INDEPENDENT ACCOUNTANTS' REPORT

Willard City School District Huron County 955 South Main Street, P. O. Box 150 Willard, Ohio 44890-0150

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Willard City School District, Huron County, Ohio (the District), as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Willard City School District, Huron County, Ohio, as of June 30, 2005, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2005, The District implemented Governmental Accounting Standards Board Technical Bulletin 2004-02, Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers.

One Government Center / Room 1420 / Toledo, OH 43604-2246
Telephone: (419) 245-2811 (800) 443-9276 Fax: (419) 245-2484
www.auditor.state.oh.us

Willard City School District Huron County Independent Accountants' Report Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated May 15, 2006, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The federal awards expenditure schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards expenditures schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Betty Montgomery Auditor of State

Butty Montgomeny

May 15, 2006

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED

The discussion and analysis of the Willard City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2005. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2005 are as follows:

- In total, net assets of governmental activities increased \$339,409 which represents a 6.00% increase from 2004.
- General revenues accounted for \$15,421,398 in revenue or 83.71% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$2,991,105 or 16.29% of total revenues of \$18,412,503.
- The District had \$18,073,094 in expenses related to governmental activities; only \$2,991,105 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$15,421,398 were adequate to provide for these programs.
- The District's major governmental funds are the general fund and debt service fund. The general fund had \$15,029,801 in revenues and other financing sources and \$14,773,912 in expenditures and other financing uses. During fiscal 2005, the general fund's fund balance increased \$255,889 from \$2,146,356 to \$2,402,245.
- The District's other major governmental fund the debt service fund had \$532,940 in revenues and \$495,489 in expenditures. During fiscal 2005, the debt service fund's fund balance increased \$37,451 from \$1,318,320 to \$1,355,771.

Using these Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and debt service fund are by far the most significant funds, and the only governmental funds reported as major funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2005?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include *all assets, liabilities, revenues* and *expenses* using the *accrual basis* of accounting similar to the accounting used by most private-sector companies. This accrual basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the Governmental Activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District' most significant funds. The District's major governmental funds are the general fund and debt service fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the basic financial statements.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The District as a Whole

The Statement of Net Assets provides the perspective of the District as a whole. The table below provides a summary of the District's net assets for 2005 and 2004.

Net Assets

	Governmental Activities 2005	Governmental Activities 2004
Assets Current and other assets Capital assets	\$ 12,119,419 6,151,603	\$ 11,527,676 6,436,772
Total assets	18,271,022	17,964,448
<u>Liabilities</u> Current liabilities Long-term liabilities Total liabilities	7,241,815 5,035,544 12,277,359	7,006,224 5,303,970 12,310,194
Net Assets Invested in capital assets, net of related debt Restricted Unrestricted	2,229,925 1,908,879 1,854,859	2,205,761 1,604,258 1,844,235
Total net assets	\$ 5,993,663	\$ 5,654,254

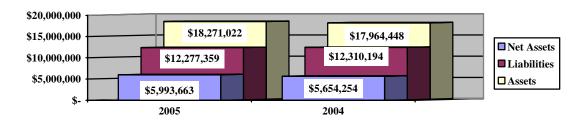

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2005, the District's assets exceeded liabilities by \$5,993,663.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

At year-end, capital assets represented 33.67% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2005, were \$2,229,925. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$1,908,879, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets of \$1,854,859 may be used to meet the District's ongoing obligations to the students and creditors.

Governmental Activities

The table below shows the change in net assets for fiscal years 2005 and 2004.

Change in Net Assets

	Governmental Activities 2005	Governmental Activities 2004
Revenues		
Program revenues:		
Charges for services and sales	\$ 1,021,515	\$ 1,020,464
Operating grants and contributions	1,969,590	2,241,104
Capital grants and contributions		55,000
General revenues:		
Property taxes	6,044,523	6,275,691
Grants and entitlements	9,209,389	9,114,365
Investment earnings	112,645	63,322
Other	54,841	64,591
Total revenues	18,412,503	18,834,537

Change in net assets	339,409	1,142,027
Net assets at beginning of year	5,654,254	4,512,227
Net assets at end of year	\$ 5,993,663	\$ 5,654,254

Governmental Activities

Net assets of the District's governmental activities increased \$339,409. Total governmental expenses of \$18,073,094 were offset by program revenues of \$2,991,905 and general revenues of \$15,421,398. Program revenues supported 16.59% of the total governmental expenses.

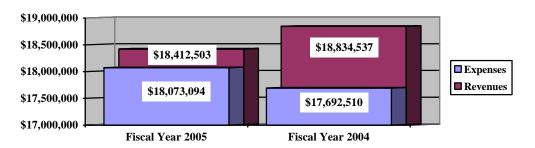

The primary sources of revenue for governmental activities are derived from property taxes and grants and entitlements. These two revenue sources represent 82.80% of total governmental revenue. Real estate property is reappraised every six years.

The District's financial condition has improved significantly in recent years, primarily due to increased financial support from the State.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

The graph below presents the District's governmental activities revenue and expenses for fiscal years 2005 and 2004.

Governmental Activities - Revenues and Expenses

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

The dependence upon tax and other general revenues for governmental activities is apparent, 87.19% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 83.41%. The District's taxpayers, as a whole, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2005 and 2004

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds reported a combined fund balance of \$4,294,973, which is higher than last year's total of \$3,846,595. The June 30, 2004, fund balances have been restated as described in Note 3.A to the basic financial statements. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2005 and 2004.

	Restated							
	Fund Balance	Fund Balance						
	June 30, 2005	June 30, 2004	Increase					
General	\$ 2,402,245	\$ 2,146,356	\$ 255,889					
Debt service	1,355,771	1,318,320	37,451					
Other Governmental	536,957	381,919	155,038					
Total	\$ 4,294,973	\$ 3,846,595	\$ 448,378					

General Fund

The District's general fund, fund balance increased by \$255,889. The increase in fund balance can be attributed to an increase in earnings on investment of \$49,364, an increase in intergovernmental revenue of \$93,745, and an increase in other local revenues of \$11,354 and a decrease in capital outlay. Overall revenues decreased but totaled more than District expenditures. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2005, the District amended its general fund budget numerous times. For the general fund, final budgeted revenues and other financing sources were \$15,698,318, which was increased from the original budgeted revenues and other financing sources estimate of \$14,766,000. Actual revenues and other financing sources for fiscal 2005 was \$15,704,736. This represents a \$6,418 increase from final budgeted revenues and other financing sources.

General fund original appropriations (appropriated expenditures plus other financing uses) of \$15,286,081 were increased to \$15,557,480 in the final budgeted appropriations. The actual budget basis expenditures and other financing uses for fiscal year 2005 totaled \$15,557,480, which equaled the final budget appropriations.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2005, the District had \$6,151,603 invested in land, land improvements, buildings and improvements, furniture and equipment and vehicles. This entire amount is reported in governmental activities. The following table shows fiscal 2005 balances compared to 2004:

Capital Assets at June 30 (Net of Depreciation)

	Governmental Activities			ivities
	_	2005	_	2004
Land	\$	107,448	\$	107,448
Land improvements		103,831		114,941
Building and improvements		4,564,164		4,872,077
Furniture and equipment		970,295		1,019,052
Vehicles		405,865		323,254
Total	\$	6,151,603	\$	6,436,772

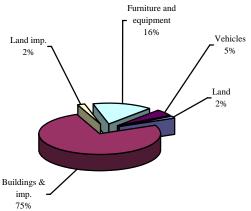

The District acquired \$203,972 in capital asset additions during fiscal 2005. Total disposals to capital assets for 2005 were \$9,431 (net of accumulated depreciation). The District recorded \$479,710 in depreciation expense for fiscal 2005.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

Capital Assets - Governmental Activities 2005

Capital Assets - Governmental Activities 2004

See Note 8 to the basic financial statements for additional information on the District's capital assets.

Debt Administration

At June 30, 2005, the District had \$3,921,678 in general obligation bonds, loans and capital lease obligations outstanding. Of this total, \$384,253 is due within one year and \$3,537,425 is due within greater than one year. The following table summarizes the bonds, loans and lease obligations outstanding.

Outstanding Debt, at Year End

	Governmental Activities 2005	Governmental Activities 2004
General obligation bonds:		
High school addition	\$ 180,000	\$ 225,000
Remodel high school and elementary school	365,000	460,000
Refunded elementary school renovation	2,710,000	2,810,000
Loans payable:		
Energy conservation	449,351	480,023
EPA asbestos removal	12,536	20,892
Capital lease obligations	204,791	235,096
Total	\$ 3,921,678	\$ 4,231,011

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

The energy conservation loan was received in 2001. This loan is scheduled to mature in fiscal year 2016 and bears an interest rate of 5.85%. Payment of principal and interest on the energy conservation loan is being made from the energy conservation capital projects fund.

The EPA asbestos removal loan was received in 1987. This loan is scheduled to mature in fiscal year 2007 and is interest free as long as the District is current on the payments. Payment of principal and interest on the EPA asbestos removal loan is being made from the debt service fund.

In 1994, the District issued general obligation bonds, providing for an addition to the District's high school. The general obligation bonds are scheduled to mature in fiscal year 2008 and bear an interest rate of 8.50%. Payment of principal and interest on the high school addition bonds is being made from the debt service fund.

In 1985, the District issued general obligation bonds, providing for remodeling the District's high school and elementary school. The general obligation bonds are scheduled to mature in fiscal year 2008 and bear an interest rate of 8.25%. Payment of principal and interest on the high school and elementary school remodeling bonds is being made from the debt service fund.

In 1994, the District issued general obligation bonds, providing for the renovation of the District's elementary school. In 2004, the District refunded these general obligation bonds. The general obligation bonds are scheduled to mature in fiscal year 2019 and bear a variable interest rate which may not exceed 6.00%. Payment of principal and interest on the elementary school renovation bonds is being made from the debt service fund.

At June 30, 2005, the District's overall legal debt margin was \$17,311,458 with an unvoted debt margin of \$214,313 and an energy conservation debt margin of \$1,466,933.

See Note 10 to the basic financial statements for additional information on the District's debt administration.

Current Financial Related Activities

The Willard City School District has carefully managed its General Fund budget in order to optimize education dollars for the students of our district. Our District recently passed a 5 year emergency operating levy that will generate \$1.2 million per year. However, even with this additional income, we will continue to watch our expenses carefully. On June 30, 2005, our unencumbered General Fund balance was \$3,377,613. However, expenditures continue to increase dramatically. Salaries are projected to increase approximately 3% annually based on negotiated agreements and step increases. Health insurance continues to rise at a rate of 18-22% per year. Purchased Services average 2-3% increase per year, while supplies and materials historically are increasing at 7% per year. Budget cuts for FY 2004 and FY 2005 kept expenditures down, but increased utility costs as well as increased costs for special education due to additional students continues to be a concern. Capital Outlay expenditures have been averaging 2% increases. In FY 2005, we did not purchase a bus from the general fund, therefore saving the district \$60,000. We also put a hold on furniture and equipment purchases for FY 2005 saving another \$30,000. We will reinstate cuts from FY 2004 and FY 2005 for textbooks and technology in FY 2006. Ten percent budget cuts at the building level will go into effect in FY 2006. Our expenditure per pupil is significantly lower than the state average. We will continue to keep the cost per pupil as low as possible, while meeting the needs of our young people. We will also continue to monitor our financial situation very closely.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 UNAUDITED (Continued)

Contacting the District's Financial Management

This financial report is designed to provide our citizen's taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Ms. Cyndi Shoup, Treasurer, 955 South Main Street, Willard, Ohio, 44890-0150.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET ASSETS OF GOVERNMENTAL ACTIVITIES JUNE 30, 2005

Total governmental fund balances		\$ 4,294,973
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		6,151,603
Other long-term assets are not available to pay for current- period expenditures and therefore are deferred in the funds. Taxes	\$ 472,691	
Total		472,691
Unamortized bond issuance costs are not recognized in the funds.		107,508
Unamortized premiums on bond issuances are not recognized in the funds.		(298,389)
Unamortized deferred charges are not recognized in the funds.		190,880
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, interest expenditures are reported when due.		(16,712)
Long-term liabilities, including bonds and loans payable, are not due and payable in the current period and therefore are not reported in the funds.		
General obligation bonds	3,255,000	
Compensated absences	987,213	
Capital lease obligation payable	204,791	
Loans payable	 461,887	
Total		 (4,908,891)
Net assets of governmental activities		\$ 5,993,663

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2005

Net change in fund balances - total governmental funds	\$	448,378
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeds capital outlays in the current period. Capital asset additions Current year depreciation	\$ 203,972 (479,710)	
Total		(275,738)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(77,330)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net assets.		(9,431)
In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due.		1,266
Bond issuance costs are recognized as expenditures in the governmental funds, however, they are amortized over the life of the issuance in the statement of activities		7,818
Principal payments on bonds, loans, and capital lease obligations are reported as expenditures in governmental funds but the repayment reduces long-term liabilities on the statement of net assets.		351,528
Deferred charges are recognized as expenditures in the governmental funds, however, they are amortized over the life of the issuance in the statement of activities.		13,882
Premiums on debt issuances are recognized as revenues in the governmental funds, however, they are amortized over the life of the issuance in the statement of activities		(21,701)
Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(57,068)
Proceeds of capital lease transactions are recorded as revenue in the fund, however, in the statement of activities, they are not reported as revenues as they increase the liabilities on the		(42.405)
statement of net assets.		(42,195)
Change in net assets of governmental activities	\$	339,409

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Willard City School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by state statute and/or federal guidelines.

The District was established in 1961 through the consolidation of existing land areas and school districts. The District serves an area of approximately 90 square miles. It is located in Huron County, and includes the City of Willard, and the Villages of Plymouth, New Haven and Steuben and portions of Richmond, Greenfield, Auburn, Norwich, and New Haven Townships. The District is the 240th largest in the State of Ohio (among 614 public and community school districts) in terms of enrollment. It is staffed by 99 non-certificated employees and 161 certificated full-time teaching personnel, who provide services to 2,089 students and other community members. The District currently operates 6 instructional buildings and one garage.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, foods service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organizations' governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organizations resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government). The following organizations are described due to their relationship to the District:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

JOINTLY GOVERNED ORGANIZATIONS

Heartland Council of Governments (the "COG")

The COG is a joint venture among 16 school districts and 1 educational service center. The joint venture was formed for the purpose of applying modern technology with the aid of computers and other electronic technology to administrative and instructional functions. Each member district supports the COG based on a per pupil charge dependent upon the software package utilized. In the event of dissolutions of the COG, all current members will share in net obligations or asset liquidations in a ratio proportionate to their last twelve months' financial contribution. The COG is governed by a Board of Directors consisting of superintendents of the member school districts. The degree of control exercised by any school district is limited to its representation on the Board. In accordance with GASB Statement No. 14, the District does not have any equity interest in the COG as a residual interest in the net resources of a joint venture upon dissolution is not equivalent to an equity interest. Financial information can be obtained from the Treasurer for the Pioneer Career and Technology Center, who serves as fiscal agent, at 27 Ryan Road, Shelby, Ohio 44875-0309.

Pioneer Career and Technology Center (PCTC)

The PCTC is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Treasurer of the Pioneer Career and Technology Center at 27 Ryan Road, Shelby, Ohio 44875-0309.

Northwestern Ohio Educational Research Council, Incorporated

The Northwestern Ohio Educational Research Council, Inc. is a non-profit organization under the direction of a Board of Directors. The Council was formed to provide conferences and training to personnel of the participating districts. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. To obtain financial information write to the Northwestern Ohio Educational Research Council, Inc., David G. Elsass, Treasurer, at P.O. Box 456, Ashland, Ohio 44805.

PUBLIC ENTITY RISK POOLS

Ohio School Boards Association Workers' Compensation Group Rating Plan

The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (the "Plan") was established through the Ohio School Boards Association (OSBA) as a group purchasing pool.

The Plan's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the Plan. Each year, the participating school districts pay an enrollment fee to the Plan to cover the costs of administering the program. Refer to Note 12.C. for further information on this group rating plan.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Huron-Erie School Employees Insurance Association

The District participates in the Huron-Erie School Employees Insurance Association (the "Association"), an insurance purchasing pool. The Association's business and affairs are conducted by a Board of Trustees consisting of the current Superintendent of each of the fourteen school districts and educational service centers in the Association.

RELATED ORGANIZATION

Willard Memorial Library

The Willard Memorial Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Willard City School District Board of Education.

The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Willard Memorial Library, Shirley Stang Shreve, Treasurer, at 6 West Emerald Street, Willard, Ohio 44890-1498.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> - The debt service fund is used to account for the accumulation of resources and payment of general obligation bond and note principal, interest and related costs.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Other governmental funds of the District are used to account for (a) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by trust funds; (b) for food service and uniform school supplies operations; and (c) for grants and other resources whose use is restricted to a particular purpose.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no proprietary funds.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for a scholarship program for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities and deposits held for outside entities.

C. Basis of Presentation and Measurement Focus

<u>Government-wide Financial Statements</u> - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private-purpose trust fund is reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Non-exchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexhange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Deferred Revenue</u> - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2005, but which were levied to finance fiscal year 2006 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported in the fund financial statements as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present the general fund's budgetary statement comparison at the fund and function level of expenditures.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased tax rates). By no later than January 20, the Board-adopted budget is filed with Huron County Budget Commission for rate determination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commissions' certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statement reflect the amounts from the certificate of amended resources that was in effect at the time the original and final appropriations were passed by the Board of Education.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, at the fund level for all funds, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at any level of control. Any revisions that alter the level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund covered the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the basic financial statements.

During fiscal year 2005, investments were limited to nonnegotiable certificates of deposit and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit are reported at cost.

The District has invested funds in STAR Ohio during fiscal 2005. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2005.

Under existing Ohio statutes all investment earning are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2005 amounted to \$112,645, which includes \$38,827 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method which means that the costs of inventory items are recorded as expenditures in the governmental funds when consumed.

On the fund financial statements, reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food, purchased food and non-food supplies.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's capitalization threshold is \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Land improvements	7 - 30 years
Buildings and improvements	7 - 40 years
Furniture and equipment	5 - 30 years
Vehicles	7 - 15 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the "vesting method". A liability for sick leave is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for this future severance eligibility, all employees at least fifty (50) years of age with at least five (5) years of service, or forty (40) years of age with at least fifteen (15) years of service, or twenty (20) years of service at any age were included.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and loans are recognized on the fund financial statements when due.

L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, prepayments, principal endowment, materials and supplies inventory, and property taxes unavailable for appropriation. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP but not available for appropriation under state statute.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed. At fiscal year-end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is reserved on the fund financial statements by an amount equal to the carrying value of the asset.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

Interfund activity between governmental funds is eliminated in the statement of activities.

Q. Nonpublic Schools

Within the District boundaries, St. Francis Xavier Elementary School is operated through the Toledo Catholic Diocese; Celeryville Christian School is operated as a private school by the Celeryville Christian School and is governed by a board of six members. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial schools. The activity of these state monies by the District is reflected in a nonmajor governmental fund for financial reporting purposes.

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal 2005.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Restatement of Fund Balance

For fiscal year 2005, the District has implemented GASB Statement No. 40, "<u>Deposit and Investment Risk Disclosures</u>" and GASB Technical Bulletin 2004-2, "<u>Recognition of Pension and Other Postemployment Benefit Expenditures/Expenses and Liabilities by Cost-Sharing Employers</u>".

GASB Statement No. 40 establishes and modified disclosure requirements related to investment risks: credit risk (including custodial credit risk and concentrations of credit risk) and interest rate risk. This statement also establishes and modified disclosure requirements for custodial credit risk on deposits.

GASB Technical Bulletin No. 2004-2 addresses the amount that should be recognized as expenditure/expense and as a liability each period by employers participating in a cost-sharing multiple-employer pension and other postemployment benefit (OPEB) plans.

The implementation of GASB Statement No. 40 did not have an effect on the financial statements of the District, however additional note disclosure can be found in Note 4. The implementation of GASB Technical Bulletin No. 2004-2 had the following effect on the fund balances of the major and non-major funds of the District as they were previously reported as of June 30, 2004:

	<u>General</u>	<u>D</u> 6	ebt Service	N	<u>lonmajor</u>	<u>Total</u>
Fund Balances, June 30, 2004 GASB Technical Bulletin No. 2004-2	\$ 2,253,384 (107,028)	\$	1,318,320	\$	418,184 (36,265)	\$ 3,989,888 (143,293)
Restated Fund Balance, June 30, 2004	\$ 2,146,356	\$	1,318,320	\$	381,919	\$ 3,846,595

B. Deficit Fund Balances

Fund balances at June 30, 2005, included the following individual fund deficits:

	 <u>Deficit</u>
Nonmajor Governmental Funds	
Uniform School Supplies	\$ 26,319
Auxiliary Services	2,130
Management Information Systems	24
Entry Year Programs	11
Schoolnet Professional Development	1
Migrant Grant	1,524
Title II-B	1,300
Migrant Title III Grant	37
Title I	3,157

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

These funds complied with Ohio state law, which does not permit a cash basis deficit at yearend. The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. These deficit fund balances result from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the basic financial statements as "Equity in Pooled Cash and Cash Equivalents". Statutes require the classification of monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the finance institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasury Asset Reserve of Ohio (STAR Ohio);
- 7. Certain bankers' acceptances and commercial paper notes for a period not to exceed 180 days in an amount not the exceed 25% of the interim monies available for investment at any one time; and
- 8. Under limited circumstances, corporate debt instruments rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash in Segregated Accounts

At fiscal year-end, the District had \$8,216 in a segregated bank account for employee deposits held and due to AFLAC. The entire balance is covered by federal depository insurance.

B. Cash on Hand

At fiscal year-end, the District had \$3,575 in undeposited cash on hand which is included on the financial statements of the District as part of "Equity in Pooled Cash and Cash Equivalents".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

C. Deposits with Financial Institutions

At June 30, 2005, the carrying amount of all District deposits was \$4,202,827. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2005, \$4,041,765 of the District's bank balance of \$4,241,765 was exposed to custodial risk as discussed below, while \$200,000 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the federal Reserve Bank in the name of the District. The District had no deposit policy for custodial credit risk beyond the requirement of state statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirement could potentially subject the District to a successful claim by the FDIC.

D. Investments

As of June 30, 2005, the District had the following investments and maturities:

		Investment Maturities
	Balance at	6 months or
Investment type	Fair Value	less
STAR Ohio	\$ 1,500,310	\$ 1,500,310

Credit Risk: STAR Ohio must maintain the highest letter or numerical rating provided by at least one nationally recognized standard service. Standard & Poor's has assigned STAR Ohio an AAAm money market rating.

E. Reconciliation of Cash and Investment to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the footnote above to cash and investments as reported on the statement of net assets as of June 30, 2005:

Cash and Investments per footnote	
Carrying amount of deposits	\$ 4,202,827
Cash in segregated accounts	8,216
Cash on hand	3,575
Investments	 1,500,310
Total	\$ 5,714,928

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Governmental activities	\$ 5,685,127
Private-purpose trust funds	2,881
Agency funds	 26,920
Total	\$ 5,714,928

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund balances at June 30, 2005, as reported on the fund statements, consist of the following individual interfund loans receivable and payable:

Receivable Fund	Payable Fund	Amount
General	Nonmajor governmental funds	\$ 1,855
Nonmajor governmental funds	Nonmajor governmental funds	49,617
Total		\$ 51,472

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

Interfund balances between governmental funds are eliminated on the government-wide financial statements; therefore, no internal balances at June 30, 2005, are reported on the statement of net assets.

B. Interfund transfers for the year ended June 30, 2005, consisted of the following, as reported on the fund statements:

	<u>Amount</u>
Transfers from general fund to:	
Nonmajor governmental funds	\$ 193,379

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Real property taxes received in calendar year 2005 were levied after April 1, 2004, on the assessed value listed as of January 1, 2004, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2005 represents collections of calendar year 2004 taxes. Public utility real and tangible personal property taxes received in calendar year 2005 became a lien December 31, 2003, were levied after April 1, 2004, and are collected in 2005 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2005 (other than public utility property) represents the collection of 2005 taxes. Tangible personal property taxes received in calendar year 2005 were levied after April 1, 2004, on the value as of December 31, 2004. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Huron County. The County Auditor periodically advances to the District the portion of the taxes collected. Second-half real property tax payments collected by the County Auditor by June 30, 2005, are available to finance fiscal year 2005 operations. The amount available as an advance at June 30, 2005, was \$1,005,019 in the general fund, \$91,952 in the debt service fund, and \$36,470 in the Permanent Improvement capital projects fund. The amount that was available as advance at June 30, 2004, was \$999,350 in the general fund, \$91,597 in the debt service fund and \$36,262 in the Permanent Improvement capital projects fund.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2005, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 6 - PROPERTY TAXES - (Continued)

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2005 taxes were collected are:

	2004 Second		2005 First				
		Half Collections		Half Collect		tions	
		Amount	<u>Percent</u>	A	mount	Percent	
Agricultural/residential							
and other real estate	\$	161,488,440	76.80	\$ 163	3,790,530	76.43	
Public utility personal		9,882,620	4.70	(9,464,730	19.16	
Tangible personal property	_	38,891,230	<u>18.50</u>	4	1,058,030	4.41	
Total	\$	210,262,290	100.00	\$ 214	4,313,290	100.00	
Tax rate per \$1,000 of assessed valuation for:							
Operations	\$	40.90		\$	40.90		
Permanent improvements		1.00			1.00		
Debt Service		2.39			2.39		

NOTE 7 - RECEIVABLES

Receivables at June 30, 2005, consisted of taxes, accounts (billings for user charged services and student fees), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported on the statement of net assets follows:

Governmental Activities:

Property taxes	\$ 6,158,087
Accounts	2,764
Intergovernmental	 9,807
Total	\$ 6,170,658

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within subsequent years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 8 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2005, was as follows:

	Balance 06/30/04	Additions	Deductions	Balance 06/30/05
Governmental Activities:				
Capital assets, not being depreciated: Land	\$ 107,448	\$ -	\$ -	\$ 107,448
Total capital assets, not being depreciate	107,448			107,448
Capital assets, being depreciated:				
Land improvements	280,294	5,689		285,983
Buildings and improvements	11,601,461	7,995		11,609,456
Furniture and equipment	1,662,813	53,482	(39,257)	1,677,038
Vehicles	852,554	136,806	(58,130)	931,230

Furniture and equipment	(643,761)	(94,826)	31,844	(706,743)
Vehicles	(529,300)	(52,177)	56,112	(525,365)
Total accumulated depreciation	(8,067,798)	(479,710)	87,956	(8,459,552)
Governmental activities capital assets, ne	\$ 6,436,772	\$ (275,738)	\$ (9,431)	\$ 6,151,603

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 8 - CAPITAL ASSETS - (Continued)

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 268,750
Special	11,075
Vocational	5,660
Support Services:	
Pupil	7,592
Instructional staff	60,536
Administration	15,830
Business	11,353
Operations and maintenance	25,605
Pupil transportation	50,197
Operation of non-instructional	386
Extracurricular activities	1,942
Food service operations	20,784
Total depreciation expense	\$ 479,710

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In the current year and in previous years, the District entered into capital lease agreements for the acquisition of a telephone system, copier equipment and network equipment. These leases meet the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term.

Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reflected as function expenditures on the budgetary statements. Capital assets acquired by lease have been capitalized in the amount of \$405,390, which is equal to the present value of the future minimum lease payments as of the date of their inception. A corresponding liability was recorded in the statement of net assets. Principal payments in the 2005 fiscal year totaled \$72,500. This amount is reflected as debt service principal retirement in the general fund and as a reduction to the long-term liability on the statement of net assets.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE - (Continued)

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2005:

Year Ending June 30	Amount
2006	88,865
2007	88,866
2008	22,064
2009	20,019
2010	6,536
Total minimum lease payment	226,350
Less: amount representing interest	(21,559)
Present value of minimum lease payments	\$ 204,791

NOTE 10 - LONG-TERM OBLIGATIONS

During the fiscal year 2005, the following changes occurred in governmental activities long-term obligations:

Ü	<u>Issued</u>	Due	Interest Rate		Balance 07/01/04	_1	ncrease_	_	Decrease	_	Balance 06/30/05		Amount Due in One Year
G.O. Bonds Payable High school addition	1994	2008	8.50%	\$	225,000	\$	_	\$	(45,000)	Φ	180,000	\$	45,000

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 10 - LONG-TERM OBLIGATIONS – (Continued)

Compensated absences will be paid from the fund from which the employee is paid and the bonds and EPA asbestos loan are being retired from the debt service fund. The energy conservation loan is being retired from the Energy Conservation capital projects fund (a nonmajor governmental fund). Funds to retire this obligation are being transferred from the general fund. The capital lease obligation is being paid from the general fund.

Principal and interest requirements to retire general obligation bonds and loans outstanding at June 30, 2005, are as follows:

Fiscal Year	Gene	General Obligation Bonds			oans Payable	е
Ending June 30	<u>Principal</u>	Interest	Total	<u>Principal</u>	Interest	Total
2006	265,000	174,806	439,806	40,872	25,732	66,604
2007	260,000	161,117	421,117	38,650	23,778	62,428
2008	265,000	147,044	412,044	36,482	21,766	58,248
2009	275,000	132,270	407,270	38,733	19,514	58,247
2010	145,000	122,503	267,503	41,061	17,187	58,248
2011-2015	855,000	497,536	1,352,536	245,383	45,856	291,239
2016-2020	1,190,000	189,705	1,379,705	20,706	412	21,118
Total	\$ 3,255,000	\$1,424,981	\$ 4,679,981	\$ 461,887	\$ 154,245	\$ 616,132

B. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. In addition, the Code further provides that unvoted indebtness for energy conservation measures shall not exceed 9/10 of 1% of the property valuation of the District.

The effects of these debt limitations at June 30, 2005, are a voted debt margin of \$17,311,458 (including available funds of \$1,355,771) and an unvoted debt margin of \$214,313 and an unvoted energy conservation debt margin of \$1,466,933.

NOTE 11 - OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, payment is made to certified and classified employees for one-fourth of accrued, but unused sick leave credit up to a maximum of 62.5 days.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 11 - OTHER EMPLOYEE BENEFITS - (Continued)

B. Insurance Benefits

The District provides life insurance and accidental death and dismemberment insurance to most employees through National Term Life Insurance Company.

NOTE 12 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions; injuries to employees and natural disasters. During fiscal year 2005, the District's insurance coverage was as follows:

Type of Coverage	Deductible	Liability Limit
Building and Contents-replacement cost	\$2,500	\$31,416,762
Inland Marine Coverage	500	included
Musical Instruments, Band and Choir Equipme	nt 500	273,550
General Liability	N/A	1,000,000/2,000,000
Employers Stop Gap Liability	N/A	1,000,000/2,000,000
School Professional Errors and Omissions Lial	oility10,000	1,000,000/2,000,000 aggregate
Sexual Misconduct Liability	N/A	1,000,000
Employee Benefits Liability	1,000	1,000,000/3,000,000 aggregate
Excess Umbrella Liability	10,000 ((retention) 5,000,000
Automobile Liability N/A	N/A	1,000,000
Uninsured Motorists Bodily Injury Liability	N/A	1,000,000
Auto Comprehensive	500	per stated vehicle
Auto Collision	1,000	per stated vehicle

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from fiscal year 2004.

B. Employee Health Benefits

The District has contracted with the Huron-Erie School Employees Insurance Association (Association) to provide medical/surgical, dental, and life insurance benefits for its employees and their covered dependents. The Association is a shared risk pool comprised of 14 school districts that provide public education within Erie and Huron Counties. The Districts pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees of participating school districts and their covered dependents. Claims are paid for all participants regardless of claims flow.

In the event of withdrawal, the District shall assume and be responsible for payment of all claims of its eligible employees, families, and dependents from the effective date of withdrawal, regardless of when such claims were incurred, processed, or presented to the Association, insurance provider, insurance consultant, or any other appropriate or authorized person or representative; provided further, any such claims, which are paid after the effective date of withdrawal by the Association insurance provider or insurance consultant, or charged to such parties, shall be reimbursed in full by any withdrawing member upon demand of the Association.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 12 - RISK MANAGEMENT - (Continued)

C. Workers' Compensation

For fiscal year 2005, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the state based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

NOTE 13 - DEFINED BENEFIT PENSION PLAN

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, or by calling (614) 222-5853.

Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2005, 10.57% of annual covered salary was the portion used to fund pension obligations. For fiscal year 2004, 9.09% of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The adequacy of the contribution rates is determined annually. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2005, 2004, and 2003, were \$212,694, \$174,763, and \$145,910 respectively; 39% has been contributed for fiscal year 2005 and 100% for the fiscal years 2004 and 2003. \$128,734, represents the unpaid contribution for fiscal year 2005 and is recorded as a liability within the respective funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

B. State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, by calling (614) 227-4090, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB Plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal years 2005 and 2004, 13% of annual covered salary was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employee contributions. The District's required contributions for pension obligations to the DB plan for the fiscal years ended June 30, 2005, 2004, and 2003, were \$1,083,821, \$1,063,442, and \$1,008,719, respectively; 83% has been contributed for fiscal year 2005 and 100% for the fiscal years 2004 and 2003. \$185,187 represents the amount unpaid for fiscal year 2005. Contributions to the DC and Combined Plans for fiscal 2005 were \$4,201 made by the District and \$10,703 made by plan members.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement Systems/State Teachers Retirement System. As of June 30, 2005, certain members of the Board of Education have elected Social Security. The District's liability is 6.2% of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through STRS, and to retired non-certified employees and their dependents through SERS. Benefits include hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Benefit provisions and the obligations to contribute are established by STRS and SERS based on authority granted by state statute. Both STRS and SERS are funded on a pay-as-you-go-basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. For fiscal year 2005, the State Teachers Retirement Board allocated employer contributions equal to 1% of covered payroll to the Health Care Stabilization Fund. For the District, this amount equaled \$83,371 during fiscal 2005.

STRS pays health care benefits from the Health Care Stabilization Fund. The balance in the Health Care Stabilization Fund was \$3.3 billion at June 30, 2005. For the fiscal year ended June 30, 2005, net health care costs paid by STRS were \$254.780 million and STRS had 115,395 eligible benefit recipients.

For SERS, coverage is made available to service retirees with 10 or more years of qualifying service credit, and disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply.

For fiscal year 2005, employer contributions to fund health care benefits were 3.43% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay has been established at \$27,400. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

Net health care costs for the year ending June 30, 2005, were \$178,221,113. The target level for the health care fund is 150% of projected claims less premium contributions for the next fiscal year. As of June 30, 2005, the value of the health care fund was \$267.5 million, which is about 168% of next year's projected net health care costs of \$158,776,151. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claims. SERS had approximately 58,123 participants eligible to receive health care benefits. For the District, the amount to fund health care benefits, including surcharge, equaled \$109,193 during the 2005 fiscal year.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The Statement of Revenue, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>Ge</u>	neral Fund
Budget basis	\$	147,256
Net adjustment for revenue accruals		(19,650)
Net adjustment for expenditure accruals		(240,629)
Net adjustment for other sources/uses		(39,573)
Adjustment for encumbrances	_	408,485
GAAP basis	<u>\$</u>	255,889

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 16 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is a party to legal proceedings which the outcome is unknown at this time.

C. State School Funding Decision

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the state's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient...". The District is currently unable to determine what effect, if any, this decision will have on its future state funding and its financial operations.

NOTE 17 - STATUTORY RESERVES

The Districts is required by state statute to annually set-aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end. These amounts must be carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by state statute.

	Textbooks/ Instructional <u>Materials</u>	Capital <u>Acquisition</u>
Set-aside cash balance as of June 30, 2004	\$ (436,327)	
Current year set-aside requirement	312,909	\$ 312,909
Offsets		(193,030)
Qualifying disbursements	(253,188)	(190,364)
Total	<u>\$ (376,606)</u>	<u>\$ (70,485)</u>
Balance carried forward to FY 2005	\$ (376,606)	<u>\$</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2005 (Continued)

NOTE 17 - STATUTORY RESERVES - (Continued)

The amount of qualifying disbursements exceeding the set-aside requirement in the textbooks reserve may be carried forward to reduce the set-aside requirement for future years. The negative amount in the capital acquisition reserve may not be carried forward.

NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES FISCAL YEAR ENDED JUNE 30, 2005

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Willard City School District Huron County 955 South Main Street, P. O. Box 150 Willard, Ohio 44890-0150

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Willard City School District, Huron County (the District) as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 15, 2006, in which we noted the District implemented Governmental Accounting Standards Board Technical Bulletin 2004-02, Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting to determine our auditing procedures in order to express our opinions on the financial statements and not to opine on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider material weaknesses. In a separate letter to the District's management dated May 15, 2006, we reported other matters involving internal control over financial reporting we did not deem reportable conditions.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO MAJOR FEDERAL PROGRAMS AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Willard City School District Huron County 955 South Main Street, P. O. Box 150 Willard, Ohio 44890-0150

To the Board of Education:

Compliance

We have audited the compliance of the Willard City School District, Huron County, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to its major federal program for the year ended June 30, 2005. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal program. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Willard City School District complied, in all material respects, with the requirements referred to above that apply to its major federal program for the year ended June 30, 2005.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Applicable To Major Federal Programs and Internal Control Over
Compliance In Accordance With OMB Circular A-133
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. However, we noted a matter involving the internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated May 15, 2006.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.
