County of Summit, Ohio

Reports Issued Pursuant to OMB Circular A-133

Year Ended December 31, 2005

Auditor of State Betty Montgomery

Summit County Council Summit County 175 South Main Street Akron, Ohio 44308

We have reviewed the *Report of Independent Auditors* of the Summit County, prepared by Rea & Associates, Inc., for the audit period January 1, 2005, through December 31, 2005. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Summit County is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Summit (the "County") as of and for the year ended December 31, 2005, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 27, 2006 which identified the Children's Services Board, a major fund of the governmental activities as being audited by other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of the County in a separate letter dated June 27, 2006.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the County in a separate letter dated June 27, 2006.

This report is intended solely for the information and use of the audit committee, management, federal awarding agencies, pass-through entities, and County Council and is not intended to be and should not be used by anyone other than those specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the compliance of the County of Summit (the "County") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2005. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County of Summit complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2005. However, we noted a certain immaterial instance of noncompliance relating to a non-major federal program that we have reported to management of the County in a separate letter dated June 27, 2006.

Internal Control over Compliance

The management of the County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. However, we noted matters involving internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the County in a separate letter dated June 27, 2006.

County of Summit, Ohio Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Control over Compliance in Accordance with OMB Circular A-133 June 27, 2006 Page 2

Schedule of Expenditures of Federal Awards

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of the County of Summit, Ohio as of and for the year ended December 31, 2005, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 27, 2006 which identified the Children's Services Board, a major fund of the governmental activities as being audited by other auditors. Our audit was performed for the purpose of forming opinions on the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the audit committee, management, federal awarding agencies, pass-through entities, and County Council and is not intended to be and should not be used by anyone other than those specified parties.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS DECEMBER 31, 2005

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the County of Summit and is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of State and Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The Schedule of Expenditures of Federal Awards excludes all federal expenditures incurred by the County related to monies they expend on Temporary Assistance for Needy Families (TANF) programs. A separate OMB Circular A-133 audit is performed.

NOTE 2: MEDICAL ASSISTANCE PROGRAM

The amount received from Medicaid in 2005 represents only a portion of the total amount billed by the County. The federal expenditures amount reported represents the actual receipts at the Federal Financial Participation reimbursement rate.

NOTE 3: FIFO METHOD

Federal funds are commingled with non-Federal funds for the Title XX Medicare Grant CFDA No. 93.667. A first-in first-out (FIFO) method was used to arrive at grant expenditures for the federal program.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (continued)

NOTE 4: SUBRECIPIENTS:

Of the federal expenditures presented in the Schedule, the County provided federal awards to subrecipients as follows:

JOHN A. DONOFRIO Fiscal Officer County of Summit

June 27, 2006

To the Honorable County of Summit Executive, Council Members, and Citizens of the County of Summit:

As Fiscal Officer of the County of Summit, I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the County of Summit for the year ended December 31, 2005. This CAFR was prepared in conformity with Generally Accepted Accounting Principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including disclosures, lays with the management of the County, and in particular the Fiscal Office of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of making these representations, management of the County of Summit. To provide a reasonable basis of the complete the financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. To the best of my knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly and completely the financial position of the County and the results of its operations.

The County of Summit financial statements have been audited by Rea & Associates, Inc., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County of Summit for the fiscal year ended December 31, 2005, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor issued an unqualified opinion that the County of Summit financial statements for the fiscal year ended December 31, 2005, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County of Summit was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the government's compliance and internal controls over financial reporting, and compliance with laws, regulations, contracts and reports requirements and internal control requirements of federal awards. These reports are available in the County of Summit's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, an analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County of Summit's MD&A can be found immediately following the report of the independent auditors.

The CAFR is divided into three sections: the Introductory Section, the Financial Section, and the Statistical Section. The Introductory Section includes the table of contents, this transmittal letter, the Certificate of Achievement for Excellence in Financial Reporting, an organizational chart of the County and a list of elected officials. The Financial Section includes the Report of Independent Auditor's, Management's Discussion and Analysis, the Basic Financial Statements and Notes that provide an overview of the County's financial position and operating results, the Combining Statements for nonmajor funds and other schedules that provide detailed information relative to the Basic Financial Statements. The Statistical Section presents various tables reflecting social and economic information, financial trends, and fiscal capacity of the County.

Profile of the Government

The County of Summit, formed in 1840, is located in northeastern Ohio, approximately 25 miles south of Cleveland, and covers an area of 416 square miles. As of the 2000 census, the County was the fifth most populous of the 88 counties in Ohio with a population of 542,899. The County seat is the City of Akron, which is the largest municipality in the County with a 2000 population of 217,074. In addition to the City of Akron, there are 21 other cities and villages and 9 townships located within the County.

The County is in the Akron Primary Metropolitan Statistical Area (PMSA) comprised of Summit and Portage Counties with a population of 694,960 according to the 2000 census. It is also in the Cleveland-Akron-Lorain Consolidated Metropolitan Statistical Area (CMSA) with a population of 2,945,831 according to the 2000 census, making it the 13th most populous CMSA of 19 in the country.

In 1979, the voters of the County adopted a Charter establishing the first charter form of county government in the State of Ohio (State). The Charter became effective January 1, 1981. It replaced the statutory form of county government. The Charter currently provides for a County Executive and an 11 member County Council, comprised of three members elected at large and eight members representing districts.

In addition to the County Executive and the Council, there are five elected administrative officials of the County, each of whom has independent authority within the limits of the State statutes affecting the particular office. These officials, elected to four year terms, are the Fiscal Officer, Clerk of Courts, Engineer, Sheriff, and Prosecuting Attorney. Common Pleas Judges, including Domestic Relations, Juvenile and Probate Courts, are also elected on a county-wide basis and serve six-year terms.

The County has significant responsibilities in the areas of general government, human services and social services, civil and criminal justice systems, police protection, road and bridge maintenance, and other miscellaneous County services. The County's Department of Environmental Services operates a sewer system and a water system. The Edwin Shaw Hospital, a comprehensive medical rehabilitation hospital, is presented in the financial statements as a discretely presented component unit.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 39, "Determining Whether Certain Organizations Are Component Units - An Amendment of GASB Statement No.14," the County of Summit's financial statements include organizations, activities, functions and component units for which the County is primarily accountable.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy

Historically, the County's economy has been associated with the rubber industry. Although the rubber industry's contributions to the economy remain substantial, the focus of that industry in the region has changed from manufacturing to research and development and administration. The Goodyear Tire & Rubber Company is the largest manufacturing employer in the County with approximately 4,000 Akron area employees.

More recently, spawned from the rubber industry, Summit County has become a national leader in the field of plastics and polymers. A recent study ranked Ohio number one in plastics and polymers. The greater Akron region is home to the largest number of polymer companies in Ohio and the industry employs more than 50,000 people in the area. Custom molders, captive molders, resin processors, and equipment manufactures all call Ohio home. More than half of the total U.S. plastic consumption occurs within 500 miles of Northeastern Ohio.

The combined resources of three major Universities, including The University of Akron and an international industrial consortium makes greater Akron one of the leading liquid crystal and polymer research and development centers in the world.

The Greater Akron Region is home to more than 600 metal working firms, often combining in a unique industrial resource network. They provide capabilities unmatched in the United States in areas ranging from steel manufacturing, metal finishing, heat treating, welding, complex machining, mold making and mold repairing using the best available technology, machinery building, rebuilding and design. More than 800 suppliers of critical elements of machine making such as steel, castings and forging, large capacity machining, molds, heat treating and plating services and commercial items including hydraulic assemblies and industrial controls are located in close proximity to Greater Akron, Ohio.

The County is the corporate headquarters for four corporations with annual sales or revenues of more than one billion dollars each. These are The Goodyear Tire & Rubber Company, FirstEnergy Corp., Jo-Ann Stores, Inc. and A. Schulman, Inc.

According to the Ohio Department of Job and Family Services, Ohio's unemployment rate, at 5.5 percent in April 2006, was down from 5.9 percent in April 2005. The national rate dropped from 5.1 percent to 4.7 percent over the year. Total employment in Ohio was 57,000 higher than April 2005, while total unemployment was down 22,000.

In the Akron Metropolitan Statistical Area, nonagricultural wage and salary employment advanced 3,300 between April 2005 and April 2006. Expansion in service-providing industries created 4,000 jobs. The leading growth sectors were professional and business services (+1,900) and education and health services (+1,200). Modest improvements in leisure and hospitality, financial activities, and trade, transportation, and utilities more than offset a decline in government. An over-the-year loss in manufacturing negated a slight improvement in natural resources, mining and construction to lower employment in the goods-producing sector.

Long-term Financial Planning

Annually, Summit County Council adopts a five year Capital Improvement Program (CIP). This program represents the County's planned investment in infrastructure to serve our businesses and citizens, as well as infrastructure to perform the basic functions of County government.

Summit County expanded its court facilities located in downtown Akron. The expansion accomplished three main objectives; it provided better service to the public and staff, created a more efficient space, and made the building more secure. The 70,000 square foot expansion houses the Domestic Relation Court and the Clerk of Courts. The three new courtrooms promote increased efficiency during court proceedings with easy access for the public. Construction was completed in August 2005. The County issued \$19,300,000 of general obligation bonds in 2003 to pay costs of the project.

The most significant project requested in 2006 is the County's contribution toward the construction of public improvements at the Akron Fulton Airport serving Lockheed Martin. These improvements are necessary for Lockheed Martin to successfully obtain a federal contract, which would result in the creation of thousands of jobs for our residents. Our partners in the project are the Summit County Port Authority, the City of Akron and Lockheed Martin.

Throughout the nest six years, one of the County's objectives is to minimize long-term operating costs through technological improvements. Significant projects in the 2006-2011 CIP include: a countywide document management system, numerous network investments and server replacements, and preparations for a future telecommunications upgrade.

For the past two years, Edwin Shaw Hospital has been in partnership with Akron General Medical Center (AGMC). With AGMC's expertise in Level I trauma, orthopedic, and rehab care as well as a certification as Summit County's only accredited stroke center, the collaborative care between these healthcare leaders has enhanced patient services and access in our area.

Effective May 15, 2005, Edwin Shaw Hospital became officially part of AGMC. Under the agreement, AGMC acquired the hospital business but not the 100 plus acre property and buildings. The County has not decided how the land and buildings will be used in the long run. Currently, AGMC is leasing the facility until their facilities are constructed on their main campus area.

Cash Management Policies and Practices

Investments and deposits of County money are governed by the State's Uniform Depository Act (the "UDA"), which is applicable to all counties. The Fiscal Officer is responsible for making investments and deposits of County moneys. The UDA requires the Fiscal Officer to comply with continuing education requirements established by the State Treasurer. As the Fiscal Officer of Summit County, I have completed all of those requirements. Under the UDA, the County has created an Investment Advisory Board, composed of the County Executive, the President of Council and the Fiscal Officer. The Investment Advisory Board has adopted an investment policy and has filed a copy of that investment policy with the State Auditor, as required by the UDA. The Investment Advisory Board meets quarterly to review or revise its policies and to advise the Fiscal Officer on the investment of County money.

As more completely described in Note 2(F) of the notes to financial statements, the County employs a consolidated cash pool to facilitate the investment of all County funds. Additional information concerning legal requirements of Ohio law and the level of custodial risk as required by GASB Statement No. 40, can be found in Note 6 of the notes to the financial statements.

Risk Management

The County Risk Manager monitors and directs the entire insurance program of County of Summit. The County maintains its property and liability coverage with various private insurance companies. A complete schedule of this coverage can be found in Table 13 of the Statistical Section.

The County participates in the State of Ohio Retrospective Rated Workers' Compensation self insurance program. This program involves the payment of a minimum premium for administrative services and stoploss coverage up front plus the actual claim costs for employees injured. The County maintains a selfinsurance program for health care benefits for County employees and their dependents. The transactions relating to these self-insurance programs are accounted for in internal service funds. Additional information on these self-insurance programs can be found in Note 22 of the notes to the financial statements.

Pension and Postemployment Benefits

The County participates in statewide pension plans, which provide healthcare benefits for their retirees. These pension plans and benefits are discussed in Notes 12 and 13 in the notes to the financial statements.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for it's comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2004. This was the nineteenth consecutive year the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Government Finance Officers Association (GFOA) presented an award of Distinguished Budget Presentation to the County for it's annual budget for the year beginning January 1, 2005. This was the third consecutive year, fifth year that the County has received this prestigious award. In order to receive this awarded, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device. This award is valid for a period of one year only.

Preparing this report for publication would not have been possible without the cooperation of each elected official and a large number of County employees. I am grateful for their assistance and cooperation.

I would like to extend my sincere appreciation to the members of my staff in the Fiscal Office. I am grateful for their professionalism and dedication in producing this report. Sincere appreciation is also extended to the County's external auditors, Rea & Associates, Inc., for their guidance and constructive assistance.

Finally, I wish to thank the citizens of the County of Summit for this opportunity to continue to improve the professionalism of financial reporting for the County.

Sincerely,

John A. Donofrio Fiscal Officer, County of Summit

Certificate of Achievement for Excellence in Financial Reporting

Presented to

County of Summit, Ohio

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended December 31, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

ACCOUNTANTS AND BUSINESS CONSULTANTS

June 27, 2006

Summit County Council Summit County, Ohio 44308

REPORT OF INDEPENDENT AUDITORS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Summit, Ohio (the County), as of and for the year ended December 31, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial results of the Children's Services Board, a major fund of the governmental activities. Those financial results were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Children's Services Board, is based on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits, and the report of other auditors, provide a reasonable basis for our opinions.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Summit, Ohio, as of December 31, 2005, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General, Job & Family Services, Children's Services Board, Alcohol, Drug Addiction & Mental Health, and Board of Mental Retardation Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

County of Summit Report of Independent Auditors June 27, 2006 Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2006, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered i in assessing the results of our audit.

Management's Discussion and Analysis on pages 13 through 19 are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements and other schedules, listed in the table of contents as supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Kea & Associates, Inc.

COUNTY OF SUMMIT, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2005 UNAUDITED

Management's Discussion and Analysis (MD&A) provides the reader with a narrative overview and analysis of the County of Summit, Ohio's (the County) financial activities for the year ended December 31, 2005. The intent of this discussion and analysis is to look at the County's financial performance as a whole. The MD&A should be read in conjunction with the County's transmittal letter, notes to financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2005 are as follows:

- The assets of the County exceeded its liabilities at the close of the year ended December 31, 2005, by \$529 million (net assets). Of this amount, \$121 million may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net assets increased \$28 million. Net assets related to governmental activities increased \$23.6 million, which represents a increase of 6.8 percent from 2004. Net assets related to business-type activities increased \$4.4 million or 2.9 percent from 2004.
- For governmental activities, general revenues accounted for \$191.7 million in revenues or 48.2 percent of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$205.9 million or 51.8 percent of total revenues of \$397.6 million.
- The County had \$395.6 million in expenses related to governmental activities; only \$205.9 million of these expenses were offset by program specific charges for services, operating and capital grants or contributions. General revenues (primarily taxes) of \$191.7 million were adequate to provide for these programs.
- Among major funds, the General Fund had \$111.2 million in revenues and \$104.4 million in expenditures. The General Fund's balance decreased to \$72.2 million, a decrease of \$.2 million from 2004.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$64.4 million or 61.7 percent of total General Fund expenditures.
- The County's total debt decreased \$14.2 million during the current year. The key factor for this decrease was scheduled debt payments of approximately \$13.6 million and early payments made in December 2005, due January 2006.

USING THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the County of Summit as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The County's basic financial statements comprise three components: 1) county-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The Statement of Net Assets and Statement of Activities provide information about the activities of the County as a whole and presents a long-term view of the County's finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell the reader how services were financed in the short term, as well as, what remains for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of the County, the General Fund is the most significant fund.

REPORTING THE COUNTY AS A WHOLE

Statement of Net Assets and the Statement of Activities

The analysis of the County as a whole begins on page 20. One of the most important questions asked about the County's finances is, "How did we do financially during 2005?" The Statement of Net Assets and the Statement of Activities report information about the County as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual method of accounting similar to the accounting used by most private-sector companies. This method of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the County as a whole, the financial position of the County has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's tax base, current property tax laws in Ohio restricting revenue growth, and other factors.

In the Statement of Net Assets and the Statement of Activities, the County is divided into two distinct kinds of activities:

- Governmental Activities Most of the County's programs and services are reported here including general government, public safety, public works, and health and human services. These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- Business-Type Activities These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided.

The government-wide financial statements can be found on pages 20-21 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds, not on the County as a whole. The County's major governmental funds are: the General Fund; Job & Family Services; Children Services Board; Alcohol, Drug Addiction & Mental Health; and Board of Mental Retardation.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on events that produce near-term inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the year. This information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found on pages 22-25 of this report.

The County adopts an annual appropriated budget for its General Fund. Budgetary comparison statements have been provided for all annually budgeted funds to demonstrate compliance.

Proprietary funds: The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for its water and sewer operations. Internal service funds are an accounting device used to accoundate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its office services, self-insurance programs, workers' compensation, telephone systems and Internal Audit. The basic proprietary fund financial statements can be found on pages 31-34 of this report.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on page 35 of this report.

Notes to financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. Notes to financial statements can be found on pages 36-59 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements, schedules and statistical section, which can be found on pages 61-137 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$529 million (\$373 million in governmental activities and \$156 million in business-type activities) at the close of the most recent year. The County's financial position improved for both governmental and business-type activities.

A large portion of all of the County's net assets (66.1 percent) reflect its investment in capital assets (e.g., land, buildings, infrastructure, and machinery and equipment), less any related debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

County of Summit, Ohio - Net Assets (in thousands)

		mental vities	Business Activ		Tot	al
	2005	2004	2005	2004	2005	2004

Total Liabilities	270,134	272,017	88,953	90,317	359,087	362,334

Net Assets

Invested in Capital assets,

=								
Net of Related Debt	205,82	9	173,820	143,917	137,182	349,746	311,002	
Restricted	58,37	0	61,773			58,370	61,773	
Unrestricted	108,86	0	 113,874	 12,049	 14,355	 120,909	 128,229	
Total Net Assets	\$ 373,05	9	\$ 349,467	\$ 155,966	\$ 151,537	\$ 529,025	\$ 501,004	

An additional portion of the County's net assets, \$58.4 million (11 percent), represents resources that are subject to external restrictions on how they may be used. The remaining balance, \$121 million (22.9 percent), of unrestricted net assets may be used to meet the County's ongoing obligations to citizens and creditors.

At the end of the current year, the County is able to report positive balances in all three categories of net assets, both for the County as a whole, as well as for its separate governmental and business-type activities.

GOVERNMENTAL ACTIVITIES

Human Service accounts for \$126.7 million of expenses out of \$395.6 million total expenses for governmental activities, or 32 percent of that total. The next largest program is Health, accounting for \$111.9 million, which represents 28.3 percent of total governmental expenses.

Tax revenue accounts for \$159.6 million of the \$397.6 million total revenue for governmental activities or 40.1 percent of total revenue.

Of the \$395.6 million expenditures in governmental activities, \$46.7 million were covered by direct charges to the recipients of those services. The majority of the charges for services were derived from tax settlements, administrative fees, recording real estate transfers, and title and court fees. Charges for safety services included fees for boarding prisoners, policing contracts and special details for sheriff deputies.

Additional program revenues provided by the State and Federal governments included \$159.2 million for operations, or 40 percent of total governmental revenue. As the Statement of Activities shows, the majority of the intergovernmental revenues are grants and subsidies to provide health and human services.

BUSINESS-TYPE ACTIVITIES

Business-type activities increased the County's net assets by \$4.4 million during the year 2005. The major revenue source was charges for services of \$29.6 million or 72.1 percent of total revenues.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As discussed previously, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds: The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a county's net resources available for spending at the end of the year.

As of the end of the current year, the County's governmental funds reported combined ending balances of \$163.4 million, a decrease of \$14.2 million in comparison with the prior year. Approximately 77 percent of this total amount (\$125.8 million) constitutes unreserved fund balance, which is available for appropriation at the County's discretion within certain legal constraints and purpose restrictions. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$31.5 million), 2) to pay debt service (\$4.3 million), or 3) for a variety of other restricted purposes (\$1.8 million). While the bulk of the governmental fund balances are not reserved in the governmental fund statements, they lead to restricted net assets on the Statement of Net Assets, due to their being restricted for use for a particular purpose mandated by the source of the resources, such as the State or federal government or the tax levy.

The General Fund is the chief operating fund of the County. The fund balance of the County's General Fund decreased \$.2 million during the current year to \$72.2 million. The unreserved fund balance of the General Fund was \$64.4 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 61.7 percent of total General Fund expenditures, while total fund balance represents 69.1 percent of this increase includes but is not limited to increased charges for services, operating grants and contributions, sales tax revenues, increased property transfer taxes, which were larger than the increased in expenditures for Judicial, Public Safety and Human Services from prior year.

Transfers from the General Fund to other governmental and internal service funds, amounted to \$7.4 million and are discussed later in this analysis.

Job and Family Services deficit fund balance increased by \$4.8 million. This is due to decreases in grant funding and increases in expenditures in the workforce development program and workforce investment act program.

Children Services Board fund balance decreased by \$1.5 million. Although there was a increase in property taxes and charges for service, expenditures increased as a result of increased costs in the Paid Placement program along with salary and benefits for employees and foster care, adoption and medical costs for children.

The Alcohol, Drug Addiction and Mental Health fund balance decreased by \$.1 million. Increases in property taxes and intergovernmental revenue of approximately \$1.9 million were not enough to offset the increase of approximately \$3.2 million in health expenditures during the year.

The Mental Retardation Board fund balance decreased by \$.7 million. Although both revenues and expenditures decreased during the year expenditures still exceeded revenues to cause the decrease.

The Debt Service Fund had a total fund balance of \$3.8 million, which is unrestricted, is an increase during the current year of \$.2 million. Although both revenues and expenditures decreased during the year, the decrease in interest and fiscal charges was enough to cause an increase in the fund balance.

Enterprise Funds: The County's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

Unrestricted net assets for Water Revenue (\$2.9 million) and Sewer Revenue (\$9.3 million) Funds at the end of the year amounted to \$12.2 million. The increase of net assets (\$4.4 million) was due largely to an increase in revenues from customers (a new development was completed and a increase in water and sewer rates) and a reduction in the interest expense.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budgeting process is prescribed by the Ohio Revised Code. Essentially, the budget is the County's appropriations, which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with Ohio Revised Code. Therefore, the County's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity then the appropriations can be adjusted, accordingly. All elected officials worked closely with the County Council to reduce, maintain, or hold down increases in departmental expenditures.

During the year, there was a \$10.2 million increase in appropriations between the original and final budget. Following are the main components of the increase:

- \$1.9 million supplemental appropriations in General Government Legislative and Executive, in the departments of; Physical Plants and Fiscal Office.
- \$.5 million supplemental appropriations in General Government Judicial, in Common Pleas Court, Probate Court and Domestic Relations Courts.
- \$3.3 million supplemental appropriations in Public Safety, for the Sheriffs' General and Jail operations, Policing rotary services; Building regulations and Adult Probation.
- \$4.6 million supplemental appropriations in Human Services for subsidies and shared revenues.

These increases were possible because of additional revenues from property tax (\$.5 million), sales tax (\$1.3 million), additional fees collected (\$1.9 million), increase in intergovernmental revenues of \$.3 million and other revenue increases of approximately \$.5 million. These increases along with the addition of approximately \$9.1 million prior year commitments not included in the original budget are the primary sources for the increases in appropriations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: The County's investment in capital assets, for its governmental and business type activities as of December 31, 2005, amounts to \$506.9 million (net of accumulated depreciation). The investment in capital assets includes land, buildings, building improvements, machinery and equipment, sewer/water lines, and infrastructure. The total increase in the County's investment in capital assets for the fiscal year was 9 percent (a 15.6 percent increase in governmental activities and a 1.8 percent increase for business-type activities).

Major capital asset events during the current fiscal year included the following:

- Construction completed on the Domestic Relations Court expansion project.
- Continued construction on the Jail project expansion; construction in progress as of the close of the fiscal year had reached \$.2 million.
- Continued construction on the Visitation/Respite Center building project; construction in progress as of the close of the fiscal year had reached \$.2 million.
- Continued construction on the Tuscarawas Avenue Bridge replacement; construction in progress as of the close of the fiscal year had reached \$8.8 million.
- Continued construction on the Arlington Road improvement project; construction in progress as of the close of the fiscal year had reached \$1.2 million.
- Continued construction on the Munroe Falls Dam project; construction in progress as of the close of the fiscal year has reached \$1.2 million.
- Continued construction on various sewer lines, plant/facility improvements and expansions, and wastewater treatment studies; construction in progress as of the close of the fiscal year had reached \$2 million.

Additional information on the County's capital assets can be found in Note 11 of the Notes to Financial Statements.

Long-term Debt: At the end of the current fiscal year, the County had total bonded debt outstanding of \$138.5 million, net of the outstanding premium. Of this amount, \$77.8 million comprises debt backed by the full faith and credit of the County and \$60.7 million is special assessment debt for which the County is liable in the event of default by the property owner subject to the assessment. The County's long-term bonded debt decreased \$9.6 million (6.5 percent) during the current fiscal year.

The County's outstanding uninsured general obligation bonds are currently rated "AA" by Standard & Poor's Rating Services, "Aa2" by Moody's Investors Service, and "AA" by Fitch Ratings. Certain of the County's general obligation bonds are insured by AMBAC Indemnity Corporation, MBIA Insurance Corporation, and Financial Guaranty Insurance Company (FGIC). All of those insured general obligation bonds are rated "AA" by Fitch. State by Moody's and "AA" by Standard & Poor's. The bonds insured by FGIC are also rated "AA" by Fitch. State statute limits the total amount of debt a government entity may issue. The current debt limitation for the County is \$229.5 million, which is significantly higher than the County's outstanding net debt.

In addition to the bonded debt, the County's other long-term obligations include compensated absences, claims and judgments, and capital leases. Additional information on the County's long-term debt can be found in Note 17 of this report. Notes 15 and 16 discuss capital leases and compensated absences.

Interest and fiscal charges amounted to 1 percent of the total expenses for governmental activities.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate for the County is currently 5.8 percent, which decreased from a rate of 6.1 percent a year ago. This rate is close to the State's average unemployment rate of 5.9 percent and comparable to the national average of 5.1 percent.

Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing the County's budget for 2006. At the end of the fiscal year 2005, unreserved fund balance in the General Fund amounted to \$64.4 million, an increase of approximately \$.4 million.

COMPONENT UNIT - EDWIN SHAW HOSPITAL

The component unit is included in the County's reporting entity because of the significance of its financial relationship with the County. Additional information for the discretely presented component unit maybe obtained at entity's administrative offices: Edwin Shaw Hospital, 1621 Flickinger Road, Akron, Ohio, 44312.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the County's finances for all those with an interest in its finances and to show the County's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the County of Summit Fiscal Office, 175 South Main Street - Suite 400, Akron, Ohio 44308-1354.

County of Summit, Ohio NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2005

1. DESCRIPTION OF COUNTY OF SUMMIT and REPORTING ENTITY

The County of Summit is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the Constitution and laws of the State of Ohio (State). The County was formed by an enabling act of the Ohio State Legislature in 1840. The County operates under a council-executive form of government, as provided by its charter, the only county in Ohio operating under a Home Rule Charter. Per the Charter, there are eleven elected County Council members and a County Executive. The County Fiscal Officer is the chief fiscal officer. In addition, there are four other elected administrative officials, Prosecutor, and Sheriff. There are also eight Common Pleas Court Judges, two Domestic Relations Court Judges, one Juvenile Court Judge, and one Probate Court Judge.

A reporting entity is comprised of the primary government, component unit and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of funds, departments, boards and agencies that are not legally separate from the County. For the County of Summit, this includes the Children Services Board (CSB), Board of Mental Retardation and Developmental Disabilities (MRDD), Alcohol, Drug Addiction & Mental Health Services Board (ADAMHS), Job & Family Services (JFS), and all departments and activities that are directly operated by the elected County Officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the component unit's board and either 1) the County's ability to impose its will over the component unit, or 2) the possibility that the component unit will provide a financial benefit or impose a financial burden to the County.

The component unit column on the Statement of Net Assets and Statement of Activities identify the financial data of the County's discretely presented component unit, Edwin Shaw Hospital. It is reported separately to emphasize that it is legally separate from the County.

Edwin Shaw Hospital is a discretely presented component unit in the County's financial statements. The Hospital is a separate legal entity that provides health care, primarily on an inpatient basis, in the specialty medical areas of physical medicine and rehabilitation, chemical dependency treatment and skilled nursing. The Hospital is governed by its own board, the members of which are appointed by the County Executive with the approval of County Council. In addition, County Council must approve levied taxes and the issuance of debt. The component unit is included in the County's reporting entity because of the discretely presented component unit may be obtained at the entity's administrative offices: Edwin Shaw Hospital, 1621 Flickinger Road, Akron, Ohio, 44312-4495.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) BASIS OF PRESENTATION

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or after November 30, 1989, to its governmental and business-type activities and to significant of the County's accounting policies are described below.

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements:

The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service funds is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the businesstype activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements:

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

(B) FUND ACCOUNTING

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds:

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

General - This fund accounts for the general operating revenues and expenditures of the County not recorded elsewhere. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio. The primary revenue sources are property taxes, sales and use tax, charges for services, intergovernmental revenues and investment earnings.

Job & Family Services - This fund accounts for various Federal and State grants as well as transfers from the General fund used to provide public assistance to general relief recipients, medical assistance and certain public social services.

Children Services Board - This fund accounts for countywide property tax levy, state grants and reimbursements used for County child care programs. State law restricts the expenditure of these resources to programs designed to aid children from troubled families. Major expenditures are for foster homes, emergency shelters, medical costs, counseling and parental training.

Alcohol, Drug Addiction & Mental Health Services - This fund accounts for Federal and State grants that are extended primarily to pay the costs of contracts with local mental health agencies which provide services to the public at large including mental health and alcohol and drug programs.

Board of Mental Retardation - This fund accounts for a countywide property tax levy, state grants and reimbursements used for care and services for the mentally handicapped and developmentally disabled.

Debt Service - This fund accounts for the accumulation of resources for, and the payment of, general long term debt principal, interest and related costs other than enterprise debt.

The other governmental funds of the County account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds:

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds - These funds are used to account for operations that provide services, which are financed primarily by user charges, or activities where periodic measurement of income is appropriate for capital maintenance, public policy, management control or other purposes. These funds account for the provision of water and sewer services to external users throughout the County. All activities necessary to provide such services, including capital projects and debt financed by user charges, are accounted for in these funds. Water Revenue and Sewer Revenue funds are reported as major funds of the County.

Internal Service Funds - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service funds are: Office Services, Medical Self-Insurance, Workers' Compensation, Telephone Services and Internal Audit.

Fiduciary Funds:

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The County only maintains agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The County's agency funds are primarily established to account for the collection of various taxes, as well as other intergovernmental resources that will be distributed to other taxing districts located within the County of Summit.

(C) MEASUREMENT FOCUS

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the Statement of Net Assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the governmentwide statements and the statements for governmental funds. Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Agency funds do not report a measurement focus as they do not report operations.

(D) BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements, proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue and in the presentation of expenses versus expenditures.

1. **Revenues - Exchange and Nonexchange Transactions:** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. The availability period used for the recognition of revenue is sixty days.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 7) Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: sales and use taxes (See Note 8), investment income, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Unearned Revenue: Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2005, but which were levied to finance year 2006 operations, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue.

Expenses/Expenditures: On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

(E) BUDGETARY DATA

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than certain special revenue funds (operating on a different fiscal year), capital project funds and agency funds, are required by law to be budgeted and appropriated. The legal level of budgetary control is at the object level within each department. Although statutory law requires that all funds be budgeted, it is not necessary to do so if the County Budget by resolution does not anticipate any cash activity for certain funds. Budgetary modifications may only be made by resolution of the Budget Commission.

TAX BUDGET

A budget of estimated revenues and expenditures is submitted to the County of Summit Fiscal Officer, by July 20 of each year, for the period January 1 to December 31 of the following year.

ESTIMATED RESOURCES

The County Budget Commission reviews estimated revenues and determines if the budget substantiates a need to levy all or part of previously authorized taxes. The Commission certifies its actions to the County by September 1. As part of this certification, the County receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. On or about January 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be amended further during the year if the County of Summit Fiscal Officer determines, and the Budget Commission agrees, that an estimate needs to be increased or decreased.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during 2005.

APPROPRIATIONS

A temporary resolution to control expenditures may be passed on or around January 1 of each year for the period January 1 to March 31. An annual appropriation resolution must be passed by April 1 of each year for the period January 1 to December 31. Each County department, in conjunction with the Office of Finance & Budget, prepares a budget that is approved by County Council. Throughout the year modifications and amendments to the original budget must be processed by the Office of Finance & Budget and approved through legal resolution by County Council. Each revised budget includes all modifications and supplemental appropriations that were necessary during the year. The County maintains budgetary control by fund, function, organizational unit, and object class and does not permit expenditures/expenses and encumbrances to exceed appropriations.

LAPSING OF APPROPRIATIONS

At the close of each year, unencumbered and unexpended appropriations in annually budgeted funds revert to the respective fund from which they were appropriated. As required by State law, the Delinquent Tax Assessment Collection fund must rollover the unexpended appropriations at the end of the year.

(F) DEPOSITS AND INVESTMENTS

To improve cash management, cash received by the County is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the County's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements. The County has segregated bank accounts for monies held separate from the County's central bank account. These monies are presented in the financial statements as "Cash and Cash Equivalents - Segregated Accounts" since they are not required to be deposited into the County treasury.

During 2005, investments were limited to Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Bonds, Government Treasury Certificates, Repurchase Agreements, Money Market Funds and STAROhio.

The County has the ability and the intent to hold all investments to maturity. County policy requires interest earned on investments to be credited to the General Fund except where there is a legal requirement that the interest income follow the principal. Any increase or decrease in fair value is reported as a component of interest income.

The County has invested in the State Treasury Assets Reserve of Ohio (STAROhio) during 2005. STAROhio, which is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner that is consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on December 31, 2005.

Equity in Pooled Cash and Investments include all liquid deposits and investments with maturity of three months or less when deposited or purchased.

(G) MATERIAL AND SUPPLIES INVENTORY

On government-wide financial statements, inventories are presented at the lower of cost or market on a firstin, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when consumed. Inventories of the enterprise fund are expensed when used.

(H) PREPAID ITEMS

Payments made to vendors for services that will benefit periods beyond December 31, 2005, are recorded as prepaid items, using the allocation method by recording a current asset for the prepaid amount and reflecting the expenditure in the year in which services are consumed.

(I) CAPITAL ASSETS AND DEPRECIATION

Capital assets, including property, plant, equipment and infrastructure assets, are those assets, which are associated with and generally arise from governmental activities. Capital assets generally result from expenditures in the governmental funds. Capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements, except for internal service funds, which are reported in both. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide statement of net assets and in the fund financial statements.

In the case of the initial capitalization of general infrastructure assets, associated with governmental activities, the County chose to include all such items regardless of their acquisition date or amount. The County was able to estimate the historical cost for the initial reporting of these assets by estimating the current replacement cost of the infrastructure to be capitalized and using a price index to adjust the cost to the acquisition or estimated acquisition year. Capital assets, including infrastructure, are capitalized at cost (or estimated historical cost). Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets are defined as assets with an individual cost of \$5,000 and an estimated useful life in excess of one year. The County's infrastructure consists of roads, bridges, culverts and similar items. Improvements are capitalized, while the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise fund is also capitalized. The total interest expense incurred by the County during the current fiscal year was \$8,964,225. Of that, \$3,991,549 and \$4,972,676 represent governmental activity and proprietary activity, respectively.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following estimated useful lives:

Governmental Activities- Estimated Lives		
Land Improvements	15	years
Buildings and Building Improvements	40	years
Machinery and Equipment	3-7	years
Intangibles	3	years
Infrastructure	20-50	years
Business-Type Activities- Estimated Lives Buildings and Building Improvements Machinery and Equipment Pump Stations Treatment Plants Water Towers Sewer/Water Lines	35 15 25 25 50 75	years years years years years years years

Governmental Activities- Estimated Lives

(J) INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due To/From Other Funds". These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

(K) COMPENSATED ABSENCES

The liability for compensated absences is based on the provisions of GASB Statement No. 16, "Accounting for Compensated Absences" as interpreted by Interpretation No.6 of the GASB, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

The entire compensated absence liability is recorded on the government-wide financial statements. For governmental funds, the County records a liability for accumulated, unused, vacation time when earned for all employees with more than one year of service. The County records a liability for accumulated, unused, sick leave for eligible employees in the period in which the employee becomes eligible to receive payment. The current portion of unpaid compensated absences is the expected amount to be paid using expendable available resources, and is reported in the governmental funds. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The non-current portion of the liability is not reported. In the proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a fund liability.

(L) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

County payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported in the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities, once incurred, are paid in a timely manner and in full from current financial resources and are reported as obligations of the funds. However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability in the governmental fund financial statements when due.

(M) FUND BALANCE RESERVES

Reserved fund balances indicate that a portion of fund equity is not available for current appropriation or use or is legally segregated for a specific future use. Fund balance reserves have been established for encumbrances, prepaid items, material & supplies and loans. The unreserved portions of fund equity reflected for the governmental funds are available for use within the specific purposes of the funds.

(N) NET ASSETS

Net Assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

(O) OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenditures not meeting these definitions are classified as Nonoperating.

(P) CONTRIBUTIONS OF CAPITAL

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

(Q) INTERFUND ACTIVITY

During the normal course of operations, the County has numerous transactions between funds. These transactions include charges for services provided by one fund to other funds and transfers, which represent transfers of resources from a fund receiving revenue to a fund through which those resources will be expended. Transfers are recorded as other financing sources (uses) in governmental funds and transfers in (out) in the proprietary funds.

(R) ESTIMATES

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

(S) GRANTS AND OTHER INTERGOVERNMENTAL REVENUES

Local Government fund revenues are recorded as receivables and revenues when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement type grants for the acquisition or construction of capital assets are recorded as receivables and contributed capital when the related expenses are incurred. All other Federal and State type grants are recorded as receivables and revenues when the related expenses are incurred.

(T) ACCOUNTING STANDARDS

The GASB issued Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, which requires the government to report the effect of capital asset impairment when it occurs and to account for insurance recoveries in a similar manner. The implementation of this statement has made no impact on the County's financial reporting or results of financial position for 2005.

(U) SPECIAL ITEMS

Special items are transactions or events that are within the control of the County and that are either unusual in nature or infrequent in occurrence. In 2005, those items represented \$1,613,084 of Port Authority debt that the County forgave. Capital assets that were held in the County's name but reported on Edwin Shaw Hospitals financial statements, until it's sale. Those capital assets were returned and reported at their fair market value of \$23,199,020.

3. RESTATEMENT OF NET ASSETS

Fund Reclassification

The accounting and reporting treatment applied to funds is determined by its measurement focus. The Emergency Management Agency fund has been reclassified in 2005, from an Agency Fund to a Special Revenue Fund, to reflect its proper measurement focus.

As a result of this reclassification, the beginning Net Assets have been restated for the Governmental Activities as follows:

	Governmental Activities	
Net Assets as Stated at December 31, 2004	\$ 349,769,305	
Cumulative effect of Fund Reclassification	(302,642)	
Net Assets as Restated at January 1, 2005	\$ 349,466,663	
Fund Balance as Stated at December 31, 2004	\$ 177,930,504	
Cumulative effect of Fund Reclassification	(302,642)	
Fund Balance as Restated at January 1, 2005	<u>\$ 177,627,862</u>	

4. DEFICIT FUND BALANCES AND DEFICIT NET ASSETS/LEGAL COMPLIANCE

At December 31, 2005, the special revenue fund, Job & Family Services had a deficit fund balance of \$5,724,263. And, the internal service funds, Telephone Services and Internal Audit had deficit net assets of \$54,723 and \$53,360, respectively. The deficit fund balances/net assets occurred due to the recognition of liabilities applicable to accrued payables.

Contrary to Ohio Revised Code Section 5705.41(b), the following line items in the fund below had expenditures plus encumbrances in excess of appropriations at December 31, 2005:

Other Special Revenue Fund:	
Courts - Legal Research - Other Expense	\$ 29,395
Probate Court - Courthouse Historical Display - Other Expense	7,000
Conduct of Business - Other Expense	14,795
Indigent Guardianship - Other Expense	63,422
Common Pleas Court - Special Projects - Personnal Services	113,514

5. BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual are presented in the basic financial statements for the General Fund and Major Special Revenue Funds. The major differences for those funds between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/Expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Outstanding year-end encumbrances are treated as expenditures/expenses (budget) rather than as a reservation of fund balance for governmental fund types (GAAP).

Transfers will not equal on a non-GAAP budget basis. The special revenue funds not budgeted annually are as follows: Governmental Grants, certain Other Special Revenue, Akron Zoo Project and Capital Project Funds.

5. BUDGETARY BASIS OF ACCOUNTING (Continued)

The adjustments necessary to convert the results of operations for the year from the Non-GAAP Budget Basis to the GAAP Basis for the governmental funds are as follows:

	Gene	ral and Major	Spe	ecial Revenue		
	General	Job & Family Services		Children Services Board	Alcohol, Drug Addiction & Mental Health	Board of Mental Retardation
Budget Basis	\$ (7,826,941) \$	(14,073,099)	\$	(7,839,779)	\$ (5,031,939)	\$ (2,440,139)
Net Adjustments for						
Revenue Accruals	(2,580,777)	(2,386,190)		1,621,897	(143,554)	(9,961,968)
Net Adjustments for						
Expenditure Accruals	10,209,817	11,685,568		4,767,858	5,055,495	11,698,192
GAAP Basis	\$ (197,901) \$	(4,773,721)	\$	(1, 450, 024)	\$ (119,998)	\$ (703,915)

Net Change in Fund Balance

6. DEPOSITS AND INVESTMENTS

The County maintains a cash and investment pool that is available for use by all fund types, general, special revenue, debt service, capital projects, enterprises, internal service and agency. Each fund type's portion of the pool is presented on the Fund Balance Sheets as "Equity in Pooled Cash and Investments."

Custodial Credit Risk - Deposits: Pursuant to O.R.C. 135.181, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 105% of the public funds deposited. At least quarterly, the County determines the collateral has a market value adequate to cover deposits. Collateral is held by trustees, including the Federal Reserve Bank and designated third party trustees, of the financial institutions.

At December 31, 2005, the carrying amount of the County's deposits was \$16,462,342 and the bank balance was \$27,243,189. The difference in the carrying amount and the bank balance were items in transit. Of the bank balance:

- 1. \$2,237,577 was covered by federal depository insurance.
- 2. \$25,005,612 was held in a public fund collateral pool by third party trustees pursuant to Section 135.181, Ohio Revised Code. Although all statutory requirements for the deposit of money had been followed, under GASB Statement No. 3, this money is considered uninsured and uncollateralized.

Investments

The County Council and the County Investment Advisory Board has approved its investment policy and has filed the policy with the Auditor of State, pursuant to Ohio Revised Code 135.35. The County is authorized to invest in U.S. Treasury Bills, Notes and Bonds; various federal agency securities including issues of the Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Student Loan Marketing Association (SLMA), Government National Mortgage Association (GNMA), and other agencies or instrumentalities of the United States. Eligible investments include securities that may be purchased at premium or a discount. All Federal agency securities shall be direct issuances of the federal government agencies or instrumentalities. Commercial paper and Banker Acceptances rated in the highest category by a nationally recognized rating agency. Certificates of deposits from eligible institutions. No load money market funds rated in the highest category by a nationally recognized rating agency. Repurchase agreements and securities lending agreements and the State Treasurer's Investment pool.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Interest Rate Risk - The market value of securities in the County's portfolio will increase or decrease based upon changes in the general level of interest rates. Maintaining adequate liquidity so that current obligations can be met without a sale of securities and diversification of assets will minimize the effects of the market value fluctuations.

Credit Risk - Credit risk will be minimized by diversifying assets by the issuer and ensuring that required minimum credit quality ratings exist prior to the purchase of commercial paper and bankers acceptances and maintaining adequate collateralization of CD's pursuant to the method as determined by the Chief Fiscal Officer. As of December 31, 2005, the County's investment in StarOhio were rated AAA by Standard and Poor's and Aaa by Moody's Investor Services.

6. DEPOSITS AND INVESTMENTS (Continued)

As of December 31, 2005, the county had the following investments:

		Investment Maturities (In Years)			
Investment type	Fair Value	Less Than 1	1 - 3	4 - 5	
U.S. Treasury Notes	\$ 1,400,998	\$ 469,306	\$ 657,358	\$ 274,334	
U.S. Treasury Bills	1,005,443	1,005,443	_	-	
U.S. Agencies	151,426,986	73,493,917	77,753,659	179,410	
Money Market Mutual Funds	67,614,861	67,614,861	_	-	
StarOhio	301,026	301,026	_	-	
Repurchase Agreements	4,681,648	4,681,648	_	-	
Total Fair Value	\$ 226,430,963	\$ 147,566,202	\$ 78,411,017	\$ 453,744	

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's custodial credit risk policy is stated in Investments policy described above. Of the county's \$4,025,289 investment in repurchase agreements, \$4,025,289 of the underlying securities are held by the investment's counterparty, not in the name of the County.

A reconciliation of cash and investments as shown on the Financial Statements is as follows:

Cash on Hand	\$ 2,031,159	Equity in Pooled Cash and Investments	\$226,186,651
Carrying amount of Deposits	16,462,342	Cash and Cash Equivalents -	
Fair Value of Investments	226,430,963	Segregated Accounts	18,747,813
Total	\$244,924,464	Total	\$244,924,464

Certain disbursements for accounts within various funds have been made from the "Equity in Pooled Cash and Investments" account in excess of their individual equities. The balance of these amounts has been reported in the balance sheet as "Due To/From Other Funds." The following fund had a deficit cash balance:

Fund		h Deficit
Special Revenue - Job & Family Services	\$	999,521

7. PROPERTY TAX REVENUES

Property taxes include amounts levied against all real, public utility and tangible (used in business) property located in the County. Real property taxes, for 2004, were levied after October 1, 2004, on the assessed value as of January 1, 2004, the lien date, and were collected in 2005. Assessed values are established by State Law at 35% of appraised market value. Public utility property taxes received in 2005 attached as a lien on December 31, 2003, were levied after October 1, 2004, and were collected with real property taxes.

Public utility property taxes are assessed on tangible personal property at true value. Tangible personal property taxes, for 2005, were levied after October 1, 2004, on the value listed as of December 31, 2004, and were collected in 2005. Tangible personal property assessments are 25% of true value for capital assets and 23% for inventory. The assessed value upon which the 2004 taxes were collected was \$12,129,519,910. The full tax rate for all County operations applied to real property for fiscal year ended December 31, 2005, was \$12,22 per \$1,000 of assessed valuation. The assessed values of real and tangible personal property upon which 2005 property tax receipts were based are as follows:

Real Property	\$10,745,803,130
Public Utility	326,736,920
Tangible Personal Property	792,734,895
Total Assessed Value	\$11,865,274,945

Real and public utility property taxes are payable annually or semi-annually. If paid annually, payment is due January 20; if paid semi-annually, the first payment is due January 20 with the remainder payable by June 20. Under certain circumstances, state statute permits earlier or later payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single-county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30 with the remainder payable by September 20.

The County Fiscal Officer collects property taxes on behalf of all taxing districts within the County. The County Fiscal Officer - Auditor's Division periodically remits to the taxing districts their portions of the taxes collected. Collection of the taxes and remittance of them to the taxing districts are accounted for in various funds of the County.

Property taxes receivable represent delinquent taxes and outstanding real property, public utility and tangible personal property taxes, which were measurable at December 31, 2005. Total property tax collections for the next fiscal year are measurable amounts. However, since these revenue collections to be received during the available period are not subject to reasonable estimation at December 31, nor are they intended to finance 2005 operations, the receivable is offset by a credit to Deferred Revenue.

8. SALES AND USE TAX

For the purpose of providing additional revenues, the County has levied a tax at the rate of one-half of one percent upon certain retail sales and upon the storage, use, or consumption of tangible personal property within the County. This levy is in addition to the five percent statewide sales tax levy. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five (45) days after the end of each month. The State Auditor then has five (5) days in which to draw the warrant payable to the County.

Proceeds of the tax are credited entirely to the General Fund. Amounts that have been collected by the State and are to be received within sixty days of year-end are accrued as revenue, as measurable and available. A receivable is recognized at year-end for amounts that will be received from sales, which occurred during 2005. On a full accrual basis, the full amount of the receivable is recognized as revenue. On a modified accrual basis, the amount of the receivable that will be received outside of the available period is deferred. As of December 31, 2005, sales tax revenues amounted to approximately \$35.8 million.

9. RECEIVABLES

Receivables, at December 31, 2005, consisted of taxes, accounts (billing for user charged services, including unbilled utility services), special assessments, accrued interest, loans and intergovernmental receivables arising from grants, entitlements, and shared revenues. The County has implemented GASB No. 38 "Certain Financial Statement Note Disclosures" which modifies disclosure requirements related to the summary of significant accounting policies. The County of Summit presents receivables on the statement of net assets and the combining balance sheet as disaggregated major components, therefore, full note disclosure is not required. Special assessments, accrued interest and intergovernmental receivables are deemed collectible in full. Delinquent accounts receivable may be certified and collected as a special assessment, subject to foreclosure for nonpayment. The County has \$971,333 in current special assessments at December 31, 2005, of that amount \$777,737 is delinquent and an allowance has been provided.

The County applies the provisions of GASB No. 6 in accounting for and reporting special assessments and related transactions. The County's special assessments are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Accordingly, they are accounted for and reported in the government-wide financial statement as governmental or business-type activities based on the purpose of the assessment. Long-term special assessments expected to be collected in more than one year amount to \$908,271 in the Business-type activities column. The special assessments receivable in the Other Special Revenue Funds represent Engineer's ditch maintenance, a service-type assessment, which is expected to be collected in more than one year and amounted to \$411,287 at December 31, 2005.

10.FEDERAL FOOD STAMP PROGRAM

The County Department of Job and Family Services distributes, through contracting issuance centers, federal food stamps to entitled recipients within the County. The receipt and issuance of these stamps have the characteristics of a federal "grant"; however, the Department of Job and Family Services merely acts in an intermediary capacity. Therefore, the inventory value of these stamps is not reflected in the accompanying financial statements as the only economic interest related to these stamps rests with the ultimate recipient. The County Department of Job and Family Services had on hand for distribution \$2,003 of federal food stamps at December 31, 2005.

11. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2005, was as follows:

Governmental Activities:	 Beginning Balance	Additions/ Transfers	Deletions/ Transfers	Ending Balance
Nondepreciable Capital Assets:

12. DEFINED BENEFIT PENSION PLAN

All full-time employees of the County of Summit participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans: 1) Traditional Pension Plan (TP) - a cost-sharing multiple-employer defined benefit pension plan; 2) Member-Directed Plan (MD) - a defined plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year), under MD, members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings; and 3) Combined Plan (CO) - a cost-sharing multiple-employer defined benefit pension plan, under CO, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the Traditional Plan. Member contributions are self-directed investments by the member, which accumulate retirement assets in a manner similar to the Member-Directed Plan. OPERS provides retirement, disability, survivors and death benefits and annual cost of living adjustments to members of the Traditional and Combined Plans. The MD does not qualify for ancillary benefits. The Ohio Revised Code, Chapter 145 assigns the authority to establish and amend benefits to the OPERS Board of Trustees. OPERS issues a stand-alone financial report, a copy of which may be obtained by mailing a written request to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-6701 or 1-800-222-PERS (7377).

The Ohio Revised Code provides statutory authority for member and employer contributions. The contribution rates were consistent across all three plans (TP, MD and CO). Separate divisions for law enforcement and public safety exist only within the Traditional Plan. Member contribution rates are 8.5% for members other than law enforcement and public safety. The law enforcement classification consists of sheriffs, deputy sheriffs and township police with a contribution rate of 10.1%. Public safety division members contribute at 9%. The employer contribution rate is 13.55% of covered payroll except for the law enforcement and public safety divisions, which is 16.70%. The employer contributions from the County to OPERS for the years ended 2005, 2004 and 2003 were \$21,583,725, \$21,977,447 and \$18,693,567, respectively. 96% has been contributed for 2004 and 2003.

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

In addition to the pension benefits described in Note 12, the Ohio Public Employees Retirement System provides post-retirement health care benefits to qualifying members of both the Traditional and Combined Plans. Members of the MD do not qualify for ancillary benefits, including post-employment health care coverage. To qualify for postretirement health care coverage, age and service retirees must have ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor recipients is available. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care. The OPERS law enforcement program is separated into two divisions, law enforcement and public safety, with separate employee contribution rates and benefits. The employer contribution rate for the year 2005, for local government employer units was 13.55% of covered payroll, of which 4.00% was the portion used to fund health care for the year. For both the law enforcement and public safety divisions the employer rate for 2005 was 16.70%, of which 4.00% was used to fund health care for both divisions.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS.

An entry age normal actuarial cost method of valuation is used in determining the present value of OPEB. All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used and asset values are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets. The investment assumption rate of return for 2004 was 8.00%, which is based on the System's latest Actuarial Review performed as of December 31, 2004. An annual increase of 4.00% compounded annually, is the base portion of the individual pay increase assumption and annual pay increases, over the 4.00% base, were assumed to range from .50% to 6.30%. This assumes no change in the number of active employees. Health care costs were assumed to increase at the projected wage inflation rate plus an additional factor raging from 1% to 6% for the next 8 years. In subsequent years health care costs were assumed to increase at 4%.

OPEB are advanced-funded on an actuarially determined basis. OPEB are financed through employer contributions and investment earnings thereon. The employer contributions amounted to \$5,383,744 for county employees and \$801,393 for law enforcement and public safety division employees. \$10.8 billion represents the actuarial value of the Retirement System's net assets available for OPEB at December 31, 2004. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$29.5 billion and \$18.7 billion, respectively. The number of active contributing participants in the Traditional and Combined Plans was 376,109.

14. DEFERRED COMPENSATION

County employees and elected officials may participate in either of two state-wide deferred compensation plans or one insurance deferred compensation plans created in accordance with Internal Revenue Code Section 457, one offered by the State of Ohio, one by the County Commissioners Association of Ohio and the last offered by ING Life Insurance and Annuity Company. Participation is on a voluntary payroll deduction basis and is available to all employees. The plans permit deferral of compensation until future years. According to the plans, the deferred compensation is not available to employees until termination, retirement, death or emergency. As of December 1999, the two state-wide and one insurance deferred compensation plans were established as Trusts, as required by the amended Internal Revenue Code Section 457. This amended section requires that in order for a plan to be an eligible plan, all assets and income of the plan must be held in trust for the exclusive benefit of participants and their beneficiaries.

The County Commissioner's Plan Trust, the Ohio Deferred Compensation Program and the ING Life Insurance and Annuity Company are held for the exclusive benefit of participants and their beneficiaries. Except as otherwise provided in the Plan, it is impossible under any circumstances at any time for any part of the corpus or income of the Trust fund to be used for, or diverted to, purposes other than for the exclusive benefit of participants and their beneficiaries. And, in accordance with GASB Statement No. 32, the County has removed these Deferred Compensation Plans from the County's Agency Fund.

The Board of Mental Retardation and Developmental Disabilities and the Children Services Board employees and appointed officials may also participate in a deferred compensation plan, VALIC and Metropolitan Life, respectively, created in accordance with Internal Revenue Code Section 403(b). Participation is on a voluntary payroll deduction basis and is available to all employees. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

15. OBLIGATIONS UNDER CAPITALIZED AND OPERATING LEASES

The County has entered into agreements to lease office equipment and vehicles, which qualify for capitalization under Statement of Financial Accounting Standards No. 13, "Accounting for Leases". The County also has operating leases for building space and equipment in various offices. These lease payments are recorded as expense/expenditures for the current period. Future minimum lease payments under capital lease obligations and operating leases are as follows:

	Governmental	
	Activities	Operating
Year	Capital Leases	Leases
2006	\$ 503,990	\$ 469,204
2007	478,011	402,132
2008	445,266	360,931
2009	162,794	72,563
2010	30,873	1,932
Total Operating Leases		\$1,306,762
Total Minimum Lease Payments	1,620,934	
Less: Amount Representing Interest	(154,356)	
Present Value Minimum Lease Payments	\$ 1,466,578	

The assets acquired through capital leases are as follows:

Assets:	Governmental Activities			
ASSels	ACLIVILIES			
Machinery and Equipment	\$	1,002,207		
Less: Accumulated Depreciation		(314,115)		
Total	\$	688,092		

A summary of capital lease obligations transactions for the year ended December 31, 2005, follows:

	Beginning Balance	Ac	lditions	D	eletions	Ending Balance	 Due Within One Year
Government Activities: General Government Internal Service Total	\$ 1,172,256 18,232 \$ 1,190,488	\$	692,636	\$	(406,932) (9,614) (416,546)	\$ 1,457,960 <u>8,618</u> \$ 1,466,578	\$ 424,750 7,782 432,532

The County of Summit's total lease expenses for 2005, was approximately \$497,003.

16. COMPENSATED ABSENCES

Vacation is accumulated at varying rates ranging from two to six weeks per year depending on length of service. Accumulated vacation may be carried over with no restrictions for an employee. However, unused vacation at the time of termination of employment cannot exceed three times the annual credit. This maximum payment of accumulated vacation time would be equal to 600 hours. All employees earn sick leave at the rate of 4.6 hours for each 80 hours of work completed. Sick leave vests with 10 years service at age 60, 25 years service at age 55 or 30 years service at any age. Although the sick leave vests as noted above, the County records a liability for sick leave for all employees with service time of more than 10 years. Employees are paid at one-half of the accumulated sick time up to a maximum payment equal to 720 hours. All sick leave and vacation payments are made at employees current wage rates.

17. LONG TERM DEBT OBLIGATIONS

The original issue date, interest rate and original issue amount for each of the County's bonds, long-term notes and loans are as follows:

	Original	Interest	Original	
General Long-Term Obligations	Issue Date	Rate	Is	ssue Amount
Governmental Activities:

General obligation bonds are direct obligations of the County for which its full faith and credit are pledged and are payable from taxes levied on all taxable property located in the County. The County has issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In government-wide financial statements and proprietary fund types in the fund financial statements, longterm obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. The County's long term debt at December 31, 2005, consists of general obligation bonds, capital appreciation bonds, long term general obligation notes, long term tax anticipation notes, Ohio Water Development Authority (OWDA) Loans, Ohio Public Works Commission (OPWC) Loans and Ohio Department of Development (ODD) Loans.

General obligation bonds are secured by the County of Summit's ability to levy a voted or unvoted property tax within limitations of Ohio law. Self-supporting bonds are secured by an unvoted property tax levy (special assessments) with principal and interest to be paid from enterprise fund user charges, and other revenue sources. OWDA and OPWC Loans will be repaid by special assessments and/or enterprise funds user charges.

During 1999, the County issued Long term General Obligation Notes. The notes are unvoted general obligations of the County. These notes are not subject to redemption before their maturity date. The Long-term General Obligation Notes are issued under the authority of the general laws of the State of Ohio, Ohio Revised Code, Chapter 133.

During 1999, the County issued various purpose Capital Appreciation (deep discount) Bonds. These bonds were purchased at a discount at the time of issuance and at maturity all compound interest is paid and the bondholder collects the face value. Since interest associated with these bonds is earned and compounded semi-annually, the value of the bond increases in proportion to the interest. Therefore, as the value increases, the accretion is recorded as principal. The capital appreciation bonds are not subject to redemption before their maturity date.

During 2001, the County issued Long-term Tax Anticipation Notes for zoo improvements and expansion. The voters of the County approved a .8 mill property tax levy to fund major expansion and construction at the Zoo. The tax levy is expected to generate approximately \$8.2 million annually. The Tax Anticipation Notes are issued under the authority of the general laws of the State of Ohio, Ohio Revised Code, Chapter 133.24.

The Ohio Department of Development Loans were issued to property owners in 1977 and 1978. The Loans are to defer the collection of assessments on agricultural land. The Loans are being deferred so long as the land is used for agricultural purposes. If the land is ever used for purposes other than agricultural, the loans are due and payable, the assessments are then due and collectible by the County, and the monies collected are to be remitted to the ODD within one year of collection. The ODD Loans are non-interest bearing so long as, once the assessment is due and payable, the amounts collected are paid to the ODD within one year.

The notes above have been issued once and are not subject to payment and reissue each year. Therefore, for reporting purposes the County has deemed these long-term obligations and has reported them in the financial statements as long-term debt.

The following is a summary of changes in long-term debt and other obligations, of the County, for the year ended December 31, 2005:

Beginning

Ending

In addition to the above loans presented in the foregoing schedule, the County has entered into an agreement with OWDA for a loan from the Water Pollution Control Loan Fund (WPCLF) for a project within the county. The project is still under construction and funds received thus far are for reimbursement of expenses incurred. Therefore, the County's liability for this loan, as of December 31, 2005, is for the amounts forwarded to the County as of this date. Although these payments are made on a "temporary" amortization schedule provided by the WPCLF, these liabilities are not reflected within the accompanying summary of the County's future annual debt service requirements for long-term debt. These "temporary" amortization schedules are based on the estimated total amount of funds to be borrowed by the County even though only a portion may have been received at December 31, 2005. The County also pays interest on these temporary loans. Upon completion WPCLF will present the County with a one-time adjustment for any amounts on the temporary amortization schedule that will be applied to the County's next payment. Permanent amortization schedules are then compiled and all future debt payments by the County will be based on that schedule. At December 31, 2005, the loan liability amounted to \$3,900,927, with a scheduled payment of \$158,751 due in 2006.

The compensated absences liability will be paid from the funds from which the employees' salaries are paid. This includes all the funds except Akron Zoo Project, Debt Service and Other Capital Improvements. The claims and judgments liability will be paid from the General, Job & Family Services and Child Support Enforcement Funds. As of December 31, 2005, the claims and judgments are related to court claims and audit findings, of which, \$40,843 is considered current or due within one year. The capital lease obligations will be paid from the General, Board of Mental Retardation, Child Support Enforcement Agency and Office Services Funds.

The Ohio Revised Code provides that the net principal amount of unvoted general obligation debt of the County, excluding exempt debt, may not exceed 1% of the total assessed valuation of all property in the County, and that the principal amount of both voted and unvoted general obligation debt of the County, excluding the exempt debt, may not exceed a sum equal to \$6,000,000 plus 2.5% of the assessed valuation in excess of \$300 million. These two limitations are referred to as the "direct debt limitations" and may be amended by the Ohio General Assembly.

At December 31, 2005, the County had net indebtedness (voted and unvoted) of \$65.6 million. A direct debt margin of \$229.5 million and a unvoted debt margin of \$53.0 million.

During 2002, the County issued \$30,350,000 of general obligation refunding bonds for the Department of Environmental Service's Sewer Division to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$28,240,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the business-type activities column of the statement of net assets. The principal balance outstanding on the defeased bonds was \$4,650,000. These defeased obligations are callable beginning December 2008.

In 2003, the County Engineer was authorized to enter into loan agreements with the Ohio Department of Transportation regarding the State Infrastructure Bank Act for a total not to exceed \$7.9 million. As of December 31, 2005, the county had received and is obligated for \$4,751,211. This amount is presented in our long term debt schedule under Other Liabilities. There are no current debt payments; therefore, the outstanding amount is all due in more than one year.

During 2004, the County issued \$40,330,000 of general obligation refunding bonds to provide resources to purchase U.S. Government, State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$37,730,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the appropriate activities column of the statement of net assets. The principal balance outstanding on these defeased bonds was \$36,075,000, with scheduled payments ending December 1, 2021.

18. CONDUIT DEBT OBLIGATIONS

The County has issued Industrial Development Revenue Bonds (IDRB) to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

As of December 31, 2005, there were eighty-one series of IDRB's outstanding. The County was party to two IDRB's during 2005, totaling \$13,720,000. The aggregate remaining principal amount payable for the seventynine issued prior to 2005 could not be determined; however, their original issue amounts totaled \$442,641,000. Industrial Development Revenue Bonds are not obligations of the County and, therefore, are not reported as liabilities in the accompanying financial statements.

19. INTERNAL BALANCES

Due to/from other funds balances at December 31, 2005, consist of the following individual fund receivables and payables:

Receivable Fund	Payable Fund	Amounts
General	Job & Family Services	\$ 1,120,349
	Children Services Board	2,286
	Nonmajor Governmental funds	130,159
	Sewer	1,000
Job & Family Services	General	5,423
Children Services Board	Nonmajor Governmental funds	12,054
Board of Mental Retardation	Alcohol, Drug Addiction & Mental Health	5,117
	Children Services Board	16,366
	Nonmajor Governmental funds	1,848
Debt Service	Nonmajor Governmental funds	204,894
Nonmajor Governmental funds	General	3,786
	Job & Family Services	33,094
	Board of Mental Retardation	440,000
	Nonmajor Governmental funds	428,608
Sewer	General	922
Internal Service funds	General	1,124,775
	Job & Family Services	272,720
	Alcohol, Drug Addiction & Mental Health	23,731
	Board of Mental Retardation	399,848
	Children Services Board	347,843
	Nonmajor Governmental funds	415,271
	Sewer	105,746
	Water	7,305
	Internal Service funds	22,131
Total		\$ 5,125,276

The balances between funds result mainly from (1) interfund goods and services provided or reimbursable expenditures, (2) costs for operation of internal service funds, and (3) payments made between funds. These balances also include amounts associated with negative cash balances that will be collected in the subsequent year.

Interfund transfers for the year ended December 31, 2005, consisted of the following:

Transfer Out	Genera	Job & Family Services	Debt Service	Nonmajor vernmental	 nternal ervices	Total
General		\$5,479,455		\$ 1,344,709	\$ 601,552	\$ 7,425,716
Job & Family Services			\$ 795,064			795,064
Alcohol, Drug Addiction						
& Mental Health				83,122		83,122
Board of						
Mental Retardation				250,000		250,000
Nonmajor						
Governmental funds	\$ 62,4	30 28,390	1,005,590	570,965		1,667,375
Sewer			 91,481	 	 	 91,481
Total	<u>\$ 62,4</u>	<u>30</u> <u>\$5,507,845</u>	\$ <u>1,892,135</u>	\$ 2,248,796	\$ 601,552	\$ 10,312,758

Transfers are used to move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due and move unrestricted general fund revenues to finance various programs that the government must account for in other funds. This includes amounts provided as subsidies or matching funds for various grant programs from other funds.

20. JOINTLY GOVERNED ORGANIZATIONS

AKRON-CANTON REGIONAL AIRPORT

The Akron-Canton Regional Airport is a 50% jointly governed organization by the County of Summit and Stark County. An eight-member board of trustees oversees the operation of the Regional Airport. Each county appoints four board members. The board exercises total authority for the day-to-day operations of the Regional Airport. These include budgeting, appropriating, contracting and designating management. Management at the Airport prepares its own Annual Financial Report, which is audited separately. The County of Summit has no financial responsibility for any of the Airport's liabilities. Complete financial statements may be obtained from the Akron-Canton Regional Airport, North Canton, Ohio 44720-1598.

NORTHEAST OHIO TRADE AND ECONOMIC CONSORTIUM

The Consortium is a jointly governed organization by the counties of Columbiana, Mahoning, Portage, Trumbull, Stark and Summit. A six member regional council oversees the operation of the Consortium. Each county appoints one council member. The Council exercises total authority for the day-to-day operations of the Consortium. These include budgeting, appropriating, contracting and designating management. The County has no financial responsibility for any of the Consortium's liabilities. Complete financial statements may be obtained from the Northeast Ohio Trade and Economic Consortium, Kent, Ohio 44242.

21. WATER CONTRACTS

The Water Division operates and maintains one independent water system serving a portion of the City of Hudson. The County relies on water purchased wholesale from the City of Akron. The County administration has been committed, as a policy matter, to divesting the County of its water system.

There have been preliminary sale discussions with other municipalities in which the remaining portions of the water systems are located. The County has issued a request for proposals for the sale of the water facilities located in the City of Hudson. The County prevailed in litigation with the City of Hudson concerning the right of the County to sell the water system located in Hudson to entities other than the City of Hudson. The City of Akron has a right of first refusal upon the sale of the County water system located in Hudson. The County intends to offer that system for sale and expects, by that sale, to fully divest itself of its water systems. The sale of that system is expected to be completed by the end of 2006.

22. SELF-INSURANCE

The County is exposed to various risks of loss related to torts; theft, damage and destruction of assets; errors and omissions; injuries to employees and natural disasters. The County has insurance coverage with various companies. Coverage provided is detailed in the Statistical Section, Table No. 13. Settled claims have not materially exceeded coverage in any of the last three years and there was no significant reduction in coverage from the prior year.

The County participates in the State Worker's Compensation Retrospective Rating and Payment Option Plan. This plan involves the payment of a minimum premium for administrative services and stop-loss coverage plus the actual claim costs for employees injured during 2005. At December 31, 2005, the County recorded a claims liability of \$7,813,860 in its Workers' Compensation Fund. This is the latest information provided by the State of Ohio Bureau of Workers' Compensation. At December 31, 2005, \$10,459,149 of Workers' Compensation Fund Equity in Pooled Cash and Investments was held to fund this liability.

The County offers its employees an alternative form of health insurance coverage, for which the County is self-insured. All claim liabilities related to this coverage are reported in the Medical Self-Insurance Fund. The County's health-care benefits are administered by Medical Mutual, which provides claims reviews and processing. The County maintains stop-loss coverage with a commercial insurance company for claims in excess of \$150,000 individually and \$1,000,000 annual maximum per covered person. Claims expenditures and liabilities are recognized when it is probable a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not paid and incurred but not reported.

At December 31, 2005, the amount of the workers' compensation and health insurance liability was \$10,790,160 which is the County's best estimate based on available information. Changes in the self-insurance claims liability accounts were as follows:

		Current Year		
	Liability	Claims and	Claim	Liability
	January 1	Estimates	Payments	December 31
2004	\$9,563,420	\$11,229,533	\$11,521,544	\$ 9,271,409
2005	9,271,409	23,157,606	22,572,549	10,790,160

At December 31, 2005, \$7,638,572 of Medical Self-Insurance Fund Equity in Pooled Cash and Investments was held for the purpose of funding the County's \$2,976,300 liability for health self-insurance.

In May of 1988, the County Board of Mental Retardation and Developmental Disabilities (Board) began offering its employees an alternative form of health insurance coverage for which the Board is self-insured. All claims related to the coverage are paid out of the Board of Mental Retardation Fund. The Board maintains stop-loss coverage with a commercial insurance company for claims in excess of \$125,000 per person. Settled claims have not materially exceeded commercial coverage in any of the last three years. The Board's healthcare benefits are administered by J.P. Farley, which provides claims reviews and processing. Claims expenditures and liabilities are recognized when it is probable a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not paid and incurred but not reported.

At December 31, 2005, the amount of the health insurance liability, related to the Board, was approximately \$496,100, which is the Board's best estimate based on available information. Changes in the self-insurance claims liability account were as follows:

		Current Year		
	Liability	Claims and	Claim	Liability
	January 1	Estimates	Payments	December 31
2004	\$571,900	\$5,277,844	\$5,059,644	\$790,100
2005	790,100	3,042,098	3,336,098	496,100

At December 31, 2005, \$1,335,628 of Equity in Pooled Cash and Investments was held for the purpose of funding the Board's \$496,100 liability. The Board's self-insurance coverage is separate from the other County coverage.

23. CONTINGENCIES

Grants

The County received financial assistance from Federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

The Office of Inspector General (OIG) in an audit of the Ohio Department of Job and Family Services Federal Food Stamp Employment Training (FSET) Program, found that \$2.2 million in grants received by the County and paid to private subcontractors under the FSET Program that did not meet federal and state program requirements. In February 2002, the OIG and County settled this claim for \$1.5 million. Approximately \$900,000 was paid to the State of Ohio Department of Job and Family Services and approximately \$600,000 has been appropriated for a Food Stamp Training Program at The University of Akron for food stamp clients in the County of Summit.

In addition to the OIG, the State of Ohio Department of Job and Family Services has completed their audit of the County Department of Job and Family Services for fiscal years 1995, 1996, 1997 and 2002. For the 1995 and 1996 audits they had issued a preliminary finding against the Food Stamp Employment Program totaling approximately \$4.1 million, of which \$2.2 million was settled as discussed above. For 1997 a preliminary finding was issued against the Job Opportunity and Basic Skills Program totaling approximately \$4.5 million. For 2002 a preliminary finding was issued for questioned costs arising from Random Moment Sampling (RMS) for approximately \$103,000. These amounts have been recorded as a liability in the Job and Family Services Special Revenue Fund.

The County also recorded an accrual of approximately \$1.6 million for an audit of Child Support Enforcement Agency (CSEA) performed by the Ohio Department of Job and Family Services. This audit was completed during 2001, and the County is negotiating with the State to resolve this issue.

Other such audits could be undertaken by federal and state granting agencies and result in the disallowance of claims and expenditures; however, in the opinion of management, any such disallowed claims or expenditures will not have a material effect on the overall financial position of the County at December 31, 2005.

Litigation

The County is subject to continuing civil and criminal investigations by Federal and State agencies, and their ultimate outcome, and the impact on the County, cannot be determined at this time.

The County is currently, and from time to time, subject to claims and suits arising in the normal course of providing services and conducting business. Management intends to vigorously defend the County and believes that these claims and litigation will not have a material adverse effect on the County's operations or financial position.

24. SUBSEQUENT EVENT

In May 2005, the County completed the sale of Edwin Shaw Hospital to Akron General Medical Center (AGMC). AGMC purchased the business part of the hospital for \$1.35 million. The County maintains ownership of the buildings and property, which AGMC will lease from the County until their campus building for housing the facilities is completed. Although the sale has completed, the closeout operations will not be complete until June 2006.

25. COMPONENT UNIT

Summary of Significant Accounting Policies

Organization - The accompanying financial statements of Edwin Shaw Hospital (the Hospital) are prepared on the accrual basis. The Hospital provides short-term rehabilitation and skilled nursing services and is located in Summit County, Ohio. The Hospital is a non-profit corporation as described in section 501(C)(3) of the Internal Revenue Code and is exempt from federal income taxes on related income.

The Hospital is the public rehabilitation system for the County and was created pursuant to Ohio Revised Code Chapter 339. The Hospital is governed by a Board of Trustees, which is appointed by the County of Summit Council.

Net Patient Service Revenue - Net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

The Hospital has agreements with Medicare and Medicaid that provide for payment at amounts different from established rates. It has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment under these agreements includes prospectively-determined rates-per-discharge, discounts from established charges, and prospectively-determined per-diem rates.

The provision for bad debts represents the Hospital's estimate of patient charges that will be written off based on past collection experience and other factors concerning patient accounts receivable collectibility.

25. COMPONENT UNIT (Continued)

Asset Purchase Agreement & Management Services Agreement

Effective May 15, 2005, the Hospital, Akron General Medical Center (AGMC) and the County finalized the Asset Purchase Agreement (Purchase Agreement). In accordance with the Purchase Agreement, AGMC will purchase specific Hospital assets, including the licenses to 24 skilled nursing beds and the Edwin Shaw name for \$1,350,000, which will be paid directly to the County. Certain administrative functions of the Hospital will continue for approximately nine months beyond the closing date in order to perform wind-down operations such as collections of outstanding accounts receivable and settlement of various employee and self-insured liabilities.

In addition, AGMC and the County entered into a Lease Agreement (the Lease) with AGMC leasing the Hospital's land, buildings, and fixed equipment for the period from May 2005 through May 2007 at a rate of \$1 per year, with the option for an additional two year lease period through May 2009.

Deposits and Investments

Deposits - All monies are deposited to the Hospital's banks or trust companies designated by the Board of Trustees. Funds not needed for immediate expenditure may be deposited in interest-bearing or non-interest bearing accounts or U.S. government obligations. Banks or trust companies shall furnish security for all such deposits, whether interest bearing or non-interest bearing, except that no such security is required for U.S. government obligations.

At December 31, 2005, the financial statement carrying amount of the Hospital's deposits was \$(28,968). The actual bank balances including accrued interest, totaled \$37,910, the difference represents outstanding checks and normal reconciling items. The bank balances are covered by federal depository insurance.

Investments - The Hospital's investment policies are governed by state statutes, which authorize the Hospital to invest in U.S. government obligations and bonds, State of Ohio obligations, and repurchase transactions. Investments are categorized to give an indication of the level of risk assumed by the Hospital at year-end. The categorized investments include those, which are classified as cash and cash equivalents in accordance with the provisions of GASB Statement No. 9.

At December 31, 2005, investments reported in cash and cash equivalents include:

	Fair	Investment Maturit		
Investment Type	Value	Less	Than 1 Year	
Repurchase agreement	\$ 2,190,000	\$	2,190,000	
State Treasurer Asset Reserve Fund (STAROhio)	128,762		128,762	
Total Fair Value	\$ 2,318,762	\$	2,318,762	

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Hospital's custodial credit risk policy is stated in Investments policy described above. Of the Hospital's \$2,190,000 investment in repurchase agreements, \$2,190,000 of the underlying securities are held by the investment's counterparty, not in the name of the Hospital.

Capital Assets

Capital asset activity for the year ended December 31, 2005 was as follows:

	Beginning Balance		Additions		Retirements		Ending Balance
Nondepreciable assets:							
Land	\$	46,134	\$	-	\$	(46,134)	\$ -
Depreciable assets:

Buildings and improvements	(18	,861,384)		(697,391)	1	9,558,775	-
Equipment and vehicles	(5	,466,666)		-		5,453,916	(12,750)
Total accumulated depreciation	(25	,810,110)		(735,048)	2	6,532,408	(12,750)
Capital assets, net	\$5	,307,368	\$	(724,257)	\$(4	1,583,111)	\$ _

25. COMPONENT UNIT (Continued)

Debt

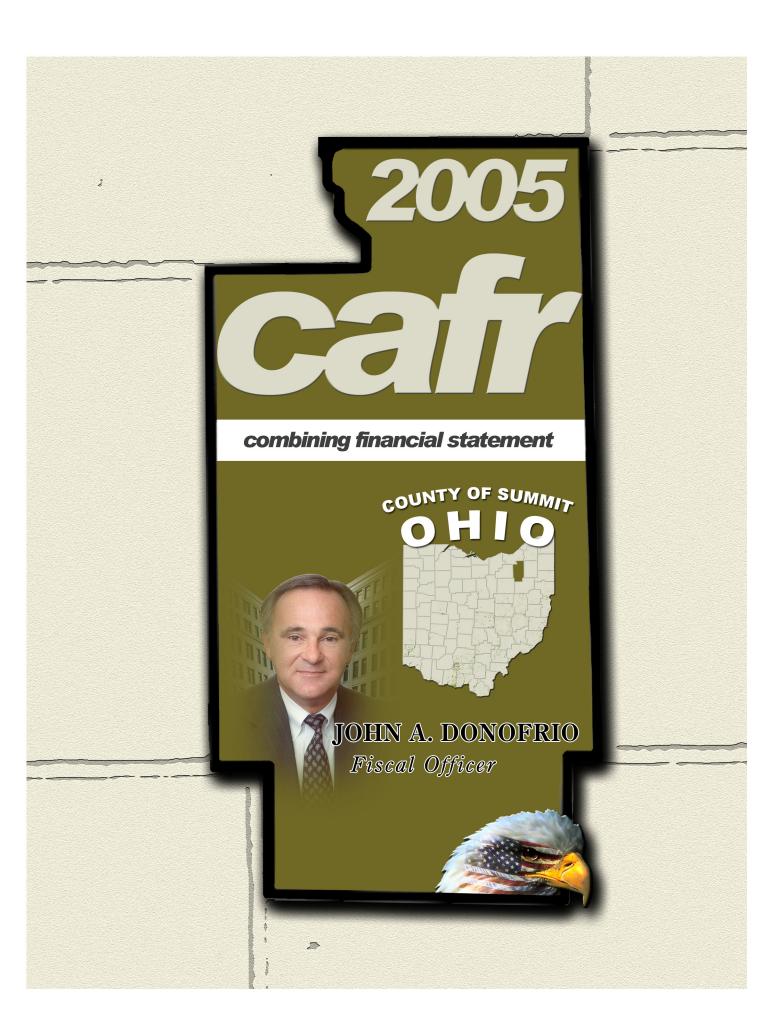

The Hospital received a loan from the County in March 2003, for \$255,501 to cover utility tunnel repair costs. This is a non-interest bearing loan that was paid in full June 2006, with proceeds from the asset purchase agreement with AGMC, discussed earlier.

Self-Insurance

The Hospital is self-insured for employment and worker's compensation, with stop loss insurance for workers' compensation. The reserve for these liabilities is included in other current liabilities on the statement of net assets.

The Hospital's medical and professional liability insurance program includes first dollar, claims-made coverage of \$1 million per occurrence and \$3 million in the aggregate. The Hospital also carries an umbrella policy of \$5 million. Liability claims have been asserted against the Hospital by various claimants. These claims are in various stages of processing or are in litigation. There are known incidents and perhaps unknown incidents, which may result in assertion of additional claims.

This page left blank intentionally

COUNTY OF SUMMIT, OHIO

GENERAL FUND

The General Fund is used to account for all financial resources and activities of the County that are not to be accounted for in other specified funds.

Schedule of Revenues, Expenditures and Changes In Fund Balance Budget (Non-GAAP Basis) and Actual General Fund For the Year Ended December 31, 2005

	Budget	ed Amounts		Variance with	
	Original	Final	Actual	Final Budget	
Revenues					
Taxes					
Property	\$ 17,587,518	\$ 18,112,000	\$ 18,230,695	\$ 118,695	
Sales and Use	35,000,000	36,250,000	35,909,975	(340,025)	
Other	9,502,722	9,100,000	10,460,810	1,360,810

COUNTY OF SUMMIT, OHIO

Nonmajor Governmental Funds

Special Revenue Funds

The special revenue funds are used to account for proceeds of specific revenue sources (other than special assessments, expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. Following is a description of all special revenue funds:

<u>Motor Vehicle and Gas Tax</u> - To account for revenue derived from taxes on motor vehicle licenses and gasoline. By state law, expenditures are restricted to road and bridges, for maintenance and minor construction. The townships reimburse the County its expenditures for work done on townships' road and bridges.

<u>Real Estate Assessment</u> - To account for monies from Auditor's fees to assess real property within the County for tax valuation purposes as required by law.

Delinquent Tax Assessment Collection - To account for 5% of all certified delinquent taxes and assessments collected by the County Fiscal Office on any tax duplicate. The funds shall be used by the County Fiscal Office and County Prosecutor, solely in connection with the collection of delinquent taxes and assessments.

<u>Governmental Grants</u> - To account for federal, state and local grants received from various granting agencies for the administration and operation of following; Local Government, Police Traffic Services, Psycho-Diagnostic Services, Child Care Food Programs, Adult Probation Programs, Hazardous Materials Programs and various employment projects. Funding for group homes for juvenile delinquency prevention and similar programs. The Community Development Block Grant Program funding is used for various housing rehabilitation and similar projects within the County. Each individual grant is accounted for in a separate subfund for compliance and reporting purposes.

<u>Other Special Revenue</u> - To account for smaller special revenue funds operated by the County and subsidized in part by fees, local and state monies as well as other miscellaneous sources. Each individual fund is accounted for in a separate subfund for compliance and reporting purposes.

<u>Child Support Enforcement</u> - To account for the collection of fees restricted as to use for the administration of the Child Support Enforcement Agency and court operated support enforcement activities.

<u>Title Administration</u> - The Clerk of Courts collects fees for contract services, equipment and maintenance fees and other costs associated with processing titles.

<u>Akron Zoo Project</u> - The primary revenue source is a special property tax levy approved by County voters. Per an agreement with the Akron Zoological Park, a nonprofit agency, the County collects the revenue that is used for the purpose of operations and capital expenses at the Akron Zoo.

<u>Emergency Management Agency</u> - To account for federal, state and local grants received from various granting agencies for the administration and operations of Homeland Security and Disaster relief within the County. Each individual grant is accounted for in a separate subfund for compliance and reporting purposes.

Capital Project Funds

The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds or special revenue funds).

<u>General Capital Improvements</u> - To account for costs of various projects and certain purchases of capital equipment. The primary financing source consists of proceeds from the sale of lands, buildings and other County owned assets.

<u>Other Capital Improvements</u> - To account for the activity associated with construction and/or renovation of various county buildings and other projects. Bond anticipation notes and general tax revenues provide the source of financing.

COUNTY OF SUMMIT, OHIO

PROPRIETARY FUNDS

Enterprise Funds

The enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises. The intent of the County is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the County has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

<u>Water Revenue</u> - To account for the provision of water service to certain areas of the County not already serviced by other local water operations. All activities necessary to provide such services, including capital projects and debt financed by user charges, are accounted for in this fund.

<u>Sewer Revenue</u> - To account for the provision of sanitary sewer services to a large number of customers in the County. All activities necessary to provide such services, including capital projects and debt financed by user charges, are accounted for in this fund.

Combining Statements - Internal Service Funds

The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units, on a cost reimbursement basis.

<u>Office Services</u> - This fund accounts for centralized interoffice and outgoing mail services for all County departments and printing, reproduction and paper supplies. Charges are on a cost reimbursement basis.

<u>Medical Self-Insurance</u> - To account for medical and prescription benefits for the County. The primary source of revenue is monthly fees and any balance on hand is held until used.

<u>Workers' Compensation</u> - To provide self-insurance to the County through a retrospective rating plan with the State of Ohio for workers compensation.

<u>Telephone Services</u> - This fund accounts for communication services for all County departments. Charges are on a cost reimbursement basis.

Internal Audit - This fund accounts for internal audit services to all County departments. Charges are on a cost reimbursement basis.

COUNTY OF SUMMIT, OHIO

Combining Fiduciary Funds

Fiduciary funds are used to account for assets held by the County in a trustee capacity, or as an agent for individuals, private organizations, other governments, and/or other funds. The following is the County's fiduciary fund type.

AGENCY FUNDS

These funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations.

Undivided/Subdivision Holding - To account for the collection of all taxes (including real estate), forfeited land sales and fines until they are distributed to the appropriate subdivision.

Payroll Holding - To account for monies deposited to this fund for monies withheld from employee's payroll warrants for payroll taxes, Ohio Public Employees Retirement System, United States Savings Bonds and other deductions.

Custodial Checking - To account for the following activities:

- Clerk of Courts Legal and Title receipts.
 Probate court related receipts.
- 3. Juvenile court related receipts.
- 4. Sheriff civil receipts

Metro Parks - To account for all monies held for Metro Parks as custodian.

District Health - To account for all monies held for District Health as custodian.

Children Services - Family Stability - To account for monies received by Children Services, to be paid to third party's per the Ohio Revised Code.

Summit County Port Authority - To account for all monies held for Summit County Port Authority as custodian.

Other Agency - To account for monies held in an agency capacity from various sources by the county as custodian. These funds are as follows: AMATS, Public Defender, Tax Certificate Redemption, Ohio Elections Commission, Special Emergency Planning and Soil and Water Conservation.

Unvoted Tax Anticipation Notes for Akron Zoological Park		5,710,000	_	
Total Exempt Debt				96,026,198
Net Indebtedness (Voted & Unvoted)				69,379,914
Less: Available funds in Debt Service Fund as of December 31, 2005				3,781,966
Total Indebtedness Subject to Direct Debt Limitation			\$	65,597,948
Assessed Valuation of County	\$11	,865,274,945		
Debt Limitation (1)				
Direct Debt Limitation			\$	295,131,874
Less: Net Indebtedness (Voted & Unvoted)				65,597,948
Direct Debt Margin			\$	229,533,926
-				· ·
Unvoted Debt Limitation (1% of County Assessed Valuation)			\$	118,652,749
Less: Net Indebtedness (Voted & Unvoted)				65,597,948
Unvoted Debt Margin			\$	53,054,801

(1) The Ohio Revised Code provides that the net principal amount of unvoted general obligation debt of the County, excluding exempt debt may not exceed 1% of the total assessed valuation of all property in the County, and that the principal amount of both voted and unvoted general obligation debt of the County, excluding the exempt debt, may not exceed a sum equal to \$6,000,000, plus 2.5% of the assessed valuation in excess of \$300,000,000. These two limitations are referred to as the "direct debt limitations" and may be amended from time to time by the General Assembly.

(2) Exempt, by Ohio Law, from debt margin.
