INDEPENDENT ACCOUNTANTS' REPORT

Liberty Center Local School District
Henry County
P.O. Box 434
Liberty Center, Ohio 43532-0434

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Liberty Center Local School District, Henry County, Ohio (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Liberty Center Local School District, Henry County, Ohio, as of June 30, 2012, and the respective changes in financial position, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 4, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The federal awards receipts and expenditures schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR FISCAL YEAR ENDED JUNE 30, 2012
UNAUDITED**

The discussion and analysis of the financial performance of Liberty Center Local School District (the District) provides an overall review of the District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2012 are as follows:

In total, net assets increased \$317,524.

General revenues accounted for \$10,987,347, or 82 percent of all revenues. Program specific revenues in the form of, charges for services, operating grants and contributions and capital grants accounted for \$2,469,985 or 18 percent of total revenues of \$13,457,332.

The District's only major fund is the General Fund.

The General Fund had \$11,710,230 in revenues and other financing sources and \$11,147,107 in expenditures. The General Fund's balance increased \$563,123 from the prior fiscal year. This change is insignificant and an indication that the financial condition of the district has stabilized.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a financial whole, or as an entire operating entity.

The statement of net assets and the statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds, with all other non-major funds presented in total in a single column.

For the District, the General Fund is by far the most significant fund. The General Fund is the only major fund.

Reporting the District as a Whole

Statement of Net Assets and Statement of Activities

The statement of net assets and the statement of activities reflect how the District did financially during fiscal year 2012. These statements include all assets and liabilities using the accrual basis of accounting similar to which is used by most private-sector companies. This basis of accounting considers all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR FISCAL YEAR ENDED JUNE 30, 2012
UNAUDITED
(CONTINUED)**

These statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader whether the financial position of the District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net assets and the statement of activities, the District discloses a single type of activity:

Governmental Activities - All of the District's programs and services are reported here including instruction, support services, non-instructional services, and extracurricular activities. These services are primarily funded by property tax revenues and from intergovernmental revenues, including federal and state grants and other shared revenues.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. While the District uses many funds to account for its multitude of financial transactions, the fund financial statements focus on the District's most significant funds. The District's only major governmental fund is the General Fund. While the District uses many funds to account for its financial transactions, this General Fund is the most significant.

Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to help make this comparison between governmental funds and governmental activities.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the District's programs. These funds use the accrual basis of accounting.

There was an increase in property tax revenue. The changes in expenses were attributed to the increase in wages and benefits.

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

The dependence upon tax revenues and unrestricted state entitlements for governmental activities is apparent. Over 78 percent of instruction activities are supported through taxes and other general revenues. For all governmental activities, support from general revenues is 81 percent. The remaining 19 percent is derived from tuition and fees, specific grants, and donations.

The District's Funds

The District's governmental funds are accounted for using the modified accrual basis of accounting. The District's only major governmental fund is the General Fund. Total governmental funds had revenues and other financing sources of \$13,741,879 and expenditures of \$13,175,794. The net positive change of \$566,085 in fund balance for the year indicates that the District was able to meet current costs.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2012, the District amended its General Fund budget as needed.

Final expenditures were budgeted at \$12,066,547, while actual expenditures were \$11,306,258. The \$760,289 difference is primarily due to a conservative "worst case scenario" approach. The District over-appropriates in case significant, unexpected expenditures arise during the fiscal year.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2012, the District had \$7,293,502 invested in capital assets (net of accumulated depreciation) for governmental activities.

For further information regarding the District's capital assets, see the notes to the basic financial statements.

Debt

At June 30, 2012, the District had \$1,410,404 in school improvement general obligation bonds for building improvements. The bonds were originally issued in 1994 for a twenty-five year period. In 2003, the bonds were refunded and issued with final maturity on December 1, 2017. The bonds are being retired through the Bond Retirement Fund.

The District had \$749,016 in Energy Conservation Notes. The notes were issued in 2010 with final maturity on December 1, 2023. The notes are being retired through the General Fund.

At June 30, 2012, the District's overall legal debt margin was \$9,204,359, with an un-voted debt margin of \$117,942.

For further information regarding the District's debt, see the notes to the basic financial statements.

Current Issues

Liberty Center is a small rural community of 1,180 people in Northwest Ohio. It has a number of small and medium businesses with agriculture having a major influence on the economy.

In fiscal year 2012, the District was operating in the first year of the state biennium budget. 51 percent of District revenue sources are from local funds, 42 percent is from state funds and the remaining 7 percent is from federal funds. The total expenditure per pupil was calculated at \$10,243.51 for fiscal year 2012.

The financial position of the District continued to improve in fiscal year 2012. The ¼ percent income tax was being collected in full. The District completed fiscal year 2012 with \$566,085 in excess of revenue over expenditures and had a positive fund balance of \$6,387,236. Federal stimulus moneys were used throughout the year and helped to lessen the burden on the General Fund. Stimulus money will continue to be a part of the budget until fiscal year 2013. For fiscal year 2012 the District used the Education Jobs federal funding to pay for salaries. The District has planned for an overall reduction of 2% in funding beginning in fiscal year 2013 due to the expiration of the federal funding programs and a loss of \$230,000 in Tangible Personal Property tax replacement funds due to HB 153 funding changes.

However, like all school districts in Ohio, the District will be faced with financial challenges to state funding, the long-term effects of public utility deregulation, and the reduction of personal property for business inventory. The five year forecast for fiscal year 2013 through fiscal year 2017 is currently showing deficit spending beginning with fiscal year 2013 and increasing throughout the forecast, but a positive cash balance is projected through 2016. With the uncertainty in state funding and federal subsidies beyond fiscal year 2013, fiscal stability for the District will be a challenge to maintain. The Board and administration will be monitoring the effects of new state laws and federal regulations and will be poised to act as necessary to maintain fiscal stability.

of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2012**

Net Change in Fund Balances - Total Governmental Funds \$ 566,085

Amounts reported for governmental activities on the statement of activities are different because of the following:

Governmental funds report capital outlay as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeds depreciation in the current year.

Capital Outlay - Depreciable Capital Assets	107,637	
Depreciation	<u>(385,073)</u>	(277,436)

The proceeds from the sale of capital assets are reported as other financing sources in the governmental funds. However, the cost of the capital assets is removed from the capital asset account on the statement of net assets and is offset against the proceeds from the sale of capital assets resulting in a gain (loss) on disposal of capital assets on the statement of activities.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Liberty Center Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. Liberty Center Local School District is a local school district as defined by §3311.22 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District. The Board oversees the operations of the District's seven instructional/support facilities staffed by 44 non-certified and 74 certified full-time teaching personnel who provide services to 1,149 students and other community members.

The Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. This includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District does not have any component units.

The District is associated with organizations, which are defined as jointly governed organizations, a related organization and group purchasing pools. These organizations include Northwest Ohio Computer Association, Northern Buckeye Education Council, Four County Career Center, Northwestern Ohio Educational Research Council, Inc., Liberty Center Public Library, Northern Buckeye Education Council Employee Insurance Benefits Program, Northern Buckeye Education Council Workers' Compensation Group Rating Plan, Northern Buckeye Health Plan – Northwest Division of Optimal Health Initiatives, Northern Buckeye Health Plan's Workers' Compensation Group Rating Plan and Schools of Ohio Risk Sharing Authority. These organizations are presented in Notes 15, 16, and 17 to the basic financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the District's accounting policies.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statement of net assets presents the financial condition of the governmental activities of the District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General Fund is the only major governmental fund:

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

HENRY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The other governmental funds of the District account for grants and other resources, debt service, and capital projects of the District whose uses are restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are not available to support the District's own programs. The District's private purpose trust fund accounts for college scholarships and no interest loans for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for various student-managed activities.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) of total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is accounted for using a flow of economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, income taxes, grants, investment earnings, tuition, and student fees.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The District is required by State statute to adopt an annual appropriated cash basis budget for all funds. The specific timetable for fiscal year 2012 is as follows:

1. The Treasurer submits an annual tax budget for the following fiscal year to the Board by January 15, for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the Council Budget Commission, by January 20 of each year for the period July 1 to June 30 of the following year.
2. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budget in the budgetary statements reflect the amounts in the certificate when the Board adopted the original appropriations. The amounts reported as the final budgeted amount in the budgetary statement reflect the amounts set forth in the final Amended Certificate issued for fiscal year 2012.
3. By July 1, the annual appropriation resolution is legally enacted by the Board of Education. (State statute permits temporary appropriation to be effective until no later than October 1 of each year.)

The Board adopted appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total expenditures and encumbrances may not exceed appropriations at the legal level of control. The legal level of control has been established by the Board is at the object level for the General Fund and the fund level for all other funds.

4. Any revisions that alter the total of any object appropriation for any fund must be approved by the Board of Education.

The amounts reported as the original budget reflect the first appropriation for a fund covering the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budget represent the final appropriation the Board passed during the year.

5. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the fund level, function and/or object level.

**LIBERTY CENTER LOCAL SCHOOL DISTRICT
HENRY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On fund financial statements, encumbrances outstanding at year-end (not already recorded in accounts payable) are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds. A reserve for encumbrances is not reported on the government-wide financial statements.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2012, investments were limited to STAR Ohio, and certificates of deposits. Certificates of deposit are non-negotiable and are reported at cost, which approximates fair value.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2012.

As authorized by Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2012 amounted to \$20,182, which included \$2,624 from other District funds.

For presentation on the financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

G. Inventory

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On the fund financial statements, inventories of governmental funds are stated at cost. Cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure when purchased.

H. Restricted Assets

Assets are reported as restricted assets when limitations on their use change in normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation.

HENRY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets

General capital assets are those assets not specifically related to activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District's capitalization threshold is five thousand dollars. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	15 - 30 years
Buildings	30 - 50 years
Building Improvement	10 - 40 years
Furniture, Fixtures, and Equipment	5 - 20 years
Vehicles	5 -15 years

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

The entire compensated absence liability is reported on the government-wide financial statements.

For the governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

L. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

M. Fund Balance

Fund Balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon use of the resources in governmental funds. The classifications are as follows:

Nonspendable - The nonspendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or is imposed by law through constitutional provisions.

Committed - The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board. The committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

N. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Pass-Through Grants

The Title VI-B and Handicapped Preschool special revenue fund is a pass-through grant in which the Northwest Ohio Educational Service Center is the primary recipient. In accordance with GASB Statement 24, "Accounting and Financial Reporting of Certain Grants and Other Financial Assistance," the secondary recipients should report monies spent on their behalf by the primary recipient as revenue and operating expenses.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2012.

3. BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual Comparison (Non-GAAP Budgetary Basis) presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and fund financial statements are the following:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).

3. BUDGETARY BASIS OF ACCOUNTING (Continued)

2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance Major Governmental Fund

4. DEPOSITS AND INVESTMENTS

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District Treasury. Active monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies, which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts. Interim monies held by the District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;

4. DEPOSITS AND INVESTMENTS (Continued)

2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the agreement by at least two percent and to be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made through eligible institutions; and
7. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$5,419,424 of the District's bank balance of \$6,377,184 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments

As of June 30, 2012, the District had the following investments:

	Balance at Fair Value	Less than One year
STAR Ohio	\$201,278	\$201,278

4. DEPOSITS AND INVESTMENTS (Continued)

Interest Rate Risk - The District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. State statute limits investments in commercial paper to a maximum maturity of 180 days from the date of purchase. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily.

STAR Ohio carries a rating of AAA by Standard and Poor's. The District has no investment policy dealing with investment credit risk beyond the requirements in state statutes. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy does not address investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk - The District's investment policy places no limit on the amount it may invest in any one issuer, however state statute limits investments in commercial paper and bankers' acceptances to 25 percent of the interim monies available for investment at any one time. The District's investments are limited to STAR Ohio.

5. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the District's fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real and public utility property tax revenues received in calendar year 2012 represent the collection of calendar year 2011 taxes. Real property taxes for 2012 were levied after April 1, 2011, on the assessed values as of January 1, 2011, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax receipts received in calendar year 2012 represent the collection of calendar year 2011 taxes. Public utility real and tangible personal property taxes received in calendar year 2012 became a lien on December 31, 2010 and were levied after April 1, 2011 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Henry and Fulton Counties. The County Auditors periodically advance to the District their portion of the taxes collected. Second-half real property tax payments collected by the Counties by June 30, 2012, are available to finance fiscal year 2012 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

6. INCOME TAX

In 1995, the voters of the Liberty Center Local School District passed a one percent school income tax on wages earned by residents of the District. The taxes are collected by the State Department of Taxation in the same manner as the state income tax. In the fiscal year ending June 30, 2012, the District recorded income tax revenue of \$2,121,315 in the General Fund, of which \$928,305 is recorded as a receivable at June 30, 2012.

In May 2006, the voters approved an additional .75 percent income tax for general operations. The levy was effective January 1, 2007, and is applicable for a continuing period of time.

7. RECEIVABLES

Receivables at June 30, 2012, consisted of property, accounts (rent and student fees), intergovernmental, and accrued interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

	Amount
Governmental Activities	
Title I	\$16,770

9. RISK MANAGEMENT

A. Schools of Ohio Risk Sharing Authority

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Schools of Ohio Risk Sharing Authority, Inc. for insurance coverage. Coverages provided are as follows:

Property Insurance	\$37,748,235
Equipment Breakdown	50,000,000
Automobile Liability	12,000,000
Wrongful Acts	12,000,000
Crime Coverage	100,000
General Liability:	
Per Occurrence	12,000,000
Total per Year	14,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from last year.

B. Employee Insurance Benefits Program

The District participated in the Northern Buckeye Education Council Employee Insurance Benefits Program (the Program), a public entity shared risk pool consisting of school districts within Defiance, Fulton, Henry, and Williams counties and other eligible governmental entities (see Note 16). The District pays monthly premiums for the benefits offered to its employees, which includes health, dental, and life insurance plans. Northern Buckeye Education Council is responsible for the management and operations of the program. The agreement for the Program provides for additional assessments to participants if the premiums are insufficient to pay the program costs for the fiscal year. Upon withdrawal from the Program, a participant is responsible for any claims not processed and paid and any related administrative costs.

9. RISK MANAGEMENT (Continued)

Effective January 1, 2012, the Employee Insurance Benefits Program was removed from Northern Buckeye Education Council (NBEC) and merged with Optimal Health Initiative Consortium (OHI). The new name of the District's local insurance group consortium is Northern Buckeye Health Plan, Northwest Division of OHI. The District pays monthly premiums to OHI for the benefits offered to its employees, which includes health, dental, vision, and life insurance plans. Northern Buckeye Health Plan is responsible for the management and operations of the program.

C. Workers' Compensation Group Program

The District participates in the Northern Buckeye Education Council Workers' Compensation Group Rating Plan (the WCGRP), an insurance purchasing pool (See Note 16). The WCGRP is intended to reduce premiums for the participants. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the WCGRP. Each participant pays its workers' compensation premium to the State based on the rate for the WCGRP rather than its individual rate.

Participation in the WCGRP is limited to educational entities that can meet the selection criteria. Each participant must apply annually. The WCGRP provides the participants with a centralized program for the processing, analysis and management of workers' compensation claims and a risk management program to assist in developing safer work environments. Each participant must pay its premiums, enrollment or other fees, and perform its obligations in accordance with the terms of the agreement.

Effective January 1, 2012 the WCGRP was transferred to Northern Buckeye Health Plan, Northern Division of OHI (NBHP). The NBHP WCGRP is an insurance purchasing pool. The WCGRP is governed by the Northern Buckeye Health Plan and the participating members of the WCGRP. The Executive Director of the NBHP coordinates the management and administration of the program.

10. DEFINED PENSION BENEFIT PLANS

A. State Teachers Retirement System

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level

from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2012, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2011, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011, and 2010 were \$611,912, \$628,767, and \$594,275, respectively; 84 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

B. School Employee Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, by calling (800) 878-5853, or by visiting the SERS website at www.ohsers.org, under Forms and Publications.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2012, the allocation to pension and death benefits is 12.70%. The remaining 1.30% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2012, 2011 and 2010 were \$157,341, \$192,160 and \$120,072, respectively; 70 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Retirement System. As of June 30, 2012, two members of the Board of Education have elected Social Security. The contribution rate is 6.2 percent of wages.

11. POSTEMPLOYMENT BENEFITS

A. School Employee Retirement System

Plan Description – The District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2012, 0.55 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2012, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$6,814, \$41,917, and \$54,591 respectively; 70 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2012, this actuarially required allocation was 0.76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010 was \$9,292, \$11,427 and \$9,907, respectively; 70 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

B. State Teachers Retirement System

Plan Description – The District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$47,070, \$48,367 and \$45,713 respectively; 84 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

12. COMPENSATED ABSENCES

Employees earn vacation at rates specified under State of Ohio law, negotiated agreements, and board policy, and based on credited service. Clerical, Technical, and Maintenance and Operation employees with one or more years of service are entitled to vacation ranging from 10 to 20 days. Employees with less than one year of service earn no vacation. Twelve month Administrative employees are entitled to vacation based on board policy and individual contracts. Certain employees are permitted to carry over vacation leave if approved by the Superintendent.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rata basis for less than full-time employees). This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to one-fourth of the accumulated sick leave to a maximum of 55 days for non-union employees, 55 days for certified and 53 days for classified union employees.

14. SET-ASIDE CALCULATIONS

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. A similar provision related to the purchase of textbooks and other instructional materials was repealed effective July 1, 2011.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

15. JOINTLY GOVERNED ORGANIZATIONS

A. Northwest Ohio Computer Association

The District is a participant in the Northwest Ohio Computer Association (NWOCA). NWOCA is an association of public school districts within the boundaries of Defiance, Fulton, Henry, and Williams counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. NWOCA is governed by the Northern Buckeye Education Council and its participating members. Total fees paid by the District to NWOCA during this fiscal year were \$192,144. Financial information can be obtained from Robin Pfund, who serves as Treasurer, at 209 Nolan Parkway, Archbold, Ohio 43502.

B. Northern Buckeye Education Council

The Northern Buckeye Education Council (NBEC) was established in 1979 to foster cooperation among various educational entities located in Defiance, Fulton, Henry, and Williams counties. NBEC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its member educational entities and bylaws adopted by the representatives of the member educational entities. NBEC is governed by an elected Board consisting of two representatives from each of the four counties in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity. To obtain financial information write to the Northern Buckeye Education Council, Robin Pfund, who serves as Treasurer, at 209 Nolan Parkway, Archbold, Ohio 43502.

C. Four County Career Center

The Four County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of five representatives from the Northwest Ohio Educational Service Center - one each from the counties of Defiance, Fulton, Henry, and Williams and one additional representative; one representative from each of the city school districts; one representative from each of the exempted village school districts. The Four County Career Center possesses its own budgeting and taxing authority. To obtain financial information write to the Four County Career Center, Jennifer Bonner, who serves as Treasurer, at 22-900 State Route 34, Archbold, Ohio 43502.

D. Northwestern Ohio Educational Research Council, Inc.

The Northwestern Ohio Educational Research Council, Inc. (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research,

serve as a repository for research and legislative materials and provide opportunities for training. The NOERC serves a twenty-five county area of Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., P.O. Box 456, Ashland, Ohio 44805.

E. Northern Buckeye Health Plan

The Northern Buckeye Health Plan (NBHP) was established January 1, 2012 to foster cooperation among school districts located in Defiance, Fulton, Henry, and Williams Counties. NBHP is a member of Ohio Health Initiatives (OHI) and provides insurance services to its members. NBHP is governed by an elected Board consisting of two representatives from each of the four counties in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity. To obtain financial information write to the Northern Buckeye Health Plan/OHI, Jenny Jostworth, Treasurer, at 10999 Reed Hartman Highway, Suite 304E, Cincinnati, Ohio 45242.

16. GROUP PURCHASING POOLS

A. Employee Insurance Benefits Program

Northern Buckeye Education Council Employee Insurance Benefits Program (the Pool) is a public entity shared risk pool consisting of educational entities located in Defiance, Fulton, Henry, and Williams counties. The Pool is governed by the Northern Buckeye Education Council and its participating members. Total disbursements made by the District to NBEC for employee insurance benefits during this fiscal year were \$364,055. Financial information can be obtained from Northern Buckeye Education Council, Robin Pfund, at 209 Nolan Parkway, Archbold, Ohio 43502.

Northern Buckeye Health Plan (NBHP) is a joint self-insurance arrangement created pursuant to the authority vested in Ohio Revised Code §9.833 established January 1, 2012 to assume and fulfill all responsibility and functions of the Northern Buckeye Education Council's (NBEC) health insurance activities. NBHP has merged with and into the Optimal Health Initiative Consortium (OHI) as a controlling regional member. NBHP is governed by an elected Board consisting of two representatives from each of the four counties in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity.

16. GROUP PURCHASING POOLS (Continued)

The District contributed a total of \$554,780 to Northern Buckeye Health Plan, Northwest Division of OHI for all employee insurance plans. Financial information for the period January 1, 2012 through June 30, 2012 can be obtained from Jenny Jostworth, Treasurer, at 10999 Reed Hartman Hwy., Suite 304E, Cincinnati, Ohio 45242.

B. Workers' Compensation Group Rating Plan

The District participates in a group-rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Northern Buckeye Education Council Workers' Compensation Group Rating Plan (the WCGRP) was established through the Northern Buckeye Education Council (NBEC) as an insurance purchasing pool. The WCGRP is governed by the Northern Buckeye Education Council and the participating members of the WCGRP. The Executive Director of the NBEC coordinates the management and administration of the program. During this fiscal year, the District paid an enrollment fee of \$1,200 to the WCGRP to cover the costs of administering the program.

Effective January 1, 2012 the WCGRP was transferred to Northern Buckeye Health Plan, Northern Division of OHI (NBHP). The NBHP WCGRP is an insurance purchasing pool. The WCGRP is governed by the Northern Buckeye Health Plan and the participating members of the WCGRP. The Executive Director of the NBHP coordinates the management and administration of the program.

C. Schools of Ohio Risk Sharing Authority

The District participates in the Schools of Ohio Risk Sharing Authority (SORSA), which was established in 2002 pursuant to Articles of Incorporation filed under Chapter 1702 of the Ohio Revised Code - Non-Profit Corporations and functioning under authority granted by Section 2744.081 of the Ohio Revised Code. SORSA's purpose is to provide a joint self-insurance pool and to assist member school districts in preventing and reducing losses and injuries to property and persons, which might result in claims being made against members of SORSA, their employees or officers. The District paid \$58,503 for these services to SORSA in fiscal year 2012.

A nine-person Board of Directors manages the business and affairs of SORSA and is elected annually by the members of the pool. The Board of Directors consists of superintendents, treasurers, or business managers from the participating school districts. SORSA employs an Executive Director and a Member Services Coordinator to administer the pool while claims are processed by Avizent. Financial information can be obtained from SORSA at 8050 North High Street, Suite 160, Columbus, Ohio 43235-6483 or by calling 866-767-7299.

17. RELATED ORGANIZATION

Liberty Center Public Library

The Liberty Center Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Liberty Center Local School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires, and fires personnel, and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Liberty Center Public Library, at 111 East Street, Liberty Center, Ohio 43532-0066.

18. CONTINGENCIES

A. Federal and State Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2012.

B. Student Attendance

The Auditor of State is currently performing a statewide review of supporting documentation for student attendance data reported to the Ohio Department of Education. The results of this review are still pending and will be reported separately to the Ohio Department of Education at a later date.

19. FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports Liberty Center Local School District's (the District's) federal award programs' receipts and expenditures. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the program that benefitted from the use of those donated food commodities.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Liberty Center Local School District
Henry County
P.O. Box 434
Liberty Center, Ohio 43532-0434

To the Board of Education:

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Liberty Center Local School District, Henry County, Ohio (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 4, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Liberty Center Local School District
Henry County
P.O. Box 434
Liberty Center, Ohio 43532-0434

To the Board of Education:

Compliance

We have audited the compliance of Liberty Center Local School District, Henry County, Ohio (the District), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal program. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with these requirements.

In our opinion, Liberty Center Local School District, Henry County, Ohio complied, in all material respects, with the requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2012.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, others within the District, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.
