# EASTWOOD LOCAL SCHOOL DISTRICT

# **Audit Report**

For the Year Ended June 30, 2005

CHARLES E. HARRIS & ASSOCIATES, INC.

Certified Public Accountants and Government Consultants

Board of Education Eastwood Local School District 4800 Sugar Ridge Road Pemberville, Ohio 43450

We have reviewed the *Report of Independent Accountants* of the Eastwood Local School District, Wood County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2004 through June 30, 2005. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Eastwood Local School District is responsible for compliance with these laws and regulations.

# OPINION ON SUPPLEMENTARY SCHEDULE OF FEDERAL AWARDS EXPENDITURES

Board of Education Eastwood Local School District Pemberville, Ohio

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Eastwood Local School District (the District) as of and for the year ended June 30, 2005, and have issued our report thereon dated February 28, 2006. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits conducted in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was performed for the purpose of forming an opinion on the financial statements of the Eastwood Local School District taken as a whole. The accompanying Schedule of Federal Awards Expenditures is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget, Circular A-133, Audit of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

Charles E. Harris & Associates, Inc. February 28, 2006

See accompanying Notes to the Schedule of Federal Awards Expenditures

# EASTWOOD LOCAL SCHOOL DISTRICT Notes to the Schedule of Federal Awards Expenditures For the Year Ended June 30, 2005

#### 1. Significant Accounting Policies

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting. Consequently, certain revenues are recognized when received rather than when earned and certain expenditures are recognized when paid rather than the obligation is incurred.

#### 2. Food Distribution

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the schedule at fair market value of the commodities received and disbursed. Monies are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2005, the District had food commodities in inventory recorded in the Food Service Fund.

### 3. <u>Matching Requirements</u>

Certain federal programs require that the District contribute non-federal funds (matching funds) to support the federally-funded programs. The expenditure of non-federal funds is not included on this schedule.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Eastwood Local School District Pemberville, Ohio

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Eastwood Local School District (the District) as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 28, 2006, wherein we noted the District implemented GASB Technical Bulletin No. 2004-2 and GASB Statement No. 40. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Controls Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However we noted certain immaterial instances of noncompliance that we have reported to management in a separate letter dated February 28, 2006.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

However, we noted several immaterial instances of noncompliance that we have reported to the management of the District in a separate letter dated February 28, 2006.

This report is intended for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Charles E. Harris & Associates, Inc. February 28, 2006

# REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education Eastwood Local School District Pemberville, Ohio

#### **Compliance**

We have audited the compliance of the Eastwood Local School District (the District) with the types of compliance requirements described in *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended June 30, 2005. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2005.

#### **Internal Control Over Compliance**

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants, caused by error or fraud, that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

February 28, 2006

Board of Education Members Eastwood Local School District

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Eastwood Local School District for the fiscal year ended June 30, 2005. This CAFR includes an opinion from Charles E. Harris and Associates, Inc. and conforms to generally accepted accounting principles as applicable to government entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District. This report will provide the taxpayers of the Eastwood Local School District with comprehensive financial data in a format, which will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to officials of the Villages of Luckey and Pemberville and Townships of Freedom, Troy, Center, Webster, Perrysburg, Montgomery, and Middleton the Pemberville Public Library, major taxpayers, financial rating services and other interested parties.

State law requires the School District's financial statements to be subjected to a biennial examination by the Auditor of State of Ohio (Auditor) or an independent auditor contracted by the Auditor unless an annual Single Audit is required. In addition, the law requires the School District to prepare and file, within 150 days following the close of their fiscal period, a financial statement prepared in accordance with generally accepted accounting principles (GAAP) with the Auditor. The financial statements, at a minimum, should be the basic financial statements of the School District and include the notes to those statements. Although not required by law, management of the School District has decided to prepare this CAFR. A further discussion of the audit can be found later in this letter.

The Comprehensive Annual Financial Report is presented in three sections as follows:

- 1. The Introductory Section, which is unaudited, contains this Letter of Transmittal, the Officials Roster, the Organizational Chart of the School District and the Government Finance Officers' Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for fiscal year 2004.
- 2. The Financial Section which begins with the Report of Independent Accountants and includes the Basic Financial Statements and Notes that provide an overview of the School District's financial position and operating results, the Combining Statements by Fund Type, and other schedules that provide detailed information relative to the Basic Financial Statements.

3. The Statistical Section, which presents social and economic data, financial trends and fiscal capacity of the School District.

#### **The School District**

Eastwood Local School District is located in northwestern Ohio, approximately 29 miles south of Toledo. The School District includes the Villages of Luckey and Pemberville and Townships of Freedom, Troy, Center, Webster, Perrysburg, Montgomery, and Middleton.

Eastwood is one of nine school districts located in Wood County. Approximately 9,213 people live in Eastwood School District, while over 100,000 reside in surrounding Wood County. When Eastwood was established as a rural community, the pioneers, who mainly came from Germany, modeled their new existence after their heritage. The settlers showed the importance they attached to common school education from which they had received so much benefit. They implemented voluntary associations for district schools wherever a sufficient number of youths and children could be gathered. Classes were held in homes, and schoolhouses were built before any legal organizations were affected. The townships were geographically scattered, and because travel was restrictive, the pioneers created several small primary grade schools in each township and village for the local students. In 1959, Eastwood High School was built in the center of the School District and the townships sent their children to this institution for secondary education. At the same time the townships merged their grade schools to become what is currently the Eastwood Local School District.

The four grade schools are: Webster, which was built in 1921; Luckey, which was built in 1925; Lemoyne, which was built in 1926; and Pemberville, which was built in 1939. Over ten years later in 1970, the School District opened a new middle school. The School District also owns a building named Union, built in 1955, that houses the Special Education Regional Resource Center (SERRC). The School District's newest building, built in 1994, is shared by the School District's administration and the repair and maintenance department for the School District's vehicles.

Eastwood School District is one of the 612 school districts in the State of Ohio. The School District provides education to 1,922 students in grade K-12, including special education services to 230 students.

Statutorily, the School District operates under the standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide education services mandated by the State and Federal agencies.

### The Reporting Entity and Services Provided

The Eastwood Local School District has reviewed its reporting entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No.14, "The Financial Reporting Entity." In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Eastwood Local School District (the primary government) and its potential component units.

Excluded from the reporting entity because they are fiscally independent of the School District are the Villages of Luckey and Pemberville and Townships of Freedom, Troy, Center, Webster, Perrysburg, Montgomery, and Middleton, the Parent Teacher Organizations and the nonpublic schools.

The School District participates in two jointly governed organizations and one insurance purchasing pool. These organizations are the NOECA Computer Association, the Penta County Joint Vocational School and the Sheakley (OASBO) Worker's Compensation Group Rating Program. These organizations are presented in Notes 14 and 15 to the basic financial statements.

A complete discussion of the School District's reporting entity is provided in Note 1 to the basic financial statements.

#### **Economic Condition and Outlook**

The School District is located near the intersections of Sugar Ridge and Luckey Road about 29 miles south of Toledo. The School District is home to many young families with incomes and housing values that are above state and county averages. Residential property is middle class, and properties are well kept. The Eastwood area also encompasses a diverse and growing mix of commercial and light industrial properties. Major employers include Principle Enterprises, Modine Manufacturing & Hirzel Canning.

The School District is very fortunate in that the tax base continues to grow as more and more land is developed for housing and business. The School District anticipates the assessed valuations to increase every year. For calendar year 2005, the School District's assessed valuation was \$182,921,837 and for calendar year 2004 it was \$181,616,917.

Contrary to popular belief, the School District does not benefit financially in comparison to the percentage increases to assessed valuation from year to year. Rather, the School District benefits significantly less due to House Bill 920, which was passed in 1976. House Bill 920 prohibits school districts from realizing additional revenue from previously voted millage due to reappraisal of existing property values. Thus, a district must obtain approval of voters for additional revenue through tax levies. Fortunately for the Eastwood Local School District, voters approved a 4.8 emergency operating levy. This was evident in November of 2001, as voters approved a 5-year operating levy of 8.9 mills. In addition, voters in the School District have approved continuing tax levies of 14.4 mills, 6.5 mills, and 6.0 mills in 1977, 1979, and 1997, respectively.

Of the School District's general fund operations, 32.1 percent of the general fund revenue comes from real estate taxes on residential, commercial and industrial properties and tangible personal property taxpayers with 59.7 percent being received from various forms of State aid including reimbursement of homestead and rollback reductions on property taxes. Investment earnings are 1.1 percent and other revenues are 7.1 percent.

The School District maintains a strategic fiscal plan, which incorporates the State required five-year plan. The current long-term fiscal plan reflects a negative cash balance during the 2008 fiscal year. The School District has a long history of local support. Continued voter support, and a healthy tax base are crucial to the long-term financial health of the School District.

### **Major Initiatives**

The Eastwood Local District is excited about the future. Voters approved a 4.8 mill emergency operating levy in August of 2005. With the success of this issue, the School District will be able to accomplish a number of initiatives in the area of curriculum development, programming, and student services. Our Strategic Planning was initiated in September 1992 and is continually being updated every few years. In recent years we have expanded to incorporate strategic planning to the building level.

During the planning stages for the Strategic Plan, major efforts were geared toward developing, improving, and refining educational services to improve students' academic success.

### Specifically:

- Fiscal Responsibility
- Passing Levies
- Troy Energy Donation Allocation of Funds
- Preventive Maintenance Schedules
- Inventory Maintenance Controls
- Development of Transportation Plans
- Long Range Facilities Needs
- Marketing to Business Sector
- Improve Web Sites
- Internal and External Communications
- Result Driven Student School Performance
- Quality Monitoring Program Student Performance thru Data Analysis Staff Training
- Improve Computer Software and Hardware Skills
- Improving Gifted/Talented Programs
- State Proficiencies
- Extended School Day Intervention Short Term Reading
- Scheduling Options for Student Achievements

### Outlook for the Future

For the future, the School District's overall focus will be to continue to improve the educational program for the benefit of students, parents and community residents. The process involves assessing current programs, identifying strengths and weaknesses, developing and implementing new courses of action, and evaluating the results.

Guiding the way will be the School District's Strategic Plan. Initially developed in 1989 with input from more than 200 people, including parents, volunteers, students, school administrators, teachers, classified staff members, representatives from business, industry and the community at large, the plan provides the framework to move the School District into the 21<sup>st</sup> century. Many of the initiatives for this school year are outgrowths of our Strategic Plan. Specific initiatives for 2004-05 were as follows:

• To continue to improve student achievement, including raising proficient scores at all levels – elementary, middle school, and high school.

- To continue to focus on issues related to student behavior, high expectations, a positive school climate, and a productive learning environment.
- To continue to integrate the use of technology into the instructional setting, grades pre-K through 12.
- To develop and implement an aggressive plan to unite our communities in support of our mission and strategic plan.
- To continue to foster a positive working relationship among the certified, classified, and administrative teams, so as to maintain a productive working environment.
- To continue efforts to improve the parent involvement and partnerships throughout the School District.
- To plan for our facilities for the future in our community.

## Service Efforts

Preparing students to be responsible adults is an important tenet of the School District's mission to prepare students to be good citizens. Students are encouraged to work collaboratively with their communities in a variety of ways. For example, students sponsor food and clothing drives for needy families, perform musical selections for residents of local nursing homes, and create artwork to brighten the rooms of residents at a local hospice. Other examples of students' community service efforts during the last school year are as follows:

- Eagle Card recognizing Senior Citizens
- Community Blood Drive
- Angel Tree
- Students involved in grounds clean-up
- Veterans Day Activities
- United Way fundraising drive
- Hunger Task Force
- Senior Citizen Luncheon
- Holiday projects for needy all schools
- Grant School Resources Officer

#### **Financial Information**

### Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Reports of the School District's proprietary operations are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system for payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by either the Superintendent or Assistant Superintendent and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date.

Each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the various funds utilized by Eastwood Local Schools are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

#### **Financial Condition**

This is the third year the School District had prepared financial statements following GASB Statement 34 "Basic Financial Statements – and Management's Discussion and Analysis – for Sate and Local Governments." GASB 34 creates new basic financial statements for reporting on the School District's financial activities as follows:

Government-wide financial statements These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements include only governmental activities. The School District has no business-type activities.

Fund financial statements These statements present information for individual major funds than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliations to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

**Statements of budgetary comparisons** These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by the law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Discussion and Analysis of the School District. The discussion follows this letter of transmittal, providing an assessment of the School District's finances for 2005. Because that discussion focuses on major funds, other nonmajor funds are discussed briefly in this letter,

### Financial Highlights - Internal Service Fund

The only internal service fund carried on the financial records is related to field trips and miscellaneous rotary fund. This fund accounts for the revenues and expenses related to the school trips for educational purpose to the School District students. The internal service fund had net assets of \$13,743 at June 30, 2005 compared with net assets of \$12,386 at June 30, 2004, reflecting a net gain of \$1,357.

#### Financial Highlights – Fiduciary Funds

The agency funds on the financial records of the School District are related to the SERCC Center and Student Activities. The SERCC Fund deals with education of school personnel on special education issues that has assets totaling \$559,174 at June 30, 2005. The Student Activities Fund is set up to provide additional reading materials to the various schools libraries in the School District and has net assets totaling \$44,818 at June 30, 2005.

### **Cash Management**

The Board has established a cash management program that expedites the collection of local and state funds through electronic fund transfer and daily deposits. Funds deposited in local financial institutions are insured by the Federal Deposit Insurance Corporation as well as collateralized by investments in instruments issued by the United States Government or the State of Ohio. The total amount of interest earned for the year ended June 30, 2005 was \$127,029 which was credited directly to the general fund.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC) as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. The market value of the pooled collateral must be equal to at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

#### **Risk Management**

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program.

The School District maintains general liability insurance, professional liability insurance, fleet insurance, and insurance on buildings and contents with Westfield Companies and Indiana Insurance Company.

#### **Pension Plans**

All School District employees are covered by the statewide School Employees Retirement System of Ohio (SERS) or the State Teachers Retirement System (STRS) with the exception of Board of Education members who have chosen to participate in Social Security. The School District's employer contributions to both systems are based on a percentage of employees' salaries. State law requires the School District to pay the employer share as determined by each retirement system. See Note 9 to the basic financial statements for complete details.

### **Independent Audit**

State statutes require the School District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. Independent auditor Charles E. Harris & Associates, Inc. was selected to render an opinion on the School District's financial statements for the year ended June 30, 2005. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1981 fiscal year.

#### **Awards**

#### Student Awards

Eastwood Local School District is proud of its students for their accomplishments. In past years, some of our outstanding achievements included:

- Annually handing out Scholarships in excess of millions
- Eastwood Education Foundation
- Franklin B. Walter Award
- Monthly Board Commendations
- Drug Abuse Prevention Calendar
- Recognized as "Effective" school district by the State of Ohio

### GFOA Certificate of Achievement

The Government Finance Officers' Association of the United States and Canada (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to the School District for its fiscal year ended June 30, 2004 CAFR. The Certificate of Achievement is a prestigious national award-recognizing conformance with the highest standards for the preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such a CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR, conforms to the Certificate of Achievement program requirements and we are submitting it to GFOA.

#### Acknowledgements

The publication of this report continues the School District's commitment to professionalism in financial reporting. The accomplishment of this report would not have been made possible without the assistance, support and efforts of the School District's administration, John Phillips, Managing Partner, and Zoltan Szucs, Staff Auditor. They provided quality assistance in a most professional manner. Assistance from the Wood County Auditor's Office staff, specifically Irma L. Wolf, made possible the fair presentation of the statistical data.

Finally, sincere appreciation is extended to the Board of Education for their support for this project.

Respectfully submitted,

Said R. Michel

#### REPORT OF INDEPENDENT ACCOUNTANTS

Board of Education Eastwood Local School District Pemberville, Ohio

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Eastwood Local School District (the District), as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis on pages 3 through 13 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Eastwood Local School District Report of Independent Accountants Page – 2 –

In accordance with *Government Auditing Standards*, we have also issued a report dated February 28, 2006 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grants agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance that report describes the scope of our testing of internal control over financial reporting and compliance and results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in assessing the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express not opinion on them.

Charles E. Harris & Associates, Inc. February 28, 2006

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

The discussion and analysis of Eastwood Local School District's (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2005. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

#### **Financial Highlights**

- For governmental activities, net assets decreased by \$291,575, which represents over an 8.3 percent decrease from 2004 adjusted balance.
- General revenues accounted for \$12.9 million in revenue or 87.5 percent of all governmental revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$1.8 million or 12.5 percent of total governmental revenues of \$14.8 million.
- The School District had \$15 million in expenses related to governmental activities; only \$1.8 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$12.5 million were inadequate to provide for these programs, resulting in a decrease in net assets.
- Among major funds, the general fund had \$12.3 million in revenues and \$13 million in expenditures. The general fund's fund balance decreased \$749,895 from \$2.55 million.

#### **Overview of the Financial Statements**

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide reader with a broad overview of the District's finances, in a manner similar to a private-sector business.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

The *statement of net assets* presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned by unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include instruction, support services, operation of non-instructional services, and extracurricular activities. The District has no business-type activities

The government-wide financial statements can be found on pages 14-15 of this report.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The District, like the state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains thirty-three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the government fund statement of revenues, expenditures, and changes in fund balances for the general fund, which is considered to be the major fund. Data from the other thirty-two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The fund financial statements can be found on pages 16-20 of this report.

Proprietary Funds The District maintains one type of proprietary fund, the internal service fund. The internal service fund is an accounting device used to accumulate and allocate costs internally amount the District's various functions. The District uses its internal service fund to account for its field trips and other various purposes. Because this service predominantly benefits governmental rather than business-type functions, they have been included within governmental activities in the government-wide statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The proprietary fund financial statements can be found on pages 21-23 of this report.

Fiduciary Funds Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of these funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for the proprietary funds.

The fiduciary fund financial statements can be found on page 24 of this report.

*Notes to the Financial Statements.* The notes provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 25-49 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents the combining statements. The combining statements referred to earlier in connection with non-major governmental funds is presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on page 53-106 of this report.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

#### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$3.2 million at the close of the most recent fiscal year.

The bulk of the District's net assets (\$.90 million) reflect its unrestricted net assets. The District uses these unrestricted net assets to meet ongoing obligations to the residents and creditors. Invested in capital assets (e.g., land, building, machinery and furniture, vehicles) reflect \$1.23 million. The District uses these capital assets to provide services to residents; consequently, these assets are not available for future spending.

An additional portion of the District's net assets (\$1.07 million) represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the District is able to report positive balances in all categories of net assets.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

# Eastwood Local School District's Net Assets (in millions)

	G	Governmental Activities			
			Restated		
		2005	2	2004	
Assets:					
Current and Other Assets	\$	8.38	\$	9.56	
Capital Assets		5.30		5.05	
Total Assets		13.68		14.61	
Liabilities:					
Current Liabilities		5.94		6.20	
Long-term Liabilities		4.54		4.92	
Total Liabilities		10.48		11.12	
Net Assets:					
Invested in Capital Assets		1.23		0.72	
Restricted		1.07		0.55	
Unrestricted		0.90		2.22	
Total Net Assets	\$	3.20	\$	3.49	

The District's assets decreased by \$.93 million during the current fiscal year.

Net assets decreased by \$.29 million, which is mainly attributed to an increase in non-capital expenses and a decrease in revenues as compared to the previous year. Key elements of this decrease are as follows:

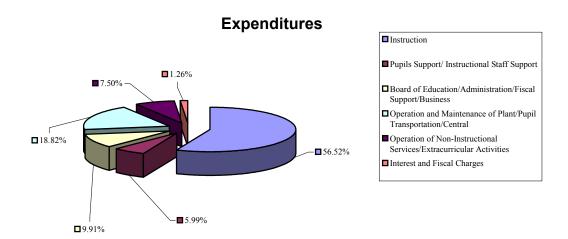

- Property taxes decreased by \$619,116 (11 percent) during the year.
- Operating grants for governmental activities decreased by \$195,977, mostly as a result of a decrease funding in state and federal programs during the current fiscal year.
- Charges for Services increased by \$478,555, which is mainly due to the reclassification of Enterprise Fund activity to the governmental activities.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

For the most part, the increase in expenses closely paralleled inflation and growth in the demand for services. The expenses increased by \$911,046 in comparison to the prior fiscal year, mostly due to the reclassification of enterprise fund activity to the governmental activities.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus, school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to voters to maintain a constant level of service. Property taxes made up 32 percent of revenue for governmental activities for Eastwood Local School District in fiscal year 2005, a slight decrease from prior years.

#### **Financial Analysis of the Governmental Funds**

Governmental Funds. Information about the District's governmental funds starts on page 16. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$14.7 million and expenditures of \$15.5 million. The total governmental fund balance decreased \$0.80 million. The net change in governmental fund balance for the year was most significant in the general fund, where the fund balance decreased \$749,895 for fiscal year 2005.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved fund balance of the general fund was \$.33 million, while total fund balance decreased to \$1.8 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total expenditures. Unreserved fund balance represents 2.12 percent of total general fund expenditures, while total fund balance represents 14.04 percent of that same amount. The key factor in this decrease of fund balance for the general fund is a decrease of property taxes by \$0.8 million.

#### General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2005 the District amended its general fund budget numerous times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

For the general fund, budget basis revenue was \$13.4 million, over the original budget estimate of \$12.7 million. Of this \$.7 million difference, intergovernmental revenue was approximately \$.6 million over original estimates. The intergovernmental revenue line item fluctuates year to year and is budgeted on a conservative basis to avoid revenue overestimations.

The difference between the original budget appropriations and the final amended budget appropriations of the general fund were approximately \$2.7 million. Most of the increase occurred in instruction, which amounted to \$1.2 million.

Actual revenue fell short of the final estimate by nearly a million dollars and as a result of this, expenditures were carefully monitored and actual expenditures came under budget by \$2.5 million.

#### Capital Assets and Debt Administration

Capital Assets. The District's investment in capital assets for its governmental activities as of June 30, 2005, amount to \$5.31 million (net of accumulated depreciation). This investment in capital assets includes land, improvements, buildings, equipment, furniture and vehicles. The total increase in the District's investment in capital assets for the current fiscal year was 4.99 percent.

# Eastwood Local School District's Capital Assets (Net of Depreciation)

	Governmental Activities				
	Restar				
	2005	2004			
Land and Improvements	\$ 261,067	\$ 261,067			
Buildings and Improvements	4,986,015	4,714,011			
Vehicles	58,378	78,233			
Total Capital Assets, Net	\$5,305,460	\$ 5,053,311			

There was no major activity related to capital assets during the current year. Additional information on the District's capital assets can be found in note 7 of the basic financial statements.

**Debt.** Currently, the District has \$4,074,692 of bonds payable at June 30, 2005. For additional detail, see Note 12.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

#### **Current Financial Related Activities**

Eastwood Local School District is strong financially. As the preceding information shows, the District heavily depends on its property taxpayers. With the passage of a 4.78 mill operating levy and collection beginning January 2003 the District has been able to continue its education programs. However, financially the future is not without challenges.

While the District was successful in increasing its tax revenue base in 2000, this increase is a one-time increase. State law fixes the amount of this increase, forcing it to remain nearly constant. Thus, management must diligently plan expenses, staying carefully within the District's five-year forecast.

Declining state foundation payments due to increased property valuations provide no significant increase in future revenues. This decline is due to the increasing valuation charge-offs in determining state foundation payments. The increases in property tax revenues are almost offset to decreases in state foundation payments. With its major sources of revenue not keeping pace with expenditure increases, the District must seek additional tax revenues to continue current operations. However, the District cannot look to the State of Ohio for increased revenue.

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding plan is unconstitutional. The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school-funding scheme that it thorough and efficient...". The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations. Virtually, no additional state revenue will be available to Eastwood Local School District. Thus, both taxes and state revenue are fixed or declining.

The scenario requires management to plan carefully and prudently to provide the resources to meet student needs over the next several years.

Eastwood Local School District has committed itself to financial excellence for many years. The District received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for the year ending June 30, 2004. This report represents the third report using the new financial reporting model required by Governmental Accounting Standards Board Statement Number 34.

In addition, the District's system of budgeting and internal controls is well regarded. All of the District's financial abilities will be needed to meet the challenges of the future.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2005 Unaudited

#### **Contacting the District's Financial Management**

This financial report is designed to provide our citizen's, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Dave Michel, Treasurer at Eastwood Local School District, 4800 Sugar Ridge Street, Pemberville, Ohio 43450.

#### NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Eastwood Local School District (the "School District") is organized under Article VI, Section 2 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines.

The School District was established through the consolidation of existing land areas and school districts. The School District serves an area of approximately 27 square miles. It is located in Wood County, and includes the territories of the Villages of Pemberville and Luckey and the Townships of Freedom, Troy, Webster, Middleton, and Perrysburg. It is staffed by 91 non-certificated employees and 99 certificated full-time teaching personnel who provide services to 1,922 students and other community members. The School District currently operates 6 instructional buildings, 1 administrative building, and a garage.

#### Reporting Entity:

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the Eastwood Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization, or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent of the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. Based on the above description, there are no component units within the School District.

The School District is associated with two organizations which are defined as jointly governed organizations and an insurance purchasing pool. These organizations are the Northern Ohio Educational Computer Association, the Penta County Vocational School, and the Ohio School Boards Association Worker's Compensation Group Rating Plan. These organizations are presented in Notes 14 and 15 to the basic financial statements.

The following activities are included within the reporting entity as an agency fund:

<u>Special Education Regional Resource Center (SERRC)</u> - a separate body corporate and politic within the School District's boundaries. The federal Department of Education provides funding to the SERRC, which is received and disbursed through the School District's financial records, at the direction of the SERRC.

25 (Continued)

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Eastwood Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued through November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

#### A. Fund Accounting

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

#### Governmental Fund Types:

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the School District's major governmental fund:

*General Fund* The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

#### Proprietary Fund Types:

Proprietary fund reporting focuses on the determination of the changes in net assets, financial position and cash flows and are classified as internal service.

*Internal Service Fund* The only internal service fund carried on the financial records is related to field trips and miscellaneous rotary fund.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

#### Fiduciary Fund Types:

Fiduciary funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trusts, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Agency funds account for student activities managed by the student body and the other for monies held in a fiscal agency capacity for SERRC.

#### B. Basis of Presentation

Government-wide Financial Statements The statement of net assets and statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the School District that are considered business type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relation between the governmental-wide statements and the fund financial statements.

The governmental-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods and services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

**Fund Financial Statements** Fund financial statements report detailed information about the School District. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is represented in a separate column. Non-major funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financial uses) of current financial resources.

27 (Continued)

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

#### C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

**Revenues** – **Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 5). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

**Deferred Revenue** Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2005, but which were levied to finance fiscal year 2006 operations, have been recorded as deferred revenue. Grants and entitlements received before eligibility requirements are met are also recorded as deferred revenue. On the modified accrual basis, receivables that will not be collected within the available period have also been reported as deferred revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### D. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entail the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made of resolution of the Board of Education.

Advances in and Advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

#### Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Wood County Budget Commission for rate determination.

#### Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the first and final amended certificate issued during fiscal year 2005.

29 (Continued)

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

#### Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The budget figures which appear in the statements of budgetary comparisons represent the first and final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds, other than agency funds, consistent with statutory provisions.

#### Encumbrances:

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non - GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent - year expenditures for governmental funds.

#### Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

#### E. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the balance sheet. During fiscal year 2005, there were no investments.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2005 amounted to \$127,029.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

For purposes of the statement of cash flows and for presentation on the balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

Restricted assets in the General Fund represent cash and cash equivalents whose use is limited by legal requirements. Restricted assets include amounts required by statute to be set-aside by the School District for the creation of a reserve for budget stabilization. See Note 18 for additional information regarding set-asides.

#### F. Inventory

Inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. Inventory for governmental funds at June 30, 2005 amounted to \$17,969. Inventories consist of donated food and purchased food held for resale and are expensed when used.

#### G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2005, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

#### H. Capital Assets and Depreciation

General capital assets are those assets resulting from expenditures in governmental funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the government activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the dates received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is also capitalized.

31

(Continued)

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Land Improvements	20 years
Building and Improvements	20 - 50 years
Furniture	20 years
Equipment	5 -15 years
Fixtures	20 years
Vehicles	8 years

#### I. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred.

#### J. Interfund Assets/Liabilities

On the fund financial statements, receivables and payables resulting short-term from interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities statement of net assets. Long-term loans between funds are classified as "Advances to/from Other Funds", with a corresponding reserve of fund balance for the asset. These amounts are also eliminated in the governmental activities statement of net assets.

#### K. Compensated Absences

In accordance with the provisions of Statement No. 16 of the Governmental Accounting Standards Board, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for severance is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for severance on employees expected to become eligible to retire in the future, all classified and non-classified employees that had ten years or more of service were considered expected to become eligible to retire in accordance with GASB 16.

The total liability for vacation and severance payments has been calculated using pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

The entire compensated absence liability is reported on the government-wide financial statements.

For the governmental fund financial statements, upon the occurrence of employee resignations and retirements, compensated absences are recognized as liabilities and expenditures to the extent payments come due and payable as of June 30, 2005. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The remaining compensated absences are recorded as long term liabilities on the Statement of Net Assets.

# L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due.

## M. Bond Premiums and Discounts

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as "other financing sources," net of the applicable premium or discounts. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

## N. Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment as reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid from them are not presented on the financial statements.

# O. Fund Balance Reserves

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriations or expenditures. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances, property taxes, debt service and budget stabilization.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for budget stabilization represents money required to be set-aside by statute to protect against cyclical changes in revenues and expenditures.

# P. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources when an expense is incurred for the purposes for which both restricted and unrestricted net assets are available.

#### Q. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues include amounts for field trips and miscellaneous rotary activity. Operating expenses are necessary costs occurred to provide the good or service that is the primary activity of the fund.

# **NOTE 3 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Budget Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for (GAAP basis).

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements.

Net Change in Fund Balance							
	General Fund						
GAAP Basis	\$	(798,378)					
Net Adjustment for Revenue Accruals		412,754					
Net Adjustment for Expenditure Accruals		(639,236)					
Adjustments for Encumbrances		121,586					
Budget Basis	\$	(903,274)					

## NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies to be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasury Asset Reserve of Ohio (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

#### Undeposited Cash on Hand

At year-end, the School District had \$1,276 in undeposited cash on hand which is included on the financial statements of the School District as part of "Equity in Pooled Cash and Cash Equivalents."

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

## **Deposits with Financial Institutions**

Custodial credit risk is the risk that, in the event of bank failure, the School District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the School District.

At June 30, 2005, the carrying amount of the School District deposits was \$ 3,514,867. The School District's bank balance of \$ 3,716,412 was exposed to custodial risk as follows: \$100,000 was covered by Federal Deposit Insurance Corporation and \$3,616,412 was uninsured and collateral was held by pledging bank's trust department and not in the School District's name.

## Reconciliation of Cash to the Financial Statements

Cash per Note

Total

The following is a reconciliation of cash as reported in the footnote above to cash as reported on the financial statements as of June 30, 2005:

Cubit per 1 (ott		
Carrying amount of deposits	\$	3,514,867
Undeposited cash on hand		1,276
Total	\$	3,516,143
Cash per Statement of Net Assets and Combined	d Sta	atement of
Fiduciary Assets and Liabilities		
Governmental activities		
Equity in Pooled Cash and Investments	\$	3,268,778
Agency funds		
Equity in Pooled Cash and Cash Equivalents	_	247,365

#### **NOTE 5 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half collections are received by the School District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market

37 (Continued)

\$ 3,516,143

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

value. All property is required to be revalued every six years. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31, if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30, if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The full tax rate applied to real property for the fiscal year ended June 30, 2005 was \$47.90 per \$1,000 of assessed valuation. After adjustment of the rate for inflationary increases in property values, the effective tax rate was \$28.4048 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$32.3373 per \$1,000 of assessed valuation for all other real property. Real property owners' tax bills are further reduced by homestead and rollback deductions when applicable. The amount of these homestead and rollback reductions is reimbursed to the School District by the State of Ohio.

The rate applied to tangible personal property for the fiscal year ended June 30, 2005 was \$28.4048 per \$1,000 of assessed valuation.

The School District receives property taxes from Wood County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2005, are intended to finance fiscal year 2005 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2005. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2005, was \$736,790 in the General Fund, \$67,442 in the Debt Service Fund, and \$42,190 in the Capital Projects Fund.

The assessed values upon which fiscal year 2005 taxes were collected are:

		2005	 2004		
Real Property Residential/Agricultural	\$	154,355,380	\$ 151,386,550		
Tangible Personal Property Personal Public Utilities		12,756,737 15,809,720	13,676,627 16,553,740		
Total Valuation	\$	182,921,837	\$ 181,616,917		

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

# NOTE 6 - RECEIVABLES

Receivables at June 30, 2005, consisted of taxes, accounts (rent, billings for user charged services, and student fees), interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

# NOTE 7 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2005, was as follows:

	Restated*			
	Balance 7/1/2004	Addition	Deletion	Balance 6/30/2005

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 84,223
Special	2,179
Adult	55
Support Services:	
Pupil	2,606
Instructional Staff	23,405
Administration	7,444
Business	55
Pupil Transportation	58,044
Central	1,386
Extracurricular Activities	 5,341
Total Depreciation Expense	\$ 184,738

## NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2005, the District has entered into contracts with Nationwide Insurance Company for general liability insurance. Professional liability is protected by Nationwide Insurance Company with \$1,000,000 each occurrence, \$5,000,000 aggregate limit.

Vehicles are covered by Indiana Insurance Company and hold a \$100 deductible for comprehensive. Automobile liability has a \$1,000,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the past three years. Also, the District did not reduce the limits of liability significantly in the current year.

All employees of the School District are covered by a blanket bond, while certain individuals in policy making roles are covered by a separate, higher bond coverage.

The School District pays the State Worker's Compensation System, a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

#### NOTE 9 – DEFINED BENEFIT PENSIONS PLAN

# A. School Employees Retirement System

The School District contributes to the School Employees System of Ohio (SERS), a cost-sharing multiple employer defined pension system. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Board Street, Suite 100, Columbus, Ohio 43215-3746 or by calling 222-5853. It is also posted on SERS' website, ww.ohsers.org, under forms and publications.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute an actuarially determined rate. The current rate is 14 percent of annual covered payroll. A portion of the School's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2005, 10.57 percent of annual covered salary was the portion used to fund pension obligations. For the fiscal year 2004, 9.09 percent was used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2005, 2004, and 2003 were \$318,840, \$317,358, and \$306,660, respectively; 41 percent has been contributed for fiscal year 2005 and 100 percent for the fiscal years 2004 and 2003. \$186,646 representing the unpaid contribution for fiscal year 2005 is recorded as a liability.

#### B. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand alone financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, by calling (614) 227- 4090, or by visiting the STRS' Ohio website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor.

The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan.

DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2005, plan members are required to contribute 10 percent of their annual covered salaries. The School District is required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to the DB plan for the fiscal years ended June 30, 2005, 2004, and 2003 were \$941,460, \$910,645, and \$937,164, respectively; 83 percent has been contributed for fiscal year 2005 and 100 percent for the fiscal years 2004 and 2003. \$157,940 representing the unpaid contribution for fiscal year 2005 is recorded as a liability.

## NOTE 10 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll.

The Retirement Board allocates employer contributions to the Health Care Stabilization Fund from which health care benefits are paid. For the fiscal year ended June 30, 2005, the STRS Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. For the School District, this amount equaled \$67,247 for fiscal year 2005.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

STRS pays health care benefits from the Health Care Stabilization Fund. At June 30, 2005, the balance in the Fund was \$3.3 billion. For the year ended June 30, 2005, net health care costs paid by STRS were \$254,780,000 and STRS had 115,395 eligible benefit recipients.

For this fiscal year, SERS employer contributions to fund health care benefits were 3.43 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay has been established at \$27,400. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2005, were \$178,221,113. The target level for the health care fund is 150% of the projected claims less premium contributions for the next fiscal year. As of June 30, 2005, the value of the health care fund was \$267.5 million, which is about 168% of next year's projected net health care costs of \$158,776,151. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. SERS has approximately 58,123 participants currently receiving health care benefits. For the School District, the amount to fund health care benefits, including the surcharge, equaled \$109,424 during the 2005 fiscal year.

# NOTE 11 - EMPLOYEE BENEFITS

# A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived form negotiated agreements and State laws. Classified employees earn five to twenty days of vacation per year, depending upon length of service and hours worked. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators who are not on a twelve month contracts do not earn vacation time. Full time Certified and Non-Certified employees are entitled to fifteen days sick leave at a rate on one and one-forth days for each month under contract. This sick leave will either be absorbed by time off due to illness or injury or, within certain limitation, be paid to the employee upon retirement sick leave benefits up to 50 days for all employees.

#### B. Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Educational Employees' Life Insurance Trust and to classified employees through Core Source.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

# NOTE 12 - DEBT OBLIGATIONS

The changes in the School District's debt obligations during fiscal year 2005 were as follows:

	Amount Outstanding 6/30/2004	Additions	Deductions	Amount Outstanding 6/30/2005	Amount Due in One Year
Governmental Activities					
Long-term Obligations: Bonds: High School Addition and Renovation 5.2792% Energy Conservation 4.56%	\$ 3,704,692 625,000	\$ -	\$ (140,000) (115,000)	\$ 3,564,692 510,000	\$ 150,000 120,000
Other Obligations: Restated Compensated Absences Total Long-term Obligations	449,413 \$ 4,779,105	112,311 \$ 112,311	(98,903) \$ (353,903)	462,821 \$ 4,537,513	32,433 \$302,433

Compensated absences will be paid from the fund from which the employees' salaries are paid.

The District's voted legal debt margin was \$12,404,879 with an unvoted debt margin of \$199,528 at June 30, 2005.

Principal and interest requirements to retire general obligation debt outstanding at June 30, 2005 are as follows:

Fiscal Year June 30	I	Principal		Interest		Totals			
2006	\$	270,000	\$	178,270	\$	448,270			
2007	·	280,000		166,855	·	446,855			
2008		290,000		154,740		444,740			
2009		305,000		141,796		446,796			
2010		175,000		131,148		306,148			
2011-2015		549,691		997,143		1,546,834			
2016-2020		1,105,001		416,853		1,521,854			
2021-2024		1,100,000		113,250		1,213,250			
	\$	4,074,692	\$ 2	2,300,055	\$	6,374,747			

# NOTE 13 - INTERFUND ACTIVITY

# A. Interfund assets and liabilities

The interfund payables/receivables and long-term advances to/from other funds consisted of the following at June 30, 2005, as reported on the fund financial statements:

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

	 terfund eceivable	 Interfund Payable		lvances to her Funds	Advances from Other Funds	
General fund Nonmajor governmental funds	\$ 57,233	\$ - 57,233	\$	138,441	\$	- 138.441

Interfund receivables and payables result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2005, all interfund loans outstanding are anticipated to be repaid in fiscal year 2006

## B. Interfund transfers

During fiscal year 2005 the general fund made transfers as follows:

	T	ransfers	T	ransfers
		Out		In
General fund	\$	27,152		-
Nonmajor governmental funds		-	\$	27,152

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

## NOTE 14 - JOINTLY GOVERNED ORGANIZATIONS

The School District is a participant in the Northern Ohio Educational Computer Association (NOECA) which is a computer consortium. NOECA is an association made up of seventeen participating school districts and two county boards. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. NOECA is governed by and assembly consisting of the superintendents, or treasurers, or other designees of the member school districts. The assembly exercises total control over the operation of NOECA including budgeting, appropriating, contracting and designating management. All the NOECA revenues are generated from charges for services and state funding. To obtain information write to 219 Howard Drive, Sandusky, Ohio 44870.

The Penta County Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the sixteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Penta County Vocational School, Carrie Herringshaw, who serves as Treasurer, at 30095 Oregon Road, Perrysburg, Ohio 43551.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

#### NOTE 15 - INSURANCE RATING POOL

The School District participates in the Sheakley (OASBO) Workers' Compensation Group Rating Program (GRP), an insurance premium rating pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the Ohio School Boards Association. The Executive Director of the OSBA, or his designee, serves as coordinator of the Program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the cost of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP.

The workers compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school district in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates, McDonald & Co. provides administrative, cost control and actuarial services to the GRP. In accordance with the above, the OSBA Group Rating Program has not been included as a component unit of the reporting entity.

## NOTE 16 - STATE SCHOOL FUNDING DECISION

On December 11, 2002, The Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient..." The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

# **NOTE 17 - CONTINGENCIES**

#### A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2005.

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

## **B.** Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

## NOTE 18 - SET-ASIDE REQUIREMENTS

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

		Capital	Budget	
	<u>Textbooks</u>	<u>Improvement</u>	Reserve	<u>Total</u>
Set aside balance as of June 30, 2004	\$ -	\$ 37,224	\$ 536,075	\$ 573,299
Current year set-aside requirement	252,923	252,923	-	505,846
Qualifying expenditures	(567,850)	(572,240)		(1,140,090)
Totals	\$ (314,927)	\$ (282,093)	\$ 536,075	\$ (60,945)
Cash balance carried forward to FY2006	<u> </u>	<u> </u>	\$ 536,075	\$ 536,075
Amount restricted for budget reserve				536,075
Total restricted assets				\$ 536,075

Although the District had qualifying expenditures during the year that reduced the textbook set-aside amounts below zero, the District chose not to carry-forward these negative balances.

## NOTE 19 - ACCOUNTABILITY AND COMPLIANCE

Fund balances at June 30, 2005 included the following individual fund deficits: Food Service (\$60,734), Migrant Program (\$121), Title IV (\$833), Title I (\$13,225), and Drug Free Schools Grant (\$4,653).

Notes to the Basic Financial Statements For the Year Ended June 30, 2005

## NOTE 20 – CHANGE IN ACCOUNTING PRINCIPLE AND PRIOR PERIOD ADJUSTMENTS

For fiscal year 2005, the School District has implemented GASB Statement No. 40, "Deposits and Investment Risk Disclosures" and GASB Technical Bulletin No. 2004-2, "Recognition of Pension and Other Postemployment Benefit Expenditures/Expenses and Liabilities by Cost-Sharing Employers".

In fiscal year 2005, the Food Service Fund was reclassified to a special revenue fund. The District changed from the termination to the vesting method to account for compensated absences in fiscal year 2005, which caused a restatement of balances. Following the close of the previous fiscal year, the District identified capital assets that were omitted from their financial report. This adjustment resulted in a restatement of capital assets from 2004. Also, differences noted in the capital assets depreciation from the prior year caused the following changes in the beginning fund balances and net assets:

		Other General Governmental			Go	Total overnmental Funds
Fund balances at June 30, 2004	\$	2,774,862	\$	624,440	\$	3,399,302
Pension Obligation		(226,837)		_		(226,837)
Food Service				(122,583)		(122,583)
Restated fund balances, July 1, 2004	\$	2,548,025	\$	501,857	\$	3,049,882
			G	overnmental Activities		
Net Assets, June 30, 2004			\$	(1,028,564)		
Food Service Fund				(144,679)		
Capital Assets				4,574,664		
Compensated Absences				422,050		
Depreciation				(326,547)		
Adjusted Net Assets, July 1,	200	4	\$	3,496,924		

**Combining Statements and Individual Fund Schedules** 

Combining Statements and Individual Fund Schedules

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds

Special Revenue Funds are established to account for revenues from specific sources which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the School District's special revenue funds follows:

**Food Service Fund** This fund accounts for the financial transactions related to the food service operations of the School District.

**Special Trust Fund** This fund accounts for monies used for purposes that are beneficial to the overall operation of the School District.

Uniform Schools Supplies Fund This fund accounts for financial activity related to the purchase and sale of school supplies as adopted by the board of education for use within the School District

**Public School Support Fund** This fund accounts for school site sales revenue and expenditures for field trips, assemblies, and other activity costs.

*Martha Holden Jennings Grant Fund* This fund accounts for proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specific purposes.

**Student Athletics Fund** This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the School District's athletic program and transportation of the band to and from athletic events.

**Educational Television Grant Fund** This fund accounts for funds that provide educational services via television within the School District.

**Community Education Grant Fund** This fund accounts for funds for which monies are received for educational program for the District's community.

**Post Secondary Educational Grant Fund** This fund accounts for funds that provide post secondary education.

*Teacher Development Fund* This fund accounts for State monies in support of locally developed professional development programs.

**Educational Management Information Systems Fund** This fund accounts for State monies which support the development of hardware and software or other costs associated with the requirements of the management information system.

Nonmajor Special Revenue Funds (continued)

*Head Start Fund* This fund accounts for State monies used to assist the School District in paying the cost of head start programs for three and four year olds.

**Public School Preschool Fund** This fund accounts for State monies used to assist the School District in paying the cost of preschool programs for three and four year olds.

One Net Fund This fund accounts for State monies to assist staff in gaining knowledge of technology.

SchoolNet Technology Training Fund This fund accounts for State monies to assist staff in gaining knowledge of technology.

**Long Distance Learning Fund** This fund accounts for monies received to provide necessary resource and materials for long distance learning courses.

*Instruction Material Subsidy Fund* This fund accounts for monies received to provide instructional material for educational purposes.

*Ohio Reads Grant Fund* This fund accounts for State monies to improve reading outcomes, especially on the fourth grade reading proficiency test and for volunteer coordinators in public schools and costs associated with volunteer coordination, for background checks for volunteers, to evaluate the Ohio Reads Program, and for operating expenses associated with administering the program.

**Summer Intervention Fund** This fund is used to account for monies used for education during summer months.

**Vocational Education Fund** This fund accounts for monies used to provide students with alternative to college by providing vocational education.

Safe Schools Help Line Fund This fund accounts for monies used for programs for students to report anonymously activity that might be harmful to the School District daily activities.

*Migrant Program Fund* This fund accounts for monies used for migrant children education for new and existing at risk and delinquent youths.

*Title IV Fund* This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**OWA Grant Fund** This fund accounts for funds received from the State agencies that are used for development of basic educational skills and increase of opportunities for useful employment.

*Title I Fund* This fund accounts for Federal monies used to assist the School District in meeting the special needs of educationally deprived children.

Nonmajor Special Revenue Funds (continued)

*Title VI Fund* This fund accounts for Federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**Drug Free Schools Grant Fund** This fund accounts for Federal monies which support the implementation of programs for drug abuse education and prevention.

**Preschool Handicapped Grant Fund** This fund accounts for Federal monies which provide for the cost of developing a public school preschool for handicapped and non-handicapped children.

**Reducing Class Size Grant Fund** This fund accounts for Federal monies used to reduce class sizes in elementary schools.

*Miscellaneous Federal Grants Fund* This fund accounts for small miscellaneous grants from the federal governments.

# Nonmajor Debt Service Fund

Debt Service Fund is used to account for the accumulation of resources for the payment of long-term debt principal, interest, and fiscal charges. The only debt service fund for the School District is Bond Retirement Fund.

# Nonmajor Capital Projects Funds

Capital projects funds account for the acquisition, construction or improvement of capital facilities.

**Permanent Improvement Fund** This fund accounts for all transaction related to acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5707, Revised Code.

Combining Statement

Fiduciary Funds

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and other funds. The following is the School District's fiduciary fund type:

Agency Funds

SERRC Center Fund - This fund accounts for assets of the special education center

**Student Activities Fund** - This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

Source: Wood County Auditor - Data is presented on a calendar year basis because that is the manner in which the information is maintained by the County Auditor

Note: This amount is calculated based on the following percentages:

- (1) Real estate value is assessed at 35 percent of appraised market value.
- (2) Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value. The estimated above was calculated at 88 percent.
- (3) Tangible personal property is assessed at 25 percent of actual value.
