Independent Auditor's Report

To the Board of Directors
Wildwood Environmental Academy

We have audited the accompanying basic financial statements of Wildwood Environmental Academy as of and for the year ended June 30, 2009, as listed in the table of contents. These basic financial statements are the responsibility of the Academy's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Academy as of June 30, 2009 and the changes in financial position and cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis (identified in the table of contents) is not a required part of the basic financial statements, but is supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the supplemental information. We did not audit the information and express no opinion on it.

To the Board of Directors Wildwood Environmental Academy

In accordance with Government Auditing Standards, we have also issued our report dated January 5, 2010 on our consideration of the Academy's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grants, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors
Wildwood Environmental Academy

We have audited the financial statements of Wildwood Environmental Academy as of and for the year ended June 30, 2009 and have issued our report thereon dated January 5, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Wildwood Environmental Academy's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wildwood Environmental Academy's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Wildwood Environmental Academy's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

To the Board of Directors
Wildwood Environmental Academy

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wildwood Environmental Academy's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be disclosed under *Government Auditing Standards*. We noted certain other matters that we have reported to the management of Wildwood Environmental Academy in a separate letter dated January 5, 2010.

This report is intended solely for the information and use of management, the board of directors, and the Sponsor and is not intended to be and should not be used by anyone other than these specified parties.

Management's Discussion and Analysis

The discussion and analysis of Wildwood Environmental Academy's financial performance provides an overall review of the Academy's financial activities for the fiscal year ended June 30, 2009. The intent of this discussion and analysis is to look at the Academy's financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the Academy's financial performance.

The management's discussion and analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standard Board (GASB) in its Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Financial Highlights

- In total, net assets (deficit) decreased \$148,326, which represents a 275 percent decrease from 2008.
- Total assets decreased \$94,245, which represents a 39 percent decrease from 2008. This was primarily due to an increase in accumulated depreciation.
- Liabilities increased \$54,081, which represents an 18 percent increase from 2008. This increase was due primarily to an increase in contracts payable.

Using this Financial Report

This report consists of three parts - the MD&A, the basic financial statements, and notes to those statements. The basic financial statements include a statement of net deficit, a statement of revenues, expenses, and changes in net deficit, and a statement of cash flows.

Statement of Net Deficit

The statement of net deficit answers the question, "How did we do financially during 2009?" This statement includes all assets and liabilities, both financial and capital, and short-term and long-term, using the accrual basis of accounting and economic resources focus, which is similar to the accounting used by most private sector companies. This basis of accounting takes into account all revenues and expenses during the year, regardless of when the cash is received or paid.

Management's Discussion and Analysis (Continued)

Table I provides a summary of the Academy's net deficit for fiscal years 2009 and 2008:

TABLE I	June 30

Total assets decreased \$94,245. This was primarily due to an increase in accumulated depreciation. Cash decreased by \$12,580 from 2008 to 2009. Intergovernmental receivables increased by \$3,675 from 2008 to 2009, which was due to the timing of the receipt of grant funding. Capital assets, net of depreciation, decreased by \$97,213 from 2008 to 2009.

Note I - Description of the School and Reporting Entity

Wildwood Environmental Academy (the "Academy") is a nonprofit corporation established pursuant to Ohio Revised Code Chapters 3314 and 1702. The Academy's mission is to provide an atmosphere where students will develop a thirst for learning, creative expression, and awareness of new horizons. As a family of learners, students and staff exhibit depth of understanding, acceptance of others, personal integrity and responsibility, and a willingness to exercise leadership in their educational and social interactions. Staff, students, and their families are committed to facing the challenges of the new century, believing that there is no problem too complex nor goal too lofty that cannot be mastered. The Academy, which is part of the State's education program, is independent of any school district and is nonsectarian in its programs, admission policies, employment practices, and other operations. The Academy may acquire facilities as needed and contract for any services necessary for the operation of the Academy.

On April 2, 2003, the Academy was approved for operation under contract with the Ohio Council of Community Schools (the "Sponsor") for a period of four years through June 30, 2007. The contract has since been extended for a period of seven years through June 30, 2014. The Sponsor is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration. The total sponsor fees paid to the Ohio Council of Community Schools for the fiscal year ended June 30, 2009 totaled approximately \$40,000.

The Academy operates under the direction of a five-member board of directors, which also is the governing board for another The Leona Group, LLC-managed school. The board of directors is responsible for carrying out the provisions of the contract which include, but are not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualifications of teachers. The board of directors controls the Academy's instructional/support facility staffed by 11 certified full-time teaching personnel who provide services to 159 students.

The governing board has entered into a management contract with The Leona Group, LLC (TLG), a for-profit limited liability corporation, for management services and operation of the Academy. TLG operates the Academy's instructional/support facility, is the employer of record for all personnel, and supervises and implements the curriculum. In exchange for its services, TLG receives a capitation fee and year-end fee (see Note 13).

Note 2 - Summary of Significant Accounting Policies

The financial statements of Wildwood Environmental Academy have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Academy also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The Academy has also elected to follow private sector guidance issued after November 30, 1989 for its business-type activities. The more significant of the Academy's accounting policies are described below.

Basis of Presentation - Enterprise accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The Academy's basic financial statements consist of a statement of net deficit, a statement of revenues, expenses, and changes in net deficit, and a statement of cash flows.

Enterprise fund reporting focuses on the determination of the change in net assets, financial position, and cash flows.

Measurement Focus - Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the statement of net deficit. The statement of revenue, expenses, and changes in net deficit presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its enterprise activities.

Basis of Accounting - The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Academy's financial statements are prepared using the accrual basis of accounting.

Notes to Financial Statements June 30, 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the Academy receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis.

Expenses are recognized at the time they are incurred.

Budgetary Process - Unlike other public schools located in the state of Ohio, community schools are not required to follow budgetary provisions set forth in Ohio Revised Code Chapter 5705 unless specifically provided in the contract between the Academy and the Sponsor. The contract between the Academy and the Sponsor prescribes an annual budget requirement in addition to preparing a five-year forecast, which is to be updated on an annual basis.

Intergovernmental Receivables - Receivables at June 30, 2009 consisted of intergovernmental receivables. All receivables are considered collectible in full and will be received within one year.

Prepaid Expenses - Payments made to vendors for services that will benefit periods beyond June 30, 2009 are recorded as prepaid expenses using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which the services are consumed.

Capital Assets - Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The Academy maintains a capitalization threshold of \$1,000 for furniture and equipment, land, and buildings, or any one item costing under \$1,000 alone but purchased in a group for over \$2,500. Software costing more than \$10,000 per application will also be capitalized. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset nor materially extend the life of the asset are charged to expense when incurred.

Notes to Financial Statements June 30, 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

All reported capital assets except land are depreciated. Improvements are depreciated over the lesser of their useful life or the term of the lease. Depreciation is computed using the straight-line method over the following useful lives:

Leasehold improvements	4-5 years
Furniture, fixtures, and equipment	3-7 years

Net Deficit - Net deficit represents the difference between assets and liabilities. Invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. The Academy has approximately \$155,000 in debt related to capital assets.

Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activities. For the Academy, these revenues are primarily foundation payments. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the Academy. Revenues and expenses not meeting this definition are reported as nonoperating.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Intergovernmental Revenues - The Academy currently participates in the State Foundation Program and the state Poverty Based Assistance (PBA) program. Revenues received from these programs are recognized as operating revenues in the accounting period in which all eligibility requirements have been met.

Tax Status - The Academy is exempt from taxes under $\S501(c)(3)$ of the Internal Revenue Code.

Notes to Financial Statements June 30, 2009

Note 3 - Deposits

The Academy has designated one bank for the deposit of its funds.

The Academy's deposits consist solely of checking and/or savings accounts at a local bank; therefore, the Academy has not adopted a formal investment policy. The Academy's cash is not subject to custodial credit risk.

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. The Academy's deposit policy requires that financial institutions be evaluated and only those with an acceptable risk level for custodial credit risk are used for the Academy's deposits; however, the Academy believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. In October 2008, the FDIC implemented the "Transaction Account Guarantee Program" fully guaranteeing noninterest and some interest-bearing checking account balances through December 31, 2009, regardless of the amount in the account. At June 30, 2009, the Academy's deposit balance of \$17,699 had no bank deposits (checking and savings accounts) that were uninsured and uncollateralized.

Note 4 - Intergovernmental Receivables

A summary of the principal items of intergovernmental receivables is as follows:

Note 6 - Long-term Debt (Continued)

The Academy entered into a lease agreement as lessee for financing the purchase of leasehold improvements. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date. Total value of the capitalized leasehold improvements was \$265,300, with accumulated depreciation of \$256,860 at year end. The future minimum lease obligations and the net present value are as follows:

Note 7 - Risk Management

Property and Liability - The Academy is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2009, the Academy contracted with Willis North America, Inc. for general liability, property insurance, and educational errors and omissions insurance. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Coverages are as follows:

Educational errors and omissions:

Note 7 - Risk Management (Continued)

Workers' Compensation - The Academy pays the State Workers' Compensation System a premium for employee injury coverage. The premium is calculated by multiplying the monthly total gross payroll by a factor that is calculated by the State.

Note 8 - Defined Benefit Pension Plans

School Employee Retirement System

The Academy contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Plan members are required to contribute 10 percent of their annual covered salary and the Academy is required to contribute at an actuarially determined rate. The current Academy rate is 14 percent of annual covered payroll. A portion of the Academy's contribution is used to fund pension obligations with the remainder being used to fund healthcare benefits; for fiscal year 2009, 9.09 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The Academy's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2009, 2008, and 2007 were \$13,803, \$11,089, and \$3,650, respectively; 100 percent has been contributed for fiscal years 2009, 2008, and 2007.

State Teachers Retirement System

The Academy participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

Note 8 - Defined Benefit Pension Plans (Continued)

New members have a choice of three retirement plans, a defined benefit (DB) plan, a defined contribution (DC) plan, and a combined plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. The combined plan offers features of both the DC plan and the DB plan. In the combined plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB plan. The DB portion of the combined plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or combined plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC plan who become disabled are entitled only to their account balance. If a member of the DC plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2009, plan members were required to contribute 10 percent of their annual covered salaries. The Academy was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2008, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The Academy's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2009, 2008, and 2007 were \$69,342, \$64,792, and \$67,770, respectively; 100 percent has been contributed for fiscal years 2009, 2008, and 2007. Contributions to the DC and combined plans for fiscal year 2008 were \$67,993 made by the Academy and \$48,566 made by the plan members.

Note 9 - Postemployment Benefits

School Employee Retirement System

The Academy participates in two cost-sharing, multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a healthcare plan, and a Medicare Part B plan. The healthcare plan includes hospitalization and physicians' fees through several types of plans including HMOs, PPOs, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the system based on authority granted by state statute. The financial reports of both plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

State statute permits SERS to fund the healthcare benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the retirement board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401(h). For 2009, 4.16 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2009, this amount was \$6,317.

Active employee members do not contribute to the Health Care Fund. Retirees and their beneficiaries are required to pay a healthcare premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

The Academy's contributions for health care for the fiscal years ended June 30, 2009, 2008, and 2007 were \$6,317, \$5,060, and \$1,119, respectively; 100 percent has been contributed for fiscal years 2009, 2008, and 2007. The retirement board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2009, this actuarially required allocation was 0.75 percent of covered payroll. The Academy's contributions for Medicare Part B for the fiscal years ended June 30, 2009, 2008, and 2007 were \$1,139, \$799, and \$32, respectively; 100 percent has been contributed for fiscal years 2009, 2008, and 2007.

Note 9 - Postemployment Benefits (Continued)

State Teachers Retirement System

The Academy contributes to the cost-sharing, multiple-employer defined benefit health plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Ohio law authorizes STRS Ohio to offer the plan and gives the retirement board authority over how much, if any, of the healthcare costs will be absorbed by STRS Ohio. Active employee members do not contribute to the plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions. For 2009, STRS Ohio allocated employer contributions equal to I percent of covered payroll to the Health Care Stabilization Fund. The Academy's contributions for health care for the fiscal years ended June 30, 2009, 2008, and 2007 were \$5,334, \$4,984, and \$5,213, respectively; 100 percent has been contributed for fiscal years 2009, 2008, and 2007.

Note 10 - Contingencies

Grants - The Academy received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Academy. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Academy at June 30, 2009.

State Funding - The Ohio Department of Education reviews enrollment data and full-time equivalency (FTE) calculations made by the schools. These reviews ensure the schools are reporting accurate student enrollment data to the State, upon which state foundation funding is calculated. For fiscal year 2009, the results of this review are not concluded. However, in the opinion of management, any changes to enrollment data will not have a material adverse effect on the overall financial position of the Academy at June 30, 2009.
