SYCAMORE COMMUNITY SCHOOL DISTRICT, OHIO

Single Audit Reports

June 30, 2006

Mary Taylor, CPA Auditor of State

Board of Education Sycamore Community School District 4881 Cooper Road Cincinnati, Ohio 45242

We have reviewed the *Independent Auditors' Report* of the Sycamore Community School District, Hamilton County, prepared by Clark, Schaefer, Hackett & Co., for the audit period July 1, 2005 through June 30, 2006. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Sycamore Community School District is responsible for compliance with these laws and regulations.

Mary Taylor, CPA Auditor of State

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The schedule of expenditures of federal awards is a summary of the activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Sycamore Community School District, Ohio:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sycamore Community School District, Ohio (the School District) as of and for the year ended June 30, 2006, which collectively comprise the School District's basic financial statements and have issued our report thereon dated November 10, 2006 wherein we noted the School District implemented Governmental Accounting Standards Board (GASB) Statement Nos. 42, 44, and 46, and 47. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the School District in a separate letter dated November 10, 2006.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

Clark, Schafer, Harhett of Co.

Cincinnati, Ohio November 10, 2006

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Education Sycamore Community School District, Ohio:

Compliance

We have audited the compliance of Sycamore Community School District, Ohio (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District as of and for the year ended June 30, 2006, and have issued our report thereon dated November 10, 2006. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than those specified parties.

November 10, 2006

To The Citizens and Board of Education of the Sycamore Community School District:

The Comprehensive Annual Financial Report [CAFR] of the Sycamore Community School District [District] for the fiscal year ended June 30, 2006, is hereby submitted. This report, prepared by the Treasurer's office, includes an unqualified opinion from the Clark, Schaefer, Hackett and Co. and conforms to generally accepted accounting principles as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report will provide the taxpayers of the Sycamore Community School District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs.

The Comprehensive Annual Financial Report is divided into three sections:

<u>Introductory Section</u> - This section introduces the reader to the report and includes a table of contents, this transmittal letter, a list of principal and elected officials, the District's organizational chart, the District's consultants and advisors, and the GFOA and ASBO certificates for financial reporting received for the June 30, 2005 CAFR. Also included are the District's major current and future initiatives.

<u>Financial Section</u> - This section includes the independent accountants' report on the financial statements, management's discussion and analysis, basic financial statements, notes to the basic financial statements, and the combining statements for non-major funds and other schedules that provide detailed information relative to the basic financial statements.

<u>Statistical Section</u> - This section includes selective financial, economic and demographic information, generally presented on a multi-year basis for comparative purposes.

Copies of this report will be widely distributed throughout the District. A copy will be sent to all school buildings, the Greater Cincinnati Chamber of Commerce, the major businesses located within the District, other governments in Hamilton County, the branches of the Hamilton County Public Library located within the District, Moody's and Standard and Poor's financial rating services, major banks, realtors, the District Planning Commission and any other interested parties upon request.

THE REPORTING ENTITY AND SERVICES PROVIDED

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory, advanced placement, gifted, special education and vocational levels; a broad range of co-curricular and extra-curricular activities; adult and community education offerings and community recreation activities.

The District receives pass through grants from the State and distributes these grants to parochial/private schools located within the District. This activity is included in the entity as the Auxiliary Services Special Revenue Fund, because of the District's administrative involvement in the program. The parochial/private schools served are: Cincinnati Hills Christian Academy, Ursuline Academy, Archbishop Moeller High School, Blue Ash Educational Building, Ohio Valley Voices and The Schilling School for Gifted Children. While these organizations share operational and service similarity with the District, each is a legally separate and distinct entity. Because of their independent nature, none of these organizations are included in this report.

ECONOMIC CONDITION AND OUTLOOK

The District is located in southwestern Ohio, a suburb of Cincinnati, in the northeast part of Hamilton County. Approximately 57.1% of the District's tax base consists of agricultural and residential properties; the remainder is composed of a wide range of manufacturing, commercial and other business properties. The overall economic outlook for the area remains stable with low unemployment rates and low inflationary pressures.

The District is continually challenged by the responsibility bestowed upon it by the community at large. We are always striving to provide the very best opportunities to every student, while carefully guarding the District's resources.

THE DISTRICT AND ITS FACILITIES

Located in Hamilton County, north of Cincinnati, the Sycamore Community School District serves a population of approximately 36,700 people. Within the District boundaries are the Cities of Blue Ash and Montgomery, portions of Sycamore and Symmes Townships and small portions of the Cities of Evendale and Loveland. These growing and thriving communities are a blend of residential, business, high technology, and light industrial areas. Convenient access to interstate highways I-71, I-75 and interstate connector I-275 has helped in the spectacular growth of the area during the last twenty years. The greater Cincinnati area has long been known as one of the premier areas to live and work in the United States.

The District has a very strong industrial base in Blue Ash, along with a stable tax base in Symmes and Sycamore Townships and the City of Montgomery. The diversity of the tax base has protected the District during what have been unstable economic times through much of the nation and region.

In 2005-06, the District housed 5,691 students in one high school, one junior high, one middle school, and four elementary schools. Enrollment listed below includes pre-kindergarten at Symmes Elementary of 81 students and 59 joint vocational students at Sycamore High School who are educated at the Great Oaks Vocational School.

Constructed	School Address	Enrollment As of October 2005
2002	Blue Ash Elementary 9541 Plainfield Road	498
1960	Maple Dale Elementary 6100 Hagewa Road	435
2003	Montgomery Elementary 9609 Montgomery Road	510
1989	Symmes Elementary 3173 Springdale Road	514
1964	E.H. Greene Intermediate 5200 Aldine Drive	823
1926	Sycamore Junior High 5757 Cooper Road	905
1974	Sycamore High School 7400 Cornell Road	2,006

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education is a five member body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all the general laws of the State of Ohio are followed in the expenditures of the District's tax dollars and approves the annual appropriation resolution and tax budget.

The Board members represent a cross section of professions in the community. The board members on June 30, 2006, were as follows:

Board Member	Began Service	Term Expires	Profession
Diane Adamec	January, 2006	December, 2009	Former P & G Manager
Dr. Vicki Hirsch	January, 2004	December, 2007	Retired Teacher
Mary Overman	January, 2002	December, 2009	Retired Teacher
J. Kenneth Richter	January, 2004	December, 2007	Retired Executive
Jean Staubach	January, 1998	December, 2009	Technical Writer

The Superintendent is the chief executive officer of the District, responsible directly to the Board for all educational and support operations. Dr. Karen Mantia was appointed Superintendent in September 2000, after serving the Northmont (Ohio) City Schools for twenty-four years. Dr. Mantia was a classroom teacher, assistant principal and director of curriculum there, prior to spending the last eight years of her tenure as assistant superintendent. She received undergraduate and master's degrees in education from Wright State University and a doctorate from the University of Sarasota. Dr. Mantia retired effective July 31, 2006.

As of August 1, 2006, the Superintendent is Dr. Adrienne James. Dr. James has dedicated 22 years of her career to the Sycamore Community Schools. After teaching 8 years, she served as Assistant Principal at Blue Ash Elementary and was promoted to Principal in 1992. She became Assistant Superintendent to Sycamore Community Schools in 2004. She received her undergraduate degree from Wittenberg University, her masters degree from Xavier University and her doctorate from the University of Cincinnati.

The Treasurer of the District is Beth Weber. Ms. Weber joined the Sycamore administrative team in January 1999, bringing with her eight years of experience as a public school treasurer in Ohio. She received undergraduate degrees in finance and business economics, as well as a Masters in Business Administration, from Miami University in Oxford, Ohio. Ms. Weber is a member of the Ohio Association of Business Officials.

EMPLOYEE RELATIONS

In 2005-06 the District employed 463 certified personnel and 328 non-certified personnel. The starting salary for a teacher with a bachelor's degree for the period beginning September 1, 2006 will be \$37,027. The maximum teacher salary in 2006-2007 will be \$85,075.

The Sycamore Education Association (SEA), an affiliate of the Ohio Education Association (OEA), represents certificated employees of the District. The District and the SEA have entered into a collective bargaining agreement that expires July 31, 2008.

Classified employees are represented by the Ohio Association of Public School Employees. The District and OAPSE entered into a three-year collective bargaining agreement which expires June 30, 2007.

SERVICES PROVIDED

The District provides a wide variety of educational and support services, as mandated by the Ohio Revised Code or board directives.

The food service department served 374,299 plate lunches through the District's seven kitchens. This is accomplished through the full operation of three kitchens and four satellite sites. The District currently offers a breakfast program at all seven sites serving 28,021 breakfast in 2006.

In addition to transportation and school lunch support services, students in the District also receive guidance, psychological, and limited health services free of charge. The guidance services are designed to help students match their natural skills with vocational and/or academic programs to help them achieve their full potential in life. Psychological services include the testing and identification of students for special education and gifted programs. Health services are provided by licensed nurses at each of the seven school sites.

The District offers regular instructional programs daily to students in grades K-12. Over 582 students receive special services, due to physical or mental handicapping conditions. Gifted services are provided in grades three and four in the area of math and in grades five and six in the areas of math and language arts. Advanced placement classes are provided at the high school in the areas of English, Math, Science, Social Studies, Art, Global Languages, and Computer Science. The District presented 470 high school diplomas in June, 2006.

CURRENT INITIATIVES

Stadium Renovation- A Sycamore Community Effort

On September 22, 2006 the Sycamore community dedicated the newly renovated Sycamore Alumni Stadium and Bud Acus Field. The renovation included the installation of an artificial turf field, along with improvements to locker rooms, press box, concession area, and entrance area. Improvements were made to meet accessibility requirements. The project was funded in part by a community effort by the Athletic Boosters, supporting \$550,000 of the cost.

Refund of 1998 Bond Issue – Moody's Aaa Bond Rating

The district recently took advantage of lower interest rates to advance refund debt approved in 1998 to renovate and build facilities. By doing so, taxpayers will save \$1.2 million over the remaining 17 year term of the bonds. The new bond issue was rated Aaa, the highest rating possible, by Moody's Investors Services based on the district's strong financial practices, diverse and affluent tax base and modest amount of debt. The district is one of four school districts in Ohio to receive this top rating.

Implementation of Read 180

The district completed the implementation of the Read 180 Intervention Program. This intervention program is designed for students requiring reading intervention and has been implemented in grades seven through nine. It includes a technology component and direct instruction from the teaching staff delivering intervention

Implementation of New Science Materials

The district reviewed and purchased new science materials for grades kindergarten through four. These materials were reviewed for alignment to state indicators and units of study. Potential materials were reviewed by classroom teachers and, based on recommendations, Harcourt was chosen as the company to supply the materials. Elementary teaching staff received training with the new materials and are currently using these materials in their science instruction.

Junior High Science Technology

New technology and software was purchased for the Sycamore Junior High School Science Department. This technology infusion was designed to align with science textbooks in grades seven and eight.

Drama and Theatre Course Additions

In response to the increase in student interest in drama and theatre opportunities, Sycamore High School added several new theatre classes. Three new acting classes were added including a technical theatre class.

Wellness Policy

The district fulfilled its requirement to comply with the The Child Nutrition and WIC Reauthorization Act of 2004 by completing a district Wellness Policy in June, 2006. The policy includes goals for nutrition education, physical activity and other activities to promote student wellness, guidelines for foods offered on each school campus and a plan for monitoring policy implementation.

FUTURE INITIATIVES

Standards Based Training

The district has engaged kindergarten through twelfth grade language arts and math teachers in intensive training designed to create curriculum maps and common authentic assessments for students. The district contracted with Searle Enterprises to conduct the initial training for staff meeting in departments or grade levels. The Hamilton County Education Service Center will follow this training with sessions continuing on authentic assessments including differentiation of instruction. Teachers are provided release time to interact with consultants providing training.

Biotech Proposal

Sycamore HS has developed a proposal in collaboration with Greater Cincinnati Tech Prep Consortium to offer a Biotech Class. This class would be offered to juniors and seniors beginning in the 2007 – 08 school year. This offering would allow students interested in science to earn dual credit at Sycamore High School and through the University of Cincinnati. During the second year of the program, seniors would have opportunities to co-op with a biotech company.

Adoption of Mathletics Program

The district is implementing the **Mathletics** intervention program at Greene Intermediate School. This researched - based program is designed for students in grades five and six who require extra assistance in math. Supplemental materials were reviewed by intervention teachers. These materials will be used by intervention teachers with students two to three times per week.

Adoption of Read About Program

The district is implementing the **Read About** reading intervention program at Greene Intermediate School. This researched – based program is designed to provide intervention to students in grades five and six. A technology component, along with supplemental materials, will provide intervention teachers at Greene Intermediate School the opportunity to provide effective reading intervention to students two to three times per week.

Curriculum Revision

Curriculum revisions are underway in the areas of fine arts and global language. In fine arts department which includes art, music and industrial technology, teacher – led committees are aligning current courses of study with Ohio Content Standards and grade level indicators. In global language, curriculum is being aligned while materials are being reviewed. Recommendations will be offered on textbook purchases and supplemental materials.

New Elementary Report Card

A committee of teachers reviewed and redesigned the elementary report card for the 2006 - 07 school - year. The format of this report card is in alignment with state indicators and is consistent with the report cards for grades five through twelve. This report card will be issued to parents in the current school year.

Implementation of the SRA Reading Program

Scholastic Reading Achievement (SRA) is an intervention program designed for students with the most intense needs, typically those identified with disabilities. A committee of teachers reviewed the latest research on effective reading intervention programs and recommended SRA. Training was given to teachers on the implementation of this program. All intervention and special education teachers are implementing this program throughout the 2006 – 07 school year.

FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from generally accepted accounting principles [GAAP] as promulgated by the Governmental Accounting Standards Board [GASB].

INTERNAL ACCOUNTING AND BUDGETARY CONTROL

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statement in conformity with GAAP. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that: (1) the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts a temporary appropriation measure. The Board then adopts a permanent appropriation measure in September.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds and functions require appropriation authority from the Board. Budgets are controlled at the function level within a fund. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District allows on-line immediate financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. The financial statements are available to each approved District user and budget authority.

As an additional safeguard, all employees involved with receiving and depositing funds are covered by a blanket bond and certain individuals in policy-making roles are covered by a separate, higher bond.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the general purpose financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the general purpose financial statements.

FINANCIAL CONDITION

This is the third year the District has prepared financial statements following GASB Statement 34, "Basic Financial Statements - and Management's Discussion and Analysis -- for State and Local Governments." GASB 34 creates new basic financial statements for reporting on the School District's financial activities as follows:

Government-wide financial statements These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements of the District present governmental activities.

Fund financial statements These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Management's Discussion and Analysis of the District, which follows this letter of transmittal, providing an assessment of the District's finances for 2006 and the outlook for the future.

CASH MANAGEMENT

Begun in fiscal year 1991, the District's cash management program addresses the issue of safety, liquidity, and yield while maximizing returns. The District uses the Star Ohio program investment pool operated by the Treasurer of State for ready cash and yield. Certificates of deposit and obligations of the United States Treasury are utilized for both short and intermediate terms. Treasury notes, treasury bills and agency notes are utilized for longer-term investments. Investment earnings for all funds during the fiscal year were \$1,744,396.

The District's investment policy is to minimize market risk while maintaining a competitive yield on its portfolio. Accordingly, deposits were either insured by FDIC or collateralized. By law, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

RISK MANAGEMENT

The District constantly faces the risk of loss of assets by fire, storm, theft, accident or other catastrophes. Generally, the District shifts the burden of such losses by entering into a casualty insurance contract whereby an insurance company, in consideration of a premium payment, assumes the risk of all or a portion of these losses. During fiscal year 2006, the District contracted with Indiana Insurance for general liability, property, boiler and machinery insurance.

The District maintains an umbrella liability policy with limits of \$10,000,000 each occurrence, \$10,000,000 aggregate.

Boiler and machinery coverage has a \$1,000 deductible with a \$50,000,000 limit of liability per accident. School leader's errors and omissions liability is protected by Indiana Insurance Company with a \$1,000,000 each occurrence, \$1,000,000 aggregate limit.

Vehicles are covered by Indiana Insurance Company with a \$500 deductible for comprehensive and a \$500 deductible for collision.

Public officials' bond insurance is provided by Backus Insurance Company. The Treasurer, Superintendent and Board President are covered by bonds in the amounts \$100,000, \$25,000, and \$25,000 respectively. Honesty Blanket Position Coverage is \$15,000 per employee.

Employee health insurance is provided by Humana/Choice Care, a preferred provider organization.

INDEPENDENT AUDIT

Provisions of State statute require that the District's financial statements be subjected to an annual examination by an independent auditor. The Clark, Schaefer, Hackett and Co.'s unqualified opinion rendered on the District's basic financial statements, combining statements and individual fund schedules, is included in the financial section of this Comprehensive Annual Financial Report. Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio: The District adopted and has been in conformance with that system.

AWARDS

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada [GFOA] awarded a Certificate of Achievement to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2005. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

ASBO Certificate

The Association of School Business Officials International [ASBO] awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. The award is granted only after an intensive review of the financial report by all expert panel of certified public accountants and practicing school business officials.

The District received the Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2005. The District believes that the Comprehensive Annual Financial Report for fiscal year June 30, 2006, which will be submitted to ASBO for review, will conform to ASBO's principles and standards.

ACKNOWLEDGEMENTS

The preparation of the 2006 Comprehensive Annual Financial Report of the Sycamore Community School District was made possible by the dedicated service of Carolyn Huber, Tina Triplett, Rita Clark, Patti Gardner, and Lisa Myers. Special recognition is given to Plattenburg and Associates, Incorporated, Certified Public Accountants for their assistance in the preparation of the CAFR, and Clark, Schaefer, Hackett and Co. for their audit of the CAFR. Finally, this report would not have been possible without the leadership and support of the District's Board of Education and the Sycamore Schools community.

The publication of this Comprehensive Annual Financial Report for the District is a major step in reinforcing the accountability of the District to the taxpayers of the community.

Respectfully submitted,

Beth A. Weber, Treasurer Dr. Adrienne James, Superintendent THIS PAGE INTENTIONALLY LEFT BLANK

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

To the Board of Education Sycamore Community School District, Ohio:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sycamore Community School District, Ohio (the School District), as of and for the year ended June 30, 2006, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 18, the School District implemented Governmental Accounting Standards Board (GASB) Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets for Insurance Recoveries, GASB Statement No. 44, Economic Condition Reporting: The Statistical Section, and GASB Statement No. 46, Net Assets Restricted by Enabling Legislation, and GASB Statement No. 47, Accounting for Termination Benefits, as of July 1, 2005.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2006, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the budgetary comparison information on pages 3 through 11 and 46 through 48, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Clark, Schafer, Harhett & Co.

Cincinnati, Ohio November 10, 2006

SYCAMORE COMMUNITY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2006

(Unaudited)

The discussion and analysis of Sycamore Community School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2006. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2006 are as follows:

- In total, net assets increased \$4,786,567.
- General revenues accounted for \$76,290,825 in revenue or 91.9% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$6,739,901 or 8.1% of total revenues of \$83,030,726.
- Total assets of governmental activities increased by \$1,897,233 as taxes receivable decreased by \$2,021,714, cash and other receivables increased by \$6,618,244 and net capital assets decreased by \$2,689,217.
- The District had \$78,244,159 in expenses related to governmental activities; \$6,739,901 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$76,290,825 were also used to provide for these programs.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statements of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

Government-wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did we do financially during 2006?" The Government-wide Financial Statements answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the District presents:

 Governmental Activities – The District's programs and services are reported here and include instruction, support services, operation of non-instructional services, extracurricular activities and interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

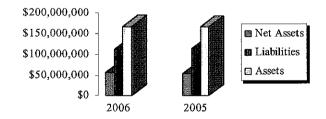

The District as a Whole

Recall that the Statement of Net Assets provides the perspective of the District as a whole.

Table 1 provides a summary of the District's net assets for 2006 compared to 2005:

Table 1 Net Assets

	Governmental Activities		
	2006	2005	
Assets	-		
Current Assets	\$98,772,221	\$94,185,771	
Capital Assets	67,949,481	70,638,698	
Total Assets	166,721,702	164,824,469	
Liabilities			
Long-Term Liabilities	61,589,485	63,121,325	
Other Liabilities	47,723,027	49,080,521	
Total Liabilities	109,312,512	112,201,846	
Net Assets			
Invested in Capital			
Assets Net of Debt	16,081,022	16,556,171	
Restricted	9,339,148	8,382,540	
Unrestricted	31,989,020	27,683,912	
Total Net Assets	\$57,409,190	\$52,622,623	

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2006, the District's assets exceeded liabilities by \$57,409,190.

At year-end, capital assets represented 40.8% of total assets. Capital assets include land, land improvements, buildings, building improvements, equipment and vehicles and construction in progress. Capital assets, net of related debt to acquire the assets at June 30, 2006, was \$16,081,022. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

The balance of unrestricted net assets of \$31,989,020 may be used to meet the District's ongoing obligations to the students and creditors.

Table 2 shows the change in net assets for fiscal years 2006 and 2005.

Table 2 Changes in Net Assets

	Governmental Activities		
	2006	2005	
Revenues	·		
Program Revenues:			
Charges for Services	\$2,875,150	\$2,351,038	
Operating Grants	3,782,734	3,720,400	
Capital Grants	82,017	82,754	
General Revenue:			
Property Taxes	64,784,779	65,778,621	
Grants and Entitlements	9,549,751	9,799,439	
Other	1,956,295	927,745	
Total Revenues	83,030,726	82,659,997	
Program Expenses:			
Instruction	41,539,716	42,719,293	
Support Services:			
Pupil and Instructional Staff	9,438,145	9,421,914	
General and School Administrative,			
Fiscal and Business	6,744,589	6,862,475	
Operations and Maintenance	7,121,363	6,637,819	
Pupil Transportation	4,348,607	4,159,013	
Central	1,585,924	1,719,113	
Operation of Non-Instructional Services	3,450,435	3,729,322	
Extracurricular Activities	1,483,494	1,587,425	
Interest and Fiscal Charges	2,531,886	2,623,709	
Total Expenses	78,244,159	79,460,083	
Change in Net Assets	4,786,567	3,199,914	
Beginning Net Assets	52,622,623	49,422,709	
Ending Net Assets	\$57,409,190	\$52,622,623	

The District revenues came from mainly two sources. Property taxes levied for general purposes, Debt Service and grants and entitlements comprised 89.5% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 78.03% of revenue for governmental activities for Sycamore Community School District in fiscal year 2006. The District's reliance upon tax revenues is demonstrated in the following graph:

		Percent
Revenue Sources	2006	of Total
General Grants	\$9,549,751	11.50%
Program Revenues	6,739,901	8.12%
General Tax Revenues	64,784,779	78.03%
Investment Earnings	1,744,396	2.10%
Other Revenues	211,899	0.25%
	\$83,030,726	100.00%
	•	

Instruction comprises 53% of governmental program expenses. Support services expenses were 37% of governmental program expenses. All other expenses including interest expense were 10%. Interest expense was attributable to the outstanding bond and borrowing for capital projects.

Tax revenues remained consistent with the prior year. Supporting services expenses decreased due to cost cutting measures taken by the District.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

	Total Cost	of Services	Net Cost of	f Services
	2006	2005	2006	2005
Instruction	\$41,539,716	\$42,719,293	(\$39,972,731)	(\$41,534,990)
Support Services:				
Pupil and Instructional Staff	9,438,145	9,421,914	(8,437,036)	(8,371,142)
General and School Administrative,				
Fiscal and Business	6,744,589	6,862,475	(6,710,442)	(6,828,469)

Pupil Transportation	4,348,607	4,159,013	(4,316,590)	(4,159,013)
Central	1,585,924	1,719,113	(1,487,825)	(1,619,390)
Operation of Non-Instructional Services	3,450,435	3,729,322	(48,327)	(327,984)
Extracurricular Activities	1,483,494	1,587,425	(909,759)	(1,222,834)
Interest and Fiscal Charges	2,531,886	2,623,709	(2,531,886)	(2,623,709)
Total Expenses	\$78,244,159	\$79,460,083	(\$71,504,258)	(\$73,305,891)

The District's Funds

The District has one major governmental fund: the General Fund. Assets of this fund comprised \$87,285,014 (88%) of the total \$98,784,358 governmental funds assets.

General Fund: Fund balance at June 30, 2006 was \$38,430,120 including \$15,785,848 of unreserved balance, which represents 23% of expenditures for fiscal year 2006. Fund balances of the General Fund increased \$4,962,051 during the year.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal 2006, the District amended its general fund budget numerous times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, budget basis revenue was \$73,177,705, compared to original budget estimates of \$71,160,298. Of the \$2,017,407 difference, most was due to a conservative estimate for taxes and intergovernmental revenue.

The District's ending unobligated actual fund balance for the General Fund was \$1,730,609 above the final budgeted amount.

Capital Assets and Debt Administration

Capital Assets

At fiscal year end, the District had \$67,949,481 invested in land, buildings and equipment. Table 4 shows fiscal 2006 balances compared to fiscal 2005:

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities		
	2006	2005	
			
Land	\$1,602,371	\$1,602,371	
Land Improvements	1,915,344	2,052,244	
Buildings	24,351,308	25,106,924	
Buildings and Improvements	38,129,482	39,753,683	
Equipment and Vehicles	1,831,116	2,052,845	
Construction in Progress	119,860	70,631	
Total Net Capital Assets	\$67,949,481	\$70,638,698	

Overall, capital assets decreased due to depreciation expense being greater than new purchases less the deletions for the year.

See Note 7 to the Basic Financial Statements for further details on the District's capital assets.

Debt

At fiscal year end, the District had \$52,848,599 in bonds and capital leases payable, \$2,470,000 due within one year. Table 5 summarizes bonds and capital leases outstanding at year end.

Table 5
Outstanding Debt, at Year End

	Governmental Activities		
	2006	2005	
General Obligation Bonds:			
Symmes Refunding	\$688,599	\$1,058,599	
Bond Issue I	3,070,000	3,160,000	
Bond Issue II	26,405,000	27,255,000	
Bond Issue III	7,610,000	7,895,000	
Stadium Renovation Bonds	1,100,000	0	
Subtotal Bonds	38,873,599	39,368,599	
Capital Lease Payable:			
Sycamore High School	9,075,000	9,535,000	
Blue Ash Elementary	4,900,000	5,050,000	
Phone System	0	128,928	
Subtotal Capital Leases Payable	13,975,000	14,713,928	
Total Outstanding Debt at Year End	\$52,848,599	\$54,082,527	

In 1998 the District passed a 2.39 mill bond issue, providing \$45 million for two new elementary buildings along with facility improvements at the other elementary schools, and the intermediate, junior high and high schools. The District maintains an AA+ bond rating from Standard and Poor's.

See Note 8 to the Basic Financial Statements for further details on the District's outstanding debt.

For the Future

A challenge facing the School District is the future of state funds. On December 11, 2002, the Ohio Supreme Court found the state's school funding system unconstitutional but declined to retain jurisdiction of the matter meaning the decision included no timeline for compliance or accountability for lack of compliance. The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and on its financial operations.

In June of 2005, the State legislature passed House Bill 66. House Bill 66 phases out the tax on tangible personal property of general business, telephone, and telecommunications companies, and railroads. The tax on general business and railroad property began being phased out in 2006 and will be eliminated by 2009. The tax on telephone and telecommunication property will begin being phased out in 2009 and will be eliminated by 2011. The tax is being phased out by reducing the assessment rate on the property each year. In the first five years, school districts are being reimbursed fully for the lost revenue; in the following seven years, the reimbursements are phased out.

This scenario requires management to plan carefully and prudently to provide the resources to meet student needs over the next several years.

All of the District's financial abilities will be needed to meet the challenges of the future. With careful planning and monitoring of the District's finances, the District's management is confident that the District can continue to provide a quality education for our students and provide a secure financial future.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Beth Weber, Treasurer at Sycamore Community School District, 4881 Cooper Road, Cincinnati, Ohio 45242.

Sycamore Community School District, Ohio Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2006

Net Change in Fund Balance - Total Governmental Funds	\$5,773,352
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.	
Capital assets used in governmental activities 678,342 Depreciation Expense (3,363,078)	(2,684,736)
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the amount of the difference between the proceeds and the gain or loss.	(4,481)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Interest 220,466	
Intergovernmental 34,797	
	255,263
Repayment of bond and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term	
liabilities in the statement of net assets.	2,333,928
In the statement of activities interest expense is accrued when incurred, whereas in governmental funds an interest expenditure is reported when due.	7,450
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Compensated Absences 205,791	
	205,791
Proceeds from debt issues are an other financing source in the funds, but a debt issue increases long-term liabilities in the statement of net assets.	(1,100,000)
Change in Net Assets of Governmental Activities	\$4,786,567
See accompanying notes to the basic financial statements.

SYCAMORE COMMUNITY SCHOOL DISTRICT NOTES TO BASIC FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2006

1. DESCRIPTION OF THE DISTRICT

The District was chartered by the Ohio State Legislature in 1949. In 1863 State laws were enacted to create the local Boards of Education. Today, the Sycamore Community School District ("District") operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 199.01 of the Ohio Revised Code.

The District operates under a locally elected five-member Board form of government and provides educational services as authorized by its charter or further mandated by state and/or federal agencies. This Board controls the District's instructional and support facilities staffed by 328 non-certified personnel and 463 certificated personnel to provide services to students and other community members.

The District is the 6th largest in Hamilton County in terms of enrollment. It currently operates 4 elementary schools, 1 intermediate school (grades 5-6), 1 junior high school (grades 7-8), and 1 high school (grades 9-12).

REPORTING ENTITY

In accordance with Governmental Accounting Standards Board [GASB] Statement 14, the financial reporting entity consists of a primary government. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, pupil transportation, food service, and maintenance of District facilities.

The District is associated with two organizations that are defined as jointly governed organizations. These organizations include Hamilton/Clermont Cooperative Association and Great Oaks Institute of Technology and Development. These organizations are presented in Note 15.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

MEASUREMENT FOCUS

Government-wide Financial Statements

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements which provide a more detailed level of financial information.

The government-wide statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the statement of net assets. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. The District allocates certain indirect costs. The indirect costs are included as part of the program expense reported for individual functions and activities. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Fiduciary Funds are reported using the economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e. revenues) and decreases (i.e. expenses) in net total assets.

FUND ACCOUNTING

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only fiduciary funds are a private purpose trust which accounts for scholarship programs for students, and an agency fund which accounts for student managed activities.

3. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and interest.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2006, but which were levied to finance fiscal year 2007 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

Unearned Revenue

Unearned revenue represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

CASH AND CASH EQUIVALENTS

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2006. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company but does operate in a manner consistent with Rule2A7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2006.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue during fiscal year 2006 credited to the General Fund amounted to \$1,480,020.

INVENTORY

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of food held for resale and consumable supplies.

CAPITAL ASSETS

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of two thousand dollars (\$2,000). The District does not possess any infrastructure. Improvements that add to the value of an asset or materially extend an asset's life are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated, except land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

	Governmental
	Activities
<u>Description</u>	Estimated Lives
Land Improvements	20 years
Buildings	45 years
Building Improvements	20 years
Equipment and Vehicles	5 - 20 years

RESTRICTED ASSETS

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other government or imposed by enabling legislation. Restricted assets include the amount required by state statute to be set aside to create a reserve for textbooks and instructional material.

COMPENSATED ABSENCES

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount due to the employee at year end. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. Compensated absences are reported in governmental funds only if they have matured.

The District's policies regarding compensated absences are determined by the state laws and/or negotiated agreements. In summary, the policies are as follows:

Vacation How Earned	<u>Certified</u> Not Eligible	Administrators 25-30 days per year or 2.08-2.50 per month	Non-Certificated 10-25 days for each service year depending on length of service
Maximum Accumulation	Not Applicable	30 days Payoff up to 10 days/yr. unused earned	Double the max accumulated
Vested	Not Applicable	As Earned	As Earned
Termination Entitlement	Not Applicable	Paid upon termination	Paid upon termination
Sick Leave How Earned	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)
Maximum Accumulation	325 days	325 days	325 days
Vested	As Earned	As Earned	As Earned
Termination Entitlement	1/3 paid upon retirement	1/3 paid upon retirement	1/3 paid upon retirement

NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

FUND BALANCE RESERVES AND DESIGNATIONS

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for property tax advances, set-asides, inventory and encumbrances.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for set-aside represents monies required to be set aside by State statute to protect against cyclical changes in revenues and expenditures.

INTERFUND ACTIVITY

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

INTERFUND ASSETS/LIABILITIES

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables". These amounts are eliminated on the governmental activities columns of the statement of net assets.

4. CASH AND CASH EQUIVALENTS

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the statement of net assets and balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

<u>Active Monies</u> - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

<u>Inactive Monies</u> – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

<u>Interim Monies</u> – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.

- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds, and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.
- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and amended by GASB Statement 40, "Deposit and Investment Risk Disclosures".

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of June 30, 2006, \$303,080 of the District's bank balance of \$405,545 was exposed to custodial risk.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

Investments

As of June 30, 2006, the District had the following investments:

		weigned Average
Investment Type	Fair Value	Maturity (Years)
Federal Home Loan Bank	\$6,439,494	1.06
Federal Home Loan Mortgage	6,681,477	0.44
Federal National Mortgage Association	11,231,158	0.69
Money Market Accounts	9,873,644	0.00
Repurchase Agreement	130,625	0.00
STAR Ohio	<u>1,066,272</u>	0.00
Total Fair Value	<u>\$35,422,670</u>	
Portfolio Weighted Average Maturity		0.49

Wainhad Arrarago

Interest rate risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The District's investments in Federal Agencies and in the Money Market Funds were rated AAA by Standard & Poor's and Fitch Ratings and Aaa by Moody's Investors Service. Investments in STAR Ohio were rated AAA by Standard & Poor's. The repurchase agreement was not rated.

Concentration of credit risk – The District's investment policy requires investments to be diversified to reduce the risk of loss. The District's policy allows investments in Federal Agencies or Instrumentalities. The District has invested more than 68 percent of the District's investments in the Federal Home Loan Bank (18%), the Federal Home Loan Mortgage (19%), and the Federal National Mortgage Association (31%).

Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

5. PROPERTY TAXES

Real property taxes collected in 2006 were levied in April on the assessed values as of January 1, 2005, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. A re-evaluation of real property is required to be completed no less than every six years, with a statistical update ever third year.

Tangible personal property tax is assessed on equipment and inventory held by businesses. Tangible property is assessed at 25 percent of true value (as defined). Each business was eligible to receive a \$10,000 exemption in assessed value which was reimbursed by the State.

The tangible personal property tax will phase out over a four-year period starting with tax year 2006 and ending with no tax due in 2009. This phase-out applies to most businesses and includes furniture and fixtures, machinery and equipment and inventory. New manufacturing machinery and equipment first reportable on the 2006 and subsequent year returns is not subject to the personal property tax.

Real property taxes are payable annually or semi-annually. In 2006, if paid annually, payment was due by January 20th. If paid semi-annually, the first payment (at least 1/2 amount billed) was due January 20th with the remainder due on June 20th.

The Hamilton County Auditor remits portions of the taxes collected to all taxing districts with periodic settlements of real and public utility property taxes in February and August and tangible personal property taxes in June and October. The District records billed but uncollected property taxes as receivables at their estimated net realizable value.

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable at June 30, 2006 and for which there is an enforceable legal claim. Delinquent property taxes collected within 60 days are included as a receivable and tax revenue as of June 30, 2006. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is, therefore, offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2006, was \$21,800,000 for General Fund and \$1,100,000 for Debt Service, and is recognized as revenue, with a corresponding reserve to fund balance since the Board did not appropriate these receivables for fiscal year 2006 operations.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2006 taxes were collected are:

	<u>Amount</u>
Agricultural/Residential	
and Other Real Estate	\$1,560,704,740
Public Utility Personal	34,485,600
Tangible Personal Property	133,260,952
Total	\$1,728,451,292

6. RECEIVABLES

Receivables at June 30, 2006, consisted of taxes, accounts, intergovernmental, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

7. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2006, was as follows:

	Beginning			Ending
	Balance	Additions	Deletions	Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$1,602,371	\$0	\$0	\$1,602,371
Construction in Progress	70,631	276,055	226,826	119,860
Capital Assets, being depreciated:				
Land Improvements	3,210,597	0	0	3,210,597
Buildings	35,601,222	0	0	35,601,222
Building Improvements	45,806,109	226,826	0	46,032,935
Equipment and Vehicles	9,558,168	402,287	589,255	9,371,200
Totals at Historical Cost	\$95,849,098	\$905,168	\$816,081	\$95,938,185
Less Accumulated Depreciation:				
Land Improvements	1,158,353	136,900	0	1,295,253
Buildings	10,494,298	755,616	0	11,249,914
Building Improvements	6,052,426	1,851,027	0	7,903,453
Equipment and Vehicles	7,505,323	619,535	584,774	7,540,084
Total Accumulated Depreciation	25,210,400	3,363,078	584,774	27,988,704
Governmental Activities Capital Assets, Net	\$70,638,698		•	\$67,949,481

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$2,375,517
Special	104,667
Support Services:	
Pupil	1,516
Instructional Staff	2,376
School Administration	134,889
Fiscal	3,113
Business	210
Operations and Maintenance	187,343
Pupil Transportation	260,001
Central	165,780
Operation of Non-Instructional Services	60,187
Extracurricular Activities	67,479
Total Depreciation Expense	\$3,363,078

8. LONG-TERM LIABILITIES

		Beginning			Ending	
	Maturity	Principal			Principal	Due In
	Date	Balance	Additions	Deductions	Balance	One Year
Governmental Activities:			-			
General Obligation Bonds:						
Symmes Refunding						
1998 4.60%	12/01/09	\$1,058,599	\$0	\$370,000	\$688,599	\$365,000
Bond Issue I						
1998 3.25%	12/01/23	3,160,000	0	90,000	3,070,000	100,000
Bond Issue II						
1998 3.00%	12/01/23	27,255,000	0	850,000	26,405,000	895,000
Bond Issue III						
1998 3.40%	12/01/23	7,895,000	0	285,000	7,610,000	295,000
Stadium Renovation Bonds						
2006 4.00%	12/01/11	0	1,100,000	0	1,100,000	180,000
Total General Obligation Bonds		39,368,599	1,100,000	1,595,000	38,873,599	1,835,000
Capital Lease		14,713,928	0	738,928	13,975,000	635,000
Total Long Term Debt		54,082,527	1,100,000	2,333,928	52,848,599	2,470,000
Compensated Absences		9,038,798	1,256,011	1,553,923	8,740,886	1,394,851
Total Governmental Activities						
Long-Term Liabilities		\$63,121,325	\$2,356,011	\$3,887,851	\$61,589,485	\$3,864,851

General obligation bonds will be paid from the debt service fund. Compensated absences will be paid from the general fund and special revenue funds. Capital lease obligations will be paid from the general fund.

The District's Board of Education approved an Early Retirement Incentive program. Participation is open to employees who are at least fifty years of age, qualify for retirement with years purchased by the Board, and agree to retire within ninety days after notification that credit has been purchased. The credit may not exceed the lessor of two years or one-fifth of each member's total Ohio teaching service. The Board of Education limits the number of employees participating in the plan in any one year. The Board of Education has the option of paying the liability in its entirety or in installments. The year-end liability will be paid from the fund from which the person is paid.

Principal and interest requirements to retire general obligation debt outstanding at year end are as follows:

Fiscal Year	Ge	eneral Obligaton Bon	ds
Ending June 30	Principal	Interest	Total
2007	\$1,835,000	\$1,852,253	\$3,687,253
2008	1,648,247	2,014,175	3,662,422
2009	1,698,922	1,948,069	3,646,991
2010	1,751,430	1,860,090	3,611,520
2011	1,745,000	1,569,740	3,314,740
2012-2016	9,565,000	6,414,548	15,979,548
2017-2021	12,195,000	3,694,999	15,889,999
2022-2024	8,435,000	633,375	9,068,375
Total	\$38,873,599	\$19,987,249	\$58,860,848

9. LEASES

CAPITAL LEASES

The District is leasing a site from the University of Cincinnati and is leasing the land to PS&W Holding Company. PS&W Holding Company has constructed a building and has assigned the land and building to US Bank, which is leasing the building to the District. US Bank, sold certificates of participation in the building lease. The District will make repayment every six months to US Bank. Interest rates range between 3.250% and 5.125%. The lease is renewable annually and expires in 2025. The intention of the District is to renew the lease annually.

The leases for Sycamore High School and Blue Ash Elementary meet the criteria of capital lease as defined by statement of Financial Accounting Standards No. 13 "Accounting for Leases", which defines a capital lease generally as one that transfers benefits and risks of ownership to the lessee. Capital lease payments for the high school and elementary school will be made from the General fund. The gross amount of assets acquired under capital leases is \$20,061,123 in buildings.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of fiscal year end.

Fiscal Year Ending June 30.	Long-Term <u>Debt</u>
2007	\$1,271,235
2008	1,274,775
2009	1,271,565
2010	1,271,545
2011	1,269,461
Thereafter	13,678,898
Total Minimum Lease Payments	20,037,479
Less: Amount Representing Interest	(6,062,479)
Present Value of Minimum Lease Payments	<u>\$13,975,000</u>

OPERATING LEASES

As described in the capital lease footnote above, the District has one operating lease involving the lease of School District land to PS&W Holding Company for \$1 per year.

10. PENSION PLANS

SCHOOL EMPLOYEES RETIREMENT SYSTEM

The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476.

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2006, 2005, and 2004 were \$1,591,188, \$1,647,072, and \$1,607,196, respectively; 52.2% has been contributed for fiscal year 2006 and 100% for fiscal year 2005 and 2004.

STATE TEACHERS RETIREMENT SYSTEM

The School District participates in State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 East Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB Plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the This option expired on December 31, 2001. Benefits are established by Combined Plan. Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2005, plan members were required to contribute 10% of their annual covered salaries. The School District was required to contribute 14%; 13% was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for members and employer contributions.

The School District's required contributions for pension obligations for the fiscal years ended June 30, 2006, 2005, and 2004 were \$4,757,964, \$4,998,900, and \$5,112,072, respectively; 83.9% has been contributed for fiscal year 2006 and 100% for fiscal year 2005 and 2004.

11. POST EMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits included hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provision and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

For STRS, all benefit recipients are required to pay a portion of health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. The Board currently allocates employer contributions equal to 1% of covered payroll to the Health Care Reserve Fund for which payments for health care benefits are paid. For the District, this amount equaled \$339,855 during the 2006 fiscal year. As of June 30, 2005, eligible benefit recipients totaled 115,395. For the fiscal year ended June 30, 2005, net health care costs paid by STRS were \$254,780,000.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based upon years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply.

For 2005 fiscal year, employer contributions to fund health care benefits were 3.43% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2005, the minimum pay has been established at \$27,400. The surcharge rate added to the unallocated portion of the 14% employer contribution rate provides for maintenance of the asset target level for the health care fund. The target level for the health care fund is 150 percent of the projected claims less premium contributions for the next fiscal year. For the District, this amount equaled \$151,212 during the 2006 fiscal year. The number of participants currently receiving health care benefits is approximately 58,123. For the fiscal year ended June 30, 2005, net health care costs paid by SERS were \$178,221,113.

12. CONTINGENT LIABILITIES

GRANTS

The District receives financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District as of June 30, 2006.

LITIGATION

The District's attorney estimates that all other potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

13. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2006, the District contracted with Indiana Insurance Company for general liability, property, boiler and machinery insurance.

The District maintains an umbrella liability policy with limits of \$10,000,000 each occurrence, \$10,000,000 aggregate.

Boiler and machinery coverage has a \$2,500 deductible with a \$50,000,000 limit of liability per accident. School leaders errors and omissions liability is protected by Indiana Insurance Company with a \$1,000,000 each occurrence, \$1,000,000 aggregate limit.

Vehicles are covered by Indiana Insurance Company with a \$500 deductible for comprehensive and a \$500 deductible for collision.

Public officials bond insurance is provided by Backus Insurance Company. The Treasurer, Superintendent and Board President are covered by bonds in the amounts \$100,000, \$50,000 and \$50,000 respectively. Honesty Blanket Position Coverage is \$25,000 per employee.

The amounts of settlements did not exceed insurance coverage for any of the past three fiscal years.

For fiscal year 2006 the District provided employee medical/surgical benefits through Humana/Choice Care, a Cincinnati based health maintenance organization.

14. JOINTLY GOVERNED ORGANIZATIONS

Great Oaks Institute of Technology and Career Development - The Great Oaks Joint Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative each of the participating school districts' elected board. The Vocational School possesses its own budgeting and taxing authority. To obtain financial information write to the Great Oaks Joint Vocational School, John Wahle, who serves as Treasurer, at 3254 East Kemper Road, Cincinnati, Ohio 45241.

Hamilton/Clermont Cooperative Association - The School District is a participant in the Hamilton/Clermont Cooperative Association (H/CCA) which is a computer consortium. H/CCA is an association of 31 public school districts within the boundaries of Hamilton and Clermont Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of H/CCA consists of the superintendents and/or treasurers of the participating members. H/CCA is not accumulating significant financial resources nor is it experiencing fiscal stress that may cause an additional financial benefit to or burden on members in the future. Financial information can be obtained from the H/CCA, Al Porter, Director, at 7615 Harrison Avenue, Cincinnati, Ohio 45231-3107.

15. FUND BALANCE RESERVES FOR SET-ASIDES

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

For fiscal year ended June 30, 2006, the School District was no longer required to set aside funds in the budget reserve set-aside, with the exception of refund monies received from the Bureau of Workers' Compensation, which must be spent for specified purposes.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

		Capital	Budget
	<u>Textbooks</u>	Acquisition	Stabilization
Set-aside Reserve Balance as of June 30, 2005	(\$2,557,907)	\$ 0	\$ 468,958
Current Year Set-aside Requirement	840,062	840,062	0
Qualified Disbursements	(1,609,253)	0	0
Current Year Offsets	0	(840,062)	0
Set-Aside Reserve Balance as of June 30, 2006	<u>(\$3,327,098)</u>	<u>\$0</u>	<u>\$ 468,958</u>
Restricted Cash as of June 30, 2006	<u>\$0</u>	<u>\$0</u>	<u>\$ 468,958</u>
Carry Forward to FY2007	<u>(\$3,327,098)</u>	<u>\$</u> 0	<u>\$ 0</u>

Offset credits for capital activity during the year exceeded the amount required for the set-aside, resulting in offset credits of \$62,973,700 available for carryover to offset capital reserve requirements of future years. Negative amounts are therefore not presented as being carried forward to the next fiscal year for the capital acquisition set-aside. Qualifying disbursements and carryover from prior years for textbooks totaled \$4,167,160, resulting in \$3,327,098 for carryover to offset textbook requirements in future years.

16. INTERFUND BALANCES/TRANSFERS

Interfund transactions at June 30, 2006, consisted of the following individual fund receivables and payables and transfers:

	Interfund	Interfund	Transfers Transfers	
	Receivable	<u>Payable</u>	<u>In Out</u>	_
General Fund	\$12,137	\$0	\$0 \$1,230,216	5
Other Governmental Funds	0	<u>12,137</u>	1,230,216	<u>)</u>
	\$12,137	\$12,137	\$1,230,216 \$1,230,216	<u> </u>

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization; to segregate and to return money to the fund from which it was originally provided once a project is completed.

17. COMPLIANCE AND ACCOUNTABILITY

The following individual funds had a deficit in fund balance at year end:

<u>Fund</u>	<u>Deficit</u>
Special Revenue Funds:	
Title VI R	\$22,892

The deficit in fund balance was primarily due to accruals in GAAP. The general fund is liable for any deficit in these funds and will provide operating transfers when cash is required not when accruals occur.

18. CHANGE IN ACCOUNTING PRINCIPLE

For the year ended June 30, 2006, the District has implemented GASB Statement No. 42, "Accounting and Financial Reporting for Impairment of Capital Assets for Insurance Recoveries"; GASB Statement No. 44, "Economic Condition Reporting: The Statistical Section"; GASB Statement No. 46, "Net Assets Restricted by Enabling Legislation" and GASB Statement No. 47, "Accounting for Termination Benefits".

Statement No. 42 establishes accounting and financial standards for impairment of capital assets and clarifies and establishes accounting requirements for insurance recoveries.

Statement No. 44 establishes the objectives of the statistical section and provides guidance on the preparation of the statistical section.

Statement No. 46 establishes that any amount of the primary government's net assets at the end of the reporting period restricted by enabling legislation should be disclosed in the notes to the financial statements.

Statement No. 47 provides guidance to governmental employers for measuring, recognizing, and reporting liabilities and expenses/expenditures related to all termination benefits without limitation as to the period of time during which the benefits are offered.

There was no effect on fund balance as a result of the implementation of these new standards.

See accompanying notes to the required supplementary information.

SYCAMORE COMMUNITY SCHOOL DISTRICT NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION For The Year Ended June 30, 2006

1. BUDGETARY PROCESS

All funds, except trust and agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by Board at the fund and function level within each individual fund. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2006.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and expendable trust funds (GAAP basis).
- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance

	<u>General</u>
GAAP Basis	\$4,962,051
Net Adjustment for Revenue Accruals	69,114
Net Adjustment for Expenditure Accruals	289,039
Encumbrances	(330,502)
Budget Basis	\$4,989,702

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Public School Support – Fund used to account for specific local revenue sources generated by individual school buildings. Expenditures include field trips, items to support co-curricular and extra-curricular programs, and recognition programs.

Other Grants – Fund used to account for local grants, i.e. Neediest Kids of All.

Extracurricular Student Activities – Fund used to account for student activity programs that do not have student management of the program, i.e. athletics, band, etc.

Auxiliary Services – Fund used to account for state funds used to provide services and materials to students attending non-public schools within the boundaries of the District.

Gifted Education – Fund used to account for state monies provided to support gifted education programs.

Management Information – Fund used to account for state monies provided to support the Education Management Information System.

Entry Year Program – Fund used to account for state monies provided to support training programs for beginning teachers.

OneNet Network – State grant used to support technology used for non-instructional purposes, i.e. networking.

SchoolNet Professional Development – State grant used to support professional development in the area of technology.

Ohio Reads – State grant created to support literacy programs.

Summer Intervention – State grant credited to account for summer intervention.

Title VI B/ Pre-school – Fund used to account for federal monies provided to support programs for students with disabilities.

Vocational Education – Federal grant used to present various career opportunities to students.

Title III – Federal grant used to account for federal monies provided to support the District's ESL population.

Title I – Fund used to account for federal monies provided to support programs for educationally deprived students.

Title VI – Fund used to account for federal monies provided to support innovative educational programs.

Drug Free Schools – Fund used to account for federal monies provided to address drug abuse prevention and security in the schools.

EHA Pre-School – Fund used to account for federal monies provided to support programs for pre-school aged students with disabilities.

Title VI R - Fund used to account for federal monies provided to reduce student/teacher ratios.

Miscellaneous Federal Grants – Funds used to account for miscellaneous federal grants.

Food Service – Fund used to record financial transactions related to the food service operation.

Adult Education – Fund used to account for expenses related to the adult education program provided to the general public.

Community School – Fund used to account for student recreation program.

Debt Service Fund

Debt Service Fund – The Debt Service Fund is used for the accumulation of resources for and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

Permanent Improvement – Fund used to account for all transactions relating to acquiring, constructing or improving permanent improvements other than those authorized by special bond funds.

Building – Fund used to account for all transactions relating to bond funds used for construction and renovation of buildings.

SchoolNet Instructional – State grant used to purchase technology used for instructional purposes.

NONMAJOR FIDUCIARY FUNDS

Fiduciary fund types are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental unites and/or other funds.

Private Purpose Trust – Fund used to account for donations received by the District in a trustee capacity. Used for scholarships.

Agency Fund

Student Activities – Fund used to account for resources that belong to various student groups in the District. Students are involved in the management of the program.

Source: Hamilton County Auditor.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed.

^{(1) -} Assessed values shown in this schedule will not agree to amounts in the notes to the financial statements, since the schedules are shown on a calendar year basis, which is consitent with the method county auditors maintain this information
