Auditor of State Betty Montgomery

Board of Trustees Adams County Regional Water District 9203 State Route 126, P.O. Box 427 West Union, OH 45693

We have reviewed the Independent Auditor's Report of the Adams County Regional Water District, prepared by Balestra & Company, for the audit period January 1, 2002 through December 31, 2002. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Adams County Regional Water District is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying general purpose financial statements of the Adams County Regional Water District (the District), Adams County, as of and for the year ended December 31, 2002. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit. We did not audit the general purpose financial statements for the year ended December 31, 2001. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the financial statements is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Adams County Regional Water District, as of December 31, 2002, and the results of its operations and cash flows of its proprietary fund type for the year ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2003 on our consideration of the District's internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

As described in notes 2 & 14 of the notes to the general purpose financial statements, the District implemented Governmental Accounting Standards Board Statement No.33, *Accounting and Financial Reporting for Non-exchange Transactions,* and Governmental Accounting Standards Board Statement No.36, *Recipient Reporting for Certain Shared Non-exchange Revenues* (an amendment of GASB Statement No.33).

As described in note 15 of the notes to the general purpose financial statements, the District changed its presentation of the Statement of Cash Flows to include restricted cash and cash equivalents.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. DESCRIPTION OF THE ENTITY

The Adams County Regional Water District (the District) is a water district organized under the provisions of Section 6119 of the Ohio Revised Code. The District operates under the direction of a nine member board of trustees. An appointed staff consisting of a general manager and an office manager are responsible for fiscal control of the resources of the Adams County Regional Water District. The Adams County Regional Water District was established to provide an adequate and uncontaminated water supply for the consumption of the water district users, for industrial and business use, and for fire protection. The District serves all or parts of the following political subdivisions:

| Adams County: | Bratton Township | Brush Creek Township | Franklin Township |
|---------------|---------------------------------|--|-------------------|
| | Green Township | Jefferson Township | Liberty Township |
| | Meigs Township | Monroe Township | Oliver Township |
| | Scott Township | Sprigg Township | Tiffin Township |
| Brown County: | Wayne Township Byrd Township | Winchester Township Huntington Township | - |

B. BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

For financial statement presentation purposes, the Adams County Regional Water District utilizes the accrual basis of accounting. Under this method of accounting, revenues are recognized when they are earned. Un-billed water utility service receivables are recorded at year end.

Expenses are recognized under the accrual basis of accounting when the liability is incurred.

Under the guidelines of Governmental Accounting Standards Board (GASB) Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting," the Water District has elected not to apply FASB Statements and Interpretations issued after November 30, 1989, to its proprietary activities.

C. BUDGETARY PROCESS

The Ohio Revised Code requires that each fund be budgeted annually.

Appropriations

Budgetary expenditures (that is, disbursements and encumbrances) may not exceed appropriations at the fund level of control, and appropriations may not exceed estimated resources. The District must annually approve appropriation measures and subsequent amendments. Appropriations lapse at year end.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>BUDGETARY PROCESS</u> (Continued)

Estimated Resources

Estimated resources include estimates of cash to be received (budgeted receipts) plus cash as of January 1.

A summary of 2002 budgetary activity appears in Note 5.

D. CONTRIBUTED CAPITAL

Contributed capital was recorded by the District for receipts of capital grants or contributions from developers and customers prior to the implementation of Governmental Accounting Standards Board (GASB) Statement No. 33 and 36 in 2002. Contributed capital of the Adams County Regional Water District has been entirely from customers.

E. PROPERTY, PLANT, AND EQUIPMENT

Fixed assets acquired or constructed for the general use of the District in providing service are recorded at cost. Donated assets are recorded at their estimated fair market value at the time received. Depreciation of fixed assets of the District is calculated utilizing the straight line method. All assets reported in the financial statements are at cost less accumulated depreciation. The estimated useful lives by major fixed asset class are as follows:

| Building | 45 years |
|-----------------------------------|-------------|
| Wells and well field improvements | 10-20 years |
| Mains, lines and meters | 20-50 years |
| Storage tanks | 10-50 years |
| Equipment | 5-10 years |

F. INVENTORY

The District maintains material inventory for its proprietary fund. All inventory is valued at cost and the District uses the first-in, first-out (FIFO) flow assumption in determining cost.

G. <u>COMPENSATED ABSENCES</u>

Accumulated vacation leave and accumulated compensatory time are recorded as an expense and liability of the District as the benefits accrue to the employees. In accordance with the provisions of Governmental Accounting Standards Board (GASB) Number 16, Accounting for Compensated Absences, a liability is recorded for vested sick pay benefits which have been defined by District policy.

H. <u>PENSIONS</u>

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. CASH & CASH EQUIVALENTS

To improve cash management, cash received by the District is pooled. The proprietary fund's interest in the pool is presented as "cash and cash equivalents" on the balance sheet.

During fiscal year 2002, investments were limited to a Money Market Account.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

The District's cash and cash equivalents are considered to be cash on hand, deposits and short term investments (including restricted assets) with maturities of three months or less from the date of acquisition.

J. FUND ACCOUNTING

The Adams County Regional Water District maintains its accounting records in accordance with the principles of "fund" accounting. Fund accounting is a concept developed to meet the needs of government entities in which legal or other restraints require the recording of specific revenues and expenses. The transactions of each fund are reflected in a self-balancing group of accounts, an accounting entity which stands separate from the activities reported in other funds. The restriction associated with each type of fund is as follows:

PROPRIETARY FUND

The proprietary fund is used to account for the District's ongoing activities that are similar to those found in the private sector. The following is the District's proprietary fund type:

Enterprise Fund

This fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

K. DEFERRED FINANCING COSTS

Costs connected with obtaining and executing debt agreements are capitalized and amortized on the straight-line basis over the term of the related debt.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. PREPAID EXPENSES

Charges entered in the accounts for benefits not yet received. Prepaid expenses differ from deferred charges in that they are spread over a shorter period of time than deferred charges and are regularly recurring costs of operation. Prepaid expenses for 2002 and 2001 were \$32,510 and \$18,953 respectively.

M. OPERATING FACILITIES

Operating facilities are stated at cost. Construction period interest is capitalized as part of construction costs. During the years ended December 31, 2002 and 2001, the District capitalized \$181,161 and \$187,161 in interest, respectively. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets. Maintenance and repairs are expensed as incurred; major renewals and betterments are capitalized.

N. CUSTOMER ACCOUNTS RECEIVABLE

Customer accounts receivable are stated at face value, less an allowance for doubtful accounts. The allowance for doubtful accounts is established through a provision for doubtful accounts charged to expense. Doubtful accounts are charged against the allowance when management believes collection of the account is unlikely.

O. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - CHANGES IN ACCOUNTING PRINCIPLES

For the year ended December 31, 2002, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 33, *Accounting and Financial Reporting for Non-exchange Transactions*, and Governmental Accounting Standards Board (GASB) Statement No. 36, *Recipient Reporting for Certain Shared Non-exchange Revenues*. These statements establish accounting and financial reporting standards for non-exchange transactions.

NOTE 3 - EQUITY IN POOLED CASH AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002 (Continued)

NOTE 3 - EQUITY IN POOLED CASH AND INVESTMENTS

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public money deposited with the institution.

State statute permits monies to be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bond and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAROhio);
- 7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and,
- 8. Under limited circumstances, debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS DECEMBER 31, 2002 (Continued)

NOTE 3 - EQUITY IN POOLED CASH AND INVESTMENTS (Continued)

Cash on Hand At year end, the District had \$138 in undeposited cash on hand which is included on the balance sheet of the District as part of "cash and cash equivalents".

The following information classifies deposits and investments by categories of risk as defined in Governmental Accounting Standards Board (GASB) Statement No. 3, "Deposits With Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements."

Deposits At year end, the carrying amount of the District's deposits was \$2,313,521 and the bank balance was \$2,351,350.

- 1. \$461,150 was covered by federal depository insurance.
- 2. \$1,890,200 was covered by pooled or pledged collateral.

Investments The District's investments are required to be categorized to give an indication of the level of risk assumed by the District at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the District's name.

| | Category 1 | Category 3 | Carrying Amount | Fair Value |
|----------------------|---------------|---------------|--------------------|---------------|
| Repurchase Agreement | \$0 | \$1,669,761 | \$1,669,761 | \$1,669,761 |
| Total Investments | | | \$1,669,761 | \$1,669,761 |

The classification of cash and cash equivalents, and investments on the combined financial statements is based on criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities that use Proprietary Fund Accounting."

A reconciliation between the classifications of cash and cash equivalents and investments on the combined financial statements and the classification of deposits and investments presented above per Governmental Accounting Standards Board (GASB) Statement No. 3 is as follows:

| | Cash and Cash Equivalents Deposits | Investments |
|----------------------|--|-------------|
| GASB Statement 9 | \$3,983,420 | \$0 |
| Cash on Hand | (138) | 0 |
| Investments: | | |
| Repurchase Agreement | (1,669,761) | 1,669,761 |
| GASB Statement 3 | \$2,313,521 | \$1,669,761 |

Operating facilities, together with all revenue and service charges which may arise from the operations of the Company, are pledged for the payment of revenue bond debt.

The notes payable OWDA are secured by operating facilities.

Bond indentures contain significant requirements for debt reserve and flow of funds through restricted accounts. The District is required to accumulate over a ten year period a reserve balance equal to one annual installment including principal and interest. The reserve balance at December 31, 2002 and 2001 was \$366,426 and \$366,415, respectively. These amounts equaled the required reserve.

NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant risks of losses are covered by commercial insurance.

The District contracted with private commercial insurance carriers for real property, building contents, vehicle, and liability insurance coverage. Real property and building contents are 90% insured. Vehicle policies include liability coverage for bodily injury and property damage.

Health insurance was provided by a private carrier for the year.

Workers compensation benefits are provided through the State Bureau of Workers Compensation. The District pays all elected official's bonds by statute.

The District has not incurred significant reductions in insurance coverage for the prior year by major category of risk. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three years.

NOTE 8 - CONTRIBUTIONS IN AID OF CONSTRUCTION

Contributions in aid of construction consist of contributions from customers and grants from FmHA and various government agencies for the construction of water mains to serve customers.

NOTE 9 - PENSION PLAN

A. Public Employees Retirement System

1. Pension Benefit Obligation

All employees of the District participate in the Public Employees Retirement System of Ohio (the "PERS of Ohio"), a costsharing multiple employer defined benefit pension plan. PERS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Public Employees Retirement System of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the PERS of Ohio. Interested parties may obtain a copy by making written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614)466-2085.

The Ohio Revised Code provides statutory authority for employee and employer contributions. The employee contribution rate for employees is 8.5 percent. The 2002 and 2001 employer rate for local government employer units was 13.55 percent, of covered payroll, 8.44 percent to fund the pension benefit obligation and 5.11 percent to fund health care. The contribution requirements of plan members and the District are established and may be amended by the Public Employees Retirement Board. The District's contributions to the PERS of Ohio for the years ended December 31, 2002 and 2001 were \$110,969 and \$109,601 respectively which was equal to the required contributions.

2. Other Postemployment Benefits

Public Employees Retirement System: The Public Employees Retirement System of Ohio (the System) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit as described in GASB Statement No. 12. A portion of each employer's contribution to the System is set aside for the funding of postretirement health care based on authority granted by state statute.

The 2002 and 2001 employer contribution rate was 13.55 percent of covered payroll; 4.30 percent was the portion that was used to fund health care for both years. The Ohio Revised Code provides the statutory authority requiring public employers to fund postretirement health care through their contributions to PERS.

OEPB are financed through employer contributions and investment earnings thereon. The contributions allocated to retiree health care, along with investment income on allocated assets and periodic adjustments in health care provisions, are expected to be sufficient to sustain the program indefinitely.

As of December 31, 2000 the unaudited estimated net assets available for future OPEB payments were \$11,735,900,000. The number of benefit recipients eligible for OPEB at December 31, 2000 was 411,079.

NOTE 10 - COMPENSATED ABSENCES

Full-time, permanent employees of the District are granted vacation benefits in varying amounts based on specified maximums depending on tenure with the District. Sick leave accrues to all employees to specified maximums. Upon separation from the District, employees are entitled to one-half of unused sick hours up to 75 days and all accrued vacation leave. Accrued compensated absences, included in accrued expenses, as of December 31, 2002 and 2001, were \$165,116 and \$159,567 respectively.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees Adams County Regional Water District 9203 St. Rt. 136 P.O.Box 427 West Union, Ohio 45693

We have audited the general purpose financial statements of the Adams County Regional Water District (the District), Adams County, as of and for the year ended December 31, 2002, in which we indicated the District had changed its method of accounting for nonexchange transactions and its presentation of the Statement of Cash Flows to include restricted cash and cash equivalents, and have issued our report thereon dated March 20, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing and opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.
