Independent Accountants' Report on Applying Agreed-Up Procedures

Ohio Department of Medicaid
50 West Town Street, Suite 400
Columbus, Ohio 43215

RE: Jenice R. Brown, C.N.P. NPI: 1437601341
Program Year 2017: Meaningful Use Stage 2 Year 2

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Jenice R. Brown's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Promoting Interoperability Program (MPIP) for the year ended December 31, 2017. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We obtained the encounters during the patient volume attestation period and verified that the encounters included one duplicate and multiple payer sources. We calculated the Medicaid patient volume from the unduplicated encounters and confirmed that the Provider met the 30 percent requirement.
2. We compared the system generated dashboards to the applicable criteria and to the summaries for Meaningful Use Objectives 3 through 9 and the Clinical Quality Measures. The meaningful use dashboard showed that four of the seven objectives did not meet the applicable criteria including: Objective 6: Patient Specific Education; Objective 7: Medication Reconciliation; Objective 8, Measures 1 and 2: Patient Electronic Access and Ability to View, Download and Transmit Information; and Objective 9: Secure Messaging. The clinical quality measures dashboard showed that the minimum measures were met; however, there were variances greater than 10 percentage points for two clinical measures: CMS 154: Treatment for Children with Upper Respiratory Infection and CMS 164: Ischemic Vascular Disease. As a result, we performed additional procedures.
3. The Provider's location was now using a newer version of the electronic health record (EHR) software reported in the MPIP system. We verified that the newer version of the EHR software was approved by the Office of the National Coordinator of Health IT.
4. We obtained the Provider's equipped practice location during the meaningful use period and compared this to the location included in the meaningful use report. We found no exceptions.
5. We requested supporting documentation for the 10 objectives and compared the documentation received to the applicable criteria. We verified that Objective 1: Security Risk Analysis along with objectives 6 through 9 (listed in procedure 2) did not meet the applicable criteria. We did not scan the detailed data to identify duplicate patients as the Provider did not submit any detailed data.
6. We compared the system generated dashboard for the clinical quality measures it to the applicable criteria. We verified that the Provider met the minimum requirements.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Promoting Interoperability Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the ODM, and is not intended to be, and should not be used by anyone other than the specified party.
