Report Letters

June 30, 2008

Mary Taylor, CPA Auditor of State

Board of Education Norton City School District 4128 Cleveland-Massillon Road Norton, Ohio 44203

We have reviewed the *Independent Auditor's Report* of the Norton City School District, Summit County, prepared by Rea & Associates, Inc., for the audit period July 1, 2007 through June 30, 2008. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Norton City School District is responsible for compliance with these laws and regulations.

Mary Jaylor

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Norton City School District as of and for the year ended June 30, 2008, and have issued our report thereon dated December 16, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Norton City School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Norton City School District, Summit County, Ohio Internal Control-Compliance Report Page 2

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Norton City School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Education, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

The Board of Education Norton City School District Summit County, Ohio 4128 S. Cleveland-Massillon Rd. Norton, Ohio 44203

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the compliance of the Norton City School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2008. Norton City School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the Norton City School District's management. Our responsibility is to express an opinion on Norton City School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circulars A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Norton City School District's compliances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Norton City School District's compliance with those requirements.

In our opinion, Norton City School District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2008. The results of our auditing procedures disclosed no instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133.

Norton City School District Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance with OMB Circular A-133 Page 2

Internal Control Over Compliance

The management of the Norton City School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Norton City School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Norton City School Districts' internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Norton City School District as of and for the year ended June 30, 2008, and have issued our report thereon dated December 16, 2008. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements of the Norton City School District. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Education, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Norton Board of Education Members and The Citizens of the Norton City School District:

The Norton City School District's (the "School District") Comprehensive Annual Financial Report (CAFR) compiled for the fiscal year July 1, 2007, through June 30, 2008 is respectfully submitted. Prepared by the Treasurer's office for the purpose of informing the Norton City School District's taxpayers, this comprehensive report's design provides complete and accurate disclosure of the School District's material financial operations for the fiscal year ended June 30, 2008.

The responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District.

The information submitted conforms to the accounting principles generally accepted (GAAP) in the United States of America, as set forth by the Governmental Accounting Standards Board (GASB), as is applicable to governmental entities and includes an unqualified opinion from an Independent Certified Public Accountant. Copies of this report, on file in the Treasurer's Office, are available for review upon written request to the Treasurer.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

HISTORY OF THE NORTON COMMUNITY AND SCHOOLS

The City of Norton, located in southwestern Summit County, covers approximately nineteen square miles of land and has a current population of 11,523 (census 2000). The area was originally part of Wolf Creek Township and, when first settled, was part of the Western Reserve. Named for Connecticut Proprietor, Birdseye Norton, it was organized as a separate township in April 1818. The township consisted of several semi-villages: Norton Center, Loyal Oak, Western Star, Hametown, Sherman, Johnson's Corners and New Portage. Norton Township was established as one of the leading agricultural townships with some industry in coal mining.

In accordance with the law of 1785, that every 16th section of land be reserved for the "maintenance of public schools within each township," Norton established the first school in 1818-1819. It was a log-built structure with records of approximately 30 total students. In 1831, there were two buildings used for schooling when farming slowed down during the winter months. In 1892, a two-room wooden high school was built preparing the first graduation Class of 1895 that consisted of three members. In 1915, this two-room building was replaced with a modern brick structure that housed two elementary grades in four classrooms and three rooms for the high school.

In 1953, a new high school building was erected and the old high school building became the junior high building. The original building was designed to house 500 pupils, and in the 1950's, enrollment increased to 1,100. In 1956 the 19 room elementary building was completed, and several school additions followed at the Sherman and Grill Elementary buildings. Passage of a bond issue in 1966 made possible additions to the High School and completion of the new Middle School. In 1960 school enrollment increased to 1,474.

For fiscal year 2007-08 the student head count totaled 2,505 with a projection of 2,550 for the 2008-09 school year. Resident students enroll in six schools: Norton High School (grades 9-12) built in 1953, Norton Middle School (grades 5-8) built in 1966, Norton Cornerstone (grades K-4) built in 1914, Norton Primary (grades K-4) built in 1956, Grill School (grades K-4) built in 1928, and Norton 21 (grades 1-4) for general education. Other facilities operated by the School District include the Central Administration Office, Bus Garage, Vocational Building, Football Stadium, and other athletic fields.

The recognizable growth in the student population is attributable to recorded census population increases in Norton Township. In 1840 the population recorded was 1,497 and had increased 38 percent to 2,066 by 1880. In 1890 farms adjacent to Norton were purchased for the purpose of manufacturing, and thereupon, the city of Barberton was founded in 1891. Norton's location, close to Barberton and Akron industries, facilitated growth. The population of Norton in the 1900's continued to grow and change with census recordings in 1920 totaling 2,935 that had increased to 7,454 by 1950. Realizing its potential, Norton Township incorporated in March of 1961 and by 1969, Norton had assumed city status.

The City of Norton's increased growth potential materializes, again, with the expansion of new residential apartment-type units and single-family housing developments; and, with the City's plans for the availability of water and sewer. The Mount Vernon Estates allotment began construction of single-family units in 1993 and expanded acquiring access through the Norton Acres allotment. The housing development, Brookforest Estates, began construction in 1997. In addition, property zoned for the building of Hudson Run Estates, and construction of a sixteen-acre apartment complex situated adjacent to Norton's Shopping Center and City Park, began construction of single-family units in 1999. The Knollbrook Estates housing development began construction in 2003 to build forty new homes on ninety-acres. In 2005, a new development, Stonewyck, broke ground with an anticipated additional ninety nine homes.

The Norton City School District is a member of the Four Cities Educational Compact that provides various vocational education programs to high school students attending the Norton, Barberton, Copley-Fairlawn and Wadsworth City school districts. Available within the Four Cities Compact Schools are: industry-certified occupational programs, cluster-based work force development programs, career readiness programs, Family and Consumer Science programs and supplemental vocational program services. Norton schools added a Sports Medicine program in fiscal year 2002. Also offered, are Occupational Work Adjustment (OWA), Occupational Work Experience (OWE) (career readiness); Life Planning, Parenting, Family Relations, Personal Development (Family and Consumer Science); Administrative Assistants (Junior and Senior), Cooperative Business Education (CBE), and Diversified Cooperative Trade (DCT) (supplemental vocational programs).

SCHOOL DISTRICT ORGANIZATION

The School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code for the purpose of providing educational services authorized by charter and further mandated by State and/or Federal Agencies.

The Norton Board of Education (Board) consists of five members elected by its citizens. The Board serves as the taxing authority, the contracting body and implements the School District policies. Annually the Board adopts the School District's operating budget, tax budget and is responsible for the authorization of all of the School District's expenditures pursuant to Ohio Revised Code Sections 5705.38, 5705.28, and 5705.41, respectively.

The Superintendent functions as the Chief Executive Officer of the School District with responsibility for the education and support operations of the School District in accordance with Section 3319.01 of the Ohio Revised Code and is directly responsible to the Board of Education. Ms. Karen Wilson was appointed Superintendent effective August 1, 2005, and retired July 31, 2007. Mr. David Dunn was hired as Superintendent August 1, 2007, and was awarded a three year contract that expires on July 31, 2010.

The Treasurer is the Chief Financial Officer of the School District with statutory obligations set forth in sections 3313.22 through 3313.32 of the Ohio Revised Code and is directly responsible to the Board of Education. Ms. Stephanie Hagenbush was appointed as Treasurer in January 2006 and was awarded a new 3 ½ year contract effective at the organizational meeting in January 2008 and will expire July 31, 2011.

REPORTING ENTITY

The School District has reviewed its reporting entity definition in order to insure conformance with Governmental Accounting Standards Board statements. In evaluating how to define the School District for financial reporting purposes, management has considered all boards, funds, agencies, departments and organizations making up the Norton City School District (the primary government).

Other governmental entities (i.e. City of Norton, Norton Branch of Summit County Library) conducting business activities within School District boundaries are excluded from the accompanying financial statements. The School District's Board does not appoint the boards of those entities, nor are they fiscally dependent on the School District. The School District cannot legally access their resources, has no obligation to finance deficits or provide financial support, and is not obligated for their debts.

ECONOMIC CONDITION AND FUTURE OUTLOOK

The City of Norton is located at the intersection of U.S. Route 21 and Interstate 76. The community's economy, historically, was agricultural based with some coal mining industry. While there is still some farming today, it has decreased considerably as the City's economic base has become predominantly residential. The City of Norton offers an excellent opportunity for potential business growth as well as residential expansion due to the City Council's recent enactment of attaining sewer and water from the City of Barberton. The five largest employers in the School District in terms of numbers of employees are:

B & C Corporation Norton City School District SA Communale Company Fred Martin Motor Group Fred W. Albrecht Grocery, Inc.

Norton's proximity to major cities makes it a desirable community in which to live, providing easy access to cultural, social, educational, and economic resources. It is within minutes of state universities and private colleges, international and private airports, numerous inland lakes and reservoirs, the fisheries of Lake Erie, metropolitan and state parks, and the Cuyahoga Valley National Recreation Area. The City provides its residents with: quality police and fire services; participation in the Summit County 911 Service; and, efficient maintenance of 89 miles of Norton's roads by the City's Service Department. The Norton Municipal Park system offers convenient locations for picnicking and youth league baseball. Also, there is a Community Center available for rental to the residents.

The continued economic growth and expansion of Norton is anticipated due to its convenient location and with the planned installation of additional City sewer and water services. With current construction of new housing developments and an apartment complex, the School District will inevitably experience an increase in student population. Throughout its history, the School District has been fortunate that city residents place a high value on education with a continued commitment of local support.

The School District's vision is "Every Child Every Day," providing our students with a quality education. The financial stability of the School District is vital in this pursuit and is credited to the loyal support of its community. Confronted with the many challenges and opportunities of a public education facility, the School District's Board and its employees continue to move forward in the education process of their students in their "Pursuit of Excellence".

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Continuous Improvement

A Continuous Improvement Plan (CIP) is in place and used as the School District's strategic plan in guiding decision-making and actions of the School District toward continual improvements in student academic achievement. The goal is to improve the processes and results as they relate to teaching and learning. The first steps, data collection and analysis, were completed and a Plan was drafted and Board approved. CIP meetings between faculty and administrators are held periodically providing ongoing evaluation and enhancement of the Plan. During fiscal year 2004-05 the District earned an "excellent" status, which means according to state standards the Norton students are performing at or above the highest level attainable. The School District has maintained this rating for four consecutive years.

Technology

All buildings are wired and computers have been purchased. Throughout the campus, computers are networked and have Internet access. The School District's phone system is also connected to the network, giving the School District buildings accessibility to connect to each other by the dialing of extensions.

Fiscal Forecast

The Five Year Forecast is updated as significant changes take place, but by law, must be approved by the Board of Education and submitted to the state twice a year, in October and May. At the end of fiscal year 2008, the forecast showed an unencumbered balance of \$5,346,649. However, as the costs of doing business continue to grow, the controversy over state funding, and the increasing numbers of unfunded state and federal mandates, a resulting effect of the School District expenditures exceeding its revenues will begin to produce a future deficit as projected in the School District's financial forecast.

FINANCIAL INFORMATION & RELEVANT FINANCIAL POLICIES

Accounting System

This is the seventh year that the School District has prepared financial statements following GASB Statement No. 34 "Basic Financial Statements – Management's Discussion and Analysis – State and Local Governments." GASB Statement No. 34 creates new basic financial statements for reporting on the School District's financial activities as follows:

Government-wide financial statements – These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

Fund financial statements – These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparison – This statement presents a comparison of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, cash disbursements and encumbrances.

As determined by criteria established by GASB Statement No. 34, the School District does not report any activities that qualify as enterprise or business type activities. As part of this new reporting model, management is also responsible for preparing a "Management's Discussion and Analysis" of the School District. This discussion follows the Independent Auditor's Report, providing an assessment of the School District's finances for fiscal year 2008 and the outlook for the future. Because that discussion focuses on major funds, the financial highlights provided in this letter focus on certain nonmajor funds of the School District.

Internal Controls

The establishment and maintenance of an internal control structure, designed for safeguarding from loss, theft or misuse of the School District's assets, is the responsibility of management. An effective fiscal management system incorporating internal accounting controls ensures the School District's assets, liabilities, revenues and expenditures are properly classified and accurately recorded into the School District accounting records for the appropriate fiscal period in compliance with GAAP. The design of the internal control structure provides reasonable, but not absolute, assurance that these objectives were met. The concept of reasonable assurance assumes: the costs of the controls should not exceed the benefits presumably derived from its implementation and the estimates and judgments relative to cost and benefit valuation are determined by management. Management believes the School District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Controls

The School District maintains its accounts, appropriations, and other financial records in accordance with the procedures established and prescribed by the Ohio Revised Code and the Ohio Auditor of State. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The School District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and therefore, are not re-appropriated.

All disbursements and transfers of cash between funds require appropriation authority from the Board. The Treasurer must certify purchase order requests and ensure that the necessary funds are available. Then, purchase orders are encumbered and released to vendors. Management may make budgetary modifications as long as the total fund appropriation is not affected.

The accounting system used by the School District provides interim financial reports that detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations to date.

The Principal at each building directs site-based financial management. Building teams are formed to assist in formulating the School District's Continuous Improvement Plan and pertinent budget issues identified by the staff, parents or students. Each building has an annual budget for instructional support and office operations.

School District Administrators and Principals receive financial reports monthly showing the status of the budget accounts for which they are responsible. The School District utilizes the State's software program allowing building level input of purchase requisitions. The Building Administrator and/or Business Manager and the Superintendent approve the requisitions, the Treasurer certifies the availability of funds, and then requisitions are electronically converted to purchase orders and encumbered.

In addition to the distribution of month-end reports to its management, and to ensure prescribed budgetary compliance within all levels of the School District, the Treasurer's office publishes annually the School District's financial handbook detailing the School District's adopted procedures for proper receipting and expending of School District funds. This handbook is distributed to new employees and is available online to all employees.

The basis of accounting and the various funds utilized by the Norton City School District are fully described in Note 1 of the basic financial statements.

As an additional safeguard, a blanket bond covers all employees, and a separate, higher limit bond covers certain individuals in policy-making roles.

Single Audit Act

As a recipient of federal and state financial assistance, the School District is responsible for ensuring that an adequate internal control structure is in place and is in compliance with applicable laws and regulations relative to those programs.

Financial Highlights - Internal Service Fund

The only internal service fund carried on the financial records relates to self-insurance. This fund accounts for the revenues and expenses related to the provision of medical, surgical, prescription drug, vision and dental benefits to the School District's employees. The balance at June 30, 2008, was sufficient to meet all claims outstanding at year-end.

Financial Highlights - Fiduciary Fund

The trust fund carried on the financial records of the School District is a scholarship private purpose trust fund that has assets totaling \$87,590 as of June 30, 2008.

CASH MANAGEMENT

The School District historically demonstrates a conservative approach to the cash management program. Investments of the School District funds were maintained through the locally approved financial depository's utilization of a sweep account and through the STAR Ohio investments.

Protection of the School District's cash and investments is provided by the Federal Deposit Insurance Corporation as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. As required under Ohio law, pooled securities have been pledged in an amount equal to 105% of the total deposits, to secure the repayment of all public moneys deposited in a financial institution. A detailed description of the School District's investment function is described in Note 3 to the financial statements.

<u>RISK MANAGEMENT</u>

The School District, as a political subdivision, maintains protection for its assets and employees through a comprehensive insurance program. Insurance policies for general liability, property loss, boiler and machinery coverage, and vehicle fleet liability are purchased from insurance companies licensed to do business in the state of Ohio.

The School District operates and manages its hospital, medical, health, dental, prescription, and life insurance program for its employees on a self-insured basis. The health insurance fund was established in conjunction with formalized risk management programs in an effort to minimize risk exposure, control claims and premium costs. The third party administrator processes and initiates claim payment. The advantages of the self-insurance program include savings on administrative costs as well as the School District's holding of reserve balances.

The health benefits liability is limited by reinsurance that caps the individual specific liability at \$60,000 for the School District's plan year from June 1, 2007, through May 31, 2008. Control of the plan rests solely with the School District.

A Section 125 flexible benefit program is offered to all employees. The plan allows employees to pay for eligible benefits with pre-tax dollars, rather than after-tax dollars. Therefore, employees may tax defer anticipated out of pocket medical expenditures through payroll deduction. The plan's guidelines are established and regulated by the Internal Revenue Service.

All employees of the School District are covered by worker's compensation. Effective July 1, 2002, the School District joined a group-rating program through the Ohio Association of School Business Officials in an effort to control costs. Over 423 Ohio school districts are members of a group-rating program. The School District receives a group premium discount rate for participation in this pooling program.

PENSION PLANS

The statewide School Employees Retirement System of Ohio (SERS) or the State Teachers Retirement System (STRS) covers all School District employees. The School District's employer contributions to both systems are based on a percentage of employees' salaries. State law requires the School District pay the employer share as determined by each retirement system, which is currently 14%.

School District contributions for fiscal year 2008 were \$1,362,927 as the employer portion to STRS and \$453,090 in employer contributions to SERS. Included in the SERS remittance is an annual employer surcharge. Starting in 1988-89 an additional employer charge (surcharge) was levied on salaries of lower-paid SERS members. Minimum annual compensation is determined annually by the System's actuaries and was \$52,210 for fiscal 2008. Surcharge is calculated at 14% of the difference between the member's annual compensation and the minimum compensation level. However, the surcharge is now capped at 2% of each employer's SERS salaries. For the 2008 fiscal year, a surcharge of \$42,503 was incurred.

OTHER INFORMATION

Independent Audit

Provisions of State statute require an independent auditor subject the School District's financial statements to an annual examination. In addition to meeting the requirement set forth in state statutes, the audit was also designed to meet the requirements of the Federal Office of Management and Budget Circular A-133. Rea & Associates, Inc. Certified Public Accountants, performed the audit for the period ended June 30, 2008. Those provisions have been satisfied and the opinion of the Independent Auditors is included in the financial section of this CAFR.

GFOA Certificate of Achievement

The Government Finance Officers' Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Norton City School District for its CAFR for the fiscal year ended June 30, 2007. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of a state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the high standards required by the Certificate of Achievement program.

Acknowledgments

The preparation and publication of the 2008 CAFR of the Norton City School District was facilitated through the assistance of many people. My sincere appreciation is extended to the staff of the Treasurer's office for their dedication, support, and encouragement throughout this process. In addition, sincere thanks are also extended to various administrators and employees of the School District, the Summit County Fiscal Officer's office staff and other outside agencies whose efforts contributed to the fair presentation of the statistical data.

Finally, sincere appreciation is expressed to the Norton City Schools Board of Education for their support and commitment to continuing efforts made in improvements of financial management and reporting as we continue in our effort to reach "Every Child Every Day".

Respectfully submitted, girbush

FINANCIAL SECTION

December 16, 2008

The Board of Education Norton City School District 4128 Cleveland-Massillon Rd. Norton, Ohio 44203

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Norton City School District (the School District), as of and for the year ended June 30, 2008, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2008, and the respective changes in financial position and cash flows, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2008, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Norton City School District Independent Auditor's Report Page 2

The Management's Discussion and Analysis on pages 3 through 12 are not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Norton City School District's basic financial statements. The combining and individual nonmajor fund statements and other schedules, listed in the table of contents as supplementary information, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material aspects, in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Kea & Associates, Inc.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

This discussion and analysis of Norton City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2008. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2008 are as follows:

- Net assets of governmental activities increased \$296,653, representing a 2.8% increase from fiscal year 2007.
- General revenues accounted for \$18,466,201 in revenue or 80.02% of all revenues. Program specific revenues in the form of charges for services, and operating grants, contributions and interest accounted for \$4,611,982 or 19.98% of total revenues of \$23,078,183.
- Compared to fiscal year 2007, the total assets of governmental activities decreased by \$449,672.
- The School District had \$22,781,530 in expenses related to governmental activities; only \$4,611,982 of these expenses was offset by program specific revenues that include charges for services, operating grants, contributions and interest. General revenues of \$18,466,201 contributed to support these programs.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Norton City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net assets and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longerterm view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of Norton City School District, the general fund is by far the most significant fund.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2008?" These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis, of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the School District's activities are considered to be all Governmental Activities:

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities and food service operations.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 16. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's only major governmental fund is the general fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental funds is reconciled in the financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

The School District as a Whole

Recall that the statement of net assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2008 compared to 2007:

Table 1 Net Assets

Ivel Ass	eis						
		Governmental Activities					
		<u>2008</u>		<u>2007</u>			
Assets							
Current and other assets	\$	18,535,859	\$	18,833,850			
Capital assets, net of depreciation		4,153,137		4,304,818			
Total assets		22,688,996		23,138,668			
Liabilities							
Current and other liabilities		10,818,551		11,676,423			
Long-term liabilities:							
Due within one year		143,065		174,332			
Due in more than one year		842,201		699,3 87			
Total liabilities		11,803,817		12,550,142			
Net Assets							
Invested in capital assets, net of debt		3,974,054		4,251,688			
Restricted		1,758,276		1,279,381			
Unrestricted		5,152,849		5,057,457			
Total net assets	\$	10,885,179	\$	10,588,526			

Over time, net assets can serve as a useful indicator of a government's financial position. During fiscal year 2008, the School District had an increase in net assets of \$296,653.

Capital assets, net of related debt reported on the government-wide statements represents a large component of net assets. Capital assets include land, land improvements, buildings, furniture and equipment, and vehicles, all of which are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net assets, \$1,758,276, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted net assets, \$4,703 is restricted for debt service payments, \$1,111,071 is restricted for capital projects and \$642,502 is restricted for other purposes. The remaining balance of net assets of \$5,152,849 is unrestricted.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

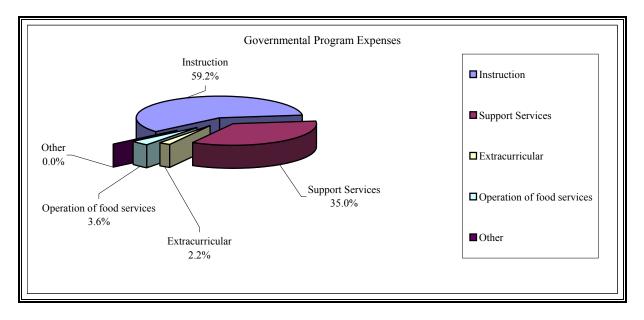

Governmental Activities

Norton City School District depends on both property taxes and State funding.

Several revenue sources fund our governmental activities with property tax and State foundation revenues being the largest contributors. Property tax levies generated over \$8.8 million in 2008. General revenues from grants and entitlements, such as the school foundation program, generated over \$9 million. Due to the combination of taxes and intergovernmental funding representing nearly 77.5% of all revenues, the School District monitors both of these sources very closely for fluctuations.

A review of Table 2 reflects that the total cost of instructional services was \$13,493,794, or 59.2% of governmental program expenses. Instructional expenses include activities directly related to the teaching of pupils and the interaction between teacher and pupil. As compared to the prior year, these expenses increased \$153,744, or 1.2%. While these expenses increased, expenses throughout other programs decreased, due to cut-backs in human resources.

Pupil services and instructional staff include the activities involved in assisting staff and the content and process of teaching pupils. These expenses represent \$1,750,074 of the total governmental program expenses, or 7.7%. These expenses increased over the prior year in the amount of \$46,762, or 2.8% due to an increase in personnel.

Below is a graphical display of the program expenses in a more aggregate total than the table above.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

Board of Education, administration, fiscal and business classifications reflect expenses associated with establishing and administering school operation policies, financial operations and activities concerned with purchasing, receiving and maintaining goods and services for the School District. The total cost was \$2,507,227, or 11% of governmental program expenses. Expenses of these programs increased \$47,361, or 1.9%, as compared to fiscal year 2007, driven mostly by increases in administration expenses.

Operation and maintenance of plant expenses refer to the care and upkeep of the buildings, grounds, equipment and the safety of the School District's operations. The total cost for the operation and maintenance services was \$2,087,838, or 9.2% of the governmental program expenses. Expenses for providing this program increased \$64,259, or 3.2% as compared to the prior year. The primary cause of this increase was due to an increase in operating expenses.

Pupil transportation expenses are expenses related to the transportation of students to and from school, as well as the service and maintenance of those vehicles. Total transportation cost was \$1,539,668, or 6.8% of the total governmental program expenditures. Expenses for providing this program increased \$180,507, or 13.3% as compared to the prior year. The primary cause of this increase was due to the increase in operating expenses and additional depreciation expense.

Overall, the School District's fiscal year revenues exceeded expenses by \$296,653. This is due to an increase in tuition and fees and an increase in grants and entitlements. The School District also continued to benefit from changes to the employee health care network made in prior years.

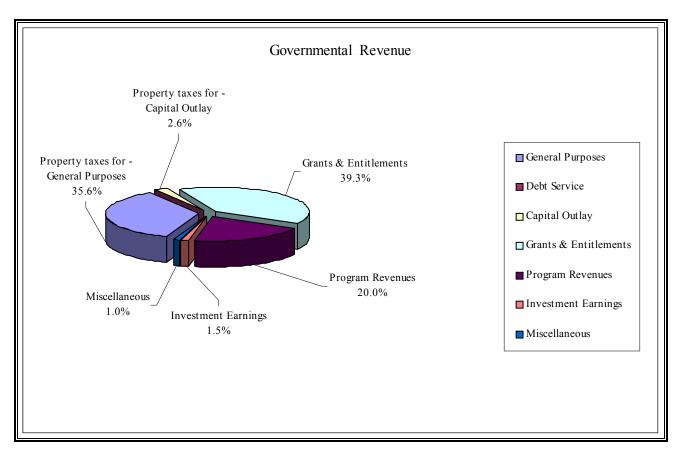

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services as compared to fiscal year 2007. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

Program revenues include charges for services, grants, contributions and interest that are program specific. Surrounding schools whose resident students are educated by the Norton City School District pay the School District \$5,783 per pupil under Ohio's open enrollment entitlement.

Property taxes made up 38.2% of total revenues for governmental activities for the Norton City Schools in fiscal year 2008. Program revenues for governmental activities provided 20% of governmental revenues with 80% of all governmental activities supported through property taxes, grants and entitlement, and other general revenues. The 39.3% provided by the grants and entitlements portion of general revenues includes monies received from the Ohio Department of Education, State Foundation Program and property tax relief such as the homestead exemptions and rollbacks provided by HB 920.

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The total revenues and other financing sources for governmental funds were \$23,133,656 and total expenditures were \$23,037,848. The net change in fund balance was significant in the general fund with a decrease of \$360,795. This decrease is attributed to increases in instruction and support service expenditures.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, the final budget basis revenue and other financing sources estimate was \$20,238,119. This was in line with the original budget estimate of \$20,244,642. Actual revenues were \$241,410 higher due to conservative estimates for property taxes and intergovernmental revenues.

The original expenditures and other financing uses estimate of \$20,463,623 was increased throughout the year with an ending estimate of \$22,463,620. Although budgeted expenditures were increased, actual expenditures and encumbrances of \$21,116,201, for the year, fell below the final budget by \$1,347,419. This is due to controls used with departmental budgeting. Even though the appropriated amount exceeded the actual amounts the individual departments fell closely within their budgets.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2008, the School District had \$4,153,137 invested in land and land improvements, buildings, furniture and equipment and vehicles. Table 4 shows fiscal year 2008 balances compared to fiscal year 2007:

	Governmental Activities						
	<u>2008</u>	<u>2007</u>					
Land	\$ 71,000	\$	71,000				
Land improvements	660,667		716,971				
Buildings and improvements	2,376,758		2,480,850				
Furniture and equipment	460,462		360,410				
Vehicles	 584,250		675,587				
Total capital assets	\$ 4,153,137	\$	4,304,818				

The increase in furniture and equipment was due to the purchase of new copiers used throughout the School District. The total decrease in the value of assets, as compared to the prior year, is due to the current year's depreciation on the School District's assets. See Note 6 to the basic financial statements for detail on the School District's capital assets.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

Debt

Table 5 summarizes the capital leases outstanding:

Table 5Outstanding Debt, at Fiscal Year End

	<u>Governmen</u>	tal Activities
	<u>2008</u>	<u>2007</u>
Capital Leases	\$ 179,083	\$ 53,130
Total outstanding debt	<u>\$ 179,083</u>	\$ 53,130

The capital leases are to be repaid from the general fund, which the School District has budgeted to meet these requirements.

At June 30, 2008, the School District's overall legal debt margin was \$28,040,869 with an unvoted debt margin of \$306,810. The School District is not currently rated by Standard & Poor's or Moody's Investors Service. See Note 11 to the basic financial statements for detail on the School District's long-term obligations.

Current Issues Affecting Financial Condition

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient...". The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

Due to the unsettled issues in the school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years. In conclusion, the School District's system of budgeting and internal controls is well regarded.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions or need additional financial information, contact Stephanie Hagenbush, Treasurer/Chief Fiscal Officer of the Norton City School District, 4128 South Cleveland Massillon Road, Norton, Ohio 44203 by phone (330) 825-2114 or e-mail <u>shagenbush@norton.summit.k12.oh.us</u>.

Net assets at end of year	\$	87,590

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DESCRIPTION OF THE SCHOOL DISTRICT

The Norton City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's six instructional/support facilities staffed by 110 non-certificated employees and 159 certificated teaching and support personnel, including 16 administrators that provide services to 2,505 students and other community members.

Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no material component units.

The School District is associated with the Northeast Ohio Network for Educational Technology and the Four Cities Educational Compact, which are defined as jointly governed organizations. Jointly governed organizations are governed by representatives from each of the governments that create the organizations, but there is no ongoing financial interest or responsibility by the participating governments. Information regarding these organizations is presented in Note 13. The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, to its governmental activities and to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the School District's accounting polices.

A. Basis of Presentation - Fund Accounting The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling-up" revenues and expenses. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

B. Fund Accounting The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Fund Types:

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The general fund is the School District's only major governmental fund.

<u>General Fund</u>: The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources whose use is restricted for a particular purpose.

Proprietary Fund Type

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

<u>Internal Service Fund:</u> The internal service fund accounts for the financing of services provided by one department or agency to other departments or agency of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for revenue received from other funds and the settlement expenses for medical, surgical, prescription drug, and dental and vision claims of School District employees.

Fiduciary Fund Types

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust fund, which accounts for several scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only agency fund reports resources that belong to the student bodies of the various schools.

C. Measurement Focus and Basis of Accounting Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets and liabilities associated with the operation of the School District are included on the statement of net assets.

> <u>Fund Financial Statements</u> - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include an reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

> The private purpose trust fund is reported using the economic resources measurement focus.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the fund are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its internal service fund activity. Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenue - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the school district, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2008, but which were levied to finance fiscal year 2009 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating grants and contributions" program revenue account.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

 D. Budgets and Budgetary Accounting
 The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

> The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. The amounts reported as the original budget revenue in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenue amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2008. The amounts reported as the original budgeted expenditure amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditure amounts represent the final appropriation amounts passed by the Board during the year.

> At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

E. Cash and Investments	To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and cash equivalents". During the fiscal year, investments were limited to overnight repurchase agreements, certificates of deposit, and interest in STAROhio, the State Treasurer's Investment Pool. These investments are stated at cost, which approximates market value (fair value). Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds, unless the Board specifically allows the interest to be recorded in other funds. The Board has passed a resolution to allow interest to also be recorded in other funds as listed in Note 3.
	The School District is self-insured for health coverage. These monies are held separate from the School District's central bank account and are reflected as "Cash and cash equivalents in segregated accounts". The School District also holds monies separate from the School District's central bank account for monies held for future scholarships, which are reported in the scholarships private purpose trust fund.
F. Prepaids	Payments made to vendors for services that will benefit periods beyond June 30, 2008, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.
G. Interfund balances	On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net assets.
H. Inventory	On the governmental-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.
	Inventories on the fund financial statements are stated at cost on a first-in, first-out basis. Inventories of the general fund consist of expendable supplies held for consumption. Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale. Inventories reported on the fund financial statements are expensed when purchased.
I. Restricted Assets	Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation. Restricted assets in the general fund include the amount required to be reserved for unclaimed monies. See Note 16 for additional information regarding statutory reserves.

J. Capital Assets General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The School District's policy is not to capitalize interest costs incurred as part of construction.

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land improvements	10 - 30 years
Buildings and improvements	30 - 50 years
Furniture and equipment	5 - 20 years
Vehicles	10 - 15 years

K. Compensated
 Absences
 Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, the matured portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

L. Net Assets	Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. Net assets restricted for other purposes primarily include amounts generated by individual school buildings to supplement co-curricular and extra-curricular programs, and for operating or capital costs for any new and innovative programs designed to enhance or promote education within the School District.
---------------	--

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

M. Accrued Liabilities
and Long-term
ObligationsAll payables, accrued liabilities and long-term obligations are reported in the
government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims, judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

- **N. Operating Revenues** and Expenses Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting these definitions are classified as non-operating.
- O. Interfund Interfund Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of net assets.
- **P. Estimates** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Fund Balance Reserves The School District records reservations for portions of fund balances, which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations or expenditures. Unreserved fund balance indicates that portion of fund balances, which are available for appropriation in future periods. Fund balance reserves are established for encumbrances, inventories, prepaids, property taxes and unclaimed monies.

NOTE 2 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

	General
GAAP Basis	\$ (360,795)
Revenue Accruals	174,839
Expenditure Accruals	43,192
Encumbrances (Budget Basis)	
Outstanding at year end	 (493,908)
Budget Basis	\$ (636,672)

Net Change in Fund Balance

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts. Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement:

- 1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAROhio);

- 7. Certain bankers' acceptances and commercial paper notes in an amount not to exceed 25% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days; and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits:

For the fiscal year ended June 30, 2008, the School District reported \$14,560 in "Equity in pooled cash and cash equivalents (restricted)" on the balance sheet. This amount represents a reserve for unclaimed monies.

The carrying value of the School District's deposits totaled (\$14,164), and the bank balances of the deposits totaled \$184,724. The entire bank balance of \$184,724 was covered by federal depository insurance.

<u>Custodial credit risk</u> is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the federal deposit insurance corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

B. Investments:

As of June 30, 2008, the School District had the following investments and maturities:

	Fair		
Investment type	Value	<u>Maturity</u>	<u>Rating</u>
Repurchase agreements	\$ 3,240,000	Daily	N/A ⁽¹⁾
STAROhio	 5,964,305	N/A	AAAm ⁽²⁾
	\$ 9,204,305		

⁽¹⁾ Underlying securities are exempt.

⁽²⁾ Standard and Poor's rating

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2008.

All interest is legally required to be placed in the general fund, the food service special revenue fund and the scholarships private purpose trust fund. Interest revenue credited to the general fund during fiscal year 2008 amount to \$312,232, which includes \$47,744 assigned from other School District funds.

<u>Custodial credit risk</u> for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's \$3,240,000 investment in repurchase agreements is to be secured by the specific government securities upon which the repurchase agreements are based. These securities, held by the counterparty and not in the School District's name, are Federal Home Loan Mortgage Corporation (FHLMC) bonds. These securities, held by the counterparty and not in the School District's name, must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement.

<u>Interest rate risk</u> is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit risk</u> is the possibility that an issuer or other counterparty to an investment will not fulfill it obligation. The School District's investment policy requires certain credit ratings for some investments as allowed by state law.

NOTE 4 - PROPERTY TAX

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located within the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35% of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed at 35% of true value and public utility tangible personal property currently is assessed at varying percentages of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. In prior years, tangible personal property was assessed at 25% of true value for capital assets and 23% of true value for inventory. The tangible personal property tax is being phased out – the assessment percentage for all property including inventory for 2006, 2007 and 2008 was 18.75%, 12.5% and 6.25%. This will be reduced to zero for 2009.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternative payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Summit County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the county by year-end are available to finance the current fiscal year operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property tax receivable represents delinquent taxes outstanding and real property, tangible personal property and public utility taxes which became measurable as of year end. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at year-end is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The advance at year-end was \$602,055 in the general fund and \$43,748 in the permanent improvement capital projects fund. These advances are recognized as revenue on the fund financial statements.

The assessed values upon which the current fiscal year taxes were collected are:

		2007	2006				
Property Category	<u>A</u>	ssessed Value	<u>Assessed Value</u>				
<u>Real Property</u>							
Residential and agricultural	\$	258,122,620	\$	255,108,200			
Commercial , industrial							
and mineral		41,487,830		40,275,790			
Public utilities		32,370		37,870			
<u> Tangible Personal Property</u>

NOTE 5 - RECEIVABLES

Receivables at year-end consisted of taxes, interfund, accrued interest, accounts, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

NOTE 6 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2008, was as follows:

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 91,365
Special	5,576
Vocational	22,674
Support services:	
Pupils	6,017
Instructional staff	12,341
Board of education	2,194
Administration	34,385
Fiscal	3,580
Business	17,983
Operation and maintenance of plant	82,551
Pupil transportation	108,232
Operation of non-instructional services	1,003
Operation of food services	11,857
Extracurricular activities	 2,924
Total depreciation expense	\$ 402,682

NOTE 7 - INTERFUND RECEIVABLES AND PAYABLES

Inter-fund receivables and payables result from the time lag between dates that (1) inter-fund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. During the year, the general fund advanced money to three nonmajor special revenue funds. The advances to the special revenue funds were used to fund state and federal grants where the money has not yet been received. All of these advances are expected to be repaid during the next fiscal year.

Due to general fund from:Nonmajor governmental funds\$ 51,511

NOTE 8 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years. The School District uses an internal service fund to record and report its selffunded health care insurance program. The claims liability of \$441,965, reported in the fund at year end was estimated by third party administrators and is based on the requirements of GASB Statement No. 10, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The School District purchases stop-loss coverage of \$60,000 per employee.

Changes in the fund's claims liability during 2007 and 2008 were:

Fiscal	Ba	lance at	Current	Claim	Balance at
<u>Year</u>	<u>begini</u>	ning of year	<u>year claims</u>	<u>payments</u>	<u>end of year</u>
2007	\$	454,859	2,860,492	2,778,560	\$ 536,791
2008	\$	536,791	3,052,132	3,146,958	\$ 441,965

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 9 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

> Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2008, 9.16 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2008, 2007 and 2006 were \$294,444, \$335,779 and \$304,124 respectively; 50 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

> New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. А member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

> A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

> Funding Policy - For the fiscal year ended June 30, 2008, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2007, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2008, 2007, and 2006 were \$1,292,378, \$1,159,206, and \$1,185,979 respectively; 82.3 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006. Contributions to the DC and Combined Plans for fiscal year 2008 were \$5,689 made by the School District and \$10,166 made by the plan members.

NOTE 10 - POST-EMPLOYMENT BENEFITS

A. School Employees Retirement System Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2008, 4.18 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2008, this amount was \$52,210.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006 were \$177,867, \$146,553, and \$139,123 respectively; 45 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2008, this actuarially required allocation was 0.66 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2008, 2007, and 2006 were \$21,215, \$20,750, and \$18,972 respectively; 50 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

> Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2008, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006 were \$99,414, \$89,170, and \$86,457 respectively; 82.3 percent has been contributed for fiscal year 2008 and 100 percent for fiscal years 2007 and 2006.

NOTE 11 - BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

	_	Balance <u>July 1</u>		<u>Additions</u>		eductions	Balance <u>June 30</u>	2.	ıe within ne <u>year</u>
Governmental activities									
Other obligations									
Compensated absences	\$	820,589	\$	221,597	\$	(236,003)	\$ 806,183	\$	<i>93,951</i>
Capital leases payable		53,130		179,827		(53,874)	 179,083		49,114
Total other liabilities		873,719		401,424		<u>(289,877)</u>	 985,266		143,065
Governmental activities Total long-term liabilities	\$	873,719	\$	401,424	\$	(289,877)	\$ 985,266	\$	143,065

The changes in long-term obligations of the School District during the fiscal year were as follows:

Compensated absences will be paid from the fund from which the employee is paid. In prior years, this fund has primarily been the general fund. Capital lease obligations will be paid from the general fund.

NOTE 12- CAPITALIZED LEASES - LESSEE DISCLOSURE

During fiscal year 2008, the School District entered into capitalized leases for the acquisition of copiers. The School District also has an existing capital lease for copiers which will end in fiscal year 2009. The terms of each agreement provide options to purchase the equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the fund financial statements of governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

Capital assets acquired by the new lease have been capitalized as equipment in the amount of \$179,827, which is equal to the present value of the future minimum lease payments on the government-wide financial statements. Principal payments in the current fiscal year totaled \$53,874 for both leases.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments at year-end.

Fiscal		Lease
<u>Year</u>	<u>Pa</u>	<u>tyments</u>
2009	\$	56,676
2010		40,536
2011		40,536
2012		40,536
2013		20,268
Total minimum lease payments		198,552
Less: amount representing interest		(19,469)
Total	\$	179,083

NOTE 13 - JOINTLY GOVERNED ORGANIZATIONS

Northeast Ohio Network for Educational Technology (NEOnet) is the computer service organization or Information Technology Center (ITC) used by the School District. NEOnet is an association of public school districts in a geographic area determined by the Ohio Department of Education. The Summit County Educational Service Center acts as the fiscal agent for the consortium. The purpose of the consortium is to develop and employ a computer system efficiently and effectively for the needs of the member Boards of Education. All districts in the consortium are required to pay fees, charges, and assessments as charged. NEOnet is governed by a board made up of superintendents from all of the participating districts. An elected Executive Board consisting of five members of the governing board is the managerial body of the consortium and meets on a monthly basis. The School District does not maintain an ongoing financial interest or an ongoing financial responsibility. Payments to NEOnet are made from various funds. During fiscal year 2008, the School District contributed \$75,252 to NEOnet. Financial information can be obtained by contacting the Treasurer at the Summit County Educational Service Center, who serves as the fiscal agent, at 420 Washington Ave., Suite 200, Cuyahoga Falls, Ohio 44221.

The Four Cities Educational Compact is a jointly governed organization that provides for the vocational and special education needs of the students of four participating school districts. The four-member board consists of the superintendent from each of the participating school districts. Students may attend any vocational or special education class offered by any of the four districts. If a student elects to attend a class offered by a school district other than the school district in which the student resides, the school district of residence pays an instructional fee to the school district that offered the class. Wadsworth City School District serves as the fiscal agent for this organization, collecting fees and distributing payments. The committee exercises total control over the operation of the compact, including budgeting, appropriating, contracting and designating management. All revenues are generated from charges for services. Financial information can be obtained by contacting the Treasurer at the Wadsworth City School District, 360 College St., Wadsworth, Ohio 44281.

NOTE 14 - ACCOUNTABILITY

As of June 30, 2008, four nonmajor special revenue funds had deficit fund balances. This deficit was caused by the application of generally accepted accounting principles. The general fund provides transfers to cover deficit balances in other funds; however, this is done when cash is needed rather than when accruals occur. The following funds had a deficit at year-end:

<u>Fund</u>	<u>I</u>	Deficit
District Managed Student Activity	\$	2,936
IDEA Grant		2,832
Title I		19,739
Title II-A		3,845

NOTE 15 - CONTINGENT LIABILITIES

The School District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the School District's management believes that such disallowances, if any, will be immaterial.

NOTE 16 - STATUTORY RESERVES

The School District is required by State statute to annually set-aside monies for the purchase of textbooks and other instructional materials, and for capital improvements. The amounts set-aside may be reduced by offset credits, which are monies received and restricted for the same specific purpose. Although the School District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero, these extra amounts may only be used to reduce the set-aside requirements of future years for the purchase of textbooks and/or instructional materials. Negative amounts are therefore not presented as being carried forward to the next fiscal year for the other set-asides.

Amounts not spent by year-end or reduced by offset credits must be held in cash at year-end and carried forward to be used for the same purposes in future years.

During the fiscal year ended June 30, 2008, the reserve activity was as follows:

Norton City School District

	Textbook <u>Reserve</u>	N	Capital Iaintenance <u>Reserve</u>	<u>Total</u>
Set-aside cash balance as of				
June 30, 2007	\$ (955,581)	\$	-	\$ (955,581)
Current year set-aside requirement	391,88 7		<i>391,887</i>	783,774
Current year offset	-		(600,705)	(600,705)
Qualifying disbursements	 (353,347)		-	 (353,347)
Total	\$ (917,041)	\$	(208,818)	\$ (1,125,859)
Balance carried forward to future years	\$ (917,041)			\$ <u>(917,041)</u>

NOTE 17 – NEW ACCOUNTING AND REPORTING STANDARDS

In September 2006, the GASB issued Statement No. 48, <u>Sales and Pledges of</u> <u>Receivables and Future Revenues and Intra-Entity Transfers of Assets and</u> <u>Future Revenues</u>. The School District has considered the implications of this statement and has determined that it has no impact on the financial statements or note disclosures for the current period

In May 2007, the GASB issued Statement No. 50, <u>Pension Disclosures</u>. The School District has determined that the adoption of this statement did not have an impact on the School District's financial statements; however, note disclosures related to pension benefits have been modified.

Combining Statements for Governmental Funds

Governmental Fund Descriptions

Nonmajor Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. A description of the School District's special revenue funds follows:

Food Services: To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for School District students and staff.

<u>Uniform School Supplies</u>: To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

<u>Customer Service Rotary</u>: To account for the revenues and expenditures related to the auto mechanic and auto body vocational programs.

<u>Adult Education</u>: To account for the revenues and expenditures related to the provision of credit and noncredit classes to the general public.

<u>Public School Support</u>: To account for specific local revenue sources (other than taxes) generated by individual school buildings (e.g. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

<u>Miscellaneous Local Grants</u>: To account for funds received from private organizations that are restricted for specific purposes.

<u>Underground Storage Tanks</u>: To account for the financial responsibility rules of the State Fire Marshall to cover deductibles.

<u>District Managed Student Activity</u>: To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

<u>Management Information System</u>: To account for state funds provided to assist the School District in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

Governmental Fund Descriptions

Nonmajor Special Revenue Funds (continued)

Entry Year Programs: To account for resources used to implement entry-year programs pursuant to division (T) of section 3317.024 of the Ohio Revised Code.

<u>*Data Communications*</u>: To account for revenues received from the state to be used to install and provide support costs for data communication links to connect any school to the local A-site.

<u>School Net Professional Development</u>: To account for revenues received to provide professional development programs related to technology.

<u>Poverty Aid</u>: A fund used to account for monies appropriated for poverty based assistance as part of the state foundation system. Programs included are academic intervention, all-day kindergarten, class-size reduction, Limited English Proficient students, professional development, dropout prevention, and community outreach.

<u>Miscellaneous State Grants:</u> A fund used to account for various monies received from state agencies which are not classified elsewhere.

<u>IDEA Grant</u>: To account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

<u>Title I</u>: To account for federal funds provided to meet the special needs of educationally deprived children.

<u>*Title V*</u>: To account for federal funds to provide programs for at-risk students; instructional materials to improve the quality of instruction; programs for professional development; programs to enhance personal excellence of students and student achievement.

Drug Free School Grant: To account for federal funds provided to establish, operate and improve programs for drug abuse prevention, early intervention, rehabilitation referral and education in schools.

EHA Preschool Grant: To account for federal funds used for the improvement and expansion of services for handicapped children ages three through five years.

Governmental Fund Descriptions

Nonmajor Special Revenue Funds (continued)

<u>*Title II-A*</u> To account for monies to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

<u>Miscellaneous Federal Grants</u>: To account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere.

Nonmajor Debt Service Fund

The debt service fund is used to account for the accumulation of resources and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the government is obligated in some manner for the payment. It is also used to account for the accumulation of resources and the payment of general obligation notes payable, as required by Ohio Law.

Governmental Fund Descriptions

Nonmajor Capital Projects Funds

Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary and trust funds. The capital projects funds are:

<u>*Permanent Improvement:*</u> To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

<u>SchoolNet</u>: To account for monies received that are used to help the School District obtain computers and related educational technology equipment and/or the necessary infrastructure for educational technology.

This page is intentionally left blank.

STATISTICAL SECTION

Statistical Section

This part of the School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents Page(s) **Financial Trends** S2 - S8 These schedules contain trend information to help the reader understand how the School District's financial position has changed over time. **Revenue Capacity S9 - S12** These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source. **Debt Capacity S13 - S16** These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future. S17 - S18 **Economic and Demographic Information** These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments. **Operating Information** S19 - S26 These schedules contain service and infrastructure data to help the reader understand how the information in the School District's

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement 34 in fiscal year 2002; schedules presenting government-wide information include information beginning in that fiscal year.

financial report relates to the services the School District provides

and the activities it performs.

The assessed value of real property (including public utility real property is 35% of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25% of true value for railroad property to 88% for electric transmission and distribution property. General business tangible personal property was assess in previous years at 25% for machinery and equipment. General business inventory tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, the 2 1/2% and the homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
