negotiation of the school's contract with the sponsor;
  - operator - for all services
9. Determine if the sponsor has annually verified that no findings for recovery have been issued against governing board members, individuals that propose to create the school, the operator, or any employee of the school with responsibility for fiscal operations or authorization to expend money on behalf of the school.
10. If the community school closed or is permanently closed, determine if the designated fiscal officer delivered all financial and enrollment records to the school's sponsor within thirty days of the school's closure, or if the sponsor physically inspected the records in lieu of taking possession of them from the fiscal officer in order to facilitate a fiscal officer's ability to complete the close out.<sup>55</sup>
  - a. Determine if the Sponsor is in the process of completing, or has completed ODE's Suspension and/or Closing Procedures. Such procedures should be tested.
11. If the sponsor is an educational service center or school district, determine if they are also 'operating' the community school pursuant to an agreement. If so, test sections 2-5 and 2-14.

Report significant noncompliance as necessary in the school's audit report.

---

<sup>55</sup> AOS will accept documentation or other evidence that the sponsor performed a timely physical inspection of all records and mutually agreed to allow the fiscal officer to keep such records in his or her possession after 30 days from the date of closure and until all financial matters have been settled so long as the sponsor continues to monitor the activities of the fiscal officer until all matters are settled and the records are turned over. However, we believe the sponsor remains responsible for all financial and enrollment records after 30 days from the date of closure, regardless who has possession of these records.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**2-14 Compliance Requirement:** Ohio Rev. Code § 3314.032 - Operator oversight of community schools**Summary of Requirement:**

Beginning February 1, 2016, new or renewed contracts between the governing authority of a community school and its operator<sup>56 57</sup>, shall include: [Ohio Rev. Code § 3314.032(A)]

- Criteria for early termination;
- Notification procedures and timeline for early termination or nonrenewal;
- Stipulations relating to ownership of facilities and property purchased by the governing authority or operator. Property includes but is not limited to, equipment, furniture, fixtures, instructional materials and supplies, computers, printers, and other digital devices.

An operator shall not lease any parcel of real property to the community school until an independent professional in the real estate field verifies via addendum that at the time the lease was agreed to, the lease was commercially reasonable. This independent professional is immune from civil liability for any decision rendered. [Ohio Rev. Code § 3314.032(B)]

Ohio Rev. Code §§ 3314.0210, 3314.015(E) and 3314.074 specify that furniture, computers, software, equipment, or other personal property purchased with state funds that were paid to an operator or management company for use in operating a community school is property of that school and is not property of the operator or management company. It also requires that such property must be distributed in accordance with continuing law whenever a community school closes and ceases its operation. That law prioritizes distribution of a school's remaining assets first to the state retirement systems, then to employees, and then other creditors. To the extent possible, state-purchased computers are to be turned over to the ODE for redistribution.

- *Note:* Ohio Rev. Code § 3314.0210 was effective February 1, 2016. Therefore assets purchased by the management company for the school prior to this date still belong to the management company or as specified in the agreement.

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. For new or renewed operator and community school contracts established on or after February 1, 2016, determine if the required items above were included in the contract.

---

<sup>56</sup> "Operator" or 'management company' means either of the following: (a) An individual or organization that manages the daily operations of a community school pursuant to a contract between the operator or management company and the school's governing authority; or (b) A nonprofit organization that provides programmatic oversight and support to a community school under a contract with the school's governing authority and that retains the right to terminate its affiliation with the school if the school fails to meet the organization's quality standards. [Ohio Rev. Code § 3314.02(A)(8)]

- Therefore, the terms "operator" and "management company" are synonymous, and this OCS section applies to any entity meeting the definition above.
- An educational service center or school district who is a community schools sponsor, may also be 'operating' the community school pursuant to an agreement. In addition, certain community schools are the operator of other community schools. In these situations, this OCS section would be applicable.

<sup>57</sup> Ohio Rev. Code § 3314.031 requires ODE to publish an annual performance report for all operators of community schools by November 15<sup>th</sup>, which is available at <http://education.ohio.gov/Topics/Community-Schools>. Currently the law provides no direct consequences for negative performance reviews.

2. For personal property purchased after February 1, 2016 with state funds paid to an operator or management company for use in operating a community school, determine these capital assets are reported on the community school’s financial statements.
3. If an operator has entered a lease for real property after February 1, 2016 to the community school, determine the lease was verified as commercially reasonable by an independent professional in the real estate field. *Note:* The auditor is not testing the lease for reasonableness, but rather ensuring the operator obtained the required verification.
4. For schools that are closed, vouch that property purchased by operators with state funds that were paid to an operator or management company for use in operating the community school has been distributed according to the ODE Closing Procedures, or otherwise in accordance with State / Federal law.

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COURTS**

**2-15 Compliance Requirement:** Ohio Rev. Code § 2335.25 - Cashbook of County costs; Ohio Rev. Code § 1901.31 – Municipal court records; Ohio Rev. Code § 1905.21 – Disposition of fines and other moneys for mayor’s court.

**Summary of Requirement:** Each clerk of courts must maintain a journal, cashbook, listing of all receipts and disbursements, or account for all fines, forfeitures, fees, and costs collected.

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

Determine if a cashbook or similar listing of cash receipts and disbursements is maintained. (**Note:** We will normally know this from performing financially-related audit procedures.)

**Audit implications (the indirect and material effects of non-compliance, effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**STATUTORILY MANDATED TESTS**  
***SECTION A: BUDGETARY REQUIREMENTS***

**None.**

**SECTION B: CONTRACTS AND EXPENDITURES****STATUTORY MUNICIPALITIES**

**2-16 Compliance Requirement:** Ohio Rev. Code §§ 117.16 (A); 117.161, 723.52, 5517.02, and 5517.021 – Force accounts – [**Certain**] **Municipal Corporations [Cities\Villages]**. *This statute does not apply to a charter city or charter village pursuant to Ohio Rev. Code § 723.53.*

**Summary of Requirements:****AOS Force Account Project Assessment Form (See note below for Ohio Department of Transportation Projects)**

A director of public service in a city, or the legislative authority of a village, is required to estimate the costs of any “contract” for the construction, reconstruction, widening, resurfacing, or repair of a street or other public way using the Auditor of State’s force account project assessment form. *Note: the use of this form is required for contracted work pursuant to Ohio Rev Code § 723.52 and for force account projects pursuant to Ohio Rev. Code § 117.16(A).*

*Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State’s force account project assessment form for the **improvement, maintenance or repair** of roads. However, § 5543.19(B) explicitly requires force account assessment forms for **construction, reconstruction, improvement, maintenance or repair** of bridges or culverts.*

The Auditor of State’s prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

**Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:**

Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration’s termination Ohio’s waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA<sup>2</sup> nos., 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.

**Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):**

Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages in computing their estimated costs. If the local government uses the safe harbor percentages, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

**Joint Projects (See note below for Ohio Department of Transportation Projects)**

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

**Bid Specifications (See note below for Ohio Department of Transportation Projects)**

If the city or village has an engineer or someone performing the duties and functions of an engineer, then that person may develop the estimates.

When the estimated cost of the total project, including labor, exceeds \$30,000, the city or village must invite and receive competitive bids from private contractors for completing the work. However, force accounts **may** be used if the city or village rejects all bids. The force account work must be performed in compliance with the plans and specifications upon which the private contractor bids were based.<sup>58</sup>

The terms “construction, reconstruction, widening, resurfacing, or repair of a street or other public way” are not defined in this Ohio Rev. Code section. The city or village’s legal counsel or engineer should define these terms for the city or village. The Auditor of State will accept those definitions unless they are palpably and manifestly arbitrary or incorrect. *If the entity’s legal counsel, and/or engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with CFAE and the AOS’s Legal department concerning any issues involving a potential finding or citation as directed in the Audit Findings section of the Implementation Guide.*

*Note: The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:*

“A city must bid a project involving construction or reconstruction of a road if it exceeds \$30,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$45,000 (\$30,000 for the first mile, \$15,000 for the partial second mile), or \$60,000 (\$30,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

**For projects exceeding one mile**, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example of the city cited above, the applicable force account limit would be \$45,000.

**For projects less than a mile**, the interpretation above would cause problems. In the example of a city commencing a small road repair project of one-tenth of a mile, a proportional limit would require the county to bid the project if it exceeded \$3,000 (one tenth of the \$30,000 per mile limit). We did not

<sup>58</sup> Occasionally, change orders may be necessary for force account projects. Change orders may be made for overruns in actual construction as long as: (1) the original estimate was made in good faith and (2) the change order request was for a legitimate unforeseen issue. Change orders to force account projects may constitute noncompliance if, however, estimates were intentionally low-balled to arrive under the bidding limits (e.g., not estimating the cost of labor or evidence that the entity knew from previous experience that a minimum amount of material would be required to complete a project but was not included in the original force account project estimate or was included at clearly insufficient amounts). Auditors should use professional skepticism when auditing force account project change orders and consult with AOS Legal Division or CFAE as needed.

believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of the county in our example, \$30,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit."

**Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)**

**Force Account Limits (Ohio Rev. Code § 5517.02)**

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. The FY 2018-2019 rates are \$30,811 per mile of highway and \$61,622 per traffic signal or other single project. The FY 2020-2021 rates are \$31,615 per mile of highway and \$63,230 per traffic signal or other single project. The Director shall publish the applicable amounts on ODOT's website (<https://www.transportation.ohio.gov/wps/portal/gov/odot/programs/maintenance-operations/force-account>).

**Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)**

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance with applicable size or tonnage restrictions.

**Force Account Assessment Forms (Ohio Rev. Code § 117.16)**

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EIMS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized

forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included. However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

**Ohio Attorney General Opinion 2008-007<sup>59</sup>** briefly provides:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;
- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

### **Noncompliance**

**Note:** These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. Certified Public Accountants auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

**Note:** For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any capital construction or maintenance activity relating to a street or other public way took place during the audit period. Determine if such projects were undertaken using force accounts.

---

<sup>59</sup> Although the opinion was issued in response to a County's inquiry, the Auditor of State will apply this guidance to each public office undertaking force account projects.

## COUNTIES

**2-17 Compliance Requirement:** Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5543.19 – Force accounts - Counties.

### Summary of Requirements:

#### **AOS Force Account Project Assessment Form** (See note below for Ohio Department of Transportation Projects)

A county engineer, when authorized by the county commissioners, may utilize county labor and materials when undertaking the construction, reconstruction, improvement, maintenance, or repair of **roads**. Before undertaking force account activity for **construction** or **reconstruction**, including **widening** and **resurfacing**, of **roads**, an estimate of the cost of the road work must be compiled using the Auditor of State's force account project assessment form. When the estimated cost of the total project, including labor,<sup>60</sup> exceeds \$30,000 per mile, the county commissioners must invite and receive competitive bids from private contractors for completing the **road** work.

*Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State's force account project assessment form for the **improvement, maintenance or repair** of roads. However, § 5543.19(B) explicitly requires force account assessment forms for **construction, reconstruction, improvement, maintenance or repair** of bridges or culverts.*

The Auditor of State's prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

#### **Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:**

Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration's termination Ohio's waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA<sup>2</sup> nos., 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.

#### **Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):**

Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages in computing their estimated costs. If the local government uses the safe harbor percentages, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

---

<sup>60</sup> Pursuant to 2008 Op. Att'y. Gen. No. 2008-007, any work subcontracted to private contractors should be included in the total cost of the project to determine if the project should be bid.

**Joint Projects (See note below for Ohio Department of Transportation Projects)**

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

**Bid Specifications (See note below for Ohio Department of Transportation Projects)**

Various terms, such as **road maintenance and repair, construction and reconstruction**, are not defined in the Ohio Rev. Code sections discussed in the individual subsections below. We indicate in each such section that the Auditor of State will accept definitions from the entity's legal counsel, and/or county engineer, as appropriate, unless the definitions are palpably and manifestly arbitrary or incorrect. *If the entity's legal counsel, and/or county engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with CFAE and the AOS's Legal department concerning any issues involving a potential finding or citation as directed in the Audit Findings section of the Implementation Guide.*

A county engineer, when authorized by the county commissioners, may utilize county labor and materials when undertaking the construction, reconstruction, improvement, maintenance, or repair of **bridges and culverts**. Before undertaking force account activity, an estimate of the cost of the bridge/culvert work must be compiled using the Auditor of State's force account project assessment form. When the estimated cost of the work exceeds \$100,000, the county commissioners must invite and receive competitive bids from private contractors for completing the **bridge/culvert** work.

*Note: The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:*

"A county must bid a project involving construction or reconstruction of a road if it exceeds \$30,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$45,000 (\$30,000 for the first mile, \$15,000 for the partial second mile), or \$60,000 (\$30,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

**For projects exceeding one mile**, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example of the county cited above, the applicable force account limit would be \$45,000.

**For projects less than a mile**, the interpretation above would cause problems. In the example of a county commencing a small road repair project of one-tenth of a mile, a proportional limit would require the county to bid the project if it exceeded \$3,000 (one tenth of the \$30,000 per mile limit). We did not believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of the county in our example, \$30,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit."

*Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)*

**Force Account Limits (Ohio Rev. Code § 5517.02)**

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. FY 2018-2019 rates are \$30,811 per mile of highway and \$61,622 per traffic signal or other single project. The FY 2020-2021 rates are \$31,615 per mile of highway and \$63,230 per traffic signal or other single project. The Director shall publish the applicable amounts on ODOT's website (<https://www.transportation.ohio.gov/wps/portal/gov/odot/programs/maintenance-operations/force-account>).

**Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)**

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance with applicable size or tonnage restrictions.

**Force Account Assessment Forms (Ohio Rev. Code § 117.16)**

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EIMS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included.

However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should

be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

**Ohio Attorney General Opinion 2008-007**<sup>59</sup> briefly provides:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;
- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

### **Noncompliance**

**Note:** These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. Certified Public Accountants auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

**Note:** For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any road capital construction or maintenance activity took place during the audit period. Determine if such projects were undertaken using force accounts.
2. If such projects were undertaken, inspect a representative number of the entity's completed Auditor of State Uniform Force Account Project Assessment or ODOT forms. Trace wage rates, etc. to entity supporting documentation on a test basis.
3. Inspect the Auditor of State's project assessment or ODOT forms prepared by the county engineer and determine that work undertaken by force account for construction, reconstruction, widening, or resurfacing of roads was documented to have an estimated cost of \$30,000 or less per mile.
4. Inspect the county engineer's project assessment or ODOT forms, and determine whether they document that work undertaken by force account to construct, reconstruct, improve, maintain, or repair bridges and culverts cost an estimated \$100,000 or less.

5. Obtain supporting documentation of the labor fringe benefits or overhead rates, or materials overhead rates and review for reasonableness. (See clarified guidance in the requirements regarding the Safe Harbor Rule.)
6. Compare the actual projects' costs with the project assessment form estimates. Inquire of management for reasons for any change orders or apparent excessive costs compared with the project estimates. Evaluate for reasonableness of the estimates. Be alert for indications of "bid-splitting" or deliberate attempts to evade bid limitations, such as successive estimations just under the bid amount.
7. Whether such projects have been undertaken or not, consider adding language to the audit management representation letter affirming or disaffirming the existence of projects subject to the applicable force account provisions.

*Note:* with "force account" provisions, it is possible to have non-compliance with the preparation of the Auditor of State form; with the bidding limits; or with both.

8. If the "force account" limits have been violated – that is, the county did the work by force account even though it should have been bid – then the Auditor of State is required to notify the entity [and possibly the State tax commissioner] of the penalty provisions. Auditors should indicate in this block of the OCS if the Auditor of State is to notify the entity\State tax commissioner of any of the penalty provisions. Auditor of State auditors should include this in the executive summary. IPAs should notify the Auditor of State Center for Audit Excellence.

<p><b>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

## TOWNSHIPS

**2-18 Compliance Requirement:** Ohio Rev. Code §§ 117.16(A); 5517.02, 5517.021 and 5575.01 – Force accounts - Townships

### Summary of Requirements:

#### **AOS Force Account Project Assessment Form** (See note below for Ohio Department of Transportation Projects)

In the **maintenance** and **repair** of **roads** the board of township trustees may use force account labor provided the board has first caused **the county engineer** to complete the Auditor of State's prescribed force account project assessment form.

*Note: Neither Ohio Rev. Code § 5543.19(A) nor § 117.16(A) require using the Auditor of State's force account project assessment form for the **improvement, maintenance or repair** of roads. However, § 5543.19(B) explicitly requires force account assessment forms for **construction, reconstruction, improvement, maintenance or repair** of bridges or culverts.*

The Auditor of State's prescribed form [required by Ohio Rev. Code § 117.16(A)] for this purpose can be found on our website at the following link:

<http://www.ohioauditor.gov/references/development/ElectronicForceAccountProjectAssessmentForm.xls>

#### **Clarified Guidance for Force Accounts Undertaken as part of a Federally-Funded Local Project Agreement with ODOT:**

Local governments that are performing Force Account work as part of a Federally-funded (in whole or in part) project under an LPA agreement with ODOT can no longer use the safe harbor rates. This is due to changes brought about by the Uniform Guidance Act and the Federal Highway Administration's termination Ohio's waiver program. While local governments that are party to an LPA agreement with ODOT may not use safe harbor percentages for projects beginning in 2016 or later, ODOT does provide alternative guidance for Force Accounts in their CMS Manual ([ODOT Construction and Material Specifications manual](#)). Auditors testing the Federal Highway Planning and Construction Cluster (CFDA nos., 20.205, 20.219, and 23.003) as a major program should be aware of this during their single audit compliance testing.

#### **Clarified Guidance for Force Accounts Undertaken Strictly by the Local (i.e., NOT as part of a Federally-Funded Local Project Agreement with ODOT):**

Where local governments undertake a project by Force Account solely under their own local authority, local governments are permitted to apply the safe harbor percentages in computing their estimated costs. If the local government uses the safe harbor percentages, the auditor may accept them without further analysis. Or, as an alternative, the local government may develop its own percentages for the add-ons for labor fringes and overhead costs, and materials overhead costs; however, the local government must be able to provide documentation to its auditor to justify the reasonableness of the self-computed percentage add-ons.

#### **Joint Projects** (See note below for Ohio Department of Transportation Projects)

Joint projects undertaken by 2 or more of the affected entities require that the higher force account limits of the participating parties be applied [Ohio Rev. Code § 117.161]. Participating entities shall not aggregate their respective limits, and the share of each entity shall not exceed its respective force account limit. Calculating the proper project force account limits and the share thereof to each participating party should be memorialized in the contracts or other agreements between the parties. One of the participating entities shall complete the force account project form prior to proceeding by force account. An entity shall not proceed with a joint force account project if any one of them is subject to reduced force account limits under Ohio Rev. Code § 117.16(C) or (D).

**Bid Specifications (See note below for Ohio Department of Transportation Projects)**

Various terms, such as **road maintenance and repair, construction, and reconstruction** are not defined in the Ohio Rev. Code sections discussed in the individual subsections below. We indicate in each such section that the Auditor of State will accept definitions from the entity's legal counsel, and/or county engineer, as appropriate, unless the definitions are palpably and manifestly arbitrary or incorrect. *If the entity's legal counsel, and/or county engineer, as appropriate, did not define the indicated terms for the entity, indicate the same in your draft report. Consult with the AOS's Legal department concerning any issues involving a potential finding or citation.* IPAs auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

Force accounts **may not** be used and bidding is required when the total estimated cost of the project, including labor, for **maintenance and repair** of roads exceeds \$45,000. [Ohio Rev. Code § 5575.01(A)]

Bids from private contractors should be sought when the total estimated cost of the project, including labor, for **construction or reconstruction** of roads exceeds \$15,000 per mile. However, force accounts **may** be used if the board finds it in the best interest of the public. In this case, private contractor bids must have been received, considered, and rejected, and the force account work must be performed in compliance with the plans and specifications upon which the bids were based.<sup>58</sup> [Ohio Rev. Code § 5575.01(B)]

*Note: The following clarifies how all entity types subject to force account limits should measure these limits for fractions of miles:*

"A township must bid a project involving construction or reconstruction of a road if it exceeds \$15,000 per mile. However, it is unclear whether the limit for a 1.5 mile project would be \$22,500 (\$15,000 for the first mile, \$7,500 for the partial second mile), or \$30,000 (\$15,000 for each mile – full or partial – of the project). We determined that it was appropriate to consider the legislative intent separately for projects under one mile and for projects exceeding one mile.

**For projects exceeding one mile**, we determined that the intent of these statutes was to apply the limits proportionally for partial miles. In other words, for the example cited above, the applicable force account limit would be \$22,500.

**For projects less than a mile**, the interpretation above would cause problems. In the example of a township commencing a small road repair project of one-tenth of a mile, a proportional limit would require the township to bid the project if it exceeded \$1,500 (one tenth of the \$15,000 per mile limit). We did not believe that this was the result intended by the legislature, so for projects of less than a mile, the entire per mile limit (in the case of our example, \$15,000) will apply. In other words, any project that is less than a mile (regardless of distance) is to be treated as if it were a mile and subjected to the entity's corresponding monetary limit."

*Note: The following applies to Ohio Department Of Transportation Projects AND municipal projects performed in conjunction with the Ohio Department Of Transportation (AOS Bulletin 2015-003)*

**Force Account Limits (Ohio Rev. Code § 5517.02)**

On July 1, 2013, the statutory limits for ODOT force account projects increased from \$25,000 to \$30,000 per mile of highway and from \$50,000 to \$60,000 for any traffic control signal or any other single project. The changes also require the ODOT Director to increase these limits on the first day of July of every odd-numbered year beginning in 2015 by an amount to not exceed the lesser of three per cent or the percentage increase in ODOT's construction cost index, as annualized and totaled for the two prior calendar years. FY 2018-2019 rates are \$30,811 per mile of highway and \$61,622 per traffic signal or other single project. The FY 2020-2021 rates are \$31,615 per mile of highway and \$63,230 per traffic

signal or other single project. The Director shall publish the applicable amounts on ODOT's website (<https://www.transportation.ohio.gov/wps/portal/gov/odot/programs/maintenance-operations/force-account>).

**Work Exempt from Competitive Bidding/Force Account Requirements (Ohio Rev. Code § 5517.021)**

Certain work that may be undertaken by ODOT that does not require competitive bidding:

- Replace any single span bridge in its substantial entirety or widen any single span bridge, including necessary modifications to accommodate widening the existing substructure and wing walls. The deck area of the new or widened bridge may not exceed 700 square feet as measured around the outside perimeter of the deck.
- Replace the bearing, beams, and deck of any bridge on that bridge's existing foundation if the deck area of the rehabilitated structure does not exceed 800 square feet.
- Construct or replace any single cell or multi-cell culvert whose total waterway opening does not exceed 52 square feet.
- Pave or patch an asphalt surface if the operation does not exceed 120 tons of asphalt per lane-mile of roadway length. The department may not perform a continuous resurfacing operation under this section if the cost of work exceeds the amounts established in Ohio Rev. Code § 5517.02.
- Approach roadway work, extending not more than 150 feet as measured from the back side of the bridge abutment wall or outside the edge of the culvert, as applicable. The length of the approach guardrail shall be in accordance with ODOT's design requirements and shall not be included in the approach work size limitation.

These projects are not subject to the force account requirements of Ohio Rev. Code § 117.16, do not require an estimate, and are exempt from audit for force account purposes except to determine compliance with applicable size or tonnage restrictions.

**Force Account Assessment Forms (Ohio Rev. Code § 117.16)**

Ohio Rev. Code § 117.16 requires that, before undertaking a project by force account, a public entity must estimate the cost of the project using a form approved by the Auditor of State. With projects constructed by or in conjunction with ODOT, an estimate may be prepared using the Department's automated system (currently the Enterprise Information Management System (EIMS), which replaced the Transportation Management System (TMS), effective June 16, 2014) or other internal standardized forms. Such estimates are acceptable in lieu of the Auditor of State's force account project assessment form provided all the necessary elements of an estimate, as required by Ohio Rev. Code § 117.16, are included. However, whether prepared using the AOS form, the electronic ODOT system, or another standard ODOT form, an estimate is required to be completed and documentation supporting the estimate should be retained for **ALL** projects, unless specifically exempted by Ohio Revised Code. If the total estimated cost exceeds the statutory limits defined in Ohio Revised Code, the project must be competitively bid.

**Ohio Attorney General Opinion 2008-007<sup>59</sup>** briefly provides:

- Completing the Auditor of State's force account project assessment form estimating the cost of the work constitutes commencement of the project for purposes of determining which force account limit is in effect and applicable to the project;

- A public office may acquire material and equipment pursuant to contract, and may subcontract part of the work undertaken by force account, so long as the contracts for material and equipment and the subcontracts are let in compliance with the appropriate competitive bidding requirements;
- The estimate of the cost of road, bridge or culvert work must include the cost of materials and equipment that would be acquired by contract, and the cost of work that would be performed pursuant to a subcontract, if the project were undertaken by force account. If the total exceeds the applicable force account limit, the whole project must be competitively bid;
- Failure to comply with competitive bidding requirements when contracting for materials or equipment as part of a force account project, or when subcontracting work performed on a force account project, constitutes a violation of the force account limits as well as the applicable competitive bidding law.

### **Noncompliance**

*Note:* These laws require the Auditor of State to track all published [GAGAS-level] citations and any notifications sent to affected entities. Auditor of State staff should document on the Audit Executive Summaries, force account citations in the GAGAS report or if you have recommended that the Auditor of State send the entity [or the State Tax Commissioner] the communication required by these changes notifying the entities of the increased force account limits. IPAs auditing force accounts should follow the guidance in Ohio Rev. Code § 117.12.

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

*Note:* For ODOT projects, ODOT forms may be used in place of an Auditor of State form. You should test whichever form is appropriate for your project.

1. Read the minutes, inquire of management, and scan expenditures to reasonably determine if any road capital construction or maintenance activity took place during the audit period. Determine if such projects were undertaken using force accounts.
2. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as less than \$15,000 for a **road maintenance or repair** project or less than \$5,000 per mile for a **road construction or reconstruction** project. If so, no Auditor of State force account project assessment form would have been required to have been completed.
3. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as \$45,000 or less for **maintenance** and **repair** of roads.
4. Inspect the estimates prepared by the county engineer and determine that work undertaken by force account was documented as less than \$15,000 per mile for **construction or reconstruction** of roads.
5. If the bids from private contractors were taken for **construction or reconstruction** of roads but the board used the force account anyway, determine that the board documented that the private contractor bids were received, considered, and rejected, and the board's rationale for why using the force account approach was in the best interest of the public. Compare the force account's documented project specifications with the plans and specifications upon which the private contractor bids were based.
6. If such projects were undertaken, inspect a representative number of the entity's completed Auditor of State Uniform Force Account Project Assessment or ODOT forms. Trace wage rates, etc. to entity supporting documentation on a test basis.

7. Obtain supporting documentation of the labor fringe benefits or overhead rates, or materials overhead rates and review for reasonableness. (See clarified guidance in the requirements regarding the Safe Harbor Rule.)
8. Compare the actual projects' costs with the project assessment form estimates. Inquire of management for reasons for any change orders or apparent excessive costs compared with the project estimates. Evaluate for reasonableness of the estimates. Be alert for indications of "bid-splitting" or deliberate attempts to evade bid limitations, such as successive estimations just under the bid amount.
9. Whether such projects have been undertaken or not, consider adding language to the audit management representation letter affirming or disaffirming the existence of projects subject to the applicable force account provisions.

**Note:** with "force account" provisions, it is possible to have non-compliance with the preparation of the Auditor of State or ODOT form; with the bidding limits; or with both.

10. If the "force account" limits have been violated – that is, the township did the work by force account even though it should have been bid – then the Auditor of State is required to notify the entity [and possibly the State tax commissioner] of the penalty provisions. Auditors should indicate in this block of the OCS if the Auditor of State is to notify the entity\State tax commissioner of any of the penalty provisions. Auditor of State auditors should include this in the executive summary. IPAs should notify the Auditor of State Center for Audit Excellence.

<p><b>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

***SECTION C: DEBT***

**None.**

**SECTION D: ACCOUNTING AND REPORTING****COUNTIES**

**2-19 Compliance Requirement:** Ohio Rev. Code §§ 117.111(A), 304.01, 304.02, 955.013, 1306.01(P), 1306.02(A), 1306.04(B), and 1306.11 - Security controls over counties' electronic (i.e. internet) transactions.

**Summary of Requirement:** The AOS **must** inquire into the method, accuracy and effectiveness of any procedure a county office adopts under Ohio Rev. Code § 304.02 to secure electronic signatures or records relating to county business that is conducted electronically under Chapter 1306 of the Revised Code.<sup>61</sup>

Other statutes relevant to this requirement:

**Per Ohio Rev. Code § 304.01:**

(B) "County office" means any officer, department, board, commission, agency, court, or other instrumentality of a county.

(D) "Electronic record" means a record created, generated, sent, communicated, received, or stored by electronic means.

(E) "Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

► **Note:** The signature can be by a county employee or a citizen transacting business with a county office.

**Ohio Rev. Code § 304.02:** Prior to a county office using electronic records and electronic signatures, under Chapter 1306 of the Revised Code and except as otherwise provided in § 955.013 of the Revised Code, a county office shall adopt, in writing, a security procedure to verify that an electronic signature, record, or performance is that of a specific person or for detecting changes or errors in the information in an electronic record. A security procedure includes, but is not limited to, a procedure requiring algorithms or other codes, identifying words or numbers, encryption, or callback or other acknowledgment procedures.

**Ohio Rev. Code § 955.013** permits paying dog and kennel registration fees by financial transaction devices (e.g. credit cards), including via the internet.

**Ohio Rev. Code § 1306.02(A)** provides that Chapter 1306 of the Revised Code, the Uniform Electronic Transactions Act, generally applies to electronic records and electronic signatures relating to a transaction.

**Ohio Rev. Code § 1306.04(B)** provides that Sections 1306.01 to 1306.23 of the Revised Code apply only to transactions between parties each of which has agreed to conduct transactions by electronic means.

**Ohio Rev. Code § 1306.01:**

(G) "Electronic record" means a record created, generated, sent, communicated, received, or stored by electronic means. A record or contract that is secured through blockchain technology is considered to be in an electronic form and to be an electronic record.

(H) "Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record. A signature that is

---

<sup>61</sup> **Note:** Since the legislature has mandated this step, we should deem it to be qualitatively material.

secured through blockchain technology is considered to be in an electronic form and to be an electronic signature.

(P) Defines “transaction” as an action or set of actions occurring between two or more persons relating to the conduct of business, commercial, or governmental affairs.

**Ohio Rev. Code § 1306.11(A):** An electronic record of information generally satisfies record retention laws.

**AOS Note:** While not a statutory mandate, auditors should consider whether testing this requirement at a service organization is necessary based upon the assessed audit risks and materiality of the service organization(s)’s activities. If deemed necessary to test, update planning and include the steps in your service organization procedures within the audit project. Results of testing these procedures at a service organization would not result in noncompliance.

### Suggested Audit Procedures - Compliance (Substantive) Tests:

1. Determine the electronic records and electronic signatures relating to a county office’s electronic (i.e. *internet*) transactions. These include:
  - a. Cash receipts where a county office accepts credit/debit cards electronically (i.e., via the internet).
  - b. Other types of internet transactions.<sup>62</sup>
2. Obtain and read the *written* security procedure the county office (or its internet transaction service organization<sup>63</sup>) adopted to safeguard each type of electronic (i.e. internet) transaction. **Note:** Because the service organization processes most elements of these transactions, it is sufficient if the *service organization* adopts security procedures. If the service organization requires the county office to adopt “user control” security procedures, we should consider whether the county office has implemented these controls. (Often the service organization’s contract or response to a county office’s RFP will describe the security procedures.)
  - a. Retain a copy or summary of the procedure in the permanent file.
  - b. Update systems’ documentation as needed.<sup>64</sup>

Assess the effectiveness of the design of controls and determine that they have been “implemented.” (AOS staff can refer to AOSAM 30500.65-.70)

<sup>62</sup> As noted on the previous page, Ohio Rev. Code § 955.013 separately addresses electronic / internet sales of dog licenses. Direct deposits do *not* fall under Ohio Rev. Code § 117.111 or Ohio Rev. Code § 304.02.

<sup>63</sup> Companies providing internet transaction services may be *service organizations*. We should consider service organization implications per AU-C 402 depending upon the materiality of the transactions.

<sup>64</sup> AOS staff should update the RCEC where needed to incorporate electronic (i.e. internet) transactions, including controls and procedures designed to safeguard electronic transactions. Also, consider the appropriate degree of ISA involvement. AOS audit staff must consult with ISA when a government has a complex IT environment (AOSAM 30500.51-.55). Also consider that the nature of electronic transactions and signatures subject to this law may require ISA assistance.

3. Determine whether results from the steps above regarding the design and implementation of controls related to securing electronic signatures and electronic records relating to internet transactions result in any management comments, significant deficiencies or material weaknesses. We must also report as a noncompliance finding. Since the statute explicitly refers to a security procedure adopted in writing, we should report the absence of a security procedure adopted in writing.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**SECTION E: DEPOSITS AND INVESTMENTS**

**None.**

## SECTION F: OTHER LAWS AND REGULATION

### GENERAL

**2-20 Compliance Requirement:** Ohio Admin Code 3745-27-15 through 18 - Landfill Financial Responsibility and Certifications.

*The following is only a summary. When auditing a government managing a landfill, auditors should obtain and read copies of the applicable Ohio Administrative Code rules.*

Governments owning or managing landfills must annually certify financial information related to their ability to finance closure and post-closure liabilities to the OEPA. These reports are due within 180 days of fiscal year end.

An index to the relevant Ohio Administrative Code requirement follows:

- § 3745-27-15: Solid waste facility or scrap tire transporter final closure requirements (Section (L) describes the local government test)
  - § 3745-27-16: Solid waste facility or scrap tire transporter final post-closure requirements (Section (L) describes the local government test)
  - § 3745-27-17: Wording of financial assurance instruments (Section (H) describes the wording for the letter governments assured under the local government test must submit to OEPA).
  - § 3745-27-18: Only applies when OEPA director mandates corrective action, such as to remediate landfill groundwater contamination described in § 3745-27-10. (Section (M) describes the local government requirements, if applicable.)
- I. The Federal EPA adopted a regulation (40 C.F.R. § 258.74(f)) allowing governmental solid waste landfills (GSWLFs) to avoid acquiring third-party financial instruments (such as letters of credit, insurance or establishing trust funds) to assure current final closure, post-closure and/or corrective measure cost estimates and any other environmental obligations to the extent they meet certain financial tests. The Federal EPA placed the responsibility for monitoring compliance with this rule on the states. In response, the Ohio EPA adopted a regulation that parallels the Federal regulation in most aspects.
  - II. A GSWLF need not obtain third-party instruments for amounts up to 43% of the local government's **total revenue**,<sup>65</sup> *provided* that it meets the tests described in **III** below. A GSWLF must obtain a third-party instrument (e.g., insurance, trust fund, and bond) for all current final closure, post-closure and/or corrective measure cost estimates and any other environmental obligations, exceeding 43% of total revenue.
  - III. There are two alternatives to the third-party financial instruments nongovernments must have for (closure + post-closure + mandated corrective care costs). Governments do not need these instruments (for up to 43% of total annual revenue), if:

<sup>65</sup> Terms defined in the *State Support Document for the Local Government Financial Test* are printed in **boldface type** the first time they appear. A copy of this document was sent to each region.

**Alternative I**

- a. The GSWLF issues GAAP financial statements.
- b. The GSWLF has not:
  1. Defaulted on GO bonds, or has not issued GO bonds of less than investment grade per Moody's or S&P.  
  
Local governments issuing bonds secured by collateral or a guarantee (e.g. AMBAC insurance) must meet the minimum rating without that security. (This means consider the *government's* debt rating, not the rating of a particular insured or collateralized *issue*.)
  2. Has not operated at a deficit of greater than or equal to (5% x annual revenue) in either of the past two fiscal years. (The federal rule defines a deficit as total revenue minus **total expenditures**);
  3. Received a qualified opinion.

Also, either condition c. or d. must be met:

- c. All GO bonds must be of investment grade, rated by either Moody's or S&P.

**OR:**

**Alternative II:**

- d. The GSWLF must have:
  1. **(Cash + marketable securities) / total expenditures**  $\geq$  5%, AND
  2. **Debt service / total expenditures**  $\leq$  20%, AND
  3. **Ratio of long term debt issued & outstanding / capital expenditures** must be  $\leq$  2.0.

(Based on the federal regulation, we believe that the reference to "outstanding" debt immediately above only refers to debt issued in the current year that is still outstanding at year end.)

## IV. Reporting requirements:

- a. The GAAP statements must comply with GASB Statement No. 18 disclosures (this requirement does not appear in the Ohio Administrative Code, but is included in the Federal regulation.) However, Ohio Admin. Code 3745-27-15(C)(1)(a) requires the closure financial assurance instrument for a sanitary landfill facility, solid waste transfer facility, or solid waste incinerator to contain an itemized written estimate, in current dollars, of the cost of closure. The closure cost estimate shall be based on the closure costs at the point in the operating life of the facility when the extent and manner of its operation would make the closure the most expensive, and shall be based on a third party conducting the closure activities.
- b. The CFO must prepare a letter listing current final closure, postclosure and/or corrective measure cost estimates and any other environmental obligations, and certify whether the government meets III.a.-d. (above), and also certify that the government is assuring a liability  $\leq$  43% of annual operating revenues.

- c. Audited financial statements must be kept as part of the “facility’s operating record.”
- d. Accountants must also issue an agreed-upon procedures report. The procedures must note whether amounts used for the ratios Alternative II above in the CFO’s letter agree to the audited GAAP statements.

#### V. Definitions:

To assure that the CFO’s letter is appropriate, it is critical that the financial information be consistent with the definitions in the *State Support Document for the Local Government Financial Test* (the Document). For example, the Document explains that “total expenditures” should not include capital project, internal service or fiduciary fund expenditures/expenses. A copy of the *Document* has been sent to each regional office.

The Federal EPA informed us they do not intend to update the Document for GASB Statement No. 34. Therefore, we believe the amounts for the accounts described above appearing in the CFO’s letter (cash and marketable securities, revenues, etc.) should be derived from the governmental and proprietary **fund** financial statements, not from the entity-wide financial statements.

#### VI. Other

1. The Federal regulation gives state directors the option of allowing governments to discount the liability. However, Ohio does not permit discounting. Also, paragraph 42 of GASB Statement No. 18 prohibits discounting.
2. Both the Federal and State regulations refer to governmental financial statements as *Comprehensive Annual Financial Reports*. However, while the Federal and State rules require GAAP reporting, there appears to be no explicit requirement to prepare a Comprehensive Annual Financial Report. In the Auditor of State’s opinion, basic financial statements complying with GASB Statement No. 18 and including segment information (if applicable) for the landfill operation are sufficient.

#### Suggested Audit Procedures - Compliance (Substantive) Tests:

**Note: These procedures relate to the *local government test*. If a government uses other assurance methods, auditors must read the applicable Ohio Admin. Code 3745-27 requirements and design appropriate tests and reports.**

**For AOS staff: If the reporting differs from the example AUP available to AOS staff in the Briefcase, you must submit your draft report to the Center for Audit Excellence for review.**

1. Determine whether the estimate of closure, post closure and other corrective care liabilities has been updated through the most recent balance sheet date. Such estimates may require corroboration by an environmental specialist. (The auditor may need to consider AU-C 620, *Using the Work of a Specialist*.)
2. Compare the format of the CFO’s letter to the EPA with the example included in Ohio Admin. Code 3745-27-17(H).
3. Prepare the agreed-upon procedures report required by the Federal EPA. An example report is available to AOS staff in the AOS Briefcase/Audit Employees folder under AUP.

4. If the government cannot meet the government test, or has liabilities exceeding 43% of annual revenue, inquire which method the government has selected to assure these amounts. If the government has (1) established a final closure trust fund; (2) secured a surety bond guaranteeing payment; (3) obtained an irrevocable letter of credit or; (4) obtained commercial insurance to finance these liabilities, then inspect documentation that the required funds, bonds, letter of credit, or insurance have been obtained, and are in force.
5. The local government requirements in Ohio Admin. Code 3745-27-15, 16, 17, and 18 mandate GAAP financial statements.
  - Read the draft financial statements to determine if they meet the GAAP display and disclosure requirements for these assets/guarantees/commitments, etc. in GASB Statement No. 18, ¶7 (e) (Cod. L10.115).

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**2-21 Compliance Requirement:** Ohio Rev. Code §§ 135.14(B)(7), 135.142, 135.22, 135.35, 319.04, 321.46, 507.12, 733.27, and 733.81 - Education Requirements

### Summary of Requirements:

#### Subdivision Treasurers<sup>66</sup>

Subdivision treasurers must complete annual continuing education programs provided by the Treasurer of State (TOS). The TOS issues certificates indicating that the treasurer has successfully completed the continuing education program.

The continuing education requirement does not apply to a subdivision treasurer who annually provides a notice of exemption to the Auditor of State, certified by the Treasurer of State (and confirmable through the TOS searchable database weblink below) that the treasurer is not subject to the continuing education requirements because the treasurer invests or deposits public funds in the following investments only (Ohio Rev. Code § 135.22):

- (1) Interim deposits pursuant to Ohio Rev. Code §§ 135.14(B)(3) or 135.145 (CDAR and similar programs);
- (2) STAR Ohio<sup>15</sup> pursuant to Ohio Rev. Code § 135.14(B)(6);
- (3) No-load money market mutual funds pursuant to Ohio Rev. Code § 135.14(B)(5)

Specific requirements apply to the officials listed below:

#### County Treasurers

Newly-elected treasurers must complete education programs (26 hours) approved by the Auditor of State (13 hours) and the Treasurer of State (13 hours) between December 1 and the first Monday in September following that person's election [Ohio Rev. Code § 321.46]. For instance, a treasurer elected in November 2011, taking office in 2012, would be required to receive the initial 26 hours of training between December 1, 2011 and September 2012. In this example, the newly-elected treasurer would complete one year in office in September 2013 and would then enter into the biennial cycle for 2014/2015 for continuing education.

After completing one year in office, a county treasurer must take not fewer than 24 hours of continuing education approved by the Auditor of State (12 hours) and the Treasurer of State (12 hours) in each **biennial cycle** commencing the January 1 after the treasurer's first year in office. County treasurers may carry forward up to six hours received from the Auditor of State plus up to six hours received from the Treasurer of State in excess of 24 from the current to the next biennial cycle. [Ohio Rev. Code § 321.46] The biennial time periods are:

- January 1, 2012 to December 31, 2013
- January 1, 2014 to December 31, 2015
- January 1, 2016 to December 31, 2017

---

<sup>66</sup> A treasurer of an agricultural society must comply with the continuing education requirements of Ohio Rev. Code § 135.22. The treasurer meets the definition of "treasurer" in Ohio Rev. Code § 135.22 (which refers to the definition in Ohio Rev. Code § 135.01(M)) which is as follows: "Treasurer" means, in the case of the state, the treasurer of state and in the case of any subdivision, the treasurer, or officer exercising the functions of a treasurer, of such subdivision. In the case of a board of trustees of the sinking fund of a municipal corporation, the board of commissioners of the sinking fund of a school district, or a board of directors or trustees of any union or joint institution or enterprise of two or more subdivisions not having a treasurer, such term means such board of trustees of the sinking fund, board of commissioners of the sinking fund, or board of directors or trustees.

Auditors should wait until the expiration of the applicable biennial time period to determine whether *existing treasurers* (as opposed to those *newly-elected*) have completed the continuing education requirements.

A treasurer who fails to complete the **initial** education programs required by Ohio Rev. Code § 321.46 cannot invest and is *subject to removal from office*. Investment authority transfers immediately to the county investment advisory committee.

A treasurer who fails to complete the **continuing** education programs required by Ohio Rev. Code § 321.46 is restricted to investing in STAR Ohio<sup>15</sup>, no-load money market mutual funds pursuant to §§ 135.14 (B)(5) and 135.35(A)(5), or in certificates of deposit pursuant to Ohio Rev. Code § 135.35(A)(3), or savings or deposit accounts pursuant to Ohio Rev. Code § 135.35(A)(3). A county treasurer who has failed to complete the continuing education programs and invests in other than these investments is subject to removal from office.

#### **County Auditors** (Ohio Rev. Code § 319.04)

An elected county auditor needs to complete at least 16 hours of continuing education courses during the first year of each full term, and to complete at least eight more hours by the end of that term. The county auditor needs at least two hours of ethics and substance abuse training in the total 24 hours of required courses. The County Auditors Association of Ohio (the Association) must approve each course. If a county auditor teaches an approved course, the county auditor shall receive credit for it. The Association shall keep track of the hours completed by each county auditor and, upon request will issue a statement of the number of hours of continuing education the county auditor has successfully completed. The Association shall send this information to the Auditor of State's office and to the Tax Commissioner each year. The Auditor of State shall issue a certificate of completion to each county auditor who completes the continuing education courses required by this section. If a county auditor does not adhere to the requirements stated above, the Auditor of State shall issue a "notice of failure" to that county auditor. This notice is for informational purposes only and does not affect any individual's ability to hold the office of county auditor. Also, each board of county commissioners shall approve reasonable amounts required by the county auditor to cover the costs incurred when meeting the above requirements.

#### **Village Fiscal Officers**

Must attend annual training programs for new village fiscal officer *and* annual continuing education programs provided by the Auditor of State [Ohio Rev. Code § 733.27]. (The Auditor of State interprets this section as requiring a newly-elected fiscal officer to attend the new fiscal officer's training offered by the Auditor of State between December 1 and the following February 15, and any other annual training offered by the Auditor of State. Continuing fiscal officers must attend the annual update sessions only.)

This requirement may be fulfilled by the hours obtained for the Fiscal Integrity Act. Ohio Rev. Code § 507.12(D)(2) states, "(2) A township fiscal officer may apply to the continuing education hours required by division (C) of this section any hours of continuing education completed under section 135.22 of the Revised Code after being elected or appointed as a township fiscal officer."

#### **Municipal and Township Fiscal Officers - Fiscal Integrity Act**

"Fiscal officer" includes city auditor, city treasurer, village fiscal officer, village clerk-treasurer, any officer with duties and functions similar -to those of the city or village officer Ohio Rev. Code § 733.81 (A) and township fiscal officer (Ohio Rev. Code § 507.12).

A newly elected or appointed fiscal officer shall complete at least six hours of initial education programs before commencing, or during the first year of office. An additional eighteen hours of continuing education must be completed within the fiscal officer's first term. Twelve hours of training shall be completed for

each subsequent term<sup>67</sup>. (Ohio Rev. Code § 507.12(B) and (C)) Consider the following training guidelines:

- Training obtained under Ohio Rev. Code § 117.44, 109.43 or 135.22 can be applied to the required hours.
- For fiscal officers who are appointed to fill a vacancy, these requirements shall be required proportionate to the time remaining in the vacated office.
- Two hours of ethics instruction shall be included in the continuing education requirements for each term.
- CPAs serving as a fiscal officer may apply hours of continuing education completed under Ohio Rev. Code § 4701.11.
- Fiscal officers who teach approved continuing education course(s) may apply that credit in the same manner as if they had attended the course.

The Auditor of State is responsible for conducting education programs and continuing education courses for fiscal officers. Training may also be conducted by the Ohio township association or Ohio municipal league (Ohio Rev. Code § 733.81(A)) if approved by the Auditor of State. (Ohio Rev. Code § 507.12 (A)) The Auditor of State shall also verify completion of initial education programs and continuing education courses. Certificates of completion shall be issued by the Auditor of State. A “failure to complete” notice will be issued by the Auditor of State for those fiscal officers who fail to complete the requirements. The notice is issued at two deadlines: 1) if newly-elected fiscal officers do not complete 6 hours of training during their first year of office, and 2) if any fiscal officer does not complete their required total hours by the end of their term. This does not affect the individual’s ability to hold office and is for informational purposes only. (Ohio Rev. Code § 507.12(E))

### **Auditor of State**

AOS developed an on-line training database. The database includes a list of approved training, which is maintained by our training department. Fiscal Officers must register and create a personal username and password for the Auditor of State’s Fiscal Integrity site for reporting purposes. Training is then reported by choosing the training courses and dates attended. Fiscal officers are required to self-report their hours, otherwise they will not receive credit for the training. Fiscal Officers can access and print their certificates via the Fiscal Integrity Act portal available at <http://www.ohioauditor.gov/fiscalintegrity/default.html>.

Fiscal officers who have obtained a license, CPA or CPIM (Center for Public Investment Management), are not required to report their hours as the training requirements for these certifications are more stringent than the Fiscal Integrity Act. The only exception are those fiscal officers with the CPIM certification, they will have to report ethics and certified public records training. License numbers are reported in the database and verified by the Auditor of State training staff twice annually.

### **All Local Governments**

No investment shall be made in commercial paper or bankers acceptances unless the following have completed additional training<sup>68</sup> for making those investments. The type and amount of additional training shall be approved by the Treasurer of State:

- School treasurer [Ohio Rev. Code § 135.142(B)]

---

<sup>67</sup> Per Ohio Admin. Code 117-14-01(C) – For the purposes of this section, a nonelected municipal fiscal officer, who has been hired to fill such a position, shall have a term equivalent to that of an elected township fiscal officer, whose term is governed by section 507.01 of the Revised Code. Thus, a nonelected municipal fiscal officer’s term shall be four years, and such term shall begin on the first day of April in 2016. All subsequent such terms shall begin on the first day of April quadrennially thereafter.

<sup>68</sup> While not specified in statute, the TOS has indicated that this training need only be completed once. It is not intended to be an annual requirement.

- County investing treasurer<sup>69</sup> [Ohio Rev. Code § 135.35(A)(8)]
- For other local governments: Treasurer or governing board [Ohio Rev. Code § 135.14(B)(7)]

### TOS CPIM Confirmation and FAQ's

The Treasurer of State's website includes an online searchable CPIM report database<sup>70</sup> of treasurers receiving TOS-approved certifications and exemptions. The link to this website is: <http://tos.ohio.gov/cpim/fiscalofficers/> However, the TOS website does not include CPIM for AOS-approved courses for county treasurers. Auditors should refer to the Continuing Education Hours Report under *County Treasurer's* box on the AOS website at <https://www.ohioauditor.gov/trainings/Report%204-8-20.pdf> to obtain a listing of AOS-approved CPIM received by county treasurers. CPIM training requirements are by calendar year.

Auditors can also refer to AOS/TOS Frequently Asked Questions (FAQ's) regarding training requirements for county and local subdivision treasurers on our website listed as *Training Requirements for County Treasurers* or as *Training Requirements for Treasurers of Subdivisions* at: <https://ohioauditor.gov/trainings/CPIMFAQs.docx>

### Timing of Training

New public officials should be able to receive technical training prior to actually taking office. Additionally, payment for training attendance under these circumstances, even prior to taking office, is a proper public expenditure and should not be questioned in an audit. (See also <http://ohioauditor.gov/ocs/2019/191205%20OTA%20Letter.pdf>)

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. For counties, obtain certificates of completion for the last biennial period. (*Note: For efficiencies, auditors may be able to obtain these certifications using the weblink above for the Treasurer of State and the Auditor of State.*)
  - a. For County Auditors, Review the County Auditor Association's statement documenting attendance or confirm by reviewing the County Auditor Continuing Education Status Report located at: <https://ohioauditor.gov/references/confirmations/hours.html>.
  - b. Determine if the Auditor obtained sufficient CPE.
2. For other subdivisions, please show me your annual certificates of completion. (*Note: For efficiencies, auditors may be able to obtain these certifications using the weblink above for the Treasurer of State.*)
3. If a newly elected or appointed municipal or township fiscal officer<sup>71</sup> has completed the first year of their term during the years being reviewed OR the fiscal officer's term ended during the years being reviewed. Obtain evidence that fiscal officers have received the required training.
  - a. Evidence of training may be obtained from the Fiscal Officer, or by searching the Fiscal Integrity Act portal.

---

<sup>69</sup> Ohio Rev. Code § 135.35(A)(8) applies to the investing authority. However, the treasurer is the investing authority, except in the rare circumstance county commissioners determine a treasurer is not complying with county policies, per Ohio Rev. Code § 135.34.

<sup>70</sup> *Note:* The reliability of the TOS online CPIM search results may be affected by the accuracy of information entered into the database. Therefore, auditors may still need to inquire with local treasurers regarding CPIM certifications if discrepancies are identified using the online database.

<sup>71</sup> Please note this is for fiscal officers whose term begins after 3-23-2015.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**2-22 Compliance Requirement:** Various ORC Sections - Fraud and Abuse; Conflict of Interest; Ethics.**Ohio Rev. Code § 102.03 - Restrictions and prohibitions.**

- This section restricts the conduct of public officials and employees with respect to their official positions. Per Ohio Rev. Code § 3314.03(A)(11)(e) and Ohio Ethics Commission Advisory Opinion 2010-01 (<https://www.ethics.ohio.gov/advice/opinions/2010-01.pdf>), Ohio Rev. Code Chapter 102 applies to community schools. Members of a community school's governing authority cannot be employed by either the school or, except in specified circumstances, have an interest in *any* contract awarded by the governing authority. No person who is a member of the governing authority of a community school under Chapter 3314 may be a member of a board of education. [Ohio Rev. Code § 3313.131]

Ohio Rev. Code § 3314.02(E)(2) further restricts the following from membership of community school governing authorities:

- (1) A person who owes the state money or is in dispute over whether the person owes the state any money concerning the operation of a community school that has closed.
- (2) A person who would otherwise be subject to refusal, limitation, or revocation of a license to teach, if the person were a licensed educator,
- (3) A person who has pleaded guilty to or has been convicted of a theft in office or a similar offense, and
- (4) A person who has not submitted to a criminal records check.<sup>72</sup>

Ohio Rev. Code § 3314.02(E)(4) indicates for a community school that is not sponsored by a school district or education service center:

- (1) No present or former member (or immediate relative<sup>73</sup>) of the governing authority shall be an owner, employee, or consultant of the sponsor/operator, unless at least one year has elapsed since conclusion of the person's membership on the governing authority

Or if the community school is sponsored by a school district or education service center, no present or former member (or immediate relative) of the governing authority shall:

- (1) Be an officer of the district board or service center governing board that serves as the sponsor, unless at least one year has elapsed since conclusion of the person's membership on the governing authority
- (2) Serve as an employee of, or consultant for, the department, division, or section of the sponsoring district or service center that is responsible for sponsoring, unless at least one year has elapsed since conclusion of the person's membership on the governing authority

- Present and former public officials or employees are prohibited during their public employment or for twelve months thereafter from representing any person on any matter in which the public official or employee personally exercised administrative discretion as a public official or employee. (Also known as *the revolving door statute*.) [Ohio Rev. Code § 102.03(A)(1)]
- Division (A) of Ohio Rev. Code § 102.03 shall not be construed to prohibit performing ministerial functions, including, but not limited to, the filing or amending tax returns, applications for permits and licenses, incorporation papers, and other similar documents. [Ohio Rev. Code § 102.03(A)(7)]
- Public officials and employees are prohibited from using or authorizing the use of the authority or

<sup>72</sup> Any person who has not submitted to a criminal records check is prohibited from engaging in the financial day-to-day management of the community school.

<sup>73</sup> Immediate relatives are limited to spouses, children, parents, grandparents, and siblings, as well as in-laws residing in the same household as the person serving on the governing authority. [Ohio Rev. Code § 3314.02(E)(1)]

influence of office or employment to secure anything of value or to promise or to offer anything of value that is of such a character as to manifest a substantial and improper influence upon the public official or employee with respect to that person's duties. [Ohio Rev. Code § 102.03(D)]

- Public officials and employees are prohibited from soliciting or accepting anything of value that is of such character as to manifest a substantial and improper influence upon that public official or employee with respect to that person's duties. [Ohio Rev. Code § 102.03(E)]

### **Ohio Rev. Code sections governing interests in contracts by elected officials**

- **Ohio Rev. Code § 305.27** Prohibits county commissioners from having an interest in a county contract.
- **Ohio Rev. Code § 511.13** Prohibits any member, officer or employee of a board of township trustees from having an interest in any contract the trustees approve.
- **Ohio Rev. Code § 731.02** Prohibits members of a city legislative authority from having an interest in any contract with the city.
- **Ohio Rev. Code § 731.12** Prohibits members of a village legislative authority from having an interest in any contract with the village.
- **Ohio Rev. Code § 3313.33** Prohibits board of education members from having a pecuniary interest in a board contract, or from being employed by the board. However, there are exceptions, per Ohio Rev. Code § 3313.33(C). You should refer to the statute for details of the exceptions. *Note*: this statute does not apply to community schools unless the sponsor mandates it through the sponsor contract.

#### **Ohio Rev. Code § 2921.42** - Having an unlawful interest in a public contract.

This section prohibits such interests.<sup>74</sup> Ohio Rev. Code § 3314.03(A)(11)(e) requires community schools to comply with Ohio's Ethics Laws, which, among other things, requires public officials to disclose conflicts of interest and prohibits them from having an interest in a contract awarded by their public office. For example, a community school's Treasurer should not loan money to a community school they work for, as this could violate Ohio Rev. Code § 2921.42. Effective March 30, 2006, members of a community school's governing authority cannot be employed by the community school or, except in specified circumstances, have an interest in *any* contract awarded by the governing authority<sup>75</sup>.

**Ohio Rev. Code § 9.833(F)** expressly permits a subdivision's officials or employees to serve on the governing board of the program administrator of a governmental self-insurance program, if his or her government participates in that program.

**Ohio Rev. Code § 3314.02(E)(6) - (8)** - No employees of a school district or ESC shall serve on the governing authority of a community school sponsored by that school district or ESC. *No* person who is a

<sup>74</sup> [2016 O.E.C. No 2016-01](#) discusses in greater detail exceptions and considerations related to Ohio Rev. Code § 2921.42.

<sup>75</sup> It is permissible for a public official to have an interest in a public contract if (1) the contract covers necessary services or supplies for the official's public office, (2) the services or supplies cannot be obtained elsewhere for the same or lower cost or are being furnished to the public office as part of an ongoing relationship that started prior to the official's involvement with the office, (3) the treatment given to the public office is either preferential to or the same as the treatment given to other clients, and (4) the public office is aware of the official's interest in the contract and the official does not participate in any deliberations regarding the contract. [Ohio Rev. Code § 2921.42(C)]

member of a school district board of education shall serve on the governing authority of *any* community school.<sup>76</sup>

Each member of the governing authority shall annually file a disclosure statement reporting the names of any immediate relatives or business associates employed within the previous three years by either the (1) sponsor or operator of the community school, (2) school district or ESC has contracted with the community school, or (3) vendor engaged in business with the community school.

**Ohio Rev. Code § 2921.41**- Theft in office.

Public officials committing theft of public property (or services), or who use their offices in committing such acts, or permit their offices to be so used, are in violation of this Section. Ohio Rev. Code § 2913.01(K) defines “theft.”

**Ohio Rev. Code § 2921.421** - Assistants and employees of prosecutors, law directors, and solicitors. This section provides procedures for employing persons associated in the private practice of law in these offices.

**Ohio Rev. Code § 3329.10** - Purchases of school textbooks and supplies:

Superintendents, principals, teachers, and supervisors are prohibited from acting as sales agents for textbook companies including companies offering electronic textbooks. These school officials are also prohibited from representing companies selling school apparatus or equipment. (Not applicable to community schools.)

**Ohio Rev. Code § 117.103(B)(1)** – A public office shall provide information about the Ohio fraud-reporting system and the means of reporting fraud to each new employee<sup>77</sup> upon employment with the public office. Each new employee shall confirm receipt of this information within thirty days after beginning employment. The auditor of state shall provide a model form on the auditor of state’s web site (<https://ohioauditor.gov/fraud/FraudReportingSystemModelForm.pdf> ) to be printed and used by new public employees to sign and verify their receipt of information as required by this section. The auditor of state shall confirm, when conducting an audit under Ohio Rev. Code § 117.11, that new employees have been provided information as required by this division.

1979 Op. Att’y. Gen. No. 1979-111 - Incompatibility of public offices: A public officer or employee may be prohibited from holding another public position. The Attorney General maintains a listing of incompatible public offices (<http://www.ohioattorneygeneral.gov/About-AG/Service-Divisions/Opinions/Compatibility-of-Public-Offices-or-Positions>)

**Note:** You may find evidence of possible violations of Ohio Rev. Code §§ 102.03, 2921.41, 2921.42, and 2921.421 from various audit tests. These sections are criminal violations. Auditor of State staff should consult with the State Auditor's Legal Division whenever you suspect possible violations of these sections. Independent public accountants should consult with their own legal counsel.

---

<sup>76</sup> We interpret these requirements to mean that representatives of the community school’s sponsor organization are prohibited from being voting members of the community school’s governing authority. A sponsor is statutorily required to be actively monitoring and present at community school board meetings. While representatives of the sponsor organization may make their wishes known during the board meetings, they are prohibited from voting.

<sup>77</sup> Due to the ethical component in this requirement, we interpret this to include and be applicable to any “Public Official or employee” (as defined in Ohio Rev. Code § 102.01(B))

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

1. Determine how the entity identifies possible interests on the part of officials and employees in matters coming before them for official action. For example, are officials and employees required to report the outside businesses and organizations they work for to the entity?
2. Inquire if any correspondence was received from the Ohio Ethics Commission regarding ethical violations.<sup>78</sup> If so, read correspondence regarding ethical violations and document the impact of any violations on the audit.
3. Inquire if any conflicts of interest or unethical transactions occurred during this year.
4. Inquire if the entity is aware of any other fraud. (AU-C 240 requires this step. If you already documented this in the FRAQ, you need not repeat this step here.)
5. If the school district purchased textbooks (including electronic textbooks) or school apparatus or equipment during this year, determine how the school assured that no one on the purchasing committee (superintendents, principals, teachers, and supervisors) acted as sales agents for those companies.
6. Determine if the entity notified employees about the fraud reporting system. Inquire regarding the entity's process for obtaining and maintaining confirmations from new hires signing off that they have received notification about the fraud reporting system.
7. Select a small number of newly hired employees (~~hired after 5/4/2012~~) and ~~review the employees' confirmations that they were provided information as required have been notified about the fraud reporting system.~~
8. **For traditional schools that sponsor community schools**, inquire whether any employees of the school district or ESC serve on the governing authority of a community school sponsored by the school district or ESC.
9. **For traditional schools**, inquire whether the district board members serve on the governing authority of ANY community school.
10. **For community schools:**
  - a. Inquire whether any of the governing board members are also employees or governing board members of the sponsoring traditional school or ESC.
  - b. Determine whether the Treasurer loaned the community school money. This would include previous loans still being repaid during the current audit period, or money loaned to the school during the current audit period.

<p><b>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

<sup>78</sup> Auditors and IPAs should not contact the Ethics Commission. If evidence comes to your attention concerning possible ethics violations, IPAs and AOS staff should follow this guidance from the *Ohio Compliance Supplement Implementation Guide*.

**Revised: HB 197, 133 GA**  
**Effective: March 27, 2020**

**Revised: HB 404, 133 GA**  
**Effective: November 22, 2020**

**2-23 Compliance Requirement:** Ohio Rev. Code §§ 109.43, 121.22, 149.43, 3314.037 and AOS Bulletin 2019-003 – Ohio Sunshine Laws

**This section is re-organized and appears different from other sections of the OCS, with the requirements and associated testing interspersed in the “Test Procedures” section. The requirements are numbered and associated testing follows in italicized text.**

FAQs are available from both the Public Office and Auditor viewpoints. See [Sunshine Laws and StaRS FAQs.docx](#) for additional guidance as necessary.

### *Summary of Requirements*

The Sunshine Law incorporates two acts, the Ohio Public Records Act Ohio Rev. Code § 149.43 and the Ohio Open Meetings Act Ohio Rev. Code § 121.22. As provided in the Acts and Ohio Rev. Code § 109.43, during an annual/biennial audit pursuant to Ohio Rev. Code Chapter 117 the AOS will test for compliance with these statutes. A brief description of the Acts follow.<sup>79</sup>

AOS will be testing for statutory compliance with the Ohio Public Records Act and Ohio Open Meetings Act, and reporting those results with more emphasis. The General Assembly has empowered the public to ensure their local governments are acting transparently in carrying out the peoples’ business by creating these two self-help statutes. If a citizen believes a public office has violated either Act, they can file an action in the appropriate court.

### *Ohio Public Records Act - Ohio Rev. Code § 149.43*

This Act requires that a public office make public records available for inspection or copying. The time required for a response depends on the type of request.

1. If a request is to INSPECT public records, the response must be **prompt**.
2. If COPIES are requested, those copies must be provided within a **reasonable period of time**.

As is often noted, the terms "promptly" and "reasonable period of time" are not defined by a specific period of time. Rather, these terms have been interpreted by courts to mean "without delay" and "with reasonable speed,"<sup>80</sup> and the ultimate determination of "reasonableness" will differ in each case depending on the particular facts and circumstances of a request.<sup>81</sup> Additionally, courts have held that a "prompt" or

<sup>79</sup> For full details of all requirements and exceptions see the Ohio Sunshine Law Manual at: <https://www.ohioattorneygeneral.gov/Legal/Sunshine-Laws>.

<sup>80</sup> *State ex rel. Office of Montgomery Cty. Pub. Defender v. Siroki*, 108 Ohio St.3d 207, 2006-Ohio-662, at ¶16; *State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Educ.*, 97 Ohio St.3d 58, 2002-Ohio-5311, at ¶37; *State ex rel. Wadd v. City of Cleveland*, 81 Ohio St.3d 50, 53, 1998-Ohio-444.

<sup>81</sup> *State ex rel. Morgan v. Strickland*, 121 Ohio St.3d 600, 2009-Ohio-1901, at ¶17 ("Given the broad scope of the records requested, the governor's office's decision to review the records before producing them, to determine whether to redact exempt matter, was not unreasonable."); *State ex rel. Dispatch Printing Co. v. Johnson*, 106 Ohio St.3d 160, 2005-Ohio-4384, at ¶44 (delay due to "breadth of the requests and the concerns over the employees' constitutional right of privacy" was not unreasonable); *State ex rel. Consumer News Serv., Inc. v. Worthington City Bd. of Educ.*, 97

"reasonable period of time" includes the time for a public office to: (1) identify the responsive records; (2) locate and retrieve records from place of storage; (3) review, analyze and make necessary redactions (or legal review); (4) prepare the requests; and (5) provide for delivery.

Not all documents and information maintained by a public office are subject to disclosure under the Act. In these instances, it may be necessary to withhold records such as when the document is not a public record, or redact information from the response, such as social security numbers. When redacting information from a request, the public office is required to notify the requester of any redaction or make the redaction plainly visible.<sup>82</sup> Additionally, where the request is denied, in whole or in part, including redactions, the public office must provide the requester with a reason, including the legal authority for the denial/redaction.<sup>83</sup>

Because the Public Records Act is a self-help statute, if a person believes the public office has violated the Act in any way, he or she must initiate a legal action themselves. Neither the AOS nor any other public official can do so on their behalf. More general information can be found in the Ohio Sunshine Manual found at <http://www.ohioauditor.gov/open.html>. For more specific information, both citizens and public offices should consult their legal counsel.

#### ***Ohio Open Meetings Act – Ohio Rev. Code § 121.22***

This Act requires that all meetings of any public body be open to the public. The minutes of regular and special meetings are to be promptly recorded and open to the public for inspection. Executive session may be held at a regular or special meeting, but must be entered into and returned from during the public meeting. To enter into executive session requires a roll call vote while ending an executive session only requires a notation in the minutes that the body has returned to open session. But both instances must occur during the public portion of the meeting. Matters that can be discussed during executive session are specifically limited by Ohio Rev. Code § 121.22(G); actions and decisions must occur during the open meetings. The minutes need to only reflect the general subject matter of discussions in executive sessions.

Every public body shall establish a reasonable method<sup>84</sup> of notifying the public of the time and place of all regularly scheduled meetings and the time, place, and purpose of all special meetings. A special meeting requires twenty-four hour notice to the news media that have requested notification, except in the event of an emergency requiring immediate action, whereby notice shall be immediate.

Because the Open Meetings Act is a self-help statute, if a person believes the public office has violated the Act in any way, he or she must initiate a legal action themselves. Neither the AOS nor any other public official can do so on their behalf. More general information can be found in the Ohio Sunshine Manual found at <http://www.ohioauditor.gov/open.html>. For more specific information, both citizens and public offices should consult their legal counsel.

---

Ohio St.3d 58, 2002-Ohio-5311; *State ex rel. Striker v. Cline* (5th Dist.), 2010-Ohio-3592 (provision of records within nine business days was a reasonable period of time to respond to a records request.); *State ex rel. Holloman v. Collins* (10th Dist.), 2010-Ohio-3034 (Assessing whether there has been a violation of the public records act, the critical time frame is not the number of days between when respondent received the public records request and when relator filed his action. Rather, the relevant time frame is the number of days it took for respondent to properly respond to the relator's public records request.).

<sup>82</sup> Ohio Rev. Code § 149.43(B)(1).

<sup>83</sup> Ohio Rev. Code § 149.43(B)(3).

<sup>84</sup> Ohio Rev. Code § 121.22(F); *Katterhenrich v. Fed. Hocking Local School Dist. Bd. of Edn.*, 121 Ohio App.3d 579, 587 (4th Dist. 1997) ("Typically, one would expect regular meetings to be scheduled well in advance ....").

Effective March 9, 2020 until July 1, 2021, members of a public body may hold and attend meetings and may conduct and attend hearings by means of teleconference, video conference, or any other similar electronic technology and all of the following apply:<sup>85</sup>

- 1) Any formal action shall have the same effect as if it had occurred during an open meeting;
- 2) Members attending an electronic meeting are considered present as if attending an in-person meeting, are permitted to vote, and are counted for purposes of determining a quorum;
- 3) Notice of public meetings must still be provided as outlined in Ohio Rev. Code § 121.22(F); and
- 4) Said public body shall provide the public access to view any meeting held electronically (that the public would otherwise be able to attend) through live-streaming by means of the internet, local radio, television, cable, or public access channels, call in information for a teleconference, or by means of any other similar electronic technology. The public body shall ensure that the public can observe and hear the discussions and deliberations of all the members of the public body, whether the member is participating in person or electronically.

When members of a public body conduct a hearing by means of teleconference, video conference, or any other similar electronic technology, the public body must establish a means, through the use of electronic equipment that is widely available to the general public, to converse with witnesses, and to receive documentary testimony and physical evidence.

#### Test Procedures:

NOTE: For those entities, such as counties, that have multiple departments, agencies, elected officials, and/or oversight boards that have adopted their own public record policies should be tested on a rotating basis. **Test half of the departments, agencies, elected officials, and/or oversight boards each year,** unless there has been a change to the policy, then test in the year of the change. **The public office's main policy should be tested annually (i.e. County Commissioner policy followed by various departments, agencies, elected officials, and/or oversight boards).** Charter entities may have different requirements depending on their charters. Therefore, requirements/testing for charter entities may differ.

1. The public office shall create and adopt a policy for responding to public records requests. Except for the exception noted in Ohio Rev. Code § 149.43(B)(7)(c), the public records policy may not: (a) limit the number of public records that the public office will make available to a single person, (b) limit the number of public records that it will make available during a fixed period of time, and (c) establish a fixed period of time before it will respond to a request for inspection or copying of public records, unless that period is less than eight hours. [Ohio Rev. Code § 149.43(E)(2)]

*Obtain the public office's Public Records Policy and scan it to be sure the policy did not limit the number of responses that will be made to a particular person or limit the number of responses during a specified period of time, unless the exception noted above applies, or establish a fixed period of time before it will respond unless that period is less than eight hours.*

2. Select five (or total population if less than five) public records requests from the audit period to ensure: (Note: one selection of five (or total population if less than five) is sufficient for each policy tested no matter how many departments follow that policy. In addition, if there are no denials or redactions pulled in the selection, auditors do not need to pull an additional selection.)
  - a. Public records are promptly prepared and sent to the requestor, and/or promptly prepared and made available for inspection by the requestor within a reasonable time. [Ohio Rev. Code §

<sup>85</sup> Ohio Executive Order 2020-01D.

149.43(B)(1)]

- b. If a request is denied, in part or in whole, the public office shall provide the requester with an explanation, including legal authority. [Ohio Rev. Code § 149.43(B)(3)]
  - c. The public office shall notify the requester of any redaction(s) or make them plainly visible and provided an explanation, including legal authority. [Ohio Rev. Code § 149.43(B)(1)]
3. A public office shall have a copy of its current records retention schedule at a location readily available to the public. [Ohio Rev. Code § 149.43(B)(2)]

*Ascertain whether the public office has a records retention schedule, and that it is readily available to the public.*

4. The public office shall distribute the public records policy to the employee who is the records custodian or records manager or employee who otherwise has custody of the records of that office. The public office shall require that employee to acknowledge receipt of the copy of the public records policy. [Ohio Rev. Code § 149.43(E)(2)]

*Determine whether written evidence exists that the Public Records Policy was provided to the records custodian/manager.*

5. If the public office has established a manual or handbook of its general policies and procedures, the public office shall include the public records policy in the manual or handbook. [Ohio Rev. Code § 149.43(E)(2)]

*Ascertain whether the public office's public records policy was included in policy manuals.*

6. The public office shall create a poster describing their public records policy and shall post it in a conspicuous place in all public locations of that public office. [Ohio Rev. Code § 149.43(E)(2)]

*Ascertain whether the public office's poster describing the policy is displayed conspicuously in all branches of the public office.*

7. The appropriate records commission shall review the schedules of records retention and disposition, as well as any applications for the one-time disposal of obsolete records. [Ohio Rev. Code §§ 149.38, 149.39, 149.41, 149.411, 149.412, and 149.42]

*If submitted, obtain up to five applications for one-time disposal of obsolete records, and also review the schedules of records retention and dispositions for the audit period. In both instances, confirm approval by the appropriate records commission. (Note: the records retention schedule is not the same policy as the public records policy.)*

8. All elected officials or their designees shall attend public records training approved by the Attorney General. [Ohio Rev. Code § 149.43(E)(1)] Training is required to be three hours for every term of office. [Ohio Rev. Code § 109.43(B)]<sup>86</sup> Community school administrators are required to complete annual training on public records and open meeting laws. [Ohio Rev. Code § 3314.037]

---

<sup>86</sup> Newly elected public officials should be able to receive training prior to actually taking office. (See also <http://ohioauditor.gov/ocs/2019/191205%20OTA%20Letter.pdf>)

*Determine whether each elected official<sup>87</sup> (or his/her designee) successfully attended a certified three-hour Public Records Training for each term of office. Obtain copies of their certificates of completion and place them in the permanent file for future reference.*

*Determine whether each community governing authority member, or community school administrative staff (designated fiscal officer, chief administrative officer, and all individuals performing supervisory or administrative services) completed annual training on public records and open meetings laws.*

9. Every public body, by rule, shall establish a reasonable method whereby any person may determine the time and place **(or means)** of all regularly scheduled meetings, and the time, place **(or means)** and purpose of all special and emergency meetings. [Ohio Rev. Code § 121.22(F)]
- a. A public body shall not hold a special meeting unless it gives at least twenty-four hours' advance notice to the news media that have requested notification, except in the event of an emergency requiring immediate official action.
  - b. In the event of an emergency, the member or members calling the meeting shall notify the news media that have requested notification immediately of the time, place, and purpose of the meeting.

*Determine whether the public office notified the general public and news media of when and where meetings during the audit period are to be held.*

10. The minutes of a regular or special meeting of any public body shall be promptly prepared, filed and maintained and shall be open to public inspection. [Ohio Rev. Code § 121.22(C)]

*Determine whether the minutes of public meetings during the audit period were:*

- a. Prepared promptly – a file is created following the date of the meeting
  - b. Filed – placed with similar documents in an organized manner
  - c. Maintained - retained, at a minimum, for the audit period
  - d. Open to public inspection – available for public viewing or request.
11. An executive session requires a majority of a quorum by roll call vote at a regular or special meeting for the sole purpose of the consideration of only the following matters: [Ohio Rev. Code § 121.22(G)]
- a. Specified employment matter of public employee/official;
  - b. Purchase of property for public purpose or sale/disposition of property;
  - c. Conferences with an attorney for the public body concerning disputes that are the subject of pending or imminent court action;
  - d. Preparing for, conducting or reviewing negotiations or bargaining sessions;
  - e. Matters required to be kept confidential by federal law or regulations or state statutes;
  - f. Specialized details of security arrangements and emergency response protocols;
  - g. Consideration of trade secrets for hospitals;
  - h. Confidential information related to marketing plans, business strategy, trade secrets, or personal financial statements of an applicant for economic development assistance.

*Review the minutes from the audit period and determine if executive sessions were only held at regular or special meetings.*

*Review the minutes of meetings held during the audit period and the purpose for going into an executive session (when applicable). Confirm the purpose correlates with one of the matters listed*

---

<sup>87</sup> Does not include judges or clerks of courts. See Ohio Rev. Code § 109.43(A)(2).

*in a-h above.*

*Determine whether formal governing board actions from the audit period were adopted in open meetings.*

**AOS staff should consult with the assistant legal counsel assigned to their region regarding any non-compliance or questions related to these requirements. Further, any conclusions in the final audit report or management letter comments must be reviewed and approved by AOS Legal. Please include any directly-relevant documentation accompanying the consultation, along with all relevant factual information.**

**NOTE: If the entity is compliant with all 11 tests above, as applicable, it has earned a single star under the StaRS rating. Staff should then test best practices in Exhibit A to this section.**

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

2-23 Exhibit A: AOS Bulletin 2019-003 – Star Rating System (StaRS)

**The best practices testing is strictly to determine the optional StaRS rating above one star if the entity has chosen to implement one or more best practices. The best practices will *not* have any bearing on determining compliance with Ohio Sunshine Laws, and the auditors shall *not* issue control deficiencies related to the best practices. It is within the discretion of the entity to implement none, some or all of the suggested best practices.**

**Sunshine Law Star Rating System (StaRS):**

If the public office implements best practices beyond what is required by law, our office will recognize that achievement. The StaRS level each public office has achieved will be posted on the Auditor of State’s website.

**StaRS Overview:**

A public office **MUST** be compliant with all the applicable statutory requirements listed above to become eligible for consideration for a StaRS Award. To achieve a higher level reflected in the StaRS levels chart below, a public office should adopt the best practices from the list of suggested best practices provided by the AOS (which follows the StaRS chart) to enhance transparency consistent with the spirit of the Sunshine Laws. These procedures and practices are not required by law but are suggested to help public offices meet and fully address the requirements of the law. Each public office’s StaRS level will be based on compliance and the number of best practices implemented.

<b>StaRS Levels:</b>	
	<b>Open and Transparent Government</b> - Meets all Sunshine Law requirements.
	<b>Achievement in Open and Transparent Government</b> - Implemented 1-2 best practices
	<b>Outstanding Achievement in Open and Transparent Government</b> - Implemented 3-4 best practices
	<b>Highest Achievement in Open and Transparent Government</b> - Implemented 5 or more best practices
<b>Non-Compliant</b>	<b>Non-compliant</b> - Sunshine Law requirements are not fully achieved.

**StaRS Best Practices:**

To achieve additional success toward a more open and transparent government operation, the AOS suggests the following be implemented; these suggestions are not required by Ohio’s Sunshine Laws.

NOTE: For those entities, such as counties, that have multiple departments, agencies, elected officials, and/or oversight boards that have adopted their own public record policies should be tested on a rotating basis. **Test half of the departments, agencies, elected officials, and/or oversight boards each year**, unless there has been a change to the policy, then test in the year of the change. **The public office’s main policy should be tested annually (i.e. County Commissioner policy followed by various departments, agencies, elected officials, and/or oversight boards).** Charter entities may have different requirements depending on their charters. Therefore, requirements/testing for charter entities may differ.

In order to meet each best practice identified below, the public office must address a majority of the elements of that best practice.

1. The public office employs some method to track public records requests. For example, the public office uses a log or similar tracking method. The tracking method should include a majority of these elements. Additionally, a sample log is included in Appendix A of AOS Bulletin 2019-003.
  - a. Date in-person, verbal, written or email request received (date stamp written requests)
  - b. Name of Requester (only if voluntarily provided; requests can be under a pseudonym or made anonymously)
  - c. Type of records requested
  - d. Date requests were fulfilled
  - e. Name of person fulfilling request

*Determine whether the public office tracks public records requests and what method is used. Select five (or total population if less than five) and review the tracking method for evidence of the majority of the elements listed above.*

2. To assist the public in making a request for records, the public office has an optional standard request form that is available to requestors to use if they wish, as well as for the staff to use when a request is made via phone (Example: Appendix A). The informational fields can include:
  - a. The date of the request in order to be tracked.
  - b. A description of the records requested (agendas, minutes, resolutions, budgets, etc.).
  - c. The format the requestor would like the records produced in (paper, electronic, etc.).
  - d. The method the requestor would like to receive the requested records (in person, via e-mail, standard mail, electronic media, etc.).
  - e. If the public office has a website, is the form available in order to submit a request on the website, or to download and submit by email, mail, fax, or in person.

*Determine whether the public office makes available a standard request form for public records requests by mail, in person, or on the phone, and confirm the request form includes a majority of the elements listed above.*

3. The public office provides an acknowledgement to the requestor when a public records request is received, consistent with the manner in which the request was made.
  - a. The acknowledgement by phone, email or mail provides a “tracking” number (date of request for example) the requestor can reference.
  - b. The acknowledgement is recorded in the public records log or similar tracking method by date and method that request was submitted to the office.
  - c. The acknowledgement should be made in a reasonable period of time to assure requestor their request has been received and is being processed.

*Determine whether and how the public office acknowledges public records requests with a tracking number for requestor and was recorded. Select five (or total population if less than five) and confirm that acknowledgements are made/issued within a reasonable period of time.*

4. To assist the public in making a request for records, the public office has publicized (website, public records poster, etc.) the name or office title of the records custodian and his/her contact information. Further, the public office’s staff has been trained on how to route public records requests to the record custodian, who also has been trained on fulfilling the public records requests, including guidelines for negotiating ambiguous or large requests.

*Review the Public Records Policy to verify the policy identifies the employee or office title of the public records custodian and the contact's telephone number, email and mailing address. Obtain evidence of training received by the public office's staff and public records custodian such as a Certificate of Public Records Training.*

5. As tested in #10 of the requirements, all elected officials or their designees shall attend public records training once during a term. The applicable required Certified Public Records Training for all elected officials or their designees was completed within the first year of taking office or each subsequent term. In addition, community school administrators are required to complete annual training on public records and open meeting laws. The applicable required Certified Public Records Training and the annual training for community school administrators was completed within the first four months of employment or the beginning of each school year for rehires/retained personnel.

*Determine whether each elected official<sup>88</sup>(or his/her designee) successfully attended the required Public Records Training within one year of taking office.*

*Determine whether each community governing authority member, or community school administrative staff (designated fiscal officer, chief administrative officer, and all individuals performing supervisory or administrative services) completed annual training on public records and open meetings laws within four months of hire or the beginning of each school year for rehires/retained personnel.*

6. The public office has an online presence and it provides details regarding upcoming events and the operations of the office. Some examples may include:
- Agendas of meetings in advance.
  - Public records policy.
  - Records retention policy.
  - Meeting schedule of the public office and any of its committees.
  - Minutes of all meetings of the public office and any of its committees.

*Confirm on the public office website that the majority of the items are available. For the minutes available for public meetings held during the audit period, confirm the corresponding agendas were published in advance of meetings.*

7. The public office has an online presence that provides access to official documents that may be routinely requested by the public or media. Some examples may include, but are not limited to:
- Annual Budget
  - Annual Report
  - Compensation for Public Officials
  - Most recent Audit Report
  - Contact information and hours of various departments

*Confirm on the public office website that the majority of the items including but not limited to those listed are available.*

---

<sup>88</sup> Elected official does not include judges. See Ohio Rev. Code § 109.43(A)(2).

**After testing best practices, complete the StaRS Best Practices section of the Executive Summary or IPA Portal.**

-

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

**Revised: HB 404, 133 GA**  
**Effective: November 22, 2020**

**Revised: SB 310, 133 GA**  
**Effective: December 29, 2020**

**2-24 Compliance Requirement: Am. Sub. H. B. No. 481 133rd G.A, H.B. No. 614 133<sup>rd</sup> G.A., 42 U.S.C. 801 – CARES Act (NEW)**

Auditors do not have a statutory mandate to test this step for local governments receiving direct allocations (i.e., City of Columbus, Cuyahoga County, Franklin County, Hamilton County, Montgomery County, or Summit County) of Coronavirus Relief Fund from Treasury nor those receiving Coronavirus Relief Fund allocations from the State of Ohio outside of these bills (e.g., libraries, agricultural societies, etc.).

**This step is mandatory for local governments who:**

- Received and expended Coronavirus Relief Fund allocations pursuant to Am. Sub. HB 481 and Sub. HB 614.
- Made subgrants or subloans of Coronavirus Relief Fund allocations received pursuant to Am. Sub. HB 481 and Sub. HB 614.
- Do not qualify for a single audit in fiscal year 2020, or
- Qualify for a single audit but CRF is not a major federal program<sup>89</sup>.

If the local government qualifies for a single audit in fiscal year 2020 and CRF is tested as a major federal program: no additional testing of expenditures is needed for Ohio compliance purposes. However, auditors should evaluate if any noncompliance identified in the single audit should also be reported as GAGAS noncompliance.

<sup>89</sup> Uniform Guidance requirements for determining major federal programs can be found here - [https://www.ecfr.gov/cgi-bin/text-idx?SID=692dc008c2511b45e2f3d3002ff3926d&mc=true&node=se2.1.200\\_1518&rgn=div8](https://www.ecfr.gov/cgi-bin/text-idx?SID=692dc008c2511b45e2f3d3002ff3926d&mc=true&node=se2.1.200_1518&rgn=div8)

**This new section added to the OCS because Am. Sub. H. B. No. 481 133rd G.A Section 27(E) includes the following statutory mandate for the Auditor of State:**

“Money in a subdivision's local coronavirus relief fund shall be audited by the Auditor of State during the subdivision's next regular audit under section 117.11 of the Revised Code to determine whether money in the fund has been expended in accordance with the requirements”<sup>90</sup>

**For reference, detailed HB 481 / HB 614 requirements and additional AOS guidance is recapped [Ohio Legislation Information - CARES Act.docx](#).**

**Summary:**

The CARES Act, 42 U.S.C. 801(d), requires that the payments from the Coronavirus Relief Fund (CRF) only be used to cover expenses that (AOS refers to this as the “three-prong” test under the law):

- (1) are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
- (2) were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the government; and
- (3) were incurred during the period that begins on March 1, 2020 and ends on December 30, 2020.

**[See Extension Note below]** While the CRF distributions are not required to be the funding of last resort, the expenditures cannot be used in multiple programs or be reimbursed by other funds. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), Question No. A.7]<sup>91</sup>

The CARES Act, 42 U.S.C. 801(d), originally established a period of availability beginning from March 1, 2020 through December 30, 2020. Treasury later clarified that for a cost to be considered to have been incurred, performance or delivery must occur during the covered period (March 1, 2020 through December 31, 2021). **[See Extension Note below]**

If a recipient enters into a contract requiring the delivery of goods or performance of services by December 31, 2021, the failure of a vendor to complete delivery or services by December 31, 2021, will not affect the ability of the recipient to use payments from the Fund to cover the cost of such goods or services if the delay is due to circumstances beyond the recipient’s control. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4184]<sup>91</sup>

Expenditures are required to be related to current COVID-19 needs and not in preparation of or stock piling for future emergencies. However, the cost of goods purchased in bulk and delivered during the covered period may be covered using payments from the Fund if a portion of the goods is ordered for use in the

<sup>90</sup> The State of Ohio received \$4.5 billion in CRF federal assistance from US Treasury (<https://home.treasury.gov/system/files/136/Payments-to-States-and-Units-of-Local-Government.pdf>). Of this, amount, \$3.5 billion was distributed to certain local governments via Am. Sub. H. B. 481 and H.B. 614. The State of Ohio allocated the remaining \$1 billion to state agencies, boards, commissions, and other local governments and non-profits as approved by OBM and the Controlling Board. The procedures in this step are designed to perform the AOS mandated audit steps prescribed by Am. H. B. Sub. 481 and H.B. 614. Except for any single audit testing as might be necessary pursuant to the Uniform Guidance Act, testing of CRF allocations made by the Controlling Board, State of Ohio or others can be performed as part of the regular audit procedures.

<sup>91</sup> As of the date of this OCS issuance, the U.S. Treasury guidance and FAQs have been published in the Federal Register but have not been codified in the Code of Federal Regulations (C.F.R.). If a statement of U.S. Treasury guidance from the Federal Register is included in the C.F.R., the applicable C.F.R. provision must be cited when issuing noncompliance citations. If a statement of guidance is not included in the C.F.R., a citation to the applicable subdivision of 42 U.S.C. 801(d)(1)-(3) and the Federal Register issued on January 15, 2021 must be included. AOS auditors should consult with their regional Assistant Legal Counsel for the applicable C.F.R. code sections.

covered period, the bulk purchase is consistent with the recipient's usual procurement policies and practices, and it is impractical to track and record when the items were used. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4183]<sup>91</sup>

**Extension Note: In the Consolidated Appropriations Act, 2021 (signed 12/27/20), Congress extended the deadline in the 3<sup>rd</sup> prong of the CARES Act to December 31, 2021.**

CRF may not be used to fill shortfalls in government revenue to cover expenditures that would not otherwise qualify under the statute. Although a broad range of uses is allowed, revenue replacement is not a permissible use of CRF payments. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4188]<sup>91</sup>

The CARES Act, 42 U.S.C. 801(d), also specifies that expenditures using Fund payments must be "necessary." The Department of the Treasury understands this term broadly to mean that the expenditure is reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending Fund payments. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4183]<sup>91</sup>

The requirement that expenditures be incurred "due to" the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. These may include expenditures incurred to allow the State, territorial, local, or Tribal government to respond directly to the emergency, such as by addressing medical or public health needs, as well as expenditures incurred to respond to second-order effects of the emergency, such as by providing economic support to those suffering from employment or business interruptions due to COVID-19-related business closures. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4183]<sup>91</sup>

Expenditures necessary to take direct action in response to the COVID-19 public health emergency are allowable. Refer to Treasury's lists of eligible and ineligible expenditures summarized below (More information about these items can be found in [OBM and US Treasury's FAQs links](#)). The CARES Act also requires that payments be used only to cover costs that were not accounted for in the budget most recently approved as of March 27, 2020. A cost meets this requirement if either (a) the cost cannot lawfully be funded using a line item, allotment, or allocation within that budget or (b) the cost is for a *substantially different use* from any expected use of funds in such a line item, allotment, or allocation. Treasury provided that costs incurred for a substantially different use would include, for example, the costs of redeploying educational support staff or faculty to develop online learning capabilities, such as through providing information technology support that is not part of the staff or faculty's ordinary responsibilities. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pgs. 4183, 4185]<sup>91</sup>

Where disagreement over the application of a rule or statute arises, AOS will give all due consideration to a well-reasoned legal opinion provided by the local government's legal counsel and documented decisions (even where documented via alternative methods) about spending, compliance, etc. to the greatest extent possible. In addition, AOS strongly encourages auditees to document decisions by action taken by the legislative body.

**Treasury's Nonexclusive examples of eligible expenditures [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4184-85]<sup>91</sup>:**

Eligible expenditures include, but are not limited to, payment for:

1. Medical expenses such as:
  - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
  - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.

- Costs of providing COVID-19 testing, including serological testing.
  - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
  - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
    - Expenses for communication and enforcement by State, territorial, local, and Tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
    - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
    - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
    - Expenses for public safety measures undertaken in response to COVID-19.
    - Expenses for quarantining individuals.
  3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
  4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
    - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
    - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
    - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
    - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
    - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
    - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
  5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
    - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
    - Expenditures related to a State, territorial, local, or Tribal government payroll support program.
    - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
  6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy the Fund's eligibility criteria.

*Treasury's Nonexclusive examples of ineligible expenditures [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4184-85]<sup>91</sup> :*

The following is a list of examples of costs that would not be eligible expenditures of payments from the Fund.

1. Expenses for the State share of Medicaid.
2. Damages covered by insurance.
3. Payroll or benefits expenses for employees whose work duties are not substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. In addition, pursuant to section 5001(b) of the CARES Act, payments from the Fund may not be expended for an elective abortion or on research in which a human embryo is destroyed, discarded, or knowingly subjected to risk of injury or death. The prohibition on payment for abortions does not apply to an abortion if the pregnancy is the result of an act of rape or incest; or in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place the woman in danger of death unless an abortion is performed. Furthermore, no government which receives payments from the Fund may discriminate against a health care entity on the basis that the entity does not provide, pay for, provide coverage of, or refer for abortions. See 42 C.F.R. § 433.51 and 45 C.F.R. § 75.306.
5. Expenses that have been or will be reimbursed under any federal program, such as the reimbursement by the federal government pursuant to the CARES Act of contributions by States to State unemployment funds.
6. Reimbursement to donors for donated items or services.
7. Workforce bonuses other than hazard pay or overtime.
8. Severance pay.
9. Legal settlements.

Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency are allowable. The U.S. Treasury has indicated that the full amount of payroll and benefits for substantially dedicated employees may be covered using the funds. In addition, the U.S. Treasury has not defined what “substantially dedicated” means and requires each local government to maintain documentation of the substantially dedicated conclusion with respect to employees. OBM generally defines a benchmark for identifying substantial dedication to be a contribution of 50% or more of time. However, OBM permits local governments to define their own thresholds of substantial dedication and to document the justification for those decisions. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4185]<sup>91</sup>

Public safety and public health personnel are “presumed” substantially dedicated unless the chief executive determines that specific circumstances indicate otherwise. Treasury has provided an administrative accommodation for “presumed” public safety and public health employees indicating these employees which meet the substantially dedicated test are considered substantially different use, thus allowing for previously budgeted personnel to be eligible to be charged to the CRF. The U.S. Treasury defined the “presumed public safety and public health” positions that are eligible for the accommodation as follows:

- Public Safety positions include:
  - Police officers, sheriffs, and deputy sheriffs; firefighters; emergency medical responders; correctional and detention officers; and those who directly support such employees such as dispatchers and supervisory personnel.
- Public Health positions include:
  - Employees involved in providing medical and other health services to patients and supervisory personnel, including medical staff assigned to schools, prisons, and other such institutions, and other support services essential for patient care (e.g. laboratory technicians) as well as employees of public health departments directly engaged in matters

related to public health and related supervisory personnel.

[Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4185]<sup>91</sup>

Public safety, public health, health care, human services, and similar employees that are not substantially dedicated but have some time dedicated to mitigating or responding to COVID-19 may allocate specific time spent to the funds as tracked. Health care, human services, and similar employees who are substantially dedicated to mitigating or responding to the public health emergency are not granted a presumption by the U.S. Treasury. These employees can qualify for 100% of their payroll but are required to have documentation such as timesheets demonstrating substantial dedication through activities related to specifically to the response or mitigation of COVID-19. In addition, personnel that that were diverted to a substantially different use due entirely to the COVID-19 public health emergency and are supporting the response to COVID-19 are allowable. This could mean the repurpose of positions who would have been furloughed or laid off (in other words were underutilized due to COVID-19) to perform previously unbudgeted functions substantially dedicated to mitigating or responding to the COVID-19 public health emergency. [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4185]<sup>91</sup>

In addition, Am. Sub. HB 481 and Sub. HB 614 require:

- On or before November 20, 2020, the fiscal officer of each subdivision “shall pay the unencumbered balance of money in the subdivision's local coronavirus relief fund to the county treasurer.” [(F)]<sup>92</sup>

Funds are considered federal financial assistance and have been assigned a Catalog of Federal Domestic Assistance (CFDA) or Assistance Listing Number of 21.019. Fund payments are considered to be federal financial assistance subject to the Single Audit Act (31 U.S.C. §§ 7501- 7507) and the related provisions of the Uniform Guidance, 2 C.F.R. § 200.303 regarding internal controls, §§ 200.330 through 200.332 regarding subrecipient monitoring and management, and subpart F regarding audit requirements.<sup>93</sup> [Source: [Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021](#), pg. 4194, Question Nos. B.7 & B.8]<sup>91</sup>

The expenses of acquiring or improving real property and of acquiring equipment (e.g., vehicles) are permissible uses of the Fund. In the context of acquisitions of real estate and acquisitions of equipment, the acquisitions must be necessary. In particular, a government must (i) determine that it is not able to meet the need arising from the public health emergency in a cost-effective manner by leasing property or equipment or by improving property already owned and (ii) maintain documentation to support this determination. Likewise, an improvement, such as the installation of modifications to permit social distancing, would need

<sup>92</sup> OCS Implementation Guide Appendix A-2 details payments not requiring fiscal officer certification / encumbering. However, HB 481 and HB 614 require all Coronavirus Relief Fund (CRF) payments to be encumbered. To complicate matters more, some accounting software systems cannot encumber all payments. Whether the original expenditure was encumbered is what is important. Since the 5705.41(D) audit procedures only require testing encumbrances at year end, this shouldn't complicate testing. However, if identified in testing transactions, auditors would not cite the auditee for that PO being issued at the time of the payment is moved.

<sup>93</sup> The following are not considered federal assistance for reporting on the Schedule of Expenditures of Federal Awards required by the Uniform Guidance Act:

- Distributions (and/or redistributions) by the county to the eligible recipients pursuant to Am. Sub. HB 481 Sec. 27(C) and Sub. HB 614 Sec. (4)(C), and
- Unencumbered/ unspent funds returned to the county for redistribution or to OBM at the expiration of the program or for any other reason.

to be determined to be necessary to address the COVID-19 public health emergency. Additionally, such acquisitions and improvements must be completed and the acquired or improved property or acquisition of equipment be put to use in service of the COVID-19 related use for which it was acquired or improved by December 31, 2020. [Source: Coronavirus Relief Fund Guidance as published in the Federal Register on January 15, 2021, pg. 4193, Question No. A.58] <sup>91</sup>

**AOS will audit expenditures in accordance with the law and guidance issued at the time an expenditure was made with Coronavirus Relief Funds and any additional guidance available at the time of the audit.**

**Those resources may include (but are not be limited to):**

### **Suggested Audit Procedures - Compliance (Substantive) Tests:**

#### **Procedures Applicable to All Local Government Recipients (including Counties)**

1. Interview management and those charged with governance to determine how the local government decided to spend their CRF allocations. Eligible items can include payroll, non-payroll, subgrants or loans to other local governments, subgrants or loans to private businesses and certain non-profits, and grants or loans to individuals.

Additionally, as described in the AOS October 7, 2020 CARES Act Advisory ([http://ohioauditor.gov/resources/Covid19/AOS\\_Advisory\\_CARES\\_Act\\_100720.pdf](http://ohioauditor.gov/resources/Covid19/AOS_Advisory_CARES_Act_100720.pdf)), some local government may choose to contract a community partner to help administer grant programs within their jurisdictions. All subrecipients should comply with the Uniform Guidance requirements, including but not limited to, Subrecipient Monitoring, described in the advisory.

*Note: Auditors should be sure to review eligible uses for payroll and non-payroll expenditures prior to conducting these interviews. Refer to the Treasury and OBM FAQs above for detailed guidance.*

2. Interview management and those charged with governance to determine how the local government evaluated and documented compliance with the CARES Act three-prong test. (Note: AOS strongly

encourages auditees to document decisions by action taken by the legislative body.)

3. Select a representative number of payroll, non-payroll, and subgrant/subloan transactions and determine whether the local government spent the CRF money (including additional distributions or redistributions) in accordance with use of funds requirements (“three-prong” test in summary section) and maintained appropriate supporting documentation *(be sure to refer to the summary section and the linked file for relevant US Treasury, OBM, and AOS guidance, especially Frequently Asked Questions, as these determinations can be complex, especially since US Treasury continually amended its guidance during the program period. Auditors may consider guidance documents in effect at the time of the activity or transaction. Auditors should also keep in mind that the compliance requirements for payroll, for example, will include additional provisions such as “substantially dedicated” are not applicable to non-payroll transactions. These differences add to the complexity of compliance evaluations.)*<sup>94</sup>
4. If applicable, did the local government pay the correct unencumbered balance of money back to the county treasurer<sup>95</sup> and on time (on or before November 20, 2020)?

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

<sup>94</sup> If Coronavirus Relief Fund is a non-major program and noncompliance is identified, determine if a questioned cost should be issued in accordance with 2 C.F.R. §200.516. If a single audit is not conducted, noncompliance would be reported but it would not be identified as a questioned cost.

<sup>95</sup> OCS Implementation Guide Appendix A-2 details payments not requiring fiscal officer certification / encumbering. However, HB 481 and HB 614 require *all* Coronavirus Relief Fund (CRF) payments to be encumbered, including payroll and interest which are not normally encumbered under Ohio law. To complicate matters more, some accounting software systems cannot encumber these payments. Whether the original expenditure was encumbered at the time of payment is what is important. Since the 5705.41(D) audit procedures only require testing encumbrances at year end, this should not complicate testing. However, if identified in testing transactions, auditors would not cite the auditee for that PO being issued at the time the payment is reclassified into the Coronavirus Relief Fund (i.e., to reimburse an expenditure originally paid out of another fund with the Coronavirus Relief Fund allocation). Many accounting systems require local governments to create a PO to reclassify these payments. For items such as payroll or interest, OBM and AOS advised local governments to pass ordinances or resolutions (containing the same information that would ordinarily be included in a PO) to effectively encumber these amounts under Ohio Rev. Code §5705.41(D).

**SCHOOL AND/OR COMMUNITY SCHOOL****2-25 Compliance Requirement:** Ohio Rev. Code §§ 3313.666(A) - (C), 3314.03(A)(11)(d), and 3326.11 - Anti-Bullying Provisions

**Note:** We are requiring staff to test this section as follows:

1. Anti-Bullying laws should be tested for all schools (traditional and community schools). Auditors must issue the AUP report (available in the Audit Employees briefcase) as part of the audit package each year until the school is in full compliance. Auditors should be alert that these requirements will need tested in the first audit of any new community school.
2. For existing traditional, community, and STEM schools where these provisional compliance requirements were not previously tested, auditors need to perform the suggested audit procedures and issue the applicable AUP report.

**Summary of Requirements:**

The board of education of each city, local, exempted village, and joint vocational school district and the governing authority of each community (charter) and STEM school must adopt an anti-bullying policy in consultation with parents, school employees, school volunteers, students, and community members.

Each policy must include the following items (Ohio Rev. Code §§ 3313.666(B), 3314.03(A)(11)(d), and 3326.11):

1. A statement prohibiting the harassment, intimidation, or bullying of any student on school property, on a school bus, or at school-sponsored activity events. The policy must also expressly provide for the possibility of suspension of a student found responsible for harassment, intimidation, or bullying by an electronic act.<sup>96</sup>
2. It also must define the term "harassment, intimidation, or bullying" in a manner that includes the definition prescribed in Ohio Rev. Code § 3313.666(A). The act defines that term as "any intentional written, verbal, electronic or physical act that a student has exhibited toward another particular student more than once and the behavior both (1) causes mental or physical harm to the other student, (2) is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student," and violence within a dating relationship.
3. A procedure for reporting prohibited incidents;
4. A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
5. A requirement that the custodial parent or guardian of a student involved in a prohibited incident be notified and, to the extent permitted by state and federal law governing student privacy, have access to any written reports pertaining to the prohibited incident;
6. Procedures for documenting any prohibited incident that is reported;
7. Procedures for responding to and investigating any reported incident;

<sup>96</sup> "Electronic act" is defined by Ohio Rev. Code § 3313.666(A)(1) as an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

8. A strategy for protecting a victim from new or additional harassment, intimidation, or bullying, and from retaliation following a report, including a means by which a person may report an incident anonymously;
9. The disciplinary procedure for a student who is guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment to the Constitution of the United States;
10. A statement prohibiting students from deliberately making false reports of harassment, intimidation, or bullying and a disciplinary procedure for any student responsible for deliberately making a false report of that nature; and
11. A requirement that the ~~district or community school~~-administration provide semiannual written summaries of all reported incidents to the president of the district board of education or community/STEM school governing authority, and post them on the district's or school's website (if applicable) to the extent permitted by state and federal law governing student privacy.

These items form a framework for districts, community schools, and STEM schools to use in developing their policies. The policy must be included in student handbooks and in publications that set forth the standards of conduct for schools and students. Employee training materials must also include information on the policy. [Ohio Rev. Code § 3313.666(C)]

***Auditor of State identification of harassment policy***

The act **requires** the Auditor of State (or contracting IPAs), when auditing a school district or community school, to identify whether the district or school has adopted an anti-harassment policy. This determination must be recorded in the audit report. The Auditor of State may not prescribe the content or operation of the policy. (Ohio Rev. Code § 117.53)

**Suggested Audit Procedures - Compliance (Substantive) Tests:**

Inspect the anti-bullying policy the school adopted pursuant to Ohio Rev. Code § 3313.666(B) (for school districts), § 3314.03(A)(11)(d) (community schools), or § 3326.11 (STEM schools). To comply with this reporting obligation, the Auditor of State and contracting independent accountants must include an additional agreed-upon procedures report describing the procedures applied and the results, until compliance is obtained. This report should appear immediately after the schedule of findings or schedule of prior year audit findings, if applicable. The table of contents should separately list this report. (Because this report is a statutory requirement, we believe it is inappropriate to include it with a management letter.)

NOTE: The reporting process AOS and IPA's should use to satisfy these requirements is detailed in the appropriate AUP Report shell Anti-bullying found in the briefcase and [AOS Internet](#).

<p><b>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>

## CHAPTER 3 STEWARDSHIP

Citizens and public officials want and need to know whether governments are handling their funds properly and complying with laws and regulations. Public officials entrusted with public resources are responsible for complying with those laws and regulations. The laws and regulations in this chapter have stewardship considerations that we have deemed significant and therefore require compliance testing.

### **Important:**

1. The following sections should be performed **ANNUALLY** if applicable to your entity:
  - ***Furtherance of Justice (FOJ), Law Enforcement Trust (LET), and Drug Law Enforcement Funds***
  - ***Submission of information for National Instant Criminal Background Check System (NICS) (PROCEDURES ARE LIMITED TO THE FOLLOW UP OF PRIOR YEAR RECOMMENDATIONS – TESTING FOR THIS SECTION HAS BEEN SUSPENDED)***
  - ***Dropout Prevention and Recovery School Eligibility Requirements***
2. Except for the areas listed above, auditors can **generally** rotate substantive compliance testing in this Chapter. For example, there are several compliance requirements in this chapter. (Not all of them apply to all entity types.) You should divide the applicable requirements approximately in half, and test half of them with each audit.
  - This applies to annual and biannual audits.
    - i. For example, if you audited officials' surety bonds for a village's 2016 and 2017 audit and found them to be compliant, you normally can omit this test for the 2018 and 2019 audit.
    - ii. This also applies if AUP were performed in the prior year(s). Auditors should select about half of the applicable steps for testing for the audit. Because of the lesser significance of most Chapter 3 requirements, we require no risk assessment or other documentation supporting the steps selected for testing. (Except auditors should apply b. and c. below.)
  - You should **not** rotate / omit a specific compliance test if the prior audit identified noncompliance or if evidence supports an elevated risk of noncompliance for the current audit.
  - You should test new Compliance Supplement requirements in the first year of their applicability.
3. If (1) controls exist to help assure compliance with a specific requirement, and (2) you obtain satisfactory results from testing the controls' operating effectiveness you may be able to limit or omit substantive testing of the requirement.
  - Unlike Single Audit requirements, we do not require you to test controls. You should select the most efficient audit strategy that results in sufficient evidence.
  - Some of the requirements in this chapter are more likely to be subject to formal controls than are others.
  - The AOS believes it is acceptable to rely on the results of prior audit's tests of controls if auditors apply the proper "updating" procedures. That is, auditors may use the concepts from AU-C 330.13 -- .14.
  - This approach only requires tests of operating effectiveness once every third year, not every third audit.

- i. However, the auditor must apply procedures in each intervening year to determine whether continued reliance is appropriate. For example, per AU-C 330.14(a), it is inappropriate to rely on a control that has changed since the auditor’s last test of its operating effectiveness.
- 4. Some steps in the chapter include additional guidance about the extent of testing applicable to that specific compliance requirement.
- 5. Auditors can normally use the extent of testing described in this chapter. However, if auditors identify specific risks related to specific compliance steps in this chapter, working papers should document these risk assessments, whether they be favorable (which may support less testing) or unfavorable (suggesting additional testing).

This *Ohio Compliance Supplement* chapter provides a simplified process for assessing the government’s compliance with these requirements. Auditors can generally complete these tests using inquiry, observation and, occasionally, certain other limited substantive procedures, such as inspection of documents or limited vouching.

As stated above, auditors should divide the steps subject to cycling approximately in half, and budget a similar amount for cyclic tests each audit to avoid audit cost fluctuations every other audit unless the risk of noncompliance warrants testing of these requirements every audit.

**The *Sample Questions and Procedures* this chapter presents are merely examples of procedures you might use.** You should add to, modify, or omit these procedures as appropriate in the circumstances. If existing control tests or substantive compliance tests satisfy these objectives, the auditor should cross-reference this work to these sections.

**NOTE: Red text throughout this 2021 Ohio Compliance Supplement is a change related to COVID-19**

**GENERAL**..... 4

- 3-1 Compliance Requirement: Ohio Rev. Code § 9.38 - Deposits of public money..... 4

3-18 Compliance Requirements: Ohio Rev. Code §§ 109.57, 109.571, 109.60, and 5122.311 – Submission of information for National Instant Criminal Background Check System (NICS). 45

## GENERAL

**Revised: HB 481, 133 GA**  
**Effective: June 19, 2020**

**Revised: HB 614, 133 GA**  
**Effective: October 1, 2020**

### 3-1 Compliance Requirement: Ohio Rev. Code § 9.38 - Deposits of public money.

**Summary of Requirement:** Public money must be deposited with the treasurer of the public office *or* to a designated depository on the business day following the day of receipt. Public money collected for other public offices must be deposited by the first business day following the date of receipt.

For example, a government employee, other than the fiscal officer collecting funds and issuing a receipt, must deposit the funds with the government's fiscal officer on the business day following the day of receipt. As an alternative to depositing the funds with the government's fiscal officer, the employee instead may deposit funds with the government's designated depository on the business day following the day of receipt.

If the amount of daily receipts does not exceed \$1,000 **and** the receipts can be safeguarded, public offices may adopt a policy permitting their officials who receive this money to hold it past the next business day, but the deposit must be made no later than 3 business days after receiving it. If the public office is governed by a legislative authority (counties, municipalities, townships, and school districts), only the legislative authority may adopt the policy. The policy must include provisions and procedures to safeguard the money during the intervening period. If the amount exceeds \$1,000 or a lesser amount cannot be safeguarded, the public official must then deposit the money on the first business day following the date of receipt.

**Note:** This section does not require the **fiscal officer** to deposit receipts with the designated depository on the business day following the day of receipt, or any other specified time. However, if the fiscal officer is holding significant amounts of cash and checks for an unreasonable period, you should make an internal control recommendation.

Auditors should be aware of this requirement, especially when testing governments with multiple cash collection points. Auditors should consider whether controls over cash collection points are adequate, including whether cash is timely deposited.

**Also:** Prisoners placing personal phone calls from the phones located in the county and city jails must place collect phone calls. To enable prisoners to place collect calls the County Sheriff and/or the City Police Chief may enter into agreements/contracts with long distance carriers. Often times to attract business, long distance carriers offer incentives such as refunds and/or rebates based on usage. Jail officials and employees must deposit rebates and refunds in accordance with Ohio Rev. Code § 9.38.

#### Sample Questions and Procedures:

**Note:** To enhance efficiencies, we should integrate the tests below with the financial audit tests. We should only cite noncompliance if we determine significant amounts of cash are not deposited within the required time frames.

1. Systems documentation should include collection points receiving significant amounts of cash.
2. When testing cash collections, document the date collected vs. the date deposited to the CFO or the

date the “collector” deposited to a designated depository.

**When testing, consider any related General Auditor of State FAQs listed here - [http://www.ohioauditor.gov/resources/COVID19\\_assistance.html](http://www.ohioauditor.gov/resources/COVID19_assistance.html)**

3. Read any new contract/agreement between the county sheriff/police chief and his/her long distance carrier. If incentives are granted, review the accounting treatment of the incentives. Determine if phone contract monetary refunds and or rebates were paid into the treasury in accordance with Ohio Rev. Code § 9.38.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

3-2

**This section intentionally left blank.**

Only test the compliance attributes listed in 3-3 below if one of the officials listed below were selected as part of your sample for payroll testing.

Revised: HB 164, 133 GA  
Effective: June 19, 2020

Revised: HB 197, 133 GA  
Effective: March 27, 2020

Revised: HB 404, 133 GA  
Effective: November 23, 2020

**3-3 Compliance Requirements:** Various Ohio Rev. Code sections – Appointments, compensation, contracts etc.

**Summary of Requirement:** All of these various sections set out authority for appointing and/or compensating officials and employees of the various entities. For additional information and salary schedules for elected officials, see the *Elected Officials' Compensation Exhibit 4* in the OCS Implementation Guide. Virtual participation (i.e. tele or web conference) does not constitute attendance for compensation under Ohio Rev. Code § 121.22(C) which indicates board members must “be present in person” to be considered present [\[See footnote 1 for exceptions to this rule\]](#).

**Schools:**

§ 3311.19 and 3313.12 - School board compensation and mileage (amended by H.B. 2)

§ 3313.24 - Compensation of School Treasurer<sup>2</sup>

§ 3314.02(E) - Compensation of School Board

*Note: Start-up or conversion school governing authorities may provide, by resolution, requirements for compensation of their members. The maximum number of governing authorities of start-up<sup>3</sup> community schools on which a person can serve at the same time is five (unless the person serves in a volunteer capacity on all such boards, with no compensation under this section and the operator (if the school has one) is a nonprofit organization). Each member may be*

<sup>1</sup> Two entities permit virtual participation for the open meetings act under Ohio Rev. Code § 121.22(C), Ohio Board of Regents and board of directors of a port authority. [Additionally, during the period of March 9, 2020 - July 1, 2021; members of a public body may hold and attend meetings and may conduct and attend hearings by means of teleconference, video conference, or any other similar electronic technology \[Section 12 of Am. Sub. H. B. No. 197 133<sup>rd</sup> G.A as amended by Section 12 of Am. Sub. H. B. No. 404 133<sup>rd</sup> G.A.\]](#)

<sup>2</sup> ODE has indicated that, under Ohio law, treasurers must account for/administer all school district funds and accounts. In addition, Ohio law states that a treasurer’s salary must be fixed and payable from the General Fund. Therefore, in the absence of an ODE-approved indirect cost allocation plan, it is not permissible to charge various State and/or Federal programs for supplemental compensation related to the Treasurer’s statutory duties associated with these programs. Any such charges are unallowable under Ohio law and 2 C.F.R. § 200.403(c) because in order for a Federal program cost to be allowable it must be reasonable. In order to be reasonable it must be authorized or not prohibited under State or local laws or regulations. (For transactions under the Uniform Guidance, transactions are unallowable if they are not deemed reasonable. In determining reasonableness, consideration must be given to the restraints or requirements imposed by Federal, state or local laws (Uniform Guidance 2 C.F.R. §§ 200.403 & 200.404)). These charges may also qualify as supplanting under Federal guidelines if supplement not supplant provisions accompany the particular Federal award(s) being charged. However, if the treasurer can prove that he/she was assigned to non-treasurer duties and was compensated additionally for those, then we will not take exception to the compensation.

<sup>3</sup> A new start-up school means a community school other than one created by converting all or part of an existing public school or educational service center building, as designated in the school’s contract pursuant to division (A)(17) of Ohio Rev. Code § 3314.03. However, per Ohio Rev. Code § 3314.02(B)(5), a school established as a conversion school that later changes to a sponsor that is not a traditional public school or ESC, shall then be deemed a start-up school. Auditors may check the AOS master community school spreadsheet for the schools designation as a start-up or conversion school.

**Schools (Continued):***compensated:*

- *no more than \$125 per meeting or a total of \$5,000 per year for all of the governing authorities on which the individual serves*
- *for attendance at an approved training program, provided that such compensation shall not exceed \$60 a day for attendance at a training program three hours or less, and \$125 a day for attendance at a training program lasting longer than three hours. (AOS interpretation is that the community school's governing board or sponsor must approve the training program, and compensation for attendance at approved training programs must be included in the \$5,000 compensation limit for the entire school year.*

§ 3319.01 - Appointment and duties of superintendent (including compensation)

§ 3319.02 - Appointment of other (school) administrators, evaluation; renewal; vacation leave

§ 3319.08 - Teacher employment and reemployment contract

§ 3319.10 - Employment and status of substitute teachers

§ 3319.081 - Contracts for non-teaching employees

§ 3319.0810 - Contracts for transportation staff

§ 2921.43(A)(1) and Ohio Ethics Commission Op. No. [2008-01](#) – Compensation of school employees by outside organizations<sup>4</sup>**Courts:**

§§ 141.04 and 141.05 - Compensation of judges (court of common pleas, including probate court judges)

§ 2151.13 - Employees; compensation (courts).

§ 1907.16 and 1907.17 - Compensation of (county court) judges

§§ 2303.03, 2501.16, and 2501.17 - Officers and employees (courts of appeals); Clerk of Common Pleas Court to serve as Clerk of Court of Appeals.

§ 1907.20 - Clerks (court of common pleas)

§ 1901.11 - Compensation of judges (Municipal Court)

§§ 1901.31 and 1901.32 - Clerks; deputy clerks; bailiffs (Municipal court)

§ 141.04 (A) (3) - Compensation of judges (appellate court judges)

**Libraries:**

§ 3375.32 - Meeting of boards of library trustees; organization; election of clerk; bond.

§ 3375.36 - Treasurer of library (deputy clerk)

§ 3375.40 - Powers of boards of library trustees (compensation of employees)

**Municipalities:**

§§ 731.07, 731.08, and 731.13 and 1973 Op. Att'y. Gen. No. 73-063, 1981 Op. Att'y. Gen. No. 81-011 and 1983 Op. Att'y. Gen. No. 83-036 - Compensation (municipal officials)

---

<sup>4</sup> Ohio Ethics Commission Opinion No. 2008-01 prohibits a school employee (including coaches, teachers, administrators, supervisors, district officials, management level employees regardless of his or her duties) from being compensated for services provided for a school-related activity by any source other than the employing school. That is, booster groups and school support organizations are prohibited from promising or providing any compensation to a school employee for performing their duties at a school or school-related activity. This opinion applies to officials and employees of all school districts, educational service centers (ESCs), and community schools operating under Ohio Rev. Code § 3314.03.

**Counties:**

Chapter 325 - Compensation of county officials: auditor, 325.03; treasurer, 325.04; sheriff, 325.06<sup>5</sup>; common pleas clerk, 325.08; recorder, 325.09; commissioners, 325.10; prosecutor, 325.11; engineer, 325.14, 315.12; coroner, 325.15; vacation and holiday pay, 325.19; 1999 Op. Att’y. Gen. No. 99-033 – in-term increase in compensation based on change in population according to decennial census (see AOS Bulletin 1999-015, 2001-01, & 2016-01);

**Townships:**

§§ 505.24 (trustees)<sup>6</sup> (see also compliance requirement 1-29), 505.60 (insurance - also see compliance requirement 3-15), 507.09 (fiscal officer)<sup>7</sup> - compensation for township officials, and 505.71 – compensation for joint ambulance district trustees. Also, 1999 Op. Att’y. Gen. No. 99-015 – Definition of “budget” for purposes of compensation (see AOS Bulletin 1999-008).

*Note:* IRS Notice 2013-54 and Department of Labor Technical Release 2013-03 states that employers may only reimburse employees’ premiums for non-employer sponsored health care with post-tax dollars (i.e., employers must withhold taxes prior to making reimbursement). Such reimbursements are not used in computing allowable “gross salary” as prescribed in Ohio Rev. Code §§ 505.24 and 505.09. Additional considerations for reimbursement arrangements are outlined in OCS 3-13.

**County Hospitals:**

§ 339.03 - Board of county hospital trustees; powers and duties  
§ 339.06 – Powers and duties of board of county hospital trustees

**Municipal Hospitals:**

§ 749.33 - Employment and compensation of superintendents, physicians, and employees (municipal hospitals)

**Universities:**

Ohio State University [§ 3335.02(A)], Ohio University [§ 3337.01(A)], Miami University [§ 3339.01(A)], Bowling Green and Kent State Universities [§ 3341.02(E)], Central State University [§ 3343.05], Cleveland State University [§ 3344.01(A)], Wright State University [§ 3352.01(A)], Youngstown State University [§ 3356.01], University of Akron [§ 3359.01(A)], University of Toledo [§ 3364.01(B)], University of Cincinnati [§ 3361.01(A)], Shawnee State University [§ 3362.01(A)], Community College Districts [§ 3354.06], Technical Colleges [§ 3357.06], State Community Colleges [§ 3358.03].

<sup>5</sup> There are known transposition errors codified in this statute effecting the FY 2018 salary in counties with pop. < 55,000 (\$61,624 should be \$61,264). The AOS will not take exception to or issue findings for payments made in accordance with the codified legislation.

<sup>6</sup> Each salaried township trustee shall certify the percentage of time spent working on matters to be paid from the township general fund and from other township funds in such proportions as the kinds of services performed. A noncompliance citation would be issued instead of a Finding for Adjustment if the Township has reasonable supporting documentation (such as detailed time and effort records, timesheets, etc.). In addition, the certification should be signed retroactively and attached to the time and effort records. Refer to OCS 1-29 for further guidance.

<sup>7</sup> A township fiscal officer may be compensated from the township general fund or from other township funds based on the proportion of time the township fiscal officer spends providing services related to each fund. A township fiscal officer must document the amount of time the township fiscal officer spends providing services related to each fund by certification specifying the percentage of time spent working on matters to be paid from the township general fund or from other township funds in such proportions as the kinds of services performed. Refer to OCS 1-29 for further guidance.

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Auditors should consider whether governments have historically demonstrated effective internal controls over payroll. Additionally, adequate training of payroll personnel and supervisory monitoring controls can help mitigate the risk of noncompliance with compensation compliance requirements.

**Sample Questions and Procedures:**

1. If officials were included in your payroll test, agree their pay rate to OCS Implementation Guide Exhibit 4 amounts. Officials who have a salary set by statute, cannot receive PERS pick up if the additional compensation (in the form of PERS pickup) would result in receiving total compensation greater than the statutory limit. Therefore, we should calculate salary plus PERS pickup, if applicable, and compare this total compensation to the statutory limit. Compensation amounts exceeding the statutory limit should be findings for recovery if they meet the threshold guidelines in the OCS Implementation Guide.
2. For community schools, inquire whether its board members also serve on the boards of other community schools. If so, inquire how the community school assures it is not paying these board members more than the statutory limit. (See the requirements described above per Ohio Rev. Code § 3314.02(E)(5).)
3. Per footnote 2, regarding school treasurer compensation, compare total compensation per the payroll register to the amount in the treasurer’s contract. If the register reports compensation exceeding the contract amount, determine if these payments were allowable per the footnote.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-4 Compliance Requirements:** Ohio Rev. Code §§ 9.03, 124.57, 124.59, 124.61 and 3315.07(C) - Political activities prohibited.

**Summary of Requirements:**

Ohio Rev. Code § 9.03 - Political subdivision newsletters and other means of communication.

No governing body of a political subdivision shall use public funds to publish, distribute, or communicate information that supports or opposes the nomination or election of a candidate for public office, the investigation, prosecution, or recall of a public official, or the passage of a levy or bond issue. In addition, no public funds shall be used to compensate any employee of the political subdivision for time spent on any activity to influence the outcome of an election for any of the purposes described above. However, public funds may be used to publish information about the political subdivision's finances, activities, and governmental actions in a manner that is not designed to influence the outcome of an election or the passage of a levy or bond issue. Public funds may also be used to compensate an employee for attending a public meeting to present such information in such a manner even though the election, levy, or bond issue is discussed or debated at the meeting.

However, this Section specifically exempts Alcohol Drug Addiction and Mental Health (ADAMH) Boards from the prohibition against using public funds to support a levy or a bond issue. ADAMH Boards are specifically authorized by Ohio Rev. Code § 340.03(A)(7) to use their public funds to obtain further financial support for their activities.

Ohio Rev. Code § 124.57 - Political activity prohibited.

This section imposes restrictions upon the political activity of employees in the classified service of the State, counties, cities, city school districts, and civil service townships.

Ohio Rev. Code § 124.59 - Payment for appointment or promotion prohibited.

Applicants for appointment or promotion in the classified service shall not pay for appointments or promotions.

Ohio Rev. Code § 124.61 - Abuse of political influence.

Public officials (or potential public officials) shall not use or promise to use, any official authority or influence in order to secure or aid any person in securing any office or employment in the classified service, or any promotion or increase of salary therein, as a reward for political influence or service.

Ohio Rev. Code § 3315.07(C) - Support of school ballot issues.

No board of education shall use public funds to support or oppose the passage of a school levy or bond issue or to compensate any school district employee for time spent on any activity intended to influence the outcome of a school levy or bond issue election. However, the law specifically allows a school board to allow its employees to attend public meetings during working hours to give informational presentations regarding the district's finances and activities, even if the purpose of the meeting is to debate the passage of the school levy or bond issue.

**Sample Questions and Procedures:**

1. Inquire if the CFO is aware of these requirements and what controls the entity has established to prevent violations. Controls should include:
  - Policies or published notifications to employees regarding these requirements.
  - A requirement for a person knowledgeable of these requirements to review and approve payment requests.

2. Inquire if the CFO is aware of any possible violations. If so, or if other evidence comes to your attention suggestion violations may have occurred, investigate the allegations as needed.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-5 Compliance Requirement:** Ohio Rev. Code §§ 3.06, 3.30 and various others specific to Universities - Bonding requirements

**Summary of Requirement:** These sections provide requirements for bonding certain public officials and employees.

**General**

Ohio Rev. Code § 3.06 - Unless other statutes prescribe a bond for particular officials (such as for the officials listed in Tables 1 and 2 of Bonding Exhibit 2 in the OCS Implementation Guide), Ohio Rev. Code § 3.06(B) permits “. . . any department or instrumentality of the state or any county, township, municipal corporation, or other subdivision or board of education or department or instrumentality thereof, may procure a blanket bond from any duly authorized corporate surety covering officers, clerks and employees, other than. . .” treasurers or tax collectors and any officer, clerk or employee required by law to execute or file an individual official bond to qualify for office or employment.

Ohio Rev. Code § 3.06 also requires “Any such blanket bond shall be approved as to its form and sufficiency of the surety by the officer or governing body authorized to require it.” Note: While blanket bonds are required, there is a distinction between blanket bonds and insurance policies (as outlined in Exhibit 2 of the OCS Implementation Guide)

Ohio Rev. Code § 3.061 now permits an “Employee dishonesty and faithful performance of duty policy” in lieu of surety bonds for some officers, employees, or appointees (See Ohio Compliance Supplement Implementation Guide Exhibit 2 for those specific positions, they are highlighted in yellow in the included tables)

Ohio Rev. Code § 3.30 – Refusal or neglect to give bond deemed refusal of office.

Bonding Exhibit 2 in the OCS Implementation Guide includes:

- Table 1: Those required by statute to give bond (min specified),
- Table 2: Those required by statute to give bond (with no amount specified), and
- Table 3: Those for which the board may require to give bond

**Some additional bonding requirements not included in the tables mentioned above are:**

***Universities (all universities listed below require Attorney General approval of their bonds unless otherwise indicated):***

Ohio State University [§ 3335.05], Ohio University [none specified], Miami University [none specified], Bowling Green and Kent State Universities [§ 3341.03], Central State University [§ 3343.08], Cleveland State University [§ 3344.02], Wright State University [§ 3352.02], Youngstown State University [§ 3356.02], University of Akron [§ 3359.02], University of Toledo [§ 3364.02, which does not require Attorney General approval, effective July 1, 2006], University of Cincinnati [§ 3361.02], Shawnee State University [§ 3362.02, which does not require Attorney General approval, effective September 29, 2005], Community College Districts [none specified], Technical Colleges [none specified], State Community Colleges [§ 3358.06], University Branch Districts [§ 3355.051].

These compliance requirements apply to all state universities except Ohio and Miami Universities and the Medical College of Ohio at Toledo, and are also not specified for certain other types of institutions. If a deficiency is noted for institutions not listed above, treat it as a potential management comment rather than a noncompliance finding.

**Sample Questions and Procedures:**

[See the *OCS Implementation Guide Exhibit 2 – Public Officers’ Bond* for details of requirements.]

1. Inquire of the client:

- How they determine who is required to be bonded and/or insured with an Employee dishonesty and faithful performance of duty policy,
- Whether or not they have blanket bonds on officials or employees,
- How they determine whether employees are eligible for such blanket bonding? (Note: None of the bond requirements in Tables 1 or 2 in Exhibit 2 in the OCS Implementation Guide may be substituted with a blanket bond. However, those highlighted yellow may instead have an Employee dishonesty and faithful performance of duty policy)
- [If the amount of the bond is not specified by statute], how they determined whether amounts of the bonds are commensurate with the duties of their office, i.e., amount of funds for which the individual is responsible, limits of liability, etc. (Note: If the bond seems unreasonable, consider issuing a management comment.)

Assess the answers to the above questions and consider whether compliance citations or recommendations are necessary for any responses.

2. Obtain a few representative bonds and/or Employee dishonesty and faithful performance of duty policies, and determine amounts:

- meet or exceed requirements in Table 1 in Exhibit 2 in the OCS Implementation Guide, or
- are commensurate with duties of their office/position and meet or exceed amounts established by the governing authority for those listed in Tables 2 or 3 in Exhibit 2 in the OCS Implementation Guide

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

## COMMUNITY SCHOOLS

**Revised: HB 166, 133 GA**  
**Effective: July 18, 2019**

**Revised: HB 409 133 GA, as**  
**amended by HB 67, 134 GA**  
**Effective: March 20, 2021**

**3-6 Compliance Requirement:** Ohio Rev. Code §§ 3301.0710, 3301.0712, 3314.017, 3314.034, 3314.38; Ohio Admin. Code 3301-102-10 - Dropout Prevention and Recovery School Eligibility Requirements

**Summary of Requirements:**

Schools designated as [Dropout Prevention and Recovery \(DOPR\)](#) schools:

- Are eligible to receive an alternative report card described at: <http://education.ohio.gov/.../Dropout-Recovery/Understanding-Ohios-New-Dropout-Recovery-Community-School-Report-Card.pdf>;
- Are eligible for the alternative NWEA MAP assessment testing of students; and
- Have flexibility with regards to certain requirements in the Ohio Rev. Code, such as start date (3314.03).

**Ohio Admin. Code 3301-102-10(A)** states a Dropout Prevention and Recovery school is one to which any of the following applies:

- (1) Any community school that operates a drug recovery program in cooperation with a court; or
- (2) Any community school in which the majority<sup>8</sup> of students are enrolled in a dropout prevention and recovery program operated by the school that meets the following criteria:
  - a) The program serves only students not younger than sixteen years of age and not older than twenty-one years of age;
  - b) The program enrolls students who, at the time of their initial enrollment, either, or both, are at least one grade level behind their cohort age groups or experience crises that significantly interfere with their academic progress such that they are prevented from continuing their traditional programs;
  - c) The program requires students to attain at least the applicable score designated for each of the assessments prescribed under division (B)(1) of section 3301.0710 of the Revised Code or, to the extent prescribed by rule of the state board of education under division (D)(6)<sup>9</sup> of section 3301.0712 of the Revised Code, division (B)(2) of that section;
  - d) The program develops an individual career plan for the student that specifies the student's matriculating to a two-year degree program, acquiring a business and industry credential, or entering an apprenticeship;
  - e) The program provides counseling and support for the student related to the plan developed under division (A)(4) of Ohio Rev. Code § 3301.0710 during the remainder of the student's high school experience; and

<sup>8</sup> "Majority" = greater than 50%.

<sup>9</sup> There is a typo in Ohio Admin. Code 3301-102-10(A) that references Ohio Rev. Code § 3301.0712(D)(6), as (D)(6) does not exist. Ohio Rev. Code § 3314.36 contains similar language and it references Ohio Rev. Code § 3301.0712 (D)(5).

- f) The program's instructional plan demonstrates how the academic content standards adopted by the state board of education under section 3301.079 of the Revised Code will be taught and assessed; or

Any conversion community school whose sponsoring district has received a waiver from having the school's academic data rolled up into the district's local report card because the school primarily enrolls students between sixteen and twenty-two years of age who dropped out of high school or are at risk of dropping out of high school due to poor attendance, disciplinary problems, or suspensions.

**Ohio Rev. Code § 3314.38** (A) states an individual who is at least twenty-two years of age and who is an eligible individual as defined in Ohio Rev. Code § 3317.23 may enroll for up to two consecutive school years in a dropout prevention and recovery program operated by a community school that is designed to allow enrollees to earn a high school diploma.

**Note:** Ohio Admin. Code (OAC) 3301-102-10 refers to Dropout Prevention and Recovery “schools” in certain places, and refers to Dropout Prevention and Recovery “programs” in other places. Ohio Rev. Code § 3314.38 strictly refers to Dropout Prevention and Recovery “programs”. Pursuant to OAC 3301-102-10(A)(2)(a) a DOPR “school,” among other criteria, is a school that only enroll students between ages 16-21 and the majority of the students must be enrolled in DOPR. However, DOPR “programs” allow students over the age of 22 to enroll. A “program” can consist of only a few individuals. There is no majority requirement for this type of “program”. DOPR community “schools” sponsor DOPR “programs.” Therefore, if a DOPR school were to enroll a student over the age of 22 then they would not meet the eligibility criteria. However an individual over 22 years of age may enroll in a DOPR program that is sponsored by the school without issue. In addition, these individuals enrolled under the Ohio Rev. Code § 3314.38 (A) “program” do not fall into the majority (50%) enrollment for DOPR “schools”.

#### **Timeline for Form Submission – Dropout Prevention and Recovery Report Card designation:**

**Note: Due to the COVID-19 pandemic, the 133<sup>rd</sup> GA, H.B. 409, as amended by the 134<sup>th</sup> GA, H.B. 67 prohibits ODE from publishing state report card ratings for Fy 2021.**

July 1: Sponsor and school complete and submit the completed application.

- If the community school was approved for the DOPR designation for the prior year, they are not required to resubmit all attachments with the application if there were no changes to the DOPR program; they are only required to complete the signature/affirmation pages of the application.
- If there were changes, the community school must include updated documentation with the completed application.

July 1: Community schools no longer seeking the Dropout Prevention and Recovery report card designation must notify Ohio Department of Education (ODE) in writing prior to the start of the new academic year.

August 15: Sponsor and school will receive a decision from ODE on the status of application.

Ten business days prior to the first day of instruction: For schools in their first year of operations, or schools that are not e-schools and changed buildings, sponsors must submit opening assurances indicating the community school has met all the requirements of the Dropout Prevention and Recovery school.

[Drop-Out-Prevention-and-Recovery Report Card Designation Application \(2020-2021\)](#)

**Ohio Rev. Code § 3314.017(C)(4)** states, “growth in student achievement in reading, or mathematics, or both as measured by separate nationally norm-referenced assessments that have developed appropriate standards for students enrolled in dropout prevention and recovery programs, adopted or approved by the state board.”

**Ohio Rev. Code § 3314.017(D)** Based on a school's level of attainment or nonattainment of the expected performance levels and benchmarks for each of the indicators, the department shall rate each school in one of the following categories:

- (a) Exceeds standards;
- (b) Meets standards;
- (c) Does not meet standards.

**Suggested Questions and Procedures - Compliance (Substantive) Tests:**

1. Inquire with the community school management or sponsor about whether the community school was designated as a Dropout Prevention and Recovery School for the audit period, under **Ohio Admin. Code 3301-102-10(A)**. (Note: ODE’s Community School Directory contains *current* school year information, and therefore cannot be used for this step.)
2. For Dropout Prevention and Recovery schools that received the designation under **Ohio Admin. Code 3301-102-10(A)(3)** (conversion school whose sponsoring district received a waiver), perform the following steps below for the fiscal year(s) under audit: <sup>10</sup>
  - a. Inspect a copy of the Dropout Prevention and Recovery application<sup>11</sup> submitted to ODE for completeness.
  - b. Inspect ODE’s approval of the application, and related waiver.
  - c. If this is the community schools first year of operations, or if the school changed buildings and this is the first year operating in the new building, inspect Section III of the school’s annual opening assurances to ODE indicating the community school met all requirements of a Dropout Prevention and Recovery school.
3. For Dropout Prevention and Recovery schools that received the designation under **Ohio Admin. Code 3301-102-10(A)(2)**, perform the following steps below for the fiscal year(s) under audit:<sup>12</sup>
  - a. Inspect a copy of the Dropout Prevention and Recovery application submitted to ODE for completeness.
  - b. Inspect ODE’s approval of the application.
  - c. If this is the community schools first year of operations, or if the school changed buildings and this is the first year operating in the new building, inspect Section III of the school’s annual opening

---

<sup>10</sup> We are not currently aware of any Dropout Prevention and Recovery schools that received the designation under Ohio Admin. Code 3301-102-10(A)(1), and therefore testing steps have not been included for such. Contact CFAE’s Community School Specialist if one is encountered.

<sup>11</sup> This application may be different than the DOPR application linked to above. As long as ODE approved it, auditors should not take exception.

<sup>12</sup> Even though ODE does not require resubmission of certain information with the application for reoccurring applicants, auditors will still test all eligibility requirements.

assurances to ODE indicating the community school met all requirements of a Dropout Prevention and Recovery school.

- d. Inspect documentation that more than 50 percent of the students were enrolled in the dropout prevention and recovery program. See exception above for students enrolled under Ohio Rev. Code § 3314.38 (A).
- e. Determine that the students enrolled in the dropout prevention and recovery programs are between ages 16 and 21. See exception above for students enrolled under Ohio Rev. Code § 3314.38 (A).
- f. Obtain documentation on how the school determines that students enrolling in the dropout prevention and recovery program, at the time of their initial enrollment, either, or both, were at least one grade level behind their cohort age groups or experienced crises that significantly interfered with their academic progress such that they were prevented from continuing their traditional programs.
- g. Determine what academic assessment is administered at the time of enrollment to determine student's academic achievement levels.
- h. Inspect documentation describing the program requirements for students to attain the score designated by the state for each of state mandated assessments required for graduation. Students are required to take the following test/exams – determine if students completed the required test/exams.<sup>13</sup>
  - i. Measure of Academic Progress (MAP) Assessment (twice a year)
  - ii. Students starting high school (9<sup>th</sup>) grade before July 1, 2014 – Ohio Graduation Test (OGT)
  - iii. Students starting high school (9<sup>th</sup>) grade on or after July 1, 2014 - Seven end-of-course examinations, one in each of the areas of English language arts I, English language arts II, science, Algebra I, geometry, American history, and American government.
  - iv. Students who enter ninth grade for the first time on or after July 1, 2019 – Five end-of-course examinations, one in each areas of English language arts II, science, Algebra I, American history, and American government. However, only the end-of-course examinations in English language arts II and Algebra I shall be required for graduation.
- i. Determine that Individual Career Plan's (ICP) were developed for students. The plan must specify the student enrolling/registering to a two-year degree program, acquiring a business and industry credential, or entering into an apprenticeship.
- j. Inspect documentation that demonstrates how the school provides ongoing counseling and support services for students during the remainder of the high school experience related to the Individual Career Plan described above.
- k. Determine whether the school has developed and completed educational plans for DOPR students that appear to document how the academic standards adopted by the state board of education will be met. (An example of this should be included in the school's contract but may be supported by additional information.) Auditors are not expected to review the educational plans for sufficiency. Rather, auditors should scan student files and educational plans to ensure the community school appears to be completing them. It is the responsibility of the sponsor to determine the sufficiency of the educational plan's documentation.

If the Dropout Prevention and Recovery school did not meet the eligibility requirements, contact the AOS CFAE Community School Specialist. AOS will refer noncompliant community schools to their sponsor and ODE.

---

<sup>13</sup> [The requirement for FY 2020 state testing was removed by the legislature, and subsequent federal waiver, due to the COVID-19 pandemic. For Fy 2021, 133 GA, HB 409, as amended by 134 GA, HB 67 removed the American History end-of-course examination requirement; and granted certain leniency to awarding Fy 2021 diplomas.](#)

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

### COMMISSARIES

**3-7 Compliance Requirement:** Ohio Rev. Code §§ 307.93(F), 341.25, 753.22, and 2301.58 - Establishment and accounting treatment for commissaries.

**Summary of Requirements:** Commissaries may be established by:

- a sheriff of a county jail, [Ohio Rev. Code § 341.25]
- the director of public safety or the joint board workhouse, [Ohio Rev. Code § 753.22]
- the director of a community-based or district community-based correctional facility, or [Ohio Rev. Code § 2301.58]
- the corrections commission of a multicounty, municipal-county, or multicounty-municipal correctional center. [Ohio Rev. Code § 307.93]

Once a commissary is established, all persons incarcerated must be given commissary privileges, and a commissary fund must be established. In addition, the commissary fund rules and regulations for the operation of the commissary must be established by the office establishing the commissary for the correctional facility. The commissary fund must be managed in accordance with the procedures established by the Auditor of State's Office, which are included in the AOS Sheriff's Manual (<https://ohioauditor.gov/publications/SheriffManual%209-27-18.pdf>) and AOS Bulletin 1997-011 Appendix 1<sup>14</sup>. The revenue generated in the commissary fund in excess of operating costs is considered profit.

For Counties: The profits must be expended for the purchase of supplies and equipment, life skills training, education and/or treatment services for the benefit of persons incarcerated in the correctional facility, pay salary and benefits for employees of the sheriff who work in or are employed for the purpose of providing service to the commissary, or to purchase technology designed to prevent contraband from entering the jail. [Ohio Rev. Code § 341.25(B)(3)]

For Municipalities: The profits must be expended for the purchase of supplies and equipment for the benefit of persons incarcerated in the workhouse, and to pay salary and benefits for employees of the workhouse who work in or are employed for the sole purpose of providing service to the commissary. [Ohio Rev. Code § 753.22]

#### Sample Questions and Procedures:

1. Read the commissary funds rules and regulations to determine if they are consistent with requirements listed above.
2. Scan selected expenditures from this fund. Determine that expenditures were for the benefit of those incarcerated (see list of acceptable expenditures above). *Note:* We do not require high levels of assurance from this procedure. Therefore, the sample sizes we require to obtain high assurance do not apply. Scanning alone should normally be sufficient, unless we have reason to suspect there are significant control or compliance issues.

---

<sup>14</sup> AOS Bulletin 1997-011 Appendix 1 permits correctional facilities to issue a check to an inmate for the balance of the inmate's commissary account. The Auditor of State will also permit correctional facilities to develop reasonable policies and procedures for the use of debit cards, in lieu of a check, when disbursing remaining balances, less amounts owed to the correctional facility, of inmate commissary funds.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COURTS**

**3-8 Compliance Requirement:** Ohio Rev. Code § 2335.34 - Lists of unclaimed costs. Ohio Rev. Code § 2335.34-35 - Disposition of unclaimed fees and costs.

**Summary of Requirements:** On the first Monday of January, the clerk of each

- common pleas court clerk (or clerks from divisions of a common pleas court, such as a juvenile court clerk, domestic relations court clerk, etc.)
- court of appeals clerk
- probate judge clerk
- sheriff

shall make two certified lists of unclaimed fees and costs outstanding for one year, and post the list in her/his office and the courthouse for 30 days. One list is required to be posted in his/her office and the other list shall be posted at a public area of the courthouse or published on the web site of the court or officer, on the second Monday of January. Both lists must be posted for a period of 30 days. [Ohio Rev. Code § 2335.34]

After the aforementioned 30 day period, the clerk or sheriff must pay the money to the county treasury. Each such officer shall indicate in her/his cashbook and docket the disposition of each unclaimed item. [Ohio Rev. Code § 2335.35]

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.

**Sample Questions and Procedures:**

1. Describe procedures used to assure the list is maintained completely and accurately (these objectives will usually be addressed by the procedures used to maintain other required court records).
2. Please show me how you reconcile the unclaimed amounts to balances held in the bank.
3. Please show me your most recent listing of unclaimed funds.
4. How much was paid to the county for unclaimed funds during the year under audit?

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-9 Compliance Requirement:** Ohio Rev. Code § 1907.20 - Records required of county courts.

**Summary of Requirement:** County courts must maintain a general index and a docket.

On the first Monday of each January, the clerk must list all cases more than one year past for which money has been collected but unclaimed. The clerk must transmit notice of unclaimed funds to the party or to the party's attorney. Money still unclaimed each April 1 must be paid to the county treasury. (*Note:* the funds remain the property of the potential claimant per Ohio Rev. Code § 1907.20(D))

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

***Note:* Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.**

**Sample Questions and Procedures:**

1. Are the aforementioned records maintained? (*Note:* We will normally know this from performing financially-related audit procedures.)
2. Describe procedures used to assure that these records are complete and accurate (e.g., supervisory reviews). *Note:* We include this step here for emphasis, though it should be part of the financial audit tests and does not require additional testing for Ohio Rev. Code purposes.
3. Please show me an example of the correspondence you send regarding unclaimed funds to the party or to their attorney.
4. How do you identify amounts unclaimed for more than one year?
5. Show me your reconciliation of cash balances to the detailed listing of unclaimed funds.
6. How much was paid to the county for unclaimed funds during April of the year under audit?

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-10 Compliance Requirement:** Ohio Rev. Code § 1901.31 - Municipal court records.

**Summary of Requirement:** Municipal court clerks must maintain a general index and a docket. [Ohio Rev. Code § 1901.31(E)]

On the first Monday of each January, the clerk must list all cases more than one year past for which money has been collected but unclaimed. On the first Monday in January each year, the clerk must transmit notice of unclaimed funds to the party or to the party's attorney. Money still unclaimed each April 1 must be paid to the municipal treasury (or county treasury, if it is a county-operated municipal court). [Ohio Rev. Code § 1901.31(G)]

(*Note:* the funds remain the property of the potential claimant. That is, the government is holding this cash similar to an agent on behalf of the claimant.)

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

***Note:* Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.**

**Sample Questions and Procedures:**

1. Are the aforementioned records maintained? (*Note:* We will normally know this from performing financially-related audit procedures.)
2. Describe procedures used to assure that these records are complete and accurate (e.g., supervisory reviews). *Note:* We include this step here for emphasis, though it should be part of the financial audit tests and does not require additional testing for Ohio Rev. Code purposes.
3. Please show me an example of the correspondence you send regarding unclaimed funds to the party or to their attorney.
4. How do you identify amounts unclaimed for more than one year?
5. Show me your reconciliation of cash balances to the detailed listing of unclaimed funds.
6. How much was paid to the county for unclaimed funds in April following the year under audit?

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-11 Compliance Requirement:** Ohio Rev. Code § 1905.21 - Docket; disposition of receipts. Ohio Rev. Code § 733.40 - Disposition of fines and other moneys for mayor’s court.

**Summary of Requirements:** The mayor of a municipal corporation and a mayor's court magistrate shall keep a docket. [Ohio Rev. Code § 1905.21]

All moneys collected shall be paid by the mayor into the municipality on the first Monday of each month. At the first regular meeting of the legislative authority each month, the mayor shall submit a full statement of all money received, from whom and for what purposes received, and when paid into the treasury. [Ohio Rev. Code § 733.40]

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

*Note: Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.*

**Sample Questions and Procedures:**

*The financial audit procedures would normally include these steps. It is sufficient to cross reference results from financial audit procedures satisfying these requirements to this step without the need for any other procedures.*

1. Do you maintain a docket?
2. How do you assure that the docket is maintained completely and accurately?
3. Do you submit the required statement each month? Please show me \_\_\_\_\_ (pick a few monthly statements and have personnel walk you through them).
4. Describe procedures used to assure that the statement is complete and accurate.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-12 Compliance Requirements:** The following is a list of courts and of the related statutory provisions (all references are to the Ohio Revised Code Section) for the collection, custody, and disbursement of fees, fines, costs, and deposits.

2746.01	All courts of record (primarily in civil cases)
2746.02	All courts of record (in criminal and juvenile cases and some civil actions related to criminal cases)
2746.03	Supreme Court, courts of appeals, Court of Claims (in addition to the charges applicable in all courts of record)
2746.04	Courts of common pleas (in certain civil cases, in addition to the charges applicable in all courts of record)
2746.05	Juvenile courts (in addition to the charges applicable in all courts of record and the courts of common pleas)
2746.06	Probate courts (in addition to the charges applicable in all courts of record and the courts of common pleas, subject to any waiver of fees for combat zone casualties under Ohio Rev. Code § 2101.164 and any reduction of fees that Ohio Rev. Code § 2101.20 allows the judge to make)
2746.07	Municipal courts (in addition to the charges applicable in all courts of record and the courts of common pleas)
2746.08	County courts (in addition to the charges applicable in all courts of record and the courts of common pleas)

#### ***Municipal Court***

1901.14	Powers of judge; fees; rules; annual reports
1901.26	Costs for operation of the court and special projects <sup>15</sup>
1901.261	Additional fees for computerization of court or office of clerk of court*
1901.262	Fee for dispute resolution
1901.31	Clerk of Court, powers and duties
2951.021	Supervision fees (Probation)
2949.094(A)	15% Add-on fee for indigent alcohol treatment fund
4511.193	Fee for indigent alcohol treatment fund

#### ***Mayor's Court***

733.40	Disposition of fines and other moneys
1907.261	Fees for computerization of clerk of court office * (applies per 1905.02)
2949.094(A)	15% Add-on fee for indigent alcohol treatment fund <sup>16</sup>
4511.193	Fee for indigent alcohol treatment fund

<sup>15</sup> Ohio Rev. Code § 1901.26(A)(1)(b)(i) authorizes municipalities to establish fees for services related to a municipal court performed by officers or other employees of the municipal corporation's police department or marshal's office of any of the services specified in Ohio Rev. Code § 311.17 and § 509.15. The act provides that no fee in the schedule may be higher than the fee specified in Ohio Rev. Code § 311.17 for the performance of the same service by the sheriff. If a fee set by municipal ordinance conflicts with a fee for the same service established in a statute or rule of court, the fee established in the statute or rule applies.

<sup>16</sup> Per Ohio Rev. Code § 733.40, distribution of the 15% referenced in § 2949.094(A) depends on whether, it was a moving violation based on a statute or an ordinance. If the fine was collected based on violation of a statute then the money goes into the County Treasury; if the fine was collected based on a violation of a municipal ordinance, then the 15% goes into the municipal treasury.

**County Court**

1907.20	Clerk of county court, powers and duties
1907.24	Schedule of fees and costs and disposition
1907.26	Disposition of fees and costs
1907.261	Additional fees for computerization of court or office of clerk of court*
1907.262	Fee for dispute resolution
2949.094(A)	15% Add-on fee for indigent alcohol treatment fund
4511.193	Fee for indigent alcohol treatment fund

**Probate Court**

325.28	Receipt for fees
2101.12	Records to be kept; indexes
2101.15	Probate judge to file itemized account of fees to county auditor
2101.16	Fees
2101.162	Additional fees for computerization of court or office of clerk of court*
2101.163	Fee for dispute resolution
2101.17	Fees from county treasury
2101.20	Reduction of fees (if collected fees exceed court salary costs)
2333.26	Fees of probate court
3113.34	Additional fee for marriage license; fee for domestic violence shelter
3705.21	Registration of marriages, divorces, dissolutions, annulments
5310.05	Assurance fund rate
5310.06	Monthly payments of money to treasurer of state, investment of funds
5310.15	Miscellaneous Fees

**Juvenile Court**

325.28	Receipt for fees
2151.54	Fees and costs generally
2151.541	Additional fees for computerization of court or office of clerk of court*
2949.094(B)	15% Add-on fee for indigent alcohol treatment fund
4511.193	Fee for indigent alcohol treatment fund

**Court of Common Pleas**

325.28	Receipt for fees
2301.031	Fee for computerization of domestic relations division
2303.20	Fees and costs generally
2303.201	Computerizing court or paying cost of computerized legal research (amended by SB 177)*
2303.22	Costs and fees taxed upon writs
2335.35	Disposition of unclaimed fees and costs
2335.37	Payment of certain costs to county treasury
2335.241	Interest on certificates of judgment; computerization of court/ clerk's office ( <b>Note:</b> Ohio Rev. Code § 2335.241 is not subject to the computerization fee restrictions of AOS Bulletin 2005-003.)
3109.14	Fees for birth and death records and disposition of divorce or dissolution filings; Children's trust fund
2743.75(D)(1)	Filing fee for disputes over denial of access to public records

***Court of Common Pleas (Continued)***

2951.021	Supervision Fees (Probation)
4505.14	Fees for lists of title information
4519.59	Fees for certificate of title
4519.63	Preparation and furnishing title information; Fees
4519.69	Fee for processing physical inspection certificate
5310.05	Assurance fund rate
5310.06	Monthly payments of money to treasurer of state, investment of funds
5310.15	Miscellaneous Fees

***Court of Appeals***

2501.16	Clerk of Court, powers and duties; fees for special projects
2303.20	Fees & Costs Generally (applies via 2501.16 & 2303.03)
2953.37/.38/.53	Fee associated with Court Notice of Order to seal or expunge records

***All Courts***

2335.30	Posting table of fees
2743.70	Fine to fund reparations payments (collection and remittance to state)
2937.22	Surcharge for Bail for offenses other than traffic offenses or moving violations
2949.091	Execution of sentence (collection and remittance to state)
2949.094	Additional court cost for alcohol treatment and drug law enforcement funds ( <i>fee per offender, not moving violation</i> )
4511.19(G)(5)(a)	Fine for enforcement and education fund
4513.263	Occupant restraining devices
5503.04	Disposition of fines and moneys arising from bail forfeitures in State Highway Patrol cases.

The clerks of various courts receive cash in payment of various court fees, costs, and fines, as well as contingent deposits pending the outcome of legal proceedings. Such monies normally may be deposited in banks or savings and loan associations pending distribution in accordance with statutory specifications or as directed by the court.

All moneys collected during a month and owed to the state shall be transmitted on or before the twentieth day of the following month by the clerk of the court to the treasurer of the state [Ohio Rev. Code § 1907.24(C), 2303.201(C), 2743.70 (A), 2949.091(A) (all courts) & (B), and 3109.14].

\* Per AOS Bulletin 2005-003, it is the AOS's opinion that a government cannot use these fees to compensate court employees who use a computer in their ordinary duties. Rather, the AOS believes the Ohio Legislature intended that such fees are to be used to procure and maintain computer systems or to computerize courts. This would include procuring services for installing, updating, and maintaining court computer systems (e.g., computer programmers or computer engineers). These services may be provided by employees or staff of the court and, in these circumstances, fees could be expended for employee or staff expenses as properly documented to demonstrate the percentage of time spent on such activities. However, employees and staff should not be compensated from computerization fees when using the court's computer systems as end-users.

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.

**Sample Questions and Procedures:**

**Note:** The Ohio Revised Code sections listed in this step are provided primarily for your reference. When testing the collection and distributions of fines, auditors must refer to the applicable statutes governing the amounts to collect and amounts and methods of distribution, regardless of whether listed here. These tests should be part of the financial audit of the court.

1. Inquire and examine how the court updates its fines and fees schedule for new fines/fees and changes to existing legislation. Ask the court to demonstrate how it updated its fines/fees schedule for the most recent statutory change and ensures the fines/fees collected are properly distributed to the appropriate fund. (e.g., Ohio Rev. Code § 2303.201 imposes an additional fee of \$15 to a custody, visitation or parentage action for the juvenile division of the court of common pleas) *(Typically, we only require a low degree of assurance over compliance with this requirement. However, where courts are a material audit cycle, auditors should evaluate general IT controls (AOS staff should complete the RCEC) for automated court systems. When fine schedules are stored as standing data in an automated system subject to adequate general IT controls, examining one fine or fee that changed, normally provides sufficient evidence that the proper fine was charged. We also do not require staff to test all fine amounts set by statute. Instead, the objective should be to determine if the court is conscientious in updating its fine schedule timely and accurately.)*
2. Inquire as to how the court spends computerization fees. Determine whether the accounting system can segregate computerization fees received and spent; or how the court otherwise determines that these fees were only spent on permissible computerization activities per AOS Bulletin 2005-003.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-13 Compliance Requirement:** Ohio Rev. Code §§ 2743.70 and 2949.091 - Additional costs in criminal cases in all courts to fund reparations payments; additional court costs for state general revenue fund.

**Summary of Requirements:** These sections generally require the court in which any person is convicted of or pleads guilty to any offense other than a traffic offense which is not a moving violation to impose and collect additional fines to be used for the state's reparations fund. The court may not waive the payment of this additional cost unless the court determines that the offender is indigent and waives the payment of all court costs imposed upon the indigent offender.

**POSSIBLE NONCOMPLIANCE RISK FACTORS:**

**Note:** Due to the large volume of over the counter cash receipts and the complexity of statutory fines and fees, the risk of noncompliance in courts is inherently higher. In assessing the risk of noncompliance, auditors should consider whether courts have historically demonstrated effective internal controls and compliance with applicable requirements. Additionally, adequate training of court personnel, segregation of duties, and supervisory monitoring controls can help mitigate the risk of noncompliance with court requirements.

**Sample Questions and Procedures:**

**Note:** The Ohio Rev. Code sections listed in this step are provided primarily for your reference. When testing the collection and distributions of fines, auditors must refer to the applicable statutes governing the amounts to collect and amounts and methods of distribution, regardless of whether listed here. These tests should be part of the *financial* audit of the court.

Inquire and examine how the court updates its fines and fees schedule and ensures the fines/fees collected are properly distributed to the appropriate funds. Ask the court to show you a few state fund reparations costs and determine they were distributed reasonably. *(Typically, we only require a low degree of assurance over compliance with this requirement. However, where courts are a material audit cycle, auditors should evaluate general IT controls (AOS staff should complete the RCEC) for automated court systems.)*

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COUNTIES**

**3-14 Compliance Requirements:** Ohio Rev. Code §§ 325.071, 325.06, 325.12, 325.18 - Furtherance of Justice (FOJ)

**Summary of Requirements:**

Per Ohio Rev. Code § 325.071 the sheriff's annual FOJ appropriation equals ½ of the Sheriff's salary. Ohio Rev. Code §§ 325.06(A) and 325.18(A-B) prescribe sheriffs' salaries. Note that the additional 1/8 salary paid to sheriffs per Ohio Rev. Code § 325.06(B) is **not** includable in the FOJ calculation.

Per Ohio Rev. Code § 325.12, the prosecutor's annual FOJ appropriation equals ½ of the prosecutor's salary. This appropriation is to cover expenses incurred in performing the prosecutor's official duties and in the furtherance of justice.

The statutes require the sheriff and the prosecutor to file with the county auditor by the first Monday in January a full accounting of the expenditure of all funds from the FOJ account for the previous year. The statute requires the redeposit of any remaining funds, including cash held by officers, to the county treasury.

Refer to the AOS Ohio Sheriff's Manual for further guidance:  
<https://ohioauditor.gov/publications/SheriffManual%209-27-18.pdf>.

**Sample Questions and Procedures (To be performed every year):**

1. Please show me any policies and procedures you have for administering this fund.
2. Did you file the required annual report of expenditures for this fund? Please show me a copy of it.
3. Please show me documentation that the expenditures from this fund were proper and in accordance with your policies and procedures. Auditors should scan expenditure documentation and determine whether appropriate documentation is being maintained (i.e. receipts, invoices, affidavits, etc.), and whether expenditures appear reasonable in nature (i.e. proper public purpose). If significant unusual items are noted, auditors should perform the disbursement testing procedures included in the audit program below.

**FOJ Audit Program Steps:**

1. Determine whether the sheriff and prosecutor filed a full accounting of expenditures of all funds from the FOJ account with the County Auditor by the first Monday in January as required by Ohio Rev. Code §§ 325.071 and 325.12(E).
2. Examine the county's computation of amounts payable from the general fund to the FOJ account per Ohio Rev. Code §§ 325.071 & 325.12. Compare the computation to actual payments. Investigate any differences and determine whether the prosecutor received approval from the court of common pleas under Ohio Rev. Code § 325.13 to allocate any additional funds to the FOJ account.
3. Per AOS Bulletin 1997-014, any amounts paid to the FOJ fund in excess of the statutory limits described above will result in a finding for adjustment against the FOJ fund.
4. Determine whether a written internal control policy exists for administering and expending funds in the FOJ account. Compare the county's internal control policies to the guidance provided in AOS Bulletin

1981-007. Lack of a clear, written policy should be communicated to the audit committee and/or management officials of the County.

5. Does the policy establish clear internal controls regarding the distribution of the funds? If so:
  - a. Do officers receiving cash sign a form or prenumbered, duplicate receipt for all money received?
  - b. Does the officer providing the cash also sign a form acknowledging the disbursement of cash?
  - c. Obviously the department should not obtain receipts for payments to informants. However, do officers submit vendor invoices, cash register slips or other documentation to support other uses of funds (similar to an imprest petty cash fund)?
  - d. Are officers required to keep an Agent Expense Report or similar paperwork?
  - e. What does the policy state an officer should do when a receipt cannot be obtained? Examine evidence supporting whether or not officers comply with the policy.
  - f. Does the policy require affidavits when officers pay cash to informants and for other confidential purposes?
6. Obtain the county's reconciliation of bank balances to the activity in the FOJ account cash book.
  - a. Foot the reconciliation.
  - b. Agree the bank balance per the reconciliation to the bank account statement balance.
  - c. Scan reconciling items for reasonableness.
    - Trace any relatively large outstanding checks or deposits in transit to subsequent bank deposits or the date on which outstanding checks subsequently cleared the bank.
  - d. Agree the book balance per the reconciliation to the FOJ account balance.
  - e. Trace payment of the remaining year end FOJ balance to a receipt / revenue into the county treasury, as Ohio Rev. Code §§ 325.071 (sheriff) and 325.12(E) (prosecutors) requires.
7. Obtain the check register and review the payees\* for reasonableness of the expenditure. If there are checks written to the Sheriff or other high ranking officials, include these disbursements in the test that step 8 describes.

\*Due to the 21st Century Check Act, there are instances in which the bank is no longer able to return an original paper check or a photocopy of an original paper check. Instead, the bank is able to provide you with only a "display history" of a withdrawal from your checking account. Information on a bank's "display history" typically includes, but is not limited to, the number of the account upon which the check is drawn, routing information, the person or entity to whom the check was made payable, the purpose for which the money was paid, and the amount paid to the person or entity. Because a bank's "display history" of a withdrawal from a checking account sets forth the same information that appears on an original paper check or a photocopy of an original paper check, such a "display history," like an original paper check or photocopy of an original paper check, may provide a reasonable and reliable means by which a county prosecuting attorney can accurately account for a disbursement from his furtherance of justice allowance. [2005 Op. Att'y. Gen. No. 2005-035] Also see AOS Bulletin 2004-010.
8. Select a representative group of disbursements from the year end FOJ report, listing the check number, date, amount, and payee, and determine:
  - a. the amount per the report agrees with the canceled check or receipt.
  - b. the check is properly endorsed and signed by the Sheriff.
  - c. the expenditure is for furtherance of justice (almost everything counts except personal items—see the guidance in Bulletin 1981-007 and 1997-014).

- d. the officer completes an affidavit to support confidential payments, describing the amount of the expenditure and either the check number or the receipt number related to the expenditure as well as a statement of a general nature of the expenditure. If an affidavit is executed, the Auditor of State will not require production of the actual check or receipt and will not make any further inquiry into the detail surrounding the expenditure unless there is probable cause to believe that the affidavit is false. If no affidavit is executed, the officer must produce sufficient documentation to support that the expenditure is for a proper public purpose. Please note that a mere assertion by the officer that an expenditure is confidential is not sufficient to negate the documentation requirements.
- e. whether other (i.e. non confidential) disbursements are adequately supported by original documents (e.g., original invoices, receipts, receiving report, etc.).
- f. that checks do not appear to have been altered.
- g. whether amounts agree among related documents, and that computations (footings, extensions, etc.) are correct.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**TOWNSHIPS**

**3-15 Compliance Requirements:** Ohio Rev. Code §§ 505.60 and 505.601, AOS Bulletin 2015-002, and 2005 Op. Att’y. Gen. No. 2005-038, 2013-022, 2015-021, 2017-007, and 2017-026 - Reimbursement of insurance premiums

**Summary of Requirements:**

With the enactment of the Affordable Care Act (ACA), as noted in Bulletin 2015-002, Federal authorities have issued various guidance which suggest that some practices in Ohio Rev. Code §§ 505.60 and 505.601 may constitute violations of provisions of that voluminous legislation and may subject townships engaging in the same to penalty.

The IRS issued Notice 2015-17 in which it is indicated that an employer payment plan which involves the employer’s reimbursement to employees for some or all of their health insurance premiums incident to a policy secured other than through the employer constitutes a group health plan which is subject to regulation under the Patient Protection and Affordable Care Act (ACA). On that basis, the IRS indicates that any such reimbursement plan, since it limits the amount of payments, is in violation of the ACA, and may subject the employer to fines and penalties. The Federal 21<sup>st</sup> Century Cures Act, amends the ACA effective January 1, 2017<sup>17</sup>. This act creates an exception for “Qualified Small Employer Health Reimbursement Arrangements”<sup>18</sup> in which qualified eligible employers who make health care reimbursements may do so without threat of penalty. To qualify, a township must employ fewer than 50 full-time or full-time equivalent (FTE) employees and does not offer a group health plan to any of its employees. The following conditions must also apply:

1. It is provided uniformly to all eligible employees;
2. It is funded solely by the eligible employer;
3. No salary reduction contributions are made under the reimbursement plan; and
4. Payments and reimbursements for any year do not exceed \$4,950.00 per employee (\$10,000 if the arrangement provides for payments or reimbursements for family members of employee).

See the AOS Bulletin 2017-002 for details.

Employers may make premium reimbursements if their program is “integrated”, under Federal regulations, into a group health care plan offered by the employer, and they may utilize so-called 125 payment plans. Absent the provision by the public employer of health care insurance coverage, neither premium reimbursement nor a 125 premium payment plan is permissible under relevant provisions of the Patient Protection and Affordable Care Act, as said enactment has been interpreted by the Internal Revenue Service. See AOS Bulletin 2015-002, 2015 Op. Att’y. Gen. No. 2015-021, and 2017 Op. Att’y. Gen. No. 2017-026.

Currently included in the Ohio Rev. Code:

Generally, Ohio Rev. Code § 505.60 permits townships to procure their own healthcare coverage, while Ohio Rev. Code § 505.601 permits townships to opt not to procure their own plans, but still reimburse officers’ and employees’ for their healthcare premiums. Ohio Rev. Code § 505.60 specifically permits townships to procure the following forms of healthcare coverage: hospitalization, surgical care, major medical care, disability, dental care, eye care, medical care, hearing aids, prescription drugs, or sickness and accident insurance. In addition, Ohio Rev. Code § 505.60 allows townships to reimburse a township officer or employee for out-of-pocket premiums for insurance policies, including long-term

<sup>17</sup> This is effective for years beginning after December 31, 2016. However; our office will not issue findings for recovery in accordance with this act or the 2017 Op. Att’y. Gen. No. 2017-007 until audits performed for periods beginning after December 31, 2017.

<sup>18</sup> Cafeteria plans may qualify as Qualified Small Employer Reimbursement Arrangements.

care insurance<sup>19</sup>. The reimbursement is permitted for a township officer or employee who is denied coverage under a township health care plan established pursuant to Ohio Rev. Code § 505.60, or who elects not to participate in the township’s plan. The township may reimburse for each out-of-pocket premium attributable to the coverage provided for the officer or employee for insurance benefits that the board could have provided under Ohio Rev. Code § 505.60(A). The reimbursement for the officer, employee, and their immediate dependent cannot exceed an amount equal to the average premium paid by the township under any health care plan it procures [Ohio Rev. Code § 505.60(D)] and cannot be reimbursed for immediate dependents if they elect not to participate in the plan (2017 Op. Att’y. Gen. No. 2017-007).<sup>17</sup>

Requirements governing township-procured health insurance coverage apply equally to township-paid coverage through a health insuring corporation contract as follows:

- that an officer or employee may decline coverage under either method without affecting the availability of coverage to other officers and employees
- that either method may provide the same kinds of coverage
- that coverage under either method is to be paid from the same township sources used to pay employee and officer compensation
- that immediate dependents may be covered under either method
- that reimbursement of an officer or employee for premiums paid for alternative coverage (e.g., through a spouse) is only for the part of the premium paid for the same kinds of coverage offered by the township's plan, whether it be provided through insurance or a health insuring corporation contract

The statute does not permit reimbursements for:

- deductibles
- the employer’s portion of premiums
- healthcare expenses related to family members, not on the township healthcare plan

If a township opts not to procure its own health insurance, it still is permitted to reimburse any township officer or employee for each out-of-pocket premium that the officer or employee incurs pursuant to Ohio Rev. Code § 505.601. However, pursuant to Ohio Rev. Code § 505.601, the township must meet the following three conditions:

1. The board of township trustees adopts a resolution stating that the township has chosen not to procure a health care plan and has chosen instead to reimburse its officers and employees for each out-of-pocket premium,
2. The resolution provides for a uniform maximum monthly or yearly payment amount for each officer and employee,
3. The resolution states the specific benefits, pursuant to Ohio Rev. Code § 505.60(A), that will be reimbursed.

---

<sup>19</sup> For example, a township official who obtained coverage through an outside employer sought reimbursement for this outside employer’s portion of his insurance premium. This is not permitted by law. Townships can only reimburse for the official’s out-of-pocket portion of the premium (unless the reimbursement is integrated with another group health plan in accordance with federal law) – up to the average amount of premiums paid under the township’s health insurance plan. These reimbursements do not qualify as a “group health plan” or as a “qualified small employer health reimbursement arrangement.” (2018 Op. Att’y. Gen. No. 2018-001)

Ohio Rev. Code § 505.601 (reimbursement when a township does *not* offer health insurance to its officers/employees) covers reimbursements made to township officers/employees for dependent health care coverage. Reimbursement is only for the part of the out-of-pocket premium attributable to the coverage provided for the officer or employee for insurance benefits that the board could have provided under Ohio Rev. Code § 505.60(A), and that the reimbursement covers immediate dependents in addition to the officer or employee.

**2005 Op. Att’y. Gen. No. 2005-038** states that townships are not authorized to directly pay the employer of a township officer or employee’s spouse for the cost of family coverage under a health care plan provided to the spouse by the spouse’s employer. Auditors should consider appropriate findings if such direct payments are identified. However, the officer or employee can be directly reimbursed for the out-of-pocket premium attributable to that officer or employee for health care coverage provided through the employer of a spouse as outlined in Ohio Rev. Code § 505.60 and 505.601.

In 2013, the IRS issued Notice 2013-54 and the Department of Labor issued Technical Release 2013-03 which indicate that employers may reimburse employees’ premiums for non-employer sponsored health care with only post-tax dollars (i.e., employers must withhold taxes prior to making reimbursement), but that these reimbursements need not be used in computing allowable “gross salary” as prescribed in Ohio Rev. Code § 505.24 and § 505.09.

**2013 Op. Att’y. Gen. No. 2013-022** states a board of township trustees may reimburse a township officer or employee pursuant to Ohio Rev. Code § 505.601 for monthly Medicare Parts A, B, and D premium payments made by the officer or employee, so long as the benefits provided by Medicare Parts A, B, and D are consistent with the benefits identified in the township resolution stating that the township has chosen not to procure a health care plan under Ohio Rev. Code § 505.60 and the reimbursement does not exceed the uniform monthly or yearly payment amount set by that resolution.

Auditors should refer to AOS Bulletin 2015-002 for additional information regarding auditing health care reimbursements.

### **Sample Questions and Procedures:**

1. Inquire and scan the records to determine if the township reimbursed any officer or employees for insurance benefit premiums during the period under Ohio Rev. Code § 505.60 or § 505.601?
2. If the Township has one employee:
  - a. Review the resolution authorizing reimbursement. (We should maintain a copy in the permanent file so we needn’t repeat this step each audit.)
  - b. Review the township’s procedures for ensuring reimbursements meet the requirements of [Ohio Rev. Code § 505.60(A) or the reimbursement resolution from Ohio Rev. Code § 505.601].
  - c. Review a few employees’ reimbursement transactions to determine if they were allowable.
3. If more than one employee, determine for premium reimbursements if the Township’s program is “integrated”, under Federal regulations, into a group health care plan offered by the public employer, and if, therefore, the public employer may utilize so-called 125 payment plans. If they operate a cafeteria plan, see OCS section 3-16.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**COUNTIES, MUNICIPALITIES & TOWNSHIPS****3-16 Compliance Requirements:** Ohio Rev. Code §§ 305.171 and 505.603<sup>20</sup> - “Cafeteria Plans”<sup>21</sup>**Summary of Requirements:****Counties**<sup>22</sup>

A board of county commissioners may offer, to a county officer or employee, benefits through a cafeteria plan meeting the requirements of section 125 of the "Internal Revenue Code of 1986," 100 Stat. 2085, 26 U.S.C. 125, as amended, and, as part of that plan, may offer the county officer or employee the option of receiving a cash payment in any form permissible under such cafeteria plans. Any cash payment made to a county officer or employee under this provision shall not exceed twenty-five per cent of the cost of premiums or payments that otherwise would be paid by the board for benefits for the county officer or employee under the health care policy or plan provided by the county as permitted by Ohio Rev. Code § 305.171(A).

A board of county commissioners may also duly establish an “opt-out payment plan” which provides that any county officer or employee, who is not covered under a health care plan or policy by the county as permitted by Ohio Rev. Code § 305.171, may receive cash payment in lieu of benefit. Any cash payment made to a county officer or employee under this provision shall not exceed twenty-five per cent of the cost of premiums or payments that otherwise would be paid by the board for benefits for the county officer or employee under the health care policy or plan provided by the county as permitted by Ohio Rev. Code § 305.171(A). Further, no cash payment in lieu of a benefit may be made under the provision unless the officer or employee provides a signed statement with the following information:

- an affirmation that the individual is covered under another plan for that type of coverage
- the name of the employer (if any) that sponsors the coverage
- the name of the carrier that provides the coverage
- the policy or plan number for the coverage

<sup>20</sup> In addition to providing the benefits to township officers and employees under section 505.60, 505.601, or 505.602 of the Ohio Rev. Code, a board of township trustees may offer a health and wellness benefit program through which the township provides a benefit or incentive to township officers, employees, and their immediate dependents to maintain a healthy lifestyle, including, but not limited to, programs to encourage healthy eating and nutrition, exercise and physical activity, weight control or the elimination of obesity, and cessation of smoking or alcohol use. (Ohio Rev. Code § 505.603(B))

The township fiscal officer may deduct from a township employee's salary or wages the amount authorized to be paid by the employee for one or more qualified benefits available under section 125 of the "Internal Revenue Code of 1986," 26 U.S.C. § 125, and under the sections listed in division above, if the employee authorizes in writing that the township fiscal officer may deduct that amount from the employee's salary or wages, and the benefit is offered to the employee on a group basis and at least ten per cent of the township employees voluntarily elect to participate in the receipt of that benefit. The township fiscal officer may issue warrants for amounts deducted under this division to pay program administrators or other insurers for benefits authorized under this section or those sections listed above. (Ohio Rev. Code § 505.603(C))

<sup>21</sup> According to Internal Revenue Code [26 U.S.C. § 125 (b)] cafeteria plan amounts are not included in gross income of a participant, unless the participants are greater than \$130,000.

<sup>22</sup> See also [2019 Op. Att'y. Gen. No. 2019-026](#)

**Townships**

In addition to or in lieu of providing benefits to township officers and employees under Ohio Rev. Code § 505.60, 505.601, or 505.602, a board of township trustees may offer benefits to officers and employees through a cafeteria plan that meets the requirements of section 125 of the "Internal Revenue Code." To offer benefits through a cafeteria plan, the township must adopt a policy authorizing an officer or employee to receive a cash payment in lieu of a benefit otherwise offered to township officers or employee. This cash payment may not exceed twenty-five percent of the cost of premiums or payments that otherwise would be paid by the board for benefits for the officer or employee.

Ohio Rev. Code § 505.603 further requires that no cash payment in lieu of a benefit be made unless the officer or employee provides a signed statement with the following information:

- an affirmation that the individual is covered under another plan for that type of coverage
- the name of the employer (if any) that sponsors the coverage
- the name of the carrier that provides the coverage
- the policy or plan number for the coverage

**Sample Questions and Procedures:****Note:**

- Steps 1 – 3 only apply when the entity adopts or amends a cafeteria plan during the audit period, or in the initial year it is tested for compliance.
- Reviewing the permanent file should address steps 1 – 3 for years in which there is no amendment.

1. Do you offer your officers and employees benefits through a cafeteria plan?

Note: None of the steps below apply if the entity does not have a cafeteria plan.

2. Inquire if the entity worked with their legal counsel and/or accountants to design and administer the plans properly. If so, secure any documentation legal counsel or the accountants have supplied to the township.
3. Review the policy document for conformance with the requirements.
4. Describe your procedures for ensuring reimbursements met the requirements of Ohio Rev. Code § 305.171 or 505.603.
5. Please show me [number] of signed statements with the attestations and the required information.
6. Calculate or review the entity's calculations that cash in lieu of payments does not exceed 25% of the cost to the entity for providing the benefit (that is no longer being received).

Inquire with the appropriate person to determine how health care reimbursements are recorded.

For UAN entities: Use the wage base earning report – detail and summary. For periods before 2015, use the wage detail report.

7. Determine if the employees' W-2 forms reflect additional income for the benefit if applicable.

**Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):**

**3-17 Compliance Requirements:** Ohio Rev. Code §§ 2925.03(F), 2929.18, 2981.11, 2981.13 and 2981.14  
- Law Enforcement Trust (LET) and Drug Law Enforcement Funds

**Summary of Requirements:**

*Note:* This section is only applicable when related fines, forfeitures, or penalties are distributed to the entity, and/or when they have unspent balances from previous distributions.

Refer to the AOS Ohio Sheriff's Manual for further guidance:  
<https://ohioauditor.gov/publications/SheriffManual%209-27-18.pdf>.

**Law Enforcement Trust Funds**

Several different receipts require activity to be tracked/monitored in a Law Enforcement Trust Fund (**Procedure No. 1 below**) including:

***Mandatory Drug Fines***

Ohio Rev. Code § 2925.03 (F)(1) requires the clerk of a court to pay<sup>23</sup> any mandatory fine imposed pursuant to division (D)(1) of this section and any fine other than a mandatory fine imposed for a violation of this section pursuant to division (A) or (B)(5) of Ohio Rev. Code § 2929.18 of the Revised Code to the county, township, municipal corporation, park district. . . or state law enforcement agencies in this state that were primarily responsible for or involved in making the arrest of, and in prosecuting, the offender.<sup>24</sup> (**Procedure No. 3 below**)

However, the Clerk shall not pay a mandatory fine so imposed to a law enforcement agency unless the agency has adopted a written internal control policy under division (F)(2) of this section that addresses the use of the fine moneys that it receives. Each agency shall use the mandatory fines so paid to subsidize the agency's law enforcement efforts that pertain to drug offenses, in accordance with the written internal control policy adopted by the recipient agency under division (F)(2) of this section. (**Procedure No. 2 below**)

Ohio Rev. Code § 2925.03(F)(2) provides guidance on preparing an internal control policy indicating it must:

- address the agency's use<sup>25</sup> and disposition of all fine moneys so received,
- provide for the keeping of detailed financial records of:
  - the receipts of those fine moneys,
  - the general types of expenditures made out of those fine moneys, and
  - the specific amount of each general type of expenditure.
- not provide for or permit the identification of any specific expenditure that is made in an ongoing investigation.

<sup>23</sup> Payments are made electronically to the Ohio Treasurer of State through the Reparations Rotary. A [report](#) is available on the AOS Intranet showing which entities made payments.

<sup>24</sup> These proceeds should be recorded in a LET fund when received from the clerk.

<sup>25</sup> Ohio 2017 Op. Att'y. Gen. 2017-018 states, in part, that "personal property purchased by a county prosecuting attorney ... with ... law enforcement trust fund moneys ... constitutes county property." As county property, the board of county commissioners are vested with the title to all property of the county. As such, the board of county commissioners must follow Ohio Rev. Code § 307.12 when disposing of property and this section does not provide for the gifting/donating of property to a private individual.

*Note:* The following are to be considered public records open for inspection under Ohio Rev. Code § 149.43:

- The written internal control policy,
- All financial records of the receipts of those fine moneys,
- The general types of expenditures made out of those fine moneys, and
- The specific amount of each general type of expenditure by an agency.

### ***Forfeitures and Seizures***

#### ***Care of Property in Law Enforcement Custody*** Ohio Rev. Code § 2981.11

Ohio Rev. Code § 2981.11(B)(1) provides that any law enforcement agency that receives or uses certain proceeds or forfeited monies shall adopt and comply with an internal control policy that provides for keeping detailed records of: **(Procedure No. 2 below)**

- the amount of property acquired by the agency and the date property was acquired;
- the disposition of the property, which shall include, but not be limited to, both of the following:
  - The manner in which it was disposed, the date of disposition, detailed financial records concerning any property sold, and the name of any person who received the property. The record shall not identify or enable identification of the individual officer who seized any item of property.
  - An itemized list of the specific expenditures made with amounts that are gained from the sale of the property and that are retained by the agency, including the specific amount expended on each expenditure, except that the policy shall not provide for or permit the identification of any specific expenditure that is made in an ongoing investigation and shall be open to public inspection during the agency's regular business hours.

#### ***Sale of forfeited property*** Ohio Revised Code § 2981.13

Each County Sheriff, township, municipal corporation, park district that receives proceeds from the sale of forfeited property and contraband seized during law enforcement activities must:

- Establish a law enforcement trust fund [Ohio Revised Code § 2981.13(C)(1)],
- File a report with the County Auditor/Municipal Corp./Board of Township Trustees/Park Commissioner/or Attorney General, no later than the thirty-first day of January the next calendar year, verifying that the proceeds and forfeited moneys were expended only for the purposes authorized and specifying the amounts expended for each authorized purpose. [Ohio Rev. Code § 2981.13(C)(3)], **(Procedure No. 5 below)**
- Write/adopt and comply with an internal control policy relating to proceeds and forfeited money addressing [Ohio Rev. Code § 2981.13(C)(2)(a)]: **(Procedure No. 2 below)**
  - The use and disposition of all the proceeds and forfeited moneys,
  - The general type of expenditures to be made out of the proceeds and forfeited moneys received, and
  - The records to be maintained.

#### ***Forfeiture under federal law*** Ohio Rev. Code § 2981.14

Ohio Rev. Code § 2981.14(B) states, A law enforcement agency or prosecuting authority shall not directly or indirectly transfer or refer any property seized by the agency or authority to any federal law enforcement authority or other federal agency for purposes of forfeiture under federal law unless the value of the seized property exceeds \$100,000<sup>26</sup>, excluding the potential value of the sale of contraband, or the property is being transferred or referred for federal criminal forfeiture proceedings. **(Procedure No. 4 below)**

<sup>26</sup> Such transfers may result in federal reporting requirements under Treasury or Justice Equitable Sharing Programs (see Catalog of Federal Domestic Assistance (CFDA<sup>27</sup>) # 16.922 and/or 21.016)

**Drug Law Enforcement Fund****Non-Mandatory Drug Fines**

An additional fine imposed under Ohio Rev. Code § 2929.18(A) or (B)(4) does not require distribution to LET funds under Ohio Rev. Code § 2925.03(F). Instead, fines imposed under Ohio Rev. Code § 2929.18(B)(4) must be used as provided in Ohio Rev. Code § 2925.03(H). This section requires fines to be used solely for the support of one or more eligible community addiction services providers. (**Procedures No. 6-7 below**)

**Sample Questions and Procedures (To be performed every year):****Law Enforcement Trust Fund Testing**

1. The following activity should be accounted for in a Law Enforcement Trust Fund, inquire with the client (including related courts and/or law enforcement agencies) and review supporting audit information in order to determine whether they have any of the following and account for it accordingly:

- Receipts of Mandatory Drug fines,
- Expenditures of Mandatory Drug fine proceeds from previous periods, or
- Receipt or use of forfeited or seized property.

**If there were none, skip to # 6**

2. Obtain any internal control policy(ies) and if applicable determine if it is written in accordance with:

- Ohio Rev. Code § 2925.03(F)(2) – For Mandatory Drug Fines;
- Ohio Rev. Code § 2981.11(B)(1) – For Care of Property in Law Enforcement Custody;
- Ohio Rev. Code § 2981.13(C)(2)(a) – For Sale of forfeited property

3. Determine if the law enforcement agency implemented the written internal control policies.

*(We should test this via procedures we use to determine if controls have been implemented. These might include a walk-through and scanning a few disbursements and the related documentation and financial records. AOS Auditors see AOSAM 30500.68.)*

4. Test this LET activity using the following procedures:

- Obtain the bank accounts and related support documentation and test the bank reconciliation(s) through:
  - i. Footing the reconciliation(s).
  - ii. Agreeing the bank balance per the reconciliation(s) to the bank account statement balance(s).
  - iii. Scanning reconciling items for reasonableness. Trace any relatively large outstanding checks or deposits in transit to subsequent bank deposits or the date on which outstanding checks subsequently cleared the bank.
  - iv. Agreeing the book balance per the reconciliation(s) to the accounting record's balance.
- Auditors should scan expenditure documentation and determine whether appropriate documentation is being maintained (i.e. receipts, invoices, affidavits, etc.), and whether expenditures appear reasonable in nature (i.e. proper public purpose and in accordance with the internal control policy and related statutes above). If significant unusual items are noted, or if auditor judgment dictates, auditors should:
  - i. Test selected disbursements and supporting documentation (e.g. invoices, etc.) to determine if they were used only for the purposes described above. *(Note: We require only a low level of assurance from this testing. Select sample sizes accordingly, or use high dollar testing if it is more efficient and provides greater coverage.)*

- Inquire about any transfers of property seized by the agency or authority to any federal law enforcement authority.
    - i. Evaluate the value of transferred property and if applicable test requirements of Treasury or Justice Equitable Sharing Programs (see Catalog of Federal Domestic Assistance (CFDA<sup>27</sup>) # 16.922 and/or 21.016)
5. If they had sales of forfeited property, determine whether they complied with the reporting requirement in Ohio Rev. Code § 2981.13(C)(3). Review the report for accuracy and completeness.

### **Drug Law Enforcement Fund Testing**

6. Inquire with the client (including related courts and/or law enforcement agencies) and review supporting audit information in order to determine whether there were any additional fines (referred to above as Non-Mandatory Drug fines) imposed under Ohio Rev. Code § 2929.18(A) or (B)(4).

**If there were none, no further testing is required.**

7. This activity should be accounted for in a Drug Law Enforcement Fund. Test this activity using the following procedures:
- Obtain the bank accounts and related support documentation and Test the bank reconciliation(s) through:
    - i. Footing the reconciliation(s).
    - ii. Agreeing the bank balance per the reconciliation(s) to the bank account statement balance(s).
    - iii. Scanning reconciling items for reasonableness. Trace any relatively large outstanding checks or deposits in transit to subsequent bank deposits or the date on which outstanding checks subsequently cleared the bank.
    - iv. Agreeing the book balance per the reconciliation(s) to the accounting record's balance.
  - Auditors should scan expenditure documentation and determine whether appropriate documentation is being maintained (i.e. receipts, invoices, affidavits, etc.), and whether expenditures appear reasonable in nature (i.e. proper public purpose and in accordance with Ohio Rev. Code § 2925.03(H)). If significant unusual items are noted, or if auditor judgment dictates, auditors should:
    - i. Test selected disbursements and supporting documentation (e.g. invoices, etc.) to determine if they were used only for the purposes described above. *(Note: We require only a low level of assurance from this testing. Select sample sizes accordingly, or use high dollar testing if it is more efficient and provides greater coverage.)*

<p><b>Conclusion: (effects on the audit opinions and/or footnote disclosures, significant deficiencies/material weaknesses, and management letter comments):</b></p>
--

<sup>27</sup> Effective for federal awards made after November 12, 2020, the terms “Catalog for Federal Domestic Assistance (CFDA) number” and “CFDA program title” have been changed to the terms “Assistance Listings number” and “Assistance Listings program title”. Auditors may see either term being used interchangeably for a period of time.

**3-18 Compliance Requirements:** Ohio Rev. Code §§ 109.57, 109.571, 109.60, and 5122.311 – Submission of information for National Instant Criminal Background Check System (NICS)

Procedures for this section are limited to the evaluation of prior year comments. Test procedures are not required for periods applicable to the 2021 OCS.

**Sample Questions and Procedures:**

1. Auditors should evaluate the status of any prior year comments issued for NICS. If the matter is resolved, document in the working papers. If the issue is not resolved, bring to the management's attention via a verbal comment only.
