NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2010

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Granville Exempted Village School District (the District's) federal award programs' receipts and disbursements. The schedule has been prepared on the cash basis of accounting.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Education Granville Exempted Village School District Licking County P.O. Box 47 Granville, Ohio 43023

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Granville Exempted Village School District, Licking County, Ohio, (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated September 16, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under Government Auditing Standards.

We did note a certain matter not requiring inclusion in this report that we reported to the District's management in a separate letter dated September 16, 2010.

We intend this report solely for the information and use of management, Board of Education and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM, INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133, AND FEDERAL AWARDS RECEIPTS AND EXPENDITURE SCHEDULE

Board of Education Granville Exempted Village School District Licking County P.O. Box 417 Granville, Ohio 43023

To the Board of Education:

Compliance

We have audited the compliance of Granville Exempted Village School District, Licking County, Ohio, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended June 30, 2010. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Granville Exempted Village School District, Licking County, Ohio, complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of opining on compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Federal Awards Expenditures Schedule

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Granville Exempted Village School District, Licking County, as of and for the year ended June 30, 2010, and have issued our report thereon dated September 16, 2010. Our audit was performed to form opinions on the financial statements that collectively comprise the School's basic financial statements. The accompanying federal awards expenditures schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Granville Exempted Village School District Licking County P.O. Box 417 Granville. Ohio 43023

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The Auditor of State shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Granville Exempted Village School District, Licking County, Ohio, has adopted an anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

- 1. We noted the Board adopted its anti-harassment policy on March 17, 2008 and updated the policy on January 11, 2010.
- 2. We read the policy, noting it included the following requirements from Ohio Rev. Code Section 3313.666(B):
 - (1) A statement prohibiting harassment, intimidation, or bulling of any student on school property or at school-sponsored events.
 - (2) A definition of harassment, intimidation, or bulling that includes the definition in division (A) of Ohio Rev. Code Section 3313.666;
 - (3) A procedure for reporting prohibiting incidents;
 - (4) A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;

Granville Exempted Village School District Licking County Independent Accountant's Report on Applying Agreed-Upon Procedures Page 2

- (5) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974, "88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident;
- (6) A procedure for documenting any prohibited incident that is reported;
- (7) A procedure for responding to and investigating any reported incident;
- (8) A strategy for protecting a victim from additional harassment, intimidation, or bulling, and from retaliation following a report;
- (9) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment of the Constitution of the United States;
- (10) A requirement that the District administration semiannually provide the President of the District Board a written summary of all reported incidents and post the summary on its web site, if the District has a web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974, "88 Stat. 571, 20 U.S.C. 1232q, as amended.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

September 16, 2010

To the Citizens and Board of Education of the Granville Exempted Village School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Granville Exempted Village School District (the "District"). This CAFR, which includes an unqualified opinion from the Auditor of State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditors' Report.

This report includes all funds of the District. The District provides a full range of traditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for state funds distributed to Granville Christian Academy and Welsh Hills School, private schools located within the District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While these organizations share operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, these organizations' financial statements are not included in this report.

PROFILE OF THE SCHOOL DISTRICT

The District was organized in the late 1800's and is a fiscally independent political subdivision of the State of Ohio. The District is a public school system located in Licking County. The District's area is approximately 48 square miles and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. Granville is a quaint New England-type village founded in 1805 by pioneers from Massachusetts and Connecticut. The area enjoys a favorable reputation for its educational institutions, including Denison University.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the tax budget, the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

The District had an estimated enrollment of 2,533 students for the fiscal year end June 30, 2010 compared to 2,510 students for the fiscal year ended June 30, 2009. These students are housed in one elementary school (grades K to 3), an intermediate school (grades 4 to 6), a middle school (grades 7 to 8), and a comprehensive high school (grades 9 to 12). The age of the buildings varies with the oldest built in 1950 and the newest, intermediate building, opened in fiscal year 2003. Additionally, the District operates an administration building, a transportation building, and a maintenance office.

The District estimates enrollment to be 2,552, 2,575, and 2,625 for the fiscal years ending June 30, 2011, 2012, and 2013 respectively. The District's enrollment are based on average daily attendance figures and do not include students living within the District's attendance area who attend charter or private schools.

Economic Condition and Outlook

Although the District has been impacted by the national recession, the local economy is expected to continue to expand with the completion of the widening and expansion of State Route 161 completed in the spring of 2010.

The Granville community is crafting a Comprehensive Development Plan. This Comprehensive Plan Update is intended to provide a framework through which the Granville Community can address issues related to the future of the community, including the extension of the Columbus region into Licking County, the strengthening of the tax base, and the expansion of housing opportunities, and assist with decisions that also serve to protect and preserve the rural character of the Township, the small town character of the Village, the quality and capacity of Granville schools, and other aspects of the community's quality of life.

The Granville area offers an excellent opportunity for business growth and expansion. The community contains a diverse group of employers, from small cottage home based businesses to major commercial/industrial and service corporations. Jobs are based in the college, area businesses, and many employers in the Columbus metropolitan area. Rich in higher education opportunities, Granville is the home of Denison University, and located just east of Granville, Central Ohio Technical College and The Ohio State University Newark campus. The four largest employers in the District in terms of numbers of employees are: Denison University, Granville Exempted Village Schools, Owens Corning Technical Center, and Mid-Ohio Mechanical, Inc.

Ohio's new biennium budget bill, approved for fiscal year 2010 and 2011 includes some significant operational changes and a new way of funding Ohio schools. Due to shortfalls in the state economy, the budget reduced funding for Ohio schools, including a 1% reduction in fiscal year 2010 and an additional 2% reduction for fiscal year 2011 for the District. Federal Stimulus Grants (ARRA) have supplemented the State funding; providing funds for three additional positions.

The Granville School District has been a good steward of the community's tax dollars by carefully reviewing all expenditures and making reductions to extend financial resources.

Long-term Financial Planning – The financial forecast of General Fund operations for the next five years demonstrates that the District's fiscal year 2011 ending General Fund cash balance is projected to be approximately \$3.9 million. Negative ending cash balances are projected beginning in fiscal year 2013.

The projected declining General Fund cash balance is a reflection of the challenge of Ohio school district financing and the impact of the economic downturn. The District has had reductions in state funding for the last two years. Approximately 37% of the total operating revenue is from state funding sources. In addition, there is no permanent reimbursement plan to replace tangible tax revenues eliminated through House Bill 66 passed in June 2005, and possible further eroding of the Districts tax base through future legislation. While HB 66 contained a reimbursement plan for school districts for lost tangible taxes, these reimbursements will begin to be phased out in 2011 until they are entirely eliminated in 2018 calendar year.

The District has placed a 5.8 mill operating levy on the ballot for the General Election November, 2010. If approved, this levy will generate \$2.4 million annually and will enable the District to continue its current programs and services, as well as to implement desired improvements identified in the District's strategic plan.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Accomplishments for Fiscal Year 2010

Financial

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This was the first year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Energy Initiatives

In fiscal year 2008, the District issued \$2 million in HB264 energy notes to fund comprehensive energy projects, as approved by the State of Ohio, that demonstrated energy savings and reduced consumption. Granville Schools District staff actively pursued ways to reduce energy costs, as well as our carbon footprint. Through this initiative and conservation programs the district has reduced the number of kilowatt-hours used by 1,232,585, reduced energy costs from \$1.57/sq.ft. to \$1.09/sq.ft., reduced natural gas, water and electric costs by nearly \$170,000.

Health Care Benefits

Medical health care benefits were moved to a new carrier which held premiums at the fiscal year 2009 level for fiscal year 2010. Benefit plan changes for fiscal year 2011 include higher deductibles, which will provide additional savings in health care premiums in fiscal year 2011. Effective contract negotiations provided a 15% premium reduction for vision benefit premiums and a two year rate guarantee for dental premiums.

Food Service Program

The District's Wellness Committee helped set standards for a new food service program implemented in fiscal year 2010. This program provides nutritionally sound food choices at reasonable prices. The program has been a resounding success gaining local and national recognition for use of organic and locally grown ingredients. The program is on target to operate within its revenues for fiscal year 2011.

Instruction & Academic Achievement

The District earned the Ohio Department of Education's (ODE) designation "Excellent" for the 2009-2010 Local Report Card. Among the highlights on the 2010 Local Report Card, the District:

- Exceeded state goals for all 24 academic exams.
- The District has exceeded every state indicator since the Local Report Card was developed.
- Granville is one of only four Ohio districts to have met 100 percent of the indicators every year since 1998.
- Exceeded state Graduation rate goal (Ohio goal=90 percent/Granville= 98.9 percent).
- Exceeded state Attendance rate goal (Ohio goal=93 percent/Granville= 95.7 percent).
- Achieved a high Performance Index Score 106.6
- Met Annual Yearly Progress for the seventh consecutive year.
- Passage rates are higher than similar district averages in 15 of 26 indicators for grades 3-10.
- Ranks 15th in Expenditures Per Pupil (\$9,530 in FY 09) among 21 similar districts.
- Granville is one of nine similar districts to spend below the Expenditure Per Pupil average of \$10,254.

Each of the District's four schools also earned either an Excellent rating from ODE for their 2009-2010 Local Report Card.

Granville High School (GHS)(Grades 9-12) earned an "Excellent" rating by meeting 12 out of 12 state indicators and earning a Performance Index rating of 108.9. GHS' graduation rate is an outstanding 98.9 percent. With 82 percent of the student body participating in the ACT test, the mean score was 25 (state average 21.8 and national average 21.0); while 76 percent of the students participated in the SAT test, earning a mean score of 555. 116 GHS graduates took Advanced Placement tests in preparation for college and 72 percent of those students earned a score of three or higher. The school had five students qualify as Commended Scholars and one National Merit Semifinalists.

Granville Middle School (GMS) (Grade 7 & 8) also earned the "Excellent" designation on the 2009-2010 Local Report Card. The school met 8 out of 8 state indicators and earning a Performance Index rating of 105.7.

Granville Intermediate School (GIS)(Grade 4-6) also earned the "Excellent" designation on the 2009-2010 Local Report Card. The school met 8 out of 8 state indicators and earning a Performance Index rating of 105.4.

Granville Elementary School (GES)(Grade K-3) earned the "Excellent" designation from ODE on the 2009-2010 Local Report Card. The school met 3 out of 3 state indicators and earning a Performance Index rating of 108.2 and met Adequate Yearly Progress. 92.7 percent of GES students passed the third grade Reading and Math test at the "proficient" level or higher, placing them at the very top percentages of all scores for Ohio Schools.

Granville High School has received a national *High Schools That Work (HSTW)* Gold Achievement Award based on the progress of local school leaders and teachers in improving school practices and raising student achievement.

A number of the District's teachers earned local, state and national recognition in fiscal year 2010 including Outstanding Secondary Classroom Teacher, Ohio Council of Teachers of Mathematics, Teacher Excellence Award, International Technology Education Association and the Fulbright Best Practices in Education for Sustainable Development (ESD) Conference Participation. Twelve District teachers have earned the designation "Master Teacher" from ODE, bringing the District's total number of Master Teachers to 47.

Three schools were named recipients of the "2010 Buckeye Best Healthy School Awards." Granville Elementary and Intermediate schools earned a Gold Award, while Granville Middle School earned a Silver award.

Initiatives for Fiscal Year 2011

Financial

The District will apply to receive the Certificate of Excellence in Financial Reporting for its fiscal year 2010 CAFR.

The District has aggressively identified areas to reduce expenses without sacrificing direct services to students. Our goal has been to keep reductions away from the classroom. The purpose is to maintain the outstanding quality of the District's educational program.

The District is reviewing strategies to comply with the State's upcoming full-day kindergarten mandate and maintaining lower class size requirements for kindergarten through grade 3. A significant amount of additional staffing and facility space will be needed to meet compliance. Additional revenue sources and program restructuring will be investigated as State funding continues to decrease.

Community initiated, the District has applied for a "Safe Routes to Schools" grant through the Ohio Department of Transportation. This grant is intended to reduce transportation costs and support healthy lifestyles and may be used for bike/pedestrian facilities, educational materials and safe travel plans.

Instruction

Ohio is a recipient of the Federal program Race to the Top and the District is participating. The District staff is developing a four-year master plan. This federal grant program will provide additional resources needed to implement strategies for improving student learning and for making the transition to adopting Core Curriculum Standards.

FINANCIAL POLICIES AND INFORMATION

The District courses of study will continue to be revised and periodically updated to provide students with instruction that is closely correlated with the State's academic content standards. To support the effective implementation of the new courses of study, additional financial resources will be needed to train teachers and to provide students with current learning materials and equipment.

Internal Controls

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Budgetary Controls

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources, and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

Risk Management

The District is enrolled in a group purchasing program for worker's compensation. In this plan, the individual premium rate is calculated based on the worker's compensation experience of the District. Additionally, the District carries all-risk property insurance on buildings and contents, fleet insurance on all rolling stock, liability and excess liability insurance coverage as well as officers' liability insurance, employee benefits liability, and workers' compensation intentional acts defense coverage. All employees are covered by the District's blanket bond, and medical coverage for employees is provided through a conventional healthcare plan.

Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, and State Treasury Asset Reserve of Ohio (STAR Ohio).

Independent Audit

Office of Management and Budget Circular A-133 requires an annual audit by independent accountants. The Auditor of State of Ohio conducted the District's fiscal year 2010 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

INDEPENDENT ACCOUNTANTS' REPORT

Board of Education Granville Exempted Village School District 104 North Granger Street Granville, Ohio 43023

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Granville Exempted Village School District, Licking County, Ohio, (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Granville Exempted Village School District, Licking County, Ohio, as of June 30, 2010, and the respective changes in financial position, thereof and the budgetary comparison for the General Fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2010 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Granville Exempted Village School District Independent Accountants' Report Page 2

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

As management of the Granville Exempted Village School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 3-9 of this report.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$9.2 million (net assets).
- Net assets decreased \$175,647, or less than 2%, during the fiscal year.
- As of the close of the most recent fiscal year, the District's governmental funds reported combined ending fund balances of \$7.3 million, a decrease of \$915,620 in comparison with the prior year. Of this amount, \$2.7 million is available for spending at the District's discretion (unreserved fund balance).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$1.5 million, or approximately 7% of general fund expenditures.
- The District's total bonded debt decreased by \$1.3 million, or approximately 4%, during the fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 27-28 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's major funds are the general and debt service funds. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 29-33 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements begin on page 35 of this report.

Other information. The combining and individual fund statements and schedules referred to earlier in connection with nonmajor governmental funds can be found on pages 67-88 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceed liabilities by \$9.2 million at the close of the current fiscal year.

By far the largest portion of the District's net assets (104%) reflects its investment in capital assets (e.g. land, buildings, furniture and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

An analysis of fiscal year 2010 in comparison with fiscal year 2009 follows for the Statement of Net Assets:

2010 2009		Change

Total assets decreased \$3.2 million. This decrease is primarily the result of a decrease in Pooled Cash and Cash Equivalents as a result of operations (\$1.4 million), a decrease in Intergovernmental Receivable resulting from a delinquent homestead and rollback payment from fiscal year 2009 (\$1.2 million), and a decrease in Capital Assets, Net (\$.7 million).

Total liabilities decreased \$2.5 million. This decrease is primarily the result of the District repaying general obligation bonds and an increase in the amount of property taxes available for advance at year. The District's total bonded debt decreased \$1.3 million during the fiscal year. Unearned Revenue decreased \$1.1 million due to the increase in amount of property taxes available for advance from County.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

An analysis of fiscal year 2010 in comparison with fiscal year 2009 follows for the Statement of Activities:

Net Assets at End of Year	\$ 9,240,353	\$ 9,943,216	

The schedule clearly shows the dependence upon tax revenues and state subsidies for governmental activities. Only 11 percent of the governmental activities performed by the District are supported through program revenues such as charges for services and grants and contributions. The remaining 89 percent is provided through general revenues such as property taxes and unrestricted grants and entitlements.

Revenues

During the fiscal year, charges for services revenue increased \$598,485, or 98.0%. This increase is primarily the result of the District starting food service operations which were outsourced during previous years.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

Program Expenses

During the fiscal year, non-instructional services expenses increased \$880,124. This increase is primarily the result of the District starting food service operations which were outsourced during previous years.

The Statement of Activities shows the cost of program services and charges for service and grants and contributions, offsetting those services. Table 3 shows the total cost of services and the net cost of services.

An analysis of fiscal year 2010 in comparison with fiscal year 2009 follows:

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

An analysis of fiscal year 2010 in comparison with fiscal year 2009 follows:

	Fund Balance June 30, 2010				 and Balance ne 30, 2009	Increase/ Decrease)
General Fund Debt Service Fund Other Governmental Funds	\$	4,436,101 3,461,113 (587,225)	\$ 5,223,405 3,097,101 (94,897)	\$ (787,304) 364,012 (492,328)		
Total	\$	7,309,989	\$ 8,225,609	\$ (915,620)		

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

General Fund

During the current fiscal year, the fund balance in the District's General Fund decreased \$787,304, compared with a \$887,822 decrease in the previous fiscal year.

Revenues remained steady and increased \$124,559 during the fiscal year. Expenditures increased \$50,354, or less than one percent. This increase is primarily the result of inflationary increases in expenditures.

Debt Service Fund

Revenues outgained expenditures in the debt service fund by \$364,012 as a result of property tax and intergovernmental revenues outstripping current debt service obligations.

General Fund Budget Information

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

There were only minimal differences between the District's original and final budgeted amounts.

The District's actual revenues exceeded the final revenues estimate by \$839,133, or 4%. This variance is primarily the result of the fiscal year 2009 second half homestead and rollback payment from the State of Ohio not being received until after fiscal year-end.

Actual expenditures were \$1,052,567, or 4%, less than final appropriations.

Capital Assets

At the end of the fiscal year, the District's had \$36,836,831 (net of accumulated depreciation) invested in capital assets compared to \$37,540,000 in the prior year. This decrease in capital assets is due to additions of \$798,365 being offset by \$1,501,534 in depreciation. This investment in capital assets includes land, land improvements, buildings and improvements, furniture, fixtures and equipment, and vehicles. Detailed information regarding capital asset activity is included in the Note 7 to the basic financial statements.

Debt

At the end of the fiscal year, the District had total long-term debt outstanding of \$34,665,105, a decrease of \$1,321,961 from fiscal year 2009. The District had no long-term debt issuances during the fiscal year. The decrease is a result of principal payments offset by current year accretion and amortization. Detailed information regarding long-term obligations is included in Notes 8 to the basic financial statements.

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total taxable valuation of real and personal property. As of June 30, 2010, the District's general obligation debt was below the legal limit.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (UNAUDITED)

Economic Factors

The District's net assets decreased by \$175,647. However, based on the current financial information presented, the District has the ability to maintain current programs and staffing levels. With careful financial planning and prudent fiscal management, the District intends to be able to continue maintaining a positive cash flow.

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1 – DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

Granville Exempted Village School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by State statute and Federal guidelines.

The District was established in the late 1800's. The District serves an area of approximately 48 square miles. It is located in Licking County, and includes all of the Village of Granville and Granville Township as well as portions of the Cities of Newark and Heath and portions of Newark, Newton, McKean, St. Albans and Union Townships. It is staffed by 60 non-certified employees, 174 certified full-time personnel and 11 administrative employees who provide services to 2,572 full time equivalent students. The District currently operates four instructional buildings, one administrative building, and one transportation building.

Reporting Entity:

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the Granville Exempted Village School District, this includes general operations and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District provides the budget, the issuance of debt, or the levying of taxes. The District has no component units.

The following activities are included within the reporting entity;

Private Schools- Welsh Hills and Granville Christian Academy, private schools, operate within the District boundaries. Current State legislation provides funding to these private schools. These monies are received and disbursed on behalf of the private schools by the Treasurer of the District, as directed by the private schools in accordance with State rules and regulations. This activity is reflected in a special revenue fund for financial reporting purposes.

The District is associated with nine organizations, five of which are defined as jointly governed organizations, two as insurance purchasing pools, and one as a related organization. These organizations are the Licking Area Computer Association, Career and Technology Education Centers of Licking County, Metropolitan Educational Council, the School Study Council of Ohio, the Newark-Granville Community Authority, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Metropolitan Educational Council Group Insurance Pool, and the Granville Schools Education Foundation, Incorporated. These organizations are presented in Notes 14, 15, and 16 to the basic financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities (the District has none), which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds (the District has none), and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column.

(b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements, except agency funds which do not report results of operations and therefore have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, tuition, grants and student fees.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District reports unearned revenue on its statement of net assets and deferred revenue on the governmental funds balance sheet. Deferred revenue arises when assets are recognized before the revenue recognition criteria have been satisfied. For tax receipts, the "intended to finance" criteria must also be met. Grants and entitlements received before eligibility requirements were met have also been recorded as deferred revenue. On the governmental fund financial statements receivables not collected in the available period are recognized as deferred revenue. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the statement of net assets and governmental funds balance sheet and revenue is recognized.

The District reports the following major governmental funds:

General Fund — The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Debt Service Fund — The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Other Governmental Funds of the District account for food services, co-curricular activities, federal and state grants, and other resources.

Proprietary Funds – Proprietary funds consist of enterprise funds, which are used to report any activity for which a fee is charged to external users for goods or services, and internal service funds, which are used to allocate costs of centralized services. The District reports no proprietary funds.

Fiduciary Funds — Fiduciary funds are used to account for assets held by the District in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. Fiduciary funds include pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The District has two fiduciary funds both being agency funds. One accounts for the Newark-Granville Authority and the other accounts for student activities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements; however, interfund services provided and used are not eliminated.

(c) Budgetary Data

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, each of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increases tax rates and the filing requirement is waived by the Licking County Auditor. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control has been established by the Board of Education at the fund level for all funds. Any budgetary modifications at this level may only be made by the Board of Education. Budgetary allocations at the function and object level within all funds are made by the Treasurer. Advances in/out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid. The Building Fund is not budgeted as it consists solely of outstanding advances.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The certificate of estimated resources may be amended during the year if the projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statement reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statement reflect the amounts on the amended certificate of estimated resources in effect at the time the final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

(d) Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Interest in the pool is presented as "Pooled Cash and Cash Equivalents" on the financial statements. Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

The District has a segregated bank account for the athletic account monies held separate from the District's central bank account. This checking account is presented on the financial statements as "Cash in segregated accounts" since it is not deposited into the District treasury.

The District has segregated investments for non-negotiable certificates of deposit held separate from the District's investments. These non-negotiable certificates of deposit are to be used to provide scholarships to graduating seniors. These investments are presented on the financial statements as "Investments in Segregated Accounts" since they are not deposited into the District treasury.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as expenses, and sales of investments are not recorded as revenues. During the fiscal year, the District's investments were limited to federal agency securities, State Treasury Asset Reserve of Ohio (STAR Ohio), and certificates of deposit.

Cash in segregated accounts represents the cash balance of the athletic fund checking account at June 30, 2009 of \$5,000. Investments in segregated accounts of \$17,016 represents certificates of deposit held for the Ken Marshall and Eikenberry Memorial Funds, and the Jeanne Kaufman Consolidated Math Award.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. These funds include the general fund, permanent improvement fund, food service, public school support, district managed student activities and auxiliary services. In addition, interest earnings on debt service fund investments are recorded entirely in the general fund. Of the amount reported in the general fund, approximately \$11,488 was assigned from other District funds.

(e) Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. The District had no restricted cash and cash equivalents at year-end.

(f) Inventory and Prepaid Items

Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. The District's inventory balances consist of food commodities.

Payments made to vendors for services that will benefit periods beyond fiscal year-end are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

At fiscal year-end, because inventory and prepaid items are not available to finance future governmental fund expenditures, the fund balance is reserved in the fund financial statements by an amount equal to the carrying value of the asset. The District had no significant prepaid items at year-end.

(g) Capital Assets and Depreciation

Capital assets are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000. As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. Donated capital assets are recorded at their estimated fair market value as of the date received. The District does not possess any infrastructure.

All reported capital assets, with the exception of land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Land Improvements	15 - 20
Buildings and Improvements	20 - 50
Furniture, Fixtures and Equipment	5 - 20
Vehicles	10 - 15

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable", receivables and payables resulting from long-term interfund loans are classified as "loans to/from other funds", and receivables and payables resulting from payments on-behalf of other funds are classified as "due from/to other funds". These amounts are eliminated in the statement of net assets.

(i) Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

In the government-wide financial statements, all long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Long-term notes paid from the governmental funds are recognized as a liability in the fund financial statements since current resources are used to finance the debt.

(j) Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' right to receive compensation is attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for the accumulated unused vacation time when earned for all employees with more than one year of service.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at the fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for all employees having 10 or more years of current service with the District.

(k) Net Assets

Net Assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for auxiliary services and state and federal grants restricted for specified purposes.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. On the government-wide statement of net assets, none of the restricted net assets were a result of enabling legislation.

(l) Fund Balance Reserves

The District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available spendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances, supplies inventory, property taxes and long-term loans.

(m) Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year.

(n) Unamortized Issuance Costs/Bond Premium and Discount/Accounting Gain or Loss

On government-wide statements, issuance costs are deferred and amortized over the term of the bonds using the straight line method, which approximates the effective interest method. Unamortized issuance costs are recorded as a separate line item on the Statement of Net Assets.

Bond premiums are deferred and accreted over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For bond refundings resulting in the defeasance of debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. The accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction of the face amount of the new debt.

On the governmental fund financial statements, issuance costs and bond premiums are recognized in the current period.

(o) Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reported period. Actual results could differ from those estimates.

NOTE 3 – BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

Net Change in Fund Balance

GAAP Basis	\$ (787,304)
Revenues	(184,849)
Expenditures	75,223
Encumbrances	(286,472)
Budgetary Basis	\$ (1,183,402)

NOTE 4 – DEPOSITS AND INVESTMENTS

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District treasury. Active monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts:
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

Deposits

Custodial Credit Risk - In the case of deposits, this is the risk that, in the event of a bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

At fiscal year-end, the carrying amount of the District's deposits was \$4,101,804 and the bank balance was \$4,126,694. Of the District's bank balance, \$0 was exposed to custodial risk because it was all covered by Federal Deposit Insurance. Although all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

InvestmentsAt fiscal year end, the District's had the following investments:

			Investment Maturities		
		Percent	Within	1 to 2	2 to 3
Investment Type	Fair Value	of Total	1 Year	Years	Years
Repurchase Agreement	\$ 2,912,134	64.75%	\$ 2,912,134	\$ -	\$ -
STAR Ohio	1,585,234	35.25%	1,585,234		
Total	\$ 4,497,368	100%	\$ 4,497,368	\$ -	\$ -

Interest Rate Risk - The District's investment policy addresses interest rate risk to the extent that it allows the Treasurer to invest funds to a maximum maturity of five years. The Treasurer cannot make investments which he/she does not reasonably believe can be held until the maturity date. State statute requires that an investment matures within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk - STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The investments underlying the District's repurchase agreement were rated AAA. The District has no investment policy that addresses credit risk.

Concentration of Credit Risk - The District places no limit on the amount it may invest in any one issuer. The District's investment percentages are noted in the table above.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 5 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District's fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the school district. Real property tax revenue received in calendar year 2010 represents collections of calendar year 2009 taxes. Real property taxes received in calendar year 2010 were levied after April 1, 2009, on the assessed value listed as of January 1, 2009, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2010 represents collections of calendar year 2009 taxes. Public utility real and tangible personal property taxes received in calendar year 2010 became a lien December 31, 2008, were levied after April 1, 2009 and are collected in 2010 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property has been eliminated and the tax on the telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2008-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.

Tangible personal property tax revenue received during calendar 2010 represents the collection of 2009 taxes. Tangible personal property taxes received in calendar year 2010 were levied after April 1, 2009, on the value as of December 31, 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives its property taxes from Licking County. The County Auditor periodically advances to the District its portion of taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2010 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2010 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred/unearned revenue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 5 – PROPERTY TAXES (Continued)

On the government-wide financial statements, collectible delinquent property taxes have been recorded as a receivable and revenue, while on fund financial statements the revenue has been deferred.

The assessed values upon which the fiscal year 2010 taxes were collected are:

	2009 Second Half Collections		2010 First Half Collect		Collections

NOTE 6 – RECEIVABLES

Receivables at year-end consisted of property taxes, payments in lieu of taxes, intergovernmental and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of property taxes and payments in lieu of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables except property taxes are expected to be received within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

NOTE 8 - LONG-TERM OBLIGATIONS (Continued)

General Obligation Bonds

School Improvement General Obligation Refunding Bonds - On October 15, 1993, Granville Exempted Village School District issued \$7,536,838 in School Improvement General Obligation Refunding Bonds with interest rates varying from 2.6 percent to 4.65 percent to advance refund \$7,540,000 of outstanding 1990 school improvement bonds with an average interest rate of 10 percent. The proceeds of the refunding were deposited in an irrevocable trust with Park National Bank to provide for all future debt service payments. As a result, the 1990 Series bonds are considered to be defeased and the liability for those bonds has been removed from the financial statements. The 1990 School Improvement Bonds matured on December 2, 2002.

The total principal and interest requirements to retire the School Improvement Refunding General Obligation Capital are as follows:

Ending June 30,	Principal	Interest
2011	\$ 120,060	\$ 536,284
2012	108,468	546,532
2013	100,025	561,139
2014	88,378	556,622
2015	79,779	273
2016	70,021	539,978
Total	\$566,731	\$2,740,828

The District issued School Improvement Bond Anticipation Notes at 4.87 percent for \$21,220,000 on May 3, 2001, as a result of the District passing a 7.75 mill levy on November 7, 2000. The purpose of the notes was to build a new intermediate/elementary building for grades 4-6, an expansion of the high school, a new maintenance building, renovation of the elementary school and middle school, and to update building technology. The School Improvement Bond Anticipation Notes matured on December 6, 2001. On October 4, 2001 the District issued \$21,209,782 in General Obligation School Improvement bonds to pay off the bond anticipation notes. The District received \$22,053,938 in bond proceeds, which includes a \$835,218 premium and \$8,938 in accrued interest. The \$21,209,782 bond issue included serial, term, and capital appreciation bonds in the amount of \$2,495,000, \$18,685,000, and \$29,782 respectively.

The capital appreciation bonds will mature December 1, 2012 through 2016. These bonds were purchased at a discount at the time of issuance and, at maturity all compound interest is paid and the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. The maturity amount of the bonds is \$2,175,000. The fiscal year 2010 accretion amount is \$129,463.

During fiscal year 2007, the District advance refunded \$18,685,000 of the term bonds. The advance refunded portion of the bonds was removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The original bonds were issued for a twenty seven year period with final maturity at December 1, 2028, and after the advance refunding has a final maturity at December 1, 2016.

On April 15, 2004, the District issued \$9,870,000 in General Obligation School Improvement Bonds to pay off outstanding 2003 bond anticipation notes. The District received \$10,318,130 in bond proceeds, which include \$16,078 in accrued interest and \$432,052 in premiums. The \$9,870,000 bond issue consists of serial, term, and capital appreciation bonds in the amount of \$6,855,000, \$2,950,000, and \$65,000 respectively. Issuance costs associated with the bond issue were \$207,507 and are deferred.

The capital appreciation bonds will mature December 1, 2011 through 2014. These bonds were purchased at a discount at the time of issuance and, at maturity all compound interest is paid and the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. Therefore, as the value increases, the accretion is booked as principal. The maturity amount of the bonds is \$735,000. The fiscal year 2010 accretion amount is \$82,798.

During fiscal year 2007, the District advance refunded \$4,010,000 of the serial bonds, and \$2,950,000 of the term bonds. The advance refunded portion of the bonds, as well as the unamortized premium and issuance costs of these advance refunded bonds were removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The serial and term bonds were originally sold at a premium of \$432,052, of which \$110,318 remained outstanding after the refunding. The premium will be amortized over the life of the bonds. Issuance costs associated with the bond issue were \$207,507, of which \$52,984 remained outstanding after the refunding. Issuance costs associated with the bond issue will be amortized over the life of the bond issue. The original bonds were issued for a twenty-four year period with final maturity at December 1, 2028, and after the advance refunding has a final maturity at December 1, 2019.

On April 6, 2005, the District issued \$5,175,000 in General Obligation Library Improvement Bonds to pay off outstanding 2005 bond anticipation notes, on behalf of the Granville Public Library. The District received \$5,357,024 in bond proceeds, which includes \$182,024 in premium. The \$5,175,000 bond issue consists of serial and term bonds in the amount of \$1,050,000 and \$4,125,000 respectively. Issuance costs associated with the bond issue were \$128,124 and are deferred.

During fiscal year 2007, the District advance refunded \$3,820,000 of the term bonds. The advance refunded portion of the bonds, as well as the unamortized premium and issuance costs of these advance refunded bonds were removed from the financial statements of the District. The remaining outstanding bonds are being retired from the Debt Service Fund. The serial and term bonds were originally sold at a premium of \$182,024, of which \$7,046 remained outstanding after the refunding. The premium will be amortized over the life of the bonds. Issuance costs associated with the bond issue were \$128,124, of which \$27,256 remained outstanding after the refunding. Issuance costs associated with the bond issue will be amortized over the life of the bond issue. The original bonds were issued for a twenty-six year period with final maturity at December 1, 2031, and after the advance refunding has a final maturity at December 1, 2015.

The term bonds maturing on December 1, 2015 are subject to mandatory sinking fund redemption at a redemption price of 100% of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

Year	Principal Amount to be Redeemed
2014	\$150,000

The remaining principal amount of \$155,000 will be paid at stated maturity on December 1, 2015.

2014	145,000	15,100
2015	150,000	9,200
2016	155,000	3,100
Total	\$855,000	\$103,888

On January 30, 2007, the District issued \$29,464,972 of Advance Refunding General Obligation Bonds that were issued to partially refund the 2002 School Improvement Bonds, the 2004 School Improvement Bonds, and the 2005 Library Improvement Bonds. The \$29,464,972 bond issue consists of serial, term, and capital appreciation bonds in the amount of \$12,730,000, \$16,460,000, and \$274,972. The bonds were issued for a twenty-four year period with a final maturity at December 1, 2031. At the date of refunding, \$30,608,490 was deposited in an irrevocable trust to provide for all future debt service payments on the refunded 2002 School improvement Bonds, the 2004 School Improvement Bonds, and the 2005 Library Improvement Bonds. The balance of the outstanding bonds refunded was removed from the District's financial statements, and as of June 30, 2010 \$29,465,000 of the refunded bonds are still outstanding, and the balance of the irrevocable trust account was \$29,751,621. The advance refunding serial and capital appreciation bonds were issued with a premium in the amount of \$371,698 and \$1,437,243 respectively, which will be reported as an increase to bonds payable. The advance refunding term bonds were issued with a discount of \$306,814 which will be reported as a decrease to bonds payable. These amounts are being amortized to interest expense over the life of the bonds using the straight-line method. The amortization of the premium and discount for fiscal year 2010 was \$146,218 and \$12,273. Issuance costs associated with the bond issue in the amount of \$358,608 are reported as deferred charges and are being amortized over the life of the bonds using the straight-line method. The amortization of the issuance costs for fiscal year 2010 was \$14,344. The refunding resulted in a difference between the net carrying amount of the debt and the acquisition price of \$925,082. This difference, reported in the accompanying financial statements as a decrease to bonds payable is being amortized to interest expense over the life of the bonds using the straight-line method. The amortization of this difference for fiscal year 2010 was \$37,003. The issuance resulted in a difference (savings) between the cash flows required to service the old debt and the cash flows required to service the new debt of \$1,971,224. The issuance resulted in an economic gain of \$1,097,604.

The capital appreciation bonds will mature December 1, 2016 and December 1, 2017. These bonds were purchased at a premium at the time of issuance and, at maturity all compound interest is paid and the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. Therefore, as the value increases, the accretion is booked as principal. The maturity amount of the bonds is \$2,660,000. The fiscal year 2010 accretion amount is \$143,307.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 8 - LONG-TERM OBLIGATIONS (Continued)

The serial and term bonds maturing after December 1, 2015 are subject to redemption at the option of the District, either in whole or in part, in such order as the District shall determine, on any date on or after December 1, 2015, at a redemption price equal to 100% of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

The term bonds maturing on December 1, 2031 are subject to mandatory sinking fund redemption at a redemption price of 100% of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

	Principal Amount

Energy Conservation Notes

On June 12, 2008, the District issued \$2,000,000 in unvoted Energy Conservation Notes, under the authority of Ohio Revised Code sections 133.06(G) and 3313.46(B). The Energy Conservation Notes were issued for the purpose of purchasing and installing energy conservation measures. These energy conservation measures include roofing and HVAC improvements. The energy conservation notes mature June 12, 2018. The debt will be retired through reductions in energy consumption and cost savings attributed to the installation of the energy conservation improvements. At June 30, 2010, the District had spent the note proceeds.

The total principal and interest requirements to retire the 2008 Energy Conservation Notes are as follows:

NOTE 10 - DEFINED BENEFIT PENSION PLAN

(a) School Employees Retirement System

<u>Plan Description</u> - The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The School Employees Retirement System issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to SERS, 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746 or by calling (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employer/Audit Resources.

<u>Funding Policy</u> - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among the four funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2009 (latest available), the allocation to pension and death benefits is 9.09 percent. The remaining 4.91% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009, and 2008, were \$250,019, \$222,609, and \$192,503, respectively. The amount contributed for fiscal year 2010 was 35 percent and 100 percent was contributed for fiscal years 2009 and 2008. The District's unpaid contribution for fiscal year 2010, including the surcharge, totaling \$287,625, has been recorded as a liability in the appropriate funds.

(b) State Teachers Retirement System

<u>Plan Description</u> - The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, by calling (888) 227-7877, or by visiting the STRS Ohio web site at www.strsoh.org.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 10 – DEFINED BENEFIT PENSION PLAN (Continued)

Plan Description – New members have a choice of three retirement plan options, a Defined Benefit (DB) Plan, Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or lump sum withdrawal. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan.

The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

<u>Funding Policy</u> – For fiscal year 2010, plan members were required to contribute 10 percent of annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to the DB Plan for the fiscal years ended June 30, 2010, 2009, and 2008 were \$1,543,107, \$1,472,005, and \$1,359,466 respectively; 83 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. The District's unpaid contribution for fiscal year 2010, totaling \$281,888, has been recorded as a liability in the appropriate funds.

(c) Social Security System

Effective July 1, 1991, all employees not otherwise covered by School Employees Retirement System or State Teachers Retirement System have an option to choose Social Security. As of June 30, 2010, no members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 11 – POSTEMPLOYMENT BENEFITS

(a) School Employees Retirement System

<u>Postemployment Benefits</u> – In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers two cost-sharing, multiple employer postemployment benefit plans.

Medicare Part B Plan – The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2009 (latest available) was \$96.40.

SERS' reimbursement to retirees was \$45.50. The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2009 (latest available), the actuarially required allocation is .75%. The District's contributions for the years ended June 30, 2010, 2009 and 2008 were \$20,629, \$18,367, and \$13,780, respectively, 35 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

<u>Health Care Plan</u> – ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. For the year ended June 30, 2009 (latest available), the health care allocation is 4.16%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2009 (latest available), the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care for the years ended June 30, 2010, 2009, and 2008 were \$191,181, \$148,201, and \$121,768, respectively, 35 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 11 – POSTEMPLOYMENT BENEFITS (Continued)

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status. The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employers/Audit Resources.

(b) State Teachers Retirement System

<u>Plan Description</u> - The District contributes to the cost-sharing, multiple employer postemployment benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by writing 275 E. Broad St., Columbus, OH 43215-3371, by calling (888) 227-7877, or by visiting the STRS Ohio web site at www.strsoh.org.

<u>Funding Policy</u> – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2010, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2010, 2009, and 2008 were \$118,700, \$113,231, and \$155,900, respectively; 83 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTE 12 – EMPLOYEE BENEFITS

(a) Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated vacation time may be carried forward for the Treasurer and upon approval of the Superintendent, for all other classified employees. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees can earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 210 days for all personnel. Upon retirement, payment is made for one-third of accrued, but unused sick leave credit to a maximum of 50 days for classified and certified employees.

NOTE 13 – RISK MANAGEMENT (Continued)

In fiscal year 2010, the District participated in the Metropolitan Educational Council (MEC), an insurance purchasing pool (Note 15). MEC helps member school districts receive discounted rates on various items such as their life, property, boiler and machinery, inland marine, crime, and freight insurance, services, supplies, and other items. The MEC has over 170 members which include school districts, joint vocational schools, educational service centers and libraries covering 37 counties in Central Ohio. The governing board of MEC is composed of either the superintendent, a designated representative, or a member of the board of education for each participating school district in Franklin County, and one representative from each county outside Franklin County.

For fiscal year 2010, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 15). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State board on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

NOTE 14 – JOINTLY GOVERNED ORGANIZATIONS

(a) Licking Area Computer Association

The District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association which services fourteen entities within the boundaries of Licking, Knox, and Muskingum Counties. These entities consist of public school districts, private schools, and educational service centers. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of the superintendents from all participating districts. The continued existence of LACA is not dependent on the District's continued participation and the District has no equity interest in the Association. The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The District's total payments to LACA for computer services during fiscal year 2010 were \$151,543. Financial statements for LACA can be obtained from their fiscal agent the Career and Technology Education Centers of Licking County, 150 Price Road, Newark, OH 43055.

(b) Career and Technology Education Centers of Licking County

The Career and Technology Education Centers of Licking County is a jointly governed organization providing vocational education to its member school districts. The Career and Technology Education Centers of Licking County is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of three representatives from the Licking County Educational Service Center, two from the Newark City School District, one from the Heath City School District, and one from the Granville Exempted Village School District, which possesses its own budgeting and taxing authority. During 2010, the District made no contributions to the Career and Technology Education Centers of Licking County. To obtain financial information write to the Career and Technology Education Centers of Licking County, Ben Streby, who serves as Treasurer, at 150 Price Road, Newark, Ohio 43055.

NOTE 14 – JOINTLY GOVERNED ORGANIZATIONS (Continued)

(c) Metropolitan Educational Council

The District participates in the Metropolitan Educational Council (MEC), a jointly governed organization. The organization is composed of over 170 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The MEC helps its members purchase services, insurances, supplies, and other items at a discounted rate. The governing board of MEC is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to MEC to cover the costs of administering the program. The District's membership payment to MEC for fiscal year 2010 was \$977. Financial information may be obtained from the Metropolitan Educational Council, Sue Ward, who serves as fiscal officer, at 6100 Channingway Blvd., Suite 604, Columbus, OH 43232

(d) School Study Council of Ohio

The School Study Council of Ohio (Council) is a jointly governed organization operated by a Board of Trustees (Board). The Council is comprised of 70 member organizations. The purpose of the Council is to bring about the improvement of education in member school organizations. School districts maintain active membership by paying a yearly membership fee which entitles each school district to attend Council meetings and to vote.

School districts that elect to be associate members are entitled to attend meetings and participate in Council discussions but are not entitled to vote. The Board is annually elected from within the Council's active membership. In fiscal year 2010, the Board consisted of twenty-one members. In fiscal year 2010, Granville Exempted Village School District obtained active membership privileges and paid for school study services in the amount of \$2,806. Financial information may be obtained by contacting the School Study Council of Ohio at 4807 Evanswood Drive, Suite 300, Columbus, Ohio 43229.

(e) Newark-Granville Community Authority

The Newark-Granville Community Authority (Authority) is a jointly governed organization created under Section 349.03, Ohio Revised Code. The Authority was created for the purposes of encouraging the orderly development of a well-planned, diversified and economically sound new community in central Licking County. The Authority is operated by a Board of Trustees (Board) that is comprised of three Park Trails community members appointed by the Board of County Commissioners of Licking County, Ohio; one local government representative, appointed by the Board of County Commissioners of Licking County, Ohio; and three representatives of the Granville Exempted Village School District. The revenue source of this organization consists of special assessments imposed by Licking County on Park Trails Community. The special assessment is based on a \$250,000 average home value within the community, which results in a minimum annual community development charge of \$455 per home for 20 consecutive years.

NOTE 15 - INSURANCE PURCHASING POOLS

(a) Ohio School Boards Association Workers' Compensation Group Rating Plan

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State, based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley, Inc. provides administrative, cost control and actuarial services to the GRP. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

(b) Metropolitan Educational Council Group Insurance Pool

The District participates in the Metropolitan Educational Council (MEC), an insurance purchasing pool. The MEC helps its members purchase services, insurances, supplies, and other items at a discounted rate. The organization is composed of over 170 members which includes school districts, joint vocational schools, educational service centers, and libraries covering 37 counties in Central Ohio. The governing board of MEC is composed of either the superintendent, a designated representative or a member of the board of education for each participating school district in Franklin County and one representative from each county outside of Franklin County. Each year, the participating school districts pay a membership fee to MEC to cover the costs of administering the program.

NOTE 16 - RELATED ORGANIZATION

Granville Schools Education Foundation, Incorporated

The Granville Schools Education Foundation, authorized under Ohio Revised Code Chapter 1702, is an independent nonprofit corporation created in 1994. The Foundation's purpose is to improve education for the students of Granville Schools. The Foundation is governed by a Board of Trustees appointed by the Granville Exempted Village School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. The District has no ability to impose its will on the organization nor does a burden/benefit relationship exist. Financial information can be obtained from the Granville Schools Education Foundation, Monica Graffeo, who serves as Executive Director, at P.O. Box 84, Granville, Ohio 43023.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 17 – CONTINGENCIES

(a) Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2010.

(b) Litigation

The District is currently not a party to any material legal proceedings.

NOTE 18 – FUND DEFICIT

The following funds had a deficit fund balance at June 30, 2010.

Fund	Def	icit Balance
	·	
Permanent Improvement Fund	\$	(278,304)
Building Fund		(700,000)

These deficit fund balances are the result of the recognition of payables in accordance with generally accepted accounting principles. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 19 - SET-ASIDE CALCULATIONS

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

				Captial
	Textbooks			Acquisition
Set-aside cash balance				
as of June 30, 2009	\$	(2,193,554)	\$	-
Current fiscal year set-aside requirement		411,726		411,726
Current Year Offsets		-		(796,536)
Qualifying Disbursements		(425,576)		(124,771)
Total	\$	(2,207,404)	\$	(509,581)
Balance Carried Forward to FY 2010	\$	(2,207,404)	\$	

The District had qualifying disbursements and offsets during the fiscal year that further reduced the textbooks and capital improvements set-aside amounts to below zero. The extra amounts in the textbooks set aside may be used to reduce the set-aside requirements in future fiscal years. However, although the Capital Acquisition Reserve had qualifying disbursements and offsets which reduced the set-aside requirement below zero, these extra amounts may not be carried forward to future fiscal years.

NOTE 20- INTERFUND BALANCES

The General Fund made an advance to the Other Governmental Capital Projects Building Fund in the amount of \$700,000 for engineering fees for a future middle school building project. The District does not anticipate repaying the outstanding advance within the next fiscal year although does intend to repay the amount to the General Fund in future fiscal years. Therefore, this long-term loan has been recorded as Loans to/from Other Funds and a fund balance reserve has been established in the General Fund. These amounts are eliminated on the government-wide financial statements.

During fiscal year 2009 the Debt Service Fund entered into a loan with the Permanent Improvement Fund in the amount of \$900,000 with an interest rate of 1 percent. The loan was due in May 2010; however, only interest was paid in fiscal year 2010. On July 12, 2010 the District's Board extended the loan maturity to May 2011. Interfund loans between governmental funds are eliminated on the government-wide financial statements.

The District's Debt Service Fund made payments of debt in the amount of \$239,740 on behalf of the General Fund. This amount is expected to be repaid during fiscal year 2011. Due to/from Other Funds between governmental funds are eliminated on the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 21 – SUBSEQUENT EVENTS

The District had no material subsequent events occurring after June 30, 2010.

NOTE 22 – CHANGES IN ACCOUNTING PRINCIPLES

For fiscal year 2010, the District has implemented GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets", GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments", and GASB Statement No. 58 "Accounting and Financial Reporting for Chapter 9 Bankruptcies".

GASB Statement No. 51 addresses accounting and financial reporting standards for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer software. The implementation of GASB Statement No. 51 did not have an effect on the financial statements of the District.

GASB Statement No. 53 improves the quality of accounting financial reporting by establishing requirements for derivative instruments. The implementation of GASB Statement No. 53 did not have an effect on the financial statements of the District.

GASB Statement No. 58 establishes accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. The implementation of GASB Statement No. 58 did not have an effect on the financial statements of the District.

NOTE 23 – NEW PRONOUNCEMENTS

GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions" establishes new categories for reporting fund balance and revises the definitions for governmental fund types. The implementation of this statement is effective for financial statements for periods beginning after June 15, 2010.

GASB Statement No. 57 "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans" addresses the provisions related to the frequency and timing of measurements for actuarial valuations first used to report funded status information in OPEB plan financial statements. The implementation of this statement is effective for financial statements for periods beginning after June 15, 2011.

GASB Statement No. 59 "Financial Statements Omnibus" updates and improves existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. The implementation of this statement is effective for financial statements for periods beginning after June 15, 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 24 – ACCOUNTING CHANGES

Net Asset adjustments are the net effect of changes resulting from revenue recognition adjustments. Because such amounts are the product of adjustments from a prior period, they are not properly included as part of the results of operations of the current period, rather are reported as a direct adjustment to beginning net assets to restate that amount to what it would have been had the adjustment not occurred. The Net Asset adjustment had no net effect on the fund balance of the general fund.

The District's fiscal year 2009 financial statements contained a revenue recognition error relating to a compensation agreement with Granville Township for payments in lieu of taxes. The effect of this adjustment on net assets is as follows:

	overnmental Activities
Net Assets, June 30, 2009 Revenue recognition adjustment	\$ 9,943,216 (527,216)
Restated Balance, July 1, 2010	\$ 9,416,000

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

Non-major Governmental Funds

Non-major Governmental Funds account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

Permanent Improvement Fund - A fund provided to account for all transactions related to acquiring, constructing, or improving school facilities.

Building Fund - A fund used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

Food Service Fund - A fund used to account for the financial activity related to the District's food service operation.

Program Donations Fund - A fund used to account for the receipt and expenditure of program donations that can be expended for school district programs.

Public School Support Fund - A fund used to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

Other Grants Fund – A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

Classroom Facilities Maintenance Fund - A fund used to account for the proceeds of a levy for the maintenance of facilities.

District Managed Student Activity Fund - A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services Fund - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

Management Information System Fund - A fund provided for hardware and software development, or other costs associated with the requirements of the management information system.

Data Communications Fund - A fund used to account for monies received in order for the District to obtain access to the Ohio Educational Computer Network.

School Net Professional Development Fund - A fund used to account for a limited number of professional development subsidy grants.

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

Vocational Education Enhancement Fund – A fund used to account for Vocational Education Enhancements that: 1) expand the number of students enrolled in tech prep programs, 2) enable students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills, and credentials to present to future employers, universities, and other training institutes, and 3) replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

Miscellaneous State Grants Fund - A fund used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

Title VI-B IDEA Fund - A fund used to account for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

Education Stabilization Fund - A fund used to account for federal funds used to assist states in providing an appropriate public education to all children.

Title II-D Technology Fund - A fund used to account for federal funds used to assist states in providing support for technology for primary and secondary schools.

Title III, Limited English Proficiency Fund - A fund used to account for federal funds used to develop and carry out elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency.

Title I Disadvantaged Children Fund - A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

Title V Innovative Education Fund - A fund used to assist State and local educational agencies in the reform of elementary and secondary education. Funds may be used for various materials, technology, and projects implementing school improvement and parental involvement activities authorized under ESEA, Title I. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569.

Drug Free Schools Fund - A fund used to offer a disciplined environment conducive to learning, by preventing violence in and around schools and strengthen programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and coordinated with related Federal, State, and community efforts and resources.

IDEA Preschool Grant for the Handicapped Fund – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Title II-A Improving Teacher Quality Fund - A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants Fund - A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant.

Statistical Section

This part of Granville Exempted Village School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

Revenue Capacity

These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue source(s), the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Economic and Demographic Information

These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the financial statements for the relevant year. The District implemented GASB Statement 34 for the year ended June 30, 2003; schedules presenting government-wide information include information beginning in that fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2007, 6.25 percent for tax year 2008 and zero for tax year 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property was eliminated.

Values are shown net of exempt property.
