We have reviewed the *Independent Auditor's Report* of the Oberlin City School District, Lorain County, prepared by James G. Zupka, CPA, Inc., for the audit period July 1, 2005 through June 30, 2006. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Oberlin City School District is responsible for compliance with these laws and regulations.

**INDEPENDENT AUDITOR'S REPORT**

Board of Education  
Oberlin City School District  
Oberlin, Ohio

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Oberlin City School District, Lorain County, Ohio, as of and for the year ended June 30, 2006, which collectively comprise the Oberlin City School District, Ohio's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Oberlin City School District, Ohio's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Oberlin City School District, Ohio, as of June 30, 2006, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2006, on our consideration of the Oberlin City School District, Ohio's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise the Oberlin City School District, Ohio's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and also is not a required part of the basic financial statements of the Oberlin City School District, Ohio. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements of the Oberlin City School District, Ohio, and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

LORAIN COUNTY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2006

The management discussion and analysis of Oberlin City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2006. The intent of this management discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the financial statements and notes to those respective statements to enhance their understanding of the School District's financial performance.

### **Financial Highlights**

Key Financial Highlights for 2006 are as follows:

In total, net assets increased by \$ 422,248.

Revenues for governmental activities totaled \$ 12,929,582 in 2006. Of this total, 88 percent consisted of General Revenues while Program Revenues accounted for the remaining balance of 12 percent.

Program Expenses totaled \$ 12,507,334. Instructional expenses made up 60 percent of this total while supporting services accounted for 35 percent. Other expenses rounded out the remaining 5 percent.

### **Using this Financial Report**

This annual report consists of a series of financial statements and notes pertaining to those statements. These statements are organized so the reader can understand Oberlin City School District as a financial whole, or complete operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate and longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements explain how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant fund with all other non-major funds presented in total in one column. In the case of Oberlin City School District, the general fund is the most significant.

### **Reporting the School District as a Whole**

Statement of Net Assets and the Statement of Activities

While this document contains all the funds used by the School District to provide programs and activities, the view of the School District as a whole considers all financial transactions and asks the question, "How did we do financially during 2006?" The Statement of Net Assets and Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting, similar to the accounting used by most private-sector companies. Accrual accounting takes into account all the current year's revenues and expenses regardless of when cash is received or paid.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2006

These two statements report the School District's net assets and changes in those net assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's performance, demographic and socioeconomic factors and willingness of the community to support the School District. On the other hand, financial factors may include the School District's financial position, liquidity and solvency, fiscal capacity and risk and exposure.

In the Statement of Net Assets and the Statement of Activities, the School District is classified into governmental activities. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance, pupil transportation, food service operation and extracurricular activities.

### **Reporting the School District's Most Significant Funds**

#### **Fund Financial Statements**

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant fund. The School District's major governmental fund is the General Fund.

#### **Governmental Funds**

All of the School District's activities are reported as governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**The School District as a Whole**

The Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets for 2006 compared to 2005:

	2006	2005	Change
<b>Assets</b>			
Current and other assets	\$ 7,769,740	\$ 6,196,661	1,573,079

<b>Total net assets</b>	<u>\$ 6,527,974</u>	<u>\$ 6,105,726</u>	<u>422,248</u>

**Governmental Activities**

By comparing assets and liabilities, one can see the overall position of the School District has improved as evidenced by the increase in net assets of \$ 422,248.

The vast majority of revenue supporting all Governmental Activities is from General Revenues. General Revenue totaled \$ 11,363,208 or 88 percent of the total revenue. The most significant portion of the General Revenues is local property tax. The remaining amount of revenue was in the form of program revenues, which equated to \$ 1,566,374 or only 12 percent of total revenue.

Table 2 summarizes the revenue, expenses and the changes in net assets for fiscal years 2006 and 2005.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2006

The School District has carefully planned its financial future by forecasting its revenues and expenditures over the next five years. In October of 2006, the School District submitted its yearly five-year forecast to the Ohio Department of Education. Based upon the current five-year financial forecast, the School District has adequate operating funds through fiscal year 2008- 2009. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating costs.

Approximately 60 percent of the School District's budget is used to fund instructional expenses. Additional supporting services for pupils, staff and business operations encompass an additional 35 percent. The remaining program expenses of 5 percent are budgeted to facilitate other obligations of the School District, such as the food service program, numerous extracurricular activities and debt service.

The Statement of Activities shows the total net cost of program services. Table 3 shows the total cost of services for governmental activities and the net cost of those services. It identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Total program expenses	<u>\$ 12,507,334</u>	<u>\$(10,940,960)</u>

The reliance upon local tax revenues for governmental activities is crucial. Over 56 percent of expenses are directly supported by local property taxes. Grants and entitlements not restricted to specific programs support 31 percent, while investments and other miscellaneous type revenues support the remaining activity costs of 1 percent. Program Revenues fund only 12 percent of all governmental expenses.

**Clearly, the Oberlin community is by far the greatest source of financial support for the students of the Oberlin City Schools.**

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2006

**School District Funds**

Information regarding the School District's major fund can be found on page 13. These funds are accounted for using the modified accrual basis of accounting.

**General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the General Fund.

During the course of fiscal year 2006, the School District amended its general fund budget, but not significantly. Fluctuations among the budget basis expenditures categories are due to the School District's site-based style of budgeting that is designed to tightly control expenses but provide flexibility for managers to redirect funds as conditions develop during the year.

The School District ended the school year with a General Fund unencumbered cash balance of \$ 259,475.

**Capital Assets and Debt Administration**

**Capital Assets**

All capital assets, except land, are reported net of depreciation. At the end of fiscal 2006, the School District had \$ 5,746,078 invested in land, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal 2006 values compared to 2005.

**TABLE 4**

	2006	2005
Land	\$ 2,279,070	\$ 2,279,070
Land improvements	232,982	266,329
Building and improvements	2,828,855	3,099,028
Furniture and equipment	392,356	487,075
Vehicles	12,815	21,889
Total capital assets	\$ 5,746,078	\$ 6,153,391

During fiscal 2006, the School District purchased \$ 80,295 of capital assets, which were all furniture and equipment. The decrease in capital assets is primarily due to depreciation expense.

**Debt**

At June 30, 2006 the School District had no outstanding bonds.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2006

**Current Financial Related Activities**

The School District has a mediocre financial position. The Board of Education and the administration closely monitor the District's revenues and expenditures in accordance with its financial forecast and the School District's Continuous Improvement Plan.

The District relies heavily upon real estate taxes, personal property taxes and state funding as sources of revenue. The School District's financial future took a turn for the better with the passage of a 5.00 mill five year levy on November 8, 2005.

The School District's financial future is not without challenges. The nature of school funding in Ohio severely restricts the growth in the School District's operating revenues and requires the School District to periodically seek additional funds from the taxpayers to offset rising operating costs. The Oberlin voters continue to show their support for the schools as illustrated with the passage of new and replacement levies.

In addition to the problem of limited growth in revenue, school districts are faced with the challenge of losing traditional sources of tax revenue through the Ohio General Assembly legislative actions. In June 1999, the Ohio General Assembly passed House Bill 284 that will phase-out, over a period of 25 years, the taxation on business inventories. Once fully implemented, the School District's operating revenue will be reduced by approximately \$ 900,000 annually. In June 2005, the General Assembly accelerated the phase-out of the inventory tax with HB 66. The tax will be eliminated in just five years.

Financial aid from the State of Ohio through the State Foundation Program has been declining as a major source of operating revenue for the Oberlin City School District. Because Oberlin City Schools is considered a wealthy district in terms of property values, it receives a relatively small amount of revenue from the State to fund operating expenses.

As a result of the challenges mentioned above, the School District's administration continues to carefully plan its expenditures to provide adequate resources to meet student needs over the next several years. The administration is currently reviewing all programs and services provided to students with the goal of reducing operating costs.

**Contacting the School District's Financial Management**

This report is designed to provide our citizens, taxpayers and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Diane Wolf, Treasurer at Oberlin City School District, 153 N. Main St., Oberlin, Ohio 44074.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2006

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Oberlin City School District (the District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city school district as defined by Section 3311.03 of the Ohio Revised Code. The District operates under an elected Board of Education consisting of five members and is responsible for providing public education to residents of the District. Average daily membership on, or as of, October 1, 2005 was 1,097. The District employs 94 certificated and 60 non-certificated employees.

REPORTING ENTITY

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organizations' governing board and, 1) the District is able to significantly influence the programs or services performed or provided by the organization; or 2) the District is legally entitled to or can otherwise access the organizations' resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes.

Blended component units, although legally separated entities are, in substance, part of the District's operations and so data from these units are combined with data of the District. The District has no component units.

The District is associated with the Lake Erie Educational Computer Association, the Lake Erie Regional Council of Governments, the Lorain County Joint Vocational School District, and the Ohio School Council Association which are considered to be jointly governed organizations. These organizations and their relationships with the District are described in more detail in Note 17 to these financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities and to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. The District has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989, to its governmental activities and proprietary fund. Following are the more significant of the District's accounting policies.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2006

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. BASIS OF PRESENTATION

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net assets presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

B. FUND ACCOUNTING

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary, and fiduciary.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2006

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. FUND ACCOUNTING (continued)

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

General Fund - the general fund is the operating fund of the District and is used to account for all financial resources, except those required to be accounted for in another fund.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund

The proprietary fund focuses on the determination of the changes in net assets, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The District's self insurance fund is classified as an internal service fund. The District has no enterprise funds.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

C. MEASUREMENT FOCUS

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the Statement of Net Assets. The Statement of Activities presents increases (revenues) and decreases (expenses) in the total net assets.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental statements.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2006

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS (continued)

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

D. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and the fiduciary fund also use the accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

OBERLIN CITY SCHOOL DISTRICT  
LORAIN COUNTY  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
JUNE 30, 2006

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. BASIS OF ACCOUNTING (continued)

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2006, but which were levied to finance fiscal year 2007 operations, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. BUDGETARY PROCESS

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at fund level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate that were in effect at the time the final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. CASH AND INVESTMENTS

Cash received by the District is deposited in one central bank account with individual fund balance integrity maintained through District records. Monies for all funds are maintained in this account or temporarily transferred to the State Treasurer's investment pool (STAROhio) or other short term investments. Under existing Ohio statutes, interest earnings are allocated to funds based on average monthly cash balances. Interest income earned for the year ended June 30, 2006 totaled \$ 96,133, which includes \$ 63,640 assigned from other funds.

Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value, which is based on quoted market prices. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost.

The District has invested in the State Treasurer's investment pool (STAROhio) during the year. STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2006.

Investments with an original maturity of three months or less at the time of purchase are considered to be cash equivalents.

G. RESTRICTED ASSETS

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation.

H. CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of five thousand dollars. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, other than land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Asset</u>	<u>Estimated Useful Life</u>
Land improvements	20 years
Buildings	50 years
Building improvements	20 - 30 years
Furniture and equipment	5 - 20 years
Vehicles	8 years

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the statement of net assets.

J. COMPENSATED ABSENCES

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability is based on an estimate of the amount of accumulated sick leave that will be paid as a termination benefit. The liability includes employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

K. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables and accrued liabilities from proprietary funds are reported on the proprietary fund statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term obligations and capital leases are recognized as a liability on the governmental fund financial statements when due.

L. NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. Net assets restricted for other purposes include money for federal grants.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. FUND BALANCE RESERVES AND DESIGNATIONS

The District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for property taxes and encumbrances.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

N. OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of this fund. Revenues and expenses not meeting those definitions are reported as non-operating.

O. INTERFUND TRANSACTIONS

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

P. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. INVENTORY

On government wide financial statements, inventories are presented at the lower of cost or market, on a first-in, first-out basis and are expensed when used. Inventories consist of donated food, purchased food and school supplies held for resale, and materials and supplies held for consumption.

**NOTE 3 – RESTATEMENT OF PRIOR YEAR'S FUND BALANCES**

Fund balances of governmental funds were restated as follows:

	<u>General Fund</u>	<u>Other Governmental Funds</u>	<u>Total</u>
Fund balances, June 30, 2005	\$ 525,564	\$ 429,305	\$ 954,869
Less:			
Pension restatement	(96,034)	(11,065)	(107,099)
Restated fund balances, June 30, 2005	<u>\$ 429,530</u>	<u>\$ 418,240</u>	<u>\$ 847,770</u>

The fund balances were restated due to the School District's implementation of GASB Technical Bulletin 2004-2 *Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers*.

**NOTE 4 – ACCOUNTABILITY AND COMPLIANCE**

**A. CHANGE IN ACCOUNTING PRINCIPLES**

For fiscal year 2006, the District has implemented GASB Technical Bulletin 2004-2 *Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers* and GASB Statement No. 47, *Accounting for Termination Benefits*.

GASB Statement No. 47 establishes accounting standards for termination benefits. The implementation of GASB Statement No. 47 did not have an effect on the fund balances/net assets of the District as previously reported at June 30, 2005.

GASB Technical Bulletin 2004-2 addresses the amount that should be recognized as expenditures/expenses as a liability each period by employer's participating in a cost-sharing multiple-employer pension and other post-employment benefit (OPEB) plans. GASB Technical Bulletin 2004-2 did have an effect on fund balances of the District as previously reported at June 30, 2005.

**B. DEFICIT FUND EQUITY**

At June 30, 2006, the following funds had deficit fund balances.

Non-major Funds:	
Athletics	\$ (1,052)
EMIS	(10,544)
Title VIB	(25,892)
Title VI-R	(2,394)
	<u>\$ (39,882)</u>

The General Fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 5 - BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis statements are the following:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance	
	General Fund
Budget basis	\$ (39,265)
Adjustments, increase (decrease)	
Revenue accruals	398,930
Expenditure accruals	87,604
GAAP basis, as reported	\$ 447,269

NOTE6 - DEPOSITS AND INVESTMENTS

A. LEGAL REQUIREMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;

 LORAIN COUNTY  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 JUNE 30, 2006

NOTE 6 - DEPOSITS AND INVESTMENTS (continued)

A. LEGAL REQUIREMENTS (continued)

5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Commercial paper and bankers' acceptances (if authorized by the Board of Education), and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the District had \$ 200 in cash on hand which is included on the balance sheet of the District as part of "Equity in Pooled Cash".

B. DEPOSITS

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. At fiscal year end, the carrying amount of the District's deposits was \$ 11,620 and the bank balance was \$ 112,174, all of which was covered by federal depository insurance or by collateral held by a qualified third party trustee in the name of the Oberlin City School District.

C. INVESTMENTS

For an investment, custodial credit risk is the risk that, in the event of the failure of the counter party, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2006, the district had the following investments:

	Maturities	Fair Value
Investment in STAR Ohio	n/a	\$ 1,347,200

OBERLIN CITY SCHOOL DISTRICT

NOTE 6 - DEPOSITS AND INVESTMENTS (continued)

D. INTEREST RATE RISK

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date.

E. CREDIT RISK

The District follows the Ohio Revised Code that limits its investment choices. As of June 30 2006, the District's investments in Money Market Funds and StarOhio were rated AAA by Standard & Poor's.

F. CONCENTRATION OF CREDIT RISK

The district places no limit on the amount that may be invested in any one issuer.

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the school district fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal property (used in business) located in the school district. Real property tax revenue received in calendar 2006 represents collections of calendar year 2005 taxes. Real property taxes received in calendar year 2006 were levied after April 1, 2005, on the assessed value listed as of January 1, 2005, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2006 represents collections of calendar year 2005 taxes. Public utility real and tangible personal property taxes received in calendar year 2006 became a lien December 31, 2004, were levied after April 1, 2005 and are collected in 2006 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar year 2006 (other than public utility property) represents the collection of 2006 taxes. Tangible personal property taxes received in calendar year 2006 were levied after April 1, 2005, on the value as of December 31, 2005. Tangible personal property is currently assessed at twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

NOTE 7 - PROPERTY TAXES (continued)

The School District receives property taxes from Lorain County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2006, are available to finance fiscal year 2006 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2006 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to unearned revenue.

The amount available as an advance at June 30, 2006, was \$ 1,108,176 in the General Fund, \$ 69,074 in the Education Technology Fund, and \$ 34,804 in the Capital Projects Fund. The amount available as an advance at June 30, 2005, was \$825,783 in the General Fund, \$ 65,890 in the Education Technology Fund, and \$ 33,171 in the Capital Projects Fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been unearned.

The assessed values upon which the fiscal year 2005 taxes were collected are:

	2005 Second Half Collections		2006 First Half Collections

NOTE 11 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District contracted with the Hartford Insurance Company for property insurance. Professional liability is covered by the Ohio School Plan with a \$ 2,000,000 umbrella and a \$ 3,000,000 aggregate limit. Vehicles are covered by the Ohio School Plan Company. Automobile liability has a \$ 1,000,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the past several years.

Public officials bonds of \$ 20,000 each are maintained for the Superintendent, Board Members, Principals, Assistant Treasurer, and Athletic Director, and bonds of \$ 2,000 each for the Cafeteria Supervisor and the Confidential Secretary to the Treasurer through Traveler's Insurance Company. A public official bond in the amount of \$ 50,000 is maintained for the Treasurer, also through the Traveler's insurance Company.

The District participates in the Ohio School Boards Association Worker's Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

The District has contracted with Medical Mutual of Ohio to provide medical/surgical and dental benefits for its employees and their dependents. This plan contains a stop-loss provision of \$ 50,000 per participant.

The claim liability of \$ 179,400 reported at June 30, 2006 was estimated by the third party administrator and is based on the requirements of Governmental Standards Board Statement No. 30, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expense. Changes in the balance of claims liability during the years ended June 30, 2006 and 2005 are summarized below. Incurred claims and claims payments are not segregated between current and prior year's claims due to the impracticability of obtaining such information.

NOTE 12 - DEFINED BENEFIT PENSION PLANS

A. SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS)

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The School Employees Retirement System issues a publicly available, stand alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the SERS, 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746 or by calling (614) 222-5853.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2006, 10.57% of annual covered salary was the portion used to fund obligations. For fiscal year 2005, 10.57% of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The School District's contributions to SERS for the years ended June 30, 2006, 2005, and 2004 were \$ 147,455 \$ 147,688, and \$ 129,373, respectively. The full amount has been contributed for 2005 and 2004. For 2006, \$ 48,704 (33%) has been contributed.

B. STATE TEACHERS RETIREMENT SYSTEM (STRS)

The School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. STRS Ohio issues a publicly available, stand-alone financial report. Copies of STRS Ohio's 2004 Comprehensive Annual Financial Report can be requested by writing STRS Ohio, 275 E. Broad St., Columbus, Ohio 43215-3371, or by calling 614-227-4090.

NOTE 12 - DEFINED BENEFIT PENSION PLANS (continued)

B. STATE TEACHERS RETIREMENT SYSTEM (STRS) (continued)

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the members designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2005, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed the statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contribution for pension obligations to the DB Plan for the fiscal years ended June 30, 2006, 2005, and 2004 were \$ 682,567, \$ 672,528, and \$ 678,094, respectively. For 2006, \$ 442,844 (65%) has been contributed. The full amount has been contributed for 2005 and 2004.

NOTE 13 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS Ohio benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2005, the STRS Ohio Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$ 52,505 for fiscal year 2006.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. For the fiscal years ended, June 30, 2005 and June 30, 2004 (the latest information available), the board allocated employer contributions equal to 1% of covered payroll to the Health Care Stabilization Fund. The balance in the Health Care Stabilization Fund was \$ 3.3 billion on June 30, 2005. For the year ended June 30, 2004, net health care costs paid by STRS Ohio were \$ 254,780,000. There were 115,395 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Effective January 1, 2004 all retirees and beneficiaries are required to pay a portion of their premium for health care. The portion is based on years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below Federal poverty levels. Premiums are reduced by 50% for those who apply.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2005, employer contributions to fund health care benefits were 3.43 percent of covered payroll, a decrease of 1.48 percent from fiscal year 2004. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay was established at \$ 27,400. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund.

Health care benefits are financed on a pay-as-you-go basis. Net health care costs for the year ended June 30, 2005 were \$ 178,221,113. The target level for the health care reserve is 150 percent of the projected claims less premium contributions for the next fiscal year. As of June 30, 2005, the value of the health care fund was \$ 267.5 million, which is about 168% of next year's projected net health care costs of \$ 158,776,151. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. The number of participants eligible to receive benefits is 58,123.

For the District, the amount contributed to fund postemployment benefits for the 2006 fiscal year equaled \$ 119,581.

NOTE 15 - CAPITAL LEASE

The District has entered into a lease agreement for financing certain copier equipment. This lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of June 30, 2006.

The assets acquired through capital leases are as follows:

Asset	Cost	Accumulated Depreciation	Net
Copier equipment	<u>\$ 233,642</u>	<u>\$ (116,820)</u>	<u>\$ 116,822</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2005, are as follows:

	Year ending June 30,	Amount
	2007	\$ 51,420
	2008	51,420

NOTE 16 – OPERATING LEASE

The District was obligated under certain leases accounted for as operating leases. Operating leases do not give rise to property rights or lease obligations. During 2006, expenditures for operating leases totaled \$ 16,333. As of June 30, 2006, the District was not obligated under any operating lease.

NOTE 17 - SET-ASIDES

The District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials, and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end. These amounts must be carried forward and used for the same purposes in future years. The following cash basis information identifies the changes in the fund balance reserves for textbooks and capital improvements during fiscal year 2006.

	Textbook	Capital Maintenance
Balance, July 1, 2005	\$ (422,402)	\$ -
Required set aside	162,213	162,213
Qualifying expenditures	(156,168)	(149,008)
Balance June 30, 2006	\$ (416,357)	\$ 13,205
Carry forward at June 30, 2006	\$ (416,357)	\$ -

Expenditures and offset credits for textbooks and capital maintenance during the year were \$ 156,168 and \$ 149,008, respectively, which exceeded the required set-aside and the reserve balance. Textbook expenditures have exceeded statutory requirements by \$ 416,357 which may be used as offset credits for future years' set aside requirements.

NOTE 18 - JOINTLY GOVERNED ORGANIZATION

A. LAKE ERIE EDUCATION COMPUTER ASSOCIATION

The Lake Erie Educational Computer Association (LEECA) is a jointly governed organization comprised of thirty school districts. The jointly governed organization was formed to provide data processing services for accounting, administrative and instructional functions of member districts. Each of the governments of these districts supports LEECA based upon a per pupil charge dependent upon the software packages utilized. The LEECA assembly consists of a superintendent or designated representative from each participating district and a representative from the fiscal agent.

LEECA is governed by a board of directors chosen from the general membership of the LEECA assembly. The board of directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least one assembly member from each county from which participating districts are located. Financial information can be obtained by contacting the Treasurer at the Educational Service Center of Lorain County, which serves as fiscal agent, located at 1885 Lake Avenue, Elyria, Ohio 44035. During the year ended June 30, 2006, the District paid \$ 110,751 to LEECA.

The Lake Erie Regional Council (LERC) is a jointly governed organization among thirteen districts. The jointly governed organization was formed for the purpose of promoting cooperative agreements and activities among its members in dealing with problems of mutual concern such as a media center, gas consumption, and food service and insurance. Each member provided operating resources to LERC on a per pupil or usage charge except for insurance. The LERC assembly consists of a superintendent or designated representative from each participating district and the fiscal agent. LERC is governed by a board of directors chosen from the general membership. The degree of control exercised by any participating district is limited to its representation on the board. Financial information can be obtained by contacting the Treasurer at the Educational Service Center of Lorain County located at 1885 Lake Avenue, Elyria, Ohio 44035. During the year ended June 30, 2006 the District paid \$ 212,083 to LERC.

C. LORAIN COUNTY JOINT VOCATIONAL SCHOOL DISTRICT

The Lorain County Joint Vocational School District is a separate body politic and corporate, established by the Ohio Revised Code to provide vocational and special education needs of the students. The Board of the Lorain County Joint Vocational School District is comprised of representatives from each participating school district and is responsible for approving its own budgets, appointing personnel, accounting, and financing related activities.

Each School District's control is limited to its representation on the board. The School District's students may attend the Lorain County Joint Vocational School District. Financial information can be obtained by contacting the Lorain County Joint Vocational School District, 15181 State Route 58 South, Oberlin, Ohio 44074.

D. OHIO SCHOOLS COUNCIL

The Ohio Schools Council is a jointly governed organization among eighty-three districts. The jointly governed organization was formed for the purpose of promoting cooperative agreements and activities among its members in dealing with problems of mutual concern such as a media center, gas consumption, driver education, food service, and insurance. Each member provided operating resources to Ohio Schools Council on a per pupil or actual usage charge except for insurance.

The Ohio Schools Council assembly consists of a superintendent or designated representative from each participating district and the fiscal agent. Ohio Schools council is governed by a board of directors chosen from the general membership. The degree of control exercised by any participating district is limited to its representation on the board. Financial information can be obtained by contacting the Executive Secretary/Treasurer, Ohio Schools Council, 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

NOTE 19 - CONTINGENCIES

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2006.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Board of Education  
Oberlin City School District  
Oberlin, Ohio

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Oberlin City School District, Lorain County, Ohio, as of and for the year ended June 30, 2006, which collectively comprise the Oberlin City School District, Ohio's basic financial statements and have issued our report thereon dated December 15, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Oberlin City School District, Ohio's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be a material weakness.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Oberlin City School District, Ohio's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the Oberlin City School District, Ohio, in a separate letter dated December 15, 2006.

This report is intended solely for the information and use of the audit committee, management, the Board of Education, and Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO  
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE  
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Education  
Oberlin City School District  
Oberlin, Ohio

**Compliance**

We have audited the compliance of Oberlin City School District, Lorain County, Ohio, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The Oberlin City School District, Ohio's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Oberlin City School District, Ohio's management. Our responsibility is to express an opinion on the Oberlin City School District, Ohio's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Oberlin City School District, Ohio's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Oberlin City School District, Ohio's compliance with those requirements.

In our opinion, the Oberlin City School District, Ohio complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

### **Internal Control Over Compliance**

The management of the Oberlin City School District, Ohio, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Oberlin City School District, Ohio's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, the Board of Education, and Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
