INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Alliance
Stark County
504 East Main Street
Alliance, Ohio 44601

To the City Council:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Alliance, Stark County, Ohio, (the City) as of and for the year ended December 31, 2006, which collectively comprise the City's basic financial statements and have issued our report thereon dated August 8, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinions on the financial statements, but not to opine on the effectiveness of the City's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the City's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

We consider the following deficiency described in the accompanying schedule of findings to be a significant deficiency in internal control over financial reporting: Finding Number 2006-001.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the City's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and accordingly, would not necessarily disclose all significant deficiencies that are also material weaknesses. We do not believe the significant deficiency described above is material weakness.

We also noted certain matters that we reported to the City's management in a separate letter dated August 8, 2007.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain noncompliance or other matters that we reported to the City's management in a separate letter dated August 8, 2007.

The City's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the City's response and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of the audit committee, management, City Council, and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

Mary Taylor, CPA

Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

City of Alliance
Stark County
504 East Main Street
Alliance, Ohio 44601

To the City Council:

Compliance

We have audited the compliance of the City of Alliance, Stark County, Ohio, (the City) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to its major federal program for the year ended December 31, 2006. The summary of auditor's results section of the accompanying Schedule of Findings identifies the City's major federal program. The City's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City of Alliance, Stark County, Ohio complied, in all material respects, with the requirements referred to above that apply to its major federal program for the year ended December 31, 2006. In a separate letter to the City's management dated August 8, 2007, we reported an other matter related to federal noncompliance not requiring inclusion in this report.

Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

Telephone: (330) 438-0617 (800) 443-9272 Fax: (330) 471-0001
www.auditor.state.oh.us

A *control deficiency* in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that the entity's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the City's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we noted a matter involving the internal control over federal compliance not requiring inclusion in this report, that we reported to the City's management in a separate letter dated August 8, 2007.

Federal Awards Expenditures Schedule

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of City of Alliance, Stark County, Ohio as of and for the year ended December 31, 2006, and have issued our report thereon dated August 8, 2007. Our audit was performed to form opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying Federal Awards Expenditures Schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, City Council, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**CITY OF ALLIANCE
STARK COUNTY**

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED DECEMBER 31, 2006**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) summarizes activity of the City's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The City passes-through certain Federal assistance received from U.S. Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As described in Note A, the City records expenditures of Federal awards to subrecipients when paid in cash.

The subrecipient agencies have certain compliance responsibilities related to administering these Federal Programs. Under Federal Circular A-133, the City is responsible for monitoring subrecipients to help assure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements, and that performance goals are achieved.

NOTE C – URBAN DEVELOPMENT ACTION GRANT (UDAG) REVOLVING LOAN PROGRAM

The City has established a revolving loan program to provide low-interest loans to businesses to create jobs for persons from low-moderate income households and to eligible persons to rehabilitate homes. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the City, passed through the Ohio Department of Development. The initial loan of this money was previously recorded as a disbursement on the Schedule. Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by mortgages of property. At December 31, 2006, the gross amount of loans outstanding under this program was \$2,178,512 (net amount after allowance \$1,785,588).

NOTE D – COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAM

The City has established a revolving loan program to provide low-interest loans to businesses to create jobs for persons from low-moderate income households and to eligible persons to rehabilitate homes. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the City, passed through the Ohio Department of Development. The initial loan of this money was previously recorded as a disbursement on the Schedule. Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by mortgages of property. At December 31, 2006, the gross amount of loans outstanding under this program was \$39,715.

NOTE E - MATCHING REQUIREMENTS

Certain Federal programs require that the City contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

**CITY OF ALLIANCE
STARK COUNTY**

**SCHEDULE OF FINDINGS
OMB CIRCULAR A -133 § .505
DECEMBER 31, 2006**

1. SUMMARY OF AUDITOR'S RESULTS

(d)(1)(i)	Type of Financial Statement Opinion	Unqualified
(d)(1)(ii)	Were there any material control weaknesses reported at the financial statement level (GAGAS)?	No
(d)(1)(ii)	Were there any other significant deficiencies in internal control reported at the financial statement level (GAGAS)?	Yes
(d)(1)(iii)	Was there any reported material noncompliance at the financial statement level (GAGAS)?	No
(d)(1)(iv)	Were there any material internal control weaknesses reported for major federal programs?	No
(d)(1)(iv)	Were there any other significant deficiencies in internal control reported for major federal programs?	No
(d)(1)(v)	Type of Major Programs' Compliance Opinion	Unqualified
(d)(1)(vi)	Are there any reportable findings under § .510?	No
(d)(1)(vii)	Major Programs (list):	CFDA#14.218 Community Development Block Grants/ Entitlement Grants
(d)(1)(viii)	Dollar Threshold: Type A/B Programs	Type A: > \$ 300,000 Type B: all others
(d)(1)(ix)	Low Risk Auditee?	Yes

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

Finding Number 2006-001

Significant Deficiency

Financial Reporting

The audit of the financial statements of the City for the year ended December 31, 2006 resulted in a number of errors which were proposed as audit adjustments. The majority of these proposed adjustments were subsequently recorded. Throughout the year, the City maintains its books and records on the cash/budgetary basis of accounting and converts its financial statements at year-end to generally accepted accounting principles (GAAP). The audit adjustments were mainly related to correct errors in the GAAP conversion process.

Finding Number 2006-001 (Continued)

Sound financial reporting is the responsibility of Council and the City Auditor and is essential to ensure the information provided to the readers of the financial statements is complete and accurate.

To help ensure the City's financial statements and notes to the financial statements are complete and accurate, the City should adopt policies and procedures, including a final review of the statements and notes by the City Auditor and Council (or finance committee), to identify and correct errors and omissions.

Officials' Response:

The deficiency was caused primarily by the following:

1. A 50% turnover in staff in the Auditor's office occurred in 2006 along with a 20% reduction.
2. An additional workload was placed on the remaining staff of the Auditor's office to complete the implementation of GASB 34, 44, 46 & 47.
3. A GAAP conversion team was contracted to assist the City Auditor in completing the FY2006 CAFR.

The City anticipates that the following measures being implemented will address the issue in the future:

1. The Audit Committee will review existing control policies and provide their comments and suggestions.
2. The Audit Committee will be asked to make recommendations and suggestions regarding the City Auditor's current staffing levels and hours of operation.
3. The Audit Committee will be asked to review and assess the FY2006 GAAP Conversion team and submit their recommendation to the City Auditor for future services.

Honorable Citizens of Alliance
and Members of City Council
Alliance, Ohio 44601

Transmittal Letter

The Comprehensive Annual Financial Report (CAFR) of the City of Alliance, Ohio (the City) is hereby presented. This CAFR represents the official report of the City of Alliance's operations and financial position for the year ended December 31, 2006, and has been developed to accurately detail the status of City finances to Alliance residents and elected officials, investment banks, underwriters and all other interested parties.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Generally Accepted Accounting Procedures (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Alliance's MD&A can be found immediately following the independent accountants' report.

Reporting Entity

The City has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity." In evaluating how to define the City for financial reporting purposes, management has considered all agencies, departments and organizations making up the City of Alliance (the primary government) and its potential component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City of Alliance, this includes the departments and agencies that provide the following services: police and fire protection, parks and recreation, planning, zoning, street maintenance and repair, municipal court and general administrative services. The City has no component units for 2006.

The City of Alliance

The City of Alliance is located primarily in the northeastern portion of Stark County, with a small area in the southwestern portion of Mahoning County, in Northeastern Ohio on the headwaters of the Mahoning River. The City is approximately 18 miles northeast of Canton, the Stark County seat, approximately 55 miles southeast of Cleveland and approximately 79 miles northwest of Pittsburgh, Pennsylvania. It was incorporated as a village in 1854, and became a city in 1889.

The City is in the Canton Metropolitan Statistical Area (MSA) comprised of the Ohio counties of Carroll and Stark and being the 101st largest of 280 MSA's in the United States (based on the 2000 census).

The City's population of 23,252 placed it as the third largest City in the County.

The City's area is 7.952 square miles, of which approximately 7.875 square miles are located in Stark County and .077 square miles are located in Mahoning County.

The City is served by diversified transportation facilities, including five State and U.S. highways, which provide easy access to Interstate Highways 76, 77, and 80 (the Ohio Turnpike). It is adjacent to areas served by Norfolk-Southern Corp., and Amtrak, which provides freight and passenger rail services through a station located in the City. Passenger air service is available at the Akron-Canton Regional Airport located 25 miles west of the City, the Youngstown Municipal Airport located 35 miles northeast of the City and Cleveland Hopkins International Airport located 55 miles northwest of the City.

Public Transportation is provided by Stark Area Regional Transit Authority (SARTA) which offers fixed route and curb service within and between the cities of Stark County.

The City is provided with banking and financial services by six commercial banks and banking associations operating a total of eight offices within the City (each with principal offices located elsewhere) and five credit unions.

Two daily newspapers serve the City. The City is within the broadcast area of numerous television stations and AM and FM radio stations. Time Warner Cable provides multi-channel cable TV service.

Mt. Union College, a private four-year college with a total enrollment of approximately 2,400 students is located in the City. In 2005, Stark State College of Technology opened a branch location in the City. In addition, within commuting distance are several public and private two-year and four-year colleges and universities, including the University of Akron, Kent State University, Northeastern Ohio College of Medicine located in Rootstown Township, Portage County, Walsh University located in Plain Township, Stark County, Malone College located in the City of Canton, and Stark State College of Technology located in Jackson Township, Stark County.

The City is served by Alliance Community Hospital (ACH), a 204 bed facility is a non-profit hospital founded in 1901. Another 78 nursing home/transitional care beds are found in the attached, long-term care facility, Community Care Center. ACH is fully accredited by the Joint Commission on Accreditation of Health care Organizations (JCAHO) and offers a quality medical staff of more than 150 active and covering physicians.

Various recreational and cultural facilities are immediately available to City residents. The City operates a park system of 13 parks and parklands encompassing 190 acres with facilities that include tennis courts, baseball diamonds and basketball and volleyball courts and soccer fields.

In addition, 2,700 acres of recreational areas including lakes, reservoirs, trails and parks are located in the surrounding areas. “Carnation Days”, an annual festival, is celebrated throughout the City for ten days each August. Activities include a festival pageant, a parade, concessions and games, musical events, and arts and crafts.

A Senior Citizens Center is located in the City. It offers a multitude of services and social activities for people over sixty and retirees of the community.

The City is also home to the “Carnation City Players” that produces and presents theatrical productions in the Firehouse Theater several times each season.

Water service within the City is provided by the City’s water system and is purchased directly by consumers. Sewage collection and disposal is handled by the City’s sewage system. Through the City’s electric aggregation, First Energy, (formerly the Ohio Edison Company) provides electricity and through the City’s gas aggregation, natural gas is provided by Columbia Gas of Ohio, Inc. The local provider of telephone service is AT&T.

City Government

The City operates under and is governed by the mayor-council form of government in accordance with general laws. Under the Ohio Constitution, the City may exercise all powers of local self-government, and police powers to the extent not in conflict with applicable general laws.

Legislative authority is vested in a seven-member Council, of whom three are elected at-large and four are elected from wards, for two-year terms. The Council fixes compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades, and other municipal purposes. The presiding officer is the President, who is elected by the voters for a two-year term.

The City's chief executive and administrative officer is the Mayor, who is elected by the voters specifically to that office for a four-year term. The other elected officials are the

City Auditor, the City Treasurer, and the City Director of Law, each elected to a four-year term, and the Clerk of Courts and Judge, each elected to a six-year term.

The Mayor appoints the directors of City departments. The major appointed official is the Director of Public Service and Safety. The Mayor also appoints members to a number of boards and commissions, and appoints and removes, in accordance with civil service requirements, all appointed officers and employees, except Council officers and employees and the City Income Tax Administrator who is appointed by the City Auditor.

The Mayor may veto any legislation passed by the Council. A veto may be overridden by a two-thirds vote of all members of the Council.

Financial Matters

The City's fiscal year corresponds with the calendar year.

The main sources of City revenue have been from property and income taxes, charges for services, and state distributions.

The responsibilities for the major functions of the City are divided among the Mayor, the City Auditor and the Council.

The City Auditor is the City's fiscal and chief accounting officer. Among his duties are to keep the books and accurate statements of all moneys received and expended and of all taxes and assessments; at the end of each fiscal year, or more often if requested by the Council, to examine all accounts of City officers and departments; and not to allow the amount set aside for any appropriation to be overdrawn, or the amount appropriated for any one item to be drawn upon for any other purpose, or a voucher to be paid unless sufficient funds are in the City treasury to the credit of the fund on which the voucher is drawn. The City Treasurer is responsible for receiving, maintaining custody of and disbursing all City funds.

Investments and deposits of City funds are governed by the Uniform Depository Law (Chapter 135 of the Revised Code) applicable to all subdivisions. An investment board, comprised of the Mayor, the City Auditor, the Law Director, the Treasurer and a member of the business community, is responsible for those investments and deposits. Under recent and current practices, investments are made primarily in money market mutual funds and Star Ohio (State Treasury Asset Reserve of Ohio), an investment pool for all Ohio political subdivisions, under the custody and management of the Treasurer of the State of Ohio.

Other important financial functions include general financial recommendations and planning by the Mayor; budget preparation by the Mayor with assistance of the City Auditor; and express approval of appropriations by the Council. For property taxation purposes, assessment of real property is by the Stark and Mahoning County Auditors subject to supervision by the State Tax Commissioner, and assessment of public utility and tangible personal property is by the State Tax Commissioner. Property taxes and

assessments are billed and collected by County officials in Stark and Mahoning Counties.

Financial Outlook

The City's economy continues to show the effects of prior years economic slowdown. The unemployment rate is higher than the State of Ohio and the United States. See the discussion in the MD&A relating to the economic factors affecting the City.

Financial Information

The City's accounting system is organized on a "fund basis" in which each fund is a distinct self balancing accounting entity. The City's day-to-day accounting and budgetary records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when measurable and incurred. The basis of accounting and presentation of the various funds utilized by the City are fully described in Note 2 of the basic financial statements. Additional budgetary information can be found in Note 2.

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation ordinance; all are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations ordinance are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the object level within each department and fund. Any budgetary modifications at this level may only be made by resolution of the City Council.

The City's fully automated financial system also maintains budgetary control through its purchase order/encumbrance feature. The purchase order, required before making purchases, creates the encumbrance against the current budget. Purchase orders which result in an overrun of budget are not released until additional appropriations are made available through Council ordinance. This procedure is followed when money is available to allow an increase in appropriations. If no money is available, the purchase is canceled.

The City Auditor continually monitors the encumbrances and expenditures against the budget appropriations and against the County Auditor's certificate of estimated resources. Using the budget prepared by the City the preceding July and including the carry over balances less carry over encumbrances at year end, the County Auditor arrives at and issues the certificate of estimated resources for the City. Ohio Law prohibits total fund appropriations from exceeding the amounts by fund on the County Auditor's Certificate.

Internal Accounting and Reporting Control

As part of its continuing commitment to excellence in financial reporting, the City utilizes a computerized financial accounting and reporting system. Enhancements to the present internal accounting controls and procedures are continually evaluated by the City Auditor. The City Auditor oversees the appropriateness of internal control, develops procedures to enhance internal control and consults with outside auditors to insure that the City remains at a sound financial level of operation.

The City has built internal accounting controls into its financial accounting, budgeting and reporting system to provide reasonable, but not absolute, assurance regarding (1) the safeguarding of assets against loss resulting from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The internal accounting controls built into the City's system were developed using the concept of reasonable assurance. This concept recognizes that the cost of a control should not exceed the benefits likely to be derived from its implementation, and that the evaluation of costs and benefits should require estimates and judgments by management. We believe that the City's internal accounting controls adequately safeguard the City's assets and provide reasonable assurance of proper recording and reporting of financial transactions.

Awards

The Government Finance Officers Association of the United States of America and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Alliance, Ohio for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2005. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Report, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Alliance, Ohio has received a Certificate of Achievement for the last seven consecutive years (1999-2005). We believe our current report continues to conform to the Certificate of Achievement program requirements and are submitting it to the GFOA.

Independent Audit

The financial records, books of accounts and transactions of the City of Alliance, Ohio, for the year ended December 31, 2006 have been audited by the Auditor of State Mary Taylor's Office. The Auditor's opinion has been included in this report.

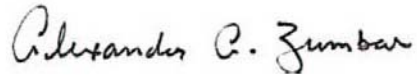

Acknowledgments

The City would like to express its appreciation to Cohen & Company, Ltd. for their assistance with the preparation of this Comprehensive Annual Financial Report.

Further, as City Auditor, I would like to express my sincere appreciation to my efficient and knowledgeable staff, and other City and County departments who assisted in this endeavor and whose dedication and commitment made the publication of this Comprehensive Annual Financial Report a successful accomplishment.

In addition, I would like to thank the Administration and Members of Council for their continued support and commitment which has enabled the City to upgrade its accounting information systems to provide the citizens of Alliance with the fiscal accountability they deserve.

Respectfully Submitted,

INDEPENDENT ACCOUNTANTS' REPORT

City of Alliance
Stark County
504 East Main Street
Alliance, Ohio 44601

To the City Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Alliance, Stark County, Ohio, (the City) as of and for the year ended December 31, 2006, which collectively comprise the City's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Alliance, Stark County, Ohio, as of December 31, 2006, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General and Special Revenue Revolving Loan funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 8, 2007, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

A handwritten signature in cursive script that reads "Mary Taylor".

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

The discussion and analysis of the City of Alliance's financial performance provide an overall review of the City's financial activities for the year ended December 31, 2006. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the transmittal letter and basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2006 are as follows:

- The assets of the City exceeded its liabilities at the close of the year ended December 31, 2006, by \$43.8 million (net assets). Of this amount, \$2.1 million (unrestricted net assets) may be used to meet the City's ongoing governmental activities to citizens and creditors, and \$5.8 million is classified as unrestricted in the business-type activities.
- At the end of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$9.4 million. Of this amount, \$7.3 million is available for spending (unreserved fund balance) on behalf of its citizens.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$2.0 million, or 18% of total general fund expenditures and other financing uses.
- The City's total debt decreased by approximately \$1.5 million which represents a decrease of \$.4 million related to governmental activities and a decrease of \$1.1 million in debt related to business-type activities.
- The City's total net assets increased by approximately \$2.3 million from 2005.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Alliance as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

Reporting the City of Alliance as a Whole

Government-wide financial statements: Statement of Net Assets and the Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2006?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all nonfiduciary assets and liabilities using the accrual basis of accounting similar to the accounting used by the private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net assets and the change in those assets. This change in net assets is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, nonfinancial information such as changes in the City's tax base and the condition of City capital assets will also need to be evaluated.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two kinds of activities:

- ◆ **Governmental Activities**-Most of the City's services are reported here including public safety, judicial, health and human service programs, administration, and all departments with the exception of our Water and Sewer funds.
- ◆ **Business-Type Activities** – These services have a charge based upon the amount of usage. The City charges fees to recoup the cost of the entire operation of our Water and Sewer Plants as well as all capital expenses associated with these facilities.

The government-wide statements can be found on pages 18 - 19 of this report.

Reporting the City of Alliance's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds. Fund financial reports provide detailed information about the City's major funds. Based on restrictions on the use of monies, the City has established many funds that account for the multitude of services provided to our residents. However, these fund financial statements focus on the City's most significant funds. In the case of the City, our major funds are the General, Revolving Loan, Debt Service, Sewer and Water Funds. The analysis of the City's major funds begins on page 20.

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is more than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The governmental fund financial statements can be found on pages 20 - 23 of this report.

Proprietary Funds: The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water and Sewer operations and the Robertson Community Center. An Internal Service fund is an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for its self-insured hospitalization. The proprietary fund financial statements can be found on pages 31 - 34 of this report.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for the fiduciary funds is much like that of the proprietary funds. At December 31, 2006, the City has no fiduciary fund balances.

Notes to the Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements begin on page 35 of this report.

For the Year Ended December 31, 2006
Unaudited**

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$43.8 million (\$28.8 million in governmental activities and \$15.0 million in business-type activities) as of December 31, 2006. By far, the largest portion of the City's net assets reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of other related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 provides a summary of the City's net assets at December 31, 2006 and 2005.

**Table 1

Governmental Activities

Security of persons and property accounts for \$6.9 million of the \$15.2 million total expenses for governmental activities, or 45% of total expenses. The next largest program expense is general government, accounting for \$4.0 million which represents 26% of total governmental expenses.

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

Income tax revenue accounts for \$8.3 million of the \$16.3 million in total revenue for governmental activity, or 51% of total governmental revenues. Charges for services was the largest program revenue, accounting for \$1.4 million, or 9% of total governmental revenue. These charges are for fees for transfers, fines and forfeitures related to judicial activity, and licenses and permits associated with building inspectors.

Business-type Activities

The net assets for the business-type activities for the City increased by \$1.2 million during the year 2006. The major revenue source was charges for services of \$8.2 million.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$9.3 million. Approximately \$7.3 million of this amount constitutes unreserved fund balance, which is available for spending for its citizens. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior year, and 2) to account for the reservation of loans. While the bulk of the governmental fund balances are not reserved in the governmental fund statements, they lead to restricted net assets on the Statement of Net Assets due to their being restricted for use for a particular purpose mandated by the source of the resources such as the state and federal governments or a tax levy.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$2.0 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents approximately 18% of the total general fund expenditures and other financing uses.

The fund balance of the City's general fund increased approximately \$.4 million compared to the prior year increase of \$.2 million. Revenues were up approximately \$.8 million while expenditures were up \$.4 million.

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

General Fund Budgeting Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of 2006, the City amended its general fund budget several times. Final budgeted revenues and expenditures were increased approximately \$.8 million and \$.6 million, respectively, over their original amounts. In both cases, the increase was mainly related to income tax. Actual expenditures were approximately \$.5 million less than the revised budget.

Capital Assets and Debt Administration

Capital Assets: The City's investment in capital assets for its governmental and business-type activities as of December 31, 2006, amounts to \$25.6 million (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, improvements, software, furniture, equipment, sewer and water systems, infrastructure, construction in progress, and vehicles.

Note 7 provides capital asset activity during 2006.

Major capital asset events during the current year included completion of street improvements for Arch Avenue and various street resurfacing projects.

Arch Avenue Improvement: This \$725,000 street improvement project targets an area identified for neighborhood revitalization. It is to be completed in phases and extends from East Main Street to 11th Street. Phase one which was completed in 2005 extends from East Main to Grant Street. In 2006, phase two completes the project from Grant Street to 11th Street. Municipal road funds combined with CDBG funds are being used for the project.

Long-term Debt: At the end of 2006, the City's debt outstanding consisted of revenue bonds in the amount of \$15.8 million; general obligation debt outstanding of \$5.7 million; and Ohio Public Works Commission loans of \$.4 million. Of the \$5.7 million general obligation debt - debt that is backed by the full faith and credit of the City - \$.4 million is special assessment debt for which the City is liable in the event of default by the property owner subject to the assessment.

State statute limits the total amount of debt a governmental entity may issue. The City's total debt margin at the end of 2006 was \$28.2 million with an unvoted total debt margin of \$13.6 million. Its net general bonded debt per capita for 2006 was \$232 as compared with \$263 for 2005. The calculation and related discussion of the legal debt margin, and other debt-related statistics, are included in the Statistical Section of this report. The City maintains an underlying "A2" rating from Moody's on its general obligation debt and an underlying "Aaa" rating on its revenue bonds.

In addition to the bonded debt, the City's long-term obligations include a liability for police and fire pension and compensated absences. Additional information on the City's long-term liabilities can be found in Note 10 of this report.

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

Interest and fiscal charges related to governmental activities in 2006 were \$129,000 or 1% of the total governmental activities expenses.

Economic Condition and Outlook

Beginning in the year 2000, the City experienced a significant economic slowdown with the loss of several major industrial and manufacturing companies (American Steel Foundries, Mobile Consulting, and Alliance Machine).

In an effort to address and prevent any further loss of jobs and address sagging general fund revenues, several plans were undertaken to strengthen economic development. The City created a new Industrial Park and created a Tax Increment Financing District to add and upgrade infrastructure to foster development. The City also entered into a Cooperative Economic Development Agreement (CEDA) with an adjacent township to encourage economic growth in and around the City.

The City, with approval from the Stark County Board of Commissioners and a joint resolution between Alliance City Council, the Alliance City School Board of Education and Marlinton School Board of Education, operates an Ohio Enterprise Zone Agreement. The City also offers a Community Reinvestment Area Tax Abatement Program (CRA). The abatement is equal to 100% of the value of the eligible real property investment for a term up to fifteen (15) years. These programs are designed to provide incentives for commercial and industrial expansions and new construction. Abatements are also offered for property taxes on the increased values of real estate attributable to the improvements and tangible personal property taxes on items such as machinery equipment and inventory.

The Industrial Park was opened in 2002 with the ground breaking of a 340,000 square foot facility that would be occupied by Robertson's Heating and Supply Company. During 2002, the City annexed approximately 154 acres of land that is currently being developed as a single-family and multi-family development. The City of Alliance Planning and Economic Development Director, Stark Development Board and the Alliance Area Development Foundation, a non-profit organization, have all been operating with the goal of retaining companies, enhancing company growth, and capturing new business for the Alliance Area.

By 2003, the industrial park was completed and housed Winkle Industries, an industry leader in magnetic handling equipment. In 2004, Robertson Heating and Supply Company, a leading global distributor of heating and plumbing supplies relocated and in 2005, Terry's Tire Town, a global retailer and wholesaler of auto and truck tires along with Trilogy Plastics, a nationally recognized rotational molder, specializing in custom plastics molding had completed construction of their facilities and relocated to the industrial park.

Alliance Castings LLC, a division of ACF, celebrated on March 9, 2004, the opening of a new factory in the former American Steel Foundries building in Alliance. The company is involved in the manufacturing of rail car undercarriage parts. Employment has grown from 350 associates since the start up, and reached 750 employees by the fall of 2005. In addition, Alliance Castings made an investment of over \$17 million in their new business. The State of Ohio provided both Ohio Enterprise Bond Fund financing and 166 Direct Loan financing. Additionally, the State provided a ten year, 70% Job Creation Tax Credit in addition to City of Alliance's local income tax incentive agreements.

*Management's Discussion and Analysis
For the Year Ended December 31, 2006

Blue Ribbon Committee

Due to dramatically reduced revenues the City began experiencing as a result of significant business and industry closings, job losses and a stagnant economy, a Blue Ribbon Committee was formed by Mayor Middleton in July 2004 to examine the City of Alliance's finances through a study of all areas of the City's operations, including revenues and expenditures. The committee recommended several general fund short term and long term solutions:

Short Term Recommendations

- \$500,000 loan from Master Capital & Water Funds to the General Fund.
- Temporary Change in the Reallocation of the Income Tax Split
- Reduction of the Income Tax Credit Rate to 1% from 1.75%

Long Term Recommendations

- Increase the income tax from 1.75% to 2.00%.
- Consider a safety forces levy to maintain the current levels of service
- Evaluation of the transition to a combined safety force of police and fire or the transition to a volunteer or part-paid/volunteer fire department.

Committee recommendations included a **temporary** change to the income tax split allocation according to the following: 86% to the General Fund (a 7% increase); 6% to the Master Capital Improvement Fund (a 4% reduction); 4% to the Street Fund (a 3% reduction); 4% to the Water Fund (unchanged). In addition, the committee recommended that the city consider enacting a reduction to the income tax credit to 1% effective January 1, 2005. The committee examined the possible sale of City-owned assets, especially land or other assets no longer needed for operations. The committee recommended that proceeds from such sales should be set aside to fund employee retirement costs required by the Ohio Revised Code, which would save operational costs within the General Fund, or for the purchase of land for economic development opportunities.

Motor Vehicle License tax increase

The City currently levies a \$5 per motor vehicle license tax, the proceeds of which are required to be used for construction, maintenance and repair of streets and highways, including bridges. Stark County also currently levies a \$5 per vehicle tax. Motor vehicle license tax receipts are approximately \$96,000 on an annual basis to the City. The committee recommended that City Council immediately enact an additional \$5 per motor vehicle tax to the residents of Alliance, the proceeds of which should go to the construction, maintenance and repairs for the city's streets and highways.

Residential Development

Residential development in the City has increased over the past 10 years and it is also meeting the demands of a changing population with the development of condominiums and single family homes. The most recent condominium and single family home developments which have been completed are the following: Potter's Creek, Washington Hills Development, College View Allotment, and East Alliance Neighborhood Development. 180 units have been built during the last several years. Newly proposed projects involving Mt. Union College and Klinger Avenue will expand the number of housing units in the City. The increased residential development is a strong indicator of future economic growth of the City. Future growth of the City and continued residential development is anticipated with future annexations of land.

***Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited***

Annexation of Land

The City of Alliance continues to expand through annexation efforts. The annexation of a 13 acre island located on the northwest side of the intersection of Sawburg Avenue and Parkmont Street in Lexington Township occurred in 2006. The Park Commons annexation petition brings the island area, which is surrounded by Alliance, into the City and is planned to be a condominium development.

Comprehensive Land Use Plan

In order to direct plans that promote a sound pattern of development the City has undertaken a comprehensive look at updating its land use plan, subdivision regulations and planning & zoning regulations over the past three years. A proposed plan that included maps, tables and descriptive matter and careful, comprehensive surveys and studies of the present conditions and future needs of the City was completed in 2005 and presented to City Council for their consideration. The document is to serve as a guide in defining community objectives, policies, goals and scheduling of capital improvement projects including water lines, sanitary sewer lines, storm sewers, and transportation. Council subsequently adopted the plan in March of 2007.

Engineering, Planning & Zoning Fees

In March of 2007, Council adopted legislation which created new permit and fee structures and provided the Director of Public Safety and Service the authority to review, update and establish permit, plan review, and inspection fees for Engineering, Planning and Zoning and to make them compatible to other local communities with the approval of Council.

Development Plan for Downtown Area

Alliance City Council adopted ordinance 38-06, legislation aimed at making use of the Revolving Loan Fund for downtown development more attractive while strengthening the City's ability to recoup those funds should the businesses fail. The legislation creates a Downtown Development District that encompasses East Main Street and a large portion of the area surrounding it. Existing businesses and potential business operations within the district would be eligible for low interest loans from the Revolving Loan Fund that the City has used for years to provide low interest economic development loans to businesses.

Housing & Urban Development Funds

The City of Alliance took steps to secure \$824,672 in Federal Housing and Urban Development funds. The five year consolidated plan addresses the City's goals and objectives in receiving the housing and urban development money outlining housing and other community development issues and how the City plans to use the money.

New employee unions recognized

Two new unions were authorized by City Council in December of 2006. Approximately 100 non-affiliated employees and the departmental supervisors formed unions.

*Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited*

Employee contracts approved

Beginning January 1, 2006 union members and non-affiliated employees with the exception of elected officials and the union representing the police and fire dispatchers received a 4-percent wage increase in the first year of the contract followed by 3-percent increases in the second and third years. Every union, with the exception of the dispatchers, must shoulder some of the cost of their health insurance. The estimated cost of the wage increase is \$1.49 million for all union and non-affiliated employees over the three year contract period.

Park Board considers levy

The Alliance Park Board members have decided that it is time to ask the voters directly to provide the money necessary to keep the parks and recreation system in operation. A Park Board resolution has been approved by City Council to place a 2.75 mill levy on the November primary ballot. The park and recreation system has grown primarily through gifts from people and organizations. A levy is necessary because over the past decade due to the General Fund allocation to the park and recreation system remaining stagnant; however, the size of the park and recreation system operations has grown. In order to maintain the system, operations will have to be scaled back. The board has determined that they can only keep the facilities open if they can insure that they are safe.

MAJOR INITIATIVES

Current

Skate Park

The community effort to construct a municipal skate park has been progressing over the year. Fundraising efforts have been undertaken by the Parks and Recreation department and the citizen's skate park committee to help secure funds for the project. 20 pieces of skate park equipment were purchased by the City for \$10,000. Preliminary discussions about where the skate park will be located are currently underway. Once the location is determined the construction of a concrete pad to hold the skate park equipment will be the final expense.

Alliance Fire Department begins First Responder duties

In August of 2006, City Council and the Administration gave approval to have the Alliance Fire Department implement first responder duties for a two year period of time. After the two year period of time has elapsed an assessment will be undertaken to determine if the program will continue. All medical emergency calls are to be dispatched to the Fire Department. The firefighters received their first responder training and were certified by the State. Fire apparatus vehicles are to be utilized to make the emergency medical calls. Because the expected annual emergency medical runs are estimated to be around 1,000 it could cause the fire trucks to be replaced at a faster rate. The fire trucks cost the City an average of \$500,000 each. An emergency van is to be utilized in addition to the trucks to help offset the number of runs made by the fire trucks.

Sewer Lines to be extended

Due to an Ohio Environmental Protection Agency order, sanitary sewer service is to be extended to 114 single family homes in Washington Township, which is located just southwest of the City. Several years ago, officials of the Ohio EPA determined that the sewage from the septic tanks in the area was making its way into a small waterway in the area and ordered Stark County and Washington Township to have sanitary sewer lines installed in the area. The Ohio EPA order requires the township and the county sewer district to install sanitary sewer lines in the affected area. Once those lines are installed the Stark County Health Department will be required to order the residents to tap into the sewer lines.

As the county, township and the city were negotiating the agreement it was decided to have the system enlarged to allow for more Washington Township residents living in the areas abutting the EPA ordered area to begin using the City's wastewater plant to treat their sewage. The expanded area has the potential of handling up to 430 sewer connections. The construction of two lift stations is expected in order to move the sewage from Washington Township into the City's existing sanitary sewer system. It is anticipated that the sewer line installation and lift station construction will be completed in 2007.

Street Resurfacing project

The annual street resurfacing project cost the City \$449,809, approximately \$70,000 less than the engineer's estimate. A joint project between the City and Mahoning County to address problems with two abandoned access routes underneath Mahoning Avenue was undertaken. The areas needed to be filled in from the sides or filled in from above. It was determined to use the approximate \$70,000 savings to deal with the problems now and fill them in from above. The cost of the work and the paving was shared with Mahoning County. \$350,000 of street income tax and municipal road fund money was used to resurface 19 other municipal streets. \$20,000 was utilized from the Park & Recreation master capital fund to pave the roads and parking lots in Silver Park.

Water & Sewer Rate Increases

The City instituted Water & Sewer rate increases in 2005. The water rate increase was necessary to meet the rate covenant of the Trust Indenture as made by the City for the Series 1998 Water Works System Revenue Refunding Bonds (these bonds were sold to refund and retire the series 1990 and series 1991 Waterworks bonds) to provide adequate funds to operate and maintain and perform replacements and capital improvements, and to make timely payments on debt service. The proposed increases were effective January 1, 2005 and are as follows: Jan. 1, 2005 – 9%, Jan. 1, 2006 – 5%, Jan. 1, 2007 – 5%, Jan. 1, 2008 – 3%, Jan. 1, 2009 – 3%. In addition, effective January 1, 2005, water rates for users outside the limits of the City of Alliance shall be surcharged at 75% of the inside the City rate.

To meet the rate covenant of the Trust Indenture as made by the City for the Sewerage System Revenue Refunding Bonds, and to provide adequate funds to operate, maintain, perform replacements, and capital improvements and to make timely payments on the Debt Service, a sewer rate increase was required. The sewer rate increases are as follows: Effective Jan. 1, 2005 – 5%, Jan. 1, 2006 – 5%, Jan. 1 2007 5%, Jan. 1. 2008 – 5%, Jan. 1, 2009 – 5%. In addition, the current practice of applying a 50% surcharge on the debt service portion only of the sewer rate by users in areas outside the City limits was revised to a surcharge of 75%.

*Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited*

The City continues with the maintenance of sanitary sewers, water improvements, storm water improvements, road paving projects, and general infrastructure improvements.

Waste Water Treatment Plant Clarifier Rehab project Phase II

Phase two of the clarifier rehab project began in April 2006 with the awarding of a contract to provide engineering services during the construction for the Waste Water Treatment Plant clarifier rehabilitation project. Another contract was awarded to provide on-site inspection services during the construction for the Waste Water Treatment Plant clarifier project. The City received from OPWC in December of 2006 a twenty-year, 0% interest loan of \$113,680 to help finance the project. The first payment on the loan is to be in July of 2007.

Work on the other four clarifiers will be done in a phased approach in the coming years. The City will continue seeking State aid to accomplish the work. The clarifiers do not have mechanical or structural problems that require immediate attention. The work being planned is based primarily on the age of the tanks and equipment that operates the clarifiers. Some of the work will be preventative maintenance.

Arch Avenue Street Improvement – Phase II

Phase two of the South Arch Avenue improvement project was completed in 2006. Because the successful bid amount was below the engineer's estimate the City expanded the size of the project. The original contract called for street improvements to South Arch Avenue as far south as 11th street, that area receiving new sidewalks, gutters and catch basins as well as new street paving. The work was paid for with a combination of Community Development Block Grant and Municipal Road Fund money.

The City will continue to place a major emphasis on economic development within the City. There are numerous sites within the City for development including the West Main Street Industrial Park, Washington Hills and the recently annexed Parkmont Commons areas.

Future

Expansion, attracting new business and maintaining the City's infrastructure remain an ongoing commitment. The City continues with the maintenance of sanitary sewers, water improvements, storm water improvements, road paving projects, and general infrastructure improvements.

Renovation of Dr. Martin Luther King, Jr. Viaduct

The City is planning to renovate and improve the Dr. Martin Luther King, Jr. Viaduct. A landscape architect is being contracted to assist in the concept work and construction plans for the vehicle and pedestrian bridge at the eastern end of Main Street. Improvements would include replacing the chain-link fence along the edges of the viaduct, ornamental rails to separate the pedestrian and vehicular traffic, new lighting and improved signage.

*Management's Discussion and Analysis
For the Year Ended December 31, 2006
Unaudited*

Waste Water Treatment Plant Raw Influent Screw Lift Pump Replacement project

The rehabilitation of the Waste Water Treatment Plant continues. The Waste Water Treatment Plant raw influent screw lift pump replacement project is to be undertaken. Council authorized the City to enter into a contract with a qualified firm to provide engineering and design services for the raw influent screw lift pump replacement. The pumps are beyond their original life expectancy and have become a maintenance concern. The failure of any of the three pumps would very seriously impact the operations of the plant. The screw lift pumps are to be replaced with submerged centrifugal pumps. The work will cost \$75,000 and is to be paid from the Sewer Surplus Reserve Fund. It is expected that the work will be done over three phases.

City takes steps to meet Storm Water Quality Standards.

Council gave its permission to the Administration to submit a notice of intent to the Ohio EPA that acknowledges that the city will prepare a Storm Water Management Program. The City was also given permission to enter into an agreement with the Stark County Soil and Water Conservation district concerning storm water management.

MPI Label and Globalpak

Two companies, MPI Label and New Hampshire based Globalpak (RFIPM Holdings, LLC) are relocating to the Alliance area. MPI Label's mechanical division has already moved to the former Pressworks building which is located in Lexington Township. Globalpak manufactures security neck bands that are found on over-the-counter medications and other products. The neck bands are designed to show if the product might have been tampered with. In some cases Globalpaks neck bands go on the packages full-body sleeve that MPI manufactures.

City Council authorized legislation that gives RFIPM a \$300,000 loan from the City's Urban Development Action Grant Revolving Loan. The \$300,000 helps cover a portion of the buildings \$800,000 price tag. The City will assume the first mortgage position on the building and land which, has been valued at \$1.1 million. Globalpak, is moving its manufacturing and warehouse facility to West Main Street. The move brings 20 full-time jobs and some part-time jobs to the city. The loan is set to run for five years at an annual interest rate of 3 percent.

Cooperative Economic Development Agreement with Lexington Township

The City of Alliance continues to expand through annexation efforts. Alliance is seeking to annex 224.7 acres of land from Lexington Township. A majority of property owners in the West Main Street and Beeson Street area are agreeable to annexation into the City and this includes the MPI Label and RFIPM Holdings, LLC businesses located just northwest of the City. The City is discussing with Lexington Township trustees the possibility of forming a Cooperative Economic Development Agreement which would allow the area to be annexed into the City while both the affected township and the City share the revenue generated by the development. In exchange for continuing to receive tax money from the annexed area the township promises to continue to handle some of the services provided in the area. Stark County Commissioners still need to give their approval.

US Route 62 between Union and Mahoning Avenue to be resurfaced

Beginning June 1, 2007 US Route 62 between state routes 173 and 225 will be reduced to one lane in each direction through late June for roadway construction. This work is part of the \$1.1 million dollar project to resurface state Route 173 to the Mahoning County line.

SARTA Mass Transit Project

City and Stark Area Regional Transit Authority joined together for groundbreaking ceremonies in May of 2007. A 2,052 square foot building is to be constructed on the northeast corner of Prospect Street and North Union Avenue.

¼% Income Tax Increase

Alliance City residents approved an additional one-quarter of one percent income tax increase at the May 2007 primary election to keep the City's government operating efficiently. The last time the City increased its income tax was in 1982.

2007 General Fund Budget

Despite the recent growth in the 2006 income tax collections and the City's cost cutting efforts, it appears the City will continue to have a difficult budget situation for the near future. This is due to other revenues such as shared support from the State, interest earnings and estate inheritance taxes, continuing to remain stagnant or declining while operating costs continue to increase due to inflationary pressures, higher utility and gasoline prices, training costs due to new State requirements and rising costs of health care. As a result, it is anticipated that further cost containment efforts and revenue enhancement actions will be necessary through the remainder of 2007 and beyond.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate accountability for the money it receives. Any questions concerning any of the information provided in this report or requests for additional information should be addressed to the Alliance City Auditor, Alexander A. Zumbar. **CITY OF ALLIANCE, OHIO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2006**

Total Governmental Funds	Net Change in Fund Balances - Total Governmental Funds	\$ 112,105
	<i>Amounts for governmental activities in the statement of activities are different because</i>	
	Governmental funds report capital outlays as expenditures.	1,257,438
\$ 1,369,882	However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense	(1,623,474)
8,024,521	Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal	(17,291)
286,675	Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds	710,883
198,136	Change in net asset activity in the internal service fund	369,271
752,202	Debt transactions are reported as expenditures in the funds	372,085
4,088,770	Some expenses reported in the Statement of Activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(23,578)
69,653	Change in Net Assets of Governmental Activities	<u>\$ 1,157,439</u>

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Note 1 - Description of the City and Reporting Entity

The City of Alliance (the "City") is a statutory municipal corporation, incorporated under the laws of the State of Ohio. The City operates under a part-time Council and full-time Mayor form of government. The Mayor, Council, Auditor, Treasurer, Judge, Clerk of Court, and Law Director are elected.

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the City are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City of Alliance, this includes those departments and agencies that provide the following services: police and fire protection, parks and recreation, planning, zoning, street maintenance and repair, municipal court and general administrative services.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and 1) the City is able to significantly influence the programs or services performed or provided by the organization; or 2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt, or the levying of taxes. The City has no component units.

The City is associated with the Stark County Council of Governments, the Stark County Regional Planning Commission, and the Stark Area Regional Transit Authority, which are defined as jointly governed organizations. The City does not have any financial interest in or responsibility for these organizations (See Note 15).

The City is also associated with the Alliance Area Development Foundation (Foundation). The Foundation is a not-for-profit corporation. The board of trustees consists of contributing trustees and elected trustees. The contributing trustees select the elected trustees. In 2006, the Mayor was an elected trustee. The Foundation's goal is to retain companies, enhance company growth and capture new business for the Alliance area. The Foundation has been excluded from the reporting entity.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989 to its business-type activities and enterprise funds. The more significant of the City's accounting policies are described below.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

A. Basis of Presentation - Fund Accounting

The City uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain City functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The City's funds are grouped into three broad fund categories and seven generic fund types for financial statement presentation purposes. Governmental funds include the general, special revenue, debt service and capital projects funds. Proprietary funds include enterprise funds and an internal service fund. The City has one fiduciary agency fund.

B. Basis of Accounting

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for support. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Fiduciary funds are also excluded from the government-wide financial statements.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. The primary effect of internal activity has been eliminated from the government-wide financial statements.

The government-wide Statement of Activities presents a comparison between expenses and program revenues for each segment of the business-type activities of the City and for each governmental program. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the City.

Net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other purposes result from special revenue funds and the restrictions on their net asset use.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

GOVERNMENTAL FUNDS

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

The major governmental funds are:

- General Fund – This is the City’s primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.
- Revolving Loan Fund – To account for revolving loans.
- Debt Service Fund – To account for the accumulation of financial resources for, and the payment of governmental funds long-term debt principal, interest and related costs.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within sixty days of year-end and available to pay obligations of the current period). This includes investment earnings, income taxes, estate taxes, and fines and forfeitures. In accordance with GASB 36, certain state-levied locally shared taxes including motor vehicle license tax and gasoline taxes are considered voluntary non-exchange transactions. These types of transactions are subject to six months accrual and income recognition. Reimbursements due for federally funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Property taxes and special assessments (in the debt service fund), though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax and special assessment receivables are recorded and deferred until they become available.

Other revenues, including licenses and permits, certain charges for services and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Revenues are recognized when earned and expenses are recognized when incurred. Allocations of costs, such as depreciation, are recorded in proprietary funds. Unbilled utility service receivables are recorded at each year-end.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all the City's enterprise funds are charges to customers for sales and services. Internal service fund revenues are charges to City departments. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The major enterprise funds are:

- Water Fund – To account for the provision of water treatment and distribution to the residential and commercial users of the City
- Sewer Fund – To account for sanitary sewer services provided to the residential and commercial users of the City

The City's only internal service fund is for a self-insurance program for medical benefits. The costs of this program are charged to the City's departments on a cost-reimbursement basis.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

FIDUCIARY FUNDS

The City currently has one agency fiduciary fund which accounts for monies received from cable franchise fees. Agency funds are unlike all other types of funds, reporting only assets and liabilities. Therefore agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

C. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation ordinance, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations ordinance are subject to amendment throughout the year with the legal restriction that the appropriations cannot exceed estimated resources, as certified. All funds, except for agency funds are required to be budgeted and appropriated. The legal level of budgetary control is at the object level within each department and fund. Budgetary modifications at this level may only be made by resolution of the City Council.

Tax Budget At the first Council meeting in July, the Mayor presents the annual operating budget for the following year to City Council for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year, for the period January 1 to December 31 of the following year.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Estimated Resources The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation ordinance. On or about January 1, the certificate of estimated resources is amended to include unencumbered fund balances at December 31 of the preceding year. The certificate may be further amended during the year if the City Auditor determines, and the Budget Commission agrees, that an estimate needs to be either increased or decreased. The amounts reported on the budgetary statements reflect the amounts in the amended official certificate of estimated resources in effect when final appropriations were passed by Council. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted.

Appropriations A temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 to March 31. An annual appropriation ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriation ordinance fixes spending authority at the fund, department and object level. The appropriation ordinance may be amended during the year as new information becomes available, provided that total fund appropriations may not exceed current estimated resources, as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year by an ordinance of Council. During the year, several supplemental appropriation measures were passed. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts passed during the year, including all amendments and modifications. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years.

Encumbrances As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures plus encumbrances from exceeding appropriations at the level adopted by Council. On the GAAP basis, encumbrances outstanding at year end are reported as reservations of fund balances for subsequent-year expenditures in the governmental fund financial statements and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding year and is not reappropriated.

D. Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the City records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During 2006 investments were limited to STAROhio and First American U.S. Treasury Reserve Fund (a money market mutual fund).

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Except for non-participating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on December 31, 2006.

Investment procedures are restricted by provisions of the Ohio Revised Code. Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund.

The City utilizes a fiscal agent to hold monies set aside for current and future debt service payments under provisions of the bond indenture. The balances in these accounts are presented on the financial statements as "restricted assets: cash and cash equivalents with fiscal agents" and represent investments in a money market fund (First American U.S. Treasury Reserve Fund).

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the City are considered to be cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

E. Interfund Assets and Liabilities

Receivables and payables resulting from transactions between funds for services provided or goods received are classified as "due from other funds" or "due to other funds" on the fund financial statements. Short-term interfund loans are classified as "interfund receivables" and "interfund payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets.

F. Inventories

Inventories of governmental funds are stated at cost while the inventory of the proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies. The costs of inventory items are recorded as expenditures in the governmental fund types and as expenses in the proprietary fund types when used.

G. Restricted Assets

Restricted assets in the governmental activities and enterprise funds include cash and cash equivalents set aside to satisfy bond indenture requirements for current and future debt payments and the replacement and improvement of capital assets originally acquired with bond proceeds.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

H. Bond Issuance Costs, Bond Discount and Accounting Loss

Bond issuance costs for proprietary fund types and governmental fund types on the government-wide financial statements are reported as deferred charges and amortized over the term of the bonds. The bond discount and the accounting loss resulting from refundings (the difference between the reacquisition price and the net carrying amount of the debt) as well as the bond premium are also amortized over the life of the refunding or refunded bonds, whichever is shorter. Bonds are reported net of the unamortized loss, discount and premium. All items are amortized using the straight-line method since the results are not significantly different from the effective interest method.

I. Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and not capitalized. The valuation bases for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. The minimum capitalization threshold is any individual item with a total cost greater than \$5,000.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of general capital assets is also not capitalized. Improvements to fund capital assets are capitalized and depreciated over the remaining useful lives of the related capital assets.

Public domain ("infrastructure") general capital assets consists of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are capitalized.

Depreciation of capital assets is computed using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Land Improvements	20 years
Buildings, Structures and Improvements	10 – 40 years
Furniture, Fixtures and Equipment	5 – 15 years
Vehicles	5 – 20 years
Water and Sewer Lines	50 – 60 years
Infrastructure	5 – 50 years

J. Compensated Absences

Vacation benefits and compensatory time are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributed to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Sick leave benefits are accrued as a liability using the termination method. An accrual for sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

On governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have resigned or retired will be paid.

K. Fund Balance Reserves

Fund balance reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Fund balances are reserved for encumbrances and loans receivable.

L. Capitalization of Interest

The City's policy is to capitalize net interest costs on funds borrowed to finance proprietary fund construction projects until the project is substantially completed. The amount of capitalized interest equals the difference between the interest cost associated with the tax-exempt borrowing used to finance the project and the interest earned from temporary investments of the debt proceeds.

M. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flow of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

N. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the financial statements only to the extent that they are normally due for payment during

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

the current year. Bonds, long-term notes and capital leases that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

P. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Note 3 –Restatement of Fund Balances and Accountability

A. Restatement of Fund Balance

During 2006, the City determined that certain payments made in 2005 to an escrow fund for the 2004 General Obligation Bonds had been incorrectly recorded as loan payments in the debt service fund.

Net assets at the beginning of 2006 have been adjusted to correct for this error in recording debt and escrow payments made in 2005. The error had no effect on change in net assets in 2005.

	Debt Service Fund
Net assets at December 31, 2005	
- as originally reported	\$ 128,199
Prior period adjustment	244,000
Net assets at December 31, 2005	
- as restated	\$ 372,199

B. Change in Accounting Principles

For fiscal year 2006, the City has implemented GASB Statement No. 44, “Economic Condition Reporting: The Statistical Section”, GASB Statement No. 46, “Net Assets Restricted by Enabling Legislation” and GASB Statement No. 47, “Accounting for Termination Benefits”.

The purpose of GASB Statement No. 44 is to improve the understandability and usefulness of the information that state and local governments present as supplementary information in the statistical section.

GASB Statement No. 46 defines enabling legislation and specifies how net assets should be reported in the financial statements when there are changes in such legislation. The Statement also requires governments to disclose in the notes to the financial statements the amount of net assets restricted by enabling legislation.

GASB Statement No. 47 establishes accounting standards for termination benefits.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

The implementation of GASB Statement No. 46 and GASB Statement No. 47 did not have an effect on the fund balances/net assets of the City as previously reported at December 31, 2005.

Note 4 - Budgetary Basis of Accounting

Accounting principles used to develop data on a budgetary basis differ from those used to prepare financial statements in conformity with GAAP. The major differences are: (1) revenues are recorded when received (budget) as opposed to when susceptible to accrual (GAAP), (2) expenditures are recorded when paid in cash (budget) as opposed to when susceptible to accrual (GAAP), (3) outstanding year-end encumbrances are treated as expenditures (budget) as opposed to reservations of fund balances (GAAP) and (4) loan transactions.

The following schedule summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and for the major special revenue fund.

Net Change in Fund Balance		
	General	Revolving Loan Fund
GAAP Basis	\$ 408,485	\$ (299,938)
Revenue Accruals	(402,670)	
Expenditure Accruals	75,683	392,565
Encumbrances	(78,177)	(10,000)
Loan proceeds		320,374
Loan disbursements		(62,000)
Non-GAAP Budgetary Basis	\$ 3,321	\$ 341,001

Note 5 - Deposits and Investments

State statutes classify monies held by the City into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the City has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Protection of the City's deposits is provided by Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

The City's monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and,
6. The State Treasurer's investment pool (STAROhio).

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits Custodial credit risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end,

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

the carrying amount of the City's deposits was \$11,794,245 and the bank balance was \$12,015,168 of the bank balance:

1. \$400,000 was covered by federal depository insurance; and
2. \$11,615,168 was collateralized with securities held by the pledging financial institutions' agent but not in the City's name. Although all statutory requirements for the deposit of money had been followed, non compliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the City or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments Investments are reported at fair value. At December 31, 2006, the City had the following investments:

	Fair Value
STAROhio	\$ 1,848,377
Money Market Fund	<u>2,086,034</u>
Total Investments	<u>\$ 3,934,411</u>

Interest Rate Risk The City has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the City, and that an investment must be purchased with the expectation that it will be held to maturity.

Credit Risk STAROhio and the money market mutual fund carry a rating of AAAM by Standard and Poor's. Ohio law requires that STAROhio maintain the highest rating provide by a least one nationally recognized standard rating service. The City has no investment policy that would further limit its investment choices.

On December 31, 2006, the City had 53% and 29% of its pooled cash and investments with Chase, and Charter One Bank, respectively.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Note 6 - Receivables

Receivables at December 31, 2006, consisted of taxes, accounts (billings for user charged services), loans (community development block grant and urban development action monies loaned to local businesses and low to moderate income homeowners), intergovernmental receivables arising from grants, entitlements and shared revenues and special assessments. All receivables are deemed collectible in full, except for loans receivable which includes an allowance of \$392,924.

A. Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the City. Property tax revenue received during 2006 for real and public utility property taxes represents collections of 2005 taxes. Property tax payments received during 2006 for tangible personal property (other than public utility property) are for 2006 taxes. 2006 real property taxes are levied after October 1, 2006 on the assessed value as of January 1, 2006, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2006 real property taxes are collected in and intended to finance 2007.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 25 percent of true value. 2006 public utility property taxes which became a lien December 31, 2005, are levied after October 1, 2006, and are collected in 2007 with real property taxes.

2006 tangible personal property taxes are levied after October 1, 2005, on the value as of December 31, 2005. Collections are made in 2006. Tangible personal property assessments are 23 percent of true value for capital assets and inventory.

The full tax rate for all City operations for the year ended December 31, 2006 was \$6.00 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2007 property tax receipts were based are as follows:

Real Property	\$ 251,762,070
Tangible Personal Property	29,921,474
Public Utility Property	<u>8,848,130</u>
Total	<u>\$ 290,531,674</u>

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable at September 20.

The County Treasurer collects property tax on behalf of all taxing districts within the County, including the City of Alliance. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represent real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2006 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, amounts to be received during the available period are not subject to reasonable estimation at December 31, nor are they intended to finance 2006 operations. The receivable is offset by deferred revenue.

B. Loans Receivable

Loans receivable represent the principal owed to the City for Community Development Block Grants and Urban Development Action Grants. The loans bear interest at annual rates between two and six percent. The loans are to be repaid over periods ranging from five to fifteen years.

C. Income Tax

The City levies a municipal income tax of 1.75 percent on gross salaries, wages and other personal service compensation earned by residents of the City and on the earnings of nonresidents working within the City. This tax also applies to the net income of businesses operating within the City. Residents of the City are granted a credit of 100 percent for taxes paid to other municipalities.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly, as required. Corporations are required to pay their estimated tax quarterly and file a declaration annually. By City ordinance, income tax proceeds in 2006, after income tax department expenditures, are credited to the following funds: 86 percent to the general fund, six percent to the capital improvements capital projects fund, four percent to the street income tax construction capital projects fund, and four percent to the water enterprise fund.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

D. Special Assessments

Special assessments include annually assessed demolition assessments and assessments for debt obligations.

Demolition special assessments are levied against all property owners which benefit from the demolitions while special assessments for debt obligations are levied against specific property owners who primarily benefited from the project.

The City's demolition assessments are billed by the County Auditor and collected by the County Treasurer. The County Auditor periodically remits these collections to the City. Special assessments collected in one calendar year are levied and certified in the preceding calendar year. Special assessment receivables include \$923,000 of delinquent receivables.

Note 7 - Capital Assets

Capital asset activity for the year ended December 31, 2006 was as follows:

Primary Government

	Balance 1/1/2006	Increases	Decreases	Balance 12/31/2006
Governmental Activities:				
<i>Capital assets not being depreciated:</i>				
Land	\$ 2,674,588			\$ 2,674,588

Water	582,962
Robertson	12,932
Total depreciation expense-business-type activities	<u>\$ 1,022,500</u>

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Note 8 - Risk Management

A. Liability Insurance

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years and there was no significant change in insurance coverage from the prior year.

During 2006, the City contracted with Evans Insurance Company for various types of insurance as follows:

Type of Coverage	Deductible	Limit – Occurrence	Limit - Aggregate
General Liability	None	\$1,000,000	\$3,000,000
Wrongful Acts	\$10,000	2,000,000	2,000,000
Law Enforcement	10,000	2,000,000	2,000,000
Automobile Liability	250-500	1,000,000	1,000,000
Bond	250	None	50,000
Crime – Theft	250	None	10,000
Crime – Forgery/Computer Fraud	250	None	100,000
Property	1,000	None	51,141,161
Inland Marine	None	None	2,781,163
Electronic Data Processing	1,000	None	593,816

The City participates in the Ohio Municipal League Group Rating Plan (OML) for workers' compensation. The intent of the OML is to achieve the benefit of a reduced premium for the participants, foster safer working environments and foster cost-effective claims management skills by virtue of its grouping and representation with other participants in the OML. The workers' compensation experience of the participating cities is calculated as one experience and a common premium rate is applied to all cities in the OML. Each participant pays its workers' compensation premium to the State based on the rate for the OML rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the OML. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the OML. Participation in the OML is limited to cities that can meet the OML's selection criteria. The firm of Gates McDonald & Company provides administrative, cost control and actuarial services to the OML.

B. Health Insurance

The City has elected to provide health care coverage to its employees through a self-insured program. The City maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. The City purchases stop-loss coverage that covers claims in excess of \$70,000 per employee. A third party administrator, Aultcare, reviews all claims which are then paid by the City.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

The claims liability of \$215,846 reported in the self-insurance fund at December 31, 2006, is estimated by the third-party administrator and is based on the requirements of Governmental Accounting Standards Board Statement No. 30, "Risk Financing Omnibus," which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in the fund's claims liability amount for the last three years follow:

	Balance at Beginning of Year	Current Year Claims	Claim Payments	Balance at End of Year
2004	\$ 193,139	\$ 1,700,454	\$ 1,634,978	\$ 258,615
2005	258,615	1,840,299	1,899,718	199,196
2006	199,196	1,785,630	1,768,980	215,846

Note 9 - Interfund Transactions

Interfund transfers are used to 1) move revenues from the fund required by statute or budget to collect them to the fund required by statute or budget to expend them, 2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, 3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds, 4) to provide additional resources for current operations or debt service and 5) to return money to the fund from which it was originally provided once a grant/project is complete.

A summary of interfund transfers is as follows:

Transfer to	Transfer From				Total
	General	Other Governmental	Sewer	Water	
General		\$ 29,668	\$ 17,286	\$ 17,286	\$ 64,240

Enterprise fund obligations will be paid from user fees in the respective enterprise funds.

General obligation bonds will be paid from taxes and special assessment bonds will be repaid from special assessments received in the debt service fund. In the event that the property owners fail to make their

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

special assessment payments, the City is responsible for providing the resources to meet the annual principal and interest payments. The police and fire pension liability will be paid from tax revenue in the Police and Fire special revenue funds. Compensated absences reported in the "compensated absences payable" account will be paid from the fund from which the employees' salaries are paid.

In 1998, the City defeased their waterworks revenue bonds and water general obligations bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the bonds. Accordingly, the trust account assets and the liability for the defeased bonds were not included in the City's financial statements. On December 31, 2006, approximately \$100,000 of outstanding refunded waterworks bonds are considered defeased by assets of \$1,000,000 held in the irrevocable trust.

The City's overall legal debt margin was \$28,160,826 at December 31, 2006.

Principal and interest requirements to retire long-term obligations outstanding at December 31, 2006, are as follows:

	General Obligation Bonds					
	Governmental Activities		Enterprise Funds		Special Assessment Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Conduit Debt

The City has issued Industrial Development Revenue Bonds for private-sector entities for the acquisition and construction of facilities deemed to be in the public interest. Servicing these debts is the sole obligation of the entities which received the debt proceeds. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2006, \$62,210,000 had been issued and \$58,090,000 was still outstanding.

Note 11 - Defined Benefit Pension Plans

A. Ohio Public Employees Retirement System

The City participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (614) 222-5601 or (800) 222-7377.

For the year ended December 31, 2006, the members of all three plans, except those in law enforcement or public safety participating in the traditional plan, were required to contribute 9 percent of their annual covered salaries. Members participating in the traditional plan who were in law enforcement contributed 10.1 percent of their annual covered salary; members in public safety contributed 16.93 percent. The employer contribution rate for pension benefits for 2006 was 9.2 percent, except for those plan members in law enforcement or public safety. For those classifications, the City's pension contributions were 12.43 percent of covered payroll. The Ohio Revised Code provides statutory authority for member and employer contributions.

The City's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2006, 2005, and 2004 were \$525,331, \$570,359, and \$548,639 respectively; 87 percent has been contributed for 2006, 100 percent for 2005 and 100 percent for 2004.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

B. Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and by Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information. That report may be obtained by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10 percent of their annual covered salary to fund pension benefits and the City is required to contribute 11.75 percent for police officers and 16.25 percent for firefighters. Contributions are authorized by State statute. The City's contributions for pension obligations to the OP&F for police and firefighters were \$235,628 and \$238,545 for 2006, and \$241,001 and \$272,915 for 2005, \$229,009 and \$229,778 for the year ended December 31, 2004. The full amount has been contributed for 2005 and 2004. 73 percent and 69 percent, respectively, have been contributed for 2006 with the remainder being reported as a liability.

In addition to current contributions, the City pays installments on the accrued liability incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2006, the unfunded liability of the City was \$396,405, payable in semi-annual payments through the year 2035.

Note 12 - Postemployment Benefits

A. Ohio Public Employees Retirement System

The Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the traditional or combined plans. Health care coverage for disability recipients and qualified survivor benefit recipients is available. Members of the member-directed plan do not qualify for postretirement health care coverage. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit as described in GASB Statement No. 12. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of postretirement health care based on authority granted by State statute. The 2006 employer contribution rate was 13.7 percent of covered payroll (16.93 percent for public safety and law enforcement); 4.50 percent was the portion that was used to fund health care for 2006.

Benefits are advance-funded using the entry age normal actuarial cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as of December 31, 2005, include a rate of return on investments of 6.50 percent, an annual increase in active employee total payroll of 4.00 percent compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between .50 percent and 6.3 percent based on additional annual pay increases. Health care premiums were assumed to increase at the projected wage inflation rate plus an additional factor ranging from between .50 to 6.0 percent annually for the next nine years, and 4.0 percent annually thereafter.

All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets annually, not to exceed a 12 percent corridor.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

The number of active contributing participants in the traditional and combined plans was 369,214. The number of active contributing participants for both plans used in the December 31, 2005 actuarially valuation was 358,864. Actual employer contributions for 2006 which were used to fund postemployment benefits were \$256,595. The actual contribution and the actuarially required contribution amounts are the same. OPERS's net assets available for payment of benefits at December 31, 2005, (the latest information available) were \$11.1 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$31.3 billion and \$20.2 billion, respectively.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. The HCPP restructures OPERS' health care coverage to improve the financial solvency of the fund in response to increasing health care costs. Member and employer contribution rates increased as of January 1, 2006 and January 1, 2007, which will allow additional funds to be allocated to the health care plan.

B. Ohio Police and Fire Pension Fund

The Ohio Police and Fire Pension Fund (OP&F) provides postretirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18 whether or not the child is attending school or under the age of 22 if attending school full-time or on a 2/3 basis.

The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. The Ohio Revised Code provides the authority allowing the Ohio Police and Fire Pension Fund's board of trustees to provide health care coverage and states that health care costs paid from the Ohio Police and Fire Pension Fund shall be included in the employer's contribution rate. Health care funding and accounting is on a pay-as-you-go basis. The total police employer contribution is 19.5 percent of covered payroll and the total firefighter employer contribution rate is 24 percent of covered payroll, of which 7.75 percent of covered payroll was applied to the postemployment health care program during 2006 and 2005. In addition, since July 1, 1992, most retirees have been required to contribute a portion of the cost of their health care coverage through a deduction from their monthly benefit payment. Beginning in 2001, all retirees and survivors have monthly health care contributions.

The City's actual contributions for 2006 that were used to fund postemployment benefits were \$155,415 for police and \$113,767 for fire. The OP&F's total health care expense for the year ended December 31, 2005, (the latest information available) was \$108,039,449, which was net of member contributions of \$55,271,881. The number of OP&F participants eligible to receive health care benefits as of December 31, 2005, was 13,922 for police and 10,537 for firefighters.

Note 13 - Other Employee Benefits

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Employees earn two to six weeks of vacation per year, depending upon length of service. Vacation accumulation is limited to one year. All accumulated unused vacation time is paid upon termination of employment.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Employees earn sick leave at the rate of 2.3 hours for every forty hours of service. Upon retirement or death, most employees receive up to 960 hours of such time on credit plus 25% of the next 600 hours on credit for a maximum not to exceed 1,110 hours. Four union contracts have additional language limiting employees at various times during the past 10 years to 960 hours or 25% of all hours on credit, whichever is less.

If any employee leaves the City for any reason, the City will pay the employee a maximum of 480 hours for the compensatory time accumulated during the prior year of employment. As of December 31, 2006, the total liability for unpaid compensated absences was \$2,827,157.

B. Life Insurance

The City provides life insurance and accidental death and dismemberment insurance to its employees through Fort Dearborn Life Insurance Company.

Note 14 - Commitments and Contingencies

A. Grants

The City received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the City at December 31, 2006.

B. Litigation

The City is a party to legal proceedings seeking damages. The amount of the liability, if any, cannot be reasonably estimated at this time. However, in the opinion of the City's management, any such claims and lawsuits will not have a material adverse effect on the overall financial position of the City at December 31, 2006.

Note 15 - Jointly Governed Organizations

Stark County Council of Governments (SCOG) The City participates in the Stark County Council of Governments (SCOG), which is a regional council of governments formed under chapter 167 of the Ohio Revised Code. Currently, SCOG's functions include the funding and operation of the Stark County Metropolitan Narcotics Unit and the Canton Crime Lab. SCOG is governed by the membership, including Stark County, and other cities, villages and townships. The membership elects a nine member executive committee. Based on recommendations of the executive committee, the membership approves its own budget, appoints personnel and oversees accounting and finance related activities. Each participant's control is limited to its membership shares. During 2006, the City of Alliance did not contribute to SCOG. Complete financial statements may be obtained from the Stark County Council of Governments, P.O. Box 21451, Canton, Ohio 44701-1451.

City of Alliance, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2006

Stark County Regional Planning Commission The City participates in the Stark County Regional Planning Commission (Commission) which is a statutorily created political subdivision of the State. The Commission is jointly governed among Stark County, and other cities, villages, and townships. Of the 48 member board, the City appoints two members. The degree of control exercised by any participating government is limited to its representation on the board. The principal aim of the Commission is to provide comprehensive planning, both long and short range, dealing with the economic and physical environment of Stark County. The Board exercises total authority for the day-to-day operations of the Commission. These include budgeting, appropriating, contracting, and designating management. The City has no financial responsibility for any of the Commission's liabilities. In 2006, the City contributed \$2,000 to the Commission, which represents .1 of total contributions. Complete financial statements may be obtained from the Stark County Regional Planning Commission, Stark County, Ohio.

Stark Area Regional Transit Authority The City participates in the Stark Area Regional Transit Authority (Authority), which is a jointly governed organization between Stark County and the cities of Canton, Massillon, and Alliance. A nine member board of trustees oversees the operation of the Authority. Of the nine members, the City appoints one member. Each member's control over the operation of the Authority is limited to its representation on the Board. The Board exercises total authority for the day-to-day operations of the Authority. These include budgeting, appropriating, contracting, and designating management. The City has no financial responsibility for any of the Authority's liabilities. The Authority provides transportation services in Stark County. Complete financial statements may be obtained from the Stark Area Regional Transit Authority, 1600 Gateway Boulevard, SE, Canton, Ohio.

Note 16 – Subsequent Event

In May 2007, the residents of the City approved an additional one-quarter of one percent income tax increase. The increase is effective July 1, 2007 and raises City's municipal income tax rate to 2.00 percent.

Nonmajor Special Revenue Funds

Special revenue funds are established to account for the proceeds of specific revenue sources (other than major capital projects) that are restricted by law or administrative action to expenditures for specified purposes.

Street Repair and Maintenance Fund - This fund accounts for 92.5 percent of the State gasoline tax and motor vehicle registration fees designated for maintenance and repair of streets within the City.

Federal COPS Fast Program Fund - This fund accounts for monies received from the Federal Government under the Federal COPS Programs to be used to establish or expand community policing programs.

State Highway Fund - This fund accounts for 7.5 percent of the State gasoline tax and motor vehicle registration fees designated for maintenance and repair of State highways within the City.

Law Enforcement Block Grant Fund - This fund accounts for monies received from fines from convictions related to drug cases used for the education of the community.

Motor Vehicle License Fund - This fund accounts for the City's share of the motor vehicle license tax levied by the City.

Municipal Court Computerization Fund - This fund accounts for court fees and fines used for the purchase and maintenance of computers for the municipal court.

Health Fund - This fund accounts for monies received from State and Federal grant funds used for various health education, prevention and treatment programs in the City.

Litter Control Fund - This fund accounts for monies received from the State to be used for litter prevention in the City.

State Misdemeanant Grant Fund - This fund accounts for monies received for payment of the Misdemeanant Community Sanctions Coordinator Project Program. Sanctions Coordinators work one on one with individuals to fulfill their obligation to the Court.

Federal Aging Grant Fund - This fund accounts for monies received from Title III-B. The monies are then used for assisting in meeting the human service and social needs of persons aged 60 or older in order to promote independent living and thereby reducing unnecessary institutionalization.

Cemetery Fund - This fund accounts for monies received from the sale of cemetery lots, burial permits, and general fund for burial services and upkeep of the City Cemetery.

HUD Grant Fund - This fund accounts for revenues received from Federal Government and expenditures prescribed under the Community Development Block Grant Program.

Community Development Block Grant Fund - This fund accounts for revenues received from the Federal Government and expenditures as prescribed under the Community Development Block Grant Program.

(continued)

Nonmajor Special Revenue Funds (continued)

Fire Pension Fund - This fund accounts for property taxes collected to pay for a portion of the employer's share of fire pension benefits.

Police Pension Fund - This fund accounts for property taxes collected to pay for a portion of the employer's share of police pension benefits.

Tax Increment Fund - This fund accounts for monies collected from the City's current Tax Increment Financing District that are used for economic development in the District.

Other - Smaller Special Revenue Funds maintained by the City. These funds are as follows:

Indigent Driver Alcohol Treatment Fund
Enforcement and Education Fund
Municipal Court Legal Research Fund
Court ADR Fund
Court Security Grant Fund
Court Immobilization Fund
Parking Lot Maintenance Fund
Federal Equitable Sharing Fund
Land Reutilization Fund
Park Resource Fund
E-Cite Fund
Home Administration Fund
Land Use Study Fund
Byrne Justice Assistance Grant Fund
Municipal Court Security Fund

Nonmajor Capital Projects Funds

Capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Street Income Tax Construction Fund - This fund accounts for income tax monies used for improvements to various City roads.

Capital Improvements Fund - This fund accounts for income tax monies received for the purpose of acquisition of capital assets.

Downtown Development Fund - This fund accounts for monies received for the purpose of improving the downtown area. Source of funds include State Issue II funds and City funds.

Communication Equipment Fund - This fund accounts for monies received for the purpose of purchasing communication equipment for the City.

Jail Construction Fund - This fund accounts for monies received for the purpose of improvements and construction at the City jail.

West State Street Fund - This fund accounts for monies received for the purpose of widening West State Street from Western Avenue to Freshley Avenue.

Street Improvement Fund - This fund accounts for the monies received for the purpose of improving City streets.

Municipal Road Fund – This fund accounts for specific tax or other earmarked monies designated to finance annual street maintenance projects.

Enterprise Funds

Enterprise Funds are established to account for operations that are financed and operated in a manner similar to private sector business enterprises where the intent is that the cost (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriated for capital maintenance, public policy, management control, accountability or other purposes.

Water Fund - This fund accounts for revenues generated from charges for distribution of water to residential and commercial users of the City.

Sewer Fund - This fund accounts for revenues generated from charges for sanitary services provided to residential and commercial users of the City.

Robertson Community Center Fund – This fund accounts for revenues generated from charges for use of the facilities at Robertson Community Center.

Internal Service Fund

The internal service fund is used to account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost reimbursement basis. Specifically the Insurance fund accounts for a medical benefit self-insurance program for employees of the City.

Statistical Section

Statistical Section

This part of the City of Alliance, Ohio's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial position has changed over time.	-S2-, -S3-, -S6-, -S7-
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the City's ability to generate its most significant local revenue source, income tax.	-S8-
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	-S9-, -S11-, -S12-, -S13-
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	-S14-
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	-S15-, -S16-, -S17-, -S18-, -S19-

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.
