NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE YEAR ENDED DECEMBER 31, 2005

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) summarizes the activity of the County's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - MATCHING REQUIREMENTS

Certain federal programs require that the County contribute non-Federal fund (matching funds) to support the Federally-funded programs. The County has complied with such matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

NOTE C - WORKFORCE IMPROVEMENT ACT (WIA) FUNDING

WIA funding is distributed to various areas of the State. Butler and Warren Counties belong to Area 12. Butler County receives all funding for Area 12, and, as fiscal agent, distributes amounts to Warren County. The County distributed \$975,646 to Warren County during fiscal year 2005.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Butler County 315 High Street Hamilton, Ohio 45011

To the County Commissioners:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Butler County, Ohio (the County), as of and for the year ended December 31, 2005, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 28, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting to determine our auditing procedures in order to express our opinion on the financial statements and not to opine on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the County's ability to record, process, summarize, and report financial data consistent with management's assertions in the financial statements. A reportable condition is described in the accompanying schedule of findings as item 2005-001.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered material weaknesses. However, we do not believe the reportable condition described above is a material weakness. In a separate letter to the County's management dated June 28, 2006, we reported other matters involving internal control over financial reporting which we did not deem reportable conditions.

Butler County
Independent Accountants' Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters that we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2005-001. In a separate letter to the County's management dated June 28, 2006, we reported other matters related to noncompliance we deemed immaterial.

We intend this report solely for the information and use of the fiscal review committee, management, Board of County Commissioners, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

June 28, 2006

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Butler County 315 High Street Hamilton, Ohio 45011

To the Board of County Commissioners:

Compliance

We have audited the compliance of Butler County, Ohio (the County), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to each of its major federal programs for the year ended December 31, 2005. The summary of auditor's results section of the accompanying schedule of findings identifies the County's major federal programs. The County's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, Butler County complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended December 31, 2005.

Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Corporate Centre of Blue Ash / 11117 Kenwood Rd. / Blue Ash, OH 45242 Telephone: (513) 361-8550 (800) 368-7419 Fax: (513) 361-8577 www.auditor.state.oh.us

Butler County
Independent Accountants' Report on Compliance with Requirements
Applicable to Each Major Federal Program and Internal Control
Over Compliance in Accordance with OMB Circular A-133
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. However, we noted matters involving the internal control over federal compliance not requiring inclusion in this report that we reported to the County's management in a separate letter dated June 28, 2006.

Federal Awards Expenditures Schedule

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate discretely presented component units and remaining fund information of Butler County, Ohio (the County) as of December 31, 2005, and have issued our report thereon dated June 28, 2006. Our audit was performed to form opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying federal awards expenditures schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the fiscal review committee, management, Board of County Commissioners, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Betty Montgomery Auditor of State

Betty Montgomery

June 28, 2006

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2005-001

Noncompliance Citation/Reportable Condition – Minute Records

Ohio Rev. Code, Section 305.10, requires the clerk of the board of county commissioners to maintain a full record of the proceedings of the board, and a general index of proceedings, entering each motion with the name of the person making it on the record. He shall call and record the yeas and nays on each motion which involves the levying of taxes or appropriation or payment of money.

FINDING NUMBER 2005-001 (Continued)

According to White v. Clinton County Bd. of Commissioners, 76 Ohio St. 3d 416, 424 (1996), "full and accurate minutes must contain sufficient facts and information to permit the public to understand and appreciate the rationale behind the relevant public body's decision".

Ohio Rev. Code, Section 305.10, also states that immediately upon the opening of each day's session of the board of county commissions, records of the proceedings of the session of the previous day shall be read by the clerk of the board, and, if correct, approved and signed by the commissioners.

The County composes resolutions that are approved on a certain commission meeting date and indicates this composition of resolutions as minutes. In addition, the commission meetings are recorded on CD, cassette tape and sometimes video. The County's method of recording and maintaining commissioner's meeting minutes and resolutions did not always comply with the above requirements:

- To facilitate public access, the County's website includes a link to resolutions. However, the resolutions available on the website did not always include the final versions maintained in the Commissioner's office. For example, the amounts on the web site version of the original 2005 appropriation resolution did not agree to the amounts on the paper copy maintained in the Commissioner's office.
- The County was unable to locate a signed copy of the 2005 appropriation resolution.
- For the November 9, 2005 and December 29, 2005 meetings, neither minutes nor recordings were maintained or available for review.
- The Commissioners also hold "work sessions" to discuss public business. The County records these sessions and recordings of them are available to the public. However, contrary to Ohio Rev. Code 305.10, the general index of proceedings does not document that these sessions occurred, and the index does not summarize these sessions.
- The recordings of the work sessions, meetings, and resolutions did not identify the name of the person making the motion as required by Ohio Rev. Code Section 305.10.

To help assure that the records of Commissioner's meetings and motions are clear and complete, we recommend the following:

- The Clerk should review the web link to resolutions each month, and assure that the link is updated for the final adopted version of the resolutions. The County does not require a comparison of the website version of ordinances to the final ordinances. Assuring the posted versions represented the Commissioner's final, legal actions would ". . . permit the public to understand and appreciate the rationale behind the relevant public body's decision," as the court case above requires.
- The County should maintain signed copies of all resolutions.
- The County should maintain a full record of all proceedings of the board.
- The County should document work sessions in the general index of proceedings to indicate that these
 are part of the official minutes.
- The County should identify in the minutes the name of the person making each motion as required by Ohio Rev. Code 305.10.

FINDING NUMBER 2005-001 (Continued)

Officials Response:

Following are excerpts from a response by Derek Conklin, County Administrator:

- "[Regarding the instance in which the 2005 appropriation resolution on the website was not the
 approved version,] changes were made after the resolution was submitted and posted to the website.
 We are in the process of putting some procedures in place to avoid this in the future."
- "A [2005 appropriation] resolution with signatures was not located but is believed to exist...".
- "This is a correct statement [For the November 9, 2005 and December 29, 2005 meetings, minutes, or recordings were not maintained or available for review.]. Apparently the "record" button on the recording equipment was not pushed which resulted in that meeting not being recorded. The plan now is to change the meeting recording procedure to include both audio and video recordings. So we now have video and audio recording to serve as a backup as well as to identify the speaker."
- "Audio recordings are made of work sessions but they were not been treated as minutes of a regular or special meetings. A change in procedure to treat work sessions as regular or special meeting minutes will follow."
- "Upon inspecting the actual audio recordings it is clear that Commissioner Fox has made it his practice to specifically ask audibly for the floor from the Board President so it is not difficult to recognize his voice. However, he does not say and it is hoped the State Auditor is not insisting he say, "For the record this is Commissioner Fox. May I please have the floor Commissioner Jolivette?" Board President Greg Jolivette conducts Board meetings so recognizing his voice should be obvious upon learning he is charge of the meeting. This leaves Commissioner Furmon's voice to be recognized. Commissioners do make a practice of asking citizens, who address the Board, to give their names and addresses, and they generally do so. However, citizens are not required to give their names if they do not wish to and citizens or staff members often speak spontaneously or are asked a question by a Board member and the response is not uttered by a microphone. Making both audio and video recordings of the meetings should address this issue in the future."

Butler County Ohio

Comprehensive Annual Financial Report

ABOUT THE COVER

A man sits at a bench in Rentschler Forest Preserve and enjoys the sights and sounds of nature of the Great Miami River. This is one of over twenty parks maintained by Butler County. The MetroParks of Butler County has many sites to see and offers a variety of interesting programs to people of all ages throughout the year. For more information about the MetroParks of Butler County, please visit their website at www.butlercountymetroparks.org.

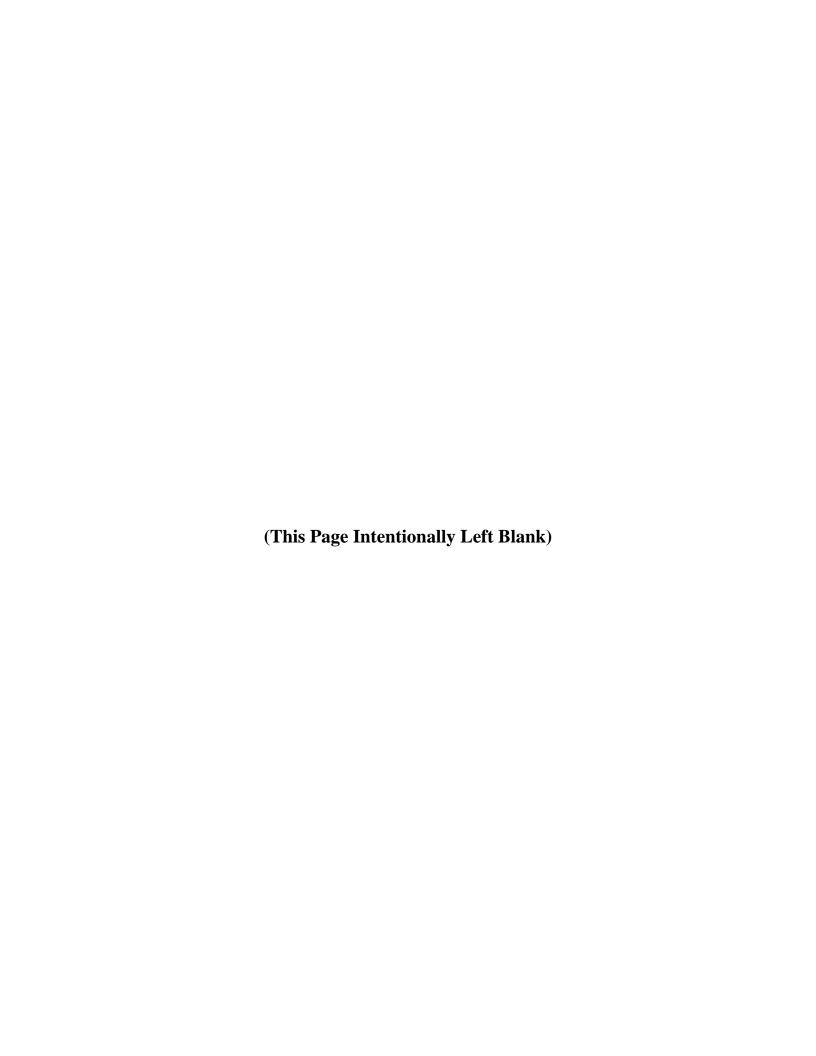

Butler County, Ohio

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FOR THE YEAR ENEDED DECEMBER 31, 2005

ISSUE BY:
KAY ROGERS, CPA, CGFM
BUTLER COUNTY AUDITOR

INTRODUCTORY SECTION

Butler County Auditor's Office

The Auditor's office provides many services to taxpayers and other County offices. These areas are depicted on the divider pages of this report.

Kay Rogers meets with a group of senior citizens to identify and discuss issues relevant to this important segment of our County.

Kay Rogers works with the management team (from left counter clockwise) Randy Groves, Joe Statzer, and two vendor representatives to discuss a new approach to implementing procedures, controls, and checks and balances.

Kay Rogers attends a local Rotary Club meeting.

Joe Statzer (right), Community Services Director, meets with Stewart Leonard (left) from the Department of Job and Family Services.

Fiscal Services

The Fiscal Services division performs many functions related to managing the County's finances including accounting for revenues, tracking expenses, issuing vendor and payroll warrants, distributing all taxes and fees collected by the County to the appropriate entity, and ensuring that the annual financial statements are accurate.

Belinda Ricketts (right), Fiscal Services director, works with Melissa Hubbard (left) from the Planning and Economic Development Department.

Bev Hoskins and Pam Bennett work diligently to ensure that all county employees are paid accurately and on time.

Dona Morningstar-Blizzard (front) assists Judith Garrett (back) from the department of Environmental Services with processing a pay-in.

Mimi Sullivan (back) answers questions about benefits posed by Katie Smiddy (front) from the Department of Environmental Services.

June 28, 2006

To the Citizens and Board of Commissioners of Butler County:

It is our pleasure to present the Butler County Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2005. This report contains basic financial statements, supplemental statements, and other financial and statistical information, providing complete and full disclosure of all material financial aspects of Butler County for 2005.

The Fiscal Services Division of the County Auditor's Office is responsible for the accuracy, completeness, and fairness of this report. This report is prepared in conformance with generally accepted accounting principles as set forth by the Government Accounting Standards Board (GASB) and other recognized authoritative sources, and is representative of our continual commitment to provide accurate and timely financial information to the citizens of Butler County.

The CAFR is divided into the following sections:

- The Introductory Section contains a table of contents, letter of transmittal, certificate of achievement, a list
 of elected officials, and the organizational charts of the County and County Auditor's Fiscal Services
 Division.
- 2. The Financial Section contains the Independent Accountants' Report; Management's Discussion and Analysis; Basic Financial Statements and Notes to the Basic Financial Statements, which provide an overview of the County's financial position and operating results; Required Supplemental Information and the Combining Statements for nonmajor funds and other schedules that provide additional information relative to the Basic Financial Statements.
- 3. The Statistical Section includes selected financial, economic, and demographic information about the County that may be used to extrapolate trends in comparison to other years.

FORM OF GOVERNMENT AND REPORTING ENTITY

Butler County, established in 1803, was one of Ohio's original eight counties. Located in Southwestern Ohio between Hamilton and Montgomery Counties, it shares its northern border with Preble County, and its eastern border with Warren County. To the west is the Indiana state line.

Butler County, with a 2005 estimated population of 350,412, ranks eighth largest of Ohio's 88 counties and third among the 14 counties comprising the Greater Miami Valley. The County encompasses 469 square miles with thirteen municipalities and thirteen townships. The City of Hamilton is the county seat and the largest of the incorporated areas with a population of 61,943. West Chester Township is the largest unincorporated area in the County and, with a population of 56,409, it is Ohio's third-most populous township.

The County has only those powers conferred upon it by Ohio statutes. A three-member Board of County Commissioners, elected at large in the even numbered years for four-year, over-lapping terms, is the primary legislative and executive body of the County. An appointed County Administrator directs and supervises activities of departments directly responsible to the Board of County Commissioners. The Administrator's responsibilities include coordinating the annual budgetary process as primary liaison between the Board of County Commissioners and other County elected officials, designated boards, and other units of government.

The Auditor, who serves as the chief fiscal officer and real estate property assessor for the County, and the Treasurer, who collects property taxes and is the custodian of all funds, are also elected to four-year terms. Other elected officials serving four-year terms include the Prosecuting Attorney, Sheriff, Engineer, Clerk of Courts, Recorder, and Coroner. Judges presiding over the Court of Common Pleas, Domestic Relations Court, Juvenile Court, Probate Court, and the County Court are also elected on a countywide basis.

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, civil and criminal justice system services, road and bridge maintenance, and other general and administrative support services. The County maintains enterprise funds to account for the water and sewer system operations, as well as the operations of the Government Services Center parking facility. The County also maintains internal service funds for workers' compensation and employee health insurance.

For financial reporting purposes, the County includes all funds, agencies, boards, and commissions making up Butler County (the Primary Government) and its Component Unit in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, and 39 "The Financial Reporting Entity." The Primary Government includes the financial activities of the County Board of Mental Retardation and Developmental Disabilities, Butler County Community Mental Health Board, Butler County Children Services Board, Butler County Planning Commission, Butler County Veterans Service Commission, Board of Elections, and Butler County Alcohol and Drug Addiction Services Board.

The County serves as fiscal agent but is not financially accountable for the following agencies: Butler County General Health District, Butler County Soil and Water Conservation District, Butler County Regional Transit Authority, Metroparks of Butler County, Twelfth District Court of Appeals, Work Investment Act (WIA) Area 12, Regional Mobile Data Board and the Solid Waste Planning District; therefore, they are reflected as agency funds within the County's financial section.

Miami Valley Industries Workshop has been included as a discretely presented component unit based on the significant services and resources provided by the County.

Excluded from the reporting entity because they are legally separate and fiscally independent of the County are the following agencies: Butler County Education Services Center, Butler County Technology and Career Development School (Joint Vocational School District), Butler County Historical Society, Butler County Law Library, Butler County Agricultural Society, Butler County Humane Society, Alcoholism Council of Butler County, Inc., Certified Development Corporation of Butler County, Inc., House of Calm, Inc (dab Sojourner Home), Southwestern Ohio Serenity Hall, Drug Counseling Services of Butler County Ohio Inc., Pastoral Counseling Service of Middletown Inc., and the Center for Forensic Psychiatry, Inc.

The Butler County Alliance is disclosed as a governmental joint venture. The Butler County Emergency Management Agency and the Transportation Improvement District of Butler County are disclosed as jointly governed organizations. The County Risk Sharing Authority is disclosed as a risk sharing pool. The Regional Transit Authority is disclosed as a related organization of the County.

A complete discussion of the County's reporting entity is provided in Notes 1 and 20 to the Basic Financial Statements.

ECONOMIC CONDITION AND OUTLOOK

Butler County has been one of the fastest growing counties in Ohio over the last two decades. Recent census returns indicate that Butler County's population increased nearly 42,000 from 1990 to 2000, ranking fourth among Ohio's 88 counties in population growth. Considered the center of a "metroplex" connecting Cincinnati and Dayton, it has been projected that this area could rank among the ten largest markets in the nation by 2010. Served by rail lines, interstate highways, two nearby international airports, and a developing high-speed fiber-optic data communications infrastructure, Butler County is an ideal location for businesses to locate and prosper.

A total of 3,854 building permits were issued in 2005 in the unincorporated areas of Butler County, representing over \$544 million of valuation. These figures do not reflect activity within the incorporated cities of Butler County.

Through its Enterprise Zone program, Butler County initiated tax incentives to a number of companies expanding within, or relocating to, Butler County, Ohio. During 2005, 7 projects were approved and estimates suggest that these projects will create and retain 797 jobs in Butler County. In addition, these projects are estimated to generate just over \$24 million in real property investment and just over \$67 million in personal property investment. These projects reflect an increase of approximately \$21 million from the previous year.

The Board of County Commissioners also administers the Butler County Revolving Loan Fund through the Certified Development Company of Butler County, Inc. (CDCBC). No new projects under the Revolving Loan Fund were implemented in 2005. The CDCBC has been certified as a State of Ohio lender under the U. S. Small Business Administration's 504 Affordable Loan Program. As such, 8 loans were approved under this program with a combined total project cost of \$6,932,494 in public and private investment. This investment commits Butler County employers to create or retain a minimum of 13 jobs in Butler County and 69 in the Greater Ohio regions totaling 82 full time jobs. Over 719 jobs have been created or retained through these public financing programs administered by the CDCBC over the last ten years.

MAJOR INITIATIVES

Water System

Several major water system improvement projects took place in 2005. The replacement of polybutylene water service lines is an ongoing project, which will continue for a number of years.

2005 saw the total miles of water lines in the water service area increase from 648 miles to 667 miles.

Major projects include:

Liberty Fairfield Pump Station - Construction of the Liberty Fairfield Water Pump Station Replacement project began with a groundbreaking on October 20, 2005. The construction cost of this important facility is approximately \$4,200,000. The new pump station will have the capability of pumping over 9 million gallons per day and is expandable to a capacity of over 13 million gallons per day. Completion of this facility is scheduled for July, 2006. This project replaces an aging pump station and provides additional capacity for future growth in Fairfield and Liberty Township.

36" Water Main from Cincinnati — Phase 1 - Construction of the first phase of the 36" water main from Cincinnati was placed in operational service in October, 2005. The second and final phase of this project will be in service in late 2006. Upon completion, this pipeline will have the capacity to deliver over 15 million gallons per day to Butler County water system customers.

Monroe Water Supply - BCDES completed construction of improvements designed to provide over 500,000 gallons per day of drinking water to the City of Monroe. Serving approximately 2,000 homes and businesses in Monroe, this project provides numerous benefits to both Butler County and the City of Monroe.

State Route 747– Port Union Water Main Replacement Project - The project replaced more than 13,000 feet of aging cast iron water main on S.R. 747, Duff Drive, and Dues Drive in West Chester. High traffic and a high number of businesses complicated this project. This project significantly improves the reliability of water service to this densely developed commercial and industrial area. This \$1.7M project was partially funded by an Ohio Public Works Commission grant.

Sewer System

The total length of sanitary sewers in service increased from 757 miles to 791 miles during 2005.

Major projects include:

Sewer System Master Plan - The Butler County Sewer System Master Plan began in mid-2005. This is the most significant sewer system planning initiative conducted by BCDES in several decades. This study will analyze sewer system needs for the next 20 years and beyond. The planning study will complete by October 2006.

New Miami Water Reclamation Facility and Sanitary Sewer System - This project was approximately 80% complete by the end of 2005. The new facilities are anticipated to be operational by April, 2006. This project will provide public sewer service to almost 900 homes and businesses in the Village of New Miami with the capability to expand to areas of St. Clair Township, Wayne Township, and the Village of Seven Mile in the near future. Total construction cost is over \$12M and has been partially paid for by grants from USDA-RD and OPWC totaling over \$7.3M.

Upper Mill Creek Water Reclamation Facility Improvements - The Upper Mill Creek WRF improvements were nearing completion by the end of 2005. This project will likely be the last expansion necessary and will likely meet all future growth and development needs in the UMC sewer service area. The project should be in operation by the end of June, 2006. The cost of this project will exceed \$13M. When complete, the Upper Mill Creek facilities will have a treatment capacity of 16 million gallons per day and will achieve nutrient removal in accordance with Ohio EPA requirements.

Roads and Bridges

According to Ohio Law, the County Engineer is responsible for the construction, reconstruction, maintenance, and repair of all bridges and highways within the County that fall under the jurisdiction of the Board of County Commissioners. As of December 31, 2005, this responsibility included oversight over 273 miles of County roadways, 371 bridges, and 1,019 culverts. Additionally, the County Engineer is also responsible for the construction, reconstruction, resurfacing, or improvement of township roads falling under the jurisdiction of the various boards of township trustees in the County.

Gasoline taxes and license plate fees serve as the primary sources of funding for projects scheduled by the Engineer each year. These funds serve as an important source of local match money used for leveraging additional outside dollars from State and federal sources. In 2005, the County received \$8,399,628 of such revenues.

During 2005, the Engineer was involved with over \$18.7 million in roadway construction, maintenance, and repair in Butler County. Additionally in 2005, the Engineer's office completed 6 bridge replacements and rehabilitations, 33 culvert replacements, 4 roadway improvements, over 45.6 miles of resurfacing, and 3 Community Development Block Grant projects. \$1,944,544 was spent on general roadside maintenance and snow and ice control.

Capital Improvements

The Board of County Commissioners is charged with the responsibility of maintaining the facilities and equipment that serve the primary government offices of the County.

Capital spending for administrative projects was again minimal during 2005 due to budgetary constraints, a situation that is likely to continue into 2006. Correspondingly, capital spending as a result of tax increment financing districts continued at a modest pace in 2005. These projects include Liberty Interchange Engineering \$372,105; Cincinnati-Dayton Road/Yankee Road Extention/Improvement \$740,228; and Cincinnati-Dayton Road (Walmart) \$1,487,255. In addition the Butler County Engineer manages and expends gasoline tax funds on various roadway projects throughout the County.

FOCUS ON THE BUTLER COUNTY AUDITOR'S OFFICE

The Butler County Auditor's Office recognizes that the formula for success lies in its people, processes, and technology, focusing on value added services to its customers. These customers include taxpayers, people requesting specific services, people using various County websites, representatives from various County offices, and other federal, state and local agencies. It is one of the Auditor's goals to increase customer service levels while containing costs via the use of technology, standardized business practices, training and education, effective leadership, communications, and a solid management team.

The Auditor's Office provides a wide array of services to taxpayers. In order to effectively attain a high level of service, several divisions of the Auditor's Office were organized based on commonality of customers and services. The divisions include the following:

Fiscal Services Department

Finance - Responsible for accounting and financial reporting, processing purchase orders, payins and vendor payments for all Butler County agencies.

Payroll – Responsible for processing all aspects of the County's payroll including, payments to employees, payments to all payroll tax assessing agencies, monthly, quarterly and yearly reporting on the wages and benefits earned by County employees.

Health Insurance – Responsible for both employee and employer obligations for health, dental and life insurance benefits of all County employees. Responsible for new enrollments, adding and deleting dependents and termination of coverage.

Real Estate Department

Appraisal, **Assessments**, **and Homestead Exemptions** –Responsible for uniformly assessing and appraising all County properties for tax purposes. Also administers the Homestead Exemption Act to provide the elderly and disabled with tax savings.

Tax Accounting – Responsible for preparing a general tax list and distributing tax revenues to the appropriate taxing authorities. The Auditor's Office does not raise or lower property taxes.

Conveyance and Current Agricultural Use Value (CAUV) – Responsible for transferring all real estate property changes in ownership in the County and administering the CAUV program.

Manufactured Housing - Responsible for registering manufactured houses for tax purposes.

Consumer Services Department

Personal Property Tax – Responsible for administering the tangible personal property tax laws for items such as equipment, furniture, fixtures, and inventory.

Licensing – Responsible for issuance of dog tags, licenses for cigarette sales, and vendor licenses.

Weights and Measures – Responsible for monitoring the calibration of devises used for measurement such as gas pumps, utility meters, and cash registers.

Deputy Registrar - Responsible for issuing drivers licenses at the Hamilton West License Bureau.

Butler County Information Services Department

Software Team – Responsible for developing, implementing and supporting systems related to finance, property values and taxes, the geographic information system, and a host of other systems.

Hardware Team – Responsible for installing and maintaining personal computers, servers, storage arrays, network components, printers, and other peripherals.

Database Team – Responsible for designing, tuning, and maintaining the databases used as backbone for many of the County's software applications.

Network Team - Responsible for designing, implementing, and maintaining the County's computer and communications network, linking them together, and providing connectivity through the use of the fiber optic network.

The Auditor's Office has recognized that customers are both external such as taxpayers, vendors, and other government entities as well as internal, such as the other County offices. By implementing proven technologies

and solid management practices, the Auditor's office has continued the quest to provide maximum value to all customers.

FINANCIAL INFORMATION

Basis of Accounting

The County's records are maintained on a cash basis for all funds. At year-end, adjusting entries are prepared for the various funds to convert the cash basis records to the modified accrual basis of accounting for all governmental funds and to the accrual basis for the proprietary and fiduciary funds. Modified accrual accounting requires that revenues be recognized when both measurable and available. Expenditures, other than interest and principal on long-term debt, are recorded when fund liabilities are incurred. The accrual basis of accounting used for the proprietary funds recognizes revenues when earned and expenses when incurred. The County also presents Government-wide financial statements that are prepared using the accrual basis of accounting.

Internal Control

The County's system of internal accounting controls is designed to provide reasonable, but not absolute, assurance that (1) financial transactions are processed in accordance with management's authorization, (2) transactions comply with County policies and Ohio law, and (3) financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits likely to be derived from their implementation and that the evaluation of costs and benefits require estimates and judgments by management.

Budgetary Control

By early January, the Board of County Commissioners adopts the annual appropriation measure for all funds, except for the General Fund, and agency funds. The General Fund has a temporary budget adopted and by the end of March the final budget for the General Fund is adopted. All disbursements and transfers of cash between funds other than agency funds require appropriation authority from the Commissioners. Budgets are controlled within a department and fund. All purchase orders and contracts must be approved by a majority of the Board of County Commissioners except where another board or elected official is given this responsibility by statute. As contracts and purchase orders are issued to vendors, corresponding amounts of appropriations are reserved by the use of encumbrances to ensure that appropriations are not overspent. Contracts or purchase orders that exceed available appropriations are rejected by the accounting system until additional appropriations are obtained. A description of the various funds and the basis of accounting are included in Note 2 to the basic financial statements.

OTHER INFORMATION

Independent Audit

Included in this report is the Auditor of State's unqualified opinion rendered on the County's basic financial statements as of and for the year ended December 31, 2005. An independent audit of the County's financial statements is part of the annual preparation of the CAFR. This annual independent audit will continue to review, comment on, and thereby strengthen the County's accounting and budgetary controls.

Management's Discussion and Analysis (MD&A)

GASB Statement No. 34 (GASB 34) requires that management provide an introductory overview and narrative, known as the Management's Discussion and Analysis (MD&A), to accompany the basic financial statements. This transmittal letter is intended to complement and be read in conjunction with this analysis. The MD&A can be found immediately following the independent accountants' report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Butler County for its comprehensive annual financial report for year ended December 31, 2004. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to the GFOA for consideration.

Acknowledgments

We would like to thank the Butler County Commissioners and all elected and appointed County officials for their support and assistance in this endeavor. It is truly a group effort that would not be possible without the cooperation of all County departments.

A special word of thanks is offered to Robert Leventry, Ralph Statzer and Katie Smiddy, with the Department of Environmental Services, and Mike Muska, Rhonda Smith and Kim Geisler with the Metroparks agency, whose efforts are greatly appreciated.

The Auditor of State's Local Government Services Division was invaluable once again in adding their expertise and dedication to the project.

This report would not have been possible if not for the significant efforts and dedication of the Fiscal Services staff. We offer our sincere thanks to the following members of the Fiscal Services staff, each of whom were invaluable contributors committed to this project. To Pamela Bennett, Vicki Birri, Lavonne Brandenburg, Lauren Costello, Nina Evans, Anne Gaw, Beverly Hoskins, Hailey Long, Dona Morningstar-Blizzard, Jodi Rhoads, Rachel Sandlin, and Mimi Sullivan, we offer thanks for a job well done. We would like to especially recognize Randy Groves, Jill Cole, Dawn McClure and Doug Lewan for their untiring commitment to this project. Without their abilities, dedication, and sheer will, this project would never have been completed.

It is the mission of the Auditor's office to bring a high level of professionalism to Butler County government and to better inform and educate its citizens. Through the issuance of this Comprehensive Annual Financial Report, the County remains accountable to the public, and the public trust with which we have been provided, is retained. This report provides a fair representation of the financial condition of the County as of and for the year ended December 31, 2005. We ask for your continuing support of this project and in our efforts to best serve the citizens of Butler County.

Sincerely,

Kay Rogers, CPA, CGFM Butler County Auditor Belinda L Ricketts
Director – Fiscal Services

Certificate of Achievement for Excellence in Financial Reporting

Presented to

County of Butler, Ohio

For its Comprehensive Annual Financial Report for the Fiscal Year Ended December 31, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Butler County, Ohio

Auditor's Office - Fiscal Services Division Organization and Representative Duties

FINANCIAL SECTION

Real Estate Division

The Real Estate division is responsible for maintaining a database of over 160,000 parcels located in the County, assessing values for these parcels, transferring deeds of ownership, registering owners of manufactured housing, and performing other related activities such as managing the Current Agricultural Use Value (CAUV) program.

Mike Tilton, the director of the Real Estate division, works with Anne Faust to ensure that accurate data is provided to taxpayers.

Megan Duane (back) assists a customer at the real estate conveyance desk.

Harold Baxter (left) reviews a plat map with a customer relative to the Current Agricultural Use Value (CAUV) program.

Alma Croucher assists customers with a homestead exemption application.

The Real Estate department has representatives in the field everyday. Ugur Inan works with Ron Lauch to take measurements for a completed house to verify property characterics.

Renee Berger and Ron Lauch measure a section of a new housing project.

A Board of Revision meeting is conducted. In attendance is Michaele Grevey, Harold Baxter, Jim Fox, and Eileen Driggs.

Pam Bingaman operates the switchboard for the Real Estate division with a friendly hello, directing customers to the appropriate person.

INDEPENDENT ACCOUNTANTS' REPORT

Butler County 130 High Street Hamilton, Ohio 45011

To the County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Butler County, Ohio (the County), as of and for the year ended December 31, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' Government Auditing Standards. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Butler County, Ohio, as of December 31, 2005, and the respective changes in financial position and where applicable. cash flows, thereof and the respective budgetary comparisons for the General, Mental Retardation Fund, Job and Family Services Fund, and Children Services Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated June 28, 2006, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with Government Auditing Standards. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis and information regarding the County's infrastructure assets following the Notes to the Basic Financial Statements are not a required part of the basic financial statements but are supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

Butler County Independent Accountants' Report Page 2

Butty Montgomeny

We conducted our audit to opine on the financial statements that collectively comprise the County's basic financial statements. The introductory, combining and individual non-major fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining and individual non-major fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Betty Montgomery Auditor of State

June 28, 2006

Management's Discussion and Analysis offers the users of these financial statements an introspective look at the finances of Butler County for the year ended December 31, 2005, providing an easily readable overview of the County's financial performance as a whole while assisting readers in interpreting the basic financial statements. In addition to the information presented here, readers are also encouraged to review the transmittal letter, found on page iv, and the County's financial statements, beginning on page 15, for a more complete picture of Butler County's financial performance.

Financial Highlights

- Total net assets for Butler County increased \$49.3 million, or 9%, \$30.3 million of which came from business-type activities.
- General revenues and transfers accounted for 38.4% of total revenues for governmental activities, totaling \$98.9 million. Property tax and sales tax revenues were 78%, or \$77.1 million, of these general revenues, a 14% increase over 2004 as the voters approved property tax increases for MR/DD and Elderly Services and the County approved a half percent sales tax increase beginning in October of 2005.
- The General Fund operated at a 5.1% deficit as expenditures and other uses again outpaced revenues and other sources resulting in a \$10.6 million fund balance. The unreserved, undesignated portion of the fund balance at year-end increased from \$6.6 million in 2004, to \$8.7 million in 2005, and is now 82% of the fund balance at December 31, 2005.
- A new electronic, touch-screen voting system was acquired for \$4.5 million for the board of elections.
- Long term notes in the amount of \$4.7 million were issued to fund the construction of the Metroparks' Voice of America Park, a multi-phased project to include a pond and recreation building.
- \$13.235 million in water revenue bonds were issued to refund outstanding 1996 water bonds.
- \$19.575 million in sewer revenue bonds were issued to partially refund outstanding 1997, 1998, and 1999 sewer bonds.
- \$14.85 million in water revenue bonds were issued to retire outstanding water system bond anticipation notes originally issued in 2004 and to provide \$6.45 million in additional funding for waterworks system improvements.

Overview of the Financial Statements

This discussion and analysis introduces you to Butler County's basic financial statements, which are made up of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. Other supplementary information is also contained within this report, including the combining financial statements, individual fund schedules, and statistical information.

Government-wide Financial Statements. Butler County's government-wide financial statements include a Statement of Net Assets and a Statement of Activities, which report the financial activities of the Butler County government as a whole, giving the reader a summary of county finances with a view of the bottom-line results of the County's operations. These statements are now prepared using the economic resources measurement focus and the accrual basis of accounting, similar to financial statements prepared in the private sector. As a result, all assets and liabilities of the County are accrued, and revenues and expenses are reported in the current year regardless of when the resulting cash flows occur.

The County's financial activities are identified in the government-wide financial statements as *governmental activities* or *business-type activities*. *Governmental activities* constitute the majority of the County's operations and are financed primarily by operating grants, taxes, charges for services, capital grants, and other intergovernmental revenues. Butler County's governmental activities are accounted for in governmental funds and are classified as follows:

Legislative and Executive - general government operations including the offices of the commissioners, auditor, treasurer, prosecutor, recorder, the department of development, information services, the board of elections, maintenance department, economic development, and records center.

Judicial - court related activities including the operations of the common pleas court, probate court, county courts, juvenile court, domestic relations court, municipal court, court services, court of appeals, and clerk of courts.

Public Safety - activities associated with the protection of the public including the sheriff's operations, juvenile detention center, adult probation department, county paramedics, office of the coroner, and the criminal justice board.

Public Works - activities associated with maintaining County roads and bridges, the Butler County Regional Airport, litter control, and other associated community grant programs.

Health - activities aimed at serving the public health, including activities provided by the Board of Mental Retardation and Developmental Disabilities, Mental Health Board, and the Alcohol and Drug Addiction Services Board.

Human Services - activities related to the provision of various forms of services and assistance to individuals, children, and families, including services provided or funded by the County Care Facility, Elderly Services Levy, Veterans Services Board, Children Services Board, Child Support Enforcement Agency, and the Department of Job and Family Services.

Conservation and Recreation - activities associated with conserving and maintaining the beauty of County lands, including the services provided through the Ohio State Agriculture Program and the Butler County Soil and Water Conservation District.

Business-type activities are those activities accounted for in enterprise funds, including the County's water and sewer operations and the Government Services Center Parking Garage operations. Business-type activities rely on user fees and other charges to wholly, or to a large extent, fund their operations.

The **Statement of Net Assets** reports all assets and liabilities of the County, with net assets being the difference between the two. This statement is useful when evaluating the financial condition of the County. Monitoring the changes to net assets over time is one indication of whether the County's financial condition is improving or deteriorating.

The **Statement of Activities** reports for the current fiscal year the changes to the County's net assets, which is the difference between revenues and expenses. However, the format of this statement departs from a more traditional 'revenues less expenses equals net assets' format you may see in the private sector.

Generally, private sector goals are to generate income, or simply put, maximize revenues. As such, private sector operating statements present revenues first. Expenses, which reduce revenue maximization, are presented next as a deduction against those revenues.

Public sector goals are different in that servicing the needs of the citizens, or spending, is what drives the financial activities. Thus, the statement of activities is designed to present expenses before revenues in order to emphasize that service activities dictate the level of resources that are required to be raised.

In the County's Statement of Activities, resources used to fund service activities are identified as either program revenues (resources received from people receiving services or in the form of operating and capital grants and contributions) or general revenues (all non-program revenues, including taxes). Butler County operations have also been classified into distinct governmental or business-type service activities. These activities are reported in a format that allows the reader to see the extent to which each activity is supported or self-financed by program revenues or draws on the general resources of the County. The Statement of Activities is therefore useful in assessing the level of self-sufficiency of the various governmental or business type activities versus management established performance benchmarks.

The financial activity of Miami Valley Industries, Inc., a component unit of Butler County, is presented in a separate column on the Statement of Net Assets and as a separately identified activity on the Statement of Activities. While the County provides a significant amount of services and resources to Miami Valley Industries, Inc., this discrete presentation is made in order to emphasize that it is a legally separate organization from Butler County. However, the focus of the government-wide financial statements remains clearly on Butler County as the primary government.

The government-wide financial statements begin on page 15 of this report.

Fund Financial Statements. A fund is an accounting term referring to a segregated group of accounts used to account for and to assist with the management of financial resources received. Various funds may be established to account for specific activities or objectives of the County, and to demonstrate compliance with finance related legal requirements associated with those resources.

Fund financial statements report additional and more detailed information about the County with an emphasis on *major* funds. Major funds are those governmental or enterprise funds that have been determined to be the most significant based on a defined set of financial criteria, as well as any other funds deemed to be particularly important to readers because of public interest or to ensure consistency between years. Information is presented separately in the fund financial statements for each of the major funds. Information for all non-major funds is aggregated and presented in a separate column of the fund financial statements. Detailed data for each of the non-major funds are provided in the combining statements and individual fund schedules that follow the basic financial statements.

All funds of Butler County are classified into one of three fund categories, governmental, proprietary, or fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements, but use a different measurement focus. Governmental fund financial statements are prepared using the current financial resources measurement focus and modified accrual basis of accounting, a short-term view focusing on the flow of monies into and out of the funds and the year-end balances available for near-future spending. This is in contrast to the government-wide financial statements that incorporate a longer-term focus. A reconciliation included in the governmental fund financial statements compares the governmental funds information to the governmental activities information as reported in the government-wide financial statements.

Butler County maintains numerous individual governmental funds, the following of which are considered major funds: General, Mental Retardation, Job and Family Services, Children Services Board, Bond Retirement, Buildings Construction and Renovation, and Road Improvements. The basic governmental fund financial statements begin on page 18 of this report.

Proprietary Funds. The County uses two types of proprietary funds - enterprise funds and internal service funds. Since the proprietary fund financial statements are prepared using the same measurement focus and basis of accounting as the government-wide financial statements, they provide the same type of information, only in greater detail.

Enterprise funds are used to account for the County's water and sewer operations and the operations at the Government Services Center parking garage, which are the business-type activities as reported in the government-wide financial statements. Internal service funds are used to account for the financing of services provided by one department to other departments in the County on a cost-reimbursement basis. The County uses internal service funds to account for its workers' compensation and employee health benefit programs. Since these programs mostly benefit governmental rather than business functions, they have been included in the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements begin on page 29 of this report.

Fiduciary Funds. Fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for outside parties and are accounted for in a manner similar to proprietary funds. Fiduciary funds are not presented in the government-wide financial statements as their resources are not available to support the County's governmental or business-type activities. The basic fiduciary fund financial statements begin on page 33 of this report.

Notes to the Financial Statements. The notes to the financial statements are an integral part of the basic financial statements, providing additional important disclosures essential for a complete understanding of the financial data reported in the government-wide and fund financial statements. The notes to the financial statements begin on page 34 of this report.

Summary. To summarize, the government-wide financial statements report the County's activities as a whole, using a longer-term, economic resources measurement focus while the fund financial statements report financial activities in more detail, with a shorter-term focus and emphasis on major funds. More simply, the primary focus of government-wide financial statements is demonstrating *operational accountability*, while the primary focus of the governmental fund financial statements is demonstrating *fiscal accountability*. Butler County management believes these basic financial statements provide the reader with the best information yet available to assess the level of Butler County's fiscal and operational accountability, both near-term and long-term.

Government-wide Financial Analysis

The County realized a 9%, \$49.3 million increase in total net assets in 2005 from the combined 2004 governmental and business-type activities. The investment in capital assets (net of related debt issued to acquire the assets) of \$488.3 million represents 78% of total net assets of the County. Capital assets are used to provide services to residents and do not represent assets that may be used for future spending.

Sixty percent (60%) of the County's net assets are used providing governmental activities. Net assets used in governmental activities increased five (5%) from 2004 to 2005 while net assets used in business-type activities increased by fourteen percent (14%).

Current assets and current liabilities increased in 2005 by \$20.2 million and \$6.8 million, respectively, due in large part to the receipt and accrual of tax revenues from voted property tax increases for MR/DD and Elderly Services, and the half percent sales tax the County approved in October to fund the county-wide 800 megahertz public safety radio communications system. The sales tax increase also affected unrestricted net assets, which increased \$6.3 million in 2005, as did the \$2.08 million Shell Oil settlement and the reduction of outstanding debt due to a note retirement and debt restructuring. Unrestricted net assets for governmental activities are reported as a negative value due to the debt the County has issued for infrastructure and other capital assets that are not assets of the County (e.g., infrastructure improvements constructed in TIF zones or assets of another political subdivision) or the assets belong to the County's business-type activities. Other significant changes in assets, liabilities, and net assets of the County are the result of activity analyzed at the fund level in the Fund Analysis section beginning on page 9.

Governmental Activities. The County's governmental activity expenses exceeded program revenues in 2005 by \$80 million and, with an infusion of \$98.9 million of general revenues and transfers, resulted in a \$19 million increase to governmental activity net assets. Total net assets used in governmental activities now exceed \$376 million.

Program revenues supporting governmental activities decreased 3% from 2004 to \$158.5 million. Program revenues consisting of charges for services and operating and capital grants and contributions constitute 62% of total revenues associated with governmental activities, while 38% are general revenues. Of the general revenues, 78% come from

property taxes or sales taxes, an increase of 14% over 2004 property and sales taxes, largely attributable to the additional property taxes realized in 2005 from the MR/DD replacement tax levy that was passed in November 2004.

| Net Assets December 31 | \$ 376,048,079 | \$ 357,015,192 | \$ 250,986,532 | \$ 220,679,568 | \$ 627,034,611 | \$ 577,694,760 |

Governmental activity charges for services in 2005 were 23% or \$14.6 million lower than 2004 due to the reclassification of the Health Insurance Fund from a Special Revenue Fund to an Internal Service Fund, and the reclassification of the Ohio Housing Trust fees to an Agency Fund. Capital grants increased \$5.8 million (41%) as the County received grant funds to help fund the purchase of new touch-screen voting machines by the Board of Elections and there was an increase in collections for the Voice of America TIF. Interest revenue at \$5.1 million was nearly three times the level received in 2004, as interest income was up and the carrying value of the County's investments rebounded in 2005. Sales tax revenues increased \$4.2 million (23%) due to the additional one-half percent sales tax that was enacted by the commissioners in October of 2005 to fund the county-wide 800 megahertz public safety radio communications system. Other revenues increased 95% or \$2.3 million mainly from the \$2.08 million Shell Oil settlement received in 2005.

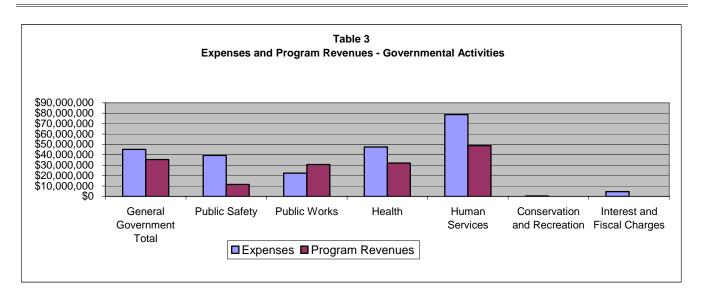

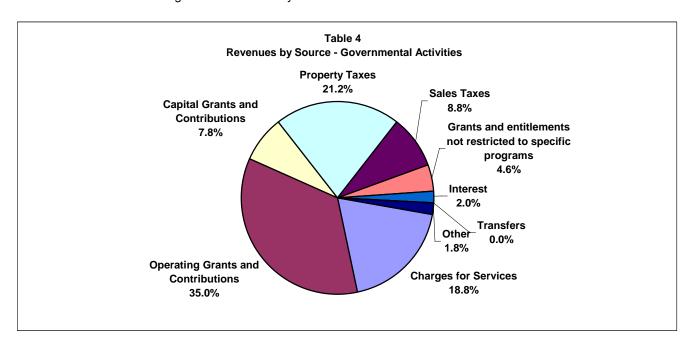

Table 3 provides a comparison of governmental activity expenses with program revenues. Table 4 provides a breakdown of the sources of governmental activity revenues.

Business-type Activities. The County's sewer and water system operations constitute 99% of the business-type activities. Butler County management has established sound fiscal plans and mechanisms in order to respond to the challenges of delivering efficient and cost effective services to a large service area whose capacity has been continually expanding due to the tremendous growth the County has seen over the years. Net assets of the business-type activities increased \$30.3 million in 2005, a fourteen percent increase over 2004, further improving the County's already excellent financial position. Further detail regarding the financial condition of the sewer and water systems are provided in the *Fund Analysis* section that follows.

Fund Analysis

As mentioned above, various funds have been established to account for specific County activities or objectives. A summary of the most significant fiscal activity in the County's funds follows.

Governmental Funds. Governmental funds report County financial activity focusing on the near-term flow of expendable resources and assists in demonstrating fiscal accountability. Thus, fund balances provide us with a snapshot of what resources are available at year-end for near-term spending, and an analysis of changes to fund balances over time assists in evaluating the degree to which a specific program, or a group of activities, is "living within its means."

At year-end, the governmental funds combined ending fund balance of \$75.7 million was \$12 million greater than the same balance just one year ago, a 19% increase overall. Much of this increase can be attributed to the Mental Retardation Fund and Children Services Board Fund whose fund balances increased \$7.1 million (80%) and \$1.7 million (27%), respectively. The Mental Retardation Fund benefited from the passage of a 1.0 mill replacement operating levy in November 2004, as a 25% increase in tax revenues was realized, while expenditures were reduced by 5% or \$1.2 million from the previous year as Title XIX CAFS special services contracts were eliminated because of a billing structure change. While spending was up in the Children Services Board Fund by 21% over the previous year, revenues still exceeded expenses by \$1.7 million. In the Job and Family Services Fund, an additional \$2.6 million in workforce development funding was received, most of which was expended during the year. A \$1.5 million increase in daycare expenditures and an additional \$.68 million in personal service expenditures from an early retirement program factored in an operating deficit of \$1.1 million for 2005.

In the County's other funds reported in All Other Governmental Funds, \$1.1 million in bond proceeds received in the Metroparks Fund was not expended at year end and revenues exceeded expenditures in the Motor Vehicle Fund (\$1.9 million) and Elderly Services Levy Fund (\$.6 million), thus significantly contributing to the overall increase to the fund balances in governmental funds.

Only a portion of the \$75.7 million fund balance in the governmental funds is available for spending in next year's budget, however. This is referred to as the *unreserved fund balance*, and at December 31, 2005, the unreserved fund balance for the governmental funds had increased to \$63.3 million, or 84% of the total fund balance. The *reserved fund balance* indicates what monies have already been committed and is not an available expendable resource. The reserved governmental funds balance of \$12.4 million represents 16% of the total fund balance and has either been committed for the payment of current contracts and purchase orders (\$10 million), debt service (\$.1 million), other miscellaneous commitments (\$.4 million), or has been reserved until loans or advances have been repaid to the General Fund (\$1.9 million).

The economic growth that has continued in Butler County in 2005 plays an important supportive role for the County's financial position. The continued growth in the tax base supports the level of financial strength of the County. The overall financial position for Butler County's principal operating fund, the General Fund, is relatively unchanged from the previous year as represented by only a slight decline in fund balance. While taxes increased \$3.2 million (10%) and interest earned was up \$1.7 million (58%) over the prior year, expenditures and other financing uses exceeded revenues and other financing sources and the General Fund balance declined \$.5 million to \$10.6 million. The General Fund's unreserved fund balance, at \$8.7 million was 32% greater than the previous year and represents 9% of 2005 General Fund expenditures. The ending fund balance of \$10.6 million is now 14% of the 2005 General Fund actual revenues and remains aligned with management's strategic target.

While the financial position of the General Fund reflects no major change, operations can be measured by peer review with other Ohio counties. Such comparisons, often referred to as "per capita" computations, show that Butler County's General Fund, when compared with other Ohio counties, ranks in the bottom third of counties in Ohio from a General Fund tax per capita perspective as determined by the County. Additionally, legislative and executive expenditures as well a judicial expenditures rank in the bottom half, and public safety expenditures rank near the higher third of Ohio counties (using numbers gathered from 2004 CAFRs under a ranking system of high to low).

Proprietary Funds. The proprietary funds financial statements provide the same information as seen in the government-wide financial statements only in more detail. A summary of financial activity occurring in the sewer and water enterprise funds follows.

Sewer Fund. The sewer system's \$28.2 million in current assets, principally (\$22.7 million) composed of equity in pooled cash and cash equivalents, when related to current liabilities of \$16.9 million resulted in a current ratio of 1.67 at year-end, meaning that current assets covered current obligations one and two-thirds times, leaving an adequate safety margin of working capital (current assets less current liabilities) for ongoing operations, debt service, and contingencies.

After three consecutive years without a sewer rate increase, 2005 marked the first year of a sewer rate increase, 4%, which was effective January 1, 2005. Based on current assumptions, projected annual sewer rate increases over the next few years are not expected to exceed 2%. Operating revenues of \$18.45 million were 3.8% or \$0.7 million higher than in 2004, while operating expenses were 8% or \$1.67 million higher, resulting in an operating loss of \$4.1 million. While most categories of operating expense in 2005, including depreciation (reflecting a continuation of growth-driven additions to infrastructure capital assets), were somewhat higher than the prior year, other operating expenses were \$1.2 million less than in 2004. The net non-operating expense effect of \$2.3 million, from the several items of non-operating revenues and expenses, when combined with the aforementioned operating loss of \$4.1 million, resulted in a loss before contributions of \$6.4 million. However this unfavorable result was more than offset by \$25 million in capital contributions, mostly from developers (including a record level of capacity fees, \$9.2 million, to finance growth), increasing net assets by 12.85% or \$18.6 million for 2005.

Water Fund. \$28.2 million or over 91% of the water system's \$30.9 million in current assets consisted of equity in pooled cash and cash equivalents. The ratio of these current assets to the Water Fund's current liabilities of \$6.45 million was 4.79, meaning that only slightly more than one-fifth of current assets would have been required to liquidate current liabilities as of year-end, leaving a substantial safety margin of working capital for ongoing operations, debt service, and contingencies. A significant portion of this working capital resulted from the favorable settlement in March, 2005, of a lawsuit which Butler County had filed in 2001 against specific manufacturers and distributors of polybutylene water service connection materials. The lawsuit, as well as the settlement of the lawsuit, the proceeds from which are reflected in the category of other non-operating revenues in the Statement of Revenues, Expenses and Changes in Fund Net Assets, are discussed in greater detail elsewhere in this report. The settlement will serve to mitigate future water rate increases.

A 3% water rate increase was effective January 1, 2005. In terms of temperature and precipitation, particularly during the summer months, 2005 was relatively warm and dry. These factors resulted in water system operating revenues for 2005 of \$22 million, which were \$2.5 million or 12.7% higher than they were for 2004, while operating expenses of \$24.4 million were \$4.65 million or 19.1% higher than they were for 2004, creating an operating loss of \$2.34 million for the Water Fund. Nearly 93% or \$4.3 million of the increase in operating expenses is attributable to the category of contractual services, much of which consisted of legal expenses associated with the above-referenced lawsuit. Finally, capital contributions of \$9.65 million, which included capacity fees of \$4.5 million to finance growth, combined with a gain of \$2.05 million before such capital contributions, resulted in a 15.4%, \$11.7 million increase to net assets.

General Fund Budget Analysis

Several events dramatically influenced the budgetary process and actual results for the year of 2005. These included the General Fund's portion of the settlement in the Shell Oil litigation which resulted in a \$2.08 million cash windfall, the receipt of grant funds to help fund the purchase of new touch-screen voting machines by the Board of Elections, the payment of \$.7 million in one time pay-outs due to early retirement incentive programs and vacation pay-outs for retiring employees and, for the second straight year, advance refunding outstanding bonds. In addition, \$.6 million of Ohio Housing Trust fees were reclassified from the General Fund to an Agency Fund. The financial condition of the General Fund also continues to be influenced by the increasing cost of the justice system and rising healthcare costs. For example, management has tracked the County's justice system expenditures from 2002 to 2005 and determined that they have increased 5.5 times faster than all other General Fund categories combined.

The General Fund's final 2005 appropriation budget, at \$79.3 million, was 10% higher than the original appropriation budget filed at the beginning of the year. The final budget included an additional \$7.4 million in appropriations over the original budget, a large piece of which consisted of an additional \$3.5 million budgeted in Legislative and Executive for the acquisition of new touch-screen voting machines by the Board of Elections. Various expenses were also greater than anticipated including Judicial attorney fees (\$.76 million) and salaries and benefits (\$.24 million); Public Safety boarding of prisoners (\$.22 million), adult probation drug screening (\$60,000), and sheriff's material purchases (\$68,500); and Human Services payments to veterans (\$.11 million). Additionally, the commissioners decided in 2005 to fund a \$1.65 million Public Works land purchase by the Transportation Improvement District (TID) to assist in the development of the Liberty interchange, the amount which was subsequently repaid later in the year by the TID.

General Fund final budgeted revenues were within 5% of the original budget, however, the final budget amounts for the individual accounts of Taxes and Intergovernmental were significantly different than originally budgeted because sales tax revenues received from the State of Ohio were originally budgeted as intergovernmental revenue. Sales tax revenues are more properly classified and reported as tax revenues and were thus reclassified. Other revenues as finally budgeted were significantly greater than originally budgeted as the result of the unanticipated receipt during 2005 of a \$2.08 million payment received from the Shell Oil blue max litigation settlement. The \$2.08 million settlement from Shell Oil primarily funded a \$0.9 million increase to the sheriff's operations and equipment as well as \$0.7 million in one-time charges relating to early retirement incentive programs and retirement and vacation pay-outs due to newly elected public officials.

Although the final budget projected a significant \$2.7 million (34%) decrease to the General Fund balance, actual expenditures were \$1.9 million less than budgeted and other financing uses were \$0.3 million less that anticipated. The resultant deficit was a much more manageable \$155,207 due to budgetary controls designed to hold expenditures in check. The county commissioners instituted a temporary budget initially appropriating only one-fourth of the 2005 budget to allow the County to consider changes from the budget process at the State of Ohio and allow for the County to evaluate the level of sales tax receipts during the first quarter of the year. Once the State impacts were known, the County adjusted budgets appropriately and instituted an annual budget for 2005. Expenses in 2005 were monitored closely in order to minimize the "budget creep" that occurs each year. In addition several equipment lease transactions were initiated for public safety vehicles and technology hardware and software in order to smooth the budgetary impact of these needs over several years.

Capital Asset and Debt Administration

Capital Assets

Capital assets include County owned land, land improvements, buildings, furniture and equipment, vehicles, water and sewer mains, and infrastructure. Butler County's total investment in capital assets for governmental and business-type activities (net of accumulated depreciation) amounts to \$666.8 million as of December 31, 2005, an increase of 6% over the previous year. Table 5 contains a summary of capital assets as of December 31, 2005, compared to assets owned by the County at year-end 2004.

| | | Tabl Butler County (| | | | |

| Construction in Progress | 921,735 | 463,912 | 52,316,476 | 31,443,320 | 53,238,211 | 31,907,232 |
| Total | \$ 368,806,022 | \$ 363,518,621 | \$ 298,039,270 | \$ 265,151,325 | \$ 666,845,292 | \$ 628,669,946 |

Significant capital asset activity occurring during 2005 included the following:

- Land was purchased for \$1.06 million for the Butler Regional Airport as part of their long-term airport layout plan for future development and runway protection, increasing governmental activity land assets. Ninety-five percent (95%) of the land purchases in 2005 were funded through federal grants.
- A new touch-screen voting system was acquired for \$4.5 million for the board of elections, a governmental
 activity.
- The County leased new vehicles for the sheriff totaling \$1 million.

- Significant construction activity occurred in the business-type activities, including 82 current water or sewer
 projects such as the Upper Mill Creek WRF Load analysis, New Miami WRF, New Miami Sewer System,
 Cookie Lane/Greencrest/Elk Run LS Elimination, Queen Acres MGD Expansion, Blue Max Water Repair, and
 LF Pump Station Replacement.
- Water and sewer mains totaling \$22.3 million were added, 63% of which were donated lines. After accounting
 for depreciation and the loss on disposal of fixed assets, a net increase of \$15 million in water and sewer mains
 was realized.

Infrastructure Assets. Infrastructure assets refer to County roads, bridges, and culverts, and are reported in the governmental activities. Butler County, through the engineer's office, maintains an Infrastructure Asset System that incorporates the "modified approach" method of reporting infrastructure as provided for in Governmental Accounting Standards Board Statement No. 34. Under the modified approach, the County does not use historical cost-based depreciation as a measure of the cost of use for infrastructure assets. Instead, all expenditures made for infrastructure assets that preserve the useful life of the assets are expensed during the year incurred. Expenditures that increase the capacity or efficiency of the infrastructure assets (additions or improvements) are capitalized. The County ensures that infrastructure assets are being preserved at, or above, previously established condition-levels by performing periodic conditional assessments of the infrastructure. Based on these assessment findings, a budget is prepared for the maintenance and repair of these assets. During 2005, the County budgeted \$2.95 million for roads, \$1.8 million for bridges, and \$1.3 million for culvert improvements.

Butler County manages its roadway system through the performance of biennial conditional assessments, using factors such as age of pavement, surface condition, and traffic volume and type. Roads are assigned a pavement rating based on a scale of one to four, with one being excellent and four being poor. It is the County's policy to maintain the County roadway system where at least 80% of the roads have a rating of three or better. A five-year paving plan is developed in order to keep the County's roads at condition levels established per policy. Actual maintenance spending on County roads in 2005 was \$2.77 million, and the most recent roadway system assessment indicates that 93% of County roads are currently assessed at a rating of three or better.

The County manages its bridges using a General Appraisal and Operational Status condition coding system as developed by the Federal Highway Administration. The condition of a bridge is rated from zero to nine, with nine being excellent condition and zero meaning the bridge is in a failed or closed condition. Bridges are inspected on an annual basis as required by Ohio law. It is the policy of the county engineer to maintain the bridges such that 85% of the structures have a General Appraisal rating of five (5 - Fair) or better. The County spent \$1.5 million in 2005 to maintain bridges and the most recent bridge system assessment indicates that 91% of County bridges are currently assessed at a rating of five or better.

The engineer inspects culverts on a biennial basis, and conditional assessments are given based on a rating scale of one to four, with one meaning the culvert is in good condition and does not require repair, while a four rating means the culvert is in critical condition and is no longer functioning as designed. It is the policy of the county engineer to maintain 75% of the culverts in a condition of two (2 - Fair) or better. The County spent \$1.3 million in 2005 to maintain culverts and the most recent culvert system assessment indicates that 80% of the culverts are currently assessed at a rating of two or better.

Additional information regarding capital assets can be found in Note 8 to the financial statements.

Long-term Debt

At December 31, 2005, Butler County had a total of \$245.8 million in outstanding long-term debt, one percent higher than the prior year-end. Of this total, \$106.9 million (43%) has helped fund governmental activities while \$138.9 million (57%) has helped fund business-type activities. Governmental activity long-term debt dropped \$2.8 million in 2005 due to scheduled maturities and the 2005 advance refunding. Long-term debt for business-type activity increased by \$5.2 million (4%).

| Total | \$ 106,901,368 | \$ 109,637,890 | \$ 138,870,682 | \$ 133,678,707 | \$ 245,772,050 | \$ 243,316,59 |

The County's long-term debt consisted of \$118.6 million in obligations backed by the full faith and credit of Butler County, including \$49.9 million in general obligation bonds, \$34.7 million water judgement bonds, \$10.5 million in special assessment bonds, for which Butler County is liable in case of default of the property owners subject to the assessment, and \$17.1 million in long-term notes. Additionally, \$6.4 million in loans from the Ohio Public Works Commission and Cincinnati Waterworks, and a loan for the county's financial system software, remain outstanding at year-end. These loans are also backed by the full faith and credit of Butler County. A total of \$127.2 million of the total outstanding debt represent bonds secured by specified revenue sources, including water and sewer revenues and sales tax revenues.

Butler County's governmental activities were supported in 2005 through \$29.4 million in sales tax bonds which were issued to advance refund governmental activity general obligation and sales tax bonds originally issued in 1997. The County issued an additional \$1.87 million in long term notes in 2005 for the construction of the Metroparks' Voice of America Park, while other note issues were paid down, resulting in a net increase to long-term notes of \$1.635 million.

In support of business-type activities, \$13.235 million in water revenue bonds were issued to refund the 1996 water bonds, and \$19.575 million in sewer bonds were issued to partially refund the 1997, 1998, and 1999 series sewer bonds. Additionally, \$14.85 million in water bonds were issued to (a) pay off the two 2004 water system and waterworks improvement long-term notes totaling \$8.4 million and (b) provide \$6.45 million of new money to finance improvements to the waterworks system. The County also entered into an agreement with the City of Cincinnati to assist in funding the construction of an additional water service connection on International Boulevard at Muhlhauser Road. The County's liability to Greater Cincinnati Water Works for this contribution at year end was \$4.6 million.

Ohio law, through its direct and indirect debt limitations, restricts the amount of debt the County may issue. The County's total direct debt limit at December 31, 2005 was \$182.5 million and the legal debt margin (debt limit minus net debt) was \$147.1 million. The County's unvoted direct debt limit was \$73.6 million and the unvoted direct debt margin was \$38.2 million. The debt margins for total debt and unvoted debt reflect an increase over the previous year by 11% and 40%, respectively.

Ohio's indirect debt limitation, referred to as the ten-mill limitation, further limits the total unvoted general obligation debt that may be issued among overlapping subdivisions to a maximum of 10 mills per dollar of assessed valuation. Since the 10 mills must be shared by the overlapping subdivisions, and is available on a first-come, first-served basis, the level of debt issued by any overlapping political subdivision thus affects the County's ability to issue unvoted general obligation debt. For example, depending on how much room is available under the 10-mill limitation, a relatively small debt issuance by an overlapping subdivision with a low assessed valuation could significantly hinder, or temporarily lock out, the County's ability to issue unvoted general obligation debt. This limitation would continue until unvoted general obligation debt was retired by either subdivision, or until the total assessed value of the subdivision or the County increased, which occurs around December of each year. The County continues to monitor the debt activity of all overlapping subdivisions for the potential affect on future financings.

Butler County's general obligation bond issues are currently rated Aa3 by Moody's Investors Services, a rating the County has maintained since being upgraded from A1 in 1998. The water district and sewer district currently maintain credit ratings from Moody's of A2 and A3, respectively, based on separate revenue bond issuances in 1999.

Besides the long-term bonds and notes outstanding, the County also is liable for other long-term obligations in the form of capital leases payable and compensated absences payable. Governmental activity capital leases totaled \$2.8 million at year end, including \$1.04 million for leased sheriff and juvenile detention vehicles; \$1 million for leased electronic touch-screen voting machines; \$.7 million for a county-wide permitting system, computer equipment, and common pleas court reporting system; and \$73,000 for County Care Facility buildings and equipment. Compensated absences payable at year end was \$5.7 million for governmental activities and \$.6 million for business-type activities. The total liability for capital leases and compensated absences for governmental and business-type activities was \$9.1 million at December 31, 2005. Additional information about the County's long-term obligations can be found in Note 15 to the financial statements.

Economic and Other Potentially Significant Matters

According to a recent news article appearing in the Cincinnati Enquirer, Butler County lead the region in job growth in 2003 and 2004. During 2005, new economic development projects netted the County a record 3,849 new jobs. The pace has been sustained despite the fact that the rate of job growth in the State of Ohio is lagging behind other States. Of the new growth in jobs during 2005, nearly 40% are medical or bio-tech related. Management expects the medical or bio-tech job growth to continue during the years 2006 to 2008 as a result of economic development activity that has created growth opportunities in the eastern sections of Butler County. Currently, there are at least four medical/hospital facilities planned in this area. Major infrastructure plans for the completion of the Liberty Interchange, widening of By-Pass State Route 4 and future extension of State Route 63 will create even more job opportunities and economic activity in the future

Finally, Butler County has demonstrated a history of sustainable tax base growth that can be utilized to fund governmental activities and the County's business activity enterprise funds are self supporting. Coupled with increasing sales tax collections, this makes Butler County sound from a financial perspective. From an expenditures standpoint, the explosion of justice system costs in Butler County and elsewhere will continue to be an influence on the financial strength of Butler County.

Requests for Information

The Management's Discussion and Analysis is intended to provide a general overview of Butler County's finances. Questions concerning any of the information provided in this report, or requests for additional financial information should be addressed to the Butler County Auditor, 130 High Street, Hamilton, Ohio, 45011.

Butler County, Ohio Reconciliation of Total Governmental Fund Balances to Net Assets of Governmental Activities

For the Year Ended December 31, 2005

| Total Governmental Fund Balances | \$ | 75,698,465 |
|----------------------------------|----|------------|
|----------------------------------|----|------------|

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

| Land | 9,616,873 |
|---------------------------------|--------------|
| Infrastructure | 238,808,719 |
| Construction in progress | 921,735 |
| Other capital assets | 171,702,529 |
| Accumulated depreciation | (52,243,834) |

Total capital assets 368,806,022

An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets.

(2,913,513)

Some of the County's revenues will be collected after year end, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds:

| Property Taxes | 4,466,578 |
|-----------------------------------|------------|
| Special Assessments | 13,798,341 |
| Due From Other Governments | 29,986,435 |
| Charges for Services | 611,618 |
| Interest Revenue | 468,585 |
| Other Revenue | 47,453 |

49,379,010

Bond issuance costs reported as an expenditure in governmental funds are allocated as an expense over the life of the debt on a full accrual basis

1,213,330

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:

| Accrued interest on bonds | (776,339) |
|---------------------------|--------------|
| Capital leases | (2,810,544) |
| Notes | (17,105,000) |
| Bonds | (87,994,343) |
| Loans | (1,802,025) |
| Compensated absences | (5,646,984) |
| Total liabilities | |

(116,135,235)

Net Assets of Governmental Activities

\$ 376,048,079

Butler County, Ohio Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2005

| Net Change in Fund Balances - Total Governmental Funds | | \$ 11,961, | 662 |
|------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|------------|---------------|
| Amounts reported for governmental activities in the | | | |
| statement of activities are different because: | | | |
| Capital outlays are reported as expenditures in governmental funds However, in the statement of activities, the cost of those assets is al | located | | |
| over their estimated useful lives as depreciation expense. In the cu period, these amounts are: | rrent | | |
| Capital Asset Additions | 9,200,134 | | |
| Current Year Depreciation | (6,994,805) | | |
| | | 2,205, | 329 |
| Donations of capital assets are not reported in the governmental fur However, in the statement of activities, their value at the time of de | | | |
| is reported as revenue. | 3,082,072 | | |
| | | 3,082, | 072 |
| | | _ | |
| Because some revenues will not be collected for several months after they are not considered "available" revenues and are deferred in t | | | |
| Property Taxes | 1,268,162 | inus. | |
| Due From Other Governments | (1,707,211) | | |
| Special Assessments | 1,852,931 | | |
| Charges for Services | 424,886 | | |
| Interest Revenue | 168,615 | | |
| Other Revenue | 15,820 | 2,023, | 203 |
| | | 2,023, | 203 |
| Some capital assets were financed through capital leases. In govern | mental funds, a cap | pital | |
| lease arrangement is considered a source of financing, but in the st | atement of net asse | | |
| the lease obligation is reported as a liability. | | (2,862, | 332) |
| Repayment of long-term debt is an expenditure in the governmenta but the repayment reduces long-term liabilities in the statement of | | | |
| net assets. | | | |
| Bond principal retirement | 3,010,000 | | |
| Special assessment principal retirement Note principal retirement | 615,000 15,470,000 | | |
| Loan principal retirement | 170,551 | | |
| Payments to refunded bond escrow agent | 32,908,080 | | |
| Capital lease payments | 156,071 | | |
| Total long-term debt repayment | | 52,329, | 702 |
| In the statement of activities interest is accrued on outstanding bone | ds | | |
| whereas in governmental funds, interest is expensed when due. | 113 , | (239, | 569) |
| , , | | | , |
| Governmental funds report premiums, discounts and bond issuance | | | |
| expenditures, whereas these amounts are deferred and amortized | | activities | |
| Premium on Bonds Bond Issuance Costs | (1,911,520) 555,185 | | |
| Amortization of Gain/Loss on Refunding | (125,730) | | |
| Amortization of Bond Premiums/Discounts on Issue | 214,141 | | |
| Amortization of Bond Issuance Costs | (63,077) | | |
| | | (1,331, | 001) |
| | | | |
| Bond Proceeds are reported as other financing sources in governme | ental funds and thu | s | |
| contribute to the change in fund balances. In the government-wide | | | |
| issuing debt increases long-term liabilities in the statement of net as | | | |
| not affect the statement of activities. | | | |
| Bond Proceeds, Note Proceeds | | (47,614, | 000) |
| | | | |
| Some items reported in the statement of activities do not require the | e | | |
| use of current financial resources and therefore are not reported a | | | |
| expenditures in governmental funds. These activities consist of: | | | |
| Compensated Absences | | 275, | 374 |
| The internal convice funds used by management to show the | of incurar | | |
| The internal service funds used by management to charge the costs to individual funds. The net revenue (expense) of the internal serv | | | |
| are reported with governmental activities. | runus | | |
| | | (797, | 55 <u>3</u>) |
| Change in Net Assets of Governmental Activities | | \$ 19,032, | 887 |

NOTE 1 REPORTING ENTITY AND BASIS OF PRESENTATION

REPORTING ENTITY

Butler County, Ohio (The County) was created in 1803. The County is governed by a board of three commissioners elected by the voters of the County. The County Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other elected officials include the Auditor, Treasurer, Recorder, Sheriff, Coroner, Clerk of Courts, Prosecutor, Engineer, nine Common Pleas Court Judges and three County Court Judges.

The services provided by the above officials and their departments comprise the primary governmental unit of the County. They have therefore been included as part of the reporting entity.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the County are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Butler County, this includes the Children Services Board, the Board of Mental Retardation and Developmental Disabilities, the Board of Mental Health, the Alcohol and Drug Addiction Services Board, the Veterans Service Board and the Board of Elections and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the County, in that the County approves the organizations budget, the issuance of its debt, or the levying of its taxes.

Discretely Presented Component Unit

The component unit column in the combined financial statements identifies the financial data of the County's component unit, Miami Valley Industries, Inc. It is reported separately to emphasize that it is legally separate from the County.

Miami Valley Industries, Incorporated

Miami Valley Industries, Inc. (The Workshop) is a legally separate entity served by a self-appointing board of trustees. The Workshop, under a contractual agreement with the Butler County Board of Mental Retardation, and Developmental Disabilities, provides a comprehensive program of services, including employment for mentally retarded and developmentally disabled citizens. The Workshop is a non-governmental, non-profit corporation. The Butler County Board of MRDD provides the Workshop with expenses and personnel for operation of the Workshop including staff salaries and benefits and certain supplies and advertising. Based on the significant services and resources provided by the County to the Workshop and the Workshop's sole purpose of providing assistance to the developmentally disabled and handicapped adults of Butler County, the Workshop is reflected as a component unit of Butler County. This is because the nature and significance of the relationship is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Miami Valley Industries operates on a fiscal year ending June 30th. Separately issued financial statements can be obtained from the Miami Valley Industries Workshop of Butler County, Ohio. Complete financial statements can be obtained from Miami Valley Industries, Inc., 449 Patterson Blvd. Hamilton, OH 45011.

REPORTING ENTITY AND BASIS OF PRESENTATION (continued)

The County participates in the following joint ventures, jointly governed organization, related organization, and risk sharing pool. These organizations are presented in Note 20 to the combined financial statements and are excluded from the accompanying financial statements except as noted.

Butler County Emergency Management Agency
The Butler County Alliance
Transportation Improvement District of Butler County
County Risk Sharing Authority
Regional Transit Authority

As the custodian of public funds, the County Treasurer invests all public moneys held on deposit in the County Treasury. In the case of the legally separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered a part of Butler County. Accordingly, the activity of the following districts and agencies are presented as agency funds within the County's financial statements:

Butler County General Health District

The five member Board of Health which oversees the operation of the Health District is elected by a District Advisory Council comprised of township trustees and mayors of participating municipalities. The Board adopts its own budget which is subject to a compliance oriented review by the County. The District hires and fires its own staff, and operates autonomously from the County.

Butler County Soil and Water Conservation District

The Soil and Water Conservation District is statutorily created as a separate and distinct political subdivision of the state. The five supervisors of the Soil and Water Conservation District are elected officials authorized to contract and sue on behalf of the District. The supervisors adopt their own budget, authorize District expenditures, and do not tax nor issue debt.

Butler County Solid Waste Planning District

A state mandate established by the passage of Amended Sub House Bill 592 created the Butler County Solid Waste Planning District. The Solid Waste Planning Committee was established in March of 1989 and consists of seven members, which include a health commissioner, an appointee of the County Commissioners, a chief executive officer, and four members from the public sector. The committee adopts its own budget and authorizes its own expenditures.

Metroparks of Butler County

The District Commissioners are appointed by the Probate Judge of the County. The Commissioners adopt their own budget, authorize expenditures, hire and fire staff, and do not rely on the County to finance deficits. The County is not financially accountable for the District nor is the District financially dependent on the County. The District serves as its own taxing and debt issuance authority and is a related organization of the County. The District did not receive any funding from the County during 2005.

Twelfth District Court of Appeals

The State of Ohio is divided into twelve district court of appeals. The twelfth district includes the counties of Brown, Clermont, Butler, Warren, Clinton, Fayette, Madison, and Preble. The district court is a separate entity from the County. The three judges who are responsible for the court system are elected in the general election by the populous of the above listed counties. The court system sets its own budget, appoints staff, and relies on the County for only the County's proportionate contribution for operations as required by state statue.

For The Year Ended December 31, 2005

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Butler County have been prepared in conformity with the generally accepted accounting principals (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principals. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The County has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989 to its business-type activities and to its enterprise funds. The more significant of the County accounting policies are described below.

BASIS OF PRESENTATION

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for goods and services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

<u>General Fund</u> - This fund accounts for the general operating revenues and expenditures of the County not recorded elsewhere. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of the State of Ohio.

<u>Mental Retardation</u> - This fund accounts for the countywide tax levy, federal and state grants used to pay the costs of services provided by local mental health agencies to the public at large.

<u>Job and Family Services</u> - This fund accounts for various federal and state grants used to provide public assistance to general relief recipients, pay their providers of medical assistance and for certain public social services.

<u>Children Services Board</u> - This fund accounts for the countywide tax levy, and various federal and state grants used to provide public assistance.

<u>Bond Retirement Fund</u> - This fund is used to retire Special Assessment, General Obligation and Revenue Pledged Bonds and Notes.

<u>Buildings Construction and Renovations</u> - This fund accounts for the activity involved with the acquisition, construction and renovation of various County buildings.

Road Improvements - This fund accounts for roadway construction and improvements in Butler County.

The other governmental funds of the County account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The County maintains the following three enterprise funds:

<u>Sewer</u>

This fund accounts for fees collected by the Butler County Department of Environmental Services for the processing and disposal of sewage.

<u>Water</u>

This fund accounts for fees collected by the Butler County Department of Environmental Services for providing water services for Butler County residents.

Government Services Center (GSC) Parking Facility

This fund accounts for fees collected by the Butler County Commissioners for revenue received from customers parking in the GSC parking facility and to disperse expenses relative to its operation.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Internal Service Funds

Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service funds report on self-insurance programs for workers compensation.

Fiduciary Funds

The County's only fiduciary funds are agency funds. Agency funds are used to report resources held by the County in a purely custodial capacity. The County's agency funds are primarily established to account for the collection and distribution of various taxes, receipts and fees to other local governments and to account for funds of the County General Health District, Soil and Water Conservation District, Solid Waste Planning District, Metroparks, Twelfth District Court of Appeals, Regional Transit Authority and Emergency Management.

Component Units

Component units are either legally separate organizations for which the elected officials of the County are financially accountable, or legally separate organizations for which the nature and significance of its relationship with the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Component unit disclosures represent a consolidation of various fund types.

MEASUREMENT FOCUS

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the County are included on the Statement of Net Assets. The Statement of Activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balance reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationships between the government-wide statements and the fund financial statements.

Like the governmental-wide statements, all proprietary fund types are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenues – Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within thirty-one days of year-end.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, includes sales tax, property taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurs. On an accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (see note 5). Revenue from grants, entitlements and donations are recognized in the year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales tax, state levied locally shared taxes (including gasoline tax and motor vehicle license tax), license and permits, fines and forfeitures, grants, interest, and charges for services.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2005, but which were levied to finance year 2006 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met, are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on the decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Cash and Cash Equivalents

Cash resources of the majority of individual funds are combined to form a pool of cash and investments, which is managed by the County Treasurer. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2005, investments were limited to Federal Farm Credit Bank Bonds, Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Corporation Bonds, Federal National Mortgage Association Bonds, U.S. Bank Money Market Public Mutual Fund, General Electric Capital Corporation Notes, Federal Home Loan Mortgage Corporation Discount Notes, Federal National Mortgage Association Discount Notes, Fifth Third Institutional Money Market Mutual Fund, First American Treasury Money Market Mutual Fund and STAROhio. Investments are reported at fair value, which is based on quoted market prices, with the exception of

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

certificates of deposit, which are reported at cost. The fair value of the mutual funds is determined by the fund's December 31, 2005, share price. Note 4 provides a detailed disclosure regarding cash, cash equivalents and investments held by the County. STAROhio is an investment pool managed by the State Treasurers Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the Securities and Exchange Commission (SEC) as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on December 31, 2005.

Interest earned on investments is distributed to the General Fund, except as stipulated by the Ohio Constitution or State statute. Interest revenue credited to the General Fund during 2005 amounted to \$4,753,201 which includes \$4,542,965 assigned from other County funds.

Cash and Investments in Segregated Accounts

The County has segregated bank accounts for monies held separate from the County's central bank account. These depository accounts are presented as "Cash and cash equivalents in segregated accounts".

The component unit also maintains separate bank accounts. These bank accounts and investments are represented by "Cash and cash equivalents in segregated accounts".

Statement of Cash Flows

Funds included within the Treasurer's cash management pool and investments in segregated accounts (including restricted trustee and retainage accounts) with original maturities of three months or less when purchased are considered to be cash equivalents.

Cash and Cash Equivalents Held with Fiscal Agents

Certain trust accounts that are held by the County, which include bond accounts and reserve accounts are used to accumulate periodic principal and interest on bonds. These bank accounts are represented by "Cash and cash equivalents with fiscal agents".

Inventories and Prepaid Items

On the government-wide financial statements inventories are presented at the lower of cost or market, on a first-in, first-out (FIFO) basis, and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the enterprise funds are expensed when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items by using the consumption method.

Interfund Transactions

On fund financial statements, receivables and payables arising between funds for goods provided or services rendered, are classified as "due from other funds" or "due to other funds". Long-term interfund loans are classified as "advances to / from other funds" and are equally offset by a fund balance reserve account which indicates that they do not constitute available expendable resources. These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business type activities which are presented as internal balances.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted Assets

Restricted assets consist of certain trust accounts held by the Department of Environmental Services, which includes bond accounts, bond reserve accounts, replacement and improvement accounts and construction accounts. Cash and investments in the accounts are held by trustee financial institutions. The bond accounts are used to accumulate periodic principal and interest payments. The bond reserve accounts are to be funded in an amount equal to the maximum annual bond principal and interest requirement.

Replacement and improvement restricted cash in the sewer and water funds were \$4,000,000 and \$2,000,000 respectively. Monies in these accounts may be used for replacement of or improvements to the water and sewer system.

Capital Assets

Capital assets, which include property, plant equipment and infrastructure assets (e.g. roads, bridges and culverts), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets used by the enterprise funds are also reported in the respective funds. Capital assets are defined by the County as assets with an initial individual cost of more than \$15,000 (amount not rounded) or an estimated useful life in excess of ten or more years. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. For certain assets estimates were calculated by indexing estimated current costs back to the year of acquisition.

The costs of normal maintenance and repairs that do not add to the value of the asset, or do not materially extend the useful life of the asset are not capitalized.

All reported capital assets except for land, construction in process, and infrastructure are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement.

Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u> | <u>Useful Lives</u> |
|------------------------|---------------------|
| Buildings | 30 - 60 years |
| Building Improvements | 10 - 60 years |
| Water and Sewer Mains | 40 years |
| Equipment | 3 - 30 years |
| Vehicles | 5 – 7 years |
| Airport Infrastructure | 30 - 60 years |

Infrastructure assets under GASB Statement No. 34, do not need to be depreciated. The County has chosen to apply the modified approach for reporting infrastructure assets. All infrastructure items including roads, bridges and culverts, are reported. Under the modified approach the County has developed an asset management system that:

- 1. Keeps an up-to-date inventory of eligible infrastructure assets,
- 2. Performs a conditional assessment of those eligible infrastructure assets at least every three years, using a consistent measurement scale, and.
- 3. Estimates each year the annual amount to maintain and preserve those assets at the condition level established and disclosed by the government.

The County documents that the eligible infrastructure assets are being maintained at a level equal to or above the condition level established by the County. Condition appraisals are performed on an annual basis for bridges and a biennial basis for roads and culverts in accordance with the Butler County capital asset policy.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

When using the modified approach, expenditures to extend the life of infrastructure assets are charged to expense, while expenditures that add to or improve infrastructure assets are capitalized.

Compensated Absences

Vacation and compensatory benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate employees for the benefits through time off or some other means. Sick leave benefits are accrued as a liability based on the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent that payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The non-current portion of the liability is not reported in governmental funds. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities and long-term obligations payable from the proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgements, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally due for payment during the current year. Bonds, long-term notes, loans, and capital leases that will be paid from governmental funds are recognized as a liability in the fund financial statements when payment is due.

Fund Balance Reserves

The County reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity that is available for appropriation in future periods.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. Net assets restricted for other purposes include funds for the operation of a school; resident homes for the mentally retarded and developmentally disabled; the medical, financial and social support to general relief recipients; the support and placement of children; and County road and bridge repair/improvement programs.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The County's sewer and water enterprise funds have restricted net assets relative to those resources necessary to comply with various covenants of bond financing agreements.

The government wide statement of net assets reports \$212,832,950 of restricted net assets, of which \$28,406,629 is restricted by enabling legislation.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water distribution, wastewater treatment, parking facility operations and self-insurance programs. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Revenues and expenses that do not meet these criteria are considered non-operating revenues and expenses and are reported as such. All revenues of the Department of Environmental Services are used as security for revenue bonds issued.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, from grants, outside contributions of resources restricted to capital acquisition and construction, and system capacity charges.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Transfers, between governmental funds were eliminated in the statement of activities. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Bond Discounts/Premiums/Gain/Loss on Refunding

Bond discounts and premiums for government wide statements and proprietary fund statements are deferred and amortized over the term of the bonds using the effective interest method. Bond discounts/premiums are presented as a reduction/increase to the face amount of the bonds payable.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgets

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The legal level of control has been established by County Commissioners at the fund, program, department, and object level.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimated Resources

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Commissioners. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources that was in effect at the time the final appropriations were passed by the County Commissioners.

Appropriations

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year including all supplemental appropriations.

Blue Max Settlement

In March 2005, the Butler County Commissioners executed a settlement agreement between the County and Shell Oil Company, Orangeburg Industries, and Utility Service and Supply Inc. This settlement was in connection with a lawsuit captioned "Butler County Commissioners vs Utility Service and Supply, Inc. Etal." in the Butler County Common Pleas Court. Butler County received \$10,400,000 in funds from the various companies listed above. The revenue was deposited into various funds: \$2,080,000 in the general fund, \$7,879,040 in the Water fund, and \$440,960 in the Sewer fund.

BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The Statements of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual (Budget Basis) for the general and major special revenue funds are presented on the budget basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- (b) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- (c) Outstanding year end encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance.
- (d) Principal payments on short-term obligations are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
- (e) Investments are reported at fair value (GAAP basis) rather than cost (budget basis).
- (f) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- (g) Debt proceeds are recorded in the general fund (budget basis) rather than the bond retirement (GAAP basis).
- (h) Payment to Escrow Agent for refunding debt proceeds sent directly to an irrevocable trust.

For The Year Ended December 31, 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Adjustments necessary to convert the results of operations at the end of the year on the budget basis to the GAAP basis are as follows:

NET CHANGE IN FUND BALANCE **GENERAL AND MAJOR SPECIAL REVENUE FUNDS**

| | General | Mental Retardation | Job and Family Services | Children Services Board |
|----------------------|--------------|-----------------------|----------------------------|----------------------------|
| GAAP Basis | \$ (545,030) | \$ 7,109,803 | \$ (1,115,907) | \$ 1,689,221 |
| Adjustments: | | | | |
| Revenue Accruals | (778,699) | 659,209 | 459,546 | (800,858) |
| Expenditure Accruals | 347,493 | (192,664) | 1,436,647 | 33,766 |
| Encumbrances | (416,031) | (818,595) | (1,980,920) | (2,278,812) |

NOTE 3 ACCOUNTABILITY AND ACCOUNTING CHANGES

ACCOUNTABILITY:

The following funds had deficit fund balances as of December 31, 2005:

CAPITAL PROJECTS FUNDS:

| Buildings Construction and Renovations | \$ 3,330,381 |
|-----------------------------------------------|--------------|
| Road Improvement | 1,089,560 |
| Technology | 3,733,894 |

The deficits occurring in the Capital Projects Funds arise from the issuance of short-term bond anticipation notes which are used to finance the projects until bonds are issued. These deficits will be alleviated when the bonds are issued or when the notes are paid.

INTERNAL SERVICE FUNDS:

Workers Compensation \$ 1,570,712 **Employee Health Insurance** 1,351,673

LEGAL COMPLIANCE

Contrary to ORC section 305.10 the Clerk of the Board of County Commissioners did not maintain a full and accurate account of Commissioner meeting minutes.

RESTATEMENT OF FUND EQUITY

The restatement is due to the correction of prior year errors and a change in reporting for the Health Insurance fund from Special Revenue to Internal Service. These adjustments had the following effect on the fund balances of major and non major funds of the County as they were previously reported.

ACCOUNTABILITY AND ACCOUNTING CHANGES (continued)

CHANGES IN ACCOUNTING PRINCIPLES

For 2005, the County has implemented GASB Statement No. 40, "Deposit and Investment Risk Disclosures – an Amendment of GASB Statement No. 3." and GASB Statement No. 42, "Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries".

GASB Statement No. 40 addresses common deposit and investment risk disclosures. The implementation of this statement had no effect on the County's financial statements for 2005.

GASB Statement No. 42 establishes accounting and financial reporting standards for the impairment of capital assets. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. This statement also clarifies and establishes accounting requirements for insurance recoveries. The implementation of this Statement had no effect on the County's financial statements for 2005.

NOTE 4 DEPOSITS AND INVESTMENTS

CASH

Monies held by the County are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demand upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of

DEPOSITS AND INVESTMENTS (continued)

deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificate of deposits not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the County may be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or security issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations;
- 7. The State Treasurer's investment pool (STAROhio); and
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

DEPOSITS

Custodial credit risk for deposits is the risk that in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$169,660,264 of the County's bank balance of \$170,412,809 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the County to a successful claim by the FDIC.

The County has no deposit policy for custodial risk beyond the requirements of State statue. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the County or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

DEPOSITS AND INVESTMENTS (continued)

INVESTMENTS

As of December 31, 2005, the County had the following investments:

Investment Maturities (In Years) Less than 1 3 - 4 \$1,688,712 5,692,688 777,654 3,914,380 16,938,479 8,904,880 1.981.880

Fifth Third Institutional Money Market Mutual Fund \$1,688,712 First American Treasury Money Market Mutual Fund 5,692,688 **STAROhio** 777,654 **Federal Farm Credit Banks Bonds** 3,914,380 **Federal Home Loan Banks Bonds** 27,825,239 **Federal Home Loan Mortgage Corporation Bonds** 22,797,662 18,769,349 43,533,003 1,965,992 **Federal Home Loan Mortgage Corporation Discount Notes** 2,163,840 2,163,840 **Federal National Mortgage Association Bonds** 30,609,139 17,819,105 11,840,974 949,060 **Federal National Mortgage Association Discount Notes** 745,425 745,425 **Total Investments** \$116,950,080 \$68,623,565 \$43,429,583 \$4,896,932

Fair Value

Interest Rate Risk. As a means of limiting the County's exposure to fair value losses caused by rising interest rates, the Treasurer will attempt to maintain adequate liquidity so that current obligations can be met without a sale of securities and maintain diversification of assets and maturities.

Credit Risk. The Fifth Third Institutional Money Market Mutual Funds, First American Treasury Money Market Mutual Funds, Federal Farm Credit Bank Bonds, Federal Home Loan Banks Bonds, Federal Home Loan Mortgage Corporation Bonds, Federal Home Loan Mortgage Discount Notes, Federal National Mortgage Association Bonds, and Federal National Mortgage Association Discount Notes carry a rating of Aaa by Moody's and AAA by Standard and Poor's and Fitch. STAROhio carries a rating of AAAm by Standard and Poor's and Fitch. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service and that the money market funds be rated in the highest category at the time of purchase by at least one nationally recognized standard rating service. The County's investment policy limits investments to those authorized by State statute.

Concentration of Credit Risk. The County places no limit on the amount it may invest in any one issuer. The County's investment in the Federal Home Loan Mortgage Corporation Bonds, Federal National Mortgage Association Bonds and Federal Home Loan Banks Bonds represent thirty seven percent, twenty six percent, and twenty four percent of the County's total investment.

NOTE 5 PROPERTY TAXES

Property taxes include amounts levied against real, public utility, and tangible personal property. assessed value by property classification upon which the 2005 collection year was based is as follows:

| Real Property | \$ 6,362,721,810 |
|----------------------------------|------------------|
| Tangible Personal Property | 744,780,872 |
| Public Utility Personal Property | 251,886,670 |
| Total | \$ 7,359,389,352 |

Ohio law prohibits taxation of property by all overlapping taxing authorities in excess of 10 mills per dollar of assessed value without a vote of the people. Presently, the County levies 1.92 mills of this 10 mill limit. In addition to the 1.92 mills, voted levies in the amount of 7.52 mills have been approved for the Children Services Board, Mental Health Board, Mental Retardation Board, Senior Citizens Services and Miami Conservancy. A summary of voted levies follows:

PROPERTY TAXES (continued)

| | Voter Levy | Authorized | Rate Lev Current | | Final Levy |
|--------------------------|------------|------------|---------------------|------|---------------|
| Purpose | Date | Rate | R/A | C/I | Year |
| Mental Retardation Board | 2004 | 1.00 | 0.93 | 0.98 | Continuing |
| Mental Retardation Board | 2000 | 2.00 | 1.57 | 1.86 | Continuing |
| Mental Health Board | 1994 | 0.50 | 0.23 | 0.29 | 2004 |
| Children Services Board | 2003 | 2.00 | 1.85 | 1.97 | 2008 |
| Miami Conservancy | 1976 | 0.02 | 0.02 | 0.02 | Continuing |
| Senior Citizens | 2004 | 2.00 | 1.87 | 1.97 | 2009 |
| Total | | 7.52 | 6.47 | 7.09 | |

Ohio law provides for a reduction in the rates of voted levies to offset increased values resulting from a reappraisal of real property. Reduction factors are applied to authorized voted levies so that each levy yields the same amount of property taxes as in the year in which the levy was approved.

Increases to voted levy revenues are restricted to assessments for new construction. The reduction factors are computed annually and applied separately for (R/A) residential/agricultural property and (C/I) commercial/industrial property.

Taxes collected on real property (other than public utility) in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of the appraised market value. A general reappraisal is mandated by Ohio law every six years with an update at the three-year midpoint. The most recent revaluation was completed in 2002, with a triennial update completed in 2005. Taxes assessed from the 2005 update are payable in 2006. Real property taxes are payable annually or semiannually. The first payment is due December 31, with the remainder payable June 20, unless extended.

Taxes collected from tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values as of December 31, of that calendar year, and at the tax rates determined in the preceding year. Tangible personal property used in business (except for public utilities) is currently assessed for ad valorem taxation purposes at 25 percent of its true value for capital assets and 23 percent of true value for inventory.

Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30 with the remainder payable by September 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property currently is assessed at 88 percent of its true value. Public utility property taxes are payable on the same date as real property taxes described previously.

The County Treasurer collects property tax on behalf of all taxing districts within the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. Property taxes receivable represent real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2005 and for which there is an enforceable legal claim. In the General, Mental Health, Mental Retardation, Elderly Services and Children Services Funds the entire receivable has been offset by deferred revenue since the current taxes were not levied to finance 2005 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is deferred.

NOTE 6 PERMISSIVE SALES TAX

In 2005, \$19,503,113 of permissive sales tax was received into the General Fund based upon a permanent one-half percent tax on all retail sales made in the County. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. The State Auditor then has five days in which to draw the warrant payable to the County.

In June 2005 the Commissioners passed a resolution increasing the permissive sales tax by one-half percent for the design, engineering, purchase, and installation of a county-wide 800 megahertz public safety radio communications system. This sales tax took effect in October 2005, but no funds were received by the County until January 2006. This tax increase will expire at the end of two years or after the tax generates twenty-five million dollars, whichever comes first.

NOTE 7 RECEIVABLES

Receivables at December 31, 2005, consisted of taxes, unpaid utilities, loans, special assessments, tax incremental financing, interfund receivables, interest and intergovernmental receivables arising from grants, entitlements, and shared revenues. Loans receivable represent general fund advances to agency funds and low-interest loans for development projects and home improvements granted to eligible County residents and businesses under the Federal Community Development Block Grant Program. The Block Grant loans bear interest at annual rates between two and five percent. These loans are to be repaid over periods ranging from two to five years. All receivables are considered collectable in full, including amounts receivable which, if delinquent, may be certified and collected as a special assessment, subject to foreclosure for nonpayment. Special assessments and Tax Incremental Financing receivables expected to be collected in more than one year for the County amount to \$12,211,055. The County had \$95,929 in delinquent Special assessments and Tax Incremental Financing at December 31, 2005.

A summary of intergovernmental receivables follows:

| GOVERNMENTAL ACTIVITIES | Amount |
|----------------------------------------|---------------|
| Indigent Defense Reimbursement | \$ 360,784 |
| Motor Vehicle License Tax | 4,311,695 |
| Local Government | 2,938,747 |

| County Care Facility | 73,727 |
| Job and Family Services | 48,928 |
| Other Human Services | 61,998 |
| Total Depreciation Expense-Governmental Activities | \$ 6,994,605 |

Additions to business-type capital assets being depreciated include \$13,949,389 in assets donated by outside entities, such as property developers.

NOTE 9 RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; damage to, theft of, or destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2005 the County contracted with County Risk Sharing Authority Inc. (CORSA) (a risk sharing pool - see Note 20) for liability, property, and crime damage. Coverage provided by the pool is as follows:

Property

Blanket all risks of direct physical loss or damage \$100,000,000 Annual Aggregate pool limit for flood and earthquake

| <u>Liability</u> | | |
|-----------------------------------------------|----|------------|
| Automobile Liability | \$ | 6,000,000 |
| Uninsured Motorist | | 250,000 |
| General Liability | | 6,000,000 |
| Stop Gap Liability | | 1,000,000 |
| Law Enforcement Liability | | 6,000,000 |
| Errors and Omissions Liability | | 6,000,000 |
| Medical Professional Liability | | 6,000,000 |
| Crime | | |
| Employee Dishonesty/Faithful Performance | | 1,000,000 |
| Money and Securities (inside) | | 1,000,000 |
| Money and Securities (outside) | | 1,000,000 |
| Money Orders and Counterfeit Currency | | 1,000,000 |
| Depositor's Forgery | | 1,000,000 |
| Boiler and Machinery | 1 | 00,000,000 |
| <u>Deductible</u> | | |
| General, Law Enforcement and Public Officials | | 25,000 |
| Each and every loss/claim and/or occurrence | | 5,000 |

Settled claims have not exceeded coverage in any of the last three years. The County has had no reduction in coverage in 2005.

The County has workers' compensation coverage for all employees. The merit-rated premium for workers' compensation for the calendar year 2005 would have been approximately \$1,855,247. Based on that, the minimum premium percentage due would be approximately \$562,264 (21%) with maximum aggregate liability, at the 200% stop-loss level, equal to \$3,710,494. The County's year end liability for unpaid claims costs was \$3,382,385 (based on 12/31/05 MIRA reserves) with approximately \$331,814 payable within one year. The County maintains a retrospective rating plan for workers' compensation insurance. (See Note 2).

The County has a self-insurance internal service fund to account for its workers' compensation self-insured activity. Claims, liabilities and expenses are estimated through a case by case review of all claims. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. The historical changes in claims payable during years December 31, 2004 and 2005 are:

| | | Current Year Claims | | |
|------|----------------|---------------------|-----------------|--------------|
| | Beginning of | And Changes in | Claims | End of Year |
| | Year Liability | Estimates | Payments | Liability |
| 2004 | \$ 3,934,297 | \$ 894,441 | \$ 1,909,422 | \$ 2,919,316 |
| 2005 | 2.919.316 | 901.141 | 438.072 | 3.382.385 |

NOTE 10 CAPITAL LEASES

During 2005 and in prior years, the County has entered into capital leases to finance various county purchases. The leases meet the criteria of a capital lease as defined by Statement of Financial Accounting standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds. These expenditures are reported as program expenditures in the budgetary statements.

General capital assets consisting of buildings, vehicles, software and equipment have been capitalized in the amount of \$3,021,747. This amount represents the present value of the minimum lease payments at the time of acquisition. Principal payments in 2005 totaled \$156,071 in the governmental funds.

| Asset: | Asset Value | Accumulated Depreciation | Net Book Value |
|------------------------------|--------------|--------------------------|----------------|
| Modular Facility | \$ 87,215 | \$ 8,440 | \$ 78,775 |
| Buses | 72,200 | 20,629 | 51,571 |
| Sheriff Vehicles | 1,004,800 | - | 1,004,800 |
| Juvenile Detention Vehicles | 39,162 | - | 39,162 |
| Accela Permitting System | 699,327 | - | 699,327 |
| Computer Server | 35,578 | - | 35,578 |
| Common Pleas Court Reporting | | | |
| System | 35,865 | - | 35,865 |
| Electronic Voting Machines | 1,047,600 | - | 1,047,600 |
| Totals | \$ 3,021,747 | \$ 29,069 | \$ 2,992,678 |

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of December 31, 2005:

| <u>Year</u> | Amount | |
|---------------------------------------------|--------------|--|
| 2006 | \$ 961,301 | |
| 2007 | 962,068 | |
| 2008 | 867,869 | |
| 2009 | 170,619 | |
| 2010 | 85,628 | |
| TOTAL | \$ 3,047,485 | |
| Less Amount Representing Interest | (236,941) | |
| Present Value of Net Minimum Lease Payments | \$ 2,810,544 | |
| | | |

NOTE 11 DEFINED BENEFIT PENSION PLANS

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

The County participates in the Ohio Public Employees Retirement Systems (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 E. Town St., Columbus, OH 43215-4642 or by calling (614) 222-6705 or (800) 222-7377.

For The Year Ended December 31, 2005

DEFINED BENEFIT PENSION PLANS (continued)

For the year ended December 31, 2005, the members of all three plans, except those in law enforcement or public safety participating in the traditional plan, were required to contribute 8.5 percent of their annual covered salaries. Members participating in the traditional plan who were in law enforcement contributed 10.1 percent of their annual covered salary; members in public safety contributed 9 percent. The County's contribution rate for pension benefits for 2005 was 9.55 percent, except for those plan members in law enforcement or public safety. For those classifications, the County's pension contributions were 12.7 percent of covered payroll. The Ohio Revised Code provides statutory authority for member and employer contributions.

The County's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2005, 2004 and 2003 were \$8,161,938, \$8,103,866 and \$6,899,090 respectively; 88 percent has been contributed for 2005 and 100 percent for 2004 and 2003. Contributions to the member-directed plan for 2005 were \$95,495 made by the County and \$87,971 made by the plan members.

STATE TEACHERS RETIREMENT SYSTEM (STRS)

Certified teachers employed by the County for Mental Retardation and Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling (614) 227-4090 or by visiting the STRS Ohio website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the year ended December 31, 2005 plan members were required to contribute 10 percent of their annual covered salaries. The County was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2004, the portion used to fund pension obligations was 13. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

For The Year Ended December 31, 2005

DEFINED BENEFIT PENSION PLANS (continued)

The County's required contributions for pension obligations to the DB Plan for the years ended December 31, 2005, 2004, and 2003 were \$226,214, \$270,491, and \$252,644, respectively; 90.51 percent has been contributed for fiscal year 2005, 100 percent for fiscal years 2004 and 2003. Contributions to the DC and Combined Plans for fiscal year 2005 were \$23,710 made by the County and \$24,319 made by the plan members.

NOTE 12 POSTEMPLOYMENT BENEFITS

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

The Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the traditional or combined plans. Health care coverage for disability recipients and primary survivor recipients is available.

Members of the member-directed plan do not qualify for postretirement health care coverage. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit as described in GASB Statement No. 12. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of postretirement health care based on authority granted by State statute. The 2005 local government employer contribution rate 13.55 percent of covered payroll (16.7 percent for public safety and law enforcement); 4.00 percent of covered payroll was the portion that was used to fund health care.

Benefits are advance-funded using the entry age normal actuarial cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as of December 31, 2004, include a rate of return on investments of 8.00 percent, an annual increase in active employee total payroll of 4.00 percent compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between .50 percent and 6.3 percent based on additional annual pay increases. Health care premiums were assumed to increase at the projected wage inflation rate plus an additional factor ranging from 1.00 to 6.00 percent annually for the next seven years and 4.00 percent annually after seven years.

All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets annually.

The number of active contributing participants in the traditional and combined plans was 376,109. Actual employer contributions for 2005 which were used to fund postemployment benefits were \$3,761,986. The actual contribution and the actuarially required contribution amounts are the same. The actuarially value of OPERS's net assets available for payment of benefits at December 31, 2004, (the latest information available) were \$10.8 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$29.5 billion and \$18.7 billion, respectively.

On September 9, 2004, the OPERS Retirement Board adopted a Health care Preservation Plan (HCPP) with an effective date of January 1, 2007. The HCPP restructures OPERS' health care coverage to improve the financial solvency of the fund in response to increasing health care costs. Member and employer contribution rates increased as of January 1, 2006, which will allow additional funds to be allocated to the health care plan.

STATE TEACHERS RETIREMENT SYSTEM (STRS)

Comprehensive health care benefits are provided to retired teachers and their dependents through the State Teachers Retirement System (STRS Ohio). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Benefits are funded on a pay-as-you-go basis.

For The Year Ended December 31, 2005

POSTEMPLOYMENT BENEFITS (continued)

All Retirees who participated in the DB or Combined Plans and their dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2005, the STRS Ohio allocated employer contributions equal to 1.0 percent of covered payroll to the Health Care Stabilization Fund. For the County, this amount equaled \$17,852 for the fiscal year 2005.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. At June 30, 2005, (the latest information available) the balance in the Fund was \$3.3 billion. For the year ended June 30, 2005, net health care costs paid by STRS were \$254,780,000 and STRS Ohio had 115,395 eligible benefit recipients.

NOTE 13 OTHER EMPLOYEE BENEFITS

COMPENSATED ABSENCES

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Unused vacation time may be accumulated, with the approval of the appointing authority, to a maximum of three one-year accruals. All accumulated, unused compensatory time is paid upon separation. Accumulated, unused sick leave is paid at varying rates depending on length of service to employees who retire.

HEALTH CARE BENEFITS

The County has elected to provide employee medical/surgical benefits through the County Employee Benefits Consortium of Ohio (CEBCO). Dental insurance is provided to all employees as a function of the health care plan through the Metropolitan Insurance Company.

NOTE 14 DEFEASANCE OF REVENUE BONDS

PRIOR YEAR DEFEASANCE OF REVENUE BONDS

Effective November 1, 1989 the County entered into an Escrow Trust Agreement with the First National Bank of Southwestern Ohio. The agreement provided that the County deposit \$1,067,973 from operating revenues into an irrevocable trust with the bank for the payment to final maturity of outstanding revenue bonds from the U.S. Treasury obligations in substitution of the revenues of the waterworks system. The funds deposited, together with interest earned thereon, shall be sufficient to pay annual bond principal and semiannual interest payments, thus providing an in-substance defeasance. The (in-substance) defeasance had occurred for the following waterworks revenue bonds:

| | Original | Unmatured and Unpaid |
|---------------------------------------|------------|----------------------|
| Name of Revenue Bond Issues | Issue | at December 31, 2005 |
| Madison-Wayne Township Sewer | | |
| District-Dated June 1, 1964 | \$ 350,000 | \$ - |
| Greater Eastern Union Township | | |
| Series A-Dated December 1, 1964 | 250,000 | - |
| Eastern Union Township Sewer District | | |
| Dated April 1, 1964 | 900,000 | - |
| Fairfield Liberty Sewer District | | |
| Number 2-Dated April 1, 1968 | 525,000 | 90,000 |

NOTE 15 LONG-TERM OBLIGATIONS

Changes in the County's long-term obligations during the year consist of the following:

GOVERNMENTAL ACTIVITIES

GENERAL OBLIGATION BONDS

| Year | | | Original | Balance | | | Balance | Amount Due |
|-----------------|--------------------------------------------------------------------------|---------------------------------------|--------------|--------------|-----------|----------------|--------------|--------------|

Butler County, Ohio

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2005

LONG-TERM OBLIGATIONS (continued)

GENERAL OBLIGATION BONDS

All general obligation bonded debt issued is a general obligation supported by the full faith and credit of the County. The unvoted general obligation bonds will be retired from the debt service fund using unvoted general property tax revenues. The unvoted general obligation bonds, Sanitary Sewer System and Venice Gardens Sewer, are being paid by an Enterprise fund.

New 2005 \$600,000 Venice Gardens Sewer General Obligation

In August 2005 the County issued a \$600,000 General Obligation bond for the purpose of bonding short-term bond anticipation notes. The bonds were issued for a forty-year period, with final maturity in August 2045. The bonds are subject to optional redemption as a whole at any time or in part, at the option of the County, in inverse order of maturity at the redemption price of one hundred percent of the principal amount redeemed plus accrued interest, to the redemption date.

SALES TAX BONDS

The sales tax bonds are payable through sales tax revenues generated by the County's one-half percent permanent permissive sales tax. These bonds were issued to construct the County's Government Services Center. The County is under no obligation to have such sales tax revenues directly paid to the bond trustees as long as the County finances all principal and interest payments due on the bonds sixty days prior to their payment date. Therefore, all payments made on the sales tax bonds are to be paid using sales tax revenue or any other general revenue source.

New 2005 \$29,365,000 Sales Tax Bonds

In June 2005 the County issued a \$29,365,000 Sales Tax bond for the purpose of advance refunding \$31,185,000 of existing bonds. The bonds were issued for a twelve year period, with final maturity in December 2016. The bonds maturing on or after December 15, 2015 are subject to optional redemption as a whole at any time or in part on any interest payment date the option of the County on or after June 15, 2015 at the redemption price of par plus accrued interest to the redemption date.

The \$29,365,000 portion of the bond proceeds along with existing Butler County funds were used to advanced refund the 1997 Government Services Center General Obligation Bond and the 1997 Sales Tax Revenue Bonds.

The Advance refunding resulted in a difference of \$1,723,080 between the net carrying amount of the debt and the acquisition price. This difference, reported in the accompanying financial statements as a decrease to bonds payable, is being amortized to interest expense over the life of the bonds using the straight-line method. The Counties total debt service payments decreased by \$2,987,250 as a result of the advance refunding. The County also incurred an economic gain (difference between the present values of the old and new debt service payments) of \$1,239,070.

For The Year Ended December 31, 2005

LONG-TERM OBLIGATIONS (continued)

SPECIAL ASSESSMENT BONDS WITH GOVERNMENTAL COMMITMENT

Special assessment debt will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner defaults on an assessment, the County would be responsible for the debt payments. Special assessment bonds are retired from the debt service fund using special assessment revenues.

New 2005 \$600,000 Venice Gardens Sewer Special Assessment Bond

In August 2005 the County Issued a \$1,144,000 special assessment bond for the purpose of bonding short-term bond anticipation notes. The bonds were issued for a forty-year period, with final maturity in August 2045. The bonds are subject to optional redemption as a whole at any time or in part, at the option of the County, in inverse

order of maturity at the redemption price of once hundred percent of the principal amount redeemed plus accrued interest, to the redemption date.

LONG TERM LOANS

New 2005 \$4,634,892 Cincinnati Waterworks Loan

In 2005, Butler County entered into a contractual agreement with the City of Cincinnati to assist in financing the construction of water lines and a master meter that runs from International Boulevard to Mulhauser Road. This expansion will allow Butler County a secondary water source and provide access to water for future development. The project was financed by the City of Cincinnati. Approximately, \$549,623 of water lines will be assets of Butler County, recorded as depreciable capital assets. The remaining assets belong to the City of Cincinnati. The total amount owed to the City of Cincinnati as a result of this project is \$4,634,892. This amount has been recorded on the Counties books as a long-term liability in the Water enterprise fund. A corresponding amount of \$4,085,629 has been recorded as deferred charges in the water enterprise fund. This amount will be amortized over the life of the debt.

OPWC (Ohio Public Works Commission) loans are low interest loans from the State of Ohio for infrastructure Projects and are paid by special assessments levied against the property owners who benefit from the projects.

The Oracle Software loan was issued to purchase additional Oracle software. The County entered into a loan agreement with LaSalle National Bank in 2004. This loan will be repaid with general fund revenues.

REVENUE BONDS

Revenue bonds are supported by user charges and are not backed by the full faith and credit of the County's general fund. These bonds have been issued to pay for Water and Sewer projects.

New 2005 \$19,575,000 Sewer Bond Advance Refunding

In June 2005 the County issued a \$19,575,000 Sewer Revenue bond for the purpose of partially advance refunding \$1,485,000 of existing 1997, \$5,490,000 of existing 1998, and \$12,790,000 of existing 1999 Sewer bonds. The bonds were issued for an eighteen year period, with final maturity in December 2023. The bonds maturing on or after December 1, 2016 are subject to optional redemption as a whole at any time or in part on any interest payment date at the option of the County on or after June 1, 2015, at the redemption price of par, plus accrued interest to the redemption date. Certain bonds maturing between December 1, 2020 and December 1, 2023 are subject to mandatory sinking fund redemption prior to maturity at par plus accrued interest to the date of redemption amount in each following years.

| | Principal Amount Subject |
|-------------|--------------------------|
| <u>Year</u> | to Mandatory Redemption |
| 2020 | \$400,000 |
| 2021 | \$425,000 |
| 2022 | \$440,000 |

For The Year Ended December 31, 2005

LONG-TERM OBLIGATIONS (continued)

The bond proceeds were used to partially advance refund the 1997, 1998, and 1999 Sewer Bond Issue. The Advance refunding resulted in a difference of \$1,723,372 between the net carrying amount of the debt and the acquisition price. This difference, reported in the accompanying financial statements as a decrease to bonds payable, is being amortized to interest expense over the life of the bonds using the straight-line method. The Counties total debt service payments decreased by \$796,468 as a result of the advance refunding. The County also incurred an economic gain (difference between the present values of the old and new debt service payments) of \$651,650.

New 2005 \$13,235,000 Water Bond Advance Refunding

In March 2005 the County issued a \$13,235,000 Water Revenue bond for the purpose of advance refunding \$14,075,000 of existing 1996 Water bonds. The bonds were issued for a seventeen year period, with final maturity in December 2021. The bonds maturing on or after December 1, 2015 are subject to optional redemption as a whole at any time or in part on any interest payment date the option of the County on or after June 1, 2015, at the redemption price of par, plus accrued interest to the redemption date. The bonds maturing on December 1, 2021 shall be subject to mandatory sinking fund redemption. This redemption may occur through the County depositing sufficient funds in the 2005 Bond Account to redeem such 2005 Bonds at a price of par plus accrued interest to the date of redemption and without premium, as set forth below.

| Year | Amount |
|------|--------------|
| 2018 | \$ 1,000,000 |
| 2019 | \$ 1,000,000 |
| 2020 | \$ 1,000,000 |

The \$13,563,964 portion of the bond proceeds along with existing Butler County funds were used to advance refund the 1996 Water Bonds. The Advanced refunding resulted in a difference of \$1,205,554 between the net carrying amount of the debt and the acquisition price. This difference, reported in the accompanying financial statements as a decrease to bonds payable, is being amortized to interest expense over the life of the bonds using the straight-line method. The Counties total debt service payments decreased by \$2,384,270 as a result of the advance refunding. The County also incurred an

economic gain (difference between the present values of the old and new debt service payments) of \$494,795.

New 2005 \$14,850,000 Water Bonds

In June 2005 the County issued a \$14,850,000 Water Revenue bond for the purpose of bonding \$8,400,000 in bond anticipation notes and to issue a new Water bond for \$6,450,000. The bonds were issued for a twenty-year period, with final maturity in December 2025. The bonds maturing on or after December 1, 2016 are subject to optional redemption as a whole at any time or in part on any interest payment date the option of the County on or after December 1, 2015 at the redemption price of par plus accrued interest to the redemption date. The bonds maturing December 1, 2021 are subject to mandatory sinking fund redemption at 100% of the principal amount to

be redeemed plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows.

Year 2020 Principal Amount Subject to Mandatory Redemption \$855,000

WATER JUDGEMENT BONDS

Water judgement bonds are court ordered bonds to settle the water contract dispute between Butler County and the City of Hamilton. The principal and interest are paid from the Water fund.

LONG-TERM OBLIGATIONS (continued)

LONG TERM NOTES

Long Term Bond Anticipation notes were issued to finance various building, road and Water system construction projects within Butler County. These notes were issued with the backing of the full faith and credit of the County's general fund.

OTHER PAYABLES

Capital Leases are for modular office units and buses for the Butler County Care Facility, Police Cruisers for the Sheriffs office, vehicles for Juvenile Detention Center, a County wide permitting system and computer server, a Court reporting system for Common Pleas and electronic voting machines for the board of elections. A contract was entered into with Pac-van for the lease of the modular office, Star Financial for the bus leases, Diebold Global Financial for electronic voting machines, Ford Motor Credit for the vehicles and Lasalle National Leasing Company for the permitting, computer server and court reporting systems. These leases are paid out of the Butler County Care Facility fund and the general fund.

Compensated absences liability will be paid from the General Fund, Mental Retardation, Job and Family Services, Children Services Board, Real Estate Assessment, All Other Legislative and Executive, All Other Judicial, All Other Public Safety, Child Support Enforcement, Motor Vehicle, All Other Public Works, Alcohol and Drug Addiction, Mental Health, All Other Health, County Care, and All Other Human Services special revenue funds, the Technology capital projects fund, the Workers Compensation internal service fund, and the Water, Sewer, and GSC Parking Facility enterprise funds.

The following is a summary of the County's future annual debt service requirements for long-term obligations:

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2005

LONG-TERM OBLIGATIONS (continued)

INDUSTRIAL DEVELOPMENT REVENUE BONDS

The County has issued industrial development revenue bonds (in the aggregate outstanding principal amount of \$14,285,000 at December 31, 2005 for facilities used by private corporations or other entities. The County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they

have been excluded entirely from the County's debt presentation. There has not been and is not any condition of default under the bonds or the related financing documents.

HOSPITAL REVENUE BONDS

The County has served as the issuer of hospital revenue bonds. The proceeds were used to acquire, construct, improve and equip hospital facilities. The hospital revenue bonds do not constitute a general obligation, debt or bonded indebtedness of the County. Neither is the full faith and credit or taxing power of the County pledged to make repayment. The amount of revenue bonds outstanding at December 31, 2005 was \$163,405,000.

CAPITAL FUNDING REVENUE BONDS

In 2005, Butler County issued \$47,325,000 in capital funding revenue bonds. These bonds were issued on behalf of the County Commissioners Association of Ohio for their low cost capital pooled financing program. Butler County is not obligated in any way to pay debt charges on the bonds from any of its funds, and therefore they have been excluded entirely from the County's debt presentation.

LEGAL DEBT MARGIN

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County, less the same exempt debt, shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2005 are an overall debt margin of \$147,104,734 and unvoted debt margin of \$38,213,894.

NOTE 16 SHORT-TERM OBLIGATIONS

A summary of the note and loan transactions for the year ended December 31, 2005 follows:

| | | 3,811,877 | | 358 | | - | | | 3,812,235 |
| Other Governmental | | | | | | | | | |
| _ | | 299,737 | | - | | 381,885 | | 31,372 | 712,994 |
| Total | \$ | 6,005,782 | \$ | 358 | \$ | 1,033,746 | \$ | 31,372 | \$ 7,071,258 |

All balances in the Due From/Due To schedule resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The balance of \$452,402 due to the General Fund for advances to other Governmental Funds results from cash flow issues in those funds.

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payment become due, and use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 18 WATER RATE AGREEMENT

Litigation between the County and the city of Hamilton (the "City") regarding a 1989 water agreement was settled in 2002, whereby the existing water agreement was terminated and replaced with a new water agreement effective for the period July 1, 2002 through December 31, 2021. Under the terms of the agreement, the County agreed to (1) refinance \$35 million of the City's debt related to certain capital improvements made to its water system, and (2) agreed to purchase from the City a minimum water supply of eight million gallons per day through December 31, 2021. In exchange, the City agreed to reduce the rate charged to the County for water from \$3.28 per thousand gallons to a two-tier rate structure based on a Tier A rate of \$2.15 per thousand gallons (adjusted annually using an agreed-upon inflation index) for the first eight million gallons of water purchased daily, and a Tier B rate of \$1.07 per thousand gallons (to remain unchanged through June 30, 2007, when a new Tier B rate may be negotiated or the Tier B rate defaults to a new rate of \$1.55 per thousand gallons) for water purchased above eight million gallons per day.

Several factors emanating from this new water agreement have provided the County with more flexibility in servicing customers as well as the potential to realize significant savings during the life of the agreement. While the County has secured a steady water supply through at least 2021, it now has the ability to build and

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2005

WATER RATE AGREEMENT (continued)

operate its own water plant by 2010, if desired, as well as the ability to consider sources of water other than the city of Hamilton for better water rates over the eight million gallon per day minimum, and to sell water to customers outside the County's water district.

The new agreement has also provided the County with a more favorable rate structure for water purchases. The County recorded an asset in 2002 in the amount of \$34,810,695, as "Deferred Charges for Water Rate Stabilization." This amount represents the purchase of future water rights. In 2005 the County amortized \$1,740,535 using the straight line amortization method, leaving \$29,589,090 in the statement of net assets.

NOTE 19 CONTINGENT LIABILITIES

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their representatives. These audits could lead to a request for reimbursement to the grantor agency for any expenditures disallowed under terms of the grant. Based on prior experience the County believes such disallowances, if any, will be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County the resolution of these matters will not have a material adverse effect on the financial condition of the County.

NOTE 20 JOINT VENTURES/JOINTLY GOVERNED ORGANIZATION/RISK SHARING POOL/RELATED ORGANIZATION

A. BUTLER COUNTY EMERGENCY MANAGEMENT AGENCY

The Butler County Emergency Management Agency is a jointly governed organization among the County, five cities and seven villages created by a countywide agreement with the Butler County Commissioners. The twenty-six members of the advisory council are appointed as follows: one County Commissioner and the chief elected official of each of the thirteen townships, five cities and seven villages. The degree of control exercised by any participating government is limited to its representation on the Board. The Agency does not have any outstanding debt. The County does not have an equity interest in the Agency.

The Agency is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the County. In 2005, the County contributed \$39,310 which represents 18% of total contributions. Ninety percent of the operating revenues are contributed by the Federal government. Complete financial statements can be obtained from the Emergency Management Agency, 315 High St. Hamilton, OH 45011.

B. THE BUTLER COUNTY ALLIANCE

The Butler County Alliance was created by resolution of the County Commissioners and organized as a non-profit corporation under Internal Revenue Code Section 501 C (6).

The Butler County Alliance is a joint venture among the County and investors. The purpose of the organization is to promote Butler County as the premier location to grow or relocate a business in the Cincinnati/Dayton metro areas. Specific activities include; advertising Butler County as a place to locate a business, meeting with site consultants to help companies make decisions as to where to locate manufacturing and office facilities and to educate local elected officials and business leaders on activities or programs that can make Butler County more attractive to business investment. The mission of the Alliance is to provide value-added services above and beyond the efforts of local community resources to encourage new investment, create jobs and expand the tax base in Butler County. The degree of control exercised by any investor is limited to its representation on the board of trustees, which is limited to one person per organization or political subdivision. The Alliance has no debt outstanding and its continued existence is dependent upon the County's continued participation. However, the County does not have any equity interest in the Association.

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2005

JOINT VENTURES/JOINTLY GOVERNED ORGANIZATION/RISK SHARING POOL/RELATED ORGANIZATION (continued)

The Alliance is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the County. In 2005 the County contributed \$75,000 which represents 56% of total contributions. Complete financial statements can be obtained from the Butler County Alliance, 315 High Street, Hamilton, Ohio 45011.

C. TRANSPORTATION IMPROVEMENT DISTRICT OF BUTLER COUNTY

The Transportation Improvement District, a jointly governed organization, provides the opportunity to construct roads, bridges and accompanying improvements within the County. The Transportation Improvement District Board, which consists of representatives from each of the participating governments, including the County, oversees the operation of the District. Complete financial statements can be obtained from the Transportation Improvement District, 315 High St. 6th Floor Hamilton, Ohio 45011.

D. COUNTY RISK SHARING AUTHORITY (CORSA)

The County Risk Sharing Authority (CORSA) is a risk sharing pool made up of fifty-three counties in Ohio. CORSA was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. An elected board of not more than nine trustees manages the affairs of the Corporation. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of

CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County's payment for insurance to CORSA in 2005 was \$672,976.

E. REGIONAL TRANSIT AUTHORITY (RTA)

The Regional Transit Authority (RTA) is a related organization to the County. The County Commissioners are responsible for appointing the trustees of the RTA; however, the County Commissioners cannot influence the RTA's operations, nor does the RTA represent a potential financial benefit or burden to the County. Although the County does serve as the taxing authority and may issue tax related debt on behalf of the RTA, its role is limited to a ministerial function. Once the RTA determines to present a levy to the voters, including the determination of the rate and duration, the County must place the levy on the ballet. The RTA may issue debt and determine its own budget. Financial information for the RTA may be obtained at 3045 Moser Ct. Hamilton, OH 45011.

NOTE 21 RELATED PARTY TRANSACTION

Miami Valley Industries, Inc. (the Workshop, a discretely presented component unit of Butler County), received contributions from the County for facilities, certain equipment, transportation and salaries for administration, implementation and supervision of its programs. In 2005, these contributions were \$805,747.

NOTE 22 CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

The County has several outstanding contracts for construction and professional services. The following amounts remain on these contracts as of December 31, 2005.

Outstanding

| | Outstanding | | | |

NOTE 23 SUBSEQUENT EVENTS

DEBT RELATED ACTIVITY

In March 2006, the County renewed a variety of bond anticipation notes that were rolled over in their entirety as follows:

| Children Services Board Expansion | \$ 1,975,000 |
|-----------------------------------|--------------|
| Juvenile Detention Center | 1,365,000 |
| Computer Hardware/Software | 2,110,000 |
| Computer Hardware/Software | 510,000 |
| Computer Hardware/Software | 1,010,000 |
| Symmes Road Extension | 2,090,000 |
| Total Proceeds | \$ 9,060,000 |

For The Year Ended December 31, 2005

SUBSEQUENT EVENTS (continued)

In June 2006, the County renewed the following bond anticipation notes that were rolled in their entirety:

| Butler County Airport | \$ 2,150,000 |
|-----------------------|--------------|
| County Metro Parks | 1,870,000 |
| County Metro Parks | 2,840,000 |
| Building Repair | 340,000 |
| University Pointe | 335,000 |
| Liberty Interchange | 510,000 |
| Total Proceeds | \$ 8,045,000 |

Additional funding was secured in June 2006, to coincide with the renewal of the above issues. The new bond anticipation note issued included the following:

| Yankee Rd Construction & Improvement | \$ <u>1,850,000</u> |
|--------------------------------------|---------------------|
| Total New Issues | \$ <u>1,850,000</u> |
| Total Proceeds – June Issue | \$ 9,895,000 |

NOTE 24 MIAMI VALLEY INDUSTRIES, INC.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Nature of Operations Miami Valley Industries, Inc. (the Organization) was incorporated as a not-for-profit organization under the laws of the State of Ohio. The Organization provides services to individuals with disabilities living in Southwestern Ohio. The Organization considers the Butler County Board of MR/DD a primary partner in providing services to individuals with mental retardation and developmental disabilities in Butler County.
- B. Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of the revenues, expenses, gains, losses and other changes in net assets during the reporting period. Actual results could differ from those estimates.
- C. Cash Equivalents The Organization considers all highly liquid investments, if any, with original maturities of three months or less to be cash equivalents.
- D. Investments and Investment Return Investments consist of mutual funds and are carried at fair value. Investment return includes dividend, interest and realized and unrealized gains and losses on investments carried at fair value.
- E. Accounts Receivable Accounts receivable are stated at the amount billed to customers. Accounts receivable are ordinarily due 30 days after the issuance of the invoice. Accounts past due more than 60 days are considered delinquent. Delinquent receivables are written off based on individual credit evaluation and specific circumstances of the customer. Management believes that all amounts reported as accounts receivable at year end are collectible. As such, an allowance for doubtful accounts has not been recorded at year end.
- F. Property and Equipment Property and equipment are recorded at cost and depreciated on a straightline basis over the estimated useful life of each asset.
- G. Deferred Program Revenue Deferred program revenue is recognized into income as program expenses are incurred.
- H. Deferred Rent Revenue Income from rental activities is deferred and recognized over the period to which the rent relates.

For The Year Ended December 31, 2005

MIAMI VALLEY INDUSTRIES, INC. (continued)

- I. Income Taxes Miami Valley Industries, Inc. is a non-profit corporation and is exempt from Federal Income taxes under Section 501 (c) (3) of the Internal Revenue Code. Miami Valley Industries, Inc. is subject to federal income tax on any unrelated business taxable income.
- J. Expense Allocation Expenses have been classified as either program costs or selling and administrative based on the actual direct expenditures and cost allocations based upon estimates of time spent by Organization personnel.

PROPERTY AND EQUIPMENT

A summary of Miami Valley Industries property and equipment for the year ended June 30, 2005 follows:

| Land | • | 422.000 |
|-------------------------------|----|-----------|
| | \$ | 122,000 |
| Buildings and Improvements | | 944,900 |
| Furnishings and Equipment | | 414,415 |
| Computer Equipment | | 243,452 |
| Autos and Trucks | | 83,505 |
| Subtotal | \$ | 1,808,272 |
| Less accumulated depreciation | | (947,474) |
| Total | \$ | 860.798 |

The Ohio Department of Transportation holds the title to vans used by Butler County Board of MR/DD (BCBMR/DD). Miami Valley Industries was reimbursed for the cost of these vans by BCBMR/DD and the vans are used exclusively by BCBMR/DD. The title passes to Miami Valley Industries after five years and 120,000 miles. These vans are not capitalized on the books of Miami Valley Industries. The estimated value of the vans at the time of transfer is considered to be negligible.

DEBT

A summary of Miami Valley Industries notes payable and long-term debt consisted of the following at June 30, 2005:

| Revolving line of credit, up to \$100,000. Bank advances on the credit line are |
|---------------------------------------------------------------------------------|
| payable on demand and carry an interest rate based on prime rate. The credit |
| line is secured by substantially all corporate assets. |

\$ 100.000

Note payable to bank – Interest at 6.5% payable in monthly installments of \$4,939 with a balloon payment due upon maturity in November 2007. Secured by substantially all assets of Miami Valley Industries.

348,064

Note payable to bank – Interest at 5.75% payable in monthly installments of \$346 through February 2009. Secured by related truck.

13,437 \$ 361,501

Aggregate annual maturities of notes payable at June 30, 2005 follows:

| 2006 | \$ 41,134 |
|------|---------------|
| 2007 | 43,869 |
| 2008 | 274,050 |
| 2009 | 2,448 |
| 2010 | - |
| | \$ 361,501 |

Total interest expense for the year ended June 30, 2005 was \$26,426.

Notes to the Basic Financial Statements (continued)

For The Year Ended December 31, 2005

COMPONENT SUBSEQUENT EVENTS

On September 30, 2005, Miami Valley Industries contracted to buy a building and a parcel of land for approximately \$800,000. Miami Valley Industries plans on relocating their operations to this facility in 2006. This acquisition was financed by an \$800,000 note. Under the terms of the note, principal and interest are payable monthly with the first payment of \$5,225 due on November 1, 2005. Interest on the note is calculated at an annual rate of 6.14% for the first five years of the note. Beginning in October 2010, and for every five year period through the maturity date of October 1, 2030, interest will be recalculated at the lower of the five year treasury index plus 2.75% or 8.14%. The recalculated rate will be in effect for the entire five year period.

On September 2, 2005, Miami Valley Industries refinanced their existing bank note with a \$500,000 bank note. The note calls for monthly principal and interest payments of \$3,802 based on an initial five year fixed rate of 6.75%. The effective interest rate on the note is adjusted and fixed for each five year period through the maturity of the note on September 1, 2025 by taking the five-year Federal Reserve average constant maturities index plus 3% at the beginning of each five year period.

On August 9, 2005, Miami Valley Industries opened a new revolving line of credit with First Financial Bank. Under the agreement, Miami Valley Industries may borrow up to \$300,000 with interest payable monthly at an annual rate of 6.75%. Principal and any accrued interest are payable in full on August 10, 2006.

Effective July 1, 2005, Miami Valley Industries merged with RADD II, an Ohio nonprofit organization which provides residential housing to the mentally disabled. Under the terms of the agreement Miami Valley Industries will be the surviving corporation.

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2005

Butler County reports its infrastructure assets using the modified approach as outlined in Governmental Accounting Standards Board (GASB) Statement No. 34. The following disclosures pertain to the conditional assessment and budgeted versus actual expenditures for the preservation of these assets. Data for the conditional assessment is presented in each of the following three sections for 2005, 2004, and 2003.

County Roads

The condition of road pavement is evaluated and measured using a physical condition rating system. This approach assigns a numerical rating to each road, or section thereof, based on the following criteria: age of pavement, date of last surface maintenance, traffic flow and volume, traffic type and availability of funds. The physical condition rating is determined by a committee of experts from the County Engineer's Office based on the criteria below:

| Pavement Rating | Condition Rating | Description |
|-----------------|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Excellent | Pavements not in need of maintenance. New condition. Typically pavements 1-4 years old fall into this category. Older pavements with lower traffic counts and low truck traffic also fall into this category. |
| 2 | Good | Pavement in need of minor maintenance to restore to Excellent condition. Typically pavements 5-8 years old with high traffic counts or a large percentage of truck traffic. |
| 3 | Fair | Pavement in need of major maintenance to restore to Excellent condition. Typically pavements are 9-12 years old. |
| 4 | Poor | Pavement in need of major repair or heavy overlays to bring to Excellent condition. Pavements over 12 years old, or with high traffic volume and/or high truck traffic could be rated 4. |

It is the County policy that at least 80% of the roadways will have a rating of 3 (Fair) or higher. The County Engineer's Office has implemented a system whereby the total mileage of the roadway in the County will be repaved on a 12-year rotational basis. Historical data has shown that with yearly inspection and maintenance, the average road of the County will be maintained at a usable level for a 12-year period. Each roadway in the County will be assessed on a biennial basis, with higher emphasis on older and more heavily used pavements.

The following summarizes the physical condition assessment of county roads as of December 31 for 2005, 2004, and 2003:

| | 20 | 05 | 20 | 04 | 2003 | | |
|----------------|-----------------------|----|------------|------------|-------------------|------------|--|
| Road Condition | Road Miles % of Total | | Road Miles | % of Total | Road Miles | % of Total | |
| Fair or Better | 253 93% | | 238 87% | | 227 | 83% | |
| Less than Fair | 20 7% | | 35 | 13% | 46 | 17% | |
| Total | 273 100% | | 273 | 273 100% | | 100% | |

The following is a comparison of county budgeted and actual expenditures for preservation of the existing roadways:

| Year | Budgeted Expenditures | Actual Expenditures | Difference |
|------|------------------------------|---------------------|------------|
| 2005 | \$ 2,949,348 | \$ 2,769,401 | \$ 179,946 |
| 2004 | 2,321,751 | 2,219,402 | 102,349 |
| 2003 | 3,048,992 | 2,129,994 | 918,998 |
| 2002 | 9,207,636 | 5,800,104 | 3,407,532 |
| 2001 | 3,466,030 | 593,334 | 2,872,696 |

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2005

County Bridges

The condition of the County's bridges is determined using a general appraisal and operational status rating which is a conditional coding system developed by the Federal Highway Administration. This system is comprised of ratings for the individual elements of the structure. The primary elements of this appraisal system include the following:

- bridge decks (riding surface, roadway approaches, end joints, curbing and sidewalks)
- superstructures (side rails, above-road piers and overhead truss)
- substructures (undercarriage, piers, footings, abutments and erosion protection)

The Federal Highway Administration has defined specific criteria for each element of the bridge, based on its construction. For each element, a 1-9 rating scale is used, where 4 or less is defined as "poor" condition. The ratings of all elements are combined to summarize the structural condition of a bridge as follows:

| Bridge Rating | Condition Rating | Description |
|------------------|---------------------|-------------------------------------------------------------------------|
| 9 | Excellent | Superior to present desirable criteria. |
| 8 | Very Good | Equal to present desirable criteria. |
| 7 | Good | Better than present minimum criteria. |
| 6 | Satisfactory | Equal to present minimum criteria. |
| 5 | Fair | Better than minimum adequacy to tolerate being left in place as is. |
| 4 | Poor | Meets minimum tolerable condition requiring high priority to repair. |
| 3 | Serious | Basically intolerable condition requiring high priority to repair. |
| 2 | Critical | Basically intolerable condition requiring high priority of replacement. |
| | Imminent | |
| 1 | Failure | Immediate repair necessary to put back into service. |
| 0 | Closed | Bridge closed. |

It is the County policy to maintain the bridge system in the County where 85% of the structures have a general appraisal summary of 5 (Fair) condition or higher. The following is a summary of the conditional assessment for bridges as of December 31 for 2005, 2004, and 2003:

| | 20 | 05 | 20 | 04 | 2003 | | |
|-------------------------|--------------------|-----|-----------|------------|-----------|------------|--|
| | Number of | | Number of | | Number of | | |
| Bridge Condition | Bridges % of Total | | Bridges | % of Total | Bridges | % of Total | |
| Fair or Better | 338 | 91% | 340 | 92% | 329 89% | | |
| Less than Fair | 33 | 9% | 31 | 8% | 41 | 11% | |
| Total | 371 100% | | 371 | 100% | 370 | 100% | |

The following is a comparison of county budgeted and actual expenditures for preservation of the existing bridges:

| Year | Budgeted Expenditures | Actual Expenditures | Difference |
|------|-----------------------|---------------------|------------|
| 2005 | \$ 1,810,823 | \$ 1,496,159 | \$ 314,663 |
| 2004 | 2,383,037 | 2,297,516 | 85,520 |
| 2003 | 3,674,302 | 2,667,956 | 1,006,346 |
| 2002 | 3,365,739 | 2,776,965 | 588,774 |
| 2001 | 4,361,594 | 2,186,918 | 2,174,676 |

Butler County, Ohio Required Supplementary Information Condition Assessment of the County's Infrastructure Reported Using the Modified Approach as Outlined in GASB 34 For The Year Ended December 31, 2005

County Culverts

The Butler County Engineer maintains a culvert inventory system. All culverts are inspected on a biennial basis with any critical structure being inspected as needed, as per the Engineer's internal policy. A committee of experts from the County Engineer's Office determines the condition rating, and a general appraisal of the condition is categorized as follows:

| Culvert Rating | Condition Rating | Description |
|-------------------|---------------------|------------------------------------------------------------------------|
| 1 | Good | No repair required. |
| 2 | Fair | Minor deficiency, culvert still functioning as designed. |
| | | Major deficiency, culvert in need of repair to continue functioning as |
| 3 | Poor | designed. |
| 4 | Critical | Culvert no longer functioning as designed. |

It is the goal of the Butler County Engineer to maintain 75% of culverts in a condition of 2-Fair or better. The following is a summary of the conditional assessment for culverts as of December 31 for 2005, 2004, and 2003:

| | 20 | 05 | 20 | 04 | 2003 | | |
|--------------------------|---------------------|-----|-----------|------------|-----------|------------|--|
| | Number of | | Number of | | Number of | | |
| Culvert Condition | Culverts % of Total | | Culverts | % of Total | Culverts | % of Total | |
| Fair or Better | 817 | 80% | 805 | 805 79% | | 78% | |
| Less than Fair | 202 | 20% | 214 | 21% | 232 | 22% | |
| Total | 1019 100% | | 1019 | 100% | 1056 100% | | |

The following is a comparison of county budgeted and actual expenditures for preservation of the existing culverts:

| Year | Budgeted Expenditures | Actual Expenditures | Difference | | | | |
|------|-----------------------|---------------------|------------|--|--|--|--|
| 2005 | \$ 1,297,972 | \$ 1,297,636 | \$ 336 | | | | |
| 2004 | 896,500 | 887,587 | 8,913 | | | | |
| 2003 | 100,000 | 78,272 | 21,728 | | | | |
| 2002 | 100,000 | 99,056 | 944 | | | | |
| 2001 | 310,017 | 298,770 | 11,247 | | | | |

(This Page Intentionally Left Blank)

Combining Statements and Individual Fund Schedules

Combining Statements – Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than capital projects) that are legally restricted to expenditure for specified purposes. The following are descriptions of each nonmajor special revenue fund:

Real Estate Assessment – To account for state mandated county-wide real estate reappraisals that are funded by charges to the County's political subdivisions.

All Other Legislative and Executive – To account for all other Legislative and Executive activities not presented on an individual basis.

All Other Judicial – To account for all other Judicial activities not presented on an individual basis.

All Other Public Safety – To account for all other Public Safety activities not presented on an individual basis.

Child Support Enforcement – To account for the poundage fee collected by the Bureau of Child Support that are restricted by State statute to finance the operation of the Child Support Enforcement Agency.

Motor Vehicle – To account for the revenue derived from motor vehicle licenses and gasoline taxes. Expenditures in this special revenue fund are restricted by State law to County roads and bridge repair/improvement programs.

All Other Public Works – To account for all other Public Works activities not presented on an individual basis.

Alcohol and Drug Addiction – To account for Federal and State grants that are used to pay the cost of contracts with local agencies that provide services to the public.

Mental Health – To account for a county-wide property tax levy and Federal and State grants that are used to pay the cost of contracts with local mental health agencies that provide services to the public.

All Other Health – To account for all other Health activities no presented on an individual basis.

County Care Facility – To account for the collection of medicaid and fees from residents' families for the operations of the County Home.

Nonmajor Special Revenue Funds (continued)

Elderly Services Levy – To account for a county-wide property tax and the expenditure of those funds.

All Other Human Services – To account for all other Human Service activities not presented on an individual basis.

Nonmajor Capital Projects Funds

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the Propietary funds). The following are descriptions of each nonmajor capital projects fund:

Stormwater Management Study – This fund is used account for the State mandated study of stormwater runoff.

Technology - To account for the financing and related cost

Other Capital Improvements – To account for all other capital improvements not presented on an individual basis.

INTERNAL SERVICE FUNDS

The Internal Service Funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the County, or to other governmental units, on a cost-reimbursement basis. The following are descriptions of each Internal Service Fund:

Worker's Compensation – To account for funds received from governmental and proprietary funds and regional governmental agencies to pay for the actual expense of workers' compensation benefits.

Employee Health Insurance – To account for prior year advances received from governmental and proprietary funds and regional governmental agencies to process outstanding 2003 claims payable liabilities.

Health Insurance – To account for monies received from governmental and business type funds and regional governmental agencies to pay for the actual expense of medical, dental and life insurance costs for employees.

AGENCY FUNDS

Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results and operations. The following are the County's agency funds:

Undivided Tax - Accounts for various agency funds used for collection and distribution of taxes by the County.

All Other Agency – All other Agency account for various individual agency funds combined for reporting purposes.

STATISTICAL SECTION

Consumer Services and Deputy Registrar

These divisions provide a variety of services to consumers including ensuring that measuring devices such as gas pumps, utility meters, and cash registers are calibrated; issuing licenses for vendors, cigarette sales, and dogs; and issuing drivers licenses and license plates.

Roy Hatfield and Rob Gibson test a gas pump to ensure that it is accurately calibrated, a valuable service in light of recent gas prices.

Matt Williams (right) issues a new vendor license to an applicant.

Sherri Vandale takes a picture for a customer's drivers license.

Karen Hoit assists a customer at the Hamilton West License Bureau.

Information Services

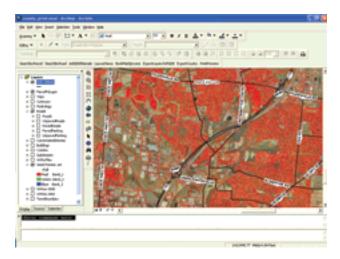

The Information Services division maintains the computer and networking systems in the County that provide the lifeblood to many departments and taxpayers. These systems include the Geographic Information System (GIS) which contains layers of geographic images, the fiber-optic network that links the infrastructure between all County buildings, and a wide array of systems tailored to the needs of each department as well as the County's websites, providing taxpayers with valuable information.

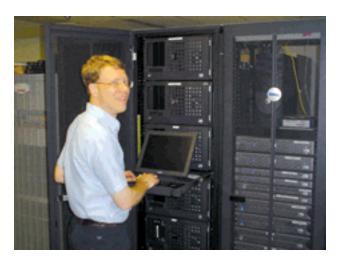

Greg Sullivan (right), the Director of Information Services, and Bob Goettelman (left), the director of Consumer Services, meet to discuss the assessment system.

Andy Steed works diligently at installing software for the fiscal services division.

The Information Services division maintains many systems to provide taxpayers with very useful information as well as provide each department with systems that support their business processes. Pictured above is the Geographic Information System which contains tax plat maps, engineering drawings, and topographical imagery into selectable layers for the entire County.

Mike Felerski reviews system performance of one of the County's servers, ensuring a good response time to system users.

STATISTICAL TABLES

The following unaudited statistical tables reflect social and economic data, financial trends and fiscal capacity of the County.

(1) Property tax rates are determined by a combination of the county-wide tax rate and the applicable tax rates for the school district, township, municipality or other districts in which a given property is located.

(2) Fairfield Township dissolved and became the City of Indian Springs in 1994.

(3) Union Township dissolved and became West Chester Township in 2000. (4) Monroe local school district was combined with Middletown City school district from 1994 to 2000. In 2001 City of Monroe schools changed from Middletown City School District to Monroe Local

(5) The City of Indian Springs dissolved and reverted to Fairfield Township in 1997.

School District.
