Chagrin Falls, Ohio 44022

We have reviewed the *Independent Auditor's Report* of the Chagrin Falls Exempted Village School District, Cuyahoga County, prepared by Rea & Associates, Inc., for the audit period July 1, 2018 through June 30, 2019. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Chagrin Falls Exempted Village School District is responsible for compliance with these laws and regulations.

January 29, 2020

Board of Education Members and Residents of the Chagrin Falls Exempted Village School District,

We are pleased to submit to you the Chagrin Falls Exempted Village School District's Comprehensive Annual Financial Report (CAFR). This report provides full disclosure of the financial operation of the School District for the fiscal year ended June 30, 2019. This CAFR includes an audit opinion from the independent accounting firm of Rea and Associates, Inc. and conforms to generally accepted accounting principles as applicable to governmental entities. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A compliments this letter of transmittal and should be read in conjunction with it. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the School District. This report will provide the taxpayers of the Chagrin Falls Exempted Village School District with comprehensive financial data in a format of which will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to the local villages and cities comprising the School District, the Cuyahoga and Geauga County Public Libraries, major taxpayers, financial rating services, and other interested parties.

The School District

The Chagrin Falls Exempted Village School District is located in both Cuyahoga and Geauga counties in northeastern Ohio, approximately thirteen miles east of the City of Cleveland. The School District's territory encompasses the entire territory of Chagrin Falls Township and the Villages of Chagrin Falls, Bentleyville, South Russell, and a portion of the territories of the Village of Moreland Hills and the Townships of Bainbridge and Russell. The School District operates one elementary school (built in 1968 – PreK – grade 3), one intermediate school (built in 1914 – grades 4-6), one middle school (built in 1999 – grades 7-8) and a high school (built in 1960 – grades 9-12). Current enrollment (for the 2018-2019 school year) is 1,821 and is projected to decline slightly over the next ten years.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services authorized by charter and further mandated by State and/or Federal agencies.

The Reporting Entity

The School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement (GASB) No. 14, *The Financial Reporting Entity* as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and 34*. In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Chagrin Falls Exempted Village School District (the primary government) and its potential component units.

The Lake Geauga Computer Association (LGCA) and the Ohio Schools Council are jointly governed organizations whose relationship to the School District is described in Note 14 to the basic financial statements. The School District also participates in the Ohio Schools Council Workers' Compensation Group Retro Plan (GRP), a public entity risk pool that is described in Note 9 to the basic financial statements.

Major Initiatives

Commitment to Improvement

We believe an organization becomes less relevant when improvement stagnates and therefore, the Chagrin Falls Exempted Village Schools is committed to continuous improvement. The School District has a comprehensive strategic plan that addresses many aspects of teaching and learning. This plan serves as a road map for the School District. Our mission is to provide an educational experience empowering students to maximize their potential. We are embarking upon Destination 2023, a strategic planning process which has begun with a large group of stakeholders, including teachers, administrators, parents/guardians, community members, and students. This work will ensure that our district continues to grow and improve in meaningful and relevant ways.

The 2018-19 school year was one of outstanding effort and accomplishment in many areas within our School District. The District increased the ODE State Report Card Performance Indicator (PI) to a 109.2, from 107.1 in 2017-18 and 103.7 in 2016-17.

Chagrin Falls Schools was recognized by the State Board of Education and State Superintendent of Public Instruction Paolo DeMaria for achieving high performance and outstanding progress and momentum for students. This year, Chagrin Falls Schools was one of only four districts in the state to earn the "All A Award" by recording straight A's on the Ohio School Report Card.

Chagrin Falls High School also received the "Overall A Award" for its overall grade of "A." In addition, Chagrin Falls High School received the Momentum Award for exceeding expectations in student growth for the year. This is the fourth year in a row that Chagrin Falls High School received this award.

Gurney Elementary School and Chagrin Falls Intermediate School both received the "Overall A Award" for the second year in a row. Chagrin Falls Middle School also received the "Overall A Award" this year.

Advanced Placement (AP) scores indicate continued growth in terms of student access and achievement. A six-year analysis of the program demonstrates over a 71% increase in the number of exams taken while continuing to increase the passage rate, which again increased from 86.4% in 2018 to 88.8% in 2019.

Significant progress also was made on the construction of Chagrin Falls Intermediate School. Throughout the year, significant construction was completed. The building successfully opened to students and staff in August 2019.

The Chagrin Falls Exempted Village School District continues to be a model for technology use in education. We are entering our sixth year in a 1:1 computing model. All of our students use Chromebooks in the classroom to improve their skills in areas such as collaboration, research, and critical thinking. Our increased access has created an environment in which technology is embedded within daily teaching and learning across our School District, ensuring all our students can embrace it as a safe and productive learning tool.

We continue to provide a well-rounded, rigorous academic program that prepares our students for success. This is made possible through the unwavering support of our community. We are appreciative of the opportunity to work in such a special community that values public education. With the continued support of the community and hard work and dedication of our staff, our School District will continue to provide a personalized education so each student can maximize his or her fullest potential.

Providing Rigorous and Relevant Programming

The Chagrin Falls Exempted Village School District is committed to promoting ongoing growth. Continuing professional development and training for all staff reflects our investment in ongoing learning and improvement. We provide high-quality teaching and learning to enable us to maximize potential and personalize learning for all students. The personalization of learning begins with a holistic education, which yields exposure to music, art, technology, physical education, and world language for all students in grades K-12.

The ongoing collection and analysis of student data ensures we are able to monitor the progress of students throughout each school year and use it to appropriately identify student needs relative to intervention, enrichment, and/or accelerative options. A systemic K-12 Response to Intervention (RTI) program continues to be refined across the School District, ensuring that the varying needs of all students at each level are efficiently and effectively addressed consistently.

Personalized Learning – Providing What Students Need, When They Need It

Intervention/Enrichment periods continue to be offered during the school day across the School District. They are designed to provide identified time for students to benefit from support in content areas and to investigate enrichment opportunities designed to match student interests, while fostering a lifelong love of learning. We are seeking to reframe the idea of intervention, promoting the idea that all students can benefit from the ability to access support during the school day and growing student self-advocacy in working with their teachers.

Refining Programming for Students

Throughout the 2018-19 school year, K-12 Math and Science teachers implemented newly adopted programs and created curriculum maps to reflect work with students across each course and grade level. These maps are now posted to our district website. A K-12 ELA Coach position has been created to support teachers across the School District in meeting the needs of students. As the district embarks upon a year of curriculum review and refinement in both the areas of K-12 English/Language Arts and K-12 Social Studies in the 2019-20 school year, the addition of this role is very timely. The School District also continues to implement and grow double-block secondary level courses to ensure targeted students have the appropriate time to master content. Research indicates that the students enrolled in these courses showed

significant gains via Ohio Department of Education State Testing data. Beginning in the 2017-18 school year, the School District implemented additional ways to meet the needs of advanced and gifted K-3 students in math and English/Language Arts (ELA) via Flexible Grouping in grades K-1 and Cluster-Grouping in grades 2-3. This programming, coupled with the Gifted and Advanced options available to students across grades 4-12, continues to be refined each year to reflect the changing needs and interests of students.

Maximizing the Potential of Students

The curriculum department uses data over periods of time to assist in determining the readiness of our students to move on to higher-level courses. The iReady assessments in Math and Reading continue to be implemented in grades K-8 to monitor student growth throughout the school year and continue to be used in-tandem with programs which provided electronic personalized learning pathways for students, relative to each student's needs. Data from these assessments also continues to be used to inform readiness for student movement in gifted/advanced programming. Data from the PSAT 8/9 for freshmen, PSAT/NMSQT for sophomores, and the SAT for juniors, is also used, especially in identifying those students who may excel in Advanced Placement (AP) courses.

As of 2018-19, Chagrin Falls High School offered an outstanding array of 28 Advanced Placement courses and two College Credit Plus offerings (English Composition I and II courses). We have continued to grow the number of students enrolled in AP courses each year, for the past 6 years, with 228 students in 2014 and 341 students in 2019. While growing enrollment in AP courses by more than 49% in the past 6 years, we have also grown the percent of students scoring a 3 or higher on the AP exams (86% in 2014), hitting a record high of over 88% of AP students enrolled scoring a 3 or higher in 2019.

In 2019, 191 CFHS students qualified for an AP Scholar Award. This is an increase from 2018 when there were 188 and a substantial increase from the 144 in 2017. These awards recognize students who have demonstrated college-level achievement through AP courses and exams. Expansive programming in the fine and performing arts, world languages, technology, and business continues to flourish on the 7-12 campus, reflecting our School District's commitment to providing all students with a truly holistic education.

Enhancing Our Practices to Promote Student Learning

In the 2017-18 school year, the administrative team researched ways to refine our student grading system via a book study of Myron Dueck's *Grading Smarter, Not Harder*. A team of teachers from the high school also participated in a two-day grading workshop with Rick Wormelli, one of the first nationally board certified teachers in America. In the 2018-19 school year, the District Leadership Team engaged in a yearlong book study of Rick Wormelli's *Fair Isn't Always Equal*. In spring 2019, Myron Dueck visited Chagrin Falls Exempted Village School District to speak with all staff, meet with Building Leadership Teams to prioritize future work relative to grading practices, and kick off a systemic book study of *Grading Smarter, Not Harder* which is extending through the 2019-20 school year with all K-12 teachers and administrators within each school. This will position all schools to identify refinements to grading practices to be implemented by the 2020-21 school year.

Facility Master Plan

For many years, Chagrin Falls Board of Education has had an established facilities committee with the goal of developing a capital improvement plan. A great deal of research and planning was done to address the significant needs of the School District's facilities, specifically at the K-6 level. After four years of working with all of our stakeholders, the work came to fruition in May 2017 as our community voted to support a

combined bond and operating issue. This allowed the complete rebuild and renovation of Chagrin Falls Intermediate School, as well as invest in capital improvements throughout the School District in upcoming years.

Chagrin Falls Schools dedicated its newly renovated Intermediate School building on August 17. The construction project combines a renovation of the 1914 original high school, 1940's gymnasium and auditorium with the new construction of a three-story classroom wing. The building design retains and restores the most historic elements of the original school while adding modernized classrooms for students and staff and increased accessibility. This new building is not only a center for education, but also a gathering place for the entire community.

This construction project demonstrates great respect for the history and historical surroundings of the Intermediate School. This school is an important part of downtown Chagrin Falls as it is within walking distance to many shops, restaurants, parks, cultural institutions, homes and neighborhoods, and of course, waterfalls. School families, and the community as a whole, come together as "One Chagrin" to live, work and play in the community they call home.

With the voter-approved operating and bond proceeds we have not only built this outstanding school for present and future generations, but we also completed much-needed repairs at Gurney, the High School and the Middle School. The construction of this building, as well as the road that led us to the ribbon cutting, represents the value this community places on the educating of our children. This space will support innovation, critical thinking and the development of the whole child now and well into the future. In addition, it also has a place for community organizations to flourish and grow. It will create an opportunity for additional music, performing and visual arts shows, as well as other events, all of which will positively impact the local economy.

Innovation Center

Chagrin Falls Exempted Village School District designed and built a new learning space called the Innovation Center in 2016 through the generous donation of many community members and the support of the Chagrin Falls Education Foundation. The Innovation Center creates a flexible learning environment for our students that integrates technology, fosters creativity and encourages them to reach beyond the traditional educational boundaries. The 4,300 square foot Innovation Center is located on the 7-12 Campus and includes three distinct, yet interconnected spaces, including a research center, collaboration classroom and a Maker's Space, or "Fab Lab." These spaces help to bring students' ideas to life with 3D printers, embroidery machines, laser cutters, a heat press, tools and more.

The Innovation Center had a successful year with students involved in several projects:

- Collaboration with English classes to bring the King Arthur Novel to life
- Designing custom projects including mouse traps, game boards, stamps, awards and many more.
- Project Lend-A-Hand

During the 2018-19 school year, the District added a full-time staff member to the Innovation Lab which dramatically increased utilization in the second half of the year.

In the 2019-2020 school year, we are adding Lego Robotics and community events featuring "make and take" personalized gifts.

Recent Facilities Projects

Significant progress has been made in improving the quality and increasing longevity of school district facilities. With the below projects being completed recently:

- Secure Entrance at High School (bond proceeds)
- Secure Entrance at Gurney School (bond proceeds)
- New boiler at High School
- Pavement and Site Circulation at the 7-12 Campus (partially bond proceeds)
- Three new buses under the 3-2-2 Bus Replacement Program
- A new water treatment chlorination system added at Gurney School
- HVAC/AC Added to Gurney Library and adjacent learning spaces
- HVAC/AC Added the High School Art Wing

Future Projects

The 2019-2020 school year will allow the School District to finalize a year-long facilities master planning process that where the district engaged our staff and community to cast vision for our facilities and capital projects across the district.

The master planning process came to a conclusion in November 2019 where the Board of Education examined and approved facilities projects for the next five years and looked out beyond those five years for additional facilities needs to enhance our campuses. Some projects in the Facilities Improvement Plan are new tennis courts on the 7-12 campus in summer 2020, a \$2 million renovation and rebuild of the current bus transportation facility and a \$1 million STEM/Art/Center Wing added to Gurney Elementary School with both projects happening in the next one to five years. Long-term projects such as a major renovation to the Gurney Elementary School and updating of major areas in the high school are all slated to occur in the next six to 10 years as defined in the Facilities Improvement Plan.

Technology and Learning

Professional development will continue to be a significant focus for the School District. BrightsBytes, a system for measuring technology integration at the point of instruction, was implemented in the spring of 2018. The tool determined strengths and gaps in our district's technology use. The data was used to create a professional development schedule designed to address those identified gaps. Chagrin Falls will also be implementing a data warehouse this school year. A data warehouse is a collection of assessments, student scores, and similar information aggregated together in an easy to read format for district personnel. The data warehouse will provide our staff with a platform to see insights, growth, and trends in how our students are performing.

Our School District is preparing for several new technology initiatives for the 2019-20 school year. The majority of our teaching staff have traded in their traditional PC laptops for Chromebooks. The transition to Chromebooks will provide teachers with a reliable, durable device that integrates seamlessly with the G Suite for Education platform we use. Students entering grades 4-7 will receive new Chromebooks additionally as part of our 1:1 refresh project. The Technology department will also be implementing new applications to automate many of the routine tasks involved in running a school district.

From the teaching and learning perspective, our educators will continue to use Google Classroom as their online communication platform. Google Classroom, which at no cost to the School District, is utilized in an ongoing way by teachers to engage students in blended learning experiences, allowing learning and collaboration to occur 24:7 within our district and beyond. The application offers teachers an easy way to post and grade assignments, create classroom announcements, and publish resources for student use.

Students can see all of their classes, announcements, and deadlines through a single dashboard view. Several exciting new Classroom enhancements are being planned for the Fall that will further empower our teachers' use of this system.

Economic Conditions and Outlook

The Chagrin Falls Exempted Village School District area is an affluent residential community encompassing 27.5 square miles. The School District is rich in heritage, while maintaining an "old time" atmosphere with specialty shopping. Approximately 92 percent of the area is residential and 8 percent of the area is business property. According to Ohio Department of Taxation records, the School District's federal average income for tax year 2017 (the most recent year for which this information is available) is \$197,282, the fourth highest in the state among 607 public school districts.

The School District's general area is served by diversified transportation facilities. School District residents have convenient access to four State and United States highways and to two interstate highways. The School District is adjacent to areas served by Conrail and Amtrak, and is served by passenger air service at Cleveland Hopkins International Airport, located in the City of Cleveland within a half-hour's drive of the School District. Public mass transit for the area is provided by the Greater Cleveland Regional Transit Authority.

Within commuting distance are several public and private two-year and four-year colleges and universities, including Case Western Reserve University, Cleveland State University, Cuyahoga Community College, John Carroll University, Kent State University, Ursuline College, Notre Dame College, and the University of Akron, Hiram College and Baldwin Wallace University.

The School District is served by the Chagrin Falls Branch of the Cuyahoga County Library System. Within the School District, there are five municipal parks totaling 8.5 acres. In addition, the South Chagrin Reservation of the Cleveland Metropolitan Park District is located nearby.

The School District's close proximity to the City of Cleveland affords the School District all the cultural, recreational, social and educational opportunities of this metropolitan area. Within the School District itself, a summer recreation center has been operational for decades and a community theater offers entertainment opportunities. Annually on Memorial Day the community gathers for "Blossom Time," a festival including a parade, a race, hot air balloons, a carnival and music concerts.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. As a result, school districts throughout Ohio must place funding issues on the ballot to receive significant revenue growth. Chagrin Falls Exempted Village School District garners excellent levy support from its constituents. Historically, constituents of the School District have approved operating levies that have been submitted to the voters, in advance of the School District experiencing financial shortcomings. An additional 5.5 mill operating levy and 3.4 mill bond issue was most recently approved by voters in May 2017.

Financial Information

Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Reports of the School District's proprietary operations

are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each invoice prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, a permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within three months after the start of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amounts set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the object account level within a function and fund in the general and debt service funds and at the fund level for all other funds. The legal level of control established by the Board of Education is at the fund level for all funds. All purchase order requests must be approved by the building principal and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal has access to monthly reports showing the status of the budget accounts for which they are responsible.

The basis of accounting and the various funds utilized by the School District are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

Financial Condition

The School District has prepared financial statements following GASB Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* since fiscal year 2001. GASB 34 created new basic financial statements for reporting on the School District's financial activities as follows:

Government-wide financial statements - These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements

distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

Fund financial statements - These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons - These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Management Discussion and Analysis of the School District. This discussion provides an assessment of the School District's finances for 2019 and a discussion of current issues that affect the School District's outlook for the future.

Independent Audit

State statutes require the School District to be subjected to an annual audit by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. The independent accounting firm of Rea and Associates, Inc. rendered an opinion on the School District's financial statements for the year ended June 30, 2019. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

Awards

Certificate of Achievement

The Government Finance Office Association of the United States and Canada (GFOA) as well as the Association of School Business Officials International (ASBO) awarded a Certificate of Achievement for Excellence in Financial Reporting to Chagrin Falls Exempted Village School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA and ASBO.

Acknowledgements

The publication of this report significantly increases the accountability of the School District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office, the School District's Audit Committee, and various administrators and employees of the School District. Assistance of the Cuyahoga and Geauga County Auditors' office staffs and other outside agencies made possible the fair presentation of statistical data.

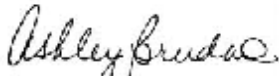

Special appreciation is expressed to Rea & Associates, Inc. for their assistance in planning, designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully,

Mr. Robert W. Hunt

Independent Auditor's Report

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chagrin Falls Exempted Village School District, Cuyahoga County, Ohio, (the "School District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Chagrin Falls Exempted Village School District, Cuyahoga County, Ohio, as of June 30, 2019, and the respective changes in financial position and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis, Schedule of the School District's Proportionate Share of the Net Pension Liability, Schedule of the School District's Contributions - Pension, Schedule of the School District's Proportionate Share of the Net OPEB Liability/(Asset), and Schedule of the School District's Contributions - OPEB* as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The combining and individual fund financial statements and schedules, other supplemental schedules, and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and other supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and other supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2020 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

The discussion and analysis of the Chagrin Falls Exempted Village School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2019 are as follows:

- Net position increased \$8.6 million, which represents a 124% increase from 2018.
- Capital assets increased \$20.9 million during fiscal year 2019.
- During the year, outstanding debt decreased from \$47.3 million to \$43.1 million.

Using this Comprehensive Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Chagrin Falls Exempted Village School District as a whole entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the Chagrin Falls Exempted Village School District, the general fund, bond retirement fund and building fund are the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While the basic financial statements contain the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2019?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid. These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

In the Statement of Net Position and the Statement of Activities, Governmental Activities include the School District's programs and services, including instruction, support services, extracurricular activities, and non-instructional services, i.e., food service operations.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund, bond retirement fund and building fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for some of its scholarship and foundation programs. This activity is presented as a private purpose trust fund. The School District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. These activities are excluded from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Because of the discussion below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows of resources and subtracting deferred outflows of resources related to pension and the net pension liability to the reported net position. Table 1 provides a summary of the School District's net position for 2019 compared to 2018:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2019, and is reported pursuant to GASB Statement 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27*. In a prior period, the School District also adopted GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension/OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. For STRS, the plan's fiduciary net OPEB position was sufficient to cover the plan's total OPEB liability resulting in a net OPEB asset for fiscal year 2019 that is allocated to each school based on its proportionate share. The retirement system is responsible for the administration of the pension and OPEB plans.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019*

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability reported by the retirement boards. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

At fiscal year end, capital assets represented 46 percent of total assets. Capital assets include land, construction in progress, buildings and improvements, furniture and equipment and vehicles. Net investment in capital assets was \$12.4 million at June 30, 2019. These capital assets are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$4 million, represents resources that are subject to external restrictions on how they may be used. The balance of government-wide unrestricted net position is a deficit of \$14.8 million, which is primarily the result of GASB 68 and GASB 75.

Current assets showed a decrease over fiscal year 2018, mainly due to a decrease in cash due to expenditures related to the school building renovations, offset by a small increase in intergovernmental receivable also related to the renovation project. Capital assets increased due to construction in progress from the renovation project.

Current liabilities increased as a result of increases in accounts payable related to the timing of payments for fiscal year 2019 purchases. There was a decrease in other long-term liabilities due to a decrease in long-term debt as a result of principal payments during fiscal year 2019.

There was a significant change in net pension/OPEB liability/asset for the School District. These fluctuations are due to changes in the actuarial liabilities/assets and related accruals that are passed through to the School District's financial statements. All components of pension and OPEB accruals contribute to the fluctuations in deferred outflows/inflows and NPL/NOL/NOA and are described in more detail in their respective notes.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019*

Charges for services decreased primarily due to a decrease in tuition and fees in fiscal year 2019 as a result of changes in vocational programs. Capital grants increased in fiscal year 2019 as a result of receipts from an OFCC grant related to the building renovation project.

Overall, program expenses increased significantly. The changes in program expenses are primarily associated to changes in the School District's proportionate share of the net pension liability, net OPEB liability/asset and related accruals. As previously indicated, these items are explained in detail within their respective notes.

The decrease in support services instructional staff expenses was due to changes in functional reporting of salaries and benefits, also reflected by the corresponding increase in special regular instructions. Operation and maintenance expenses decreased over the prior year due a decrease in expenses related to the modular units being used while the building renovations are being completed. Interest and fiscal charges also decreased during fiscal year 2019 due to a decrease in the debt balance.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

The dependence upon general revenues for governmental activities is apparent. Approximately 87 percent of governmental activities are supported through taxes and other general revenues; such revenues are 89 percent of total governmental revenues. The community, as a whole, is by far the primary support for the School District students.

The total and net cost of services changes were primarily caused by the changes related to NPL/NOL/NOA, as previously discussed.

Governmental Funds

The School District's major funds are accounted for using the modified accrual basis of accounting. The governmental funds reported combined revenues of \$40.7 million and expenditures of \$61 million for fiscal year 2019.

The general fund's net change in fund balance for fiscal year 2019 was an increase of \$0.8 million which can partially be attributed to increased property tax revenue.

The bond retirement fund showed a decrease in fund balance of \$1.0 million over fiscal year 2018. This was primarily due to the payment of debt service in relation to when resources become available.

The building fund showed a decrease in fund balance of \$20.8 million over fiscal year 2018 which is due to the timing of expenditures related to the renovation project.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2019, the School District amended its general fund budget. The School District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

Original Budget Compared to Final Budget

Final budget revenue decreased from the original budget due to a decrease in budgeted property and other local taxes revenue. Final appropriations decreased over the original appropriations to be more in line with actual expenditures.

Final Budget Compared to Actual Results

For the general fund, final budget basis revenue and other financing sources was lower than actual revenues and other financing sources. Increases in intergovernmental revenue, and property tax revenue were mainly due to increases in foundation revenue and an increase in the tax valuation for the School District, respectively.

Final expenditure appropriations and other financing uses were higher than actual expenditures and other financing uses, as cost savings were recognized for instruction and student support services throughout the year.

Capital Assets and Debt Administration

Capital Assets

Table 4 shows fiscal year 2019 balances compared with 2018.

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities	
	2019	2018
Land	\$ 1,386,635	\$ 1,386,635
Construction in Progress	26,625,492	5,115,572
Buildings and Improvements	21,299,615	21,924,469
Furniture and Equipment	377,663	423,827
Vehicles	732,415	675,370
<i>Totals</i>	\$ 50,421,820	\$ 29,525,873

The \$20.9 million increase in capital assets was mainly attributable to construction in progress for the school building renovations. See Note 8 for more information about the capital assets of the School District.

Unamortized Bond Premiums	2,024,234	2,096,528
<i>Total</i>	<u>\$ 43,074,458</u>	<u>\$ 47,252,629</u>

Current Issues

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a levy will not increase solely as a result of inflation due to Ohio House Bill 920 (passed in 1976). As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35 annually in taxes. If three years later the home was reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners), the effective tax rate would become 0.5 mills, and the owner would still pay \$35.

Thus, school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Local property taxes made up roughly 74 percent of revenues for governmental activities for the School District in fiscal year 2019.

The School District continues to be proactive in managing the financial burden on our local taxpayers. An additional 5.5 mill operating levy combined with a 3.4 mill bond issue was approved by the voters in May, 2017. These additional funds have been used to construct and renovate the Chagrin Falls Intermediate School, increase annual funding for capital improvements district-wide, and maintain student programming.

Cuyahoga County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019

From a State funding perspective, the Ohio Supreme Court found the State of Ohio in March 1997 to be operating an unconstitutional education system, one that was neither "adequate" nor "equitable." Since 1997, the State has directed its tax revenue growth toward school districts with little property tax wealth (which is unlike our School District). It is still undetermined whether the State has met the standards of the Ohio Supreme Court. The Governor appointed a Task Force to address the issues raised in the DeRolph Court Case, and recommendations were released in February 2005. The Ohio Legislature continues to review these recommendations and action may be taken in the future.

The School District has not anticipated any meaningful growth in State revenue. The concern is that, to meet the requirements of the Court, the State may require redistribution of State funding based upon each district's property wealth. This could have a significant impact on the School District.

The School District has committed itself to financial excellence for many years. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Financial Reporting every year since 2000 and the Association of School Business Officials International presented the Certificate of Excellence in Financial Reporting Award to the School District for its Comprehensive Annual Financial Report (CAFR) every year since 2014.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Treasurer/CFO of Chagrin Falls Exempted Village School District, 400 E. Washington Street, Chagrin Falls, Ohio 44022.

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2019*

Net Change in Fund Balances - Total Governmental Funds		\$ (20,270,277)
 <i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
 Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital Asset Additions	\$ 22,231,736	
Current Year Depreciation	<u>(1,335,789)</u>	20,895,947
 Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property Taxes	24,432	
Intergovernmental	<u>122,059</u>	146,491
 Repayment of principal and accreted interest on capital appreciation bonds is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
General Obligation Bonds	2,140,000	
Energy Conservation Bonds	64,521	
Capital Appreciation Bonds	320,000	
Accretion on Matured Capital Appreciation Bonds	<u>1,660,000</u>	4,184,521
 Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
Pension	2,497,018	
OPEB	<u>98,462</u>	2,595,480
 Except for amount reported as deferred inflows/outflows, changes in the net pension and OPEB liabilities are reported as pension expense in the statement of activities.		
Pension	(2,832,521)	
OPEB	<u>3,934,915</u>	1,102,394
 In the statement of activities, interest is accrued on outstanding bonds, and bond premium and gain/loss on refunding are amortized over the term of the bonds, whereas in governmental funds, an interest expenditure is reported when bonds are issued.		
Amortization of Premium on Bonds		271,790
 Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated Absences	(84,056)	
Vacations Payable	<u>(5,434)</u>	(89,490)
 Accretion on capital appreciation bonds is an expenditure in the governmental funds, but is allocated as an expense over the life of the bonds in the statement of activities.		
		<u>(278,140)</u>
 <i>Change in Net Position of Governmental Activities</i>		 <u><u>\$ 8,558,716</u></u>

See accompanying notes and accountant's compilation report.

Note 1 - Description of School District

Chagrin Falls Exempted Village School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by the State and federal agencies. Each member is elected to a four year term. The Board of Education controls the School District's four instructional support facilities.

The Chagrin Falls Exempted Village School District is located in both Cuyahoga and Geauga counties in northeastern Ohio. The School District operates one elementary school (pre-school-3), one intermediate school (4-6), one middle school (7-8) and a high school (9-12).

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements of the School District are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, community education and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. The School District has no component units.

The School District participates in two jointly governed organizations and one public entity risk pool. These organizations are the Lake Geauga Computer Association, the Ohio Schools Council, and the Ohio Schools Council Workers' Compensation Group Rating Program. These organizations are presented in Notes 9 and 14 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Following are the most significant of the School District's accounting policies.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limitations. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

General Fund The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund The bond retirement debt service fund is used to account for the accumulation of property tax revenues for, and the payment of, general obligation bonds used for the construction and renovation of facilities.

Building Fund The building capital projects fund accounts for financial resources to be used for the acquisition, construction or improvement of major capital facilities.

The other governmental funds of the School District account for grants and other resources to which the School District is bound to observe constraints imposed upon the use of the resources.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's fiduciary funds are private purpose trust and agency funds. The School District's agency fund accounts for student activities and the private purpose trusts disburse scholarships to students.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is reported using the economic resources measurement focus and is excluded from the governmental activities. All assets and liabilities associated with the operation of this fund are included on the statement of fiduciary net position. The statement of changes in fiduciary net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. Agency funds do not report a measurement focus as they do not report operations.

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and OPEB. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 11 and 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension and, OPEB and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2019, but which were levied to finance fiscal year 2020 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

collected within the available period. For the School District, unavailable revenue may include delinquent property taxes and grants and entitlements. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 11 and 12).

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the statement of activities as an expense with a like amount reported within the “operating grants, contributions and interest” program revenue account.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2019.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Cash and Investments

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the balance sheet.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

During fiscal year 2019, investments were limited to money markets, Freddie Mac, Federal National Mortgage Association, US Treasury Notes and STAR Ohio (the State Treasurer's Investment Pool). Except for nonparticipating investment contracts, investments are reported at fair value.

During the year 2019, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For the fiscal year 2019, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest. Interest revenue credited to the general fund during fiscal year 2019 amounted to \$537,631, which includes \$163,876 assigned from other School District funds.

Investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as "equity in pooled cash and investments." Investments with an original maturity of more than three months that are not made from the pool are reported as "investments."

Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Description	Governmental Activities Estimated Lives
Land	N/A
Construction in Progress	N/A
Buildings and Improvements	10 - 40 Years
Furniture and Equipment	5 - 20 Years
Vehicles	10 - 15 Years

Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, *Accounting for Compensated Absences*. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. These amounts are recorded as "accrued vacation leave payable" in the basic financial statements.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, the liability for unpaid compensated absences is the unused reimbursable leave still outstanding following an employee's resignation or retirement. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pension/OPEB, and pension/OPEB expense; information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, net pension/OPEB liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Net Position

Net position represent the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. At June 30, 2019, there was no net position restricted by enabling legislation.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the School District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education. The Board of Education has, by resolution, authorized the Treasurer to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Implementation of New Accounting Principles

For the fiscal year ended June 30, 2019, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 83, *Certain Asset Retirement Obligations* and GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*.

GASB Statement No. 83 establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations. The implementation of GASB Statement No. 83 did not have an effect on the financial statements of the School District.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

GASB Statement No. 88 establishes additional financial statement note disclosure requirements related to debt obligations of governments, including direct borrowings and direct placements. These changes were incorporated in the School District's fiscal year 2019 financial statements; however, there was no effect on beginning net position/fund balance.

Note 3 - Fund Balance

Fund balance can be classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

	General Fund	Bond Retirement Fund	Building Fund	Other Governmental Funds	Total
Restricted for:					
Debt Service	\$ 0	\$ 4,369,859	\$ 0	\$ 0	\$ 4,369,859
Capital Outlay	0	0	3,963,920	0	3,963,920
Extracurricular	0	0	0	158,863	158,863
Food Service	0	0	0	329,842	329,842
Other Purposes	0	0	0	125,986	125,986

* Unassigned deficit fund balance included \$122,772 in the Title VI-B fund and \$6,500 in the Title II-A fund.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

The deficit in the nonmajor governmental fund resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in this fund and will provide transfers when cash is required, not when accruals occur.

Note 4 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, is presented for the general fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as an assignment, commitment or restriction of fund balance (GAAP).
4. Some funds are included in the general fund (GAAP), but have separate legally adopted budgets (budget).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement on a fund type basis for the general fund.

Net Change in Fund Balance

	General Fund
GAAP Basis	\$ 757,758
Net Adjustment for Revenue Accruals	(1,465,255)
Net Adjustment for Expenditure Accruals	(122,014)
Funds Budgeted Elsewhere **	(97,813)
Adjustment for Encumbrances	(358,721)
Budget Basis	\$ (1,286,045)

** As part of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the public school support fund, the uniform supplies fund and the community education fund.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

Note 5 - Deposits and Investments

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies are to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed 180 and 270 days, respectively, from the purchase date in an amount not to exceed forty percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand - At June 30, 2019 the School District had \$1,000 in undeposited cash on hand, which is included as part of "Equity in Pooled Cash and Investments."

Deposits - At year-end, \$5,465,355 of the School District's bank balance of \$5,965,355 was exposed to custodial credit risk. Although the securities were held by the pledging financial institutions' trust department in the School District's name and all statutory requirements for the investment of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

Custodial Credit Risk: Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District will not be able to recover deposits or collateral securities that are in possession of an outside party.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by:

- Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or
- Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS required the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Investments: As of June 30, 2019, the School District had the following investments:

Rating	Investment	Measurement Amount	Investment Maturities (in years)			% Total Investments
			Less than 1	1 - 3	Over 3	
Net Asset Value (NAV):						
AAAm	STAR Ohio	\$ 19,332,383	\$ 19,332,383	\$ 0	\$ 0	83.12%
AAAm	Fifth Third Banksafe Money Market	19,625	19,625	0	0	0.09%
Fair Value:						
N/A	US Treasury Notes	3,605,139	1,248,642	1,296,936	1,059,561	15.50%
AA+	Federal National Mortgage Association	199,387	199,387	0	0	0.86%
AA+	Freddie Mac	99,593	99,593	0	0	0.43%
Totals		\$ 23,256,127	\$ 20,899,630	\$ 1,296,936	\$ 1,059,561	100.00%

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurements as of June 30, 2019. The School District's investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators and industry and economic events are also monitored which could require the need to acquire further market data (Level 2 inputs).

Interest Rate Risk: The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The School District's policy indicates that the investments must mature within five years, unless matched to a specific obligation or debt of the School District.

Credit Risk: The School District's investments at June 30, 2019 are rated as shown above by S&P Global Ratings. US Treasury Notes are exempt from ratings since they are explicitly guaranteed by a U.S. Government Agency. The School District's policy on Credit Risk allows only for those investments as stated within the Ohio Revised Code.

STAR Ohio is an investment pool operated by the Ohio State Treasurer. It is unclassified since it is not evidenced by securities that exist in physical or book entry form. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of June 30, 2019, is 53 days.

Concentration of Credit Risk: The School District places no limit on the amount the School District may invest in any one issuer. More than 50 percent of the School District's investments are in STAR Ohio as listed above. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Note 6 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2019 represents collections of calendar year 2018 taxes. Real property taxes received in calendar year 2019 were levied after April 1, 2018, on the assessed value listed as of January 1, 2018, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2019 represents collections of calendar year 2018 taxes. Public utility real and tangible personal property taxes received in calendar year 2019 became a lien December 31, 2017, were levied after April 1, 2018 and are collected in 2019 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga and Geauga Counties. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2019, are available to finance fiscal year 2019 operations. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2019, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2019 taxes were collected are:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

	2018 Second Half Collections		2019 First Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$ 525,356,970	99.21%	\$ 550,647,360	99.21%
Public Utility Personal Property	4,157,270	0.79%	4,367,190	0.79%
	\$ 529,514,240	100.00%	\$ 555,014,550	100.00%
Tax rate per \$1,000 assessed valuation	\$ 124.10		\$ 124.10	

Note 7 - Receivables

Receivables at June 30, 2019 consisted of taxes, interfund, and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

Note 8 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2019 was as follows:

	Balance 6/30/18	Additions	Reductions	Balance 6/30/19
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$ 1,386,635	\$ 0	\$ 0	\$ 1,386,635

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Depreciation expense was charged as follows:

<i>Governmental Activities:</i>	
Instruction:	
Regular	\$ 969,169
Special	13,846
Support Services:	
Pupil	14,681
Instructional Staff	47,322
Operation and Maintenance of Plant	169,193
Pupil Transportaion	91,341
Operation of Non-Instructional Services:	
Food Service Operations	20,045
Community Services	3,281
Extracurricular Activities	<u>6,911</u>
 Total Depreciation	 <u><u>\$ 1,335,789</u></u>

Note 9 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The School District insures its buildings and their contents through insurance having a \$10,000 deductible and providing replacement costs for such items. An inventory of all loose equipment is conducted annually.

Appropriate liability insurance is maintained in the amount of \$1,000,000 for each occurrence and \$2,000,000 aggregate. The School District also has an excess policy in the amount of \$5,000,000. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

A bond of \$100,000 is maintained on the Treasurer. Bonds are also provided for the School Board President, and Superintendent in the amount of \$100,000 each.

By State statute, bond is provided by all contractors in amounts sufficient to cover the entire bid amount awarded to the contractor.

Worker's Compensation

The School District participates in the Ohio Schools Council Workers' Compensation Group Retro Plan (GRP), a public entity risk pool. The intent of the GRP is to achieve the benefit of an overall reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

Each participant pays its workers' compensation premium to the state based on their individual experience rate. The Bureau of Workers' Compensation (BWC) will evaluate the total performance of the group annually for three years beginning one year after the end of the program year. If the group performs well, the BWC will issue a refund. If the group has higher claims cost (after the claims and premium are applied to a formula) than the premium paid, the group participants will receive an assessment (for Sheakley groups, that risk is a 10 percent assessment over the 3 years). The School District receives a percentage of that refund relative to the premium contributed to that group. Participation in the GRP is limited to entities that can meet the GRP's selection criteria. The firm of Sheakley UniService provides administrative, cost control and actuarial services to the GRP.

Note 10 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn five to twenty days of vacation per year, depending upon length of service and hours worked. Teachers do not earn vacation time. Administrators employed to work 260 days per year can earn up to twenty-five days of vacation annually. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment.

Teachers, administrators, and non-certified employees earn sick leave at the rate of one and one-fourth days per month. Non-union staff may accumulate sick leave to a maximum of 276 days. Administrative, certified, and non-certified staff may accumulate a maximum of 310 sick days. Upon retirement, OAPSE employees and CFEA employees receive payment for a maximum of 77.5 days.

Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Aetna, in the amount of \$75,000 for all certified and union exempt employees, and all administrators; \$30,000 for non-certified employees; and one times the annual salary for the Superintendent and Treasurer.

The School District provides health insurance coverage through Medical Mutual and is subject to certain deductibles, co-pays, and maximum benefits as outlined in the plan. The plan includes coverage for preventative services and wellness incentives.

Dental coverage is provided through Delta Dental and is also subject to certain deductibles, co-pays and maximum benefits as outlined in the plan. Per negotiated agreement, the premium is paid based on full time equivalency. If an employee is not full time, the School District pays a pro-rated share of the premium for both single and family coverage.

Note 11 - Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a statewide, cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

	Eligible to Retire before August 1, 2017*	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

*Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2019, the allocation to pension, death benefits, and Medicare B was 13.5 percent. SERS allocated 0.5 percent of employer contributions to the Health Care Fund for fiscal year 2019.

The School District’s contractually required contribution to SERS was \$579,031 for fiscal year 2019. Of this amount, \$28,913 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. For the DB Plan, from August 1, 2015–July 1, 2017, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 26 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2017–July 1, 2019, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased in through August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60. Retirement eligibility for reduced benefits will be five years of service credit and age 60, or 30 years of service credit regardless of age.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. Effective July 1, 2017, employer contributions of 9.53 percent are placed in the investment accounts and the remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying one percent of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50 and termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2019, plan members were required to contribute 14 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2019 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$1,917,987 for fiscal year 2019. Of this amount, \$328,364 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. The School District's employer allocation percentage of the net pension liability was based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net Pension Liability:			
Current Measurement Date	0.12500680%	0.11629404%	
Prior Measurement Date	<u>0.12551500%</u>	<u>0.11557738%</u>	
Change in Proportionate Share	<u>-0.00050820%</u>	<u>0.00071666%</u>	
Proportionate Share of the Net			
Pension Liability	\$ 7,159,371	\$ 25,570,448	\$ 32,729,819
Pension Expense	\$ 583,429	\$ 2,249,092	\$ 2,832,521

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the School District's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2019 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between Expected and			
Actual Experience	\$ 392,646	\$ 590,247	\$ 982,893

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2020	\$ 521,342	\$ 2,019,847	\$ 2,541,189
2021	115,905	1,393,726	1,509,631
2022	(234,951)	62,533	(172,418)
2023	(60,837)	(303,772)	(364,609)
	\$ 341,459	\$ 3,172,334	\$ 3,513,793

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2018, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
COLA or Ad Hoc COLA	2.50 percent, on and after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120 percent of male rates

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

and 110 percent of female rates used. The RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years is used for the period after disability retirement.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The asset allocation, as used in the June 30, 2015 five-year experience study, is summarized as follows:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate Total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the School District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
School District's Proportionate Share of the Net Pension Liability	\$ 10,084,514	\$ 7,159,371	\$ 4,706,834

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Actuarial Assumptions - STRS

The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Projected Payroll Growth	3.00 percent
Cost-of-Living Adjustments	0.00 percent

Post-retirement mortality rates are based on RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016; pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the July 1, 2018 valuation, were adopted by the board from the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation*</u>	<u>Long Term Expected Real Rate of Return**</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	<u>1.00</u>	2.25
Total	<u>100.00 %</u>	

*Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumes that employer and member contributions will be made at statutory contribution rates of 14 percent each. For this purpose,

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2018.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability as of June 30, 2018, calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current assumption:

	1% Decrease	Current Discount Rate	1% Increase
School District's Proportionate Share of the Net Pension Liability	\$ 37,342,274	\$ 25,570,448	\$ 15,607,195

Note 12 - Defined Benefit OPEB Plans

Net OPEB Asset/Liability

The net OPEB asset/liability reported on the statement of net position represents an asset or liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB asset/liability represents the School District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB asset/liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the asset/liability is solely that of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees, which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB asset/liability. Resulting adjustments to the net OPEB asset/liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB asset/liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2019, 0.5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2019, this amount was \$21,600. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2019, the School District's surcharge obligation was \$77,016.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$98,462 for fiscal year 2019. Of this amount \$78,087 is reported as an intergovernmental payable.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2019, STRS did not allocate any employer contributions to post-employment health care.

OPEB Assets/Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB asset/liability was measured as of June 30, 2018, and the total OPEB asset/liability used to calculate the net OPEB asset/liability was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB asset/liability was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportion of the Net OPEB Liability/Asset:			
Current Measurement Date	0.12744770%	0.11629404%	
Prior Measurement Date	0.12709080%	0.11557738%	
Change in Proportionate Share	0.00035690%	0.00071666%	
Proportionate Share of the Net			
OPEB Liability/(Asset)	\$ 3,535,743	\$ (1,868,727)	\$ 1,667,016

2023	(7,313)	(436,245)	(443,558)
2024	(7,682)	(419,236)	(426,918)
Thereafter	(3,148)	(387,505)	(390,653)
	<u>\$ (256,647)</u>	<u>\$ (2,697,172)</u>	<u>\$ (2,953,819)</u>

Actuarial Assumptions - SERS

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018. The actuarial assumptions used in the valuation are based on results from the most recent actuarial experience study, which covered the five-year period ending June 30, 2015. The experience study report is dated April 2016. The total OPEB liability used the following assumptions and other inputs:

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate	
Measurement Date	3.62 percent
Prior Measurement Date	3.56 percent
Single Equivalent Interest Rate	
Measurement Date	3.70 percent, net of plan investment expense, including price inflation
Prior Measurement Date	3.63 percent, net of plan investment expense, including price inflation
Health Care Cost Trend Rate	
Medicare	5.375 percent - 4.75 percent
Pre-Medicare	7.25 percent - 4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The long-term expected rate of return on plan factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	<u>100.00 %</u>	

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2018 was 3.70 percent. The discount rate used to measure total OPEB liability prior to June 30, 2018 was 3.63 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 2.00 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2026. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2025 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.62 percent, as of June 30, 2018 (i.e., municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.70 percent) and higher (4.70 percent) than the current discount rate (3.70 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percent lower (6.25 percent decreasing to 5.25 percent) and one percent higher (8.25 percent decreasing to 7.25 percent) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
School District's Proportionate Share of the Net OPEB Liability	\$ 4,290,347	\$ 3,535,743	\$ 2,938,239

	1% Decrease	Current Trend Rate	1% Increase
School District's Proportionate Share of the Net OPEB Liability	\$ 2,852,696	\$ 3,535,743	\$ 4,440,220

Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2018, actuarial valuation are presented below:

Inflation	2.50 percent
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3.00 percent
Health Care Cost Trend Rates	-5.23 percent to 9.62 percent, initial, 4.00 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2018, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation*</u>	<u>Long Term Expected Real Rate of Return**</u>
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	<u>1.00</u>	2.25
Total	<u>100.00 %</u>	

*Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB asset/liability was 7.45 percent as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2018. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total OPEB liability as of June 30, 2018.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset/Liability to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset/liability as of June 30, 2018, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset/liability would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB liability as of June 30, 2018, calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

2011 Series A Energy Conservation Improvement Bonds

On January 24, 2011, the School District issued \$1,342,983 in general obligation bonds for House Bill 264 improvements at an interest rate of 5.75 percent. The bonds mature in December 2025.

2011 Series B-2 Energy Conservation Improvement Bonds

On January 24, 2011, the School District issued \$544,521 in Qualified School Construction Bonds for the purpose of energy conservation improvements to School District buildings.

The Direct Placement Qualified School Construction Bonds were issued as term bonds and are subject to mandatory redemption at an interest rate of 4.85 percent with a final payment to be made on December 1, 2025.

2012 Series 2012 A School Improvement Refunding Bonds

On November 27, 2012, the School District issued \$10,540,000 refunding general obligation bonds. The proceeds of the bonds were used to refund \$10,540,000 of the School District's outstanding School Improvement Refunding Bonds, Series 2005. The bonds were issued for a 10 year period with final maturity at December 1, 2022. At the date of the refunding, \$11,426,599 (including premium and after underwriting fees) was deposited in an irrevocable trust to provide for all future payments on the refunded bonds. At June 30, 2019, \$4,415,000 of the defeased debt is outstanding.

These refunding bonds were issued with a premium of \$1,074,386, which is reported as an increase to bonds payable. The amounts are being amortized to interest expense over the life of the bonds using the straight line method. The issuance costs were reported as an expenditure. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$719,114. The issuance resulted in an economic gain of \$618,466.

This bond issue consists of \$10,315,000 in serial bonds and \$225,000 in capital appreciation bonds. The serial bonds were issued at an interest rate of 1.94 percent. The bonds maturing after December 1, 2018 are subject to early redemption by the School District prior to their stated maturity, in whole or in part, as selected by the School District (in whole multiples of \$5,000) on any date on or after December 1, 2017, at par.

On December 1, 2017, \$2,405,000 in serial bonds were called.

The capital appreciation bond matured on December 1, 2018. This bond was purchased at a substantial discount at the time of issuance. At maturity all compounded interest is paid and the bond holder receives the face value of the bond. As the value of the bond increases, the accretion is reflected as principal liability. The maturity amount of the bond was \$1,475,000.

2012 Series 2012 B School Improvement Refunding Bonds

On November 27, 2012, the School District issued \$8,125,000 refunding general obligation bonds. The proceeds of the bonds were used to refund \$8,125,000 of the School District's outstanding School Improvement Bonds, Series 2005. The bonds were issued for an 18 year period with final maturity at

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

December 1, 2030. At the date of the refunding, \$8,906,587 (including premium and after underwriting fees) was deposited in an irrevocable trust to provide for all future payments on the refunded bonds. At June 30, 2019, \$6,430,000 of the defeased debt is outstanding.

These refunding bonds were issued with a premium of \$947,730, which is reported as an increase to bonds payable. The amounts are being amortized to interest expense over the life of the bonds using the straight line method. The issuance costs were reported as an expenditure. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$1,608,507. The issuance resulted in an economic gain of \$1,138,154.

This bond issue consists of \$7,910,000 in serial bonds and \$215,000 in capital appreciation bonds. The serial bonds were issued at an interest rate of 2.30 percent. The bonds maturing on or after December 1, 2023 are subject to early redemption by the School District prior to their stated maturity, in whole or in part, as selected by the School District (in whole multiples of \$5,000) on any date on or after December 1, 2022, at par.

The capital appreciation bonds consist of one for \$120,000 which matured on December 1, 2017 and one for \$95,000 which matured on December 1, 2018. These bonds were purchased at a substantial discount at the time of issuance. At maturity all compounded interest is paid and the bond holder receives the face value of the bond. As the value of the bond increases, the accretion is reflected as principal liability. The maturity amount of the remaining bond was \$505,000.

2017 School Improvement Bonds

On August 22, 2017 the School District issued \$31,500,000 in School Improvement Bonds for renovations, construction and improvements to the buildings and real estate. The bonds were issued for a 30 year period maturing December 1, 2047. This bond issue consists of \$20,200,000 in serial bonds and \$11,300,000 in term bonds. The serial bonds were issued at interest rates varying from 2.00 to 5.00 percent.

The Bonds maturing on or after December 1, 2027 are subject to prior redemption, by and at the sole option of the School District, in whole or in part as selected by the School District (in whole multiples of \$5,000), on any date on or after June 1, 2027, at a redemption price equal to 100 percent of the principal amount redeemed, plus interest accrued to the redemption date.

The Bonds maturing on December 1, 2042 and December 1, 2047 are subject to mandatory sinking fund redemption at a redemption price equal to 100 percent of the principal amount redeemed, plus interest accrued to the redemption date.

General obligation bonds and energy conservation bonds will be paid from the bond retirement fund. Compensated absences will be paid from the general fund and the food service fund. There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the general fund. For additional information related to the net pension liability and net OPEB liability see Notes 11 and 12.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2019 are as follows:

Fiscal Year Ending June 30,	General Obligation Bonds		Direct Placement		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2020	\$ 3,300,000	\$ 1,391,310	\$ 65,000	\$ 21,704	\$ 3,365,000	\$ 1,413,014

Note 14 - Jointly Governed Organizations

Lake Geauga Computer Association

The Lake Geauga Computer Association (LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS and other applications to its twenty member school districts. Each of the districts supports LGCA based upon a per pupil charge. The executive committee (governing board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the governing board. LGCA's continued existence is not dependent on the School District's continued participation. The School District paid \$174,555 to LGCA during fiscal year 2019. Financial information can be obtained from Lake Geauga Computer Association, 8221 Auburn Road, Concord Township, Ohio 44077.

Ohio Schools Council

The Ohio Schools Council Association (Council) is a jointly governed organization among 198 school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2019, the School District paid \$556 to the Council. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council at 6393 Oak Tree Boulevard, Suite 377, Independence, Ohio, 44131.

The School District participates in the Council's electric purchase program which was implemented during fiscal year 1998 and the natural gas program which was implemented during fiscal year 2000.

Chagrin Falls Exempted Village School District

Cuyahoga County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2019

The electric purchase program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

Energy Acquisition Corp., a non-profit corporation with a self-appointing board, issued \$119,140,000 in debt to repurchase eight years of electricity from Cleveland Electric Illuminating (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates their agreement, they are required to repay the savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corp.

The natural gas program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. The participants make monthly payments based on estimated usage. Each November these estimates are compared to their actual usage for the year and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

Note 15 - Contingencies

Grants

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2019, if applicable, cannot be determined at this time.

Litigation

The School District is not party to any claims or lawsuits that would, in the School District's opinion, have a material effect of the basic financial statements.

School Foundation

School district Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, ODE adjustments for fiscal year 2019 are finalized.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Note 16 - Interfund Transactions

Advances

On June 30, 2019, the School District had the following advances:

Fund	Advance In	Advance Out
General Fund	\$ 0	\$ 91,431
Building Fund	25,000	0
Nonmajor Governmental Funds	66,431	0
Total	\$ 91,431	\$ 91,431

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30, 2019. The outstanding advance is expected to be repaid once the anticipated revenues are received.

Interfund Transfer

	Transfer Out	Transfer In
General Fund	\$ 1,730,008	\$ 0
Building Fund	0	157,634
Nonmajor Governmental Funds	0	1,572,374
Total	\$ 1,730,008	\$ 1,730,008

During the year ended June 30, 2019, the General Fund transferred unrestricted balances to support programs and projects accounted for in other funds.

Note 17 - Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for acquisition and construction of capital improvements. Amounts not spent by year-end, or offset by similarly restricted resources received during the year, must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year end set-aside amounts for capital improvement. Disclosure of this information is required by State statute.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

	Capital Improvement Reserve
Set Aside Restricted Balance June 30, 2018	\$ 0
Current Year Set-Aside Requirement	343,913
Current Year Offsets	(1,538,874)
Total	\$ (1,194,961)
Balance Carried Forward to Fiscal Year 2020	\$ 0
Set Aside Balance June 30, 2019	\$ 0

Although the School District had current year offsets during the fiscal year that reduced the set-aside amount to below zero, this amount may not be used to reduce the set aside requirement for future years. The negative balance is, therefore, not presented as being carried forward to future years.

Note 18 – Commitments

Encumbrances

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At fiscal year end, the School District's commitments for encumbrances in the governmental funds were as follows:

	Amount
General Fund	\$ 340,150
Building Fund	3,733,145
Nonmajor Governmental Funds	847,276
	\$ 4,920,571

Contractual Commitments

The School District had outstanding contractual commitments for renovations and improvements as follows:

	Contractual Commitment	Expended	Balance 6/30/2019
Gilbane Building Company	\$ 27,418,046	\$ 24,438,614	\$ 2,979,432
Osborn Engineering	59,553	25,346	34,207
Western Reserve Developers	108,000	88,905	19,095
Stantec Architecture	1,608,922	1,436,871	172,051
	\$ 29,194,521	\$ 25,989,736	\$ 3,204,785

Based on timing of when contracts are encumbered, the contractual commitment identified above may or may not be included in the outstanding encumbrance commitments previously disclosed in this note.

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2019

Note 1 - Net Pension Liability

Changes in Assumptions - SERS

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

Changes in Benefit Terms - SERS

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

Changes in Assumptions – STRS

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Changes in Benefit Terms - STRS

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

Note 2 - Net OPEB Asset/Liability

Changes in Assumptions – SERS

Amounts reported for fiscal year 2019 incorporate changes in key methods and assumptions used in calculating the total OPEB liability. The Municipal Bond Index Rate increased from 3.56 percent to 3.62

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2019

percent. Single Equivalent Interest Rate, net of plan investment expense, including price inflation, increased from 3.63 percent to 3.70 percent. The health care cost trend assumptions changed as follows:

Pre-Medicare

Fiscal year 2018	7.50 percent initially, decreasing to 4.00 percent
Fiscal year 2019	7.25 percent initially, decreasing to 4.75 percent

Medicare

Fiscal year 2018	5.50 percent initially, decreasing to 5.00 percent
Fiscal year 2019	5.375 percent initially, decreasing to 4.75 percent

Amounts reported for fiscal year 2018 incorporate changes in key methods and assumptions used in calculating the total OPEB liability. The Municipal Bond Index Rate increased from 2.92 percent to 3.56 percent. Single Equivalent Interest Rate, net of plan investment expense, including price inflation, increased from 2.98 percent to 3.63 percent.

Changes in Benefit Terms - SERS

There have been no changes to the benefit provisions.

Changes in Assumptions – STRS

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45 percent. Valuation year per capita health care costs were updated. Health care cost trend rates ranged from 6.00 percent to 11 percent initially and a 4.50 percent ultimate rate for fiscal year 2018 and changed for fiscal year 2019 to a range of -5.20 percent to 9.60 percent, initially and a 4.00 ultimate rate.

For fiscal year 2018, the blended discount rate was increased from 3.26 percent to 4.13 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Changes in Benefit Terms – STRS

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. This was subsequently extended, see above paragraph.

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. With the implementation of GASB No. 54, the public school support, uniform school supplies and community education special revenue funds have been classified with the general fund for GAAP reporting purposes. However, these funds have their own legally adopted budgets. As a result, an Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual have been presented for these funds. The title of each special revenue fund is descriptive of the activities accounted for therein. The special revenue funds are:

Miscellaneous Grants Fund – This fund accounts for specific grant monies, except for State and Federal grants that are legally restricted to expenditures for specified purposes.

Athletic/District Managed Fund – This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the School District’s athletic program and transportation of the band to and from athletic events.

Auxiliary Services Fund – This fund accounts for funds which provide services and materials to pupils attending non-public schools within the School District.

Data Communications Fund – This fund accounts for monies appropriated for Ohio Educational Computer Network Connections.

Miscellaneous State Grants Fund – This fund accounts for State monies to be used to implement early literacy and reading interventions to improve and enhance reading development and prepare them to read at grade level by the end of grade 3.

Title VI-B Fund – This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title III Fund – This fund accounts for monies to develop and carry out elementary and secondary school programs including activities to meet the needs of children with limited English proficiency.

Title I Fund – This fund accounts for Federal monies which support the State and Local agencies to meet the special needs of educationally deprived children.

Preschool Handicapped Fund – This fund accounts for improvement and expansion of services for handicapped children ages three through five.

Title II-A Fund – This fund is used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Chagrin Falls Exempted Village School District

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds (continued)

Miscellaneous Federal Grants Fund – This fund is used to account for monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere.

Food Service Fund – This fund accounts for financial activity related to the food service operations of the School District.

Public School Support Fund – This fund accounts for school site sales revenue and expenditures for field trips, assemblies and other activity costs.

Uniform School Supplies Fund – This fund accounts for financial activity related to the purchase and sale of school supplies as adopted by the Board of Education for use within the School District.

Community Education Fund – This fund accounts for financial activity in connection with adult education classes.

Nonmajor Capital Project Fund

Capital projects funds account for the acquisition, construction or improvement of capital facilities other than those financed by proprietary funds.

Permanent Improvement Fund - The permanent improvement capital projects fund accounts for all transactions related to the acquiring, constructing or improving facilities.

Supplemental Schedules
Entity-Wide Accrual Statements
Reporting with GASB 68 and GASB 75
and without GASB 68 and GASB 75

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Supplemental Schedule - Background
For the Fiscal Year Ended June 30, 2019

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2019, and is reported pursuant to GASB Statement 68, *Accounting and Financial Reporting for Pensions— an Amendment of GASB Statement 27*. In a prior period, the School District also adopted GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District’s actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan’s net pension/OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio’s statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB asset/liability to equal the School District’s proportionate share of each plan’s collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees’ past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these assets/liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer’s promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. For STRS, the plan’s fiduciary net OPEB position was sufficient to cover the plan’s total OPEB liability resulting in a net OPEB asset for fiscal year 2019 that is allocated to each school based on its proportionate share. The retirement system is responsible for the administration of the pension and OPEB plans.

Chagrin Falls Exempted Village School District
Cuyahoga County, Ohio
Supplemental Schedule - Background
For the Fiscal Year Ended June 30, 2019

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability reported by the retirement boards. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB asset/liability, respectively, not accounted for as deferred inflows/outflows.

The following schedules are summarized accrual basis financial statements for the fiscal year ending June 30, 2019, that report the financial statements including the impact of GASB 68 and GASB 75 and excluding the impact of GASB 68 and GASB 75.

**STATISTICAL
SECTION**

Statistical Section

This part of the Chagrin Falls Exempted Village School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	S-2 - S-13
Revenue Capacity These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.	S-14 - S-19
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S-20 - S-24
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place.	S-25 - S-27
Operating Information These schedules contain service data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S-28 - S-39

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

NOTE:

With the implementation of GASB No. 54 in fiscal year 2010, previously reported enterprise funds (business-type activities) have been recorded as governmental funds (governmental activities). Previous year's statistical tables have not been updated to reflect the impact this would have in previous years. Amounts are not deemed significant to impact the users of this Section. There have also been other minor reclassifications of funds (example special revenue funds consolidated with the general fund for GAAP purposes) with the implementation of GASB No. 54. Prior year amounts also have not been adjusted to reflect this change.

With the implementation of GASB No. 68 in fiscal year 2015, the calculation of pension expense has changed, however, government-wide expenses for 2014 and prior fiscal years were not restated to reflect this change.

With the implementation of GASB No. 75 in fiscal year 2018, the calculation of OPEB expense has changed, however, government-wide expenses for 2017 and prior fiscal years were not restated to reflect this change.

(1) Certain foundation payments for special education and transportation were reclassified to program revenue from general revenue in fiscal year 2015. For comparability purposes, fiscal year 2014 was updated but no years prior to fiscal year 2014 reflect this change.

Net position has fluctuated substantially since the implementation of GASB 68 and GASB 75. All components of pension and OPEB accruals contribute to these fluctuations. See Notes 11 and 12 for details.

Source: Cuyahoga and Geauga County Auditors.

Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditors.

(1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Intergovernmental Revenue.

(2) Represents collection year. 2019 information cannot be presented because all collections have not been made by June 30.

Note: Cuyahoga and Geauga County collect property taxes on a calendar year basis, therefore, the above data has been presented on a calendar year basis. The counties do not identify delinquent collections by the year for which the tax was levied. Thus the "total collection" represents the total collections for the year instead of total collections of a particular tax year. As a result, "Percent of total tax collections to total levy" can exceed 100% in any particular year. The School District will continue to work with the County to try to obtain this information.

(1) Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt.
All School District debt subject to the limitation is voted.

(2) Effective fiscal year 2012, the change due to HB530 was implemented using assessed valuation utilized in the legal debt margin calculation to exclude tangible personal property as well as railroad and telephone tangible property.

(3) Due to implementation of GASB 88, Series B-2 Energy Conservation Bonds were reclassified as a Direct Placement Bond.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Chagrin Falls Exempted Village School District, Cuyahoga County, Ohio (the "School District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated January 29, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
