

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended December 31, 2019

88 East Broad Street Columbus, Ohio 43215 IPAReport@ohioauditor.gov (800) 282-0370

Members of Council City of Findlay 318 Dorney Plaza Findlay, Ohio 45840

We have reviewed the *Independent Auditor's Report* of the City of Findlay, Hancock County, prepared by Julian & Grube, Inc., for the audit period January 1, 2019 through December 31, 2019. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Findlay is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

July 6, 2020

To the Residents of Findlay, Ohio:

The Comprehensive Annual Financial Report (CAFR) of the City of Findlay (the "City"), Ohio, as of and for the fiscal year ended December 31, 2019, is submitted herewith. The report has been prepared for the citizens of Findlay, the elected officials, bondholders, the investment community, rating agencies, and all persons interested in the financial affairs of the City. This report includes the City's implementation of accounting principles generally accepted in the United States of America (GAAP) set forth by the Governmental Accounting Standards Board (GASB).

Responsibility for both the accuracy of the presented data and the thoroughness of the presentation rests with the City. We believe the data to be accurate in all material respects and to be presented in a manner designed to disclose the financial position of the City and the operating results of its various funds.

The City's financial records are maintained and reported according to GAAP. All City operations are categorized and reported by fund. Our internal accounting controls are designed to provide reasonable assurance for the safeguard of assets against loss from unauthorized use or disposition, and reliable records as the basis for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of controls should not exceed the benefits likely to be derived from the operation of the system. The City monitors its internal controls and accounting procedures and these controls and procedures are evaluated during each official annual audit of the City's financial statements. The financial accounting system, including payroll processing, is fully computerized. The automated system used in conjunction with a series of manual controls and approvals provide an effective monitoring procedure.

The firm of Julian & Grube, Inc., has audited the basic financial statements of the City, and the Auditor's Report is included herein. In addition to the financial audit, a single audit was performed as required by the Single Audit Act Amendment of 1996 and the provisions of Uniform Guidance, *Audits of States, Local Governments, and Non-Profit Organizations*. The single audit report is not included in this Comprehensive Annual Financial Report.

As a part of the City's independent audit, tests are made to determine the adequacy of the internal controls, including that portion related to federal financial assistance programs, as well as to determine that the City has complied with applicable laws and regulations. The results of the City's independent audit for the year ended December 31, 2019 provided no instances of material weaknesses in the internal controls or significant violations of applicable laws and regulations.

This transmittal letter is designed to provide historical information about the City, as well as complement the required Management's Discussion and Analysis (MD&A). GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. The City's MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE CITY

Findlay, Ohio was incorporated in 1838 and is located in the northwestern part of the State of Ohio, and is the county seat and largest city in Hancock County. Findlay is a statutory city that is organized and operates under the statutes as set forth by the Ohio Revised Code; this provides for several elected officials including a Mayor, Council Members, a City Auditor, a Director of Law, and a part-time City Treasurer. All officials are elected to four-year terms except the members of Council who serve for a period of two years. There is a President of Council and ten council persons, three of whom are elected at-large and seven by the respective wards. The Service Director, Safety Director, Human Resource Director and City Engineer are appointed by the Mayor.

The City provides police and fire protection, engineering and zoning, street construction and maintenance, parks and recreation facilities, a Municipal Court, a cemetery, and general government services. The City also operates several enterprise activities including water treatment and distribution, water pollution control, parking enforcement, and airport maintenance and fuel sales. It is significant that private enterprises provide trash removal and ambulance services. The City's financial statements include all funds, agencies, boards, commissions, and departments for which the City is financially accountable. The City has no component units.

Findlay Municipal Court operates under two elected municipal judges. The jurisdiction of the Court includes the City of Findlay and all of Hancock County except Washington Township and three precincts of a ward within the City of Fostoria, all of which are serviced by the Fostoria Municipal Court. The City's general fund provides the funding for the court, with reimbursement from the County for a percentage of certain administrative costs. The court costs and fines collected through the court are distributed to the various political jurisdictions based on the charges filed in the court. As Findlay Municipal Court is financially interdependent on the City, the activity of the Court has been reflected in a custodial fund in the accompanying financial statements, but its operational costs are reflected in the general fund.

The annual budget serves as the foundation of the City's financial planning and control. Statutorily, a budget must be completed by end of first quarter and Findlay started its 2020 fiscal year with a permanent budget. Departmental budgets are prepared by the individual supervisors, approved by the Service and Safety Directors, and then submitted to Council members for final review. The legal level of budgetary control is at the departmental level within each fund. Within each departmental budget, the legal level is further broken down to objects "personal services" and "other". All changes in departmental appropriations or changes between the "personal services" and "other" objects within a department require action by the City Council. See Note 2.F to the basic financial statements for further discussion on the City's budgetary process.

ECONOMIC CONDITION AND OUTLOOK

Local Economy

Since the 1980's our community leaders have focused development efforts on diversification. They felt the City's economy should not be dependent on one industry or employment sector. This diversification was a key factor in preventing a much larger down turn in the recent recession, as experienced in other parts of Northwest Ohio. The financial health of the City is dependent on the vibrancy and economic growth of our tax base. The County Unemployment peaked in 2009 at 10.3% and began a steady decline ending 2018 at a 3.2% average, one of the lowest in the State.

Economic development is a key focus for growth of the City. The community expects to continue benefiting tremendously from the Marathon Petroleum Corporation being headquartered in Findlay. It ranked 31 overall by Fortune 500 in 2019. Marathon has added several hundred new, well-paid executive-level positions and has expanded its footprint with a \$90+ million investment that includes a headquarters building, administrative building, two parking garages and a new hotel. The expansion was completed in 2018 when the company acquired Andeavor and has become the largest oil refiner in the United States. Findlay has Tall Timbers Industrial Park which was expanded significantly over the last few years. The expansion includes investment in roads, water and sewer in the 300-acre site. The local large industries are either growing or stable. Approximately 90% of new jobs come from existing companies. The City has benefited significantly in recent years from growth in some of the area's largest employers. Findlay has been nationally recognized for its growth. In 2019, the City had 50,000 square foot of new construction, 28 major projects and a capital investment of \$236,796,000. Job creation in the City totaled approximately 1,170 jobs in 2019.

The real estate market and the affiliated businesses had a continued impact on the economy and real estate values showed solid increases from 2018 to 2019 which as been reflected in our real estate assessment that is done by the County Auditor every 3rd year. In 2019, the City issued 22 permits for new business/commercial construction and additions totaling over \$15,000,000. The City issued 50 permits for new single-family and multi-family residential construction totaling over \$8,600,000.

The community is collaborating to address the challenges in finding and keeping workers. Raise the Bar Hancock County, a 501(c) (3) nonprofit organization, is a partnership of education, business, social services and community leaders focused on aligning and integrating the Hancock County Ohio community learning system with economic growth and a high quality of life. One of the immediate goals of this organization is to fill job vacancies that exist today and in the near future. Funding for the workforce development organization is coming from several sources including: The Hancock County Commissioners, the Findlay-Hancock County Community Foundation, Findlay-Hancock Economic Development, United Way of Hancock County and the City of Findlay. Each of these entities has committed \$30,000 per year, for five years beginning in 2016.

The City continues to receive positive reviews. For the 20th consecutive year Findlay, Ohio was ranked as one of the best micropolitan communities in the U.S. for new and expanding facilities by *Site Selection* magazine. In years 2014 - 2019 the City remained in the top 10 with a rank of 1st and best. Blanchard Valley Hospital has been named one of the 100 top hospitals in the nation six times by IBM Watson Health and five times by Becker's Hospital Review. Additionally, the City benefits from The Community Foundation, with assets of approximately \$120 million, about 40% of which is unrestricted. This Foundation annually provides over \$4 million in grants to the benefit of the local community. The Foundation has become a valuable alternative funding resource for community programs and organizations which address problems to be solved or opportunities to be seized in the local area.

Relevant Financial Policies

The City has maintained its \$1 million Rainy Day Account and maintains an amount in excess of its approximate \$5.0 million minimum unappropriated general fund balance in compliance with its policy. In 2020, the minimum unappropriated balance policy is \$5.0 million or 16.7% of its appropriated general fund expenditures. Additionally, the City has been able to maintain debt limits in line with its Debt Policy adopted in 2008. Income tax growth has been steady, or income tax receipts, the 5-year average growth of the 1% income tax is 4.2%. Although the COVID-19 related drop in revenues has had an impact, at this point in time the City is in a position to weather the current projected reductions and maintain its policy balances.

Long-Term Financial Planning

The City's culture has always been one of conservative financial choices, trying to use debt sparingly. This preference for using cash for capital equipment needs as well as yearly road maintenance, park improvements, traffic signal construction, and so on, has given the City a great deal of financial flexibility. We will continue this approach of using cash as much as possible for our capital investments.

Planning and implementation were important in making the final transition to our historic tax revenue base after the Great Recession. Planning has become a key part of managing our departments and the services they provide to the residents of the City. The City's five-year capital improvement plan is annually updated with new projects and equipment. This capital plan enables the City to make choices based on broad, long-term needs. This expenditure planning tool ensures City Council is aware our debt service commitments come first and foremost. Additionally, the City has developed a 2-year budget for 2020 and 2021 and has begun the process of developing a five-year operations forecast for the general fund. Long term planning has become a standard component of the budget process and City Council has added a Strategic Planning Committee to further these planning initiatives.

Major Initiatives

The City is divided by the Blanchard River and is located on the south edge of what use to be the Great Black Swamp. In the past decade, the City has experienced several top ten historical flood events. The community understands the need to address this issue for continued economic growth. The Hancock County Commissioners have taken a lead role and are working closely with the City to lobby for financial support at the State and Federal levels.

On April 3, 2017, Stantec, the engineering firm hired by the Hancock County Commissioners to propose designs of the county's flood control project, released their final report. The first of several proposals was presented May 5, 2017 to the Maumee Watershed Conservancy District who will make recommendations to the Maumee Watershed Conservancy Court. The district has made significant progress on river bank benching work to improve the river channel in Findlay at a cost of approximately \$20,000,000. To date the project is significantly under budget and scheduled for completion in 2020.

The Hancock County Sales tax raised about \$3 million per year over ten years. The tax sunset in 2019. The unappropriated balance of the County's Capital Projects flood mitigation fund is \$13.1 million as of April 30, 2020. The majority of these funds are going to be spent on a river benching (widening) project for the Blanchard River inside of the Findlay city limits to increase flow capacity where the river narrows.

The local approach for economic development resulted in an updated organization and reinvigorated efforts to obtain new investment to increase our local base of businesses. The Alliance of the City and Hancock County has become the lead entity and oversees the local Chamber of Commerce, Economic Development, and a Convention and Visitor's Bureau. The City and Hancock County hold voting seats on the board of directors of this group. The economic success of the local area has left limited existing facilities for a potential manufacturing or industrial occupant. A major objective of this group is the completion of a new 300-acre industrial park and local funds have been committed and infrastructure is being put into place which moved this initiative forward in 2016. McLane Company was the first occupant of this new site.

In 2014, the City began to see results from passing a City-wide Community Reinvestment Area (the "CRA"). It essentially credits what would have been increases in real property taxes due to improvements for an opportunity to increase employment due to job creation surrounding new business development, with the City benefiting from increased income tax receipts. Additionally, the CRA allows the City to negotiate for a portion of the real property tax savings to be paid back to the City for specific infrastructure improvements. The CRA is seen as a critical component of the City's economic development toolbox.

AWARDS & ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Findlay for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2018. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such a CAFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The staff of the Auditor's Office is a very talented, knowledgeable group; thank you to Amy Baird, Carolyn Chase, Brock Weber, and Ginger Sampson for their accurate and diligent work during 2019, which created the foundation for these financial reports. Ginger Sampson's knowledge and dedication have been instrumental in issuing this report. I would also like to thank our consultants, Julian & Grube, Inc. for their efforts in the development of this CAFR.

Respectfully submitted,

In Standal II

Independent Auditor's Report

City of Findlay Hancock County 318 Dorney Plaza, Room 313 Findlay, Ohio 45840

To the Members of Council and Management:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Findlay, Hancock County, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City of Findlay's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City of Findlay's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City of Findlay's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Findlay, Hancock County, Ohio, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General fund and Street Maintenance and Repair Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

City of Findlay Hancock County Independent Auditor's Report Page 2

Emphasis of Matters

As discussed in Note 3 to the financial statements, during 2019 the City of Findlay adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. We did not modify our opinion regarding these matters. It was also discussed in Note 17, the financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of the City of Findlay.

Other Matters

Report on Summarized Comparative Information

We have previously audited the City of Findlay's 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated June 14, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2018 is consistent, in all material aspects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis* and schedules of net pension and other post-employment benefit assets and liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City of Findlay's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

City of Findlay Hancock County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 6, 2020, on our consideration of the City of Findlay's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Findlay's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

The management's discussion and analysis (MD&A) of the City of Findlay's (the "City") financial performance provides an overall review of the City's financial activities for the year ended December 31, 2019. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2019 are as follows:

- The total net position of the City increased \$18,835,907 over the prior year. Net position of governmental activities increased \$18,670,356 or 26.75% from 2018's net position and net position of business-type activities increased \$165,551 or 0.10% over 2018's net position.
- ➤ General revenues accounted for \$33,041,994 or 78.73% of total governmental activities revenue. Program specific revenues accounted for \$8,928,375 or 21.27% of total governmental activities revenue.
- ➤ The City had \$22,808,622 in expenses related to governmental activities; \$8,928,375 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes, income taxes, and unrestricted grants and entitlements) of \$33,041,994 were sufficient to cover the remaining expenses of the governmental activities.
- The general fund had revenues of \$35,941,215 in 2019. This represents a 1.23% increase from 2018. Transfers-in amounted to \$739,125. The expenditures of the general fund, which totaled \$28,798,718 in 2019, decreased \$1,616,870 from 2018. The City had transfers out to other funds of \$5,544,220. The net increase in fund balance for the general fund was \$2,339,090 or 10.32%.
- The street maintenance and repair fund had revenues and other financing sources of \$6,964,589 in 2019. This represents an increase of \$111,864 from 2018 revenues and other financing sources. The expenditures and other financing uses of the street maintenance and repair fund, totaled \$7,032,599 in 2019 which was an increase of \$290,454 from 2018. The net decrease in fund balance for the street maintenance and repair fund was \$68,646 or 2.35%.
- Net position for the business-type activities which are made up of the Water, Water Pollution Control, Airport, Parking Facilities, and Swimming Pool operations, increased in 2019 by \$165,551. This increase in net position was due primarily to adequate charges for services revenue to cover operating expenses coupled with the receipt of \$491,391 in transfers in from other funds during the year.

Using this Comprehensive Annual Financial Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the City as a whole, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Reporting the City as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2019?" The statement of net position and the statement of activities answer this question. These statements include all assets & deferred outflows of resources and liabilities & deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. The accrual basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is actually received or paid.

These two statements report the City's net position and changes in this position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required community programs and other factors.

In the statement of net position and the statement of activities, the City is divided into two distinct kinds of activities:

<u>Governmental activities</u> - Most of the City's programs and services are reported here including police, fire, street maintenance, parks and recreation, capital improvements and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.

<u>Business-type activities</u> - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's water, water pollution control, airport, parking facilities, and swimming pool operations are reported here.

The City's Statement of Net Position and Statement of Activities can be found on pages 39-41 of this report.

Reporting the City's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The analysis of the City's major governmental and proprietary funds begins on page 26.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. The City has segregated these funds into major funds and nonmajor funds. The City's major governmental funds are the general fund and street maintenance and repair fund. Information for major funds is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 42-50 of this report.

Proprietary Funds

The City maintains two different types of proprietary funds: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, water pollution control, airport, parking facilities, and swimming pool functions. The water, water pollution control and airport funds are considered major funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The basic proprietary fund financial statements can be found on pages 52-59 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Private-purpose trust and custodial funds are the City's fiduciary fund types. The basic fiduciary fund financial statements can be found on pages 60-61 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 63-128 of this report.

Required Supplementary Information (RSI)

The RSI contains information regarding the City's proportionate share of the Ohio Public Employees Retirement System's (OPERS) and Ohio Police and Fire Retirement System (OP&F) net pension liability/net pension asset and net OPEB liability and the City's schedule of contributions to OPERS and OP&F. The RSI can be found on pages 130-144 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Government-Wide Financial Analysis

The table below provides a summary of the City's net position at December 31, 2019 and 2018.

Net Position

| | Governmental Activities 2019 | Governmental Business-type Activities Activities 2018 2019 | | Business-type Activities 2018 | 2019 Total | 2018 Total |

Net Pension Liability/Asset and Net OPEB Liability

The net pension liability/asset is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "<u>Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27.</u>" The net other postemployment benefits (OPEB) liability is reported pursuant to GASB Statement 75, "<u>Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.</u>" For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net pension asset.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Governmental Accounting Standards Board (GASB) standards are national and apply to all government financial reports prepared in accordance with accounting principles generally accepted in the United States of America. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability/asset or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability/asset and the net OPEB liability to equal the City's proportionate share of each plan's collective:

- Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability/asset and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Analysis of Net Position

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2019, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$249,160,566. At year-end, net position was \$88,477,080 and \$160,683,486 for the governmental activities and the business-type activities, respectively.

Current and other assets of the governmental activities increased 9.99% from 2018 due to increases in income tax receivable and equity in pooled cash and investments due to current year operations. Current and other assets of the business-type activities decreased due to a decrease in equity in pooled cash and investments as a result of operations. Capital assets, net increased as the City completed construction projects and continued various projects including a City fiber loop installation. Construction in progress for the governmental activities decreased \$6,911,211 (net of disposals) during 2019.

Capital assets reported on the government-wide statements represent the largest portion of the City's net position. At year-end, capital assets represented 76.21% of total assets. Capital assets include land, computer software, buildings and improvements, improvements other than buildings, machinery and equipment, utility plant in service, utility lines in service, construction in progress and infrastructure. The net investment in capital assets at December 31, 2019, was \$92,749,374 and \$142,877,493 in the governmental activities and business-type activities, respectively. These capital assets are used to provide services to citizens and are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets are not used to liquidate these liabilities.

As of December 31, 2019, the City was able to report positive balances in all three categories of net position, for its business-type activities. For governmental activities, the City reported a deficit balance in unrestricted net position. The deficit balance resulted primarily from an increase in the City's net pension liability. In addition, the City invested in capital assets and expensed monies on construction projects. These capital costs increased the net position category net investment in capital assets rather than unrestricted net position.

A portion of the City's net position, \$15,870,414, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position is a deficit balance of \$2,336,715.

Deferred outflows related to pension increased primarily due to a change in projected and actual pension plan investments.

Total long-term liabilities decreased from the prior year. The City's net OPEB liability decreased due to OP&F replacing its retiree health care model and current self-funded health care plan with a stipend-based health care model. As a result, the City's proportionate share of the OP&F OPEB liability decreased substantially. The City made it's required principal payments on its outstanding debt, further reducing long-term liabilities. A majority of the bond and loan principal payments were made from the business-type activities.

Deferred inflows decreased \$3,705,604 from 2018 and relate to the City's pension and OPEB obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

The table below shows the changes in net position for fiscal year 2019 and 2018.

Change in Net Position

| | Governmental Activities 2019 | Governmental Activities 2018 | Business-type Activities 2019 | Business-type Activities 2018 | 2019 Total | 2018 Total |

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Governmental Activities

Governmental activities net position increased \$18,670,356 in 2019 as the revenues, which increased 2.99% from 2018, were sufficient to cover the expenses, which decreased 41.51% from 2018 as a result of a decrease in the net OPEB liability related to OP&F.

The City's income tax revenue increased \$1,945,734, or 7.90%, from 2018 due to increased collections.

The City's total governmental activities expenses decreased \$16,188,850, or 41.51%, from 2018. Security of persons and property, which primarily supports the operations of the police and fire departments accounted for \$753,729 of the total expenses of the City. These expenses were partially funded by \$256,195 in direct charges to users of the services. Security of persons and property expense decreased \$18,602,985 or 96.11% as a result of a decrease in OPEB expense related to the OP&F. Beginning January 1, 2019, OP&F replaced its retiree health care model and current self-insured health care plan with a stipend-based health care model. As a result of the change in OPEB models, OP&F reported a significant decrease in OPEB expense. The City reports its proportionate share of OP&F OPEB expense. As a result, the City's OPEB expense for OP&F for 2019 was (\$18,575,965), a decrease of \$20,772,528 from the City's 2018 OPEB expense.

General government expenses totaled \$10,419,459. General government expenses were partially funded by \$3,013,696 in direct charges to users of the services. General government expenses increased \$480,602, or 4.84%, from 2018.

Transportation expenses relate to road maintenance and construction. Transportation expenses increased \$512,877 from 2018 to 2019.

Operating grants and contributions, consisting of state and federal government contributions, totaled \$3,590,221 for 2019. This represents an increase of \$465,223, or 14.89%. These operating grants and contributions consist primarily of restricted federal and state grant revenues, property tax rollbacks, fuel taxes and motor vehicle license fees. These revenues are restricted to a particular program or purpose. Of the total operating grants and contributions, \$3,117,354 subsidized transportation programs.

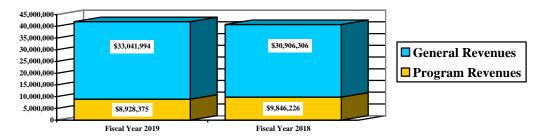

The City had a total of \$1,174,912 in capital grants and contributions during 2019. These capital grants and contributions consist primarily of federal and state grant revenues that are restricted for capital acquisition and construction. Of the total capital grants and contributions, \$693,734 subsidized transportation programs while \$481,178 subsidized general government programs. Capital grants and contributions decreased \$1,232,702 from 2018 primarily due to capital grants and contributions supporting the City's downtown revitalization project. Capital grants and contributions also includes donated storm sewer lines from outside developers.

General revenues totaled \$33,041,994 and amounted to 78.73% of total governmental revenues. These revenues primarily consist of property and income tax revenue of \$3,219,780 and \$26,565,962, respectively. The other primary source of general revenues is grants and entitlements not restricted to specific programs, including local government funding from the State of Ohio, making up \$1,050,110. The largest increase was in income tax revenue which increased \$1,945,734, or 7.90%, due to increased collections in 2019.

The graph on the following page compares the City's general revenues (which includes property taxes, income taxes and unrestricted grants and entitlements) and program revenues for fiscal year 2019 and 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Governmental Activities – General and Program Revenues

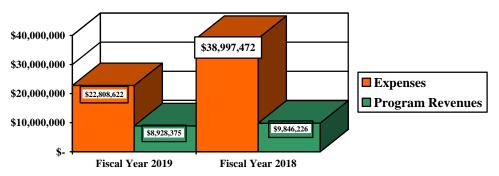

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

Governmental Activities

| | Total Cost of Services 2019 | Net Cost of Services 2019 | Total Cost of Services 2018 | Net Cost of Services 2018 |
|----------------------------------|-----------------------------------|---------------------------------|-----------------------------|---------------------------------|
| Program Expenses: | | | | |
| General government | \$ 10,419,459 | \$ 6,748,731 | \$ 9,938,857 | \$ 4,611,793 |
| Security of persons and property | 753,729 | 351,717 | 19,356,714 | 18,932,708 |
| Public health and welfare | 1,109,856 | 755,847 | 1,008,929 | 741,342 |
| Transportation | 6,963,224 | 3,082,650 | 6,450,347 | 3,202,732 |
| Leisure time activity | 3,352,821 | 2,749,109 | 2,025,570 | 1,463,109 |
| Interest and fiscal charges | 209,533 | 192,193 | 217,055 | 199,562 |
| Total | \$ 22,808,622 | \$ 13,880,247 | \$ 38,997,472 | \$ 29,151,246 |

The dependence upon general revenues for governmental activities is apparent, with 60.86% of expenses supported through taxes and other general revenues.

Governmental Activities – Program Revenues vs. Total Expenses

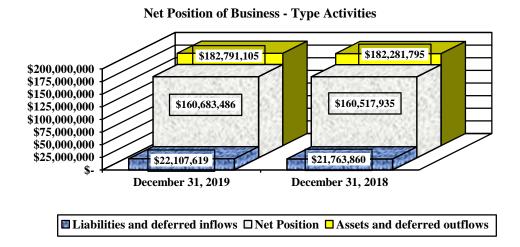

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Business -type Activities

The net position of the business-type activities include the water, water pollution control, airport, parking facilities, and swimming pool operations. These operations had program revenues of \$19,097,181 which were not sufficient to support the total expenses of \$20,068,858. Total expenses exceeded program revenues by \$971,677 in 2019.

The graph below shows the business-type activities assets and deferred outflow, liabilities and deferred inflows and net position at year-end.

Net position of the business-type activities continued to grow. The City's charges for services program revenues decreased \$837,541 or 4.37% from 2018. The City's capital grants and contributions program revenues increased \$308,420, or 103.31%, from 2018 due primarily to increased grant funding for water and water pollution control projects. Expenses of the business-type activities increased \$1,775,649, or 9.71%, primarily due to an increase of water expenses of \$2,122,350. For fiscal year 2019 expenses exceeded program revenues by \$971,677 compared to 2018 when program revenues exceeded expenses of the business-type activities by \$1,303,486. Capital assets for the business-type activities increased \$702,597 due to capital outlays exceeding depreciation expense for 2019. The increase in capital contributions revenue resulted in an increase in capital outlays for 2019. Capital contributions are revenues received that are restricted for capital expenses and may not be used to finance the operations of the enterprise activities and includes donated water and sewer utility lines from outside developers.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. Fund balance includes various categories as described in Note 2.N and detailed in Note 15 to the financial statements. The City's governmental funds (as presented on the balance sheet on pages 42-43) reported a combined fund balance of \$33,377,635 which is \$2,448,852 more than last year's total of \$30,928,783.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

The schedule below indicates the fund balances as of December 31, 2019, 2018 and 2017 for all governmental fund.

| | | Fund Balances Fund Balances 12/31/19 12/31/18 | | Fund Balances 12/31/17 | | Increase (Decrease) 2019 - 2018 | | Increase (Decrease) 2018 - 2017 | | |
|--|----|---|----|--------------------------------------|----|---------------------------------------|----|---------------------------------------|----|---------------------------------|
| Major funds: General Street maintenance and repair Nonmajor governmental funds | \$ | 25,011,989 2,846,566 5,519,080 | \$ | 22,672,899 2,915,212 5,340,672 | \$ | 23,014,264 2,763,739 4,888,310 | \$ | 2,339,090 (68,646) 178,408 | \$ | (341,365) 151,473 452,362 |
| Total | \$ | 33,377,635 | \$ | 30,928,783 | \$ | 30,666,313 | \$ | 2,448,852 | \$ | 262,470 |

General Fund

The City's general fund balance increased \$2,339,090 from 2018. Revenues increased \$437,542 from 2018 while expenditures decreased \$1,616,870. The decrease in expenditures is primarily due to a decrease of \$1,996,567 in capital outlay expenditures. The table that follows assists in illustrating the revenues of the general fund for 2019, 2018 and 2017:

| | | | | Increase/ | Increase/ |
|-----------------------------|-------------|-------------------|---------------|--------------|--------------|
| | 2019 | 2018 | 2017 | (Decrease) | (Decrease) |
| | Amount | Amount | Amount | 2019 - 2018 | 2018 - 2017 |
| Revenues | | | | | |
| Taxes | \$ 28,695,7 | 784 \$ 26,785,727 | \$ 25,653,882 | \$ 1,910,057 | \$ 1,131,845 |
| Charges for services | 1,400,4 | 1,447,887 | 1,428,904 | (47,426) | 18,983 |
| Licenses and permits | 410,4 | 390,670 | 391,330 | 19,799 | (660) |
| Fines and forfeitures | 1,389,9 | 1,466,699 | 1,376,557 | (76,735) | 90,142 |
| Investment income | 510,9 | 931 434,488 | 256,836 | 76,443 | 177,652 |
| Increase (decrease) in fair | | | | | |
| value of investments | 104,7 | 700 87,049 | (57,829) | 17,651 | 144,878 |
| Intergovernmental | 1,657,5 | 593 2,198,121 | 2,261,042 | (540,528) | (62,921) |
| Other | 1,771,3 | 2,693,032 | 2,365,510 | (921,719) | 327,522 |
| Total | \$ 35,941,2 | \$ 35,503,673 | \$ 33,676,232 | \$ 437,542 | \$ 1,827,441 |

Tax revenue in the general fund represents property, income and other local taxes. Tax revenue represents 79.84% of all general fund revenue. The general fund receives 2.6 mills in real estate collections on an annual basis, and there are no voted levies in addition to that millage. Property tax revenue remained comparable to 2018.

The general fund, which includes the city income tax fund on a GAAP-basis, had \$25,928,394 in income tax revenue in 2019. The income tax revenues are included in the "taxes" revenues listed above. The city income tax revenues increased \$1,832,161 from 2018 primarily due to increased collections in 2019.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Charges for services revenue decreased \$47,426 from 2018. Charges for services primarily relate to fees charged from programs related to leisure time activities and public health and welfare programs.

Licenses and permits revenue remained comparable to 2018.

Fines and forfeitures revenue decreased \$76,735 from 2018 primarily in the areas of court fines and fees.

The increase in investment income is primarily due to improved interest rates on applicable investments and more monies invested by the City.

At December 31, 2019, the fair value of the City's federal agency securities increased \$104,700 from the fair value of these securities at December 31, 2018. These securities fluctuate in value depending upon market conditions. The City intends to hold investments to maturity thus eliminating the effects of fluctuations in fair value.

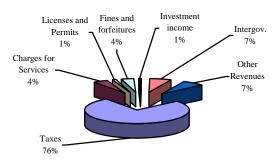

Intergovernmental revenue decreased due to a decrease in capital grants primarily related to the downtown revitalization project.

Other revenues decreased \$921,719 from 2018. Other revenues include rental income, contributions and donations and miscellaneous revenues. During 2019, contribution and donation revenue decreased \$765,155 from 2018.

The graphs below reflect the percentage of revenues, by source, for 2019, 2018 and 2017:

Revenues - Fiscal Year 2019 Revenues - Fiscal Year 2018 Investment Investment Fines and Fines and Licenses and Licenses and Intergov. Intergov. forfeitures income forfeitures income Permits 5% Permits 6% 4% 1% Other Other Charges for Charges for Revenues Revenues Services Services 4% 5% 4% 8% Taxes Taxes 76%

Revenues - Fiscal Year 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

The table that follows assists in illustrating the expenditures of the general fund for 2019, 2018 and 2017.

| | 2019 Amount | | 2018 Amount | | 2017 Amount | | Increase/ (Decrease) 2019 - 2018 | | Increase/ (Decrease) 2018 - 2017 | |
|----------------------------------|-------------|------------|-------------|------------|-------------|------------|--|-------------|--|-----------|
| Expenditures | | | | | | | | | | |
| General government | \$ | 8,104,591 | \$ | 8,362,962 | \$ | 7,815,582 | \$ | (258,371) | \$ | 547,380 |
| Security of persons and property | | 15,433,632 | | 15,200,060 | | 14,655,640 | | 233,572 | | 544,420 |
| Public health and welfare | | 916,777 | | 832,424 | | 786,244 | | 84,353 | | 46,180 |
| Leisure time activity | | 1,839,955 | | 1,519,812 | | 1,375,655 | | 320,143 | | 144,157 |
| Capital outlay | _ | 2,503,763 | _ | 4,500,330 | | 4,390,105 | _ | (1,996,567) | | 110,225 |
| Total | \$ | 28,798,718 | \$ | 30,415,588 | \$ | 29,023,226 | \$ | (1,616,870) | \$ | 1,392,362 |

General government expenditures decreased \$258,371 from 2018. The decrease resulted from a decrease in general contracted services supporting the City's government operations.

Security of persons and property expenditures, those related primarily to police and fire operations, increased \$233,572 from 2018. The increase in police and fire operations is primarily in the area of salary and wages and fringe benefits.

Public health and welfare increased \$84,353 from the prior year. The increase resulted from an increase in salaries and wages and fringe benefits in the zoning and cemetery departments.

Leisure time activities relate primarily to the operations of parks, recreation and the Cube. Total leisure time activities expenditures increased \$320,143 from 2018. The increase in expenditures was due to increases in the park department.

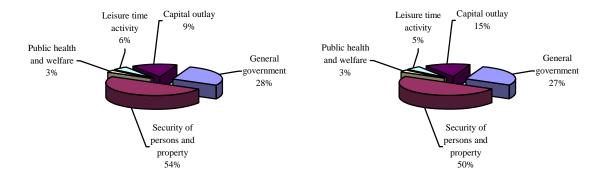

Capital outlay expenditures decreased \$1,996,567 as the City performed less construction and various other projects in 2019 versus 2018. During 2019, the City incurred expenditures related to the Cube Code updates and various police and fire equipment upgrades. The City closely monitors capital outlays to perform only essential improvements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

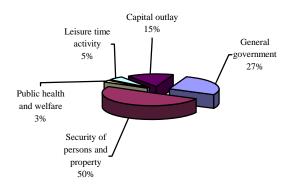

The graphs below reflect the percentage of expenditures, by function, for 2019, 2018 and 2017:

Expenditures - Fiscal Year 2019

Expenditures - Fiscal Year 2018

Expenditures - Fiscal Year 2017

Street Maintenance and Repair Fund

The street maintenance and repair fund had revenues and other financing sources of \$6,964,589 in 2019. This represents an increase of \$111,864 from 2018 revenues and other financing sources. The 2018 other financing sources included transfers in of \$3,978,251 that were increased to \$3,986,997 in 2019. The expenditures and other financing uses of the street maintenance and repair fund, which totaled \$7,032,599 in 2019 increased \$290,454 from 2018. The net decrease in fund balance for the street maintenance and repair fund was \$68,646, or 2.35%. The street maintenance and repair fund capital outlays were approximately \$724,838 more in 2019 versus 2018 primarily due to increased expenditures resulted from the street resurfacing projects.

General Fund Budgeting Highlights

The City's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted accordingly.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

For the general fund, the original and final budgeted amount in the area of expenditures and other financing uses, increased \$6,506,967 from \$29,950,415 to \$36,457,382. The primary reason for the increase is an increase in budgeted transfers out which were \$1,230,000 in the original budget and \$4,313,615 in the final budget. Projects of the general fund are budgeted on a multi-year project basis and are not included in the original budget as part of the annual operating appropriation process. The final budget amounts for these projects represent supplemental appropriations which equal the actual capital outlays incurred during the year. This accounts for \$2,666,512, or 40.98%, of the \$6,506,967 increase from the original budget to the final budget. Actual expenditures and other financing uses of \$32,185,967 were lower than final appropriated expenditures and other financing uses of \$36,457,382 by \$4,271,415.

Original budgeted revenues and other financing sources increased \$5,521,166 to amounts reported in the final budget primarily due to the budgeting of intergovernmental revenues and transfers in related to multi-year projects as the supplemental appropriations were enacted. Actual revenues and other financing sources of \$32,886,244 were \$1,050,583 less than final budgeted revenues and other financing sources of \$33,936,827.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The only difference between the amounts reported as business-type activities and the amounts reported in the proprietary fund statements are interfund eliminations between proprietary funds and internal balances due to governmental activities for internal service activities. The only interfund activity reported in the government wide statements are those between business-type activities and governmental activities (reported as internal balances and transfers) whereas interfund amounts between various enterprise funds are reported in the proprietary fund statements.

Water Fund

The waterworks system has been municipally owned since it was first developed in 1888. Improvements have been made as needed and are financed from revenues of the system. The current facilities include two upland raw water storage reservoirs with a capacity of 6.4 billion gallons, a raw water pump station located at the reservoir, raw water lines that feed into the lime-soda softening water treatment plant, high service pumps, and a 320-mile distribution system with two elevated storage tanks. There is treated water storage capacity at the plant of 4.5 million gallons plus 2.75 million gallons in the two elevated towers. The plant is able to treat 16 million gallons per day, and in the future can be expanded to 24 million gallons per day if the customer demand for treated water increases to that level.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

User charge rates are established to provide revenue for operation and maintenance of the treatment facility, the reservoir, and the distribution system. In addition, the charge rates must be set to support all capital improvements and debt service requirements. In accordance with Ohio law, the Service Director has the ability to revise the charge rates. Information regarding water customers for 2019 is presented below:

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Water Pollution Control Fund

The City's wastewater treatment facility has been updated and improved to maintain compliance with all EPA discharge permit standards. During the late 1980's, major renovations were made to the Broad Avenue treatment plant and a 6.0 million gallon per day (MGD) oxidation ditch type of treatment plant was constructed on River Road. In 2000, construction began on two additional oxidation ditches, two additional final clarifiers and UV disinfecting at the River Road Plant. This expansion of the facility was fully operational in July 2001. The design of the River Road Plant allows for the construction of additional modules as demand on the facilities increases. Currently the treatment plant provides for a 15 MGD average design flow and a 40 MGD peak design flow. In addition, the City is working toward a comprehensive stormwater management plan to comply with EPA guidelines. Information regarding wastewater customers for 2019 is presented below:

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2019, the City had \$249,075,604 (net of accumulated depreciation) invested in land, software, non-depreciable land improvements, buildings and improvements, improvements other than buildings (I.O.T.B.), machinery and equipment, utility plant in service, utility lines in service, infrastructure and construction in progress (CIP). Of this total, \$98,827,444 was reported in governmental activities and \$150,248,160 was reported in business-type activities. The following table shows fiscal year 2019 balances compared to 2018:

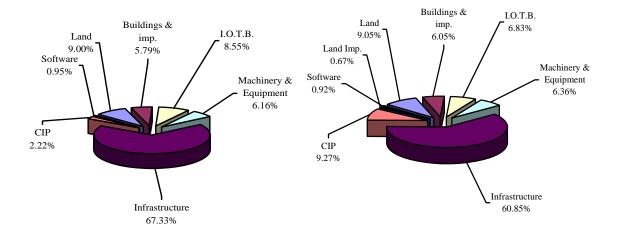

Capital Assets at December (Net of Depreciation)

| | Governmen | tal A | activities | Business-Type Activities | | Total | | | | | |
|--------------------------|------------------|-------|------------|--------------------------|-------------|-------|-------------|----|-------------|----|-------------|

The following graphs show the breakdown of governmental capital assets by category for 2019 and 2018.

Capital Assets - Governmental Activities 2019

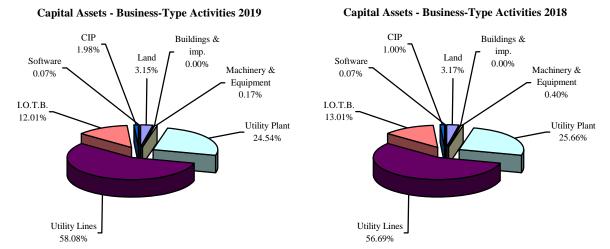

Capital Assets - Governmental Activities 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

The City's largest governmental capital asset category is infrastructure which includes streets, storm sewers, and traffic signals. These items are immovable and of value only to the City; however, the annual cost of purchasing these items is quite significant. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 67.33% of the City's total governmental capital assets.

The following graphs show the breakdown of business-type capital assets by category for 2019 and 2018.

The City's largest business-type capital asset category are utility lines that primarily includes water and sewer lines. These items play a vital role in the income producing ability of the business-type activities. The net book value of the City's utility lines (cost less accumulated depreciation) represents approximately 58.08% of the City's total business-type capital assets.

See Note 8 to the basic financial statements for further detail on capital assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

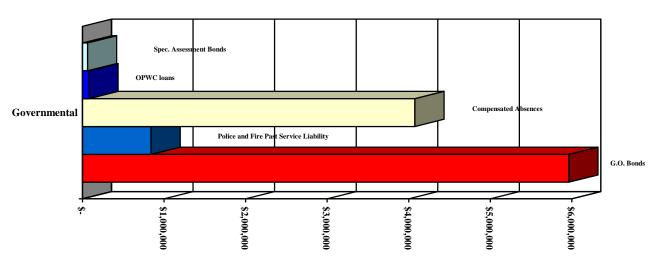

Debt Administration

The City had the following long-term debt obligations outstanding at December 31, 2019 and 2018:

| | Governmental Activities | | | |
|--|--------------------------|---------------|--|--|
| | 2019 | 2018 | | |
| Compensated absences | \$ 4,076,656 | \$ 4,006,157 | | |
| Police and Fire past service liability | 841,931 | 879,808 | | |
| OPWC loans | 81,040 | 95,723 | | |
| Special Assessment bonds | 63,000 | 83,000 | | |
| General Obligation bonds | 5,963,005 | 6,374,556 | | |
| Total long-term debt obligations | \$ 11,025,632 | \$ 11,439,244 | | |
| | Business-Type Activities | | | |
| | 2019 | 2018 | | |
| General Obligation bonds | \$ - | \$ 685,000 | | |
| OPWC loans | 285,547 | 340,886 | | |
| OWDA loans | 7,078,481 | 9,667,288 | | |
| Compensated absences | 1,157,225 | 1,127,520 | | |
| Total long-term debt obligations | \$ 8,521,253 | \$ 11,820,694 | | |

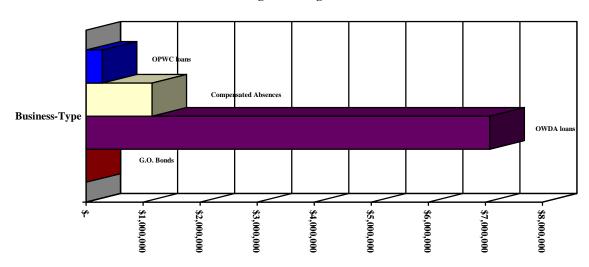

A comparison of the long-term obligations by category is depicted in the chart below.

Long-term obligations

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

Long-term obligations

It has long been the policy of the City to borrow money only for those projects that cannot be supported from the current available cash balances. When financing is necessary, careful consideration is given to total construction costs, length of payback period, and available interest rates before debt is actually issued. The City currently maintains an Aa2 credit rating with Moody's Investors Service and an AA rating from Standard and Poors.

See Note 11 to the basic financial statements for further detail on the City long-term debt obligations outstanding at year-end.

Economic Factors and 2018 Budgets and Rates

Unemployment in Hancock County was 3.2% for 2019 versus 3.4% for 2018. This compared favorably with the State's rate of 4.1% for 2019 and the national rate of 3.7% for 2019.

Projected stability for the overall economy was part of the consideration for the 2020 income tax revenue projection, with some consideration for business profits tax volatility. The City strives to take a conservative approach when estimating revenues and budgets well within the projected available funds while maintaining reserves in excess of its policy amounts. The income tax allocation to the City Income Tax Fund Capital Improvements Restricted Account was 20% for 2019; the general fund was 80%. For 2020, this allocation has again been set at 20% to the City Income Tax Fund Capital Improvements Restricted Account and 80% to the general fund. It is of note that the City has maintained cash in excess of its minimum balance requirement for the general fund which is 16.7% of its budgeted expenses in addition to maintaining a \$1 million rainy day account. Although the COVID-19 related drop in revenues has had an impact, at this point in time the City is in a position to weather the current projected reductions and maintain its policy balances.

All fund budgets comply with Ohio Revised Code 5705.36 which limits total appropriations for the calendar year to the amount of the Official Certificate of Estimated Resources, filed with the County.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2019

General fund actual expenditures in 2019, as reported on the Statement of Revenues, Expenditures and Changes in Fund Balance – Budget (GAAP-Basis) and Actual – General Fund were \$4.27 million below final appropriations contributing to a beginning unappropriated cash balance of more than \$13.2 million for 2020. A 2020 general fund operating budget has been adopted with a \$1.1 million surplus; however, the COVID-19 pandemic and other factors will likely cause a deficit and new projections show the year-end cash balance will be in excess of \$9.1 million, at the time of this report based due to these new considerations.

City Council and the Service Director increased water and sewer rates in 2011; no increase is scheduled for 2020. A financial model of these systems was created several years ago and is being updated in 2020. It is expected to see continued strong cash balances in the sewer fund, due largely to continued reduction in debt. Each has been budgeted to end the 2020 calendar year with a cash balance in excess of three-month operations expenses.

The 5-Year Capital Plan has been updated and the first year has been adopted by Council. The revision of this plan is providing a sound foundation for determining the allocation between general fund operations and Capital Improvements funding needs. The City has been the beneficiary of several grants for capital projects. This has been in part due to a strong cash position, which has allowed for the required matching funds to be provided by the City. The plan projects the percentage of the money allocated to the City Income Tax Fund Capital Improvements Restricted Account to remain at 20% with 80% being allocated to the general fund over the 5-year period.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Jim Staschiak II, Auditor, City of Findlay, 318 Dorney Plaza, 313 Municipal Building, Findlay, Ohio 45840 or email at jstaschiak@findlayohio.com.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES DECEMBER 31, 2019

| Total governmental fund balances | | \$ | 33,377,635 |
|--|--|--------------------------|--------------|
| Amounts reported for governmental activities on the statement of net position are different because: | | | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. | | | 98,827,444 |
| Other long-term assets are not available to pay for current- period expenditures and therefore are deferred in the funds. Income taxes receivable Accounts receivable Intergovernmental receivable Special assessments receivable | \$ 5,156,74 112,38 1,655,4 69,20 | 34 70 | |
| Total | | | 6,993,892 |
| Unamortized premiums on bonds issued are not recorded in the funds. | | | (308,973) |
| Unamortized deferred charges on debt refundings are not recorded in the funds. | | | 382,595 |
| Internal service funds are used by management to charge the costs of self-insurance, workers' compensation and central stores operations to individual funds. The assets and liabilities of the internal service funds are included in governmental activities on the statement of net position. The net position of the internal service funds, including internal balances of (\$163,821), is: | | | 1,823,524 |
| The net pension asset/liability is not due and receivable/payable in the current period; therefore, the asset, liability and related deferred inflows/ outflows are not reported in the governmental funds: Deferred outflows of resources - pension Deferred inflows of resources - pension Net pension asset Net pension liability | 12,978,62 (1,104,44 57,89 (44,997,2: | 06) 96 | |
| Total | | | (33,065,139) |
| The net OPEB liability is not due and receivable/payable in the current period; therefore, the liability and related deferred inflows/ outflows are not reported in the governmental funds: Deferred outflows of resources - OPEB Deferred inflows of resources - OPEB Net OPEB liability Total | 3,107,34 (1,897,99 (9,632,49 | 96) | (8,423,143) |
| Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. The long-term liabilities are as follows: Accrued interest payable Special assessment bonds payable General obligation bonds payable OPWC loans payable Police and fire past service liability payable Compensated absences payable | (105,12 (63,00 (5,963,00 (81,04 (841,92 (4,076,65 | 00) 05) 40) 31) | |
| Total | | | (11,130,755) |
| Net position of governmental activities | | \$ | 88,477,080 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2019

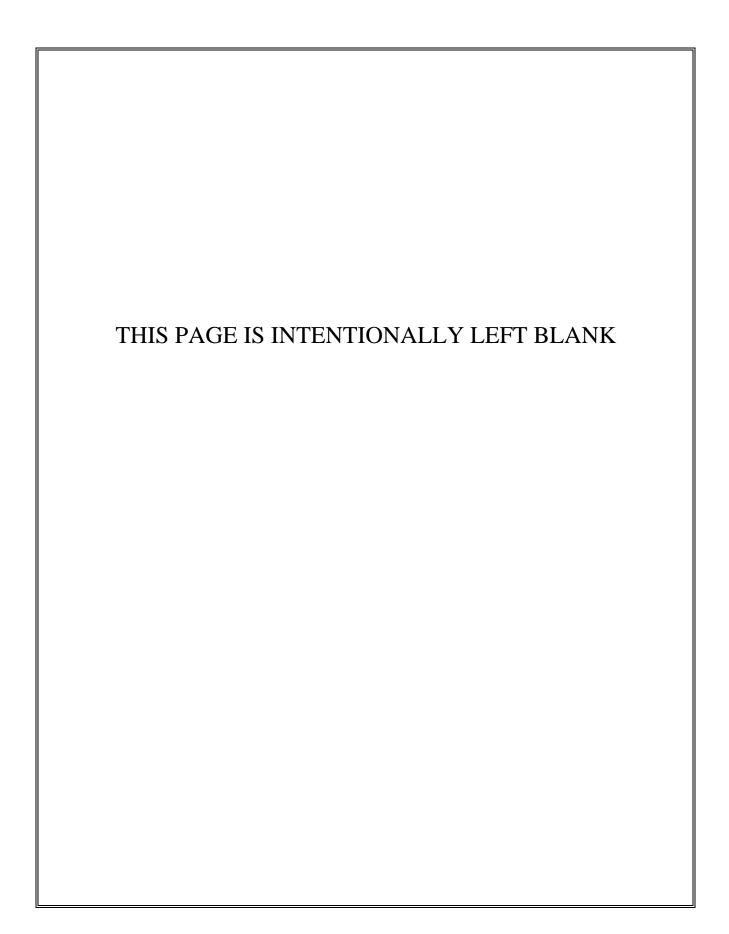

| Net change in fund balances - total governmental funds | \$ 2,448,267 |
|---|------------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period: | |
| Capital outlays \$ 6,999,563 Depreciation expense (5,605,861) Total | 1,393,702 |
| The effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, donations and impairments) is to decrease net position. | (797,321) |
| Governmental funds report expenditures for prepaids and consumable inventories when purchased. However, in the statement of activities, they are reported as an expense when consumed. | 585 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | |
| Income taxes 637,568 Charges for services 17,638 Special assessments (23,335) Intergovernmental 549,801 Total | 1,181,672 |
| In the statement of activities, interest is accrued on outstanding bonds, whereas in the funds, an interest expenditure is reported when due. The following items contributed to less interest being reported in the statement of activities: | |
| Decrease in accrued interest payable 3,829 Amortization of bond premiums 22,886 Amortization of deferred charges on refundings (28,340) Total | (1,625) |
| Repayments of bonds, loans and the police and fire past service liability are expenditures in the funds, but the repayments reduce long-term liabilities on the statement of net position. | 484,111 |
| Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the funds. | (70,841) |
| Internal service funds are used by management to charge the costs of self-insurance, workers' compensation, and central stores operations to individual funds and are not reported in the City-wide statement of activities. Governmental fund expenditures and the related internal service funds revenue are eliminated. The net revenue (expense) of the internal service funds, including internal balance activity of \$2,271, is allocated among the governmental activities. | 316.964 |
| Contractually required pension contributions are reported as expenditures in the funds; however, the statement of net position reports these amounts as deferred outflows. | 2,839,611 |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension asset/liability are reported as pension expense in the statement of activities. | (7,135,117) |
| Contractually required OPEB contributions are reported as expenditures in the funds; however, the statement of net position reports these amounts as deferred outflows. | 58,069 |
| Except for amounts reported as deferred inflows/outflows, changes in the net OPEB liability are reported as OPEB expense in the statement of activities. | 17,952,279 |
| Change in net position of governmental activities | \$ 18,670,356 |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 1 - DESCRIPTION OF THE CITY

The City of Findlay (the "City") was incorporated in 1838 under the laws of the State of Ohio. The City of Findlay is a statutory City operating under the Mayor/Council form of municipal government. Services provided include police, fire, recreation programs (including parks and an outdoor swimming pool), street repair and maintenance, water and wastewater treatment, engineering, airport, municipal court, and general administrative services. Except for water and sewage, the major utilities are provided by private entities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements (BFS) of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City's significant accounting policies are described below.

A. Reporting Entity

The City's reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the City are not misleading.

The primary government of the City consists of all funds, departments, boards, and agencies that are not legally separate from the City. The City's Municipal Court is not legally separate from the City, nor does it possess separate corporate powers. The operational activity of the Court is included in the City's reporting entity because of the significance of its operational and financial relationships with the City. The amount of fines and forfeitures collected by the Court that are disbursed to various State and local governments is reflected in a custodial fund.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's Governing Board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; or (3) the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the City has no component units. The basic financial statements of the reporting entity include only those of the City (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the City.

JOINTLY GOVERNED ORGANIZATIONS

Hancock Metropolitan Housing Authority

The Hancock Metropolitan Housing Authority (the "Housing Authority") is a jointly governed organization between Hancock County and the City of Findlay. The Housing Authority was established under Section 3735.27 of the Ohio Revised Code to provide safe, decent and sanitary housing to the citizens. Two members of the Board of Trustees are appointed by the Hancock County Probate Court Judge, two members are appointed by the Mayor of the City of Findlay, and one member is appointed by the Hancock County Commissioners. Separate financial statements may be obtained from the Hancock Metropolitan Housing Authority, 1800 North Blanchard Street, Findlay, Ohio, 45840.

Blanchard Valley Port Authority

The Blanchard Valley Port Authority (the "Port Authority") is a jointly governed organization between the City of Findlay and Hancock County. The Authority was established pursuant to Ohio Revised Code Section 4582.21. The purpose of the Port Authority is to provide for the improvement and economic development in Hancock County and the City of Findlay.

The Port Authority is governed by a Board of Directors consisting of seven appointed members. Three are appointed by the Mayor of the City of Findlay, with the consent of City Council, three are appointed by the Hancock County Commissioners, and one is a joint appointment.

The Port Authority may be dissolved at any time upon the enactment of an ordinance by the City of Findlay Council and resolution by the Hancock County Board of Commissioners provided that upon dissolution, any real or personal property or combination thereof which has been received from or made available by the City of Findlay or Hancock County shall be returned to the subdivision from which it was received or made available. In the event of the dissolution, after paying all expenses, debts or funds or any remaining real or personal property belonging to the Port Authority shall be distributed to the City of Findlay and Hancock County equally. Financial information for the Blanchard Valley Port Authority can be obtained from the Blanchard Valley Port Authority, 3900 N Main Street, Findlay, Ohio 45840-3345.

Hancock Regional Planning Commission

The Hancock Regional Planning Commission (the "Planning Commission") is a jointly governed organization between Hancock County and the City of Findlay. The Planning Commission provides professional planning services for the City and Hancock County. The Planning Commission is responsible for enforcement of the Hancock County subdivision regulations, lot splits, assistance to the villages and township zoning codes, zoning advisory and city planning reviews. The City and Hancock County appoint 10 and 12 members, respectively, to the Planning Commission Board. Separate financial statements may be obtained from the Hancock County Regional Planning Commission, 318 Dorney Plaza, Room 306, Findlay, Ohio, 45840.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Basis of Presentation

The City's BFS consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a detailed level of financial information.

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities. On the statement of activities, interfund services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental functions are self-financing or draw from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary fund financial statements. Fiduciary funds are reported by type.

C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities and deferred inflows are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows is reported as fund balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following are the City's major governmental funds:

<u>General fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Street maintenance and repair</u> - This fund is used to account for 92.5% of the City's share of gasoline taxes and motor vehicle license fees as required by state statute. Expenditures of this fund are for street maintenance and construction.

Other governmental funds of the City are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Funds - Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

<u>Enterprise funds</u> - The enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

<u>Water</u> - This fund accounts for the operations of the City's water utility. Revenues are from user charges, based on the rates set by the Service Director. Major water construction and renovation projects are accounted for and financed in this fund.

<u>Water pollution control (sewer)</u> - This fund accounts for the operation of the City's sewer utility. Revenues are from user charges, based on rates set by City Council. Major sewer construction and renovation projects are accounted for and financed in this fund.

<u>Airport</u> - This fund accounts for the operation of the City's airport facility including hangar rentals, aircraft fuel sales, runway maintenance and other operations of the airport.

The other enterprise funds of the City are used to account for swimming pool and parking enforcement operations.

<u>Internal service funds</u> - The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's internal service funds report on the operations of central stores, a liability self-insurance program, and a workers' compensation self-insurance program.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The City's fiduciary funds are a private-purpose trust fund which accounts for monies in trusts to benefit specific cemetery lots as directed by the contributor and custodial funds used to account for the funds maintained by the Municipal Court that are due to other State and local governments and to account for income taxes, tax increment financing payments, and assessments collected on-behalf and due to other governments.

D. Measurement Focus and Basis of Accounting

Government-Wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the City are included on the statement of net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the financial statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the City's proprietary funds are charges for sales and services. Operating expenses for the enterprise funds include personnel and other expenses related to the operations of the enterprise activities and operating expenses for the internal service funds include claims and administrative expenses for the self-insurance program and contracted services and materials and supplies expenses for the central stores operations. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources and deferred outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within thirty-one days following year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned (See Note 6.B.). Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6.A.). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, State-levied locally shared taxes (including gasoline tax, local government funds and permissive tax), fines and forfeitures, fees and special assessments.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, see Notes 12 and 13 for deferred outflows of resources related to the City's net pension liability/asset and net OPEB liability, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2019, but which were levied to finance 2020 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes, but is not limited to, income taxes, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the City, see Notes 12 and 13 for deferred inflows of resources related to the City's net pension liability/asset and net OPEB liability, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation ordinances. The tax budget and certificate of estimated resources are required to be prepared on the cash basis by the County Budget Commission and are prepared solely to satisfy these statutory requirements. The appropriation ordinances, under which the City controls its expenditures, and an internal revenue budget, under which the City measures available resources, are prepared on the accrual/modified accrual basis, as appropriate. The certificate of estimated resources and the appropriation ordinances are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources as certified. The legal level of budgetary control is at the "personal services" and "other" objects within each department within each fund. All changes in departmental appropriations or changes between the "personal services" and "other" objects within a department require action by the City Council. Capital outlays are budgeted on a multi-year project basis over the life of the project. Only supplemental appropriations for capital outlays incurred during the year are included in the budgetary comparison statements/schedules.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

On a GAAP-basis, the severance payout reserve fund, the city income tax administration fund, and the unclaimed monies fund are included as a component of the general fund; however, these funds have separate legally adopted budgets. Budgetary information for the general fund includes only the legally adopted budget for the general fund. These perspective differences are reported below:

Net Change in Fund Balance

| | General | | |
|--------------------------|---------|-----------|--|
| Budget basis | \$ | 700,277 | |
| Funds budgeted elsewhere | | 1,637,125 | |
| GAAP Basis | \$ | 2,337,402 | |

Tax Budget - A budget of estimated cash receipts is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year, for the period January 1 to December 31 of the following year. This document is prepared on the cash basis of accounting.

Estimated Resources - The County Budget Commission certifies its actions to the City by September 1. As part of this process, the City receives the official certificate of estimated resources that states the projected cash receipts of each Fund. On or about January 1, this certificate is amended to include any unencumbered cash balances from the preceding year. This document is prepared on the cash basis of accounting.

Appropriations - At the beginning of the fiscal year, an annual appropriation ordinance is passed for the period January 1 to December 31. Supplemental appropriations were made during the year as new information became available to provide for additional expenditures deemed necessary by the legislative authority.

At the end of the year, all unexpended and unencumbered balances of operating appropriations lapse and revert to the funds from which the appropriation was initially made, where they become subject to future appropriation while encumbered balances are carried forward as part of the next year's appropriation. The unexpended balances of capital and special assessment appropriations continue until the project is completed at which time any remaining appropriation reverts to the fund from which the appropriation was initially made. Annual appropriation ordinances are adopted for all governmental, proprietary, and fiduciary funds. However, budget disclosure in the BFS is only required for the general fund and major special revenue funds.

G. Cash and Investments

To improve cash management, cash received by the City is pooled and invested in authorized investments (See Note 4). Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the City's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements. The City maintains depository accounts with financial institutions and deposits monies with the State Treasury Asset Reserve of Ohio (STAR) Plus. STAR Plus is a cash management program that provides Ohio political subdivisions with access to hundreds of FDIC insured banks in one account, offering participants full FDIC insurance up to \$100 million per account. Monies not maintained in depository accounts are invested.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During 2019, investments were limited to Federal Farm Credit Bank (FFCB) securities, U.S. Treasury Notes, STAR Ohio and nonnegotiable certificates of deposit. Except for nonparticipating investment contracts and STAR Ohio, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost and STAR Ohio is reported at net asset value per share as described below.

During 2019, the City invested in STAR Ohio. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The City measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For 2019, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Council has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during 2019 amounted to \$510,931, which includes \$176,966 assigned from other City funds as not all funds of the City receive interest earnings.

For purposes of the statement of cash flows, investments with an original maturity of three months or less are considered to be cash equivalents. In addition, all cash and investments of the cash management pool are considered to be cash equivalents because they are sufficiently liquid to permit withdrawal by the proprietary funds on demand. Investments with maturities greater than three months that are not part of the cash management pool are not considered to be cash equivalents.

An analysis of the City's investment account at year end is provided in Note 4.

H. Inventories of Materials and Supplies

On government-wide and fund financial statements, inventories of supplies are reported at cost, inventories held for resale are reported at the lower of cost or market, and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when received. Inventories are accounted for using the purchase method on the fund statements and using the consumption method on the government-wide statements.

On the fund financial statements, reported materials and supplies inventory is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets. Inventory consists of expendable supplies held for consumption.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

I. Prepaids

Amounts recorded for prepaid items represent the unamortized portion of insurance policies that expire in 2020 or later. Governmental funds use the purchase method of accounting whereby insurance is recognized as an expenditure when purchased. Proprietary funds recognize insurance expense as it is incurred.

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value. The City maintains a capitalization threshold of \$5,000. The City's infrastructure consists of storm sewers, streets, and traffic signals. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized for business-type activities.

The City's intangible assets include only purchased computer software. This asset class is reported separately from other capital assets classes reported in the capital asset schedule in Note 8. The City considers computer software (both purchased and internally generated) to be a non-depreciable capital asset. It is the City's policy that as long as annual maintenance and upgrades are purchased for the software, the software will be used indefinitely.

All reported capital assets are depreciated except for land, certain land improvements, computer software and construction in progress. Non-depreciable land improvements are improvements that are permanent and are not considered part of a structure and do not deteriorate over time. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

| | Governmental | Business-Type |
|-----------------------------------|-----------------|-----------------|
| | Activities | Activities |
| <u>Description</u> | Estimated Lives | Estimated Lives |
| Improvements other than buildings | 20 - 50 years | 20 - 50 years |
| Machinery and equipment | 3 - 20 years | 3 - 20 years |
| Utility plant in service | - | 50 - 99 years |
| Utility lines in service | - | 50 - 99 years |
| Infrastructure: | | |
| Streets | 10 years | - |
| Storm sewers | 75 years | - |
| Traffic signals | 25 years | = |
| | | |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Compensated Absences

Compensated absences of the City consist of vacation leave, sick leave, holivac (combination of holiday and vacation for individuals who are required to work holidays and non-standard hours), and compensatory time to the extent that payment to the employee for these absences is attributable to services already rendered and are not contingent on a specific event that is outside the control of the City and the employee.

In conformity with GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave, holivac, and compensatory time is accrued if: a) the employee's rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for sick leave is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination payments, as well as those employees expected to become eligible in the future in accordance with GASB Statement No. 16. Sick leave benefits are accrued using the "vesting" method in accordance with GASB Statement No. 16.

The total liability for vacation leave, sick leave, holivac, and compensatory time has been calculated using the pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by labor contract and/or City Ordinance, plus applicable additional salary related payments.

Sick leave accumulates at the rate of 4.6 hours of sick leave for 80 hours of work completed. For non-contract employees, sick leave may be converted into cash only upon retirement or death with 10 or more years of service with the State or any of its political subdivisions at the rate of one fourth the value of the first 960 hours of accrued, unused sick leave credit. If applicable, accrued, unused sick leave will be paid in cash for one-half the value of all accrued sick leave credit in excess of 960 hours. Individuals with accumulated sick leave greater than 1,920 hours receive cash at the rate of one-half the total hours accumulated. Sick leave for individuals leaving the employment of the City prior to retirement or at retirement with less than 10 years of service remains with the City; however, this amount is not eligible to be paid out as part of an accumulated sick leave settlement. Contract employees are paid for their sick time based upon their current contracts.

The entire compensated absence liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. For proprietary funds, the entire amount of compensated absences is reported as a fund liability.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements; and, all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences and the net pension/OPEB liability that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Net pension/OPEB liability is recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

M. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental funds are eliminated for reporting on the statement of activities.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the BFS.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of City Council, which includes giving the City Auditor the authority to constrain monies for intended purposes. City Council has, by ordinance, authorized the City Auditor to assign fund balances for encumbrances outstanding at year-end.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

O. Minimum Fund Balance Policy

The City has established, via Council legislation, a minimum fund balance policy for unforeseen emergencies or revenue shortfalls and to eliminate the need for short-term borrowing for cash-flow needs. The City's minimum fund balance target was approximately 17.9% of the City's general fund expenditures. The minimum fund balance is to be maintained in the City's general fund unassigned fund balance.

P. Budget Stabilization Arrangement

Pursuant to Ohio Revised Code Section 5705.13, the City has established a reserve balance account, in the City's general fund (referred to as the Rainy Day Account), to be used in emergencies for operational expenditures. The reserve account will not exceed five percent of the previous year's general fund revenues, as dictated by Ohio law. The balance of the reserve balance account at December 31, 2019 is \$1,000,000. This amount is reported as a component of unassigned fund balance in the general fund and unrestricted net position in the governmental activities.

O. Estimates

The preparation of the BFS in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the BFS and accompanying notes. Actual results may differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

R. Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on the use of resources either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

S. Reimbursements

Reimbursements received from external sources outside of the City are reported as reimbursement revenue. Interfund activity is recorded as described in Note 2.M.

T. Contributions of Capital

Contributions of capital in proprietary fund financial statements and for the governmental activities arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction. Capital contributions are reported as revenue in the proprietary fund financial statements and on the government-wide statement of activities.

U. Unamortized Bond Premiums and Discounts/Accounting Gain or Loss

Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Bond premiums are presented as an addition to the face amount of the bonds. Bond discounts are presented as a reduction to the face amount of the bonds.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow.

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from refunding are recognized in the current period. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 11.

V. Interfund Balances

On fund financial statements, receivables and payables resulting from services provided from one fund to another is classified as "due to/from other funds". Receivables and payables resulting from interfund loans are classified as "interfund loans payable/receivable".

The City had no due to/from other funds or interfund loans payables/receivables at December 31, 2019.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

W. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2019.

X. Comparative Information

Comparative total data for the prior year have been presented in selected sections of the financial statements in order to provide an understanding of the changes in the government's financial position and operations. The financial statements include certain prior-year summarized comparative information in total, but not by net position class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the City's financial statements for the year ended December 31, 2018, from which the summarized information was derived. In addition, certain comparative amounts for 2018 have been restated to reflect the implementation of GASB Statement No. 84.

Y. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension asset, net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLES/RESTATEMENT OF NET POSITION

A. Change in Accounting Principles

For 2019, the City has implemented GASB Statement No. 83, "<u>Certain Asset Retirement Obligations</u>", GASB Statement No. 84, "<u>Fiduciary Activities</u>", GASB Statement No. 88, "<u>Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements</u>" and GASB Statement No. 90, "<u>Majority Equity Interests</u> - an amendment to GASB Statements No. 14 and No. 61".

GASB Statement No. 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability. The implementation of GASB Statement No. 83 did not have an effect on the financial statements of the City.

GASB Statement No. 84 establishes specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business-type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the City will no longer be reporting agency funds. The City reviewed its agency funds and certain funds will be reported in the new fiduciary classification of custodial funds, while other funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the City's financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLES/RESTATEMENT OF NET POSITION - (Continued)

GASB Statement No. 88 improves the information that is disclosed in notes to the basic financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. Certain disclosures related to the City's debt were added to the notes to the basic financial statements in accordance with GASB Statement No. 88. The implementation of GASB Statement No. 88 did not have an effect on the financial statements of the City; however, certain note disclosures in Note 11 have been modified to conform to the new requirements.

GASB Statement No. 90 improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The implementation of GASB Statement No. 90 did not have an effect on the financial statements of the City.

B. Restatement of Net Position

Due to the implementation of GASB Statement No.84, the new classification of custodial funds is reporting a beginning net position of \$65,589. Also, related to the implementation of GASB Statement No. 84, the City will no longer be reporting agency funds. At December 31, 2018, agency funds reported assets and liabilities of \$258,886.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the City into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the City has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits in interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio; and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts:
- 6. No-load money market mutual funds consisting exclusively of obligations described in items (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio); and
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

The City may also invest any monies not required to be used for a period of six months or more in the following:

- 1. Bonds of the State of Ohio; and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest or coupons; and,
- 3. Obligations of the City.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. In accordance with Ohio Revised Code, except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City and must be purchased with the expectation that it will be held to maturity. The City's investment policy limits security purchases to those that mature within two years of the settlement date. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash with Fiduciary Agent: At year end, the City had \$528,729 on deposit with the Hancock County Treasurer. The data regarding insurance and collateralization can be obtained from the Hancock County Comprehensive Annual Financial Report for the year ended December 31, 2019. This amount is not included in the City's depository balance below.

Cash with Escrow Agent: At year end, the City had \$48,483 on deposit with financial institutions for retainage escrow accounts and bond and coupon payments. These amounts are included in the City's depository balance below.

Cash in Segregated Accounts: At year end, the City had \$838,189 deposited with a financial institution for monies related to the Revolving Loan special revenue fund (a nonmajor governmental fund), the Municipal Court custodial fund, employee benefits, and for police special drug operations. These amounts are included in the City's depository balance below.

A. Deposits with Financial Institutions

At December 31, 2019, the carrying amount of all City deposits was \$23,961,002 and the bank balance was \$24,873,824. Of the bank balance, \$2,442,755 was covered by the FDIC and \$22,431,069 was covered by the Ohio Pooled Collateral System described below.

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2019, the City's financial institutions participated in the OPCS at a collateral rate of 102 percent. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

B. Investments

As of December 31, 2019, the City had the following investments and maturities:

| | | | | Investment M | aturities | | | |
|------------------------------|----------------------|------------|------------------|--------------|-----------|----------------|--|--|
| Measurement/ Investment type | Measurement Value | | 6 months or less | | | 7 to 12 months | | |
| investment type | | varue | less | | | monus | | |
| Fair Value: | | | | | | | | |
| FFCB | \$ | 2,021,160 | \$ | - | \$ | 2,021,160 | | |
| U.S. Treasury Notes | | 8,006,630 | | 6,008,350 | | 1,998,280 | | |
| Amortized Cost: | | | | | | | | |
| STAR Ohio | _ | 25,750,656 | | 25,750,656 | _ | | | |
| Total | \$ | 35,778,446 | \$ | 31,759,006 | \$ | 4,019,440 | | |

The weighted average length to maturity of investment is 0.13 years.

Fair Value Measurements: The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City's investments in federal agency securities (FFCB) and U.S. Treasury Notes are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk: The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The City's investment policy further limits security purchases to those that mature within two years of the settlement date. Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment.

Credit Risk: The City's investments in federal agency securities and U.S. Treasury Notes were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. STAR Ohio carries a rating of AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of December 31, 2019, is 60 days or less. The City's investment policy does not specifically address credit risk beyond requiring the City to only invest in securities authorized by State statute.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. In 2013, the City entered a third party custodial agreement as it pertains to investments to provide for the separation of the safekeeping and custody function from the investment function. By arranging to have securities held by a third party, the City can effectively minimize safekeeping or custodial risk in an investment transaction. With this agreement, investments are settled in a delivery-versus-payment (DVP) basis; at no point in time does the City not have either the cash or the investment. The federal agency securities and U.S. Treasury Notes are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the City's name.

The City has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the City Auditor or qualified trustee.

Concentration of Credit Risk: The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The following table includes the percentage of each investment type held by the City at December 31, 2019:

| Measurement/ Investment type | M | leasurement Amount | % of Total | | | |
|------------------------------|----|-----------------------|------------|--|--|--|
| Fair Value: | | | | | | |
| FFCB | \$ | 2,021,160 | 5.65 | | | |
| U.S. Treasury Notes | | 8,006,630 | 22.37 | | | |
| Amortized Cost: | | | | | | |
| STAR Ohio | | 25,750,656 | 71.98 | | | |
| Total | \$ | 35,778,446 | 100.00 | | | |

C. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of December 31, 2019:

| Cash and investments per note | | |
|-------------------------------|---------------|---|
| Carrying amount of deposits | \$ 23,961,000 | 2 |
| Investments | 35,778,44 | 6 |
| Cash with fiduciary agent | 528,729 | 9 |
| Total | \$ 60,268,17 | 7 |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

| Cash and investments per statement of net position | |
|--|------------------|
| Governmental activities | \$ 33,701,410 |
| Business-type activities | 26,066,224 |
| Fiduciary funds | 500,543 |
| Total | \$ 60,268,177 |

NOTE 5 - INTERFUND TRANSFERS

Interfund transfers for 2019 consisted of the following as reported in the fund financial statements:

| | Transfers From | | | | | | | | | |
|-------------------------------|----------------|-----------|----|-------------------------------------|--------------------------|---------|----|-----------|--|--|
| <u>Transfers To</u> | General | | | Street Maintenance and Repair | Nonmajor Governmental | | | Total | | |
| General fund | \$ | - | \$ | 317,013 | \$ | 422,112 | \$ | 739,125 | | |
| Street Maintenance and Repair | | 3,986,997 | | - | | | | 3,986,997 | | |
| Nonmajor governmental funds | | 631,832 | | - | | 365,620 | | 997,452 | | |
| Internal service funds | | 434,000 | | - | | - | | 434,000 | | |
| Water pollution controal fund | | 1,000 | | - | | - | | 1,000 | | |
| Airport fund | | 388,391 | | - | | - | | 388,391 | | |
| Nonmajor enterprise funds | | 102,000 | | | _ | | | 102,000 | | |
| Total | \$ | 5,544,220 | \$ | 317,013 | \$ | 787,732 | \$ | 6,648,965 | | |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers between governmental funds are eliminated for reporting on the statement of activities. Net transfers between governmental funds and enterprise funds are reported as transfers on the statement of activities.

The \$317,013 transfer from the street maintenance and repair fund to the general fund is the return of unused monies previously provided for street projects from the city income tax fund (which is a component of the general fund). Once the projects are complete, any monies left over from the initial funding of the projects are returned to the fund which initially funded the projects.

The \$422,112 transfer from the nonmajor governmental funds to the general fund consisted of a transfer from the debt service fund to return monies previously provided by the city income tax fund (which is a component of the general fund). As the debt obligations are satisfied, any monies remaining from the initial funding of those obligations are returned to the fund which initially funded the debt service payments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 5 - INTERFUND TRANSFERS – (Continued)

The \$365,620 transfer from the nonmajor governmental funds to the nonmajor governmental fund was to move the collection of county permissive license tax to the debt service fund to pay debt service charges on debt issued for which the permissive license tax was levied.

NOTE 6 - TAXES

A. Property Tax

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date.

Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established which is the case in Hancock County. Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2019 public utility property taxes became a lien December 31, 2018, are levied after October 1, 2019, and are collected in 2020 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the City of Findlay. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2019 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by a deferred inflow of resources since the current taxes were not levied to finance 2019 operations and the collection of delinquent taxes has been offset by a deferred inflow of resources since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is reported as a deferred inflow of resources. The tax rate applicable to the 2019 operations was 3.2 mills. The assessed values of real and public utility property upon which 2019 property tax receipts were based are as follows:

| Real property | \$ 893,935,650 |
|----------------------------------|----------------|
| Real and personal public utility | 58,355,060 |
| Total assessed value | \$ 952,290,710 |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 6 - TAXES - (Continued)

B. City Income Tax

The City levies an income tax of 1.00% on the gross salaries, wages, and other service compensation earned by residents of the City and to the earnings of nonresidents working within the City. The City income tax rate was and has been 1.00% since it was imposed on January 1, 1967. Effective January 1, 2010, the income tax rate was increased to 1.25% for a period of three years and the temporary 0.25% tax increase ended at December 31, 2012. Beginning January 1, 2013, the City's income tax rate reverted back to 1.0%. This tax also applies to the net income of businesses operating within the City. The City also requires certain employers to remit withholding taxes on a monthly basis as opposed to a quarterly basis.

The receipts of the City income tax and the administrative costs associated with their collection are accounted for in the city income tax administration fund (a component of the general fund for financial reporting purposes). Income tax receipts, net of the related administrative costs, are disbursed, appropriated, and allocated in accordance with City Ordinance. For 2019, 80% was transferred to the general fund and 20% was restricted within the city income tax administration fund (a component of the general fund for financial reporting purposes) for capital improvements. For 2020, the percentages will remain the same as 2019 with 80% being transferred to the general fund and 20% being restricted within the city income tax administration fund (a component of the general fund for financial reporting purposes) for capital improvements. The allocation is determined by ordinance of Council and can be changed by Council at any time.

The city income tax administration fund is reported as a component of the general fund for GAAP reporting. As such, transfers between the city income tax administration fund and the general fund have been eliminated. The general fund reported income tax revenues of \$25,928,394 for 2019.

C. Tax Abatements

As of December 31, 2019, the City provides property tax abatements through a Community Reinvestment Area (CRA) program.

<u>CRA</u> - Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 6 - TAXES - (Continued)

The City has entered into agreements to abate property taxes through this program. During 2019, the City's property tax revenues were reduced as a result of these agreements as follows:

| | | City |
|-----------------------|------|-----------|
| Tax Abatement Program | Taxe | es Abated |
| CRA | \$ | 48,471 |

NOTE 7 - RECEIVABLES

A. Proprietary Funds

The City's receivables from outside parties at December 31, 2019, by fund, are shown as follows:

| | | | N | Major Funds | | | | |
|--------------------------------------|----|-----------|----|--------------------|---------------------|-------------|----------------------|-----------|
| | | | | Water Pollution | Internal Service | Е | Total Proprietary | |
| | _ | Water | _ | Control | Airport | Funds | _ | Funds |
| Billed and unbilled | | | | | | | | |
| charges for services | \$ | 1,094,030 | \$ | 1,567,848 | \$ 78,370 | \$ - | \$ | 2,740,248 |
| Accrued interest - unrestricted | | 17,088 | | 26,575 | | 1,822 | | 45,485 |
| Total receivables, net of allowances | \$ | 1,111,118 | \$ | 1,594,423 | \$ 78,370 | \$ 1,822 | \$ | 2,785,733 |
| Total due from outside parties | \$ | 1,111,118 | \$ | 1,594,423 | \$ 78,370 | \$ 1,822 | \$ | 2,785,733 |

Residents are billed on a bi-monthly basis for water and wastewater service with approximately one-half of the City's customers being billed each month. Unbilled service receivables are accrued based upon the consumption for the applicable area of the City during the related period. Accrued interest represents the amount of interest that has accrued on investments as of December 31, 2019. All receivables for the proprietary funds are expected to be collected within the subsequent year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 7 - RECEIVABLES - (Continued)

B. Governmental Funds

The City's receivables from outside parties at December 31, 2019, by fund, are shown as follows:

| Local government funds | | 234,794 | | - | | - | | 234,794 | |
| State tax | | 81,112 | | - | | - | | 81,112 | |
| Fuel tax | | - | | 1,149,718 | | 93,221 | | 1,242,939 | |
| Motor vehicle license fees | | - | | 201,939 | | 16,373 | | 218,312 | |
| Bureau of Worker's Compensation | | 14,020 | | - | | | | 14,020 | |
| Total due from other governments | \$ | 455,275 | \$ | 1,351,657 | \$ | 138,598 | \$ | 1,945,530 | |
| Total due from outside parties | \$ | 10,412,924 | \$ | 1,400,665 | <u>\$</u> | 1,301,246 | \$ | 13,114,835 | |

The stated receivable amounts are net of the applicable allowance for uncollectibles. Such allowance balances are not significant in relation to the respective receivable balances.

City income taxes accrued at December 31, 2019 represent income taxes due the City at year end. Delinquent income taxes represent interest, penalties, and additional taxes due as a result of audits of returns filed.

Property taxes accrued at December 31, 2019 represent the City's portion of 2020 taxes to be collected by the Hancock County Treasurer during 2019 based on the assessed value of property described in Note 6.A.

Hotel/Motel taxes accrued at December 31, 2019 represent 2019 transient lodging taxes due to the City at year end and collected in the first quarter of 2019 from hotels and motels located within the City's corporation limits.

Economic development loans receivable at December 31, 2019 reported in the Revolving Loan Fund (a nonmajor governmental fund) represent loans to qualified businesses for the purpose of economic development. These loans are being repaid over a number of years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 7 - RECEIVABLES - (Continued)

Special assessments represent amounts due from taxpayers for certain pavement, sidewalk, and storm sewer work performed by the City. Special assessments are collected over a number of years.

Tax increment financing payments accrued at December 31, 2019 represent 2019 service payments in lieu of taxes for improvement projects performed benefitting specific real estate parcels.

Accrued interest represents the amount of interest that has accrued on investments as of December 31, 2019.

Due from other governments in the general fund represents 2019 local government monies and property tax rollbacks (intergovernmental) anticipated to be received by the City from January 1, 2020 through June 30, 2020.

Due from other governments in the special revenue funds represents 2019 motor vehicle license fees, gasoline excise taxes, and property tax rollbacks anticipated to be received by the City from January 1, 2020 to June 30, 2020.

The only receivables for the governmental funds that are not expected to be collected within the subsequent year are the special assessments and economic development loans which are collected over the life of the assessment or the life of the loan, respectively.

NOTE 9 - RISK MANAGEMENT

A. Municipal Liability Self-Insurance Fund

During 1987, the City established a Self-Insurance Fund which has been recorded as part of the Internal Service Funds. This Self-Insurance Fund serves the purpose of handling, processing, and paying general municipality liability insurance claims in lieu of purchasing general municipality liability insurance.

The City's plan covers a limit of \$1,000,000 per occurrence for bodily injury liability and \$1,000,000 aggregate for property damage liability. No settlements have exceeded this insurance coverage in any of the past three years. The City is fully insured through premium-based insurance policies for most other types of insurance including building and contents, fleet, workers' compensation, public officials' liability, etc. There has been no significant reduction in coverage from the prior year.

The City's policy for reporting a claims liability is based on the requirements GASB Statement No. 10, "<u>Accounting and Financial Reporting for Risk Financing and Related Insurance Issues</u>", as amended by GASB Statement No. 30, "<u>Risk Financing Omnibus</u>", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling the claims. It is the opinion of the City's legal counsel that, as of December 31, 2019, there were no material outstanding claims pending for the Self-Insurance fund. Claims activity for 2019 and 2018 are as follows:

| Year | nce at | Claims | and Changes Estimates | P | Claim ayments | Balance at End of Year | |
|------|---------|--------|-----------------------|----|------------------|---------------------------|---|
| 2019 | \$ - | \$ | 10,269 | \$ | (10,269) | \$ | _ |
| 2018 | - | | 16,400 | | (16,400) | | - |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 9 - RISK MANAGEMENT - (Continued)

B. Individual Retrospective Workers' Compensation Plan

For the period 2010 through 2013, the City participated in the Ohio Bureau of Workers' Compensation (Bureau) Retrospective Rating Plan (the Plan). The alternative rating program requires the City to pay only administrative charges to the Bureau, and in turn the City assumes the responsibility of paying all claims incurred during the policy period for up to ten years. After the tenth year, the Bureau will assume any existing claim for its duration. The City will be charged an actuarial amount for the claims transferred to the Bureau. The City's stop-loss coverage through the Plan is limited to \$300,000 per claim with a stop-loss annual coverage aggregate of 200% of the experience premium if the City would not have participated in the Plan. The City discontinued participation in the individual retrospective rating plan (described below). The City will continue to report activity related to the individual retrospective rating plan for a ten year period ending 2023.

The City's activity related to the Plan is accounted for in an internal service fund which will pay for all claims, claim reserves and administrative costs of the program. The internal service fund generates revenues by charging each fund a percentage rate determined by the City as recommended by its third party administrator for workers' compensation for the payroll during the reporting period. The claims liability of \$30,707 reported in the basic financial statements at December 31, 2019, is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling the claim. This liability has been reported as "workers' compensation payable" in the financial statements. Changes in the workers' compensation payable liability in 2019 and 2018 are as follows:

| | | | Cur | rent Year | | | | | |
|------|-------|--------------|--------|--------------|----|----------|----|-------------|--|
| | B | alance at | Claims | and Changes | | Claim | В | alance at | |
| Year | Begin | ning of Year | in I | in Estimates | | Payments | | End of Year | |
| 2019 | \$ | 37,231 | \$ | 14,145 | \$ | (20,669) | \$ | 30,707 | |
| 2018 | | 43,018 | | (3,291) | | (2,496) | | 37,231 | |

C. Group Retrospective Workers' Compensation Plan

The City participates in the Bureau's Group Retrospective Rating Plan. Under this plan, the City pays an individual annual premium to the Bureau and has the opportunity to receive retrospective premium adjustments based upon the combined performance of the group. Depending on that performance, the participating employers can receive either a premium refund or assessment. The Group Retrospective Rating Plan provides incentives to the group retro members to control and reduce losses.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 9 - RISK MANAGEMENT - (Continued)

D. Medical, Dental and Prescription Drug Benefits

The City is self-insured for medical, dental, vision and prescription drug benefits (the Program). The Program is administered through a third party administrator who manages and processes the claims. The City makes required payments to the third party administrator to reimburse them for the claim payments. The City's stop-loss coverage through the Program is limited to \$100,000 per claim with a stop-loss annual coverage aggregate that varies based upon the number of contracts in the Program. The City utilizes Findley Davies as its health benefits actuary. The City's policy for reporting a claims liability is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling the claims. The City has reported a liability in both the fund and government-wide financial statements amounting to \$454,612 for estimated claims payments incurred and due at year-end. This liability has been reported as "insurance deposits payable" in the financial statements. Changes in the insurance deposits payable liability in 2019 and 2018 follows:

| | | | Cı | urrent Year | | | | | |
|------|-------|---------------|-------|---------------|----|-------------|----|-------------|--|
| | В | alance at | Claim | s and Changes | | Claim | В | alance at | |
| Year | Begir | nning of Year | in | in Estimates | | Payments | | End of Year | |
| 2019 | \$ | 345.516 | \$ | 4.877.790 | \$ | (4,768,694) | \$ | 454,612 | |
| 2018 | • | 352,518 | | 4,096,585 | ŕ | (4,103,587) | | 345,516 | |

NOTE 10 - RESTRICTED ASSETS

Restricted assets at December 31, 2019 are comprised of the following:

| | (| Cash and | |
|--|-------------|-----------|--|
| | Investments | | |
| Major governmental funds: | | | |
| General fund: | | | |
| Restricted for capital improvements | \$ | 3,112,413 | |
| Total governmental activities | \$ | 3,112,413 | |
| Major enterprise funds: | | | |
| Water fund: | | | |
| Restricted for capital improvements to utility lines | \$ | 885,129 | |
| Water Pollution Control fund: | | | |
| Restricted for capital improvements to utility lines | | 6,154,296 | |
| Total business-type activities | \$ | 7,039,425 | |

Restricted cash and investments in the governmental funds are equally offset by a fund balance commitment.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 11 - LONG-TERM OBLIGATIONS - (Continued)

Series 2011 Energy Bonds

On June 30, 2011, the City issued \$518,006 of energy improvement bonds - Series 2011A and \$518,005 of energy improvement bonds - Series 2011B to finance energy efficiency and conservation systems in the City. The bonds were issued through the State of Ohio Air Quality Development Authority (the "Authority"). On June 30, 2011, the City entered into a loan agreement with the Authority whereby the City agreed to pay the debt service payments on the bonds issued by the Authority. The Series B bonds are qualified energy bonds whose interest is partially subsidized by the federal government. The full amount of the interest expenditure is reported on the financial statements and the interest subsidy is reported as intergovernmental revenue. During 2019, the City received interest subsidies totaling \$17,340 from the federal government related to the Series B bonds. Principal and interest payments are made from the debt service fund (a nonmajor governmental fund). The bonds pay interest semiannually on June 1 and December 1 of each year and mature on December 1, 2019 (Series A bonds) and December 1, 2026 (Series B bonds). These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment.

During 2019, the City made \$71,551 in principal payments on the Series A bonds. The Series A bonds were paid in full at year end. During 2019, the City made no principal payments on the Series B bonds with the liability remaining at \$518,005 at year end.

Series 2016 Various Purpose Refunding Bonds (HRC/CUBE Rehab Portion)

On August 17, 2016, the City issued \$6,505,000 of various purpose refunding bonds (\$2,685,000 Series 2016A and \$3,820,000 Series 2016B) to advance refund the Series 2008 various purpose general obligation bonds. A portion of the proceeds, \$2,170,000, were issued for the purpose of advance refunding the remaining portion of the Series 2008 various purpose bonds (HRC/CUBE Rehab Portion). Proceeds of the Series 2016 issue were deposited into an escrow fund to provide for the retirement of the Series 2008 various purpose bonds (HRC/CUBE Rehab Portion). The refunded bonds are not included in the City's outstanding debt since the City has satisfied its obligations through the refunding (in-substance defeased). The assets held in trust as a result of the refunding are not included in the financial statements.

The refunding issue is comprised of current interest serial and term bonds, par value \$2,170,000. Principal and interest payments are made from the debt service fund (a nonmajor governmental fund). The refunding bonds pay interest semiannually on January 1 and July 1 of each year and mature on July 1, 2033. The refunding bonds are general obligations of the City for which the full faith and credit of the City is pledged for repayment.

The reacquisition price exceeded the net carrying amount of the old debt by \$188,765. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the refunding debt.

Series 2016 Various Purpose Refunding Bonds (County Road 236 Land Acquisition Portion)

On August 17, 2016, the City issued \$6,505,000 of various purpose refunding bonds (\$2,685,000 Series 2016A and \$3,820,000 Series 2016B) to advance refund the Series 2008 various purpose general obligation bonds. A portion of the proceeds, \$640,000, were issued for the purpose of advance refunding the remaining portion of the Series 2008 various purpose bonds (County Road 236 Land Acquisition Portion). Proceeds of the Series 2016 issue were deposited into an escrow fund to provide for the retirement of the Series 2008 various purpose bonds (County Road 236 Land Acquisition Portion). The refunded bonds are not included in the City's outstanding debt since the City has satisfied its obligations through the refunding (in-substance defeased). The assets held in trust as a result of the refunding are not included in the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 11 - LONG-TERM OBLIGATIONS - (Continued)

The refunding issue is comprised of current interest serial and term bonds, par value \$640,000. Principal and interest payments are made from the debt service fund (a nonmajor governmental fund). The refunding bonds pay interest semiannually on January 1 and July 1 of each year and mature on July 1, 2033. The refunding bonds are general obligations of the City for which the full faith and credit of the City is pledged for repayment.

The reacquisition price exceeded the net carrying amount of the old debt by \$46,223. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the refunding debt.

Series 2016 Various Purpose Refunding Bonds (County Road 236 Widening Portion)

On August 17, 2016, the City issued \$6,505,000 of various purpose refunding bonds (\$2,685,000 Series 2016A and \$3,820,000 Series 2016B) to advance refund the Series 2008 various purpose general obligation bonds. A portion of the proceeds, \$3,245,000, were issued for the purpose of advance refunding the remaining portion of the Series 2008 various purpose bonds (County Road 236 Widening Portion). Proceeds of the Series 2016 issue were deposited into an escrow fund to provide for the retirement of the Series 2008 various purpose bonds (County Road 236 Widening Portion). The refunded bonds are not included in the City's outstanding debt since the City has satisfied its obligations through the refunding (in-substance defeased). The assets held in trust as a result of the refunding are not included in the financial statements.

The refunding issue is comprised of current interest serial and term bonds, par value \$3,245,000. Principal and interest payments are made from the debt service fund (a nonmajor governmental fund). The refunding bonds pay interest semiannually on January 1 and July 1 of each year and mature on July 1, 2033. The refunding bonds are general obligations of the City for which the full faith and credit of the City is pledged for repayment.

The reacquisition price exceeded the net carrying amount of the old debt by \$221,283. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the refunding debt.

Special Assessment Bonds

The City has one special assessment bond outstanding at year end. Special assessments bonds were issued to provide various improvements throughout the City. The bonds will be repaid by tax assessments against the property owner whose benefits from the improvements exceed that of the general public. The bonds are secured by the full faith and credit of the City. In the event that an assessed property owner fails to make payments, the City will be required to pay the related debt. Interest on these bonds is payable semiannually at stated interest rates. The principal and interest payments are made from the debt service fund (a nonmajor governmental fund).

Ohio Public Works Commission (OPWC) Loans

The City has entered into loan agreements with the OPWC to finance Crystal/Melrose intersection improvements and Howard Street improvements. These loans are interest free and have twenty year terms. The OPWC loans may not be prepaid or retired prior to their scheduled maturity. The OPWC loans are being retired out of the debt service fund (a nonmajor governmental fund).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 11 - LONG-TERM OBLIGATIONS - (Continued)

OPWC loans are direct borrowings that have terms negotiated directly between the City and the OPWC and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the City for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the City is located to pay the amount of the default from funds that would otherwise be appropriated to the City from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

Police and Fire Past Service Liability

The City's accrued past service liability to the Ohio Police and Fire Pension Fund (OP&F) was determined and became a legal obligation to the State at the date the City became a participant in OP&F. The City pays this liability in semiannual installments of \$37,435 each, including principal and interest, through the year 2035. This liability has been recorded as a governmental activities long-term obligation using an implicit interest rate of approximately 4.3%. The principal and interest payments are recorded in the security of persons and property expenditures in the general fund on the governmental fund statements.

Compensated Absences

Compensated absences consist of vacation, holivac compensatory time and floating holiday balances due and payable at year-end. In addition, estimated sick time (severance) payments are also included as described in Note 2.K. Compensated absences will be paid from the general fund and the street maintenance and repair fund.

Net Pension Liability and Net OPEB Liability

The City pays obligations related to employee compensation from the fund benefitting from their services, primarily the general, SCMR, water, and sewer funds. See Notes 12 and 13 for further information.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 11 - LONG-TERM OBLIGATIONS - (Continued)

Series 2014 Various Purpose Bonds (Sewer Bar Screens Portion)

On April 3, 2014, the City issued \$7,935,000 in various purpose general obligation bonds to fund water and sewer projects and to refund previously issued bonds. A portion of the proceeds, \$1,350,000, were issued for the purpose of designing and installing bar screens for the oxidation ditches at the wastewater treatment plant and making related improvements to the municipal sewer system, including acquiring all necessary appurtenances thereto.

The refunding issue is comprised of current interest serial bonds, par value \$1,350,000. During 2019, the City made \$275,000 in principal payments on these bonds. The bonds were paid off at year end. Principal and interest payments are made from the water pollution control fund. The bonds pay interest semiannually on January 1 and July 1 of each year and matured on July 1, 2019. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment.

Series 2014 Various Purpose Bonds (Water Clear Wells Portion)

On April 3, 2014, the City issued \$7,935,000 in various purpose general obligation bonds to fund water and sewer projects and to currently refund previously issued bonds. A portion of the proceeds, \$2,000,000, were issued for the purpose of modifying, repairing and/or replacing clear wells at the water treatment plant and making related improvements to the municipal water system, including all appurtenances thereto.

The refunding issue is comprised of current interest serial bonds, par value \$2,000,000. During 2019, the City made \$410,000 in principal payments on these bonds. The bonds were paid off at year end. Principal and interest payments are made from the water fund. The bonds pay interest semiannually on January 1 and July 1 of each year and matured on July 1, 2019. These bonds are general obligations of the City for which the full faith and credit of the City are pledged for repayment.

Ohio Water Development Authority (OWDA) Loans

The City is eligible to borrow funds under the water pollution control loan fund agreement (WPCLFA) with the Ohio Water Development Authority to pay the approved eligible project costs of designing improvements to and extensions of the City's municipal sewerage system, including main sewer lines and additions to the City's water pollution control plant. In addition, the City has also borrowed funds through the OWDA (not part of the WPCLFA) to finance water treatment plant improvements.

On October 28, 1999, the City entered into a financing agreement with OWDA under the WPCLFA to borrow \$32,470,000 for sewer system improvements. The loan bears interest at 4.36% with principal and interest payments due semi-annually on January 1 and July 1 of each year. Effective January 1, 2016, the City began receiving a 3.00% interest subsidy from the OWDA on this loan effectively reducing the interest rate to 1.36%. The term of the loan is 20 years and payments on the loan began in 2001 after the borrowing was complete. Principal and interest payments are made from the water pollution control fund

On August 30, 2001, the City entered into an additional financing agreement with OWDA under the WPCLFA to borrow \$3,597,546 for Bright Road interceptor and sewer separation. The loan bears interest at 1.73%, with principal and interest payments due semi-annually on January 1 and July 1 of each year. The term of the loan is 20 years and payments on the loan began in 2003 after the borrowing was complete. Principal and interest payments are made from the water pollution control fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 11 - LONG-TERM OBLIGATIONS - (Continued)

On December 8, 2005, the City entered into a financing agreement with OWDA to borrow \$4,029,589 for water treatment plant improvements. The loan bears interest at 3.25% with principal and interest payments due semi-annually on January 1 and July 1 of each year. Effective January 1, 2016, the City began receiving a 3.00% interest subsidy from the OWDA on this loan effectively reducing the interest rate to 0.25%. The term of the loan is 20 years and payments on the loan began in 2006 after the borrowing was complete. Principal and interest payments are made from the water fund.

OWDA loans are direct borrowings that have terms negotiated directly between the City and the OWDA and are not offered for public sale. In the event of default, the OWDA may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

Ohio Public Works Commission (OPWC) Loans

The City has entered into loan agreements with the OPWC to finance various water improvement projects. All OPWC loans are interest free and have twenty-year terms. The OPWC loans are being retired out of the water fund.

OPWC loans are direct borrowings that have terms negotiated directly between the City and the OPWC and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the City for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the City is located to pay the amount of the default from funds that would otherwise be appropriated to the City from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

Compensated Absences

Compensated absences consist of vacation, holivac, compensatory time and floating holiday balances due and payable at year-end. In addition, estimated sick time (severance) payments are also included as described in Note 2.K). Compensated absences will be paid from the water fund, water pollution control fund, airport fund and the parking fund (a nonmajor enterprise fund).

Net Pension Liability and Net OPEB Liability

The City pays obligations related to employee compensation from the fund benefitting from their services, primarily the general, SCMR, water, and sewer funds. See Notes 12 and 13 for further information.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability/Asset

The net pension liability/asset reported on the statement of net position represents a liability or asset to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/asset represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes any net pension liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability/asset on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the Member-Directed Plan and the Combined Plan, substantially all employee members are in OPERS' Traditional Pension Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the Traditional Pension Plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the Traditional Pension Plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

| Group A | | | | | |
|-------------------------------|--|--|--|--|--|
| Eligible to retire prior to | | | | | |
| January 7, 2013 or five years | | | | | |
| after January 7, 2013 | | | | | |

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

Group C Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Group B

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

State and Local

Age and Service Requirements:

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.00% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.00% to the member's FAS for the first 30 years of service.

A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.00% to the member's FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 3.00% COLA adjustment on the defined benefit portion of their benefit.

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS's Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS CAFR.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State and Loc | al |
|---|---------------|----|
| 2019 Statutory Maximum Contribution Rates | | |
| Employer | 14.0 | % |
| Employee *** | 10.0 | % |
| 2019 Actual Contribution Rates | | |
| Employer: | | |
| Pension | 14.0 | % |
| Post-employment Health Care Benefits **** | 0.0 | % |
| Total Employer | 14.0 | % |
| Employee | 10.0 | % |

^{***} Member contributions within the combined plan are not used to fund the defined benefit retirement allowance

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$1,498,531 for 2019. Of this amount, \$55,488 is reported as accrued wages and benefits.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

^{****} This employer health care rate is for the traditional and combined plans. The employer contribution for the member-directed plan is 4.00%.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.50% for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.00% or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to 3.00% of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | Police | Firefighters |
|---|---------|--------------|
| 2019 Statutory Maximum Contribution Rates | | |
| Employer | 19.50 % | 24.00 % |
| Employee | 12.25 % | 12.25 % |
| 2019 Actual Contribution Rates | | |
| Employer: | | |
| Pension | 19.00 % | 23.50 % |
| Post-employment Health Care Benefits | 0.50 % | 0.50 % |
| Total Employer | 19.50 % | 24.00 % |
| Employee | 12.25 % | 12.25 % |

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,890,375 for 2019. Of this amount, \$75,714 is reported as accrued wages and benefits.

In addition to current contributions, the City pays installments on a specific liability of the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2019, the specific liability of the City was \$841,931 payable in semi-annual payments through the year 2035.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for the OPERS Traditional Pension Plan, Combined Plan and Member-Directed Plan, respectively, were measured as of December 31, 2018, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2018, and was determined by rolling forward the total pension liability as of January 1, 2018, to December 31, 2018. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

| | | | OPERS - | | |
|--|---------------------|-----------------------|-------------|---------------------|---------------|
| | OPERS - | OPERS - | Member- | | |
| | Traditional | Combined | Directed | OP&F | Total |
| Proportion of the net pension liability/asset prior measurement date | 0.07130000% | 0.08058000% | 0.08105300% | 0.38637000% | |
| Proportion of the net pension liability/asset | | | | | |
| current measurement date | <u>0.07196600</u> % | 0.08000600% | 0.08484600% | 0.39830300% | |
| Change in proportionate share | <u>0.00066600</u> % | - <u>0.00057400</u> % | 0.00379300% | <u>0.01193300</u> % | |
| Proportionate share of the net pension liability | \$ 19,710,028 | \$ - | \$ - | \$ 32,512,049 | \$ 52,222,077 |
| Proportionate share of the net | | | | | |
| pension asset | - | (89,466) | (1,933) | - | (91,399) |
| Pension expense | 4,296,441 | 24,826 | (501) | 4,432,133 | 8,752,899 |

Of the City's proportionate share of the net pension liability of \$52,222,077, \$44,997,250 is reported in the governmental activities and \$7,224,827 is reported in the business-type activities.

Of the City's proportionate share of the net pension asset of \$91,399, \$57,896 is reported in the governmental activities and \$33,503 is reported in the business-type activities.

Of the City's total pension expense of \$8,752,899, \$7,135,117 is reported in the governmental activities and \$1,617,782 is reported in the business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | OPERS - Traditional | | | PERS - | Member- Directed | | OP&F | | Total | |
|--|------------------------|------------------------|----|------------------|---------------------|------------|------|----------------------|-------|------------------------|
| Deferred outflows of resources | | | | | | | | | | |

Actuarial Assumptions - OPERS

Actuarial cost method

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2018, using the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 67.

Wage inflation Future salary increases, including inflation 3.25% to 10.75% including wage inflation COLA or ad hoc COLA

through 2018, then 2.15% simple Investment rate of return Current measurement date Prior measurement date

7.20% 7.50% Individual entry age

3.25%

Pre 1/7/2013 retirees: 3.00%, simple Post 1/7/2013 retirees: 3.00%, simple

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 2.94% for 2018.

The allocation of investment assets with the Defined Benefit portfolio is approved by the OPERS Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

| | | Weighted Average |
|------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Arithmetic) |
| Fixed income | 23.00 % | 2.79 % |
| Domestic equities | 19.00 | 6.21 |
| Real estate | 10.00 | 4.90 |
| Private equity | 10.00 | 10.81 |
| International equities | 20.00 | 7.83 |
| Other investments | 18.00 | 5.50 |
| Total | 100.00 % | 5.95 % |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate - The discount rate used to measure the total pension liability/asset was 7.20%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2018 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability/Asset to Changes in the Discount Rate - The following table presents the City's proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 7.20%, as well as what the City's proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (6.20%) or one-percentage-point higher (8.20%) than the current rate:

| | | | Current | | |
|---------------------------------------|---------------|----|--------------|----|------------|
| | 1% Decrease | D | iscount Rate | 1 | % Increase |
| City's proportionate share | | | | | _ |
| of the net pension liability (asset): | | | | | |

| Combined Plan | (29,602) | | (89,466) | | (132,810) |
| Member-Directed Plan | (848) | | (1,933) | | (3,394) |

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2018 is based on the results of an actuarial valuation date of January 1, 2018, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2018, are presented below.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

| Age | Police | Fire |
|------------|--------|------|
| 67 or less | 77% | 68% |
| 68-77 | 105% | 87% |
| 78 and up | 115% | 120% |

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

| Age | Police | Fire |
|------------|--------|------|
| 59 or less | 35% | 35% |
| 60-69 | 60% | 45% |
| 70-79 | 75% | 70% |
| 80 and up | 100% | 90% |

The most recent experience study was completed for the five-year period ended December 31, 2016. The recommended assumption changes based on this experience study were adopted by OP&F's Board and were effective beginning with the January 1, 2018 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy and Guidelines. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2018 are summarized below:

| | Target | 10 Year Expected | 30 Year Expected |
|-----------------------------|------------|------------------------|------------------------|
| Asset Class | Allocation | Real Rate of Return ** | Real Rate of Return ** |
| Cash and Cash Equivalents | - % | 1.00 % | 0.80 % |
| Domestic Equity | 16.00 | 5.30 | 5.50 |
| Non-US Equity | 16.00 | 6.10 | 5.90 |
| Private Markets | 8.00 | 8.40 | 8.40 |
| Core Fixed Income * | 23.00 | 2.20 | 2.60 |
| High Yield Fixed Income | 7.00 | 4.20 | 4.80 |
| Private Credit | 5.00 | 8.30 | 7.50 |
| U.S. Inflation | | | |
| Linked Bonds * | 17.00 | 1.30 | 2.30 |
| Master Limited Partnerships | 8.00 | 6.70 | 6.40 |
| Real Assets | 8.00 | 7.00 | 7.00 |
| Private Real Estate | 12.00 | 5.70 | 6.10 |
| Total | 120.00 % | | |

Note: assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.20 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total pension liability was calculated using the discount rate of 8.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

NOTE 12 - DEFINED BENEFIT PENSION PLANS - (Continued)

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00%), or one percentage point higher (9.00%) than the current rate.

| | | Current | | | | | | |
|------------------------------|---------------|---------------|------------|---------------|--|--|--|--|
| | 1% Decrease | Discount Rate | | 1% Increase | | | | |
| City's proportionate share | | | | | | | | |
| of the net pension liability | \$ 42,734,849 | \$ | 32,512,049 | \$ 23,969,425 | | | | |

NOTE 13 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the City's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Health care is not being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2019, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care was 0.00% for the Traditional and Combined plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2019 was 4.00%.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution was \$21,510 for 2019. Of this amount, \$796 is reported as accrued wages and benefits.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment healthcare plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. OP&F provides health care benefits including coverage for medical, prescription drug, dental, vision, and Medicare Part B Premium to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to postretirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit, or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Government Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% and 24.00% of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. There is one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. An Internal Revenue Code 401(h) account is maintained for Medicare Part B reimbursements.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2019, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Beginning January 1, 2019, OP&F changed its retiree health care model and the current self-insured health care plan will no longer be offered. In its place is a stipend-based health care model. A stipend funded by OP&F will be placed in individual Health Reimbursement Accounts that retirees will use to be reimbursed for health care expenses.

The City's contractually required contribution to OP&F was \$44,444 for 2019. Of this amount, \$1,780 is reported as accrued wages and benefits.

Net OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2018, and was determined by rolling forward the total OPEB liability as of January 1, 2018, to December 31, 2018. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

| | OPERS | | | OP&F | Total |
|---------------------------------------|-------|-------------|----|--------------|--------------------|
| Proportion of the net | | | | | _ |
| OPEB liability prior measurement date | 0 | .07199000% | | 0.38637000% | |
| Proportion of the net | Ü | .0717700070 | | 0.3003700070 | |
| OPEB liability | | | | | |
| current measurement date | 0 | .07271600% | | 0.39830300% | |
| Change in proportionate share | 0 | .00072600% | | 0.01193300% | |
| Proportionate share of the net | | | | | |
| OPEB liability | \$ | 9,480,449 | \$ | 3,627,160 | \$ 13,107,609 |
| OPEB expense | \$ | 911,607 | \$ | (18,531,521) | \$ (17,619,914) |

Of the City's proportionate share of the net OPEB liability of \$13,107,609, \$9,632,495 is reported in the governmental activities and \$3,475,114 is reported in the business-type activities.

Of the City's total OPEB expense of (\$17,619,914), (\$17,952,279) is reported in the governmental activities and \$332,365 is reported in the business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | | OPERS | OP&F | | | Total |
|---|----|----------|------|-----------|-------|-----------|
| Deferred outflows | | | | | | |
| of resources | | | | | | |

| inite of resources | Ψ | 13,177 | Ψ | 1,001,702 | Ψ | 1,720,101 |

\$65,954 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2020. Of the total contributions made subsequent to the measurement date, \$58,069 relates to governmental activities and \$7,885 relates to business-type activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| | OPERS | | OP&F | | Total |
|--------------------------|-------|---------|------|---------|-----------------|
| Year Ending December 31: | | | | | |
| 2020 | \$ | 375,247 | \$ | 114,876 | \$ 490,123 |
| 2021 | | 114,331 | | 114,876 | 229,207 |
| 2022 | | 72,387 | | 114,876 | 187,263 |
| 2023 | | 218,946 | | 152,013 | 370,959 |
| 2024 | | - | | 93,467 | 93,467 |
| Thereafter | | | | 61,303 | 61,303 |
| Total | \$ | 780,911 | \$ | 651,411 | \$ 1,432,322 |

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date of December 31, 2018. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

| Wage Inflation | 3.25% |
|-----------------------------|--------------------------|
| Projected Salary Increases, | 3.25 to 10.75% |
| including inflation | including wage inflation |
| Single Discount Rate: | |
| Current measurement date | 3.96% |
| Prior Measurement date | 3.85% |
| Investment Rate of Return | |
| Current measurement date | 6.00% |
| Prior Measurement date | 6.50% |
| Municipal Bond Rate | |
| Current measurement date | 3.71% |
| Prior Measurement date | 3.31% |
| Health Care Cost Trend Rate | |
| Current measurement date | 10.00% initial, |
| | 3.25% ultimate in 2029 |
| Prior Measurement date | 7.50%, initial |
| | 3.25%, ultimate in 2028 |
| Actuarial Cost Method | Individual Entry Age |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2018, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio is 5.60% for 2018.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2018 and the long-term expected real rates of return:

| | | Weighted Average | | | |
|------------------------------|------------|---------------------|--|--|--|
| | | Long-Term Expected | | | |
| | Target | Real Rate of Return | | | |
| Asset Class | Allocation | (Arithmetic) | | | |
| Fixed Income | 34.00 % | 2.42 % | | | |
| Domestic Equities | 21.00 | 6.21 | | | |
| Real Estate Investment Trust | 6.00 | 5.98 | | | |
| International Equities | 22.00 | 7.83 | | | |
| Other investments | 17.00 | 5.57 | | | |
| Total | 100.00 % | 5.16 % | | | |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Discount Rate - A single discount rate of 3.96% was used to measure the OPEB liability on the measurement date of December 31, 2018. A single discount rate of 3.85% was used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 3.71%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2031. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2031, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate - The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 3.96%, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.96%) or one-percentage-point higher (4.96%) than the current rate:

Current

| | | Current | | | | | |
|----------------------------|---------------|---------------|-----------|--------------|--|--|--|
| | 1% Decrease | Discount Rate | | 1% Increase | | | |
| City's proportionate share | | | _ | | | | |
| of the net OPEB liability | \$ 12,129,029 | \$ | 9,480,449 | \$ 7,374,130 | | | |

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2019 is 10.00%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25% in the most recent valuation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Actuarial Assumptions - OP&F

OP&F's total OPEB liability as of December 31, 2018, is based on the results of an actuarial valuation date of January 1, 2018, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

> Valuation Date January 1, 2018, with actuarial liabilities

rolled forward to December 31, 2018 Actuarial Cost Method

Entry Age Normal (Level Percent of Payroll)

Investment Rate of Return 8.00% Projected Salary Increases 3.75% to 10.50%

Payroll Growth Inflation rate of 2.75% plus productivity increase rate of 0.50%

Single discount rate: Currrent measurement date 4.66%

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

| Age | Police | Fire |
|------------|--------|------|
| 67 or less | 77% | 68% |
| 68-77 | 105% | 87% |
| 78 and up | 115% | 120% |

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

| Age | Police | Fire |
|------------|--------|------|
| 59 or less | 35% | 35% |
| 60-69 | 60% | 45% |
| 70-79 | 75% | 70% |
| 80 and up | 100% | 90% |

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2018, are summarized below:

| | Target 10 Year Expected | | 30 Year Expected |
|-----------------------------|-------------------------|------------------------|------------------------|
| Asset Class | Allocation | Real Rate of Return ** | Real Rate of Return ** |
| Cash and Cash Equivalents | - % | 1.00 % | 0.80 % |
| Domestic Equity | 16.00 | 5.30 | 5.50 |
| Non-US Equity | 16.00 | 6.10 | 5.90 |
| Private Markets | 8.00 | 8.40 | 8.40 |
| Core Fixed Income * | 23.00 | 2.20 | 2.60 |
| High Yield Fixed Income | 7.00 | 4.20 | 4.80 |
| Private Credit | 5.00 | 8.30 | 7.50 |
| U.S. Inflation | | | |
| Linked Bonds * | 17.00 | 1.30 | 2.30 |
| Master Limited Partnerships | 8.00 | 6.70 | 6.40 |
| Real Assets | 8.00 | 7.00 | 7.00 |
| Private Real Estate | 12.00 | 5.70 | 6.10 |
| Total | 120.00 % | | |

Note: assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.20 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total OPEB liability was calculated using the discount rate of 4.66%. A discount rate of 3.24% was used to measure the total OPEB liability at December 31, 2017. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 4.13% at December 31, 2018 and 3.16% at December 31, 2017, was blended with the long-term rate of 8.00%, which resulted in a blended discount rate of 4.66%.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 13 - DEFINED BENEFIT OPEB PLANS - (Continued)

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate - Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 4.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.66%), or one percentage point higher (5.66%) than the current rate.

| | | Current | | | | | |
|----------------------------|-----|------------|----|-------------|----|------------|--|
| | _19 | 6 Decrease | Di | scount Rate | _1 | % Increase | |
| City's proportionate share | | | | | | _ | |
| of the net OPEB liability | \$ | 4,418,871 | \$ | 3,627,160 | \$ | 2,962,587 | |

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate - Due to the change from a self-funded plan to the stipend plan, disclosure of the healthcare cost trend rate for OP&F is no longer available.

Changes Between Measurement Date and Report Date - Beginning January 1, 2019 OP&F is changing its retiree health care model and the current self-insured health care plan will no longer be offered. In its place will be a stipend-based health care model. OP&F has contracted with a vendor who will assist eligible retirees in choosing health care plans from their marketplace (both Medicare-eligible and pre-Medicare populations). A stipend funded by OP&F will be placed in individual Health Reimbursement Accounts that retirees will use to be reimbursed for health care expenses. As a result of changing from the current healthcare model to the stipend based healthcare model, management expects that it will be able to provide stipends to eligible participants for the next 15 years. Although the exact amount of these changes is not known, the overall decrease to the City's net OPEB liability is expected to be significant.

NOTE 14 - CONTINGENCIES

A. Grants

The City receives significant financial assistance from numerous federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2019.

B. Contracts

As of December 31, 2019, the City had \$4,824,268 open on outstanding purchase orders and contracts. Of this amount, \$4,002,589 related to ongoing capital projects and the remaining amount of \$821,679 was for various departmental purchase orders outstanding at year end.

The City had no material operating lease commitments at December 31, 2019.

C. Litigation

The City is party to other legal proceedings as a defendant. Although the outcome of the legal proceedings is not presently determinable, it is the opinion of the City's legal counsel that resolution of these matters will not have a material, adverse effect on the financial condition of the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 15 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance are presented below:

| | | Street | Nonmajor | Total | | |
|-------------------------------------|---------------|--------------|--------------|---------------|--|--|
| | | Maintenance | Governmental | Governmental | | |
| Fund balance | General | and Repair | Funds | Funds | | |
| Nonspendable: | | | | | | |

| Unassigned | 14,612,785 | | | 14,612,785 | | |
| Total fund balances | \$ 25,011,989 | \$ 2,846,566 | \$ 5,519,080 | \$ 33,377,635 | | |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2019

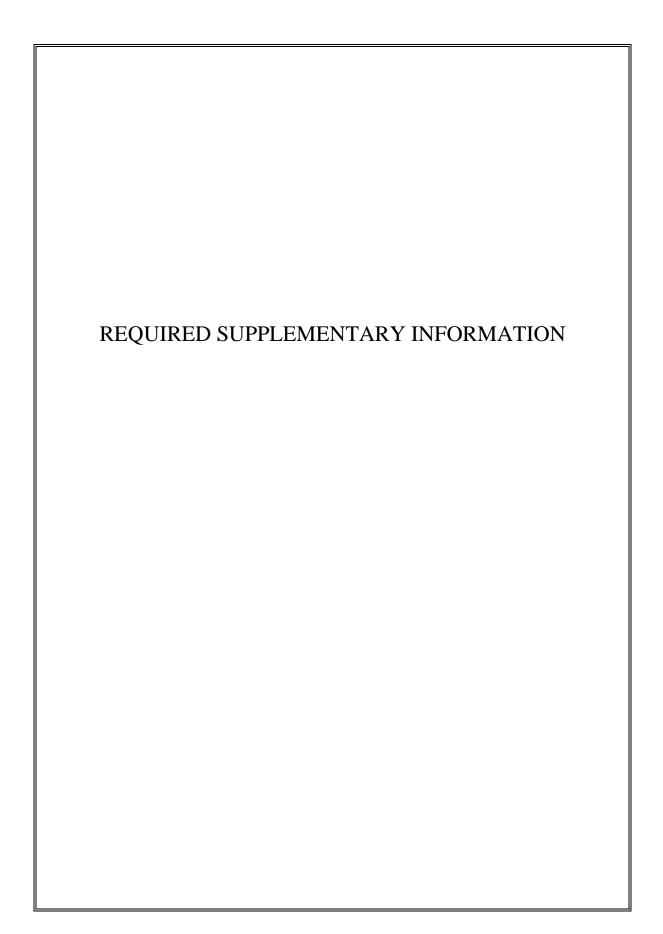

NOTE 16 - OTHER COMMITMENTS

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the City's commitments for encumbrances in the governmental funds were as follows:

| | Y | Year-End |
|-------------------------------|------------|-------------------|
| <u>Fund</u> | <u>Enc</u> | <u>cumbrances</u> |
| General fund | \$ | 1,335,572 |
| Street Maintenance and Repair | | 702,869 |
| Nonmajor governmental funds | | 7,550 |
| | | |
| Total | \$ | 2,045,991 |

NOTE 17 – SIGNIFICANT SUBSEQUENT EVENT

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the City. The City's investment portfolio and the investments of the pension and other employee benefit plan in which the City participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the City's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2019

PENSION

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2019.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%. There were no changes in assumptions for 2018. For 2019 the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the assumed rate of return and discount rate were reduced from 7.50% down to 7.20%.

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2019.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017. For 2018, the following were the most significant changes of assumptions that affected the total pension since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.50% down to 8.00%, (b) changing the future salary increases from a range of 4.25%-11.00% to 3.75%-10.50%, (c) reduction in payroll increases from 3.75% down to 3.25%, (d) reduction in inflation assumptions from 3.25% down to 2.75% and (e) Cost of Living Adjustments (COLA) were reduced from 2.60% and 3.00% simple to 2.20% and 3.00% simple. There were no changes in assumptions for 2019.

OTHER POSTEMPLOYMENT BENEFITS (OPEB)

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

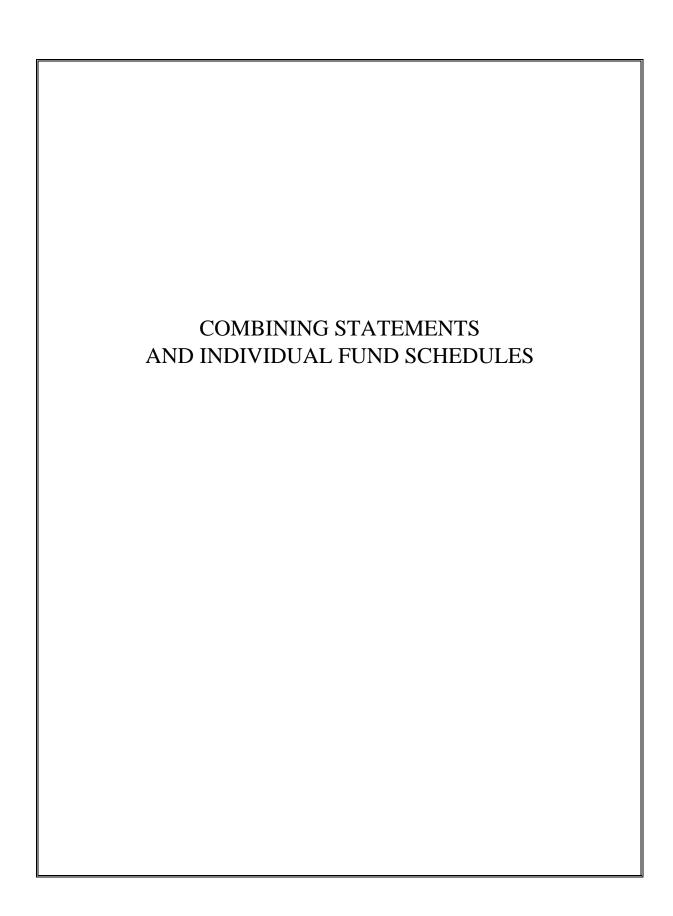

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2017-2019.

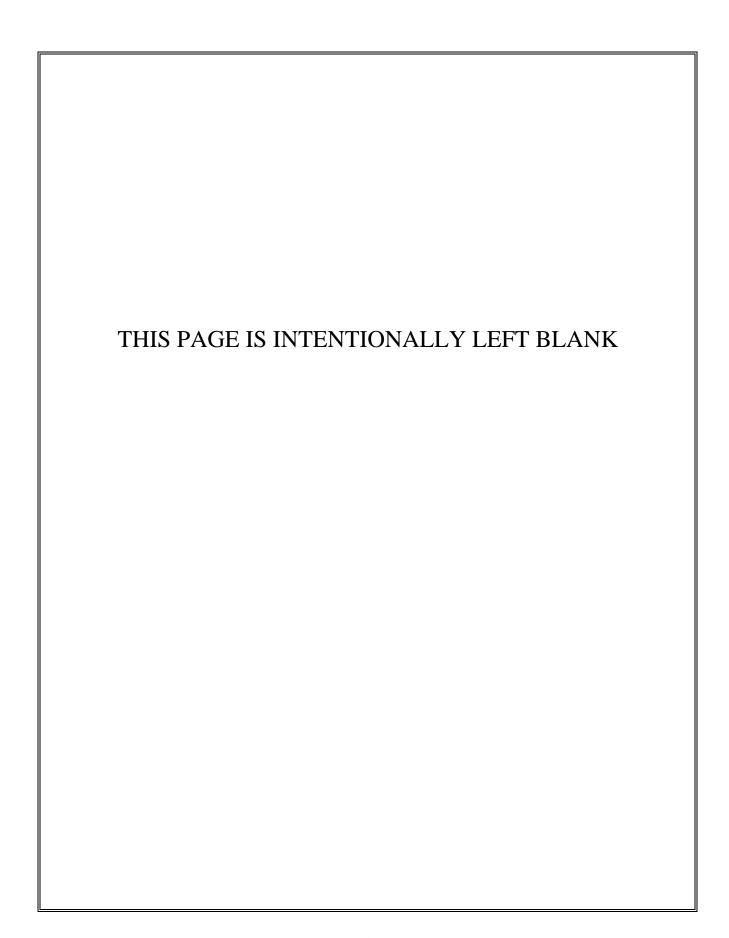

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017. For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 4.23% down to 3.85%. For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.85% up to 3.96%, (b) The investment rate of return was decreased from 6.50% percent down to 6.00%, (c) the municipal bond rate was increased from 3.31% up to 3.71% and (d) the health care cost trend rate was increased from 7.50%, initial/3.25%, ultimate in 2028 up to 10.00%, initial/3.25%, ultimate in 2029.

OHIO POLICE AND FIRE (OP&F) PENSION FUND

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2017-2018. For 2019, OP&F changed its retiree health care model from a self-insured health care plan to a stipend-based health care model.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017. For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) DROP interest rate was reduced from 4.50% to 4.00%, (b) CPI-based COLA was reduced from 2.60% to 2.20%, (c) investment rate of return was reduced from 8.25% to 8.00%, (d) salary increases were reduced from 3.75% to 3.25% and (e) payroll growth was reduced from 3.75% to 3.25%. For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.24% up to 4.66%.

Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes. The following are the nonmajor special revenue funds which the City of Findlay operates:

County Permissive Motor Vehicle License (MVL) Tax:

To account for the receipt and expenditures of all monies the City receives as its portion of a \$5.00 fee imposed by the County on the purchase of each motor vehicle license.

State Highway:

To account for state-levied and controlled gasoline tax and vehicle license fees for routine maintenance of state highways within the City.

Law Enforcement Trust:

To account for monies collected from the sale of contraband.

Drug Law Enforcement:

To account for the deposit and expenditure of mandatory fines for drug trafficking offenses.

Indigent Drivers Alcohol Treatment:

To account for monies received through the enforcement and implementation of Ohio traffic laws governing operation of a motor vehicle while under the influence of alcohol.

Enforcement and Education:

To account for a portion of fines imposed under the law. Expenditures are authorized only for the enforcement and education relating to laws governing operation of a motor vehicle while under the influence of alcohol.

Court Special Projects:

To account for monies received for specific court costs that are designated for funding the acquisition and maintenance of special projects for courts.

Court Computerization:

To account for monies received for specific court costs that are designated for funding the acquisition and maintenance of computerized equipment or software for courts.

METRICH Drug Law Enforcement Trust:

To account for federal funds received as a result of seizures in drug cases conducted with the METRICH drug task force.

Alcohol Monitoring:

To account for monies received through the enforcement and implementation of Ohio traffic laws governing operation of a motor vehicle while under the influence of alcohol.

Mediation Services:

To account for monies received for specific court costs that are designated to pay for the costs of promoting, establishing, maintaining, and improving court mediation programs.

Electronic Imaging:

To account for monies received for specific court costs that are designated for funding the acquisition and maintenance of computerized equipment or software for courts.

Legal Research:

To account for monies received for specific court costs that are designated for the purchase of computer equipment and services in the area of legal research for Municipal Court.

Nonmajor Special Revenue Funds (Continued)

Police Pension:

To account for a 0.3 mill real estate tax levy as required by Ohio Revised Code.

Fire Pension:

To account for a 0.3 mill real estate tax levy as required by Ohio Revised Code.

Guaranteed Deposits:

This fund accounts for the monies held as deposits, that are required to guarantee the satisfactory completion of a job or project. These monies are returned to the depositor or used to pay any charges after the job or project has been accepted by the City Engineering Department or Fire Department. This fund is not included in the entity for which the appropriated budget is adopted; therefore, no budgetary statement is presented.

Revolving Loan:

To account for monies received as development grants that become loans to a qualified business or industry for the purpose of economic development. As the initial loans are repaid, the money is perpetually "re-loaned" to stimulate growth in the community. Budgetary information for the Revolving Loan fund is not reported because it is not included in the entity for which the "appropriated budget" is adopted.

Severance Payout Reserve:

To account for monies reserved by the City for termination benefits. This fund is included in the general fund (GAAP basis), but has a separate legally adopted budget (budget basis). This fund is not included in the combining statements for the nonmajor special revenue funds since it is reported in the general fund (GAAP basis); however, the budgetary schedule for this fund is presented in this section.

City Income Tax Administation:

To account for the receipts from the assessment of a 1.00% income tax and the cost of operating the collection department. The use of this money is determined by Council. For 2019, 80% was transferred to the general fund and 20% was restricted within the city income tax administration fund for capital improvements. The allocation is determined by ordinance of Council and can be changed by Council at any time. This fund is included in the general fund (GAAP basis), but has a separate legally adopted budget (budget basis). This fund is not included in the combining statements for the nonmajor special revenue funds since it is reported in the general fund (GAAP basis); however, the budgetary schedule for this fund is presented in this section.

Unclaimed Monies:

This fund accounts for unclaimed monies originally issued by accounts payable or payroll check but never cashed. Monies are deposited into this fund after multiple attempts have been made to locate the owner. Those persons with unclaimed monies are listed by year of issuance on the City's website. Per ORC, these monies will remain in the fund for five years or until claimed (whichever comes first). This fund is not included in the combining statements for the nonmajor special revenue funds since it is reported in the general fund (GAAP basis).

Nonmajor Debt Service Fund

To account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service:

To account for the general obligation bond principal and interest that is paid from governmental revenues of the City. It also accounts for the special assessment bond principal and interest payments that are provided through the special assessment levies against certain properties in the City.

Nonmajor Capital Projects Funds

Capital projects funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by the proprietary or nonexpendable trust funds. The following is a description of all the City's nonmajor capital projects funds:

Municipal Court Improvements:

To account for the additional court cost levied on traffic and criminal cases through the City's Municipal Court. Revenues are used exclusively for Court capital improvements and related equipment purchases.

Nonmajor Permanent Fund

Permanent funds are used to account for the financial resources to be used for a specific purpose, and only the income generated by that money may be spent. The following is a description of the City's nonmajor permanent fund:

Cemetery Trust:

To account for the portion of the sales price for cemetery lots. These monies are invested, and the interest earned is transferred out to the general fund to help defray the cost of the Cemetery Department.

Enterprise Funds

The enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs (expenses, including depreciation) of providing services to the general public on a continuing basis be recovered primarily through user charges.

The City has the following major enterprise funds:

Water Fund Water Pollution Control Fund Airport Fund

These major enterprise funds are described on page 66 of the financial statements.

The City has the following nonmajor enterprise funds:

Swimming Pool:

To account for the operation of the swimming pool complex at Riverside Park. Beginning in 2010, the City contracted with the local YMCA to run the pool operations.

Parking Facilities:

To account for the operation of the parking department, which includes maintenance and rental of lots, fine revenue, and the monitoring of all on-street and off-street parking zones.

The internal service funds account for the financing of goods or services provided by one department to other departments of the City of Findlay on a cost-reimbursement basis. Accounting for these funds is designed to accumulate all of the costs incurred by the internal service funds in providing goods and services to other departments. However, charges to the other departments are not intended to produce a significant profit in the long run, but to recover the total costs of providing goods or services.

Central Stores:

To account for the central purchase of various office supplies in large quantities at a lesser price with the subsequent charge to the various user departments.

Self Insurance:

To account for processing and paying general municipal liability insurance claims in lieu of purchasing general municipal liability insurance.

Workers' Compensation:

To account for the collection of premiums and payments of claims related to a workers' compensation individual retrospective rating plan.

Fiduciary funds are used to account for assets held by the City in a trustee capacity, or as an agent for individuals, private organizations, other governmental units, and/or funds. The following are the City's fiduciary fund types:

Private-Purpose Trust Fund

Private Trust:

This fund accounts for the monies held in trust from contributions, gifts or by bequests that are invested by the City. The interest earnings from these investments are used to care for certain cemetery lots in a manner specified by the contributor.

Custodial Funds

Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. These funds do not account for the City's own source revenue. The following is a description of the City's custodial funds.

Municipal Court:

This fund reports fines and forfeitures collected by the Court for distribution to various State and local governments.

Tax Collection:

This fund accounts for the income taxes and tax increment financing payments collected on-behalf of the Village of Arlington, the Village of Mount Cory, the Village of Vanlue, Village of Carey, Village of Mt. Blanchard and for assessments collected and due to the Downtown Special Improvement District and the Energy Special Improvement District.

⁽¹⁾ Valuations are amounts for collection year.

⁽²⁾ Sexennial update for property values, effective in tax collection years 2011 and 2017.

⁽a) Real property is assessed at 35% of actual value. Real property taxes collected in a calendar year are levied as of January 1 of that year based on assessed values as of January 1 of the preceding year.

⁽b) Public utility is assessed at 88% of actual value. Public utility real and tangible property taxes collected in a calendar year are levied in the preceding calendar year based on assessed values determined as of December 31 of the second preceding year.

⁽c) For 2009, tangible personal personal property tax is assessed at 0.00% of property value, including inventory, except for telephone tangible personal property which is assessed at 10% of property value, including inventory. In 2009, telephone tangible is the only taxable tangible personal property. The assessed value for telephone tangible personal property is provided by the Ohio Department of Taxation. Beginning in 2012, tangible personal property, including telephone tangible, is no longer assessed.

Note: Ohio Bond Law sets a limit of 10.5% for voted debt and 5.5% for unvoted debt.

⁽¹⁾ Beginning in 2007, the debt limit excludes the assessed valuation of tangible personal property tax, as well as railroad and telephone public utility personal property in accordance with Ohio House Bill 530.

⁽²⁾ Excludes unamortized bond premiums and discounts.

| Total Federal Financial Assistance | | | \$ 845,968 |

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

- (A) This schedule includes the federal award activity of the City of Findlay under programs of the federal government for the year ended December 31, 2019 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City of Findlay, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Findlay.
- (B) CFR Section 200.414 of the Uniform Guidance allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimus rate of 10% of modified total direct costs to indirect costs. The City has not elected to use the 10% de minimus indirect cost rate.
- (C) Certain federal programs require the City to contribute non-federal funds (matching funds) to support the federally funded programs. The City has complied with the matching requirements. The expenditure of non-federal matching funds are not included on this schedule.
- (D) Passed through Ohio Rail Development Commission
- (E) These grant amounts include cash-basis expenditures from 2018 that were inadvertently omitted from previous Schedules of Expenditures of Federal Awards. The table below summarizes those federal expenditures from previous years:

| E. Januar Connection Management | CFDA | 2018 Federal Expenditure |
|-----------------------------------|-------|-----------------------------|
| Federal Grantor/Program | CFDA | # Expenditure |
| U.S. DEPARTMENT OF TRANSPORTATION | | |
| Highway Planning and Construction | 20.20 | 5 65,484 |

(F) The City has a revolving loan program to provide low-interest loans to businesses to create jobs for low to moderate income persons and also to lend money to eligible persons to rehabilitate homes. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the City. This schedule reports loans made and administrative costs as disbursements. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property or asset acquired. At December 31, 2019, the gross amount of loans outstanding under this program was \$323,295.

(G) Pass-through grant number was unobtainable for this grant.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards

City of Findlay Hancock County 318 Dorney Plaza, Room 313 Findlay, Ohio 45840

To the Members of Council and Management:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Findlay, Hancock County, Ohio, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City of Findlay's basic financial statements and have issued our report thereon dated July 6, 2020, wherein we noted, as discussed in Note 3, the City of Findlay adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. We also noted, as discussed in Note 17, the financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City of Findlay's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City of Findlay's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City of Findlay's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Hancock County
Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Required by *Government Auditing Standards*Page 2

Compliance and Other Matters

As part of reasonably assuring whether the City of Findlay's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results and does not opine on the effectiveness of the City of Findlay's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City of Findlay's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance and the Schedule of Expenditures of Federal Awards Required by the *Uniform Guidance*

City of Findlay Hancock County 318 Dorney Plaza, Room 313 Findlay, Ohio 45840

To the Members of Council and Management:

Report on Compliance for the Major Federal Program

We have audited the City of Findlay's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the City of Findlay's major federal program for the year ended December 31, 2019. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City of Findlay's major federal program.

Management's Responsibility

The City of Findlay's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the City of Findlay's compliance for the City of Findlay's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Findlay's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City of Findlay's major program. However, our audit does not provide a legal determination of the City of Findlay's compliance.

Opinion on the Major Federal Program

In our opinion, the City of Findlay complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended December 31, 2019.

City of Findlay Hancock County

Independent Auditor's Report on Compliance with Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance and the Schedule of Expenditures of Federal Awards Required by the *Uniform Guidance*

Page 2

Report on Internal Control Over Compliance

The City of Findlay's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City of Findlay's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City of Findlay's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Findlay as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City of Findlay's basic financial statements. We issued our unmodified report thereon dated July 6, 2020. Our opinion also explained that the City of Findlay adopted *Governmental Accounting Standard No. 84* during the year. We conducted our audit to opine on the City of Findlay's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is Management's responsibility and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.
