**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Sylvania City School District, Lucas County, Ohio (the District) under programs of the federal government for the year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D – CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE F – TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with Ohio Department of Education's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2020 to 2021 programs:

<u>Program Title</u>	<u>CFDA Number</u>	<u>Amt. Transferred</u>
Title I Grants to Local Educational Agencies	84.010	\$ 55,668
Special Education - Grants to States	84.027	\$ 116,985

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Sylvania City School District
Lucas County
4747 North Holland-Sylvania Road
Sylvania, Ohio 43560

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Sylvania City School District, Lucas County, Ohio (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2020 wherein we noted the District implemented Governmental Accounting Standards Board Statement No. 84, *Fiduciary Activities*. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Sylvania City School District
Lucas County
4747 North Holland-Sylvania Road
Sylvania, Ohio 43560

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Sylvania City School District, Lucas County, Ohio's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Sylvania City School District's major federal program for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, Sylvania City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2020.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Sylvania City School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 18, 2020. Our opinion explained that the District adopted *Governmental Accounting Standard No. 84* during the year. We also noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Office of the Treasurer

Lisa Shanks, Treasurer/CFO

December 18, 2020

Board of Education Members and Citizens of the Sylvania City School District:

As the Superintendent and Treasurer/CFO of the Sylvania City School District (the “District”), we are pleased to submit to you the twenty-fourth Comprehensive Annual Financial Report (CAFR) issued by the District. This report provides full disclosure of the financial operation of the District for the fiscal year ended June 30, 2020. This CAFR, which includes an opinion from Keith Faber, Auditor of State, who performed the District’s audit, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. The responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District’s financial affairs. This report is available to the Chamber of Commerce, major taxpayers, the public library, financial rating services, and other interested parties.

The District is located in Northwestern Ohio on the Ohio-Michigan border and is comprised of the City of Sylvania, Sylvania Township, a portion of the City of Toledo and a portion of the Village of Ottawa Hills, which are all part of Lucas County. As a suburb of Toledo, Sylvania is basically a residential community with a broad service-based economy. Socioeconomic indicators continue to describe Sylvania as an affluent community with housing values and income levels well above state and county norms.

The District provides a full range of educational programs and services. These include diverse learning opportunities at the elementary and secondary levels. Educational opportunities range from comprehensive career and technical programs to college preparatory classes with an emphasis on honors and Advanced Placement course work. A broad range of clubs, co-curricular and extracurricular activities are available to students so that they may have a well-rounded educational experience in Sylvania Schools. Special education services are in-depth and provide the support necessary for our students with disabilities to be successful. The district also provides support for adult and community learning. In addition, the District provides state-financed assistance to non-public schools located within its boundaries. This assistance is accounted for in a non-major governmental fund. The District currently serves approximately 7,800 students in grades pre-K through 12th Grade.

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code for the purpose of providing educational services authorized by charter and further mandated by State and/or Federal agencies. A five member Board of Education (the “Board”) serves as the taxing authority, contracting body and policy maker for the District. The Board adopts the annual operating budget and approves all expenditures of District monies.

The Superintendent is the chief administrative officer of the District, responsible for both education and support operations. The Treasurer/CFO is the chief financial officer of the District, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as specified by Ohio law.

Other Board appointed officials include directors of educational and support services and building principals.

THE REPORTING ENTITY

The District has reviewed its reporting entity definition in order to ensure conformance with GASB. In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units. The District has no component units nor is it a component unit of any other governmental entity.

The Cities of Sylvania and Toledo, Sylvania Township, and the Village of Ottawa Hills have all been excluded from the accompanying financial statements. The Northwest Ohio Computer Association (NWOCA) and the Sylvania Area Joint Recreation District (SAJRD) are reported as jointly governed organizations.

QUALITY IN EDUCATION

The District strives to maintain quality schools that not only reflect the philosophy of the community, but help to maintain property values as well. While the emphasis is on the educational program itself, the District continues to maintain expectations for excellence in our students, staff, and programs. We feel it is appropriate to briefly review some of the District's quality benchmarks that define the foundation upon which the success of our programs are built.

Curriculum Development. The District is implementing Ohio's Learning Standards in the four core areas: English Language Arts, Mathematics, Science, and Social Studies and in all supporting discipline areas. Teachers are continuing to participate in intensive training that emphasizes ways to raise student achievement with a heavy emphasis on differentiation and closing the gap. The District is continuing to focus on and support innovative thought-provoking learning experiences. Teacher leadership teams at all levels have targeted areas to help train academic leaders in each building. Teachers are continuing to design rigorous lessons for their students and are creating hands-on, 21st century skills to help prepare them to be life-long learners and engaged citizens. As the new standards continue to take shape over the next year, resources will be chosen to best support the new curriculum.

Technology. Technology is one of the District's top initiatives in preparing our students for their future. We utilize technology in a variety of ways to enhance differentiated learning, digital citizenship and access to dynamic curriculum tools. We have also implemented a pervasive wireless access system to provide staff and student access to the internet from anywhere in all of our buildings. Lastly, we are continuing with our district-wide Digital Learning Initiative which includes professional development for staff to integrate technology into our rich student experience. The goal is to ensure that our students develop into contributing community members. The District is now 1:1, assigning a digital device to each student 3-12 and providing access to all grades at the elementary schools. Through the daily use of technology students become better prepared for college and careers.

Testing. Our students continue to outscore the national and State averages on the ACT and SAT. Over 80% of the students participating in advanced placement testing qualify for college credit. The District continues to grow the number of students qualifying as National Merit Scholars and now boasts over 15 perfect scores on the PSAT and ACT tests in the past four years. Over 92% of the District's graduates pursue post-secondary/military education, earning millions in scholarships each year.

Class Size. There is an average of 21-22 students per class in grades K through 5. The class size for grades 6 – 12 is dependent upon the class offered and ranges from 25-30 students. This range compares very favorably among our comparable districts across the State as well as other districts in the area.

Co-curricular and Extra-curricular. Over 85% of our students are involved in interscholastic athletics, programs, clubs, AP/honors, and contests representing about 120 academic and athletic teams and organizations. Many of these teams and clubs receive regional and state rankings in contests annually.

Staff Development. Professional development is a top focus of the District to help teachers learn new ways to differentiate learning through digital and traditional instruction in the classroom. Teacher leaders have been developing the training framework and supporting teachers in every department and grade level in each of the District's 12 schools. As Ohio's Learning Standards are implemented, the professional development efforts are combining with technology to help teachers best create a 21st century learning environment for students.

Comprehensive Support for Special Needs. The District is prepared to meet the needs of all students, but extra attention has been given to ensure that the District provides an outstanding and comprehensive special-needs and gifted program, along with interventions for identified students in specific areas. With the digital classrooms, the ability to differentiate education to better meet the individual needs of every student increases and allows us to focus on closing the gap for all our students. The District continues to implement new schedules to meet the needs of all students and to help provide time and support for continued student growth at all levels.

ECONOMIC CONDITIONS AND OUTLOOK

Fiscal year 2020 was a stern reminder of how quickly circumstances can change and the importance of a sound financial plan. Public schools faced an unprecedented health crisis in early spring that abruptly shut down Ohio's economy. As a result, \$300 million was reduced from this year's education budget, with Sylvania's share totaling nearly \$1.7 million. Ohio's economy has steadily rebounded since reopening in June, however, the recovery was not enough to prevent a second round of state funding reductions in fiscal year 2021.

Adapting to the current environment is not without challenges. District leaders were tasked with designing a virtual learning platform in real time while simultaneously operating existing educational programs. What appeared as a short-term interruption to "normal" education has evolved into diversified learning opportunities for students. The insight gained from this unique circumstance, will serve as the framework moving forward to the 2021 academic year.

In this uncertain time, it is a priority to accommodate the educational needs of students while managing the shortfall of financial resources. To accomplish both, it is necessary to evaluate all aspects of the organization and right size appropriately. This will allow the district to maintain and enhance instruction while preserving its cash reserves.

CURRENT FINANCIAL POLICIES

There were no financial policy decisions made during the year that had a significant impact on the District's financial statements.

MAJOR INITIATIVES FOR THE FUTURE

Full implementation of the newly revised Strategic Plan will keep the District focused on student learning through high-quality, differentiated instruction, efficiency and effectiveness of district operations, and vibrant school-community partnerships.

Fundraising efforts by the Sylvania Schools' Foundation will raise money privately to help support the District's ongoing initiatives. The Foundation is providing support to renovate and replace athletic facilities in addition to raising funds to support a variety of teacher initiated professional development initiatives as well as instructional tools in order to enhance the classroom experience for all Sylvania Schools students. Educational initiatives include, but are not limited to enhancing and expanding digital education as well as a variety of STEM based instructional opportunities. Moreover, the Foundation works to supply all educators with educational tools that support auditory, visual and kinesthetic based learners through the differentiation and individualization of the educational experience.

With the full implementation of these plans and directives, the District will continue the academic excellence and fiscal accountability standards that the community has come to expect of the Sylvania City School District.

LONG-TERM FINANCIAL PLANNING

The Ohio Department of Education requires school districts to submit a five year forecast in October and May each year. The forecast provides three years of historical financial data and five years of revenue and expenditure estimates. The forecast is a benchmark used by administrators and the Sylvania Board of Education to determine the current and future costs of existing educational programs and sustainability of proposed educational initiatives.

FINANCIAL INFORMATION

Internal Accounting and Budgetary Control. The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Governmental fund operations are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Proprietary funds and the private-purpose trust fund operations are presented on the accrual basis, whereby revenues are recognized when earned, and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from the implementation.

The District utilizes a fully automated accounting system, as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year. Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all budgeted funds. All purchase order requests must be approved by the Director of Business Affairs and certified by the Treasurer/CFO; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports, which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, a blanket bond covers all employees, and a separate, higher limit bond covers certain individuals in policy-making roles.

The basis of accounting, the basis of presentation of the District's various funds, and information on budgetary accounting can be found in Note 2 to the financial statements.

FINANCIAL REPORTING

The basic financial statements for reporting on the District's financial activities are as follows:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by business enterprises. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The District did not have any business-type activities.

Fund financial statements: These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting. The District has no proprietary funds.

Schedule of budgetary comparisons: This schedule presents comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The budgetary comparison for the general fund has been presented as required supplementary information and is not considered part of the basic financial statements.

Management is responsible for preparing a Discussion and Analysis (MD&A) of the District. This discussion appears after the Report of Independent Auditors in the financial section of this report. The MD&A provides an assessment of the District's finances for 2020. The MD&A is intended to be read in conjunction with this letter of transmittal.

INDEPENDENT AUDIT

State statutes require the District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the District's accounting and budgetary controls. Independent auditor Keith Faber, Auditor of State, was selected to render an opinion on the District's financial statements as of and for the year ended June 30, 2020. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school governments in Ohio. The District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

AWARDS

Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sylvania City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose content conforms to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America as applied to governmental units and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA for review.

ACKNOWLEDGMENTS

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to Julian & Grube, Inc. who provided technical assistance on this report. Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully,

Lisa Shanks
Treasurer/CFO

INDEPENDENT AUDITOR'S REPORT

Sylvania City School District
Lucas County
4747 North Holland-Sylvania Road
Sylvania, Ohio 43560

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Sylvania City School District, Lucas County, Ohio (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 3B to the financial statements, during 2020, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. We did not modify our opinion regarding this matter.

As discussed in Note 18 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis, required budgetary comparison schedules*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2020, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
(UNAUDITED)**

The discussion and analysis of Sylvania City School District's ("the District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2020 are as follows:

- In total, the net position of governmental activities decreased \$715,713 which represents a 1.10% decrease from 2019's restated net position.
- General revenues accounted for \$97,590,371 in revenue or 88.18% of all revenues. Program specific revenues in the form of charges for services and sales, operating grants and contributions, and capital grants and contributions accounted for \$13,079,888 or 11.82% of total revenues of \$110,670,259.
- The District had \$111,385,972 in expenses related to governmental activities; only \$13,079,888 of these expenses was offset by program specific charges for services, operating grants or contributions or capital grants and contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$97,590,371 were not adequate to provide for these programs.
- The general fund is the only major fund of the District. The general fund had \$94,105,382 in revenues and \$90,048,960 in expenditures and other financing uses. During fiscal year 2020, the general fund's fund balance increased \$4,056,422 from a balance of \$13,680,281 to \$17,736,703.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is by far the most significant fund, and the only governmental fund reported as a major fund.

Reporting the District as a Whole

Statement of net position and the statement of activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2020?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

The statement of net position and the statement of activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, food service operations, uniform school supplies activities and natatorium operations.

The District's statement of net position and statement of activities can be found on pages F19 – F20 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page F14. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental fund is the general fund. All other governmental funds are considered nonmajor.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages F21 and F23 of this report. Reconciliations between amounts reported in the governmental funds and amounts reported on the statement of net position and the statement of activities is presented on pages F22 and F24.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for the OHSAA. These activities are reported in a custodial fund. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages F25 and F26. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F27 - F70 of this report.

Required Supplementary Information

The Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis) for the general fund is provided on pages F72 and F73 of this report.

Required supplementary information concerning the District's net pension liability and net OPEB liability/asset can be found on pages F74 – F89 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
(UNAUDITED)

The net pension liability is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability/asset is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

GASB standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
(UNAUDITED)**

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Analysis of Net Position

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2020, the District's liabilities plus deferred inflows exceeded assets plus deferred outflows by \$65,867,911. Of this total \$7,085,701 is restricted in use and \$16,587,765 is invested in capital assets (net of related debt), resulting in a deficit in unrestricted net position of \$89,541,377.

Current and other assets increased primarily due to an increase in cash and cash equivalents in the general fund as a result of current fiscal year operations.

Deferred outflows related to pension decreased primarily due to changes in assumptions by the State Teachers Retirement System (STRS). See Note 11 for more detail.

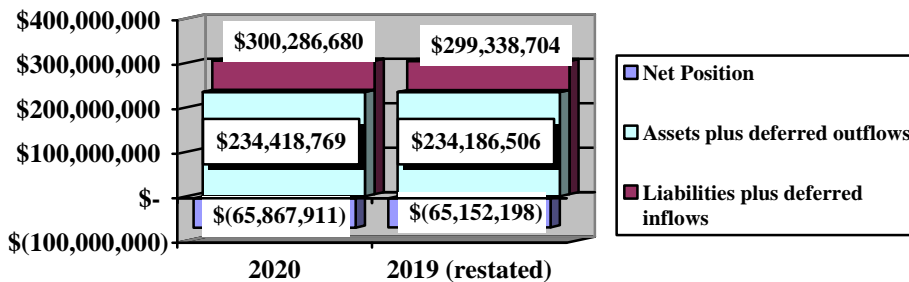

Total assets include a net OPEB asset reported by STRS. See Note 12 for more detail.

At year-end, capital assets represented 46.11% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. The net investment in capital assets at June 30, 2020, was \$16,587,765. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

Long-term liabilities increased primarily due to an increase in the net OPEB liability. This liability is outside of the control of the District. The District contributes its statutorily required contributions to the pension systems; however, it's the pension systems that collect, hold and distribute pensions and OPEB to District employees, not the District. Additionally, compensated absences increased as a result of the District shutting down its buildings due to the COVID-19 pandemic resulting in employees using less sick and vacation time.

Deferred inflows related to OPEB increased primarily due to changes in assumptions by STRS. See Note 12 for more detail.

Governmental Activities

Net position of the District’s governmental activities decreased \$715,713. Total governmental expenses of \$111,385,972 were partially offset by program revenues of \$13,079,888 and general revenues of \$97,590,371. Program revenues supported 11.74% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from property taxes and grants and entitlements. These revenue sources represent 86.92% of total governmental revenue. In the general revenues area, property taxes increased due to the increased collections. Tax revenues vary based on when tax bills are sent each year. Unrestricted grants and entitlements revenue decreased as the District received less unrestricted State Foundation aid from the State of Ohio in fiscal year 2020. Investment earnings increased as the District had more monies to invest and earned higher interest rates. In the program revenues area, operating grants and contributions increased due to the District receiving a grant for student success and wellness. Charges for services and sales revenue remained comparable to the prior year. The District received a donation of \$250,000 in capital grants and contributions for the Northview Athletic Complex.

Overall, expenses of the governmental activities increased \$17,635,000 or 18.81%. This increase is primarily the result of the STRS indefinitely suspending the Cost of Living Adjustment (“COLA”) and the School Employee Retirement System (SERS) lowering the COLA from 3.00% to 2.50% in a prior fiscal year.

On an accrual basis, the District reported \$14,208,378 and \$8,540,303 in pension expense for fiscal year 2020 and 2019, respectively. In addition, the District reported (\$1,507,945) and (\$11,899,579) in OPEB expense for fiscal year 2020 and 2019, respectively. The increase in both the net pension expense and the OPEB expense from fiscal year 2019 to fiscal year 2020 was \$16,059,709. This increase is primarily the result of the benefit changes by the retirement systems. Fluctuations in the pension and OPEB expense makes it difficult to compare financial information between years. Pension and OPEB expense are components of program expenses reported on the statement of activities.

The graph below presents the District’s governmental activities revenue and expenses for fiscal years 2020 and 2019.

The dependence upon tax and other general revenues for governmental activities is apparent, 87.13% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 88.26%. The District's taxpayers and unrestricted grants and entitlements from the State of Ohio, as a whole, are by far the primary support for the District's students. The graph on the following page presents the District's governmental activities revenue for fiscal years 2020 and 2019.

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds reported a combined fund balance of \$23,379,721, which is higher than last year's restated total of \$20,251,311. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2020 and 2019. The fund balances at June 30, 2019 have been restated as described in Note 3.

	Fund Balance <u>June 30, 2020</u>	Restated Fund Balance <u>June 30, 2019</u>	Increase (Decrease)

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020
(UNAUDITED)

Tax revenue increased due to an increase in tax advances available at June 30, 2020 versus June 30, 2019 which are recorded as revenue. The amount of tax advance available can vary depending upon when the tax bills are sent by the County Auditor. Earnings on investment revenues increased due to the District having more monies to invest and improved interest rates. Tuition revenues increased due to the District receiving more tuition from other districts from open enrollment. Facilities acquisition and construction expenditures increased due to architect fees for the Northview softball field. All other revenue and expenditures remained comparable to the prior year or were immaterial in amount.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2020, the District did amend its general fund budget. For the general fund, original and final budgeted revenues and other financing sources were \$94,245,028 and \$94,449,570 respectively. Actual revenues and other financing sources for fiscal 2020 was \$94,552,097. This represents a \$102,527 increase, or less than one percent, from final budgeted revenues. This increase is primarily due to property tax revenues being more than estimated. General fund original and final appropriations (appropriated expenditures plus other financing uses) were \$94,206,013 and \$91,760,338 respectively. The actual budget basis expenditures and other financing uses for fiscal year 2020 totaled \$90,064,169, which was \$1,696,169 less than the final budget appropriations. Actual expenditures were less than budgeted expenditures as salary and fringe benefit costs proved to be lower than anticipated in the original and final budget.

The budgetary statement for the general fund has been presented as required supplementary information.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2020, the District had \$96,081,337 invested in land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. This entire amount is reported in governmental activities. The following table shows fiscal 2020 balances compared to 2019:

	Capital Assets at June 30	
	(Net of Depreciation)	
	<u>Governmental Activities</u>	
	<u>2020</u>	<u>2019</u>
Land	\$ 2,694,493	\$ 2,694,493
Land improvements	4,162,789	3,737,378
Buildings and improvements	78,754,931	82,144,513
Furniture and equipment	4,358,924	4,735,820
Vehicles	1,270,161	1,010,173
Construction in progress	<u>4,840,039</u>	<u>170,337</u>
Total	<u>\$ 96,081,337</u>	<u>\$ 94,492,714</u>

The overall increase in capital assets of \$1,588,623 is primarily due to depreciation expense of \$4,789,897 being less than in capital asset additions of \$6,378,520.

Debt Administration

At June 30, 2020, the District had \$77,237,093 in general obligation bonds, energy conservation bonds, tax anticipation notes, and lease purchase obligations outstanding. Of this total, \$5,743,218 is due within one year and \$71,493,875 is due within greater than one year.

The following table summarizes the bonds, notes and leases outstanding.

Outstanding Debt, at Year End

	Governmental Activities <u>2020</u>	Governmental Activities <u>2019</u>
General obligation bonds	\$ 67,680,000	\$ 72,124,157
Lease purchase obligation	2,072,093	2,338,231
Tax anticipation notes	4,000,000	-
Energy conservation bonds	3,485,000	3,810,000
Total	<u>\$ 77,237,093</u>	<u>\$ 78,272,388</u>

The District's lease purchase obligation was issued in fiscal year 2017 to provide financing for boilers, chillers and HVAC (see Note 16). The energy conservation notes were issued in fiscal year 2014 to provide financing for HVAC, electrical, and plumbing system upgrades to create energy savings by reducing energy consumption. The project will be funded from the savings created from reduced energy consumption. The tax anticipation notes were issued in fiscal year 2020 to provide anticipated revenues from a levy for permanent improvements.

The District has issued various general obligation bonds to provide resources to finance construction projects throughout the District and to refund previous bonds outstanding. The District's general obligation bonds consist of both current interest bonds, capital appreciation bonds, and tax anticipation notes.

Current Financial Related Activities

Fiscal year 2020 was a stern reminder of how quickly circumstances can change and the importance of a sound financial plan. Public schools faced an unprecedented health crisis in early spring that abruptly shut down Ohio's economy. As a result, \$300 million was reduced from this year's education budget, with Sylvania's share totaling nearly \$1.7 million. While it remains unclear when Ohio's economy will be restored, it is with great certainty public schools will see a similar reduction in fiscal year 2021.

Adapting to the current environment is not without challenges. District leaders were tasked with designing a virtual learning platform in real time while simultaneously operating existing educational programs. What appeared as a short-term interruption to "normal" education has evolved into diversified learning opportunities for students. The insight gained from this unique circumstance, will serve as the framework moving forward to the upcoming academic year.

In this uncertain time, it is a priority to accommodate the educational needs of students while managing the shortfall of financial resources. To accomplish both, it is necessary to evaluate all aspects of the organization and right size appropriately. This will allow the district to maintain and enhance instruction while preserving its cash reserves, postponing the need for a new levy.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

Sylvania City School District (the "District") is located in the greater metropolitan Toledo area of Lucas County in northwestern Ohio. The District encompasses all of the City of Sylvania, and portions of Sylvania Township.

The District is organized under Section 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The District currently operates 7 elementary schools, 3 middle schools, and 2 comprehensive high schools. The District employs 285 non-certified, 46 administrative, and 536 certified employees (full time equivalents) to provide services to 7,777 students in grades K through 12 and various community groups.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATIONS

Northwest Ohio Computer Association (NWOCA)

The District is a participant with 41 other public entities in a jointly governed organization to operate NWOCA. NWOCA was formed for the purpose of providing computer services. NWOCA is governed by a board of directors consisting of the superintendents of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the board. The District does not have an ongoing financial interest or responsibility in NWOCA.

Sylvania Area Joint Recreation District (SAJRD)

The District, in conjunction with the City of Sylvania and the Sylvania Township, formed the Sylvania Area Joint Recreation District under the authority of Ohio Revised Code Section 755.14(C). The SAJRD Board of Trustees is composed of twelve members, four of whom are appointed by each of the separate governmental entities identified above. Funding for the SAJRD is provided by a voter-approved tax levy on all real property located within the Sylvania School District. Taxes are collected by the County Auditor and remitted to the SAJRD Board of Trustees.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following is the District's only major governmental fund:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no proprietary funds.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District's only trust fund is a private purpose trust which accounts for scholarship programs for students. The District's custodial fund accounts for collections for and distributions to the Ohio High School Athletic Association (OHSAA).

C. Basis of Presentation and Measurement Focus

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements distinguish between those activities that are governmental and those that are considered business-type activities. The District has no business-type activities.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities and current inflows of resources are generally included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Like the government-wide statements, the private-purpose trust fund is accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of fund net position. The statement of changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donation. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, and student fees.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see note 11 and 12 for deferred outflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the District, see Note 11 and 12 for deferred inflows of resources related to the District's net pension liability and net OPEB liability/asset, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level for all budgeted funds.

Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Lucas County Budget Commission for rate determination.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commissions' certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts from the certificate of estimated resources that was in effect at the time the original permanent appropriations covering the entire fiscal year were passed by the Board of Education. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts from the certificate of amended resources that was in effect at the time the final appropriations were passed by the Board of Education.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The District's legal level of budgetary control has been established at the fund level for all budgeted funds. The appropriation resolution, established at the legal level of control funds, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the legal level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from the prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Lapsing of Appropriations:

Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be re-appropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the legal level of control.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

During fiscal year 2020, investments were limited to commercial paper, negotiable certificates of deposit (negotiable CDs), municipal securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, Federal Farm Credit Bank (FFCB) securities, a U.S. government money market mutual fund, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for investments in STAR Ohio, the District measures investments at fair value which is based on quoted market prices.

During fiscal year 2020, the District invested in the State Treasury Asset Reserve of Ohio (STAR Ohio). STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2020 amounted to \$831,205, which includes \$187,415 assigned from other District funds.

For presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments. An analysis of the District's investment account at fiscal year end is provided in Note 4.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

G. Inventory

On government-wide and fund financial statements, inventories of supplies are reported at cost, inventories held for resale are reported at the lower of cost or market, and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when received. Inventories are accounted for using the purchase method on the fund statements and using the consumption method on the government-wide statements.

On the fund financial statements, reported materials and supplies inventory is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets. Inventory consists of expendable supplies held for consumption, donated food and purchased food.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Governmental Activities <u>Estimated Lives</u>
Land improvements	5 - 50 years
Buildings and improvements	7 - 45 years
Furniture and equipment	5 - 20 years
Vehicles	5 - 15 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable." Interfund balances between governmental funds are eliminated in the governmental activities column on the statement of net position.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

J. Compensated Absences

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees age 50 or greater with at least 10 years of service; or 20 years service at any age were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2020, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes. When unassigned fund balance is a deficit in the general fund, assigned fund balance may not be presented in the general fund.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities. Interfund services provided and used are not eliminated for reporting on the government-wide statement of activities.

P. Nonpublic Schools

Within the District boundaries, St. Joseph school is operated through the Toledo Catholic Diocese; and Toledo Junior, Emmanuel Baptist, and Toledo Islamic are operated as private schools. All of these schools provide instruction for grades K-8. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District are reflected in a nonmajor governmental fund for financial reporting purposes.

Q. Issuance Costs/Bond Premiums and Discounts and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 9.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

R. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither one of these transactions occurred during fiscal year 2020.

T. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

U. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

At fiscal year end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is considered nonspendable in an amount equal to the carrying value of the asset on the fund financial statements.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2020, the District has implemented GASB Statement No. 84, "*Fiduciary Activities*" and GASB Statement No. 90, "*Majority Equity Interests - an amendment to GASB Statements No. 14 and No. 61*".

GASB Statement No. 84 establishes specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business-type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the District will no longer be reporting agency funds. The District reviewed its agency funds and certain funds will be reported in the new fiduciary classification of custodial funds, while other funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the District's financial statements.

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Statement No. 90 improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The implementation of GASB Statement No. 90 did not have an effect on the financial statements of the District.

B. Restatement of Net Position and Fund Balances

The implementation of GASB 84 had the following effect on fund balance as reported at June 30, 2019:

	General	Other Governmental Funds	Total Governmental Funds
Fund Balance as previously reported	\$ 13,680,281	\$ 6,479,748	\$ 20,160,029
GASB Statement No. 84	-	91,282	91,282
Restated Fund Balance, at June 30, 2019	\$ 13,680,281	\$ 6,571,030	\$ 20,251,311

The implementation of the GASB 84 pronouncement had the following effect on the net position as reported at June 30, 2019:

	Governmental Activities
Net position (deficit) as previously reported	\$ (65,243,480)
GASB Statement No. 84	91,282
Restated net position (deficit) at June 30, 2019	\$ (65,152,198)

Due to the implementation of GASB Statement No.84, the new classification of custodial funds is reporting a beginning net position of \$0. Also, related to the implementation of GASB Statement No. 84, the District will no longer be reporting agency funds. At June 30, 2019, agency funds reported assets and liabilities of \$100,545.

C. Deficit Fund Balances

Fund balances at June 30, 2020 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Food service	\$ 173,364
Vocational education enhancement	1,531
Miscellaneous state grants	3,211
IDEA Part B	320,762
Vocational education	1,117
Title III limited english proficiency	9,627
Title I	168,610
IDEA Part B preschool stimulus	1,651
Improving teacher quality	63,286
Miscellaneous federal grants	3,879

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the financial statements as "equity in pooled cash and cash equivalents". State statutes require the classification of monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;

**SYLVANIA CITY SCHOOL DISTRICT
LUCAS, COUNTY**

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

2. Bonds, Notes, Debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio); and,
8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

LUCAS, COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

A. Deposits with Financial Institutions

At June 30, 2020, the carrying amount of all District deposits was (\$41,666) and the bank balance of all District deposits was \$1,681,682. Of the bank balance, \$499,584 was covered by the FDIC and \$1,182,098 was covered by the Ohio Pooled Collateral System. The negative carrying amount of District deposits was not due to an actual cash overdraft, but due to timing differences with outstanding checks exceeding bank balances.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2020, the District's financial institutions were approved for a reduced collateral rate of 50 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2020, the District had the following investments and maturities:

Measurement/ Investment type	Measurement Value	Investment Maturities				
		6 months or less	7 to 12 months	13 to 18 months	19 to 24 months	Greater than 24 months
<i>Fair Value:</i>						
Commercial Paper	\$ 1,496,618	\$ -	\$ 1,496,618	\$ -	\$ -	\$ -
Negotiable CD's	7,773,066	984,329	1,255,197	500,152	1,508,588	3,524,800

FHLMC	999,010	-	-	-	-	999,010
FFCB	1,999,370	-	-	-	-	1,999,370
<i>Amortized Cost:</i>						
STAR Ohio	17,798,514	17,798,514	-	-	-	-
Total	\$ 33,372,550	\$ 21,588,815	\$ 3,251,815	\$ 500,152	\$ 1,508,588	\$ 6,523,180

The District's weighted average length to maturity for investments is 0.76 years.

The District's investments in U.S. Government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The District's investments in federal agency securities (FHLMC and FFCB), municipal securities, commercial paper and negotiable CD's are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less. State law and the District policy requires that repurchase agreements cannot exceed thirty (30) days. In addition, securities subject to repurchase agreements must exceed the principal value by greater or equal to two (2) percent.

Credit Risk: STAR Ohio must maintain the highest letter or numerical rating provided by at least one nationally recognized standard service. Standard & Poor's has assigned STAR Ohio an AAAM money market rating. The federal agency securities (FHLMC and FFCB) were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The municipal securities were rated Aaa and Aa2 by Standard & Poor's and Moody's investor services, respectively. The negotiable CDs are not rated but are fully covered by the FDIC. The investments in commercial paper were rated A1 and A1+ by Standard & Poor's and P1 by Moody's. The District's investment policy does not specifically address credit risk beyond the adherence to Chapter 135 of the Ohio Revised Code, of which all relevant provisions are described previously in this note disclosure (Note 4).

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities (FHLMC and FFCB), municipal securities, and commercial paper are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk: The District's investment policy places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2020:

<u>Measurement/ Investment type</u>	<u>Measurement Value</u>	<u>% of Total</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2020 represent the collection of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed values as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised fair value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2020 represent the collection of calendar year 2019 taxes. Public utility real and personal property taxes received in calendar year 2020 became a lien on December 31, 2018, were levied after April 1, 2019, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Lucas County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2020 operations. The amount available as an advance at June 30, 2020 was \$2,023,999 in the general fund, \$212,037 in the debt service fund (a nonmajor governmental fund) and \$56,343 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2019 was \$2,014,692 in the general fund, \$212,354 in the debt service fund (a nonmajor governmental fund) and \$56,372 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2020 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Second Half Collections		2020 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/residential and other real estate	\$ 1,518,655,070	97.57	\$ 1,535,673,330	97.44

NOTE 9 - LONG-TERM OBLIGATIONS

A. General Obligation Bonds

General obligation bonds are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Accordingly, such unmatured obligations are reported on the statement of net position. Payments of principal and interest relating to these liabilities are recorded as expenditures in the debt service fund. The source of payment is derived from bonded debt tax levies.

Series 2006 Refunding General Obligation Bonds

On December 27, 2006, the District issued general obligation bonds (Series 2006 Refunding Bonds) to advance refund the callable of the Series 2001 and Series 2002 school improvement current interest bonds. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded current interest bonds at June 30, 2020 is \$2,190,000. The Series 2006 refunding general obligation bonds were advance refunded in fiscal year 2017 with the issuance of the Series 2017 refunding general obligation bonds described below.

The refunding issue is comprised of both current interest bonds, par value \$8,315,000, and capital appreciation bonds par value \$509,990. The interest rates on the current interest bonds range from 3.75% - 4.00%. The capital appreciation bonds matured on December 1, 2014 (effective interest rate 11.8708%) and December 1, 2015 (effective interest rate 16.0366%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bond which matured December 1, 2014 was \$580,000. The accreted value at maturity for the capital appreciation bond which matured December 1, 2015 was \$1,100,000.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2021.

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

The reacquisition price exceeded the net carrying amount of the old debt by \$597,320. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2011 Refunding General Obligation Bonds

On September 7, 2011, the District issued general obligation bonds (Series 2011 Refunding Bonds) to advance refund the callable of the Series 1998 refunding current interest bonds, the Series 2001 refunding current interest bonds and the Series 2002 school improvement current interest bonds. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded current interest bonds that is considered defeased at June 30, 2020, is \$3,730,000. At June 30, 2020 the balance of the Series 2011 refunding bonds is \$2,315,000.

The refunding issue is comprised of both current interest bonds, par value \$8,615,000, and capital appreciation bonds par value \$415,000. The interest rates on the current interest bonds range from 2.00% - 4.00%. The capital appreciation bonds matured on December 1, 2014 (effective interest rate 4.55%) at an accreted value of \$485,000.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2022.

The reacquisition price exceeded the net carrying amount of the old debt by \$312,919. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2014 Energy Conservation Bonds

On July 29, 2014, the District issued \$5,255,000 of House Bill 264 (H.B. 264) energy conservation bonds to retire energy conservation notes previously issued on January 17, 2014. Proceeds of the issuances are to provide financing to perform various energy improvement capital projects at the District. HVAC, electrical, and plumbing systems are being updated further to create energy savings by reducing energy consumption. The project will be funded from the savings created from reduced energy consumption. The bonds bear an interest rates from 1.00% - 4.00% and mature on December 1, 2028.

Series 2015 Refunding General Obligation Bonds

On April 9, 2015, the District issued general obligation bonds (Series 2015 Refunding Bonds) to advance refund the callable of the Series 2009 refunding current interest bonds. The refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded Series 2009 current interest bonds that is considered defeased at June 30, 2020, is \$63,365,000. At June 30, 2020 the balance of the Series 2015 refunding bonds is \$63,210,000.

The refunding issue is comprised of both current interest bonds serial bonds, par value \$55,855,000, current interest term bonds, par value \$9,750,000, and capital appreciation bonds par value \$1,845,000. The interest rates on the current interest bonds range from 2.00% - 5.00%. The capital appreciation bonds matured on December 1, 2018 (effective interest rate 24.173%) and December 1, 2019 (effective interest rate 24.259%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds that matured on December 1, 2018 and December 1, 2019 were \$2,325,000 and \$2,345,000, respectively.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2036.

Series 2017 Refunding General Obligation Bonds

On April 11, 2017, the District issued general obligation bonds (Series 2017 Refunding General Obligation Bonds) to advance refund the callable portion of the Series 2006 Refunding General Obligation Bonds (principal \$5,940,000; interest rate of 3.75% to 4.00%). Issuance proceeds of \$6,046,260 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded bonds that is considered defeased at June 30, 2020, is \$2,190,000. At June 30, 2020 the balance of the Series 2017 refunding bonds is \$2,155,000.

The refunding issue is comprised of current interest bonds, par value \$5,940,000. The interest rate on the current interest bonds is 2.100%.

The reacquisition price exceeded the net carrying amount of the old debt (including unamortized deferred changes and unamortized premiums) by \$47,789. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued. The refunding was undertaken to reduce future debt service payments by \$372,090.

Payments of principal and interest relating to the Series 2017 refunding general obligation bonds are recorded as expenditures in the bond retirement fund. Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated in the issue is December 1, 2021.

B. Other Long-Term Obligations

Net pension liability: The District's net pension liability is described in Note 11. The District pays obligations related to employee compensation from the fund benefitting from their service.

Net OPEB liability/asset: The District's net OPEB liability/asset is described in Note 12. The District pays obligations related to employee compensation from the fund benefitting from their service.

Compensated absences: The liability for compensated absences will be paid from the fund from which the employee was paid. For the District, this is primarily the general fund.

Lease-Purchase Obligation: The District's lease-purchase obligation is described in Note 16.

Tax Anticipation Notes: On July 18, 2019, the District issued \$4,000,000 in general obligation tax anticipation notes to provide for permanent improvements. The tax anticipation notes are capital related and long-term in nature and therefore are reported as a long-term obligation of the governmental activities. The notes bear an interest rate of 2.38% and mature on December 1, 2029. Interest payments are due June 1 and December 1 of each year.

The tax anticipation note is considered a direct borrowing. Direct borrowings have terms negotiated directly between the District and the lender (Signature Bank, N.A.) and are not offered for public sale. The note is collateralized by future tax collections.

E. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation use in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2020, are a voted debt margin of \$77,828,962 (including available funds of \$3,672,449), an unvoted debt margin of \$1,575,961, and an energy conservation debt margin of \$10,698,651.

NOTE 10 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2020, the District purchased commercial coverage through the Ohio School Plan for property and contents with a limit of \$278,424,573 and a \$1,000 deductible.

General liability is protected by the Ohio School Plan with an \$8,000,000 general aggregate/\$6,000,000 single occurrence limit and a \$0 deductible.

Vehicles are covered by The Ohio School Plan and hold \$1,000 deductible for comprehensive coverage. Vehicles have been insured under a liability policy, with a \$6,000,000 per occurrence limitation and a \$0 deductible.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There was no significant reduction in coverage from the prior year.

B. Group Health and Dental Insurance

The District is fully insured through commercial carriers for group health and dental benefits.

NOTE 10 - RISK MANAGEMENT - (Continued)

The District provides employee medical/surgical benefits through a Paramount health insurance program. This plan provides employees a choice of four levels of HMO coverage. Paramount administers the health insurance program. The District pays \$2,210.80 (100% co-ins), \$2,122.67 (90/10 co-ins), \$2,041.31 (80/20 co-ins), \$1,845.36 (High Deductible) and \$2,120.81 (out of area 90/10 co-ins) for family coverage or \$795.25 (100% co-ins), \$763.55 (90/10 co-ins), \$734.28 (80/20 co-ins), \$663.80 (High Deductible) and \$762.88 (out of area 90/10 co-ins) for individual coverage per month for full-time employees. The premium is paid by the fund that pays the salary for the employee.

The District provides employee dental benefits through a managed-care dental program. This plan provides dental benefits with a \$50 family and \$25 single deductible. Delta Dental administers the dental program. The District pays \$92.70 family or \$30.66 single per employee per month, which represents the entire premium required. The premium is paid by the fund that pays the salary for the employee.

C. Workers' Compensation

For fiscal year 2020, the District paid the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 11 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in pension and postemployment benefits payable on both the accrual and modified accrual bases of accounting.

Plan Description - District Employees Retirement System (SERS)

Plan Description - The District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire after August 1, 2017
Full benefits	Age 65 with 5 years of services credit; or Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

Effective January 1, 2018, SERS cost-of-living adjustment (COLA) changed from a fixed 3% annual increase to one based on the Consumer Price Index (CPI-W) with a cap of 2.5% and a floor of 0%. SERS also has the authority to award or suspend the COLA, or to adjust the COLA above or below CPI-W. SERS suspended the COLA increases for 2018, 2019 and 2020 for current retirees, and confirmed their intent to implement a four-year waiting period for the state of a COLA for future retirees.

Funding Policy - Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0%.

The District’s contractually required contribution to SERS was \$1,651,600 for fiscal year 2020. Of this amount, \$130,890 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - Licensed teachers participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 28 years of service, or 33 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.53% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate goes to the DC Plan and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For fiscal year 2020, plan members were required to contribute 14% of their annual covered salary. The District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2020 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$6,222,406 for fiscal year 2020. Of this amount, \$1,060,604 is reported as pension and postemployment benefits payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Wage inflation	3.00%
Future salary increases, including inflation	3.50% to 18.20%
COLA or ad hoc COLA	2.50%
Investment rate of return	7.50% net of investments expense, including inflation
Actuarial cost method	Entry age normal (level percent of payroll)

For 2019, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members was based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate - The total pension liability was calculated using the discount rate of 7.50%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%), or one percentage point higher (8.50%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
District's proportionate share of the net pension liability	\$ 30,790,237	\$ 21,971,722	\$ 14,576,293

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented below:

	July 1, 2019
Inflation	2.50%
Projected salary increases	12.50% at age 20 to 2.50% at age 65
Investment rate of return	7.45%, net of investment expenses, including inflation
Payroll increases	3.00%
Cost-of-living adjustments (COLA)	0.00%

For the July 1, 2019, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

**10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total pension liability was 7.45% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

NOTE 12 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability/Asset

The net OPEB liability/asset reported on the statement of net position represents a liability/asset to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability/asset represents the District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability/asset. Resulting adjustments to the net OPEB liability/asset would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded/funded benefits is presented as a long-term *net OPEB liability* or *net OPEB asset* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in pension and postemployment benefits payable on both the accrual and modified accrual bases of accounting.

Plan Description - District Employees Retirement System (SERS)

Health Care Plan Description - The GDA contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2020, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, prorated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the GDA's surcharge obligation was \$244,689.

The surcharge added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$244,689 for fiscal year 2020. Of this amount, \$244,689 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset was measured as of June 30, 2019, and the total OPEB liability/asset used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability/asset was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019 are presented below:

Wage inflation	3.00%
Future salary increases, including inflation	3.50% to 18.20%
Investment rate of return	7.50% net of investments expense, including inflation
Municipal bond index rate:	
Measurement date	3.13%
Prior measurement date	3.62%
Single equivalent interest rate, net of plan investment expense, including price inflation:	
Measurement date	3.22%
Prior measurement date	3.70%
Medical trend assumption:	
Measurement date	
Medicare	5.25 to 4.75%
Pre-Medicare	7.00 to 4.75%
Prior measurement date	
Medicare	5.375 to 4.75%
Pre-Medicare	7.25 to 4.75%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120% of male rates and 110% of female rates. RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22%. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.70%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13%, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. A municipal bond rate of 3.62% was used as of June 30, 2018. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Assumption Changes Since the Prior Measurement Date - There were no changes in assumptions since the prior measurement date of June 30, 2018.

Benefit Term Changes Since the Prior Measurement Date - There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

NOTE 12 - DEFINED BENEFIT OPEB PLANS - (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return **
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	<u>100.00 %</u>	

* Target weights will be phased in over a 24-month period concluding on July 1, 2019.

**10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total OPEB asset was 7.45% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45% was used to measure the total OPEB asset as of June 30, 2019.

Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45%, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45%) or one percentage point higher (8.45%) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

NOTE 13 - STATUTORY RESERVES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

NOTE 14 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is not involved in material litigation as either plaintiff or defendant that management believes would have a material adverse effect on the financial statements.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end.

The District's September 18 and November 27, 2020 foundation settlement receipts included the FTE adjustments for fiscal year 2020. The September 18, 2020 adjustment was a decrease of \$8,930 and is included in the financial statements as of June 30, 2020. The November 27, 2020 adjustment was an increase of \$148,183 and is not material to the financial statements and is not included in the financial statements as of June 30, 2020.

NOTE 15 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance to the extent fund balance is available. For the general fund, fund balance is not reported as assigned for encumbrances as unassigned fund balance is negative. At year end, the District's commitments for encumbrances (less amounts already reported as payables) in the governmental funds were as follows:

<u>Fund</u>	<u>Year-End Encumbrances</u>
General fund	\$ 205,010
Nonmajor governmental	<u>1,247,672</u>
Total	<u>\$ 1,452,682</u>

NOTE 16 - LEASE-PURCHASE AGREEMENT

On March 31, 2017, the District entered into a \$2,850,000 lease-purchase agreement with U.S. Bancorp Government Leasing and Finance, Inc. to finance the acquisition of boilers, chillers, and an HVAC unit. The source of revenue to fund the principal and interest payments will be derived from general operating revenues of the District.

Lease-purchase payments are reported as function expenditures on a budgetary basis. However, on a GAAP basis, these payments have been reclassified and are reported as debt service expenditures in the permanent improvement fund (a nonmajor governmental fund). During fiscal year 2020, the District made \$266,138 and \$62,197 in principal and interest payments, respectively, on the lease-purchase agreement.

A liability in the amount of the present value of minimum lease payments has been recorded on the statement of net position. Capital assets consisting of vehicles and equipment have been capitalized to the extent the capital assets acquired exceeded the District's capitalization threshold. At June 30, 2020, capital assets in the amount of \$2,804,378 have been capitalized under buildings and improvements.

The following is a schedule of the future minimum lease payments required under the lease-purchase agreement and the present value of the future minimum lease payments as of June 30, 2020:

<u>Fiscal Year Ending June 30,</u>	<u>Amount</u>

NOTE 17 - TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS

Other governments have entered into property tax abatement agreements with property owners under the Ohio Community Reinvestment Area (“CRA”) program within taxing districts of the District. The CRA program is a direct incentive tax exemption program benefiting property owners who renovate existing buildings or construct new buildings. Under this program, the other governments have designated areas to encourage revitalization of the existing structures and the development of new structures.

The District has incurred a reduction in property tax receipts due to agreements entered into by other governments. During fiscal year 2020, the District’s property tax receipts were reduced under agreements entered into by other governments as follows:

Government Entering Into Agreement	Tax Abatement Program CRA
Sylvania Township	\$ 15,250
City of Sylvania	18,024
Total	\$ 33,274

The District is not receiving any amounts from these other governments in association with the forgone property tax receipts.

NOTE 18 - COVID-19

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. The District’s investment portfolio and the investments of the pension and other employee benefit plan in which the District participates fluctuate with market conditions, and due to market volatility, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the District’s future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

 SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN
 FUND BALANCE - BUDGET AND ACTUAL (NON-GAAP BUDGETARY BASIS)
 GENERAL FUND (CONTINUED)
 FOR THE FISCAL YEAR ENDED JUNE 30, 2020

BUDGETARY BASIS OF ACCOUNTING

While reporting financial position and changes in financial position/fund balance on the basis of accounting principals generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements plus encumbrances.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis)
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the changes in financial position/fund balance for the year on the budget basis to the GAAP basis for the general fund are as follows:

Net Change in Fund Balance

	General Fund
Budget basis	\$ 4,487,928
Net adjustment for revenue accruals	92,765
Net adjustment for expenditure accruals	(179,651)
Net adjustment for other sources/uses	(660,365)
Funds budgeted elsewhere	36,122
Adjustment for encumbrances	279,623
GAAP basis	\$ 4,056,422

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. These include the public school support fund, the uniform school supplies fund, the natatorium fund, the special services rotary fund, and the rotary fund.

**SYLVANIA CITY SCHOOL DISTRICT
NONMAJOR GOVERNMENTAL FUND DESCRIPTION**

Nonmajor Special Revenue Funds

The special revenue funds are established to account for revenues from specific sources which, legally or otherwise, are restricted to expenditures for specific purposes. A description of the District's special revenue funds follows:

Food Service Section 3313.81, Revised Code

This fund is used to record financial transactions related to food service operations.

Other Grants Sections 5705.09 and 5705.13, Revised Code

A fund used to account for the proceeds of specific revenue sources (except for state and federal grants) that are legally restricted to expenditures for specified purposes.

Student Managed Activity Section 3313.062, Revised Code

A fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund includes activities which consist of a student body, student president, student treasurer, and faculty advisor.

District Managed Student Activity Section 3313.062, Revised Code

A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services Current Budget Bill, appropriation line item 200-511

A fund to account for receipts and expenditures incurred in providing services and materials to pupils attending non-public schools within the District.

Data Communications for Schools Section 5705.09, Revised Code

A fund provided to account for money appropriated for the costs incurred in connecting schools to the Ohio Educational Computer Network.

Vocational Educational Enhancements State Line Item Appropriation GRF 200-545

A fund used to account for Vocational Education Enhancements that: 1) expand the number of students enrolled in tech prep programs, 2) enable students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills, and credentials to present to future employers, universities, and other training institutes and 3) replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

Miscellaneous State Grants Section 5705.12, Revised Code

A fund used to account for various monies received from State agencies not classified elsewhere.

Student Wellness & Success Section 3317.26, Revised Code

This fund accounts for revenues received from the State to be used for students well being and success, such as providing mental health services for students.

Adult Basic Education PL 91-230, Title III

This fund accounts for Federal monies used to provide programs in reading, writing and math competency for adults who have not earned a high school diploma.

IDEA Part B Education of the Handicapped Act, PL 91-230

To account for Federal monies which assist states in the identification of handicapped children, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**SYLVANIA CITY SCHOOL DISTRICT
NONMAJOR GOVERNMENTAL FUND DESCRIPTION**

Nonmajor Special Revenue Funds (Continued)

Vocational Education

Carl D. Perkins Vocational Education Act of 1984, PL 98-524

Provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

Title III - Limited English Proficiency

Catalog of Federal Domestic Assistance #84.365

Funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency. These programs provided structured English language instruction, with the respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must be, to the extent necessary, in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

Title I

Catalog of Federal Domestic Assistance #84.010

To provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

Pre-school for the Handicapped Grant

Education of the Handicapped Act Amendments, PL 99-457.
Catalog of Federal Domestic Assistance #84-173

The Pre-school Grant Program addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Improving Teacher Quality

Title VI ESEA

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants

Section 5705.09, Revised Code

A fund used to account for various monies received from Federal agencies not classified elsewhere.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Special Services Rotary Fund

Section 5705.12, Revised Code

A fund provided to account for income and expenses made in connection with goods and services provided by a school district. Activities in this fund tend to be circricular in nature.

Natorium

Section 755.14, Revised Code

A fund provided to account for monies received and expended in connection with a community recreation program.

Rotary Fund

Section 5705.12, Revised Code

A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis. The use of the fund may be applied to situations where the district acts as fiscal agent for a multi-district program.

Public School Support

Section 5705.12, Revised Code

A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by Board resolution. Such expenditures may include curricular and extra-curricular related purchases.

Nonmajor Debt Service Fund

Debt service funds are used to account for financial resources that are restricted, committed or assigned for the accumulation of resources for, and the payment of, general obligation debt principal and interest.

Debt Service Fund

Section 5705.09, Revised Code

The debt service fund is used to account for and report financial resources that are restricted committed or assigned to expenditure for principal and interest.

Nonmajor Capital Projects Fund

Capital projects funds are used to account for financial resources that are restricted, committed or assigned for the construction or acquisition of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds). A description of the District's nonmajor capital projects fund follows:

Permanent Improvement

Section 5705.10, Revised Code

This fund is provided to account for all transactions related to the acquisition or construction of such permanent improvements as are authorized by Chapter 5705 of the Revised Code.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund.

Private-Purpose Trust Fund

Scholarship Fund

Section 5705.09, Revised Code

This fund accounts for monies to be set aside for college scholarships for students enrolled in the School District. The income from such a fund may be expended, but the principal must remain intact.
