

Board of Education Canal Winchester Local School District 100 Washington Street Canal Winchester, Ohio 43110

We have reviewed the *Independent Auditor's Report* of the Canal Winchester Local School District, Franklin County, prepared by Wilson, Shannon & Snow, Inc., for the audit period July 1, 2016 through June 30, 2017. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Canal Winchester Local School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

CANAL WINCHESTER LOCAL SCHOOL DISTRICT FRANKLIN COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6)

FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Canal Winchester Local School District, Franklin County (the District) under programs of the federal government for the fiscal year ended June 30, 2017. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at fair value. The District allocated donated commodities to the respective program that benefited from use of those donated food commodities. The District used the services of EPC/MEC to hold, process, and deliver its federal commodities at a nominal rate.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Canal Winchester Local School District Franklin County 100 Washington Street Canal Winchester, Ohio 43110

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, (the District) as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2017.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Canal Winchester Local School District
Franklin County
Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and Other Matters
Required by *Government Auditing Standards*Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY UNIFORM GUIDANCE

Canal Winchester Local School District Franklin County 100 Washington Street Canal Winchester, Ohio 43110

To the Board of Education:

Report on Compliance for The Major Federal Program

We have audited the Canal Winchester Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Canal Winchester Local School District's major federal program for the fiscal year ended June 30, 2017. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Canal Winchester Local School District
Franklin County
Independent Auditor's Report on Compliance with Requirements
Applicable to the Major Federal Program and on Internal Control
Over Compliance and the Schedule of Expenditures of Federal
Awards Required by the Uniform Guidance
Page 2

Opinion on The Major Federal Program

In our opinion, the Canal Winchester Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2017.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Over Compliance and the Schedule of Expenditures of Federal
Awards Required by the Uniform Guidance
Page 3

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Canal Winchester Local School District (the District) as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 18, 2017. We conducted our audit to opine on the District's' basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

December 18, 2017

To the Board of Education and the Citizens of the Canal Winchester Local School District:

As the Treasurer of the Canal Winchester Local School District (the "District"), I am pleased to submit to you this Comprehensive Annual Financial Report (CAFR) issued by the District. The CAFR for the fiscal year ended June 30, 2017 is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association (GFOA).

The Office of the Treasurer is responsible for the accuracy of the data presented and the completeness and fairness of this presentation. We believe the data presented is accurate in all material aspects and that all disclosures necessary to enable the reader to acquire the maximum understanding of the District's financial activity are included herein.

The basic financial statements of the District for the fiscal year ended June 30, 2017, were audited by Wilson, Shannon, & Snow, Inc. whose opinion thereon is included at the beginning of the Financial Section of this report.

In addition to the financial audit a single audit was performed as required by the Office of Management and Budget's (OMB) *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (commonly called "Uniform Guidance"). The single audit report is not included in the CAFR.

This transmittal letter is designed to provide historical information about the District, as well as complement the required Management's Discussion and Analysis (discussed below) and the required supplementary information concerning schedules of net pension liabilities and pension contributions. Unless noted otherwise, the financial data in this transmittal letter is presented on the modified accrual basis of accounting. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A).

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE DISTRICT

The District originated in the early 1800's, built its first building in 1862, and is a fiscally independent political subdivision in the State of Ohio. By statute the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code to provide education services authorized by charter and further mandated by state and/or federal agencies. The District is in a suburb of Columbus, the state capital, and operates one high school, one middle school, and two elementary schools as of June 30, 2017. The District enrolled approximately 3,783 students during the 2016-17 school year.

The District provides a wide variety of educational and support services as mandated by State statute or public desires. These include general education programs which focus on college and career readiness, specific vocational/career instruction, special instructional programs for students with disabilities, special instructional programs for gifted students, special instructional programs for English Language Learners, student guidance and health services, as well as extracurricular activities. The District has a reputation of academic excellence as measured by student academic results on state-mandated assessments.

An elected five-member Board of Education serves as the taxing authority and policy maker for the District. The Board adopts the annual operating budget, tax budget, and approves all expenditures of District tax monies.

The Superintendent is the chief executive officer of the District, responsible to the Board for total educational and support operations. The Treasurer is the chief financial officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as permitted by Ohio law. Other officials, reporting to the Superintendent, include the Assistant Superintendent, Curriculum Director, Coordinator of Student Activities, Director of Special Education, Technology Coordinator, Director of Assessment and Data, and the building principals.

<u>Internal Control:</u>

In developing and revising the District's accounting and internal control system, consideration is given to the adequacy of internal controls to provide reasonable but not absolute assurance regarding:

- 1. Safeguarding of assets against loss from unauthorized use or disposition; and
- 2. Keeping reliable financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

- 1. The cost of a control should not exceed the benefits likely to be derived; and
- 2. The evaluation of costs and benefits required estimates and judgments by management.

Management believes that the internal controls adequately meet the above objectives.

Budgetary Controls:

In addition to the internal controls mentioned above, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds (except agency) are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the individual fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered amounts lapse at fiscal year-end. A complete description of the District's budgetary process can be found in Note 2.E. to the basic financial statements.

Instructional Organization:

The District provides a wide variety of educational and support services as mandated by State statute or public desires. These include general education programs which focus on college and career readiness, specific vocational/career instruction, special instructional programs for students with disabilities, special instructional programs for gifted students, special instructional programs for English Language Learners, student guidance and health services, as well as extracurricular activities. The District has a reputation of academic excellence as measured by student academic results on state-mandated assessments.

While rapid growth in student population over the past decade presented many challenges such as providing student housing, maintaining appropriate class sizes, and assuring the horizontal and vertical articulation of instruction, this growth provided the District with opportunities to build new facilities for our learners, to hire additional staff to support student needs and to work closely with our community to define services appropriate for our taxpayer wallet and student and family desires.

Over the years, our community has supported the District's need for new school facilities. November 1990 marked the beginning of our new construction projects which produced new schools for our students. This successful bond issue built phase II of the high school which included an academic wing, library/media center, office and cafeteria. Together with the first phase of the high school, the capacity for students equaled 750.

Again in November 1997, district residents approved a bond issue which built Indian Trail Elementary School, a district K-2 building with the capacity to serve 825 students. This building featured a state-of-the art library/media center which is predominantly placed in the building, two gymnasiums, a cafetorium and 42 classrooms.

In March 2000, district residents approved a bond issue that funded a significant renovation to the district's then historic Middle School, phase III of the high school, a stand-alone gymnasium, and another elementary school – Winchester Trail Elementary. These construction projects increased our high school capacity to 1,025 and created a mirror image school of Indian Trail in Winchester Trail to house up to 525 students in grades 3-4. Additionally, this bond allowed new residents to immediately pay at the same bond millage as current residents. This no new tax approach was available to only fewer than 10% of the highest growing districts in Ohio.

In November 2004, the District passed another bond issue. This issue qualified the district for \$30 million in state matching future funds from the Ohio School Facilities Commission and its passage built a new Middle School which houses grades 6, 7 and 8 and added a new wing to Winchester Trail Elementary School which serves students grades 3-5. Because of the passage of the levy, the district was able to reconfigure grade levels and close the 5-6 Intermediate School. Unique to this bond issue was the fact that the school district and then Village of Canal Winchester, shared costs because the school was built next to a village recreational park.

In May 2017, the Ohio Facilities Construction Commission officially approved funding for the renovation and addition project to the high school. The project will add additional space to the high school and renovate the 1976 and 1993 sections of the building, providing the District a long-term solution for the high school. Thanks to the strong fiscal management of the District, we are able to complete this project without asking taxpayers for additional funds. The completion date is set for the 2020-2021 school year.

Our district facilities support wireless communication, broadband internet, a strong arts program, solid "core" academic programs, vital latchkey partnerships with area churches and a very strong partnership with the Canal Winchester Joint Recreational District.

While our school district enjoys a reputation of being a caring and academically sound district, we continue to expand our efforts to identify more ways to meet the needs of students. Included in these efforts have been the Success after school program in grades 3-5 and a strengthened standards-based gifted program.

STUDENT ACHIEVEMENT

Scholastic Performance: Scholastic Performance: For the 2016-17 school year, Ohio administered its State accountability assessment in various subject areas from grade 3 through high school. The district's overall performance provided a variety of outcomes that will serve as our benchmark in which future progress under Ohio's accountability system will be judged. Overall, Canal Winchester Local Schools received an A (Graduation Rate), three C's (Achievement, Gap Closing, and K-3 Literacy), one D (Prepared for Success), and one F (Progress).

In addition, Canal Winchester Local Schools utilized the Northwest Evaluation Association (NWEA) Measures of Academic Progress (MAP) educational resource in reading and math for grades K-8. This locally provided resource allows us another way to view the impact of our instructional practices beyond Ohio's every changing assessment landscape. Overall, according to NWEA's Insights Report, our achievement and growth are slightly above the national average for the 2016-17 school year and our three-year national growth trend for grades K-3 indicates reading is consistently above average while math is average.

MAJOR INITIATIVES AND PROGRAM ACCOMPLISHMENTS

<u>Data Analysis</u>: Together the District Leadership Team (DLT), Building Leadership Team's (BLT) and Teacher Based Team's (TBT) analyze, act, and refine practices in response to annual data analysis to ensure the success of all students. At each level the Education Value-Added Assessment System (EVAAS), the Ohio Computer Based Assessment (OCBA), as well as the Northwest Evaluation Association (NWEA) Measures of Academic Progress (MAP) results are reviewed. Data from all OCBA (administered to grade levels 3-8 & high school) and MAP (reading & math K-8) exams are analyzed by grade level, content area, and subgroups including standard. During this process, all staff work together to determine the details of our next instructional steps to ensure the growth of all students. Additionally, intervention, substantive practice and enrichment are planned for students based on data analysis. Teachers are also analyzing pre-assessment and trend data to develop Student Learning Objectives (SLO) to use as part of Ohio's Teacher Evaluation System (OTES).

<u>Professional Development</u>: Job-embedded professional development is provided to all teaching staff throughout the year and on three designated professional development days. Professional development revolves around identified teacher needs which are surveyed and prioritized annually. Our professional learning continues to emphasize improving instructional strategies to meet the needs of all students by delivering instruction that is high in rigor and relevant to their needs, providing learning opportunities in the area of technology integration across all disciplines, and our major focus of project-based learning (PBL) in all content areas. 100% of new staff received three days of intensive PBL training by the end of the 2016-17 school year.

Gifted & Talented Programs: In-house programs for gifted and talented students are provided at Winchester Trail Elementary School (grades 4-5) using inclusion, differentiation, and/or compacted in mathematics and English language arts curriculum in grades four and five. Two gifted intervention specialist staff the elementary building, providing an opportunity for these teachers to act as a gifted resource to all classroom teachers. Acceleration/enrichment courses for advanced students are provided for students at the middle school and high school.

<u>ELL Program</u>: Students in grades K-12 with Limited English Proficiency are provided intervention programs through the Districts' ELL (English Language Learners) teachers. The proficiency of English language is assessed annually through state mandated testing.

<u>Foreign Languages</u>: Seventh (7th) and Eighth (8th) grade students are able to enroll in an elective study of Spanish to complete either Spanish I or in some cases Spanish I and II. The inclusion of high school credit foreign language courses in seventh and eighth grade permits students an opportunity to enroll in College Credit Plus Spanish courses while still in high school if they begin their foreign language studies at the middle school level.

<u>High School Credit as an Option for Eighth Grade Students</u>: Seventh and Eighth grade students have the option of earning High School credits for Algebra 1, Spanish 1 & 2 and Art Foundations if they meet the qualifications to enroll in those courses.

Middle school and high school courses: The high school added an engineering course to our STEM pathway, along with a Risk Management program to our Business pathway. Our focus has been on developing pathways for students to help give them a head start on a career pathway or provide them with a certificate after the successful completion of courses to give them an advantage when applying for jobs. We have 5 pathways for high school students: Pre-Engineering, Medical, Pharmacy Technician, Business, Insurance & Risk Management, and CISCO Networking. Each course is designed to give our students a realistic experience in each area to make a better-informed decision on their next step after high school. In addition, many of these courses are dual credit, meaning your student could receive both high school AND college credit for most of these courses. The pathways start at the middle school with classes in the medical pathway, Robotics/Engineering, and Computer Sciences. Other college courses include English 1100 and English 2367. Canal Winchester High School teachers teach these courses.

Arts Instruction: Visual and performing arts are a source of pride in the Canal Winchester Schools. Music and visual arts teachers provide instruction to students K-12. Every building in the district provides art, music, physical education teachers, and media and technology integration specialists. In grades K-6, the visual and performing arts are rotated into the weekly schedule, while middle school students in grades 7 and 8 receive art instruction on a nine week rotation. Library/media and technology integration are integrated into the student's courses. Beginning in grades 7 and 8, students have the opportunity to enroll in instrumental music and vocal music as an elective. Students enroll in visual, vocal and instrumental music and performing arts programs at the high school level based on their interests and graduation requirement needs.

Integrated Technology Instruction: The District recognizes that technology has become an integral part of education. In addition, technology is a tool to facilitate the 21st Century skills for college and career readiness for all students. A comprehensive district plan embeds technology use into communication, instruction, intervention, data reporting and data analysis. Likewise, the District created a Help Desk making technical services and request for and from teachers more efficient. The District continues to improve communications with parents by providing to students and parents' on-line access to student's grades. Because of the web-based nature of this tool, teachers are also able to post class assignments, recorded lessons and class notes as well. Parents are invited to sign up for the district level and building level email blasts which communicate important district or building level news or event reminders.

Summer Intervention

Summer intervention is provided to students who are not considered 'proficient' in reading during elementary school as determined by teacher recommendations for early learners and by the Ohio Achievement Assessment for students in grade 2. Summer intervention is also provided to students who are not considered 'proficient' in math during elementary school as determined by teacher recommendations for early learners and by the Ohio Achievement Assessment for students in grades 3-5. Summer intervention is available for high school students in all content areas in preparation for re-taking the Ohio Graduation Test. Intervention is provided for students in grades 1-5 during the regular school day through content specific and tiered instruction as well as an after school reading program.

Comprehensive Continuous Improvement Plan:

The District annually completes a needs assessment and develops a CCIP (Comprehensive Continuous Improvement Plan) as required by the Ohio Department of Education, Office of Federal Programs in order to receive federal funds, commonly known as "Title" monies. There are two major goals established in this plan for our District including: Improving Student Achievement and providing high quality professional development to our teaching staff. Strategies and action steps that support this goal are developed to provide a structure for expending funds for the following programs - Title I (Disadvantaged), Title I (School Improvement), Title II-A (Improving Teacher Quality), Title III (Limited English Proficient), and Part B-IDEA (Special Education). The District's current CCIP was approved by the Ohio Department of Education, Office of Federal Programs in July 2016.

<u>Grants Programs</u>: The District had received two Straight A Grants from the State that totaled around \$1.1 million dollars. The grant monies are being used to increase student achievement and teach all students to think, innovate and use technology to improve student engagement and learning. Both grants focus on creativity, communication, collaboration and critical thinking k-12.

Special Education: The District's Special Education Program provides a full continuum of services from Preschool through 12th grade based on the individual needs of its approximate 505 students on Individualized Education Programs (IEPs). Services are provided in all four buildings as well as in programs outside of the district. These services range from inclusion support to homebound/hospitalization services. Specialized, low-incidence classrooms include those for students with multiple disabilities, emotional disturbance, and autism, although categories of eligibility do not dictate placement in these classrooms. The District supports students in these rooms through smaller class sizes (based on state requirements), intensive related services support, individualized programming, and paraprofessionals. Canal Winchester currently has 8 low-incidence classrooms. In addition, some of our buildings also have cross-categorical classrooms that serve as resource rooms for students. Students in these classrooms receive a range of services from content area instruction to behavioral support. The District also offers inclusion support in all buildings, where Intervention Specialists work alongside General Education teachers to provide instruction in the general education curriculum without pulling students from the classroom. Canal Winchester has 38 teachers providing preschool, cross-categorical resource room, and inclusion support in the general education setting.

Canal Winchester's Special Education program is supported by a well-experienced related services staff consisting of 3.4 school psychologists, 4.5 speech therapists, .5 adaptive physical education teacher, 1 physical therapist, 2 occupational therapists, 1 behavior specialist, and 1 transition coordinator. Some of these services and additional services are contracted with other agencies as well. Canal Winchester partners with Nationwide Children's Hospital, through funding from the Franklin County ADAMH Board, to receive the services of 2 fulltime School Based Clinicians to help support students' mental health needs. All of these classrooms, programs, and personnel are supervised and coordinated on a day-to-day basis by one special education administrator who oversees all the programs at the district level. Three district representatives also help cover meetings and oversee caseloads and department compliance. One special education secretary maintains special education records and enters critical information into the Education Management Information System (EMIS).

ECONOMIC CONDITION AND OUTLOOK

The majority of the School District is located in Franklin County, with the remainder situated in Fairfield County. The District covers approximately 32 square miles in and around the City of Canal Winchester. Located approximately 15 miles southeast of downtown Columbus, Ohio, the District is largely rural/suburban in character and is considered a growing, middle-class suburb of Columbus. The Columbus area has maintained a strong economic climate, even during periods of recession. This is due to the fact that Columbus is the State capitol, and is national headquarters for many corporations and insurance companies. There are also a number of universities in the area which contribute to a stable local economy. This stability has contributed to the growth of the District.

In 1990, the community approved a school district income tax. It is anticipated that the income tax will continue to provide a better source of funding than the traditional property tax, because of its ability to grow as the District grows.

As can be seen in the financial statements, voters have routinely supported the District in its efforts to keep pace with increased student population. The district has received increased state funding during the last several years which has allowed the District to not request new local taxes since 2009. The district will need to renew the \$5.83 million emergency levy that was originally passed in 2009 and renewed in 2014 to help sustain financial stability. District leadership anticipates a renewal in May 2019.

In January 2015, the Board reached a three-year agreement with the Canal Winchester Education Association, which enabled the District to operate for the 2015-16, 2016-17 and 2017-18 school year with a 2.5% increase in the salary schedule each year. In May 2015, the Board reached a three-year agreement with the Ohio Association of Public School Employees to operate for the 2015-16, 2016-17 and 2017-18 school year with a 2.5% increase in the salary schedule each year.

Ohio House Bill 412 requires school districts to spend a certain portion of their revenues on specific categories of expenditures as specified in the law. In the event that the District does not meet the required expenditure level, the shortfall would be reserved and carried forward to the next fiscal year and would be expected to be spent in addition to any requirement for that fiscal year. This category of "set-asides" or reserve is pertinent to the District: the capital acquisition set-aside. The set-asides for the capital acquisition are required by State statute. For fiscal year 2017, the District had offsets and qualifying disbursements, which well exceeded the required set-asides. Given the District's current and anticipated expenditure patterns and levels, the board expects to exceed these requirements for the foreseeable future.

AWARDS AND ACKNOWLEDGEMENTS

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal years ended June 30, 2012 through June 30, 2016. The Certificate of Achievement is a prestigious national award that recognizes conformance with the, highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. As such, the CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments

The preparation of the CAFR was made possible by the diligence of the Treasurer's staff and the support of the Board of Education. Special thanks go to the Superintendent of the District for his input and assistance in this project. In the financial area, as in the instructional area, the goal of excellence is always with us.

Respectfully submitted,

Nick Roberts

INDEPENDENT AUDITOR'S REPORT

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, Ohio (the District), as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Canal Winchester Local School District Franklin County Independent Auditor's Report

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Canal Winchester Local School District, Franklin County, Ohio, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Canal Winchester Local School District Franklin County Independent Auditor's Report

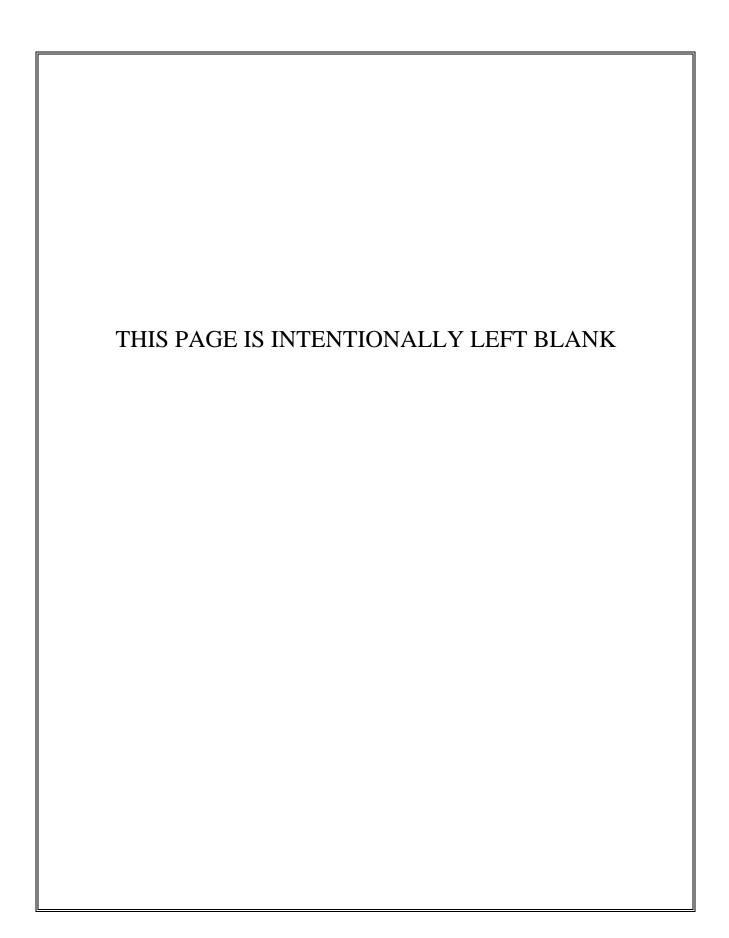

Wilson, Shanna ESway, De.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2017 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Newark, Ohio

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

The management's discussion and analysis of Canal Winchester Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

- Net position of governmental activities increased \$22,334,788, which represents a 248.21 percent increase from 2016.
- General revenues accounted for \$62,467,776 in revenue or 86.76 percent of all governmental activities revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$9,536,051 or 13.24 percent of total governmental activities revenues of \$72,003,827.
- The District had \$49,669,039 in expenses related to governmental activities, \$9,536,051 of these expenses were offset by program specific charges for services and sales, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$62,467,776 were adequate to provide for these programs.
- The District's major governmental funds are the general fund, debt service fund and classroom facilities fund. The general fund had \$43,679,291 in revenues and \$46,522,829 in expenditures and other financing uses. The fund balance of the general fund decreased \$2,843,538 from a balance of \$24,672,489 to \$21,828,951.
- The debt service fund had \$5,282,247 in revenues and other financing sources and \$5,124,534 in expenditures. The fund balance of the debt service fund increased \$157,713 from \$4,319,820 to \$4,477,533.
- The District entered into an agreement with the Ohio Facilities Construction Commission (OFCC) during fiscal year 2017 to participate in the Classroom Facilities Assistance Program (CFAP). The classroom facilities fund to account for the construction project.

Using the Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The District has three major governmental funds: the general fund, debt service fund and classroom facilities fund. The general fund is by far the most significant fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

Reporting the District as a Whole

Statement of Net position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2017?" The statement of net position and statement of activities answer this question. These statements include all non-fiduciary assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, food service operations and extracurricular activities.

The District's statement of net position and statement of activities can be found on pages 28 - 29 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 22. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and statement of activities) and governmental funds is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 30 - 36 of this report.

Proprietary Fund

The District maintains one proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund activity accounts for self-insurance of the District's medical, dental and prescription drug benefits. The basic proprietary fund financial statements can be found on pages 37 - 39 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

Reporting the District's Fiduciary Responsibilities

The District acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities on page 40. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 41 - 90 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the net pension liability and contributions in this report on pages 92 - 98.

THIS SPACE IS INTENTIONALLY LEFT BLANK

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

The District as a Whole

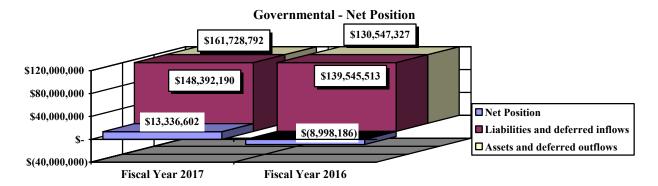

The statement of net position provides the perspective of the District as a whole. The table below provides a summary of the District's net position for June 30, 2017 and June 30, 2016.

Net Position

	Governi Activ	mental vities
	2017	2016
<u>Assets</u>		
Current assets	\$ 77,171,881	\$ 53,052,882
Capital assets, net	69,605,823	70,498,095
Total assets	146,777,704	123,550,977
Deferred outflows of resources	14,951,088	6,996,350
<u>Liabilities</u>		
Current liabilities	4,887,832	5,046,187
Long-term liabilities:		
Due within one year	3,986,370	4,001,924
Due in more than one year:		
Net pension liability	64,474,828	50,564,498
Other amounts	60,086,366	62,625,082
Total liabilities	133,435,396	122,237,691
Deferred inflows of resources	14,956,794	17,307,822
Net Position		
Net investment in capital assets	14,738,667	12,167,675
Restricted	24,460,893	1,097,050
Unrestricted (deficit)	(25,862,958)	(22,262,911)
Total net position (deficit)	\$ 13,336,602	\$ (8,998,186)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

The graph below presents the District's governmental assets and deferred outflows of resources, liabilities and deferred inflows of resources and net position for fiscal years 2017 and 2016.

The table below shows the changes in net position for governmental activities between 2017 and 2016.

Change in Net Position

		Govern Acti	1	
	_	2017	_	2016
Revenues				
Program revenues:				
Charges for services and sales	\$	2,316,287	\$	2,502,533
Operating grants and contributions		7,198,320		6,169,326
Capital grants and contributions		21,444		13,600
General revenues:				
Property taxes		20,561,158		19,811,386
Income taxes		4,386,632		4,248,513
Payments in lieu of taxes		577,646		498,231
Grants and entitlements - not restricted		17,584,865		16,561,092
Grants and entitlements - restricted for OFCC		18,803,806		-
Investment earnings		226,975		323,317
Miscellaneous		326,694		222,843
Total revenues		72,003,827		50,350,841

In the area of program revenues, operating grants and contributions increased \$1,028,994, which is primarily attributable to an increase federal funding received during fiscal year 2017.

The primary sources of revenue for governmental activities are derived from property taxes, income taxes and unrestricted grants and entitlements. These revenue sources represent 59.07 percent of total governmental revenue. Real estate property is reappraised every six years. Unrestricted grants and entitlements increased as a result of an increase in state foundation, specifically in opportunity grant and targeted assistance funding. During fiscal year 2017, the District recognized grants and entitlements restricted for the OFCC for the state portion of the CFAP construction project.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

Interest and fiscal charges	 2,615,759		2,242,809	
Total expenses	 49,669,039	_	43,431,901	
Changes in net position	22,334,788		6,918,940	
Net position (deficit) at beginning of year	 (8,998,186)		(15,917,126)	
Net position (deficit) at end of year	\$ 13,336,602	\$	(8,998,186)	

Governmental Activities

Net position of the District's governmental activities increased \$22,334,788. This increase is primarily attributable to recognizing \$18,803,806 in restricted grants and entitlements from the OFCC as revenue during fiscal year 2017.

Total governmental expenses of \$49,669,039 were offset by program revenues of \$9,536,051 and general revenues of \$62,467,776. Program revenues supported 19.20 percent of the total governmental expenses. Expenses increased overall due to an increase in the net pension liability.

The largest expense of the District is for instructional programs. Instruction expenses totaled \$27,873,449 or 56.12 percent of total governmental expenses for fiscal year 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

The statement of activities shows the cost of program services and the charges for services and sales and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2017 and 2016. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

Governmental Activities

	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
	2017	2017	2016	2016
Program expenses:

The dependence upon tax revenues during fiscal year 2017 for governmental activities is apparent, as 80.58 percent of fiscal year 2017 instructional activities are supported through taxes and other general revenues. The District's taxpayers and unrestricted grants and entitlements from the State, are by far the primary support for District's students.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

The graph below presents the District's governmental activities revenue for fiscal years 2017 and 2016.

Governmental Activities - General and Program Revenues

The District's Governmental Funds

The District's governmental funds (as presented on the balance sheet on pages 30 - 31) reported a combined fund balance of \$35,090,400, which is above last fiscal year's total of \$30,266,932. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2017 and 2016.

	Fund Balance June 30,2017	Fund Balance <u>June 30,2016</u>	<u>Change</u>
General	\$ 21,828,951	\$ 24,672,489	\$ (2,843,538)
Debt Service	4,477,533	4,319,820	157,713
Classroom Facilities	4,558,230	-	4,558,230
Other Governmental	4,225,686	1,274,623	2,951,063
Total	\$ 35,090,400	\$ 30,266,932	\$ 4,823,468

General Fund

The District's general fund balance decreased \$2,843,538 during fiscal year 2017. The following table assists in illustrating the revenues of the general fund.

	2017	2016	Percentage		
	Amount	Amount	Change		
Revenues					
Taxes	\$ 20,409,786	\$ 19,947,188	2.32 %		
Intergovernmental	20,834,552	19,728,348	5.61 %		
Other revenues	2,434,953	2,546,192	(4.37) %		
Total	\$ 43,679,291	\$ 42,221,728	3.45 %		

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

Tax revenues increased as a result of an increase in the amount of property and income taxes collected at June 30, 2017, and the tax advance available at fiscal year-end, as compared to June 30, 2016. The District received more in State foundation funding, which resulted in an increase in intergovernmental revenue of 5.61 percent. The decrease in other revenues was due to lower refunds and reimbursements.

The table that follows assists in illustrating the expenditures of the general fund.

	2017 <u>Amount</u>	2016 <u>Amount</u>	Percentage Change
Expenditures			
Instruction	\$ 22,987,516	\$ 22,618,091	1.63 %
Support services	14,556,882	13,728,782	6.03 %
Operation of non-instructional	109,775	54,748	100.51 %
Extracurricular activities	745,412	655,333	13.75 %
Debt service	151,723	569,679	(73.37) %
Total	\$ 38,551,308	\$ 37,626,633	2.46 %

The increase in instruction expenditures was primarily related to costs associated with annual increases in salaries, wages and benefits. The District spent more on extracurricular activities, such as athletic programs, during fiscal year 2017. Debt service decreased as the District accounted for a refunding bond issuance costs in fiscal year 2016.

Debt Service Fund

The debt service fund had \$5,282,247 in revenues and other financing sources and \$5,124,534 in expenditures. The fund balance of the debt service fund increased \$157,713 from \$4,319,820 to \$4,477,533. The debt service fund received transfers in of \$371,521 during fiscal year 2017 from the general fund to retire debt obligations.

Classroom Facilities Fund

The classroom facilities fund was established during fiscal year 2017 to account for the District's CFAP construction project with the OFCC. The local share of the project was funded by transfers of \$4,555,283 from other funds. The state share of the project, \$18,803,806, has been reported as a receivable at June 30, 2017. The District will draw down on the state funds over the duration of the project.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2017, the District amended its general fund budget several times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. For the general fund, original budgeted revenues and other financing sources were \$48,305,156. Actual revenues and other financing sources of \$46,725,503 were \$4,246,726 lower than final budgeted revenues of \$50,972,229.

General fund original appropriations (appropriated expenditures plus other financing uses) were \$46,500,000 and final appropriations were \$50,000,000. The actual budget basis expenditures and other financing uses for fiscal year 2017 totaled \$47,063,658, which was \$2,936,342 less than the final budget appropriations.

Capital Assets and Debt Administration

Capital Assets

The District had \$69,605,823 invested in land, land improvements, buildings and improvements, furniture and equipment and vehicles. The following table shows fiscal year 2017 balances compared to 2016:

Capital Assets at June 30 (Net of Depreciation)

Governmental Activities

	2017	_	2016
Land	\$ 3,698,648	\$	3,698,648
Land improvements	51,647		52,718
Buildings and improvements	62,453,297		63,120,794
Furniture and equipment	2,318,993		2,455,118
Vehicles	1,083,238		1,170,817
Total	\$ 69,605,823	\$	70,498,095

The District had additions of \$453,499, depreciation expense of \$1,342,611 and disposals of \$3,160 (net of accumulated depreciation) in fiscal year 2017.

See Note 11 to the basic financial statements for detail on the District's capital assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017 UNAUDITED

Debt Administration

At June 30, 2017 the District had \$56,603,010 in general obligation bonds, \$35,512 in capital lease obligations, \$761,522 in a lease-purchase agreement, \$1,573,684 in energy conservation notes, and \$675,000 in school bus notes outstanding. Of the total outstanding debt, \$3,812,838 is due within one year and \$55,835,890 is due in greater than one year. The following table summarizes the bonds, notes and lease obligations outstanding.

Outstanding Debt, at Year End

	G	overnmental Activities 2017	Governmental Activities 2016			
General obligation bonds	\$	56,603,010	\$	58,418,797		
Energy conservation notes		1,573,684		1,701,894		
School bus notes		675,000		840,000		
Capital lease obligation		35,512		83,865		
Lease-purchase agreement		761,522		820,844		
Total	\$	59,648,728	\$	61,865,400		

See Note 14 to the basic financial statements for detail on the District's debt administration.

Current Financial Related Activities

"Empowering All Students for Success" is the mission statement for the District. Maintaining current educational opportunities for our students in a financially reasonable manner for taxpayers is always at the forefront as we plan for the future.

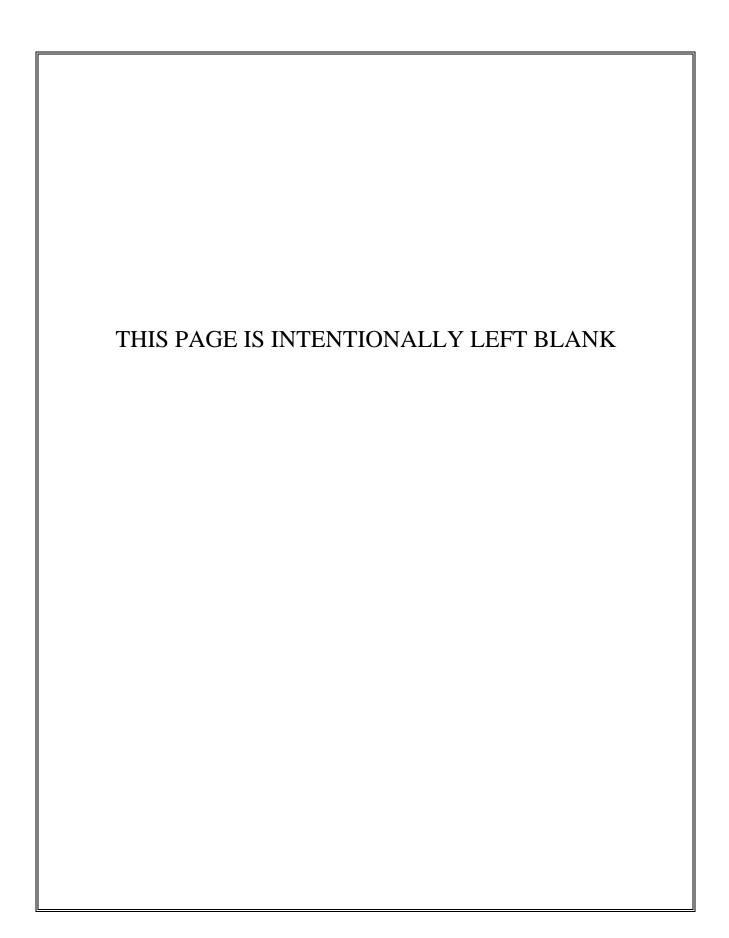

The two-year state budget has allowed for additional funding for the District. However, the funding formula capped the amount of money that the District is eligible to receive. This keeps the District from receiving additional state funding for student growth until the state formula calculation reaches and exceeds the capped amount.

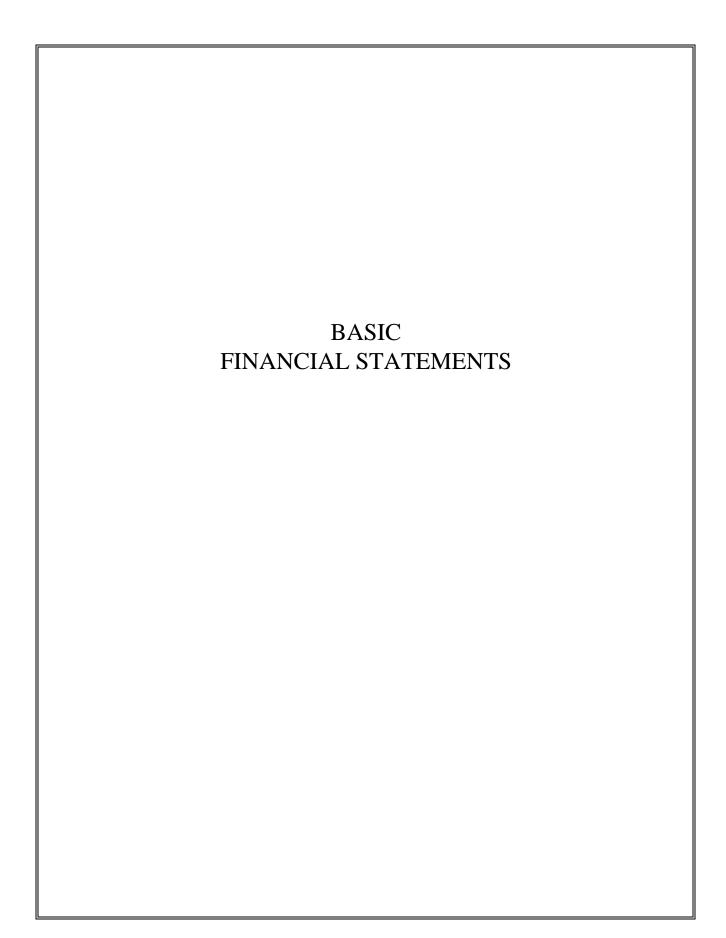

Adding to our revenue challenges is the fact that over $1/3^{rd}$ of our local tax funding must be renewed by the voters on a constant basis. That means our District runs the risk of losing millions in current operating funds if voters do not approve renewal levies every few years.

Canal Winchester Local Schools weathered through tough financial times in the past. We continue to work on a path of financial stability along with our community, and we keep them informed through newsletters, including an annual Financial Report. In order to continue down a path of financial stability, it is critical that the District and community continue working together for not just our students, but for the quality of life in our community as well.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact: Mr. Nick Roberts, Treasurer, Canal Winchester Local School District, 100 Washington Street, Canal Winchester, Ohio 43110.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Net change in fund balances - total governmental funds			\$ 4,823,468
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Capital asset additions Current year depreciation	\$	453,499 (1,342,611)	
Total		<u></u> _	(889,112)
Governmental funds only report the gain from the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.			(3,160)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(42.229)	
Property taxes Income taxes Earnings on investments Intergovernmental		(42,238) 28,295 5,327 18,937,707	
Total	-		18,929,091
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.			
General obligation bonds Capital appreciation bonds		2,530,000 157,990	
Accreted interest on capital appreciation bonds Energy conservation notes - current interest		712,010 140,000	
Bus purchase notes Lease purchase agreement		165,000 59,322	
Capital leases Total		48,353	3,812,675
Governmental funds report expenditures for interest when it is due. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The following items resulted in more interest being reported in the statement of activities:			
Decrease in accrued interest payable		21,264	
Accretion of interest on capital appreciation bonds Accretion of interest on energy conservation notes		(1,584,213) (11,790)	
Amortization of bond premiums		(208,366)	
Amortization of deferred charges		570,965	
Total		 -	(1,212,140)
Some expenses reported in the statement of activities, such as compensated absences,			
do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			(239,443)
			- (Continued)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES - (Continued) FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Contractually required pension contributions are reported as expenditures in governmental	
funds; however, the statement of activities reports these amounts as deferred outflows.	\$ 3,237,744
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability	
are reported as pension expense in the statement of activities.	(5,758,420)
An internal service fund used by management to charge the costs of insurance to individual	
funds is not reported in the statement of activities. Governmental fund expenditures and	
the related internal service fund revenues are eliminated. The net revenue (expense) of	
the internal service fund is allocated among the governmental activities.	 (365,915)
Change in net position of governmental activities	\$ 22,334,788

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Canal Winchester Local School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local District as defined by Section 3311.03 of the Ohio Revised code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District.

Average daily membership (ADM) was 3,783. The District employed 21 full-time administrators and coordinators, 251 full-time certified employees, and 145 full-time classified employees.

The District provides regular, vocational and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisition and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities and non-programmed services.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATIONS

Metropolitan Educational Technology Association (META) Solutions

The District is a participant in META Solutions which is a computer association that resulted from the mergers between Tri-Rivers Educational Computer Association (TRECA), Metropolitan Educational Council (MEC), Metropolitan Dayton Educational Cooperative Association (MDECA), Southeastern Ohio Valley Voluntary Educational Cooperative (SEOVEC), and South Central Ohio Computer Association (SCOCA). META Solutions develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. META Solutions provides instructional, core technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eleven of the member districts. Financial information can be obtained from Dave Varda, who serves as Chief Financial Officer, 100 Executive Drive, Marion, Ohio 43302.

South Central Ohio Insurance Consortium

The District is a member of the South Central Ohio Insurance Consortium (SCOIC), an insurance purchasing pool. The SCOIC's primary purpose and objective is establishing and carrying out a cost effective cooperative health program for its member organizations. The governing board consists of the superintendent, treasurer, or other designee appointed by each of the members of the SCOIC. Members include 13 school districts, the City of Lancaster, and two hospitals. The Liberty Union-Thurston Local School District serves as fiscal agent for the SCOIC. To obtain financial information for the SCOIC, write to the fiscal agent, Liberty Union-Thurston Local School District, 1108 South Main Street, Baltimore, Ohio 43105-9700. See Note 16.C for further information.

Canal Winchester Joint Recreation District

The District has joined with the City of Canal Winchester in the creation of a joint recreation district known as the Canal Winchester Joint Recreation District (Recreation District). The Recreation District is established under Ohio Revised Code Chapter 755.14(C). The District appoints two members to act as the School Board representatives on the Recreation District Board. The Recreation District Board shall consist of five voting members: two members of the Canal Winchester City Council, two members of the Canal Winchester Local School District Board of Education, and one representative appointed by the Canal Winchester City Council. To obtain financial information for the Recreation District, write to the Fiscal Officer, at P.O. Box 753 Canal Winchester, Ohio, 43110.

B. Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

<u>General fund</u> -The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt service fund</u> - The debt service fund is used to account for the accumulation of resources and payment of general obligation bond and principal and interest from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation or resources and payment of general obligation bonds and notes payable.

<u>Classroom facilities fund</u> - The classroom facilities capital projects fund is used to account for and report financial resources that are restricted to expenditures related to the District's construction project with the Ohio Facilities Construction Commission.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The following is a description of the District's proprietary fund:

<u>Internal Service Fund</u> - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The District's internal service fund accounts for the health, medical, prescription drug and dental self-insurance program.

FIDUCIARY FUNDS

<u>Fiduciary Funds</u> - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Basis of Presentation and Measurement Focus

<u>Government-wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows and all liabilities and deferred inflows associated with the operation of the District are included on the statement of net position.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets/deferred outflows of resources and current liabilities/deferred inflows of resources generally are included on the governmental funds balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund are charges for services. Operating expenses for the internal service fund include claims and purchased services expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Nonexchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from income taxes is recognized in the period in which the income is earned (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, school district income taxes, interest, tuition, grants and student fees.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, See Note 17 for deferred outflows of resources related the District's net pension liability. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2017, but which were levied to finance fiscal year 2018 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

For the District, See Note 17 for deferred inflows of resources related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position. In addition, deferred inflows of resources include a deferred gain on debt refunding. A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue. Unused donated commodities are reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The District is required by State statute to adopt an annual appropriated cash basis budget for all funds (except agency). The specific timetable for fiscal year 2017 is as follows.

- 1. Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
- 2. By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for tax rate determination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer.

The certificate of estimated resources may be further amended during the fiscal year if projected increases or decreases in revenues are identified by the District Treasurer. The amounts reported as the final budgeted amount in the budgetary statement reflect the amounts set forth in the original and final amended certificate of estimated resources issued for fiscal year 2017.

- 4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures for all funds, which is the legal level of budgetary control. (State statute permits a temporary appropriation to be effective until no later than October 1 of each year.) Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed appropriations totals.
- 5. All funds, other than agency funds, are legally required to be budgeted and appropriated. Short-term inter-fund loans are not required to be budgeted since they represent a temporary cash flow resource, and are not intended to be repaid.
- 6. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.
- 7. Formal budgetary integration is employed as a management control device during the fiscal year for all funds consistent with statutory provisions.
- 8. Appropriation amounts are as originally adopted, or as amended by the Board of Education throughout the fiscal year by supplemental appropriations, which either re-allocated or increased the original, appropriated amounts. The final budget figures, which appear in the statements of budgetary comparisons, represent the permanent appropriation amounts plus all supplemental appropriations legally enacted during the year.
- 9. At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be re-appropriated.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" and "investments" on the basic financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2017, the District's investments included commercial paper, negotiable certificates of deposit (CDs), Federal Home Loan Mortgage Corporation securities (FHLMC), Federal Home Loan Bank securities (FHLB), Fannie Mae securities (FNMA), Federal Farm Credit Bank securities (FFCB), U.S. government money markets, and STAR Ohio. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes all investment earnings are assigned to the general fund except for those specifically related to the auxiliary services fund, lunch room and trust fund authorized by Board resolution. Interest revenue credited to the general fund during fiscal year 2017 amounted to \$228,434, which includes \$59,438 assigned from other District funds.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

An analysis of the District's investments at fiscal year end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method.

Inventory consists of supplies, donated food and purchased food.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of \$1,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

	Governmental
	Activities
Description	Estimated Lives
Land improvements	20-100 years
Buildings and improvements	15 - 100 years
Furniture and equipment	5 - 20 years
Vehicles	10 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds." These amounts are eliminated in the governmental type activities columns of the statement of net position.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) benefits. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2017, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible to retire in the future, all employees with at least fifteen years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2017, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

Compensated absences are only reported in the governmental fund financial statements if they have matured. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid, which is primarily the general fund. The noncurrent portion of the liability is not reported.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables and accrued liabilities payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, net pension liability and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and other long-term obligations are recognized as a liability on the fund financial statements when due.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

N. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for trusts and other grants.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

P. Issuance Costs, Bond Premium and Discount and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 14.A.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2017.

S. Parochial Schools

World Harvest Church is within the District boundaries. Current State legislation provides funding to this parochial school. These monies are received and disbursed on behalf of the parochial school by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District is reflected in a nonmajor governmental fund for financial reporting purposes.

T. Fair Market Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2017, the District has implemented GASB Statement No. 77, "Tax Abatement Disclosures", GASB Statement No. 78, "Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans", GASB Statement No. 80, "Blending Requirements for Certain Component Units - An Amendment of GASB Statement No. 14" and GASB Statement No. 82, "Pension Issues - An Amendment of GASB Statements No. 67, No. 68 and No. 73".

GASB Statement No. 77 requires governments that enter into tax abatement agreements to disclose certain information about the agreement. GASB Statement No. 77 also requires disclosures related to tax abatement agreements that have been entered into by other governments that reduce the reporting government's tax revenues. These disclosures were incorporated in the District's fiscal year 2017 financial statements (see Note 8); however, there was no effect on beginning net position/fund balance.

GASB Statement No. 78 establishes accounting and financial reporting standards for defined benefit pensions provided to the employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan (cost-sharing pension plan) that meets the criteria in paragraph 4 of Statement 68 and that (a) is not a state or local governmental pension plan, (b) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (c) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). The implementation of GASB Statement No. 78 did not have an effect on the financial statements of the District.

GASB Statement No. 80 improves the financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement applies to component units that are organized as not-for-profit corporations in which the primary government is the sole corporate member. The implementation of GASB Statement No. 80 did not have an effect on the financial statements of the District.

GASB Statement No. 82 addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The implementation of GASB Statement No. 82 did not have an effect on the financial statements of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

B. Deficit Fund Balances

Fund balances at June 30, 2017 included the following individual fund deficits:

Nonmajor funds	Deficit
Straight A	\$ 36,575
IDEA, Part B	70,759
Limited English Proficiency	9
Title I Disadvantaged Children	124,804

The general fund is liable for deficits in these funds and provide transfers when cash is required, not when accruals occur. The deficit fund balance resulted from adjustments for accrued liabilities. Negative fund cash balances in these funds resulted from a lag between disbursements and grant funding that was requested but not received by fiscal year-end.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described items in (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities resenting the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash with Fiscal Agent

The District is self-insured through a fiscal agent. The money held by the fiscal agent cannot be identified as an investment or deposit, since it is held in a pool made up of numerous participants. The amount held by the fiscal agent at June 30, 2017 was \$70,720.

B. Deposits with Financial Institutions

At June 30, 2017, the carrying amount of all District deposits was \$8,413,968. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2017, \$8,397,358 of the District's bank balance of \$8,647,358 was exposed to custodial risk as discussed below, while \$250,000 was covered by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

C. Investments

As of June 30, 2017, the District had the following investments and maturity:

		Investment Maturity								
	Measurement	6 months or		7 to 12		13 to 18		19 to 24	G	reater than
<u>Investment type</u>	Value	less		months	_	months	_	months	2	24 months
Fair value:										
FHLMC	\$ 1,234,885	\$ -	\$	249,535	\$	-	\$	=	\$	985,350
FHLB	1,588,973	-		-		-		-		1,588,973
FNMA	1,493,280	-		-		-		1,493,280		-
FFCB	1,199,891	-		-		-		-		1,199,891
Negotiable CDs	10,581,147	1,240,223		994,656		1,986,922		2,233,347		4,125,999
Commercial paper	3,854,048	1,995,859		1,858,189		-		-		-
U.S. Government										
money market	4,125,638	4,125,638		-		-		-		-
Amortized cost:										
STAR Ohio	5,260,946	5,260,946		_		-		_		
Total	\$ 29,338,808	\$ 12,622,666	\$	3,102,380	\$	1,986,922	\$	3,726,627	\$	7,900,213

The District's investments in U.S. Government money markets are valued using quoted market prices in active markets (Level 1 inputs). The District's investments in federal agency securities (FHLMC, FHLB, FNMA and FFCB), negotiable CDs and commercial paper are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: Standard & Poor's has assigned STAR Ohio an AAAm money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The investment in FHLMC, FHLB, FNMA and FFCB carries ratings of Aaa by Moodys and AA+ by Standard & Poor's. The U.S. government money market and negotiable CDs were not rated. The negotiable CDs are covered by FDIC. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State Statute.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy does not specifically address custodial credit risk beyond the adherence to all relevant sections of the Ohio Revised Code.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2017:

	Measurement	
Investment type	Value	% to total
Fair value:		
FHLMC	\$ 1,234,885	4.21
FHLB	1,588,973	5.42

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

E. Reconciliation of Cash and Investment to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of June 30, 2017:

<u>Cash and investments per note</u>		
Carrying amount of deposits	\$	8,413,968
Cash with fiscal agent		70,720
Investments		29,338,808
Total	\$	37,823,496
Cash and investments per statement of net position	<u>l</u>	
Governmental activities	\$	37,784,427
Agency fund		39,069
Total	\$	37,823,496

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund balances at June 30, 2017, as reported on the fund financial statements, consist of the following amounts due to/from other funds:

Receivable fund	Payable funds	 Amount
General fund	Nonmajor special revenue funds:	
	Straight A	\$ 65,822
	IDEA, Part B	23,853
	Limited English Proficiency	1,047
	Title I Disadvantaged Children	45,439
	IDEA Preschool Grant for the Handicapped	 6,413
Total due to/due from	other funds	\$ 142,574

The primary purpose of the due to/from other funds is to cover the negative cash balances at fiscal year-end in the nonmajor governmental funds. The interfund balances will be repaid once the anticipated revenues are received. All interfund balances are expected to be repaid within one year. Interfund balances between governmental funds are eliminated on the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 5 - INTERFUND TRANSACTIONS

B. Interfund transfers for the fiscal year 2017 consisted of the following, as reported on the fund statements:

	_	Amount
<u>Transfers from general fund to:</u>		
Debt service fund	\$	371,521
Nonmajor capital projects funds:		
Permanent improvement fund		100,000
Building fund		7,500,000
Total transfers from general fund		7,971,521
<u>Transfers to/from nonmajor funds:</u>		
Transfer from classroom facilities maintenance special revenue fund to:		
Permanent improvement capital projects fund		265,766
Transfer from building capital projects fund to:		
Classroom facilities capital projects fund		4,555,283
Total transfers to/from nonmajor funds		4,821,049
Total transfers	\$	12,792,570

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers between governmental funds are eliminated for reporting in the statement of activities. All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16. Transfers between the nonmajor funds were made in accordance with the District's construction project agreement with the Ohio Facilities Construction Commission (OFCC), which was entered into during fiscal year 2017.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2017 represent the collection of calendar year 2016 taxes. Real property taxes received in calendar year 2017 were levied after April 1, 2016, on the assessed values as of January 1, 2016, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2017 represent the collection of calendar year 2016 taxes. Public utility real and personal property taxes received in calendar year 2017 became a lien on December 31, 2015, were levied after April 1, 2016, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 6 - PROPERTY TAXES - (Continued)

The District receives property taxes from Franklin and Fairfield Counties. The County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the Counties by June 30, 2017, are available to finance fiscal year 2017 operations. The amount available as an advance at June 30, 2017 was \$1,606,268 in the general fund, \$447,615 in the bond retirement fund and \$19,546 in the classroom facilities nonmajor special revenue fund. This amount is recorded as revenue. The amount available for advance at June 30, 2016 was \$4,774,167 in the general fund and \$1,285,091 in the bond retirement fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2017 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2017 taxes were collected are:

		2016 Second Half Collections			2017 First Half Collection		
	_	Amount	Percent	_	Amount	<u>Percent</u>	
Agricultural/residential and other real estate	\$	393,092,720	94.32	\$,,	94.41	
Public utility personal		23,666,310	5.68	_	24,074,510	5.59	
Total	\$	416,759,030	100.00	<u>\$</u>	430,534,350	100.00	
Tax rate per \$1,000 of assessed valuation			\$ 78.91	\$	79.00		

NOTE 7 - PAYMENT IN LIEU OF TAXES

According to State law, Fairfield County has entered into agreements with property owners under which Fairfield County has granted property tax abatements to those property owners and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to Fairfield County to help pay the costs of the infrastructure improvements. The amount of those payments generally reflects all or a portion of the property taxes which the property owners would have paid if their taxes had not been abated. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the costs of the improvement have been paid or the agreement expires, whichever occurs first. Future development by those owners or others may result in subsequent agreements to make payments in lieu of taxes and may therefore spread the costs of the improvements to a larger number of property owners. The District received \$577,646 in payments in lieu of taxes as a result of these agreements and a receivable of \$469,008 has been reported on the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 8 - TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS

Community Reinvestment Areas

The City of Canal Winchester provides real estate tax abatements through Community Reinvestment Areas (CRAs) for any industrial or commercial property project improvements made to parcel(s) following specific return-on-investment formulas and guidelines approved by City Council.

Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA programs are an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

The CRA agreements entered into by the City of Canal Winchester affect the property tax receipts collected and distributed to the District. Under these agreements, the District property taxes were reduced by \$516,521 during fiscal year 2017.

Environmental Protection Agency Program

Franklin County provides real estate tax abatements through the Environmental Protection Agency (EPA) Program.

The air and noise pollution control program was originally established by legislation in 1963. The program allows property tax owners to receive tax exemptions for the installation of air or noise pollution control property and is administered by the Ohio Department of Taxation. As part of the tax exemption application process, the Ohio EPA is required to provide a technical evaluation and review of any property sought for tax exemption status.

The EPA program tax abatements entered into by Franklin County affects the property tax receipts collected and distributed to the District. Under the agreements, the District property taxes were reduced by \$73,032 during fiscal year 2017.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 9 - INCOME TAX

The District levies a voted tax of .75 percent for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the state. Taxpayers are required to file an annual return. The state makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue credited to the general fund and as reported on the statement of activities totaled \$4,358,337 and \$4,386,632, respectively, in fiscal year 2017.

NOTE 10 - RECEIVABLES

Receivables at June 30, 2017 consisted of taxes, payments in lieu of taxes, accounts (billings for user charged services and student fees), intergovernmental grants and entitlements and accrued interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net position follows:

Governmental activities:

Governmentar activities:		
Property taxes	\$	17,392,288
Income taxes		1,898,778
Payment in lieu of taxes		469,008
Accounts		29,158
Accrued interest		57,810
Intergovernmental:		
Bureau of workers compensation refund		52,116
Medicaid school program receivable		146,992
State foundation - FTE adjustments		32,666
Straight A		101,173
IDEA, Part B		108,132
Title I school improvement		224,543
Limited english proficiency		1,047
IDEA preschool - handicapped		6,414
OFCC receivable		18,803,806
Miscellaneous		4,590
Total intergovernmental receivables	\$	19,481,479
-	_	

Receivables have been disaggregated on the face of the financial statements. All receivables, except property taxes and the OFCC intergovernmental receivable, are expected to be collected within one year. Property taxes and payment in lieu of taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year. The OFCC intergovernmental receivable of \$18,803,806 will be collected over the duration of the construction project.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 11 - CAPITAL ASSETS

Capital asset activity for governmental activities for the fiscal year ended June 30, 2017, was as follows:

NOTE 12 - CAPITALIZED LEASES - LESSEE DISCLOSURE

During prior fiscal years, the District entered into capitalized leases for copier equipment. The lease agreements meet the criteria of a capital lease as defined by GASB, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the financial statements for the governmental funds.

Capital lease payments are reflected as debt service expenditures in the financial statements for the governmental funds and as functional expenditures in the budgetary statements. At June 30, 2017, the capital assets acquired by the capital lease obligations outstanding at fiscal year-end have been capitalized in the amount of \$215,212, which represents the present value of the future minimum lease payments at the time of acquisition. Accumulated depreciation as of June 30, 2017 was \$138,960, leaving a current book value of \$76,252.

A corresponding liability is recorded in the statement of net position. Principal and interest payments in fiscal year 2017 totaled \$48,353 and \$4,750, respectively, in the general fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 12 - CAPITALIZED LEASES - LESSEE DISCLOSURE - (Continued)

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the minimum lease payments as of June 30, 2017:

Fiscal Year Ending June 30,		Copiers
2018	\$	36,915
Total minimum lease payments		36,915
Less: amount representing interest		(1,403)
Total	\$	35,512

NOTE 13 - LEASE-PURCHASE AGREEMENT - LESSEE DISCLOSURE

During fiscal year 2007, the District entered into a lease-purchase agreement with All Points Public Funding, LLC. The lease meets the criteria of a lease-purchase as defined by GASB, which defines a lease-purchase generally as one which transfers benefits and risks of ownership to the lessee. This lease was used to construct school district facilities, improvements to facilities, and equip the facilities with furniture and equipment. At June 30, 2017, capital assets acquired by lease purchase have been capitalized under buildings and improvements in the amount of \$1,073,171. Accumulated depreciation as of June 30, 2017 was \$107,908, leaving a current book value of \$965,263. Lease-purchase payments have been reflected as debt service expenditures in the general fund. Principal and interest payments in fiscal year 2017 totaled \$59,322 and \$39,298, respectively, in the general fund.

The following is a schedule of the future long-term minimum lease payments required under the lease-purchase agreement and the present value of the minimum lease payments as of June 30, 2017.

Fiscal Year Ending June 30,	_	Total
2018	\$	98,620

B. General Obligation Bonds

The District has eight outstanding general obligation bond issues at June 30, 2017. These bonds were issued for general governmental activities, specifically; construction, and/or renovation of school buildings, and the advance refunding of previous issues. These general obligation bonds are direct obligations of the district for which its full faith, credit, and resources are pledged and payable from taxes levied on all taxable property in the school district. Accordingly, such unmatured obligations of the District are accounted for in the statement of net position. Payments of principal and interest relating to these bonds are recorded as expenditures in the District's debt service fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 14 - LONG-TERM OBLIGATIONS - (Continued)

Series 2000 General Obligation Bonds

On May 9, 2000, the District issued current interest general obligation bonds to finance the construction of a new intermediate building, an addition to the high school and renovations to the current intermediate building. The issue is made up of current interest bonds, bears an interest rate of 6.375 percent and matures on June 1, 2028. The bonds have an outstanding balance of \$820,000 at June 30, 2017.

Series 2001 General Obligation Bonds

On November 11, 2001, the District issued general obligation bonds to provide funds for the construction of a new intermediate building, an addition to the high school and renovations to the current intermediate building. On May 19, 2005, the District issued \$5,710,000 (Series 2005B Refunding Bonds) to advance refund a portion of the callable portion of the current interest bonds. On March 27, 2007, the District advance refunded an additional \$7,310,000 (Series 2007 Refunding Bonds) of the callable portion of the bonds. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The balance of the refunded bonds at June 30, 2017, is \$7,310,000.

During fiscal year 2017, the non-refunded portion of this issue, comprised of capital appreciation bonds, par value \$93,690 was retired. The capital appreciation bonds matured on December 1, 2016 (stated interest 11.185 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date.

Series 2005-A Refunding General Obligation Bonds

On April 14, 2005, the District issued general obligation bonds to advance refund \$1,610,000 of the current interest Series 1993 Refunding Bonds and \$3,055,000 of the current interest Series 1998-B General Obligation Bonds. The refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

On May 1, 2013, the District advance refunded (Series 2013 Refunding Bonds) \$1,000,000 of the Series 2005-A current interest serial bonds that were due December 1, 2016. The balance of the refunded debt is \$0 at June 30, 2017. This refunded debt was considered defeased (in-substance) and accordingly, was removed from the statement of net position.

At June 30, 2016, the non-refunded portion of the debt issue is comprised of capital appreciation bonds, par value \$245,000. The capital appreciation bonds mature December 1, 2019 (stated interest 8.214 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$665,000. Total accreted interest of \$398,343 has been included in the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$297,874. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 14 - LONG-TERM OBLIGATIONS - (Continued)

Series 2005-B School Facilities Construction and Advance Refunding Bonds

On May 1, 2005, the District issued general obligation bonds to advance refund the callable portion of the current interest Series 2001 General Obligation Bonds (principal \$5,710,000; interest rate 5.010 percent) and to finance the construction and equipping of new school facilities, constructing additions and renovations of existing school facilities, and acquiring land with the \$32,500,000 new money issue. The issuance proceeds of \$5,710,000 was used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

On March 27, 2007, the District advance refunded \$28,675,000 (Series 2007 Refunding Bonds) of the callable portion of the bonds. The balance of the refunded bonds at June 30, 2016 is \$28,635,000. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

On May 1, 2013, the District advance refunded (Series 2013 Refunding Bonds) \$4,495,000 of the Series 2005-B current interest serial bonds maturing on December 1, 2016 through December 1, 2020. The balance of the refunded bonds at June 30, 2017, is \$4,410,000. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

At June 30, 2017, the non-refunded portion of the debt issue is comprised of capital appreciation bonds, par value \$3,600,000. The capital appreciation bonds mature December 1, 2021 (stated interest 11.049 percent), December 1, 2029 (stated interest 6.942 percent), December 1, 2030 (stated interest 6.946 percent), December 1, 2031 (stated interest 6.939 percent), December 1, 2032 (stated interest 6.950 percent), December 1, 2033 (stated interest 6.915 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$21,250,000. Total accreted interest of \$4,866,844 has been included in the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$604,734. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2007 Advance Refunding Bonds

On March 27, 2007, the District issued general obligation bonds to advance refund the callable portion of the current interest Series 1998-B General Obligation Bonds (principal \$7,150,000), Series 2001 General Obligation Bonds (principal \$7,310,000), and Series 2005-B School Facilities Construction and Advance Refunding (\$28,675,000). The issuance proceeds of \$43,099,983 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

On March 1, 2016, the District advance refunded (Series 2016 Taxable Refunding Bonds) \$35,540,000 of the 2007 current interest serial and term bonds that were due December 1, 2017 through December 1, 2027. This refunded debt was considered defeased (in-substance) and accordingly, was been removed from the statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 14 - LONG-TERM OBLIGATIONS - (Continued)

At June 30, 2017, the non-refunding portion of the debt issue is comprised of both current interest bonds, par value \$4,345,000, and a capital appreciation bond, par value \$4,983. The interest rate on the current interest bonds ranges from 5.00-5.25 percent. The capital appreciation bond matures December 1, 2022 (approximate initial offering yield at maturity of 4.30 percent), at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bond is \$3,300,000. Total accreted interest of \$333,107 has been included in the statement of net position.

The reacquisition price of the original Series 2007 issue exceeded the net carrying amount of the old debt by \$1,445,025. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2011 School Facilities Construction and Improvement General Obligation Bonds

On November 9, 2011, the District issued \$2,670,000 in general obligation bonds to finance the School Facilities Construction and Improvement Notes that matured on November 17, 2011, on a long-term basis. At June 30, 2017, the debt issue is comprised of current interest serial bonds (par value \$235,000), current interest term bonds (par value \$2,020,000) and capital appreciation bonds (par value \$50,000). The interest rate on the current interest serial bonds is 2.00 percent and the interest rate on the current interest term bonds ranges from 3.50-4.20 percent. The capital appreciation bonds mature December 1, 2017 (approximate initial offering yield at maturity of 3.00 percent) and December 1, 2018 (approximate initial offering yield at maturity of 3.30 percent), at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$160,000. Total accreted interest of \$85,175 has been included in the statement of net position.

Interest payments on the bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue for the current interest serial bonds, current interest term bonds, and capital appreciation bonds is December 1, 2021, December 1, 2038, and December 2018, respectively.

The current interest term bonds are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

Current interest term bonds (\$355,000) maturing on December 1, 2024:

	Princi	pal Amount
Fiscal Year	to be	Redeemed
2022	\$	85,000
2023		85,000
2024		90,000
2025		95,000

Series 2013 Advance Refunding Bonds

On May 1, 2013, the District issued general obligation bonds to advance refund the callable portion of the current interest Series 2005-A General Obligation Refunding Bonds (principal \$1,000,000 and Series 2005-B School Facilities Construction and Advance Refunding Bonds (principal \$4,495,000). The issuance proceeds of \$5,494,997 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 14 - LONG-TERM OBLIGATIONS - (Continued)

At June 30, 2017, the debt issue is comprised of both current interest bonds, par value \$3,955,000, and capital appreciation bonds, par value \$75,697. The interest rate on the current interest bonds ranges from 0.35-2.10 percent. The capital appreciation bonds mature December 1, 2017 (stated interest 1.35 percent), and December 1, 2020 (stated interest 2.65 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date.

The reacquisition price exceeded the net carrying amount of the old debt by \$92,259. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Series 2016 Taxable Advance Refunding Bonds

On March 1, 2016, the District issued general obligation bonds to advance refund the callable portion of the current interest Series 2007 Advance Refunding Bonds (principal \$35,540,000). The issuance proceeds of \$35,540,000 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

At June 30, 2017, the debt issue is comprised of both current interest serial bonds, par value \$31,960,000, and capital appreciation bonds, par value \$2,580,000. The interest rate on the current interest bonds ranges from 0.888-3.23 percent. The capital appreciation bonds mature December 1, 2018 (stated interest 1.891 percent), and December 1, 2019 (stated interest 2.126 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date.

The reacquisition price exceeded the net carrying amount of the old debt by \$1,237,833. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued. The net present value savings of the refunding was \$2,245,344.

The following is a summary of the future debt service requirements to maturity for the general obligation bonds.

_	Current Interest Serial/Term Bonds				Capita	ıl A	ppreciation E	onc	ls

C. Energy Conservation Notes

The following is a summary of the District's energy conservation notes outstanding at June 30, 2017:

		Balance 06/30/16	A	dditions	R	eductions		Balance 06/30/17
Energy Conservation Notes:				_				<u> </u>
Current interest serial notes	\$	730,000	\$	-	\$	(140,000)	\$	590,000
Current interest term notes		850,000		-		=		850,000
Capital appreciation notes		80,000		-		=		80,000
Accreted interest	_	41,894		11,790		<u>-</u>	_	53,684
Total	\$	1,701,894	\$	11,790	\$	(140,000)	\$	1,573,684

On November 9, 2011, the District issued \$2,180,000 in energy conservation notes for the purpose of purchasing and installing energy conservation measures. The debt issue is comprised of current interest serial notes (par value \$1,250,000), current interest term notes (par value \$850,000) and capital appreciation notes (par value \$80,000). The interest rate on the current interest serial notes is 2.00 percent and the interest rate on the current interest term notes ranges from 3.50-3.35 percent. The capital appreciation notes mature December 1, 2018 (approximate initial offering yield at maturity of 3.00 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation notes is \$140,000. Total accreted interest of \$53,684 has been included in the statement of net position.

Interest payments on the notes are due on June 1 and December 1 of each year. The final maturity stated in the issue for the current interest serial notes, current interest term notes, and capital appreciation notes is December 1, 2021, December 1, 2026, and December 2018, respectively.

The current interest term notes are subject to mandatory sinking fund redemption at a redemption price of 100 percent of the principal amount to be redeemed, plus accrued interest to the date of redemption, on December 1 in the years and in the respective principal amounts as follows:

Current interest term notes (\$325,000) maturing on December 1, 2023:

	Princ	ıpal Amount
Fiscal Year	to be	Redeemed
2023	\$	160,000
2024		165,000

Current interest term bonds (\$525,000) maturing on December 1, 2026:

2023 - 2025		265,000		9,660		274,660			
Total	\$	675,000	\$	66,420	\$	741,420			

E. Other Long-Term Obligations

Compensated Absences

Compensated absences will be paid from the fund from which the person is paid, which, for governmental activities, is primarily the general fund and the food service fund (nonmajor special revenue fund.

Net Pension Liability

The District pays obligations related to employee compensation from the fund benefitting their service, which is primarily the general fund. See Note 17 to the notes to the basic financial statements for details.

Capital Lease Obligations

Refer to Note 12 to the notes to the basic financial statements for detail on the capital lease obligations.

Lease Purchase Agreement

Refer to Note 13 to the notes to the basic financial statements for detail on the lease purchase agreement.

F. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9 percent of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1 percent of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1 percent of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 14 - LONG-TERM OBLIGATIONS - (Continued)

The Ohio Revised Code further provides that when a board of education declares a resolution that the student population is not adequately served by existing facilities, and that insufficient capacity exists within the 9 percent limit to finance additional facilities, the State Department of Education may declare that district a "special needs" district. This permits the incurrence of additional debt based upon projected 5-year growth of the school district's assessed valuation. The Canal Winchester Local School District was determined to be a "special needs" district by the State Superintendent on October 14, 2004.

NOTE 15 - COMPENSATED ABSENCES

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Only administrative and support personnel who are under a full year contract (11 and 12 months) are eligible for vacation time. The administrators accumulate vacation based upon the following schedule:

Eleven Month	Administrators	Twelve Month	Administrators
Years Service	Vacation Days	Years Service	Vacation Days
0 - 15	15	0 - 15	20
16 - beyond	20	16 - beyond	25

Up to a total of thirty-five days may be carried over per year without Board approval. Additional days carried over require Board approval.

Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Up to a total of twenty days may be carried over per year without Board approval. Additional days carried over require Board approval.

The classified personnel accumulate vacation based on the following schedule:

Eleven Mont	th Classified_	Twelve Month Classified					
	Vacation Days		Vacation Days				
Years Service	Per Month	Years Service	Per Month				
0 - 15	.834	0 - 15	1				
6 - 10	1	6 - 10	1.167				
11 - 15	1.25	11 - 15	1.417				
16 - 20	1.667	16 - 20	1.834				

Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis. Maximum sick leave accumulation for all employees is 250 days.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 15 - COMPENSATED ABSENCES - (Continued)

For all employees, retirement severance is paid to each employee retiring from the District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the District for a minimum of ten consecutive years at the time of retirement. Any employee receiving retirement severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to forty-five days. Compensated absences are primarily paid from the general fund.

For certified and classified employees, separation severance is paid to each employee upon resignation from the District at a per diem rate of the annual salary at the time of resignation if the employee has been employed by the District for a minimum of fifteen consecutive years at the time of resignation.

NOTE 16 - RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to the employees and natural disasters. During fiscal year 2016, the District has contracted with commercial carriers for property and general liability insurance.

The District maintains replacement cost insurance on buildings and contents of \$110,501,124. General liability insurance is maintained in the amount of \$6,000,000 for each occurrence and \$6,000,000 in the aggregate. The District maintains fleet insurance in the amount of \$6,000,000 for any one accident or loss and \$6,000,000 in the aggregate.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has not been a significant reduction in insurance coverage from the prior fiscal year.

B. Workers' Compensation

For the period July 1, 2013 through December 31, 2013, the District participated in the SchoolComp Group Retrospective Rating Program (Group Retro). The intent of the Group Retro is to reward participants that are able to keep their individual claim costs below a predetermined amount. The District continues to pay their individual premium; however, the District will have the opportunity to receive retrospective premium adjustments (refunds or assessments) at the end of the three evaluation periods. The group's retrospective premium will be calculated at 12, 24, and 36 months after the end of the policy year. At the end of each period, the Bureau of Workers Comp (BWC) will take a snapshot of the incurred claims losses for the entire group and calculate the group's retrospective premium. If the retrospective premium that is calculated is less than the group's total standard premium, all the participants will receive a refund. However, if the retrospective premium is greater than the group's total standard premium, an assessment will be levied by the BWC. CompManagement, Inc. provides administrative, cost control and actuarial services to the Group Retro program.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 16 - RISK MANAGEMENT - (Continued)

For calendar years 2014 through 2016, the District is participating in a Workers' Compensation Group Rating Plan (GRP). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. Participation in the GRP is limited to districts that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

C. Health Insurance

The District was a member of the South Central Ohio Insurance Consortium (SCOIC), an insurance purchasing pool through June 30, 2017. SCOIC is a risk sharing, claims servicing, and insurance purchasing pool for medical, dental, and prescription drug coverage on a self-insured basis. SCOIC currently contracts with Employees Benefits Management Corporation (EBMC) to service the claims of SCOIC members. The SCOIC members are considered self-insured and pay a monthly premium that is actuarially calculated based on the participants' actual claims experience which are utilized for the payment of claims within the claims servicing pool up to the self-insurance deductible limit; and for this portion of the plan, all plan participants retain their own risk. An additional fee is paid for participation in the internal pool that is based on claims of the internal pool in aggregate and is not based on individual claims experience. In the event of a deficiency in the internal pool, participants would be charged a higher rate for participations, and in the event of a surplus, the internal pool pays a dividend to the participants.

SCOIC members participated in the shared risk pool through the Jefferson Health Plan from \$100,000 to \$500,000. SCOIC members were covered under stop loss coverage for claims over \$500,000. In the event that the District would withdraw from SCOIC, the District was required to give 180-day notice prior to the end of their three year contract, was responsible for all run-out claims, and had no rights to share any surplus funds of SCOIC. SCOIC was with Jefferson Health Plan for stop-loss insurance through June 30, 2019.

A summary of changes in self-insurance claims for the fiscal years ended June 30, 2017 and June 30, 2016:

	<u>2017</u>	<u>2016</u>		
Claim Liabilities at Beginning of Fiscal Year	\$ 725,200	\$ 385,004		
Incurred Claims	5,509,162	4,890,942		
Claims Paid	 (5,869,650)	(4,550,746)		
Claim Liabilities at End of Fiscal Year	\$ 364,712	\$ 725,200		

Vision benefits are provided through Vision Service Plan for \$11.75 per employee per month.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual basis of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire after August 1, 2017				
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit				
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit				

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2017, the entire 14 percent was allocated to pension, death benefits, and Medicare B and no portion of the employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$775,208 for fiscal year 2017. Of this amount, \$66,216 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2017, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2017 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$2,462,536 for fiscal year 2017. Of this amount, \$397,292 is reported as pension and postemployment benefits payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

_	SERS	STRS	Total
Proportion of the net pension			_
liability prior measurement date	0.15041770%	0.15190290%	
Proportion of the net pension			
liability current measurement date	0.15775280%	0.15812373%	
Change in proportionate share	0.00733510%	0.00622083%	
Proportionate share of the net			
pension liability	11,546,049	\$ 52,928,779	\$ 64,474,828
Pension expense	1,364,330	\$ 4,394,090	\$ 5,758,420

At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS		STRS	 Total	
Deferred outflows of resources				 	
Differences between expected and					
actual experience	\$	155,729	\$ 2,138,577	\$ 2,294,306	
Net difference between projected and					
actual earnings on pension plan investments		952,381	4,394,509	5,346,890	
Changes of assumptions		770,762	-	770,762	
Difference between District contributions					
and proportionate share of contributions/					
change in proportionate share		386,284	1,746,466	2,132,750	
District contributions subsequent to the					
measurement date		775,208	2,462,536	3,237,744	
Total deferred outflows of resources	\$	3,040,364	\$ 10,742,088	\$ 13,782,452	

\$3,237,744 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

		SERS	STRS		Total		
Fiscal Year Ending June 30:

2021	_	273,772	2,098,203			2,371,975	
Total	\$	2,265,156	\$	8,279,552	\$	10,544,708	

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2016, are presented below:

Wage Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

COLA or Ad Hoc COLA 3 percent

Investment Rate of Return 7.50 percent net of investments expense, including inflation

Actuarial Cost Method Entry Age Normal (level percent of payroll)

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120% of male rates and 110% of female rates used. The RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years is used for the period after disability retirement. Special mortality tables are used for the period after disability retirement.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an experience study that was completed June 30, 2015. As a result of the actuarial experience study, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates and (g) mortality among disable member was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return					
Cash	1.00 %	0.50 %					
US Equity	22.50	4.75					
International Equity	22.50	7.00					
Fixed Income	19.00	1.50					
Private Equity	10.00	8.00					
Real Assets	15.00	5.00					
Multi-Asset Strategies	10.00	3.00					
Total	100.00 %						

Discount Rate - The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease	Discount Rate	1% Increase
	(6.50%)	(7.50%)	(8.50%)
District's proportionate share			
of the net pension liability	\$ 15,286,250	\$ 11,546,049	\$ 8,415,346

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return *
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	7.61 %

^{* 10-}Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.50% and does not include investment expenses. The total fund long-term expected return reflects diversification among the asset classes and therefore is not a weighted average return of the individual asset classes.

Discount Rate - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2016.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current						
	1% Decrease	Discount Rate	1% Increase				
	(6.75%)	(7.75%)	(8.75%)				
District's proportionate share							
of the net pension liability	\$ 70,338,046	\$ 52,928,779	\$ 38,243,036				

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 17 - DEFINED BENEFIT PENSION PLANS - (Continued)

Changes Between Measurement Date and Report Date - In March 2017, the STRS Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of June 30, 2017. The most significant change is a reduction in the discount rate from 7.75 percent to 7.45 percent. In April 2017, the STRS Board voted to suspend cost of living adjustments granted on or after July 1, 2017. Although the exact amount of these changes is not known, the overall decrease to District's NPL is expected to be significant.

NOTE 18 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2017, none of the employer contribution was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2017, this amount was \$23,500. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2017, the District's surcharge obligation was \$92,866.

The District's contributions for health care for the fiscal years ended June 30, 2017, 2016, and 2015 were \$92,866, \$79,050, and \$109,756, respectively. The fiscal year 2017 amount has been reported as pension and postemployment benefits payable. The full amount has been contributed for fiscal years 2016 and 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 18 - POSTEMPLOYMENT BENEFITS - (Continued)

B. State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2017, STRS Ohio did not allocate any employer contributions to the Health Care Stabilization Fund. The District's did not make any contributions for health care for the fiscal years ended June 30, 2017, 2016 and 2015.

NOTE 19 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 19 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

Net Change in Fund Balance

	General fund
Budget basis	\$ (338,155)
Net adjustment for revenue accruals	(3,151,968)
Net adjustment for expenditure accruals	(197,797)
Net adjustment for other sources/uses	(134,187)
Funds budgeted elsewhere *	207,348
Adjustment for encumbrances	771,221
GAAP basis	\$ (2,843,538)

^{*}Certain funds that are legally budgeted in separate special revenue and agency funds are considered part of the general fund on a GAAP basis. This includes the public school support fund and district agency retirement fund.

NOTE 20 - CONTINGENCIES

A. Grants

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data; however, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2017, if applicable, cannot be determined at this time.

B. Litigation

The District is involved in no pending litigation that would have a material effect on the financial condition of the District.

C. Foundation Funding

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2017 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2017 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 21 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future fiscal years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	_ <u>Im</u> j	Capital Improvements		
Set-aside balance June 30, 2016	\$	-		
Current fiscal year set-aside requirement		638,096		
Current fiscal year qualifying expenditures		(1,284,776)		
Current fiscal year offsets		(228,288)		
Total	\$	(874,968)		
Balance carried forward to fiscal year 2018	\$			
Set-aside balance June 30, 2017	\$	<u>-</u>		

NOTE 22 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at fiscal year-end may be reported as part of restricted, committed, or assigned classifications of fund balance. At fiscal year-end, the District's commitments for encumbrances in the governmental funds were as follows:

	Fisca	cal Year-End			
<u>Fund</u>	Enc	umbrances			
General fund	\$	517,369			
Other governmental		15,204			
Total	\$	532,573

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2017

SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) OF OHIO

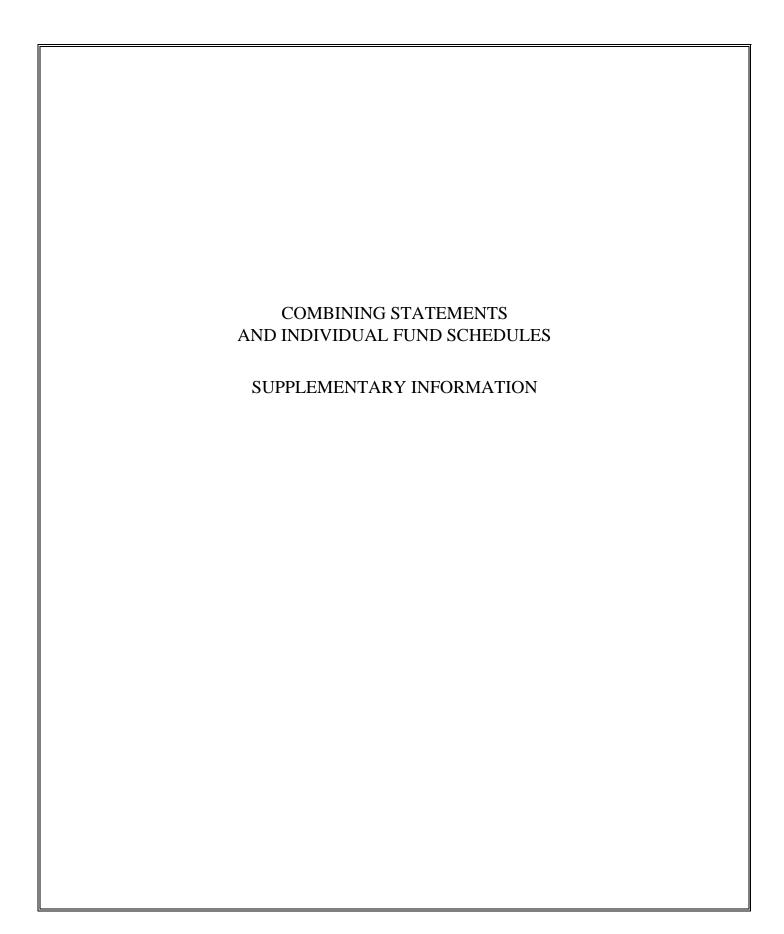

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014 - 2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2016. For fiscal year 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates and (g) mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

STATE TEACHERS RETIREMENT SYSTEM (STRS) OF OHIO

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2014 - 2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014 - 2017. See the notes to the basic financial statements for the methods and assumptions in this calculation.

FUND DESCRIPTIONS - MAJOR FUNDS

General Fund

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio. The general funds's activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transporation and administration.

Since there is only one general fund and the legal level of budgetary control is not greater than that presented in the basic financial statements, no additional financial statements are presented here.

Debt Service Fund

A fund used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation bonds and notes payable, as required by Ohio Law.

Classroom Facilities Fund

A fund used to account for and report financial resources that are restricted to expenditures related to the District's construction project with the Ohio Facilities Construction Commission.

Fund balance at end of fiscal year	\$	\$ -	\$ 4,558,053	\$ 4,558,053

FUND DESCRIPTIONS - NONMAJOR GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. The nonmajor special revenue funds are:

Food Service Fund

This fund is used to record financial transactions related to food service operations.

Special Trust Fund

This fund is used to account for trust agreements in which principal and income are used to support District programs.

Endowment Fund

This fund is used to account for endowments in which principal and income are used to support District programs.

Other Grants Fund

A fund provided to accounts for the proceeds of specific revenues sources, except for State and federal grants that are legally restricted to expenditures for specified purposes.

Classroom Facilities Maintenance Fund

A fund provided to account for proceeds for State Building Assistance repayment.

District Managed Student Activities Fund

A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes the athletic programs and the drama program.

Auxiliary Services Fund

A fund provided to account for monies which provided services and materials to pupils attending non-public schools within the District.

Data Communication Fund

A fund provided to account for money for Ohio Educational Computer Network Connections.

Straight A Fund

This fund accounts for grant monies received through the Straight A Programs which are restricted for projects that will provide for advancement in student achievement, achieve spending reductions in the five-year forecast or allow a greater share of resources to be utilized in the classroom.

IDEA, Part B Fund

A fund which accounts for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

Title I School Improvement Fund

A fund provided to account for monies used to help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

FUND DESCRIPTIONS - NONMAJOR GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds (Continued)

Limited English Proficiency Fund

This fund is used to account for Federal funds to provide educational services and to meet special education needs of non-English speaking children.

Title I Disadvantaged Children Fund

To account for funds which are to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

IDEA Preschool - Handicapped Fund

A fund which accounts for Federal funds used to support the Preschool Grant Program, Section 619 of Public Law 99 -457, that addresses the improvement and expansion of services for handicapped children ages three through five years.

Improving Teacher Quality Fund

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

The following fund is included in the general fund (GAAP basis), but has a separate legally adopted budget (budget basis). This fund is not included in the combining statements for the nonmajor special revenue funds since it is reported in the general fund (GAAP basis); however, the budgetary schedule for this fund is presented in this section.

Public School Support Fund

A fund provided to account for special local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are assigned to expenditures for specified purposes. Such expenditures may include curricular and extra-curricular related purchases.

Nonmajor Capital Projects Funds

Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The nonmajor capital projects funds are:

Permanent Improvement Fund

To account for the acquisition, construction, or improvement of capital facilities.

Building Fund

To account for the acquisition and construction of capital facilities including real property.

FUND DESCRIPTION - INTERNAL SERVICE FUND

Internal Service Fund

The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis.

Employee Benefits Self-Insurance Fund

The District's internal service fund accounts for the health, medical, prescription drug, and dental self-insurance program.

FUND DESCRIPTION - FIDUCIARY FUND

Fiduciary Fund

The agency fund is used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Agency Fund

Student Activity Fund

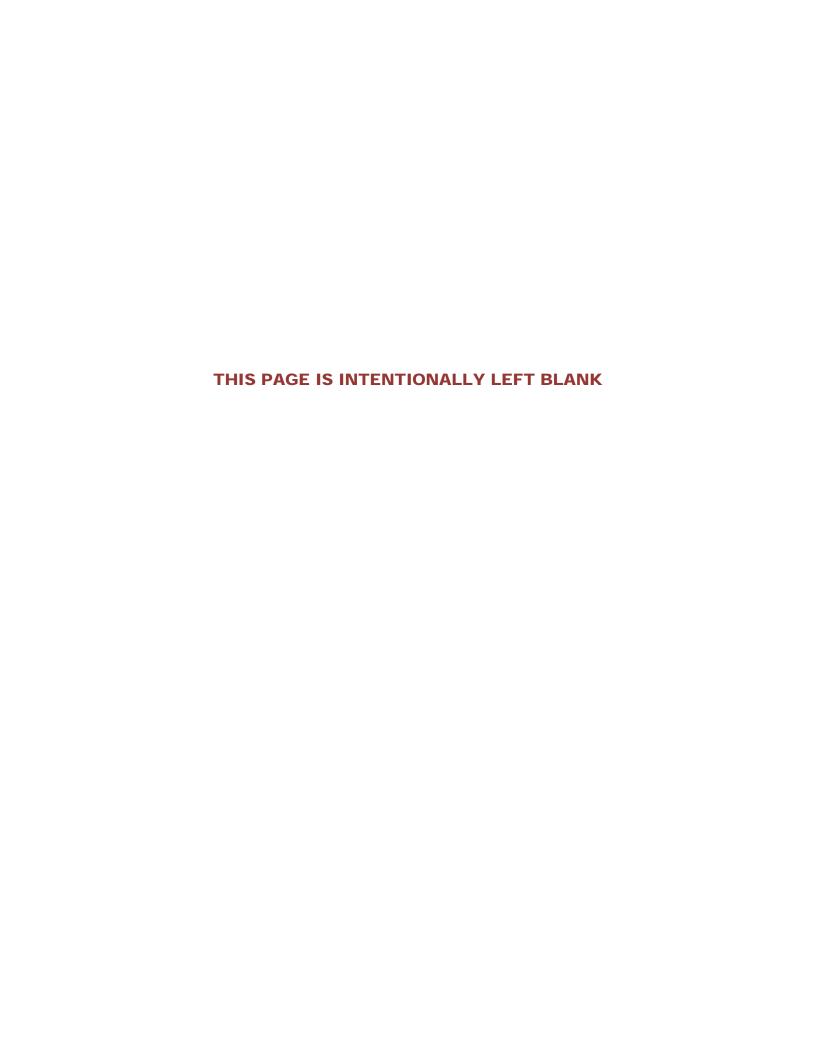

An agency fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer and faculty advisor.

Source: Franklin County Auditor's Office.

- (A) The assessed value of real property is fixed at 35% of true value and is determined pursuant to the State Tax Commissioner.
- (B) The rate at which tangible personal property used in business is assessed for purposes ad valorem property taxation decreased one percent each year from 35% in 1983 until it reached 25% in 1993. Tangible personal property tax collections were phased out entirely effective for collection year 2012.
- (C) Assumes public utilities are assessed at 25% for 2010 and after and 35% for 2009 and prior.

Source: Franklin County Auditor's Office and School District financial records.

Note: Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt. House Bill 530 became effective on March 30, 2006, which excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

(A) On March 28, 1996, the District was determined to be a "special needs" district, meaning the was permitted to exceed the voted debt limitation. This status was confirmed on October 14, 2004.

Voted Debt Margins are determined without reference to applicable monies in the District's debt service fund.
