Independent Auditor's Report

Board of Trustees
Earnhart Hill Regional Water and Sewer District
2030 Stoneridge Drive
Circleville, Ohio 43113

We have audited the accompanying financial statements of the business-type activities of Earnhart Hill Regional Water and Sewer District (the District), Pickaway County, as of and for the years ended December 31, 2005 and 2004, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

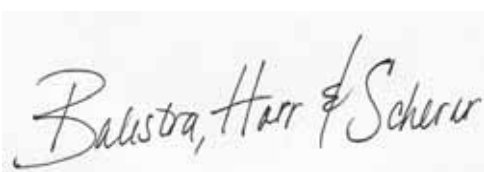

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the District, as of December 31, 2005 and 2004, and the respective changes in financial position and cash flows, thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 28, 2006, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Independent Auditor's Report

The Management's Discussion and Analysis on pages 3 through 6 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

As described in Note 5, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosure* and GASB Technical Bulletin No. 2004-2, *Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employees*.

Management's Discussion and Analysis

For the Years Ended December 31, 2005 and 2004

This discussion and analysis, along with the accompanying financial report, of Earnhart Hill Regional Water and Sewer District (EHRWSD or "the District") is designed to provide our customers, creditors and other interested parties with a general overview of the District and its financial activities.

FINANCIAL HIGHLIGHTS

The total assets of EHRWSD exceeded liabilities on December 31, 2005 and 2004 by \$7.9 million and \$6.5 million, respectively. The District's net assets increased by \$1.4 million (21.7%) in 2005 and \$400 thousand (6.5%) in 2004.

The District's Operating Revenues increased by \$98 thousand (5.4%) in 2005 and \$232 thousand (14.8%) in 2004. Operating and Maintenance Expenses increased \$125 thousand (8.3%) in 2005 and \$286 thousand (23.5%) in 2004.

The District issued no additional long term debt in 2005 or 2004.

OVERVIEW OF BASIC FINANCIAL STATEMENTS

The District is a single enterprise fund using proprietary fund accounting, similar to private sector business. The Basic Financial Statements are presented using the accrual basis of accounting.

The **Statement of Net Assets** includes all of the District's Assets and Liabilities. These statements provide information about the nature and amounts of investments in resources (assets) owned by the District, and obligations owed by the District (liabilities) on December 31. The District's net assets (equity) are the difference between assets and liabilities.

The **Statements of Revenues, Expenses and Changes in Net Assets** provide information on the District's operations over the past two years and the success of recovering all its costs through service charges, capacity charges and tap fees, and other income. Revenues are reported when earned and expenses are reported when incurred.

The **Statements of Cash Flows** provide information about the District's cash receipts and cash disbursements. It summarizes the net changes in cash resulting from operating, investing and financing activities.

NET ASSETS

Table 1 summarizes the Net Assets of the District. Capital Assets are reported less accumulated depreciation. "Invested in Capital, Net of Debt", are Capital Assets less outstanding debt that was used to acquire those assets.

TABLE 1

Total Net Assets	\$7,877,436	\$6,473,479	\$1,403,957	\$6,073,735	\$399,744

The District's Net Assets increased \$1.4 million (21.7%) in 2005 and \$0.4 million (6.6%) in 2004. These increases were a result of excess revenues over expenses and due to additional capital contributions.

Restricted net assets increased \$19 thousand (8.2%) in 2005 and \$24 thousand (11.6%) in 2004. Restricted assets are cash that is limited in use as part of the District's loan covenants.

Earnhart Hill Regional Water and Sewer District

Management's Discussion and Analysis

For the Years Ended December 31, 2005 and 2004

Unrestricted assets increased by \$134 thousand (12.9%) in 2005 and \$158 thousand (18.0%) in 2004. Unrestricted assets may be used without constraints established by loan covenants or other legal requirements. Cash and Cash Equivalents increased \$175 thousand in 2005 and \$57 thousand in 2004.

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS

Table 2 below summarizes the changes in Revenues and Expenses and the resulting change in Net Assets.

Net Assets at End of Year	\$7,877,436	\$6,473,479	\$1,403,957	\$6,073,735	\$399,744

Operating Revenues increased \$98 thousand (5.4%) in 2005 and \$232 thousand (14.8%) in 2004. Increased Revenues in 2005 and 2004 were a result of customer growth. Capital Contributions will fluctuate from year to year depending on construction activity, and improvement projects that may qualify for special assessment and/or grant monies. In 2003 the District received \$1.074 million in USDA grant monies and \$126 thousand in 2004, while in 2005 the District received \$0. The District recorded \$1.163 million in developer contributions in 2005 in comparison to \$197 thousand in 2004 and \$0 in 2003. This variance is related to the Casto Development (Wal-Mart).

In 2005, Operation and Maintenance expenses, excluding depreciation, increased \$108 thousand (10.2%). \$20 thousand in additional wages operation related to temporary employment and overtime, basic wage increases, \$22 thousand increase in distribution repairs, \$16 thousand increase in employee health care costs, \$8 thousand increase in chemical costs and \$5 thousand in fuel costs and accounted for much of the increase.

In 2004, Operation and Maintenance expenses, excluding depreciation, increased \$286 thousand (23.5%). \$28 thousand in additional staffing related to the Phase IV Project, basic wage increases, \$22 thousand increase in purchased power, \$11 thousand increase in insurance costs and \$10 thousand increase in employee health care costs accounted for much of the increase.

Earnhart Hill Regional Water and Sewer District

Notes to the Financial Statements

For the Years Ended December 31, 2005 and 2004

NOTE 1 - NATURE OF ORGANIZATION AND REPORTING ENTITY

Earnhart Hill Regional Water and Sewer District (the District) was founded for the purpose of providing water and wastewater services to those areas in south central Ohio not served by other water companies. As of February 1, 1997, the previous company (Earnhart Hill Water District, Inc.) was declared by the Court to be a duly organized regional water and sewer district, a political subdivision of the state of Ohio organized pursuant to Chapter 6119 of the Ohio Revised Code. The Court approved the Plan to the Operation of the District which provided that the District would accept a transfer of the assets, and assume all of the liabilities of the Company as a part of its organization.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For Earnhart Hill Regional Water and Sewer District, there are no other boards and agencies other than the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations for which the District approves the budget, the issuance of debt or levying of taxes. The District has no component units.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed in the preparation of these financial statements conform to generally accepted accounting principles for local governmental units as prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. Under the guidelines of GASB Statement No. 20, the District has elected not to apply Financial Accounting Standards Board Statements and Interpretations issued after November 30, 1989 to its proprietary activities. A summary of the significant accounting policies consistently applied in preparation of the accompanying financial statements is as follows:

1. **Basis of Presentation - Fund Accounting**

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The District has created a single type of fund and a single fund within that fund type. The fund is accounted for by a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenses.

This fund accounts for the governmental resources allocated to it for the purpose of carrying on specific activities in accordance with laws, regulations or other restrictions.

The fund type that the District uses is described below:

Proprietary Fund Type - This fund type accounts for operations that are organized to be self-supporting through user charges. The fund included in this category used by the District is the Enterprise Fund.

Enterprise Fund - This fund is established to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

2. **Basis of Accounting**

The accounting records are maintained on the accrual basis of accounting for financial reporting purposes.

Notes to the Financial Statements
For the Years Ended December 31, 2005 and 2004

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

3. **Budgetary Process**

The Ohio Revised Code requires that each fund be budgeted annually. The District has adopted a budget and adopted and passed annual appropriations for the years ended December 31, 2005 and 2004.

Appropriations - Budgetary expenditures (that is, disbursements and encumbrances) may not exceed appropriations at the fund level of control, and appropriations may not exceed estimated resources. The District must annually approve appropriation measures and subsequent amendments. Appropriations lapse at year-end.

Estimated Resources - Estimated resources include estimates of cash to be received (budgeted receipts) plus unencumbered cash as of January 1.

Encumbrances - The Ohio Revised Code requires the District to reserve (encumber) appropriations when commitments are made.

4. **Revenue Recognition**

Revenues for service fees are recorded in the period the service is provided. Revenue for tap fees are recorded when the taps have been installed and the customer is using the service. All other revenue is recognized when earned.

5. **Accounts Receivable**

Accounts receivable are presented at their net realizable value. Uncollectible account balances are certified to the County Auditor after administrative collection efforts have been exhausted.

6. **Restricted Assets**

As explained in Note 3, a restricted account was established for the required reserve for the Rural Development Loans and is recorded as a restricted asset in the accompanying financial statements.

7. **Capital Assets**

Capital Assets are presented at cost and are depreciated over the estimated useful lives of the assets from 5 to 50 years, depending upon the type of asset.

Depreciation is computed using the straight-line method for financial reporting purposes. Repairs and maintenance costs are charged to operations when incurred. Improvements and additions are capitalized.

8. **Cash and Cash Equivalents**

For purposes of the statement of cash flows, the District does not have any investments; so all cash balances are included in the statement of cash flows.

9. **Interest Expense**

Interest expense represents the interest portion of loan payments to the United States Department of Agriculture, Rural Development, as well as amounts paid and accrued for the loans obtained through The Savings Bank of Circleville, Ohio.

10. **Interest Income**

Interest income represents earnings from all of the District's bank accounts.

11. **Inventory of Supplies**

Inventories are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The costs of inventory items are recorded as expenses or capitalized when used.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

12. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond December 31, 2005 and 2004, are recorded as prepaid items by using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which services are consumed.

13. Compensated Absences

The District uses the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The amount of vacation leave liability was insignificant as of December 31, 2005 and 2004 and is not recorded in the accompanying basic financial statements. Sick leave benefits are not accrued as a liability as employees receive no payment for accrued sick leave upon termination or retirement.

14. Intergovernmental Payable

The District bills and collects sewer fees and penalties for Scippo Sewer District, Circleville Sewer and Pickaway County Sewer. Intergovernmental payable represents those amounts collected on behalf of those districts but not yet paid as of December 31, 2005.

15. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted for debt service reserves as required by the Rural Development Loan requirements. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTE 3 - CURRENT AND LONG-TERM DEBT

Current and long-term debt at December 31, 2005 are as follows:

The debt listed with the United States Department of Agriculture – Rural Development is water system revenue bonds. The District is required to maintain a cash balance reserve to meet revenue bond requirements. This cash balance is reported as a restricted asset in the accompanying financial statements. The debt listed above with the Savings Bank is a long-term loan. Principal and interest payments for Rural Development debt are due on the 1st day of each month. Principal and interest payments for Savings Bank are due on the 20th day of each month. Interest is calculated at the rates reflected above and payable for the terms described above. Future principal and interest payments on all debt are as follows:

NOTED 4 - DEPOSITS WITH FINANCIAL INSTITUTIONS – LEGAL REQUIREMENTS

Active deposits are public deposits necessary to meet current demands on the Treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Trustees has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Notes to the Financial Statements

For the Years Ended December 31, 2005 and 2004

NOTE 4 - DEPOSITS WITH FINANCIAL INSTITUTIONS – LEGAL REQUIREMENTS – Continued

Interim deposits represent interim monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts. Interim monies can be deposited or invested in the following securities:

1. Notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) of this footnote and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time.
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian. The District held no investments during fiscal years 2005 and 2004.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution. For deposits, custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. The carrying amounts of the District's deposits were \$1,232,706 and \$1,058,164 as of December 31, 2005 and 2004, respectively. The District's bank balances were \$1,271,478 and \$1,232,446 as of December 31, 2005 and 2004, respectively. Of the bank balances for each of the fiscal years ended, \$200,000 were covered by federal depository insurance. The remaining amounts were collateralized by specific investments held by a third party trustee in the name of the District and therefore, not subject to custodial credit risk.

NOTE 5 - CHANGE IN ACCOUNTING PRINCIPLES

For fiscal year 2005, the District has implemented Governmental Accounting Standards Board (GASB) Statement GASB Statement No. 40, "Deposit and Investment Risk Disclosures", and GASB Technical Bulletin No. 2004-2, "Recognition of Pension and Other Post-employment Benefit Expenditures/Expenses and Liability by Cost-Sharing Employers." GASB 40 establishes and modifies disclosure requirements related to investment risks: credit risk (including custodial credit risk and concentrations of credit risk) and interest rate risk. This statement also establishes and modifies disclosure requirements for custodial credit risks on deposits. This statement applies to all state and local governments. The implementation had no effect on the District's financial statements. GASB Technical Bulletin No. 2004-2 addresses the amount that should be recognized as an expenditure/expense and as a liability each period by employers participating in a cost sharing multiple-employer pension and other post-employment benefit (OPEB) plans. The implementation of GASB Technical Bulletin No. 2004-2 did not have any effect on the District's financial statements.

NOTE 7 - DEFINED BENEFIT RETIREMENT PLAN

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans as described below:

1. The Traditional Pension Plan (TP) – a cost-sharing multiple-employer defined benefit pension plan.
2. The Member-Directed Plan (MD) – a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings thereon.
3. The Combined Plan (CO) – a cost-sharing multiple-employer defined benefit pension plan. Under the Combined Plan employer contributions are invested by OPERS to provide a formula retirement benefit similar in nature to the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, and survivor benefits as well as postretirement health care coverage to qualifying members of both the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code.

The Ohio Public Employees Retirement System issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-6701 or 1-800-222-7377.

The Ohio Revised Code provides statutory authority for employee and employer contributions. For 2005, member and employer contribution rates were consistent across all three plans. Separate divisions for law enforcement and public safety exist only within the Traditional Pension Plan.

The 2005 member contribution rates were 8.5% for the District.

The 2005 employer contribution rate for the District was 13.55% of covered payroll.

The District's contributions to OPERS for the years ended December 31, 2005, 2004, and 2003, were \$112,962, \$104,095 and \$94,626, respectively. These contributions were equal to the required contributions for fiscal years 2005, 2004 and 2003. The unpaid amount of \$8,816 for the year ended December 31, 2005 was reported as a liability as of December 31, 2005.

NOTE 8 - POSTEMPLOYMENT BENEFITS

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan (TP) – a cost-sharing multiple-employer defined benefit pension plan; the Member-Directed Plan (MD) – a defined contribution plan; and the Combined Plan (CO) – a cost-sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS provides retirement, disability, and survivor benefits as well as postretirement health care coverage to qualifying members of both the Traditional and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post employment health care coverage.

NOTE 8 - POSTEMPLOYMENT BENEFITS - Continued

In order to qualify for post-retirement health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS is considered to be an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 12.

A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care. The Ohio Revised Code provides statutory authority for employer contributions. For local government employer units, the rate was 13.55% of covered payroll for both fiscal years 2005 and 2004; 4.0% was used to fund health care for the years 2005 and 2004.

B. The Ohio Revised Code provides the statutory authority requiring public employers to fund postretirement health care through their contributions to OPERS.

Summary of Assumptions:

Actuarial Review - The assumptions and calculations below were based on OPERS' latest Actuarial Reviews performed as of December 31, 2004.

Funding Method – An entry age normal actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of unfunded actuarial accrued liability.

Assets Valuation Method – All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach assets are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets annually.

Investment Return – The investment assumption rate for 2004 was 8.00%.

Active Employee Total Payroll – An annual increase of 4.0%, compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. Additionally, annual pay increases, over and above the 4.0% base increase, were assumed to range from .50% to 6.30%.

Health Care – Health care cost were assumed to increase at the projected wage inflation rate plus an additional factor ranging from 1% to 6% for the next 8 years. In subsequent years (9 and beyond) health care costs were assumed to increase at 4% (the projected wage inflation rate).

OPEBs are advance-funded on an actuarially determined basis. The following disclosures are required:

1. The number of active contributing participants in the Traditional Pension and Combined Plans totaled 376,109 for 2005 and 355,287 for 2004.
2. The employer contributions that were used to fund post employment benefits were \$33,347 for 2005 and \$30,729 for 2004.
3. \$10.8 billion represents the actuarial value of OPERS' net assets available for OPEBs at December 31, 2004.
4. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$29.5 billion and \$18.7 billion, respectively.

OPERS Retirement Board adopts a Health Care Preservation Plan.

NOTE 8 - POSTEMPLOYMENT BENEFITS - Continued

On September 9, 2005 the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. The HCPP restructures OPERS' health care coverage to improve the financial solvency of the fund in response to skyrocketing health care costs.

Under HCPP, retirees eligible for health care coverage will receive a graded monthly allocation based on their years of service at retirement. The Plan incorporates a cafeteria approach, offering a broad range of health care options that allow benefit recipients to use their monthly allocation to purchase health care coverage customized to meet their individual needs. If the monthly allocation exceeds the cost of the options selected, the excess is deposited into a Retiree Medical Account that can be used to fund future health care expenses.

NOTE 9 - ACCOUNTS RECEIVABLE

Following are accounts receivable balances presented by aging classifications as of December 31, 2005 and 2004:

	2005	2004
Current receivables (0-30 days)	\$203,672	\$176,838
Delinquent receivables (31-60 days)	21,628	25,632
Delinquent receivables (over 60 days)	56,096	38,696
Total accounts receivables	\$281,396	\$241,166

As of December 31, 2005 and 2004, the District also had miscellaneous receivables totaling \$1,973 and \$60,608, respectively.

NOTE 10 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of or damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based On an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Board of Trustees
Earnhart Hill Regional Water and Sewer District
2030 Stoneridge Drive
Circleville, Ohio 43113

We have audited the accompanying financial statements of the business-type activities of Earnhart Hill Regional Water and Sewer District (the District), Pickaway County, as of and for the year ended December 31, 2005 and 2004, which collectively comprise the District's basic financial statements as listed in the table of contents, and have issued our report thereon dated April 28, 2006, in which we indicated the District implemented Governmental Accounting Standards Board Statement No. 40 and GASB Technical Bulletin No. 2004-2. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

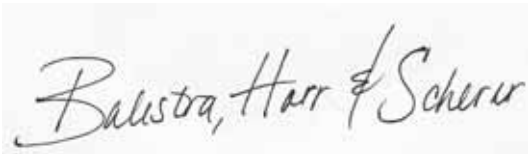

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulation, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.
