INDEPENDENT ACCOUNTANTS' REPORT

Jennings Local School District
Putnam County
1 Musketeer Drive, P.O. Box 98
Fort Jennings, Ohio 45844-0098

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jennings Local School District, Putnam County, (the District), as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 1, the accompanying financial statements and notes follow the modified cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Jennings Local School District, Putnam County, as of June 30, 2005, and the respective changes in modified cash financial position and the respective budgetary comparison for the General Fund, thereof for the year then ended in conformity with the basis of accounting Note 1 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2006, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2005**

UNAUDITED

This discussion and analysis of the Jennings Local School District's ("the District") financial performance provides an overall review of the District's financial activities for the year ended June 30, 2005, within the limitations of the District's Other Comprehensive Basis of Accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key highlights for 2005 are as follows:

Net assets of governmental activities decreased \$345,243, or 36 percent, a significant change from the prior year. Part of this was caused by the completion of the new Pre K-12 Building. The General Fund also realized increased costs in 2005; however, cost increases affected most funds.

The District's general receipts were \$3,093,217, those being primarily property taxes and unrestricted state entitlements, were 72 percent of the total cash received during the fiscal year. Dependence on these two revenue sources is significant.

The District built a new PreK-12 School Building at a projected cost of 15.4 million dollars. This building was completed during the summer of 2004. Most of the expenditures were done in previous years; however, there were still some final project costs in fiscal 2005.

Using this Annual Report

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the District's Modified Cash Basis of Accounting.

Report Components

The statement of net assets and the statement of activities provide information about the cash activities of the District as a whole.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds, with all other non-major funds presented in total in a single column. For Jennings Local School District, the General Fund and the Building Fund are the most significant funds.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses, and the related assets and liabilities. The District has elected to present its financial statements on a modified cash basis of accounting. Under the District's other comprehensive basis of accounting, receipts and disbursements and the related assets and liabilities are recorded when

UNAUDITED

they result in cash transactions. This basis of accounting is a basis of accounting other than generally accepted accounting principles.

As a result of using the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the other comprehensive basis of accounting.

Reporting the District as a Whole

The statement of net assets and the statement of activities reflect how the District did financially during fiscal year 2005, within the limitations of the modified cash basis of accounting. The statement of net assets presents the cash balances and investments of the governmental activities of the District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each function or program of the District's governmental activities. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These statements report the District's cash position and the changes in cash position. Factors which contribute to these changes may include, but not limited to, the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, and required educational programs.

In the statement of net assets and the statement of activities, all of the District's activities are presented as governmental activities. All of the District's programs and services are reported here including instruction, support services, non-instructional services, food services, extracurricular activities, and capital outlay disbursements.

Reporting the District's Most Significant Funds

Fund financial statements provide detailed information about the District's major funds – not the District as a whole. The District establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose.

The funds of the District are split into two categories: governmental and fiduciary. While the District uses many funds to account for its financial transactions, the fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund and the Building Fund.

Governmental Funds - Most of the District activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the District's governmental operations and the basic services it provides. Governmental fund information helps determine

UNAUDITED

whether there are more or less financial resources that can be spent to finance the District's programs. The District's significant governmental funds are presented on the financial statements in separate columns. The information for non-major funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The District's major governmental funds are the General Fund and the Building Fund. The programs reported in governmental funds are closely related to those reported in the governmental activities section of the entity-wide statements.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources of these funds are not available to support the District's programs.

The District as a Whole

Table 1 provides a summary of the District's net assets for fiscal year 2005 compared to fiscal year 2004 on an other comprehensive basis of accounting.

**Table 1
Net Assets**

	Governmental Activities

Restricted	\$487,785	\$748,449
Unrestricted	116,607	201,186
Total Net Assets	\$604,392	\$949,635

As mentioned previously, net assets of governmental activities decreased \$345,243 or 36 percent during fiscal year 2005. The primary reasons contributing to the decreases in cash balances are as follows:

- The Building Project was nearing completion, so the balances in the building fund were also shrinking.
- Increase in salaries of 3% based on current negotiated agreements.
- Health benefits costs increased by over 15%.

Table 2 reflects the changes in net assets in from the prior year.

Program receipts represent 28 percent of total receipts and are primarily comprised of restricted intergovernmental receipts, charges for tuition and fees and extracurricular activities, food service sales and Ohio School Facilities Building Project Receipts.

As stated previously, general receipts represent 72 percent of the District's total receipts, and of this amount, over 67 percent is the result of unrestricted grants and entitlements which primarily represents State foundation resources. Property taxes basically make up the balance of the District's general receipts (30 percent). Other receipts, such as interest, donations, and rent are very insignificant and somewhat unpredictable revenue sources.

The major program disbursements for governmental activities are for instruction, which accounts for 41 percent of all governmental disbursement. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation account for approximately 6 percent of governmental disbursements. Maintenance of the District facilities is 8 percent. Capital Outlay represents over 20 percent of all governmental disbursements. The District completed the building of a new PreK-12 Building, with the building completed and occupied in the summer of 2004. Therefore, only 47 percent of the District's disbursements are related to the primary functions of maintaining facilities and delivering education.

Governmental Activities

If you look at the Statement of Activities on page 12, you will see that the first column lists the descriptions of the major services provided by the District. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for instruction and capital outlay, which account for 41 and 20 percent of all governmental disbursements, respectively. The next three columns of the Statement entitled Program Cash Receipts identify amounts paid by people who are directly charged for the service and grants received by the District that must be used to provide a specific service. The net Receipt (Disbursement) column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service which ends up being paid from money provided by state unrestricted entitlements and local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

The dependence upon property tax receipts and unrestricted state entitlements is apparent as over 79 percent of instructional activities are supported through these general receipts. However, it should be noted that special instruction activities are largely provided for through program receipts, by 41 percent. This is the result of operating grants and contributions restricted for special instruction purposes.

Over 96 percent of food services were covered by program receipts for fiscal year 2005. This is primarily due to cafeteria sales, and state and federal subsidies and donated commodities for food service. Over 46 percent of extracurricular activities disbursements are covered by program receipts. This is the result of music and athletic fees, ticket sales and gate receipts.

The Government's Funds

The District's governmental funds are accounted for using the other comprehensive basis of accounting. Total governmental funds had receipts of \$4,273,703 and disbursements of \$4,638,220. The greatest change within governmental funds occurred within the Building Fund. This was as a result of the building project, with contracts nearing completion; the balance in the building fund was shrinking.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2005
(Continued)

UNAUDITED

General Fund receipts were less than disbursements by \$68,791 indicating that the General Fund is in a deficit spending situation. In May 2005, District voters approved a $\frac{3}{4}$ % income tax levy for general operations, with collection to start in January 2006.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During fiscal year 2005, the District amended its General Fund budget as needed to reflect changing circumstances. Final budgeted receipts, in the amount of \$3,046,162, were below actual receipts, in the amount of \$2,624. The difference between final budgeted receipts and actual receipts was less than 1 percent.

Final disbursements were budgeted at \$3,277,070 while actual disbursements were \$3,188,094. This change was not material.

Capital Assets and Debt Administration

Capital Assets

The District's capital assets are not reflected in the other comprehensive basis of accounting statements, however the District does track capital assets through the State provided software program.

Debt

At June 30, 2004, the District's outstanding debt included general obligation bonds, in the amount of \$2,065,000, issued for the building of a new PreK-12 Building. For further information regarding the District's debt, refer to Note 10 to the basic financial statements.

Current Issues

The challenge for all districts is to provide quality educational services to the public while staying within the restrictions imposed by limited funding, and in some cases shrinking funding. The District relies heavily on unrestricted state entitlements and local taxes and has very little industry to support the tax base. The District's five year forecast predicts a deficit for 2009; therefore, the finance committee and the administration are watching expenditures very closely.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Valerie A. Maag, Treasurer, Jennings Local School District, P. O. Box 98, Ft. Jennings, Ohio 45844.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005**

Note 1 - Description of the School District and Reporting Entity

The Jennings Local School District (The District) is a body politic and corporate established to exercise the rights and privileges the constitution and laws of the State of Ohio convey to it.

A locally-elected five-member Board governs the District, which provides educational services mandated by the State and federal agencies. This Board of Education controls the District's one instructional/support facility staffed by 15 classified employees, 31 certificated full-time personnel, and 4 administrators who provide services to 469 students and other community members.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations included ensuring that the basic financial statements are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. For Jennings Local School District, this includes general operations, food service, community services, and student-related activities.

Component units are legally separate organizations for which the District can "impose its will," such as by appointing a voting majority of the component unit's governing body. Component units may also include organizations fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. The District has no component units.

Under the modified-cash basis of accounting, the Government does not report assets for equity interests in joint ventures. The District has no joint ventures.

The District participates in 2 jointly governed organizations and 3 public entity risk pools. The financial statements exclude these entities which perform activities within the District's boundaries for the benefit of its residents because the District is not financially accountable for these entities nor are these entities fiscally dependent on the District. Notes 7 and 16 to the financial statements provide additional information for these entities. These organizations are:

Jointly Governed Organizations:

Vantage Career Center
Northwest Ohio Area Computer Services Cooperative

Public Entity Risk Pool:

Putnam County School Insurance Group
OSBA Workers' Compensation Group Rating Program
Schools of Ohio Risk Sharing Authority

Note 2 - Summary of Significant Accounting Policies

Although Ohio Administrative Code Section 117-2-03 (B) requires the District's financial report to follow generally accepted accounting principles, the District chooses to prepare its financial statements and notes in accordance with the modified cash-basis of accounting.

This basis of accounting is similar to the cash receipts and disbursements basis. The District recognizes receipts when received in cash rather than when earned and recognizes disbursements when paid rather than when a liability is incurred.

The District also reports long-term investments as assets, valued at cost.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

Budgetary presentations report budgetary expenditures when a commitment is made (i.e., when an encumbrance is approved). Differences between disbursements reported in the fund and entity wide statements versus budgetary expenditures result from encumbrances outstanding at the beginning and end of the fiscal year.

A. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain functions or activities. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The District classifies each fund as either governmental or fiduciary.

Governmental: The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants) and other nonexchange transactions as governmental funds. The following are the District's major governmental funds:

General Fund The general fund accounts for all financial resources except for restricted resources requiring a separate accounting. The general fund balance is available for any purpose provided it is disbursed or transferred according to Ohio law.

Building Fund The building fund accounts for resources received from a local bond issue and the Ohio School Facilities Commission restricted to constructing and equipping a new PreK-12 Building.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Funds: The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are not available to support the District's own programs. The District's private purpose trust fund accounts for programs that provide college scholarships to students after graduation. Agency funds are custodial in nature. The District's agency fund accounts for various student-managed activities.

B. Basis of Presentation

The District's basic financial statements consist of a government-wide statement of activities and fund financial statements providing more detailed financial information.

Government-wide Financial Statement of Activities: This statement displays information about the District as a whole, except for fiduciary funds.

The government-wide statement of activities compares disbursements with program receipts for each function or program of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on the modified-cash basis or draws from the District's general receipts.

Fund Financial Statements: Fund financial statements report more detailed information about the District. The focus of governmental fund financial statements is on major funds. Fund statements present each major fund in a separate column and aggregate nonmajor funds in a single column. Fiduciary funds are reported by type.

C. Cash, Cash Equivalents and Investments

The District deposits and invests cash from all funds in a common pool. The financial statements present each fund's share of interest in the pool as *equity in pooled cash and cash equivalents* on the financial statements.

The District's investments were limited to telephone company stock. The District values investments at market value. For presentation on the financial statements, the District classifies investments of the cash management pool as cash equivalents.

Following Ohio statutes, the Board of Education specified the funds to receive an allocation of interest earnings. Interest receipts credited to the general fund during fiscal year 2005 was \$8,711, including \$4,602 assigned from other District funds.

D. Restricted Assets

The financial statements classify cash, cash equivalents and investments as restricted when external limitations change the nature or normal understanding of their use. Creditors, contributors, grantors, laws of other governments or enabling legislation are the sources of the restrictions. Restricted cash and investments in the General Fund include amounts State statute requires to be set aside for textbooks and instructional materials and amounts restricted for bus purchases.

E. Inventory and Prepaid Items

On the modified cash-basis of accounting, inventories of supplies and food service items are reported as disbursements when purchased.

F. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. The financial statements do not report these assets.

G. Compensated Absences

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's modified-cash basis of accounting.

H. Long-term Obligations

These modified-cash basis financial statements do not report liabilities for bonds and other long-term obligations. These statements report proceeds of debt when cash is received and debt service disbursements for debt principal payments.

(CONTINUED)

I. Fund Balance Reserves

The District reserves those portions of fund equity legally segregated for a specific future use or which are not available for appropriation or disbursement. The District has fund balance reserves for encumbrances, school bus purchases and instructional materials and textbooks.

J. Net Assets

The statements report restricted net assets when enabling legislation or creditors, grantors or laws or regulations of other governments have imposed limitations on their use.

The District first applies restricted resources when incurring a disbursement for which it may use either restricted or unrestricted resources.

K. Interfund Activity

The statements report exchange transactions between funds as receipts in the seller funds and as disbursements in the purchasing funds. Nonexchange flows of cash from one fund to another are reported as interfund transfers. Governmental funds report interfund transfers as other financing sources/uses. The statements do not report repayments from funds responsible for particular disbursements to the funds initially paying the costs.

The statements report interfund loans as advances when made or repaid. Note 6 lists unpaid advances receivable and payable.

L. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the Board of Education's control that are either unusual in nature or infrequent in occurrence. Neither type of transactions occurred during fiscal 2005.

M. Budgetary Data

Ohio law requires the Board of Education to budget and appropriate all funds, other than agency funds. The major documents prepared are the appropriation resolution and the certificate of estimated resources, which use the budgetary basis of accounting. The budgetary basis reports expenditures when a commitment is made (i.e., when an encumbrance is approved). The certificate of estimated resources establishes a limit on the amounts the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control the Board selects. The Board of Education uses the fund/cost center as its legal level of control.

The certificate of estimated resources may be amended during the year if the District Treasurer projects increases or decreases in receipts. The amounts reported as the original budget in the budgetary statements reflect the amounts in the certificate when the Board adopted the original appropriations. The amounts reported as the final budget in the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed.

The Board may amend appropriations throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budget reflect the first appropriation for a fund covering the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budget represent the final appropriation the Board passed during the year.

Note 3 – Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the general fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the modified cash basis is outstanding year end encumbrances are treated as cash disbursements (budgetary basis) rather than as a reservation of fund balance (modified cash basis).

The encumbrances outstanding at year end (budgetary basis) amounted to \$70,517 in the general fund.

Note 4 - Deposits and Investments

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District treasury. Active monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;

**JENNINGS LOCAL SCHOOL DISTRICT
PUTNAM COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005
(CONTINUED)

6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

Undeposited Cash: At year-end, the District had \$374 in undeposited cash on hand, included as part of *Equity in pooled cash and cash equivalents*.

Deposits: The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments: As of June 30, 2005, the District's investments were limited to \$600 of stock

The District has no investment policy dealing with investment credit risk beyond the requirements in State statutes.

Note 5 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Real property taxes received in calendar year 2005 were levied after April 1, 2004, on the assessed value listed as of January 1, 2004, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Public utility real and tangible personal property taxes received in calendar year 2005 became a lien December 31, 2003, were levied after April 1, 2004, and are collected in 2005 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

**JENNINGS LOCAL SCHOOL DISTRICT
PUTNAM COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005
(CONTINUED)

Tangible personal property tax revenue received during calendar 2005 (other than public utility property) represents the collection of 2005 taxes. Tangible personal property taxes received in calendar year 2005 were levied after April 1, 2004, on the value as of December 31, 2004. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-four percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Putnam County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2005, are available to finance fiscal year 2005 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The amount available as an advance at June 30, 2005 was \$49,669 in the general fund, \$16,835 in the debt service fund, \$2,544 in the permanent improvement capital projects fund and \$1,049 in the Ohio School Facilities Maintenance Fund.

The assessed values upon which the fiscal year 2005 taxes were collected are:

	2004 Second Half Collections		2005 First- Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$27,271,790	90.65%	\$27,731,770	90.92%

Note 6 - Interfund Balances

Unpaid interfund cash advances at June 30, 2005 were as follows:

	Interfund Receivable
	General
Interfund Payable	
<i>Governmental Activities</i>	
Yearbook (300-9680)	\$7,466
Summer Intervention (460-0000)	3,825

Drug Free Grant (584-9005)	126
Special Ed Access Grant (516-9005)	2,925
<i>Total</i>	\$17,872

The interfund transactions between the general and nonmajor special revenue funds are due to the timing of receipts and the anticipation of funding for Summer Intervention.

Note 7 - Risk Management

RISK MANAGEMENT

A. Risk Pool Membership

The District is a member of the Schools of Ohio Risk Sharing Authority (SORSA). SORSA is a member owned organization having approximately 65 members. SORSA is a joint self-insurance pool. SORSA assumes the risk of loss up to the limits of the (Jennings Local District's) policy. SORSA covers the following risks:

- General Liability;
- Commercial Liability
- Employee Benefits Liability
- Vehicle
- School Leaders Errors and Omissions
- Sexual Misconduct
- Commercial Umbrella

The District contributes to the funding, operating and maintaining of the SORSA joint self insurance pool. The district's contributions cover deductible losses, loss fund contributions, insurance costs, and administration costs.

**JENNINGS LOCAL SCHOOL DISTRICT
PUTNAM COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2005

The District paid \$37,152 in premiums to the pool for coverage for fiscal year 2005 coverage.

SORSA financial statements are available by contacting SORSA at:

Schools of Ohio Risk Sharing Authority, Inc.
OSBA Building
8050 North High Street
Columbus, Ohio 43235-6483

B. Employee Medical Benefits

The District participates as a member of the Putnam County School Insurance Group, a public entity risk pool, administered by Sky Trust. The District converted its fully-insured medical insurance program to partial self insurance through participation in this public entity risk pool. Medical Mutual of Ohio provides claim review and processing. The District maintains stop-loss coverage for its medical insurance program. Aggregate stop loss is maintained for expected claims.

C. Workers' Compensation

For fiscal year 2005 the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. GRP then calculates total savings and each participant's individual performance is compared to the overall Plan's savings percentage. A participant then either receives money from or contributes to GRP's equity pooling fund. This equity pooling arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

Note 8 – Defined Benefit Pension Plans

A. School Employees Retirement System

The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476 or by calling (614) 222-5853.

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2005, 10.57 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2004, 9.09 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2005, 2004, and 2003, were \$34,626, \$31,827 and \$26,600; 73.53 percent has been contributed for fiscal year 2005 and 100 percent for fiscal years 2004 and 2003.

B. State Teachers Retirement System

The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2005, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to the DB Plan for the fiscal years ended June 30, 2005, 2004, and 2003, were \$197,747, \$188,410 and \$180,693; 91.43 percent has been contributed for fiscal year 2005 and 100 percent for fiscal years 2004 and 2003. Contributions to the DC and Combined Plans for fiscal year 2005 were \$62 made by the District and \$161 made by the plan members.

C. Social Security

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2005, four of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

Note 9 - Postemployment Benefits

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

STRS retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. All benefit recipients pay a portion of health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2005, the STRS Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$18,704 fiscal year 2005.

STRS pays health care benefits from the Health Care Stabilization Fund. At June 30, 2005, the balance in the Fund was \$3.3 billion. For the fiscal year ended June 30, 2005, net health care costs paid by STRS were \$254,780,000 and STRS had 115,395 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their premium for health care. The portion is based on years of service, Medicare eligibility, and retirement status. Premiums may be reduced for retirees whose household income falls below the poverty level.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2005, employer contributions to fund health care benefits were 3.43 percent of covered payroll, a decrease of 1.48 percent from fiscal year 2004. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay was established at \$27,400. However, the surcharge is capped at 2 percent of each employer's SERS salaries. For the 2005 fiscal year, District paid \$24,277 to fund health care benefits, including the surcharge.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2004 (the latest information available), were \$223,443,805 and the target level was \$335.2 million. At June 30, 2004, SERS had net assets available for payment of health care benefits of \$300.8 million. SERS has approximately 62,000 participants currently receiving health care benefits.

Total	<u>\$2,187,773</u>	<u>\$2,868</u>	<u>\$112,305</u>	<u>\$2,078,336</u>	<u>\$72,872</u>	

General obligation bonds represent the District's portion of an Ohio School Facilities Building Project. The Bonds were issued at a rate of 5.99 percent during fiscal year 2001, with final maturity in fiscal year 2024. The full faith and credit of the District is pledged for repayment and will be repaid with taxes assessed on all property within the District.

At June 30, 2005, the District's overall legal debt margin was \$680,051 with an unvoted debt margin of \$30,501.

Principal and interest requirements to retire long-term liabilities outstanding at June 30, 2005, are as follows:

Note 11 – Leases

The District leases copiers under a capital lease. The District disbursed \$7,140 to pay lease costs for the year ended June 30, 2005. Future lease payments are as follows:

Year ending June 30:	Amount
2006	\$8,312
2007	5,542
Total minimum payments	13,854
Less: Interest	(518)
Present value of minimum payments	\$13,336

Note 12 - Set-Aside Calculations

State statute annually requires the District to set aside in the general fund an amount based on a statutory formula to purchase textbooks and other instructional materials and an equal amount to acquire and construct capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward for the same uses in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. State statute requires disclosing this information.

	Capital Improvements Reserve	Textbooks Instructional Materials Reserve
Set-aside Reserve Balance as of June 30, 2004	\$0	\$26
Current year set-aside requirements	62,031	62,031
Current year off-sets	(46,915)	
Qualifying Disbursements	(68,566)	(54,917)
Total	(\$53,450)	\$7,140
Less: Encumbrances at June 30, 2004		2,520
Set-aside Reserve Balance as of June 30, 2004	\$0	\$4,620

The District had qualifying disbursements during the fiscal year that reduced the capital improvements set-aside amounts below zero. This amount may not be used to reduce the set-aside requirement for future years. This negative balance is therefore not presented as being carried forward to future years.

Note 15 - Contingencies

A. Grants

The District receives financial assistance from Federal and State agencies in the form of grants. Disbursing grant funds generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit. Any disallowed claims resulting from such audits could become a liability. However, in the opinion of management, any such disallowed claims through June 30, 2005, will not have a material adverse effect on the District.

B. Litigation

The District is not a party to any legal proceedings.

Note 16 – Jointly Governed Organizations

Vantage Career Center

The Vantage Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each participating Districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information contact the Vantage Career Center, Lori Davis, Treasurer, 818 N. Franklin St., Van Wert, OH 45891-1304.

Northwest Ohio Area Computer Service Cooperative

The District is a participant in the Northwest Ohio Area Computer Service Cooperative (NOACSC), a not-for-profit computer service organization. NOACSC is an association of public Districts within the boundaries of Allen, Auglaize, Hancock, Hardin, Mercer, Paulding, Putnam, Van Wert and Wood Counties, and the Cities of St. Marys and Wapakoneta. The organization was formed for the purpose of applying modern technology with the aid of computers and electronic equipment to administrative and instructional functions among member districts.

The governing board of NOACSC consists of two representatives each county elected by majority vote of all charter member Districts within each county and one representative from the fiscal agent District. Financial information can be obtained from Michael Wildermuth, who serves as director, at 645 S. Main St., Lima, OH 45804.

Note 17 – State School Funding Decision

On December 11, 2003, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed “. . . The Ohio General Assembly to enact a school-funding scheme that is thorough and efficient . . .” The District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

**INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

Jennings Local School District
Putnam County
1 Musketeer Drive, P.O. Box 98
Fort Jennings, Ohio 45844-0098

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jennings Local School District, Putnam County, (the District) as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 5, 2006, wherein, we noted the District uses a comprehensive basis of accounting other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting to determine our auditing procedures in order to express our opinions on the financial statements and not to opine on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider material weaknesses. In a separate letter to the District's management dated January 5, 2006, we reported a matter involving internal control over financial reporting we did not deem a reportable condition.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an

objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter that we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2005-001. In a separate letter to the

District's management dated January 5, 2006, we reported a matter related to noncompliance we deemed immaterial.

We intend this report solely for the information and use of the audit committee, management, and the Board of Education. It is not intended for anyone other than these specified parties.

Noncompliance Citation

Ohio Revised Code § 117.38 provides that each public office shall file a financial report for each fiscal year. The auditor of state may prescribe forms by rule or may issue guidelines, or both, for such reports. If the auditor of state has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code § 117-2-03 further clarifies the requirements of Ohio Revised Code § 117.38.

Ohio Administrative Code §117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, the District prepares its financial statements in accordance with standards established by the Auditor of State for governmental entities not required to prepare annual reports in accordance with generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.
