The notes to the Schedule of Federal Awards Receipts and Expenditures are an integral part of this statement.

NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES FOR THE YEAR ENDED JUNE 30, 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C - FOOD DONATION PROGRAM

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

NOTE D - MATCHING REQUIREMENTS

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

Mary Taylor, CPA Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Vandalia-Butler City School District Montgomery County 306 South Dixie Drive Vandalia, Ohio 45377

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Vandalia-Butler City School District, Montgomery County, (the District) as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

We consider findings 2009-001 through 2009-002 described in the accompanying schedule of findings to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Vandalia-Butler City School District Montgomery County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*. Page 2

Internal Control Over Financial Reporting (Continued)

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. Of the significant deficiencies described above, we believe findings 2009-001 and 2009-002 are also material weaknesses.

We noted certain internal control matters that we reported to the District's management in a separate letter dated December 18, 2009.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain noncompliance or other matters that we reported to the District's management in a separate letter dated December 18, 2009.

We intend this report solely for the information and use of the audit committee, management, and Board of Education, and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Vandalia-Butler City School District Montgomery County 306 South Dixie Drive Vandalia, Ohio 45377

To the Board of Education:

Compliance

We have audited the compliance of Vandalia-Butler City School District, Montgomery County, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended June 30, 2009. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Vandalia-Butler City School District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2009. In a separate letter to the District's management dated December 18, 2009, we reported other matters related to federal noncompliance not requiring inclusion in this report.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Applicable to Each Major Federal Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
Page 2

Internal Control Over Compliance (Continued)

A control deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that the District's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

However, we noted a matter involving the internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated December 18, 2009.

Schedule of Federal Awards Receipts and Expenditures

We have also audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Vandalia-Butler City School District as of and for the year ended June 30, 2009 and have issued our report thereon dated December 18, 2009. Our audit was performed to form an opinion on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of federal awards receipts and expenditures provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Mary Taylor, CPA Auditor of State

December 18, 2009

SCHEDULE OF FINDINGS OMB CIRCULAR A -133 § .505 JUNE 30, 2009

1. SUMMARY OF AUDITOR'S RESULTS

(d)(1)(i)	Type of Financial Statement Opinion	Unqualified
(d)(1)(ii)	Were there any material control weaknesses reported at the financial statement level (GAGAS)?	Yes
(d)(1)(ii)	Were there any other significant deficiencies in internal control reported at the financial statement level (GAGAS)?	No
(d)(1)(iii)	Was there any reported material noncompliance at the financial statement level (GAGAS)?	No
(d)(1)(iv)	Were there any material internal control weaknesses reported for major federal programs?	No
(d)(1)(iv)	Were there any other significant deficiencies in internal control reported for major federal programs?	No
(d)(1)(v)	Type of Major Programs' Compliance Opinion	Unqualified
(d)(1)(vi)	Are there any reportable findings under § .510?	No
(d)(1)(vii)	Major Programs (list):	Title I Grants to Local Educational Agencies: CFDA #84.010
		Special Education Cluster:
		Special Education_Grants to States: CFDA #84.027
		Special Education_Preschool Grants: CFDA #84.173
(d)(1)(viii)	Dollar Threshold: Type A\B Programs	Type A: > \$ 300,000 Type B: all others
(d)(1)(ix)	Low Risk Auditee?	No

Vandalia-Butler City School District Montgomery County Schedule of Findings Page 2

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2009-001

Material Weakness - Calculation of Property Taxes Receivable

The District computed accruals for property taxes receivable and deferred revenue to be recorded on the basic financial statements. In its calculation, the District did not use the Official Fiscal Year 2010 Certificate of Estimated Resources, but rather the Certificate of the Total Amount from All Sources Available for Expenditures and Balances. This resulted in the following financial statement misstatements;

- Taxes Receivable and Deferred Revenue in the amount of \$1,308,701, was not reported on the District's financial statements as part of the Remaining Fund Information Opinion Unit (Bond Retirement Fund) and on the Governmental Activities Opinion Unit;
- Taxes Receivable and Deferred Revenue in the General Fund (major fund) was overstated by \$814,294 on the financial statements.

The adjustment for the Remaining Fund Information Opinion Unit (Bond Retirement Fund) represented 76% of assets, and 125% of liabilities, and has been reflected in the basic financial statements. The misstatement in the General Fund's property taxes receivable amount was determined to be more than inconsequential but did not require an audit adjustment.

The District should use the following fiscal year's Official Certificate of Estimated Resources in its property taxes receivable calculation. Failure to do so could result in the use of inaccurate information which could lead to material misstatements in the District's financial statements.

Officials' Response:

We did not receive a response from Officials to this finding

FINDING NUMBER 2009-002

Material Weakness - Classification of Premium on Bonds Issued

The District issued bonds during fiscal year 2009 that had a premium of \$755,926 and related issuance costs of 295,700. The District reported the premium and issuance costs in the Building Fund (major fund), rather than the Bond Retirement Fund (included in the Remaining Fund Opinion Unit) on the Basic Financial Statements. This mis-posting represented 8% of expenditures, 21% of revenues and 69% of ending equity for the Remaining Fund Information opinion unit and was 21% of expenditures in the Building Fund opinion unit. Additionally, the error caused Invested in Capital Assets, Net of Related Debt to be understated on the Statement of Net Assets by \$755,926. This adjustment has been reflected in the accompanying financial statements.

The District should implement procedures to verify bond premiums and related issuance costs are recorded in the proper opinion units on its financial statements, as well as properly included in the correct equity line item on the statement of net assets. Failure to do so could result in the use of inaccurate information which could lead to material misstatements in the District's financial statements.

Officials' Response:

We did not receive a response from Officials to this finding

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None.

Mary Taylor, CPA Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Vandalia-Butler City School District Montgomery County 306 South Dixie Drive Vandalia, Ohio 45377

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Vandalia-Butler City School District (the District) has adopted an anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

- 1. We noted the Board adopted an anti-harassment policy at its meeting on December 18, 2007.
- 2. We read the policy, noting it included the following requirements from Ohio Rev. Code Section 3313.666(B):
 - 1) A statement prohibiting harassment, intimidation, or bullying of any student on school property or at school-sponsored events;
 - 2) A definition of harassment, intimidation, or bullying that includes the definition in division (A) of Ohio Rev. Code Section 3313.666;
 - 3) A procedure for reporting prohibited incidents;
 - 4) A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
 - 5) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident;
 - 6) A procedure for documenting any prohibited incident that is reported;

Vandalia-Butler City School District Montgomery County Independent Accountants' Report on Applying Agreed-Upon Procedures Page 2

- 7) A procedure for responding to and investigating any reported incident;
- 8) A strategy for protecting a victim from additional harassment, intimidation, or bullying, and from retaliation following a report;
- 9) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment to the Constitution of the United States;
- 10) A requirement that the district administration semiannually provide the president of the district board a written summary of all reported incidents and post the summary on its web site, if the district has a web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

Mary Taylor, CPA Auditor of State

December 18, 2009

Citizens of Vandalia-Butler City School District and Members of the Vandalia-Butler Board of Education:

We are pleased to present the 2009 Comprehensive Annual Financial Report (CAFR) for the Vandalia-Butler City School District. This report, for the fiscal year ended June 30, 2009, contains the financial statements and other financial and statistical data that provide complete and full disclosure of all material financial aspects of the Vandalia-Butler City School District (School District). The responsibility for the accuracy and completeness of all data presented, and the fairness of the presentation, rests with the School District, specifically with the School District Treasurer's office.

Accounting Principles Generally Accepted in the United States of America (GAAP) also requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The School District's MD&A can be found immediately following the Independent Accountants' Report.

DISTRICT OVERVIEW

The Vandalia-Butler City School District serves an area of 36 square miles in the northern part of Montgomery County, Ohio, encompassing Butler Township, the City of Vandalia, a portion of the City of Union, and a portion of the City of Dayton. The Dayton International Airport, located within the School District, comprises approximately 6.25 square miles of the total 36 square miles.

The area is located approximately 10 miles north of the City of Dayton at the "Crossroads of America" which was originally defined by the intersection of US Route 40 and US Route 25A but is now identified by the intersection of Interstate 70 and Interstate 75 – America's coast-to-coast highways. With these major thoroughfares, Vandalia and Butler Township provide a desirable location for many families who work in the Dayton metropolitan area and provide a desirable location for many businesses that provide goods and services throughout the country.

Education in the area began with the first school that formed in Butler Township in 1807. Additionally, the Village of Vandalia School District formed in 1869. A consolidated Butler and Vandalia School District formed in 1921 under the name Butler Township Schools. The consolidated school district operated from the Butler Township School Building built in 1921. That school today currently operates as Morton Middle School serving students in grades 5 through 8.

The current charter as the Vandalia-Butler City School District was adopted in 1956. Today, the School District operates six school buildings: three elementary schools serving grades Kindergarten through grade 4; two middle schools serving grades 5 through 8; and, one high school serving grades 9 through 12.

DISTRICT ORGANIZATION AND REPORTING ENTITY

The School District operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code. Under a locally elected five member Board form of government, the School District provides educational services as authorized by its charter or further mandated by state and/or federal agencies. The Board of Education serves as the taxing authority, contracting body, and policy maker for the School District. In addition, the Board adopts the annual operating budget and approves all expenditures of School District monies. The Board appoints the Superintendent and Treasurer. As the chief administrative officer, the Superintendent is responsible for the development, supervision, and operation of the school programs and facilities and appoints all other personnel in the School District. As the chief financial officer, the Treasurer is responsible for maintaining financial records, acting as the custodian of all School District funds, and investing idle funds as specified by law.

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements of the School District are not misleading.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the School District in that the School District approves the organization's budget, the issuance of its debt or the levying of its taxes. Currently, the School District does not have any component units.

The School District is associated with the Southwestern Ohio Education Purchasing Council (SOEPC), which is defined as a jointly governed organization. It is a purchasing cooperative comprised of over 126 school districts in 18 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. This organization is presented in Note 17.

Also, the School District is associated with the Southwestern Ohio Instructional Technology Association (SOITA), which is defined as a jointly governed organization. It is a not-for-profit corporation formed under Section 1702.01 of the Ohio Revised Code. The purpose of the corporation is to serve the educational needs of the area through television programming for the advancement of educational programs. This organization is presented in Note 17.

Also, the School District is associated with the Miami Valley Career Technology Center, which is defined as a jointly governed organization. It is a distinct political subdivision of the State of Ohio operating as a joint vocational school district. The purpose of the vocational school district is to provide vocational educational services to students of member districts. This organization is presented in Note 17.

Also, the School District is associated with the Metropolitan Dayton Education Computer Association, which is defined as a jointly governed organization. It is a computer consortium of area school districts sharing computer resources. The purpose of the association is to apply modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts. This organization is presented in Note 17.

ECONOMIC CONDITION AND OUTLOOK

The Vandalia-Butler City School District serves the residents of the City of Vandalia and Butler Township, who despite lack of state dollars and removal of personal property from the tax base realize the importance of strong schools. In 2006, the School District passed a 5.9 mill operating levy to continue to meet the financial needs of the School District. In 2007, the School District renewed a 5.95 mill levy already on the books; and on November 4, 2008 the community supported a bond issue for \$49,950,000. The tax rate for the bond issue will be effective January 1, 2010 and will begin collection as an emergency levy expires. The School District committed to no increase in taxes for building the new facilities and has delivered on that promise.

Butler Township continues to experience some commercial growth in conjunction with declining real estate values. With the redesign of the Interstate 70 and Interstate 75 exchange that began in 2002, the township has opened a new exit ramp at the Benchwood Road interchange and closed to rebuild the Little York Road exchange. Among many new projects, York Commons is an 80 acre regional retail project located at the new I-75 Benchwood interchange, six miles north of downtown Dayton and within 10 minutes of the Dayton International Airport. The property is zoned B-3 allowing for most business enterprises. Tax incentives are being offered as TIFs with school supported donation agreements to provide further appeal for commercial development in the Benchwood area and around the Dayton International Airport.

The City of Vandalia passed an additional income tax in 2005 and is planning for continued economic growth. Similarly to the township they are implementing tax incentives and modified infrastructure to attract more local business, and they have begun expansion of one of the area's major streets (Dixie Road) and are developing a couple new commercial projects at an area called Stonequarry Crossings and at Northwoods Road directly off of Interstate 75.

MAJOR INITIATIVES

Vandalia-Butler City Schools achieved an "Excellent" rating for the fifth year in a row, as awarded by the State of Ohio on the local report card. We continue to improve as we examine weaknesses in student achievement and design targeted interventions to better align our instruction and our financial resources. Additionally, capital spending was reduced in anticipation of the new and renovated buildings. The School District is analyzing and realigning its facility plan to maximize building project dollars. Building design and selected alternates are being evaluated against the impact the building will have on the operating budget.

FINANCIAL INFORMATION

The School District's accounting system is organized on a fund basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a budgetary basis system of accounting as prescribed by State statute. Cash basis accounting differs from Accounting Principles Generally Accepted in the United States of America (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

Internal Controls

The management of the School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the School District are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely derived from its implementations, and (2) the valuation of cost and benefits requires estimates and judgments by management.

The School District uses a fully automated accounting system as well as an automated system for payroll. These systems, coupled with the manual control procedures, ensure that the financial information generated is both accurate and reliable.

Federal and State Assistance

As a recipient of Federal and State assistance, the School District is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the School District.

Budgetary Controls

The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution. The legal level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level.

The School District maintains an encumbrance accounting system as a technique of accomplishing budgetary control. Unencumbered appropriation balances are verified prior to the release of purchase orders to ensure funds are available to meet the obligation created by the purchase order. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

Financial Condition

This is the eighth year the District has prepared financial statements following GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." GASB 34 created basic financial statements for reports as follows:

Government-wide financial statements. These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by many businesses. The government-wide statement distinguishes between those activities of the School District that are governmental and those that are considered business-type activities. The School District reports no business-type activities.

Fund financial statements. These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons. These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transaction on a basis of cash receipts, disbursements, and encumbrances.

Management Discussion and Analysis for the School District. This discussion is located in the financial section of this report following the audit opinion and provides an assessment of the School District finances and the outlook for the future.

Cash Management

The School District approved an investment policy at its organizational meeting in January 2009, and has used Multi-Bank Services, Ltd. as an investment consultant. With the guidance of Multi-Bank Services, the School District pursues an aggressive cash management program by expediting the receipt of revenues and prudently investing available cash pursuant to the School District's investment policy. The total interest earned by the School District's governmental funds was \$854,137 for the fiscal year ended June 30, 2009. A majority of the School District's deposits are collateralized by pooled collateral. By law, financial institutions may establish a collateral pool to cover all public deposits. The collateral is held by trustees, including the Federal Reserve Bank and designated third party trustees of the financial institutions. The School District regularly reviews the market value of the pool to ensure that adequate collateral is provided. A more detailed description of School District's investments is presented in Note 5.

Risk Management

The School District maintains protection for its assets and employees through a comprehensive insurance program. Insurance policies for vehicle fleet liability, general liability, property loss, and boiler and machinery coverage are purchased from insurance companies licensed to do business in the State of Ohio.

OTHER INFORMATION

Independent Audit

An audit team from the Auditor of State of Ohio has performed this year's audit. The results of the audit are presented in the Independent Accountants' Report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Vandalia-Butler City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2008. The Certificate of Achievement is the highest form of recognition for excellence in the state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The School District believes the current report continues to conform to the high standards required by the Certificate of Achievement program.

Acknowledgements

Sincere appreciation is extended to the many people who have contributed their time and effort to prepare this report. The members of the Treasurer's Office Staff are to be especially commended for their input and commitment. Finally, appreciation is extended to the firm of Balestra, Harr and Scherer Consulting for the guidance and assistance in preparing this report.

INDEPENDENT ACCOUNTANTS' REPORT

Vandalia-Butler City School District Montgomery County 306 South Dixie Drive Vandalia, Ohio 45377

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Vandalia-Butler City School District, Montgomery County, Ohio (the District), as of and for the year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Vandalia-Butler City School District, Montgomery County, Ohio, as of June 30, 2009, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2009, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Vandalia-Butler City School District Montgomery County Independent Accountants' Report Page 2

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining nonmajor fund statements and schedules, and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Mary Taylor, CPA Auditor of State

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Vandalia-Butler City School District's (the School District) discussion and analysis of the annual financial reports provides a review of the financial performance for the fiscal year ended June 30, 2009. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements, and the basic financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

- The School District's assets exceeded its liabilities at June 30, 2009 by \$19,109,527.
- The School District's net assets of governmental activities decreased \$22,761 which represents a 0.1 percent decrease from 2008.
- General revenues accounted for \$34,085,960 in revenue, or 89 percent of all revenues. Program specific revenues in the form of charges for services and sales, grants, and contributions accounted for \$4,387,723, or 11 percent of total revenues of \$38,473,683.
- The School District had \$38,496,444 in expenses related to governmental activities; only \$4,387,723 of these expenses was offset by program specific charges for services and sales, grants, and contributions.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the Vandalia-Butler City School District's financial situation as a whole and also give a detailed view of the School District's financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the School District as a whole and present a longer-term view of the District's finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as the amount of funds available for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column.

REPORTING THE DISTRICT AS A WHOLE

The analysis of the School District as a whole begins with the Statement of Net Assets and the Statement of Activities. These reports provide information that will help the reader to determine whether the District is financially improving or declining as a result of the year's financial activities. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net assets and changes to those assets. This change informs the reader whether the District's financial position, as a whole, has improved or diminished. In evaluating the overall financial health, the user of these financial statements needs to take into account non-financial factors that also impact the School District's financial well-being. Some of these factors include the District's tax base, current property tax laws in Ohio restricting revenue growth, the condition of capital assets, and required educational programs.

In the Statement of Net Assets and the Statement of Activities, the District has only one kind of activity.

Governmental Activities. All of the District's programs and services are reported here
including instruction, support services, operation and maintenance of plant, pupil
transportation, non-instructional services, and extracurricular activities.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The analysis of the School District's funds begins on page 6. Fund financial statements provide detailed information about the District's major funds – not the School District as a whole. Some funds are required by State law and bond covenants. Other funds may be established by the Treasurer with approval from the Board to help control, manage, and report money received for a particular purpose or to show that the School District is meeting legal responsibilities for use of grants. The Vandalia-Butler City School District's major funds are the General Fund and the Building Capital Project fund.

Governmental Funds. Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fiduciary Funds. Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. The School District's fiduciary fund is an agency fund which is used to maintain financial activity of the School District's Student Managed Activities. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

THE DISTRICT AS A WHOLE

As stated previously, the Statement of Net Assets provides the perspective of the District as a whole. Table 1 provides a summary of the District's net assets for 2009 compared to 2008.

Table 1 Net Assets Governmental Activities

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

Total net assets of the School District, as a whole, decreased \$22,761. The increase to current assets is due to an increase in cash on hand at June 30, 2009 that resulted from the issuance of general obligation bonds and bond anticipation notes. The increase to current and other liabilities is due to the issuance of bond anticipation notes during the fiscal year and accrued interest payable on debt outstanding at year end. The increase to long-term liabilities is due to the issuance of general obligation and capital appreciation bonds.

Table 2 shows the changes in net assets for the fiscal years ended June 30, 2009 and June 30, 2008.

^{*} Certain reclassifications were made during the current year to reflect current year reporting. These reclassifications had no effect on net assets.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

Governmental Activities

Property taxes comprised 57 percent of revenue for governmental activities of the Vandalia-Butler City School District for fiscal year 2009 and represents the largest source of revenue. The decrease to tax revenue is due to the phase out of personal property tax. Grants and entitlements comprised 28 percent of revenue for governmental activities during 2009.

As indicated by governmental program expenses, total instruction is emphasized. Total instruction comprised 58 percent of governmental program expenses with support services comprising 34 percent of governmental expenses. The Board of Education relies on taxes to support increased student achievement within the School District. The decrease to regular instruction is due to the decrease of accrued wages and benefit obligations. The increase to special instruction is a component of student needs. Higher needs students continue to drive special instruction costs up. Pupil expenditure increases are a result of the district's program based budget model. Focus and priority is given to expenditure on items that impact instruction. The decrease to operation and maintenance of plant is due mainly to reduced budgets in preparation for building new buildings. The increase to interest and fiscal charges is due to the School District incurring issuance costs as a result of the issuance of debt and accrued interest on the new debt.

The Statement of Activities shows the cost of program services and the charges for services and sales, and grants and contributions offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services for fiscal year 2009 as compared to 2008. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Total and Net Cost of Program Services
Governmental Activities

	2009	9	2008*	
	Total Cost	Net Cost	Total Cost	Net Cost
	of Services	Of Services	of Services	of Services

Interest and Fiscal Charges	1,082,807	1,082,807	11,280	11,280
Total Expenses	\$38,496,444	\$34,108,721	\$36,897,296	\$32,276,079

^{*} Certain reclassifications were made during the current year to reflect current year reporting. These reclassifications had not effect on net assets.

THE DISTRICT'S FUNDS

Information about the District's governmental funds begins on page 12. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$65,365,478 and expenditures of \$38,775,146.

The fund balance of the General Fund increased by \$1,126,107. This increase is due primarily to reduction of expenditures in areas of maintenance and capital outlay. Operational budgets were reduced in anticipation of new buildings and replaced capital in the next two years. The reduced expenditure provided an improved cash balance for the fiscal year.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

General Fund Budgeting Highlights

The School District's budget is adopted on a fund basis.

During the course of the fiscal year 2009, the School District amended its General Fund budget. Actual revenues and other financing sources for the fiscal year 2009 was \$35,572,561. This represents a \$19,628 decrease from the final budgeted revenues and a \$3,969,088 increase from the original budgeted revenues which is primarily a result of tax revenues.

The actual budget basis expenditures and other financing uses for fiscal year 2009 totaled \$35,832,050 which was \$876,656 less than the original and final budgeted appropriations which is due primarily to conservative budgeting by the School District.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2009, the School District had \$7,200,733 invested in land, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows the fiscal year 2009 balances compared to 2008. For additional information on capital assets, see Note 8 to the basic financial statements.

Table 4
Capital Assets
(Net of Accumulated Depreciation)

Governmental Activities

2009	2008
\$623,099	\$623,099
560,558	0
587,077	520,975

Changes in capital assets from the prior year resulted from additions, deletions, and current year depreciation.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2009 (Unaudited)

Debt

At June 30, 2009 the District had \$50,905,448 in notes and bonds outstanding. Table 5 summarizes the bonds outstanding:

Table 5
Outstanding Debt at Year End
Governmental Activities

	2009	2008
Bond Anticipation Notes	\$24,000,000	\$0
General Obligation Bonds	25,760,000	0
Premium	755,926	0
Capital Appreciation Bonds	189,991	0
Accretion	199,531	0
Total	\$50,905,448	\$0

For additional information on debt, see Notes 14 and 15 to the basic financial statements.

At June 30, 2009 the School District's overall legal debt margin was \$32,738,238 with an unvoted debt margin of \$645,946.

FOR THE FUTURE

Vandalia-Butler City Schools continues to improve on student achievement while having achieved "Excellent" as measured by the State of Ohio on the local report card four years in a row. In November of 2008 the School District passed a bond issue for \$49,950,000 in order to renovate the high school and replace a middle school. The payment on the bond is expected to equal \$3,585,000, the same amount as an emergency levy that ends in 2009. No increase in taxes is being issued for the debt as the emergency levy ends and the bond issue collection begins.

The method by which the School District is funding its buildings in correlation with meeting student needs, demonstrates commitment by the Board of Education to plan for long term financial stability and success. The program based budgeting process has been successfully used in the School District for the last five years as a useful tool in tying resources to student performance. This method of management is now being used to meet the needs identified in the strategic plan without increasing tax rates for our community.

Additionally, the Board of Education has completed and maintains an extensive 10 year planning schedule detailing the expected resources and expenditures for the district. It is expected the 10 year plan, program based budget, and community collaboration will continue to enable the Vandalia-Butler community to make the best decisions regarding efficient use of resources for a stable and premier School District.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with a general overview of the District's financial condition and to show the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Daniel Schall, Treasurer, Vandalia-Butler City School District, 306 South Dixie Drive, Vandalia, Ohio 45377.

Vandalia-Butler City School District Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2009

Net Change in Fund Balances - Total Governmental Funds	\$ 26,590,332
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions exceeded depreciation in the current period. Capital Asset Additions Current Year Depreciation Total 1,409,895 (609,828)	800,067
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities a gain or loss is reported for each disposal. This is the amount of the gain on the disposal of capital assets and the proceeds from the sale of capital assets. Proceeds from Sale of Capital Assets Gain on Disposal of Capital Assets Total (5,593)	0
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Taxes Intergovernmental Total 172,234 (112,724)	59,510
New lease obligations in the statement of revenues, expenditures and changes in fund balances that are reported as other financing sources are not reported as revenues in the statement of activities.	(245,388)
Proceeds and premiums from the sale of bonds in the statement of revenues, expenditures and changes in fund balances that are reported as other financing sources are not reported as revenues in the statement of activities.	(26,705,917)
Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of net assets. Annual Accretion of Capital Appreciation Bonds Accrued Interest Issuance Costs Total (199,531) (415,795) 295,700	(319,626)
Repayment of capital leases obligations are expenditures in the governmental funds, but the repayment reduces liabilities in the statement of net assets and does not result in an expense in the statement of activities.	51,954
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Increase in Compensated Absences	(253,693)
Net Change in Net Assets of Governmental Activities	\$ (22,761)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

1. DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

The School District

Vandalia-Butler City School District (the School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. This Board of Education controls the School District's nine instructional/support facilities staffed by 163 non-certified and 268 certificated full time teaching personnel who provide services to 3,422 students and other community members.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Vandalia-Butler City School District, this includes general operations, food service, and student related activities of the School District. The following activities are also included within the reporting entity:

Parochial schools within the School District boundaries - Saint Christopher School is operated through the Cincinnati Catholic Diocese. Current State legislation provides funding to this parochial school. These monies are received and disbursed on behalf of the parochial school by the treasurer of the School District, as directed by the parochial school. The activity of these State monies by the School District is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the School District in that the School District approves the organization's budget, the issuance of its debt or the levying of its taxes. Currently, the School District does not have any component units.

The following entities which perform activities within the School District boundaries for the benefit of its residents are excluded from the accompanying financial statements because the School District is not financially accountable for these entities nor are they fiscally dependent on the School District:

City of Vandalia – The city government of Vandalia is a separate body politic and corporate. A mayor and a council are elected independent of any School District relationships and administer the provision of traditional city services. Council acts as the taxing and budgeting authority for city services.

Butler Township – The township government is also a separate body politic and corporate. A three member Board of Trustees are elected independent of any School District relationships and administers the provision of traditional township services. The Trustees act as the taxing and budgeting authority for township services.

Parent Teacher Association – The School District is not involved in the budgeting or management and is not responsible for any debt and has no influence over the organization.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

1. DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY (Continued)

The School District is associated with the Southwestern Ohio Educational Purchasing Council, the Metropolitan Dayton Educational Computer Association, the Miami Valley Career Technology Center, and the Southwestern Ohio Instructional Technology Association, which are defined as jointly governed organizations, and the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), which is an insurance purchasing pool. These organizations are discussed in Notes 17 and 18 to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed in the preparation of these financial statements are summarized below. These policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources.

Fund Accounting

The School District's accounts are maintained on the basis of funds, each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific School District functions or activities. The operation of each fund is accounted for within a separate set of self-balancing accounts.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund

The General Fund is the general operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is available to the School District for any purpose provided it is expended or transferred according to the school laws of Ohio.

Building Fund

The Building Fund is used to account for all monies received and expended in connection with contracts entered into by the School District for the acquisition, construction or improvement of capital facilities.

The other governmental funds of the School District account for grants and other resources, and debt service whose use is restricted to a particular purpose.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. The School District's only fiduciary fund is an agency fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide statements. The School District's only agency fund is used to account for student-managed activities.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of governmental activities of the School District at yearend. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the full accrual economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The fund financial statements are prepared using either the modified accrual basis of accounting for governmental funds or the accrual basis of accounting for fiduciary funds. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditures requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: property taxes available as an advance, investment earnings, tuition, grants, and fees.

Unearned/Deferred Revenue

Unearned/deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2009, but which were levied to finance fiscal year 2010 operations, have been recorded as unearned/deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned/deferred revenue. On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, except for (1) principal and interest on general long-term debt and capital lease obligations, which is recorded when due, and (2) the costs of accumulated unpaid vacation, personal leave and sick leave are reported as fund liabilities as payments come due each period upon the occurrence of employee resignations and retirements. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Process

All funds, other than the agency fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate Board appropriations to the function and object level within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2009.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Encumbrances

Encumbrance accounting is utilized by the School District for all funds in the normal course of operations for purchase orders and contract related expenditures. An encumbrance is a reserve on the available spending authority due to a commitment for a future expenditure and does not represent a liability. On the fund financial statements encumbrances outstanding at fiscal year-end are reported as a reservation of fund balance for subsequent year expenditures for governmental funds. A reserve for encumbrances is not reported on the government-wide financial statements. Encumbrances are reported as part of expenditures on a non-GAAP budgetary basis in the non-GAAP budgetary basis financial statements.

Cash and Investments

Cash received by the School District is deposited into one of several bank accounts with individual fund balance integrity maintained in the School District's records. Balances of all funds are maintained in these accounts or are temporarily used to purchase certificates of deposit or investments. All investment earnings accrue to the General Fund except those specifically related to those funds deemed appropriate according to Board of Education policy or unless statutorily required to be credited to a specific fund. Interest earned amounted to \$854,137 in which \$668,701 was recorded in the General Fund, \$179,850 in the Building Fund, and \$5,586 in other non-major governmental funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School District records all its investments at fair value. For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents. The School District has invested in the State Treasury Asset Reserve of Ohio (STAROhio), Certificates of Deposit, Federal Farm Credit Bank Notes, Federal Home Loan Bank Bonds, Federal National Mortgage Association Bonds, and Federal Home Loan Mortgage Corp. Bonds during fiscal year 2009. STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2009.

Capital Assets and Depreciation

All capital assets of the School District are general capital assets that are associated with governmental activities. General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000. The School District does not possess any infrastructure.

Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	5-20 years
Building and Improvements	10-50 years
Furniture and Equipment	5-20 years
Vehicles	7-15 years

Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivable" and "Interfund Payable." These amounts are eliminated in the governmental activities column of the statement of net assets.

Compensated Absences

Vacation and personal leave benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate its employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive severance benefits and those the School District has identified as probable of receiving payment in the future. The School District records an accrual for sick leave for all employees with ten years or more of service. The accrual amount is based upon accumulated sick leave and employees' wage rates at year-end, taking into consideration any limits specified in the School District's severance policy.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employee will be paid.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements,

In general, governmental fund payables and accrued liabilities, that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and capital leases are recognized as a liability on the government-wide financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include activities for food service operations, and federal and state grants restricted to expenditures for specified purposes.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Of the School District's \$25,561,695 in restricted net assets, none is restricted by enabling legislation.

Fund Balance Reserves

Reserved fund balance indicates that portion of fund balance which is not available for current appropriation or is legally segregated for a specific use. Fund balances are reserved for encumbrances and property tax revenue reserved by the Board for future year's appropriations. The reserve for property tax represents taxes recognized as revenue under accounting principles generally accepted in the United States of America but not available for appropriation under State statute. The unreserved, undesignated portions of fund balance reflected for governmental funds are available for use within the specific purpose of those funds.

Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements. Transfers between funds in the fund financial statements are eliminated in the statement of activities. The School District had no interfund transfers during fiscal year 2009.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

Unamortized Bond Issuance Costs/Bond Premium and Discount

On the government-wide financial statements, bond issuance costs are deferred and amortized over the term of the bonds using the straight line method, which approximates the effective interest method. Unamortized bond issuance costs are recorded as an asset on the statement of net assets.

Bond premiums are deferred and amortized over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds. Capital appreciation bond discounts are accreted over the term of the bonds.

On the fund financial statements, issuance costs, and bond premiums are recognized in the current period.

3. ACCOUNTABILITY AND COMPLIANCE

Accountability

The Early Entry Program, Summer Intervention, Special Education, Title I, Title V, Preschool Handicapped, Title II-A and Miscellaneous Federal Grants special revenue funds had deficit fund balances of \$14,000, \$65,525, \$259,762, \$94,003, \$272, \$800, \$53,394, and \$290, respectively which were created by the application of accounting principles generally accepted in the United States of America. The General Fund provides transfers to cover deficit balances; however this is done when cash is needed rather than when accruals occur.

Compliance

At June 30, 2009, the Building Fund had final appropriations plus fund balance in excess of final estimated revenues in the amount of \$410,226.

At June 30, 2009, the Special Education Fund and the Title II-A Fund had expenditures plus encumbrances in excess of appropriations in the amount of \$67,146 and \$33,094, respectively.

4. BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

- Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for governmental funds (budget basis) rather than as a reservation of fund balance for governmental funds (GAAP basis).

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

4. BUDGETARY BASIS OF ACCOUNTING (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund:

Net Change in Fund Balance

	General
GAAP Basis	\$1,126,107
Adjustments:	
Revenue Accruals	764,370
Expenditure Accruals	(1,002,734)
Encumbrances	(1,147,232)
Budget Basis	(\$259,489)

5. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim monies may be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or other obligations of or securities issued by the United States treasury or any other obligation guaranteed as to the payment of principal and interest by the United States:
- 2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. Interim deposits in the eligible institutions applying for interim money as provided in section 135.08 of the Revised Code;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

5. DEPOSITS AND INVESTMENTS (Continued)

- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAROhio);
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time;
- 9. Linked deposits as authorized by ordinance adopted pursuant to section 135.80 of the Revised Code;
- 10. Commercial paper notes issued by any entity that is defined in division (D) of section 1705.01 of the Revised Code and has assets exceeding five hundred million dollars, and to which notes are rated at the time of purchase in the highest classification established by at least two standard rating services; the aggregate value of the notes does not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation; the notes mature no later than one hundred eighty days after purchase; and
- 11. Bankers' acceptances of banks that are members of the federal deposit insurance corporation to which obligations both the following apply: obligations are eligible for purchase by the federal reserve system and the obligations mature no later than one hundred eighty days after purchase.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand

At year end, the School District had \$2,750 in undeposited cash on hand which is included on the basic financial statements of the School District as part of "Equity in Pooled Cash and Investments."

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District has no deposit policy for custodial risk beyond the requirements of State statute. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

5. DEPOSITS AND INVESTMENTS (Continued)

As of June 30, 2009, the School District's bank balance of \$4,022,252 was either covered by FDIC or collateralized by the financial institutions' public entity deposit pools in the manner described above.

Investments

The School District had the following investments at June 30, 2009:

	Fair			
	Value	< 1 Year	1-2 Years	3-5 Years
	4= 000 1=0	**		
Federal Home Loan Bank	\$7,990,679	\$0	\$1,034,060	\$6,956,619
Federal National Mort. Assn.	23,668,811	0	1,004,690	22,664,121
Federal Home Loan Mortgage	16,150,785	0	3,511,740	12,639,045
Federal Farm Credit Bank Notes	7,392,470	0	0	7,392,470
STAROhio	8,401,868	8,401,868	0	0
Total Investments	\$63,604,613	\$8,401,868	\$5,550,490	\$49,652,255

Interest rate risk – As a means of limiting its exposure to fair value losses caused by rising interest rates, the School District attempts, to the extent possible, to match investments with anticipated cash flow requirements. Unless matched to a specific obligation or debt of the School District, the School District will not directly invest in securities maturing more than five years from the date of investment. The School District does not have a formal policy regarding interest rate risk.

Credit risk –Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District limits their investments to STAROhio, Federal Home Loan Bank Bonds, Federal National Mortgage Association Bonds, Federal Farm Credit Bank Notes, and Federal Home Loan Mortgage Corp. Bonds. Investments in STAROhio were rated AAAm by Standard & Poor's. Investments in Federal Home Loan Bank Bonds, Federal National Mortgage Association Bonds, Federal Home Loan Mortgage Corp. Bonds, and Federal Farm Credit Bank Notes were rated AAA by Standard & Poor's and Aaa by Moody's. The School District does not have an investment policy dealing with credit risk beyond the requirements of state statutes.

Concentration of credit risk – The School District does not have an investment policy addressing this risk, but limits investments to STAROhio, Securities of Federal Agencies or Instrumentalities and Certificates of Deposit. The School District has invested 12.6% in Federal Home Loan Bank Bonds, 37.2% in Federal National Mortgage Association Bonds, 25.4% in Federal Home Loan Mortgage Bonds, 11.6% in Federal Farm Credit Bank Notes, and the remaining 13.2% in STAROhio.

Custodial credit risk - Custodial credit risk is the risk that in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the School District's securities are either insured and registered in the name of the School District or at least registered in the name of the School District. The School District has no investment policy dealing with investment custodial credit risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2009 represents collections of calendar year 2008 taxes. Real property taxes received in calendar year 2009 were levied after April 1, 2008, on the assessed value listed as of January 1, 2008, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2009 represents collections of calendar year 2008 taxes. Public utility real and tangible personal property taxes received in calendar year 2009 became a lien December 31, 2007, were levied after April 1, 2008 and are collected in 2009 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar year 2009 (other than public utility property) represents the collection of 2009 taxes. Tangible personal property taxes received in calendar year 2009 were levied after April 1, 2009, on the value as of December 31, 2008. For calendar year 2008, tangible personal property is assessed at 6.25% for property including inventory. This percentage will be zero for calendar year 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

Ohio House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property will be eliminated by calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces revenue lost by the School District due to the phasing out of the tax. In calendar years 2006 through 2010, the School District will be fully reimbursed at the level of calendar year 2004 assessed values for the lost revenue. In calendar years 2011 through 2017, the reimbursements will be phased out.

The School District receives property taxes from Montgomery County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2009 are available to finance fiscal year 2009 operations. At June 30, 2009, \$1,047,258 was available as an advance to the General Fund. The amount available as an advance can vary depending upon when tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2009 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

6. PROPERTY TAXES (Continued)

The assessed values upon which fiscal year 2009 taxes were collected are:

	2008 Second- Half Collections		2009 First- Half Collections	
_	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$635,338,490	93.2%	\$632,699,010	98.0%
Public Utility	10,837,010	1.6%	10,904,770	1.7%
Tangible Personal Property	35,462,720	5.2%	2,342,340	0.3%
Total Assessed Value	\$681,638,220	100.00%	\$645,946,120	100.00%
Tax rate per \$1,000 of assessed valuation	\$56.94		\$53.69	

7. RECEIVABLES

Receivables at June 30, 2009, consisted of property taxes, accounts, interfund, and intergovernmental grants. All receivables are considered collectible in full and will be received within one year. A summary of the principal items of intergovernmental receivables follows:

Fund	Amount
General	\$13,336
Non-major Funds:	
Title I	80,718
Title II-A	3,368
Miscellaneous Federal Grants	344
Title V	273
IDEA	800
Drug Free and Safe Schools	1,479
Special Education	151,369
Total Non-major Funds	238,351
Total Intergovernmental Receivables	\$251,687

8. CAPITAL ASSETS

Capital assets activity for the fiscal year ended June 30, 2009, was as follows:

	Ending Balance 06/30/08	Additions	Deletions	Ending Balance 06/30/09
Governmental Activities				
Capital Assets, Not Being Depreciated				
Land	\$ 623,099	\$ -	\$ -	\$ 623,099
Construction in Progress		560,558		560,558
Total Capital Assets, Not Being Depreciated	623,099	560,558		1,183,657
Capital Assets Being Depreciated				
Land Improvements	1,403,038	114,742	-	1,517,780
Buildings and Improvements	16,000,630	-	-	16,000,630
Furniture and Equipment	3,269,865	734,595	(8,256)	3,996,204
Vehicles	2,045,541	-	-	2,045,541
Total Capital Assets, Being Depreciated	22,719,074	849,337	(8,256)	23,560,155
Less Accumulated Depreciation:				
Land Improvements	(882,063)	(48,640)	-	(930,703)
Buildings and Improvements	(12,381,718)	(195,866)	-	(12,577,584)
Furniture and Equipment	(2,249,629)	(284,451)	8,256	(2,525,824)
Vehicles	(1,428,097)	(80,871)		(1,508,968)
Total Accumulated Depreciation	(16,941,507)	(609,828)	8,256	(17,543,079)
Total Capital Assets Being Depreciated, Net	5,777,567	239,509	<u> </u>	6,017,076
Governmental Activities Capital Assets, Net	\$ 6,400,666	\$ 800,067	\$ -	\$ 7,200,733

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$390,408
Special	5,234
Support Services:	
Pupils	1,182
Instructional Staff	62,016
Administration	15,650
Business and Fiscal	6,933
Operation and Maintenance of Plant	11,359
Pupil Transportation	87,793
Central	17,615
Non-Instructional Services	7,010
Extracurricular Activities	4,628
Total Depreciation Expense	\$609,828

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

9. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. For fiscal year 2009 the School District contracted with Selective Insurance Company for general liability insurance with a \$1,000,000 single occurrence limit and \$3,000,000 aggregate. Selective Insurance Company covers buildings, boiler and machinery with \$1,000 deductible and a \$97,079,513 limit.

Professional liability is protected by Selective Insurance Company with a \$1,000,000 single occurrence limit and \$3,000,000 aggregate and \$5,000 deductible. Vehicles are covered by Selective Insurance Company. Automobile liability has a \$1,000,000 per occurrence liability. Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the previous year.

For fiscal year 2009, the School District participated in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 18). The intent of the GRP is to achieve the benefit of a reduced premium for the school district by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating School Districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Hunter Consulting, provides administrative, cost control and actuarial services to the GRP.

10. DEFINED BENEFIT PENSION PLANS

School Employees Retirement System

The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits; annual cost-of-living adjustments; and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website, www.ohsers.org, under Employees/Audit Resources.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year 2009, the allocation to pension and death benefits is 9.09 percent. The remaining 4.91 percent of the 14 percent employer contribution rate is allocated to the Health Care and Medicare B Fund. The School District's contributions to SERS which were allocated for pension and death benefits for the fiscal years ended June 30, 2009, 2008 and 2007 were \$391,591, \$422,176, and \$517,410, respectively; 48 percent of the required contribution has been made for fiscal year 2009 and 100 percent of the required contribution has been made for fiscal years 2008 and 2007. \$203,964 represents the unpaid contribution for fiscal year 2009 and is recorded as a liability within the respective funds.

State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system.

STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

10. DEFINED BENEFIT PENSION PLANS (Continued)

Plan Options - New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5 percent of earned compensation among various investment choices. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation of every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Combined Plan Benefits – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for Defined Benefit Plan participants.

The Defined Benefit and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

10. DEFINED BENEFIT PENSION PLANS (Continued)

A Defined Benefit or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the Defined Benefit Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers.

For the fiscal years ended June 30, 2009, 2008, and 2007, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations.

The School District's contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2009, 2008, and 2007 were \$1,961,225, \$2,109,234, and \$2,041,098, respectively; 83 percent of the required contribution has been made for fiscal year 2009 and 100 percent of the required contribution has been made for fiscal years 2008 and 2007. \$325,665 represents the unpaid contribution for fiscal year 2009 and is recorded as a liability within the respective funds. Contributions to the DC and Combined Plans for fiscal year 2009 were \$54,101 made by the School District and \$91,407 made by the plan members.

STRS Ohio issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771 or by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2009, two members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages paid.

11. POSTEMPLOYMENT BENEFITS

State Teachers Retirement System

STRS Ohio administers a pension plan that is comprised of: a defined benefit plan; a self-directed defined contribution plan; and a combined plan which is a hybrid of the defined benefit and defined contribution plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the defined benefit or combined plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. Pursuant to Section 3307 of the Ohio Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent Comprehensive Annual Financial Report by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14 percent employer contribution rate, 1 percent of covered payroll was allocated to post-employment health care for the years ended June 30, 2009, 2008 and 2007. The 14 percent employer contribution rate is the maximum rate established under Ohio law. For the School District, these amounts equaled \$151,142, \$163,361, and \$154,908 for fiscal years 2009, 2008, and 2007, respectively.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

11. POSTEMPLOYMENT BENEFITS (Continued)

School Employees Retirement System

In addition to a cost-sharing, multiple-employer defined benefit pension plan, the School Employees Retirement System (SERS) administers two post employment benefit plans.

Medicare Part B Plan

The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2009 was \$96.40; SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal years 2009, 2008, and 2007, the actuarially required allocations were 0.75 percent, 0.66 percent, and 0.68 percent. For the School District, contributions for the years ended June 30, 2009, 2008, and 2007, were \$33,613, \$31,254, and \$28,001, which equaled the required contributions for those years.

Health Care Plan

Ohio Revised Code 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' post-employment benefits through employer contributions. Active members do not make contributions to the post-employment benefit plans.

The Health Care Fund was established under, and is administered in accordance with, Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14 percent contribution to the Health Care Fund. At June 30, 2009, 2008, and 2007, the health care allocations were 4.16 percent, 4.18 percent, and 3.32 percent, respectively. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2009, the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2009, 2008, and 2007 fiscal years equaled \$277,203, \$248,787 and \$220,866, respectively.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending upon the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employers/Audit Resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

12. EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn five to twenty-five days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators who are not on a twelve month contract do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to and not to exceed 255 days. Upon retirement, payment is made for one-fourth of the total sick leave accumulation, up to a maximum accumulation of 68 paid days for certified employees. Classified employees receive twenty-five percent of accrued sick with no maximum paid days.

B. Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Anthem Life Insurance. Administrators receive coverage in the amount of \$100,000. The Treasurer receives coverage in the amount of \$350,000 and the Superintendent receives coverage twice their salary. Coverage in the amount of \$30,000 is provided for all certified and non-certified employees. Part time employees are covered for \$15,000.

13. CAPITALIZED LEASES – LESSEE DISCLOSURE

During fiscal year 2009, the School District entered into leases for the purpose of purchasing copiers. In previous fiscal years, the School District entered into a lease for the purpose of purchasing a telephone system. The terms of the agreements provide options to purchase the equipment. These leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

The capital assets acquired by the leases have been capitalized in the statement of net assets for governmental activities in the amount of \$587,209 which is equal to the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded on the statement of net assets for governmental activities. Principal payments in fiscal year 2009 totaled \$51,954 in the General Fund.

The assets acquired through the capital lease are as follows:

	Asset	Accumulated	Net Book
	Value	Depreciation	Value
Assets:			
Telephone System	\$339,953	\$124,626	\$215,327
Copiers	247,256	33,162	214,094

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

13. CAPITALIZED LEASES – LESSEE DISCLOSURE (Continued)

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2009:

Fiscal Year Ending June 30,	Total Payments
2010	\$67,528
2011	67,528
2012	55,992
2013	53,605
2014	27,515
Total Minimum Lease Payments	272,168
Less: Amount Representing Interest	(27,756)
Present Value of Minimum Lease Payments	\$244,412

14. NOTES PAYABLE

A summary of the note transactions for the year ended June 30, 2009 follows:

	Balance			Balance
	7/1/2008	Additions	Deletions	6/30/2009
Bond Anticipation Notes:				
BAN 12/18/08, 6/4/09, 2.5%	\$0	\$15,000,000	\$15,000,000	\$0
BAN 5/14/09, 3/1/10, 1.5%	0	15,000,000	0	15,000,000
BAN 6/3/09, 3/1/10, 1.5%	0	9,000,000	0	9,000,000
BAN 1/15/09, 6/4/09, 2.125%	0	34,950,000	34,950,000	0
	\$0	\$73,950,000	\$49,950,000	\$24,000,000

All of the notes are backed by the full faith and credit of the School District. The note liability is reflected in the fund which received the proceeds and will be retired from the issuance of bonds of the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

15. LONG-TERM DEBT AND OTHER OBLIGATIONS

Long-term debt and other obligations at June 30, 2009 and the related transactions for the year then ended are summarized below:

	Balance 7/1/2008	Additions	Deductions	Balance 6/30/2009	Amounts Due Within One Year
Governmental Activities:					
General Obligation Bonds: 2009 School Improvement Bonds					
Serial and Term 3-4.70%	\$0	\$25,760,000	\$0	\$25,760,000	\$0
Premium	0	755,926	0	755,926	0
2009 Capital Appreciation Bonds Accretion	0	189,991 199,531	0	189,991 199,531	0
Compensated Absences Payable	2,126,544	2,380,237	2,126,544	2,380,237	224,889
Obligations Under Capital Leases	50,978	245,388	51,954	244,412	56,458
Total Governmental Activities	\$2,177,522	\$29,531,073	\$2,178,498	\$29,530,097	\$281,347

The General Obligation Bonds were issued March 4, 2009 in the amount of \$25,949,991. The voted general obligation bonds were issued for the purpose of constructing a new middle school, renovations and additions to the high school, replacing the bus garage, and acquiring land. The bond issue included serial and term bonds and capital appreciation bonds in the amounts of \$9,640,000, \$16,120,000 and \$189,991, respectively.

The term bonds maturing on December 1, 2029 are subject to mandatory sinking fund redemption. The mandatory sinking fund redemption is to occur on December 1, 2026 and on each December 1 thereafter at a redemption price equal to 100 percent of the principal amount redeemed, plus accrued interest to the redemption date, according to the following schedule:

Year	<u>Amount</u>
2026	\$ 1,010,000
2027	1,060,000
2028	1,115,000

Unless otherwise called for redemption, the remaining \$1,170,000 principal amount of the term bonds due December 1, 2029 is to be paid at stated maturity.

The term bonds maturing on December 1, 2037 are subject to mandatory sinking fund redemption. The mandatory sinking fund redemption is to occur on December 1, 2030, and on each December 1 thereafter at a redemption price equal to 100 percent of the principal amount redeemed, plus accrued interest to the redemption date, according to the following schedule:

<u>Year</u>	<u>Amount</u>
2030	\$ 1,225,000
2031	1,290,000
2032	1,355,000
2033	1,425,000
2034	1,500,000
2035	1,575,000
2036	1,655,000

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

15. LONG-TERM DEBT AND OTHER OBLIGATIONS (Continued)

Unless otherwise called for redemption, the remaining \$1,740,000 principal amount of the term bonds due December 31, 2037 is to be paid at stated maturity.

Principal and interest requirements to retire general obligation debt at June 30, 2009 are as follows:

Fiscal Year			
Ending	Principal	Interest	Accretion
2010	\$0	\$1,449,861	\$0
2011	25,000	1,202,275	0
2012	630,000	1,192,450	0
2013	645,000	1,173,325	0
2014	665,000	1,153,675	0
2015-2019	2,604,221	5,432,825	1,065,779
2020-2024	3,375,770	4,983,822	719,230
2025-2029	5,070,000	3,959,099	0
2030-2034	6,465,000	2,518,334	0
2034-2038	6,470,000	683,675	0
Totals	\$25,949,991	\$23,749,341	\$1,785,009

At June 30, 2009 the School District's overall legal debt margin was \$32,738,238 with an unvoted debt margin of \$645,946.

Compensated absences will be paid from the fund from which the employees' salaries are paid, with the most significant fund being the General Fund. The capital leases are paid from the General Fund.

16. INTERFUND ACTIVITY

Interfund balances at June 30, 2009, consist of the following individual fund receivables and payables, which are expected to be repaid during the 2010 fiscal year:

Interfund Loans	Interf	Interfund Receivable		Interfund Payable	
General Fund	\$	429,631	\$	-	
Nonmajor Special Revenue Funds					
Summer Intervention		-		65,525	
Entry Year Program		-		14,000	
Title I		-		77,153	
Special Education		-		218,515	
Title VI		-		273	
Preschool Handicapped		-		800	
Title VI-R		-		53,075	
Miscellaneous Federal Grants		-		290	
Total Nonmajor Special Revenue Funds				429,631	
Total Interfund Receivables/Payables	\$	429,631	\$	429,631	

The amounts due to the General Fund are the result of the School District moving unrestricted monies to support grant funds. The General Fund will be reimbursed when funds become available in the nonmajor special revenue funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

17. JOINTLY GOVERNED ORGANIZATIONS

Southwestern Ohio Educational Purchasing Council – The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of over 126 school districts in 18 counties. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group.

During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the General Fund. During fiscal year 2009, the School District paid \$435,316 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, Director, 303 Corporate Center Drive, Vandalia, Ohio 45377.

Southwestern Ohio Instructional Technology Association – The Southwestern Ohio Instructional Technology Association (SOITA) is a not-for-profit corporation formed under Section 1702.01 of the Ohio Revised Code. The purpose of the corporation is to serve the educational needs of the area through television programming for the advancement of educational programs.

The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties, i.e. Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. All others elect one representative per area. All Superintendents except for those from educational service centers vote on the representatives after the nominating committee nominates individuals to run.

One at-large non-public representative is elected by the non-public school SOITA members in the State assigned SOITA service area. One at-large higher education representative is elected by higher education SOITA members from within the State assigned SOITA service area.

All member districts are obligated to pay all fees, charges, or other assessments as established by the SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government, for a public purpose. Payments to SOITA are made from the General Fund. During fiscal year 2009, the School District paid \$3,400 to SOITA. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Larry Pogue, who serves as Director, 150 East Sixth Street, Franklin, Ohio 45005.

Miami Valley Career Technology Center – The Miami Valley Career Technology Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the fifteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. One member is appointed from the following city and/or exempted village school districts: Carlisle, Miamisburg, Milton-Union, Northmont, Vandalia-Butler, Versailles, Huber Heights, Eaton, Trotwood, Tipp City, and West Carrollton. Three members are appointed from the Montgomery County Educational Service Center, one is appointed from the Miami County Educational Service Center, one from the Darke County Educational Service Center, and one from the Preble County Educational Service Center. To obtain financial information write to the Miami Valley Career Technology Center, Debbie Gossett, who serves as Treasurer, at 6800 Hoke Road, Clayton, Ohio 45315.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

17. JOINTLY GOVERNED ORGANIZATIONS (Continued)

Metropolitan Dayton Educational Computer Association – The School District is a member of the Metropolitan Dayton Educational Computer Association (MDECA), which is a computer consortium of area school districts sharing computer resources. MDECA is an association of public school districts in a geographical area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts. The Board of MDECA consists of one representative from each of the participating members. Each member pays an annual membership fee plus any other fees for services performed by the consortium. During fiscal year 2009, the School District paid \$84,521 to MDECA. To obtain financial information, write to the Metropolitan Dayton Educational Computer Association, Jerry Woodyard, who serves as Executive Director, 225 Linwood Street, Dayton, Ohio 45405.

18. INSURANCE PURCHASING POOL

The School District participates in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP). The GRP's business and affairs are conducted by a fourteen member committee consisting of various EPC representatives that are elected by the general assembly. Either the superintendent or treasurer from each participating school district serves on the general assembly. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

19. SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition or construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purpose in future years.

The following cash basis information describes the change in the year-end set-aside amounts. Disclosure of this information is required by State statute.

	Textbooks and Instructional Materials		Capital Maintenance	
Set-aside cash balance as of June 30, 2008	\$	-	\$	-
Current year set-aside requirement		529,362		529,362
Bond Proceeds		-		(9,433)
Prior year carryover		(1,177,620)		-
Qualifying disbursements		(797,544)		(519,929)
Set-aside reserve balance as of June 30, 2009	\$	(1,445,802)	\$	
Required set-aside balances carried forward to FY2010	\$	(1,445,802)	\$	

The School District had qualifying disbursements during the year that reduced the set-aside amounts below zero for the textbooks/instructional materials reserve. These extra amounts may be used to reduce the set-aside requirement for future years. The negative amounts are therefore presented as being carried forward to the next fiscal year. During fiscal year 1984, the School District issued \$5,450,000 in capital related school improvement bonds. These proceeds may be used to reduce capital acquisition below zero for future years.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

20. CONTINGENT LIABILITIES

Grants

The School District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims would not have a material effect on the overall financial position of the School District at June 30, 2009.

Litigation

The School District is party to various legal proceedings. The School District's management is of the opinion that the ultimate outcome of such litigation will not result in a material adverse effect on the School District's financial position.

21. SUBSEQUENT EVENT

On November 10, 2009, the School District approved the following contracts for the construction project for the renovation of the High School: Precision Piping for the combination plumbing and HVAC, Butler County Electric for the electrical, and Bon Builders for the general trades.

On December 15, 2009, the Board approved the issuance of bonds in an amount not to exceed \$24,000,000.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

Fund Descriptions

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditure for specified purposes. The following are descriptions of the School District's nonmajor special revenue funds:

Nonmajor Special Revenue Funds

Food Service

A fund to account for all transactons related to the provision of food service operations for the School District.

Special Trust

A fund used to account for revenues and expenditures of the Gilbert Scholarship.

Uniform School Supply

A fund to account for the purchase and reimbursement of consumable supplies (workbooks) used by the students as a supplemental learning tool.

Public School Support

A fund provided to account for special local revenue sources such as vending machine receipts. Revenues are used to fund special events and purchase achievement awards.

Latchkev

A fund established to account for the tuition received and expenses made in securing an after-school latchkey program for students of the School District.

Athletics

A fund provided to account for those student activity programs which charge admission. Most expenditures include referee and security compensations, equipment and supplies needed to run a successful athletic program.

Auxiliary Services

To account for monies which provide services and materials to pupils attending non-public schools within the School District.

Management Information Systems

A fund to account for hardware and software development, utilities, materials and supplies, or other costs associated with the requirements of the management information system.

Entry Year Program

A fund to account for the implementation of entry-year programs pursuant to division (T) of section 3317.024 of the Revised Code.

Ohio Educational Computer Network

A fund provided to account for money appropriated for Ohio Educational Computer Network Connections.

Fund Descriptions

Nonmajor Special Revenue Funds (Continued)

School Net Professional Development

A fund to account for grant monies to be used for the provision of hardware, software, telecommunication services, and staff development to support educational uses of technology in the classroom.

Summer Intervention

A fund used to account for summer intervention services satisfying criteria defined in division (E) of section 3313.608 of the Revised Code.

Miscellaneous State Grants

A fund used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant.

Special Education

This fund accounts for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels, and to assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

Title I

A fund to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children.

Education Career Incentive Act (ECIA) - Title V

A fund to account for federal funds used to provide programs for at-risk students; instructional materials to improve the quality of instruction; programs of professional development; and programs to enhance personal excellence of students and student achievement.

Drug-Free Schools

A fund to provide monies to local educational agencies and consortia of these agencies to establish, operate and improve local programs of drug abuse prevention, early intervention, rehabilitation referral and education in elementary and secondary schools, and to engage in development, training, technical assistance and coordination activities.

Preschool Handicapped Grant

A fund used to provide for the education of handicapped children ages three through five, and account for the monies received and expended for the purpose of this grant.

Title II-A

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants

A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate special cost center must be used for each grant.

Fund Descriptions

Nonmajor Debt Service Fund

The Bond Retirement Fund is used to account for the accumulation of resources for, and the payment of, general obligations bond principal and interest and certain other long-term obligations when the School District is obligated for the payment. There is only one debt service fund.

Capital Project Fund

The Capital Projects Fund is used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, and for major renovation projects including equipment purchases. The following is a description of the School District's nonmajor capital project fund:

Nonmajor Capital Project Fund

SchoolNet

To account for State grant monies used for the installation of wiring and the purchase of a computer workstation and related technology for every classroom in Ohio's low-wealth school districts.

STATISTICAL TABLES

This part of Vandalia-Butler City School District's comprehensive annual financial report presents detailed information as a basis for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS	PAGES
Financial Trends	75-81
These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	
Revenue Capacity	82-88
These schedules contain information to help the reader assess the School District's most significant local revenue sources.	
Debt Capacity	89-93
These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	
Demographic and Economic Information	94
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating information	95-97
These schedules contain service and capital asset data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement No. 34 during fiscal year 2002. Fiscal year 2006 was the District's first year implementation of the GASB 44 statistical tables.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal. The assessed value of real property (including public utility real property) is 35 percent of estimated true value.

Personal property tax prior to 2006 was assessed on all tangible personal property used in business in Ohio. Prior to 2006 machinery and equipment were taxed at 25 percent and inventories at 23 percent. Beginning in 2006, the general business tangible personal property tax is being phased out. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Note: The definition of tax valuation for the purpose of calculating the debt margin was modified by H.B. 530, effective 3/30/06, to exclude tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, or personal property owned or leased by a railroad company and used in railroad operations.

The Fiscal Year 2002 is the first year reported in accordance with GASB Statement No. 34. Fiscal years prior to 2002 were reported on a cash basis and therefore are not included.

⁽¹⁾ Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt.
