Dave Yost • Auditor of State

County Commissioners
Pickaway County
207 South Court Street
Circleville, Ohio 43113

We have reviewed the *Independent Auditor's Report* of the Pickaway County, prepared by Millhuff-Stang, CPA, Inc., for the audit period January 1, 2017 through December 31, 2017. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Pickaway County is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Pickaway County, Ohio (the County), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Pickaway County, Ohio, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, Auto, License and Gas Tax Fund, Job and Family Services Fund, and Board of Developmental Disabilities Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 16, the schedules of the County's proportionate share of net pension liability on pages 85 and 86, and the schedules of County contributions on pages 87 through 90 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of federal awards expenditures, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of federal awards expenditures is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of federal awards expenditures is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

The discussion and analysis of Pickaway County's financial performance provides an overall review of the County's financial activities for the fiscal year ended December 31, 2017. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the financial statements and notes to those respective statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

- The assets and deferred outflows of the County exceeded its liabilities and deferred inflows at December 31, 2017, by \$74,383,808.
- The net position of governmental activities increased \$4,680,617 which represents a 6.94 percent increase from 2016, while the net position of business-type activities increased \$39,974, which represents a 1.83 percent increase.
- For 2017, all revenues of the County totaled \$46,578,197. General revenues accounted for \$23,103,404 in revenue or 49.60 percent of all revenues. Program revenues in the form of charges for services and grants and contributions accounted for \$23,474,793 or 50.40 percent of all revenues.
- The County had \$41,857,606 in total expenses: only \$23,474,793 of these expenses were offset by program specific charges for services, grants and contributions. General revenues were \$23,103,404 of which \$18,431,315 was taxes and payment in lieu of taxes with the remaining \$4,672,089 interest, grants, entitlements not restricted and miscellaneous revenues.
- As of December 31, 2017, the County's governmental funds reported combined ending fund balances of \$37,328,799 an increase of \$3,521,927 or 10.42 percent in comparison with the prior year.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Pickaway County as a financial whole or as an entire operating entity. The statements then proceed to provide a detailed look at specific financial conditions.

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: The government-wide financial statements, fund financial statements, and notes to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to private-sector businesses. The statement of net position and the statement of activities provide information about activities of the County as a whole, presenting both an aggregate view of the County's finances and a longer-term view of those assets.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

The statement of net position presents information on all of the County's assets, deferred outflows, liabilities and deferred inflows, with the difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the County's tax base, current property tax laws in Ohio restricting revenue growth, and the condition of the County's capital assets (roads, bridges, sewer lines, etc.). These factors need to be considered when assessing the overall health of the County.

The statement of activities presents information showing how the County's net position changed during the recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

In both of the government-wide financial statements, the County is divided into two distinct kinds of activities: governmental activities and business-type activities.

Governmental Activities - Most of the County's programs and services are reported here including human services, health, public safety, public works, economic development and assistance, conservation and recreation and general government (legislative and executive and judicial). These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Business-Type Activities - These services are provided on a charge for goods or services basis to recover all or most of the cost of the services provided. The countywide water and sewer operation and the Sheriff web check activity are reported here.

Component Units - The County's financial statements include financial data for the Pickaway County Airport Authority. This component unit is described in the notes to the basic financial statements. The component unit is separate and may buy, sell, lease and mortgage property in its own name and can sue and be sued in its own name.

Fund Financial Statements

Fund financial reports provide detailed information about the County's major funds. The County uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the County's most significant funds. The County's major governmental funds are the General, Auto, License and Gas Tax, Job and Family Services, and Board of Developmental Disabilities.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into one of three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation.

Proprietary Funds - The County maintains three proprietary funds. It uses enterprise funds to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Countywide Sewer, Countywide Water and Instant Web Check Funds.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are private-purpose trust and agency.

Notes to the Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

The County adopted GASB Statement No. 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No. 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of these financial statements will gain a clearer understanding of the County's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the County's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service,
2. Minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is included within the long-term liability section of the statement of net position.

In accordance with GASB 68, the County's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the County is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

Governmental current assets increased for the year ended 2017 when compared with 2016. The majority of the increase is due to increases in the cash and cash equivalents held by the County and sales tax receivables.

The increase in governmental capital assets is due primarily to infrastructure and other capital asset additions exceeding current year depreciation.

The decrease in current liabilities for governmental activities is due mostly to decreases in accounts payable and contracts payable in 2017, while long-term liabilities increased due to an increase in pension liability under the GASB 68 method of accounting for pensions.

The County's net position is reflected in three categories: Net investment in capital assets, restricted and unrestricted.

For governmental activities, the County's largest portion of net position relates to net investment in capital assets. This accounts for 64.76 percent of net position. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to pay these liabilities.

The County's smallest portion of net position is unrestricted which has a deficit balance of \$1,644,123.

The remaining balance of \$27,072,850 or 37.52 percent is restricted assets. The restricted net position is subject to external restrictions on how they may be used.

Business-type current assets decreased due primarily to a decrease in cash and cash equivalents. Capital assets decreased due to the annual depreciation. Current liabilities for business-type activities increased primarily as a result of an increase in accrued wages and benefits payable.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

Governmental Activities

The most significant program expenses for the County are Public Safety, Human Services, Legislative and Executive, Health, and Public Works. These programs account for 90.80 percent of the total governmental activities. Public Safety, which represents 23.04 percent of the total, represents costs mainly associated with the operation of the Sheriff's Department and County Jail. Human Services, which accounts for 19.98 percent of the total, represents costs associated with providing services for Workforce Investment Act, child support and enforcement assistance programs, and welfare programs for families and individuals. These expenses reflect programs administered by Job and Family Services, Child Support Enforcement Agency and Children Services. Legislative and Executive expenses, which is 14.70 percent of the total, represents costs associated with the general administration of county government including the County Commissioners, Auditor, Treasurer, Prosecutor and Recorder. Health, which accounts for 14.13 percent of the total, primarily represents costs associated with the services provided by the Board of Developmental Disabilities. Public Works, which accounts for 18.95 percent of the total, represents costs associated with the operation of the County Engineer in maintaining the County's roads and bridges. Funding for the most significant programs indicated above is from charges for services, operating grants, and in some instances property and sales taxes. The Job and Family Services, Child Support Enforcement Agency, Children Services and Clerk of Courts are basically funded with federal and state monies. The operation of the Sheriff's Department and County Jail is funded through General Fund general revenues and per diem charges to house prisoners from other jurisdictions. The Board of Developmental Disabilities is partially funded by a voted property tax levy. The most significant funding sources for the County Engineer are motor vehicle license fees and gasoline taxes.

As noted previously, the net position for the governmental activities increased \$4,680,617 or 6.94 percent. This change is different from last year when net position increased \$8,156,494 or 13.75 percent. Total revenues increased \$1,328,675 or 2.97 percent from last year and expenses increased \$4,804,552 or 13.14 percent from last year.

Factors in the change in revenues is a significant increase in grants and entitlements, which increased \$1,146,072 or 65.56 percent, charges for services which increased \$1,535,710 or 26.15%, and sales taxes which increased \$1,750,621 or 20.09% and a significant decrease in capital grants and contributions, which decreased \$1,916,958 or 48.86 percent, and operating grants and contributions which decreased \$1,155,262 or 7.86%.

Expenses increased 13.14 percent during 2017. Several factors led to this decrease. Public Works expenditures increased \$1,005,057 or 14.70 percent, which is due to Issue I funding from Ohio Public Works for road construction projects that was expanded during 2016 but not in 2017.

Table 3, for governmental activities, indicates the total cost of services and the net cost of services. The statement of activities reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted intergovernmental revenues.

Community and Economic Development	496,500	64,498	55,990	(102,002)
Interest and Fiscal Charges	111,058	127,320	111,058	127,320
Total Expenses	<u>\$41,372,921</u>	<u>\$36,568,369</u>	<u>\$18,418,091</u>	<u>\$12,077,029</u>

Of the \$41,372,921 in total governmental activities expenses, \$22,954,830 or 55.48 percent was covered by direct charges to users of the services and intergovernmental grants. The majority of program revenues are grants, with the remaining portion consisting of fees and charges for services. These charges are for fees charged for real estate transfers, for the collection of property taxes throughout the County, for title fees and for court fees. Public Safety charges for services include items such as fees for boarding prisoners, patrolling subdivisions, and for special details. Health includes charges for services provided to clients of the Board of Developmental Disabilities. For Public Works, the County Engineer has fully funded their operations.

Additional revenues were provided to the governmental activities by the state and federal governments for operations and capital improvements.

Business-Type Activities

This year, net position increased by \$39,974 or 1.83 percent. For 2017, there was an increase in expenses, which was the result of increases in fringe benefits and contractual services expenses.

Financial Analysis of the County's Funds

Governmental Funds - The focus of the County's governmental funds is to provide information on near-term receipts, disbursements, and balances of spendable resources. Such information is useful in assessing the County's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a County's net resources available for spending at the end of the calendar year.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

As of the end of the current year, the County's governmental funds reported combined ending fund balances of \$37,328,799. Of this total, \$10,745,524 represents unassigned fund balance, which is available for appropriation at the government's discretion within certain legal constraints and purposes restrictions. The majority of the governmental fund balances are restricted in the governmental fund statements, mandated by the source of the resources such as the state or federal government or the local tax levy.

The General Fund is the primary operating fund of the County. At the end of 2017, the unassigned fund balance of the General Fund was \$10,750,658. Unassigned fund balance represents 66.78 percent of expenditures. This is one measurement of the General Fund's liquidity. The fund balance of the General Fund increased by \$3,077,043, with the primary reasons being increases in expenditures were still maintained below revenues during 2017.

The Auto, License and Gas Tax Fund balance decreased by \$411,187 which is due to a decrease in intergovernmental revenues. The Job and Family Services Fund balance decreased by \$247,420, which is the result of decreased intergovernmental revenues. The Board of Developmental Disabilities Fund balance increased by \$320,122 as revenues were higher than expenditures despite an increase in expenditures and a decrease in revenues.

Proprietary Fund - The County's significant proprietary fund is the Countywide Sewer Fund, which accounts for the providing of sewer services to several subdivisions. Net position of this proprietary fund at year end was \$1,396,815, of which \$141,663 was unrestricted, which is an increase of \$48,081 or 3.56 percent.

Budgetary Highlights - General Fund

By state statute, the Board of County Commissioners adopts the annual operating budget for the County. Essentially the budget is the County's appropriations, which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the Ohio Revised Code.

The County had several revisions to the original appropriations approved by the County Commissioners. Overall these changes resulted in an increase from the original appropriations of 4.45 percent or \$698,666, from \$15,706,191 to \$16,404,857, in the General Fund. The most significant increase occurred in the Legislative and Executive expenditure function. The County spent 95.37 percent of the amount appropriated in the General Fund during 2017.

The final budgeted revenues were \$16,185,557 representing no change from the original budgeted estimate. Actual revenues were \$1,943,397 more than the final budgeted amount.

Capital Assets and Debt Administration

Capital Assets

The County's net investment in capital assets for its governmental and business-type activities as of December 31, 2017 amounts to \$48,825,107. This net investment in capital assets includes land and improvements, buildings and improvements, improvements other than buildings, machinery and equipment, furniture and fixtures, vehicles, and infrastructure and less related debt. For more information regarding the County's capital assets, see Note 8 of the notes to the basic financial statements.

Pickaway County, Ohio

For the Year Ended December 31, 2017
Unaudited

Debt

Outstanding special assessment bonds at December 31, 2017, totaled \$25,000 with \$11,000 being retired during the year. Special assessment bonds are backed by the full faith and credit of the County. In the event of payment default by the property owners, the County would be responsible for the debt service payments.

General obligation notes outstanding at December 31, 2017 were \$265,501 with \$364,891 being retired and \$85,000 being issued during the year. These notes relate to proceeds used to purchase equipment for the County Engineer and reconstruction of roads and sidewalks.

General obligation bonds at December 31, 2017 were \$1,700,615 with \$200,000 being retired during the year. These bonds relate to proceeds used to renovate all County buildings with improvements meant for energy savings.

Loans outstanding at December 31, 2017 were \$2,810,405 from the Ohio Public Works Commission, Ohio Water Development Authority, and local financial institutions with \$244,148 being retired and \$25,769 being issued during 2017. These loans relate to proceeds used to complete renovations of the Cromley Road Bridge Replacement Project and for drainage ditch construction.

The County continues to monitor its outstanding debt. Information relative to the County's debt is identified in Notes 9 and 10 of the notes to the basic financial statements.

Economic Factors

The economic outlook for the County continues to improve. The County's General Fund income increased in 2017 compared to 2016 revenues. Sales tax revenues are projected to continue to grow due to steady growth and the addition of new businesses locating in the County. Local government and casino revenues remained fairly constant in 2017 compared to 2016. They are expected to remain the same in 2018. Appropriations for 2018 are expected to slightly increase over the actual expenditures for 2017. The ending balance for 2018 is expected to be higher than it was at the end of 2017. These various economic factors were considered in the preparation of the County's 2017 budget and will be considered in the preparation of future budgets. With the slight increase in health insurance premiums and the small increase in salary and benefits, excluding union and bargaining employees and elected officials, the County took a conservative budget approach for the General Fund in 2017 by allowing only slight increases for department appropriations and other operating expenses.

Infrastructure

Progress continues to be made in local efforts to improve the transportation, utility, and community enhancement infrastructure needed to promote sustained economic growth in Pickaway County.

Southern Gateway Innovation Center – A \$500,000 appropriation was secured in the State of Ohio Capital Budget Bill to match the \$2.5 million federal grant that P3 helped Ohio Christian University secure for the construction of the Southern Gateway Innovation Center. This project presents an exciting opportunity to provide new resources for entrepreneurial support and small business development in Pickaway County. The Pickaway County Commissioners and the City of Circleville also pledged capital contributions to P3 for construction costs. Construction was completed in May of 2017.

Roundtown Trail – Construction of the Roundtown Trail began in the summer of 2016. This 7,200 foot paved recreational trail that will connect the campuses of Ohio Christian University and Circleville City Schools with the Pickaway County YMCA in Circleville. P3 secured over \$500,000 in grant monies for the construction of the trail that will improve pedestrian safety and provide new recreational opportunities for students, residents and visitors to the area.

Pickaway County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2017
Unaudited

The project was completed in 2017. A second phase of the trail is now being planned by local stakeholders.

Rickenbacker Sewer Trunk – The City of Columbus began construction on a new 60” diameter gravity sewer trunk line into Pickaway County. This new line will provide significant new capacity to accommodate development in the Rickenbacker area of northern Pickaway County.

Columbia Gas Pipeline – Columbia Gas of Ohio completed a new 12” diameter, 500 psi natural gas pipeline that runs approximately 12 miles from South Bloomfield to the manufacturing park in Pickaway Township. This new pipeline will serve the Sofidel project and provide a competitive advantage in our efforts to attract additional industrial development in the County.

Sofidel access roads – Two new public access roads, as well as improvements to Pittsburgh Rd and US 23 were completed in 2017. The roadwork was designed to provide safe ingress/egress for the Sofidel and Loves Travel Center projects. The new infrastructure also improved access to residual acreage we can now market for new development.

Business Retention & Expansion

P3 is committed to providing support for existing industry in Pickaway County. 2017 saw a continuation of the trend from previous years with new investment and job creation by the major employers in the County.

Health Care Logistics – Health Care Logistics completed an overhaul of their production and warehouse facility in Circleville. In addition to a new sales floor and office space, a new 58,000 square foot warehouse was constructed and 80 new full-time jobs will be added over the next three years.

InnoPak – InnoPak leased additional space in the new 486,000 square foot warehouse and logistics facility in the northern Pickaway County Rickenbacker Intermodal area. The food products packaging manufacturer will bring 40 new jobs to Pickaway County.

New Business Attraction

Collaborative planning and strategic investments in infrastructure and incentives have positioned Pickaway County to be the next growth frontier in the Columbus Region. P3 and its local government stakeholders are successfully competing and attracting new business investment in Pickaway County.

Sofidel – Sofidel, an Italian tissue paper products company, started construction on a new \$400 million capital investment in a 1.7 million square foot facility to be built in Pickaway Township. 310 new full-time jobs averaging \$19.67/hour will comprise Phase 1 of the project. A potential second phase of investment could add another \$300 million investment and 300 more jobs over the next six years.

Northpoint – Northpoint Development began construction of a new 140 acre logistics campus that will include three new facilities totaling ~2 million square feet. This “spec” development will add much needed space and enable us to compete for time sensitive projects in a very active market.

Production Plus – Production Plus has purchased the P3 Spec Building in Ashville. This company makes custom racks and hangers used in industrial powder coating applications. They currently employ 14 full-time employees and are poised for significant growth as a result of aggressive new ownership.

Pickaway County, Ohio
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2017*

All Other Governmental Funds	Total Governmental Funds		
		Net Change in Fund Balances - Total Governmental Funds	\$3,521,927
		<i>Amounts reported for governmental activities in the statement of activities are different because:</i>	
\$38,558	\$7,738,274	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period:	
905,130	9,625,227	Capital Asset Additions	4,529,212
146,255	146,255	Depreciation	<u>(2,069,897)</u>
108,878	108,878	Total	2,459,315
1,517,902	6,844,074	Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.	(6,411)
0	51,547	Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
211,572	318,885	Property Taxes	67,276
5,323,181	16,792,705	Sales Tax	840,033
7,785	474,543	Payments in Lieu of Taxes	14,250
1,147,989	1,147,989	Intergovernmental Revenue	503,729
0	81,305	Interest Revenue	<u>1,944</u>
490,029	1,296,624	Total	1,427,232
9,897,279	44,626,306	Repayment of principal of long-term liabilities (e.g. bonds, notes, leases) is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	670,687
		Other financing sources in the governmental funds that increase long- term liabilities in the statement of net position are not reported as revenues in the statement of activities:	
1,071,558	6,470,265	Inception of Capital Leases	(24,788)
379,644	2,483,179	Issuance of Loan	<u>(110,769)</u>
1,092,166	8,234,270	Total	(135,557)
2,484,885	8,641,911	In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	3,743
153,505	5,510,393	Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:	
2,884,866	7,583,753	Compensated Absences	(55,808)
0	395,641	Capital Leases Traded-In	<u>1,666</u>
496,500	496,500	Total	(54,142)
638,536	638,536	Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred inflows.	2,003,044
618,720	670,687	Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.	<u>(5,209,221)</u>
110,973	114,801	<i>Changes in Net Position of Governmental Activities</i>	<u><u>\$4,680,617</u></u>

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 1 - DESCRIPTION OF PICKAWAY COUNTY AND REPORTING ENTITY

Pickaway County, Ohio (the County), was created in 1810. The County is governed by a board of three Commissioners elected by the voters of the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the County Auditor, Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Sheriff, Probate Court Judge and a Common Pleas Court Judge. Although the elected officials manage the internal operations of their respective departments, the County Commissioners authorize expenditures as well as serve as the budget and taxing authority, contracting body and the chief administrators of public services for the entire County.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the County are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the County. For Pickaway County, this includes the Pickaway County Board of Developmental Disabilities, Pickaway County Child Support Enforcement Agency, Pickaway County Job and Family Services, Pickaway County Veteran Services and departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt or levying of taxes.

Discretely Presented Component Unit

The component unit column in the basic financial statements identifies the financial data of the County's component unit, Pickaway County Airport Authority. The Authority is reported separately to emphasize that it is legally separate from the County.

Pickaway County Airport Authority - Pickaway County Airport Authority (the Authority) operates on a fiscal year ending December 31. The five member Board for the Authority is appointed by the County Commissioners. The Commissioners also review the budget and have the ability to impose its will on the Authority. Pickaway County provides utilities and insurance for the Authority. During 2017, the County made no financial contributions either to or on behalf of the Authority. Financial information is included in the accompanying financial statements.

Pickaway County Land Reutilization Corporation

In November 2016, the County Commissioners approved the creation of the Pickaway County Land Reutilization Corporation. The County is still in the process of drafting the articles of incorporation for this entity. Therefore, the corporation had no activity in 2017.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 1 - DESCRIPTION OF PICKAWAY COUNTY AND REPORTING ENTITY *(Continued)*

The County is associated with certain organizations that are defined as jointly governed organizations or related organizations. These organizations are presented in Notes 20 and 21 to the basic financial statements. These organizations are:

- Berger Hospital
- Paint Valley Mental Health Alcohol and Drug Addiction Board
- Ross, Pickaway, Highland, Fayette Joint Solid Waste Management District
- County Risk Sharing Authority (CORSA)
- Southern Ohio Council of Governments
- Pickaway County Park District
- Pickaway County District Public Library

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County treasury. In the case of the districts listed below, the County serves as fiscal agent, but the districts are not fiscally dependent on the County. Accordingly, the activity of the following districts is presented as agency funds within the County's financial statements.

- Soil and Water Conservation District
- Pickaway County Health District
- Pickaway County Park District
- Ross, Pickaway, Highland, Fayette Joint Solid Waste District

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the County's accounting policies are described below.

A. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements - The Statement of Net Position and the Statement of Activities display information about the County as a whole. These statements include the financial activities of the primary government and component units, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

The Statement of Net Position presents the financial condition of the governmental and business-type activities and the component unit of the County at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for business-type activities and component units of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

General Fund - This fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Auto, License and Gas Tax Fund - This fund accounts for the County road and bridge maintenance, repair and improvement programs. Revenue sources include Federal and State grants, charges for services and license fees.

Job and Family Services Fund - This fund accounts for various Federal and State grants, as well as transfers from the General Fund that are used to provide public assistance to general relief recipients and to pay their providers of medical assistance and certain public social services.

Board of Developmental Disabilities Fund - This fund accounts for the operation of a school, workshop and resident homes for the developmentally disabled. Revenue sources include a County-wide property tax levy and Federal and State grants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Other governmental funds of the County account for grants and other resources whose use is restricted for a particular purpose, and funding sources used for debt service and capital projects.

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. The County has no internal service fund.

Countywide Sewer Fund - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The Countywide Sewer Fund accounts for sewer services provided to individual users in several subdivisions of the County.

The Countywide Water Fund accounts for water services provided to individual users in subdivisions of the County. The Sheriff web check fund accounts for criminal background check services completed by the Sheriff's office for area businesses and governments.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The County's fiduciary funds are a private-purpose trust fund and agency funds. The County's private-purpose trust fund is established to account for assets that are used by the Juvenile Court for the benefit of the children of the County. The County's agency funds account for assets held for political subdivisions in which the County acts as fiscal agent and for taxes, state-levied shared revenues, and fines and forfeitures that have been collected and which will be distributed to other political subdivisions.

C. Measurement Focus

Government-Wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows and all liabilities and deferred inflows associated with the operation of the County are included on the Statement of Net Position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities and deferred inflows generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets, all liabilities and certain deferred inflows and outflows of resources associated with the operation of these funds are included on the Statement of Fund Net Position. The Statement of Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

The private-purpose trust fund is reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 12). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, revenue sources considered to be both measurable and available at year-end include delinquent property taxes, sales taxes, charges for services and fees, fines and forfeitures, state- levied locally shared taxes (including motor vehicle license fees and gasoline taxes), and grants.

Deferred Outflows and Deferred Inflows of Resources - In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources are reported on the government-wide Statement of Net Position and include pension expense. A deferral for pension results from changes in Net Pension Liability not recognized as a component of current year pension expense. This amount is deferred and amortized over various periods as instructed by the pension plan administrators. Deferred outflows of resources related to pensions are explained further in Note 16.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

In addition to liabilities, the Statement of Net Position and Balance Sheet will sometimes report a separate section for deferred inflows of resources. The County reports a deferred inflow of resources which represents an acquisition of net position or fund balance that applies to a future period and will not be recognized as an inflow of resources (revenues) until that time. For the County these amounts consist of intergovernmental receivables, delinquent property taxes receivable which are not collected in the available period and pension. Property taxes for which there is an enforceable legal claim as of December 31, 2017, but which were levied to finance fiscal year 2018 operations, have been recorded as deferred inflows of resources. The difference between deferred inflows on the Statement of Net Position and the Balance Sheet is due to delinquent property taxes receivable and grants and entitlements not received during the available period. These were reported as revenues on the Statement of Activities and not recorded as deferred inflows on the Statement of Net Position. Additionally, deferred inflows related to pensions are reported in the government-wide Statement of Net Position. Deferred inflows related to pensions result from changes in Net Pension Liability not recognized as a component of current year pension expense. Deferred inflows of resources related to pension are explained further in Note 16.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

All funds, except Jail Commissary (non-major special revenue), Law Enforcement - Prosecutor (non-major special revenue) and fiduciary funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The level of control has been established by County Commissioners at the object level within each department. Advances between funds are not required to be budgeted.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts when the original certificate of estimated resources was adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during 2017. The County does not include advances between funds in the certificate of estimated resources.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the County Commissioners during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

F. Cash, Cash Equivalents, and Investments

To improve cash management, cash and investments received by the County is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the County's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents".

Cash and cash equivalents that are held separately with the departments of the County, and not included in the County Treasury, are recorded as "cash and cash equivalents in segregated accounts".

During 2017, investments were limited to STAR Ohio, U.S. Government Agency Securities, U.S. Treasury obligations, certificates of deposits, commercial paper, and other interest bearing accounts with local commercial banks.

Investments are reported at fair value, except for nonnegotiable certificates of deposit which are reported at cost. Fair value is based on quoted market prices. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The County measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

Under existing Ohio statutes, all investment earnings are assigned to the General Fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the General Fund during 2017 amounted to \$447,416 which includes \$441,502 assigned from other County funds.

G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental funds when used.

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2017, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

I. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide Statement of Net Position and in the fund.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art or similar items, and capital assets received in a service concession arrangement are reported at acquisition value. The County maintains a capitalization threshold of five thousand dollars. The County's infrastructure consists of roads, bridges, culverts and sanitary sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of enterprise fund capital assets is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings	40-150 years	N/A
Improvements Other Than Buildings	40-150 years	N/A
Machinery and Equipment	3-25 years	N/A
Furniture and Fixtures	10-30 years	N/A
Vehicles	3-15 years	N/A
Plant and Facilities	N/A	40-150 years
Infrastructure	10-60 years	70 years

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balance. As of December 31, 2017, there were \$45,151 internal balances reported on the Statement of Net Position.

K. Compensated Absences

The County reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences" as interpreted by Interpretation No. 6 of the GASB, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements."

Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those employees for whom it is probable will become eligible to receive payment in the future. The County has determined that employees with the County for ten or more years are probable to receive payment in the future. The liability is based on accumulated sick leave and employees' wage rates at year end.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable", in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. In enterprise funds, the entire amount of compensated absences is reported as a fund liability. The County reported no matured compensated absences payable as of December 31, 2017.

L. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and addition to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported on the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability on the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term notes are recognized as a liability in the governmental fund financial statements when due.

N. Fund Balance

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. Fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent because they are either not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because either (a) constraints imposed by law through constitutional provisions, charter requirements or enabling legislation; or (b) constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Committed – amounts that can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the County Commissioners remove the specified use by taking the same type of action as when imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Assigned – amounts constrained by the County’s “intent” to be used for specific purposes, but are neither restricted nor committed. The County Commissioners have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned – this is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the County considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Commissioners have provided otherwise in their commitment or assignment actions.

O. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The County’s policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water and sewer services and charges for background checks. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

Q. Interfund Transactions

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the County and that are either unusual in nature or infrequent in occurrence. During 2017, the County reported neither type of transaction.

S. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the County is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budget basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The statement of revenues, expenditures and changes in fund balance - budget and actual (budget basis) is presented for the General Fund and major special revenue funds on the budget basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and modified accrual GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a restriction, commitment or assignment of fund balance.
4. Proceeds from and principal payments on short-term note obligations are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
5. Funds added to the General Fund to comply with GASB 54.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING *(Continued)*

The following table summarizes the adjustments necessary to reconcile the GAAP and budget basis statements for the General Fund and major special revenue funds:

Net Change in Fund Balances (Deficits)/Excess of Revenues and Other Sources Over (Under) Expenditures and Other Uses				
	General	Auto, License and Gas Tax	Job and Family Services	Board of Developmental Disabilities
GAAP Basis	\$3,077,043	(\$411,187)	(\$247,420)	\$320,122
Adjustments:				
Net Adjustment for Revenue Accruals	(115,650)	879,325	44,570	(330,066)
Net Adjustment for Expenditure Accruals	12,456	(619,191)	86,256	2,228,372
Net Adjustment for Other Sources (Uses)	42,225	0	(24,788)	(7,400,000)
Perspective Difference:				
Activity of Funds Reclassified For GAAP Reporting Purposes	(1,114,527)	0	0	0
Budget Basis	\$1,901,547	(\$151,053)	(\$141,382)	(\$5,181,572)

NOTE 4 – NEW GASB PRONOUNCEMENTS AND PRIOR PERIOD ADJUSTMENT

New Pronouncements

For fiscal year 2017, the County implemented GASB Statement No. 74, “Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans”, GASB Statement No. 80, “Blending Requirements for Certain Component Units”, GASB Statement No. 81, “Irrevocable Split-Interest Agreements,” and GASB Statement No. 82, “Pension Issues. The implementation of GASB Statements No. 74, 80, 81 and 82 had no effect on the prior period net position or fund balances of the County.

Prior Period Adjustment

For fiscal year 2017, the County has reported prior period adjustments to reclassify the Medicaid Risk Fund from Other Governmental Funds and combine it with the Board of Developmental Disabilities Fund and to account for previously unreported construction in progress. The County believes combining these funds is a better presentation according to GAAP. The Medicaid Risk Fund was previously established by the Board of Developmental Disabilities to set aside excess monies to subsidize future losses from decreases in Medicaid reimbursements.

The restatement to the December 31, 2016, fund balance for the County follows:

	Board of Developmental Disabilities	All Other Governmental Funds	Governmental Activities
Fund Balance, December 31, 2016	\$17,521,191	\$5,516,569	\$64,086,713
Reclassification of Fund	230,000	(230,000)	3,389,396
Restated fund balance, January 1, 2017	\$17,751,191	\$5,286,569	\$67,476,109

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 4 – NEW GASB PRONOUNCEMENTS AND PRIOR PERIOD ADJUSTMENT - (Continued)

Prior Period Adjustment – Budget and Actual Statement

For fiscal year 2017, the County has reported a prior period adjustment on the Statement of Revenues, Expenditures and Changes in Fund Balance Budget and Actual Board of Developmental Disabilities Fund. The County previously combined all Board of Developmental Disabilities Funds on this statement.

The restatement to the December 31, 2016, cash fund balance for the County follows:

	Board of Developmental Disabilities
Cash Fund Balance, December 31, 2016	\$17,582,066
Reclassification of Fund	(3,847,682)
Restated Cash Fund balance, January 1, 2017	\$13,734,384

Prior Period Adjustment- Component Unit

For fiscal year 2017, the Authority has presented a prior period adjustment to account for a fence at the airport and some equipment that had not been recorded in the past.

The restatement to the December 31, 2016, net cash position for the Authority follows:

Net Cash Position, December 31, 2016	\$1,914,515
Capital Assets	56,569
Restated Net Position, January 1, 2017	\$1,971,084

NOTE 5 - CASH, DEPOSITS AND INVESTMENTS

Monies held in the County Treasury are pooled for the purpose of investment management. The County is authorized to invest in those instruments identified in section 135.35 of the Ohio Revised Code. Specifically, these authorized instruments consist of:

1. United States treasury notes, bills, bonds or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States, or any book entry, zero-coupon security that is a direct obligation of the United States.
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 5 - CASH, DEPOSITS AND INVESTMENTS - (Continued)

3. Written repurchase agreements in the securities listed above provide that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to fair value daily, and that the term of the agreement must not exceed thirty days.
4. Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County.
5. Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts.
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investment in securities described in this division are made only through eligible institutions.
7. The State Treasurer's investment pool (STAROhio).
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in division (1) or (2) or cash or both securities and cash, equal value for equal value.
9. Up to 40 percent of the County's total average portfolio in either (a) high grade commercial paper when the aggregate value of the notes does not exceed 10 percent of the aggregate value of the outstanding commercial paper of the issuing corporation, and the notes mature no later than 270 days after purchase or (b) bankers acceptances of banks insured by the FDIC when the obligations are eligible for purchase by the Federal Reserve System and mature no later than 180 days after purchase.
10. Up to 15 percent of the County's total average portfolio in high grade notes issued by the U.S. corporations, and the notes mature no later than two years after purchase.
11. High grade debt interests issued by foreign nations diplomatically recognized by the U.S. government. All interest and principal shall be denominated and payable in U.S. Funds. In the aggregate, this investment shall not exceed 1 percent of the County's total average portfolio and shall mature no later than five years after purchase.

Investments in stripped principal or interest obligations, except for federally issued or federally guaranteed stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that will be held to maturity. Investments may only be made through specific dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 5 - CASH, DEPOSITS AND INVESTMENTS - (Continued)

The amounts available for deposit and investment are as follows:

Cash and Cash Equivalents: (carrying amounts)	
-Pooled	\$39,528,725
-Segregated	803,304
-Component Unit	229,698
Reconciling items (net) to arrive at bank balances	<u>687,624</u>
Total available for deposits and investments (Bank balance of deposit/carrying amount of investments)	<u><u>\$41,249,351</u></u>

The following information is presented in accordance with GASB Statement No. 40, "Deposit and Investment Risk Disclosures." Additional disclosures for the component units are presented below in Note 5.

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the County's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the County.

As of December 31, 2017, the carrying amount of all County deposits was \$9,619,497. Based on the criteria described in GASB Statement No. 40, \$8,769,772 of the County's bank balance of \$10,307,121 was exposed to custodial risk as discussed above while \$1,537,349 was covered by FDIC. The \$8,769,772 exposed to custodial risk was uninsured, and collateral was held by pledging banks trust department but not in the County's name.

Custodial Credit Risk –

The County has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by:

Eligible securities pledged to the County and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 % of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

Three of the County's four financial institutions are enrolled in the OPCS; however, at December 31, 2017, the fourth financial institution still maintained its own collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least 105% of the deposits being secured.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 5 - CASH, DEPOSITS AND INVESTMENTS - (Continued)

Investments

As of December 31, 2017 the County had the following investments and maturities:

Investment Type	Fair Value	Investment In Maturities in Years		
		Less Than One Year	1-2 Years	3-5 Years
U.S. Treasury Obligations	\$2,224,002	\$0	\$491,270	\$1,732,732
U.S. Government Agency Securities	18,944,847	3,743,200	3,483,804	11,717,843
Commercial Paper	2,965,447	2,965,447	0	0
STAROhio	6,578,236	6,578,236	0	0
Total Investments	<u>\$30,712,532</u>	<u>\$13,286,883</u>	<u>\$3,975,074</u>	<u>\$13,450,575</u>

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the County limits investment portfolio matures to five years or less.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County limits its investments to those authorized by State statute. Standard and Poor's has assigned a rating of "AAAm" to STAROhio and "AA+" to U.S. Government Agency Securities and U.S. Treasury Obligations.

Custodial Credit Risk - For investments, custodial credit risk is the risk that, in event of the failure of the counter party, the County will not be able to recover the value of its investments or collateral securities in the possession of an outside party. The County's policy provides that investments be held in the County's name. All of the County's investments are held in the County's name.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's policy minimizes concentration of credit risk by diversifying assets by issuer as necessary. The County's investments in U.S. Government Agency Securities, U.S. Treasury Obligations, Commercial Paper and the STAROhio account were 61.7%, 7.2%, 9.7% and 21.4%, respectively, of the County's total investments.

The County has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the County's recurring fair value measurements as of December 31, 2017.

All of the County's investments are valued using pricing sources as provided by the investments managers (Level 2 inputs).

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 5 - CASH, DEPOSITS AND INVESTMENTS - (Continued)

Component Unit

Deposits and Investments

Cash and cash equivalents held by Pickaway County Airport Authority are classified as “cash and cash equivalents.”

At year end, the carrying amount of the Pickaway County Airport Authority deposits was \$229,698 and the bank balance was \$229,698. The \$229,698 bank balance was covered by federal depository insurance.

NOTE 6 - INTERFUND TRANSACTIONS

Interfund balances at December 31, 2017, consist of the following receivables and payables:

	Interfund Receivables	Interfund Payables
General	\$172,990	\$3,671
Auto, License and Gas Tax	2,890	0
Countywide Sewer	0	20,474
Nonmajor Special Revenue Funds	781	127,839
Nonmajor Enterprise Funds	0	24,677
Totals	\$176,661	\$176,661

All balances are scheduled to be collected in the subsequent year. All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

A summary of interfund transfers for 2017 were as follows:

	Transfers In	Transfers Out
General	\$0	\$650,738
Auto, License and Gas Tax	0	166,705
Nonmajor Other Governmental Funds	817,443	0
Totals	\$817,443	\$817,443

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 7 - RECEIVABLES

Receivables at December 31, 2017 consisted of property taxes, loans receivable, and payment in lieu of taxes receivable, sales taxes, accounts (billings for user charged services), interest, special assessments and intergovernmental grants. All receivables are considered fully collectible.

A summary of the principal items of intergovernmental receivable follows:

Governmental Activities	
<i>General Fund:</i>	
Local Government Distributions	\$422,968
State Property Tax Reimbursements	179,377
Total General Fund	602,345
<i>Auto, License and Gas Tax Fund:</i>	
Motor Vehicle License Tax	632,201
Gasoline Tax	1,264,388
Total Auto, License and Gas Tax Fund	1,896,589
<i>Job and Family Services Fund:</i>	
State and Federal Funding	452,114
<i>Board of Developmental Disabilities Fund:</i>	
State Property Tax Reimbursements	210,889
Grants	17,831
Total Board of Developmental Disabilities Fund	228,720
<i>Non Major Special Revenue Funds:</i>	
Motor Vehicle Permissive Tax	314,008
Road and Bridge	2,613
Child Support Enforcement Agency	306,064
Probate	18
Probate Computer	728
Special Marriage License	306
Juvenile Computer	336
Youth Services Subsidy Grant	86,992
VOCA Grant	12,776
Crime Victims Assistance	102,192
Emergency Management	9,425
HUD Grants	72,010
Law Library	9,088
COPS Grant	9,943
Workforce Development	76,237
SPL Grant	6,807
Community Correction Grant	245,800
TCAP Grant	368,948
Total Non Major Special Revenue Funds	1,624,291
<i>Non Major Capital Projects Fund:</i>	
Capital Improvement	6,567
Total Intergovernmental Receivable	\$4,810,626

The 2012 Tax Increment Financing (TIF) Note was issued for \$1,000,000 with a 1.50% interest rate. This note was issued to construct the extension of Crites Road and create a new road called Progress Parkway. This note was repaid in full in 2017 from the Tax Increment Financing Debt Service Fund.

The Engineer's Note Hydraulic Excavator was issued in 2013 for \$132,000 with a 3.00% interest rate. This note was issued for the purchase of a Hydraulic Excavator. This note was repaid in full in 2017 by the Engineer's Note Debt Service Fund.

The Engineer's Note Dump Trucks was issued in 2014 for \$497,834 with a 2.70% interest rate. This note was issued for the purchase of three Dump Trucks with snow plows. This note will be paid by the Engineer's Note Debt Service Fund.

The 2001 Gradall Note was issued in 2017 for \$85,000 with a 2.69% interest rate. This note was issued for the purchase of a Gradall. This note will be paid by the Auto, License and Gas Tax Special Revenue Fund.

The Energy Saving Renovation Bonds were issued in 2010 for \$2,995,615 with a 3.920% interest rate. These bonds are issued for renovations of all County buildings for energy savings. These bonds will be repaid through the Energy Savings Debt Service Fund.

The Ohio Public Works Commission (OPWC) Loan is related to the Cromley Road Bridge Replacement Project. The loan will be paid in bi-annual installments of \$6,402, over 20 years. The debt is to be repaid from the Auto, License and Gas Tax Fund. This loan is to be a zero percentage interest rate for the life of the loan. This loan was issued in 2010 for \$256,088.

The Clark's Run Ditch Loan was issued in 2012 for \$176,226 with a 2.50% interest rate. This note was issued for the Clark's Run Ditch Project. This note will be paid by the Clark's Run Ditch Debt Service Fund.

The Pence Tile Ditch Improvement Project was issued in 2012 for \$30,984 with a 2.50% interest rate. This note was issued for the Pence Tile Ditch Improvement Project. This note will be paid by the Pence Tile Ditch Debt Service Fund.

The DS Drainage Construction Loan was issued in 2017 for \$25,769 with a 2.69% interest rate. This note was issued to pay for upfront costs for improvements to drainage ditches that were subsequently charged to residents. This note will be paid by the DS Drainage Debt Service Fund.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 9 - LONG-TERM OBLIGATIONS (Continued)

The Northwood Park Sanitary Sewer Improvement Bonds were issued in 1999 for \$157,160 with a 6.00% interest rate. The Northwood Park Sanitary Sewer Improvement Bonds were issued to finance improvements to the sewer system for the Northwood Park subdivision. These bonds will be repaid through the collection of special assessments on the benefitting property owners in the debt service funds. The County is obligated to the extent of the remaining balance, if the property owners were to default.

The Orient Water Tower note was issued in 2014 for \$74,984 with a 4.00% interest rate. This note was issued to repair the water tower near the Village of Orient. This note will be repaid from the Orient Water Enterprise Fund.

The compensated absences liability and pension obligations will be paid from the fund from which the employees are paid. The capital leases will be repaid through the General Fund, Job and Family Service Fund and other nonmajor special revenue funds. The amount of principal payments on the capital leases paid in 2017 amounted to \$41,821. The County also received credit on the trade-in of a leased asset in the amount of \$1,666.

The following is a summary of the County's future principal and interest requirements for governmental long-term obligations, including \$420,690 of interest:

For the Year Ended December 31	Engineer's Note Dump Trucks		DS Drainage Construction Loan		2001 Gradall Loan

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

The following is a summary of the County's future principal and interest requirements for business-type long-term obligations, including \$7,818 of interest:

For the Year Ended December 31,	Orient Water Tower	
	Principal	Interest
2018	\$6,661	\$1,988
2019	6,933	1,716
2020	7,211	1,438
2021	7,509	1,140
2022	7,815	834
2023-2025	16,596	702
Totals	\$52,725	\$7,818

In April 2008, Pickaway County signed a guarantee for a \$500,000 loan through the Rural Industrial Park Loan Program offered through the Ohio Department of Development. The loan is the primary responsibility of Pickaway Progress Partnership or P³, the area's community improvement corporation. However in the event that P³ would default on the loan, the Ohio Department of Development would first try to sell the property and building. If a sale does not occur, the loan would then be the responsibility of the Village of Ashville and Pickaway County. The Village of Ashville would be obligated to a maximum of \$20,000 annually and the remainder would be the responsibility of Pickaway County. The loan was fully repaid in May 2017, therefore there is no outstanding balance.

NOTE 10 - LOANS PAYABLE

The County's loan transactions for the year ending December 31, 2017, were as follows:

Purpose	Balance January 1, 2017	Additions	Deletions	Balance December 31, 2017	Amount Due Within One Year

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 10 - LOANS PAYABLE - (Continued)

The first Ohio Public Works Commission (OPWC) Loan is related to improvements to the Darby Township Sanitary Sewer System. The loan will be paid in bi-annual installments of \$10,000, over 20 years. The debt is to be repaid by user charges to consumers that use the system. This loan is to be a zero percentage interest rate for the life of the loan. This loan was issued in 2005 for \$400,000.

The second Ohio Public Works Commission (OPWC) Loan is related to the Derby Area Sanitary Sewer Project. The OPWC has granted a loan in the amount of \$400,000 for this project. The loan is to be repaid in bi-annual installments of \$4,128 effective January 1, 2014 over 30 years with the final installment payable on July 1, 2043. The debt is repaid by user charges to consumers that use the system. The County must set rates in an amount that guarantees repayment of the debt.

The third Ohio Public Works Commission (OPWC) Loan is related to the County takeover of the Village of Orient water in 2014. The loan will be paid in bi-annual installments of \$5,314, over 20 years. The debt is to be repaid by user charges to consumers that use the system. This loan is to be a zero percentage interest rate for the life of the loan. This loan was issued in 2006 to the Village of Orient for \$212,560 and was assumed by the County in 2014.

The first Ohio Water Development Authority (OWDA) Loan is related to improvements to the Darby Township Sanitary Sewer System. The OWDA has granted an original loan amount of \$1,624,478 and a supplementary loan amount of \$487,248, for a maximum loan amount of \$2,111,726 for this project. The loan will be repaid in semi-annual installments of \$52,793 effective July 1, 2007, over 20 years for the original loan amount with the final installment payable on January 1, 2027. The debt is repaid by user charges to consumers that use the system. The County must set rates in an amount that guarantees repayment of the debt.

The second Ohio Water Development Authority (OWDA) Loan is related to the Derby Area Sanitary Sewer. The OWDA has granted a loan in the amount of \$1,352,366 for this project. The loan will be repaid in semi-annual installments of \$26,578 effective July 1, 2016, over 30 years for the original loan amount with the final installment payable on January 1, 2045. The debt is repaid by user charges to consumers that use the system. The County must set rates in an amount that guarantees repayment of the debt.

In connection with the OWDA and OPWC loans, the County has pledged future customer revenues of the Sewer Fund net of specified operating expenses, to repay these loans. The loans are payable, through final maturities, from net revenues applicable to the Sewer Fund. Total principal and interest remaining on these loans at December 31, 2017 was \$2,555,832 and \$180,166, respectively. The net revenue available for these loans was \$125,157 and principal and interest paid was \$186,997. The coverage ratio for the loans was 0.67 for the year ended December 31, 2017.

In connection with the OPWC loans, the County has pledged future customer revenues of the Water Fund net of specified operating expenses, to repay these loans. The loans are payable, through final maturities, from net revenues applicable to the Water Fund. Total principal remaining on these loans at December 31, 2017 was \$79,710. The net revenue available for these loans was \$12,912 and principal paid was \$10,628. The coverage ratio for the loans was 1.21 for the year ended December 31, 2017.

The effects of the debt limitations at December 31, 2017, were an overall legal debt margin of \$32,005,471 and an unvoted legal debt margin of \$12,231,654.

NOTE 11 - CAPITALIZED LEASES - LESSEE DISCLOSURE

The County has entered into agreements to lease equipment and other assets. Such agreements are, in substance, lease purchases and are reflected as capital lease obligations in the basic financial statements. New leases are, in substance, capital purchases and are recorded as current expenditures and proceeds from capital leases on the fund financial statements. The capital lease obligations reflected above as part of the long-term obligations represent the present value of the net future minimum lease payments on all capital leases.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 11 - CAPITALIZED LEASES - LESSEE DISCLOSURE - (Continued)

The following is a schedule of the future minimum lease payments under lease obligations which have been capitalized as of December 31, 2017.

For the Year Ended December 31,	Capital Lease Obligations
2018	\$44,208
2019	13,780
2020	6,459
2021	5,193
2022	1,239
Total Minimum Lease Payments	70,879
Less: Amount Representing Interest	2,509
Present Value of Minimum Lease Payments	\$68,370

NOTE 12 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility personal property located in the County. Taxes collected on real property (other than public utility) in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revalued every six years. The last revaluation was completed in 2017. Real property taxes are payable annually or semiannually. The first payment is due February 15, with the remainder payable by July 18.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property currently is assessed at varying percentage of true value; public utility real property is assessed at 35 percent of true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property tax on behalf of all taxing districts within the County. The County Auditor periodically remits to itself its share of the taxes collected. The County records receipt of these taxes in various funds.

Accrued property taxes receivable represents delinquent taxes outstanding and real and public utility taxes that were measurable and unpaid as of December 31, 2017. Although total property tax collections for the next fiscal year are measurable, amounts to be received during the available period are not subject to reasonable estimation at December 31 and are not intended to finance 2017 operations. The receivable is therefore offset by a credit to deferred inflows.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 12 - PROPERTY TAXES - (Continued)

The full tax rate for all County operations for the year ended December 31, 2017, was \$3 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2017 property tax receipts were based are as follows:

Category	Assessed Value
<i>Real Estate:</i>	
Agriculture	\$360,208,970
Residential	726,651,860
Commercial	94,783,960
Industrial	24,424,930
Minerals	859,290
Public Utilities	19,417,540
<i>Personal Property:</i>	
Public Utilities	159,148,320
Total Assessed Values	\$1,385,494,870

NOTE 13 – TAX ABATEMENTS

A tax abatement is defined as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forego tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the County or the citizens of the County. The County has entered into such agreements. A description of the County’s abatement programs where the County has promised to forego taxes follows:

Community Reinvestment Area (CRA) Program

The Ohio Community Reinvestment Area program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. Community Reinvestment Areas (CRA) are areas of land in which property owners can receive tax incentives for investing in real property improvements. In order to use the Community Reinvestment program, a city, village, or county petitions to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing has traditionally been discouraged. Once the area is confirmed by the Directory of ODSA, communities may offer real property tax exemptions to taxpayers that invest in that area.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 13 – TAX ABATEMENTS - (Continued)

The County determines the type of development to support by specifying the eligibility of residential, commercial and/or industrial projects. The County negotiates property tax exemptions on new property tax from investment for up to one hundred percent (100%) for up to fifteen years based on the amount of investments made to renovate or construct buildings within a CRA. Taxes are abated as the increase in assessed value resulting from the investment is not included (or included at a lesser amount) in the assessed value used for property tax computation for the taxpayer. For commercial projects, job retention and/or creation is also required. Agreements must be in place before the project begins. Provisions for recapturing property tax exemptions, which can be used at the discretion of the County, are pursuant to ORC Section 9.66(C)(1) and 9.66(C)(2).

Enterprise Zone Program

The Ohio Enterprise Zone Program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investment. The Enterprise Zone Program can provide tax exemptions for a portion of the value of new real property investment when the investment is made in conjunction with a project that includes job creation. Existing land values and existing building values are not eligible. The zone’s geographic area is identified by the local communities involved in the creation of the zone. Once a zone is defined, the local legislative authority participating in the creation must petition the Director of ODSA. The Director must then certify the area for it to become an active Enterprise Zone. Local communities may offer tax incentives for non-retail projects that are establishing or expanding operations in the State of Ohio. Tax incentives are negotiated at the local level, and an enterprise zone agreement must be in place before the project begins.

There are 3 Enterprise Zones in the County. Business located in an Enterprise Zone may negotiate exemptions on new property tax from investment for up to seventy-five percent (75%) for 10 years. For commercial projects, job retention and/or creation is also required. Taxes are abated as the increase in assessed value resulting from the investment is not included (or included at a lesser amount) in the assessed value used for property tax computation for the taxpayer. Agreements must be in place before the project begins. Pursuant to the terms of such agreements, if the actual number of employee positions created or retained by the business in any three-year period during which the agreement is in effect is not equal to or greater than 75 percent of the number of employee positions estimated to be created or retained under the agreement, the business shall repay the amount of taxes on property that would have been payable had the property not been exempted. In addition, the County may terminate or modify the exemptions from taxation granted under the agreement if the terms of the agreement are not met.

A summary of the taxes foregone on the County’s abatement programs for the year ended December 31, 2017 as follows:

Program	Tax Abated	Amount
Community Reinvestment Areas	Property Tax	\$202,736
Enterprise Zone Agreements	Property Tax	47,460

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 14 - PERMISSIVE SALES TAX

In 1988, in accordance with Sections 5739.02 and 5741.02 of the Revised Code, the County Commissioners, by resolution, imposed a 1 percent tax on all retail sales, except sales of motor vehicles, made in the County, and on the storage, use, or consumption in the County of tangible personal property, including automobiles. In December 2001, the County Commissioners, by resolution, imposed an additional one-half percent tax on all retail sales, except sales of motor vehicles, made in the County, and on the storage, use, or consumption in the County of tangible personal property, including automobiles. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. A warrant payable to the County is then drawn within five days. Proceeds of the tax were credited to the General Fund and Capital Project Fund. Amounts that have been collected by the State and are to be received within the available period are accrued as revenue. Sales and use tax revenue for 2017 amounted to \$10,465,260 in the statement of activities.

NOTE 15 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts, theft or damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During 2017, the County contracted with County Risk Sharing Authority (CORSA), a jointly governed organization, for liability, property, and crime insurance. The CORSA program has a \$2,500 deductible.

Coverage's provided by the program are as follows:

Property:

Buildings & Contents (\$100,000 annual aggregate pool limit for flood and earthquake)	\$95,493,722
--	--------------

Liability:

General Liability	\$1,000,000
Excess Liability	7,000,000
Law Enforcement	1,000,000
Automobile	1,000,000
Uninsured/Underinsured Motorist	250,000
Faithful Performance and Employee Bond	1,000,000
Boiler and Machinery (each accident)	100,000,000

Settlement amounts on claims have not exceeded insurance coverage in any of the past three years. There have been no significant reductions in insurance coverage from the prior year.

The County participates in the Workers' Compensation Program provided by the State of Ohio. During 2017, the County belonged to a pool with 63 other Ohio counties (County Commissioners Association of Ohio) for a workers' compensation group-rating program. The County joined this group plan to achieve lower workers' compensation rates.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 15 - RISK MANAGEMENT - (Continued)

The County purchases health, dental and vision insurances through the Franklin County Cooperative Health Benefits Program (FCCHBP). Insurance purchased through the FCCHBP is not considered limited risk health insurance. Workers' compensation benefits are provided through the State Bureau of Workers' Compensation. The County pays all elected officials' bonds by statute.

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS

Net Pension Liability

The net pension liability reported on the Statement of Net Position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the County's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the County's obligation for this liability to annually required payments. The County cannot control benefit terms or the manner in which pensions are financed; however, the County does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

A. Ohio Public Employees Retirement System (OPERS)

Plan Description - County employees, who are not certified teachers with the school for developmental disabilities, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. County employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS - (Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
<u>Age and Service Requirements:</u> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<u>Age and Service Requirements:</u> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<u>Age and Service Requirements:</u> Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
<u>Formula:</u> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<u>Formula:</u> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<u>Formula:</u> 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
Law Enforcement	Law Enforcement	Law Enforcement
<u>Age and Service Requirements:</u> Age 52 with 15 years of service credit	<u>Age and Service Requirements:</u> Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	<u>Age and Service Requirements:</u> Age 48 with 25 years of service credit or Age 56 with 15 years of service credit
<u>Formula:</u> 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	<u>Formula:</u> 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	<u>Formula:</u> 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.0% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.0%.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS - (Continued)

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	2017		2016	
	State and Local	Law Enforcement	State and Local	Public Safety
Statutory Maximum Contribution Rates				
Employer	14.0%	18.1%	14.0%	18.1%
Employee	10.0%	**	10.0%	**
Actual Contribution Rates				
Employer:				
Pension	13.0%	17.1%	12.0%	16.1%
Post-employment Health Care Benefits	1.0%	1.0%	2.0%	2.0%
Total Employer	14.0%	18.1%	14.0%	18.1%
Employee	10.0%	13.0%	10.0%	13.0%

* This rate is determined by OPERS' Board and has no maximum rate established by ORC.

** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2.0% greater than the Public Safety rate.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The County's contractually required pension contributions to OPERS were \$2,010,299 for 2017. Of this amount, \$123,319 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS
Proportion Share of the Net Pension Liability:	
Current Measurement Date	0.1083480%
Prior Measurement Date	0.1080430%
Change in Proportionate Share	0.0003050%
Proportionate Share of the Net Pension Liability	\$24,603,989
Pension Expense	\$5,313,846

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS - (Continued)

At December 31, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS
Deferred Outflows of Resources	
Differences between expected and actual experience	\$33,349
Change In Assumptions	3,902,489
Net difference between projected and actual earnings on pension plan investments	3,664,101
Changes in proportion and differences between County contributions and proportionate share of contributions	122,756
County contributions subsequent to the measurement date	2,010,299
Total Deferred Outflows of Resources	\$9,732,994
 Deferred Inflows of Resources	
Differences between expected and actual experience	\$146,431

\$2,010,299 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS
Year Ending December 31:	
2018	\$3,153,164
2019	3,225,128
2020	1,305,376
2021	(107,404)
Total	\$7,576,264

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2016, using the following actuarial assumptions, applied to all periods included in the measurement in accordance with the requirements of GASB 67.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS (Continued)

In 2016, the OPERS' actuarial consultants conducted an experience study for the period 2011 through 2015, comparing assumptions to actual results. The experience study incorporates both historical review and forward-looking projections to determine the appropriate set of assumptions to keep the plan on a path toward full funding. Information from the study led to changes in both demographic and economic assumptions, with the most notable being a reduction in the actuarially assumed rate of return from 8.0 percent down to 7.5 percent, for the defined benefits investment. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2016, compared with December 31, 2015, are presented below.

	December 31, 2016	December 31, 2015
Wage Inflation	3.25 percent	3.75 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation	4.25 to 10.05 percent including wage inflation
<i>COLA or Ad Hoc COLA:</i>		
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	3 percent, simple through 2018, then 2.15 percent, simple	3 percent, simple through 2018, then 2.08 percent, simple
Investment Rate of Return	7.5 percent	8 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age

For 2016, mortality rates are based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation period base of 2015 for males and 2010 for females.

Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

For 2015, mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2015. The prior experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS *(Continued)*

During 2016, OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The 401(h) Health Care Trust portfolio was closed as of June 30, 2016 and the net position transferred the 115 Health Care Trust portfolio on July 1, 2016. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, and the annuitized accounts of the Member-Directed Plan. The Defined Benefit portfolio historically included the assets of the Member-Directed retiree medical accounts funded through the VEBA Trust. However, the VEBA Trust was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money weighted rate of return expressing investment performance, net of investments expense and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 8.3 percent for 2016.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00%	2.75%
Domestic Equities	20.70%	6.34%
Real Estate	10.00%	4.75%
Private Equity	10.00%	8.97%
International Equities	18.30%	7.95%
Other investments	18.00%	4.92%
Total	100.00%	5.66%

Discount Rate

The discount rate used to measure the total pension liability for 2016 was 7.5 percent. The discount rate for 2015 was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.50%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.50%) or one-percentage-point higher (8.50%) than the current rate:

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS *(Continued)*

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
County's proportionate share of the net pension liability	\$37,588,088	\$24,603,989	\$13,784,033

B. State Teachers Retirement System (STRS)

Plan Description – County licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <http://www.strsoh.org>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation was 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5% of the 14.0% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5% of the 14.0% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan member contributions to the DC Plan are allocated among investment choices by the member, and contributions from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS *(Continued)*

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, 2015, and 2016 when it reached 14.0%. For the fiscal year ended June 30, 2017, plan members were required to contribute 14.0% of their annual covered salary. The County was required to contribute 14.0%; the entire 14.0% was the portion used to fund pension obligations. The fiscal year 2017 contribution rates were equal to the statutory maximum rates.

The County's contractually required pension contributions to STRS were \$11,539 for 2017. All of this amount has been contributed as of the end of the year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	OPERS
Proportion Share of the Net Pension Liability:	
Current Measurement Date	0.00071479%
Prior Measurement Date	0.00068972%
Change in Proportionate Share	0.00002507%
Proportionate Share of the Net Pension Liability	\$169,800
Pension Expense	(\$68,163)

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS (Continued)

At December 31, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	STRS
Deferred Outflows of Resources	
Differences between expected and actual experience	\$6,558
Changes of assumptions	37,137
Difference between County contributions and proportionate share of contributions	15,673
County contributions subsequent to the measurement date	5,852
Total Deferred Outflows of Resources	\$65,220
 Deferred Inflows of Resources	
Differences between expected and actual experience	\$1,369
Net Difference between projected and actual earnings on pension plan investments	5,605
Difference between County contributions and proportionate share of contributions	7,583
Total Deferred Outflows of Resources	\$14,557

\$5,852 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	STRS
Fiscal Year Ending June 30:	
2018	\$8,601
2019	16,223
2020	15,599
2021	4,388
Total	\$44,811

Actuarial Assumptions - STRS

The total pension liabilities in the June 30, 2017 and June 30, 2016 actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS (Continued)

	2017	2016
Inflation	2.50%	2.75%
Projected salary increases	12.50% at age 20 to 2.50% at age 65	12.25% at age 20 to 2.75% at age 70
Investment Rate of Return	7.45%, net of investment expenses	7.75%, net of investment expenses, including inflation
Cost-of-Living Adjustments (COLA)	0.00% effective July 1, 2017	2.00% simple applied as follows: for members retiring August 1, 2013, or later, 2.00% COLA paid on fifth anniversary of retirement date.

For 2017, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For 2016, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set-back four years, one year set-back from age 80 through 89, and not set-back from age 90 and above.

Actuarial assumptions used in the July 1, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016. Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
Domestic Equity	28.00%	7.35%
International Equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed Income	21.00%	3.00%
Real Estate	10.00%	6.00%
Liquidity Reserves	1.00%	2.25%
Total	100.00%	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent, and does not include investment expenses. Over a 30 year period, STRS Ohio's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 16 - DEFINED BENEFIT RETIREMENT PLANS *(Continued)*

Discount Rate

The discount rate used to measure the total pension liability was 7.45% as of June 30, 2017. The discount rate as of June 30, 2016 was 7.75%. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the County's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
County's proportionate share of the net pension liability	\$243,402	\$169,800	\$107,801

Assumption Changes Since Prior Measurement Date – The Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75% to 7.45%, the inflation assumption was lowered from 2.75% to 2.50%, the payroll growth assumption was lowered to 3.00%, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

NOTE 17 - POSTEMPLOYMENT BENEFITS

A. Ohio Public Employees Retirement System

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan. The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 17 - POSTEMPLOYMENT BENEFITS *(Continued)*

In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate all health care assets into the OPERS 115 Health Care Trust. Transition to the new health care trust structure was completed July 1, 2017. As of December 31, 2017, OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage. OPERS funds a Retiree Medical Account (RMA) for participants in the Member-Directed Plan. At retirement or refund, participants can be reimbursed for qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45. Please see the Plan Statement in the OPERS 2015 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml#CAFR>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2017, state and local employers contributed at a rate of 14.0% of earnable salary, and law enforcement employers contributed at 18.1%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0% during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0.0% for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2017 was 4.0%.

The County's contractually required postemployment health care contributions to OPERS for the years 2017, 2016, and 2015 were \$149,754, \$282,037 and \$271,353, respectively. Of these amounts, \$9,195, \$14,870 and \$14,608 were reported as an intergovernmental payable in years 2017, 2016 and 2015, respectively.

NOTE 17 - POSTEMPLOYMENT BENEFITS *(Continued)*

B. State Teachers Retirement System

Plan Description – The State Teachers Retirement System of Ohio (STRS Ohio) administers a pension plan that is comprised of a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is hybrid of the Defined Benefit Plan and the Defined Contribution Plan.

Ohio law authorized STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Ohio Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting the STRS Ohio web site at www.strsoh.org, or by requesting a copy by calling (888) 227-7877.

Funding Policy – Under Ohio law, funding for postemployment health care may be deducted from employer contributions. Of the 14% employer contribution rate, 0% of covered payroll was allocated to postemployment health care for the years ended June 30, 2017, 2016, and 2015. The 14% employer contribution rate is the maximum rate established under Ohio law.

The County's contractually required postemployment health care contributions to STRS Ohio for the years 2017, 2016 and 2015 were \$0, \$0 and \$0, respectively; 100% has been contributed for each of the three years.

NOTE 19 - ADDITIONAL DISCLOSURE FOR DISCRETELY PRESENTED COMPONENT UNIT

A. Measurement Focus and Basis of Accounting

Pickaway County Airport Authority uses fund accounting to report on their operations and uses the accrual basis of accounting.

B. Budgetary Basis of Accounting

Budgetary information for the discretely presented component unit is not presented because it is not included in the entity for which the "appropriated budget" is adopted and does not maintain separate budgetary financial records.

C. Capital Assets

Property and equipment for the component unit is stated at historical cost and is updated for the costs of additions and retirements during the year. Donated capital assets have been recorded at the acquisition value at the date of the gift.

The assets for Pickaway County Airport are depreciated on a straight line basis using the following estimated useful lives:

Category	Pickaway County Airport
Buildings and Improvements	30-40 years
Infrastructure	10-60 years

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

* Restated. See Note 4

NOTE 20 - JOINTLY GOVERNED ORGANIZATIONS

A. Berger Hospital

Berger Hospital is a jointly governed organization that provides diversified health care services to the community. The hospital is governed by a 9 member board: Pickaway County Commissioners appoint 4 members of the board, the City of Circleville appoints 4 members of the board and the final board member is the City of Circleville's Mayor. The Mayor is the President of the Board but does not have voting privileges unless there is a tie. The City of Circleville holds legal title to the Hospital. The degree of control exercised by the County is limited to its representation on the Board. Pickaway County does not have an ongoing financial interest in or an ongoing financial responsibility for the Hospital. During 2017, the County did not make any contributions to the Hospital. Complete financial statements can be obtained from the Berger Hospital, 600 N. Pickaway, Circleville, Ohio, 43113.

NOTE 20 - JOINTLY GOVERNED ORGANIZATIONS *(Continued)*

B. Paint Valley Mental Health Alcohol and Drug Addiction Board

The Paint Valley Mental Health Alcohol and Drug Addiction Board serves Pike, Fayette, Highland, Pickaway and Ross Counties and is a jointly governed organization that is responsible for developing, coordinating, modernizing, funding, monitoring and evaluating a community-based mental health and substance abuse program. The Board consists of eighteen members. The Director of the Ohio Department of Mental Health appoints four members and the Director of the Ohio Department of Alcohol and Drug Addiction Services appoints four members. The remaining members are appointed by the County Commissioners of Pike, Fayette, Highland, Pickaway, and Ross Counties in the same proportion as each County's population bears to the total population of the five counties combined. The Board receives revenue from the participating counties and receives federal and state funding through grant monies that are applied for and received by the Board of Trustees. Pickaway County cannot significantly influence operations of the Board, who has sole budgetary authority and controls surpluses and deficits. Pickaway County has no ongoing financial interest or responsibility. During 2017, Pickaway County did not make any contributions to the program.

C. Ross, Pickaway, Highland, Fayette Joint Solid Waste Management District

The County is a member of the Ross, Pickaway, Highland, Fayette Joint Solid Waste Management District, which is a jointly governed organization of the four-named counties. The purpose of the District is to make disposal of waste in the four-county area more comprehensive in terms of recycling, incinerating, and land filling. The District was created in 1989, as required by the Ohio Revised Code.

The Ross, Pickaway, Highland, Fayette Joint Solid Waste Management District is governed and operated through three groups. A twelve member board of directors, comprised of three commissioners from each county, is responsible for the District's financial matters. Financial records are maintained by the Pickaway County Auditor and Treasurer, and the Pickaway County Commissioners budget and finance the District with board approval. A twenty-nine member policy committee, comprised of seven members from each county and one at-large member appointed by the board of directors, is responsible for preparing the solid waste management plan of the District in conjunction with a twenty-three member Technical Advisory Council (members appointed by the policy committee). The District's sole revenue source is derived from a waste disposal fee for in-district and out-of-district waste. Although the counties contributed amounts to the District at the time of its creation, all contributions have since been returned to the respective counties and no future contributions by the counties are anticipated. Continued existence of the District is not dependent on the County's continued participation, no equity interest exists, and no debt is outstanding.

D. County Risk Sharing Authority (CORSA)

The County Risk Sharing Authority, Inc. (CORSA) is a jointly governed organization among sixty-five counties in Ohio. CORSA was formed as an Ohio non-profit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverages provided by CORSA. These coverages include comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 20 - JOINTLY GOVERNED ORGANIZATIONS *(Continued)*

Each member County has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of the certificates. The County does not have an equity interest in CORSA. The County's payment for insurance to CORSA in 2017 was \$223,443.

E. Southern Ohio Council of Governments

The County is a member of the Southern Ohio Council of Governments, which is a jointly governed organization created under the Ohio Revised Code Section 167.01. The governing body consists of a thirteen member board with each participating County represented by its Director of its Board of Developmental Disabilities. Member counties include: Adams, Athens, Brown, Fayette, Gallia, Highland, Jackson, Lawrence, Pickaway, Pike, Ross, Scioto and Vinton Counties. During 2017, the County contributed \$69,259 to this organization. Financial statements can be obtained from the Southern Ohio Council of Governments, 43 N. Paint St., Chillicothe, Ohio, 45601.

NOTE 21 - RELATED ORGANIZATIONS

A. Pickaway County Park District

The County's probate judge is responsible for appointing the members of the board of the Pickaway County Park District. The County is the fiscal agent for the Park District; therefore, the activities of the Park District are reflected as an agency fund of the County.

B. Pickaway County District Public Library

The Pickaway County District Public Library is statutorily created as a separate and distinct political subdivision of the State. Four trustees of the District Library are appointed by the County Commissioners, and three trustees are appointed by the judges of the Common Pleas Court. The board of trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the County for operational subsidies. Due process is required to remove board members. No subsidies are provided by the County.

NOTE 22 - CONTINGENT LIABILITIES

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

One claim and lawsuit is pending against the County. In the opinion of the County Prosecutor, any potential liability would not have a material effect on the County's financial condition.

Pickaway County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2017

NOTE 23 – SUBSEQUENT EVENTS

On February 28, 2018, the County issued \$2,000,000 in General Receipts Notes for renovations and improvements to the Job and Family Services building. The notes will be repaid over 10 years with annual interest of 3.00% over the life of the notes.

On August 2, 2018, the County issued \$3,000,000 in Sales Tax Revenue Bond Anticipation Notes for fairground improvements. These notes were issued with an interest rate of 3.125%.

On August 2, 2018, the County issued \$3,005,000 in Sales Tax Revenue Bond Anticipation Notes for fairground improvements. These notes were issued with an interest rate of 2.70%. The Pickaway County Treasurer purchased these notes.

Notes to the Required Supplementary Information
For the Year Ended December 31, 2017

Ohio Public Employees Retirement System

Changes in Assumptions: For fiscal year 2016, OPERS reported changes of assumptions which included a reduction in the discount rate from 8.00 percent to 7.50 percent, a decrease of wage inflation from 3.75 percent to 3.25 percent, a reduction in investment rate of return from 8.00 percent to 7.50 percent, a reduction of future salary increases, and an adjustment to assumed life expectancies as result of adopting the RP-2014 Health Annuitant Mortality Table for the purpose of developing mortality rates.

State Teachers Retirement System

Changes in Assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016. For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the COLA was reduced to zero, (b) inflation assumptions were lowered from 2.75% to 2.50%, (c) Investment return assumptions were lowered from 7.75% to 7.45%, (d) total salary increases rates were lowered by decreasing merit component of the individual salary increases, as well as by 0.25% due to lower inflation, (e) payroll growth assumptions were lowered to 3.00%, (f) updated the health and disability mortality assumption to the “RP-2014” mortality tables with generational improvement scale MP-2016 and (g) rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Pickaway County, Ohio
Notes to the Schedule of Federal Awards Expenditures
For the Year Ended December 31, 2017

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Federal Awards Expenditures (the Schedule) includes the federal award activity of Pickaway County (the County) under programs of the federal government for the fiscal year ended December 31, 2017. The information on this Schedule is prepared in accordance with the requirements for Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County passes certain federal awards received from Area 20/21 Workforce Investment Board and the Ohio Department of Job and Family Services to other governments or not-for-profit agencies (subrecipients). As Note B describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients, to help assure they use these subawards as authorized by law, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE D – COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS WITH REVOLVING LOAN CASH BALANCE

The federal loan programs listed subsequently are administered directly by the County, and balances and transactions relating to these programs are included in the County's basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The current cash balance on the County's local program income account as of December 31, 2017 is \$6,589.

NOTE E – MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

Pickaway County, Ohio
Notes to the Schedule of Federal Awards Expenditures
For the Year Ended December 31, 2017

NOTE H – TRANSFERS BETWEEN FEDERAL PROGRAMS

During fiscal year 2017, the County made allowable transfers of \$135,000 from the Social Services Block Grant (SSBG) (93.667) program to Temporary Assistance for Needy Families (TANF) (93.558) program. The Schedule shows the County spent approximately \$335,781 on the Social Services Block Grant program. The amount reported for the Social Services Block Grant program on the Schedule excludes the amount transferred to TANF program. The amount transferred to the TANF program is included as TANF expenditures when disbursed. The following table shows the gross amount drawn for the Social Services Block Grant program during fiscal year 2017 and the amount transferred to the Temporary Assistance for Needy Families program.

Social Services Block Grant	\$470,781
Transferred to Temporary Assistance for Needy Families	<u>(135,000)</u>
Total Social Services Block Grant	<u><u>\$335,781</u></u>

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

Board of Commissioners
Pickaway County
207 S. Court Street, Room 1
Circleville, Ohio 43113

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component unit and remaining fund information of Pickaway County, Ohio (the County) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 27, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2017-001 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2017-002 to be a significant deficiency.

Pickaway County, Ohio

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Responses to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance For Each Major Federal Program and on the Schedule of Expenditures of
Federal Awards Required by the Uniform Guidance**

Independent Auditor's Report

Board of Commissioners
Pickaway County
207 S. Court Street, Room 1
Circleville, Ohio 43113

Report on Compliance for Each Major Federal Program

We have audited Pickaway County's, Ohio (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2017. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2017.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Internal control over major federal program(s):	
Material weakness(es) identified?	No
Significant deficiency(ies) identified?	None reported
Type of auditor’s report issued on compliance for major federal programs:	Unmodified
Any auditing findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?	No
Identification of major federal program(s):	Highway Planning and Construction Cluster, CFDA #20.205, Temporary Assistance for Needy Families, CFDA #93.558, and Medical Assistance Program, CFDA #93.778
Dollar threshold used to distinguish between type A and type B programs:	Type A: >\$750,000 Type B: all others
Auditee qualified as low-risk auditee?	No

Section II – Financial Statement Findings

Finding 2017-001

Material Weakness – Financial Reporting

A monitoring system by the County should be in place to prevent or detect misstatements to help ensure the accurate presentation of the County’s financial statements. Errors were identified in the financial statements related to revenue and net position classifications, accruals, market value of investments, and capital asset additions. Certain errors were corrected in the financial statements to ensure the financial statements were not materially misstated. Other errors were immaterial to the financial statements and were not deemed necessary to correct. The County should implement additional monitoring procedures over the financial reporting process to ensure that financial information presented is fairly stated.

Client Response:

See accompanying corrective action plan.

Pickaway County
Schedule of Findings and Questioned Costs
For the Year Ended December 31, 2017

Finding 2017-002

Significant Deficiency – County Treasurer’s Bank Reconciliations

Sound financial reporting is required for the open and efficient operation of government. This reporting is accomplished through the development and implementation of controls and procedures to properly reconcile cash balances in the County's deposit and investment accounts, as well as cash on hand, with the County Auditor's balances each month. During testing we noted several reconciling items included in the bank reconciliations in which the Treasurer’s Office was unable to provide support. The lack of proper support for reconciling items can lead to errors in the posting of revenues and expenditures, conceal theft, and leave the County exposed to possible loss of funds. We recommend that the County Treasurer's Office properly reconcile the County fund balances with the County Auditor's Office fund balances and for both Offices to investigate any and all variances and correct any unreconciled differences prior to certification. Further, we recommend that the Treasurer's Office maintain adequate supporting documentation for all items on the monthly bank reconciliation.

Client Response:

See accompanying corrective action plan.

Section III – Federal Award Findings and Questioned Costs
--

None.
