INDEPENDENT AUDITOR'S REPORT

Board of Trustees Fayetteville-Perry Township Regional Sewer District P.O. Box 294 Fayetteville, Ohio 45118

We have audited the accompanying financial statements of the Fayetteville-Perry Township Regional Sewer District, Brown County, Ohio, (the District) as of and for the years ended December 31, 2003, and December 31, 2002, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1, the District prepares its financial statements on a basis of accounting prescribed or permitted by the Auditor of State, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the combined fund cash balances of the Fayetteville -Perry Township Regional Sewer District, Brown County, Ohio, as of December 31, 2003, and December 31, 2002, and its combined cash receipts and disbursements for the years then ended on a basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2004 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

This report is intended solely for the information and use of the officials authorized to receive this report under Section 117.26, Ohio Revised Code, and is not intended to be and should not be used by anyone other than these specified parties.

1. <u>Summary of Significant Accounting Policies</u>

A. <u>Description of the Entity</u>

Fayetteville-Perry Regional Sewer District, Brown County, (the District) is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio, in accordance with the provisions of Section 6119.et.seq of the Ohio Revised Code. The District is directed by five member Board of trustees, three are appointed by the Perry Township Board of Trustees and two are appointed by the Village of Fayetteville.

The District's management believes these financial statements present all activities for which the District is financially accountable.

B. <u>Basis of Accounting</u>

These financial statements follow the basis of accounting prescribed or permitted by the Auditor of State, which is similar to the cash receipts and disbursements basis of accounting. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when a payment is made rather than when a liability is incurred.

The District uses funds to report on its results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

The District uses a proprietary fund type to account for ongoing activities that are similar to those found in private sector. The following is the District's proprietary fund type:

<u>Enterprise Fund</u> - An enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (disbursements) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenue earned, expenses incurred, and/or net income in appropriate for capital maintenance, public policy, management control, accountability or other purposes.

C. <u>Budgetary Process</u>

Annually, the Sewer District adopts an operating budget. The District also adopts annual appropriations which are limited by estimated resources (see note 4).

D. <u>Property, Plant, Equipment, and Furniture</u>

Acquisitions of property, plant and equipment are recorded as capital outlay disbursements when paid. These items are not reflected as assets on the accompanying financial statement.

2. Cash and Cash Equivalents

The District maintains a cash and investments pool used by all funds. The Ohio Revised Code prescribes allowable deposits and investments. The carrying amount of cash at December 31, 2003 and 2002 was as follows:

	2003	2002
Demand Deposits	\$384,648	\$536,945

Deposits are either insured by the Federal Depository Insurance Corporation, or collateralized by the financial institution's public entity deposit pool.

3. <u>Debt</u>

Debt Outstanding at December 31, 2003 was as follows:

	Principal	Interest Rate
USDA Loan	\$1,590,460	4.75%
Ohio Public Works Loan	268,402	0.00%
Water Pollution Control Loan	1,849,909	4.12%
Total	<u>\$3,708,771</u>	

Amortization of the above debt, including interest, is scheduled as follows:

Year ending	Water Pollution	Ohio Public	USDA
December 31:	Control Loan	Works Loan*	Loan
2004	\$ 170,732	\$ 16,776	\$ 93,141
2005	170,732	16,776	93,141
2006	170,732	16,776	93,141
2007	170,732	16,776	93,141
2008	170,732	16,776	93,141
Subsequent	<u>1,455,428</u>	184,522	2,840,809
Total	\$ <u>2,309,088</u>	\$ <u>268,402</u>	\$ <u>3,306,514</u>

The district began construction of a new lift station and new lines for the Creekwood Housing Development and Collection System Extensions at the Bremen/Dortmund/Lorelei areas. These projects are financed by a loan with the Ohio Water Development Authority (OWDA). The 30 year loan is for \$525,000 at a 1.5% rate of interest. Loan disbursements in the amount of \$196,558 were made in 2003. The remaining amount of \$328,442 will be disbursed in 2004, at which time repayment of the loan will begin.

*Amortization balance corrected due to the correction of an error noted in the prior year. A mortization balance should have been \$301,952, which agrees to the principal balances as previously reported.

4. <u>Budgetary Process</u> (Continued)

The Ohio Revised Code requires that the District adopt an operating budget annually.

Appropriations

Budgetary expenditures (that is, disbursements) may not exceed appropriations at the fund level of control, and appropriations may not exceed estimated resources. The District must annually approve appropriation measures and subsequent amendments.

Estimated Resources

Estimated resources include estimates of cash to be received (budgeted receipts).

Budgetary Activity

Budgetary activity for the year ending December 31, 2003 and 2002 was as follows:

2003 Budgeted VS. Actual Receipts

Fund Type	Budgeted <u>Receipts</u>	Actual <u>Receipts</u>	Variance Favorable/ <u>(Unfavorable)</u>
Enterprise	\$741,000	\$695,746	(\$45,254)

Enterprise	\$713,200	\$848,043	\$(138,843)

4. Budgetary Process (Continued)

2002 Budgeted VS. Actual Receipts

Fund Type	Budgeted <u>Receipts</u>	Actual <u>Receipts</u>	Variance Favorable/ (Unfavorable)
Enterprise	\$239,800	\$604,671	\$364,871

2002 Budgeted VS. Actual Budgetary Basis Expenditures

<u>Fund</u> Type	Appropriation <u>Authority</u>	Budgetary Expenditures	Variance Favorable/ <u>(Unfavorable)</u>
Enterprise	\$1,420,800	\$610,414	\$810,386

In 2003, the disbursements exceeded appropriations of \$848,043. This is in violation of Ohio Revised Code Section 5705.41(B), which prohibits the expenditure of funds unless they have been properly appropriated. In 2002, the appropriation authority exceeded estimated resources by \$638,312. This is a violation of Ohio Revised Code Section 5705.39, which states that the total appropriation from each fund shall not exceed the total estimated resources.

5. <u>Risk Management</u>

The District has obtained commercial insurance for the following risks:

- Comprehensive property and general liability
- Municipal Property
- Vehicles
- Errors and Omissions

There have been no significant reductions in insurance coverage from the prior year. Settlement costs have not exceeded insurance coverage during any of the past three years.

6. <u>Contingent Liabilities</u>

The District currently is not a party to any legal proceedings.

Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Board of Trustees Fayetteville-Perry Township Regional Sewer District P.O. Box 294 Fayetteville, Ohio 45118

We have audited the accompanying financial statements of Fayetteville-Perry Township Regional Sewer District (the District), as of and for the years ended December 31, 2003, and December 31, 2002, and have issued our report thereon dated March 29, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulation, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed two instances of noncompliance that are required to be reported under *Government Auditing Standards*. Those two reportable citations are described in the accompanying schedule of findings as items 2003-01, 2003-02, 2003-03, and 2003-04. We also noted certain immaterial instances of noncompliance which we have reported to the management of the District in a separate letter dated March 29, 2004.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over the financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting and its operation that we have reported to the management of the District in a separate letter dated March 29, 2004.
