Belmont Technical College Audited Financial Statements

June 30, 2008

Mary Taylor, CPA Auditor of State

Board of Trustees Belmont Technical College 120 Fox-Shannon Place St. Clairsville, Ohio 43950

We have reviewed the *Independent Auditors' Report* of the Belmont Technical College, Belmont County, prepared by Rea & Associates, Inc. for the audit period July 1, 2007 through June 30, 2008. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Belmont Technical College is responsible for compliance with these laws and regulations.

Mary Taylor, CPA Auditor of State

The Board of Trustees Belmont Technical College 120 Fox-Shannon Place St. Clairsville, Ohio 43950

Independent Auditor's Report

We have audited the accompanying financial statements of Belmont Technical College (the College), Belmont County, Ohio, and the discretely presented component unit, as of and for the year ended June 30, 2008, which collectively comprise the College's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the College's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of Belmont Technical College and the discretely presented component unit as of June 30, 2008, and the respective changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 15, 2008 on our consideration of Belmont Technical College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis on pages 3 through 13 is not a required part of the basic financial statements but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Board of Trustees Belmont Technical College Independent Auditor's Report

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U. S. Office of Management and Budget Circular A-133, *Audit of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Kea & Associates, Inc.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Belmont Technical College's financial statements provides an overview of the College's financial activities for the year ending June 30, 2008, with comparative information from fiscal year 2007. Amounts for 2007 have been restated for the change in classification for Pell grants from operating to non-operating revenue. Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the preparers. The discussion and analysis contains financial activities of Belmont Technical College.

About Belmont Technical College

Belmont Technical College is a two year college offering programs in business, engineering, allied health, and public service technologies. The College was chartered in 1971, allowing it to serve the three county areas of Belmont, Harrison, and Monroe Counties.

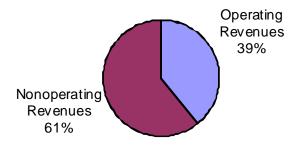

Belmont Technical College is governed by a board of nine trustees. The Governor of Ohio appoints three members, and six members are elected by a caucus of the boards of education of the school districts in the three counties served by the College.

Financial Highlights

Belmont Technical College's financial position, as a whole, improved during the fiscal year ending June 30, 2008. Its combined net assets increased \$931,661 or 6.2% from the previous year.

The following chart provides a graphic breakdown of revenues by category for the fiscal year ending June 30, 2008:

TOTAL REVENUES

In the fiscal year ending June 30, 2008, revenues and other support exceeded expenses, creating the increase in net assets of \$931,661 (compared to a \$945,095 increase last year).

Using the Annual Report

This annual report consists of three basic financial statements, prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities* (GASB 35). The Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Net Assets; and the Statement of Cash Flows, in a format similar to that used by corporations, provide information on the College as a whole and present a long-term view of the College's finances. The following activities are included in the College's basic financial statements:

• **Primary Institution (College):** Most of the programs and services generally associated with a university fall into this category, including instruction, research, public service, and support services.

The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets

One of the most important questions asked about the College's finances is, "Is Belmont Technical College as a whole better off or worse off as a result of the year's activities?" One key to answering this question is the financial statements of the College. The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets report information on the College as a whole and on its activities in a way that helps answer this question. When revenues and other support exceed expenses, the result is an increase in net assets. When the reverse occurs, the result is a decrease in net assets. The relationship between revenues and expenses may be thought of as Belmont Technical College's operating results.

These two statements report Belmont Technical College's net assets and changes in them. Belmont Technical College's net asset amount (the difference between assets and liabilities) is one way to measure the College's financial health, or financial position. Over time, increases or decreases in the College's net assets are one indicator of whether its financial health is improving. However, several non-financial factors are relevant as well, such as the trend and quality of applicants, freshman class size, student retention, building condition, and campus safety, to assess the overall health of the College.

The Statement of Net Assets includes all assets and liabilities. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged.

The Statement of Revenues, Expenses and Changes in Net Assets presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. GASB 35 requires state appropriations to be classified as nonoperating revenues. Accordingly, the College will generate a net operating loss prior to the addition of nonoperating revenues. The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

Another important factor to consider when evaluating financial viability is the College's ability to meet financial obligations as they become due. The Statement of Cash Flows presents information related to cash inflows and outflows, summarized by operating, capital, financing and investing activities.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Notes to the Financial Statements provide additional details on the numbers in the financial statements. In addition to the Summary of Significant Accounting Policies, the report includes notes on capital assets, long-term obligations, and operating expenses by natural classification.

This space intentionally left blank.

Condensed Financial Information

Statement of Net Assets

	2008	2007	<u>2006</u>
<u>Assets</u>			
Current Assets	\$ 11,711,387	\$ 10,459,717	\$ 10,145,999

Total net assets	\$ 15,953,745	\$ 15,022,084	\$ 14,077,189

A review of the College's statement of net assets at June 30, 2008 shows that the College continues to build a strong financial foundation.

Assets: As of June 30, 2008, the College's total assets amount to \$17,019,039. Investment in capital assets, net of depreciation, represented the College's largest asset, totaling \$5,200,560, or 31 percent, of total assets. Cash and cash equivalents represented \$1,179,757, or 7 percent, of total assets. Investments represented \$9,374,543, or 55 percent of the total assets.

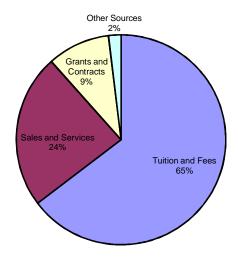

<u>Liabilities:</u> At June 30, 2008, the College's liabilities totaled \$1,065,294. Current liabilities, including accounts payable, accrued vacation, sick leave and deferred revenue, represented \$859,960 or 81 percent of total liabilities.

<u>Net Assets:</u> Net assets at June 30, 2008 totaled \$15,953,745, or 94 percent, of total assets. Net assets invested in capital assets totaled \$5,200,560, or 32 percent, of total net assets. Restricted and unrestricted net assets represented 15 percent and 53 percent of total net assets, respectively.

Statement of Revenues, Expenses, and Changes in Net Assets

	2008	2007	Change

Increase in net assets	931,461	945,095	(13,634)		
NET ASSETS, beginning of year	15,022,284	14,077,189	945,095		
NET ASSETS, end of year	\$ 15,953,745	\$ 15,022,284	\$ 931,461		

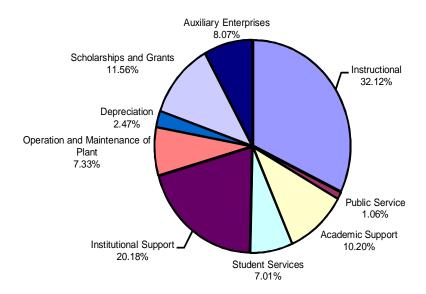

OPERATING REVENUES - 2008

Total operating revenues were \$5,651,246 for the year ended June 30, 2008. The most significant sources of operating revenue for the College are net tuition and fees (65 percent), grants and contracts (10 percent), and auxiliary enterprises, which is the bookstore (24 percent).

There are other significant recurring sources of revenues essential to the operation of the College, including state appropriations, federal Pell grants, and investment income, which are considered nonoperating revenues as defined by GASB 35. The College's state appropriations and Pell grants for the year ended June 30, 2008, amounted to \$5,257,970 and \$3,080,504, respectively.

OPERATING EXPENSES - 2008

Operating expenses, including \$344,325 of depreciation, totaled \$13,934,681. As depicted in the chart above, the majority of the College's operating funds are expended directly for the primary mission of the College – instruction (32.12 percent), scholarships and grants (11.56 percent), institutional support (20.18 percent), and academic support (10.2 percent). One of the College's core values is to provide students access to the College with the opportunity to succeed. The College's continued investment in student financial aid programs and student support services reflects this commitment.

The Statement of Cash Flows

Another way to assess the financial health of an institution is to look at the Statement of Cash Flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps user assess:

- an entity's ability to generate future net cash flows
- its ability to meet its obligations as they come due
- its need for external financing

Statement of Cash Flows

	 2008		2007		Change
Cash provided (used) by:					
Operating activities	\$ (7,439,877)	\$	(7,904,030)	\$	464,153
Noncapital financing activities	8,383,155		7,847,713		535,442
Capital and related financing activities	364,572		306,721		57,851
Investing activities	 (1,236,734)		(780,105)		(456,629)
Net increase (decrease) in cash	71,116		(529,701)		600,817
					0
Cash, beginning of year	1,107,641		1,637,342		(529,701)
Cash, end of year	\$ 1,178,757	\$	1,107,641	\$	71,116

Major cash sources of funds included in operating activities are student tuition and fees of \$4,132,646, grants and contracts of \$545,803 and auxiliary services of \$1,323,049. The largest cash payments for operating activities were to employees, for wages and benefits.

The largest cash receipt in the noncapital financing activities group is the operating appropriation from the State of Ohio.

Capital and Debt Administration

Capital Assets

At June 30, 2008, the College had some \$5,200,560 invested in capital assets, net of accumulated depreciation of \$5,472,408. Depreciation charges totaled \$344,325 for the current fiscal year. Details of these assets for the two years are shown below:

Capital Assets

	2008	2007	Change
Land and land improvements	\$ 276,000	\$ 276,000	\$ 0
Construction in Progress	0	22,077	(22,077)
Buildings and improvements	4,351,282	4,555,888	(204,606)
Machinery and equipment	437,501	526,408	(88,907)
Vehicles	84,209	70,203	14,006
Library books and materials	51,568	51,350	218
Totals	\$ 5,200,560	\$ 5,501,926	\$ (301,366)

More detailed information about the College's capital assets is presented in Note 7 to the financial statements.

Debt

At year-end 2008, the College had no debt outstanding.

Economic Factors that Will Affect the Future

As a political subdivision of the State of Ohio, Belmont Technical College (BTC) depends on the state for a significant portion of its revenue. Through the Ohio Board of Regents, BTC receives a portion of the state support for higher education usually referred to as subsidy. These funds significantly lower the tuition that public institutions of higher education would otherwise charge in order to provide higher education services. In turn, the fortunes of the state have a direct bearing on the fortunes of BTC.

Through the new University System of Ohio, all thirty-six public institutions of higher education are participating in a pact with the legislature to improve the economic standing of the state by engaging more of its citizens in the higher education system. By pledging to freeze tuition during the current biennium (FY 2007 - 09), each institution received a pledge of increased state subsidy to cover the increases in tuition that would have been necessary to cover the rising cost of doing business.

Through the first half of the biennium, the state has been able to maintain the promise of increased financial support, and thus, fulfilling the promise to hold the line on tuition increases. In the second year of the biennium, forces are at work that will test this pledge and possibly cause some reduction in state support. While the state has not made a firm announcement, all signs point toward a reduction in state support for the final six months of FY 2009 and potential reductions in support in the upcoming biennial budget (FY 2010 - 11). These potential reductions will have an impact on the financial position of Belmont Technical College.

As the economy continues to erode and more individuals lose their jobs, the two-year college sector will most likely see a great influx. Belmont Technical College anticipates increased enrollments during the coming biennium due largely from the needs of these individuals as they prepare for new careers and improve their marketability through advanced study.

Belmont Technical College's current financial position is solid. With no long-term debt and solid cash reserves, the college should be able to withstand short-term challenges in funding from the state. Like all business entities, BTC will need to continue to be vigilant about achieving efficiencies and lowering the unit cost of educating students.

The college has the capacity to enroll a significant number of additional students without adding to its fixed cost. Classes usually average less than twenty students. Many classes have ten students or less. The potential to enroll additional students without adding to fixed cost is significant.

The college has had steady growth in its enrollments for a number of years. That growth is anticipated to continue into the next biennium (FY 2010 – 11). BTC was recently approved by the Higher Learning Commission of the North Central Commission on Schools and Colleges to offer transfer associate degrees, namely the Associate of Arts and the Associate of Science Degrees. With the downturn in the economy, many families will be looking for lower cost alternatives to meet their family's higher education needs. Belmont will indeed see an increase in enrollment due to citizens seeking to curtail the cost of a bachelor's degree by enrolling in a two-year college to complete the lower division courses.

The college has used the strategy of reallocating existing resources and organizational restructuring to facilitate quality of instruction and organizational structure conducive to the expanded college mission. Grant writing endeavors have increased as well. An institutional-wide student retention plan has achieved a 10% increase in student retention rates. In addition, the potential of implementing five to eight new programs will create new revenue streams.

While state support for higher education for the next biennium is uncertain at this point, some anticipated mixture of state support and tuition and fee increases will allow the college to meet its cost of operations and maintain a balanced budget with a moderate operating surplus.

For the calendar year 2009, the college will not experience an increase in health care costs from its health insurance provider as had been the trend for many years. This is a result of some innovative strategies including the implementation of a high deductible plan. Managing health care costs will be a significant factor in budget planning as the college creates its plans for the next five years.

The college is putting the final touches on a strategic plan that will be implemented starting in July of the fiscal year 2009/2010. The plan is anticipated to include some bold initiatives to serve more students and to make BTC even more attractive to the community as an institution of higher education.

In summary, with its strong financial position and a new strategic plan, BTC will solidify its role as a premier public institution of higher education in Ohio.

Contacting the College's Financial Management

This financial report is designed to provide the Ohio Department of Education, our citizens, taxpayers, and investors and creditors with a general overview of the College's finances and to show the College's accountability for the money it received. If you have questions about this report, or need additional financial information, contact John Koucoumaris, Vice President of Administrative Affairs, at Belmont Technical College, 120 Fox-Shannon Place, St. Clairsville, Ohio 43950.

The accompanying notes are in integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 1 - DESCRIPTION OF THE REPORTING ENTITY

Belmont Technical College is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and the laws of the State of Ohio. Belmont Technical College is a technical college as defined by Section 3357.01 of the Ohio Revised Code. The College operates under an appointed Board of Trustees.

Management believes the financial statements included in this report represent all of the funds of the College over which the College has the ability to exercise direct operating control.

Belmont Technical College Foundation (Foundation) is a legally separate, tax-exempt organization supporting the College. The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the College in support of its programs. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests, are restricted to the activities of the College by donors. Based upon the provisions in *Governmental Accounting Standards Board* (GASB) *Statement No. 14 – Reporting Entity* and subsequent amendments in GASB Statement No. 39, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America as prescribed by the Government Accounting Standards Board (GASB).

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – For Public Colleges and Universities* the full scope of the College's activities is considered to be a single business-type activity (BTA) and accordingly, is reported within a single column in the basic financial statements.

B. Basis of Accounting

The financial statements of the College have been prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

In accordance with GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, the College does not apply Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, for proprietary activities, unless the GASB amends its pronouncements to specifically adopt FASB pronouncements issued after that date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Cash and Cash Equivalents

This classification appears on the Statement of Net Assets and the Statement of Cash Flows and includes petty cash, cash on deposit with private bank accounts and savings accounts.

For purposes of the statement of cash flows and for presentation of the statement of net assets, investments with original maturities of three months or less at the time they are purchased by the College are considered to be cash and cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

D. Investments

Investments, when purchased, are stated at cost and, if received through gift, at market value at the date of gift if a market value is available; otherwise, they are stated at an appraisal or nominal value. The College has invested in certificates of deposit during the fiscal year 2008.

E. Receivables

Receivables consist of tuition and fees and charges to students and charges for auxiliary enterprises' sales and services. Receivables also include amounts due from the Federal government, state and local governments, private sources in connections with reimbursements of allowable expenditures made pursuant to contracts and grants, and pledges that are verifiable, measurable, and expected to be collected and available for expenditures for which the resource provider's conditions have been satisfied. Receivables are recorded net of estimated uncollectible amounts.

F. Allowance for Doubtful Accounts

The allowance for doubtful accounts is determined by management based on the College's historical losses, specific student circumstances and general economic conditions. Periodically, management reviews accounts receivable and records an allowance for specific students based on current circumstances and charges off the receivable against the allowance when all attempts to collect the receivable have failed.

G. Inventories

Inventories, consisting of expendable supplies and merchandise for resale, are stated at the lower of cost or market value using the first-in, first-out method.

H. Capital Assets

Capital assets are stated at cost at date of acquisition or fair market value at date of donation in the case of gifts. The College capitalizes assets that have a value or cost in excess of \$5,000 at the date of acquisition and an expected useful life of one or more years. Library books are significant in the aggregate and are therefore also capitalized.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 10 to 50 years for buildings, 3 to 15 years for equipment, 10 years for vehicles and 5 years for library books and materials.

I. Restricted Assets

Restricted assets represent assets whose use is restricted by external parties or by law through constitutional provisions or enabling legislation. The College's restricted assets include endowment funds. No assets have been restricted by enabling legislation.

J. Noncurrent Long-Term Liabilities

Noncurrent long-term liabilities includes compensated absences that will not be paid within the next fiscal year.

K. Compensated Absences

The College has adopted GASB No. 16.

Vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of these conditions are met:

- a. The employee's right to receive compensation is attributable to services already rendered.
- b. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

A liability sick leave and other compensated absences with similar characteristics (hereinafter referred to as "sick leave") should be accrued using one of the following termination approaches:

- a. The sick leave liability generally would be an estimate based on governmental entity's past experience of making termination payments for sick leave, adjusted for the effects of changes in its termination payment policy and other current factors. This approach is known as the termination payment method.
- b. The sick leave liability would be an accrual for those employees expected to become eligible in the near future based on assumptions concerning the probability that individual employees or classes or groups of employees will become eligible to receive termination benefits. This accumulation should be reduced to the maximum amount allowed as a termination benefit. This approach is known as the vesting method.

For sick leave liability, the College uses the vesting method. The College posts a liability for any employee within five years of retirement. These accumulations are reduced to the maximum amount allowed as a termination payment.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Deferred Revenue

In accordance with the State of Ohio policy of recording instructional revenues in the year in which the courses are principally conducted, the College defers certain revenues at June 30 that are applicable to courses conducted subsequent to June 30. As of June 30, 2008, the deferred amount represents the amount paid by students for courses conducted subsequent to June 30.

M. Net Assets

The College's net assets are classified as follows:

Invested in Capital Assets, Net of Related Debt – This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets.

Restricted Net Assets – **Nonexpendable** – Nonexpendable restricted net assets include endowments and similar type assets whose use is limited by donors or other outside sources and as a condition of the gift, the principal is to be maintained in perpetuity.

Restricted Net Assets – Expendable – Expendable restricted net assets include resources in which the College is legally or contractually obligated to spend the resources in accordance with restrictions imposed by external parties.

Unrestricted Net Assets – Unrestricted net assets include resources derived from student tuition and fees, sales and services, unrestricted gifts, and interest income.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for funding is transactional based within the departmental management system in place at the College.

N. Scholarship Allowances

Student tuition and fees revenue and certain other revenues from College charges are reported net of scholarship allowances in the accompanying Statement of Revenues, Expenses, and Changes in Net Assets. The scholarship allowance is the difference between the actual charge for goods and services provided by the College and the amount that is paid by students or by third parties on the students' behalf. Student financial assistance grants, such as Pell grants, and other federal, state or nongovernmental programs, are recorded as either operating or non-operating revenues in the accompanying Statement of Revenues, Expenses, and Changes in Net Assets. To the extent that revenues from these programs are used to satisfy tuition, fees, and other charges, the College has recorded a scholarship allowance discount.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Operating Activity

The College defines operating activities, as reported on the statement of revenues, expenses, and changes in net assets, as those that generally result from exchange transactions, such as payments received for providing goods and services and payments made for services and goods received. Nearly all of the College's expenses are from exchange transactions. Certain significant revenues relied upon for operations, such as state appropriations, grants, contracts and investment income, are recorded as non-operating revenues, in accordance with GASB Statement No. 35.

In addition, the GASB Implementation Guide has indicated PELL grants should be considered non-operating revenues beginning in fiscal year 2008.

P. Budgetary Process

Annually, the Business Office develops a balanced budget for the College based on projected expenditures from department directors and anticipated revenue, including tuition and fees and the subsidy from the Ohio Board of Regents. The board of trustees approves the budget.

Q. Income Taxes

Income taxes have not been provided on the general operations of the College because, as a state institution, its income is exempt from Federal income taxes under Section 115 of the Internal Revenue Code.

R. Use of Estimates

Management of the College has made estimates and assumptions relating to the reporting of assets and liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 3 – STATE SUPPORT

The College is a state-assisted institution of higher education which receives a student-based subsidy from the State of Ohio. This subsidy is determined annually based on a formula devised by the Ohio Board of Regents.

In addition to the student subsidies, the State of Ohio provides the funding for the construction of major plant facilities on the College's campus. The funding is obtained from the issuance of special obligation bonds issued by the Ohio Public Facilities Commission (OPFC), which proceeds in turn causes the construction of subsequent lease of the facility to the Ohio Board of Regents. Upon completion of a facility, the Board of Regents turns over control to the College, which capitalizes the cost thereof.

Neither the obligation for special obligation bonds issued by OPFC, nor the annual debt service charges for principal and interest on the bonds are reflected in the College's financial statements. These costs are currently being funded through appropriations to the Board of Regents by the General Assembly.

The facilities are not pledged as collateral for the special obligation bonds. Instead, the bonds are supported by a pledge of monies in the Higher Education Bond Service Fund established in the custody of the Treasurer of State. If sufficient monies are not available from this fund, a pledge exists to assess a special student fee uniformly applicable to students in the state-assisted institutions of higher education throughout the state.

- A. Construction in progress for any portion of the facilities being financed by state agencies for use by the College should be recorded on the College's books of account until such time as the facility is completed.
- B. Outstanding debt issued by OPFC is not included on the College's balance sheet. In addition, the appropriations by the General Assembly to the Board of Regents for payment of debt service are not reflected as appropriation revenue received by the College, and the related debt service payments are not recorded in the College's accounts.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 4 – DEPOSITS AND INVESTMENTS

State statutes classify monies held by the College into three categories.

Active deposits are public deposits necessary to meet current demand on the treasury. Such monies must be maintained either as cash in the College treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Trustees has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either by evidenced by certificates of deposit maturing not later than the end of the current period of designation or depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts including passbook accounts.

Protection of the College's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

- 4. Bond and other obligations of the State of Ohio.
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts:
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAROhio);
- 8. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the College, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

According to State law, public depositories must give security for all public funds on deposit. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by FDIC, or may pledge a pool of government securities valued at least 105 percent of the total value of public monies on deposit at the institution. Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within 5 years of the date of the related repurchase agreement. State law does not require security for public deposits and investments to be maintained in the College's name. During 2008, the College and public depositories complied with the provisions of these statutes.

Cash on Hand:

At year end, the College had \$915 in undeposited cash on hand, which is included in the statement of net assets of the College as part of cash and cash equivalents.

Custodial Credit Risk - Deposits:

Custodial credit risk is the risk that, in the event of a bank failure, the College's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the respective depository bank and pledged as collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the College.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

At fiscal year-end, the carrying amount of the College's deposits was \$10,553,385. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures," as of June 30, 2008, \$10,268,815 of the College's bank balance of \$10,749,120 was exposed to custodial risk as discussed above, while \$480,306 was covered by Federal Deposit Insurance Corporation.

Investments:

As of June 30, 2008, the College had no investments as defined by GASB Statement No.40.

NOTE 5 - RECEIVABLES

Receivables at June 30, 2008 were as follows:

			A	llowance			
		Gross	for	Doubtful	Net		
	R	Receivables		Accounts		Receivables	
Current Receivables:	,	_		_		_	
Students	\$	815,043	\$	(82,051)	\$	732,992	
Interest		183,540		0		183,540	
EDPS Funds		45,102		0		45,102

		_				_	
Total Current Receivables	\$	1,230,293	\$	(82,051)	\$	1,148,242	

NOTE 6 – DONOR RESTRICTED ENDOWMENTS

If a donor has not provided specific instructions, state law permits the Board to authorize for expenditure the new appreciation (realized and unrealized) of the investments of endowment funds. When administering its power to spend net appreciation, the Board is required to consider the College's "long- and short-term needs, present and anticipated financial requirements, expected total return on its investments, price-level trends, and general economic conditions." Any net appreciation that is spent is required to be spent for the purposes for which the endowment was established. All expenditures must be approved by the Board.

At June 30, 2008, there was no net appreciation on donor restricted assets available to be spent.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 7 – CAPITAL ASSETS

A summary of the changes in the capital assets is presented as follows:

	Balance			\	Day	d.,	Balance June 30, 2008

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 11 – PENSION AND RETIREMENT PLANS

A. School Employees Retirement System

The College contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits; annual cost-of-living adjustments; and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statue per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under *Forms and Publications*.

Plan members are required to contribute 10 percent of their annual covered salary and the College is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The College's required contributions to SERS for the fiscal years ended June 30, 2008, 2007, and 2006 were \$238,785, \$237,098, and \$229,434 respectively; which equaled the required contributions for each year.

B. State Teachers Retirement System

The College participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and their faculty members employed in the public schools of Ohio or any school, community school, college, university, instruction or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling toll free 1-888-227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC of Combined Plan.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 11 – PENSION AND RETIREMENT PLANS (Continued)

DB Plan Benefits - Benefits are established by Chapter 3307 of the Ohio Revised Code. Any member may retire who has (1) five years of service credit and attained age 60, (2) 25 years of service credit and attained age 55, or (3) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest years' salaries. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – Benefits are established by Chapter 3307.80 and 3307.89 of the Ohio Revised Code. For members who select the DC plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement begins, the member's designated beneficiary is entitled to receive the member's account balance.

Combined Plan Benefits – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefits payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's year of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

Eligible faculty of Ohio's public college and universities may choose to enroll in either STRS Ohio or an alternative retirement plan (ARP) offered by their employer. Employees have 120 days from their employment date to select a retirement plan.

A retiree of STRS or other Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or lump sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65 once employment is terminated.

Benefits are increased annually by the 3 percent of the original base amount for Defined Benefit Plan participants.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 11 – PENSION AND RETIREMENT PLANS (Continued)

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB of Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the Defined Benefit Plan. Death benefit coverage of up to \$2,000 can be purchased by members in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14 percent for employers.

Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2008 were 10 percent of covered payroll for members and 14 percent for employers. The College's required contributions for the fiscal years ended June 30, 2008, 2007, and 2006 were \$636,029, \$595,214 and \$558,450 respectively; 100 percent has been contributed for each fiscal year.

NOTE 12 – POST-EMPLOYMENT BENEFITS

The College provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio) and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Both systems are on pay-as-you-go basis.

STRS: Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the defined benefit or combined planes. Coverage under the current program includes hospitalization, physician's fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Ohio Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 1% of covered payroll was allocated to poet-employment health care for the years ended June 30, 2008, 2007 and 2006. The 14% employer contribution rate is the maximum rate established under Ohio law. The College's contributions to fund health care for fiscal years 2008, 2007 and 2006 were \$45,253, \$42,515 and \$39,875, respectively.

SERS: In addition to a cost-sharing multiple-employer defined benefit pension plan, the School Employees Retirement System of Ohio (SERS) administers two postemployment benefit plans.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 12 – POST-EMPLOYMENT BENEFITS (Continued)

Medicare Part B Plan

The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2007 (the latest information available) was \$93.50; SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2008, the actuarially required allocation was .68%. The College's contributions for the year ended June 30, 2008 were \$11,598, which equaled the required contributions for the year.

Health Care Plan

ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMO's, PPO's, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. At June 30, 2008, the health care allocation was 3.32%. The actuarially required contribution (ARC), as of the December 31, 2006 annual valuation, was 11.50% of covered payroll. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities of the plan over a period not to exceed thirty years. The College's contributions for the years ended June 30, 2008, 2007 and 2006were \$82,165, \$90,865, and \$80,466, respectively.

An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2008, the minimum compensation level was established at \$35,800.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 12 – POST-EMPLOYMENT BENEFITS (Continued)

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under *Forms and Publications*.

NOTE 13- RISK MANAGEMENT

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2008, the College contracted with Indiana Insurance Company for commercial property insurance. The policy includes a \$5,000 deductible.

Professional and general liability is protected by Indiana Insurance Company with a \$1,000,000 single occurrence limit, \$2,000,000 annual aggregate limit and no deductible. Vehicles are covered by Indiana Insurance Company and hold a \$250 deductible for comprehensive and a \$500 deductible for collision. Automobile liability has a \$1,000,000 combined single limit of liability, with no annual aggregate. A commercial umbrella provides an additional \$5,000,000 in limits over all other liability coverage.

Travel accident insurance for employees and trustees is provided by Chubb Insurance Group.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

The College pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 14– CONTRACTUAL COMMITMENTS

The College entered into a contractual agreement with Jenzabar for a new Administrative Information System in Fiscal Year 2005. The amount of the contract was \$991,238, of which, \$673,093 has been paid. The amount remaining is \$318,145. This amount represents the annual support and maintenance fee through January 31, 2015.

NOTE 15- CONTINGENCIES

The College received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the College. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the College at June 30, 2008.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 16- COMPONENT UNIT DISCLOSURES

Equity in Pooled Cash and Cash Equivalents and Investments:

Deposits - Custodial credit risk is the risk that in the event of a failure of a depository financial institution or counterparty to a transaction, the inability to recover the value of deposits, investments or collateral securities in the possession of an outside party. The Foundation has not established a policy for deposits at this time. At fiscal year-end, the carrying amount of the Foundation's deposits was \$124,565. All of the June 30, 2008 bank balances of \$32,497 are covered by federal depository insurance. The remaining balance of \$92,068 is maintained as cash equivalents in the Huntington Bank Trust investment accounts and is not collateralized.

Investments – As of June 30, 2008 the Foundation had the following investments and maturities:

		Investment Maturities							
	Fair	I	ess than	1	-5	5-	10	More	Than
Investment Type	Value		One Year	Ye	ears	Ye	ears	10 Y	ears
Equity Funds	\$ 140,608	\$	140,608	\$	0	\$	0	\$	0
Fixed Income Funds	23,754		0		0		0	23	,754
Mutual Funds	 173,241		173,241		0		0		0
Total	\$ 337,603	\$	313,849	\$	0	\$	0	\$ 23	,754

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Foundation's investment policy does not specifically limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Foundation's investment policy limits investments in fixed income securities and corporate issues. Individual marketable bonds, at the time of purchase, must be rated "A" or better, and commercial paper must have a rating of not less than "BBB" by Standard & Poor's.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 16- COMPONENT UNIT DISCLOSURES (Continued)

As of June 30, 2008, the Foundation had the following investments and quality ratings:

<u>Investment Type</u>	<u>Rating</u>	<u>F</u>	air Value
Fixed Income			
Municipal Bonds	NR	\$	14,431
	AA		9,323
Equity			
Common Stock			140,608
Mutual Funds			173,241
		\$	337,603

The equity investments are not rated. The AA rated municipal bonds are rated by Standard & Poors.

Concentration of Credit Risk - The Foundation places a limit of no more than 30% of the fixed income portion, at cost, can be invested in any one issuer, excluding obligations of the United States government. The following table includes the percentage to total of each investment type held by the Foundation at June 30, 2008:

	Fair	Percent
Investment Type	Value	of Total
Municipal Bonds	\$ 23,754	7%
Common Stocks	140,608	42%
Mutual Funds	173,241	51%
	,	
	\$ 337,603	100%

Pledges Receivable

Unconditional promises are included in the financial statements as pledges receivable and revenue of the appropriate net asset category. The Foundation's pledges receivable consisted of amounts pledged by employees of the College and are expected to be fully collected by December 31, 2008.

Support Provided to the College

During the year ended June 30, 2008 the Foundation provided no resources to or on behalf of the College for scholarships and other purposes.

The Board of Trustees Belmont Technical College St. Clairsville, Ohio 43950

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

We have audited the financial statements of Belmont Technical College and discretely presented component unit as of and for the year ended June 30, 2008, and have issued our report thereon dated December 15, 2008. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Belmont Technical College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Belmont Technical College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Belmont Technical College's internal control over financial reporting

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

The Board of Trustees
Belmont Technical College
Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*December 15, 2008
Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Belmont Technical College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Trustees, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 15, 2008

The Board of Trustees Belmont Technical College St. Clairsville, Ohio 43950

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance with OMB Circular A-133

Compliance

We have audited the compliance of Belmont Technical College with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2008. Belmont Technical College's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Belmont Technical College's management. Our responsibility it to express an opinion on Belmont Technical College's compliance based on our audit.

We conducted our audit of compliance with those requirements in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circulars A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Belmont Technical College's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Belmont Technical College's compliance with those requirements.

In our opinion, Belmont Technical College complied, in all material respects with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control over Compliance

The management of Belmont Technical College is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Belmont Technical College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but, not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Belmont Technical College's internal control over compliance.

Board of Trustees
Belmont Technical College
Independent Auditor's Report on Compliance with Requirements Applicable
to Each Major Program and Internal Control Over Compliance in
Accordance with OMB Circular A-133

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by any entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses as defined below. We did not identify any deficiencies in internal control over compliance that we consider to be a material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Trustees, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
