The accompanying notes to this schedule are an integral part of this schedule.

CLERMONT COUNTY

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES
DECEMBER 31, 2003**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) summarizes activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - NUTRITION CLUSTER

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department are commingled with State grants. It is assumed federal monies are expended first.

NOTE C - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS

The County has established a revolving loan program to provide low-interest loans to persons from low income households for repairs to or replacement of septic systems, completion of septic system installations, or connection to the public sewer system. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the County passed through the Ohio Department of Development. The initial loan of this money is recorded as a disbursement on the accompanying Schedule of Federal Awards Expenditures (the Schedule). Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by five-year mortgages on the property, amortized monthly. At December 31, 2003, the gross amount of loans outstanding under this program was \$172,377. There were no delinquent amounts due.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require that the County contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE E - SUBRECIPIENTS

The County passes-through certain Federal assistance received from the Ohio Department of Mental Health and the Ohio Department of Drug and Alcohol and Drug Addiction Services to subrecipients. As described in Note A, the County records expenditures of Federal awards to subrecipients when paid in cash.

The subrecipient agencies have certain compliance responsibilities related to administering these federal programs. Under Federal Circular A-133, the County is responsible for monitoring subrecipients to help assure the Federal awards are used for authorized purposes in compliance with laws, regulations and the provisions of contracts or grant agreements, and the performance goals are achieved.

NOTE F - TITLE XIX (MEDICAID)

Funds passed through the Community Mental Health Board to providers are considered a subrecipient relationship and is included on the Schedule.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE AND ON
INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Clermont County
101 East Main Street
Batavia, Ohio 45103

To the Board of County Commissioners:

We have audited the financial statements of Clermont County, Ohio (the County), as of and for the fiscal year ended December 31, 2003, and have issued our report thereon dated May 28, 2004. We did not audit the Business-Type Activities and the County Sewer District and County Water District major enterprise funds, and our opinion, insofar as it relates to the amounts included as Business-Type Activities and the County Sewer District and County Water District major enterprise funds, is based on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted a matter involving the internal control over financial reporting that does not require inclusion in this report, that we have reported to management of the County in a separate letter dated May 28, 2004.

This report is intended for the information and use of the management, Board of County Commissioners, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "Betty Montgomery". The signature is written in a cursive, flowing style.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO MAJOR FEDERAL PROGRAMS AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Clermont County
101 East Main Street
Batavia, Ohio 45103

To the Board of County Commissioners:

Compliance

We have audited the compliance of Clermont County, Ohio (the County), with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2003. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2003.

Internal Control Over Compliance

The management of the County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Federal Award Expenditures

We have audited the financial statements of Clermont County, Ohio (the County), as of and for the fiscal year ended December 31, 2003, and have issued our report thereon dated May 28, 2004. We did not audit the Business-Type Activities and the County Sewer District and County Water District major enterprise funds, and our opinion, insofar as it relates to the amounts included as Business-Type Activities and the County Sewer District and County Water District major enterprise funds, is based on the report of other auditors. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended for the information and use of the management, Board of County Commissioners, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Betty Montgomery
Auditor of State

INTRODUCTORY SECTION

LINDA L. FRALEY

Clermont County Auditor

101 E. Main Street
Batavia, Ohio 45103-2961

To the Citizens and Board of Commissioners
of Clermont County, Ohio:

May 28, 2004

We are pleased to present this Comprehensive Annual Financial Report (CAFR) for Clermont County, Ohio. This report, for the year ended December 31, 2003, contains the financial statements and other financial and statistical data that provide a complete and full disclosure of all material financial aspects of the County. The responsibility for the accuracy of all data presented, its completeness and fairness of presentation rests with the County Auditor's Office.

This report presents the financial activity of the County in conformity with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources, and is consistent with the new reporting model as promulgated by GASB Statement No. 34.

The CAFR is organized in three sections: the Introductory Section, the Financial Section and the Statistical Section. The Introductory Section contains a letter of transmittal, organization chart, list of elected officials and a Certificate of Achievement for Excellence in Financial Reporting for the 2002 CAFR. The Financial Section includes the Independent Accountants' Report, Management's Discussion and Analysis, the Basic Financial Statements and Notes that provide an overview of the County's financial position and operating results, the Combining Statements for nonmajor funds and other schedules that provide detailed information relative to the Basic Financial Statements. The Statistical Section provides selected financial, economic and demographic information which may be used to indicate trends for comparative fiscal periods.

The County of Clermont is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget's Circular A-133, Audits of State and Local Governments. Information related to this single audit, including a schedule of federal financial assistance, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in a separately issued single audit report.

While this report accurately presents the financial statements and statistics of Clermont County, it only reflects a small segment of the entire community - a community that includes many businesses, quality school systems, a fine park district, library system, Clermont College (a branch of the University of Cincinnati) and several industrial parks.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Clermont County's MD&A can be found immediately following the Independent Accountants' Report.

REPORTING ENTITY

The County was formed by an action of Arthur St. Clair, the first governor of the Northwest Territory in 1800. The elected three-member Board of County Commissioners functions as the legislative and executive branch of the County. Each commissioner serves a term of four years. In addition to the County Auditor, who serves as chief fiscal officer, there are seven other elected administrative officials, each of whom operate independently as set forth by Ohio law. The officials are: Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Recorder, Sheriff and Treasurer. All of these officials serve four-year terms. The following judges are elected on a countywide basis to oversee the County's judicial system: Three Common Pleas Court Judges, one Domestic Relations Court Judge, one Probate/Juvenile Court Judge and three Municipal Court Judges. Judges are elected to six year terms.

The County provides general governmental services to its citizens which include: tax collection and distribution, public assistance, health assistance, community related services, civil and criminal justice systems, road and bridge maintenance, sewer and water line construction and maintenance and other general administrative support services. The County also operates water supply and sewer treatment systems.

The County's reporting entity has been defined in accordance with Governmental Accounting Standards Board Codification, Section 2100. The financial statements contained within this Comprehensive Annual Financial Report include all funds, agencies, boards and commissions for which the County elected officials are financially accountable. A complete discussion of the County's reporting entity is provided in Note A to the basic financial statements.

ECONOMIC CONDITION AND OUTLOOK

Summary of Local Economy

Clermont County continued its position of rapid growth in 2003. Woods and Poole, Inc. based in Washington, D.C., ranks Clermont County third in projected population growth in Ohio for the period 2000-2010, as compared to the other 88 counties in the state. Over the past six years, Clermont County has consistently been one of the fastest growing counties in Ohio, with a population exceeding 191,000. Woods and Poole continues to project that Clermont will be the 5th fastest growing County in employment in the State through the year 2025 with a growth rate estimated at 1.72% annually. Growth components in which Clermont has consistently been at or near the top among Ohio counties include:

1. Population Growth
2. New Housing Starts
3. Retail Sales Growth
4. New Business Start Ups and Formations
5. Patent and Copyright Registrations

Woods and Poole, Inc. also projects Clermont County to be the third fastest growing County employment-wise in the State through the year 2005. The County unemployment rate of 6.3% at December 31, 2003 compares to 7.0 % for the State of Ohio and 6.3% for the United States.

The Clermont tax base includes 56 companies with 100 or more employees including Cinergy Corporation (Greater Cincinnati) - 4,700 employees, Cincinnati Bell Telephone (Greater Cincinnati) - 2,700 employees, Batavia Transmissions LLC - 1,401 employees, 3M Precision Optics - 1,175 employees, The Midland Company – 1,100 employees, and International Paper- roughly 750 employees.

Clermont County has experienced substantial growth in the last two decades, aided by the completion of I-275 and the opening of I-471 between I-275 and downtown. With the increased accessibility, a probusiness environment and an abundance of low-cost available property, Clermont County continues to flourish in residential and commercial growth.

Clermont County's economy has experienced relative growth within the Cincinnati metropolitan economy. While the retail and service sectors have grown significantly, Clermont County still has a healthy industrial base. Currently there are more than 6,325 businesses located in Clermont County including 1,956 service businesses, 1,427 retail and wholesale enterprises, 793 construction related business and 337 manufacturing companies. Some of the largest employers in the County are Batavia Transmissions LLC, which operates an automotive transmission plant; 3M Precision Optics, a producer of optical lenses microscope lenses and flat screen televisions; Milacron, a producer of plastic machinery parts; Cinergy, a provider of utilities in the area; Clermont Mercy Hospital, which provides medical services for residents of the County; Midland Company, a major national insurance provider/underwriter; Electronic Data Systems (formerly Structural Dynamics Research Corporation -SDRC) an engineering firm specializing in computer software design work; and International Paper. Many of the major employers in Clermont County are located in the western parts of the County in close proximity to Cincinnati. In the late 1980's and 1990's new office parks, shopping centers, and residential developments began to appear near the intersection of I-275 and State Route 32, the Appalachian Highway.

Park 50 TechneCenter has brought the County the distinction of having the largest high-tech research park in Ohio. Park 50 consists of more than 1.5 million square feet of office and research space housed in 32 buildings. The development is located on a 455-acre campus located at the intersection of I-275 and U.S. 50. Total employment in the park is more than 3,800. Since the first building in the park was occupied in 1978, it has grown to more than 145 companies. More than 50 percent of these are high-tech companies, including Electronic Data Systems (formerly Structural Dynamics Research Corporation - SDRC), Siemons, CIMX Scanner Applications, Computer Technology Corporation, International TechneGroup Inc., PPG, MANTA Engineering, Rockwell Automation, Entek and Accu-Med Services. Park 50 also includes companies such as Bigg's Hyper Shoppes, Philip Morris, Union Carbide Corporation, Dow-Corning, and banks, insurance companies, brokerage companies and investment management firms. Park 50 TechneCenter development is also located within an Enterprise Zone.

Tipton Associates is also developing the Wards Corner Business Park. The parcel covers 77 acres, on 46 acres of which International Paper's world class research and development center is located. This center was completed in July 1997 and has resulted in more than 600 new jobs being brought to Clermont County. International Paper completed construction in 2002, on a new 85,000 square foot information technology center. An additional 15 acres has been developed with a 150,000 square foot executive building for Indiana Insurance. In 1999, the Attachmate Corporation completed a 54,000 square foot building and brought 200 employees to the area however, in 2003 the offices have been closed. Five other buildings at this location vary from a class A office building (Lakeside Center) to several flex buildings housing office, light manufacturing, sales and distribution firms. An adjacent retail center has restaurants and retail shops. In addition, a new 85 room Hilton Garden Hotel recently opened in the vicinity.

The largest employment center in Clermont County is the Bach-Buxton, McMann, Clough Pike business corridor. Large employers in this area include Midland Companies, 3M Precision optics, KDI, Sun Chemical, Rockwell Automation, Multi-Color, Tri-State Fabricators, Key Resins, Q.C. Industries, and others. Employment, more than 4,000 in this area, is growing rapidly with recent infrastructure improvements.

Clermont County has a large and growing retail base. Eastgate, at the intersection of I-275 and State Route 32, development continues at a rapid pace. The Eastgate Mall contains about 60 smaller shops and merchants. The mall has four large department stores as anchors: JCPenney, Sears, Dillard's, and Kohl's. In 2003, the mall began an \$18 million dollar renovation project. Bigg's Place mall recently completed a \$ 6 million dollar upgrade. Large discount retailers have located in the County to take advantage of the rapid population growth, housing increases and strong community demographics. These include companies such as Office Max, Circuit City, HHGregg, Wal-Mart, Meijer, Value City, Home Depot, Lowe's, K-Mart, Sam's Club, Dick's Sporting Goods, Best Buy, Michaels, Hobby Lobby, Bigg's, Garden

Ridge, Rhodes Furniture Gallery, Sofa Express, PetsMart, Toys R' Us, Mazel's, Furniture Fair; Borders, Big Lots, Frank's Nursery, Kroger, Thriftway, Furniture Fair, Oak Express and others.

Eastgate Pavilion, another retail shopping center on Eastgate Boulevard, was constructed and opened in 1995. This development includes a Value City department store, Dick's Sporting Goods, Best Buy appliance store and PetsMart.

A second major and growing retail location is the Mulberry Square Shopping Center, developed by the Myers Cooper Company. Anchors in this shopping center off State Route 28 are Kroger's and Sears. This center plus a Meijer's Square Store across the street with complementary retail establishments total over 530,000 square feet. Adjoining this development will be approximately 200,000 square feet of office space as well. A new Home Depot Store completed in 2000 was added to the retail area as well as an Applebees and O'Charley's restaurants. A new Kohl's department Store was constructed in 2003.

The Clermont County Airport Industrial Park has 22 firms with over 1,500 employees. The airport area has another 170 acres immediately available for development with access, utilities and zoning appropriate for a variety of uses. Sporty's nationwide aircraft pilot supply catalogue house is the largest employer in the complex. Sporty's, with 120,000 square foot facility for sales and distribution, offers a full line of air services such as flight school, charters, fuel, equipment, repairs and maintenance. It is the largest supplier of private pilot goods and materials in the United States.

Light industries representing a diversified mix of local, national and foreign concerns are located in the County including Ellis & Watts (a subsidiary of Dynamics Corp of America), 3M Precision Optics, KDI Precision Products, Q.C. Industries, EEI, Inc, A&A Safety, Inc., General Data Company, LeBlond Makino, Southern Ohio Manufacturing, Sano, Mobilized Systems, Automated Machinery, Rockwell Automation and Tri-State Fabricators and Batavia Transmissions LLC, a joint venture between Ford Motor Co. and ZF, Friedrichshafen AG a major supplier of high quality, high technology transmissions. In 2003, Ford Motor Co. regained the majority share of the partnership. The partnership invested over \$650 million in the existing transmission plant, and increase of employment to over 1500 at the end of 2003.

Clermont County Milford Commerce Park is a 250 acre mixed business development, which is designed for office, research, hotel, and light industrial purposes and it currently includes the Clermont Chamber of Commerce, Kerry Dodge, Husky Injection Molding, Scanner Applications, Tri-State Juice Company, Walton Foods and New Creative Enterprise. The Parks' River's Edge complex is home to a \$14,000,000, 16 screen National Cinema complex as well as retail and restaurant facilities including Texas Roadhouse, United Dairy Farmers, Target Department Store, Ruby Tuesday Restaurant, Wendy's, Gold Star, Cracker Barrel Restaurant, Buffalo Wild Wings and a Red Robin Restaurant.

Another area of significant economic activity is located in the Village of Williamsburg and Williamsburg Township. Milacron, Georgia Pacific and Dualite, Inc. are large employers in this part of east-central Clermont County. An application for foreign trade zone designation by Milacron for a 360 acre area was approved in 2000.

The largest number of businesses are located in the areas of Union, Miami, and Batavia Townships because of inherent economic advantages such as close proximity to I-275, a major regional highway that provides ready access to the Cincinnati/Northern Kentucky International Airport, the City of Cincinnati and major regional arterial highways. These established centers also have access to all major utilities and infrastructure necessary to support larger development projects.

Since the inception of the Rural Enterprise Zone Program, Clermont County has granted 143 tax abatements to attract new employment and capital investments. These 143 transactions have generated more than 6,308 new jobs, retained more than 15,780 jobs within the community and have resulted in more than \$2.0 billion being invested in Clermont County.

Future Economic Outlook

Although the County has experienced growth in key economic development factors, current economic indicators show that the current economy will remain sluggish. It is anticipated that the local economy may swing into an upstart dependent upon rates remaining low and an increase in corporate consumption. Given these conditions, the County maintains an ultra conservative approach to spending while maximizing its local revenues. We anticipate over the next year a flattening or decrease in sales tax revenues given the current economic indicators for this region. We also feel that the County will have to review alternative methods of intergovernmental funding. Since the State of Ohio's fiscal condition continues to flutter, the County's portion of state-based program revenue may also be affected by these economic conditions

Given these factors, Clermont County's General Fund year end fund balance continues to remain steady. The County continues to maintain a General Fund balance that should allow the County to meet its General Fund expenditures without facing shortages in resources. As a result of prior years' conservative spending and steady fund balances, the County was able to create a Budget Stabilization fund in 2002 to safe guard against future economic factors. The \$27.6 million unreserved fund balance on the modified accrual basis of accounting at December 31, 2003 represents approximately 60% of 2003 General Fund expenditures and other financing uses.

The real property tax revenues of the General Fund are derived entirely from inside millage (unvoted millage). The revenue structure of the General Fund is balanced so that the operation of the County is not overly dependent on one specific revenue source. This diversified revenue stream has provided an equitable means of generating revenues necessary for the operation of the offices administered by the elected officials, as well as for mandated contributions for welfare costs and discretionary grants to certain County organizations and special districts.

With the diverse Southwest Ohio economy, the prospects for 2004 and beyond still look promising. Clermont County's inclusion in the Greater Cincinnati Metropolitan area has been a key factor in the population growth that has been experienced in the past two decades. The County will continue to provide this area with an environment that offers the benefits of small town and/or country living within minutes of a large urban environment.

MAJOR COUNTY INITIATIVES

Current Year Projects

Auditor: The Clermont County Auditor's office continued to support the strong real estate market in Clermont County. In 2003, the taxable value of real estate increased 3.3% to \$3.24 billion dollars, due primarily to new construction totaling \$102 million. Over 11,400 real estate parcels were conveyed with \$91 million dollars paid to sellers. The Auditor real estate website, a comprehensive source of property, tax, and land information, had 60,000 on line visits per month in 2003. All property owners can view real estate valuation information via the Internet at www.clermontauditorrealestate.org.

Animal Control: A new 10,750 square foot animal shelter opened in 2003 at 4025 Filager Road in Batavia. The \$800,000 facility is twice the size of the old shelter. This shelter was critically needed to handle the increasing pet population that in 2003 swelled to 5,844 stray animals. For information on adopting a pet, call the Animal Shelter at 732-8854 or visit their website at www.animalshelter.com.

Permit Central : Looking to the future, the Clermont County Board of Commissioners approved a recommendation by the Building Inspection Department to approve the Clermont County Phase II Storm Water Management plan for coverage under Ohio EPA's Storm Water Permitting program. This action grants Clermont County full authority to exercise all enforcement in the communities within "urbanized areas". To further enhance operations, on November 25, 2003, the Commissioners approved an agreement between Clermont County and Hansen Information Technologies relative to handheld computers. These handheld devices will be used by our field inspectors, and are expected to enhance

our inspection operation with better efficiency and expertise in the field and the office. In an effort to better serve our public in 2003 and beyond, Permit Central is sharing employees with the county's Sewer & Water Department. These shared employees are responsible for WMSC (Water Management & Sediment Control) and Water and Sewer reviews, WMSC inspections, and inspections of the water and sewer systems for commercial sites and subdivisions.

Department of Job and Family Services

Children's Protective Services: In 2003, Clermont County Children's Protective Services (CPS) had many significant accomplishments. CPS received a \$10,000 faith-based grant to recruit new foster parents and as a result, CPS licensed 25 new foster homes. The supervisor for the Permanency Planning Unit was nominated by her staff and was awarded the Supervisor of the Year award by the Public Children Services Association of Ohio. In addition, one of the families involved with CPS received the Family of the Year award. CPS collaborated with Clermont County Juvenile Court, Clermont County Mental Health and Recovery Board and Child Focus, Incorporated to have a statistical analysis completed so that these agencies can work together to reduce the rising placement costs.

Child Support: Child Support Enforcement collected an all time high of \$35,292,583 and now accepts credit cards as a form of payment for child support obligations. Our Child Support Department received a national achievement award from the National Association of Counties (NACo) and a State Best Practice Award from the Ohio Family Support Association for the Career Opportunities Program.

Employment Services: During 2003, the Employment Services Division of the Clermont County Dept. of Job & Family Services provided medical, nutritional, Child Care, financial and job support services to thousands of Clermont County citizens. The ES Division was honored for accuracy in the Food Stamp program by the State of Ohio and collected more than \$200,000 in overpaid and fraudulently issued benefits.

Workforce Development: In October of 2003, Clermont County's One Stop operator, the Business and Workforce Resource Center (BWRC) opened in a new state of the art facility in the location of the former Family Fun Center near the Eastgate Mall. The public-private partnership model established between the Clermont County Department of Job and Family Services and Affiliated Computer Systems (ACS) provides an extensive array of services for job hunters and businesses alike. With its close relationship with the Clermont Chamber of Commerce and numerous other community partners, the BWRC is recognized as a premier One Stop operation in the State of Ohio.

Fleet Maintenance: In 2003 the Fleet Maintenance Department introduced a new Antifreeze Recycling Program that has proven to be very successful. The program has been offered to the residents of Clermont County so they may drop off any used antifreeze at the Fleet garage. The used antifreeze is then recycled and reused in County vehicles. To date, 100 gallons of antifreeze has been recycled from antifreeze that has come from county residents. All used antifreeze removed from County vehicles is also recycled and reused. In cooperation with Facilities Management, the final waste oil furnace was purchased and installed in 2003. The garage is now heated entirely on waste oil, at a savings of over \$5,000 per heating season.

Mental Health and Recovery Board: Responding to national, state and local concerns about suicides, the Clermont County Mental Health and Recovery Board initiated a Suicide Prevention Coalition in 2003 to address the issues in our community. A crisis hotline (528-SAVE) was launched in October 2003 to provide a 24-hour resource to local citizens coping with emotional problems. One Board-funded service, the Jail Diversion Program, was recognized in March 2003 by the National Association of Counties (NACo) as one of three best practices in the country, based on services provided and cost savings to the County.

Department of Environmental Quality: Clermont County continues to place a high priority on the protection of its natural resources. In 2003, the County completed a watershed management plan for the Lower East Fork and its tributaries. The plan includes information about resources in the watershed, existing water quality, and plans to maintain or improve stream conditions. This plan was one of the first in the state to be endorsed by Ohio EPA. Work also began on developing a similar plan for the East Fork upstream of Lake Harsha. Also in 2003, the County received a \$225,000 grant from U.S. EPA to assist in watershed management

Through education programs, volunteer clean-ups, and the use of community service crews, Clermont County continued to fight the problem of litter. Almost 200 programs addressing recycling, litter prevention and other environmental issues were given to County schools and other groups. The annual Clean and Green Neighborhood Clean-up and the East Fork and Ohio River Sweeps were held again in 2003, with a record number of participants for both the Clean and Green and East Fork events. In cooperation with the Clermont County Municipal Court, as part of the alternative sentencing program, offenders collected more than 75 tons of litter from County roadsides in 2003.

Department of Community Planning and Development: The Department of Community Planning and Development had a major role in the development of an aggressive, county-wide economic development strategy and the formation of a Community Improvement Corporation, which focus on bringing new job opportunities to Clermont County residents. Improving the County's future transportation alternatives in the focus of *Access Clermont*, a long-range transportation improvement initiative designed and conducted by Clermont County's Planning Department. Bringing together the talents and experience of environmental professionals and the business community, the Planning Department facilitated discussions that resulted in the creation of a 70-page *Guidance and Options for Greenspace Preservation* that Clermont County Community's can utilize to build local opportunities. In addition to these economic development, transportation, and environmental initiatives, the Planning Department has been working to create housing improvement program strategies and developing subdivision regulations that help to build a better future for Clermont County.

Veteran Services: On November 10, 2003, Veterans' Services and the Board of Clermont County Commissioners hosted a "Salute to our Military: Past, Present and Future." As a prelude to the event, thousands of local citizens signed two giant panels entitled the Clermont County *Wall of Words* to show their support for the many sacrifices our servicemen and women have made for our freedom. In addition, Clermont County hosted the Vietnam Wall Traveling Tribute in September 2003.

Sheriff: The Sheriff's office worked closely with Clermont County Emergency Management Association in the development of policy and training surrounding the readiness of Clermont County regarding homeland security. The Sheriff's office participated in several table top exercises to test knowledge and technical skills. The Sheriff's office continues to work in conjunction with County School Districts in enhancing student and staff safety. Originally trained in Quick Action Deployment (QUAD) in 2001, additional training was conducted in 2003 for all County law enforcement agencies in order to provide a uniform response to incidents involving school safety.

In 2003, the Clermont County jail became acclimated to the additions and renovations completed in 2002. The jail housed 7,236 individuals in 2003, an increase of over 9% from the previous year. This is the second consecutive year that the jail has experienced such an increase. In addition, the jail continued its compliance success with Ohio jail standards as inspected by the Bureau of Adult Detention.

Water and Sewer: In the past, the northern regions of the County have experienced low pressure and interrupted water service during peak demand. The construction of the Buckwheat 2 MG Elevated Water Storage Tank and the Buckwheat Road Water Transmission Main has helped to greatly reduce these occurrences. In addition, 2003 saw the construction of the Locust Corner 2 MG Ground Storage Tank and the beginning of construction for the Guinea Area 2 MG Elevated Water Storage Tank. Construction of the water storage facilities, as well as several miles of transmission main, have helped to ensure adequate supply of water for consumption and fire protection. The new tanks also provide sufficient storage to allow maintenance and painting of existing tanks, where renovation has been long overdue. 2003 saw the start of construction for the replacement of the Ranch Lane / Beechmont Subdivision Sanitary Sewer, which will help to eliminate sewer overflows and eliminate the Consent Order issued by OEPA. In addition, the Miami Trails Wastewater Treatment Plant and the Lower East Fork Wastewater Treatment Plant expansions were completed, adding 2.2 million gallons per day of new treatment capacity. Most notably, effective September 1, 2003, the Clermont County Sewer District reclaimed responsibility for the operation and maintenance of the County's sewer infrastructure. Prior, the operations were being managed by a private company.

Office of Technology Communication and Security: 2003 saw the County continue the implementation of the 800MHz Radio and Data network. Started in December of 1998, 2003 saw the continued deployment of Mobile Data Computers (MDC's) in law enforcement vehicles. In February of 2003, the ISD Training Center was opened. This in-house training center allows for cost effective software training for county staff. OTCS successfully staged the Second Annual Business Continuity & Response Plans Exercise with 16 departments or agencies participating. This was a table top exercise reviewing disaster recovery plans. Finally, the Clermont County On-line Auction went live which has eliminated the need for an annual auction and allowed for the continual disposal of items that the County no longer utilizes.

Treasurer: The Treasurer's Office collected \$153.6 million dollars in real estate taxes in 2003, \$1.3 million in manufactured home taxes and \$15.3 million in personal property taxes. A total of 23 real estate tax foreclosures were filed in 2003 and the county's real estate delinquency rate is under 2%. The County implemented the processes which allow citizens to pay taxes and fees using their credit cards via the Internet or telephone. Such a process gives citizens more flexibility and convenience in the payment of taxes and fees.

Future Projects

The new Municipal Court Courthouse is still under construction with an anticipated completion date in the fall of 2004. The new courthouse will be a one-story building with five courtrooms and a one-stop facility for people paying traffic tickets, and for those in need of the public defender, prosecutor, mediation and other services. Plenty of parking will be available, plus enough ground to double the court space in time if needed.

A groundbreaking was held in June 2003 for a \$6 million addition to the Clermont County Juvenile Detention Center. This enhanced, larger juvenile detention center will provide the County's residents with enhanced public safety and the court with a greater opportunity to provide long range options for troubled youth. The new facility will contain 36 beds, which will increase Juvenile Court's options. The Court will be able to opt to institute 30-60-90 day programs to treat children locally, instead of sending them outside the County. The project was financed by bond proceeds and a \$2.2 million state grant from the Ohio Department of Youth Services. The detention center is expected to be completed by the fall of 2004.

In conjunction with the Help America Vote Act, in 2003, the Secretary of State of Ohio approved the application of the Clermont County Board of Elections for grant monies to replace its current voting system. The Help America Vote Act requires "uniform and nondiscriminatory election technology. The replacement of the voting system should be completed in 2004

FINANCIAL INFORMATION

Accounting System and Internal Control

The County's accounting system is organized on a "fund" basis. Each fund is a distinct self balancing accounting entity. The County's day-to-day accounting and budgetary records are maintained on a basis other than Generally Accepted Accounting Principles (GAAP). For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. On the full accrual basis, revenues are recognized when measurable and earned; expenses are recognized when incurred.

The basis of accounting and presentation of the various funds utilized by Clermont County are fully described in Note B of the basic financial statements. Additional budgetary information can be found in Note C.

In developing the County's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the costs of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The County utilizes an accounting system, as well as a system of control, for fixed assets and payroll. These systems, coupled with the auditing of each individual voucher prior to payment by the Auditor's office, ensure that the financial information generated is both accurate and reliable.

Budgetary Controls

The Board of County Commissioners adopted the 2003 annual budget for the County in December, 2002. All disbursements and transfers of cash between funds require appropriation authority from the Commissioners. Budgets are controlled at the major object level within a department and fund. All purchase orders must be approved by department heads and submitted to the County Auditor for processing. The necessary funds are encumbered and the purchase order released to the vendors; those purchase orders which exceed the available appropriation are rejected until additional funds are secured.

Cash Management

The County pools its cash to simplify cash management. All idle monies are invested, with the earnings allocated to the General Fund and other qualifying funds as prescribed by Ohio law. The County invests primarily in Certificates of Deposit, U.S. Government Securities, U.S. Government Backed Securities, Federal Agency securities, Mutual Funds, Repurchase agreements and the State Treasury Asset Reserve Program. Investments are reported at fair value which is based on quoted market prices. The County Treasurer makes such commitments of County resources only with federally insured financial institutions, and with the State of Ohio.

Certain deposits are collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the County's name. Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool with a current market value at least equal to 105% of all public monies on deposit with the depository established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Risk Management

Clermont County is continuing its efforts to use alternative coverage to get the maximum amount of insurance coverage for the minimum amount of premiums. In 2003, the County carried comprehensive general liability including law enforcement liability, blanket crime coverage, public officials liability insurance, fleet insurance, and a comprehensive boiler and machinery coverage.

Clermont County enforces a program permitting only those employees with "good driving records" to operate any County vehicle. An employee's driving record is validated through the Ohio Bureau of Motor Vehicles upon employment and is checked periodically after that.

The County maintains a Workmen's Compensation Fund for the administration of a Workers' Compensation program to reduce employee risk, decrease the County's workers' compensation liability and to measure and recover the cost of providing the program to departments of the County.

Health Benefits

After ninety days of full time employment, each new employee is eligible for health care benefits provided by the County. The County has elected to provide employees major medical, vision and hospitalization through a self-insured program. The County maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. Third party administrators, United Health and Dental Care Plus Insurance Companies, review all claims which are then paid by the County. The County purchases stop-loss coverage of \$100,000 per employee and an aggregate limit of \$1,000,000. The County pays into the self-insurance internal service fund \$735.96 for family coverage and \$283.56 for individual coverage per employee per month which represents the entire premium required. The premium is paid by the fund that pays the salary for the employee and is based on historic cost information.

INDEPENDENT AUDIT

Included in this report is an Auditor of State unqualified opinion rendered on the County's financial position, and results of operations, as well as its existing assets and liabilities, as reported in the basic financial statements for the year ended December 31, 2003. An annual, independent audit of the County's financial statements is part of the annual preparation of a Comprehensive Annual Financial Report. This annual, independent audit continues to provide a review and comments which strengthen the County's accounting and budgetary controls.

GFOA CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial reporting to Clermont County for its comprehensive annual financial report (CAFR) for the year ended December 31, 2002. This was the seventeenth consecutive year that the County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certification.

ACKNOWLEDGMENTS

Clermont County is proud to have been one of the first counties in Ohio to prepare a comprehensive financial report in conformity with generally accepted accounting principles (GAAP) and to implement the new reporting model as promulgated by GASB Statement No. 34 along with the precise guidelines established by the Government Finance Officers Association (GFOA).

The preparation of this report could not have been accomplished without the dedicated effort of a number of employees within the County Auditor's Office and the audit and local government services divisions of the Auditor of the State of Ohio. We also extend appreciation to the County's other elected officials and department heads for their contributions and continued support of this project.

I would especially like to recognize Charles F. Tilbury, Jr., Chief Deputy Auditor; Christopher T. Mehlman, Deputy Auditor of Financial Operations; Jennifer Drennan, Deputy Auditor of Special Projects and the County Auditor's finance department for their dedication toward the successful completion of this project.

Respectfully,

A handwritten signature in cursive script that reads "Linda L. Fraley". The signature is written in a dark ink and is positioned above the printed name and title.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Clermont County,
Ohio

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

FINANCIAL SECTION

Auditor of State Betty Montgomery

INDEPENDENT ACCOUNTANTS' REPORT

Clermont County
101 East Main Street
Batavia, Ohio 45103

To the Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Clermont County, Ohio (the County), as of and for the fiscal year ended December 31, 2003, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Clermont County Sewer District and the Clermont County Water District, which represent all the assets and revenues of the Business-Type Activities and the County Sewer District and County Water District major enterprise funds. Other auditors audited those financial statements. They have furnished their report thereon to us, and we base our opinion, insofar as it relates to the amounts included for the Business Type Activities and County Sewer District and County Water District major enterprise funds on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Clermont County, Ohio as of December 31, 2003, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the General Fund, Social Services Fund, and Motor Vehicle and Gas Tax Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2004, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information the Governmental Accounting Standards Board requires. We applied limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion thereon.

We performed our audit to form an opinion on the basic financial statements of the County, taken as a whole. The introductory and statistical sections, combining and individual fund statements and schedules listed in the table of contents are presented for additional analysis and are not a required part of the basic financial statements. We subjected the combining and individual fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not audit the data included in the introductory and statistical sections of this report and therefore express no opinion thereon.

A handwritten signature in black ink that reads "Betty Montgomery". The signature is written in a cursive, flowing style.

May 28, 2004

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

The discussion and analysis of Clermont County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2003. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, and the basic financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2003 are as follows:

- ❑ The assets of the County exceeded its liabilities at the close of the year ended December 31, 2003, by \$386.2 million (net assets). Of this amount, \$12.7 million (unrestricted net assets) may be used to meet the County's ongoing obligations to citizens and creditors, and \$88.2 million is classified as unrestricted in the Water and Sewer activities.
- ❑ The County's total net assets increased by \$10.9 million, which represents a 2.9% increase from 2002.
- ❑ At the end of the current year, the County's governmental funds reported a combined ending fund balance of \$61.6 million, a decrease of \$2.6 million from the prior year. Of this amount, \$51.8 million is available for spending (unreserved fund balance) on behalf of its citizens.
- ❑ At the end of the current fiscal year, unreserved fund balance for the general fund was \$27.6 million, or 60% of total general fund expenditures and other financing uses.
- ❑ Clermont County's total debt decreased by \$7.2 million which represents a 2% increase in debt related to governmental activities and a 8.9% decrease in debt related to business-type activities.
- ❑ In July of 2003, the County authorized the issuance of \$17.5 million in general obligation debt. \$16.3 was issued to refinance the 1993 Building and Road Improvement debt and Bond Anticipation Notes, and \$1.2 million was issued to finance the Stonelick-Olive Branch State Route 32 interchange project.
- ❑ Also in 2003, the County's Water and Sewer operations issued Waterworks System Revenue Refunding Bonds and Sewer System Revenue Refunding Bonds in the amounts of \$37 million and \$39.3 million respectively.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Clermont County as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the County's most significant funds with all other non-major funds presented in total in one column.

Reporting Clermont County as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains information about the funds used by the County to provide services to our citizens, the view of the County as a whole looks at all financial transactions and asks the question, "How did we do financially during 2003?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by the private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the County's net assets and the change in those assets. This change in net assets is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, nonfinancial information such as changes in the County's tax base and the condition of County capital assets will also need to be evaluated.

In the Statement of Net Assets and the Statement of Activities, the County is divided into three kinds of activities:

- ◆ Governmental Activities-Most of the County's services are reported here including police, social services programs, administration, and all departments with the exception of our Water and Sewer funds.
- ◆ Business-Type Activities- These services have a charge based upon the amount of usage. The County charges fees to recoup the cost of the entire operation of our Water and Sewer Plants as well as all capital expenses associated with these facilities.
- ◆ Component Units-The County includes financial data of the County Board of Mental Retardation and Developmental Disabilities (MRDD) and the Mental Health and Recovery Board (MHRB) in its report. The component units are separate and may buy, sell, lease and mortgage property in their own name and can sue or be sued in their own name.

Reporting Clermont County's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial reports provide detailed information about the County's major funds.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

Based on restrictions on the use of monies, the County has established many funds which account for the multitude of services provided to our residents. However, these fund financial statements focus on the County's most significant funds. In the case of Clermont County, our major funds are the General, Social Services, Motor Vehicle and Gas, County Debt Service, Judicial Projects and County Capital Improvements. The analysis of the County's major funds begins on page 23.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is more than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The nonmajor governmental fund financial statements can be found on pages 80-86 of this report.

Proprietary Funds: The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Water and Sewer operations. Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its self-insurance, fleet maintenance, telephone company and worker's compensation programs. The proprietary fund financial statements can be found on pages 37-40 of this report.

Fiduciary Funds: Are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that of the proprietary funds. The fiduciary fund financial statements can be found on page 41 of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the governmental-wide and fund financial statements. The notes to the financial statements begin on page 45 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules which begin on page 88 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$386.2 million (\$159 million in governmental activities and \$227.2 million in business type activities) as of December 31, 2003. The largest portion of the County's net assets (60.2%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, infrastructure), less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 provides a summary of the County's net assets for 2003 compared to 2002.

An additional portion of the County's net assets represents resources that are subject to external restrictions on how they may be used. In the current fiscal year, this represented \$53.1 million or 13.7% of net assets. The remaining \$100.9 million or 26.1% of net assets may be used to meet the County's ongoing obligations to its citizens and creditors and for Water and Sewer activities.

As of December 31, 2003, the County is able to report positive balances in all three categories of net assets, both for the County as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior year. Total assets increased \$5.2 million overall. A \$9.3 million increase in net capital assets made up the majority of this change. Total liabilities decreased \$5.7 million which can be attributed to the issuance of refunding bonds during 2003.

Table 2 below provides a summary of the changes in net assets for 2003 compared to 2002

Unaudited

Governmental Activities

The legislative and executive programs of the County represent the activities related to the governing body and other elected officials in the performance of their primary duties and subsidiary activities. These activities directly support other programs of the County and service its citizens. In 2003, this represented 18.8% of the County's total expenses.

The County's public safety programs continue to review and manage the security of the County and its citizens with the utilization of the 800 MHz system, an upgraded 911 center and a better awareness for issues which pose threats to our safety in the current atmosphere of our ever changing world. Public safety programs increased spending by \$1.8 million after decreases in public safety services in 2002. The County's Sheriff's office and Board of County Commissioners strive to ensure that the public's safety is its first priority, whether that includes increased patrol, security for water and sewer functions, disaster scenarios, disaster recovery or expansion of existing jail facilities.

The County's Social Services programs increased its services in 2003, allowing individuals to benefit socially and economically. Social Services programs continue to be the largest program within the County. In 2003, program expenses increased by \$1.6 million, and the overall program represented 28.6% of the general government expenses. These increased services were funded in part by the 2002 Children's Services replacement levy and the 2002 Senior Services' replacement and additional levies. In addition, subsidies related to social services programs continues to be the County's largest intergovernmental contributions. Roughly 49% of the County's intergovernmental revenue is allocated to these programs. In 2003, these programs saw an increase of \$1.5 million as a result of additional program services and prior year deferrals.

The County's aggressive strategy to secure the maximum amount of grants and contributions that are provided by the state and federal governments continues to be productive. The County continues to explore and acquire new intergovernmental revenue streams while maximizing its current intergovernmental allocations to better address program needs. Grants related to the County's public works program, which included OPWC grants, federal and state highway safety and construction grants accounted for 28% of the County's intergovernmental revenue. A significant portion of these construction grants are in conjunction with the State Route 32/Olive Branch Interchange project and the Stonelick Williams Corner Bridge Project. To date, the County has expended over \$7.8 million on these projects. In addition, in 2003, the County spent \$1.5 million in federal dollars related to the Community Development Block Grant and Small Cities projects. Other significant grants include the Reclaim Ohio/Youth Services Subsidy which accounted for \$1.1 million, the Rural Transit Grant (Urban designation in 2004) \$.8 million and the TASC New Life grant.

Business-Type Activities

In 2003, the County's Water and Sewer Systems funds' operating revenues decreased by \$1 million, while total expenses decreased \$.7 million. The County's Water and Sewer operations recorded a decrease of \$.2 million in operating income from 2002, however, cash and cash equivalents had a net increase in 2003 of \$10.0 million. Capital contributions decreased by \$.2 million as a result of a reduction in donated assets during the year, and the amount of construction projects still outstanding at year end. Of the \$7.8 million capital contribution, \$2.4 million represented non-cash or donated assets.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

In February 2004, the Clermont County Commissioners executed a resolution that would mutually terminate an agreement with Operations Management International, Inc. (OMI) to operate and maintain the County's water treatment facilities, water distribution system and water and sewer's billing services. In recent years the Clermont County Water operations have undergone significant changes in regulatory requirements, permit costs and repairs. These additional costs and resources were not specified in the original contract with OMI, and it would have necessitated the rebidding or reclaiming of the water operations by the County.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$61.6 million. Approximately \$51.8 million of this amount constitutes unreserved fund balance, which is available for spending for its citizens. \$2.3 million of the unreserved fund balance is designated for budget stabilization. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of the prior year (\$9.6 million), and to account for the reservation of loans (\$.2 million). While the bulk of the governmental fund balances are not reserved in the governmental fund statements, they lead to restricted net assets on the Statement of Net Assets due to their being restricted for use for a particular purpose mandated by the source of the resources such as the state and federal governments or a tax levy.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$27.6 million, while the total fund balance reached \$28.6 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents approximately 60% of the total general fund expenditures and other financing uses, while total fund balance represents 64.4% of that same amount.

The fund balance of the County's general fund stayed relatively the same during the current fiscal year with revenues exceeding expenditures by \$4.9 million a decrease of \$3.5 million from 2002. Key factors in this increase are as follows:

- The County's General fund government programs (legislative and executive and judicial) represent activities related to the governing body, judicial activities and other elected officials in the performance of their primary duties and subsidiary activities. These general government programs incurred cost increases related to activities that directly support other programs of the County and service its citizens.
- In 2003, the County recorded one of its worst investment years in recent years. Investment earnings fell \$1.9 million from 2002.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

In 2001, the County's Judicial Projects fund received \$10.9 million in bond proceeds for the construction of a new Municipal Court Building and renovations to the existing historic Courthouse. As of December 31, 2003, the County had expended roughly \$ 8.1 million in capital outlay related to these projects.

The Social Services fund reported a net change in fund balance in the amount of \$.2 million. This resulted from the deferral of revenue received from the State in advance of reimbursable program costs as a result of additional program services.

The Engineer's office has continued to expand its construction and improvement of County roads and bridges, and as a result expended an additional \$2.6 million more in 2003 than 2002. This was funded largely in part to an additional license tax specifically for the construction and improvement of the County's roads and bridges.

General Fund Budgeting Highlights

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of 2003, the County amended its general fund budget numerous times, the most significant noted below. All recommendations for the budget came from the Office of Management and Budget for review before going to the Board of County Commissioners for adoption of a resolution on the change. The Board of County Commissioners also approves small interdepartmental budget changes that modify line items within departments within the same fund. With the General Fund supporting many of our major activities such as our public safety programs, as well as most legislative and executive activities, the General Fund is monitored closely looking for possible revenue shortfalls or over spending by individual departments. A summary of noted differences and explanations:

- Overall, General Fund activities' budgets were increased \$.3 million, yet actual expenditures remained less than the original appropriation.
- Transfers out budget was increased significantly during 2003 to account for debt service charges, matching portion of grants, legal requirements and capital expenditures, however, none of the increase was utilized.

Once again, the County's elected officials and department heads worked with the County Commissioners to maintain effective programs for its citizens without significantly increasing expenditures related to its programs.

Capital Assets and Debt Administration

Capital Assets: The County's investment in capital assets for its governmental and business-type activities as of December 31, 2003, amounts to \$232.3 million (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings and systems, improvements, equipment and machinery, roads, highways, and bridges.

Note F (Capital Assets) provides capital asset activity during 2003.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

Major capital asset events during the current year included the following:

- During 2003, the Clermont County Engineer's Office continued its replacement and improvement capital plan by replacing several deficient bridges and completed several roadway improvement projects. The overall cost for these projects was \$5.3 million. Various funding sources were used including Ohio Public Works Commission (OPWC), Ohio Department of Transportation (ODOT), Board of Clermont County Commissioners, and the County Engineer's funds.
- In 2003, approximately 29 miles of County roads were paved at a cost of \$.9 million.
- Also in 2003, a new 10,750 square foot animal shelter opened at 4025 Filager Road in Batavia. The \$800,000 facility is twice the size of the old shelter. This shelter was critically needed to handle the increasing pet population that in 2003 swelled to 5,844 stray animals.
- The Stonelick/Olive Branch State Route 32 interchange project was complete in 2003 at a total cost of \$6.3 million.
- Received \$.9 million of waterlines from developers.
- Received \$ 1.5 million of sewer lines from developers.
- 2003, also saw the completion of the Buckwheat Road Storage Tank (\$2.6 million) and the Buckwheat Road Main (\$1 million) . These projects will aid the northern reaches of the County which has experienced low pressure and interrupted water service during peak demand in the past.

Long-term Debt: At the end of 2003, the County had general obligation debt outstanding of \$45.7 million. Of this amount, \$41.7 million comprises debt backed by the full faith and credit of the County, \$.3 million comprises of OPWC commitments to be repaid from MV&G funds and \$3.6 million is special assessment debt for which the County is liable in the event of default by the property owner subject to the assessment.

The County's long-term general obligation debt increased by \$.9 million or 2% during the 2003 fiscal year, and the County's Water and Sewer debt decreased \$8 million or 9%. In July of 2003, the County authorized the issuance of \$17.5 million in general obligation debt. \$16.4 was issued to refinance the 1993 Building and Road Improvement debt and Bond Anticipation Notes, and \$1.2 million was issued to finance the Stonelick-Olive Branch State Route 32 interchange project. Also, in 2003, the County's Water and Sewer operations issued Waterworks System Revenue Refunding Bonds and Sewer System Revenue Refunding Bonds in the amounts of \$37 million and \$39.3 million respectively.

The County maintains an Aa3 rating from Moody's for general obligation debt. State statute limits the total amount of debt a governmental entity may issue. The current unvoted debt margin for the County is \$12.9 million. In addition to the bonded debt, the County's long-term obligations includes compensated absences. Additional information on the County's long-term debt can be found in Note G of this report. Interest and fiscal charges for 2003, were \$2.5 million or 2.4% of the total governmental activities expenses.

Clermont County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2003
Unaudited

Economic Factors and Next Year's Budgets and Rates

Although the County has experienced growth in key economic development factors, current economic indicators show that the current economy will remain sluggish and as a result sales and property tax collections which the County relies on for roughly 57.6% of its operating budget may be adversely affected. It is anticipated that the local economy may swing into an upstart dependent upon rates remaining low and an increase in corporate consumption. Given these conditions, the County maintains an ultra conservative approach to spending while maximizing its local revenues. We anticipate over the next year a flattening or decrease in sales tax revenues given the current economic indicators for this region. We also feel that the County will have to review alternative methods of intergovernmental funding. Since the State of Ohio's fiscal condition continues to flutter, the County's portion of state-based program revenue may also be affected by these economic conditions.

Given these factors, Clermont County's General Fund year end fund balance continues to remain steady. The County continues to maintain a General Fund balance that should allow the County to meet its General Fund expenditures without facing shortages in resources. As a result of prior years' conservative spending and steady fund balances, the County was able to create a Budget Stabilization fund in 2002 to safe guard against future economic factors. The \$27.6 million unreserved fund balance on the modified accrual basis of accounting at December 31, 2003 represents approximately 60% of 2003 General Fund expenditures and other financing uses.

All of these factors were considered in the preparation of the County's 2004 budget. In conjunction with current economic factors, the County continues to flat line its anticipated spending for 2004, and other elected officials and department heads were asked to freeze hiring and maintain status quo on salaries, technology and capital outlay. The County has maintained a standard of limiting appropriations to those revenues that were received in the prior year. This approach has allowed the County to maintain a steady unreserved fund balance which will accumulate the County's resources to benefit necessary safety, social service and capital programs without an additional burden to its citizens.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Linda L. Fraley, Clermont County Auditor, 101 East Main Street, Batavia, Ohio 45103, (513)732-7150, (email at lfraley@co.clermont.oh.us) or visit the County website at www.clermont.oh.us.

Net Change in Fund Balances - Total Governmental Funds (\$2,615,210)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital asset additions	16,247,395	
Depreciation expense	<u>(9,180,283)</u>	
Excess of capital outlay over depreciations		7,067,112

In the statement of activities, the loss on the disposal of capital assets is reported. Conversely, governmental funds do not report any gain or loss on the disposal of capital assets. (583,877)

Because some property taxes will not be collected for several months after the County's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Similarly, certain licenses and other revenues that do not provide current financial resources are not reported as revenues in the fund.

Taxes	(8,483)	
Intergovernmental revenue	602,154	
Special Assessments	(241,225)	
Charges for services	20,335	
Investment earnings	(105,450)	
All other revenue	<u>(413,797)</u>	
Total revenue		(146,466)

The issuance of Long-term debt provides current financial resources to government funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.

Repayment of Bond Principal	3,825,876	
Payment to Refunded Bonds Escrow Agent	13,330,500	
Proceeds from sale of Bonds	<u>(17,755,000)</u>	

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, interest is expensed when due. (59,686)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated Absences Payable	(459,275)	
------------------------------	-----------	--

The internal service funds are used by management to charge the costs of insurance and other services to individual funds. The net revenue (expense) of the internal service funds are reported with governmental activities. (431,215)

Change in Net Assets of Governmental Activities \$2,172,759

(THIS PAGE LEFT BLANK INTENTIONALLY)

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note A: Description of the County and Reporting Entity

Clermont County is a political subdivision of the State of Ohio. The County was formed by action of Arthur St. Clair, the first governor of the Northwest Territory in 1800. The three member Board of County Commissioners is the legislative and executive body of the County. The County Auditor is the chief fiscal officer. In addition, there are seven other elected administrative officials, each of whom is independent, as set forth in Ohio law. These officials are the Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Recorder, Sheriff and Treasurer. There are also five Common Pleas Court Judges, (one of whom is Domestic Relations Court Judge, and one whom is Judge of the Probate and Juvenile Courts) and three Municipal Court Judges elected on a County-wide basis to oversee the County's justice system.

Reporting Entity

As required by generally accepted accounting principles, the financial statements present Clermont County (the primary government) and its component units. The primary government includes all funds, departments, boards and agencies for which the County elected officials are financially accountable and are not legally separate from the County. The component units (discussed below) are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

Discretely Presented Component Units

The component units column in the government-wide financial statements include the financial data of the County's component units. They are reported in a separate column to emphasize that they are legally separate from the County. The following boards are included as legally separate, discretely presented components of the County:

County Board of Mental Retardation and Developmental Disabilities (MRDD Board): The MRDD Board (including Clerco, Inc.) is responsible for providing educational and vocational services to mentally retarded and developmentally disabled children and adults. The County Commissioners appoint five members of the seven member MRDD Board. The remaining two members are appointed by the County Probate Court Judge. The County Commissioners approve the annual appropriations of the MRDD Board. The MRDD Board can sue or be sued in its own name. Clerco, Inc. is a program of rehabilitation for individuals whose capacity has been impaired because of mental retardation. The MRDD Board pays many of the expenses of Clerco, Inc. and the administrative and supervisory staff of Clerco, Inc. are considered employees of the MRDD Board.

Community Mental Health and Recovery Board (MHRB): The MHRB is responsible for a wide range of planning and coordination of various types of mental health services for residents of Clermont County. The Board is authorized to have eighteen members under the Ohio Revised Code, with ten appointed by the Board of County Commissioners, four appointed by the Ohio Department of Mental Health, and four appointed by the Ohio Department of Alcohol and Drug Addiction Services. The MHRB can buy, sell, lease and mortgage property in its own name and can sue or be sued in its own name. The County Commissioners approve the annual appropriation of the MHRB.

Copies of the component unit financial reports are on file at the Clermont County Auditor's Office, 101 E. Main Street, Batavia, Ohio 45103-2961.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note A: Description of the County and Reporting Entity (Continued)

Related Organizations:

Clermont County officials are also responsible for appointing the members and/or act as members on the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointments or representing the following organizations:

Clermont County Law Library: The six member board of trustees are appointed by the Common Pleas Court Judge.

Public Library Board: The seven member board of library trustees are appointed by County officials. Three trustees are appointed by Judges of the Court of Common Pleas, and four trustees are appointed by the Board of County Commissioners.

Metropolitan Housing Authority: Three of the five board members are appointed by County officials. The Probate Court, Common Pleas Court and Board of County Commissioners appoint one board member each.

Clermont County Visitors' Bureau: The Board of County Commissioners appoint six of the nine directors.

Family and Children First Council: The operation of the Council is controlled by an advisory committee and the Clermont County Department of Job and Family Services. The County Commissioners and the County Administrator are members of the committee.

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County Treasury. In the case of the separate agencies, boards and commissions listed below, the County serves as fiscal agent, but is not financially accountable for their operations. Accordingly, the activity of the following districts are presented as agency funds within the County's financial statements.

- Soil and Water Conservation District
- Park District
- Clermont County Health District

Note B: Summary of Significant Accounting Policies

The financial statements of Clermont County have been prepared in conformity with the generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or after November 30, 1989, to its governmental and business-type activities and to its enterprise funds provided they do not conflict with or contradict GASB pronouncements. The more significant of the County accounting policies are described below.

Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, use and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

General Fund-

This fund accounts for the general operating revenues and expenditures of the County not recorded elsewhere. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Social Service Special Revenue Fund-

This fund administers human service programs under state and federal regulations. These programs include Aid to Dependent Children (ADC), Medicaid, Food Stamps, investigation of all reports of child abuse, neglect or dependency, foster care programs, adoption services, senior service programs, and job training services to economically disadvantaged residents.

Motor Vehicle and Gas Tax Fund-

This fund accounts for monies received from state gasoline tax and motor vehicle registration fees designated for maintenance and repair of roads and bridges.

County Debt Service Fund-

This fund accounts for monies to be used for the payment of principal and interest of the County's general obligation bonds.

Judicial Capital Projects Fund-

This fund accounts for financial resources to be used for the construction and renovation of judicial related facilities, including but not limited to the Municipal Court construction.

County Capital Improvement Capital Projects Fund-

This fund accounts for financial resources to be used for major capital improvement to existing County facilities.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods and services. The County maintains two Enterprise Funds which provide sanitary sewer, water distribution, and waste water treatment.

Internal Service Funds

Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service funds report on self-insurance programs for employee medical benefits, worker's compensation, vehicle maintenance, and telephone services.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support County's own programs. Agency funds are used to report resources held by the County in a purely custodial capacity. Agency funds typically involve only the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations, or other governments. The County's only fiduciary funds are agency funds.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Component Units

Component units are either legally separate organizations for which the elected officials of the County are financially accountable, or legally separate organizations for which the nature and significance of its relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Component unit disclosures represent a consolidation of various fund types.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the County are included on the Statement of Net Assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the governmental-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis accounting. Governmental Funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within thirty days of fiscal year-end.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes are recognized in the fiscal year for which the taxes are levied (See Note E). Revenue from sales tax, grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: delinquent taxes, sales tax, grants, interest, fees and charges for services.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2003 but which were levied to finance fiscal year 2004 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Cash and Cash Equivalents

Cash resources of the majority of individual funds are combined to form a pool of cash and investments which is managed by the County Treasurer. Interest earned on investments is accrued as earned and distributed to the General Fund and other qualifying funds utilizing a formula based on the average month end balance of cash and cash equivalents of all funds. During fiscal year 2003, investments were limited to treasury bills, treasury notes, federal agency notes, money market accounts and STAR Ohio. Investments are reported at fair value which is based on quoted market prices. Note D provides a detailed disclosure regarding cash, cash equivalents and investments held by the County. STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on December 31, 2003.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the general fund during 2003 amounted to \$2,734,263, which includes \$1,977,801 assigned from other County funds.

Cash and Investments in Segregated Accounts

The County has segregated bank accounts for monies held separate from the County's central bank account. These depository accounts are presented in the Statement of Net Assets as "Cash and Cash Equivalents in Segregated Accounts" or "Investments in Segregated Accounts".

Cash with Fiscal Agent

The County has escrow bank accounts used for the payment of debt and for the collection of bond proceeds. These accounts are presented on the Combined Balance Sheet and the Statement of Net Assets as "Cash and Cash Equivalents with Fiscal and Escrow agent".

Statement of Cash Flows

Funds included within the Treasurer's cash management pool and investments in segregated accounts (including restricted trustee and retainage accounts) with original maturities of 3 months or less when purchased are considered to be cash equivalents. (In addition, revenue and expense transactions classified as other than operating cash flows from operations are not considered as components of operating income.)

Cash and Investments Held by Trustee

Certain monies for the Water and Sewer District are held and invested by trustees. Certain component units also maintain separate bank accounts. These bank accounts and investments are represented by the "Cash and Cash equivalents in segregated accounts", and "Investments in segregated accounts" restricted asset accounts.

Inventories and Prepaid Items

On government-wide financial statements inventories are presented at the lower of cost or market on a first-in, first-out basis (FIFO) and are expensed when used.

Inventory is reported in enterprise funds and component units and is valued at cost using the first-in, first-out (FIFO) method. Inventory is expensed when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items by using the consumption method.

Interfund Transactions

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Note B: Summary of Significant Accounting Policies (Continued)

Restricted Assets

Restricted assets consist of certain trust accounts held by the Water and Sewer District which include a bond account, bond reserve account, replacement and improvement account, and a construction account. Cash and investments in the accounts are held by trustee financial institutions. The bond account is used to accumulate periodic principal and interest payments. The bond reserve account is to be funded in an amount equal to the maximum annual bond principal and interest requirement. The replacement and improvement account is to be maintained with a balance equal to the greater of five percent of the amount of bonds outstanding or \$2,000,000. The construction account is established to pay for project costs.

Capital Assets

Capital assets, which include property, plant equipment, and infrastructure assets (e.g., roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as the projects are constructed. Interest incurred during the construction phase of proprietary capital assets is included as part of the capitalized value of the assets constructed.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Improvements	20
Infrastructure	20-50
Vehicles	5-10
Furniture & Equipment	5-10

Loans Receivable

Loans receivable represent Ohio Public Works Commission (OPWC) loans where the Water and Sewer District has entered into a loan agreement but has not drawn down all loan proceeds due to the interim status of the related construction project. The loan terms require the Water and Sewer District to initiate loan payments even though the project is not completed and all loan proceeds have not been drawn down. In addition, loans receivable represent low-interest loans for septic system development projects granted to eligible County residents under the Septic System Rehabilitation program.

Clermont County, Ohio
Notes to the Basic Financial Statements

Note B: Summary of Significant Accounting Policies (Continued)

Compensated Absences

Vacation, personal and compensatory benefits are accrued as a liability as the benefits are earned if the employees' right to receive compensation are attributable to services already rendered and it is probable that the employer will compensate employees for the benefits through time off or some other means. Sick leave benefits are accrued using the vesting method. The liability is based on sick leave accumulated at December 31 by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the future.

The entire compensated absence liability is reported on the government-wide financial statements.

Ohio law requires that vacation time not be accumulated for more than three years plus current year accrual. Employees with a minimum of one year of service become vested in accumulated unpaid vacation time. Unused vacation is payable upon termination of employment. Unused sick time may be accumulated until retirement. Employees eligible to retire under a County recognized retirement plan, with a minimum of ten years of service, are paid one-fourth of accumulated sick time upon retirement. Such payment may not exceed the value of thirty days of accrued but unused sick leave. However, if employees earned sick leave prior to January 23, 1984, they are eligible for 100% conversion of this amount. All sick, vacation, personal and compensation payments are made at employees' current wage rates.

Self Insurance

The County is self-insured for employee health care benefits. The program is administered by United Health Care, which provides claims review and processing services. Each County department is charged for its proportionate share of covered employees. The County has recorded a liability for incurred but not paid and for incurred but unreported claims at year end based on an actuarial estimate by United Health Care.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligation of the funds. However, claims and judgements, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally due for payment during the current year. Bonds, long-term notes, and capital leases that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Fund Balance Reserves

The County reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods.

Clermont County, Ohio
Notes to the Basic Financial Statements

Note B: Summary of Significant Accounting Policies (Continued)

Net Assets

Net Assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. Net assets restricted for other purposes are restricted by grantors and regulations of other governments. Most of net assets restricted for other purposes are restricted for public assistance money and motor vehicle and gas money.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water distribution, waste water treatment, vehicle maintenance, telephone service and self-insurance programs. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Revenues which do not meet this criteria are considered non-operating and reported as such. All revenue of the Water and Sewer District are used as security for revenue bonds issued.

Capital Contributions

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, or from grants, other funds or outside contributions of resources restricted to capital acquisition and construction, and system capacity charges.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are required to be budgeted and appropriated. The primary level of budgetary control is at the object level within each department. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

Tax Budget- A budget of estimated revenue and expenditures is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year, for the period January 1 to December 31 of the following year.

Estimated Resources- The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the County by September 1. As part of this certification, the County receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered balances from the preceding year. The certificate may be further amended during the year if the County Auditor determines, and the Budget Commission agrees, that an estimate needs to be either increased or decreased. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original appropriations were adopted. The amounts reported as the final budget amounts in the budgetary statements reflect the amounts in the final amended certificate issued during 2003.

Appropriations- A temporary appropriation resolution to control expenditures may be passed on or about January 1 of each year for the period of January 1 to March 31. An annual appropriation resolution must be passed by April 1 of each year for the period January 1 to December 31. The appropriation resolution fixes spending authority at the fund, department, and object level. The appropriation resolution may be amended during the year as new information becomes available, provided that total fund appropriations do not exceed current estimated resources, as certified.

Modifications to the original budget beyond the object level requires the approval of the Board of Commissioners. During the year, several supplemental appropriation resolutions were legally enacted by the County commissioners. Amendments to the original appropriation budget are described in Note P. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriated budget that covered the entire year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts in the budgetary comparisons represent the final appropriation amounts, including all amendments and modifications.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

Note B: Summary of Significant Accounting Policies (Continued)

Encumbrances- As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are encumbered and recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits encumbrances plus expenditures from exceeding appropriations at the legal level of control.

Lapsing of Appropriations- At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Encumbered appropriations are carried forward to the succeeding fiscal year and not re-appropriated.

NOTE C: Budgetary Basis of Accounting

While the County is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general and each major special revenue fund is presented in the Basic Financial Statements to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).
4. Advances in and advances out are operating transactions (Budget) as opposed to balance sheets transactions (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and for the major special revenue funds.

**Net Change in Fund Balance
General and Major Special Revenue Funds**

	General	Social Service	MV & G
GAAP Basis	\$44,720	(\$169,921)	(\$1,443,099)
Net Adjustment for Revenue Accruals	2,279,185	142,912	240,426
Net Adjustment for Expenditure Accruals	(989,678)	236,077	430,371
Net Adjustment for Transfers In	0	5,660,888	0
Net Adjustment for Transfers Out	(115,292)	(6,081,924)	0
Net Adjustment for Advances	(2,308)	0	0
Excess of Revenue over Expenditures of Non-Budgeted Fund	(45,709)	0	0
Encumbrances	(1,596,090)	(794,939)	(1,074,072)
Budget Basis	(\$425,172)	(\$1,006,907)	(\$1,846,374)

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE D: Deposits and Investments

The County maintains a cash and investment pool used by all funds and component units except the trustee held monies in Water and Sewer Funds and monies held by certain County departments in outside accounts. Each fund type's and component units portion of this pool is displayed on the statement of net assets as "Equity in pooled cash and cash equivalents".

Monies held by the County are classified by State Statute into two categories:

Active monies are public monies determined to be necessary to meet current demand upon the County Treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County identified as not required for use within the current four-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to passbook accounts.

Ohio Law permits inactive monies to be deposited or invested in the following:

1. United States Treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
5. Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in (1) or (2) above or cash or both securities and cash, equal value for equal value;

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE D: Deposits and Investments (Continued)

9. High grade commercial paper in an amount not to exceed five percent of the County's total average portfolio;
10. Bankers acceptances for a period not to exceed 270 days and in an amount not to exceed ten percent of the County's total average portfolio.

Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the County had \$5,000 in un-deposited cash on hand which is included on the balance sheet of the County as part of "equity in pooled cash and cash equivalents".

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements".

Deposits

At fiscal year end, the carrying amount of the County's deposits was \$46,887,583 which was made up of \$38,643,941 from the primary government and \$8,243,643 from component units. The bank balance of the County was \$48,846,299 of the bank balance \$1,004,458 was covered by federal depository insurance and \$47,841,841 was collateralized by securities pledged by depository banks with federal revenue bonds in the County's name. Although the securities serving as collateral were held by the pledging financial institution's trust department in the County's name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements by the depository would potentially subject the County to a successful claim by the Federal Deposit Insurance Corporation.

Investments

The County's investments are categorized below to give an indication of the level of risk assumed by the County at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the County or its agent in the County's name. Category 2 includes uninsured and unregistered investments which are held by the counter party's trust department or agent in the County's name. The County's investments in money market funds and STAR Ohio, an investment pool operated by the Ohio State Treasurer, are unclassified investments since they are not evidenced by securities that exist in physical or book entry form.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE D: Deposits and Investments (Continued)

	Category 1	Category 2	Fair Value
Primary Government:			
Treasury Bills	\$0	\$22,557,184	\$22,557,184
Treasury Notes	14,444,437	44,647,870	59,092,307
Federal Agency Notes	35,735,232	0	35,735,232
Money Market Funds	0	0	5,303,602
STAR Ohio	0	0	7,400,000
Total	\$50,179,669	\$67,205,054	\$130,088,325

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. A reconciliation between the classifications of cash and investments on the combined financial statements and the classification per GASB Statement No. 3 is as follows:

	Cash & Cash Equivalents	Investments
GASB Statement No. 9	\$109,775,854	\$67,205,054
Cash on Hand	(5,000)	0
Treasury Bills	0	0
Treasury Notes	(14,444,437)	14,444,437
Federal Agency Notes	(35,735,232)	35,735,232
Money Market Funds	(5,303,602)	5,303,602
STAR Ohio	(7,400,000)	7,400,000
GASB Statement No. 3	\$46,887,583	\$130,088,325

NOTE E: Receivables

Receivables at December 31, 2003, consisted of sales taxes, special assessments, accrued interest, accounts (billings for user charged services, including unbilled utility services, and rental payments), interfund and intergovernmental receivables arising from grants, entitlements and shared revenues. Delinquent accounts receivable may be certified and collected as a special assessment, subject to foreclosure for nonpayment. No allowances for doubtful accounts have been recorded because uncollectible amounts are expected to be insignificant.

Property Taxes

Property taxes include amounts levied against real, public utility and tangible personal (business) property. The assessed value, by property classification, upon which taxes collected in 2003 were based, are as follows:

Real Property	\$3,136,913,680
Public Utility and Tangible Personal Property	477,890,693
Total Assessed Property Value	\$3,614,804,373

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE E: Receivables (Continued)

Real property taxes collected in 2003 were levied after October 1, 2002 on the assessed values of the preceding January 1, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. A revaluation of real property is required to be completed no less than every six years, with a statistical update every third year. The most recent revaluation was completed in tax year 2002. Tangible personal property tax is assessed on equipment and inventory held by businesses. Tangible property is assessed at 23% of true value. In 2003, each business was eligible to receive a \$10,000 exemption in assessed value which was reimbursed by the State. Real property taxes are payable annually or semi-annually. In 2003, if paid annually, payment was due by February 4, 2003. If paid semi-annually, the first payment (at least ½ of amount billed) was due February 4, 2003 with the remainder due July 8, 2003.

The County Auditor distributes portions of the taxes collected to all taxing districts with periodic settlements of Real and Public Utility property taxes in February and August and Tangible Personal Property taxes in June and October for the first and second halves of the year, respectively. The County accrues billed but uncollected property taxes as receivables at their estimated net realizable value. On the modified accrual basis the delinquent taxes outstanding and available to the County within the first 30 days of 2003 were recorded as 2003 revenue, the remaining taxes receivable are offset by a credit to deferred revenue. Ohio law prohibits taxation of property from all taxing authorities in excess of 10 mills without a vote of the people. For 2003 collections, the County levied 2.10 mills of the 10 mill limit for the General Fund. The County also levied 1.0 mill for the County Capital Fund and .10 for the Park District. In addition to the 3.20 mills, 4.90 mills have been levied for voted millage.

A summary of voted millage follows:

	Voter Authorized Rate (a)	Rate Levied for Current Yr Collection (b)		Rate Levied for Current Yr Collection (b)		Final Collection
		Res/Agr	Other			
MRDD (Component Unit)	2.50	0.85	1.20			Continuing
MHRB (Component Unit)	0.50	0.50	0.50			2006
Senior Citizens	1.10	1.10	1.10			2006
Children Services	0.80	0.80	0.80			2006
TOTAL	4.90	3.25	3.60			

(a) dollars per \$1,000 of assessed valuation.

(b) Ohio law provides for a reduction of certain voted levies to offset inflation in the value of real property. The levies are subject to this credit.

Permissive Sales and Use Tax

The County is currently collecting 1% on permissible types of sales made in the County. Vendor collections of the tax are paid to the State Treasurer by the twenty-fifth day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. The State Auditor then has five days in which to draw the warrant payable to the County.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE E: Receivables (Continued)

Intergovernmental

A summary of the principal items of intergovernmental receivables follows:

<u>Governmental Activities</u>	<u>Amount</u>

Compensated Absences

Internal Service Funds predominately serve the governmental funds. Accordingly compensated absences for them are included as part of the compensated absences totals for governmental activities. Compensated Absences are generally liquidated by the general fund.

Special Assessment Debt

During 2003, the County issued one special assessment bond issue totaling \$240,000. The special assessment debt was issued to provide funds for the construction of waterline projects for various property owners on various roads.

General Obligation Debt

A general obligation bond issue totaling \$17,515,000 was issued in 2003. \$13,395,000 in general obligation debt was issued to refinance the 1993 Building and Road Improvement Debt. \$2,935,000 in general obligation debt was issued to pay the Bond Anticipation Note. \$1,185,000 in general obligation debt was issued to finance the Stonelick-Olive Branch/State Route 32 Project.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE G: Long-Term Debt and Obligations (Continued)

In 2003, the County held a Bond Anticipation Note in the amount of \$3,300,000. A principal payment of \$365,000 was paid by the County during the year, and the balance of the note was refinanced with \$2,935,000 in general obligation debt.

OPWC Loan

The County received a \$970,000 non-interest bearing loan due to the Ohio Public Works Commission for the Rancho Lane Sewer Replacement Project. The loan requires semi-annual payments of \$24,250 commencing July 1, 2004 through January 1, 2024.

The County received a \$588,000 non-interest bearing loan due to the Ohio Public Works Commission for specified water system constructions costs. The loan requires semi-annual payments of \$14,700 commencing July 1, 2004 through January 1, 2024.

Revenue Refunding Bonds

The County issued Waterworks System Revenue Improvement and Refunding Bonds, Series 2003, in the amount of \$37,020,000 dated September 1, 2003 to refund the outstanding Series 1993 water revenue bonds of the County. The current refunding was undertaken to reduce total debt service payments over the next 15 years by \$10,300,000 and resulted in an economic gain of \$2,800,000.

The County issued Sewer System Refunding Revenue Bonds, Series 2003 dated September 15, 2003 in the amount of \$39,345,000 dated September 15, 2003 to refund the outstanding Series 1993 Sewer Revenue Bonds of the County. The current refunding was undertaken to reduce total debt service payments over the next 21 years by \$8,300,000 and resulted in an economic gain of \$1,500,000.

Advance Refunding Debt

The net proceeds of the \$13,395,000 of general obligation refunding bonds were placed in escrow to call the Building Road Improvement and Refunding Bonds, Series 1993 on July 1, 2003. As a result, the 1993 Series bonds are considered to be defeased and the liability for those bonds has been moved from the Governmental Activities column of the statement of net assets. The reacquisition price exceeded the net carrying amount of the old debt by \$270,000. This amount and the bond issuance costs were deemed immaterial and were not amortized over the remaining life of the new debt issue. The advance refunding was undertaken to reduce total debt service payments over the next eleven years by \$1,325,306 and resulted in an economic gain of \$1,255,857.

Long-Term Bonds and Loans

All long-term debt issued for governmental purposes of the County and self-supporting, special assessment bonds with governmental commitment are retired from a Debt Service Fund. Revenue bonds are retired from the related Enterprise fund. However, each appropriate bond indenture provides for principal and interest to be paid from user charges. General obligation bonds and notes are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio law. Special assessment debt is paid from the proceeds of assessments levied against benefited property owners. In the event that an assessed property owner fails to make payments, the County will be required to pay the related debt. Delinquent special assessments receivable is \$26,172. Future funding requirements for bond anticipation notes are determinable upon the conversion of the notes to bonds. The Ohio Water Development Authority (OWDA) and the Ohio Public Works Commission (OPWC) loans will be paid from revenues derived by the County from the operation of the water and sewer systems. Under the Uniform Bond Act of the Ohio Revised Code, the County has the capacity to issue \$12,850,671 of additional unvoted general obligation debt.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE G: Long-Term Debt and Obligations (Continued)

Defeased Debt

In prior years, the County defeased certain general obligation and revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. On December 31, 2003, \$16,505,000 general obligation bonds and \$955,000 of revenue bonds are considered defeased.

Leases: The County had no material capital or operating leases for the year ended December 31, 2003.

Revenue Bond Coverage: The County Water and Sewer funds are required under Revenue Bond Trust Indentures to maintain minimum debt service coverage ratios. For the 2003 fiscal year, the Water Fund and Sewer Fund were required to maintain 110% coverage ratios. The coverage ratios for 2003, based on operating income, system capacity charges and investment income and excluding depreciation for the Water Fund and Sewer Fund, were 211% and 316% respectively, which both met their legal requirements.

Component Units: The Community Mental Health and Recovery Board (MHRB) and Board of Mental Retardation and Developmental Disabilities (MRDD, including Clerco Inc.) are liable for the following long-term obligations. The MHRB loans are payable from debt service funds included in the component unit financial statements.

Long-term debt and other obligations of the component units at December 31, 2003 were as follows:

	Interest Rate %	Maturity	Balance 12/31/2002	Additions	Deletions	Balance 12/31/2003	Amounts Due in One Year

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE H: Conduit Debt Obligation

The County periodically has issued Hospital Facility, Economic Development, Industrial Development and Multi-Family Housing revenue bonds. The proceeds of these issues are used to acquire, construct, improve, expand and equip facilities associated with private-sector entities. Trustees make the principal and interest payments on the outstanding bonds. The issued bonds do not constitute a general obligation, debt or bonded indebtedness of the County nor is the full faith and credit or taxing power of the County pledged to make repayment. The County issued \$250,000,000 in Hospital Facilities Revenue Refunding Bonds to refund the 1993 Hospital Facilities Revenue Refunding Bonds. As of December 31, 2003, it is estimated that \$390,163,000 was still outstanding of previously issued bonds.

NOTE I: Defined Benefit Pension Plans

Public Employees Retirement System:

All County full-time employees, other than teachers, participate in the Ohio Public Employees Retirement System (OPERS) which is a public employee retirement system created by the State of Ohio. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost sharing multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions. The Combined Plan is a cost-sharing multiple-employer defined benefit pension plan where the contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the Traditional Plan benefit. OPERS, who administers the plan, provides basic retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report which may be obtained by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642.

The Ohio Revised Code provides statutory authority for employee and employer contributions. The employee contribution rate for 2003 was 8.5% for employees other than law enforcement. The law enforcement classification consists of sheriffs, deputy sheriffs, and township police with an employee contribution rate of 10.1%. Public safety division members contribute at 9%. The 2003 employer contribution rate was 13.55% of covered payroll, 8.55% was the portion used to fund pension obligations. The 2003 employer contribution rate for both the law enforcement and public safety divisions was 16.70% of covered payroll, 11.70% was the portion used to fund pension obligations. The County's contributions for pension obligations to PERS for the years ended December 31, 2003, 2002 and 2001 were \$6,885,599, \$6,504,656, and \$5,776,719 respectively, 100% has been contributed for the years 2003, 2002 and 2001.

State Teachers Retirement System

Certified teachers employed by the school for the Mental Retarded/Developmentally Disabled participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS administers three separate pension plans. The Defined Benefit Plan is a cost sharing multiple-employer defined benefit pension plan. Benefits are established by Chapter 3307 of the Ohio Revised Code. The Defined Contribution Plan allows the member to allocate the member and employer money among various investment choices. Benefits are established under sections 3307.80 to 3307.89 of the Ohio Revised Code. The Combined Plan allows members to allocate their contributions to their selected investment choices and the employer contributions are used to fund a defined benefit payment. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE I: Defined Benefit Pension Plans (Continued)

members and beneficiaries. Members of the Defined Contribution plan are not eligible for health care benefits. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 10% of their annual covered salary and the County is required to contribute 14%. For fiscal year ended June 30, 2003, 13% was the portion of County contribution used to fund pension obligations and for fiscal year ended June 30, 2002, 9.5% was the portion of County contribution used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Effective July 1 2003, the STRS Board increased the member contribution rate from 9.3% to 10%. The County's contributions for pension obligations to STRS for the years ended December 31, 2003, 2002, and 2001 were \$166,884, \$197,907, and \$211,942 respectively, 100% has been contributed for the years 2003, 2002 and 2001.

NOTE J: Post-Employment Benefits Other Than Pension Benefits

The Ohio Public Employees Retirement System (PERS) provides postretirement health care coverage to qualifying members of both the Traditional and the Combined Plans. Members of the Member-Directed Plan do not qualify for post-employment health care coverage. In order to qualify for post-retirement health care coverage, age and service retirees must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the retirement system is considered an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 12. A portion of each employer's contribution to PERS is set aside for the funding of post-retirement health care based on authority granted by state statute. The OPERS law enforcement program is separated into two divisions, law enforcement and public safety, with separate employee contribution rates and benefits. The 2003 employer contribution rate was 13.55 % of covered payroll for employees not engaged in law enforcement, 5.00 % was the portion that was used to fund health care. For law enforcement employees, the employer contribution rate was 16.70% of which 5.00% was used to fund health care.

Assumptions and calculations were based on the System's latest Actuarial Review performed as of December 31, 2002. An entry age normal actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of unfunded actuarial accrued liability. All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach assets are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets. The investment assumption rate for 2002 was 8.00%. An annual increase of 4.00% compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. Additionally, annual pay increases, over and above the 4.00% base increase were assumed to range from .50% to 6.30%. Health care costs were assumed to increase 4.00% annually. All investments are carried at market. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25% of unrealized market appreciation or depreciation on investment assets.

At December 31, 2003, the total number of active contributing participants was 364,881. The 2003 rate of 5.00% was the actuarially determined contribution requirements for PERS. As of December 31, 2002, the net assets available for future OPEB were \$10.0 billion. The County's actual contributions for 2003 which were used to fund OPEB were \$2,208,771 for employees other than law enforcement and \$211,677 for law enforcement employees. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$18.7 billion and \$8.7 billion, respectively.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE J: Post-Employment Benefits Other Than Pension Benefits (Continued)

In December 2001, the Board adopted the Health Care "Choices" plan in its continuing effort to respond to the rise in the cost of Health Care. The Choices Plan will be offered to all persons newly hired under OPERS after January 1, 2003, with no prior service credit accumulated toward health care coverage. Choices, as the name suggests, will incorporate a cafeteria approach, offering a more broad range of health care options. The Plan uses a graded scale from ten to thirty years to calculate a monthly health care benefit.

Comprehensive health care benefits are provided to retired teachers and their dependents through the State Teachers Retirement System (STRS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS.

All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contributions. The employer health care contributions were 1% for fiscal year ended June 30, 2003 and for fiscal year ended June 30, 2002 were 4.5%. The County's actual contribution for 2003 which were used to fund the Health Care Reserve was \$11,921. As of June 30, 2003, eligible benefits recipients totaled 108,294. For the year ended June 30, 2003, net health care costs paid by STRS were \$352,301,000.

NOTE K: Other Employee Benefits

County employees have the option of participating in four state-wide deferred compensation plans created in accordance with the Internal Revenue Code Section 457. Under this program, employees elect to have a portion of their pay deferred until a future time. According to this plan, the deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The deferred pay and any income earned thereon is not subject to income tax until actually received by the employee. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights (until paid or made available to the employee or other beneficiary) must be held in a trust, custodial account, or annuity contract for the exclusive benefit of plan participants and their beneficiaries. Deferred amounts from the plan are not considered "made available" just because a trust, custodial account or annuity contract holds these amounts. The Plan Agreement states that the County and the plan administrators have no liability for losses under the plan with the exception of fraud or wrongful taking.

NOTE L: Contingencies and Commitments

Consent Order Dated November 7, 1989:

The Office of the Ohio Attorney General has brought suit on behalf of the Environmental Protection Agency relating to violations of the NPDES permits issued to the County. A consent order was placed on record on November 7, 1989 establishing certain time frames for construction of improvements to the facilities and establishing certain landmark dates for the completion of interim work. Management believes that the County is currently in compliance with the consent order.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE L: Contingencies and Commitments (Continued)

Other Civil Claims:

The County is a defendant in a number of claims and lawsuits which may be classified as routine litigation in which minimal nonmaterial damages are being sought. In addition, the County is a defendant in numerous other claims and lawsuits in which the County believes either they will prevail in the litigation or the amounts claimed are overstated and not fair estimates of the ultimate settlements, if any. Amounts paid by the County in 2003 for litigation settled were not material. There are no liabilities associated with any contingencies carried in the accompanying financial statements based upon the information disclosed in the above paragraph.

Construction Commitments:

As of December 31, 2003, the County had contractual commitments for construction projects as follows:

Project	Fund	Total Contracts	Completed to Date	Commitment Remaining
Road & Bridge Construction	M V & G	\$1,364,998	\$784,834	\$580,164
Road Improvement	Planning & Development Capital	4,351,354	3,795,667	555,687
Detention Construction	Detention Capital	6,721,630	2,392,327	4,329,303
Justice Buildings Construction	Justice Capital	9,953,082	6,187,480	3,765,602
Miscellaneous Construction	County Capital	227,279	157,651	69,628
Water	Water District	12,990,756	7,667,707	5,323,049
Sewer	Sewer District	14,978,106	11,282,146	3,695,960
Total		<u>\$50,587,205</u>	<u>\$32,267,812</u>	<u>\$18,319,393</u>

NOTE M: Federal and State Grants

The County participates in a number of Federal and State assisted grant programs. The significant programs are: FEMA, Work Force Investment Act Grants, Community Development Block grants, Food Stamp Program, Highway planning construction, Transportation grants, Mental Health and Mental Disability grants. These programs are subject to financial and compliance audits by the Auditor of State under the Single Audit Act of 1984, Single Audit Act as amended in 1996 and OMB Circular A-133. At May 31, 2003, the audits of certain programs have been completed. Accordingly, the County's compliance with applicable grant regulations does not have a material adverse effect on the County's financial position.

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE N: Interfund Receivables/Payables

Individual fund interfund assets/liabilities balances as of December 31, 2003, related to the primary government were as follows:

GOVERNMENTAL ACTIVITIES	ASSET	LIABILITY
	Interfund Receivable	Interfund Payable
General	\$1,896,820	\$325,209
County Capital Improvement	200,000	0
Nonmajor Governmental Funds		2,096,820
BUSINESS-TYPE ACTIVITIES		
Water	110,491	0
Sewer	214,718	0
TOTAL	<u>\$2,422,029</u>	<u>\$2,422,029</u>

During 2003, the County General fund made advances to nonmajor governmental funds in anticipation of intergovernmental grant revenue. In 1997, the County approved the sale of certain fixed assets of the Water and Sewer Funds to the General Fund of the County. Payments for the assets are to be made over a 10 year period. As of December 31, 2003, the sale of the assets resulted in the County General fund recognizing an interfund payable of \$325,209 and the Water and Sewer funds recognizing an interfund receivable in the amounts of \$110,491 and \$214,718 respectively. Remaining interfund activity relates to local funding from the County General Fund and the County Capital Improvement Fund related to County Policies for cash flow and operating cash levels of governmental funds.

NOTE O: Interfund Transactions

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payment become due, and use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

A summary of transfers is as follows:

Transfer To	Transfer From					Total
	General	M V & G	County Capital	Nonmajor Governmental	Internal Service	
General	\$0	\$0	\$0	\$70,836	\$0	\$70,836
Social Services	956,425	0	0	0	0	956,425
M V & G	733	0	0	0	0	733
County Debt Service	868,500	1,197,102	3,215,610	0	0	5,281,212
Judicial Projects	301,600	0	830,980	0	0	1,132,580
County Capital	301,900	0	0	0	90,000	391,900
Nonmajor Governmental	2,483,077	0	138,119	0	0	2,621,196
Water	0	0	0	240,000	0	240,000
TOTALS	<u>\$4,912,235</u>	<u>\$1,197,102</u>	<u>\$4,184,709</u>	<u>\$310,836</u>	<u>\$90,000</u>	<u>\$10,694,882</u>

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE O: Interfund Transactions (Continued)

The County issued and sold \$240,000 of bonds in anticipation of special assessments levied for the purpose of construction of waterlines for various roads on November 1, 2003. The Water and Sewer Funds administrate the construction and maintenance of these projects. Consequently, the County's Capital Project Funds contributed \$240,000 to the Water Fund via transfers.

NOTE P: Amendments to Original Appropriations Budget

Amendments beyond the object level must be approved by the Board of County Commissioners. In 2003, the original appropriation measure was increased and decreased by the Commissioners with the net effect as follows: General Fund, \$345,411; Special Revenue Funds, \$3,617,378; Capital Project Funds, (\$8,049,140); and Debt Service Funds, \$48,023.

NOTE Q: Risk Management

The County is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Arthur J. Gallagher & Co. administers all County real and personal property, comprehensive general liability including law enforcement liability, blanket crime coverage, public officials liability insurance, fleet insurance, and a comprehensive boiler and machinery coverage.

Other than blanket crime, coroner's professional liability and boiler and machinery, all coverage falls under the County's protected self-insurance program. St. Paul Fire & Marine Insurance Company provides an \$11,000,000 per occurrence limit Liability Package for general liability, automobile liability, law enforcement liability, public entity management liability and a \$2,000,000 limit for Employment Practices Liability. Travelers Indemnity Company provides a \$100,000,000 per occurrence limit for real and personal property coverage. Coverage in the protected self-insurance program is subject to the following per occurrence retentions/deductibles: Property - \$50,000 deductible; Automobile - \$25,000 retention; All Other Liability \$100,000 retention; Combined Maximum (Liability) - \$100,000 retention; Maximum per Year (Liability) - \$500,000 retention.

The United National Insurance Company provides fleet insurance coverage with \$1,000,000 liability limit subject to a \$1,000,000 property damage liability and comprehensive and collision coverage for certain vehicles subject to deductibles of \$25,000. 2003 fleet insurance was subject to a \$25,000 property damage liability and comprehensive and collision coverage. The Travelers Indemnity Company provides boiler and machinery coverage with limits up to \$50,000,000 subject to a \$10,000 deductible. This coverage remains the same as 2002. The Travelers Casualty and Surety Company of America provides the County's crime insurance. The County is insured up to \$250,000 for dishonest acts of employees, theft or destruction of liquid assets, and \$75,000 for money and securities limits. Deductibles are \$1,000 employee dishonesty and \$1,000 money and securities. Crime insurance coverage remains the same with the exception of deductibles. The 2003 deductibles were \$250 employee dishonest and \$1,000 money and securities. Settled claims have not exceeded this commercial coverage in any of the past five years.

The County pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. The County has elected to provide employees major medical, vision and hospitalization through a self-insured program. The County maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. A third party administrator, United Health Care and Dental Care Plus Insurance Companies, reviews all claims which are then paid by the County. The County purchases stop-loss coverage of \$100,000 per employee and an aggregate limit of \$1,000,000. The County pays into the self-

Clermont County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2003

NOTE Q: Risk Management (Continued)

insurance internal service fund \$735.96 for family coverage and \$283.56 for individual coverage per employee per month which represents the entire premium required. The premium is paid by the fund that pays the salary for the employee and is based on historic cost information. The claims liability of \$1,214,712, reported in the Health Insurance fund at December 31, 2003, is estimated by the third party administrator and is based on the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in the fund's claims liability amount in 2003 were:

	<u>Claims Balance Beginning of Year</u>	<u>Current Year Claims and Changes in Claims Estimate</u>	<u>Claims Payments</u>	<u>Claims Balance at Year End</u>
2002	\$637,900	\$6,989,131	(\$7,145,856)	\$481,175
2003	\$481,175	\$7,579,248	(\$6,845,711)	\$1,214,712

Clermont County
Combining Statements - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Health and Solid Waste District Fund - This fund is used to account for the County's dog and kennel registration program and solid waste management.

Real Estate Assessment Fund - This fund is used to account for the monies collected from tax settlements to finance the appraisal of real property and County Lodging tax collected to finance the Convention and Visitor's Bureau of the County.

Other Legislative Fund - This fund is used to account for the fees collected by the Certificate of Title office and supplemental fees collected by the Recorder.

Public Safety Fund - This fund is used to account for the fees and grants related to law enforcement, probation and community oriented policing.

Community Transportation Fund - This fund is used to account for the grants and fees collected to provide door to door public transit service for County residents.

Judicial Programs Fund - This fund is used to account for fees and grants to finance advocate, mediation and victim assistance.

Community Development Fund - This fund is used to account for federal development block grant monies and other developmental grants to fund local improvements to areas in the County with low to moderate income population.

Computer Legal Research Fund - This fund is used to account for court fees restricted to computer legal research of the court system.

Nonmajor Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the payment of special assessment debt principal and interest which the County is obligated for the payment.

Continued

Clermont County
Combining Statements - Nonmajor Governmental Funds - Continued

Nonmajor Capital Projects Funds

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

Public Safety Projects Fund - This fund is used to account for the financial sources to be used for the construction and renovation of major safety projects and the jail renovation project.

Social Services Projects Fund - This fund is used to account for the financial sources to be used for the renovation of the medical social service building.

Communication Center Projects Fund - This fund is used to account for the financial sources to be used for the acquisition, construction and improvement of the County's 911 emergency response systems.

Community Development Projects Fund - This fund is used to account for the financial sources to be used for the acquisition and construction of infrastructure improvements and community development projects.

Road Assessment Projects Fund - This fund is used to account for the financial sources to be used for the acquisition, construction and improvements of county roads.

Clermont County
Combining Statements - Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

Health Insurance Fund - This fund is used to account for claims and administration of the health insurance program for covered County employees and eligible dependents, and the accumulation and allocation of costs associated with health insurance.

Fleet Maintenance Fund - This fund is used to account for the vehicle maintenance services provided to various County departments and other governmental units. Users are billed for costs incurred.

Telephone Company Fund - This fund is used to account for telephone services to various County departments and other governmental units. Users are billed for costs incurred.

Workers' Compensation Fund - This fund is used to account for the administration of a Worker's Compensation program to reduce employee risk, decrease the County's worker's compensation liability and to measure and recover the cost of providing the program to County departments and other governmental units.

**Clermont County
Combining Statement - Fiduciary Funds**

Agency Funds

Agency Funds are custodial in nature (assets equal liabilities) and thus do not represent the measurement or results of operations

Undivided Tax Fund - This fund is used to account for the collection of various County taxes and the disbursement of those taxes to County funds and subdivisions.

Political Subdivisions - This fund is used to account for funds held for other political subdivisions for which the County acts as fiscal agent.

Other Agency Funds - This fund is used to account for miscellaneous monies collected and disbursed to other County funds, and held on behalf of individuals and corporations.

Clermont County Court System - This fund is used to account for monies held by the County Courts in outside accounts.

General County Agency - This fund is used to account for monies held by County departments other than the Courts in outside checking accounts.

(1) Exempt properties are not included in the estimated actual values nor in assessed valuations.

(2) The estimated actual values for real estate property were derived by 35% of the assessed values on the real estate property. Refer to: "Note G-Receivables" in the Financial Statements.

(3) The estimated actual values for personal property and public utility were derived from an average rate of the assessed values (the average rate consists of varying rates for manufacturing equipment, inventory and other equipment for the ten years presented).

(1) Including investment income

(2) System capacity charges are one-time fees to join the existing system, and are accounted for as capital contributions

(3) It is the opinion of the County's bond counsel that system capacity charges should be included in the calculation of the Enterprise Revenue Bond Coverage
