INDEPENDENT ACCOUNTANTS' REPORT

Sidney City School District
Shelby County
750 South Fourth Street
Sidney, Ohio 45365

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sidney City School District, Shelby County, (the District), as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Sidney City School District, Shelby County, as of June 30, 2009, and the respective changes in cash financial position and the respective budgetary comparison for the General and the Food Service special revenue fund thereof for the year then ended in conformity with the basis of accounting Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2010, on our consideration of the Internal's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Federal Awards Receipts and Expenditures is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. We subjected the Schedule of Federal Awards Receipts and Expenditures to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009
UNAUDITED**

The discussion and analysis of Sidney City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2009, within the limitations of cash basis accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the School District's cash basis of accounting.

The School District has elected to present its financial statements on the cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses, and the related assets and liabilities. Under the School District's cash basis of accounting, receipts and disbursements and the related assets and liabilities are recorded when they result in cash transactions.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

The statement of net assets and the statement of activities provide information about the cash activities of the whole School District.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other non-major funds presented in total in a single column. For Sidney City School District, the General Fund, the Food Service special revenue fund, and the Bond Retirement debt service fund are the most significant funds.

Reporting the School District as a Whole

The statement of net assets and the statement of activities reflect how the School District did financially during fiscal year 2009, within the limitations of cash basis accounting. The statement of net assets presents the cash balance of the governmental activities of the School District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each function or program of the School District's governmental activities. A function is a group of related activities designed to accomplish a major service or regulatory program for which the School District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the School District's general receipts.

These statements report the School District's cash position and the changes in cash position. Factors which contribute to these changes may also include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009
UNAUDITED
(Continued)**

In the statement of net assets and the statement of activities, all of the School District's activities are presented as governmental activities. All of the School District's programs and services are reported here including instruction, support services, non-instructional services, extracurricular activities, capital outlay, and debt service disbursements.

Reporting the School District's Most Significant Funds

Fund financial statements provide detailed information about the School District's major funds. While the School District uses many funds to account for its financial transactions, the fund financial statements focus on the School District's most significant funds. The School District's major funds are the General Fund, the Food Service special revenue fund, and the Bond Retirement debt service fund.

Governmental Funds - All of the School District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal yearend for spending in future periods. These funds are reported using the cash basis accounting. The governmental fund financial statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs.

The School District as a Whole

Table 1 provides a summary of the School District's net assets for fiscal year 2009 and fiscal year 2008:

Table 1			
Net Assets			
	2009	2008	Change
Assets:	(Restated)		
Cash and Cash Equivalents	\$5,077,275	\$6,893,693	(\$1,816,418)
Net Assets:

Total Net Assets	\$5,077,275	\$6,893,693	(\$1,816,418)

There was a significant decrease in cash and cash equivalents, most of which can be attributed to the General Fund. While both receipts and disbursements increased minimally from the prior fiscal year, disbursements continued to exceed receipts again this fiscal year resulting in the cash carryover spending.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009
UNAUDITED
(Continued)**

Overall, there was a 4.6 percent decrease in program receipts from the prior fiscal year. Most of this decrease is reflected in the decrease in charges for services and due to the closure of two foster care facilities within the School District.

There were several significant changes in general receipts from the prior fiscal year. Note the decrease in property taxes. A significant portion of this decrease can be attributed to the State's elimination of tangible personal property taxes. Grants and entitlements reflect an increase primarily from an increase in state foundation resources, the result of an increase in the per pupil amount received from the State as well as an increase in the number of students. The decrease in interest receipts reflects the economic decline of the past year. Lastly, in the prior fiscal year the School District refunded general obligation bonds which provided a significant increase in that year.

For disbursements, the most significant change is related to the general obligation bond refunding which occurred in fiscal year 2008.

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax receipts and unrestricted state entitlements.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009
UNAUDITED
(Continued)**

With the exception of debt service disbursements as discussed previously, the total costs of services and net costs of services were fairly similar to fiscal year 2008. As can be seen above, the dependence on general receipts for most programs is significant with 84 percent of program costs being paid from general receipts. Several of the School District's programs receive a notable amount of program receipts to offset program costs. In prior fiscal years, the Ohio Department of Education allocated surplus IDEA B grant monies for special education over a four year period. Fiscal year 2008 was the last year for the additional allocation. However, the special instruction program still provided for 77 percent of its costs through program receipts from operating grants restricted for special instruction purposes. Non-instructional services costs (primarily food services) as well as costs associated with the parochial school were almost fully covered by program receipts for fiscal year 2009. The primary program receipts are cafeteria sales and state and federal subsidies and donated commodities for food service as well as operating grants for the parochial school. For fiscal year 2009, 30 percent of extracurricular activities expenses were covered by program receipts. The majority of the program receipts consist of music and athletic fees, ticket sales, and gate receipts and will fluctuate based on the number of games played at home and how well the athletic teams are playing.

The School District's Funds

The School District's governmental funds are accounted for using the cash basis of accounting. The General Fund's decrease in fund balance was due to cash carryover spending as discussed previously.

Although receipts decreased slightly and disbursements increased slightly in fiscal year 2009, fund balance increased in the Food Service special revenue fund as receipts exceeded disbursements.

Property tax receipts in the Bond Retirement debt service fund continue to be sufficient to cover debt service requirements.

General Fund Budgeting Highlights

The School District prepares an annual budget of receipts and disbursements for all funds of the School District for use by School District officials and department heads and prepares such other budgetary documents as are required by State statute. The School District's most significant budgeted fund is the General Fund. During fiscal year 2009, the School District amended its General Fund budget as needed.

For the General Fund, final budgeted receipts did not change from the School District's original estimates. The change from the final budgeted receipts to actual receipts was not significant. Changes from the original budget to the final budget as well as from the final budget to actual disbursements were not significant.

Current Issues

In May 2009, all employees agreed to no increase in their base wage rate for fiscal year 2010. The certified employees within the Sidney Education Association also agreed to no increase in the base wage rate for fiscal year 2011.

The Board of Education has eliminated twenty-three aides, an administrator, an elementary school secretary, three custodians, and a cook. The School District also reduced staffing by fourteen teachers through retirement and two and one-half teachers through reduction in force. In addition, the preschool program was eliminated which included the cost of an administrator, two teachers, and two aides. Through the various cuts in staffing, the School District reduced the number of employees by 10 percent.

The School District discontinued operations at the Lowell Elementary School. The building has been rented for the period December 1, 2009, through November 30, 2010.

The School District passed a 9.9 mill property tax levy for general operations in November 2009. The property tax will generate \$4,500,000 annually with collection starting in January 2010.

Based on the passage of the property tax levy in November 2009, the School District will restore eight bus routes and drivers eliminated in fiscal year 2009. Bus routes will include all school students living outside of a 1.3 mile radius of their instructional building. In addition, the pay to participate fee will be reduced from \$450 to \$35 per student per sport starting with the spring 2010 sport season.

Request for Information

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to reflect the School District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Michael T. **NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Sidney City School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state and federal guidelines.

The School District is the 103rd largest in the State of Ohio (among 612 school districts) in terms of enrollment. It is staffed by one hundred ninety-eight classified employees, two hundred sixty-two certified teaching personnel, and twenty-three administrative employees who provide services to three thousand nine hundred ninety-five students and other community members. The School District currently operates eleven instructional/support buildings.

Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Sidney City School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District does not have any component units.

Within the School District's boundaries, Holy Angels Elementary and Lehman High School are operated through the Cincinnati Catholic Diocese. The Christian Academy is operated through the Association of Christian Schools International. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial schools. This activity is included as a nonmajor governmental fund for financial reporting purposes.

The School District participates in three jointly governed organizations and two insurance pools, and is associated with a related organization. These organizations are the Western Ohio Computer Organization, Upper Valley Joint Vocational School, Southwestern Ohio Educational Purchasing Cooperative, Southwestern Ohio Educational Purchasing Cooperative Benefit Plan Trust, Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan, and the Amos Memorial Public Library. These organizations are presented in Notes 18, 19, and 20 to the basic financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

These financial statements are presented on a cash basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied to the extent they are applicable to the cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Following are the more significant of the School District's accounting policies.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental activities (primarily supported by taxes and intergovernmental receipts) and those that are considered business-type activities (primarily supported by fees and charges). However, the School District has no business-type activities.

The statement of net assets presents the cash balance of the governmental activities of the School District at fiscal year end. The statement of activities compares disbursements with program receipts for each function or program of the School District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the School District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants, contributions, and interest restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the School District's general receipts.

2. Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

1. Governmental Funds

The School District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other non-exchange transactions as governmental funds. The School District's major funds are the General Fund, the Food Service special revenue fund, and the Bond Retirement debt service fund.

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Food Service Fund - The Food Service special revenue fund is used to account for the food service operations of the School District.

Bond Retirement Fund - The Bond Retirement debt service fund is used to account for property tax revenues and transfers from the General Fund to pay principal and interest on the School District's notes, general obligation bonds, and loans.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

2. Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District's private purpose trust funds account for programs that provide college scholarships to students after graduation. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for the employee's Section 125 plan and various student-managed activities.

C. Basis of Accounting

The School District's financial statements are prepared using the cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the School District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in the financial statements.

SHELBY COUNTY**

FOR THE FISCAL YEAR ENDED JUNE 30, 2009
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control is at the object level for the General Fund and the fund level for all other funds. Budgetary allocations at the function level in the General Fund and at the function and object level within all other funds are made by the School District Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board during the fiscal year.

The appropriations resolution is subject to amendment throughout the fiscal year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

E. Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

The School District is a participant in an external investment pool maintained by the Shelby County Educational Service Center which is reported as "Cash and Cash Equivalents with Fiscal Agent" and "Investments with Fiscal Agent". Investments are governed by the trust agreement and are limited to conservative growth common stock and nonnegotiable certificates of deposit. The external investment pool's underlying trust agreement does not allow for the sale of the donated common stock. The fair value of investments is determined annually based on quoted market price and is reported in the statement of fiduciary net assets. The investment pool is not registered with the SEC as an investment company. The pool does not issue shares. Each participant is allocated a pro rata share of each investment at fair value along with a pro rata share of the investment income that it earns.

During fiscal year 2009, the School District's investments included nonnegotiable certificates of deposit and STAR Ohio. Nonnegotiable certificates of deposit are reported at cost. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2009.

SHELBY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2009
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2009, was \$88,440, which includes \$2,992 assigned from other School District funds.

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets represent unexpended revenues restricted for bus purchases as well as unclaimed monies that have a legal restriction on their use.

G. Capital Assets

Acquisitions of property, plant, and equipment are recorded as disbursements when paid. The financial statements do not report these assets.

H. Compensated Absences

Employees are entitled to cash payments for unused vacation and sick leave in certain circumstances, such as upon leaving employment. Unpaid vacation and sick leave are not reflected as liabilities under the cash basis of accounting used by the School District.

I. Long-Term Obligations

Cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when disbursements are made.

J. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for food service operations, music and athletic programs, and federal and state grants. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

2. SUMMARY OF SIGNIFICANT ACCOUNT POLICIES (Continued)

K. Fund Balance Reserves and Designations

The School District reserves those portions of fund balance which are legally segregated for a specific future use and not available for appropriation or disbursement. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances, bus purchases and unclaimed monies.

A designation of fund balance represents a self-imposed limitation on the use of available expendable resources by the Board of Education. The designation for termination benefits represents monies set aside by the Board of Education for the future payment of those benefits.

L. Interfund Activity

Transfers within governmental activities are eliminated on the government-wide financial statements.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the financial statements.

3. RESTATEMENT OF FUND BALANCE/NET ASSETS

The School District has changed the classification of several funds to appropriately reflect the purpose and use of the funds. The restatement had the following effect on fund balance and net assets as previously reported.

	<u>General</u>	<u>Food Service</u>	<u>Bond Retirement</u>	<u>Other Governmental</u>	<u>Total Governmental Funds</u>

4. DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers' acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

4. DEPOSITS AND INVESTMENTS (Continued)

A. Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year end, \$53,367 of the School District's bank balance of \$5,678,104 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least 105 percent of the deposits being secured.

B. Investments

At June 30, 2009, the School District had \$101,978 invested in STAR Ohio. STAR Ohio had an average maturity of 58.1 days and carries a rating of AAA by Standard and Poor's. The School District has no policy dealing with credit risk beyond the requirements of State statute. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

5. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the School District. Real property tax revenues received in calendar year 2009 represent the collection of calendar year 2008 taxes. Real property taxes received in calendar year 2009 were levied after April 1, 2008, on the assessed values as of January 1, 2008, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2009 represent the collection of calendar year 2008 taxes. Public utility real and tangible personal property taxes received in calendar year 2009 became a lien on December 31, 2007, were levied after April 1, 2008, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

5. PROPERTY TAXES (Continued)

Tangible personal property tax revenues received in calendar year 2009 (other than public utility property) represent the collection of calendar year 2009 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. The October 2008 tangible personal property tax settlement was the last property tax settlement for general personal property taxes. Tangible personal property taxes received from telephone companies in calendar year 2009 were levied after October 1, 2008, on the value as of December 31, 2008. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Logan and Shelby Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2009, are available to finance fiscal year 2009 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which fiscal year 2009 taxes were collected are:

	2008 Second- Half Collections		2009 First- Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential	\$308,638,740	60.87%	\$326,239,620	70.93%

Total Assessed Value	<u>\$507,043,759</u>	<u>100.00%</u>	<u>\$459,977,430</u>	<u>100.00%</u>
Tax rate per \$1,000 of assessed valuation	\$43.13		\$43.13	

6. PAYMENT IN LIEU OF TAXES

According to State law, the City of Sidney has entered into agreements with a number of property owners under which the City has granted property tax exemptions to those property owners. The property owners have agreed to make payments to the City which reflect all or a portion of the property taxes which the property owners would have paid if their taxes had not been exempted. The agreements require a portion of these payments to be made to the School District. The property owners' contractually promise to make these payments in lieu of taxes until the agreement expires.

8. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2009, the School District contracted for the following insurance coverage:

Netherlands Insurance Company	
General School District Liability	
Per Occurrence	\$1,000,000
General Aggregate	2,000,000
Buildings and Contents - replacement cost	74,273,292
Computer Equipment	2,500,000
Consolidated Insurance Company	
Automobile Liability	1,000,000
Uninsured Motorists	1,000,000
Midwestern Indemnity Company	
Commercial Umbrella	
General Aggregate	5,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

The School District participates in the Southwestern Ohio Educational Purchasing Cooperative Benefit Plan Trust (Trust), a public entity shared risk pool consisting of seventy school districts. The School District pays monthly premiums to the Trust for employee medical and dental insurance benefits. The Trust is responsible for the management and operations of the program. Upon withdrawal from the Trust, a participant is responsible for the payment of all Trust liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

8. RISK MANAGEMENT (Continued)

For fiscal year 2009, the School District participated in the Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan (Plan), an insurance purchasing pool. The intent of the Plan is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the Plan. The Plan is divided into numerous tiers based on participant experience. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in that tier. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate. Participation in the Plan is limited to participants that can meet the Plan's selection criteria. The firm of Hunter Consulting provides administrative, cost control, and actuarial services to the Plan.

9. DEFINED BENEFIT PENSION PLANS

A. State Teachers Retirement System

Plan Description - The School District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to the State Teachers Retirement System of Ohio, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DCP allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The CP offers features of both the DBP and the DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. The DBP portion of the CP payment is payable to a member on or after age sixty; the DCP portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DBP or CP member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member of the DCP dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

9. DEFINED BENEFIT PENSION PLANS (Continued)

Funding Policy - For the fiscal year ended June 30, 2009, plan members were required to contribute 10 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the STRS Ohio Board upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contribution for pension obligations to STRS Ohio for the fiscal years ended June 30, 2009, 2008, and 2007 was \$2,193,130, \$2,146,756, and \$2,077,423 respectively; 83 percent has been contributed for fiscal year 2009 and 100 percent for fiscal years 2008 and 2007. Contributions to the DCP and CP for fiscal year 2009 were \$7,471 made by the School District and \$62,539 made by the plan members.

B. School Employees Retirement System

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer public employee retirement plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a stand-alone financial report that may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - For the fiscal year ended June 30, 2009, plan members were required to contribute 10 percent of their annual covered salary and the School District was required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2009, 9.09 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2009, 2008, and 2007 was \$438,099, \$424,539, and \$462,560 respectively; 42 percent has been contributed for fiscal year 2009 and 100 percent for fiscal years 2008 and 2007.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2009, four of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

10. POSTEMPLOYMENT BENEFITS

A. State Teachers Retirement System

Plan Description - The School District contributes to a cost-sharing multiple-employer defined benefit Health Care Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the Defined Benefit or Combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in STRS Ohio's financial report which may be obtained by calling (888) 227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Health Care Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions. For fiscal year 2009, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contribution for health care for the fiscal years ended June 30, 2009, 2008, and 2007 was \$169,277, \$165,610, and \$160,570 respectively; 83 percent has been contributed for fiscal year 2009 and 100 percent for fiscal years 2008 and 2007.

B. School Employees Retirement System

Plan Description - The School District contributes to two cost-sharing multiple-employer defined benefit OPEB plans administered by the School Employees Retirement System (SERS) for classified retirees and their beneficiaries, a Health Care Plan, and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians fees through several types of plans including HMO's, PPO's, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each fiscal year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For fiscal year 2009, 4.16 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount. For fiscal year 2009, the surcharge amount was \$72,722.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

The School District's contribution for health care for the fiscal years ended June 30, 2009, 2008, and 2007 was \$200,494, \$193,731, and \$153,570 respectively; 42 percent has been contributed for fiscal year 2009 and 100 percent for fiscal years 2008 and 2007.

10. POSTEMPLOYMENT BENEFITS (Continued)

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare Part B Fund. For fiscal year 2009, this actuarially required allocation was .75 percent of covered payroll. The School District's contribution for Medicare Part B for the fiscal years ended June 30, 2009, 2008, and 2007 was \$36,147, \$30,589, and \$31,454 respectively; 42 percent has been contributed for fiscal year 2009 and 100 percent for fiscal years 2008 and 2007.

11. OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty-five days of vacation per year, depending upon length of service. Certain administrators receive twenty days of vacation per year and may accumulate a total of sixty days. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers and other administrative staff do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Teachers may accumulate sick leave up to a maximum of two hundred fifty days through thirty years of service and two hundred sixty days for thirty-one or more years of service. Administrators may accumulate unlimited sick leave days. Classified employees may accumulate sick leave up to two hundred fifty days. Upon retirement, payment is made for 25 percent of the first one hundred twenty days of accrued but unused sick leave plus 15 percent of any remaining accrued but unused sick leave for teachers and certain administrators with less than thirty years of service up to a maximum of forty-eight days. For teachers and administrators, except the superintendent, with more than thirty years of service, payment is made for 25 percent of the first one hundred twenty days of accrued but unused sick leave plus 20 percent of any remaining accrued but unused sick leave up to a maximum of fifty-eight days. For the superintendent with ten years of service and qualified for retirement, payment is made for 25 percent of the first one hundred twenty days of accrued but unused sick leave plus 10 percent of any remaining accrued but unused sick leave up to the maximum granted to other certified employees of the School District. Upon retirement, payment is made for 25 percent of the first one hundred twenty days of accrued but unused sick leave plus 15 percent of any remaining accrued but unused sick leave to a maximum of forty-eight days for classified employees.

B. Health Care Benefits

The School District provides medical and dental insurance benefits to most employees through the Southwestern Ohio Educational Purchasing Cooperative Benefit Plan Trust. The Board pays the entire monthly premium, except for part-time employees who pay a pro-rated portion for their benefits.

The School District also provides life insurance to active full-time employees through the Fort Dearborn Life Insurance Company.

Total Governmental Activities		<u>\$343,000</u>	<u>\$342,000</u>	<u>\$343,000</u>	<u>\$342,000</u>

The energy conservation and school improvement notes are backed by the full faith and credit of the School District and have a maturity of one year. The notes will be paid from the Bond Retirement debt service fund.

On October 21, 2003, the School District entered into a lease agreement with the Sidney Community Foundation for constructing, equipping, and furnishing a new administration building. The Sidney Community Foundation entered into an agreement with a trustee through which it assigned and transferred its rights, title, and interest under the lease to Fifth Third Bank as Trustee. The Trustee issued Certificates of Participation notes in the lease agreement enabling holders of the Certificates to receive a portion of the semiannual lease payments. Proceeds from the issuance of the Certificates were used to construct the new building.

The obligation of the School District under the lease and any subsequent lease renewal is subject to the annual appropriation of the rental payments. Legal title to the facilities remains with the trustee until all payments required under the lease have been made. At that time, title will be transferred to the School District. In the event the School District defaults on the lease, after thirty days the lessor may lease the campus to a new tenant. Under terms of the lease agreement, the School District may not lease, acquire, or allocate funds to acquire functionally similar facilities for thirty days after default. The lease obligation will be paid from the Bond Retirement debt service fund.

The Certificates of Participation notes are not a general obligation of the School District and are payable only from appropriations by the School District for annual lease payments.

The energy conservation and school improvement notes are backed by the full faith and credit of the School District and have a maturity of one year. The notes will be paid from the Bond Retirement debt service fund.

On October 21, 2003, the School District entered into a lease agreement with the Sidney Community Foundation for constructing, equipping, and furnishing a new administration building. The Sidney Community Foundation entered into an agreement with a trustee through which it assigned and transferred its rights, title, and interest under the lease to Fifth Third Bank as Trustee. The Trustee issued Certificates of Participation notes in the lease agreement enabling holders of the Certificates to receive a portion of the semiannual lease payments. Proceeds from the issuance of the Certificates were used to construct the new building.

13. LONG-TERM OBLIGATIONS (Continued)

The obligation of the School District under the lease and any subsequent lease renewal is subject to the annual appropriation of the rental payments. Legal title to the facilities remains with the trustee until all payments required under the lease have been made. At that time, title will be transferred to the School District. In the event the School District defaults on the lease, after thirty days the lessor may lease the campus to a new tenant. Under terms of the lease agreement, the School District may not lease, acquire, or allocate funds to acquire functionally similar facilities for thirty days after default. The lease obligation will be paid from the Bond Retirement debt service fund.

The Certificates of Participation notes are not a general obligation of the School District and are payable only from appropriations by the School District for annual lease payments.

2001 School Improvement General Obligation Bonds - On May 8, 2001, the School District issued \$19,999,992 in voted general obligation bonds for constructing, improving, and making additions to school buildings and related site development. The bond issue included serial, term, and capital appreciation bonds, in the amount of \$4,565,000, \$15,345,000, and \$89,992, respectively. During fiscal year 2008, the term bonds were refunded. The bonds are being retired from the Bond Retirement debt service fund, with a portion of the proceeds of a 3.70 mill voted property tax levy.

The serial bonds maturing on December 1, 2012, and thereafter, are subject to optional redemption, in whole or in part, on any date in order of maturity and by lot within a maturity, in integral multiples of \$5,000, at the option of the School District on or after December 1, 2011, at the redemption prices (expressed as percentages of the principal amount to be redeemed) plus accrued interest to the redemption date:

Redemption Dates (Dates Inclusive)	Redemption Prices
December 1, 2011, through November 30, 2012	101%
December 1, 2012, and thereafter	100

The capital appreciation bonds will mature in fiscal years 2014 and 2015.

2002 School Improvement General Obligation Bonds - On April 1, 2002, the School District issued \$4,000,000 in voted general obligation bonds for constructing, improving, and making additions to school buildings and related site development. The bond issue included serial and term bonds, in the amount of \$1,540,000 and \$2,460,000, respectively. During fiscal year 2008, a portion of the serial bonds and the entire amount of term bonds were refunded. The bonds are being retired from the Bond Retirement debt service fund, with a portion of the proceeds of a 3.70 mill voted property tax levy.

The serial bonds maturing on December 1, 2013, and thereafter, are subject to optional redemption, in whole or in part, on any date in order of maturity and by lot within a maturity, in integral multiples of \$5,000, at the option of the School District on or after December 1, 2012, at par, which is 100 percent of the face value of the bonds.

2007 School Improvement Refunding General Obligation - On October 31, 2007, the School District issued bonds, in the amount of \$18,340,000, to partially refund bonds previously issued in fiscal years 2001 and 2002 for constructing, improving, and making additions to school buildings and related site development. The refunding bond issue includes serial and capital appreciation bonds, in the amount of \$18,230,000, and \$110,000, respectively. The bonds were issued at a premium of \$1,450,217. The bonds were issued for a twenty-one year period, with final maturity during fiscal year 2029. The bonds will be retired through the Bond Retirement debt service fund.

13. LONG-TERM OBLIGATIONS (Continued)

The serial bonds are subject to optional redemption, by and at the sole option of the School District, either in whole or in part and in integral multiples of \$5,000, on any date on or after December 1, 2017, at a redemption price of 100 percent of the principal amount redeemed plus accrued interest to the redemption date.

The capital appreciation bonds are not subject to prior redemption. The capital appreciation bonds will mature on December 1, 2016, and 2017, in the amount of \$1,025,000 and \$1,035,000, respectively.

At June 30, 2009, \$17,800,000 of the refunded debt was still outstanding.

Loans Payable - On October 29, 2008, the School District obtained a loan for the purchase of two buses, in the amount of \$149,500. The loan is due to mature on October 29, 2011, and has an interest rate of 4.23 percent. The debt is paid two thirds from the Permanent Improvement fund and one third from the General fund.

The School District's overall debt margin was \$22,062,408 with an un-voted debt margin of \$447,090 at June 30, 2009.

Principal and interest requirements to retire the general long-term obligation outstanding at June 30, 2009, were as follows:

14. CAPITALIZED LEASES - LESSEE DISCLOSURE

The School District has entered into capitalized leases for equipment. The leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Principal payments in fiscal year 2009 were \$33,012.

14. CAPITALIZED LEASES - LESSEE DISCLOSURE (Continued)

Future long-term minimum lease payments required under the capital lease are as follows:

	Principal	Interest
2010	\$ 56,725	\$29,824
2011	54,650	20,167
2012	56,357	14,490
2013	59,206	8,805
2014	42,861	2,480
	<u>\$269,799</u>	<u>\$75,766</u>

15. SET ASIDES

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials, and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end. These amounts must be carried forward and used for the same purposes in future years.

The following cash basis information identifies the changes in the fund balance reserves for textbooks and capital improvements during fiscal year 2009.

	Textbooks	Capital Improvements
Balance June 30, 2008	(\$2,745,356)	(\$23,828,033)
Current Year Set Aside Requirement	611,381	611,381
Qualifying Expenditures	(523,115)	(280,869)
Current Year Offsets		(330,512)
Amount Carried Forward to Fiscal Year 2010	<u>(\$2,657,090)</u>	<u>(\$23,828,033)</u>

The School District had qualifying expenditures during the fiscal year that reduced the textbooks set aside amount below zero. This amount may be used to reduce the set aside requirement in future fiscal years. The District also had qualifying bond proceeds in prior years that reduced the capital acquisition set aside amount to below zero. This amount may be used to reduce the capital acquisition set aside requirement in future years.

16. INTERFUND TRANSFERS

During fiscal year 2009, the General Fund made transfers to the Bond Retirement debt service fund, in the amount of \$125,717, as debt payments became due and to other governmental funds, in the amount of \$265,000, to set aside resources for future severance payments and to subsidize activities of other funds.

Other governmental funds made transfers to the Bond Retirement debt service fund, in the amount of \$93,062, as debt payments became due and to other governmental funds, in the amount of \$4,047, to subsidize activities of other funds.

17. DONOR RESTRICTED ENDOWMENTS

The School District's private purpose trust funds include donor restricted endowments. Endowments, in the amount of \$111,600, represent the principal portion. The amount of net appreciation in donor restricted investments that is available for expenditures by the School District is \$219,360 and is included as held in trust for scholarships. State law permits the School District to appropriate, for purposes consistent with the endowment's intent, net appreciation, realized and unrealized, unless the endowment terms specify otherwise. The endowments indicate that the interest should be used to provide scholarships each year.

18. JOINTLY GOVERNED ORGANIZATIONS

A. Western Ohio Computer Organization

The School District is a participant in the Western Ohio Computer Organization (WOCO). WOCO is an association of public school districts within the boundaries of Auglaize, Champaign, Hardin, Logan, and Shelby Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of WOCO consists of two representatives from each county elected by majority vote of all charter member school districts within each county plus a representative from the fiscal agent school district. During fiscal year 2009, the School District paid \$161,175 to WOCO for various services. Financial information can be obtained from the Shelby County Educational Service Center, 129 East Court Street, Sidney, Ohio 45365.

B. Upper Valley Joint Vocational School

The Upper Valley Joint Vocational School (JVS) is a distinct political subdivision of the State of Ohio which provides vocational education to students. The JVS is operated under the direction of a Board consisting of one representative from each of the fourteen participating school districts' elected boards. The Board possesses its own budgeting and taxing authority. The degree of control exercised by the School District is limited to its representation on the Board. Financial information can be obtained from the Upper Valley Joint Vocational School, 8811 Career Drive, Piqua, Ohio 45356-9254.

C. Southwestern Ohio Educational Purchasing Cooperative

The Southwestern Ohio Educational Purchasing Cooperative (SOEPC) was established in 1986 among educational entities located in southwestern Ohio to purchase instructional and operational supplies and materials. The SOEPC is organized under Ohio law as a regional council of governments pursuant to a written agreement entered into by its member educational entities and bylaws adopted by the representatives of the member educational entities. The SOEPC is governed by an elected Board consisting of ten representatives of the educational entities and the superintendent from the Montgomery County Educational Service Center. The Board, except for the superintendent from the Montgomery County Educational Service Center, is elected from an Assembly consisting of a representative from each participating educational entity. Financial information can be obtained from the Southwestern Ohio Educational Purchasing Cooperative, 1831 Harshman Road, Dayton, Ohio 45424.

19. INSURANCE POOLS

A. Southwestern Ohio Educational Purchasing Cooperative Benefit Plan Trust

The Southwestern Ohio Educational Purchasing Cooperative Benefit Plan Trust (Trust) is a public entity shared risk pool consisting of seventy school districts. The Trust is organized as a Voluntary Employee Benefit Association under Section 501(c)(9) of the Internal Revenue Code and provides medical, dental, and vision insurance benefits to the employees of the participants. The Trust is governed by the Southwestern Ohio Educational Purchasing Cooperative and its participating members.

Each participant decides which plans offered by the Trust that will be extended to its employees. Participation in the Trust is by written application subject to acceptance by the Trust and payment of the monthly premiums. Financial information can be obtained from the Southwestern Ohio Educational Purchasing Cooperative, 1831 Harshman Road, Dayton, Ohio 45424.

B. Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan (Plan) was established as an insurance purchasing pool.

The Plan's business and affairs are conducted by the Southwestern Ohio Educational Purchasing Cooperative and the participating members of the Plan. The Benefits Administrator of the SOEPC coordinates the management and administration of the Plan. Each year, the participants pay an enrollment fee to the Plan to cover the costs of administering the program.

20. RELATED ORGANIZATION

The Amos Memorial Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Sidney Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend on the School District for operational subsidies. Although the School District serves as the taxing authority, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Amos Memorial Public Library, 230 East North Street, Sidney, Ohio 45865.

21. CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2009.

(Continued)**

21. CONTINGENCIES (Continued)

B. Litigation

There are currently no matters in litigation with the School District as defendant.

22. SUBSEQUENT EVENTS

On November 3, 2009, the voters passed a 9.9 mill property tax operating levy for a five year period. The levy will generate \$4,500,000 annually. Collections will begin on January 1, 2010.

On November 10, 2009, the School District issued \$1,125,000 in certificate of participation notes to retire notes previously issued for the construction of a new administration building. The notes have an interest rate of 2.625 percent and mature on November 10, 2010.

On November 12, 2009, the School District issued bond anticipation notes, in the amount of \$458,000, to retire notes previously issued for energy conservation projects. The notes have an interest rate of 2.375 percent and mature on November 10, 2010.

On November 12, 2009, the School District issued bond anticipation notes, in the amount of \$600,000, to retire notes previously issued for constructing, improving, and making additions to school buildings. The notes have an interest rate of 2.25 percent and mature on November 10, 2010.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2009**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Sidney City School District (the School District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

Program regulations do not require the School District to maintain separate inventory records for purchased food versus food commodities it receives from the U.S. Department of Agriculture. The School District reports commodities consumed on the Schedule at the fair value.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require the School District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The School District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE E - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. These transfers resulted in the Schedule reporting negative receipts. The School District transferred the following amounts from 2008 to 2009:

Program Title	CFDA Number	Amount Transferred from 2008 to 2009
Special Education - Preschool Grants	84.173	\$7,943
Safe and Drug-Free Schools and Communities	84.186	5,995

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Sidney City School District
Shelby County
750 South Fourth Street
Sidney, Ohio 45365

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sidney City School District, Shelby County, (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 22, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note a certain noncompliance or other matter that we reported to the District's management in a separate letter dated January 22, 2010.

We intend this report solely for the information and use of the audit committee, management, Sidney Board of Education and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Sidney City School District
Shelby County
750 South Fourth Street
Sidney, Ohio 45365

To the Board of Education:

Compliance

We have audited the compliance of Sidney City School District, Shelby County, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to its major federal programs for the year ended June 30, 2009. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Sidney City School District complied, in all material respects, with the requirements referred to above that apply to its major federal program for the year ended June 30, 2009.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

**Internal Control Over Compliance
(Continued)**

A *control deficiency* in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that the District's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of the audit committee, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Independent Accountants' Report on Applying Agreed-Upon Procedures

Sidney City School District
Shelby County
750 South Fourth Street
Sidney, Ohio 45365

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Sidney City School District (the District) has adopted an anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board adopted an anti-harassment policy at its meeting on September 11, 2007.
2. We read the policy, noting it included the following requirements from Ohio Rev. Code Section 3313.666(B):
 - 1) A statement prohibiting harassment, intimidation, or bullying of any student on school property or at school-sponsored events;
 - 2) A definition of harassment, intimidation, or bullying that includes the definition in division (A) of Ohio Rev. Code Section 3313.666;
 - 3) A procedure for reporting prohibited incidents;
 - 4) A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
 - 5) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident;
 - 6) A procedure for documenting any prohibited incident that is reported;

- 7) A procedure for responding to and investigating any reported incident;
- 8) A strategy for protecting a victim from additional harassment, intimidation, or bullying, and from retaliation following a report;
- 9) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment to the Constitution of the United States;
- 10) A requirement that the district administration semiannually provide the president of the district board a written summary of all reported incidents and post the summary on its web site, if the district has a web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board of Education and is not intended to be and should not be used by anyone other than these specified parties.
