INDEPENDENT ACCOUNTANTS' REPORT

Southern Ohio Educational Service Center
Clinton County
3321 Airborne Road
Wilmington, Ohio 45177

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Southern Ohio Educational Service Center, Clinton County, Ohio (the Center), as of and for the year ended June 30, 2006, which collectively comprise the Center's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Center's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Southern Ohio Educational Service Center, formerly the Clinton-Fayette-Highland Educational Service District as described in Note 1, Clinton County, Ohio, as of June 30, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2006, on our consideration of the Center's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis, and budgetary comparisons for the General Fund and Other Grants Fund are not a required part of the basic financial statements but are supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the Center's basic financial statements. The federal awards expenditure schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards expenditure schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

A handwritten signature in cursive script that reads "Mary Taylor".

**SOUTHERN OHIO EDUCATIONAL SERVICE CENTER
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2006
(Unaudited)**

The discussion and analysis of Southern Ohio Educational Service Center's financial performance provides an overall review of the Center's financial activities for the fiscal year ended June 30, 2006. The intent of this discussion and analysis is to look at the Center's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Center's performance.

Financial Highlights

Key financial highlights for 2006 are as follows:

- In total, net assets increased \$219,185 represents a 9.2% increase from 2005.
- General revenues accounted for \$1,046,829 in revenue or 26.8% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$2,852,612 or 73.2% of total revenues of \$3,899,441.
- Total assets of governmental activities increased by \$282,435 as cash and other receivables increased by \$301,206.
- The Center had \$3,680,256 in expenses related to governmental activities; only \$2,852,612 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$1,046,829 were also used to provide for these programs.
- As a major fund, the General Fund had \$3,698,281 in revenues and \$3,448,270 in expenditures. The General Fund's balance increased from \$1,947,490 to \$2,176,222. As a major fund, the Other Grants Fund had \$84,275 in revenues and \$27,992 in expenditures. The Other Grants Fund's balance increased from \$228,144 to \$284,427.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Center as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole Center, presenting both an aggregate view of the Center's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the Center's most significant funds with all other nonmajor funds presented in total in one column. The General Fund and the Other Grants Fund are the major funds of the Center.

Government-wide Financial Statements

While this document contains the large number of funds used by the Center to provide programs and activities, the view of the Center as a whole looks at all financial transactions and asks the question, “How did we do financially during 2006?” The Government-wide Financial Statements answer this question. These statements include *all assets* and *liabilities* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the Center’s *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the Center as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the Center presents:

- **Governmental Activities** – Most of the Center’s programs and services are reported here including instruction, support services and extracurricular activities.

Fund Financial Statements

The analysis of the Center’s major funds is presented in the Fund Financial Statements. Fund financial reports provide detailed information about the Center’s major funds. The Center uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the Center’s most significant funds.

Governmental Funds Most of the Center’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the Center’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

Fiduciary Funds Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Center’s own programs.

The Center as a Whole

Recall that the Statement of Net Assets provides the perspective of the Center as a whole.

Table 1 provides a summary of the Center's net assets for 2005 compared to 2006:

	Governmental Activities	
	2006	2005
Assets		
Current Assets	\$2,816,703	\$2,515,497
Capital Assets	461,475	480,246
Total Assets	3,278,178	2,995,743
Liabilities		
Long-Term Liabilities	315,803	296,347
Other Liabilities	355,678	311,884
Total Liabilities	671,481	608,231
Net Assets		
Invested in Capital		
Assets	461,475	480,246
Restricted	284,803	222,978
Unrestricted	1,860,419	1,684,288
Total Net Assets	\$2,606,697	\$2,387,512

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2006, the Center's assets exceeded liabilities by \$2,606,697.

At year-end, capital assets represented 14.08% of total assets. Capital assets include land, buildings and improvements, and furniture, equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2006, was \$461,475. These capital assets are used to provide services and are not available for future spending. Although the Center's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the Center's net assets, \$284,803, represents resources that are subject to external restriction on how they may be used. The balance of unrestricted net assets of \$1,860,419 may be used to meet the Center's ongoing obligations to the students and creditors.

Current and other assets increased mainly due to an increase in equity in pooled cash and investments. This was a result of the Center's revenues exceeding expenses. Over the years the Center has been able to pick up and serve additional School Districts which increases the Center's revenues greater than the associated expenses. The addition of Adams County/Ohio Valley School District attributes to the Center's positive change in net assets in both 2005 and 2006. Total liabilities remained fairly consistent compared to 2005.

Table 2 shows the change in net assets for fiscal years 2005 and 2006.

Table 2
Changes in Net Assets

	Governmental Activities	
	2006	2005
Revenues		
Program Revenues:		
Charges for Services	\$2,258,165	\$2,352,042
Operating Grants	594,447	696,056
General Revenue:		
Grants and Entitlements	872,270	694,944
Other	174,559	251,091
Total Revenues	<u>3,899,441</u>	<u>3,994,133</u>
Program Expenses:		
Instruction	892,242	858,388
Support Services:		
Pupil and Instructional Staff	1,755,965	1,818,418
General and School Administrative, Fiscal and Business	668,811	565,485
Operations and Maintenance	76,882	60,651
Central	268,525	321,481
Operation of Non-Instructional Services	0	12,555
Extracurricular Activities	17,831	16,548
Total Expenses	<u>3,680,256</u>	<u>3,653,526</u>
Change in Net Assets	219,185	340,607
Beginning Net Assets	<u>2,387,512</u>	<u>2,046,905</u>
Ending Net Assets	<u><u>\$2,606,697</u></u>	<u><u>\$2,387,512</u></u>

The Center revenues are mainly from three sources. Charges for services, operating grants and contributions and grants and entitlements comprised 95.5% of the Center's revenues for governmental activities.

Instruction comprises 24.2% of governmental program expenses. Support services expenses were 75.3% of governmental program expenses. All other expenses were 0.5%. Revenues and expenses remained consistent as compared to the prior year.

Charges for services made up 58% of revenues for governmental activities for the Center in 2006. The Center's reliance upon charges for services is demonstrated by the following graph:

Revenue Sources	2006	Percent of Total
Charges for Services	\$2,258,165	57.91%
Operating Grants	594,447	15.24%
Grants and Entitlements	872,270	22.37%
Other Revenues	174,559	4.48%
	<u>\$3,899,441</u>	<u>100.00%</u>

The Center's revenues and expenses remained consistent compared to 2005. The Center continued its positive change in net assets due to the addition of Adams County/Ohio Valley Local Schools.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services.

Table 3
Governmental Activities

	Total Cost of Services		Net Cost of Services	
	2006	2005	2006	2005
Instruction	\$892,242	\$858,388	\$97,201	\$4,037
Support Services:				
Pupil and Instructional Staff	1,755,965	1,818,418	(117,433)	76,146
General and School Administrative,				
Fiscal and Business	668,811	565,485	(566,611)	(465,083)
Operations and Maintenance	76,882	60,651	(75,230)	(60,651)
Central	268,525	321,481	(167,326)	(160,087)
Operation of Non-Instructional Services	0	12,555	0	(55)
Extracurricular Activities	17,831	16,548	1,755	265
Total Expenses	<u>\$3,680,256</u>	<u>\$3,653,526</u>	<u>(\$827,644)</u>	<u>(\$605,428)</u>

The Center's Funds

The Center has two major governmental funds: the General Fund and the Other Grants Fund. Assets of these funds comprise \$2,815,697 (99.9%) of the total \$2,816,703 governmental funds assets.

General Fund: Fund balance at June 30, 2006 was \$2,176,222 including \$2,025,330 of unreserved balance. The primary reason for the increase in fund balance was a result of the Center's tuition and fees revenue and grants revenue from the addition of the Adams County/Ohio Valley Local Schools.

Other Grants Fund: Fund balance at June 30, 2006 was \$284,427. Current year change in fund balance was \$56,283 which is a slight increase over the fiscal year 2005 fund balance of \$228,144. The cause of the increase relates to the Center decreasing support services expenditures.

General Fund Budgeting Highlights

The Center’s budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal 2006, the Center amended its general fund budget. The Center uses program-based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management. During the course of the year, the Center revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, original budgeted revenues were \$3,569,055 and final budgeted revenues were \$3,732,242. Original budgeted expenditures were \$4,286,530 and final budgeted expenditures were \$4,383,206. Actual ending fund balance was \$702,653 greater than the final budgeted fund balance.

Capital Assets and Debt Administration

Capital Assets

At the fiscal year end 2006, the Center had \$461,475 invested in land, buildings and improvements and furniture, vehicles and equipment. Table 4 shows fiscal 2006 balances as compared to 2005:

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities	
	2006	2005
Land	\$31,490	\$31,490
Buildings and Improvements	404,579	417,532
Equipment	25,406	31,224
Total Net Capital Assets	\$461,475	\$480,246

Capital assets decreased by \$18,771 in fiscal year 2006 due to the recognition of depreciation, additions and deletions. This Center continues its ongoing commitment to maintaining and improving its capital assets.

See note 6 to the basic financial statements for further details on the Center’s capital assets.

Debt

At June 30, 2006, the Center had no outstanding debt obligations.

For the Future

The Center relies heavily on tuition and fees and intergovernmental revenues. This scenario requires management to plan carefully and prudently to provide the resources to meet needs over the next several years. Financially, the future of the Center is not without challenges. Management must diligently plan future expenditures. All of the Center's financial abilities will be needed to meet the challenges of the future. With careful planning and monitoring of the Center's finances, the Center's management is confident that the Center can continue to provide quality services to other organizations in the future.

Contacting the Center's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the Center's finances and to show the Center's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Patrice Thompson, Treasurer at Southern Ohio Educational Service Center, 3321 Airborne Road, Wilmington, Ohio 45177 or e-mail so_ptompson@mveca.org.

See accompanying notes to the basic financial statements

Southern Ohio Educational Service Center
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balance of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended June 30, 2006

Net Change in Fund Balance - Total Governmental Funds \$281,804

Amounts reported for governmental activities in the
 statement of activities are different because:

Governmental funds report capital asset additions as expenditures.
 However, in the statement of activities, the cost of those assets is
 allocated over their estimated useful lives as depreciation
 expense. This is the amount of the difference between capital
 asset additions and depreciation in the current period.

Capital assets used in governmental activities	4,000	
Depreciation Expense	<u>(22,565)</u>	(18,565)

Governmental funds only report the disposal of assets to the
 extent proceeds are received from the sale. In the statement
 of activities, a gain or loss is reported for each disposal. The
 amount of the proceeds must be removed and the gain or loss
 on the disposal of capital assets must be recognized. This is the
 amount of the difference between the proceeds and the gain or loss. (206)

Some expenses reported in the statement of activities do not require the
 use of current financial resources and therefore are not reported as
 expenditures in governmental funds.

SOUTHERN OHIO EDUCATIONAL SERVICE CENTER
NOTES TO BASIC FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2006

1. DESCRIPTION OF THE EDUCATIONAL SERVICE CENTER AND REPORTING ENTITY

The Southern Ohio Educational Service Center Governing Board (referred to as "Center") organized on July 1, 1997, and operates under current standards prescribed by the Ohio State Board of Education as provided in 3311.053 of the Ohio Revised Code for county educational service centers.

The Center was formerly known as the Clinton-Fayette-Highland Educational Service District after the merger of the Clinton County, Fayette County and the Highland County educational service centers. Effective July 1, 2005, as approved by the governing board, the Center became known as the Southern Ohio Educational Service Center after the expansion of their service to include Adams County school districts. This was a name change only, and did not change the organizational structure or service provided by the Center. The Governing Board is made up of nine elected board members. The elected governing board can, at the January organizational meeting, appoint up to 8 additional members to serve on the governing board for a maximum of 17 members. The resolution to merge explains this issue in more detail.

This Center operates the following office facilities--the Central Board Office and the Clinton County Educational Service Center at 3321 Airborne Road, Wilmington, Ohio and the Highland County Educational Service Center at 135 North High Street, Hillsboro, Ohio. The Fayette County services are provided either from staff at the central office or through a service contract with the Miami Trace Local School District, Washington C.H., Ohio.

The Center employs 62 non-certified, 64 certificated and 2 administrative employees to provide service to the eight local school districts in Clinton County (Blanchester, Clinton-Massie, East Clinton), Fayette County (Miami Trace), Highland County (Bright, Fairfield, Lynchburg-Clay), Adams County (Adams County/Ohio Valley), the 3 city school districts of Hillsboro, Washington C.H., and Wilmington, the 1 exempted village school district of Greenfield, and the Laurel Oaks Career Development Center, as an educational service center as well as the school districts in the 5-county area served by the SERRC.

The Center provides fiscal agent services to the following organizations: Hopewell Special Education Regional Resource Center (SERRC), 5350 West New Market Road, Hillsboro, Ohio; DARE, through the Clinton County Sheriff, Wilmington, Ohio; and Hopewell JOG, Inc., Hillsboro, Ohio. The SERRC is accounted for as an investment trust fund while the other funds with fiscal agent relationships are reported as agency funds for GAAP purposes. The Center also provides fiscal agent services to the Clinton County Alternative School. Participation fees and tuition are included within the General Fund. Grant activity is included within the Special Revenue Fund.

REPORTING ENTITY

The Center reporting entity is comprised of the primary government. The primary government of the Center consists of all funds, departments, boards and agencies that are not legally separate from the Center. For the Center, this includes general operations, preschool, teacher development, gifted, work-study, special education, alternative school, media center cooperative, technology, speech therapy, psychology, social work, and multi-handicap activities and programs.

The (SERRC) is a separate agency that serves the school districts in Adams, Brown, Clinton, Fayette, and Highland counties through cooperative agreements with regard to special education mandates established by the State of Ohio and State and Federal funding. SERRC has a Governing Board made up of superintendents from each of the participating school districts including this district. The Center is the fiscal agent for SERRC but is not financially accountable for their operations nor are the entities fiscally dependent on the Center. SERRC is accounted for as an investment trust.

The Center is associated with eight organizations, which are defined as a jointly governed organization, a group purchasing pool, and a related organization.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Center have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Center also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The most significant of the Center's accounting policies are described below.

MEASUREMENT FOCUS

Government-wide Financial Statements

The Center's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements which provide a more detailed level of financial information.

The government-wide statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Center are included on the statement of net assets. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and programs revenues for each function or program of the Center's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Center, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Center.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Fiduciary Funds are reported using the economic resources measurement focus.

FUND ACCOUNTING

The Center uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Center functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the Center are grouped into the categories governmental and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Center's major governmental funds:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other Grants Fund – To account for proceeds of specific revenue sources, that are legally restricted to expenditures for specific purposes.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the Center under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Center's own programs. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The Center has an agency fund. The Center has a private purpose trust which benefits programs for individual students. The Center's investment trust fund is used to account for the activity of the Center's external investment pool.

3. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Center, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the Center receives value without directly giving equal value in return, included grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Center must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Center on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: grants and interest.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

EQUITY IN POOLED CASH AND INVESTMENTS

Cash received by the Center is pooled for investment purposes. Interest in the pool is presented as “equity in pooled cash and investments” on the financial statements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during the fiscal year amounted to \$122,303, which includes \$11,864 assigned from other Center funds.

CAPITAL ASSETS

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Center maintains a capitalization threshold of two thousand five hundred dollars (\$2,500). The Center does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not.

All reported capital assets are depreciated, except land. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

<u>Description</u>	Governmental Activities <u>Estimated Lives</u>
Building and Improvements	20-50 years
Machinery, Equipment and Vehicles	3 -10 years

RESTRICTED ASSETS

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other government or imposed by enabling legislation. Restricted assets include the amount in the private purpose trust fund that is restricted by trust agreements to be used for scholarships.

COMPENSATED ABSENCES

The Center reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the Center will compensate the employees for the benefits through paid time off or some other means. The Center records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the Center's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount due to the employee at year end. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. Compensated Absences are reported in governmental funds only if they have matured.

NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Center or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The Center applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

FUND BALANCE RESERVES AND DESIGNATIONS

The Center reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances.

INTERFUND ACTIVITY

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

4. EQUITY IN POOLED CASH AND INVESTMENTS

The Center maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the statement of net assets and balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the Center into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the Center. Such monies must by law be maintained either as cash in the Center treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds, and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the Center's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the Center, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Center's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of June 30, 2006, \$312,532 of the Center's bank balance of \$559,532 was exposed to custodial risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the Center's name.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 110% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

Investments

As of June 30, 2006, the Center had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Aggregate Credit Risk</u>	<u>Weighed Average Maturity (Years)</u>
Federal Home Loan Bank	\$3,197,149	61.0%	2.58
Federal Farm Credit	198,297	3.8%	3.81
U.S. Treasury Notes	888,729	17.0%	3.05
Federal National Mortgage Association	298,000	5.7%	1.93
Money Market	417,860	8.0%	0.00
Repurchase Agreement	238,688	4.5%	0.00
Total Fair Value	<u>\$5,238,723</u>	<u>100.0%</u>	
Portfolio Weighted Average Maturity			2.34

Interest rate risk - In accordance with the investment policy, the Center manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years.

Credit Risk – It is the Center’s policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The Center’s investments in Federal Agencies and in the Money Market Funds were rated AAA by Standard & Poor’s and Fitch Ratings and Aaa by Moody’s Investors Service. Repurchase Agreements shall be transacted only through banks located within the State of Ohio with which the Treasurer has signed a master repurchase agreement as required in Ohio Revised Code 135.

Concentration of credit risk – The Center’s investment policy allows investments in Federal Agencies or Instrumentalities. The Center has invested 95.4% of its investments in government sponsored enterprise (GSE) securities.

Custodial credit risk is the risk that in the event of the failure of the counterparty, the Center will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the Center’s securities are registered in the name of the Center.

5. RECEIVABLES

Receivables at June 30, 2006, consisted of accounts and interest.

6. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2006, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$31,490	\$0	\$0	\$31,490
<i>Capital Assets, being depreciated:</i>				
Buildings and Improvements	528,710	0	0	528,710
Equipment	<u>123,367</u>	<u>4,000</u>	<u>10,400</u>	<u>116,967</u>
Totals at Historical Cost	<u>683,567</u>	<u>4,000</u>	<u>10,400</u>	<u>677,167</u>
Less Accumulated Depreciation:				
Buildings and Improvements	111,178	12,953	0	124,131
Equipment	<u>92,143</u>	<u>9,609</u>	<u>10,191</u>	<u>91,561</u>
Total Accumulated Depreciation	<u>203,321</u>	<u>22,562</u>	<u>10,191</u>	<u>215,692</u>
Governmental Activities Capital Assets, Net	<u>\$480,246</u>			<u>\$461,475</u>

Depreciation expense was charged to governmental functions as follows:

Support Services:	
Instructional Staff	\$6,027
School Administration	14,605
Fiscal	866
Operations and Maintenance	165
Central	899
Total Depreciation Expense	\$22,562

7. LONG-TERM LIABILITIES

	<u>Beginning Outstanding</u>	<u>Additions</u>	<u>Deductions</u>	<u>Ending Outstanding</u>	<u>Due In One Year</u>
<u>Governmental Activities:</u>					
Compensated Absences	<u>\$296,347</u>	<u>\$81,114</u>	<u>\$61,658</u>	<u>\$315,803</u>	<u>\$31,719</u>
Total Governmental Activities					
Long-Term Liabilities	<u>\$296,347</u>	<u>\$81,114</u>	<u>\$61,658</u>	<u>\$315,803</u>	<u>\$31,719</u>

Compensated absences will be paid from the fund from which the person is paid.

8. PENSION PLANS

SCHOOL EMPLOYEES RETIREMENT SYSTEM

The Center contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476.

Plan members are required to contribute 10% of their annual covered salary and the Center is required to contribute at an actuarially determined rate. The current Center rate is 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The Center's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2006, 2005, and 2004 were \$222,708, \$252,287, and \$265,442, respectively; 100% has been contributed for fiscal year 2006 and 100% for fiscal year 2005 and 2004.

STATE TEACHERS RETIREMENT SYSTEM

The Center participates in State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 East Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB Plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2006, plan members were required to contribute 10% of covered payroll for members. The Center was required to contribute 14%. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for members and employer contributions.

The Center's required contributions for pension obligations for the fiscal years ended June 30, 2006, 2005, and 2004 were \$484,190, \$447,943, and \$418,154, respectively; 100% has been contributed for fiscal year 2006 and 100% for fiscal years 2005 and 2004.

SOCIAL SECURITY SYSTEM

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2005, nine of the Center's employees (board members) have elected Social Security. The Center's liability is 6.2% of wages paid.

9. POST EMPLOYMENT BENEFITS

The Center provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits included hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provision and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

STRS retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. All benefit recipients pay a portion of health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2006, the STRS Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the Center, this amount equaled \$34,585 for fiscal year 2006.

STRS pays health care benefits from the Health Care Stabilization Fund. At June 30, 2006, the balance in the Fund was \$3.5 billion. For the fiscal year ended June 30, 2006, net health care costs paid by STRS were \$282,743,000 and STRS had 119,184 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their premium for health care. The portion is based on years of service, Medicare eligibility, and retirement status. Premiums may be reduced for retirees whose household income falls below the poverty level.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2006, employer contributions to fund health care benefits were 3.42 percent of covered payroll. For the Center, this amount equaled \$54,563 for fiscal year 2006. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2006, the minimum pay was established at \$35,800. However, the surcharge is capped at 2 percent of each employer's SERS salaries.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2006, were \$158,751,207. At June 30, 2006, SERS had net assets available for payment of health care benefits of \$295.6 million. SERS has approximately 59,492 participants currently receiving health care benefits.

10. CONTINGENT LIABILITIES

GRANTS

The Center receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Center at year-end.

LITIGATION

The Center 's attorney estimates that all other potential claims against the Center not covered by insurance resulting from all other litigation would not materially affect the financial statements of the Center.

11. RISK MANAGEMENT

The Center is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year, the Clinton County Educational Service Center facility was provided by the Clinton County Commissioners. The Center contracted with the Smith-Feike-Minton Agency, coverage from the Cincinnati Insurance Company, for content insurance for the educational service center as well as the gifted classrooms and the alternative school. The Highland County Educational Service Center facility was provided by the Highland County Commissioners.

The Center contracted with the Nationwide Mutual Insurance Company with a \$1,000,000 single occurrence limit and a \$3,000,000 aggregate for professional liability insurance.

The Center contracted with the Cincinnati Insurance Company for commercial coverage on the van operated by the Media Center.

The Ohio Casualty Group Insurance Company maintains a \$ 20,000 public official bond for the Treasurer.

Settled claims have not exceeded any of the commercial coverages mentioned above in any of the past three years. There has been no significant change in any coverage from last year.

For fiscal year, the Center participated in the Southwestern Ohio EPC Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the Center by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Hunter Consulting, Inc. provides administrative, cost control and actuarial services to the GRP.

12. OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are set by the Governing Board and State laws. Eligible classified employees and administrators earn ten to twenty days of vacation per year, depending upon length of service. Accumulated vacation must be used by the end of the calendar year earned or be lost. Unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 230 days for all personnel. Upon retirement, payment is made for twenty-five percent of the employee's accumulated sick leave with a maximum payment being limited to 35 days, unless otherwise stated in employment contract.

B. Health Care Benefits

The Center provides term life insurance, accidental death and dismemberment insurance to all of its eligible employees through CoreSource, underwritten by the METLIFE Insurance Company.

The Center provides health care, dental, and vision insurance benefits through the Southwestern Ohio Educational Purchasing Cooperative (SWOEPC), using the United Health Care, Core Source and Vision Service Plan providers.

C. 125 Plan

The Center provides its eligible employees an option to participate in a 125 plan. Through election to participate, the employees can have their portion of their medical, dental, and vision premiums tax exempt. Participation is renewed annually with each fiscal year during the month of September. This plan is administered by the American Fidelity Assurance Company.

D. Deferred Compensation

The Center provides an IRS Section 457 Plan for deferred compensation. Employees may elect to contribute “before tax” dollars into an annuity type program. The Center does not contribute. The plan is administered by ING Life and Annuity Company.

13. JOINTLY-GOVERNED ORGANIZATION

Miami Valley Educational Computer Association (MVECA)

The Center is a member of the Miami Valley Educational Computer Association (MVECA) which is a computer consortium A-site. MVECA is an association of public districts in a geographic area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. The General Assembly of MVECA consists of two representatives from each of the 24 participating school districts; that is, the superintendent and the treasurer. The Board of Directors is elected from this group. The degree of control exercised by any participating district is limited to its representation on the Board. To obtain financial information; write to MVECA, 330 East Enon Road, Yellow Springs, Ohio 45387.

Hopewell Special Education Regional Resource Center (SERRC)

SERRC is a jointly governed organization created by the Ohio Department of Education at the request of the participating school districts to offer direct and related services to low incidence handicapped students of the region. Eighteen local, city and exempted village school districts receive services from SERRC. SERRC is operated under regulations and policies established by the Ohio Department of Education, the Southern Ohio Educational Service Center governing board, and its own governing board. The SERRC Governing Board is made up of superintendents from the eighteen school districts plus the educational service district, mental retardation and developmental disabilities, and joint vocational school superintendents, as well as three parents of handicapped children in the region. The Center acts as fiscal agent for SERRC through a written agreement. SERRC receives funding from contracts with each of the member school districts, state unit funding, and state and federal grants.

JOG, Inc.

Jobs for Ohio's Graduates (JOG), Inc. is a 501 (c) (3) organization providing school-to-career services to high school students. It is governed by a board of directors and accredited by JOG and Jobs for America's Graduates (JAG). JOG, Inc. is operated under regulations and policies established by the Ohio Department of Education (ODE), JOG, JAG, and its own board of directors. The board is made up of the Center superintendent, one principal representative from high schools served, one representative from Workforce Investment Act, and representatives from business and industry. JOG, Inc. provides services to high school youth with specific academic, social, behavior, and economic barriers that could hinder their graduation from high school. JOG, Inc. also provides follow-up with students for one year after graduation from high school to insure success in the workplace. Students in eighteen high schools and Career and Technical Centers in Adams, Brown, Clinton, Fayette, and Highland Counties receive services from JOG, Inc.

JOG, Inc. receives funding from the ODE, contracts with individual school districts, Workforce Investment Act, and state, federal, and private sector grants. The Center provides payroll and personnel services for JOG, Inc. through a written agreement. As of February 1, 2006, the agreement was terminated.

14. GROUP PURCHASING POOLS

Southwestern Ohio Educational Purchasing Cooperative (SWOEPC)

The Southwestern Ohio Educational Purchasing Cooperative (SWOEPC) is a group purchasing pool consisting of public school districts. The purpose of a group purchasing pool is to purchase products or services at a reduced rate. The Center participates with the SWOEPC in the purchase of supplies, audio/visual materials, and the management of unemployment and workers compensation.

Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan Trust

The Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan Trust (the Plan) is a group purchasing pool consisting of public school districts who are members of the SWOEPC (described above). The purpose of a group purchasing pool is for members to pool funds or resources to purchase group insurance products to provide health benefits to participants at a lower rate than if the individual district acted independently. Each district pays a monthly premium to the Trust fund for insurance coverage which is provided by Anthem Blue Cross or United Healthcare. The Plan is governed by a Board of Trustees elected in accordance with the Trust Agreement and voted on by participating SWOEPC member districts.

Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan

The Center participates in a group-rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Program (WCGRP) was established through the Southwestern Ohio Educational Purchasing Cooperative (SWOEP) as a group purchasing pool. The WCGRP's business and affairs are conducted by a Board of Directors. The Executive Director of the SWOEP, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the WCGRP to cover the costs of administering the program.

15. RELATED ORGANIZATION

Great Oaks Institute of Technology and Career Development (Great Oaks)

The Center appoints by law one board member to serve on the board of Great Oaks, located in Cincinnati, Ohio. This board member also represents the districts of Clinton-Massie Local and Blanchester Local, per their request. All other districts participating from the counties of Clinton, Fayette, and Highland, send their own representatives.

Southern Hills Joint Vocational School

The Center appoints by law one board member to serve on the Southern Hills Joint Vocational School, located in Georgetown, Ohio, which serves Bright Local, one of the districts in the 3-county educational service district. At year end, Adams County and Ohio Valley Local School Center provide their own representation.

16. STATE FUNDING

The Center is funded by the State Department of Education for the cost of Part (A) of their budget. This funding is provided from State and local resources.

Part (B) of the budget is provided by the schools to which the Center provides services and by the State Department of Education. Each school district's portion is determined by multiplying the average daily membership of the school by \$6.50. This amount is deducted by the State Department of Education from that school district's resources provided under the State's Foundation Program. The Department of Education's portion is determined by multiplying the sum of the average daily memberships of all of the school districts served by the Center by \$40.52. This amount is provided from State resources.

If additional funding is needed for the Center, and if a majority of the Boards of Education of the school districts served by the Center approve, the cost of Part (B) of the budget can be increased. This is done to provide funding for specific programs and is approved by those school districts participating in the programs. Those school districts that participate and approve increased funding share in the additional reductions in their resources provided through the State Foundation Program. The State Board of Education initiates and supervises the procedure under which the school districts approve or disapprove the additional apportionment.

17. INVESTMENT POOL

The Center serves as fiscal agent for the Hopewell Special Education Regional Resource Center. The Center pools the moneys of this entity with the Center 's moneys for investment purposes. The investment pool is not registered with the SEC as an investment company. The fair value of investments is determined annually. The pool does not issue shares. Each participant is allocated a pro rata share of each investment at fair value along with a pro rata share of the interest that it earns. The investment pool consists of certificates of deposit, treasuries and money market funds.

Condensed financial information for the investment pool follows:

	Statement of Net Assets June 30, 2006 (latest available information)
	<u>Assets</u>
Cash	<u>\$5,530,553</u>

Net Assets End of Year	<u>\$5,530,553</u>

18. SUBSEQUENT EVENT

Effective July 1, 2007, the Center may become the fiscal agent to an Education Regional Service Center, created by House Bill 115. During fiscal year 2007, the Center will submit an application to the Ohio Department of Education to serve as fiscal agent for Region 14. This region will include all of Adams, Brown, Clinton, Fayette, and Highland counties. The Ohio Department of Education is expected to make their determination on or before March 1, 2007.

SOUTHERN OHIO EDUCATIONAL SERVICE CENTER
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For The Year Ended June 30, 2006

1. BUDGETARY PROCESS

In the first quarter of each fiscal year, the Educational Service Center summarizes and certifies its budget on forms furnished by the State Department of Education, together with such other information as the State Department of Education may require. The summarized budget document consists of three parts. Part (A) includes entitlement funding from the State for the cost of salaries, employer's retirement contributions, and travel expenses of supervisory teachers approved by the State Department of Education. Part (B) includes the cost of all other lawful expenditures of the Educational Service Center. Part (C) includes the appropriations of the Educational Service Center. The State Board of Education reviews the budget and certifies to each local board of education under the supervision of the Educational Service Center the amount from part (B) that is to be apportioned to their district.

Annual appropriations are enacted by the Educational Service Center at the fund and function level of expenditures. Budgetary integration is employed as a management control device during the year for all funds. During the year, monthly supplemental appropriations were enacted. The budget figures, which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations.

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at year end are reported as a reservation of fund balance for subsequent year expenditures for governmental funds.

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

While the Center is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general fund and other grants fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and expendable trust funds (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and other grants fund.

Net Change in Fund Balance

	<u>General</u>	<u>Other Grants</u>
GAAP Basis	\$228,732	\$56,283
Net Adjustment for Revenue Accruals	27,464	31,637
Net Adjustment for Expenditure Accruals	40,092	(31,492)
Encumbrances	<u>(244,599)</u>	<u>0</u>
Budget Basis	<u>\$51,689</u>	<u>\$56,428</u>

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2006**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) summarizes activity of the Board's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – COMMUNITY ALTERNATIVE FUNDING SYSTEM

Receipts for the grant are posted to the General Fund. It is assumed that federal monies are expended first.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Southern Ohio Educational Service Center
Clinton County
3321 Airborne Road
Wilmington, Ohio 45177

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Southern Ohio Educational Service Center, Clinton County, Ohio (the Center), as of and for the year ended June 30, 2006, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 22, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Center's internal control over financial reporting to determine our auditing procedures in order to express our opinion on the financial statements and not to opine on the internal control over financial reporting. Our consideration of the internal control would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts material to the financial statements we audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider material weaknesses.

Compliance and Other Matters

As part of reasonably assuring whether the Center's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Southern Ohio Education Service Center
Clinton County
Independent Accountants' Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Required by *Governmental Auditing Standards*

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Southern Ohio Educational Service Center
Clinton County
3321 Airborne Road
Wilmington, Ohio 45177

To the Board of Education:

Compliance

We have audited the compliance of Southern Ohio Educational Service Center, Clinton County, Ohio (the Center), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to its major federal program for the year ended June 30, 2006. The summary of auditor's results section of the accompanying schedule of findings identifies the Center's major federal program. The Center's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the Center's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the Center's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Center's compliance with those requirements.

In our opinion, the Southern Ohio Educational Service Center complied, in all material respects, with the requirements referred to above that apply to its major federal program for the year ended June 30, 2006.

Internal Control Over Compliance

The Center's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Center's internal control over compliance with requirements that could directly and materially affect a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Corporate Centre of Blue Ash / 11117 Kenwood Rd. / Blue Ash, OH 45242
Telephone: (513) 361-8550 (800) 368-7419 Fax: (513) 361-8577
www.auditor.state.oh.us

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be timely detected by employees when performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

We intend this report solely for the information and use of the Center's Board of Education, management, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.
