INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Highland Local School District, Medina County, Ohio, (the District) as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 23, 2011, wherein we noted the District restated its governmental funds' fund balances due to changes in fund structure as a result of implementing Governmental Accounting Standards Board (GASB) Statement 54. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We intend this report solely for the information and use of management, the audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

Compliance

We have audited the compliance of the Highland Local School District, Medina County, Ohio, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended June 30, 2011. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Highland Local School District, Medina County, Ohio complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of opining on compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted a matter involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated December 23, 2011.

Federal Awards Receipts and Expenditures Schedule

We have also audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio, (the District) as of and for the year ended June 30, 2011, and have issued our report thereon dated December 23, 2011, wherein we noted the District restated its governmental funds' fund balances due to changes in fund structure as a result of implementing Governmental Accounting Standards Board (GASB) Statement 54. Our audit was performed to form opinions on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying Federal Awards Receipts and Expenditures Schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2011**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Highland Local School District, Medina County, Ohio, (the District's) federal award programs' receipts and expenditures. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether Highland Local School District, Medina County, Ohio has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on October 17, 2011 to include violence within a dating relationship within its definition of harassment, intimidation or bullying.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

Highland Board of Education Members and
The Citizens of the Highland Local School District:

The Comprehensive Annual Financial Report (CAFR) of the Highland Local School District (the "School District"), for the fiscal year ended June 30, 2011, is hereby submitted. This report, prepared by the Treasurer's Office, includes financial statements, supplemental statements, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the School District for fiscal year 2011.

The responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District.

This CAFR, which includes an opinion from the Ohio Auditor of State, conforms to generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and is representative of the School District's commitment to provide meaningful information to the citizens of the Highland Local School District.

Copies of this report will be distributed throughout the School District. A copy will be sent to all school buildings, Board of Education members, Financial Rating Services, the School District's Financial Advisory Panel, and other interested parties upon request.

Management's discussion and analysis (MD&A) immediately follows the independent accountants' report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

DESCRIPTION OF THE SCHOOL DISTRICT

Nestled among the rolling hills and extensive park system of Medina County, the Highland Local School District offers its students a progressive, achievement-oriented educational program within a country living atmosphere.

The sprawling 78-square mile School District is located in the eastern portion of Medina County with a small portion located in Summit County. The School District educates students from picturesque Hinckley, Granger, Sharon, Montville, Copley, Medina and Brunswick Hills townships. Interstates 71 and 271 and State Routes 18 and 94 provide easy access to the area. Major hospitals, Cleveland Hopkins Airport, and over ten institutions of higher learning are within a forty-five minute drive. The School District's communities are predominantly rural-residential. The socio-economic make-up ranges from middle to upper income.

The Highland Local School District's main townships are rich in history. The lands were part of the Connecticut Western Reserve. Granger and Sharon Townships were laid out in 1816; Hinckley Township was formed in 1819. Each township was quick to recognize the importance of education to its children; the people agreed that the schoolhouse was a "thing of necessity."

Granger became a centralized school district in 1900, meaning that the one-room schoolhouses were abandoned for one central school. Granger continued to have a single township school district until 1950 when Granger and Sharon districts joined. In 1952, Hinckley was added to create the Highland Local School District.

These original school buildings were replaced in subsequent years. The Hinckley Elementary School building was constructed in 1952, the Sharon Elementary School and Granger Elementary School buildings were constructed in 1957, and the Highland Middle School was constructed in 1962. Due to increases in enrollment renovations and additions were made to these buildings throughout the years to modernize and increase classroom space.

The award winning Highland High School building was opened in the fall of 2004. The building received the Outstanding Design award from the Council of Educational Facility Planners International and School Planning & Management magazine.

The School District provides a wide array of programs and services to students including instruction, support services, non-instructional services, and extracurricular activities. The instructional programs provide regular instruction from preschool through twelfth grade, special education for students with learning and other disabilities, and vocational education. Support services include pupil and staff support, school administration, fiscal and business services, maintenance of buildings and grounds, and pupil transportation. Non-instructional services include a food service operation for pupils and community education activities. The extracurricular activities are designed to enhance the instructional experience for pupils and include student organizations and athletic activities.

The School District has been rated "Excellent" by the Ohio Department of Education for the past 12 years.

As of June 30, 2011, the School District had a total of 3,332 students enrolled in its five school buildings: Sharon Elementary, Hinckley Elementary, Granger Elementary, Highland Middle School housing grades 6 through 8, and Highland High School, a comprehensive high school for grades 9 through 12. The School District also operates a bus garage, maintenance facility, and athletic facilities. During the 2010-2011 school year 85 students in the School District attended the Medina County Career Center.

The School District had experienced a significant increase in enrollment over the past 15 years; however, due to the current housing market the student population is expected to remain relatively flat for the foreseeable future.

ORGANIZATION OF THE SCHOOL DISTRICT

The Board of Education (the “Board”) of the School District is comprised of five members elected at large by the citizens of the School District. The Board serves as the taxing authority, contracting body, and policy initiator for the School District. The Board is responsible for the adoption of the tax budget and the annual operating budget of the School District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Ohio Revised Code. Current members include Mr. Daniel Petek, President, Mr. Michael Houska, Vice President, Mr. Robert Kelly, Dr. Norman Christopher, and Mrs. Diane Thomas.

The Superintendent is the chief executive officer of the School District and is responsible directly to the Board for all operations within the School District. Mrs. Catherine Aukerman was appointed Superintendent of the School District on August 1, 2008. She is currently employed under a five-year contract, which ends on July 31, 2016.

The Treasurer is the chief financial officer of the School District and is responsible directly to the Board for all financial operations, investments, custody of all School District funds and assets, and serves as Secretary to the Board. Mr. Neil Barnes was appointed to serve as the district’s Treasurer effective August 1, 2010. He is currently employed under a three-year contract, which ends on July 31, 2014.

All other School District employees, with the exception of the Treasurer’s department, are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

REPORTING ENTITY

The School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement Nos. 14 and 39, “The Financial Reporting Entity” and “Determining Whether Certain Organizations Are Component Units”. In evaluating how to define the School District for financial reporting purposes, management has considered all boards, funds, agencies, departments and organizations making up the Highland Local School District (the primary government).

Other governmental entities (i.e. Townships of Hinckley, Granger, Sharon, Montville, Brunswick Hills, Copley, and Medina) conducting business activities within School District boundaries are excluded from the accompanying financial statements. The School District’s Board does not appoint the boards of those entities, nor are they fiscally dependent on the School District. The School District cannot legally access their resources, has no obligation to finance deficits or provide financial support, and is not obligated for their debts.

A complete discussion of the School District’s reporting entity is provided in Note 1 to the basic financial statements.

FINANCIAL INFORMATION

The School District is required by Ohio law to complete a five-year financial forecast annually. This document is updated regularly and serves as a financial roadmap for the School District. The forecast is designed to provide the administration, Board of Education and the public a general indication of a probable future financial position of the School District based on information currently available to the School District. The forecast is a critical planning document for the School District. It is a necessary tool focusing discussion and attention on future financial needs while facilitating management's strategic planning.

Internal Accounting and Budgetary Control

The School District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Reports for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Reports of the School District's proprietary operations are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

The School District is responsible for establishing and maintaining an internal control structure designed to protect its assets from loss, theft or misuse. Furthermore, the accounting system must be adequate to allow for the preparation of basic financial statements in conformity with generally accepted accounting principles. In developing the School District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The valuation of costs and benefits requires estimates and judgments by management.

The School District utilizes a fully automated accounting system as well as an automated system for payroll. These systems, coupled with the manual auditing of each voucher prior to payment, help ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted on or about July 1st, then a permanent appropriation measure must subsequently be adopted by October 1st of the fiscal year. The permanent appropriation measure may be amended by the Board throughout the fiscal year as necessary.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the function level for the general fund and at the fund level for all other funds. All purchase order requests must be approved by the Superintendent and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date.

Each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the various funds utilized by the Highland Local School District are fully described in Note 1 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 4.

ECONOMIC CONDITION AND FUTURE OUTLOOK

For the future, the School District's overall focus will be to continue to improve the educational program for the benefit of students, parents and community residents. The process involves assessing current programs, identifying strengths and weaknesses, developing and implementing new courses of action, and evaluating the results.

Easily accessible via interstate highways between the metropolitan areas of Akron and Cleveland, the School District offers a wealth of opportunity for cultural, social and economic resources for its residents. Three major state universities, The University of Akron, Kent State University and Cleveland State University, are within reasonable traveling distance from the community.

The Townships within the School District offer an excellent opportunity for business growth. It is a healthy, favorable environment with a low tax base for business establishments.

The School District works cooperatively with the Medina County Economic Development Corporation to recruit new businesses to the area. In the past seven years, the School District has realized increased activity in commercial development and residential housing continues to increase to some extent each year.

On May 3, 2011, the Highland community passed a 10-year, \$4,634,000 Emergency Levy. The passage of this levy will help provide some financial stability in the near term, but significant budget cuts handed down by the State in the most recent biennial budget continue a trend of shifting the burden of funding schools to local taxpayers. These most recent State funding cuts will result in a shorter levy cycle for the School District.

OTHER INFORMATION

Independent Audit

Provisions of State statute require the School District's financial statements to be subjected to a biannual examination by the Ohio Auditor of State unless an annual Single Audit is required. The Ohio Auditor of State performed the audit of the School District for the year ended June 30, 2011. The auditor's unqualified opinion rendered on the School District's basic financial statements is included in the financial section of this Comprehensive Annual Financial Report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. The School District has submitted this report for consideration to the GFOA. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

Additional Information

For a more in depth discussion of the financial condition of the Highland Local School District, please refer to the Management's Discussion and Analysis and the Notes to the Basic Financial Statements of the Comprehensive Annual Financial Report.

Acknowledgments

My sincere appreciation and thanks are extended to the many individuals who made the preparation and publication of this Comprehensive Annual Financial Report a reality. This accomplishment would not have been possible without the support and efforts of the staff in the Treasurer's office and many other dedicated employees of the School District. In addition, sincere thanks are extended to the Medina County Auditor's office staff and other outside agencies whose efforts contributed to the fair presentation of the statistical data.

I would also like to extend my appreciation to the members of the Highland Board of Education for their leadership, commitment to excellence, and support. It is with great pride that the Highland Local School District presents the 2011 Comprehensive Annual Financial Report to the citizens and taxpayers of the School District.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Neil W. Barnes". The signature is fluid and cursive, with a long horizontal flourish at the end.

INDEPENDENT ACCOUNTANTS' REPORT

Highland Local School District
Medina County
3880 Ridge Road
Medina, Ohio 44256

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio, (the District) as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Highland Local School District, Medina County, Ohio, as of June 30, 2011, and the respective changes in financial position, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As further described in Note 3 to the basic financial statements, the District restated its July 1, 2010 governmental funds' fund balances due to changes in fund structure as a result of implementing Governmental Accounting Standards Board (GASB) Statement 54.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provides additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Dave Yost
Auditor of State

December 23, 2011

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2011
Unaudited

This discussion and analysis of Highland Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the letter of transmittal, basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2011 are as follows:

- Net assets of governmental activities decreased \$991,524 representing a 5.2 percent decrease from 2010.
- General revenues accounted for \$26,434,300 in revenue or 85.7 percent of all revenues. Program revenues in the form of charges for services, operating grants, contributions and interest as well as capital grants, contributions and interest accounted for \$4,394,914 or 14.3 percent of total revenues of \$30,829,214.
- The School District had \$31,820,738 in expenses related to governmental activities; only \$4,394,914 of these expenses was offset by program specific revenues. General revenues of \$26,434,300 were not adequate to provide for these programs.
- At the end of the current fiscal year the governmental funds reported a combined ending fund balance of \$9,665,555, a decrease of \$1,745,602 from the prior fiscal year. The decrease was due largely to a decrease within the general fund. Consistent with the prior year, the general fund reported significantly higher expenditures than revenues resulting in deficit spending and a decline in fund balance.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Highland Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net assets and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of Highland Local School District, the general fund and the debt service fund are the most significant funds.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While these statements contain information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2011?" The statement of net assets and the statement of activities are designed to answer this question. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those net assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the School District's activities are considered to be all Governmental Activities.

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 9. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. Fund financial reports provide detailed information about the general and debt service funds, both of which are considered major funds. Data from the other funds are combined into a single, aggregated presentation.

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2011
Unaudited

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the statement of net assets provides the perspective of the School District as a whole. A comparative analysis is presented below. Table 1 provides a summary of the School District's net assets for 2011 and 2010:

Table 1
Net Assets

	<u>Governmental Activities</u>	
	<u>2011</u>	<u>2010</u>
<u>Assets:</u>		
Current and other assets	\$ 30,931,823	\$ 32,756,847

Total net assets	<u>\$ 18,225,035</u>	<u>\$ 19,216,559</u>

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2011
Unaudited

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2011, the School District's assets exceeded liabilities by \$18,225,035.

Invested in capital assets, net of related debt reported on the government-wide statements represents a large portion of the School District's net assets for fiscal year 2011. Capital assets include land, construction in progress, land improvements, buildings and building improvements, furniture, fixtures, and equipment and vehicles and are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net assets, \$5,989,756 or 32.9 percent, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted assets, \$3,408,983, or 56.9 percent, is restricted for debt service payments; \$2,077,685, or 34.7 percent, is restricted for capital projects; \$184,693 or 3.1 percent is restricted for food service, \$13,582 or 0.2 percent is restricted for scholarships, \$39,662 or 0.7 percent is restricted for extracurricular, \$83,514 or 1.4 percent is restricted for set-asides and \$181,637 or 3.0 percent is restricted for other purposes. The remaining significant balance of government-wide unrestricted net assets of \$2,566,072 may be used to meet the School District's ongoing obligations to students and staff.

Restricted for other purposes for Highland Local School District are net assets restricted for special revenue funds which are used for educational services.

Highland Local School District

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2011
Unaudited

Governmental Activities - The School District has carefully planned its financial existence by forecasting its revenues and expenses over the next five years. The School District's revenue growth is mostly dependent upon property tax increases. Property taxes made up 56.2 percent of revenues for governmental activities for the School District in fiscal year 2011. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating cost.

Instruction comprises 51.6 percent of governmental program expenses. Additional supporting services for pupils, staff, administration and business operations encompassed an additional 35 percent. The remaining 13.4 percent of program expenses is used for other obligations of the School District such as non-instructional services, extracurricular activities and interest and fiscal charges.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services for 2011 and 2010. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The total revenues and other financing sources for governmental funds were \$30,467,873 and total expenditures were \$32,213,475. The total net change in fund balance across all governmental funds was a decrease of \$1,745,602. Although there was a decrease in fund balance the School District continues to be financially solvent. The net decrease in fund balance for the year was most significant in the general fund, amounting to \$1,874,017, or 30.0 percent. This change in the general fund is due largely to expenditures exceeding revenues for the current year. Despite implementing significant budget reductions the School District was unable to eliminate this deficit spending trend due to declining revenues. Net change in the debt service fund is a decrease of \$222,577, which was anticipated based on projections of the revenue generated from the tax levy and intergovernmental revenue as compared to the debt service requirements for 2011.

 Unaudited

Table 4
Fund Balances

	Fund Balance	Restated Fund Balance	Increase/ (Decrease)	Percent Change
	<u>June 30, 2011</u>	<u>June 30, 2010</u>		
General	\$ 4,365,168	\$ 6,239,185	\$ (1,874,017)	-30.04%
Debt service	3,419,087	3,641,664	(222,577)	-6.11%
Other governmental	<u>1,881,300</u>	<u>1,530,308</u>	<u>350,992</u>	<u>22.94%</u>
Total	<u>\$ 9,665,555</u>	<u>\$ 11,411,157</u>	<u>\$ (1,745,602)</u>	<u>-15.30%</u>

General Fund

The School District's general fund balance decreased \$1,874,017 during the fiscal year. This was due to several factors. The following table assists in illustrating the change in revenues of the general fund.

Table 5
General Fund - Change in Revenue

	2011 <u>Amount</u>	2010 <u>Amount</u>	Percent <u>Change</u>
Taxes	\$ 14,647,280	\$ 15,921,879	-8.01%
Intergovernmental	7,625,490	7,698,642	-0.95%
Interest	72,367	123,785	-41.54%
Tuition and fees	656,457	281,569	133.14%
Extracurricular activities	375,797	93,343	302.60%
Gifts and donations	2,725	29,367	-90.72%
Rent	29,362	29,990	-2.09%
Miscellaneous	<u>77,386</u>	<u>72,949</u>	6.08%
Total revenues	<u>\$ 23,486,864</u>	<u>\$ 24,251,524</u>	

General fund revenues decreased \$764,660 or 3.15 percent. The main reason for this decrease was the \$1,274,599 decline in property tax revenues. This decrease in taxes was partially offset by the increase in revenues resulting from the institution of pay to participate fees and additional classroom fees.

Instruction	\$ 14,587,072	\$ 15,190,161	-3.97%
Support services	9,549,023	10,134,999	-5.78%
Extracurricular activities	935,803	918,993	1.83%
Operation of non-instructional services	214,146	273	78341.76%
Capital outlay	30,161	42,626	-29.24%
Debt service	44,676	44,676	0.00%
Total	<u>\$ 25,360,881</u>	<u>\$ 26,331,728</u>	

General fund expenditures decreased \$970,847 or 3.7 percent from the previous year. This decrease is primarily due to various staffing reductions implemented by the School District to help minimize the extent of deficit spending. There was a significant change in operation of non-instructional services for fiscal year 2011 due to the latchkey fund now being reported as part of the general fund.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During fiscal year 2011, the School District amended its general fund budget, however not significantly. Budget revisions are presented to the Board of Education for approval.

For the general fund, the final budget basis revenue and other financing sources estimate was \$23,715,082, which was higher than the original budget estimate of \$23,368,066. Most of this \$347,016 difference was due to an increase in taxes and tuition and fee projections. The actual revenues and other sources received were \$23,798,766, only \$83,684 more than anticipated.

The original expenditures and other financing uses estimate of \$26,198,319 was revised slightly over the fiscal year. The final budgeted expenditures and other financing uses was \$26,131,744, which is a decrease of \$66,575 or 0.25 percent from the original budget. Actual expenditures, including encumbrances and other financing uses were under budget by \$592,258. The largest part of this positive variance relates to expenditures budgeted for regular instruction and the operation and maintenance of plant which were not incurred at the anticipated levels for 2011 operations.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2011, the School District had \$40,437,631 invested in capital assets. Table 7 shows fiscal year 2011 balances compared to fiscal year 2010:

Table 7
Capital Assets, at Fiscal Year End
(Net of Depreciation)

	<u>Governmental Activities</u>	
	<u>2011</u>	<u>2010</u>
Land and construction in progress	\$ 1,415,011	\$ 1,299,013
Land improvements	625,499	683,521
Buildings and building improvements	36,088,577	37,303,962
Furniture, fixtures and equipment	1,249,570	1,405,636
Vehicles	<u>1,058,974</u>	<u>1,013,498</u>
Total capital assets	<u>\$ 40,437,631</u>	<u>\$ 41,705,630</u>

The most significant change in capital assets reported by the School District during the current year was for the purchase of two new buses and four used buses. Although the School District did report a net increase in capital assets of \$321,813, the total carrying value of capital assets decreased by \$1,267,999, primarily due to the recognition of \$1,691,334 in depreciation expense. See Note 9 to the basic financial statements for detail on the School District's capital assets.

Debt

At June 30, 2011, the School District had \$31,871,418 in bonds (including unamortized bond premium and bond accretion) outstanding with \$1,990,000 due within one year. Table 8 summarizes the bonds outstanding:

Table 8
Outstanding Debt, at Fiscal Year End
Governmental Activities

	<u>2011</u>	<u>2010</u>
School improvement bonds	\$ 31,871,418	\$ 33,538,239

During the 2002 fiscal year, the School District issued \$39,900,000 in bonds, the proceeds of which were used to finance the constructing, renovating, remodeling, furnishing, equipping and otherwise improving school facilities and their sites. Later in fiscal year 2006, the School District issued \$29,480,000 in general obligation bonds to advance refund \$29,480,000 of outstanding general obligation bonds.

At June 30, 2011, the School District's overall legal debt margin was \$34,681,768 with an unvoted debt margin of \$675,530. The School District is rated Aa2 by Moody's Investors Service. The School District has budgeted to meet all of its debt requirements, all of which are to be repaid from the debt service fund. See Note 14 to the basic financial statements for details on the School District's debt.

Current Issues Affecting Financial Condition

The Board of Education and administration closely monitor its revenues and expenditures in accordance with its financial forecast. The financial future of the School District is not without its challenges. These challenges stem from issues that are both local and at the State level. The local challenges will continue to exist, as the School District must rely heavily on property taxes to fund its operations as a result of the State's current funding system.

After three unsuccessful levy attempts, the School District was successful in its most recent attempt to pass a levy in May 2011. The School District passed a 10-year, \$4,634,300 emergency levy. The School District was very fortunate to have passed this levy and is very thankful to the Highland Community. Unfortunately, just weeks after passing this levy, the School District was dealt significant State budget cuts for fiscal years 2012 and 2013. State level challenges continue to evolve as the State of Ohio maintains an educational funding system that has been deemed unconstitutional and is continuing to work through an unprecedented budget shortfall. The School District anticipates a shortened levy cycle as a result of these State budget cuts.

Due to the unsettled issues in school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years.

In conclusion, the School District's system of budgeting and internal controls is well regarded. All of the School District's financial abilities will be needed to meet the challenges of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional financial information, contact Neil W. Barnes, CPA, Treasurer, Highland Local School District, 3880 Ridge Road, Medina Ohio, 44256.

Highland Local School District

**Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2011**

Net change in fund balances - total governmental funds \$ (1,745,602)

Amounts reported for governmental activities in the
statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities,
the cost of capital assets is allocated over their estimated useful lives as depreciation expense.

In the current period, these amounts are:

Capital asset additions	\$	406,331	
Capital contributions		19,775	
Depreciation expense		<u>(1,691,334)</u>	
Excess of depreciation expense over capital asset additions			(1,265,228)

The proceeds from the sale of capital assets are reported as a source of financing in the governmental
funds. However, the cost of the capital assets sold is removed from the capital assets
account in the statement of net assets and offset against the sales proceeds resulting in a
loss on the disposal of capital assets in the statement of activities. Thus, more revenue
is reported in the governmental funds and more expenses in the statement of activities.

(2,771)

Revenues in the statement of activities that do not provide current financial resources are not
reported as revenues in the funds. These activities consist of:

Property taxes	\$	117,438	
Intergovernmental		78,001	
Tuition and fees		143,019	
Rent		5,707	
Miscellaneous		<u>172</u>	
Net change in deferred revenues during the year			344,337

Repayment of debt and capital lease principal is an expenditure in the governmental funds, but the
repayment reduces long-term liabilities in the statement of net assets.

1,861,101

Some items reported in the statement of activities do not require the use of current financial
resources and therefore are not reported as expenditures in governmental funds. These
activities consist of:

Increase in compensated absences	\$	(16,332)	
Decrease in accrued interest		<u>7,221</u>	
Total additional expenditures			(9,111)

The amortization of issuance costs, bond premium and accretion is reflected as an expense
in the statement of activities.

Issuance cost	\$	(21,071)	
Premium		121,334	
Bond accretion		<u>(274,513)</u>	
Total additional expenses			<u>(174,250)</u>

Change in net assets of governmental activities

\$ (991,524)

See accompanying notes to the basic financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DESCRIPTION OF REPORTING ENTITY

A. Description of the School District

The Highland Local School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Highland Local School District was established in 1952 through the consolidation of the former Granger-Sharon and Hinckley Local School Districts. The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's six instructional/support facilities staffed by 151 non-certificated employees, 185 certificated teaching and support personnel, and 16 administrators that provide services to 3,332 students and other community members.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District's accounting policies.

B. Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. This includes general operations, food service, preschool and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. Based on the above criteria, the School District had no component units at June 30, 2011.

The School District is associated with the Lake Erie Educational Computer Association (LEECA) and Ohio Schools' Council Association which are defined as jointly governed organizations. Jointly governed organizations are governed by representatives from each of the governments that create the organization, but there is no ongoing financial interest or responsibility by the participating governments. Information regarding LEECA and the Ohio Schools' Council Association is presented in Note 16.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2011

C. Basis of Presentation - Fund Accounting

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of internal activity of governmental funds are eliminated to avoid "doubling-up" revenues and expenses of governmental activities. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

D. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into two categories: governmental and fiduciary.

Governmental Fund Types

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District has two major governmental funds:

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

General Fund: The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund: The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Fiduciary Fund Types

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary funds are a private purpose trust and an agency fund. The private purpose trust fund accounts for scholarships granted to students as specified in trust agreements and from donations received. The agency fund accounts for student activities managed by the student body.

E. Measurement Focus and Basis of Accounting

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets and liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is reported using the economic resources measurement focus.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The private purpose trust fund and agency fund also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

Revenue - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, shared revenue, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Shared revenue and revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2011, but which were levied to finance fiscal year 2012 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating Grants, Contributions and Interest" program revenue account. Unused donated commodities are reported in the account "Inventory held for resale" within the basic financial statements.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2011

F. Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the function level for the general fund and the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Certificate of Estimated Resources and the Appropriation Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The amounts reported as the original budget revenue in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenue amounts in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2011. The amounts reported as the original budgeted expenditure amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditure amounts represent the final appropriation amounts passed by the Board during the year.

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

G. Cash and Investments

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and cash equivalents". During the fiscal year, investments were limited to overnight repurchase agreements, certificates of deposit, commercial paper notes and an interest in STAROhio, the State Treasurer's Investment Pool. These investments are stated at cost, which approximates market value (fair value). Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds, unless the Board specifically allows the interest to be recorded in other funds. The Board of Education has passed a resolution to allow interest to also be recorded in other funds as indicated in Note 5.

The School District utilizes a financial institution to service bonded debt as principal and interest payments come due. This account's balance is presented in the account "Cash and cash equivalents with fiscal agents".

For presentation on the basic financial statements, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2011

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2011, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

I. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". Interfund balances, not services provided and used, are eliminated in the statement of net assets.

J. Inventory

On the governmental-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

Inventories of the general fund were not significant at the end of the year. Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale.

K. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are imposed by creditors, contributors, grantors, laws of other governments, or enabling legislation. Restricted assets may include unexpended revenues restricted for the purchase of school buses, and amounts required to be set aside by the School District for the purchase of textbooks or for the acquisition or construction of capital assets. Restricted assets may also include amounts set aside as a reserve for budget stabilization, which is now optional as determined by the School District. The School District expended all restricted assets in accordance with specific restrictions during the fiscal year. See Note 18 for the calculation of the year-end restricted asset balance and the corresponding fund balance restriction.

L. Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The School District's policy is not to capitalize interest costs incurred as part of construction.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land improvements	5 - 20 years
Buildings and building improvements	20 - 50 years
Furniture, fixtures and equipment	3 - 20 years
Vehicles	10 - 20 years

M. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net assets restricted for other purposes primarily include amounts generated by individual school buildings to supplement co-curricular and extra-curricular programs, and for operating or capital costs for any new and innovative programs designed to enhance or promote education with the School District.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Interfund Transactions

Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of activities.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

P. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

NOTE 2 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Debt Service	Other Governmental Funds	Total Governmental Funds
<u>Nonspendable</u>				
Materials and supplies inventory	\$ -	\$ -	\$ 35,720	\$ 35,720
Prepays	24,504	-	-	24,504
Permanent fund principal	-	-	8,000	8,000
Total nonspendable	<u>24,504</u>	<u>-</u>	<u>43,720</u>	<u>68,224</u>
<u>Restricted for</u>				
Food service	-	-	167,141	167,141
Athletics and music	-	-	25,838	25,838
Auxiliary services	-	-	20,549	20,549
Instructional	-	-	1,051	1,051
Drug awareness education	-	-	1,186	1,186
Scholarships and awards	-	-	30,893	30,893
Capital improvements	-	-	1,616,015	1,616,015
Debt service payments	-	3,419,087	-	3,419,087
Set-asides for textbooks	83,514	-	-	83,514
Total restricted	<u>83,514</u>	<u>3,419,087</u>	<u>1,862,673</u>	<u>5,365,274</u>
<u>Committed</u>				
Underground storage tanks	11,000	-	-	11,000
<u>Assigned</u>				
Uniform school supplies	23,285	-	-	23,285
Public school support	55,084	-	-	55,084
After school care	37,782	-	-	37,782
Encumbrances	91,984	-	-	91,984
Next fiscal year budget	3,406,236	-	-	3,406,236
Total assigned	<u>3,614,371</u>	<u>-</u>	<u>-</u>	<u>3,614,371</u>
Unassigned (deficit)	<u>631,779</u>	<u>-</u>	<u>(25,093)</u>	<u>606,686</u>
Total fund balances	<u>\$ 4,365,168</u>	<u>\$ 3,419,087</u>	<u>\$ 1,881,300</u>	<u>\$ 9,665,555</u>

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

NOTE 3 – CHANGE IN ACCOUNTING PRINCIPLES

For the fiscal year 2011, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” The implementation of GASB Statement No. 54 had the following effect on fund balances of the major and nonmajor funds as they were previously reported. In addition, the School District decided after the close of the previous fiscal year to report the activity of the internal service fund within the general fund.

	<u>General</u>	<u>Debt Service</u>	<u>Other Governmental Funds</u>	<u>Total</u>
Fund balance at June 30, 2010	\$ 5,299,154	\$ 3,641,664	\$ 1,642,262	\$ 10,583,080
Funds previously reported as:				
Internal service	828,077		-	828,077
Special revenue	<u>111,954</u>	<u>-</u>	<u>(111,954)</u>	<u>-</u>
Adjusted fund balance at July 1, 2010	<u>\$ 6,239,185</u>	<u>\$ 3,641,664</u>	<u>\$ 1,530,308</u>	<u>\$ 11,411,157</u>

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
4. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).
5. The revenues, expenditures and other financing sources and uses of the general fund include activity that is budgeted within special revenue funds (GAAP basis). However, on the budgetary basis, the activity of the special revenue funds is excluded resulting in perspective differences.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the general fund.

Net Change in Fund Balance	
	<u>General</u>
GAAP basis	\$ (1,874,017)
Net adjustment for revenue accruals	654,392
Current year adjustment to fair market value of investments	(5,940)
Net adjustment for expenditure accruals	(1,179,557)
Encumbrances (Budget basis) outstanding at year-end	(148,478)
Perspective differences from funds budgeted as special revenue funds:	
Revenues	(336,550)
Expenditures	1,149,430
Budget basis	<u>\$ (1,740,720)</u>

NOTE 5 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement:

1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

3. Written repurchase agreements for a period not to exceed thirty days in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAROhio);
7. Certain bankers' acceptances and commercial paper notes in an amount not to exceed 25% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

As of June 30, the carrying amount of the School District's deposits was \$5,550,007. The School District's bank balance of \$5,915,740 was not exposed to custodial credit risk as it was insured or collateralized by securities held by the School District's agent in the School District's name.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2011

B. Investments

As of June 30, the School District had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	<u>Percentage of Investments</u>	<u>Maturity</u>	<u>Rating</u>
Repurchase agreements	\$ 2,130,000	36%	Daily	AAA ⁽¹⁾
GE Capital commercial paper	3,749,071	64%	8/6/2010	A1+ ⁽²⁾
STAROhio	<u>18,750</u>	0%	56.0 ⁽⁴⁾	AAAm ⁽³⁾
	<u>\$ 5,897,821</u>			

⁽¹⁾ Standard and Poor's rating of underlying investment

⁽²⁾ Moody's rating

⁽³⁾ Standard and Poor's rating

⁽⁴⁾ Days (Average)

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2011.

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's \$2,130,000 investment in a repurchase agreement is to be secured by the specific securities upon which the repurchase agreements are based. The security, held by the counterparty and not in the School District's name, is a Federal Home Loan Mortgage Corporation (FHLMC) bond. The securities for these type of repurchase agreements must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related agreement. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Interest rate risk is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk is the possibility that an issuer or other counterparty to an investment will not fulfill its obligation. Standard and Poor's has assigned STAROhio an AAAM rating and the FHLMC bond an AAA rating. Moody's has assigned the GE Capital commercial paper an A1+ rating. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard service rating. The custodial risk associated with the repurchase agreements is discussed above.

Concentration of credit risk is the possibility of loss attributed to the magnitude of the School District's investment in a single issuer. More than 5% of the School District's investments are in GE Capital commercial paper and a FHLMC bond. These two investments are 64% and 36% of the School District's total investments, respectively. The investment in StarOhio is a pooled investment and not of a single issuer. The School District's policy places no limit on the amount that may be invested in any one issuer.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

All interest is legally required to be placed in the general fund, the food service and auxiliary services special revenue funds and the Scholarships private purpose trust fund. Interest revenue credited to the general fund during fiscal year 2011 amounted to \$72,367, which includes \$27,742 assigned from other School District funds.

NOTE 6 - PROPERTY TAX

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2011 represents collections of calendar year 2010 taxes. Real property taxes received in calendar year 2011 were levied after April 1, 2010, on the assessed value listed as of January 1, 2010, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2011 represents collections of calendar year 2010 taxes. Public utility real and tangible personal property taxes received in calendar year 2011 became a lien December 31, 2009, were levied after April 1, 2010 and are collected in 2010 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar year 2010 (other than public utility property tax) represents the collection of 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, furniture and fixtures is no longer levied and collected. Calendar year 2010 is the last year for the collection of tangible personal property taxes from telephone companies. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Medina and Summit Counties. The Medina County Auditor and the Summit County Fiscal Officer periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by year-end are available to finance the current fiscal year operations. The amount available to be advanced can vary based on the date the tax bills are sent and on the collection of delinquent taxes. The Board has passed a resolution to accept advances of property taxes and make them available for appropriation.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2011 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

The amount available as an advance at year-end was \$1,246,711 in the general fund and \$219,542 in the debt service fund, and is recognized as revenue on the fund financial statements.

On the accrual basis, collectible delinquent property taxes have been recorded as revenue on the statement of activities.

The assessed values totaling \$685,337,860 upon which the current fiscal year taxes were collected are:

<u>2010</u> <u>Property Category</u>	<u>Medina</u> <u>County</u>	<u>Summit</u> <u>County</u>
<u>Real Property</u>		
Residential and agricultural	\$ 616,012,460	\$ 6,905,770
Commercial, industrial and minerals	52,596,100	-
Public utilities	15,460	-
<u>Tangible Personal Property</u>		
Public utilities	9,660,920	147,150
Total	<u>\$ 678,284,940</u>	<u>\$ 7,052,920</u>

NOTE 7 – SHARED SALES TAX REVENUE

During 2007, the voters of Medina County passed an additional one-half percent sales tax to be used for capital improvements at all school districts within the County. Collection began in October 2007. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the State Auditor the amount of the tax to be returned to the County. The County then allocates this tax to the School Districts within the County based on the number of students enrolled.

NOTE 8 - RECEIVABLES

Receivables at year-end consisted of taxes, accounts (tuition and excess costs), accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds. The general fund and nonmajor governmental funds reported intergovernmental receivables in the amounts of \$143,019 and \$980,607 respectively. Of this amount \$704,496 consisted of shared sales tax revenue.

HIGHLAND LOCAL SCHOOL DISTRICT

Pupil transportation	168,828
Central	14,349
Food service operations	93,450
Extracurricular activities	<u>332,458</u>
Total depreciation expense	<u>\$ 1,691,334</u>

NOTE 10 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years.

The School District has contracted with the Stark County Schools Council of Governments (COG) to provide medical/surgical, dental, vision, life insurance and accidental death and dismemberment insurance for its employees and their covered dependents. The COG is a shared risk pool comprised of seventy member school districts, educational service centers, and related agencies. The employer participants pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees and their covered dependents. Claims are paid for all participants regardless of claims flow. This plan contains a stop-loss provision of \$300,000 per participant and an aggregate stop-loss provision of \$169,555,606.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

Premium contributions are determined annually in a manner that ensures the pool is funded up to the aggregate stop loss attachment point of \$169,555,606. Premium holidays may be declared by the COG to ensure reserves do not exceed thirty percent. In the event of termination, all participating school districts' claims would be paid without regard to their individual account balances. The COG Board of Directors has authority to return monies to an exiting school district subsequent to the settlement of all claims and expenditures.

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 11- DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2011, 11.81 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2011, 2010 and 2009 were \$505,573, \$674,631 and \$423,869 respectively; 55 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

B. State Teachers Retirement System of Ohio

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2011, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2010, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2011, 2010 and 2009 were \$1,727,210, \$1,777,925 and \$1,635,014 respectively; 84 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009. Contributions to the DC and Combined Plans for fiscal year 2011 were \$38,957 made by the School District and \$27,826 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2011, members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages paid.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

NOTE 12 - POST-EMPLOYMENT BENEFITS

A. School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2011, 1.43 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2011, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2011, 2010, and 2009 were \$109,986, \$77,659 and \$257,224 respectively; 50.44 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2011, this actuarially required allocation was 0.76 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2011, 2010 and 2009 were \$32,535, \$40,119 and \$34,973 respectively; 45.45 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

B. State Teachers Retirement System

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2011, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2011, 2010 and 2009 were \$132,862, \$136,763 and \$125,770 respectively; 84 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

NOTE 13 – ACCOUNTABILITY

As of June 30, 2011, three funds had a deficit fund balance. These deficits were caused by the application of GAAP; namely in the reporting of various liabilities attributable to the fiscal year. These deficit balances will be eliminated by anticipated future intergovernmental revenues or other subsidies not recognized and recorded at June 30. The following funds had a deficit balance:

	<u>Amount</u>
<u>Nonmajor special revenue fund:</u>	
Education jobs	\$ 1,251
IDEA, Part B	22,111
Title I	1,731

NOTE 14 - BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

The changes in long-term obligations of the School District during the fiscal year were as follows:

<u>Governmental activities</u>	<u>Balance</u> <u>July 1, 2010</u>	<u>Increases</u>	<u>Decreases</u>	<u>Balance</u> <u>June 30, 2011</u>	<u>Due within</u> <u>one year</u>

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

General Obligation Bonds: During fiscal year 2002, the School District issued \$39,900,000 in School Improvement bonds. The School Improvement bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. The bonds were issued for providing resources for constructing, renovating, remodeling, furnishing, equipping and otherwise improving school facilities and their sites. The bonds and interest are to be repaid by the debt service fund from the proceeds of property taxes collected from a levy that was approved by the taxpayers.

On February 27, 2006, the School District issued \$29,480,000 in General Obligation Bonds with an average interest rate of 4.25% to advance refund \$29,480,000 of outstanding School Improvement Bonds with an average interest rate of 4.68%. The bond proceeds consisted of bond principal and \$1,933,776 of premium. The net proceeds of \$29,144,176 (after payment of \$335,824 in underwriting fees, insurance, and other issuance costs) was deposited into an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of School Improvement Bonds refunded. These bonds include serial and capital appreciation bonds. Current year additions amounted to \$274,513 which represents the accretion of discounted interest. As a result of this issue, a portion of the School Improvement Facilities Bonds are considered to be defeased and the liability has been removed. As of June 30, 2011, \$29,480,000 of the old bonds remains outstanding. These bonds have a final call date of December 2011.

Other Obligations: Compensated absences are typically paid from the fund from which the employee is paid. Compensated absence obligations have been paid from the general fund in prior years.

Principal and interest requirements to amortize all bonds outstanding at June 30, 2011 are as follows:

Fiscal Year	School Improvement Bonds		
	Principal	Interest	Total
2012	\$ 1,990,000	\$ 1,215,725	\$ 3,205,725

NOTE 15 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In a prior year, the School District entered into a capitalized lease agreement for the acquisition of copiers. The terms of each agreement provide options to purchase the equipment. The leases meet the criteria of capital leases as defined by the Financial Accounting Standards Board's Accounting Standards Codification 840 which defines a capital lease generally as one which transfers all benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the fund financial statements of governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2011

Capital assets acquired by lease have been capitalized as equipment in the amount of \$184,147 equal to the present value of the future minimum lease payments at the time of acquisition. Principal payments in the current fiscal year totaled \$41,101. Capital lease obligations have been paid from the general fund in prior years.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments at year-end.

<u>Fiscal</u> <u>Year</u>	<u>Lease</u> <u>Payments</u>
2012	\$ 44,676
2013	<u>3,723</u>
Total minimum lease payments	48,399
Less: amount representing interest	<u>(1,423)</u>
Total	<u>\$ 46,976</u>

NOTE 16 - JOINTLY GOVERNED ORGANIZATION

The Lake Erie Educational Computer Association (LEECA) is a jointly governed organization comprised of twenty-five school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions for member districts. Each of these schools supports LEECA based upon a per pupil charge dependent upon the software package utilized. The LEECA assembly consists of a superintendent or designated representative from each participating school district and a representative from the fiscal agent. LEECA is governed by a Board of Directors chosen from the general membership of the LEECA assembly. The Board of Directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least one assembly member from each county in which participating school districts are located. Financial information can be obtained by contacting the Treasurer at the Lorain County Board of Education, which serves as fiscal agent. During fiscal year 2011, the School District contributed \$90,997 to LEECA.

The Ohio Schools' Council Association (Council) is a jointly governed organization among 157 school districts, educational service centers, joint vocational school districts, and developmental disabilities boards in 28 northern Ohio counties. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. During fiscal year 2011 the School District paid the Council \$82,429 for gas purchases, \$1,629 for a membership fee and \$400 in co-operative purchasing. Financial information can be obtained by contacting David Cottrell, the Executive Directive/Treasurer of the Ohio Schools' Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

HIGHLAND LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2011

NOTE 17 - CONTINGENCIES

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2011.

NOTE 18 - STATUTORY RESERVES

The School District is required by the state law to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years. However, the amount restricted for textbooks and instructional materials will be eliminated following the close of the fiscal year as explained below.

The School District had qualifying disbursements during the fiscal year that reduced the set-aside amount to \$83,514 for the textbook set-aside. Effective July 1, 2011, the textbook set aside is no longer required as the obligation was repealed by the 129th General Assembly in Amended Substitute House Bill 30. This balance is therefore not presented as being carried forward to a future fiscal year. Although the School District had qualifying disbursements and current year offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance reserve, this amount may not be used to reduce the set aside requirement for future years. This negative balance is, therefore, not presented as being carried forward to future years.

The following information describes the change in the year-end set-aside amounts for textbooks and capital maintenance.

	Textbook Reserve	Capital Maintenance Reserve	Total
Set-aside cash balance as of June 30, 2010	\$ (82,703)	\$ 19,514	\$ (63,189)
Current year set-aside requirement	493,155	493,155	986,310
Current year offset	-	(1,820,000)	(1,820,000)
Qualifying disbursements	<u>(326,938)</u>	<u>(446,610)</u>	<u>(773,548)</u>
Total	<u>\$ 83,514</u>	<u>\$ (1,753,941)</u>	<u>\$ (1,670,427)</u>
Balance carried forward to future years	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

**Combining Statements for Nonmajor
Governmental Funds**

COMBINING STATEMENTS – NONMAJOR GOVERNMENTAL FUNDS

NONMAJOR SPECIAL REVENUE FUNDS

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. A description of the School District's nonmajor special revenue funds follows:

Food Service

To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the School District students and staff.

Special Trust

To account for the use of donations used to provide educational experiences for the School District's elementary students.

Miscellaneous Local Grant

To account for a number of small local grants that are restricted for specific expenditures.

District Managed Student Activity

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

Auxiliary Services

To account for state monies used to provide services and materials for pupils attending non-public schools within the School District.

Management Information Systems

To account for state funds provided to assist the School District in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

Data Communications

To account for revenues received from the state to be used to install and provide support costs for data communication links to connect any school to the local data acquisition site.

Education Jobs

To account for federal funds received to pay salaries and benefits, and rehire, retain, or hire employees. The funds are specifically targeted at providing educational and related services for early childhood, elementary, and secondary education.

Race to the Top

To account for federal funds received as part of a competitive process authorized under the American Recovery and Reinvestment Act of 2009 and designed to encourage and reward districts that are creating the foundations for education innovation and reform designed to significantly improve student achievement.

IDEA, Part B

To account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

State Fiscal Stabilization

To account for federal funds provided to support and restore funding for elementary, secondary, and postsecondary education and, as applicable, early childhood education programs and services.

Title II Technology

To account for federal funds used for professional development and improving student achievement through the use of advanced technology in elementary and secondary schools.

Title III Limited English Proficiency

To account for monies to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I Fund

To account for federal funds for services provided to meet special educational needs of educationally deprived children.

Drug-Free Schools

To account for federal funds for the establishment, operation and improvement programs of drug abuse prevention, early intervention, rehabilitation referral and education in schools.

EHA Preschool Grant for Handicapped

To account for federal funds used for the improvement and expansion of services for handicapped children ages three through five years.

Improving Teacher Quality

To account for monies to hire additional classroom teachers grades 1 through 3, so that the number of students per teacher will be reduced.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital projects funds are established to account for financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities. The nonmajor capital projects fund are:

Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

Building

To account for the receipts and expenditures related to all special bond funds of the School District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

Sales Tax

To account for shared sales tax monies to be used for permanent improvement projects.

NONMAJOR PERMANENT FUND

Permanent funds are established to account for resources that are restricted to the extent that only earnings, not principal, may be used for purposes that support the School District's programs.

Sharon Elementary Trust

To account for principal trust amounts received and related interest income. The interest portion of the trust can be used for the upkeep and maintenance of the Sharon Elementary garden.

**Individual Fund Schedules of Revenues, Expenditures and Changes
in Fund Balance – Budget (Non-GAAP Basis) and Actual
Governmental Funds – Major and Nonmajor**

MAJOR GENERAL FUND

The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

FUNDS BEING REPORTED AS PART OF THE GENERAL FUND

The following funds are legally budgeted as separate special revenue funds but are being reported as part of the general fund for GAAP reporting purposes.

Uniform School Supplies

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

Latchkey

To account for income and expenditures made in connection with goods and services provided relative to the School District's before and after school care program.

MAJOR DEBT SERVICE FUND

The debt service fund is used to account for the accumulation of resources and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the government is obligated in some manner for the payment. It is also used to account for the accumulation of resources and the payment of general obligation notes payable, as required by Ohio Law.

STATISTICAL SECTION

Statistical Section

This part of the School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.	S2 - S13
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source, the property tax.	S14 - S21
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S22 - S26
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S27 - S28
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S29 - S36

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property including public utility real property is 35% of estimated true value. The assessed value of public utility personal property ranges from 25% of true value for railroad property to 88% for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25% for machinery and equipment. General business inventory tangible personal property tax was being phased out beginning in 2006. The listing percentage is 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and zero for 2009. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies. No tangible personal property taxes were levied or collected in 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property tax was in 2010).

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, the 2 1/2% and the homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
